BIG SCHEME

A PLAN TO EQUIP BROOKLYN BRIDGE WITH MOVING SIDEWALKS IS UNDER WAY.

HAS GOOD BACKING

MEN OF GREAT PROMINENCE BEHIND THE MOVEMENT.

FIGURES ARE APPALLING

More Than 70,000 Persons Will Be Able to Cross the Bridge Every Hour Under the New Arrangement.

New York, June 12.—It is learned, says the Herald, that behind the plan to equip the Brooklyn bridge with moving sidewalks are men of great prominence in the railroad and financial world. They have, it is stated, perfected a preliminary organization and if their proposition is viewed favorably by the officials of the city who have power to act they will organize a corporation under the laws of this state and become practically a local concern.

It has been agreed by the representatives of these men that they will within one year equip the bridge with moving sidewalks at their expense and will pay the city \$150,000 a year for the privilege of operating them. They have agreed to charge not more than 1 cent a person for each crossing. There will be no total suspension of traffic at any time during the progress of the work, they promise, and the public will not even be inconvenienced for more than four days or certainly a week while the terminals are being put in place.

According to the plans drawn by the company's consulting engineer there will be four speeds in the sidewalks. The outer rim on which the passenger will first step will move at the rate of 2 1-2 miles an hour, the second at 5 miles an hour, the third at 7 1-2 miles an hour and the fourth and main belt at 10 miles an hour.

ments is that the present conditions can be more certainly and quickly remedied by its plan than by any other that has been suggested. In less than a year, they promise, more than 70,000 persons will be able to cross the bridge every hour without crowding and with a seat for every passenger. More than that, they declare, at the time saved by each person in crossing were multiplied by the number of persons who make the trip every day, the total would be so astonishing as to stagger any one who has not made the computation.

It is proposed to operate the moving sidewalk for about 10 out of the 24 hours during the times of the greatest crush of the passengers and to operate the trolley cars as at present the remaining portion of the time thus giving opportunity to inspect the sidewalk and keep it in perfect condition.

SPECULATION RATHER SPOTTY.

The Week in Wall Street Somewhat Less Active Than Usual.

New York, July 12.—There has been quite an active but spotty speculation in a limited number of prominent stocks this week, interrupted by occasional profit taking. The large majority of stocks were neglected and there were weak spots amongst the industrials. The promising outlook for a large corn crop and the activity and prosperity in all lines of business induce a determined holding of stocks by owners. The deadlock in the anthracite miners' strike is a weight on the market. The heavy and unexpected demand for currency in the interior has averted exports of gold, but has caused uneasiness by the inroads threatened upon New York bank reserves.

A QUADRUPLE KILLING AT PORTLAND, ORE.

A. L. Belding Kills His Wife, His Mother-in-law and a Suspected Lover and Fatally Wounds His Father-in-law.

Portland, Ore., July 12.—A. L. Belding, a bartender, shot and killed his wife, his mother-in-law, Mrs. L. McCroskey, and Frank Woodworth and fatally wounded his father-in-law, L. McCroskey. Belding suspected Woodworth of being intimate with Mrs. Belding and that the others knew of it. He gave himself up to the police.

PLAINT OF DULLNESS IS HEARD BY ALL

CONDITIONS CALCULATED TO CAUSE MUCH YAWNING.

Effect of Trust Prices—Shortness of Cotton Crop Also a Factor in Bringing About An Unsatisfactory State of Affairs.

Shreveport, La., July 12.—(Special.) Ask a Shreveport merchant how business is. Unless he happens to be some man who is not affected by ruling conditions, his reply will be the one word—"Dull." There is no doubt that general business is dull in Shreveport. The effect of high-price food and food products is beginning to manifest itself, not to any serious extent, but in a degree that the business community feels, nevertheless.

THE STAGNATION.

In the city's commerce is more sharply realized, perhaps, because for the past few years this city has been one of the most fortunate in the Southwest in the matter of prosperous growth and stirring activity among all trades. Added to this, in 1900 Shreveport was in the center of an area that produced a barge cotton crop than ever before. The market was good and everybody made money. The result was that last year the shortage in cotton was overcome by the surplus of the year before, and the effects of the failure of

CORN AND FOOD PRODUCTS.

are just now being felt. "Then, too," said a prominent dry goods merchant today, "there is not the amount of work going on now that there was last year. Of course, high prices is the main factor in bringing about dull conditions. Last year the farm laborer could get all that he wanted from his supply merchant, and if he wanted \$10 or \$15 now and then it was given him without reluctance.

"THE RETAIL TRADE was therefore kept active. This year the reins are drawn tighter because the necessities are so high that economy is the watchword in order to make a proper adjustment of the ends when accounting time comes."

Last season the cotton receipts at Shreveport aggregated 311,000 bales.

THE CLOSE

of the present season is in sight and the total receipts will be nearly 100,000 bales less. So large a falling off could not but be an indication of less business and a comparatively dull summer.

TO COCKRELL

EFFORT BEING MADE TO LAND DALLAS MAN FOR STATE DEMOCRATIC CHAIRMAN.

PROXIES SOUGHT

NORMALLY TARRANT COUNTY IS FOR JIM WELLS.

HE FAVORS UNIFORMITY

Judge Armstrong Gives Interview Vindicating Lower Rio Grande Man and Tells About Primary Resolution, Delegation to Galveston.

Lively work is going on among Tarrant county delegates to the State convention for proxies and votes in favor of Cockrell of Dallas for state chairman. Normally the delegation is for Jim Wells of Brownsville, but a large number of proxies have been secured by Q. T. Moreland and others in favor of the Dallas man.

"There is no fight," said Mr. Moreland this morning, "but some of Mr. Cockrell's friends, I being one of them, will endeavor to elect him. It is a personal matter purely, as Mr. Cockrell and I were schoolmates. Whatever may have been Wells' position on uniform primaries, he is for them now, I understand."

As far as known the chairman of the Tarrant county delegation has not been settled and no candidate proposed. Its vote will be a unit one.

Judge George W. Armstrong, a member of the executive committee is not in sympathy with the fight being made on Wells and explains the chairman's attitude during the Dallas gathering this spring.

"Mr. Cockrell's friends are endeavoring to elect him chairman of the State Democratic executive committee because he introduced a resolution requiring all counties to hold primaries or conventions for sending delegates to the State convention on a fixed and uniform date, which failed to pass," said Judge Armstrong. "They seek to hold Chairman Wells solely responsible for the defeat of this resolution. Judge Nash, in a newspaper article, advocating the cause of Mr. Cockrell, asserts that the resolution would have been adopted but for the opposition of Mr. Wells. This is unjust and unwarranted. Mr. Wells did not vote on the resolution. The 16 or 18 members of the committee who voted against the Cockrell resolution came from different sections of the state. They were not his enemies; the most of them were practically strangers to him. The resolution was defeated because it was too radical and too harsh, and not because of the opposition of Mr. Wells."

"It will be remembered that when the committee convened at Dallas, primaries had already been held in Cooke county and perhaps other counties. They had been called, and the dates fixed for holding them in a number of counties, including Dallas county, the home of Mr. Cockrell and Judge Nash. Suppose the Cockrell resolution had been adopted, what would have been the result in Cooke and the other counties that had held primaries? Necessarily there would have been contesting delegations or the county would have been disfranchised. The delegates elected in the first primaries in Cooke county would have gone to the convention instructed for Colquitt for railroad commissioner. The delegates elected in the second primary might have gone instructed for Hornsby or Curtis. All of the state candidates would have been put to the labor and expense of a second campaign. If the county executive committee of Dallas county had refused to rescind its action fixing the date for holding its primaries, as would most likely have been the case, the result would have been the same. Thus the adoption of the Cockrell resolution would have been burdensome to the candidates and would have created strife, bitterness and injustice."

"According to Judge Nash, all the evils of our primary system are due to the fact that they are not held on the same day. And the reason they are not held on the same day is due to Mr. Wells, and therefore Mr. Wells should be retired as chairman and Mr. Cockrell put in his place. I am not at all interested in this chairmanship contest, but I believe in fair play. I do not know what Mr. Wells' position was in 1898, but I do know that in the committee room in 1902 he opposed my position as much so as he did the Cockrell resolution. I know that the only difference between him and Mr. Cockrell at that time was that Mr. Cockrell was in favor of disfranchising the counties that refused to hold primaries, on the date fixed by the committee, while Mr. Wells was opposed to this."

The Tarrant county delegation, which is as follows will leave Sunday and Monday nights: W. P. McLean, Sr., H. M. Chapman, William Capps, W. A. Hanger, W. H. Carter, C. E. Stewart, W. P. McLean, Jr., M. A. Spooner, R. H. Tucker, William Lahey, B. D. Tarleton, J. H. Thrasher, Thomas Spruance, R. M. Wynne, F. R. Wallace, Q. T. Moreland,

Grand Rapids, Mich., July 12.—The Michigan monument commission authorized by the last legislature to secure a suitable monument to the memory of the soldiers of the war of 1861-65 and the Spanish war, to be placed upon the capitol grounds at Lansing, met in this city today. It was decided to send invitations to monument makers to offer designs for a memorial hall and arch. Gen. H. M. Duffield of Detroit is president and D. J. Campau of Detroit, is secretary of the commission.

