**NO SKING** on Lake Leon during the holidays, according to Mr. and Mrs. James Johnson who state that there was some fishing but little luck during the weather that was to cold for the fish to be interested in the lures.

**ALWAYS GOOD** — America's favorite lunch, hamburgers, Mr. and Mrs. O. L. Justice report rushing business even during the holiday season. It was Mrs. Justice's observation that they seemed to soon get tired of turkey. Needless to say, both the Dixie Queen and Bulldog Grill were crowded on Tuesday.

The five-stone ring is a thing of beauty and will be cherished by its owner in years to come ahead... **REAL KEEN** — electric scissors, gift received by Mrs. C. W. Stubblefield from her son.

**WHITE CHRISTMAS** was the delightful experience of Mr. and Mrs. Jay Bethany who have returned from a ten day visit with relatives in Dallas City, Ill. There was plenty of snow for snow fights and sledding, a frozen lake for skating and all the things that make for happiness when families get together at the Christmas time.

**Voters May Register At C of C Office**

Voter registration is now in progress in Ranger and will continue until Jan. 31, according to an announcement by Eastland County Tax Assessor-Collector Edgar Altom. They will be a list of qualified voters at each place of election held in the county during the year, Altom said. To be eligible to vote, your name must appear on this list — it is also well to present certificates at the polls. Persons over 60 are not required to register. This sub-station service is sponsored by the Ranger Chamber of Commerce. Positive deadline for registration is Jan. 31.

**Rep. Burke Musgrove Will Take Office at 'Home' January 10**

Burke Musgrove, state representative-elect from the 63rd legislative district, will take his oath of office Jan. 10, at "home" instead of in Austin with other members of the Texas Legislature, he has informed this newspaper. The oath will be administered at 10 a. m. Tuesday in the district courtroom of the Palo Pinto County courthouse in Palo Pinto. Rep. Musgrove of Breckenridge stated that he felt that ceremonies at "home" would be more personal and meaningful than the mass ceremonies in Austin. He expressed the desire to be sworn in among those he will represent, namely the residents of Callahan, Shackelford, Eastland, Stephens and Palo Pinto Counties. Invited to simultaneously administer the oath to Mr. Musgrove are the five county judges—Scott Bailey, Eastland County; I. M. Chism, Shackelford; Roy Gilbreath, Callahan; Cecil Mayes, Stephens; and John H. Smith, Palo Pinto. The public has been invited to the short ceremony and following reception. Immediately after the morning's activities, Musgrove will travel to Austin, where he will participate in opening day functions of the 60th Texas Legislature.

**NYC, Title One Programs Contribute \$ 1/4 Million**

Education in Eastland County is being "enriched" to the tune of about a quarter million dollars with the two federal programs now in progress here. Approximately 60 per cent of the Title One program, which is currently budgeted at \$106,239, has been collected by the county, County School Superintendent O. L. Stamey reports. The Neighborhood Youth Corps program is bringing \$157,980 in federal money into the county, Co-ordinator Tip Arther reports. The NYC program includes five other adjoining counties and is presently budgeted for helping 150 youngsters, he said. The Title One program has as its goal the enrichment of teaching, for the purchase of teaching aids and supplies. Appropriation of the Title One money is based on the 1960 census of families under certain financial guidelines. The school district breakdown for the county is like this: Carbon, \$2,779; Cisco, \$17,071; Eastland, \$16,558; Gorman, \$9,613; Olden, \$6,133; Ranger, \$6,463; Rising Star, \$14,565; and Desdemona, \$2,963. The present Title One program is about 85 per cent as great as last year, Supt. Stamey said. There had been some hope that the other 15 per cent might be re-instated, but apparently it will not be. The first NYC program was initiated here Nov. 15, 1965, originally for the one county, then in May of 1966, Shackelford and Palo Pinto counties were added, with the original quota set up for 230 students to work part time and go to school. This was cut back to 150, with a total budget for the first year of \$96,600. The current NYC program began Sept. 8, and included the original three counties, plus Throckmorton, Stephens and Young counties, for 100 students. In October, the number was increased by 50, bringing the total to 150, with \$157,980 to be supplied by the federal government, and \$38,000 to be supplied in in-kind support in the form of supervisory costs, etc., bringing the total program to a budget of \$195,980. Rev. and Mrs. H. M. Tomlinson and family visited their parents in Stinnett during the holidays. Mr. and Mrs. Frank Robinson and Rhonda and Mike Tomlinson spent last weekend in Floydada where they attended a winter retreat for members of the Church of God of Prophecy.

