# MEET TONIGHT IN CITY HALL

### PLANS FOR ORGANIZING A NEW COMPANY FOR FORT WORTH

## A MILITARY ORGANIZATION

Thirty-four Names Are Secured and Others Expected to Join This Evening—Company Plans to Drill all Winter and Enter Contests For Prizes Next Spring

Fort Worth will have two military organizations, regularly chartered, if the plans of the thirty-four young men who have signed their names to a petition for charter, are fulfilled at the city hall this evening.

W. F. Van Cleave, who is in charge of the Boy's Brigade and who is at the head of the new company, announces that he has secured thirty-four names and that a meeting will be held in the city hall at 8:30 this evening to complete organization. Fourteen more names are needed and it is expected that these will be secured tonight. Judge Parker will deliver an address and all young men interested in military drill are invited.

The plan of Captain Van Cleave is to form a company of about fifty young men, spend the winter in perfecting drill and evolutions and then to enter contests for prizes next spring at the annual meeting of the militia or at other places where prizes may be offered for the best drilled military organization. Captain Van Cleave calls attention to the thousands of dollars in prize money the Houston company has won since its organization and says that a Fort Worth company can do as well if it but take the patience and the pains to become perfect.

If the forty-eight names necessary to securing a charter for a regular state military company can be secured tonight, application will at once be made for a charter and drilling will begin at once. Captain Van Cleave has been connected with various military organizations since he was eight years of age and has the book of military tactics by heart.

The idea of drill is not the only one connected with the formation of the company. If a strong enough organization can be secured, a large hall will be rented and in addition to drill room, will have reception rooms for visitors and a reading and game room for the members.

All those who have signed for membership are urged to be present this evening and all interested in the idea are invited to attend.

## THEY WERE VAGRANTS BUT HAD SOME MONEY

### A Bunch of Sixteen Negro Crap Shooters "Run In" Last Night By Five Policemen—Caught in the Act

Quite a bunch of dice manipulators were corralled last night at the turning hour (12 o'clock) in a two-story frame on the corner of Sixth and Calhoun streets, as a result of a raid planned and made by five of Chief Rea's force—Messrs. Zimmerman, Black, Compton, Bilderback and Dodd. So well had the officers planned their work that not one of a bunch of 16 escaped them.

They are all colored, and known devotees of the mysterious game of "rollin' bones" in which Sambo so delights. The charges made against them were for vagrancy, and 15 of them, after arriving at the city hall, were able to put up cash bonds. This done, they were released—all save one, Ike Ivory. Ike's wife called for him at 7 a. m. today and escorted him home, putting up a cash bond. Mrs. Ike only last week paid a fine and costs to the amount of \$17 for Ike.

Being caught in the act, the best way out of it was to plead guilty, pay the lowest fine—\$1 and costs, amounting to \$8.95. This they did.

# GOVERNOR SAM LANHAM HERE

### EN ROUTE HOME FROM A WEEK'S STAY IN AUSTIN

## TO WASHINGTON NEXT WEEK

Will Remain There Perhaps Six Weeks and Then Come to Texas to Arrange for the Inauguration—Has Much Work to Do for Fort Worth and His District

Governor-elect S. W. T. Lanham was here today en route home from Austin, where he had been for one week. He arrived in the city this morning and departed for Weatherford at 3:10 p. m. His headquarters at the DeWare were crowded with friends during his stay here, even while he made a call on Major-General VanZandt at the latter's bank.

Governor Lanham had a cheerful word and a hand-shake for all callers, and held several private consultations with close personal friends.

He said he had worked very hard during his week's stay in Austin, and as a result felt just a little weary. It is his intention to remain at home for a very few days for rest and to attend to his private matters preparatory to going to Washington for the short session. He can, he said, remain in Washington six weeks, and no doubt would do so, "because," said he, "there is much concerning Texas and my district that I feel needs my personal attention. There are measures pending in which I am interested and you may say that I propose to give them the same attention that I have heretofore. There is much that concerns Fort Worth, too, that will be given my best efforts, and one thing especially dear to my heart is the measure giving to Fort Worth that additional court of which so much has been said, and which means so much to Fort Worth and the district."