THE NEW "MAINE" READY FOR THE TEST

The Most Powerful and Likewise the Fastest Battleship That Cramps Have Built for Uncle Sam.

New York, July 12.—The battleship Maine has been under construction in Cramps shipyards since the spring of 1899, and will leave for her builders' test of the Delaware capes on Tuesday afternoon, says a Philadelphia dispatch to the Herald. The trial will take place on Thursday and it is expected the Maine will be again moored at the shipyard on Friday.

Easily the most powerful battleship that the Cramp yard has turned out for the United States navy, the Maine also is planned to be the fastest. She must attain 18 knots speed, the same requirements for the Russian battleship Retvizan, recently completed at the yard. In most respects the Maine and the Retvizan are alike.

The keel of the new Maine was laid on February 15, 1899, the anniversary of the destruction of the old Maine in Havana harbor. There was a delay in her construction, resulting from the controversy over the question of armor plate. She was launched on July 27, 1901, Miss Mary Preble Anderson of Portland, Me., a descendant of Commodore Preble, being her sponsor.

The Maine is 388 feet long on the load water line. Her beam extreme is 72 feet 2 1-2 inches, her draught 23 feet 10 1-4 inches and her displacement 12,500 tons.

CONQUERING HERO RETURNS HOME

LORD KITCHENER ARRIVES IN LONDON.

He Is Accorded a Rousing Reception—His Vessel Held at Quarantine Because of Small Pox—Other London Advises.

Southampton, July 12.—The steamer Orotava which left Capetown June 23 with Lord Kitchener and staff on board arrived here at 8:30 o'clock this morning. Owing to the fact that Maj. Gordon who also was a passenger on the steamer had been stricken with small-pox, Lord Kitchener and staff only were allowed to land.

Lord Kitchener landed at 9:15 a. m. He was accorded a magnificent welcome from the huge throng of people. After a brief official reception at the docks the general was driven through the decorated and crowded streets to Hartley hall, where he received an address from the chamber of commerce.

GREETED BY CHEERING CROWDS.

A Noisy Welcome for the Hero of the Hour.

London, July 12.—Lord Kitchener arrived at the Paddington railroad station at 12:48 p. m. and was greeted by cheering crowds. The prince of Wales welcomed Kitchener at Paddington where an address was presented to the general. The latter shortly after started for St. James palace arriving at 1:27 p. m. The prince of Wales was already there awaiting him.

Other News From London.

London, July 12.—Whitelaw Reid, the American special ambassador, and Mrs. Reid will pay a week end visit to the Duke and Duchess of Marlborough at Blenheim, returning on Monday for private engagements for several days. They will go to Liverpool on Thursday where the Lord and Lady Mayores will hold a reception for them and where Mr. Reid will make a short speech at the banquet of the American chamber of commerce. They will be in Scotland four or five days, visiting Andrew Carnegie. They will return to London for Lord Roseberry's dinner on July 22 and are now expecting to sail on July 26.

Reports of the acquisition of the Cunard line by the Morgan combination can neither be confirmed nor denied with authority. The revival of these rumors is the natural consequence of the talk among the colonial premiers on the subject of steamship subsidies.

They are unwilling to discuss any plan or policy which includes subsidiaries for any line running between American and British ports and are leaving the Cunard managers and shareholders to work out their own salvation without help from any portion of the empire.

There is now a general understanding among the colonial representatives that the imperial conference will not act upon the subsidiary question, since Colonial Secretary Chamberlain prefers to have the colonies agree upon a general scheme before the co-operation of the British government is definitely proposed.

The authorities of Scotland yards have been heavily taxed throughout the period destined for the coronation festivities by their supervision of the anarchists and political refugees who flocked to London from abroad and whom the presence of so many foreign princes made it necessary to watch very carefully. It is understood that over 1000 anarchists and political refugees, some of the former being quite notorious, have been under surveillance of the Scotland yard people. This surveillance was so keen as to lead the objects thereof to suspect betrayal by their comrades, with the result that there have been several severe quarrels at the anarchists' clubs lately in which many members were stabbed.

At Buckingham palace the following bulletin was posted at 10 a. m. today:

"King Edward is making excellent progress. On account of his majesty's satisfactory condition, bulletins will be issued on alternate days only. (Signed) Treves, Laking, Barlow."

STRUCK IN SYMPATHY.

Truck Drivers in Chicago Tie up Every Freight House in the City.

Chicago, July 12.—Members of the Truck Drivers' union, as individuals, in sympathy with the striking freight handlers, refused to haul freight this morning and every freight house in the city is tied up. The freight handlers held a number of meetings today at which committees were appointed to visit the railroad managers in accordance with the plan proposed by the board of arbitration.

IF YOU ARE SICK

And Need Medicine for Your Kidneys, Liver, Bladder or Blood, Get the Best.

Dr. David Kennedy's Favorite Remedy.

If you are suffering from kidney or bladder disease, the doctor asks: "Do you desire to urinate often, and are you compelled to get up frequently during the night? Does your back pain you? Does your urine stain linen? Is there a scalding pain in passing it, and is it difficult to hold the urine back? If so, your kidneys or bladder are diseased."

Try putting some of your urine in a glass tumbler, let it stand twenty-four hours. If there is a sediment, or a cloudy, milky appearance, your kidneys are sick.

Dr. David Kennedy's Favorite Remedy will surely relieve and cure the most distressing cases of these dread diseases, and no physician can prescribe a medicine that equals it for kidney, liver, bladder and blood diseases, rheumatism, dyspepsia and chronic constipation.

Walter D. Miller, of Delhi, N. Y., writes:

"I suffered for years with kidney trouble and severe pains in my back, at times it was so bad I could hardly walk. My stomach also troubled me and I frequently had twinges of rheumatism. I suffered a great deal and received no benefit until I began the use of Dr. David Kennedy's Favorite Remedy. After taking it a short while it cured me."

ANOTHER SEA SERPENT SIGHTED

This Time It Was Off Halifax and Made Jim Hill Move On.

New York, July 12.—Again the sea serpent has been sighted. According to a World dispatch from Halifax, it measures 200 feet in length and was observed by pilots off Cranberry Head. It is alleged to have come near the entrance of the harbor and then passed on to the north.

The American steam yacht Wacoupa, with J. J. Hill, president of the Great Northern railway, and his party was coming into the harbor at the time, and it is said was obliged to haul out of the serpent's way.

THEY CUT OUT OLD BRAND

SKIN STEERS ALIVE TO ERASE OWNER'S MARKS.

Extensive System of Robberies Discovered Near Greeley Colo., and Two of the Perpetrators Are Arrested.

Greeley, Col., July 12.—(Special.) Jack Quinn and Ed Maroney, two cowboys, were arrested this morning for a new crime. They had charge of several big bunches of cattle. It is the custom when the cattle die to remove the brand and receive pay or credit for the same at the end of the year. These two men would take live cattle, remove the brands by skinning, and after keeping the animal a few days put on their own brand. Thus they made money both ways, getting an additional stock of live creatures and pay for presumably dead ones. The cruelty of the work and its oddity makes it an offense hitherto unknown to cattle men. The men had large blocks of fenced in grounds herding the cattle of other owners, which gave them an opportunity to carry on their illegitimate traffic.

LATE ARRIVALS AT PANAMA

General Holguin and Consul Nast Visit the Panama.

New York, July 12.—The Spanish steamship Montserrat from Havana has arrived at Colon with Gen. Holguin, former minister of war, on board, cables the Panama correspondent of the Herald. Gen. Holguin was exiled about one year ago along with Gen. Pedro Del Ospina and several other prominent members of the conservative party.

Gen. Holguin left Thursday evening for Barranquilla, en route, it is supposed, to Bogota.

Thomas Nast, the United States consul to Guayaquil, who arrived in Colon recently from New York, came over to Panama on Thursday. He will leave on Monday for his post.

While at Colon he visited the United States gunboat Machias, and on leaving the vessel a salute was fired in his honor.

SITE OF ANOTHER FRENCH MONUMENT

One Will Mark the Spot Where the French Landed in 1781 to Assist the Americans in Their Struggle for Freedom.

Newport, R. I., July 12.—Dr. H. H. Kane, president of the Circle Litteraire Franco-Americaine of New York and other representative Frenchmen, arrived here recently to locate the site of a proposed monument in honor of Admiral De Ternay, who commanded the French allies, which came to this country during the American revolution.

A site was selected on the harbor park or esplanade where stood formerly an old pier on which the French landed in 1781 and here a triangular stone with the date July 1, 1902, was placed in position and upon this the monument will be erected. The stone was taken from a granite quarry on the estate of Lorillard Spencer from which the stone for the old pier and the old fort built during the revolution was taken.

The exercises consisted of addresses by Mayor Boyle, Lieut. Gov. Shepley, John Austin Stevens and Rev. A. E. Favre, a French Protestant clergyman from Paris. Prayer by Rev. Wm. B. Meenan of St. Mary's Roman Catholic church of this city closed the exercises.

PIG IRON PRODUCTION.

Reports for Canada Show a Large Percentage of Increase.