The program provides extra money for needy students, allowing them to work up to 10 hours weekly at \$1.25 per hour, doing tasks which are not otherwise possible in local schools' budgets, such as refinishing gymnasium floors, library work, and maintenance of buildings and grounds, not otherwise handled by custodians help. The Work-Study programs of the two junior colleges in the county are separate and are not included in this office. One of the program's prized examples is a lad who worked on the program at Carbon, graduated there as an honor student, and presently attending a junior college, continuing on the work-study program. Arther said that next summer, students on the program will be permitted to work 27 hours a week, as compared to 24 last summer. The summer program is 12 weeks, at the \$1.25 an hour rate.

The railroads propose to discontinue use of the Union Station in Cisco as a freight terminal and "to retire and dismantle the depot building." The railroads also are asking the railroad commission for permission to "establish Cisco as a pre-pay station in the freight tariffs." The new plan of operation would be for freight handled through the railroads to Cisco to be unloaded at Eastland and distributed by truck. It was understood that shipments to Cisco have become economically unprofitable, causing the railroad to request the operating change. It was also understood that the Cisco work force would be eliminated under the new plan. Passenger service stops in Cisco were eliminated several months ago. The Eastland and Ranger freight offices would continue Ranger includes considerable tonnage to the Lone Star Gas Co. The Eastland also has considerable freight activity through its haydite manufacturing plant. A spokesman for the railroad said in Cisco, recently "you won't notice the difference in service." He added that "we're just trying to cut expenses to a point where operation will be profitable." The Railroad Commission asked that "every person who desires to appear in opposition to the application must file a notice of protest with the director within 15 days after the publication of said notice with service of a copy of said notice to protest upon the party who instituted the proceedings." The hearing will be held at Railroad Commission headquarters in Austin.

What do you think of when you hear 4-H? Head, Heart, Hand, and Health? Or do you think of boys and girls feeding and showing livestock, cooking and sewing? Yes, all of these are a very important part of the 4-H Club program — but there is more — much more.

One of the many and varied projects which a 4-H member may be interested in is an electric project. The purpose of the electric program is to develop leadership among 4-H Club members and encourage the efficient use of electricity.

February 25, the County 4-H Contests will be held. If you were to visit the county contest you might see an electric team composed of two 4-H members; either boys and-or girls. The demonstration, a maximum of 12 minutes, will pertain to some phase or aspect of electricity. Charts, photographs, and other exhibit materials will be used to teach the use of electricity.

4-Hers interested in conducting a team demonstration in electricity should contact one of the Assistant County Extension Agents soon.

The 1967 edition of the Eastland county 4-H livestock show team is getting off to a thundering start. Approximately 15 individuals who will be attending major livestock shows have begun to show their livestock.

The Sand Hills, Hereford and Quarterhorse Show in Odessa is presently in "full-swing." Eastland County 4-Hers who are participating in this stock show are Bobby Lee, Lynne Pippen, Larry and Bill Farnsworth, all of the Cisco 4-H Club, and Lary Wheat of the Morton Valley 4-H Club.

Following the Odessa show are the Abilene (Jan. 21-25), Fort Worth (Jan. 27-Feb. 5), San Antonio (Feb. 10-19), Houston (Feb. 22-Mar. 5), and San Angelo (Mar. 8-12) Livestock Shows. Eastland County 4-H Clubs will have representative at each of these major livestock shows as well as at the local Gorman Youth Achievement Day (Mar. 4), Cisco Livestock Show (Mar. 9-11), and the Eastland County Livestock Show (Mar. 16-18).

# State Capital NEWS

**AUSTIN**—Grocery bills of Texans are increasing. And there isn't much anybody can do about it except shop more thrifflily.

That's Gov. John Connally's conclusion after studying a special committee's report on food prices.

