STENOGRAPHERS IN SESSION

State Organization Meets Here With 150 Members Present

The State Stenographers' association convened in the county court room this morning at 10 o'clock there being about 150 members in attendance. About one-third of this number were from out of town and many of them are ladies.

President Swone presided, with Mrs. Hope Harrison Hawkins as secretary.

Mayor Powell welcomed the guests on behalf of the city. His address was a gem of diction and oratory and was received with unstinted applause.

Mr. Scanzale responded on behalf of the association, and his, too, was subject for much favorable comment.

The minutes of the last annual meeting were read and approved. The constitution and by-laws were then read and explained, and the "doors of the church," as the president explained, were thrown open for membership, and a number were enrolled.

Class A of the requirements specifies that an applicant must have had three years' experience either as a court or legislative reporter, or an examination approved before the state board, and be able to correctly take and transcribe 150 words per minute. Class B specifies 100 words per minute, and an established reputation as a competent stenographer.

Galveston is the only avowed candidate for the next meeting, having already filed her application.

This afternoon the sessions consisted of reports of standing committees, report of treasurer, papers on various subjects pertinent to the profession.

Tonight at Mrs. Price's home, corner Seventh and Lamar streets, a reception will be tendered the visitors, and Mayor Powell is to be a guest of honor.

Tomorrow morning another business session. In the afternoon there will be a trolley ride to and from the packing houses and stock yards sites.

Tomorrow night the members of the association will be guests of the board of trade and attend a performance at Wheat's Roof Garden.

URNS DOWN THE FRIARS

VATICAN DISAPPROVES SALE OF LANDS

BELONGS TO CHURCH

Dominicans Who Have Disposed of Property Without Rome's Consent Will be Made to Reimburse the Purchase

Rome, Aug. 3.—The action of the Philippine friars in selling their lands to syndicates of laymen is disapproved at the Vatican.

The lands are considered church property inalienable without the consent of Rome. Investigation indicates that the Dominicans alone sold the lands.

When the sales have been definitely ascertained the friars will be obliged to show the amount received by them and reimburse the purchase.

WATER, WATER, EVERYWHERE

But not a Drop to Drink—Complaint Made to County Attorney

An unique and perplexing question in law was brought to the notice of Assistant County Attorney Buck this morning, and he is looking into the matter, as it borders on the anti-trust proposition.

An old gentleman named Prewitt called at the office and complained that the water man who had been supplying him with the artesian fluid had refused to furnish him, for love or money, and had so prejudiced other water men against him that he was unable to obtain a bucket of artesian water upon any condition.

He explained that the water man claimed he (Prewitt) owed him \$2.50 for water. Prewitt claims the account should only be \$1. He says he offered to pay \$1 and to also pay for further service, but the water monopolist refused to accept any sort of settlement other than that involving the \$2.50. Prewitt claims he made overtures to other water men for a supply, but they gave him the marble heart, and he wants the matter investigated.

Mr. Buck, realizing that he was up against a knotty proposition, promised Mr. Prewitt that he would look into the question.

FORT WORTH ASKS FOR IT

THE TOWN WANTS THE STATE DEMOCRATIC HEAD-QUARTERS

TO BE IN NORTH TEXAS

Dallas Is Active Worker for Designation by State Chairman Wells—Kindly Feeling Between Tarrant County and Brownville Man

James B. Wells, chairman of the State Democratic executive committee, will be asked to establish headquarters for the committee for the coming campaign in Fort Worth. Chairman Wells said at the Galveston convention that headquarters would be designated in some North Texas town, as during the last campaign it was in San Antonio. Dallas is a very active worker for the headquarters, and has kept much pressure to bear on Chairman Wells to recommend that place, which recommendation the committee will sanction. The feeling of good fellowship existing between Tarrant county and the Brownville man is of such a character that it is in position to expect recognition. In the face of the greatest pressure the Tarrant county delegation to the State convention cast its 19 votes against the Dallas applicant and in his favor. Other counties tributary to Fort Worth and adjoining Tarrant county did likewise.

The State committee had its headquarters here four years ago during the first race of Joseph D. Sayers for governor, Charles K. Bell, the present attorney general, being the chairman. "I would like very much to see the headquarters located in Fort Worth," said Q. T. Moreland, member of the committee from the 30th senatorial district. "It would result in the town securing much advertisement, and see the campaign again conducted under Fort Worth's date line. I am in hearty accord with any movement that will tend to centralize the committee at this place in North Texas."

CANUCK WISDOM

Knew How to Select Food
A good healthy Canadian takes pleasure in telling about food, and how he got well by using the right kind of food and drink.
He says: "In November, '09, I began to feel bad every day and gradually got worse. I did not lose my appetite. On the contrary after having a good meal I felt better, but after being at work perhaps an hour or so I would have terrible pains all over my body. I lost considerable time from my work, sometimes a few hours and sometimes two or three days.
"Finally I went to Winnipeg hospital for a thorough examination and was told it was 'simply indigestion.' Certainly it was 'simply indigestion,' but I never had anything make me feel worse. I can sympathize with any one who has 'simply indigestion.'
"Well I dragged through the winter in about the same condition and got a little better in the summer, but in October, 1909, the same old pains came back and I concluded I must change my diet if I expected to get any comfort, so I quit drinking tea and went on Postum Food Coffee and Grape-Nuts Breakfast Food.
"I ordered these articles from the grocer and expected to have them for supper, I had felt so bad that day. Of course the grocer was late in delivering them, so I laid on the couch until they came and ate supper about 7 p. m. After supper I did what I had not done for weeks before, I walked into the sitting room, lighted my pipe and read the evening paper and forgot I ever felt bad.
"I wondered if the old pain would come back, but it never did, and right from the first I improved. I have since worked constantly and hard and have not laid off once on account of ill health, and have not once suffered from indigestion since that first meal of Grape-Nuts and Postum.
"This letter is the straight truth. It may be long, but I don't see how I could tell my experience in less space." Name given by Postum Co., Battle Creek, Mich.
A booklet of excellent recipes in each package of Grape-Nuts.