New York, July 12.—Reports to the American Iron and Steel association show that on December 31, 1901, there were in Canada fourteen furnaces for production of pig iron and four more buildings with an annual capacity of 1,090,200 tons. There were eighteen rolling mills and steel works and two buildings, with an annual capacity of 838,400 tons of steel and 381,900 tons of rolled product.

Canada's production of pig iron in 1901 was 244,975 tons, a gain of 184 per cent over 1900.

Safe From Summer Complaints

All mammas, and papas too for that matter, dread the heat of summer with its danger for the little folks, especially the babies. It is simply heart-breaking to read year after year about the great death rate among children caused by the summer's heat. Yet it is easy to protect the infants against all summer complaints, because we know that all these fearful perils have their beginning in stomach and bowel troubles, and we have a perfect family medicine that will keep the delicate machinery in a child's body clean, regular and in healthy working order in the hottest weather—CASCARETS Candy Cathartic. The plump, bouncing, crowing baby shown here is a CASCARET baby. He feels that way winter and summer. Nursing mammas take a CASCARET at bedtime, and it makes their mother's milk mildly purgative and keeps the baby just right. Older children like to take the fragrant, sweet little candy tablet, and are safe from colic, gripes, diarrhoea, summer rash, prickly heat and all the mean troubles that summer brings with it.

LIST OF VICTIMS OF THE EXPLOSION

ONE HUNDRED AND FIVE MEN ARE KNOWN TO BE DEAD.

The Mine Workings Were Thoroughly Explored Last Night, It Is Thought the Death List Will Not Be Increased.

Johnstown, July 12.—One hundred and five are now dead from Thursday's explosion at the Rolling Mill mine of the Cambria Steel Co.

It is not probable this record will be swelled to any great extent and in no case is it expected the list will exceed 110 or 115.

The mine workings, which it was dangerous to enter yesterday, were thoroughly explored by a searching party during the night.

It was learned at Pittsburgh today from mine officials that every heading and chamber both to the right and left of the main klondike heading were penetrated during the night and not a trace of any dead or living victims was found.

It is admitted some might have crawled into obscure workings in their flight from the after damp which followed the explosion and these succumbed to the fatal influence of gas.

MAN WITH A RECORD, DEAD.

A New York Merchant Who Did Things, Is No More.

New York, July 12.—William Heath Lyon, who for many years, was a leading citizen of this city, is dead at his home in Brooklyn. Mr. Lyon served as a member of the board of commissioners for purchasing supplies under eight administrations. He is said to have been the first American merchant to enter Paris after the revolution of 1848. Mr. Lyon is said to have been the first New York merchant in his line of business to visit Europe for the purpose of procuring a better assortment of fancy goods and small wares than could be obtained from New York importers.

CALL TO SONS OF CONFEDERATES

LARGELY ATTENDED MEETING DESIRED TOMORROW AFTERNOON.

Action Necessary for Preparation to Attend the State Reunion to Be Held July 30 and 31.

Members of R. E. Lee camp, No. 239, U. S. C. V. Dear Comrades—It is no doubt a pleasure to every one of you, as it is to myself, to contemplate the fact that ours is the banner camp of the confederation, and that through the influence of this camp largely, the state of Texas has won the highest honors in the gift of that body. This is a just pride, and no heart should chide itself for being stirred thereby. On the contrary, it should be our ambition not only to hold the place of honor that has already been won, but to move up a step higher.

We cannot afford to go backward or become indifferent. The cause is as sacred and the obligation as binding as when our names were first placed upon the rolls. Every member of this camp wants to do the right thing to perpetuate its organization and make certain its future usefulness, and no one can question that the combined intelligence of 1200 worthy sons with hearts prompted by devotion to a glorious cause, will enable them to take the proper steps.

Our work is not done. On the other hand it is scarcely begun. There are inviting fields ahead of us, scenes of pleasant association and useful service. Would any one deny himself the honor and pleasure of being a participant in them? Certainly not. It goes without question that each one feels a keen and abiding interest in the camp and the cause for which the camp stands, which rises above all personal consideration, and whatever is best for the general good will meet with hearty cooperation.

As your lieutenant commander, recognizing that our commander, Hon. O. S. Gillespie, has other duties of a public character, which justly claim his attention at this time, I take the liberty of addressing you this letter in the interest of a cause which we all love.

Since the National reunion, the attendance at our regular camp meetings has been small. So small, indeed, that those present have hesitated about the transaction of urgent business. Our State reunion is near at hand and there is much to do for the camp to be in readiness for this meeting. It is desirable to have a full attendance on tomorrow at 3 p. m., July 13, that full preparation may be made for that occasion and that everything may be done with the full understanding and cooperation of the camp. Let all who possibly can be present that we may have a full and free expression upon all matters of interest to the cause. Respectfully,

GEORGE W. CLARK, Lieut. Com.

THE PERFECT LIVER MEDICINE.

Mrs. M. A. Jolley, Noble, O. T., writes: "I have used Herbine for a number of years, and can cheerfully recommend it as the most perfect liver medicine, and the greatest blood purifier. It is a medicine of positive merit, and fully accomplishes all that is claimed for it." Malaria cannot find a lodgment in the system while the liver is in perfect order, for one of its functions is to prevent the absorption of fever producing poisons. Herbine is a most efficient liver regulator. 50c at H. T. Pangburn & Co.'s.

AWAITING MATERIAL FOR THE BIG VIADUCT

The Delayed Arrival of Steel Columns Causes a Let-Up in the Progress of Construction.

Contractor Leversedge has reduced his force of viaduct builders temporarily on account of the non-arrival of a shipment of steel columns which was sent out from the mills several days ago, he having received a telegram to that effect on last Monday. Up to this time Mr. Leversedge had reason to believe that there would be no further delay in the construction. He hopes to see the material rolling in, and is making a determined effort to locate it en route.

In the meantime a small force is working getting in readiness such parts of the structure as they can proceed with pending the arrival of the columns and other material now on the road somewhere.

SPECIAL SUMMER RATES

Draughon's Practical Business College.
The special summer rates given by Draughon's Business College, Board of Trade building, corner Seventh and Houston streets, has been the means of said college enrolling an extra large number of students during the summer months. The college halls are well ventilated, and especially suited for summer school. Prof. Draughon is the proprietor of flourishing business colleges located at different places and he is author of four text books on bookkeeping, some of which have the largest sale to practical bookkeepers and business men of any published. He has recently adopted the plan of allowing worthy students of limited means to pay for about 50 per cent of the tuition after the course has been taken and the college has secured for said student a position, and not required the student to give security.

Prof. Draughon's colleges are strongly endorsed by business men. One will know more about bookkeeping by taking a twelve weeks' course in one of his colleges than by attending almost any other business college six months. His schools also offer advantages in shorthand and typewriting, second to none. Penmanship free to those who take the bookkeeping or shorthand course. About twenty-five per cent of the students attending Draughon's colleges are graduates of other business colleges. Call or send for Prof. Draughon's catalogue before entering elsewhere.

A WASTE OF MONEY

IN FRUITLESS EFFORTS TO CURE STOMACH TROUBLES.

Not Artificial Digestion But Natural Digestion Is What Is Needed—How This May Be Obtained.

More money is spent experimenting with worthless medicines for stomach trouble than for any other disease. These preparations may temporarily aid digestion but they cannot cure indigestion. They go at it the wrong way. To permanently cure indigestion, dyspepsia or other stomach trouble the medicine should act upon the digestive organs themselves—not upon their contents. It should not do the stomach's work but should make the stomach able to do its own work.

This is what Dr. Williams' Pink Pills for Pale People will do as no other medicine can. They are not composed of digestive ferments, which promote an artificial digestion, but tone up the stomach, restore the weakened functions of the digestive organs and thereby promote natural digestion. A case in point is that of Arthur McLaughlin, of No. 2728 North Lincoln street, Chicago, Ill. He says:

"For a long time I was troubled with severe pains in the stomach—a case of chronic indigestion. I would feel a craving for food, but when I ate I experienced those wretched pains which nearly drove me distracted. My kidneys also became affected. I tried several different stomach medicines and, for a while, they seemed to help me. Then the same old pains would come back. This went on for nearly two years and at times I was pretty much discouraged.

"One day a friend advised me to try Dr. Williams' Pink Pills for Pale People. I did so. Before I finished a box the pains were less frequent and less severe, and by the time I had finished three boxes the pains were a thing of the past. Now I can eat anything and enjoy it and I feel like a new man."

Dr. Williams' Pink Pills for Pale People will not only cure stomach trouble but are a positive cure for all diseases arising from impoverished blood or shattered nerves. They are sold by all dealers or will be sent postpaid on receipt of price, fifty cents a box or six boxes for two dollars and fifty cents, by addressing Dr. Williams' Medicine Company, Schenectady, N. Y.

FORT WORTH WON YESTERDAY.

Leaguers Defeated Corsicana in a Score of 9 to 3.

Sullivan's Panthers did nicely with the Corsicans in Haines park yesterday afternoon, and beat the first pennant winners in a score of 9 to 3.

McKay in the box wore his old time deliberate habit. Seven hits were allowed the visitors while the Panthers touched up Method, the visiting pitcher, for an even sixteen. Until the sixth inning the game was an even one. It was then that Fort Worth took on its winning streak.

