WILLIAM'S VISIT REVIVES TALK

GERMANY AND ENGLAND HAVE A SECRET AGREEMENT

RELATES TO EAST AFRICA

Asia Minor Also Included in the Scope of the Instrument—Certain to the Partition of Territory

(By Associated Press.) LONDON, Nov. 4.—Emperor William's approaching visit, being connected closely in time with the arrival of the king of Portugal, has revived discussion of an alleged secret chapter of Anglo-German diplomacy. No diplomat doubts the existence of a secret agreement between the two governments relating to the partition of Portuguese East Africa, and many well-informed men suspect Asia Minor is included in the scope of this convention.

The most reasonable theory is that the British government having secured an option to buy the Portuguese territory whenever the Lisbon government is ready to sell it, arranged with the Berlin government a scheme for dividing it and readjusting the frontiers. The German emperor is alleged to be anxious to have the sale carried through and the advantages for Germany made known for the sake of vindicating his own course of action in keeping on good terms with England.

The British ministers, on the other hand, are believed to be reluctant to reveal a partition scheme in advance of actual purchase of the territory, and the king of Portugal is not expected to lend encouragement to the idea that the sale can be hurried on.

GOVERNMENT SITES FOR IRRIGATION SELECTED

(Special to The Telegram.) WASHINGTON, Nov. 4.—Mr. F. H. Newell, the chief hydrographer of the geological survey, has returned from the second tour he has made this season to the West for the purpose of determining where the government is to begin the work of building irrigation reservoirs under the provisions of the new irrigation law.

Mr. Newell has decided on seven projects which he will recommend to the secretary of the interior for immediate construction work next spring. These are the sites on the St.

BUSINESS MEN LEAVE CHICAGO

PARTY STARTS THIS AFTERNOON IN SPECIAL TRAIN

TO REACH HERE ON FRIDAY

Get to the Texas Boundary Line Thursday Morning, Where They Will Be Met By Members of Committee-at-Large

(Special to The Telegram.) CHICAGO, Nov. 4.—The party of representative Chicago business men left late this afternoon on their tour of the southwest, primarily as guests of the state of Texas. The week will be spent visiting the principal cities of Texas and inspecting the varied resources of the state. The itinerary includes stops in Oklahoma, New Orleans, Jackson, Miss., Vicksburg and Memphis. The party left in a special train and will reach the state of Texas on the morning of November 6 (Thursday).

TO IMPROVE THE MISSISSIPPI
Meeting at Quincy Will Discuss How It May Be Done

(Special to The Telegram.) QUINCY, Ill., Nov. 4.—Representatives from the cities and business organizations between St. Louis and St. Paul will meet in Quincy Nov. 12 and 13 to discuss the needs of the upper Mississippi river. The call for the meeting has been issued by the Quincy Freight Traffic bureau and the chamber of Commerce. A memorial to congress will probably be adopted.

COLLISION OF TROOPS
Heavy Firing All Night With Casualties of Seven

(Special to The Telegram.) PORT AU PRINCE, Hayti, Nov. 4.—Two hundred French troops are in a collision with the civil authorities. There has been heavy firing all night. Seven are known to be dead. Many are wounded. The situation is grave.

FRENCHMEN PRESERVE HONOR

(By Associated Press.) PARIS, Nov. 4.—A duel between Count DeLion, president of the Automobile club and a prominent sportsman, and Gerault Richard, of the Petite Republique, took place today. Gerault Richard was wounded in the right arm.

VERY QUIET ELECTION DAY

THE VOTE UP TO 1:00 P. M. WAS EXCEEDINGLY LIGHT

COUNTY ATTORNEY'S RACE

Only One In Which Interest is Manifested — Active Opposition to Democratic Nominee — Light Country Vote

Perhaps the quietest election held in Fort Worth and Tarrant county than the one being held today.

The various wards had not cast their fourth ward strength at 1 p. m. The indications, however, were that a heavier vote would be polled after 2 p. m., and that the negro vote in the various wards would poll its entire strength after that hour, and for the opposition ticket.

Friends of Mr. Lattimore, however, express no fear as to the outcome, but regret that a heavier Democratic vote is not being polled. They urge all who have not voted to do so. They owe it to the party and to the nominee of that party to do this. The DeLuge faction is working harder than the Republicans were ever known to work in a local election, and that every possible inducement is being thrown out to vote there can be no question.

The opposition to Mr. Lattimore, not heretofore working earnestly to defeat him, and it is this class that is making the most noise. The Republicans are working quietly, but determinedly, but the noise-making of the other phalanx is in the play.

In the city they are voting at the following places, and if you have not voted, go at once and do so.

First ward—B. F. Sprinkle, president officer. Voting place, Rusk street, between Third and Fourth street.

Second ward—Henry Field, president officer. Voting place, southwest corner of Main and Second streets, the old Pacific Express office.

Third ward—R. E. Wallis, president officer. Voting place on Jones street, opposite the Santa Fe depot.

Fourth ward—M. G. Ellis, president officer. Voting place the city hall.

Fifth ward—J. S. McDaniel, president officer. Voting place, South Rusk street, near Daggett avenue.

Sixth ward—W. P. McLean, Jr., president officer. Voting place, the Sixth ward fire hall.

Seventh ward—M. G. Black, president officer. Voting place, the McDaniel or the Hirschfeld store.

Eighth ward—R. E. Keith, president officer. Voting place, grocery store, southwest corner of Hemphill street and Magnolia avenue.

Ninth ward—Q. T. Moreland, president officer, voting place in basement of the court house.

SIAMESE PRINCE WILL RETURN TO HIS DUTIES

BROTHER OF THE CROWN PRINCE GOES BACK VISIBLY IMPRESSED, HE SAYS

(By Associated Press.) NEW YORK, Nov. 4.—Prince Chakrabharu, brother of the Crown Prince of Siam, who, with the latter, has been touring through the East, has returned to New York, accompanied by his aide de camp and Leering Townsend Hildreth, United States consul to Siam. The prince will sail for Russia today on board the Kaiser Wilhelm Der Gross. He is a member of the emperor's bodyguard, and as he is on a leave of absence, his early return is necessary.

The prince said he had had great impressions by what he had had an opportunity of seeing and hopes to revisit America.

DISCOLORATION NO MYSTERY

Developments in the Peculiar Case in New York Hospital

(By Associated Press.) NEW YORK, Nov. 4.—Mystery no longer surrounds the strange discoloration which has turned black the lower limbs and part of the body of Patrick McGrath, a patient in Bellevue hospital. He is suffering from gangrene, caused, the doctors have decided, by a clot of blood in one of the largest arteries of the body above the hip, probably the aorta. Nothing can save his life, the physicians say, except immediate removal of the clot.

WILL MAKE THEIR OWN BOOTS

But They Will Use American Machinery to Do It

(By Associated Press.) NEW YORK, Nov. 4.—British boot and shoe manufacturers state that the importation of American boots and shoes practically has ceased. At the shoe and leather fair just opened at Islington, almost every mechanical device for cheapening the production of boots and shoes is of American origin.

LIVED 22 YEARS WITH A KNIFE IN HIS BRAIN

(From Associated Press.) CHICAGO, Nov. 4.—After having carried a knife blade an inch and a quarter in length in his brain for twenty-two years, J. Kent has undergone a successful operation for its removal. The blade had broken off in the skull and the point had been all the years inserted squarely into the brain. Since the injury had been received, Mr. Kent had suffered from epileptic seizures. The physician who performed the operation says the patient will recover full control of his muscles.

TALK OF DENTON ELECTRIC RAILROAD

A TELEGRAM CORRESPONDENT GIVES SOME DETAILS OF IT

Says Line Will Be Built From Sherman to McKinney, Thence to Denton and From There to Dallas Via Fort Worth

(Special to The Telegram.) DENTON, Tex., Nov. 3.—W. W. Keith, the tax assessor of Denton county, has returned from a business trip to Dallas.

While in Dallas Mr. Keith learned some inside facts about the proposed electric railway from McKinney to Denton. The promoters of the scheme are the ex-cutors of the late Sherman T. Denton, and Mr. Keith thinks the Interurban line will go from Sherman to McKinney, to which point the survey is already completed; thence to Denton, thence to Fort Worth, at which point it will intersect the Interurban and go into Dallas, instead of going from McKinney direct to Dallas, as was first proposed.

Indian Agent in Denton
Joe C. Carter, of Bowie, Montague county, agent for Indian depredation claims against the United States government, has been in Denton on business for several days.

Mr. Carter was once a citizen and officer of Denton county, being the high sheriff of this county from 1857 to 1859. Mr. Carter and our fellow townsman, and one of Denton's most enterprising merchants, Alexander C. Williams, are the only survivors that the writer knows anything about, who were sheriffs of this county in antebellum days.

Saloonkeeper Makes Assignment
C. R. King, who was a saloonkeeper in Denton until prohibition went into effect, on the 23d ultimo, has made an assignment.

Poll Tax Amendment
E. B. Willis and Hon. E. C. Smith, who will be Denton county's representatives in the legislature after tomorrow, spoke to a good crowd at the court house today in favor of the poll tax amendment to the constitution. There doesn't seem to be a great deal of opposition to the amendment.

