Final Rites For Mrs. Coffman Held Wednesday

Funeral services for Mrs. Mary E. Coffman, 74, were held at 2:30 p. m. Thursday in Killingsworth Funeral Chapel with Gary R. Beauchamp, minister of Mesquite St. Church of Christ, officiating. Burial was in Evergreen Cemetery.

Mrs. Coffman, Eastland County resident 69 years, died at 9:45 a. m. Wednesday in Western Manor Nursing and Convalescent Home after a year's illness.

Born June 3, 1890, in Ray County, Tenn., she came to Eastland County as a child in 1895, where her parents settled in Crossroads Community five miles south of here. She lived there until 1961 when she moved to Ranger. She was a member of Crossroads Church of Christ.

Surviving are a brother, Jim R. Young of Ranger, and a sister, Mrs. Grace Hamilton of Ranger.

Pallbearers were nephews. Pallbearers at the funeral were Claude Young, Joe Young, Elbert Young, E. E. Young, Pete Featherston, Dwayne Brown, Owen Hamilton and Jerry Hamilton.

Jaycees Discuss Rodeo Plans

Eleven Ranger Jaycees were present for breakfast and a business meeting at the Ranger Junior College Cafeteria Thursday morning.

Further plans for the Jaycee Rodeo, to be held July 8-9-10, were discussed. Plans for building some chutes at the south end of the arena were also discussed.

The Jaycees have announced that Lloyd Woodley of Lampasas will be producer of the rodeo again this year. This will be the third consecutive year Mr. Woodley has been producer of the rodeo. Frank Lovejoy of Lampasas will be the announcer. He was the announcer for the first Ranger Jaycee rodeo in 1963. A specialty act has also been secured for this year, Bo Bland and his trick car and also some trick horse riders.

Concrete Truck Overturns, But Driver Unhurt

A concrete mixer truck of Breckenridge Ready-Mix Concrete Co. overturned on U. S. Highway 80 east within the Ranger city limits Saturday morning about 7:35 a. m.

Harve Bishop Whitley of Eastland was driver of the truck and in control of the vehicle on the rain-slick pavement. He received only very minor injuries in the accident and was released following brief emergency treatment at Eastland Memorial Hospital.

New owner of the night club is Vernon Smith of Ranger. In person for the gala Friday night opening will be Kenneth Box and his Music Masters, featuring Katie Jean.

For reservations, call MI 7-1852, Ranger. The Rotary Club members voted to join with the Lions Club in putting up audio-visual venetian blinds in the Ranger Junior College Cafeteria so that films may be shown.

Commissioners Vote To Use Private Autos; Qualify For Expenses

Eastland County Commissioners were expected to finally draw their \$75 express allowance check this week after three months of trying.

In a special called meeting Wednesday, the last day of March, the commissioners passed an order which appeared to clear the way for their expense allowance - an allowance which they had originally voted themselves back in January.

There appeared to still be some question as to whether the order Wednesday would permit the measure to be retroactive and allow \$75 checks for January and February. Indications are that it would not.

In the special meeting the commissioners passed the following order:

"Upon motion duly made and seconded, the commissioners voted to use their private vehicles, instead of pickups, in traveling around the county on official business, and to allow each commissioner the sum of \$75 per month for the use of such private vehicles, said pickups to be used on road maintenance work.

"All members voting 'Aye,' the motion was declared passed."

In an opinion written by District Attorney Perry T. Brown, County Treasurer Helen Justice was told:

"In response to your request as to the present status as to paying the Commissioners Court \$75 per month for the use of their private vehicles in their traveling about within their districts and the county on official business: When you have been furnished with a copy of their order of this date (March 31) in which they have elected to use their private vehicles for such traveling, in pursuance to the Attorney General's ruling on Article 2350b, it is my opinion that such payments are authorized beginning with the month of March.

"As under the law officers are presumed to do their duty, it should be presumed that the commissioners entered such order in good faith and will use only their private vehicles in such traveling and will use, care for, and maintain the pickups furnished by the county as they do their road graders and other maintenance equipment furnished by the county."

Expense checks for the commissioners had not been written by noon Thursday, but were expected to be written before the weekend. These written by the county auditor, signed by him, the treasurer and the county clerk.