The Corsicans are here today and tomorrow. Yesterday's game by innings:

Fort Worth1 0 0 0 0 6 1 1 0—9
Corsicana1 0 0 0 0 0 2 0—3

No game was played in Dallas with Paris yesterday on account of rain.

WARNING.

Tenderness, aching in the small of the back is a serious symptom. The kidneys are suffering. Take Smith's Suro Kidney Cure at once. STRIKE SETTLEMENT NOT AUTHORIZED

The Texas and Pacific's Machinists Are Still Out in Fort Worth.—Working Elsewhere.

The machinists who left their benches in the Texas and Pacific shops last May, and whose differences with the company were believed settled last Monday, have refused to resume work in Fort Worth until the men placed to work during the trouble are removed.

The settlement effected in Dallas early in the week was thought acceptable to the men, and seems so to have been at all points save Fort Worth. Here the men say no authority had been given to settle on the basis which prevailed.

In the meantime repair work in the shops here continues.

Sound kidneys are safeguards of life. Make the kidneys healthy with Foley's Kidney Cure. Sold by Reeves' Pharmacy, Ward's Pharmacy, Arlington Drug Company.

On the last day of the congressional session just closed Senator Spooner, while talking about the Philippines, said something which Senator Patterson did not like. "I withdraw the remark," said Spooner. Patterson said he objected more to the Wisconsin man's manner than to what he said. "I withdraw the manner," said Spooner promptly. The senator from Colorado still seemed aggrieved, whereupon Spooner said: "I efface myself entirely. I am expunged. Now, will the senator be satisfied?"

GOVERNMENT JOBS AT GOOD SALARIES

Civil Service Examinations Announced for Various Dates in August to be Held Here.

Secretary W. C. W. McKee of the local board of civil service examiners announces that on August 12 there will be examinations held here in the government building for provincial supervisor in the Philippine service, salaries ranging from \$1300 to \$2000 per annum.

Applicants for electrotypist in the Philippine service will also be examined. This position carries with it a salary of \$1400 per annum.

Positions are also open for nautical experts in the hydrographic office, a position which commands \$1000 per annum.

The age limit for these positions is 20 years or over.

Persons who desire to enter this examination should at once apply either to the secretary of the local board of examiners, or to the United States civil service commission, Washington, D. C., for application form 304, which should be properly executed and filed with the commission at Washington prior to the hour of closing business on August 2, 1902.

On August 11 there will be an examination under similar conditions to the above for teacher in the Indian service. From the eligibles of this examination a position will be given to a married man at Pine Ridge Day School, South Dakota, at a salary of \$600 per annum, and to other similar vacancies that may occur.

On August 12 and 13 examinations will be held for miscellaneous computer in the naval observatory. This position stipulates a salary of \$900 per annum.

August 12 and 13 there will also be examinations for hydrographic surveyor, \$1600 per annum.

On same dates applicants will be examined for interpreter in Arabic, Turkish, Persian, Greek, Levant and French languages, in immigration service, at a salary of \$1000 per year.

On September 10 an examination will be held for Japanese interpreter (male) for immigration service in Honolulu, Hawaii, salary \$4 per diem.

LONG RUN FOR THE MONEY.

One Passenger Would Travel 2356 Miles for \$5.

Transcontinental roads used a \$5 round trip rate to Los Angeles a few months ago, but in the history of Texas railroad never has been the price as low as \$5 for the same round trip. The impression prevails some places, however, that it has. City Passenger Agent Zurn of the Texas and Pacific received a postal card from Waco a few days ago asking when the \$5 round trip rate to Los Angeles would be "on" again.

About the best rate of the kind was that made to El Paso two years ago for the state teachers' association. As the Waco correspondent figures a long run for the money is wanted. To Los Angeles and return from Fort Worth is 2356 miles and at the rate proposed the passenger would ride 571 miles for \$1 or six miles for a cent.

Poisoning the System.

It is through the bowels that the body is cleansed of impurities. Constipation keeps these poisons in the system, causing headache, dulness and melancholia at first, then unsightly eruptions and finally serious illness unless a remedy is applied. DeWitt's Little Early Risers prevent this trouble by stimulating the liver and promote easy, healthy action of the bowels. These little pills do not act violently but by strengthening the bowels enable them to perform their own work. Never gripe or distress. Smallwood & Anderson, and Anderson & Smallwood.

"I AM FULLY AWARE Of the Excellent Curative Qualities of Pe-ru-na."

[Says Congressman Geo. E. Harris From Mississippi.]

CONGRESSMAN HARRIS FROM MISS.

Hon. Geo. E. Harris, of Mississippi, Lawyer and Author of several law-books, was member of 41st and 42nd Congresses, after which he was elected Attorney-General of the State of Mississippi. This prominent gentleman writes from 1247 6th St., N. W., Washington, D. C., as follows:

"I take pleasure in recommending your Peruna to anyone suffering with catarrh. I am fully aware of its excellent curative qualities."

—GEO. E. HARRIS.

A STRAIGHT COURSE

Pointed Out to Those Who Have Catarrh in Any Form.

You have chronic catarrh, have you? You have had it some time? And could not find a cure? Well, there are thousands more like you in this country. If the slightest vestige of the catarrh remains over during the hot weather it will begin to make itself felt now. If you really want to get cured this is the way to do it.

Get a bottle of Peruna and take a tablespoonful between each meal and at bedtime. When you have continued this for thirty days sit down and write a letter to Dr. Hartman, Columbus, O. Tell him exactly your symptoms; how long you have had catarrh; what effect the medicine has had on you. He will answer your letter promptly telling you what to do further. He will make no charge. And if you will continue to write to the doctor you are sure to get cured. Some cases take longer than others. Perhaps the average length of time it takes to cure a genuine case of catarrh is three months. Some get cured much quicker than this. Stubborn cases may require longer treatment. Time or trouble ought to be no barrier to one afflicted with this dreadful disease.

All people who are interested in knowing about catarrh can get an instructively illustrated 64-page book on chronic catarrh in all stages and location, free of charge.

J. R. Allen, Lock Box 50, Florence, S. C., writes: "Last fall I went to my physician for treatment. He told me that my nervous

system was run down, and gave me some medicine. I received no relief, and it began to look as if I was not going to get well. I saw Peruna advertised to be good for nervous prostration (systemic catarrh), and bought six bottles. I am fifty years old, and am now heavier than I ever was in my life—gaining 19 pounds from the use of Peruna."

J. R. ALLEN, Cincinnati, Ohio, writes:

"I am traveling for the Regina Music Box Co., of No. 11 East 22nd St., N. Y. I have had catarrh of the head for the past five years until there was hardly a day passed that I didn't have a headache. I tried a great many blood and catarrh medicines without any visible results, until after hearing about Peruna. I decided to give it a trial. I commenced to use it about four months ago. I now have a fine appetite, and the pains in my head have entirely left me. I certainly have been greatly benefited by Peruna."

T. M. PLETCHER, Mrs. Nancy L. Stewart, Admiral, Texas, writes:

"I would like to tell you what Peruna has done for me. I had catarrh of the nose, head and throat, and could hardly swallow or get my breath, for two months. I tried every medicine available, but could secure no relief. I commenced to take Peruna, and it was like a charm. It not only cured me completely, but I am stouter than I have been for many years."

"Every one says I look twenty years younger. I do not hesitate to recommend Peruna to my friends."

A Cure for Summer Complaint.

Summer complaint is unusually prevalent among children this season. A well developed case in the writer's family was cured last week by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy—one of the best patent medicines manufactured and which is always kept on hand at the home of every family. This is not intended as a free puff for the company, who do not advertise with us, but to benefit little sufferers who may not be within easy access of a physician. No family should be without a bottle of this medicine in the house, especially in summer-time.—Lansing, Iowa, Journal. For sale by N. E. Grammer, druggist.

BANNER SALVE

the most healing salve in the world.

Look Out for a Chill.
However slight, at this time of year and in this climate, it is a forerunner of Malaria. A disposition to yawn and an out feeling comes even before the chill.

Herbine kills the Malaria germ in its very first stages, or cures the disease at any stage. There are no narcotic poisons in it—a purely natural remedy and absolutely harmless. At druggists, 50 cents per bottle.

LOCAL TEMPERATURE.

At midnight, 89; at 7 a. m., 76; at noon, 96; maximum, 96; minimum, 70.

A Texas official has to spend the bulk of his salary trying to hold on to office.

King Edward must be mending, as the saying is, for only three doctors sign the daily bulletins now instead of five.

New residences are going up in every direction in Fort Worth. The hot weather does not retard building operations.

The Corsicana Sun says the "Fort Worth can't take the head of the baseball league in Texas and stay there." That's where the Sun is mistaken.

There are more private conveyances in use in Fort Worth than in any other city of its size in the United States. People just have to ride. If nothing else presents itself they ride a hobby.

Missouri bore the brunt of last summer's hot blast. Her corn fields shriveled up, springs vanished as if by magic, pastures dried and whole sections were depleted of live stock. At present Missouri is the most favored section of the country. Barring a little excessive moisture in spots, crops never looked better, and a bountiful yield is practically assured. Missouri is one of the best spots on the map of the United States. It has few equals, and so superiors, and any climatic setback can, in the nature of things, be out temporary.