many colored streamers are continued through club land and Whitehall to the timber yard surrounding the abbey.
Pall Mall's Decoration
Pall Mall is lavishly but not artistically decorated, heavy masses of conflicting color killing one another. The war office is ingeniously and tastefully trimmed but several club houses are most wantonly disfigured at high expense.
The stands remain in Waterloo Place and Trafalgar square, but there is little direction.
Whitehall, below the horse guards old banqueting hall is aflame with red and the Duke of Buccleuch's stand and other platforms above the Whitehall gardens are decorated in blue and gold.
The Canadian arch is the best decorative feature of the route and with this new French trimming and the use of a fresh supply of grains it is handsome and highly effective. The coronation decorations would be commonplace without this monument of enterprise and good taste.
Increase of Animation
There was a marked increase of animation in the streets Thursday, although the day was showery. Pressure for seats in the abbey is tremendous, but the earl marshal and other officials are so cautious in allotting them that probably there will be vacant places. Civil service officials are profiting by political friendship and obtaining entrance in large numbers.
Americans Unfortunate
Americans are less fortunate, but seats have been secured for Justice Brown of the United States supreme court and ex-Attorney General Gresham. J. P. Morgan has also obtained seats, although it was brusquely intimated in June that no foreign millionaire could enter and that no Americans unconnected with one or the other embassy could get in.

London, Aug. 8.—Along the coronation route the decoration is in its final stage for tomorrow's fête.
Constitution hill is flanked with a continuous line of stands fronting upon Green park.
Piccadilly from Hyde park corner to St. James street is lined on each side with red poles topped with gilt, and connected up and down and across the roadway with festoons, flags and streamers of all colors.
Effective Color Scheme
Private residences, hotels and shops are heavily decorated with crimson, blue and purple hangings, bordered with gold. The colors do not harmonize at times, but for a hastily improvised scheme at diminished cost the municipal decorations are not ineffective.
Solid white columns, wreathed with green ornaments in tissue paper and surmounted with gilt crowns are the chief decorative feature of St. James street.

MILLARD V. HARRIS DIED IN SANITARIUM THIS MORNING

BURIAL IS IN CHICAGO

Services to be Held in St. Andrew's Episcopal Church Tonight—Department Over Which Dead Man Presided Closed As Mark of Respect

Millard V. Harris, auditor for the Rock Island system in Texas, whose death had been hourly expected for several days, died shortly after midnight in the Protestant sanitarium where he had been a patient.

The body was taken to Robertson & Witten's at 8:30 o'clock and tonight will be shipped over the Rock Island to Chicago. At 9 o'clock this morning knots of crepe were placed on the door of the dead man's office in the Rock Island building, and at noon today the auditing department of the road was closed as a mark of respect.

Mrs. Anderson, a sister of Mr. Harris, arrived this morning from Chicago. She will accompany the widow and her daughter back to Chicago tonight. At 7 o'clock p. m. the body will be taken to the St. Andrew's Episcopal church on Taylor street, where burial service for the dead will be held.

Until other provision is made the affairs of the auditing department of the Rock Island will be attended to by F. E. Dietrich, secretary and treasurer of the company.

Mr. Harris was 42 years old, and had been a resident of Fort Worth for 10 years, during which time he filled the position he held at the time of his death. Some weeks ago, accompanied by his family, he went to Canada in hopes of benefiting his health, but returned to Fort Worth practically no better. His sickness was the result of an old ailment.

DISPUTE IS NOW ON FOR HARRY TRACY REWARD

A NUMBER OF CLAIMANTS BOB UP FOR THE \$4100 HEAD MONEY

Portland, Ore., Aug. 7.—It is probable that the \$4100 reward for Harry Tracy's body will not be paid for some time owing to the number of claimants. The body will be taken to Salem. Governor Gear has already stated that he is willing for the state to pay the reward as soon as the proper identification shall be made, but the reward will not be paid until the claimants reach an agreement. It now seems likely that the aid of the courts will be invoked.

No More Blood Marriages.

Rome, Aug. 8.—The pope has notified the reigning houses of Europe that no more dispensations for consanguineous marriages will be granted. It is the wish of the pope that royal personages contract marriages outside of royal families in order to stop degeneration.

FIVE MEN IN JAIL CHARGED WITH ROBBERY

LAI TO A CONVICT

Gus Hyatt, Who Escaped from Penitentiary at Nashville, is now Sought as Leader of the Gang

Chicago, Aug. 8.—Gus Hyatt, who escaped with 15 other convicts from the Nashville (Tenn.) penitentiary last Monday night, is now sought as the leader of the train robbers who held up the Burlington express at Savannah, Ill., 24 hours after the escape.

St. Paul, Minn., Aug. 8.—Five men who are suspected of complicity in the robbery are under arrest. They were taken in a body as they alighted from a Great Western train. They give their names as George McKinnon, H. D. Coleman, Henry Lee, F. D. Patchen and William Dunn.

Steps have been taken to ascertain whether these men or any of them can be identified as escapees from the Tennessee penitentiary.

TALK OF CUBAN LOAN

Cuban-American League Says Help Must Come Immediately
New York, Aug. 8.—The Cuban-American league has issued a statement concerning the Cuban loan, which states that if the planters are to be aided, the Cuban soldiers paid and the Cuban bonds honored, the help must come immediately, in order that Cuba may command future credit.
The loan required, \$33,000,000, it is said, is not too large. Before the war with Spain, that country sold bonds based on her Cuban revenues for \$600,000,000 from which liability the United States relieved Cuba.
The league suggests that Cuba authorize her banks to circulate a national currency based upon their holdings of Cuban national bonds, which bonds the United States should guarantee. These bonds should be issued so that if Cuba ever became part of this country they would become solely a United States debt.

SUIT FOR STATE LANDS

Trespass to Try Title Entered by the State of Texas.