"Tell all your people that I am truly grateful—tell them that I shall try to do my very best in all things. I would be pleased to talk with you longer, but there are so many here waiting for a word with me—good day, sir; good day."

## A Point of Law

With reference to the appointment of a superintendent for the Confederate Veterans' Home at Austin, the law is very plain, but there are so few who understand it, or, rather, who know of its existence. The governor is powerless to make the appointment. He appoints five Confederate soldiers as a board of managers. This board of managers names the superintendent, and the latter is subject to the rules and regulations governing and of which the board is in full power. The superintendent must be a Confederate soldier, too.

Major General Van Zandt, as the head of the Confederate family in Texas, has been besieged by scores for the recommendation for appointment, but has persistently declined to favor one son over another of this great family. He has said to all "I will not make a recommendation that is a question the board of managers must decide."

Following a Precedent  
Concerning appointments, and with especial reference to that of assistant attorney general, Governor Lanham has followed the happy precedent set and followed by former governors and made the appointment from his home town.

Large Number of Applicants  
Governor Lanham was asked by a Telegram reporter how many applicants there were for 25 or 30 appointments.

"Young man, don't, don't—I could not tell if you if I tried, they were so numerous, so numerous. I gave them all a hearing, and did what I thought was for the best. All the applicants are good men, all of them. Only one appointment for each place could be made. I tell you it was a difficult proposition. I hope there are no hard feelings."

## THREE RUNAWAY BOYS RETURNED TO FT. WORTH

### They Had Started to El Paso to Keep From Attending School—Fort Worth Policemen Shot "Mud Hens"

(Special to The Telegram.)  
THURBER, Tex., Nov. 20.—Three young boys from Fort Worth landed here, en route to El Paso, on Tuesday. They were about 13 and 14 years of age, and gave their names as Oliver (son of a Texas and Pacific freight conductor), Jones, and the third boy gave several names. It developed that the boys had run away from home to keep from attending school. Captain Lightfoot took them in charge and notified Conductor Oliver of Fort Worth, and yesterday the boys' parents sent for them.

Fort Worth Coppers Duck Shooting  
Messrs. Peter Howard and Abner Speight of the Fort Worth police force, and Bob Coombs, water works engineer, were here this week duck shooting on the biggest lake in Texas.

The boys have a great joke on Policeman Howard. Peter went out yesterday and bagged about 25 "mud hens." Not knowing the difference between a mud hen and a wild duck, he was bragging about his fine luck in getting ducks. When he displayed his game and was informed that they were "mud hens," he was much "put out," and has been the butt-end of no little amount of teasing.

However, ducks are plentiful on the big lake, and an invitation is extended Fort Worth marksmen to come out and try their skill.

Mr. Maxwell left in inspection car No. 1, which is a small passenger car built around an engine and giving accommodation to a party of twelve or fifteen officials on an inspection trip. The car left at 11:30 for Eagan. Mr. Maxwell's special car "Twenty" was taken south by a freight train about the same time.

## BUFFALO BILL OPENS NEW HOTEL AT CODY

### Interesting Features Mark the Occasion and Many Distinguished Guests Are Present From the East

(Special to The Telegram.)  
CODY, Wyo., Nov. 20.—Several interesting features marked the opening here of the hotel Irma, built by Colonel W. F. Cody (Buffalo Bill), at a cost of \$100,000 and named by him in honor of his youngest daughter, Miss Irma Cody.

Colonel Cody and Miss Irma led the grand march when the festivities began, 600 guests from all parts of the West and Northwest following the lead. Before the banquet, which marked the climax of the festivities, Colonel Cody announced the engagement of Miss Irma Cody to Lieutenant Charles Armstrong, Tenth United States cavalry, a young officer who won honors in the Philippines.

