This was truly unusual however, and was caused by a cold front that passed through Eastland County on the night of Wednesday, Jan. 17, setting off thunderstorms that lasted until about 5:30 a. m on the 18th. The front stalled across Central Texas and the warm, moist air from the Gulf. of Mexico overrode it, causing drizzle and intermittent heavy rains that lasted until Tuesday, Jan. 23rd. OPEN LETTER TO MY OPPONENTS AND

THE VOTERS OF EASTLAND COUNTY

Dear Friends,

It has come to my attention that my residence eligibility as a candidate for District Judge, 91st District Court, is being questioned. I sincerely feel that I am a legally qualified candidate for the 91st District Court of Eastland County, However, because of questions being raised by my opponents I have (about one month ago) contacted my opponent in the race and suggested to him that if he felt he had any reason to contest any qualifications, that I would be willing (at that time, middle of January 1968) to work out an agreed statement of facts and submit the questions directly to the Supreme Court of Texas. In this way it would be possible for us to get a final decision from the Supreme Court of Texas prior to either of us spending any money in

To date, I know of no efforts by my opponent to contact me in trying to find a feir answer to any questions he may have. And since the time of my suggestions I have made several expenditures in behalf of my candidacy and I have a bill for \$1,260 from our County Democratic Executive Committee for Election Filing fees which is due and payable by Feb. 28, 1968.

Today, I received word from what I consider reliable sources that my opponents have stated that they plan 'to wait and let me get my feet wet" by paying my filing fces etc. before they plan to contest me, and

Second, that they plan to file their charges in Judge Sparks Court, where they feel they can be more assured of a favorable decision.

It is my opinion that any contest in this matter will have to be finally decided by the Supreme Court and that it is not necessary that there be a fact issue since all the necessary facts can be easily determined. I therefore challenge my op-

ponent to put his candidacy on the line to rise or fall on this issue ;

First, if the Supreme Court determines that I am not qualified, then, of course, I will be out of the race; but second, If the Supreme Court agrees that I am qualified, then I would expect Mr. Earl Conner to ithdraw from the

If my opponent feels that he is so sure of his ground and that he really has a case against me, then I challenge him to accept this proposition. And I can assure him that I (and my lawyers who I have already retained to work with me) will make every effort to get an early answer from the Supreme Court if he feels he needs such.

AND THE RESIDENCE OF THE PROPERTY OF

On the other hand, there is another choice and I strongly recommend this choice to

Let the people of Eastland County decide on the merits in a fair election. Stop these noises about co desting residence and present an affirmative campaign of what each of us believe we can do for this county as its judge. Let us present ourselves as Gentlemen to the voters and let them decide who they think will make the best Judge for Eastland County, Let the voters decide who they feel they can trust with the responsibilities of this high office to do the job with fairness and justice for the best interest of all the people of this fine county and not to the interests of a select few.

Why would my opponents be afraid of a new comer, anyway, if they have a qualified candidate who has lived in the county most of his life when the newcomer has only been in the county two and one half years? Is it possible we need New Blood in our Courthouse?