Another bill for the regulation of trusts has been framed by Congressman Littlefield of Maine, and will be introduced at the session of next December. The measure is said to be framed to cover all the important weaknesses or omissions of the Sherman anti-trust law, and among other things requires the books of so-called trusts and industrial combinations to be constantly open to proper scrutiny. The measure that trust lawyers will not devise a means to evade cannot pass congress. After a time the trusts will prove their own undoing.

Some of the denizens of Shippensburg, Pa., would give two dollars and a half to catch up with a nice young man who went through those parts several weeks ago and sold their wives cucumber seeds at a nickel apiece, which he guaranteed would produce cucumbers two feet long. They were short on long cucumbers like that up there, and a lot of the women bought them and planted them according to directions. When the seeds failed to sprout within the usual time, some of the planters gouged to find out what was the matter, and dug up wooden seeds which the fellow had whittled out and palmed off on the unsuspecting females.

TEXAS AT WORLD'S FAIR.

It is now proposed by the management of the Texas State Fair to contribute toward a creditable exhibit at the World's Fair in 1904. Capt. Sidney Smith in speaking of the matter says:

"A display of the wonderful products and resources of the great state of Texas can be given at the St. Louis World's Fair that will astonish the world, and we of the Texas State Fair will consider it a reward for, and culmination, so to speak, of our efforts along that line, for the last seventeen years—efforts which have had the valuable support of the press of Texas, liberal railway managers and the drummer, that great evangelist of commerce.

"With all her natural wealth, needing only capital and people to develop

it, with so much of her fertile acreage still idle for lack of farmers to cultivate it, and with her many fascinating inducements needing only to be shown to the homeseeker, what state, what country, can be named that needs so much an exhibit at the St. Louis World's Fair?"

"The amount asked for by the Texas World's Fair Commission is a mere bagatelle compared with the benefits Texas will gain by this move, and we know enough about Texas people to feel fully confident that twice that amount can be raised if they can be induced to give the matter its due consideration. To assist in bringing this about, we have practically turned over our advertising car to the Texas World's Fair Commission, which, under the management of Louis J. Wortham, has provided views of the World's Fair exhibition palaces and much matter pertaining to the obligation which is upon the people of Texas to see that their state is adequately represented in the greatest exposition in the history of the world. We ask nothing in return for our expenses but donate its use and expenses to our crowd in appreciation of what we consider one of the greatest efforts ever put forth in behalf of our state, and with the earnest hope that the necessary funds may be speedily raised and active work begun, for, as little as has been said about it, there is no time to lose.

"The Texas State Fair has also offered the use of its grounds and buildings for the collection of the Texas exhibit, and will render all the assistance in its power in the arrangement and care of this exhibit until it can be shipped to the Texas building at the World's Fair."

ARE BABIES BECOMING EXTINCT?

There is little place in city life today for babies.

Landlords prefer to let houses to families that have no children to do damage to the property and annoy the neighbors.

Apartment houses are generally closed against the little ones. Dogs may be accepted, but not children.

The applicant for a place as janitor, steward, coachman, or any of a dozen other places of domestic service may be allowed to have a wife and perhaps bring her with him for service, but the mahogany doors will not swing open to servants' children.

The poor widow who is forced to make the living for herself and little ones finds them a barrier wherever she turns.

All too often are parents that love toms of city life turn the children of the poor from a blessing into a curse and an insupportable burden.

All too often are parents that love their children as dearly as the rich love their own, forced by harsh necessity to place them in institutions or desert them, and when the cause is sifted to the bottom the fault is found to be less with the parents than with the senseless and heartless customs and conditions put upon them by those who easily could, if they would, change it all.

And the most pitiful part of it from the broader viewpoint, is that the world is suffering a lack of development of its best material for future manhood and womanhood.

It is to the children of the poor that the world has ever looked for the best in the future. For the yoke of servitude changes necks.

It is nature's great equation for the preservation and progress of the race.

One of the greatest crimes against mankind is committed when a home is broken up by outside forces. Lives torn loose from former moorings, and without chart or compass, are set adrift on a cruel sea.

If they reach the harbor in safety it is because of God's hand at the helm.

The sea is black with rotting hulks broken in the sundering of family ties and the crushing of the holy influences of home.

If the children of the city's poor are discriminated against, must it not be said, too, that the children of the city's rich are being eliminated?

The decrees of society render it inconvenient and unfashionable to have children, and most of the great mansions know them not.

Babies are to the home what sunshine is to the fields—its life and light.

The prattle and lisp, the laugh of pure joy and the patter of the little feet make the real home and represent its real purpose.

PRESS COMMENT.

If we are to have manufacturing in Texas we must give some of the children knowledge in that line. This should be done out of the public taxes just as we give so many of the children legal education out of the public taxes.—Dallas News.

The work on Aransas Pass is to be resumed as soon as the engineering corps is able to get its reports ready submitting projects for the expenditure of the appropriations for Texas harbors. The people of Southwest Texas are to be congratulated upon the final resumption of this great enterprise that means so much to their

commercial and agricultural interests. The state is gradually preparing for that tremendous future when her vast domain will become the marvel of the ages of wealth and all that pertains to material greatness. This future can be but dimly conjectured, so immense are the resources hidden away in the boundless plains and mountains that form the commonwealth.—Laredo Times.

If southern states want a chance at presidential nominations let them break up the "solid south" and become debatable fields in politics. Candidates generally come from doubtful states and if Georgia or Texas should become doubtful national conventions might give it more consideration.—New York Tribune.

The people of sections of Texas where the drouth has prevailed would have their congressmen distinctly understand that hereafter they want more milo maize seed and less sweet pea seed. Sweet peas are beautiful, and all that, but so far they have not been found to be the best thing for fodder.—Dallas News.

The Courier insists that the coming Texas administration should not be embarrassed by the adoption this summer of a state Democratic platform. It has been nominated for office without issues and should be allowed to go through the whole term of office without an opportunity to ignore the platform of the Democratic party as was done by the present state administration.—Tyler Courier.

Texas steers are in demand these days. The price of beef has finally dragged the price of cattle up to the highest point reached in years. Texas is now, and always will be the greatest cattle producing section of the United States, and with irrigation in some portions of the state where little water falls, the products of Texas in the cattle line will be much greater than now.—Denison Herald.

Eastern capital has been invested in the Jefferson iron furnace and work will begin there within ninety days. There is plenty of iron in East Texas and it is to be hoped the men now taking hold of this furnace understand iron production. There are great fortunes to be made in the Texas iron district and others to be saved to the consumers when the natural products like the ore deposits of that section are developed.—Terrell Transcript.

South Texas has about finished its shipments of melons and East Texas has now begun its shipments of peaches. In a month or so the whole state will be shipping cotton and other crops. There is now no season of the year in which Texas is not supplying some sort of agricultural product to the outside world and reaping the harvest of enterprise and industry. That is what diversification is doing for Texas.—San Antonio Express.

The last band of Texas sheep to leave the San Angelo district this season, so shippers declare, started for the North yesterday. This final shipment marks the end of the greatest of all seasons for Texas saasep. There have been years in which the movement has been heavier, but prices then were on a basis of values much lower than that of the season just closed. The Texas sheep owner who has not laid by a snug sum of money this season should quit the business at once.—Drovers' Telegram.

Some of the old-timers will be back in the Texas legislature next winter as members of the lower house. Some of them are men of marked ability, whose impress is already upon the statute books of the state, and who are capable of doing great good for Texas. It may be confidently expected that the next session of the Texas legislature will be a business one, and that some good laws will be enacted, and provisions made for manual training as a part of the public school system of the state, and for good roads. One could hardly imagine anything that Texas needs more.—Denison Herald.

CONSIDER MOTIONS FOR NEW HEARINGS

JUDGE DUNKLIN IN THE FORTY-EIGHTH SO ENGAGED.

Three Now Under Advisement—Other Matters of Legal Interest That Appear of Record.

Judge Dunklin heard argument this morning in a motion for a new hearing in the case disposed of last week styled W. A. Shelton vs. the Northern Texas Traction company, action for personal damages in which a verdict was given for the defendant company.

IN CORPORATION COURT.

A Large Docket Disposed of at This Morning's Session.

Judge Stewart in the corporation court was confronted with a bulging docket when he rapped for order this morning, there being nearly 30 complaints on the secretary's desk. About 20 of these went over to various dates next week for pleas of guilty, time to secure witnesses, etc., all being for vagrancy, drunks, fighting and similar charges.

Detective Thomason had last night rounded up three negroes, two men and one woman, on charges of vagrancy, and made a plea to the court for the highest fine, stating they were especially tough characters, and in his opinion guilty of thieving and harboring thieves. Their names were given as William Hunter, Rolla Storms and Josie Spikes. Hunter and the woman pleaded not guilty, while Storms yawned and said: "I guess I'm a vag; I have not worked since last May." All were dressed well and looked robust and in good health. Hunter said he struck town Saturday, had been in jail in Dallas on a perjury charge in connection with the case at San Antonio in which a number of negro soldiers "shot up the town" some months since, but was released. He said he had served in the regular army, was discharged and had filed application for re-enlistment. They were given \$10 and costs each.

Jessie Jones, colored, pleaded guilty to being a vagrant, and was taxed \$10 and costs.