Commissioners received their checks Friday.

The expense allowance was voted by the commissioners, citing Art. 2350b - Allowance for traveling expenses and automobile depreciation.

Sec. 1. In any county in this state having a population

of not more than twenty-one thousand, five hundred (21,500), according to the last preceding or any future Federal Census, the Commissioners Court is hereby authorized to allow each member of such Commissioners Court the sum of not exceeding Seventy-five Dollars (\$75) per month for traveling expenses and depreciation on his automobile while on official business within the county. Each member of such Commissioners Court shall pay all expenses in the operation of such automobile and keep same in repair free of any (Continued on Page 3.)

124 at Olden Sign for Water - Date Nears

The goal of customer for the Olden Water System was set at 110 at a March 4 meeting and Olden residents are very happy to report that this goal was reached and exceeded by 14 customers.

Those who have signed up for water number 124, according to Treasurer Bill Hunter, who stated that Wednesday, April 7, is the deadline for signing without being charged a penalty.

Anyone who wishes to join is asked to contact Bill Hunter or any member of the committee.

Yeatts and Decker, an Abilene firm, will have charge of engineering the system and a 30-year loan through the Farmers Home Administration will put the system into operation.

Olden residents who are in favor of this water system and sign up for it, are charged a \$50 deposit plus a monthly water bill, estimated to total from \$4.50 to \$6 without tax or mortgage obligations.

City Voters Go To Polls On Tuesday

Ranger voters will go to the polls Tuesday to ballot in two elections.

Probably the most important referendum of the day will be the city election during which voters will select a mayor and four city commissioners.

Balloting will be held at the City Hall from 8 a. m. until 7 p. m. A fairly heavy turnout is expected.

Only two of the candidates are running without opposition: Mayor Morris Newnham and Street Commissioner Fred Bennett.

In the other three races: Incumbent Grover C. McGown and Bob Allen are candidates for water commissioner, incumbent J. W. Van Bibber and C. J. Davis are seeking the post of police commissioner, and Doyle Gentry and Dewey Cox Jr. are candidates for finance commissioner.

The present city commission was scheduled to hold its final meeting Thursday night at City Hall. Due to the absence of Mayor Newnham and Commissioner Van Bibber, the session was not held.

Statement Is Issued Friday By Van Bibber

W. J. Van Bibber, member of the Ranger City Commission, Friday afternoon issued the following statement regarding his candidacy for police commissioner in the city election to be held next Tuesday, April 6, at City Hall.

"To the Voters of Ranger: "Since I am regularly employed, I will not be able to see each of you in the interest of my candidacy for the office of Police Commissioner, I am taking this method of informing you that I am in the race, and I solicit your support and vote.

"I came to Ranger from Breckenridge in June, 1937, and have lived here continuously since. I am employed by the Lone Star Producing Company, and have been a Plant Superintendent since 1951.

"I was appointed to fill a vacancy in the office as City Finance Commissioner late in the spring of 1964. This experience has acquainted me with the problems confronting the City Commission, and with the aims of those who formulate the policies designed to improve our city. This service on the City Commission has made me conversant with the problems of our Police Department.

"I feel I am well qualified to serve you, and I thank you for your active support. "W. J. Van Bibber."

Alex Eakin On Honor Roll At NTSU At Denton

Rughey Alex Eakin, senior physics major at North Texas State University of Denton, was included on the 25 honor roll for the fall semester according to an announcement by Vice President J. J. Spurlock. The 25 listing includes all whose grade average came at least midway between an "A" and a "B."

The son of Mr. and Mrs. Carl F. Eakin of Ranger, he is a member of the American Institute of Physics. He is a 1961 graduate of Ranger High School.

At the offices of the Ranger Chamber of Commerce the annual election of directors for the Eastland County Water Supply District will be held with A. H. Powell as election judge.

James A. Smith of Ranger is seeking re-election to another two-year term on the ECWSD board and Lloyd L. Bruce is a candidate for a first elective term.

