

# Heavy rains halt early wheat harvest

Thunderstorms which slowly drifted across the area late Tuesday afternoon dropped up to three inches of moisture around Flagg and Nazareth.

The heavy rains delayed the wheat harvest, which was just getting underway.

Three-inch rain reports came in from Flagg Grain Company in the southwestern edge of the county, and from Martha Schulte's residence, located three miles west of Nazareth.

In Flagg, J.R. Brown said the rain began about 5 p.m. Tuesday, and dropped three inches in a short period of time.

"The rain didn't last long at all. It was nearly all over in about an hour. What we had here was a flash flood," Brown said. "We had some small that did do considerable damage. There was damage to wheat and corn and some cotton in the area is going to have to be replanted."

KDHN, Dimmitt's official weather observer, reported just .04 of an inch for Tuesday. In Dimmitt, only sprinkles were reported, but just a few miles east of Dimmitt, reports of more than an inch were common.

Donald Wright reported 1.50 inches at his home six miles east of

Dimmitt. Along State Highway 86, water gushed down barditches and across the road in some spots.

Reports from Nazareth varied from 1.90 inches in the city to 1.50 inches to the north and .90 of an inch to the east.

The county's first load of wheat was delivered to Farmers Grain in Hart by Webb Farms of Dimmitt Monday, before the rains started. Jarrell Sewell, manager of the elevator, said Hart didn't receive but .20 of an inch of rain Tuesday, but he thought it would set wheat harvest back to next week.

Moisture content on the first load tested 15 1/2 to 16 while test weight was 57 1/2, and the tests on other loads delivered in Hart have been about the same, Sewell said.

Brown said some farmers in the Flagg area were ready to cut wheat before the rains began, and as soon as it dries up he expects the loads to begin coming in.

"None of the wheat looks very good around here. The aphids, mosaic and a few other things have really damaged it. It's just not going to be a very good wheat year," Brown said.

Eddie Matthews at Easter Grain said they didn't receive any rain Tuesday night, but 1.20 inches was recorded after Monday night's rain.

Matthews' view on this year's wheat crop is the same as Brown's—it's not good.

"We haven't received any wheat yet, but the crops look terrible. It'll be at least another week before we get our first load in, but I'm going to guess that 25 to 30 bushels per acre will be our top yields," Matthews said. "There's a spot here and there that looks fairly decent, but most of it looks terrible. This is one of the worst wheat years I've ever seen. The wheat just never seemed to respond after it was grazed this year. It never came out. I think insects and disease took their toll."

Carl Collyer, manager at Bruegel and Sons Elevators, said that Bruegel's two west elevators have received loads, but the rain has slowed things up.

"Our first load was brought in by Mike Blackburn. It's moisture content was 13 and test weight was 58 pounds," Collyer said. "I don't think the yield is as good as it's been in the past, but it's too early to tell."

### Computers to help 5-year-olds learn to read

If a child can say a word, he can write it; and if he can write it, he can read it.

That's the philosophy of "Writing to Read," a computer-assisted reading program for kindergarten students, developed by Dr. John Henry Martin.

Monday night, the Dimmitt Independent School District Trustees gave approval for implementing the program in Richardson Elementary for the 1988-89 school year, including a \$17,500 price tag for computers and software developed by IBM.

In the Writing to Read program, pupils are encouraged to write simple sentences or "stories" using their speaking vocabulary of 2,000 to 4,000 words. The words are written out phonetically after children spend the first months of school learning the alphabet and the sounds of letters.

RES Principal Les Miller and all of the kindergarten teachers visited a couple of area school districts using the program, and he said they were amazed to find kindergarten students who had completed the program writing "short novels" and reading them to one another.

"We don't have the same level of learning—not because our students aren't as intelligent, but because they haven't had the same opportunity," Miller said. "Our current program of alpha-phonics mainly just teaches the alphabet and the sounds of letters."

Miller noted that the Writing to Read program yields impressive test results, improved student performance, enthusiastic teacher response, positive parent acceptance, increased English usage among bilingual students, and is effective across all learning levels.

Curriculum Director Gainell Minnick reviewed for the board the system-wide results of the 1988 Texas Educational Assessment of Minimum Skills (TEAMS) tests taken by students in grades 1, 3, 5, 7, and 9.

Substantial differences were re-

gistered in the percent of students demonstrating mastery in a couple of areas.

Students who were in fifth grade in 1986 had a mastery percentage of 70% in math, but as seventh graders this year, the rate was 95%, an increase of 25 points.

In the writing portion of the test, 1986's fifth graders showed 52% mastery, while as seventh graders the same group showed a mastery rate of 89% — a 37-point improvement that could partially be attributed to the creative writing program begun last year, according to Minnick.

However, third graders tested in 1986 showed a mastery of 68% in writing, but as fifth graders they declined 30 points to a 38% level.

Miller said non-mastery marks are given on the tests when students do not write on the selected topic or do not address the correct purpose or mode of writing called for, such as descriptive or narrative.

In other business, the board: —Set the career ladder level II bonus at \$1,892.86 for 62 qualifying teachers, and allowed a half-bonus for one half-time employee.