Private Residence Burglarized
Theft in Denton for a long time was committed Thursday night last. A private residence was entered and some "krub" and other necessities of life were taken by someone who was evidently not only taking his novitiate in the business but had weak judgment as to values.

Delighted By the Rain
Our people, especially those who have farming interests, are delighted over the splendid rain which has fallen today.

W. T. Simmons, company owners and operators of the only marble and tombstone business in Denton, are talking of starting a branch business either in Fort Worth or El Paso.

John J. Moore, dealer in second-hand merchandise, is suffering from an attack of rheumatism. Mr. Moore is noted for being the most cheerful man in Denton and his presence is proscribed by every physician in town as a treatment for despondency, but rheumatic pains have put a different song in his mouth, as they do in everybody's. It is hoped that Mr. Moore will soon be himself again, and will be able to give the town many more years of faithful service as a blue killer.

DOCTORS DOUBTED BUT HE TOLD THE TRUTH

ANNOUNCEMENT OF IMPENDING DEATH WAS NOT BELIEVED

(By Associated Press.) NEW YORK, Nov. 4.—Dr. G. I. Cook, said to have practiced medicine in Ohio for 30 years, is dead at the New York hospital from morphine poisoning. He was 78 years old.

On Sunday he called at the home of his daughter and announced that he had taken morphine and would soon be dead. A physician was called but found no trace of poison.

Several hours later, Cook began to show signs that he had told the truth. He was hurriedly taken to the hospital, but all efforts to restore him proved futile.

AN ELDORADO OF THE WEST

GREAT INDIAN RESERVATION IN COLORADO TO BE OPENED

THE RAILROAD DOES IT

New Denver and Salt Lake Railway Passes Through a Land of Wonderful Promise—An Extraordinary Influx of Settlers

(Special to The Telegram.) DENVER, Nov. 4.—One of those chances that occur when such openings as that of the Oklahoma and Iowa reservations are made is about to happen in that part of Colorado lying to the west of the Great Divide. It will be one of the few opportunities left on this continent for the pioneer spirit to manifest itself with the opportunity of catching that tide which taken at the flood leads on to fortune.

The foothills and passes of the Rockies are again filled with pioneers making their way to the latest Eldorado. Not since the development of Cripple Creek, Creede and Aspen, has such a rush to the region beyond the Continental divide been seen. The old prairie schooner, with its canvas sails, is again in evidence, and when one watches the trail, dusty from the passage of thousands of pilgrims to the new shrine of fortune, they can not help being reminded of the old cry of "Pike's Peak or bust," which was familiar in this region 50 years ago.

The region to which migration is in progress is in Northwestern Colorado, which has long been known to be rich with gold, copper and iron. The territory is as large as Pennsylvania, but it has been sealed up to the present time, as there was no way of reaching it but over the mountain roads. Now that the railroad is being built its splendid possibilities are remembered, and heterogeneous humanity is elbowing its way over the passes ahead of the railroad in order to be the first in the field.

The Willow Creek mining district, which extends from west of Long's Peak, in Grand county, contains some veins of extremely rich ore. Gold has been steadily produced for the past 40 years at Hahn's Peak, in Rout county, while to the westward yet the Wasatch range in Northwestern Utah, located in the Uncompahgre and Uintah reservations abounds with gold, iron and copper. The richest gold camp in Utah, as far as Hahn's Peak, and is of the same formation throughout.

According to the act of congress the Uncompahgre and Uintah reservations will be thrown open for settlement next year in the same way that Oklahoma was a few years ago. It is in anticipation of this that the rush across the Great Divide has commenced, for the fertility and mineral resources of the territory have long been known.

WORDS FROM MRS. ROBT. J. BURDETTE

(From Associated Press.) CHICAGO, Ill., Nov. 4.—"If the club woman does not make the best companion for her husband and the best comrade for her boy, there is either something wrong with the club or with the woman's view," said Mrs. Robert J. Burdette, first vice-president of the general federate of women's clubs, in a lecture before the West End Club yesterday afternoon.

"Club life for women should prepare them for making better wives and mothers," declared Mrs. Burdette, "for the club has not accomplished its mission."

Mrs. Burdette also scored the women in general for being responsible for the mad rush for wealth, which she declared was the greatest menace to perfect domestic happiness and the highest ideal of married life.

'SICK MAN OF EUROPE' BLUFFED BY FRANCE

HOWEVER, HE HASN'T YET PAID OVER ANY MONEY AS THE RESULT

(By Associated Press.) NEW YORK, Nov. 4.—A threat by the French government to stop the quotation of the Turkish loan of 1896 on the Paris Bourse unless the Porte gave to M. Loroardo and Tubini a written engagement to pay them out of the proceeds of the Turkish debt conversion, has, according to a Times dispatch from Constantinople by way of London, produced the desired effect and the matter has been settled by the Porte.

The Loroardo and Tubini claims were partly the cause of the dispatch of the French squadron to the Island of Mitylene just a year ago.

As a result of that action the Sultan promised to satisfy all the French demands.

The Elks have arranged for the use of Elks' Hall for the Charity Fair, and Mrs. Walker will continue her dancing classes in the Elks' Hall Monday, Wednesday and Friday nights, Thursday afternoons and Saturday mornings.

SLIGHT WRECK ON THE KATY

No One Is Hurt But Traffic Is Delayed Several Hours

Northbound Katy passenger No. 4 had a slight wreck about twenty miles north of Fort Worth at 2:30 this morning. Several cars were derailed, but no one was hurt. The train was delayed about six hours. The cause of the accident was a "split" switch. The peculiar part of the accident was that the same train crew was in charge which was on the Katy passenger in the local yards Sunday morning, when it got off the rails near Second street.

BIG ENGINES

Baldwin Locomotive Works Turning Out Monsters for El Paso Route

That the Prairie type of locomotive is growing in favor where exceptionally heavy power for fast passenger service is needed, seems to be proven by the increasing orders for this style of engine. Here are some of the figures of the big locomotives the Baldwin Locomotive works are turning out for the El Paso-Rock Island route: Total weight of engine, 183,865 pounds of which 125,190 pounds are on the drivers and available for adhesive purposes; weight on front truck, 26,800 pounds, and on the trailing truck, 31,875. Total driving wheel base, 13 feet 4 inches; total wheel base of engine and tender, 58 feet 11 inches; total weight of engine and tender, 300,000 pounds. The cylinders are of the simple piston valve type, 21 inches in diameter by 28-inch stroke. The driving wheels are 69 inches in diameter, outside. The tractive power is 30,420 pounds.

Railroads Raising Wages

The Colorado and Southern, which is the northern end of the Fort Worth and Denver, has granted a raise of 4c an hour to yardmen in its employ in Denver. Superintendent Dyer of the road in Denver stated that the company granted the raise because they believed it just. The clerks in the West Denison office of the Katy have all received an increase of wages effective Nov. 1. The total increases amount to about \$500 more per month for the office force than formerly. The Santa Fe system has announced an increase of 1c per hour per day for about 1200 skilled tradesmen in metal work, on the main line between Chicago and Albuquerque.

Railroad Notes and Personals

Considering the increasing length of freight trains in these days of big engines and low grades, the Railway Age points out that it is getting to be a serious matter for trainmen to communicate with each other. Announcement that a western railroad will equip its crews with heliographs, to flash signals along from one end of the train to the other, makes no provision for the serious difficulty of loud weather. The Age facetiously suggests it would be a good plan to build a narrow gauge track on top of the train on which a light trolley could rapidly convey the officials their trips from one end of the train to the other.

The Southern Pacific has announced establishment of two trains daily between New Orleans, El Paso, Los Angeles, San Francisco and intermediate points and the placement of a dining car system. service goes into effect Saturday, 15. The St. Louis and North Western railroad has inaugurated through service between and Minneapolis and St. Paul Limited, and will start at 2:10 p. m., arriving at 8:10 a. m.

THE FEDERAL COURT GRIST

NOTATION OF DISPOSITION OF CASES YESTERDAY

GRAND JURY INVESTIGATING

No Regular Cases Set Earlier Than Friday, Though Court Is Open for the Transaction of Business on the Docket

Court was in session until noon today, devoting the time to setting of cases for dates agreeable to all concerned. An adjournment was taken until 10 o'clock tomorrow morning. The grand jury is in session, and Attorney Atwell is giving his attention and services to this body. There probably will not be any cases tried until Friday morning, possibly Thursday.

It is not thought the grand jury will have but five or six days work. The following orders and dispositions of cases appear on the docket of the United States district court which convened here yesterday:

Mrs. Cornelia Adair vs. A. N. Askey and A. J. Askey, damages; continued to await action in equity case on appeal.

Comanche Mercantile Co. vs. Parlin & Orendorff Co., damages, continued by agreement.

Sophie C. Woods vs. the Texas and Pacific Railway Co., damages; agreed judgment.

T. T. Murphy vs. the Western Union Telegraph Co., continued by agreement.

Samuel Maxwell vs. J. S. Adair, et al, trespass to try title; dismissed as to H. Specht and F. W. Warner.

Frederick P. Alcott vs. Robert Moody, trespass to try title; continued by agreement.