Dutch Bader, vagrancy, plea of guilty, \$1 and costs.

E. W. Hawkins, drunk, plea of guilty, \$1 and costs.

Bob Mack, fighting, plea of guilty, \$2 and costs.

Babe Ferrell, vagrancy, plea of guilty, \$1 and costs.

Minnie Strauss has broken out in a six-shooter role again. The officers reported that she caused a negro to tear out the rear end of a house in the Acre last night, the said negro making a get away after Minnie had flashed her gun. Minnie is the negro against whom a murder charge is pending, she having fired the shot that killed Jack Snow some weeks ago. She was also wounded in the Snow escapade, and was released from jail on habeas corpus proceedings. A warrant was issued for her arrest.

The case against Tom Brooks for violating the new hack ordinance went over until Monday at the suggestion of the city attorney. Brooks pleaded not guilty, and announced that he would defend his own case in court and added: "I promise not to appeal the case if I get stuck."

Rounding Up Saloon Men. Saloon men who have violated the law requiring them to post conspicuously their state occupation tax receipts are up against it. J. D. Cunningham, state revenue agent, is in town, and yesterday afternoon, after having made a personally conducted tour of inspection, caused complaints to be made against quite a number of violators. They were ordered to report at the sheriff's office and adjust matters, which they did.

After rounding up the places of business where no tax receipts were in evidence, Agent Cunningham addressed an official communication to Sheriff Clark's office, which read as follows:

"Dear Sir—I found upon investigation that some ten or twelve men whose names I herewith furnish you, have been following their occupation without first having their licenses

posted in a conspicuous place, as required by law. Each one will give an excuse that the brewery is looking after their interests. This practice must be broken up, as the state does not get the tax to which it is entitled. The only way to do so successfully is for the sheriff to make an arrest every time he finds the seller not posting this license. I therefore ask your assistance until all violators learn to respect this law, like they do Uncle Sam's."

Upon this communication Sheriff Clark acted.

About ten days ago the Mail-Telegram warned all concerned with reference to the matter by giving publicity to a copy of a letter received by Tax Collector Winston from Mr. Cunningham.

BATCH OF PRISONERS.

Agent Luther Gathering Them Up For the Pen.

Penitentiary Agent Luther was here today en route to the State Democratic convention which is to convene in Galveston next week. He expects to gather up about 25 prisoners for Huntsville en route, making stops here, at Dallas, Corsicana, Hillsboro and Waco. He took five prisoners from Tarrant county, they being:

Frank Doak, white, nine years for horse theft, three cases.

Peter Norton, white, burglary, two years.

Benjamin Jones, colored, burglary, two years. This negro appeared in the Seventeenth district court and pleaded guilty. A jury was empaneled by Judge Smith and the verdict recorded.

Tom Owens, colored, burglary, two years.

Lee Davis, colored, criminal assault, 25 years.

The cases against Owens and Davis have been sent to the higher courts and affirmed. Davis has been in jail nearly two years.

Captured in Louisiana.

Office Deputy Eugene Brock, from Sheriff Clark's office left last night for Alexandria, La., for the purpose of bringing to Fort Worth a man arrested there named C. W. Kimber. Kimber was arrested at the instance of Sheriff Clark on a charge of forgery, he having been indicted here on five counts. Checks were paid at the American National bank and the Farmers and Mechanics bank, in all aggregating \$86.50 and bore the alleged signature of W. J. Boaz. The acts for which Kimber was indicted date back to August 14 of last year, when he is charged, cashed the checks, they being made payable to himself and to a man named Frank Wilson. Sheriff Clark has made a diligent search for Kimber for nearly a year by sending out letters and a description to officers pretty nearly all over the country, and yesterday when he received a telegram announcing his arrest in Alexandria it was the first intimation received of his whereabouts.

Considering the Van Motion.

Judge Irby Dunklin has under consideration the Van motion for a new trial. Argument closed in the case late yesterday afternoon.

Paine's Celery Compound

Saved Me from the Insane Hospital as Well as Cured My Rheumatism.

There never was a remedy so highly recommended as Paine's Celery Compound. There never was a remedy in such universal demand. It is popular and prized in tens of thousands of homes, because it makes sick people well.

Paine's Celery Compound has saved thousands from nervous prostration and collapse; it has effected wonderful cures in kidney and liver complaints; its victories over rheumatism and neuralgia have commanded the attention and admiration of our best physicians. It has cured disease when everything else had failed.

Mrs. Nathan Beal, a well known lady of Gallup's Mills, Vt., writes as follows: "For ten months before I commenced taking Paine's Celery Compound, I could not put my foot on the first round of my chair, only five inches from the floor. I had nearly lost the use of my left side, and could not lift a pound weight with the left hand without danger of dropping it. Many times I would lift something at the table, only to drop it. I had a pressure in the top of my head and a pain at the base of the brain, which would leave me so nervous that I used to tell my husband I would surely go crazy. I could not keep still at night, and Sundays were just awful to me. I found my whole system prostrated, and it took a long time to build up my poor, worn-out nerves. I think that Paine's Celery Compound saved me from the Insane Hospital, as well as cured my rheumatism."

SWIFT & CO. FIXES TO FIGHT FIRE

Cordons of Pipe Fed by Artesian Wells in Packing House District. Work on Sewer.

Well contractors on Swift and Company's work in North Fort Worth are bringing in five artesian wells aggregating between two and three million gallons flow the supply from which will be used in defense against fire. Workmen began yesterday to put in cordons of ten and twelve inch pipe to surround the buildings. The pipes will be fed from a main tank and auxiliary standpipes.

When installed the system will be as complete as that of any packing house and handled by a regular organized fire company. A dozen watchmen, whose chief duty will be to search for fire will be provided for both night and day work.

Contractors are rushing work on the big sewer to be used jointly by both Armour and Swift, and hope to be ready for connection by August 1.

HOPKINS COUNTY IS FOR WELLS

But Hunt County Delegation Will Give Support to Cockrell of Dallas for State Chairman.

State Senator C. O. James of Sulphur Springs, Hopkins county, was here last night returning to East Texas. Senator James is a delegate from his county to the state convention, to attend which he leaves Sulphur Springs tomorrow. He is favorably inclined to Wells for state chairman.

William Pierson, member of the lower legislative house from Greenville was at the Worth yesterday. He, too, is a delegate to the Galveston meeting but will support Cockrell of Dallas for chairman.

"I am not for Wells for anything," is the way he expressed it.

THE STATE REUNION IS NEAR AT HAND

Active Preparations Making By Confederate Veterans and Sons for Large Attendance.

Commander Gillespie, Lieutenant Commander Clark, State Commander Adams and other officials and members of the United Sons of Confederate Veterans are especially anxious for a large attendance at the regular Sunday afternoon meeting of the local camp tomorrow at 3 o'clock. Only three meetings can be held now before the state reunion convenes in Dallas, and there is much to be done in preparation.

The members of the veteran camp are especially anxious that the Sons make a good showing at this state meeting, and some one or more members of Major-General Van Zandt's staff will address the Sons tomorrow on the important matters which will come up for consideration. State Commander Adams of the Sons' organization will have something to say to the boys tomorrow concerning the reunion which will be of interest to them, and asks especially that there be a good attendance at tomorrow's meeting.

Elsewhere in this issue will be found an appeal to the Sons from Lieutenant Commander George W. Clark.

MESMERIZED. A Poisonous Drug Still Freely Used.

Many people are brought up to believe that coffee is a necessity of life, and the strong hold that the drug has on the system makes it hard to loosen its grip even when one realizes its injurious effects.

A lady in Baraboo, writes: "I had used coffee for years; it seemed one of the necessities of life. A few months ago, my health, which had been slowly failing, became more impaired, and I knew that unless relief came from some source, I would soon be a physical wreck. I was weak and nervous, had such sick headaches, no ambition, and felt tired of life. My husband was also losing his health. He was troubled so much with indigestion that at times he could eat only a few mouthfuls of dry bread.

We concluded that coffee was slowly poisoning us and stopped it and used hot water. We felt somewhat better, but it wasn't satisfactory. Finally, we saw Postum Coffee advertised, and bought a package. I followed directions for making carefully, allowing it to boil 20 minutes after it came to the boiling point, and added cream, which turned it to the loveliest rich looking and tasting drink I ever saw served at any table, and we have used Postum ever since. I gained five pounds in weight in as many weeks, and now feel well and strong in every respect. My headaches have gone, and I am a new woman. My husband's indigestion has left him, and he can now eat anything." Name given by Postum Co., Battle Creek, Mich.

Kodol Digests what you Eat Dyspepsia Cure

There is one certain way of curing indigestion and stomach troubles, that is, give your stomach a rest but still eat plenty of good food to keep up the nourishment for your body. You can do this by using KODOL DYSPEPSIA CURE because it is the one preparation which digests what you eat without aid from the stomach. Nature will then repair your worn out digestive organs and restore them to healthy condition. It relieves that feeling of fullness, belching and distress after eating. "I suffered with dyspepsia a great many years. I tried many remedies without relief until I used KODOL DYSPEPSIA CURE. My health has improved and I now feel like a new man." S. J. Flemming, Murray, Neb.