—Accepted the resignations of Susan Anthony, first grade; Jackie Armstrong, high school librarian; Lynne Carlile, fourth and fifth grade opportunity teacher; Pam Ervin, fifth grade; Becky Jones, high school home economics; Deborah Parsley, speech therapist; and Clifford and Janice Smith, high school coach and math, and eighth grade science, respectively.

—Hired Maureen Foskey as speech therapist.

—Agreed to buy one van from Wallace Motors, and will look into getting two small pickups for maintenance workers.

—Accepted a \$5,733 bid from Northern Construction of Amarillo for installing a suspended ceiling and up to 20 light fixtures in the west cafeteria at RES.

—Decided to buy the materials and hire the labor needed to construct a lean-to hay storage shed for the ag farm.

J'LYN RYAN (right) of Dimmitt, member of the Texas State Textbook Committee, looks over a copy of the teacher's manual for the textbook series, *Music and You*, with Sheila Nettles, Macmillan Publishing Co. consultant, during a textbook-screening session at

Dimmitt Middle School. The sessions will continue through next Thursday, and will help in the selection of approved texts for Texas schools in 1989-90.

### Future textbooks being screened here

Seventy-six people who are meeting in Dimmitt this week, including 17 local residents, are helping decide which textbooks Texas school children will use in future years.

They are advisors to the Texas State Textbook Committee. This is believed to be the first time the state committee has ever held a screening session here.

J'Lyn Ryan, Dimmitt High School business teacher, represents the Panhandle, South Plains and Permian Basin on the 15-member state committee. She has brought in approximately 60 professionals from the region, plus 16 Dimmitt laypersons, to meet with representatives of 20 publishing houses who hope their textbooks will be on the final "approved" list for Texas pub-

lic schools. The session started Monday and will continue nine days, from 8 to 5 daily, in Dimmitt Middle School.

Publishers' representatives are using impressive displays of their textbooks in 16 major subject areas as they make their presentations to small groups of subject-area professionals and laypersons.

The textbook selection process takes three years, Mrs. Ryan said. This is the second year of the process for choosing textbooks that will be used in the 1989-90 school year.

"It has been an interesting experience so far," Mrs. Ryan said. "I have actually enjoyed meeting with the publishers' representatives and looking at the texts. I feel very

confident in my advisors."

She added, "I think that our school district will benefit from the close contact in the process several ways:

"First, we will have teachers with some training and expertise in selecting texts next year. This should serve as a great help in trying to get a series that is consistent throughout, as well as the best texts for our students and teachers.

"Second, the advisors have learned some of the 'tricks of the trade' and will be able to deal with the publishers in a more informed way—which I feel confident will be of value to the school district monetarily—as we will know what materials will be furnished, etc."

The contact with book publishers also may reap benefits for several individual students and teachers here, she said.

"Beth Sams, who will be attend-

ing a seminar in Washington, most likely will get to meet personally with at least one of the authors while on the Georgetown University campus," Mrs. Ryan said.

"Another publisher's representative saw a cleverly done political cartoon book by Ty O'Kelly, and contacted their staff, who in turn gave some suggestions for Ty to follow up on and perhaps be able to get a start from just this contact.

"And when the literature advisors met with another publisher, they commented that our students' work was every bit as good, if not better, than the examples used by the publisher. The publisher took that teacher's name, and most likely she will be contacted to serve as a consultant and give material to be used. It may even lead to her giving presentations for that company about her work at Dimmitt High School."

### Local group funds new book of poems

The Castro County Historical Commission has underwritten the cost of publishing a new book by Bill Neeley of Tulia—his collection of Spanish poems entitled *Songs of Andalusia*.

Neeley also has authored *Quanah Parker and His People* and two rodeo books, *Rodeo Clown* and *The Bull Riders*, and is working on a history of early Texas entitled *Hispanic Patriots of the Texas Revolution*.

The historical commission and the Dimmitt Book Club will honor Neeley with an autograph party next Thursday from 3 to 5 p.m. in Rhoads Memorial Library. Neeley and his partner in the poetry book, artist Howard Welborn of Lubbock, will be on hand to sign books purchased from the limited edition of 500 numbered copies which were published.

The books sell for \$12.95 each, and all proceeds go to the Castro County Historical Commission.

*Songs of Andalusia* was written in honor of King Don Juan Carlos I of Spain. Neeley wrote the poems while vacationing in Spain in 1983.

"Just as I am grateful to the people of Swisher County for their support of the *Quanah Parker* project, I am also thankful to the people of Castro County for funding the printing of my Spanish poems," Neeley said.

The book includes 10 poems, all written in English. Each poem is accompanied by a Welborn pencil drawing on the facing page. The book was printed by Texas Tech Press, and was bound in red leatherette with gold-leaf lettering by H. V. Chapman & Sons of Abilene.

NEELEY'S LATEST BOOK—Clara Vick, secretary-treasurer of the Castro County Historical Commission, shows the first copy of Bill Neeley's newest book, *Songs of Andalusia*, a collection of poems which the Tulia author wrote in Spain. The commission underwrote the cost of publishing the book, and will hold an autograph party for Neeley next Thursday afternoon.