ALSO WANT DAMAGES

The State Denies the Validity of the Claims of Mexican or Spanish Grant Titles—Damages Asked for Exceeds \$100,000.

Austin, Aug. 7.—Twelve suits of trespass to try title entered by Attorney General Bell for the state of Texas against various parties. The suits were all brought in the Twenty-sixth district court. The allegations in each petition are that the plaintiff was in possession of the lands in question and is now entitled to the possession thereof; that on the 1st of January, 1901, the defendants, without authority of law, entered upon the lands and dispossessed the plaintiff of the same and held, claimed and occupied the same adversely to plaintiff and are still so doing to plaintiff's damage in various amounts.

The plaintiff alleges in each petition that the character of the title under which the defendants claim authority to possess and hold the lands is not known to the plaintiff or to its officers, but plaintiff specially charges that if the defendants claim said land or the right to the possession thereof under title emanating from the Spanish or Mexican government there is not and never was any such title and that there is no valid evidence of such grant to be found in the records or among the files of the general land office.

The first suit is for 315,362 acres of land, more or less, in the counties of Cameron and Hidalgo, the whole tract being known as San Salvador del Tule, and being about 22 miles from Hidalgo town and 65 miles from the city of Brownsville. The damages asked are \$50,000.

The second suit is for 25,000 acres of land in Nueces county on the Nueces river, damages being placed at \$20,000.

The third suit is for 25,000 acres of land in Nueces county, about 23 miles above Corpus Christi, damages being placed at \$15,000.

The fourth suit is for 25,000 acres of land in Starr county about 43 miles northeast of Rio Grande City, damages asked being \$25,000.

The fifth suit is for 25,000 acres of land in the county of Hidalgo, about 3 miles northeast of the town of Hidalgo, damages asked being \$25,000.

The sixth suit is for 25,000 acres of land in Starr county, damages asked being \$15,000.

The seventh suit is for 110,000 acres of land in Cameron and Hidalgo counties, damages being placed at \$25,000.

The eighth suit is for 30,000 acres of land in Zapata county, damages being placed at \$15,000.

The ninth suit is for 25,000 acres of land in Duval county, on Nueces river, 20 miles above Corpus Christi, damages asked being \$15,000.

The tenth suit is for 100,000 acres of land in Nueces county, damages being placed at \$25,000.

The eleventh suit is for 50,000 acres of land in Hidalgo county, damages being placed at \$50,000.

THIRTY TONS OF SILVER.

That Amount Is Now in the Vaults of the State Treasury.

Austin, Aug. 8.—It is a noticeable fact that the cash balance in the state treasury contains more silver year by year. That species of money is being paid into the treasury in larger quantities each succeeding year. There is an interesting explanation of it, which at the same time develops the fact that the state is being somewhat imposed upon and as a result of an act of the legislature.

The act in question became a law in 1893 and provided that county tax collectors shall make their settlements of tax payments in cash, and that the state would pay all express charges on the cash and cost of exchange.

The bond of nearly every tax collector is made by a bank, the official returning the courtesy, or rather his end of a business proposition, by keeping the funds on deposit in that bank. When settlement time arrives that bank can rid itself of its surplus silver at the expense of the state, for the latter pays express charges, and great loads of silver are shipped to Austin. Banks and people generally do not like to handle silver or have it on hand, so it is dumped onto the state at the latter's expense. At this time, and the cash is low, there are thirty tons of silver in the state vaults, more than two carloads. Through the medium of exchange the Austin banks have a "picnic," as they pay silver whenever possible, and their silver surplus is very low. But in return, when the treasurer attempts to make payments in silver to banks or individuals, there is a great protest. Thus the silver surplus grows.

South McAlester, I. T., Aug. 8.—Unofficial returns from ten of the leading counties give T. W. Hunter a majority of approximately 300 over his rival, Green McCurtain, for Choctaw chief. There is a discrepancy at the two headquarters but the McCurtain managers concede that Hunter is 250 ahead. There are six counties among

Vinita, I. T., Aug. 8.—Returns from election in the Cherokee nation are coming in slowly, but the indications are that the treaty has been adopted by 1500 majority or more. Delaware and Coowee-coowee districts will roll up a majority of 2000 for the treaty.

YOUNG MAN MISSING.

It Is Supposed Ill Health Caused Him to Leave Home.

New York, Aug. 8.—Wilberforce Ogden, 21 years of age, son of William Ogden, a prominent Newark business man, has been missing from his father's home in Chatham, N. J., since Monday. Night and day parties of friends have searched the country for him, watching every road, dragging the Passaic river and nearby ponds, and even fighting their way through the wilderness of the great swamp near Chatham.

Several months ago Ogden returned from a Vermont theological seminary, where he was studying for the ministry, broken in health. Brooding over his failure to finish the course of study developed melancholia. His condition improved, however, and Sunday night the nurses ventured to leave him alone. Next morning he was not to be found. During the night he partially dressed himself, emptied all his bottles of medicine and left the house.

From that time nothing was heard of him until a tramp brought the news that he had been the boy asleep under a tree near Afton, six miles away, on Monday night. Later a milkman saw him on the Orange mountains, where he disappeared in the underbrush.

NEGRO BOY LYNCHED.

Strong to a Limb in Louisiana for Assaulting a Child.

Shreveport, La., Aug. 8.—Harry Benton, a 17-year-old negro, was lynched near Homer Thursday for criminal assault on a little 4-year-old child of D. W. Fortson, a prominent citizen of Homer. The negro committing the crime took to the woods, but was captured a few hours later, placed upon a horse, and a rope was tied to the limb of a tree. A noose was fastened around his neck and some one struck the horse a blow. The animal moved forward, and as it did so Benton's body swung into space. Several shots were fired into his body, and his death must have come to his relief quickly. The child will recover.