B. F. Porter, et al, vs. J. H. Miller et al, trespass to try title, dismissed by plaintiff.

Johnson Bros. vs. Texas and Pacific Railway Co., damages; settled and to be dismissed as per agreement.

W. L. Vining vs. C. L. Wicker, debt; dismissed for want of prosecution.

Thomas H. Hubbard vs. J. W. Walker, trespass to try title; dismissed as per agreement.

John Herbert vs. the City of Fort Worth, suit on bonds; set for January 5; agreement waiting jury filed.

Bankruptcy Discharges The following discharges in bankruptcy have been authorized by Judge E. R. Meek in the federal court: O. D. Hall, Colorado; C. Meyer, Priddy; R. L. Maddox, Ballinger; H. L. Cowl, Fort Worth, and Jasper N. Haney, sr., Weatherford.

In the Seventeenth Judgments by agreement have been recorded in the Seventeenth district court in two cases against the Fort Worth and Denver City Railway Co., E. A. Griffith for \$2,500 and E. G. Har- ris for \$500.

The case of R. E. Kerr against the Southwestern Telephone & Telegraph Co., put on Monday, went over until Wednesday.

In County Court There have been three condemnation suits filed in the county clerk's office by the Chicago, Rock Island and Gulf Railway company. The action concerns right-of-way for the proposed road, and involves interests of L. A. Hollingsworth, Minnie Hovencamp and Texas Loan agency.

ADDITIONAL CITY BRIEFS

Passenger agents of the various Texas railroads are in session at Dallas today to arrange for cars for the holiday traffic, which is expected to be unusually big.

Mr. and Mrs. C. E. Palmer have returned home, after a ten days' visit at Fort Smith. Mr. Palmer is assistant city ticket agent for the Cotton Belt.

Charles Swindell, general passenger agent for the Kansas City Southern, was a visitor in the city today.

Roy Terrell, traveling freight agent for the Frisco, headquarters at Dallas, was in the city today.

E. M. Winstead, commercial agent for the Frisco, left this morning on a trip through northern Texas.

W. R. Smith, city ticket agent of the Houston and Texas Central, has returned from a visit in Austin and Houston.

Robert Sanderson, a prominent cattleman of Big Springs, was in the city today on business.

Constipation is the rock that wrecks many lives; it poisons the very life blood. Regularity can be established through the use of PRICKLY ASH BITTERS. It is mildly cathartic and strengthens the stomach, liver and kidneys.

EXPECT TO HAVE IT FINISHED NEXT WEEK

Engineers of the International and Great Northern are looking forward to next week, when it is expected that the last gap between Fort Worth and Waco will have been finished, and it will be possible to run at least work trains for the entire distance. Foreman Reynolds, who has charge of the construction, was in the city last night. He stated that there is yet but nine miles of track to be laid. The workmen coming his way are at Venus while those going from Fort Worth have reached a point nine miles from that place. It is expected to have the last rails laid by Wednesday, November 12. The rain yesterday and Sunday hindered the work somewhat, but if fair weather continues the expectations of the engineers will no doubt be filled.

J. J. HILL IS NOT AFRAID OF THE U. S. STEEL TRUST

HELENA, Mont., Nov. 4.—James J. Hill, president of the Great Northern Railway and Northern Securities companies, has planned, it is said, the creation of a steel and iron industry in the West which will rival anything of the sort in Pennsylvania or the world. He arrived in Great Falls, Mont., for this purpose.

The first step in his enterprise, it is said, will be the transformation of the old silver smelter of the American Smelting and Refining company, which has been idle for about three years, into an iron and steel mill. It is believed that the purchase of this plant has been affected.

On his visit to the West, last August, President Hill closed a deal through which he obtained from Banker Conrad of Great Falls, a controlling interest in the largest iron deposits known in Montana. The field is about 100 miles from Great Falls, in territory reached by the Great Northern railway. The sum of \$25,000 was paid for the property, which is said to be a

The Weather Throughout the South Not Favorable for a Full Turn-out - The Results Are Discussed in Advance

Dispatches indicate that there is widespread apathy manifested in today's election. This is true over the entire United States except in those localities where there are local or state issues of importance. Throughout the South and Southwest there is inclement weather that is having a depressing influence on the turn out of voters.

In the North the Republicans are so confident that they are not all voting and the same is true of the Democrats of the South.

It may be from this fact that a reversal of expectations may result for the Republicans. The reports from the various cities follow:

NEW YORK.—The weather is perfect and the voters are out early. In a number of assembly districts twenty per cent of the vote was cast before eight o'clock.

About forty arrests for illegal voting have been made.

In one district rival leaders came to blows near the booth. Police made arrests. Several prisoners were taken to the station house. The police were attacked by the mob and in the struggle one of the prisoners escaped. Nobody was badly hurt.

Several voting machines were used. The entire state ticket is being voted for. Legislature elects the successor of Senator Platte.

TOPEKA.—Dark rain; light vote.

SAN FRANCISCO.—Clear weather; heavy vote; both sides confident.

CHEYENNE.—Early voting; brisk, heavy vote.

PROVIDENCE.—Fine weather; heavy vote.

BOSTON.—Clear skies; deep interest in local option issue.

JACKSON.—There is a probability of rain in Mississippi. The Democrats have no opposition.

JACKSONVILLE.—There is a light vote; all Democrats will be elected.

CHARLESTON.—Pleasant; Democrats sweep the state.

WACO.—Quiet election. Better vote in the county than in the city. Strong vote for the amendment. Socialists' ticket ruled out of some boxes here because it had union label printed on it. Weather clear.

BEAUMONT.—The town was flooded by a heavy rain last night, and consequently a light vote is being polled. In addition, the printers made an almost unintelligible jumble of the Australian ballot, which makes balloting slow. Carroll, Prohibition candidate for Governor, lives here and is receiving a large complimentary vote.

AUSTIN.—Election quiet; light vote. Indications over the district are that Rountree is elected for the senate.

HOUSTON.—Harris county election is hot between Dupree, Democratic

MARRIED LAST EVENING John R. Cushman and Miss Mary E. Ayers - Another Wedding Soon At the residence of C. McPherson, pastor of the First Christian church, last evening at 5 o'clock Mr. McPherson united in marriage John R. Cushman and Miss Mary E. Ayers. The bride was up to a month ago engaged in the public schools here, but resigned. The groom is a young man who formerly resided here but five or six years ago went to San Antonio and later to Saltillo, Mexico. Mr. and Mrs. Cushman will go directly to Saltillo, where they will reside.

To Marry in Corsicana Mr. McPherson goes to Corsicana tomorrow, where tomorrow night at the home of the bride, he will officiate at the marriage of Lloyd B. Smith to Miss Dettie Nash. The bride-to-be is one of Corsicana's popular society leaders and the man of her choice is connected with the National Exchange bank of Dallas. Both are well known in Fort Worth's social circles.

DID NOT KNOW SHE HAD KIDNEY TROUBLE

Thousands Have Kidney Trouble and Never Suspect It.

Gertrude Warner Scott Cured by the Great Kidney Remedy, Swamp-Root.

Vinton, Iowa, July 15, 1901.

DR. KILMER & CO., Binghamton, N. Y.

Gentlemen:—My trouble began with pain in my stomach and back, so severe that it seemed as if knives were cutting me. I was treated by two of the best physicians in the county, and consulted another. None of them suspected that the cause of my trouble was kidney disease. They all told me that I had cancer of the stomach, and would die. I grew so weak that I could not walk any more than a child a month old, and I only weighed ninety pounds. One day my brother saw in a paper your advertisement of Swamp-Root, the great kidney remedy. He bought me a bottle at our drug store and I took it. My family could see a change in me, for the better, so they obtained more and I continued the use of Swamp-Root regularly. I was so weak and run down that it took considerable time to build me up again. I am now well, thanks to Swamp-Root, and weigh 148 pounds, and am keeping house for my husband and brother. Swamp-Root cured me after the doctors had failed to do me a particle of good.

(GERTRUDE WARNER SCOTT.) *Gertrude Warner Scott*

Women suffer untold misery because the nature of their disease is not correctly understood. In many cases when doctoring, they are led to believe that womb trouble or female weakness of some sort is responsible for their ills when in fact disordered kidneys are the chief cause of their distressing troubles. The mild and extraordinary effect of the world-famous kidney and bladder remedy, Dr. Kilmer's Swamp-Root, is soon realized. It stands the highest for its wonderful cures of the most distressing cases. A trial will convince anyone—and you may have a sample bottle sent free, by mail.

Sample Bottle of Swamp-Root Free By Mail.

EDITORIAL NOTE—If you have the slightest symptoms of kidney or bladder trouble, or if there is a trace of it in your family history, send at once to Dr. Kilmer & Co., Binghamton, N. Y., who will gladly send you by mail, immediately, without cost to you, a sample bottle of Swamp-Root, and a book telling all about Swamp-Root and containing many of the thousands upon thousands of testimonial letters received from men and women cured. In writing to Dr. Kilmer & Co., Binghamton, N. Y., be sure to say that you read this generous offer in the Fort Worth Telegram.