### DHS 'Hall of Honor' program is launched

The Dimmitt Independent School District has established a Hall of Honor for former students, and nominations are now being taken for the first honoree.

Purpose of the new program is to recognize Dimmitt High School graduates "who have distinguished themselves through outstanding contribution to their school and to society."

The award will be presented at Homecoming each year, usually in October. The inductee will receive his/her Hall of Honor award during the Homecoming pep rally and will be recognized at the Homecoming football game. Also, the inductee's name will be engraved on a permanent plaque to be hung in a special "Hall of Honor" display at Dimmitt High School.

Only one person will be inducted each year. To be eligible, an inductee must have been out of school at least 10 years. The inductee may be either living or deceased.

Guidelines for the new award program were drawn by a nine-member committee of ex-students, working with Supt. Robert Ryan.

The selection committee will be made up of nine ex-students, with the high school principal, the Student Council sponsor and the student body president serving as ex-officio members.

Anyone wishing to nominate a former Dimmitt student for the Hall of Honor must use an official nomination form. Requests for forms should be mailed to Hall of Honor, c/o Supt. of Schools, Dimmitt Independent School District, 608 W. Halsell, Dimmitt, 79027.

Nominations for the first year's candidates must be made by July 15. All nominees or persons making nominations will be expected to submit a resume of the nominee's education, experience, achievements, accomplishments, etc. Each nomination form will be kept on file and considered for three years.

Clusters of huge pink and white balloons and pink and white fresh flower bouquets were all along the wooden fence and the winding walkway, along the bridge across the stream and on to the setting where the wedding ceremony was held. The bridesmaids dressed in pink and carried baskets of pink and white flowers. The flower girl wore a pink dress and scattered rose petals. The little ring bearer stole the show as he was picking up the rose petals and rocks and throwing them during the ceremony.

The reception was held out under the huge trees with more pink and white balloons and flowers. The small tables held a bouquet of flowers tied with a pink bandana handkerchief and a black cowboy hat alongside the bouquet.

The brides' table held the beautiful three-tiered cake covered with icing flowers with a "Precious Moments" bride and groom. They were among 11 deacons who were ordained as elders (ministers authorized to perform all sacraments and services of the church). Seven others were ordained as deacons (probationary ministers) in ceremonies at St. Paul United Methodist Church.

During appointment of ministers at the four-day conference, Rev. Vernon O'Kelly was returned to the First United Methodist Church of Dimmitt for a seventh year, and Rev. Perry Hunsaker was returned to the First United Methodist Church of Hart for a second year.

**WELCOME COUNTRY FANS!**—Joe Carr, host of *Country Caravan*, extends a hearty welcome as the show, a South Plains College product, gets underway. *Country Caravan* is scheduled for a performance in Dimmitt next Thursday, June 23, at 8 p.m. on the courthouse square in Dimmitt. Admission to the show is free.

## 'Caravan' to perform here next Thursday

Performing music that will warm the hearts of country music lovers, South Plains College's musical group *Country Caravan* will be in Dimmitt next Thursday, June 23, at 8:30 p.m. on the Courthouse square.

Admission to the show, which is sponsored by the Dimmitt Chamber of Commerce, is free.

Produced annually by SPC, this down-home music celebration has delighted country music fans for 12 summers, bringing genuine family entertainment to communities throughout West Texas and Eastern

New Mexico.

The 90-minute program will feature top country music hits, classic standards, vocals, musicianship and dancing.

"We have a great evening of family entertainment planned," said John Hartin, the show's general director. "If you're not a country music lover yet, you will be by the time you leave our performance."

The show's performers are students and faculty members from South Plains College's two-year associate degree program in country and bluegrass music.

Student performers include seven musicians who form the nucleus of the *Caravan Band* which backs up the vocal talent found in the show. They include Shelby Hines, Jacky Howard and Paul Zamora, all from Levelland; Mike Huffman from Seminole; Donnie Larkin from Slocum; Steve Garner from Durrant, Okla.; and Brent Jobe of Lubbock.

Hines and Zamora are featured vocalists who also play the guitar. Howard is featured on saxophone and Huffman is the band's percussionist. Larkin plays guitar and keyboards, while Garner plays banjo and is a vocalist. Jobe is the group's base guitarist.

In addition to Hines, Zamora and Garner in male vocal roles, the talents of four women are also showcased. At the head of the list is Paula Horton of Perrin, who thrilled audiences last summer with her ability to yodel.

Newcomers include Latrell Houk of Littlefield, Amy Price of Lubbock, and Kendra Pirkle of Sanger.

Faculty members in the band include Hartin, who plays the electric guitar and sings the classic country style. Tim McCasland, assistant professor of music at SPC and the show's musical director, plays the pedal steel and guitar.

Joe Carr, SPC bluegrass instructor, serves as the show's host. Carr also picks the guitar, mandolin and fiddle. Ed Marsh, assistant professor of music, has been with the show for eight seasons, providing expertise on the fiddle and on vocals.

# Nazareth

By Virgie Gerber, 945-2669

Many relatives and friends attended the wedding of Doyle Schulte and LaDawn Schmucker Saturday afternoon in Holy Family Church with Rev. Brendan Sherry officiating. A reception and dance followed at the Nazareth Community Hall.

