Breck Man Wins Golf Tourney After Playoff

Houston Satterwhite of Breckenridge won the annual Lakeside Country Club invitation golf tournament last Sunday afternoon with a victory over Tim Bennie of Cisco in an extra hole match. Both had finished the regulation tournament with medal scores of 111 for 27-holes.

Bennie, the defending champion, hooked his tee shot on the first extra hole into a creek while Satterwhite drove up the middle. Bennie's recovery effort failed and Satterwhite took the hole.

Satterwhite was the consolation winner in the Lone Cedar Country Club's tournament two weeks ago and recently won the annual tournament at Breckenridge.

Sunday's medal play results in all flights follows:

THE GORDON SPOT

By DeMarquis (Dee) Gordon
Eastland County Extension Agent

We would like to congratulate Patsy Moseley for winning the first in the state 4-H Natural Resource demonstration. She completed 4th district winners from all parts of Texas at the state 4-Roundup June 5. The theme of her demonstration was the value of water conservation. Patsy lives at Olden. Lynne Phippen of Cisco is also due congratulations for representing the county well in the food preparation contest. She won a red ribbon at 4-H Roundup. Both girls have

livestock projects as well as their home economic projects. I will be out of the county for a period of three weeks, June 15 through July 7, attending National Extension School in Colorado. I am one of ten Texas Extension Service employees who will be attending the school at Colorado State University at Fort Collins, Colorado. The assistant county agent, Bob Cohen, will be in the county during this time and will be available if you need to call on him.

There have been a few calls this week concerning chinch bugs in lawns. Chinch bug infestations are usually more severe in periods of high rain fall.

These small insects are usually difficult to see and may cause damage before they are noticed. The adult bug is one-sixth to one-fifth inch long, has a black body, reddish yellow legs and fully developed wings. Each front wing is mostly white, but is marked with an irregular black patch at the middle of the outer margin. The newly hatched nymph (young) is bright red and has a whitish band across the back.

Chinch bugs suck the plant juices which results in yellowish or brown patches occurring in the lawn. Injured areas frequently are first noted along the edges of the lawn. As the insects continue to infest, the brown patches enlarge as the bugs begin to work outward.

In most cases, when chinch bugs are present in sufficient numbers to cause yellow or brown patches to appear in the lawn, they may be found by parting the grass in the damaged area and making close observations. If chinch bugs are present they will appear as small black or red bugs with white markings on their backs moving rather quickly when they are disturbed. When the insects appear in large numbers, they may be seen crawling over grass blades or along the sidewalk and other areas around the home.

If chinch bugs cannot be found by this method, their presence may be detected by using a metal can such as a coffee can with both ends cut out. Force one end of the metal can about 2 or 3 inches into the ground in the yellow portion of the grass or at the margin of the damaged area. After the can has been inserted in the grass, fill with water, and if chinch bugs are present, they will float to the surface within about five minutes waiting period.

Four insecticides are effective in controlling chinch bugs. They are Dazitox, Aspon, Ethion, and Trithion. The insecticides come in emulsifiable concentrate liquids and in granular formulations. Granular applications provide equal or superior control and are much easier to apply. The convenience of application strongly supports our recommending granular formulations. It can be applied with a fertilizer applicator. Other trade names for Dazitox are Spectracide, Dipofene, and Diazol.

38 Texans Are Expected To Die In July 4th Accidents

AUSTIN—The acting director of the Texas Department of Public Safety has called for "heads up" driving on the part of Texas motorists over the upcoming four-day Fourth of July weekend to help bring about a reduction in the estimated toll of 38 lives in traffic during the holiday period.

Wilson E. (Pat) Speir announced that "Operation Motorcade," a "special" emphasis program designed to focus attention on the added dangers of holiday travel, will be in effect from 6 p. m. Wednesday, July 3, through 11:59 p. m. Sunday, July 7.

Traffic fatalities will be tabulated by the DPS throughout the period, and the totals will be announced officially three times daily as a means of keeping safety uppermost in the minds of the motoring public, he said.

"It is a known fact that the unusually crowded conditions of the highways on Independence Day holidays makes

driving more hazardous than usual," Speir said. "Past experience and the present trend of traffic deaths indicate that 38 persons will lose their lives in traffic accidents during the 102-hour period of the holiday this year, according to DPS Statistical Services. This means that on the average one person will be killed in traffic every two and-a-half hours.

"Of course, we hope this proves to be too high an estimate, and will do everything we can to keep down the expected toll of lives and suffering from accidents. As part of this effort, we will be utilizing additional personnel from our other uniformed services to augment the regular Highway Patrol force during the holiday period.