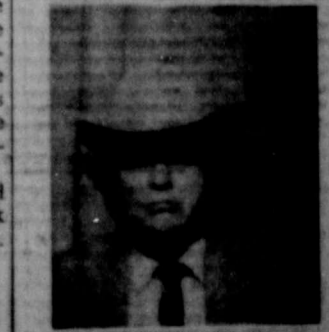

At the same time over in Eastland citizens of that precinct will ballot on two members for the board. Eastland candidates include Tom Wilson and M. H. Perry.

TOWN TALK

(Continued from Page One)

"Headlines which I am sure we have discussed with our friends, family, neighbors and employees. Today we appeal to you to discuss with these same people something which will make headlines in the hearts of two out of four American families.

"The subject, of course, is cancer. Cancer will strike one out of four Americans now living. About 805 Americans die every day of cancer. Cancer kills one man, woman or child every two minutes. Of every six persons who get cancer, two will be saved, four will die.

"We think the answer lies here: "If you are one of the four stricken by cancer, it is our sincere hope that the research and education furnished by the American Cancer Society will be the means of your own headline reading: "I'M CURED OF CANCER!"

Dear Mrs. Kuykendall, Thanks for choosing me last year to go to Camp. Mother thanks you also because it made me happy and I enjoyed it so much. I wish I could return the happiness to you. If there is ever a way let me know. Oscar and Larry also enjoyed camp. Thanks ever so much. Your friend always, Leonard

THIS VERY INTERESTING letter was received Friday morning by the Ranger Garden Club from Ed Maher, the well known Dallas Ford dealer and former resident of Ranger.

Members of the Lacasa Community honored Mr. and Mrs. Leon Parker of Dallas with a wedding shower Friday night, March 26, at the Community Center. As the guests entered they were registered in the Bride's Book. A table in the center of the room was laden with gifts.

This determined product of Breckenridge feels fortunate in coming from a 2A school to a junior college, but Mr. Duvall knows football, and if anybody can recognize good football a mile away, Coach Duvall is that man. If anyone is interested in playing football with the R.J.C. brand, plans should be made to work very hard and expect some changes, because the word is out that Duvall-type football will be the main dish at R.J.C.

They also wish to express their appreciation to Mr. J. M. Cooper, Eastland County Agent, for pruning the trees this week.

He and his wife Pat have four children: June, 9; Vicki, 8; Stacey, 5; and Dawn, 3. R.J.C.'s new coach is interested in many sports; his hobbies include such things as golf, guns, and hunting, though at the present time his main hobbies are "growing grass" on the college football field, and "watching film" in the gymnasium.

Why does a man choose a coaching career? "You have to want it and also like and enjoy coaching a whole lot," says Coach Duvall, and to him it's his ministry. Draft Board Gets Tough With Late Registrants

State draft board No. 36 in this county, which has jurisdiction over Eastland and Stephens counties, today announced a tougher policy regarding men who register late for the draft.

The new policy was announced by Mr. K. B. Tanner, board chairman.

The policy was established after a board survey which determined that too many young men had registered late

Long Distance Telephone Rates Lowered April 1

Lower long distance rates became effective April 1 on station-to-station calls within Texas after 8 p. m. daily and all day Sunday, Steve Simmons, Manager Southwestern Bell Telephone Company, announced today.

The night rate formerly was in effect after 9 p. m. Now it is effective at 8 p. m. daily, and applies all day Sunday.

The "Evening" rate, which applies from 6 to 8 p. m. Monday thru Friday, is effective all day Saturday.

"Since Sunday is the day families usually get together, this change in rates will make it possible for family calls to be made all day Sunday at the lowest rate of the week," said Mr. Simmons.

The changes in rates will apply only to station-to-station calls. The "Night" and Sunday rate will not apply to intrastate collect or third-party.

Free Enterprise Is A Continuing Story

An Editorial

In preparing a script a Hollywood writer must re-motivate the theme of the movie, at intervals, so that a person entering a theater after the picture has started will be able to pick up the thread of the story.

It is just as necessary, we firmly believe, to treat our free enterprise system in much the same way. Americans should be reminded, from time to time, of the meaning of free enterprise and what it does so that they will better be able to see how certain proposals for governmental programs that deviate from the true principles of free enterprise could ultimately prove damaging, rather than helpful, to national well-being.