While the cost of market basket items is going up faster here than for the nation as a whole, food is still a bargain, the committee advised.

Connally requested the study by representatives of the University of Texas, A&M University and Texas Tech. These conclusions highlighted the report:

- Consumer food costs in Texas during the last two years jumped 10.5 per cent, compared with 8.7 per cent for the nation. Retailers' market - basket costs rose 5.5 per cent here, compared with the U. S. average of 6.4 per cent.
- Today the average Texas family of four spends \$1,134 a year for groceries. This is \$108 more than two years ago. Nationwide food - basket cost rose \$89, for a total expenditure of \$1,116.
- An overall price increase of 12.5 per cent for Texas farm products the past year (September to September) contributed to 71 per cent of the hike in retail food prices.
- Net profit levels of food retailers actually declined fractionally from 1.91 per cent of gross sales in 1964 to 1.64 per cent this year. Increased labor and equipment costs were cited as major contributing factors.
- Texas farm prices, which lagged for 17 years, began to move forward the last two years, and consumer demand exceeded farm supplies.
- Connally found no special legislation or executive action warranted.

years jumped 10.5 per cent, compared with 8.7 per cent for the nation. Retailers' market - basket costs rose 5.5 per cent here, compared with the U. S. average of 6.4 per cent.

• Today the average Texas family of four spends \$1,134 a year for groceries. This is \$108 more than two years ago. Nationwide food - basket cost rose \$89, for a total expenditure of \$1,116.

• Texas farm prices, which lagged for 17 years, began to move forward the last two years, and consumer demand exceeded farm supplies.

• Connally found no special legislation or executive action warranted.

Governor Connally acknowledged the tax bill required to balance his spending recommendations to the Legislature next month might well range over \$100,000,000.

In addition to his budget of \$911,400,000 general revenue, the governor will recommend separate spending items, possibly including a teacher pay raise.

Connally and mayors were unable to get together on emergency aid for cities. Mayors want his backing of a one-percent local option sales tax.

Governor prefers a penny per gallon gasoline tax boost with three-fourths of the revenue (about \$40,000,000 a year) earmarked for city street building, maintenance and policing purposes.

Mayors are not satisfied with the latter. They fear they would be required to argue each application for aid separately before the State Highway Commission.

Those 3,400 Texas National Guardsmen who haven't undergone their six-month active training will do so after Christmas.

(Maj. Gen. Thomas S. Bishop of the Texas National Guard said the intensive training program is necessary because for the past year there have been no vacancies in training centers in which to place the Guardsmen.

"The Defense Department then programmed 60,000 men during the months of January, February, March and April into which all guardsmen nationwide would be given their basic training," Bishop said.

Texas sent only 57 into basic training in December, but 325 will be sent in January.

"A man who goes for six months now will return and serve his 3 1/2 years of ready reserve with his own Guard unit," Bishop added. "If the unit is called to active duty, though, he will have to go with it.

Some 50,000 invitations to the governor's inauguration (January 17) already have been sent by the State Democratic Executive Committee.

Chairman Will D. Davis reports that the bulky invitations which cost 15 cents each for postage alone, already are in the mail. He points out, however, that written invitations are not necessary for admission to a reception at the capitol and at state agencies, to the noon inaugural ceremony or to the downtown parade. "Everyone is welcome."

On the evening before the inauguration, the SDEC will hold a \$25-a-plate Democratic victory dinner here. Tickets to the inaugural ball will be \$10 a couple.

Unwillingness of Parker County to underwrite maintenance expense for the Kickapoo Watershed Project has no bearing on the legal capacity of Erath, Hood and Palo Pinto counties to contribute to district flood control and drainage facilities, Atty. Gen. Waggoner Carr held.

### Tree Seedlings Are Available At State Agency

Planted wind breaks around fields and homesteads are an excellent means of reducing wind speed and evaporation rates in Central, South and West Texas, according to Mason Cloud of the Texas Forest Service, College Station. Protected crops are therefore able to use soil moisture and nutrients more efficiently.

Tree seedlings suitable for wind break planting will be available from the Texas Forest Service. Orders for delivery between mid-January and March, 1967, are being accepted at the Indian Mound Nursery near Alto.

