NUMBER 45

## Town talk

NEWS • NOTES • BRIEFS

**BIG GAME** in the form of a javelina (wild hog) killed by David Holub of Gordon while hunting deer on the C. B. Long ranch near Gordon on Dec. 29, 1966. The animal weighed 52 pounds and is believed to be the only javelina killed in Palo Pinto County.

**RANGER FIREMEN** have been in the spotlight on both the local and district scenes during the past few days.

**DRY GRASS** and high wind have made the work of the firemen far more difficult. Friday afternoon found them battling the flames on the Tip Arthur property on Hwy. 80 W. and the Bill Herod property on the Breckenridge Rd. Saturday a grass fire on Elm St. and a house on Cherry St. kept the department from having too much leisure time. At midnight Sunday, they answered a call which, to the relief of all concerned, proved to be a false alarm. Two calls on Monday, one to a small blaze in the W. E. Herweck home, the other a grass fire on North Marston St. kept firemen "in practice."

**ONE HEARS** nothing but highest praise of these men who work untiringly to protect the life and property of Ranger residents. Almost daily, some benefactor of this service expresses the gratitude of their hearts for this loyal and efficient group.

**FIRE CHIEF** Charley Isbell repeats former warnings concerning burning of trash. He reminds us that there is a city ordinance prohibiting burning trash on days when without covers. He adds his own request to refrain from burning trash on days when there is a strong wind.

**HELP FIREMEN** to help Ranger toward fewer fires in the future!

**TIME OUT** from fighting fires came Saturday evening when Ranger hosted the District Convention of Volunteer firemen and saw three of their number elected to district officers for the coming year.

**FINAL ORCHID** to this organization is perhaps best expressed in the following verse from the pen of an unknown author, and we quote: "The fireman, from his slumbers waking, At once his quiet home forsaking, Rushes to the deadly strife, While the cry of wild despair, Is wafted on the midnight air, Fire! Fire! Fire!"

**THE COLORED** folks who are raising such a howl about the Adam Clayton Powell being stripped of his committee chairmanship and threatened with loss of his seat in Congress should not overlook the difference between right and wrong.

Mr. Powell has been accused of using public money for his personal benefit. He did not seek to defend himself. If he is guilty, then he should receive the same treatment that anyone else would expect for committing a crime.

The colored people should be leaders in a movement to see that their own folks are examples of good citizenship.

Mr. and Mrs. Jack Conder of Denver, Colo. visited her grandmother, Mrs. Ora Holder last week. The Conder family is moving from Denver to Fort Worth to make their home.

Gilstrap of Mineral Wells; sergeant-at-arms LeRoy Roberts, Weatherford; chaplain Max Ohr, Ranger; mascot Mack W. Walker, Eastland; sponsor Mrs. John Blackstone, Mineral Wells; and secretary-treasurer, Roy Barnhill, Ranger.

Firemen and their wives numbering approximately 200 attended Saturday's convention. They were welcomed by James Clark, superintendent of Ranger Public Schools.

Prior to the dinner and election of officers, pumper races were held. Weatherford's six-man team in 29 seconds won the competition of getting a fire hose attached to a hydrant and water running through the nozzle in the fastest time. Eastland was second with 33 seconds, and Cisco was third.

The women's pumper races were won by Breckenridge with a time of 27 seconds. Mineral Wells was second, and Weatherford third.

Weatherford owned the fastest six-man pumper racing time in the year 1966, with 23 seconds. Mineral Wells won the man miles trophy with 1,250 points.

The association's next quarterly meeting will be held in Weatherford in April. The firemen will convene in Cisco in July and in Eastland in October.

# THE GORDON SPOT

By DeMarquis (Dee) Gordon  
Eastland County Extension Agent

Providing adequate winter protection for trees, shrubs and flowers is a problem which all homeowners face.

The amount of protection needed depends on the natural hardness of plants, severity of climate and exposure.

Winter injury to plants is usually attributable to two factors—severe cold or loss of moisture from shoots and branches. Extreme cold will cause twigs, stems and roots to freeze, prompting cell tissues to break down.

Excessive loss of moisture, which frequently causes winter-killing, is due largely to the effects of strong, drying winds, during periods of winter sunshine.