If you are already convinced that Swamp-Root is what you need, you can purchase the regular fifty-cent and one-dollar size bottles at the drug stores everywhere. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

WRONGED WIFE GETS VERDICT FOR \$25,000

WINS SUIT AGAINST RIVAL WHO CALLED HER A "REAL DEVIL"

LONDON, Nov. 4.—Mrs. Hugh Watt, wife of a wealthy Scotch manufacturer, has been awarded \$25,000 damages and costs in her suit against Lady Violet Beauchamp, divorced wife of Sir Reginald Beauchamp, for libel.

Watt was named as a co-respondent in the Beauchamp divorce case and has since made his home with Lady Violet. Mrs. Watt submitted in court a letter written her husband by Lady Violet which figured prominently in the libel suit. It was as follows:

"Do, darling, take great care of yourself. I shall never be happy until you are quite away from that creature.

I look upon her as a real devil and a criminal in human form."

Lady Violet and Mrs. Watt are both women of exceptional beauty. Watt is ungalantly plain of feature and not the type of man usually considered attractive by women.

When M. Loubet, the French President, was in St. Petersburg he left 25,000 rubles for the poor of that city. It has since been decided not to distribute this money, but to build with it a house in which poor families can live without paying rent.

ROBERTS MAKES HIS STATEMENT

TREASURER OF UNITED STATES PRESENTS ANNUAL REPORT

HAS AN AVAILABLE BALANCE

The Net Amount in the Vaults of the Government on July 1 Was the Largest, He Says, in the History of the Country

(By Associated Press.)

Washington, Nov. 4.—Ellis H. Roberts, treasurer of the United States, in his annual report, says that the magnitude of the available cash balance and the unprecedented holdings of gross gold are the striking feature of the condition of the treasury at the close of the fiscal year 1902. The net ordinary revenues for the year were \$502,478,233 and the expenditures \$471,190,857, showing a surplus of \$191,287,376.

In comparison with the previous year, there was a decrease of \$25,207,104 in the revenues, offset by a falling off of \$38,776,495 in the expenditures. While there was an increase of \$15,859,252 in the receipts from customs, the internal revenues, under the operation of new laws repealing the war taxes, fell off \$35,300,541. There was a decrease of \$22,343,481 in expenditures on account of the war department and an increase of \$7,296,149 in the cost of the navy. The total receipts of the year from all sources, including the public debt, were \$1,062,124,437 and the disbursements \$969,627,041. United States notes and treasury notes were redeemed in gold to the amount of \$17,482,590, of the former, and \$1,274,590 of the latter, without any impairment of the gold reserve of \$150,000,000.

The available cash balance in the treasury July 1, 1902, was the largest net balance in our history. It amounted to \$382,137,261. The gold reserve is counted in as it is available for the redemption of legal tender notes. The sums in national banks to the credit of the treasurer and disbursing officers were \$127,190,056. The subsidiary silver, \$11,462,533, and the minor coin, \$919,404, could hardly be used for large payments, nor is the silver bullion to be reckoned for such purposes.

With such deductions, there remained in the treasury vaults, July 1, a little over \$72,000,000. As fifty million dollars is deemed a fair working fund, about \$22,000,000 could be spared. By October 1 this excess became \$25,000,000 and justified measures to reduce it; by November 1, it was brought to a trifle over a million dollars below the working fund.

STATE OF COLORADO FILES ITS ANSWER

MAKES REPLY RELATIVE TO ITS RIGHT TO USE WATER OF ARKANSAS RIVER

(By Associated Press.)

Washington, Nov. 4.—The answer of the state of Colorado in the suit of the state of Kansas vs. Colorado for the restriction of the use of the water of the Arkansas river by the latter state was filed in the United States supreme court Monday. In general, all the allegations of the bill of the complaint are denied and it is set forth that the appropriations of water complained of "were in accordance with the reliance upon the doctrine respecting the appropriation of the water from the natural streams for beneficial uses which by usage and custom prevailed in the arid region of the United States at the time of said appropriation, and which, by the approval of the United States, have at times made the law applicable to the public lands in said arid region."

It is urged that the people of Kansas have themselves recognized the necessity of the use of the water of the streams for the purpose of irrigation by so using the water themselves.

ACTRESS BONNIE HOYT BURIED

(Special to The Telegram.)

Gainesville, Tex., Nov. 4.—The remains of Bonnie Hoyt, the actress who died at a sanitarium in Chicago a few days ago, were brought to this city and laid to rest in the East Hill cemetery.

The deceased's mother, Mrs. Will Grigsby, who resides in this city, had the remains brought here for burial.

Created Interest.

New York, Nov. 4.—A report that J. P. Morgan is about to buy up a share in the Staffordshire coal fields has, according to the London correspondent of the Tribune, created lively interest in that district.

Back from Virginia.

Washington, Nov. 4.—President Roosevelt arrived here from his trip to Virginia at 11:15 yesterday morning, and at 11:45 o'clock left for New York.

Shot Through the Head.

Atlanta, Tex., Nov. 4.—W. G. Wall, 60 years old, a farmer, living four miles west of this place, was found dead, having been shot through the head with a revolver.

Departments Closed.

Austin, Nov. 4.—All of the state departments closed on account of the election, as it is election day. The banks and postoffice were also closed.

ELECTION DAY IS A HOLIDAY FOR PRESIDENT

HE MET BIG CROWD AND A BAND AT OYSTER BAY

(By Associated Press.)

Oyster Bay, L. I., Nov. 4.—President Roosevelt reached Oyster Bay Monday evening in order to cast his vote. He was met with a surprise. About the station 1000 persons were gathered, with a band, big bonfires blazed and fireworks were discharged.

When the president appeared at the door of his special car he was greeted with cheers, and in reply raised his hat. As he passed across the station platform on his way to his carriage he shook hands with many of those who, despite the efforts of the secret service men, pressed forward to greet him.

The president was accompanied by Mrs. Roosevelt, Dr. Lung, Secretaries Cortelyou and Loeb, F. B. Travis of this village, Messenger Delaney and Stenographer Latta. He said he enjoyed his Virginia trip.

Brought Together.

Paris, Nov. 4.—The government Monday brought together arbitrators representing the strikers and the mine owners of the Pas de Calais district, one of the chief centers of disorder. Five arbitrators for each side arrived and held their first meeting at the ministry of public works. The discussion chiefly was as to wages.

The strikers continue their noisy demonstrations. At Bully, a non-striker met his death by some strikers. The cavalry is constantly active at Lens maintaining order. Denay reports an affray in which considerable damage was done to property. Several non-striker and the child of a non-striker were badly injured.

COMMISSIONERS DETAIN ELEVEN LITTLE CUBANS

EXCLUDE THEM FROM JOINING AN INSTITUTION IN CALIFORNIA

New York, Nov. 4.—The board of special inquiry reported to Commissioner of Immigration Williams that it had voted unanimously in favor of excluding all children who came from Santiago, Cuba, to this country to join the Universal Brotherhood institution at Point Loma, Cal.

It is expected an appeal will be taken from the decision.

Mr. Williams directed that they remain at Ellis Island, but that they be placed in his own private suite rooms in the Ellis Island building. There under treatment they will remain until the case is settled. The first appeal taken from the decision of the board of special inquiry is to Commissioner Williams and the next is to the treasury department at Washington where the commissioner expects a decision will be rendered.

Responsibility to Be Looked Into.

Washington, Nov. 4.—The treasury department has received information of the arrival at New York of thirty Cuban children enroute to the Universal Brotherhood school at Point Loma near San Diego, Cal. Assistant Secretary Taylor has decided that the children be detained in New York until the character and responsibility of the school can be ascertained.

Rice-Corbett Fight Off.

Waterbury, Conn., Nov. 4.—Austin Rice, the pugilist who was arrested Saturday on a charge of intending to break the peace by engaging in boxing match with "Young Corbett" on next Thursday night was Monday bound over in \$100 bond to keep the peace.

Later Wm. L. Crowley, of Hartford, manager of the proposed exhibition, announced that both the Corbett-Rice bout and the preliminary bouts were off.

"Young Corbett," against whom a warrant was issued, did not put in an appearance, but was represented by an attorney. A bond of \$500 was provided for him by Manager Crowley.

FEDERAL QUESTION IS NOT INVOLVED

Washington, Nov. 4.—The United States supreme court Monday dismissed on the ground that no Federal question was involved in the writ of error in the case of Fred Baker vs. Stephen Baldwin, both of Michigan, involving the constitutionality of the Bland-Alton coinage act of 1878 providing for the coinage of silver dollars. The case arose out of a refusal on the part of Baker, to whom Baldwin owed \$300, to accept silver in payment. The case was decided in Baldwin's interest by the supreme court of Michigan, and Baker brought it to the United States supreme court on a writ of error. The former decision was sustained by Monday's decision, but the court did not enter into the merits of the controversy.

Trolley Line Constructed.

South McAlester, I. T., Nov. 4.—At a meeting of the board of directors of Indian Territory Traction company the contract for road work on the street railway line from South McAlester to Halleyville was let to Donald G. Grant of Faribault, Minn. Mr. Grant is one of the original incorporators.

The system equipped with electric cars will cost \$450,000. Active work on construction will begin next week.

In Hands of a Receiver.