Free enterprise, briefly, is the right of a man to go into any business he chooses; build up a product or service and try to sell it. Free enterprise also means your right, as a prospective buyer, to accept or reject any product or service offered.

Thus free enterprise — alone among economic systems — means that the person who has something to sell, and the person who is in the market to buy meet on terms of equality and freedom, without compulsion or interference as long as common laws of justice, decency and fairplay are observed.

Free enterprise is the right of all who live within it to offer whatever they have created — whether products or services or skills — to other individuals who are just as free to take them or pass them up.

What does free enterprise do? It brings out the best of our abilities, for two reasons. First it assumes that people want more than a bare, bleak existence and are willing to work for better lives when given the opportunity.

Second, free enterprise is competitive, necessarily. Having to compete is no bed of roses. But the right to compete is one that we can't afford to lose. It would mean losing all opportunity and freedom itself.

Only competition breeds champions — in sports, industry, or anywhere. Because of competition, the typical American company has to be efficient. It must produce goods of quality, at marketable prices. It must pay good wages. It must earn profits for growth and for payment to the investors. Should it fail to do any of these, it cannot stay in business.

Free enterprise is not perfect but it gives full scope to many of man's highest virtues: his imagination, inventive genius, determination and his self-reliance.

National Guard Has Vacant Jobs For Men Of Area

Young men are needed now in the Eastland County National Guard unit to fill a variety of military job vacancies, according to Capt. Winford Hogan, commander of Battery C, 3d Battalion, 132d Artillery.

Needed are individuals training or willing to be trained as light, medium or heavy artillerymen, fire direction specialists, mechanics (armor, track, wheel vehicles), communications specialists, ammunition specialists, driver, cooks and clerks.

Qualified prior servicemen may be enlisted in their old rank and immediately integrated into the unit's training mission. Others may receive on-the-job training. Young men may enlist after their 17th birthday.

Interested individuals should visit the National Guard Armory, located at 900 Lake Cisco Road for full information.

The unit drills one weekend each month with personnel receiving four days' pay for participation. The members are given two weeks on active duty with full pay each year.

NROTC Program Ready For Junior College Students

LAFAYETTE, Ind. — A group of college sophomores, with eyes on Navy careers, will take a "cruise" at landlocked Purdue University this summer to begin a new Navy program leading to a commission.

The program is designed especially for junior college and transfer students who in the fall will enter one of 52 U. S. universities where NROTC programs are offered. Purdue is one of three U. S. universities where the unique summer preparation program will be held.

Students who plan to continue their college work now will be able to compress the freshman and sophomore years of naval science study into a six-week period and become eligible to enter the advanced NROTC program for their last two years of college.

The Purdue program begins about June 21. Students will come here for classes in naval orientation, history and seapower, naval science laboratories, naval weapons and organized drills and physical training.

Following the summer session, successful candidates will be eligible for acceptance in the NROTC program at the university they have selected. They will continue there in naval science as part of their regular academic work. Upon graduation, students may be offered a commission in the Navy or Marine Corps.

During the special summer tour at Purdue, students will receive \$78 a month from the Navy.

The Navy program is stringent and seeks only NROTC students who will make superior officers, said Capt. John W. McManus, commander of the Purdue NROTC unit. Applicants must have no less than a "C" grade average in their first two years of college work, be unmarried, have no physical handicaps and already be accepted at a university offering NROTC work.

Application deadline is May 1. More information can be obtained from any Naval Recruiting Office, any NROTC university, or from Capt. McManus at Purdue.

Shrine Club To Hold Cisco Meet

The Cross Timber Shrine Club will hold the first of four social meetings planned for 1965 in Cisco on Saturday, April 10, according to an announcement by Secretary Carl Garner of Eastland. The meeting will begin at 8 p. m. at the country club, and will be for members only.

Other meetings planned this year are a picnic at Lake Leon on June 12, a picnic at Lake Cisco on Sept. 11, and a Christmas Party at Lone Cedar Country Club on Dec. 11. W. E. Dean, Leo Phagan and J. L. Thornton are in charge of arrangements for the April 10th party in Cisco. The club is composed of Moslah Temple Shrine members living in Eastland and adjoining counties.

during the past several months.