"However, the most important effort needs to come from the drivers themselves who, of course, have the most at stake. We can talk all we please about inadequate highways, we can talk about mechanical defects, but in the end, the vast majority of all accidents and fatalities can be traced directly to misbehavior, misjudgment, recklessness, negligence, and mixing drinking and driving.

Disability Work Credits Are Reduced

Persons becoming disabled before age 31 will now need fewer work credits to get disability benefits than they did prior to the 1967 amendments, according to a report from the Social Security office in Abilene.

The report stated that if a person is disabled between the ages of 24 and 31, he needs credits for one half the time between age 21 and the time he becomes unable to work. If one is disabled before he reaches age 24, he needs only one and a half years of work credits out of the three-year period ending when the disability began.

Persons who become disabled before age 31, should contact the Social Security office in Abilene.

A Social Security representative will be available for consultation during July at the following places at 10 a. m. on the dates specified:

- Cisco Chamber of Commerce, July 3, 17, 31.
- Eastland County Court Room, July 2, 16, 23.
- Gorman city office, July 8.
- Ranger city hall, July 10, 24.
- Rising Star city hall, July 22.

'Sew With Wool' Contest To Begin

The American Wool Council is sponsoring "Make It Yourself With Wool" again this year, announces Mrs. Janet Thomas, Eastland County Home Demonstration Agent.

The main requirements are that a girl or woman select, cut, construct, press and model a 100 percent wool coat, suit, or dress. The fabric can be loomed or knitted in any American Mill. Bonded fabrics with a 100 percent wool surface are accepted.

The age divisions are 14-16 (Juniors), and 17-21 (Seniors Adults) (over 21) and sub-divs (10-13) will have competition in Texas only.

Eastland County is in District 2 with the district judging to be on Dec. 7. State competition will be held Dec. 14, at Texas Tech College in Lubbock. The National Contest will be held in San Francisco with top prize consisting of a two week trip to Europe, college scholarship, plus many other worthwhile gifts.

The Home Demonstration Agent's office has entry forms which should be mailed soon. Those that enjoy sewing and are interested are encouraged to enter.

Mr. and Mrs. Roy Barnhill and daughter were weekend guests of her parents, Mr. and Mrs. J. C. Laird of Dallas.

Mrs. Faye McCleskey has returned from a visit with relatives and friends in Dallas, and Gladewater.

Fort Griffin Fandangle To End With Shows This Week

Performances Thursday, Fri- Fort Griffin Fandangle at opening three shows June 20-22 and applauded the pro-grams. day and Saturday nights, June 27-29, will conclude the annual Good crowds attended the Prairie Theater in Albany.

MODERN PATROL CARS of the Texas Department of Public Safety will be cruising Texas highways in full force over the long July 4th weekend. Trained and experienced officers of the DPS will render assistance, promote a safe and smooth flow of traffic and enforce the law.

This is the 30th anniversary of the Fandangle, which features a show filled with the vibrant spirit and exciting action of frontier times.

The ideas for Fandangle scenes have been gathered from old books and from the memories of descendants of the pioneers who settled in Shackelford County. The show musically portrays the character of the lawful and the lawless in a happy blend of poetry and pageantry which is never stilted or slow-moving.

The Fandangle is the story of a land and its people — people who made their era bright with courage, determination, and daring, with horse sense, earthiness and humor. And just as the pioneers were molded by their prairie setting, so is the Fort Griffin Fandangle enhanced by the scenic vista of its Prairie Theatre.

The show is played on an acre-sized stage with a background of hills and seating

for 1,600 people. It contains trees and wildflowers, a little river and trails over which a herd of longhorn cattle may be driven into the spotlights.

The Theater was especially created for the Fandangle as a dramatic emphasis to complement the many facets of pioneer life portrayed by the show. Indians, buffalo hunters, a stage coach and a steam locomotive, an entire street scene of gaily painted buildings, all find a natural niche.

The Fandangle has achieved national acclaim. It is Texas' oldest outdoor drama and enjoys the reputation of being a true people's theatre. Few members of Fandangle audiences are ever content to see the show only once, but return again and again to bring others with them.

Tickets to the Fandangle are available at the Fandangle-Chamber of Commerce office in Albany. Ticket prices are: Box seats, \$5; chair seats, center section and first rows of side sections, \$3.50; chair seats, side sections, \$2; bleacher seats, \$1.50.

Barbecue, catered by an Abilene firm, will be served each evening of the Fandangle, beginning at 5 p. m. A concert will be played on the parade will be staged at 6 p. m.
