Bureau Barbecue, Queen Contest To Be Friday Night

The Eastland County Farm Bureau Barbecue and Queen's contest will be held Friday August 8 at the Eastland City

In this corner, with COLLINS

LIKE BALOGNA, August is August and there's nothing we can do except try and beat the heat to a survival degree. . . One Rangerite, K. R. Fultz came home for a visit with his family and has returned to his work in North Slope, Alaska; where you have to look south to see the North Pole. . . Down at Ranger Rexall, Wayne Mathews says his newly-installed air-conditioner works so well, he's considering discontinuing Fresca drinks for fear the place might frost over. . . Over in Austin, Tom Croighton of Mineral Wells is the "Shirt-sleeved Senator" during the special session of legislature. He was allowed to doff coat because of painful burns to hands and arms received when a can of gasoline exploded at his home in Mineral Wells.

PERHAPS YOU noticed we haven't done any walking on the moon in this column. Being from the country, we decided to stick closer to home, both geographically and editorially. Of the many stories we've read, two stand out for their humor and message. To J. Evans over Hamilton way, the event stirred memories of Model-T days; to Cong. Omar Burleson, memories of the T & P train making it's dramatic departure from Anson. The message — Everything is great in it's day — Everything will one day become passe.

IN HOSPITAL — O. R. Gafner is a patient in Baylor Hospital, Dallas. Friends may address him at Room 2234, in care of the hospital.

MOVING DAY for Rangerites: Mr. and Mrs. E. E. Reeves are now at home in Dallas where he is employed with the Dallas Construction Co. . . Mr. and Mrs. L. P. Davenport and family to Oklahoma City, Okla. on Saturday and is now at home, 10695 Lyndon Rd., Oklahoma City, 73120.

SUMMER CLASSES IN SPEED READING SET FOR CISCO, EASTLAND AND RANGER

The famous Cutler Accelerated method of speed reading, created by Dr. Wade E. Cutler who holds a doctorate in psychology, will be taught here this summer in both day and evening classes.

The average person today reads some 200 words per minute with about 60% comprehension — a rate inadequate to cope with today's reading demands in school, college, and business.

This widely acclaimed course guarantees its graduates will read at least 1,000 words per minute with a definite increase in comprehension.

Many graduates of the nine week program far exceed the guarantee and complete with rates of 2,500 and more words per minute with far better comprehension.

Concentration, recall, study and test-taking skills show a remarkable degree of improvement.

Such achievement means that a person can read books of average length in 45 minutes or less, and understand, remember, and enjoy them better than ever.

This remarkable accelerated reading and study course is offered here exclusively by Accelerated Education Schools with locations in Dallas, Amarillo, Denton, and some 30 other Texas, New Mexico, and Oklahoma cities.

This professionally conducted course boasts nearly 10,000 successful graduates due to its common sense approach to better and faster reading, and to its staff of professionally qualified master teachers.

A series of meetings has been scheduled for those in this area who desire to know how they too may learn to read with greater speed, power, and efficiency.

At these free one hour orientations, full details about speed reading and the unique Cutler Accelerated Method will be given to those forward-looking persons attending.

Since there is no cost or obligation by attending, you owe it to yourself to attend the time most convenient for you.

Drop in and find out how you can make 1969 a more successful year.

All meetings are open to the public, and will be conducted as follows:

County Farm Bureau Endorses Nos. 2, 4

Future irrigation needs for agriculture and drinking water for rural areas are involved in two of the nine proposed constitutional amendments to be voted on in the special election August 5, according to Jack Cozart, of Cisco, president of the Eastland County Farm Bureau.

Proposed Amendment No. 2 (H. J. R. 9) on the ballot would grant the powers and flexibility of operation to the Texas Water Development Board necessary to develop sufficient water resources for present and future economic development of the state. The proposed amendment contains those constitutional changes necessary to implement the Texas Water plan.

Proposed Amendment No. 4 (S. J. R. 6) on the ballot would exempt non-profit water supply corporations from ad valorem taxation. This would give the many rural water systems that have been set up in recent years the same tax status as municipal government water systems.

The Texas Farm Bureau supported both of these proposals in the recent regular

61st session of the Legislature, Cozart said. In regard to Amendment No. 2, the Farm Bureau policy on the matter states that any water plan for Texas must be "equitable" to all sections of the state, Cozart explained.

Both of these water-related propositions are important to agriculture and rural areas, the county farm leader asserted.

"Therefore, I am urging all voters of Eastland County to go to the polls on August 5 and cast their ballots for both Amendment No. 2 and Amendment No. 4," Cozart said.