Federal law requires all young men who register a week late or more will be asked in writing to appear before the board in person to explain their tardiness. The board will give formal official consideration to declaring these men delinquent under the law and processing them for armed forces induction ahead of other men in their age group.

The following registrars are maintained for the convenience of young men:

Mrs. Jewell Reeves, board clerk at the Petrochem Building, Eastland; Mrs. Lila Riddings, court house, Breckenridge; Mrs. Thelma Albright, chamber of commerce, Cisco; Mrs. Mae Belle Oyer, Retail Merchants, Ranger; Graydon Baze, Postoffice, Gorman; and Mrs. Agnes White, City Hall, Rising Star.

Other members of the board besides Mr. Tanner, chairman, are P. W. Pitzer Jr., co-chairman, Breckenridge; H. Sterling Drumwright Jr., Cisco; and Bob Perkins, Eastland.

Pecan Budding School Is April 13 At CJC

The date for the annual Eastland County Pecan Budding and Grafting School has been set for April 13th with the morning session scheduled to be held in the cafeteria at the Cisco Junior College, beginning at 9 a. m., according to County Agent J. M. Cooper.

Demonstrations and lectures on when, where and how to bud; when not to bud; latest techniques of grafting, new type of grafting, when to cut the string, when to force the bud, preparation and storage of dormant pecan bud and graft wood, coverings and other items will be given at the morning session, Cooper stated.

REPORT ON PEANUT DAMAGE BY NEMATODES EXPECTED

Hordes of microscopic sub-soil animals may be robbing West Cross Timber peanut acreage of up to \$500,000 a year, according to a report which is to be published soon. The culprits are worm-like creatures no larger than 1-50th of an inch in size, but capable, in numbers, of reducing the some \$5,000,000 peanut economy of Eastland, Erath and Comanche counties by as much as ten percent, the report shows.

County Agent J. M. Cooper and two county farmers have assisted in experiments which show the danger of the "nematodes."

Norm Spray, representing Dow Chemical Co., is preparing the report which will be submitted to the Southwestern Peanut Growers Association newspaper for publication.

REPORT ON PEANUT DAMAGE BY NEMATODES EXPECTED

"I think nematodes are our No. Two problem, after Southern Blight," D. B. Warren of Gorman has said. Warren is a grower and a director of the S.P.G. Association. The report shows that the Cross Timbers area has 113,000 acres or about 60 percent of the peanut acreage in Texas, and produces only about one-third of the state's yield. Damage by nematodes is believed to be the reason for the loss in production in the area.

The tests have included six test locations, including Mr. Warren's and Mr. Herman Schaefer's, of the Nimrod Community. Cooper has said that he thinks as many as 20,000 acres may be seriously affected by the crop-damaging creatures.

Rainfall Is Above Average, Below 1964

Officially, rainfall in Eastland County during the first quarter of this year is above average, but below that which fell during the same period last year.

Rain in both January and February was above average, but moisture in March fell far below average. Only .54 of an inch was recorded by Official U. S. Weather Ob-

server James Smith of Eastland. Average for March is 1.59 inches.

There's been a total of 4.74 inches this year, compared to 5.48 inches during the first three months last year. Average for the three months is 4.34 inches.

Moisture during the month just ended came on four days; a half inch of snow on the third amounted to .11 of an inch; .20 of an inch on the 12th; a trace of snow on the 25th yielded .18 of an inch; and .05 fell on the 26th, Smith reports.

Low March temperature reported was 15 degrees, recorded on the 20th, and high was 81 degrees on the 17th. Low for the winter was 14 degrees on Feb. 24.

Child Welfare Club Members Meet In Home Of Mrs. Arnett

The Child Welfare Club met Wednesday, March 31, in the home of Mrs. Charles Arnett.

Mrs. John T. Roberson, president, reported that a local child had been admitted for care and training to Abilene State School. County Judge Scott Bailey assisted the club committee in completing legal proceedings. Dr. Luther Gohlke and Dr. W. P. Watkins provided the required immunization for the eight year old girl. Clothing, supplies and transportation to Abilene were furnished by the Child Welfare Club.