CUT IN LIVE STOCK RATES

Western Freight Situation Develops Into an Open War

Chicago, Aug. 8.—The western freight rate situation has developed into a state of open war. The Santa Fe has given notice that, beginning next Monday, that company would carry live stock between Chicago and Kansas City for 12 cents per 100 pounds. This is a cut of 1 1/2 cents, and is the lowest rate given on live stock since 1895, when the rate went to 10 cents. The full purpose of the Santa Fe is not disclosed. The Santa Fe live stock rate will affect the tariff from points far west of Kansas City to Chicago, as the rates from all interior points will be no more than the through rate to Chicago.

A WORM KILLER.

J. A. J. Montgomery, Puxico, Wayne Co., Mo., writes: "I have little twin girls, who have been bothered with worms all their lives. I tried every thing to relieve them which failed until I used White's Cream Vermifuge; the first two doses brought four worms from one of them, the next two doses, twelve, one of them measuring twelve inches; the other child was only relieved of four worms. It is a most excellent medicine." White's Cream Vermifuge is good for children. It not only destroys worms, it helps the child to perfect growth, wards off sickness. 25c at H. T. Pangburn & Co's.

Parents' Responsibility Great

It is the right of every child to be well born, and to the parents it must look for health and happiness. How inconceivably great is the parents' responsibility, and how important that no taint of disease is left in the blood to be transmitted to the helpless child, entailing the most pitiable suffering, and marking its little body with offensive sores and eruptions, catarrh of the nose and throat, weak eyes, glandular swellings, brittle bones, white swelling and deformity.

How can parents look upon such little sufferers and not reproach themselves for bringing so much misery into the world? If you have any disease lurking in your system, how can you expect well developed, healthy children? Cleanse your own blood and build up your health, and you have not only enlarged your capacity for the enjoyment of the pleasures of life, but have discharged a duty all parents owe to posterity, and made mankind healthier and happier.

There is no remedy that so surely reaches deep-seated, stubborn blood troubles as S. S. S. It searches out even hereditary poisons, and removes every taint from the blood, and builds up the general health. If weaklings are growing up around you, right the wrong by putting them on a course of S. S. S. at once. It is a purely vegetable medicine, harmless in its effects, and can be taken by both old and young without fear of any bad results.

Write us about your case, and let our physicians advise and help you. This will cost you nothing, and we will also send our book on blood and skin diseases.

was followed by an incident that occurred there just after the close of the war. When they heard of the terms of peace between Grant and Lee, they met at Grand Saline and repudiated them in toto, declaring that the people of Van Zandt are, and of right ought to be, free and independent, and to the prosecution of the war against the Federal government they pledged their money, lives and sacred honor. TEXAS:

The commercial organizations of the cities of the state of Iowa have undertaken the task of reaching the European emigrant before he leaves home and inducing him, then and there, to select Iowa as his destination in America. Only the countries of northern Europe will be entered. It is planned to reach Europeans by circulars, pamphlets and newspapers, containing information concerning Iowa, printed in the language of the country in which they are disseminated, which will be circulated in great numbers. Possibly agencies will be established and commissioners planted in the large cities of Sweden, Norway, Denmark, even Russia, and in Germany, Ireland, Scotland and England. Southern Europe will not be invaded by the Iowa commercial forces.

This proposition is surely a good one. Iowa is all right and the plan, if carried out, will bring great publicity to the state.

Publicity is a thing Texas wants and needs. There is food for thought in this scheme of Iowa, and it might well be emulated in our own state. An improvement on the Iowa scheme would be to advertise the state and its boundless resources right here in our own country. No need to go to Europe. We might even begin right in Iowa. That state is good enough in its way. But there's nothing in Iowa that Texas can't duplicate and offer to settlers, and there are myriads of things here that would interest immigrants in Texas that most Iowans never saw, and many never heard of, and Iowa hasn't got.

What Texas needs is publicity—the right kind of publicity. There are a lot of people in the North whose only idea of Texas is that it is a place where there are a lot of negroes and a few cattle wandering over endless plains covered with cacti. This is not an exaggeration.

Texas is God's country. It is more complete, a world in itself than can be found anywhere. Shut us off from all our neighbors and don't let a thing needed come over our borders to maintain life and comfort, and we'll get along. We can dig out of our soil anything we want. We can plant in the same soil any seed that grows and reap as good a harvest as the next state or country. We have our own forests; we have our own fine granites, our own superior clay for brick, tile, etc.; our own fuel; our own manufactures; to catalogue the list would be to print this whole page full.

What we want and what we need is to let people other than Texans find this out. We need to use all the printers' ink we can.

ENGLAND AND JAPAN VS. RUSSIA IN EAST

(Associated Press Correspondence) St. Petersburg, July 24.—Prince Meshchersky's Grashdanin Records continues its agitation among the southern peasants of Russia. The wandering revolutionists have now reached the province of Orel. They appear to have traversed nearly all the rich black earth country. False proclamations and ukases continue to be distributed and the police are continually coming upon counterfeit priests, monks and pilgrims who preach incendiary doctrine and encourage the peasants to expect another land division.

The marshal of nobility of a district in Toula has just assembled the peasant leaders, village heads and others and warned them of the consequences of heeding the false political prophets who are abroad in that province. Encouraging Disobedience "It is evident," declared the marshal "that certain malcontents are slandering the government and are encouraging the people to disobedience against the authorities. They say the villagers are dying of starvation and that the government is for the rich alone. They also malign the orthodox pastors, who, as heirs of the apostles, proclaim Christian truth to the world. Therefore it is the Lord Himself that is the object of this calumnious campaign.

Russian Turned Down On February 15, the Russian minister informed the Korean foreign office, that as Japan had been given the right to lay telegraphic cables along the Korean coast, Russia desired the consent of Korea to the union of their telegraphic lines at Gensan. Korea refused and sent forces to destroy the lines already constructed across the frontier.

The Russian minister, continues this unusually frank recital notified the Korean government that an attempt to interrupt the continuation of the telegraph line from Vladivostok to Gensan would be deemed an inimical act and would be followed by unfriendly relations between the two governments. Nevertheless Russia again yielded and proposed another route from Seoul to a junction with a Russian line to Peking.