A bridal shower honoring Malinda Yeary, bride-elect of Kevin Gerber, was held in Morton at the home of Mrs. Naomi Ramsey Sunday. It was followed by a lunch at the home of Robert and Maxine Yeary, Malinda's parents. Tricia Rose of Tulia, Kevin Gerber and Virgie Gerber, both of Nazareth, attended.

Congratulations to Sidney and Peggy Birkenfeld on the birth of a son, Skylar Jay, June 7 at Swisher Memorial Hospital in Tulia. Grandparents are Ida Gibson of Dimmitt and George and Rita Book of Lake Buchanan. Agnes Brockman and George Book, Sr. are great-grandparents.

Skylar was baptized Sunday morning after mass in Holy Family Church with Deacon Jerome Brockman, officiating. Melvin and Joy Wethington were the baby's godparents. Skylar has a sister, Cassie, and a brother, Jerod.

## 'Neither of us would ever steal a penny'

Dear Editor:

We feel the need to write this letter and set the record straight because of untrue gossip being spread around to our townspeople. First of all, let us point out that we love people of all ages, and we respect our elders.

Our story:  
For the past several months we have worked together at a place of business here in Dimmitt. . . . The work load we carried was ridiculous. The mental stress and strain put on us by our bosses was even worse. This place of business had to be open by 6 a.m., so we've been there at 5:30. Rain, snow, ice, sleet, you name it, somehow one of us was always there. We didn't want to put anyone in a bind. Some mornings we would come in and find absolutely *nothing* done. Before we could get ready for our day, we had to do work that should have been done on the evening shift the day before. We never complained; we bit our tongues and took on the extra work. Never were we given even a simple "Thank you."

There was no such thing as a day off, or even a sick day if you were really sick. Whatever reason you were unable to work, it would be spread over town that you were no good anyway and were going to be fired. We were talked about behind our backs constantly. So many awful and untrue things were said about us that our townspeople probably think we are terrible! Even worse, our customers were

spoken badly of nearly before they were out the door. Somehow, through all this pressure, we had managed.

Last Thursday morning, one of us was accused of stealing money. That was the last straw. Money in this place was handled very carelessly. . . . We have always watched out for these people, and tried to see that their money was kept safe. The honest truth is that no matter what, neither of us would ever steal a penny from them or anyone else. We worked over 50 hours a week, yet on payday, we almost had to beg for our checks. Last Thursday, we quit.

A thank-you:  
To our customers! We want to say "thank you" to each and every one of you. The ones of you who know us well know the situation we've been in. We love each and every one of you. You will always hold a special place in our hearts, and we will never forget you. Your smiles or a kind word made the dreary days seem bearable countless times. We love you!

## Mr. and Mrs. Cook establish new home in Chilton following wedding

Mr. and Mrs. Gregory Barrett Cook are home in Chilton after their June 4 wedding and a brief wedding trip.

The bride is the former Rebecca Ann Benton, daughter of Robert Ann Benton and Martie Benton of Dimmitt. She is the granddaughter of Lena Benton of Lubbock and Helen Adams of Murchison. Parents of the groom are Glenda and Ronnie Cook of Pittsburg, Texas. His grandparents are Mr. and Mrs. Buddy Cook and Mr. and Mrs. Glenn Barrett, all of Pittsburg.

The couple exchanged wedding vows June 4 in a formal, double-ring ceremony in the First United Methodist Church at Dimmitt with Rev. Vernon O'Kelly officiating.

A large fan-shaped bouquet of fresh flowers featuring peach gladiolas, yellow spider mums, miniature peach carnations, cream lillies and freesia accented with fern, centered the altar table. The flowers were surrounded by crystal candlesticks of various heights, all holding tall, cream tapers.

The altar rail across the front of the church was draped in fresh greenery. Cream-colored bows of satin and tulle marked the pews.

Organist Deanne Clark played the theme from *The Man From Snowy River*. Trumpet pieces, performed by Bernie Tackitt with organ accompaniment, were *Trumpet Voluntary* and *The Wedding March*.

The bride, given in marriage by her father, wore her mother's restyled wedding gown. The underbodice and skirt were created of candlelight silk taffeta. The back of the full skirt fell from a fan of deep pleats into a chapel-length train. The pleats were accented by a wide silk taffeta bow. A ten-inch band of Alencon lace, featuring three-inch scallops, edged the bottom of the skirt. A spray of lace motifs spread up the center back of the skirt. The fitted bodice of silk illusion featured a long waist dropping to a point in the front and back. Scalloped Alencon lace outlined a sweetheart neckline and formed a deep scoop in the back. The same scalloped lace followed the Sabrina neckline and edged the dropped waist. The bodice was completed with all-over lace motifs. Upper portions of the front and back of the bodice were made of sheer illusion. Covered buttons extended down the back from the neckline to the bottom of the bodice. Long sleeves of silk illusion featured applique lace motifs. Gathered full at the shoulders, the sleeves tapered at her wrists, where a flower motif was accented and covered buttons completed the look. All of the lace on the gown was re-embroidered with seed pearls and iridescent sequins.