It can't help but do you good Prepared by E. C. DeWitt & Co., Chicago. The \$1. bottle contains 2 1/2 times the 50c. size. When you need a soothing and healing application for piles, and skin diseases, use DeWitt's Witch Hazel SALVE. Beware of counterfeits.

ENTERTAINMENT FOR THE EDITORS

STOCK YARDS COMPANY HAS MAILED INVITATIONS FOR EVENT.

Colonel Halloway, Captain Paddock, Lieutenant Governor Browning and State Senator Stafford to Speak.

Invitations have been issued by the Fort Worth Stock Yards company for the reception and banquet to be tendered the editors and newspaper visitors of Texas, Oklahoma and Indian Territories, at the yards, Monday, August 4. The committee on reception will be: W. B. King, O. W. Matthews, Stuart Harrison, George Diehl, Samuel B. Cantey and George T. West.

It is proposed to entertain several hundred visitors in royal style and show them strides in improvement being made in the packing house and stock yards district.

The guests will assemble at the Stock Yards Exchange at 10 o'clock in the morning and be conducted through the building plants by representatives of Armour and Swift. After an information trip Col. Henry C. Halloway will deliver an address: "The past, present and future of Texas."

A banquet will follow in the grove south of the stock yards hotel.

Samuel B. Cantey will be master of ceremonies.

Captain B. Paddock will make an address of welcome.

Carlton Sansom of Alvarado, will speak on "The benefits to be derived by stockmen by the establishment of packing houses and a stock market below the quarantine line."

Lieutenant Governor Browning of Amarillo and State Senator R. N. Stafford of Mineola will also make addresses.

Prescription No. 2851 by Elmer & Amend, will cure all complaints, but it will cure rheumatism. E. F. Schmidt, Houston, Texas, sole agent.

ALLEYWAYS SHOULD BE KEPT CLEAR OF GLASS

It is Dangerous to Animals Which Are Necessarily Driven Through These Thoroughfares.

Water haulers, deliverymen and others who are compelled to drive their teams in alleyways complain of the carelessness practiced in throwing broken bottles and other glassware in alleyways. It is exceedingly dangerous, and quite frequently serious results follow by reason of horses treading upon this broken stuff. This morning a valuable mare driven to the water wagon of a Mr. Kennedy stepped upon a broken bottle in the alleyway running from Royal avenue to Florence street, between First and Second streets, and so seriously cut her foot as to incapacitate her for service. Besides entailing the expense of providing another horse for use in his wagon, Mr. Kennedy may lose the animal, because the wound is of so serious a nature that death may result from lockjaw. Some alleyways abound in debris of this character, and quite frequently broken glassware is strewn upon the streets as well.

Somebody sent Senator Burrows, a big bunch of roses one day recently and he had them taken to his committee room. The senator refused to tell who sent the flowers, saying mysteriously: "They are from an admiring friend." A colleague raised a roar of laughter by remarking: "Oh, bought them yourself, eh?"

MORE A SCHEME THAN A TRUST

HOUSEKEEPERS FIND SOME KIND OF ORGANIZATION AMONG SERVANTS.

The Matter Is Not Thoroughly Understood—Cooks and Washwomen Want Five Dollars for Their Society.

Shreveport, La., July 12.—(Special.) Is there a washwoman's trust and a family cook's trust in Shreveport? Several housekeepers are ready to aver that there is some sort of organization among these necessary family helps.

TURNED TO TRUSTS. which are now about the biggest propositions, politically and economically, that have ever happened.

"My cook asked for \$5 the other day," said a lady who was fortunate in having the cook, at least. "It was a sudden demand that I was not prepared to meet. I had paid her regularly and she finally explained that she wanted the money to pay into the society."

THE MASTER OF FINANCE. and I think he settled it by saying that he didn't propose to contribute even indirectly to any such kind of "blame foolishness."

Another housekeeper has a story that she tells about the washwoman. This latter "culled lady" complained that she was called on for a "license" for the business she was following, and, as in the case of the cook, the fee was \$5.

"I sho' did start to bring dese close back de yuther day," is the way she started the explanation. "Dey tells me I got to pay \$5 license for washin. I am got no \$5 to pay for washin' close. I sho' would put 'em down fust."

THIS WOMAN had probably "gone up against" some sort of society agent or scheme that she didn't comprehend fully, but that she realized would cost her a sum equal to a month's rent. That here is foundation of some kind for both complaints is shown by the fact that many citizens have heard of instances of a similar sort.

COMPTROLLER MURFF. stated that no license of the kind mentioned has been thought of. He had heard, however, of the "society" and, in fact, had had an experience at home similar to one of those above related. Chief Sewall also had heard of similar cases.

It is charged that these organizations are formed for selfish purposes, either by individuals or by certain parties whose interests will be benefited.

A SPECIAL CAR TO CALIFORNIA.

Two Actresses Refuse to Leave the Coach Before the End of Their Journey.

Denver, Col., July 12.—Because Lillian Bond and Maude Dean, actresses, went to bed in a Pullman sleeper and refused to get up, the Denver and Rio Grande railroad was forced to take the car 1200 miles, to San Francisco, though the two young women were sole occupants when it left Denver last night.

The women had purchased a through ticket, reading from Chicago to San Francisco. When they learned that a transfer was contemplated they refused to vacate the car. Legal advice was sought by the railway officials here.

They were told that the women were in the right and would have good ground for a damage suit if they were ejected.

Mother Always Keeps It Handy. "My mother suffered a long time from distressing pains and general ill health due primarily to indigestion," says L. W. Spalding, Verona, Mo. "Two years ago I got her to try Kodol. She grew better at once and now, at the age of seventy-six, eats anything she wants, remarking that she fears no bad effects as she has her bottle of Kodol handy."

ELBERTA PEACHES MOVING.

The Crop Has Begun to Move and Large Shipments Are Being Made From Tyler. Tyler, Tex., July 12.—(Special.) Shipments of Elberta peaches have now begun and several solid cars are going to northern and eastern markets daily. LEGAL NOTICES.

THE STATE OF TEXAS.

(Citation by Publication.)

In the district court, October term, A. D. 1902.

To the Sheriff or any Constable of Tarrant County, Greeting:

You are hereby commanded, that, by making publication of this citation in some newspaper published in the County of Tarrant, eight weeks previous to the return day hereof, you summon John Billy Gray, R. C. Daugherty and his wife, Mary E. Daugherty, and James Watkins, whose residences are to plaintiff unknown, and the unknown heirs of John Billy Gray, R. C. Daugherty and his wife, Mary E. Daugherty, and James Watkins, whose names are to plaintiff unknown, and whose residence is unknown, to be and appear before the district court, to be held in and for the County of Tarrant, at the court house thereof, in the City of Fort Worth, on the second Monday in October, A. D. 1902, the same being the 13th day of said month, then and there to answer the petition of H. W. Lusher and C. E. Rockett, co-partners, doing business under the firm name and style of Lusher & Rockett, as plaintiffs, filed in said court on the 25th day of February, A. D. 1902, against John Billy Gray, R. C. Daugherty, Mary E. Daugherty, James Watkins and the unknown heirs of John Billy Gray, R. C. Daugherty, Mary E. Daugherty, James Watkins and W. J. Boaz, as defendants. Said suit being numbered 21582, the nature of which demand is as follows, to-wit: That petitioners are the owners in fee simple and in the possession of the following described tract or parcel of land lying and being situated in the City of Fort Worth, Tarrant county, Texas, to-wit: 50x100 feet out of block 44, in the City of Fort Worth, Tarrant county, Texas, bounded and described as follows: Beginning at the N. E. corner of said block 44, at the intersection of Throckmorton and Second streets; thence S. 30 deg., E. 50 feet, thence N. 60 deg., W. 100 feet, thence N. 30 deg., W. 50 feet, thence N. 60 deg., E. 100 feet to the place of beginning; that petitioners set up claim and deraign title to said tract of land under and by virtue of a regular chain of title from and under the sovereignty of the soil; that on August 28, 1877, defendant, John Billy Gray, conveyed said property to Mary E. Daugherty by deed and reserved a vendor's lien to secure two notes which said notes have been paid off and discharged and are barred by the statute of limitation; that the defendants, Mary E. and R. C. Daugherty, on October 5, 1877, conveyed said property to D. S. Brown for \$250 and reserved a vendor's lien to secure the payment of two notes, both of which have long since been paid off and discharged and are barred by statute of limitation; that on November 10, 1877, said Mary E. and R. C. Daugherty conveyed said property to D. S. Brown by deed reserving a vendor's lien for \$150 and said notes have long since been paid off and discharged and are barred by statute of limitation; that on June 15, 1880, D. S. Brown and wife, S. B. Brown, entered into a contract with Ashford & Buffington for the erection of improvements upon said premises and the creation of a mechanic's lien thereon and that the same was thereafter assigned to Boaz & Ellis of which defendant, W. J. Boaz, was a member, and the same has long since been paid off and discharged and is now barred by statute of limitation; that on May 8, 1880, said property was pretended to have been sold by the tax collector of Tarrant county, Texas, to A. Mandelbaum, and that said pretended sale in no manner complied with

the provisions of the law in force at the time and is absolutely void; and that on October 12, 1881, said Mandelbaum conveyed such rights as he had thereunder to defendant, James Watkins; that on May 14, 1880, the tax collector of Tarrant county, Texas, without complying with the provisions of the law attempted to convey said property on account of failure to pay taxes to L. M. Prince and on September 13, 1881, said Prince conveyed such rights as he had therein to defendant, James Watkins; that petitioners and those under whom they claim have been in the actual, adverse and exclusive possession of said property, using, occupying and enjoying same for more than five years next prior to the institution of this suit; that the record of the several instruments under which defendants are setting up and claim some sort of a pretended interest in said property constitutes a cloud upon petitioners' title to said property; wherefore petitioners pray judgment for the title to and possession of said property above described and quieting them in their title thereto and canceling the evidences upon the face of the record of the apparent rights of the defendants and each of them, and for general and special relief.