At the same period Korea bought \$100,000 worth of ordnance and an English artilleryman who sent to instruct the Korean gunners. Danger for Russia The greatest danger for Russia, says this writer, "would be for England, if Japan came to establish a naval station in the south of Korea which would cut Vladivostok off from Port Arthur. He fears the agreement of 1900, forbidding any such station would not prevent some British company under cover of commercial rights, from building docks, cannon, foundries, etc.

"We have learned, it would seem, enough—in any event the Japanese have not got such thick descriptions of Korea nor such excellent maps of Korea as we possess."

who knew that she disliked even the temporary separations so much that she made him promise to write daily. For a week, each letter from home was filled with genial accounts of his troubles with the cook, the tradesman, and other household matters that generally give concern to a man left to shift for himself. She found the letters delightful substitutes for the good fellow who always signed "Hubby" at the bottom. The eighth day away, she opened her letter, which lovingly began "My Dear Wife" as usual, and read on until the bottom, where she was amazed to find the following:

"Very respectfully, "H. E. Local Agent."

What He Knew of the Matter Congressman Bingham, chatting with some friends at the Union League regarding the effectiveness of the Civil Service examination, confessed that some very absurd things often crept into the questions asked of applicants. One young man who wanted a clerkship in the treasury department was asked, among other things:

"What is the distance of Saturn from the earth?" In reply, he said that, as the position he sought pertained to the earth and not to the entire solar system, he had neglected to post himself on astronomy and that, while he was unable to tell the exact number of billions of miles, he felt sure the said planet was sufficiently far away not to interfere with his duties as a clerk, or to involve him in any of its rings, should he get the position. An, General Bingham says, he got it.

Was Partly Responsible, in Fact A pedantic fellow who sat beside Mark Twain at a dinner on one occasion told the latter that the average negro had a memory superior to that of the average white man, and went on to give scientific reasons in support of his contention. After a time, Twain interrupted and declared that he thought he believed such to be the case. In support, he told of an old negro he met in Philadelphia who managed to live very comfortably as a result of the general belief that he had known George Washington. Asked if he was old enough to recall Washington's crossing the Delaware to Trenton, the old black replied:

"O! yas'a—yas'a! Pae' is 'sah, I—I was in de boat he crossed in."

Amazed at the old fellow's cool declaration, Twain had asked him if he remembered when Washington took the hack at the cherry-tree. There was a moment's silence, and then came the unflinching reply:

"Yas'a—ise 'members dat, too. Why, sah, I—ise drove de hack."

A woman went into a Main street store and asked the price per oxc of an imported toilet-soap that was newly come into fashionable esteem. She was told \$2.00 and exclaimed in surprise:

"Why, —'s, on Houston street, sells it for 60c per box!" "Well, madame, why not go there for it?" asked the salesman, politely. "Because—because they're all out of it just now," she answered.

"I assure you, madame," the salesman retorted with even finer politeness than before, "we, too, will cut the price 20c when we've sold all we have on hand."

Of a certain bishop, famous as both the plainer man in England, the Liverpool Post tells this pleasing tale: One day, as this homely parson sat in an omnibus, he was amazed by the persistent staring of a fellow-passenger, who presently unburdened himself as follows:

"You're a parson, ain't you?" "Well, yes; that is so."

"Look 'ere, parson, would you mind comin' 'ome with me and see my wife?"

Imagining the wife was sick and needing assistance, the clergyman, at great inconvenience to himself, went with the man. On arriving at the house the man shouted to his wife to come downstairs, and, pointing to the astonished parson, said, with a grin of delight:

"Look 'ere, Sairey. Yer said this mornin' as I wur the bugliest chap in England. Now, just yer look at this bloke!"

LOOK PLEASANT, PLEASE. Photographer C. C. Harlan, of Eaton, O., can do so now, though for years he could not because he suffered untold agony from the worst form of indigestion. All physicians and medicines failed to help him till he tried Electric Bitters, which worked such wonders for him that he declares they are a godsend to sufferers from dyspepsia and stomach troubles. Unrivaled for diseases of the Stomach, Liver and Kidneys, they build up and give new life to the whole system. Try them. Only 50c. Guaranteed by Guthrie & Guthrie's, druggists, 502 Main street.

SPECIAL RATES Via Missouri, Kansas and Texas. To Michigan, Wisconsin and Minnesota summer tourist points, one fare plus \$2.00 for round trip. Tickets on sale daily to September 30. Final limit for return October 31.

CURED PARALYSIS. W. S. Bally, P. O. True, Texas, writes: "My wife had been suffering five years with paralysis in her arm, when I was persuaded to use Ballard's Snow Liniment, which cured her all right. I have also used it for old sores, frost bites, and skin eruptions. It does the work." 25c, 50c and \$1.00 bottle at H. T. Pangburn & Co's.

THE STATE OF TEXAS. (Citation by Publication.) In the District Court, October term, A. D. 1902.