She wore a silk taffeta bow highlighted with pearl filaments. The attached veil of bridal illusion fell the length of her dress and featured a blusher veil highlighted by scattered seed pearls and iridescent beads.

She carried a cascading bouquet of white roses, stephanotis and cream lillies accented with English ivy and cream satin ribbons and bows.

Following tradition the bride chose her gown for "something old." "Something new" was her veil, "something borrowed" and "something blue" was her garter, loaned to her by her aunt, Ruth Ann Hill of Cleburne. She also had a lucky sixpence, belonging to her mother.

Maid of honor was Beth Benton of Lubbock, the bride's sister. Bridesmaids were Julie Reeve of Canyon, Tricia Touchstone of Lubbock, Mary Hatter of Snyder and Amy Bond of Duncanville, all friends of the bride.

Each bridal attendant wore a gown created of Galloon lace. Each peach, tea-length gown was designed with a round neckline which dipped to a deep vee in the back. A silk shirred inset accented the waistline and was highlighted in the center back by a large candy box bow. Scalloped lace edging was featured around the neckline, on the bottom of the elbow-length sleeves and around the hemline of the skirt. Each attendant wore shoes dyed to match the gowns.

They carried large arm bouquets of cream and peach lillies, freesia, miniature peach carnations and babies breath accented with fern and peach moire ribbon with cream lace bows, loops and streamers.

MRS. GREGORY BARRETT COOK  
... nee Rebecca Ann Benton

Best man was Ronnie Cook of Pittsburg, the groom's father. Groomsmen were Blake Stock of Dallas, the groom's cousin, Steven Groce of Lufkin, Roger Boone of Lampassas and Matt Emery of Pittsburg, all friends of the groom.

Ben Benton of Dimmitt, the bride's brother, Scott Cook of Pittsburg, brother of the groom, and Lonnie Sword of Pittsburg, friend of the groom, seated guests.

Buffy Cook, sister of the groom, registered guests.

The registry table was draped with ecru Battenburg lace and linen table runners. Registry pages were centered by a peach basket with scented potpourri.

A reception honoring the couple was held in the church's Fellowship Hall following the ceremony.

A ten-foot oval table covered with candlelight sheer drapes and skirted to the floor, served as the bride's table. The four-tiered banana cake with cream cheese icing was centered on the table. Live flower sprays in peach and pastels accented with fern, decorated the cake, which was topped with ceramic bells used on the wedding cake of the bride's mother and father.

One end of the table featured a silver punch service with the silver coffee service on the opposite end. Mixed nuts and white chocolate mints were served from the table.

A chocolate groom's cake, topped by chocolate curls, centered the round groom's table.

Anje Stock of Dallas, Buffy Cook of Pittsburg, Libby Coker and Jackie Brown of Lubbock, served

at the reception.

For her traveling attire, the bride chose a dark navy print dress designed with a dropped waist, a peplum and straight skirt. The dress was trimmed with bands of red fabric. Red shoes completed her outfit.

The bride is a graduate of Dimmitt High School and is a candidate for graduation in August from Texas Tech with a degree in interior design. The groom is a graduate of Pittsburg High School and attended Texas Tech. He is currently employed at Thigpen Cattle Co. in Chilton.

### Insects of Interest

## Control bagworms now

**By DR. ALLEN KNUTSON**  
Bagworms are one of the major pests of junipers and other trees and shrubs in Texas. Spring hatch began in early May on the South Plains this year. Hatching is usually completed in about three weeks. Insecticide control is most effective

in late May and early June when bagworms are small. In the spring, bagworm larvae emerge from hatching eggs inside last year's bags and begin feeding on leaves. They soon begin to construct their own protective bag of silk, twigs and leaves, making

them camouflaged and hard to see. As the larvae and their bags continue to grow, control becomes more difficult. Bagworms feed throughout the summer months, building their bags until the bags are about 1 1/2 inches long. In the fall, the bag-

worms become adults, mate and the females lay eggs inside their bags. They overwinter in these bags in trees and shrubs. Each overwintering female bag on a tree contains from 500 to 1,500 eggs.

Since the bagworm only completes one generation a year and spreads very slowly from plant to plant, picking the bags off infested plants in the winter will help a lot toward controlling this pest. But if bagworms were present on the plant last year and control measures were not applied, chances are very good that an insecticide will be needed this spring.

Insecticides which can be used to control bagworms include sevin, dursban, diazinon, malathion, dylox and orthene. The biological insecticide *Bacillus thuringiensis* can also be used. To obtain effective control, thorough coverage of the foliage is important. The addition of a small amount of liquid soap or surfactant to the spray solution will improve control because it helps adhere the insecticide to the treated trees and shrubs. Always read and follow label instructions when applying insecticide.

## Killingsworth's closing out hardware/electronics store

After 26 years in retail merchandising, Killingsworth's True Value Home Center/Radio Shack is quitting the retail business.

Jim Killingsworth said that originally he had wanted the store to be a division of his operations which would function on its own with some supervision by him. Instead, the store had come to occupy all his time, he said.

Killingsworth will continue with his real estate operations, the NTS phone service and the KIS one-hour photo processing.