Herein fail not, but have you then and there before said court this writ, with your return thereon, showing how you have executed the same. Witness, W. D. M'VEAN, Clerk of the District Court of Tarrant County. Given under my hand and seal of said court, in Fort Worth, this 21st day of June, A. D. 1902. W. D. M'VEAN, Clerk District Court, Tarrant County, Texas. By J. C. Branom, Deputy.

Notice to Taxpayers.

The City Assessor's books are now ready and the Board of Equalization will convene on Monday, June 23d, in the City Assessor's office in the City Hall and continue in session every day thereafter, excepting Sunday, from 10 to 12 o'clock in the forenoon and from 2 to 4 o'clock in the afternoon.

All owners of real estate are requested to bring descriptions of their property with them when coming to inquire values.

It is very important that all owners of real estate should appear before the Board of Equalization as a great many changes in values have been made since last year. Many improvements have been made since Jan. 1st, last, that may possibly appear on the tax rolls for this year and all mistakes of this or any other character will be corrected by the Board of Equalization on application of the owners.

Be sure and bring descriptions of your real estate with you. G. H. DAY, City Tax Assessor and Collector.

Notice to Water Consumers.

On account of the critical drought, please be as careful as possible in use of water. No sprinkling of lawns will be permitted except between the hours of 5 and 9 p. m., whether used through meter or by flat rate.

To consumers in the Seventh and Eighth wards. The pressure from the stand pipe is cut off until an increased supply of water is obtained. Direct pressure is now used. Parties on the high points will get good pressure, from the new plant between the hours of 6 and 9 p. m. and 5 and 7 a. m.

Very respectfully, A. W. SCOBLE, Superintendent, Water Department.

JOINT HOSPITAL ABOUT ASSURED

FORT WORTH'S INSTITUTION TO BE LARGEST IN WORLD.

President Yoakum of Frisco, Has Replies From Majority of Roads Entering This Terminal.

The joint hospital project of B. F. Yoakum, president of the Frisco, which is to embrace all roads leading to Fort Worth, is practically assured. Word came from St. Louis today that more than a majority of Fort Worth's lines had agreed to the idea and only the details remained to be made.

The joint hospital, which is to be used exclusively by railroads, will be the largest of the kind in the world and cost thousands of dollars. An independent company composed of representatives from all the roads will manage it. It is believed President Yoakum will soon have an announcement for the public.

INTER-URBAN LINE COMPETES.

Dallas and Fort Worth Passenger Business in Question.

In railroad circles it is expected the Texas and Pacific will shortly take action to meet competition of the Northern Texas Traction company in Fort Worth and Dallas passenger business. While the former contends no serious inroads have been made on its revenues the fact remains the electric fare is the cheapest by 25 cents, and the round trip rate still lower. The railroad company has the roster schedule, but the traction company will shortly inaugurate and maintain an hourly service.

It is believed an hourly steam service and a 2c a mile rate will be put in to meet competition.

FORT WORTH'S NEW PACKING HOUSES

Some Figures Giving an Idea of the Immense Capacity of These Gigantic Industries.

FARMERS SHOULD PLANT HOGS NOW

Interview With Superintendent of Construction W. J. Campbell in Which He Shows that the New Packing House Plants Will Use 1800 Miles of Hogs, Single File, Per Year, Nothing Being Lost but the Squeal.

It is rather hard to form a comprehensive idea of the capacity of the new packing houses now being built at this place by Armour & Co. and Swift & Co., and it is doubtful if there are more than a few farmers in Texas and Oklahoma who have realized the almost incalculable benefit that will accrue to them by having such a stock market right at their door.

A reporter of the Mail-Telegram yesterday met Mr. W. J. Campbell, superintendent of construction for Armour & Co. at their depository, the First National bank. Mr. Campbell is a very busy man, but consented to be button-holed, and talked five minutes with the Mail-Telegram man. During those five minutes he made statement of some figures that would almost stagger one, but the reporter figured them over since and verified them, as he must confess, somewhat to his own wonderment.

"Yes, young man," said Mr. Campbell, in answer to a question regarding progress of construction, "the packing houses are going up just as fast as a big gang of workmen can put available material together right. They will be one of the biggest things, if not the very largest in the state of Texas when those packing houses are done. Why, you Fort Worth people hardly realize yet what a big thing you got when Armour and Swift came."

"What will be the hog-packing capacity of the two packing houses, Mr. Campbell?" asked the reporter.

"Capacity? Well, I can only answer that by asking you what is the hog raising capacity of the farmers of Texas, Oklahoma, Arkansas, Louisiana and the Indian Territory. You can safely say that the capacity of Armour and Swift to pack the hogs will be just as great as the farmers' capacity to raise them and the farmers needn't be afraid they will overstock the market, either. When you consider that the Chicago houses pack 15,000 hogs per day, it would be no over-estimate to say that a capacity can be made here for five, or even six thousand hogs per day."

"Six thousand hogs per day! Say, that's some hogs, isn't it?"

"Yes, young man; it's more hogs than that. Do you realize what six thousand hogs per day amount to in a year? Now, just notice these figures," and Mr. Campbell fished some penciled calculations from his pocket.

"Eighteen Hundred Miles of Porkers."

"Here's a little estimate I made on the amount of 6,000 hogs per day for a year, leaving out Sundays. You will see that it figures out more than 1,875,000 hogs per year. If you were

REMAINS DISINTERED.

Corpse Buried Over One Year Shipped to Oregon.

Messrs. Robertson & Witten today disintered the remains of Ben Byers, buried in Fort Worth, cemetery in April of 1891, and prepared them for shipment to a point in Oregon.

The father of the dead man came in from Oregon last night and authorized the removal, and will accompany the corpse to his home state.

CLEARING HOUSE REPORT.

The Showing for This Week Is Greater Than Last Year.

At the close of banking hours today the clearing house figures were \$3,021,732.40. For the corresponding week in 1891 the figures were \$2,346,245.98. An increase is thus shown over last year of \$675,486.42.

Weather Conditions.

Within the past 24 hours showers have fallen over portions of east and south Texas, and in the Pecos and upper Rio Grande valley sections; in Arkansas and lower Missouri valley. The temperatures are about the seasonal average in Texas, and thence northeastward to the Ohio, and continue below the seasonal average in the Rocky mountain region and upper lakes.

With the exception of a slight depression in the north portion of the East Gulf, and a moderate storm development in Arizona, the country is generally free of storms this morning. Thunder showers are indicated for Fort Worth and vicinity Sunday.

to try and drive all those hogs through a gap in the fence, one after the other as closely as they could go, you would have a line of grunting porkers nearly eighteen hundred miles in length. If you loaded them all on one train, you would have about 19,000 cars, or a solid train about one hundred and twenty miles in length."

The reporter fanned himself with his hat, and tried to imagine eighteen hundred miles of hogs.

"As for the product, if all those hogs could be made into link sausage, it would make a string that could be stretched from Fort Worth westward across the continent, under the Pacific Ocean, across Asia and Europe, span the Atlantic, girdling the earth back to Fort Worth, go on again to San Francisco, and still have loose end enough left to lay another cable from there to Manila. And when that was done, there would still be lard enough left to fry the whole business."

The reporter indulged in more exclamations.

Using Up Hogs Pretty Lively.

"At 7 cents per pound, the farmers would receive over \$35,000,000 for the year's supply of hogs. And yet the packing houses of Armour and Swift at Fort Worth will be able to work the whole business up into the best of hog products, and then be ready to do it all over again next year. Now, how is that for capacity?"

The reporter admitted that there was no doubt but what that was using up hogs.

"Now, these are not merely fanciful estimates, but actual figures," continued Mr. Campbell. "You tell these things to the farmers through your valuable paper, and tell them to plant hogs, and do it at once, as they need have no fear but what they can all be handled right here by the most modern packing houses in the world."

"May I have those figures, Mr. Campbell?"

"Certainly. Take them along and figure it out for yourself. And you will notice that these figures do not take into consideration the capacity of the works for handling and killing a couple of thousand, or more, of fat cattle per day. Well, I must hurry on. You tell the farmers to 'Plant Hogs.'"

And acting on this advice, the Mail-Telegram again says, "plant hogs."

"Plant Hogs."

The packing houses are here to handle them, and with the money to pay for them, and with a capacity which, as Mr. Campbell says is only limited by the capacity of the farmers of Texas, Oklahoma, Arkansas, Indian Territory and Louisiana, to raise them. There's money in it; and again the Mail-Telegram says, "Plant Hogs."