You are hereby commanded, that, by making publication of this citation in some newspaper published in the County of Tarrant, eight weeks previous to the return day hereof, you summon John Billy Gray, R. C. Daugherty and his wife, Mary E. Daugherty, and James Watkins, whose residences are to plaintiff unknown, and the unknown heirs of John Billy Gray, R. C. Daugherty and his wife, Mary E. Daugherty, and James Watkins, whose names are to plaintiff unknown, and whose residence is unknown, to be and appear before the district court, to be held in and for the County of Tarrant, at the court house thereof, in the City of Fort Worth, on the second Monday in October, A. D. 1902, the same being the 13th day of said month, then and there to answer the petition of H. W. Lusher and C. E. Rockett, co-partners, doing business under the firm name and style of Lusher & Rockett, as plaintiffs, filed in said court on the 25th day of February, A. D. 1902, against John Billy Gray, R. C. Daugherty, Mary E. Daugherty, James Watkins and W. J. Boaz, as defendants. Said suit being numbered 21582, the nature of which demand is as follows, to-wit: That petitioners are the owners in fee simple and in the possession of the following described tract or parcel of land lying and being situated in the City of Fort Worth, Tarrant county, Texas, to-wit: 50x100 feet out of block 44, in the City of Fort Worth, Tarrant county, Texas, bounded and described as follows: Beginning at the N. E. corner of said block 44, at the intersection of Throckmorton and Second streets; thence S. 30 deg., E. 50 feet, thence N. 60 deg., W. 100 feet, thence N. 30 deg., W. 50 feet, thence N. 60 deg., E. 100 feet to the place of beginning; that petitioners set up claim and demand title to said tract of land under and by virtue of a regular chain of title from and under the sovereignty of the soil; that on August 28, 1877, defendant, John Billy Gray, conveyed said property to Mary E. Daugherty by deed and reserved a vendor's lien to secure two notes which said notes have been paid off and discharged and are barred by the statute of limitation; that the defendants, Mary E. and R. C. Daugherty, on October 5, 1877, conveyed said property to D. S. Brown for \$250 and reserved a vendor's lien to secure the payment of two notes, both of which have long since been paid off and discharged and are barred by statute of limitation; that on November 10, 1877, said Mary E. and R. C. Daugherty conveyed said property to D. S. Brown for \$150 and said notes have long since been paid off and discharged and are barred by statute of limitation; that on June 15, 1880, D. S. Brown and wife, S. B. Brown, entered into a contract with Ashford & Buffington for the erection of improvements upon said premises and the creation of a mechanic's lien thereon and that the same was

thereafter assigned to Boaz & Ellis of which defendant, W. J. Boaz, was a member, and the same has long since been paid off and discharged and is now barred by statute of limitation; that on May 8, 1880, said property was pretended to have been sold by the tax collector of Tarrant county, Texas, to A. Mandelbaum, and that said pretended sale in no manner complied with the provisions of the law in force at the time and is absolutely void; and that on October 12, 1881, said Mandelbaum conveyed such rights as he had thereunder to defendant, James Watkins; that on May 14, 1880, the tax collector of Tarrant county, Texas, without complying with the provisions of the law attempted to convey said property on account of failure to pay taxes to L. M. Prince and on September 13, 1881, said Prince conveyed such rights as he had therein to defendant, James Watkins; that petitioners and those under whom they claim have been in the actual, adverse and exclusive possession of said property, using, occupying and enjoying same for more than five years next prior to the institution of this suit; that the record of the several instruments under which defendants are setting up and claim some sort of a pretended interest in said property constitutes a cloud upon petitioners' title to said property; wherefore petitioners pray judgment for the title to and possession of said property above described and quieting them in their title thereto and cancelling the evidences upon the face of the record of the apparent rights of the defendants and each of them, and for general and special relief.

Herein fail not, but have you then and there before said court this writ, with your return thereon, showing how you have executed the same. Witness my hand officially this July 16, 1902.

QUESTION OF GOOD ROADS

JUDGE M. B. HARRIS OF TARRANT DISCUSSES MATTER

He Tells of Tarrant County and What She is Doing in Road Building, Giving Some Facts and Figures

At the meeting of the county judges and commissioners of the state now in session in Galveston, the good roads question was the first under consideration, the subject being "The Propriety of Issuing Bonds for Permanent Road Improvements." Judge R. B. Green of Bexar was first to speak on the question, and he was followed by Judge M. B. Harris of Tarrant. The Galveston correspondent quotes Judge Harris as saying during his address that Tarrant county is not only the banner county of Texas, but of the southwest. He explained this assertion by saying that such was the case because of Tarrant's superior road making soil. "All that is required in many portions of the county," said Judge Harris, "is to use cement gravel; through this means Tarrant county now has 500 miles of what may be termed macadam roads. Tarrant county levies 30c on the \$100 for good roads. The first half of this 30c is provided for in the charter and the statutes provide that in counties having more than a certain number of inhabitants upon presentation of a petition to the commissioners' court it is the court's duty to order an election and if the election is carried the commissioners have the privilege of levying the additional tax.

"The convicts are also worked to advantage and supervised by men who understand their business. In Tarrant county 40 to 60 miles of macadam roads are being constructed each year, also 200 to 300 miles of graded roads. These improvements have proved of material value to Tarrant county in that land formerly worth only \$15 per acre, now commands \$40."

He further declared that money could not be better invested than in securing better roads. Each county should build just as many miles of road as possible. He proposed that economy be practiced by each farmer, devoting 30 days out of each year to the building of roads and he will not miss the time; in fact, he said, every good citizen should be interested in assisting in this.

MOTHER AND BABES

HAVE NEW QUARTERS

The woman, Mrs. Brewer, and twin babes, mentioned in yesterday's Telegram as being at 1601 Calhoun street, have been moved to more comfortable quarters a half block away. This removal was made by order of Chief Rea, who first obtained permission of the attending physician. At the new place she was given a more desirable room, a real bed and other comforts. Besides this, a woman was engaged to attend her and necessary clothing provided for the babes.

Rev. I. Z. Morris also called, being advised of the existing conditions by the Telegram. He found surroundings much more inviting since the removal, and after consulting with Chief Rea, it was decided to let the sick woman remain at the new place until she had gained sufficient strength to be taken away, and let her furnish the proper nourishment for the babes before separating them.

Chief Rea had the women at the

FIGHT WON BY TEXAS ROADS

SECURED HOMESEAKER'S RATES TO POINTS IN THIS STATE

MANY PEOPLE COMING

Southern Pacific Has Contended for Application of Rate in New Territory—Will Be in Effect During Next Three Months

Texas roads have won a fight which had been on for several seasons, and has secured reduced homeseaker's rates from the southeastern territory to all points in Texas. Information has been issued that on August 19, September 2 and 16, and on October 7 and 21, the usual rate of one fare plus \$2 will apply from the territory of the Western Passenger association, the territory of the Southwestern Passenger bureau and from the southeast, including Birmingham, Montgomery, Atlanta, and other important places. Arrangements have been made to extensively advertise the rate in the country around the Great Lakes, through Kentucky, Alabama, Georgia, Tennessee, the Carolinas, as well as in Michigan, Minnesota and Wisconsin, and a large influx of homeseakers is expected in consequence. The fight for the low rate was made by the Southern Pacific company, information having been received a few days ago that the Louisville and Nashville, one of the lines which held out against it, announcing that it would participate.