He hopes to sell the True Value membership and the Radio Shack

dealership, and said that those are available either individually or collectively. The building is available for lease, he added.

"I would very much like to sell (the retail store) to someone who would operate much as we do now," Killingsworth said.

He said that the business needs an owner/operator who enjoys being totally involved in the business.

Such total daily involvement in a wide-ranging retail operation "is just not the direction I want to spend the rest of my life in," Killingsworth said.

"I enjoyed greeting customers by name and will miss that contact with the people," he said, "but I hope to see it in other avenues."

Killingsworth said that changes in consumer buying and shopping habits are posing problems for small-town merchants as well as some merchants in larger cities.

Price consciousness brought on by deep discounters such as the

large discount chains and warehouses have made it difficult for small-town merchants to be price competitive, Killingsworth said.

He added that shopping has become a more social activity with the creation of large shopping malls. Small towns can't offer that kind of facility, he said.

"That doesn't mean a small town can't maintain a successful retail business," Killingsworth said. "It takes dedication and the right kind of mental attitude."

Killingsworth said he wanted to urge people to recognize local merchants as hard-working families.

"They're fighting a daily battle to serve their customers and community," he said. "I'd like to urge people to show their appreciation for that. Sometimes a handshake and a word of encouragement can be just as important as a purchase."

Killingsworth's quitting-business sale is in progress and should continue through late July, he said.

### ASCS taking applications

The Castro County ASCS office is now taking spring seeded crop certification and measurement service request by appointment.

Anyone wishing to make an appointment, must do so by Friday, June 24, according to Scotty Abbott, county executive director.

"If you have not made an appointment yet, the ASCS office will schedule you one and send you a card to notify you of the time you will need to come in to certify or request measurement service. If you cannot make it to the office and we will try to reschedule it. We hope that this will help to alleviate you having to spend excess time in the office waiting to certify or request measurement service," Abbott said.

## Program sign-up is Monday

The Castro County ASCS Committee will conduct a Conservation Program sign-up beginning Monday and continuing through July 1.

The practices to be cost-shared are establishment of permanent grass, constructing terrace systems, constructing diversion terraces, reorganizing irrigation systems and establishing sod waterways.

# Running Water Soil and Water Conservation District

## QUARTERLY REPORT JUNE 1988

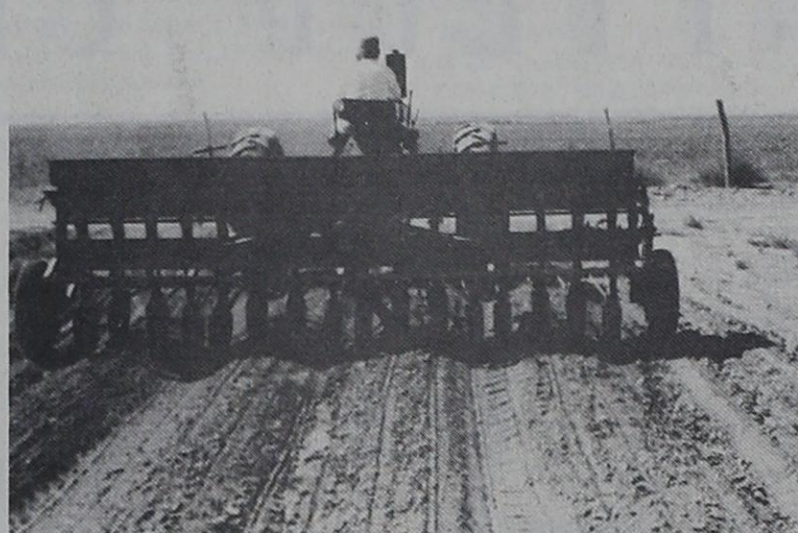

This year the Running Water SWCD selected (above, left) Leonard Wilhelm as their Conservation Rancher of the Year, who also won first in the Regional Contest, and Lois Wales as their Conservation Homemaker, who was runner-up in the Regional Contest. They as well as the District's other award winners were honored at the District's Annual Awards Banquet (below). The other county award winners were: Essay Contest—Lorelea Acker, Susan Waggoner, Kimberly Spring, Johnny Rutkowski; Poster Contest—Jerad Birkenfeld, Brittany Sheffy, Kimberlea Grossman.

Grass: Last year the SCS and Running Water SWCD assisted in the grass seeding of about 13,000 acres of grass under the CRP program (above). About 96% of what has been seeded last year is developing into a good or excellent stand of grass (below). Most of the grasses seeded last year consisted of Blue Grama, Sideoats Grama, Plains Bluestem, WW Spar Bluestem, Kleingrass and Green Sprangletop. Weeds must be controlled by chemical or by mechanical methods or a combination of both while under the CRP contract.

Due to the Farm Security Act of 1985 everyone will have a determination made on their farm as to whether there are highly erodible soils on the farm or not. If HEL soils are present, then a FSA plan will be developed with the producer of the farm. Under this plan the producer will be required to treat the fields according to SCS specifications, which will reduce the amount of top soil that is lost to wind and water erosion. In most cases, a crop rotation and crop residue management will be all that is required of a producer to control his erosion problems. If you think you might have some highly erodible soils on your farm check with the SCS personnel at 3rd and Bedford. Remember, all HEL farms must have a plan by 1990 to stay active in all government programs.