Among the women who have been active in Ranger Welfare work is Mrs. Saunders Gregg. Mrs. Gregg was investigating chairman of the club when meetings were held

monthly at Slacks Tea Room with only 12 members. Mrs. Gregg was president of the club from 1933 to 1940. During the years 1933 to 1941, the Child Welfare Club sponsored, in cooperation with the WPA, a day nursery for the children of working mothers.

Several times during almost fifty years of organization, the Child Welfare Club has been noted as the outstanding voluntary welfare group in the state. The years of time and effort contributed by Mrs. Gregg and other Ranger women on a purely voluntary basis have aided the needy of the community.

The Child Welfare Club will meet in April in the home of Mrs. J. B. Craig.

Highlight of the day was a call from her daughter, Mrs. C. E. Patzkowski of Pittsburg, Pa., and a call from her grandson, Nick Novakovich of Yuma, Arizona, wishing her a happy birthday.

Mrs. Novakovich expressed her thanks to the many friends, relatives, and to Dr. and Mrs. W. P. Watkins for 32 beautiful cards and 17 beautiful presents, which made her birthday such a happy one.

Silkworms were first raised in Constantinople from eggs smuggled into the country in a hollow stick.

The earliest known piece of knitting is from Arabia and may be as old as the 7th century B. C.

Another peculiarity of food preferences is the practice of putting peanuts in coke. This seems ridiculous. Peanuts destroy the taste of the coke, and the coke eradicates the taste of peanuts.

The most peculiar practice of all is the eating of uncooked foods. There is one student at R.J.C. who eats uncooked hamburger meat. He contends that cooking meat destroys the flavor as well as the vitamins in it.

Many people derive pleasure from eating limburger cheese. Just the odor should be enough to discourage the consumption of it, and the taste seems even worse than the odor.

However, there's no accounting for taste.

Beaumont is French for "beautiful hill."

New Arrivals

Mr. and Mrs. C. J. Smith of Richardson are the parents of a baby boy born March 22 in Baylor Hospital in Dallas. He weighed five pounds, 13 ounces and has been named William Michael.

Maternal grandparents are Mr. and Mrs. J. F. Francis of Ranger and paternal grandparents are Mr. and Mrs. C. E. Smith of Carthage. Great grandmother is Mrs. W. C. Whiteley of Ranger.

No Accounting For Tastes

The personal preferences of people can sometimes be quite odd, especially in their choice of foods. For example, there are two students on the campus of Ranger Junior College who prefer stale bread to fresh bread. It seems rather pointless, but there are people that prefer hamburgers with no meat. One of the oddest preferences in food is pig's feet. What can one possibly derive from the consumption of pig feet?

Food seasoning presents a topic worthy of discussion. One young man on campus puts honey on everything he eats, including meat. There are those who douse all their food with catsup or some other food additive.

One food that seems to be mutilated more than any other is ice cream. People put everything from catsup to pepper on it. Some even soft drinks.

The following members were present: Mmes. R. L. Allen, A. W. Brazda, W. M. Brown, R. L. Hamrick, J. Floyd Killingsworth, A. N. Larson, W. C. Lummus, J. E. Matthews, C. E. May, Sr., Saule Perlstein, C. B. Pruet, D. E. Pulley, J. T. Roberson, G. B. Rush, O. C. Warden, Ven O. White, Billy Rippy and Avery Sullivan.

One of the first rules we learn is "STOP, LOOK and LISTEN." This is a practical guide for safe, sober living. In the broad sense it means that from time to time we ought to take stock of ourselves, our purposes and goals.

Many individuals will not follow that same common sense rule, however, when it comes to their spiritual lives. Instead, they carelessly follow whatever pathway of faith and practice they stumble upon with but fleeting concern as to its destination.

Our physical well-being is certainly important, and we are commended to care for our bodies. But the Lord teaches that we should be more concerned for the well-being of the soul (Matthew 10:28). From the New Testament we learn that the welfare of the spirit is dependent upon careful attentiveness to the Will of God (John 12:44-50).

"For what is a man profited, if he shall gain the whole world, and lose his own soul? or what shall a man give in exchange for his soul?" (Matthew 16:26).

How long has it been since YOU stopped to ponder your spiritual condition?