Evaporation of moisture from twigs, branches, canes and leaves, in the case of evergreens, continues at a slow rate through the winter. To supply this moisture, plant roots must continue to absorb water.

When evaporation is rapidly accelerated by prolonged periods of winter sunshine and wind, plant roots are unable to supply moisture fast enough. Branches and canes become withered and, if this condition is sufficiently aggravated, it often results in the dying back of a large

portion of the plant or in its death.

Therefore, it is important to see that soil in which the plants are growing is kept supplied with moisture. It is especially important to soak the soil before freezing weather.

To protect semi-hardy plants and newly planted shrubs, some wind protection may be advisable. A wind screen may be constructed from snow fence, burlap or commercially prepared straw mats.

You may also need to protect from rodent damage this winter. Rabbits and other rodents will frequently damage young trees and shrubs when their normal food supplies are cut off by ice or snow. The tender bark on trees and roses provide rodents with a convenient source of food. It is often good practice to place a wire collar around prized plants or to even construct a rodent proof fence around favorite shrub or flower borders. Such a fence can be temporary, and once the rodent danger has passed, can be easily removed.

ers. They can be made of loosely rolled newspapers tied with a heavy twine and soaked in a solution of 4 pounds of copper sulfate and 3 pounds of rock salt in a gallon of water. They will take several days to dry out. Once dry, a paper log will burn all evening and produce a rainbow of colors.

I would like to urge Eastland County peanut farmers to attend an area wide peanut meeting January 16 in Dublin. The meeting will be held in the Vocational Agriculture Building starting at 7:30 p. m.

## Throckmorton Is On Lone Star's System for Gas

Lone Star Gas Company on December 30 began supplying Throckmorton with temporary propane-air gas service pending completion of a 10-mile natural gas pipeline that will connect the north-west Texas city with the company's vast pipeline network.

Lone Star Gas Company will begin continuous natural gas service to the city early next week.

Temporary gas service to the city began shortly after 11:59 p. m. December 29 following an agreement between Throckmorton civic leaders and gas company officials in Dallas that morning. A por-

## D & B Lists 352 Businesses In This County

Dun & Bradstreet, Inc., international business information agency which has been celebrating its 125th Anniversary, has released latest statistics on the business population of Eastland County. Mr. A. J. Hemphill, district manager of the Fort Worth office of D&B, reports that figures obtained by a physical count of the Dun & Bradstreet Reference Book for January, 1967, show that there are 352 retailers, wholesalers and manufacturers in this area.

Founded in 1841 in New York City, the Dun & Bradstreet organization now includes nearly 240 offices in the United States and abroad. The company was originally established to collect and report data on merchants on the Western frontier in order to promote trade, and has been gathering financial and credit data on firms of all types every since.

Today, D & B lists nearly three million businesses and their current credit ratings in its Reference Book, which is continually being revised and is published six times a year. Each year, all businesses, regardless of size, are asked to send copies of their financial statements to Dun & Bradstreet, whose reporters collect supplementary facts and profile each business in comprehensive credit reports widely used by suppliers, insurance companies, bankers, and service concerns.

## Disability Pay Is Not Limited To 'Permanent'

Disabled persons should take note that social security disability benefits are no longer limited to those with a "permanent" disability. R. R. Tuley, Jr., social security district manager in Abilene, said today. A worker may now be eligible for benefits if he has a disability which has lasted or is expected to last at least 12 months, and prevents him from working.

Although the disability provisions of the social security law were changed in July 1965, Tuley said, his office has seen evidence that some disabled workers have been passing up benefits because they had not heard of the 1965 changes. One important change, he said, removed the requirement that a disability be long continued or permanent without expectation of recovery. Another eases the work requirements for persons whose disability is blindness.

Under present law, a person who becomes blind before age 24 may be eligible for benefits with only 1 1/2 years of work in the 3 years before becoming blind. Blindness occurring before age 31, with social security credits for half of the time between age 21 and before becoming blind, may qualify the person for disability benefits.

Workers who become blind at age 31 or later, or who have disabilities other than blindness, need to have social security credit for at least 5 years out of the 10 years before their disabilities began.