Residue: All of the grass seeded under the CRP program is seeded into a deadlitter cover. One of the best covers is forage sorghum. Other crops that can and have been used are wheat, millet, haygrazer, and grain sorghum. All crop residues are left on the soil surface to protect the new grass seedlings from wind erosion as well as help conserve the soil moisture, thus allowing the moisture to be available for the grass seedlings which allows the grass to develop into a stand of grass.

This year the District and the SCS have assisted in the seeding of about 13,500 acres of grass under the CRP program.

Eligibility for participation in all programs administered by the Running Water SWCD is established under law without regard to race, color, religion, age, sex, handicap, martial status, or national origin.

# Sunnyside

By Teeny Bowden, 647-5703

Rev. David Fletcher finally got through to Gale and Verna Sadler last Thursday morning. Verna said they were just fine, but short handed and very, very busy getting the literature out. They will be attending their national convention soon, which is similar to the Southern Baptist Convention. They were planning to drive, and the trip will take them two days because the roads are so bad you can't drive very fast. They are getting our letters, but sometimes they are close to a month late. The E.R. Sadlers, Ezell Sadlers and Teeny Bowden all received letters from them this week.

Rev. Marvin and Betty Hayes of Missoula, Mont. spent last Thursday night with Rev. David and Debra Fletcher and family. They worked together as missionaries in Missoula before David felt like he should be getting an education.

Betty is the State WMU president for Montana.

The Fletchers went to Gruver Monday to visit with their parents until Wednesday afternoon. Haley stayed with Debra's parents.

.20 of an inch of rain was recorded for Saturday and a trace was received Saturday night.

Kevin and Melinda Riley moved into the house at Sunnyside the first week in June after spending several weeks painting and repairing things.

Teeny Bowden and Clara Vick attended the Texas Archeological Society 1988 field school at the buried city on the Courson Ranch near Wolf Creek southeast of Perryton Saturday. Teeny is a member of the Texas TAS and Clara was given a special invitation by Joan Few of Houston, who was one of

the archeologists present. She was in charge of the Courson D site. The whole area is in the Lake Fryer area in Ochiltree County. Joan's mother, Mary, stayed with Myrna Cowser during the week-long school. One day was a pretty long schedule, but it was very interesting. There will be an open house Friday and the artifacts found will be on display. An explanation will be given on the significance of the week's work by David Hughes, the archeologist in charge of the week's dig. They may also explore a mammoth dig this week if they have time.

Judy Damron took Justin and Tracy to the plane at Lubbock Thursday to spend two weeks with Clyde's sister. They will also attend a day camp while they are in Dallas.

Two homes in the community were burglarized last Thursday in

broad daylight. The vehicle used was described as a rusty green van. Take extra precautions when leaving home.

Ezell and Verba Sadler returned home last Thursday night from Hubbard Creek Lake. They attended the funeral of Ezell's last Darby cousin in Abilene last Wednesday.

Ronald and Freda Henderson of Calhan, Colo. spent Saturday with her mother, Arlene (Toots) Holbrooks.

Carrie Sadler of Lubbock stayed with Larry and Sharon Sadler last Wednesday through Friday.

James and Patricia Sadler of Canadian spent Saturday and Sunday with her parents, Ezell and Verba Sadler. Patricia and Verba visited with Teeny Bowden Sunday afternoon, and Patricia attended Sunday school and church with

them Sunday morning.

Larry Mullins of Lockney attended the Sunday services and spent the day with Rev. David and Debra Fletcher and family. He brought the special music Sunday night.

The Fletchers went to Plainview Friday night for swimming and family fun.

Holmes and Floy Posey and friends, Guy Smith and Anette Boswell of Memphis, visited last Thursday with E.R. and Willie Mae Sadler. June Carroll of Anton visited with them Friday.

In Verna Sadler's letter to Teeny Bowden this week, Verna said they were attending a Tanzanian Church Developer Advisor's meeting in Kenya when they heard of L.B.'s death. She was the pianist at this meeting and she stood and asked for the 13 missionaries to pray for

me and told them we had been faithful in supporting the spread of the gospel around the world. They had a special prayer which is a very humbling message to receive. She also said Tanzania now has two pilots to shuttle missionaries and their families and national Baptist leaders across Tanzania because of the road conditions. She said they made our county dirt roads in Texas look like super highways.

# "HI DADDY"

"Hi Daddy! When are you coming home?"

How happy it would make our Heavenly Father if we responded to His voice in the same joyous manner that this little child has responded to his Daddy's voice.

Enthusiasm for God's Way would turn a greater number of people toward God and His love.

"I was glad when they said unto me, Let us go into the house of the Lord" (Psalms 122:1) would be a joyous response to God's command, "Forsake not the assembling of yourselves together." (Hebrews 10:25)

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

# State agency protests, but county demands rent

The County Commissioners' Court voted Tuesday to charge the Texas Dept. of Human Services \$400 per month for the office space in the building it shares with the Castro County Appraisal District, although a spokesman for the TDHS said the state agency doesn't have to pay rent in most counties.