"ALWAYS SOMETHING DOING"

Business Is Good in Evening Around the Frisco

"There is always something doing around the Frisco," is the latest from the city ticket office force of that road which has its quarters in the Wheat building, corner Eighth and Main streets. Early in the evening there is the rush for the roof garden, later the Salvation army holds forth in front of the Worth and as it finishes the Christian Scientists open on Eighth street. This over "the man with the broken neck" tells a crowd how it all happened, while on the opposite side of Main street "Blind Charley" plays plaintive tunes on his tin whistle, dividing time with the band organ man. By this time the evening is well spent and the exit from the roof garden takes place.

W. F. McMillin, general freight and passenger agent for the Texas Central with headquarters in Waco, spent the day in Fort Worth. Mr. McMillin says the Central has been washed out for the last two weeks, but yesterday morning through train service was resumed. The high water no sooner subsided in one place until it came up in another.

W. E. Green, vice president and general superintendent of the Cotton Belt, will arrive today from Tyler.

John Little, an operator in the telegraph office of the Texas and Pacific railroad, has gone to Longview for a short rest.

The woman, Mrs. Brewer, and twin babes, mentioned in yesterday's Telegram as being at 1601 Calhoun street, before this morning to ascertain why the children had been neglected, one of them not having been bathed, and necessary clothing provided for either. The mother had been engaged in doing housework for those in charge of the house, and it would seem to have been nothing more than a humane act for them to have provided some necessities and to have given the mother more attention.

If the mother and babes get along all right nothing more may come of this evident neglect, otherwise the matter may be revived.

Rev. Morris appears to any one who may have discarded bathing suitable for either the mother or twins to kindly send same to 1515 Calhoun street, or leave them at Conner's cook store to his address. The city having provided for them, food and an attendant, clothing and any specially nourishing foods will be greatly appreciated.

TO BE TEN DAYS' SHOW

ELKS WILL RUN THE CARNIVAL OVER THAT PERIOD

Committee Now at Work on an Elaborate Program—Closing Days of October Set as the Time

The local order of Elks is preparing for a ten-days' carnival to be held during the latter part of October in their hall, corner of Houston and Seventh streets.

At the last meeting committees were appointed to carry out plans proposed for the carnival. These plans have not fully materialized yet, but active work will be inaugurated with a view to having a program made public not later than October 1.

The program will be something in line of that which proved such a great success in the mid-winter Elks' carnival at Omaha, held in February last, and is to be a society event of the first order. The membership here hopes to interest the ladies in the work and among other attractions will be booths elaborately decorated, presided over by the fair sex.

The hours of opening for the ten days will be from 2 to 11 p. m., and a small admission fee will be charged, entitling holders of admission tickets to chances on prizes. Among these prizes will perhaps be one for railway passage to and from Eureka Springs and stay of a week at one of the leading hotels there.

There will be side issues for the sterner sex such as a kangaroo court, with a real patrol wagon and bona fide policemen to bring in alleged refractory visiting and local members. Charges will be preferred and a court trial scene will be enacted with prosecution and defense—and lucky indeed will be he who escapes without a conviction.

There will be other specialty features of high class, worthy of patronage. The Elks hope to make this carnival a great success, and have given themselves ample time to prepare all plans.

NEWSPAPER PUBLISHED AT SEA

The new system of wireless telegraphy renders possible the realization of the prediction that newspapers would be published on the ocean liners. They could not, however, be as much up-to-date or effective as those published on land. In this respect they would differ widely from the famous Hostetter's Stomach Bitters, because it has been proven to be just as effective on sea as on land. We would therefore urge everyone contemplating an ocean trip to take a supply with them. It is invaluable as a tonic and preventive of sea-sickness. Those who remain on land should always keep a bottle of it in the house to cure heartburn, indigestion, dyspepsia, constipation and malaria. Don't fail to try it.

WIRE CLIPPING STOPS A THREATENING BLAZE

Electric Wire in Momand's Grocery Ignites Wood Work of Ceiling—Severed Wire Ended Trouble

At 10:20 o'clock last night a telephone message to central fire station caused an alarm to be turned in by transmitter from box 35, corner Houston and Seventh streets. The alarm was caused by a threatening blaze seen about the ceiling of Momand's grocery on the west side of Houston midway between Fifth and Sixth streets.

All the companies covering that territory responded, but Chief Maddox, first upon the scene, took in the situation at a glance and caused an electric wire to be clipped under the awning over the sidewalk. This stopped the motor operating the electric fans and ended the trouble.

The fire had started from an overheated motor placed upon a balcony about midway the store, surrounded by all manner of combustibles. The flames were eating their way about the ceiling and other woodwork thereabout, and a minute's delay would have resulted in considerable damage. It was not necessary even to open the door, consequently no water was thrown. Hose connections were made and, with the chemical's hose, were ready to do battle.

The proprietors of the store knew nothing of the close call their property had until this morning.

MONEY MADE FROM PINEY LAND PEACHES

Judge Booth Tell About Them—He and Associates Purchased Timber Lands for Lumber Near Rusk

Judge William R. Booth, who recently returned from East Texas, confided business with what was supposed to be a pleasure trip. While there he purchased for himself and G. E. White a tract of 463 acres of piney wood lands. The judge announces that it is his and his associate's intention to erect on the lands purchased a sawmill for the purpose of working up the timber thereon. The lands are located in Rusk county, and those who are disposed to part with their holdings are realizing from \$4 to \$6 per acre—but few are selling, preferring to hold on to what they consider a good proposition.