Huntsville, Ala., Nov. 4.—Judge Shelby of the United States circuit court has placed the Southern Building and Loan association of Huntsville, one of the largest concerns of the kind in the south, in the hands of Lawrence Cooper as receiver. This action was taken as a result of petition of Mrs. Barker of Massachusetts.

Gone to Cannes.

Genoa, Italy, Nov. 4.—The steam yacht Margarita, chartered by Chas. M. Schwab, sailed at noon Monday for Cannes.

AZTEC PRINCE IN GALVESTON

GALVESTON IS HONORING A DISTINGUISHED VISITOR

CLAIM OF ROYAL DESCENT

Said to Be the Rightful Heir to the Throne of the Montezumas—Now a Student at Leland Stanford University

(Special to The Telegram.)

Galveston, Nov. 4.—Prince Nanzeta Montezuma, court of Inca, is the title claimed by a young man about 25 years of age who arrived in this city Monday and who is attracting considerable attention with his long hair and condescending ways. He claims to be a lineal descendant of the old Aztec and heir to the throne of his country. He further claims to be a graduate of the Leland Stanford university and that he is at present unable to go to his people, as he is obliged to pass through Mexico, which country has a price set upon his head, owing to some past difficulty between his people and the Mexican government.

The prince in his statement for publication gave an account of his numerous adventures, among which was a duel with a German army officer, and when telling the story proudly exhibits wounds received in the contest. He leaves this city in a few days for Florida.

LONG SENTENCE FOR DEPRAVITY

(By Associated Press.)

LONDON, Nov. 4.—The excitement Sunday over the reported flight of a peer to the continent was heightened Monday by the announcement that a well known London society man, Bernard Frazer, had been sentenced to the Norwich assizes to ten years penal servitude. With him was also sentenced Arthur Thorold, the son of a clergyman, connected, as is Frazer, with one of the oldest and proudest families in the United Kingdom. The prisoners were charged with carrying on a regular campaign to deprave the morals of youths all over the country.

Came Up and Continued.

St. Louis, Nov. 4.—The cases against Otto Schumacher, Louis Decker, John Helms, W. M. Tumblyn, H. A. Faulkner, Edmund Boisch, John H. Schnettler and J. J. Hannigan, former and present members of the house of delegates, accused of bribery, came up Monday and all were continued until November 19.

Machinists Busy.

Temple, Tex., Nov. 4.—Business has increased so rapidly at the Santa Fe shops at Temple that employment is now given eighteen machinists, whereas four were sufficient to handle the volume of business a few months ago. Many see in this an augury of increased shop facilities in the near future.

Makes Permanent Cures in Chronic and Complicated Cases of Rheumatism.

It Gives New Life to Helpless and Crippled Men and Women.

Professor Edward E. Phelps, M. D., LL. D., has given to his profession a positive and permanent cure for all forms of rheumatism from which so many suffer in the autumn season. To the rheumatic, this truth should prove encouraging and comforting. Men and women suffering intense agonies from a disease that frequently stiffens the joints, cripples the limbs and renders its victims quite helpless, can be restored to activity, vigor and health, if Paine's Celery Compound be used for a few weeks. There is every reason why sufferers should pin their faith to this best of medicines. Your friends and neighbors have used it with success; the honest physician is prescribing it every day in cases where all other means have failed, and they are delighted with the happy results. Why hesitate, or doubt the powers, virtues and efficacy of the medicine that is curing thousands today? It is your only hope; your safety and life depend upon its use. Lizzie Pierce, Folger, Tenn., once helpless and in a critical condition from rheumatism, writes thus:—
"I had rheumatism so bad that I could not walk, and could not bear to have my legs moved; I often thought the disease would kill me. I commenced taking Paine's Celery Compound; I used two bottles and have not had the slightest symptoms of rheumatism since. I wish I could tell the whole world the good your medicine has done me. My mother, who had rheumatism for years, was cured by Paine's Celery Compound after using a few bottles. She can run now like a child and says she feels ten years younger. I could tell you of a dozen or more people who were cured by Paine's Celery Compound."

FRIEND IN NEED SOCIETY ORGANIZED

A MUTUAL BENEFIT ORGANIZATION, MEMBERSHIP LIMITED TO SIX HUNDRED

A new society, the members of which are among the best people in Fort Worth, has within the past ten days been partially organized, and with a membership of nearly the requisite number desired, for the membership will be limited to 600. It will be known as "The Friend In Need Society."

The first meeting was held at R. E. Lee camp headquarters yesterday afternoon, and a committee was appointed to investigate the advisability of incorporating, and securing a charter. Judge S. P. Green, at the meeting yesterday, explained the objects and purposes of the society, as did also Colonel Duke Goodman. The latter read a charter membership of over 100, and the secretary of the meeting, Dell Cobb, also read a list of those present. They were: B. C. Kirtley, Dave Boaz, J. S. McDonald, G. L. Gause, M. C. Billings, L. P. Robertson, C. McDougal, S. P. Greene, Duke Goodman, R. R. Keith, T. P. Day, O. W. Gillespie, George Jackson, J. A. Thornton, E. W. Taylor, C. W. Connerly, R. E. Beckham, W. D. Farris, J. J. Melton, J. F. Waller, A. G. Schafer, M. D. McNeely, W. M. McConnell, C. Joyce, T. J. Mahen, J. M. Adams, E. M. Daggett.

Messrs. Beckham, Goodman, Greene, McConnell and Taylor further discussed the proposition as a good thing, following which a committee composed of Messrs. Beckham, Goodman, Jackson, Gause and Greene was appointed to investigate the incorporation and charter proposition and adjourned meeting to be held tomorrow afternoon at 3 o'clock at the same place.

Maj. K. M. VanZandt, Col. George Jackson, Col. Duke Goodman and Judge S. P. Green put the movement on foot, and last week solicited memberships.

The purpose is to secure 600 members. Each pays into the treasury \$1 as an initiation fee, and \$1 upon the death of any member. The treasurer immediately upon the death of a member pays to the beneficiary \$50. There are no waits or red tape proceedings. There are to be no salaried officers. The funds, in all probability will be kept on deposit at the Fort Worth National bank, and there is further probability that Dr. George Jackson will be treasurer. Applications for membership will be kept on record, and when a member dies, the next man on the list for membership will be enrolled, and at no time will the membership be allowed to exceed 600. It is purely a mutual benefit organization, one that will pay to the beneficiary \$50 when most needed—in the time of trouble.

THE "BOHEMIAN" GETS REQUESTS FROM MEXICO FOR CUTS USED IN RECENT ISSUE

That other magazines and publications are beginning to recognize the superior merit of "The Bohemian" is being demonstrated in many ways. Within the past few days a letter was received from the manager of a prominent journal printed in the City of Mexico and the United States combined, requesting the favor of three cuts—"The Spirits of the Waterfalls," "Bondo Snooks and Auntie Belle" and "Aunt Clara and the Bohemian."
The first mentioned, with the accompanying poem, "The Spirit of the Waterfall," by Chas. Montross Brown of Fort Worth, translated into perfect Spanish, and "Bondo Snooks and Auntie Belle," will appear in their November issue; "Aunt Clara" and "The Bohemian" in the December number.

Simple Catarrh — Deadly Consumption.

Do Not Neglect the Beginnings of Disease, Small Ills May Develop Into Serious Ails, as Simple Catarrh Frequently Paves the Way for Deadly Consumption.

CATARRH PAVING THE WAY FOR THE "GREAT WHITE PLAGUE."

So many neglect the beginning of disease and allow it to become firmly seated and very difficult to dislodge. Only physicians who are familiar with the history of all, that in a large number of fatal sicknesses, has led up to the death, realize how often a supposedly trivial complaint neglected brought about the condition that cost life. Case after case of Consumption can be traced, to neglected catarrh. Catarrh is a prevailing plague, the foremost scourge of America. Its stealthy approach and lingering stay makes it a dread to the physician and a pest to the patient. It is vastly more than just a filthy and disgusting disease, making the breath odious and repulsive, causing one to choke, snuff, blow, sneeze, cough, gag, hawk, spit and do the disagreeable things catarrh sufferers are obliged to do, but if allowed to run it sooner or later becomes dangerous to life. Because catarrh is not alarming in its early stages it is commonly allowed to progress until many, so many, deaths are due to diseases having other and various names but of which catarrh is the primary or basic cause. Catarrh is the beginning of more diseases than all other causes combined. It is capable of attacking most fluids, tissues and organs of the body. The poisonous secretions following up the mucous tracts get into the throat and injure the voice, into the head and impair hearing, into the stomach and produce dyspepsia, into the bowels and result in chronic diarrhoea, into the blood and become scrofula, into the skin to be known as eczema, into respiratory organs and cause consumption, into the urinary organs and