The TDHS has 40 x 50 ft. of office space in the seven-year-old building. It assists county residents in such government programs as food stamps, Medicare, Medicaid, Aid to Families With Dependent Children, child protective services and nursing home resident benefits.

The appraisal district pays the county the equivalent of 20 cents per square foot per month in office rent, and the commissioners felt the TDHS should pay the same amount.

"We built that building with the intention of charging rent to help pay for it," Precinct 4 Commissioner Vincent Guggemos said.

Jim Collier of Lubbock, who serves as the region's leasing officer for the TDHS, commented, "I have a lot of counties which don't charge us anything except utilities," adding that it's customary for counties to provide space for the state agency at no charge.

"In Lubbock County, for instance, we have 22,000 sq. ft. and they don't charge us anything," Collier said.

He warned that the state agency's services here would have to be cut by the amount of rent paid "because it all comes out of one budget." But the commissioners stood firm in their decision.

"I feel like they're a business, and we're a business, and they ought to pay," Precinct 3 Commissioner Jeff Robertson said.

The commissioners also met the TDHC's new child welfare worker, Janet Mays, R.N., who was introduced by Michele Bell, chairman of the local Child Welfare Board.

"Our number of cases went from four in April to 10 in May," Bell said. "This is why we wanted someone local to work full-time in Dimmitt, Hart and Nazareth."

Mays reported that last month's cases included four instances of sexual abuse, four of neglect and two of physical abuse. Two cases have been reported so far in June, she said.

"The police department has been so helpful," Mays said. "They work with me, report suspected child-abuse cases to me, and go with me when necessary. And the people in our district office (in Plainview) really bragged on our law enforcement agencies, on Jimmy Davis (county attorney), and on our county judge. Apparently they don't get that kind of cooperation in some of the other counties."

County Judge Polly Simpson and County Clerk Joy Jones in turn had high praise for the TDHS for its efficiency and for "taking care of their business."

Mays's office hours are 8-5 daily at the TDHS office, 647-4181; she also is on call on weekends.

The court went along with Guggemos' preference on a new motor grader for Precinct 4 and voted to purchase a new Caterpillar from West Texas Equipment Co.

Precinct 4 will trade in an old Caterpillar 140 grader and pay \$19,764 difference for the new one. West Texas Equipment guaranteed it would buy back the grader for \$81,000 in five years.

Yellowhouse Machinery also submitted a competitive bid on a new John Deere grader.

"I've got Caterpillars and I'm satisfied with them — I prefer Caterpillars," Guggemos said. "I'm looking at what this machine will be doing for us 15 years down the road. I know how a 15-year-old Caterpillar runs; we've got one 19 years old now."

The commissioners tabled action on an air conditioning system for the Expo Building after receiving bids from Bryant Sales & Service and Newton Electric.

The commissioners had called for bids on outfitting the county building with side-draft evaporative coolers. Bryant also submitted a proposal on a 17-ton Trane refrigerated-air unit, and told commissioners that system would be cheaper in the long run because it would draw less amperage, would need only one wiring system and would require much less seasonal maintenance than a series of five to seven evaporative coolers.

## Program is planned

The Senior Class Program from St. Mary of the Plains Hospital will present a program on senior class Tuesday at 6 p.m. at the Senior Citizens Center in Dimmitt. Everyone is invited to attend.

## Robert Cox

Services for Robert Lee Cox, 77, of Dimmitt, were held Saturday in Foskey - Flemings Funeral Chapel with Rev. Ralph Odell, a retired minister, officiating.

## Police Calls

A farm hand interrupted a mid-day burglary last Thursday at the home of Kenneth Kleman at Sunnyside.

The farm worker reported to the sheriff's office that he was plowing near the Klemans' driveway. As he passed near the home on his tractor, three adult Hispanic men ran from the house, got into the van and drove away, he reported.

After checking their home, the Klemans reported that some men's clothing and the remote control to a TV set were missing.

The same men evidently burglarized a rural home in Lamb County later the same day, Deputy Sheriff Manuel Flores said.

A man arrested recently in Palo Pinto County has admitted being in on the theft of 15 head of cattle from Leroy Pohlmeier of Nazareth last October, the Sheriff's Dept. reported this week.

Billy Dean Carter, 33, of Seminole, Okla., told authorities that he and a partner stole Pohlmeier's cattle last Oct. 20.

The stolen cattle were recovered near Tulia the next day. Deputy Sheriff Jerry Bailey said the thieves abandoned the cattle and their trailer after the trailer blew two tires. The trailer had been stolen at Pritchett, Colo., and rebuilt, Bailey said.

The Sheriff's Dept. has filed a cattle-theft charge against Carter and issued a warrant for his return. The Oklahoman also faces charges in Palo Pinto County "and maybe other counties in Texas," Bailey said.

Dimmitt police arrested a juvenile boy Monday in connection with six window-shooting incidents last week at the Country Arms Apartments on Northwest 12th Street.

The youth admitted the shootings, police said, and has been referred to the juvenile probation officer.

Apartment windows and vehicle windshields were shot with a BB gun, causing damage estimated at more than \$1,000.