Peaches grow there in abundance, the Elberta variety being especially fine. The judge says one company is preparing to set out 400 acres in peach trees near Jacksonville, and further says that one farmer from a single orchard has so far this season banked over \$10,000 from the sale of peaches alone.

WHEAT'S ROOF GARDEN

The bill to be presented at Wheat's roof garden next week will be the strongest of its kind ever offered in the South. Mr. Wheat has spared no expense and Manager Gilgen has been tireless in his efforts to please the patrons of this popular resort. The Gilgens, the club jugglers, who have established themselves in Fort Worth as artists of the first class in their line, will remain on this bill, as will also Honneger, the clever one-legged equilibrist. Florence Mabelle Glover and Edmund F. McCrumish, the operatic artists, who have won their way into the good graces of music lovers by their excellent work will also remain, presenting scenes in costume from the comic operas.

The new features of the program are as follows: The four Stewarts in novelty comedy and society sketches (this feature is direct from the Eastern circuits). Little Cecile in novelty dances, Foxmond, the wire king, and the Biograph with all the latest moving pictures.

Mr. Wheat is determined to please his patrons, as the ever increasing excellence of the programs offered will attest, and at the absurdly low prices for an entertainment of such merit his enterprise should and will receive the substantial support it undoubtedly deserves.

TEXAS VS. LOUISIANA

EXCITING CAKE WALK CONTEST LAST NIGHT AT DOUGLASS PARK IN WHICH TEXAS WON

Louisiana's Prize Winners Were Entered Against Home Talent, and the Hundreds Present Enjoyed the Fun—Great Sport

Texas and Louisiana were pitted for a grand cake-walk contest last night at Douglass park. For the occasion there were entries selected from the past masters and mistresses of the art from both states, and the greatest interest was manifested in the entertainment and outcome. There are hundreds of negroes in the city from along the line of the Texas and Pacific between Fort Worth and Texarkana, and from along the same company lines between Fort Worth and Alexandria, La. They are here for a three days festival, and last night was the opening event at the park. There was an immense crowd in attendance, there being among the spectators many whites.

There were other attractions, all good, but which paled into insignificance in comparison with the grand cake walk. There were a number of entries from both states, the participants being attired in the flashiest of gaudy raiment. The contest, interesting throughout, dwindled down to a tie between Frank Weaver and Emma Bess representing Texas and Richard Lilly and Magdalene Johnson representing Louisiana. Following a brief intermission these opposing contestants came on for a finale, during which excitement was at hair-trigger pitch, and at the introduction of each intricate figure an outburst of applause from admiring ones resulted.

Finally the Texas couple won out, and to attempt a description of the good natured hilarity which followed would meet with failure. If you have even witnessed a real Southern cake walk, then you have an idea of the scenes attendant upon such a finish; if you have not, no cold type description could convey to you any faint idea, descriptive.

That the negroes are having a great time there is no question.

J. P. Roye of Cleburne Prays for Damages for Loss of Little Daughter's Arm in Trolley Car Accident

It will be remembered that on Sunday afternoon of July 27 the little 3-year-old daughter of Mr. and Mrs. J. P. Roye of Cleburne, fell from a trolley car near Fourteenth and Main streets in this city and suffered the loss of an arm by reason of one of the wheels of the car passing over it. Mr. and Mrs. Roye were here on a Sunday's pleasure trip, and they were on open car No. 69. An iron screen runs about the entire length of the car on both sides, but for a space of about 18 inches between the screen and floor there is an opening. The car had stopped to make a transfer of passengers to a passing car. Just as the motor-man put on the current to start up the child slipped or fell from its seat and rolled under the screen to the ground. When it struck the ground the child threw out its right arm across the rail and the rear wheel passed over it, crushing the limb from the wrist to a point near the armpit. It was necessary to have the arm amputated, which was done at the hospital.

Growing out of this accident the father of the child has filed in the district clerk's office a suit against the Northern Texas Traction company, in which \$25,000 damages are prayed for.

CHARGE A SERIOUS ONE

NEGRO BOY, WILLIE MATHES HELD TO GRAND JURY

Caught in the Act of Attempting Criminal Assault—Admits the Crime, But Is Partially Demented

The negro boy, Willie Mathes, aged about 16 years, was remanded to jail yesterday afternoon to answer a charge of attempting criminal assault upon a 3-year-old negro girl.

It was Wednesday afternoon when the attempt was made, and the boy was caught and detained until Deputy Sheriff Pridge arrived and brought the prisoner to jail, making complaint, on information, before Justice John L. Terrell. The little girl lived with her parents near the oil mill on the North Side. Her father is R. P. Pleasants. The mother's attention being attracted, she ran to her child and felled the boy in his attempt. Others came to her assistance and held the boy until the officers' arrival.

The boy is said to be partially demented, and claims his mother and father and other members of his family were drowned in the Galveston flood. He does not deny the charge, and appears very much frightened over his safety. He waived examination and will be held for the grand jury. The outcome is problematical, because of the boy's alleged demented condition.

Who got the money?

TWO MEN MADE HAPPY HONESTY IS REWARDED

If ever the honesty of the average Fort Worth citizen is in question in the presence of Sheriff George W. Womack of Cooke county, Mr. Womack will go on record in the defense. He will argue from experience, and history records the fact that experience is a good teacher.

While walking along the streets of Fort Worth yesterday Mr. Womack dropped his money purse containing \$190 cash and valuable papers. He did not miss the purse until some time later, when he felt for it to make a payment for some purchases made. While it worried him no little, he gave

it up as gone for good.

Later in the afternoon he sauntered into Sheriff Clark's office, and there learned to his surprise and great joy that the book had been found and the contents were safe. He was given the address of an old gentleman named G. W. Porter, residing at 109 North Cherry street, who had reported at the sheriff's office that he had found the book, and that the contents were safe.

Mr. Porter preferred to deliver the find in person, and a meeting was arranged, purse, money and valuables turned over to Mr. Womack and happy congratulations exchanged.

Though Mr. Porter protested against being rewarded, Mr. Womack presented him with two crisp \$20 bills.