entail Bright's disease and bladder troubles, into the pelvic organs and develop various annoying and distressing conditions generally referred to as "female weakness."
Catarrh of the eyes, ears, nose, throat, bronchial tubes, lungs, liver, stomach, bowels, kidneys, bladder and other organs, is but a local manifestation of a lurking, systematic or constitutional disease, hence the folly of attempting its cure with local applications alone. It needs searching, systematic medication to effectually eradicate this blighting taint from the constitution. Purely local treatment will only suppress its outward manifestation in one spot, drive it in to perhaps attack some more important and deeper seated structures.
If you have catarrh, even in its most common or ordinary and supposedly safe form, and are gifted with uncommon sense you will not delay seeking a cure for it but endeavor to drive it out of the system before it develops into a disease that gives little promise or hope of cure.
True, all catarrh sufferers do not develop consumption or Bright's disease, but careful inquiry will show that most who have died of these common and fatal ills were, previous to its affecting lungs or kidneys, afflicted with some recognized form of catarrh. Stuart's Catarrh Tablets cure catarrh anywhere, everywhere and always, whether it be openly manifest as a local pest, or lurking internally as a hidden scourge. They are taken internally, thereby searching out and antagonizing catarrhal poisons, wherever the blood goes and this means in every nook and corner of the body.
This is how they have won their great reputation for positive and per-

manent cures. This is why so many testify that they are cured so the disease does not come back after a time. A leading druggist of Albany says: "I have sold many catarrh cures but none gave such general satisfaction as Stuart's Catarrh Tablets."
A cure that is radical and lasting is the only real cure. It is easy to dry up or drive in and suppress catarrh at some local point, with drying or astringent applications, but this is only a miserable subterfuge, a makeshift that will soon be apparent when treatment is discontinued. Not so with the radical constitutional cure by the use of Stuart's Catarrh Tablets which, though not so rapid of action as suppressing measures, is lasting and satisfactory in the end. The catarrhal constitution once righted, the first little cold does not bring about a return of the disease. The certainty and permanency of the cures accomplished by Stuart's Catarrh Tablets accounts for the fact that the multitude of people who have used them are so lavish in their praise.
If you love health, a sweet breath, and a clear head, if you wish to rid yourself of the systematic tendencies, as well as the disagreeable local manifestations, of catarrh, Stuart's Catarrh Tablets are your hope, and, if persistently used for a reasonable time, will prove your redemption from this prevalent, loathsome and eventually dangerous disease.
Stuart's Catarrh Tablets are convenient, safe and cheap and all druggists sell them at 50c for full size package. You can use with assurance that you will not contract cocaine or morphine habit, as the results from this catarrh cure are apparent from the first day's use.

The Times-Herald says that Dallas is the hub and center of the state. There is evidently a typographical error in the above. Through an inadvertence probably, the word "near" was left out.

When Dallas gets the government to dig her a nice large ditch, she'll probably want an additional appropriation to provide water for it, for no "navigable" river is complete without at least a few inches of running water.

The Northern business men can't see much of Fort Worth in a few hours, but if their eyes are not blurred with too much travel, they will see enough to bring them back again for a longer stay in the sweet subsequently.

Miss Tarbell has written a "History of the Standard Oil Co.," that began running in a November magazine. It is freely predicted that this work will surpass in importance any of Banonly of a nation, while the Standard Oil Co. is, as everybody knows, THE STANDARD OIL COMPANY.

Richmond, Virginia, was the first city in the world to adopt electricity to street cars. Fort Worth is said to have been the first to follow Richmond's lead west of the Mississippi river. Don't know just how long ago it was, but those Arlington Heights cars can't be less than fifty years old.

A certain retired farmer up New York state is violently opposed to trusts, and his denunciation of them is never ending, apparently. The other day he had a coffin made in which he expects his body to rest after his death. It is painted red, white and blue, to show his faith in his country; and on either side is painted in large black letters this last note of defiance: "This coffin was made by no d--d Trust."

The St. Louis Republic asks if foot ball is brutal, and in another place in the paper is the following, an extract from a write-up of a game played the day before. "Took came out of the game with three teeth missing. Burko had his collarbone so badly fractured

that in all probability he will be unable to play again this season, and Kafer has his collarbone broken so that for him to play again this year is not to be thought of. Moore is also in the infirmary nursing an injured knee."

General Corbin and General Young have returned from their tour of military inspection in Europe and their reports rather indicate that the English and German soldiers are about on a par with each other and both ahead of those of this country. That may be true, but if anyone cares to take down his history and glance over it he will find that when it comes to a real mix-up the American soldier has generally had the British on the run.

THE IRISH ENVOYS. John E. Redmond, one of the Irish envoys, has sailed back to England, but Michael Davitt, John Dillon and Edward Blake will remain here yet awhile, to arouse interest in Ireland's long struggle against land tenantry and for the right of home rule.

That country is now, as it has been for seven hundred years, in a state of disturbance and unrest, because of the relations between the men who own the land and the men that work it. The soil is notably thin and in some cases will hardly provide a bare living for the man who tills it. Then when the owner comes along and exacts his share of the proceeds, there is not enough for the tenant to keep himself and family from actual suffering.

The result is generally violence between the two of more or less seriousness; and in the end the tenant gets the worst of it, because the laws are framed to favor the landlords. It is a disgrace to the age we live in that no means of conciliation has yet been devised for bringing the landlords and tenants to a better understanding, that Ireland may have the peace and prosperity that other dependencies of Great Britain enjoy.

What the envoys expect to accomplish in this country is hard to determine. All they can get here is sympathy; what they need is justice. That can be given them only by the powers that rule the British Empire.

MONEY FOR IRRIGATION. General Land Commissioner Hermann now announces that the receipts from the sale of public lands has so increased that with the close of the last fiscal year, the fund for irrigation purposes amounts to \$9,500,000. The sale of public lands last year exceeded those of any single year in the history of the government. The aggregate cash receipts from this source were in excess of \$6,500,000.

It was due to the opening of territory taken from the Indians and to the general prosperity all over the West which impels many to move on and invest their savings in land, which is likely to enhance in value. In 1897 the cash receipts in the general land office from sales of land were less than \$2,000,000. Prior to that year they were much lower.

Mr. Hermann assumes that the land sales next year will be not far from what they were last, and that about \$6,000,000 will be added to the irrigation fund, making it over \$15,000,000. As the interval is likely to be occupied with surveys, and only a few contracts for construction will be made, the fund will be five times what the friends of irrigation thought it would be when work actually begins and all the plans of the secretary of the interior are under full headway.

That shrewd politician Senator Gorman of Maryland, is not given to political prophesying and it is therefore significant that he talks more confidently of Democratic success in the coming congressional elections than he has for years. He professes to believe that the Democrats will control the new house of representatives, and that two and probably three Democratic congressional candidates in Maryland will be elected.

Never call your political adversary a scoundrel or a liar, for he may call you one in return; and then the public may take both of you at your words.

Best Liniment on Earth. I. M. McHany, Greenville, Tex., writes, Nov. 2, 1920: "I had rheumatism last winter, was down in bed six weeks, tried everything, but got no relief, till a friend gave me a part of a bottle of Ballard's Snow Liniment. I used it, and got two more bottles. It cured me and I haven't felt any rheumatism since. I can recommend Snow Liniment to be the best liniment on earth for rheumatism." State Mineral Survey's Good Work. El Paso Herald: The University of Texas mineral survey is doing a great work for this end of the state. The minerals of Texas have never had the recognition they deserved; the legislators have been too busy with politics and cotton to pay much attention to minerals and cattle. But times are changing.

The establishment of the mineral survey was a long step in advance. But the survey would have been of little use in the hands of an incompetent director. Happily the right man appeared when Texas needed him, and in Dr. Phillips the survey has a competent head. He has applied to the field in hand not alone the knowledge that comes from books but the technical skill gained from experience. His work speaks for itself.

The reports of the survey are given to the public in the semi-monthly bulletins of the University of Texas. The latest is on the Terlingua quicksilver deposits of Brewster county, prepared by the assistant geologist, B. F. Hill, under Dr. Phillips' direction, working in co-operation with a detail from the United States geological survey.

Cotton Statistics Bulletin. Galveston News: The twenty-eighth legislative session pass a law requiring the commissioner of statistics and insurance to secure the cotton statistics of the entire state and the crop condition and publish the same at least once a month during the whole year; and further, the legislature should memorialize each cotton producing state and territory to pass such a law. If this were done, the present and future of cotton would be in the hands of those that raise it, besides a more accurate condition, etc., of the crop would be made and read more people than the present method employed by the United States government.

Erroneous Ideas About Texas. Dallas Times-Herald: The first thing the excursionists from Ohio, Illinois and Indiana did on reaching Texas and alighting from the trains was to hunt a place to check the heavy overcoats they wore when they left home. Some of them were as greatly surprised at the warm weather here as they were at not finding Indian tepees scattered over the city and a lot of cowboys going about shooting up the town. It is surprising how little some of the people realize beforehand how much they may learn of their own country by traveling over it for a time. Anyway the northern visitors are learning that Texas is a great big state and that it is up-to-date.

Governor's Salary Too Small. Brenham Banner: The salaries of the governors of the various states range from \$1,500 per annum in Oregon and Vermont to \$10,000 in New York, New Jersey and Pennsylvania and a few other populous states. Kentucky pays \$6,500, or more than any other southern state. A majority of the states pay \$3,000 to \$4,000. Texas pays \$4,000. Austin Tribune: Texas at one time paid her governor \$3,000 and that should be the salary now. It is safe to say there has not been a governor of Texas under the \$4,000 salary law that left the office with a cent of it. The social and other demands that cannot well be avoided upon the governor of Texas are numerous and great.