Social Security payments for a disabled worker range from \$44.00 to \$139.90 a month, depending on the worker's average earnings under social security. Benefits may also be paid to certain of his dependents, Tuley said.

He urged disabled workers to inquire about their eligibility for these benefits at the Abilene social security office located at room 2321 Federal Building or meet a representative of that office when he is in your community. A schedule of visits is posted in all post offices.

table propane-air mixing machine brought from the gas company's pipeline headquarters in Vernon will supply the city with fuel energy until natural gas service is begun. The stand-by propane-air equipment can produce up to 35,000 cubic feet of the mixture each hour. Construction workers began work on the 10-mile four inch pipeline December 29. The new pipeline will run northwest from Lone Star's line OS in southeastern Throckmorton County to the TP Coal and Oil Lease where it will join existing pipeline into the city.

## HOMEMAKERS' HINTS

By JANET MEYERS  
Home Demonstration Agent

The Eastland County Home Demonstration Council met this week in Eastland. In-coming officers for the new year included: Mrs. C. T. Brockmann, chairman, from Morton Valley; Mrs. Ray Judia, vice-chairman from Cisco; Mrs. Jack Lusk, secretary of Eastland; and Mrs. W. V. Fenter, treasurer from Rising Star.

The Home Demonstration Council is composed of repre-

sentatives from each home demonstration club in the county. The council meets once each month in Eastland. The Home Demonstration Council has the main purpose to develop leadership and extend home demonstration work among both women and girls in all parts of Eastland County.

A gift of towels is appreciated at any time. This year

however, why not give your friends towels they can wear! Cotton terry towels are not strictly for drying purposes. Available in new thick, plush weaves, and attractive decorator patterns, they are used to make beach shifts and at-home gowns, as well as toss pillows, laundry bags and bath mitts.

Jacquard-woven towels make beautiful robes and shifts. The sculptured jacquard terry has woven-in, reversible designs. Towels come in a wide range of clear, vibrant colors, and are often edged with thick fringe at the ends.

Two bath towels, each in a contrasting vivid color, can be easily turned into a smart beach shift. Just seam the two together down the long sides and at each end, leaving a neck line slit and holes for arms. If you like, edge the hem of the towel shift with cotton curtain fringe. You can make a long at-home robe with three towels. Use two extra large sizes for the long skirt, and one standard size towel for a kimono sleeve Empire bodice.

During January, the Home Demonstration Agent will be giving programs to the Home Demonstration Clubs in the county on "Kitchen Storage". Storage in the home is of key importance to every homemaker. Along with storage information, equipment to facilitate storage space will be featured.

## Motor Vehicle Inspection Due By April 15th

AUSTIN—Col. Homer Garrison, Jr., director of the Texas Department of Public Safety, reminded Texas motorists today that most vehicles have not yet been inspected for their 1967 vehicle inspection sticker.

"The inspection period is two-thirds over and only about one-third of the vehicles have been inspected," said Garrison. "This means that during the 14 weeks remaining before the April 15 deadline for inspections, more than twice as many persons each week must have their car inspected to avoid long lines forming at the end of the period."

In urging motorists to have vehicle inspected at an early date, Garrison pointed out that official inspection stations are easily identified by the standard sign displayed

at or near the service entrance of the garage.

He advised that inspection stations are being urged to request permission to inspect any vehicle brought into the garage for repairs or regular service.

"In this way," Garrison pointed out, "time will be saved for the motorist as well as for the inspection station."

"And if you have not had your vehicle inspected, take it to one of the 5,300 authorized inspection stations for a 'check-up' and start the new year off right with a safe vehicle."

# 'Estes-type' Ag Operation Hits Snag In This County

A small-time agricultural implement operation with the overtones of a "Billy Sol Estes" undertaking is having "rough going" in Eastland County because of several technical details, authorities reported this week.

\$3,000 bond and was released. The State Comptroller's office was advised of the lack of serial numbers on the large butane bottles and officials indicated to the Sheriff's Department that their investigators would be in the county soon to check on the operation.

The man reportedly told the sheriff that he was buying the equipment from a supplier "up near Abilene." He was advised that it would be well to be able to produce receipts and cancelled checks when grand juries up in the Pan-
