You get the same heat from the same switch setting every time . . . electrically!

When you cook the flameless electric way, there's no guesswork . . . no need to turn the heat up and down, trying to find the right cooking temperature. An electric range gives you accurately measured heat on all four surface units and in the oven. You simply select the cooking heat you want and you get precisely the same heat from the same switch setting every time. You can leave the kitchen, knowing foods will cook properly without attention. And you can repeat recipes with confidence of the same perfect results every time. See your electric range dealer soon. Cook electrically . . . live better electrically!