THE IDLER'S NOTE BOOK

Abraham Scherr, a cloak salesman of New York, shot his wife, a bride of three weeks, because she refused to cook him meals and compete with her cats for the bananas. That is the story the dispatches tell. A host of butchers will try to find new material for a grewsome grind of gray-haired jests about the cooking of young brides, in the story, but there is no humor in it. The young bride had been at home alone all day. He, light-hearted and happy, had kissed her a merry goodbye as he set that morning for the shop where he sold second-hand clothing for a paltry \$8 per week.

He went to work cheerily all through the forenoon. Noon came, but he could not afford a lunch, so he went without, thinking of the warm supper awaiting him when he got home at night. The afternoon was long and there were many trying customers to jar his nerves made more sensitive by hunger.

But when at last the time for quitting work came, he hurried to his little rooms in the tenement expecting a welcome from his bride, a cozy meal by the lamp and all the comforts his meagre quarters could offer. He reached the tenement, went up stairs to their lodgings, found his wife, but no supper. What words passed between them nobody knows. Perhaps she was plighted because he had kissed her less ardently than usual that morning. Perhaps she thought she would play a joke and try his temper. At any rate she refused to cook the evening meal and angry words passed between them.

Then the young husband went out, got a revolver and shot his wife four times fatally wounding her. He will doubtless go to the electric chair and two lives will then have been sent to the hereafter because of a woman's whim, or anger, or jest.

Finer bred people wonder at the coarseness of it all. No ordinarily sane business man, going home at night and finding no supper would raise more objection than the common herd of husbands is wont to make on such occasions. And yet there would be a jar—a domestic unpleasantness in the polite term for it. Domestic unpleasantnesses are good foundations for tragedies.

This Is Not a Joke. Both sides are confident regarding

future. This city is the trading place of a larger scope of settled country than any other town of its size in Texas, and the railroads are so built that we are sure to maintain this supremacy. Its territory covers not only a good agricultural country, but one of the best fruit and truck-growing sections of Texas.

The proximity of the great packing houses at Fort Worth give us advantages as a hog, poultry and cattle raising district, which, added to natural advantages, makes this section hard to beat. Sooner or later men of capital will embark in the fruit and vegetable business here and we will see surrounding the town great fields of vegetables and large orchards that will yield their owners more cash each year than ten times the same acreage in cotton could possibly produce under the most favorable conditions. Then, indeed, this country will be a land of plenty.

Cotton Mills As Money Makers. The people of McKinney held a mass meeting some time ago and appointed a committee to investigate the condition of the cotton mills in Texas and other Southern states with a view to building a mill there if it could be made profitable. That committee went to work and looked into the question thoroughly. It found that the mills in North Carolina, South Carolina and Georgia were yielding from 10 to 20 per cent annually. In this state where mills are located the towns are developing rapidly and the mills are making money. It is well enough to think of these things. It is coming to pass that we must have factories to hold our own.—Paris News.

Bricks From Victoria. Victoria Advocate: The brick factory, another Victoria enterprise, is working a full force now and making bricks which are equal in quality, durability and soundness to any on the market. It is turning out from 10,000 to 20,000 per day. Two of Victoria's enterprising citizens are the main stockholders in the industry—Alderman I. A. Heath and John W. Sloan. An order for 50,000 bricks will soon be filled. Remember the bricks are as good as the best to be found anywhere, and if you are going to construct a building don't forget home industry. The process by which they are made is very interesting. The factory is situated near Fick's saloon, where the quality of air dirt for this purpose can be found. You should take a trip out and see these works in motion. A sample of the brick made can be seen at the Advocate office. They have a ring as clear as a bell.

Good for the Mayor. Brownwood Bulletin: Late Saturday a fell fellow into one of the sewer ditches near the Central school building, and as the ditch is smaller at the bottom than at the top her cowpisk lacked some eighteen inches of reaching the bottom, and experienced considerably difficulty in breathing as easily and composedly as any self-respecting, well-behaved cow should. But Mayor McMinn feels that the cow is his friend and that he should befriend her, nor did he fail in this hour of need. Assisted by two of his doughty aldermen they undertook to solve the problem with the result that her cowpisk was rescued by filling in and then raising her majesty, and raising and filling, and so on, the final rescue having been effected about 1 o'clock Sunday morning.

"But as none of the plebs were up on their Latin, the record remained unopened and a short, bibulous fellow, with a red nose and an infinite generosity in the matter of red wine, was elected by an overwhelming majority."

Before commencing its use I was in such a shape that I could hardly get up when once down." Sold by Reeves' Pharmacy, Ward Pharmacy and Arlington Drug Co.

A WOUNDED NAME. By BRIG. GEN. CHAS. KING, U.S.A. COPYRIGHT, 1920, BY ETENNYSON NEELY.

The trial of Captain Nevins for defalcation and gross misconduct is the sensation of the army post where are stationed Captain Loring of the engineer corps and Lieutenant Blake, his friend. At the court martial in which Loring is the prosecutor, it develops that Nevins' wife who is in San Francisco, is the sister of the girl who broke her engagement with Loring and caused him, heartbroken, to ask service in the western plains. Nevins gives Loring his diamonds and valuables to send to his wife and then through a friend, Gleason sends for them to be returned. Gleason gets drunk and accuses Loring before the tent of the commanding officer. Loring tells him that the valuables have already been sent away.

The court martial adjourns and Blake and Loring with their troop leave the post, stopping on their way at the ranch of Sancho, a treacherous Mexican. There they get word to send an escort with two other troops to Tucson, while they are to proceed to Tucson. The night before they leave, Lieutenant Blake, hearing the music of a sultar, goes out to interview Pancha, the sister of the wife of old Sancho's brother.

While he confronts her, the troop is suddenly attacked and before Blake can prevent Loring is surrounded, struck unconscious and wounded. The saddlebags bearing the envelope containing Nevins' diamonds and watch are slashed open and looted. After Loring recovers he is in such bad condition, the survey of the Gila valley is given up and he starts on a sea voyage to San Francisco for his health, accompanied by Colonel Turnbull. Blake is reduced to the infantry. As the ship bearing Loring stops at a port along the way, Pancha, who had lured Blake to her side on that disastrous night, comes on board accompanied by wealthy relatives. Loring learns she has neither father nor mother and is being taken away against her will.

There was the mischief to pay in an about department headquarters for something like 24 hours. Colonel Strain as chief of staff, had a sleepless night of it. Mr. Loring, reticent as ever, had gone straight to his rooms, which were far from the office and not very far from the convent of the good gray sisters. He had no thought of insubordination in writing as he did to Washington. He considered it was his paramount duty to make every effort in his power to sail by the first steamer. Letters of instruction that had reached him had informed him that a new post was to be built along the Big Horn range in Wyoming, and that the moment he arrived a board of officers, of which he would serve as junior, would be sent out to select the site. There was urgent need of his services therefore and no time to be lost. He felt that this sudden and summary arrest was a wrong to him personally and professionally, but the lessons of obedience and discipline taught in the four long years at West Point were fresh in his mind, and whatever should be the result of his detention the responsibility now lay with the department commander.

Arrived at his quarters, Loring calmly wrote a dispatch to the assistant in the office of the chief of engineers at Washington, saying in no more than words: "Placed in close arrest because of previous telegrams. Cannot sail tomorrow."

This and a note to the lady superior at the convent, saying he would be unable to come to say goodbye to Pancha, and would probably be detained, he sent by his servant, bidding the man to stop at headquarters for certain books, and then to deliver the note at the convent on his homeward way.

Dennis was a retired dragoon who had found such employment with the officers on duty in San Francisco for several years past, and was endowed with the Irishman's almost pathetic sense of fealty to his "commander," as he insisted on speaking of his employer. Master was a word he could not tolerate because of its implication of servitude. But even while rebelling at the term he yielded to the fact a degree of devotion to Loring's interests far exceeding that usually accorded by the body servant of tradition, and this calm, deliberate, methodical, silent

"credit his own lie." The burden of his latest song was that Loring had been to see him at hospital and had promised him, on condition of being guaranteed against action or prosecution because of the shooting of a wounded and inoffensive man, that he (Loring) would pay him handsomely—would send him \$10 a week, and gave him \$25 then and there. But now, for more than a month, said he, not a cent had come, and he heard that Mr. Loring was trying to get away east. The man told his story reluctantly and with some palpable "breaks" when he found he was being questioned by an officer, but Petty posted back to Erico without delay, convinced that here was something with which to confront and confound that cool, supercilious snob. Then he could take a fresh start for Yuma and get more. One can always get something when the object of the story is away, and like the seaman's story of his interview with Loring, Petty's version of the seaman's interview with him waxed as he hastened to his general, and had assumed the proportions of a magnificent scandal by the time he told it to that much ruffled brigadier.