Wind break species available this year include: black locust, catalpa, Chinese elm, cottonwood, mulberry, Osage orange, red cedar, sycamore, euonymus, buffalo berry, rose multiflora, and Austrian Loblolly, ponderosa, short leaf, slash pine.

Orders for 100 or more trees in multiples of 50 are accepted on a first - come first - served basis. None may be resold nor used for ornamental purposes.

Cost of the seedlings and stratified black walnut seed is \$1.50 per hundred plus state sales tax. Shipping cost is prepaid.

Applications and copies of a guide sheet for planting and care of wind breaks can be obtained from the Director, Texas Forest Service, College Station.

# LONG DISTANCE RATES NOW REDUCED

on most station-to-station calls within Texas

ON January 1, long distance rates were reduced on most station-to-station Long Distance calls within Texas.

The reductions, which apply on most calls of more than 56 miles, vary from 5 to 15 cents for three minutes, depending on the distance. Reductions are even greater for calls over three minutes.

### Users Help Make Cuts Possible

In addition, all station-to-station calls within the State of Texas which are made after 8 p.m. and all day Sunday get the lowest night rate—a maximum charge of 80 cents, plus tax, for three minutes to any point in Texas. In the past, only station-to-station calls which were prepaid (charged to the number placing the call) and credit card calls got this low rate.

Much of the credit for making possible these reductions in Long Distance rates goes to telephone users themselves. The cooperation of customers in placing calls by number, using area codes, and taking advantage of Direct Distance Dialing where it is available has helped to make possible the operating economies that led to the reductions.

### Tenth Reduction Since World War II

This is the 10th reduction in Long Distance rates for Texas telephone users since the end of World War II. In this time when almost all prices are going up, we are glad to be able to reduce the cost of telephone service and bring these savings to our Texas customers.

Telephone service in Texas is a bigger bargain than ever before.

**MEDICAL PROGRESS LAST YEAR**

Hopefully, we can look forward to a year of good health in 1967. As the American Medical Association points out, the past year was one of encouraging developments that may help ensure many of us a longer, more comfortable life.

Here's some of the medical progress of 1966:

The first successful implantation of artificial devices, popularly but incorrectly called "artificial hearts," into the chests of human beings to aid failing hearts.

A drug that preliminary investigation indicated may improve memory.

A dignified scientific study that gives clearer understanding of the mysteries of human sexual response.

Adaptation and improvement of Russian-built artificial limbs by Canadian physicians. These devices derive motive power from the electric potential of muscle, eliminating the need for straps and springs.

The past year saw many American physicians volunteer their skills to help fill the immense need of the South Vietnamese people for medical care. The program through which they volunteer for 60

days of service in Vietnamese hospitals is known as AMA Volunteer Physicians for Viet Nam.

This past year was one in which American medicine made solid proposals for the kind of medical education required to provide communities with family physicians—a new kind of physician, who is broadly educated in continuous, comprehensive health care.

Finally, 1966 might be characterized as the year of vaccines. A mumps vaccine proved nearly 100 per cent effective in clinical trials. A prophylactic vaccine showed nearly total effectiveness in protecting unborn infants against the deadly "Rh factor" in some mothers' blood. And work continued on German measles vaccines, with great success reported in human trials. Wide use of existing vaccines was urged in a campaign to stamp out measles.

**You feel good about it when you buy Savings Bonds**

Savings Bonds are a great way to build a solid financial foundation for your child (or grandchild). It stands to reason. Every Bond you buy keeps growing right along with the child and becomes available for future, expensive needs.

Important needs like education, marriage or a business of his own.

Because not only grow—they work hard at insuring the family's future by insuring the future of the country. A big job that doesn't come easy.

Buy Bonds at your bank or on the Payroll Savings Plan where you work. And see if you don't feel good about it.

Your Uncle Sam will.

**NOW—Savings Bonds Pay 4.15%!**

Interest on new E and H Bonds you purchase has been raised to 4.15% when held to maturity. E Bonds mature faster—now in just 7 years. Your old Bonds will earn more, too. Savings Bonds are better to buy, and hold, than ever.
