School Spirit Called For At **Dimmitt High**

"What is it and where can I girls. By about 1:00 a.m. all get some?" "School what?" These are questions that can be heard any day in the halls of D. H. S. Every one talks about school spirit, but no one seems to know what it really is. There are many types of school spirit and many different ways of expressing it.

The first thing that comes to mind is pep rallies. These are meetings that are held in the gym and the entire student body attends. The objective is to boost the spirit of the players and to encourage them to do their best to '66" and, "Whatever will be, will win the games. The cheerleaders work hard to prepare the "yells" they do; and the students are to join in and help the cheerleaders The WHOLE student body should participate in the rallies, or the school will lack the necessary

Attendance at football and basket ball games is another important factor in school spirit. This does not mean to come to the game and sit in the stands with your 'best boyfriend' or your 'cute girlfriend'; it means to support your team with your cheers and to let the team know that The officers of the Future Home you are for them all the way. Support does not mean to sit in your car and tune in the latest hit song, or another ballgame; it means to watch the game and give full attention to the game and the players. Also 'booing' at the opposition is a low form of planning meetings were held June behavior that shows not only bad taste but disrespect for the other

There is another side to the old are red and white and can be story of school spirit. This inwhen the dues which cludes respect for the beautiful building that we are most fortunate and privileged to have. Keepsponsor within ten days after the of showing school spirit; that any itorium of D. H. S. is for asthat require little or no loud noise. Dimmitt is also quite lucky to have the excellent teaching staff first FHA activity for this year that it has. At all times the teachers and their authority should be respected.

All of these things and many more make a school what it is. School spirit requires that each member of the student body put forth a special effort to see that his school is the very best and most repected. Are you willing to make our school such a school as this?

Five of our staff members have attended the seven day Journal-Best Figure - Kenneth Oldham ism Clinic in Lubbock which we Best Dressed - Jack Bradford feel will enable us to help build Most Athletic - Joe Bob Sand- an even more successful and outstanding annual for this school

An investment in Your Future

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

the requirements of the Constitution. However, the National emergency declared by the President in past years has not been retracted, hence it is this latter situation that creates legality in

national and international signiing these latter days of the Session that many ill-advised pieces

of legislation have been able to

In the meantime another situation has developed with regard to the District of Columbia House of Representatives Bill. This is a bill that should never pass either House of Congress, but much pressure is being brought to bear to obtain signatures of 218 members on a discharge petition that will bring the matter directy before the Congress. The tremendous pressure that has been brought to bear on Members with regard to this bill may produce the needed signatures. The indications are that the bill will be brought to the Floor by one means or another, due to this tremendous pressure to which the Members have been subjected. If this is done adjournment may be post-poned till November or Decem-

Defoliation **Saves Money**

sums of money every year through poor defoliation, says Fred Elliott, Extension cotton specialist at Texas A&M University. He ex-plains that many producers can improve their cotton grade by following a few simple procedures when defoliating.

Choosing the correct chemical should be the first step in a defoliation program. Cotton harvest aid chemicals are dividied into two classes - defoliants and desi-

to shed in about seven to nine days and should be used on cotton that is to be mechanically picked. If coton is to be stripped, a desiccant which causes all of the leaves to dry and become crumbly should be used.

normal conditions. Defoliation should not be started until cotton has reached proper

Milady Garden Club Meets

Milady Garden Club met Tuesday Septembtr 7 at 3 pm. in the Community Room of the First State Bank to hear guest speaker, Mrs. Mattie Seale, local floral shop owner.

Mrs. Seale presented a program on bulbs. Refreshments were served to members and following guests: Patsy Morrison, Jerri Cummins, Nancy Upton, Barbara Henderson, Wynema Adams and Goldie Stanton.

Hosesses for the meeting were Mesdames Carolyn Sides, Nell Profitt and Helen Brown.

VISITS IN CANYON Richard Jackson and Graham Sheffy visited in the home of their uncle and family, Mr. and Mrs. Don Sheffy at Canyon last week end. They also attended the ball games in Amarillo Saturday.

VISITORS FROM AMARILLO Mr. and Mrs. Wilmer Studer and children of Amarillo were here last week end for a visit with his parents, Mr. and Mrs. Studer and her sister and family, Mr. and Mrs. Bob Killough.

RETURNS HOME

HIGGINS VISITORS Mr. and Mrs. Frank Latimer and daughter Ann have returned home from a visit with relatives at Higgins.

cent open on irrigated cotton. Plants are considered suitably mature if the youngest bolls cannot be dented by pressure between the thumb and fore finger or cannot easily be cut through with a Thorough coverage of all leaves is essential to a good defoliation program. Therefore, spray tanks

Pumps, lines and nozzles should

be cleaned to remove sticky resi-

der dryland conditions and 80 per-

dues left by liquid insecticides. Extreme caution should be taken to see that every nozzle on the boom or plane is putting out proper amounts of spray.

Defoliate only enough acreage to stay ahead of harvesting. If a second application is required in unusually rank cotton, use a chemical with a different active ingredient to stay within a safe

residue tolerance. Avoid using any defoliant that is not labeled as to exact chemical content. Consider carefully al weather information such as dew and humidity forecasts, temperature, wind velocity and rainfall.

Elliott advises producers to con-

sult their local county agents be-

fore defoliating cotton.

NEWSLETTER WASHINGTON CONGRESSIO JAL ADJOURNA

Section 13 ct the Legislative Reorganization Act of 1946 provides as follows: "Except in time of war or during a National emergency proclaimed by the President the two Houses shall adjourn not later than the last day (Sundays excepted) in the month of July in each year, unless otherwise provided by the Congress." A state of war or National emergency has existed since 1939. On August 1, 1949 Speaker Sam Rayburn ruled that the First Session of the 81st Congress could legally continue after the last day of July because the National emergency declared by the President on September 8, 1939 and May 27, 1941 were still in effect. Since that time Congress could legally have stayed in Session after the last day of July every year, including the present one. If the declaration of National emergency were terminated by the President we would not be in Session legally at the present time. Although there is a state of war in Viet Nam, it is an undeclared war and would not meet

the continued Session of Congress The Members would like very much to terminate the Session by August 1 each year. However, there is always something to prevent it. It is virtually impossible for any of the Members to have vacations with their families or to be in their districts for any length of time during the summer months. As the summer wears on and fall begins a high degree of tension develops which is commonly called 'adjournment fever.' This tension is the result of long and exhaustive hours in committee meetings and long Sessions of the Congress with attention divided among a great number of bills of major import. All the Members are desirous of obtaining passage of their own particular bills affecting their districts. Add ficance and you have an almost impossible situation. It is dur-

The present situation seems to be this. For some time it was suggested that we might be able to adjourn by Labor Day. The next predictions were for some time around September 15. However, the bill which repeals Section 14(b) of the Taft-Hartley Act passed the House of Representatives and was sent to the Senate. It seemed to run into trouble there and probably will not be acted on this Session. This would help early adjournment except that the House of Representatives Committee on Education and Labor approved a new minimum wage bill increasing the minimum wage and expanding coverage; a highly controversial measure that may require much parliamentary maneuvering to get it before the Congress. It could probably not be heard before September 27. This brought about new predictions of October 1 adjournment which have since been changed

to October 15.

Good Cotton

Texas cotton farmers lose large

Defoliants cause mature leaves

The Extension Service recommends any one of five good defoliants that are available on the market. Only one desiccant, arsenic acid, is recommended under

stages of maturity, Elliott stresses. Defoliants can be safely applied when 60 percent or more of the bolls are open. Desiccants should not be applied unless 75 percent of the bolls are open un3 Unit