Even Strain, had he heard the account, would have riddled it—Captain Moreland's evidence was conclusive on that point—and while Loring, in pity and compassion, might have left money with the man for comfort in his convalescence, it was incredible that he should have tendered payment as a bribe for silence. Strain's exaggerated self esteem was deeply wounded by the engineer's evident lack of appreciation of his greatness, and he would be glad indeed to bring him to heel and convince him he would be wise in future to do homage instead of slight, and what made Loring's indifference so exasperating was that Strain himself was forced to see that Loring was not only no fool, as he admitted, but a man of brains, courage and ability, which he would not concede aloud. Strain, sent for at 8 o'clock by the department commander to listen to the aid's wrathful account of the interview with Loring, fumed and fidgeted and strove to ask some questions to make matters clear, but Petty was already on the defensive and did not mean to be questioned, and the general kept interposing.

"Let him tell his tale his own way, colonel. Let him give you the whole story, Monterey and all." And Strain, who had hoped to spend the evening with his cronies at the club and whist, was compelled to sit till long after 9 and hear the details of Petty's asinineity.

Stripped of unnecessary explanation, it seems that the general and Strain had decided that their dignity and prerogative had been invaded by the summary orders from Washington, which were at once a criticism of their action in not relieving Loring, and a demand for an immediate explanation as well as an implied threat that unless that report was entirely satisfactory Loring would be allowed to proceed. They had spent an hour or more in the preparation of the telegram, which finally caught the wires at 6 o'clock; presently their view of the case, represented that if Loring left it would be under a cloud, and that he should not now be allowed to leave because of the fact that his having resorted to forbidden and insubordinate means to procure his release was in itself a virtual admission that he feared to stay and face the constantly recurring accusations.

OUTLAW BAITING IN OKLAHOMA

TWO MURDEROUS MEN TRAPPED AND SHOT DOWN

AFTER A DESPERATE FIGHT

Deputy Sheriffs Had Obtained Their Confidence and Led Them Into the Woods Where Other Officers Were Concealed

(Special to The Telegram.) Guthrie, Okla., Nov. 4.—Bert Casey, an outlaw, and Jim Sims, one of his lieutenants, trapped by two deputy sheriffs in a rendezvous near Glen Springs, in Woods county, Monday, were shot and killed. They put up a strong fight, firing several volleys, but neither of the deputies was hit. Two deputies in disguise had secured the confidence of the outlaws, and being with them at the time gave the signal to their fellow-officers that started the fight. Casey and Sims were planning the release of George Moran, another of their number, now on trial at Lawton for murder.

SPECIAL COMMISSION TO BE APPOINTED

SIR THOMAS INFLUENCES HIS ROYAL NIBS, EDWARD, IN OUR FAVOR

(By Associated Press.) Washington, Nov. 4.—Major General Corbin has received a letter from Sir Thomas Lipton, in which the general is informed that Sir Thomas has greatly interested himself in the St. Louis exposition. He informs the general that he has had an interview with King Edward and that his majesty has indicated that he will name a special commission to attend the exposition and that the English government will take steps to interest the people in the exposition. It is expected that the Prince of Wales will be named a member of the special embassy. The matter has become a matter of diplomatic correspondence between the British foreign office and Ambassador Choate, who will, no doubt, communicate with Secretary Hay.

ANXIOUS MOMENTS.

Some of the most anxious hours of a mother's life are those when the little ones of the household have the croup. There is no other medicine so effective in this terrible malady as Foley's Honey and Tar. It is a household favorite for throat and lung troubles, and as it contains no opiates or other poisons, it can be safely given. Sold by Reeves' Pharmacy, Ward Pharmacy and Arlington Drug Co.

BAD MIX UP ON NEW ORLEANS CARS

WHITES AND BLACKS HAVE DIFFICULTY IN FINDING THEIR SEATS

(Special to The Telegram.) New Orleans, La., Nov. 4.—The new state law requiring the street car companies to provide separate accommodations for whites and blacks has gone into effect and is being enforced with difficulty. The company has reserved the rear seats for negroes and placed screens in the cars, but since the recent strike the decreased number of cars operated is so great that all of them are gradually crowded to the guards. The whites are consequently insisting upon riding in the seats set aside for the blacks, and overwhelmed by superior numbers the conductors are finding it practically impossible to make the law effective. Negroes in many instances had difficulty in getting aboard cars. There have been some angry disturbances resulting from the attempt to enforce the law, but no arrests have been reported at police headquarters.

Molders Out Again.

Beaumont, Tex., Nov. 4.—The molders who walked out of the Beaumont iron works, Neches river works and the Southern Car Manufacturing and Supply company's shops last Saturday night week and who went back to work last Wednesday pending a settlement of their differences are again out, with the exception of the shops of the last named, which have agreed to pay the molders the price demanded, which is \$3.50, an advance of 50c. The molders claim that they are being paid less than molders receive in other Texas cities and the cost of living in Beaumont is greater than at any other point.

Probably Fatal Fall.

Navasota, Tex., Nov. 4.—The 9-month-old daughter of Mr. and Mrs. C. C. Chinski was probably fatally injured by a fall from the second story of the family residence in this city. The nurse was holding the little one on the banister and accidentally let it fall to the ground, a distance of eighteen feet. The child is still alive, but there is little chance for its recovery.

Theatrical Treasures.

New York, Nov. 4.—At the annual business meeting of the Theatrical Treasures' Club of America, just held here the following officers were elected: J. Max Hirsch, president; vice president, James H. OUTLAW BAITING IN OKLAHOMA

TWO MURDEROUS MEN TRAPPED AND SHOT DOWN

AFTER A DESPERATE FIGHT

Deputy Sheriffs Had Obtained Their Confidence and Led Them Into the Woods Where Other Officers Were Concealed

(Special to The Telegram.) Guthrie, Okla., Nov. 4.—Bert Casey, an outlaw, and Jim Sims, one of his lieutenants, trapped by two deputy sheriffs in a rendezvous near Glen Springs, in Woods county, Monday, were shot and killed. They put up a strong fight, firing several volleys, but neither of the deputies was hit. Two deputies in disguise had secured the confidence of the outlaws, and being with them at the time gave the signal to their fellow-officers that started the fight. Casey and Sims were planning the release of George Moran, another of their number, now on trial at Lawton for murder.

SPECIAL COMMISSION TO BE APPOINTED

SIR THOMAS INFLUENCES HIS ROYAL NIBS, EDWARD, IN OUR FAVOR

(By Associated Press.) Washington, Nov. 4.—Major General Corbin has received a letter from Sir Thomas Lipton, in which the general is informed that Sir Thomas has greatly interested himself in the St. Louis exposition. He informs the general that he has had an interview with King Edward and that his majesty has indicated that he will name a special commission to attend the exposition and that the English government will take steps to interest the people in the exposition. It is expected that the Prince of Wales will be named a member of the special embassy. The matter has become a matter of diplomatic correspondence between the British foreign office and Ambassador Choate, who will, no doubt, communicate with Secretary Hay.

ANXIOUS MOMENTS.

Some of the most anxious hours of a mother's life are those when the little ones of the household have the croup. There is no other medicine so effective in this terrible malady as Foley's Honey and Tar. It is a household favorite for throat and lung troubles, and as it contains no opiates or other poisons, it can be safely given. Sold by Reeves' Pharmacy, Ward Pharmacy and Arlington Drug Co.

BAD MIX UP ON NEW ORLEANS CARS

WHITES AND BLACKS HAVE DIFFICULTY IN FINDING THEIR SEATS

(Special to The Telegram.) New Orleans, La., Nov. 4.—The new state law requiring the street car companies to provide separate accommodations for whites and blacks has gone into effect and is being enforced with difficulty. The company has reserved the rear seats for negroes and placed screens in the other portions, it is reported, to decrease the number of cars operated is so great that all of them are gradually crowded to the guards. The whites are consequently insisting upon riding in the seats set aside for the blacks, and overwhelmed by superior numbers the conductors are finding it practically impossible to make the law effective. Negroes in many instances had difficulty in getting aboard cars. There have been some wordy disturbances resulting from the attempt to enforce the law, but no arrests have been reported at police headquarters.

Molders Out Again.

Beaumont, Tex., Nov. 4.—The molders who walked out of the Beaumont iron works, Naches, iron works and the Southern Car Manufacturing and Supply company's shops last Saturday night week and who went back to work last Wednesday pending a settlement of their differences are again out, with the exception of the shops of the last named, which have agreed to pay the molders the price demanded, which is \$3.50, an advance of 50c.

The molders claim that they are being paid less than molders receive in other Texas cities and the cost of living in Beaumont is greater than at any other point.

Probably Fatal Fall.

Navasota, Tex., Nov. 4.—The 9-months-old daughter of Mr. and Mrs. C. C. Chinski was probably fatally injured by a fall from the second story of the family residence in this city. The nurse was holding the little one on the banister and accidentally let it fall to the ground, a distance of eighteen feet.

The child is still alive, but there is little chance for its recovery.

Theoretical Treasures.

New York, Nov. 4.—At the annual business meeting of the Theoretical Treasures' Club of America, just held here the following officers were elected: J. Max Hirsch, president; vice president, James H. J. Scullion; treasurer, Earl S. King; financial secretary, Edward Fletcher; recording secretary, A. J. Fisher; governors, Arthur Sheldon, Gilbert Gordon and David Mayer.

Foley's Honey and Tar always stops the cough and heals the lungs. Refuse substitutes. Sold by Reeves' Pharmacy, Ward Pharmacy and Arlington Drug Co.