Colonel Cody's guests included Governor Savage, of Nebraska; Colonel Frank Powell, of St. Paul, Minn.; Lieutenant Scott, of Fort McKean, "Mountain Charlie," a well known scout.

The hotel Irma is located in the heart of the Big Horn mountains, fifty miles from Yellowstone park. It is built of granite boulders and red and gray sandstone. Its walls are adorned with paintings and sketches by Remington, Gibson and others, prominent among the paintings being a portrait of Lieutenant General Miles, U. S. A., which occupies a conspicuous place.

## CONFETTI GOES TO HILLSBORO

### Two Tons of Finely-Cut Paper Is Shipped From Here to That Place

A relic of the Fort Worth Knights of Pythias Free Fall Festival was two tons of confetti that wasn't thrown during the week of the festival, which was shipped yesterday to Hillsboro, where a tall carnival is in progress. No less than four tons were received here by J. J. Langerver for the Free Fall Festival and two tons were sold. The remaining couple of tons were kept in storage here till an opportunity for selling it. Eight thousand pounds of finely-cut paper made plenty of work for the transfer men who had to handle it, between the room on Ninth and Houston street, where it was stored, and the freight cars.

Reece was indicted in Baylor county last December and was tried in the district court of that county in the following January. He was con-

victed and the case taken to the court of criminal appeals and the decision of the lower court was reversed by the higher tribunal. The case was then transferred to this county on a change of venue.

## CANNON FOR THE SPEAKERSHIP

### His Supporters Claim That He Has Plenty of Votes

(Special to The Telegram.)  
WASHINGTON, Nov. 20.—One view of the speakership fight is that Joe Cannon will win in a walk. The Cannonites have given out a list of states which they say will furnish the necessary 105 votes in the caucus. The states named are Illinois, Wisconsin, Minnesota, Nebraska, Michigan, Indiana, Iowa, Kansas, Massachusetts, New Hampshire, Connecticut, Tennessee, Colorado, Dakota, Montana and Idaho.

It is not considered probable here that Dazell will be given the chairmanship of the ways and means committee or Babcock the floor leadership. Either event would arouse the ire of the New York delegation, as Payne's work as a floor leader is satisfactory.

Beyond this statement President Eliot refused to say anything for publication.

## MORGAN DONATED ONE CENT

### Trust Maker Made Courteous Response to Church Workers' Request

(Special to The Telegram.)  
GRAND RAPIDS, Mich., Nov. 20.—The Women's League of the Congregational church of Flint held an "experience social" Saturday night, at which various members of the league told how they had earned \$1 to be used in the work of the society.

The most unique experience was furnished by a young woman who had earned 99 cents of her \$1 by her own efforts and stopped there. In her dire extremity she wrote to J. Pierpont Morgan for the other cent necessary to make up her contribution.

In due time there came a courteous note from Mr. Morgan inclosing a check for the contribution asked for and containing the assurance that, if the Women's League of Flint ever needed to be helped out of a tight place again he might be counted on to come to the rescue.

## A TARIFF WAR WITH GERMANY

### Her "Retaliatory" Action Is "Discrimination" and May Be Met

WASHINGTON, Nov. 20.—The action of the German Reichstag in adopting a so-called retaliatory paragraph of the new tariff bill is regarded by officials of the administration as an unfortunate step and one that may possibly lead to a tariff war between the United States and Germany if any action is taken by the German government looking to the assessment of retaliatory duties on American goods.

There is absolutely no discrimination in the United States tariff laws or in their enforcement against Germany or any other country, and hence the application of the so-called retaliatory paragraph to goods entering Germany from the United States would not be "retaliation," but discrimination.

## ROOSEVELT ON THE PHILIPPINES

TREATS OF THE PRESIDENT AND PAST CONDITIONS THERE

WAS DELIVERED AT MEMPHIS

The Occasion Being the Banquet Given in Honor of General Wright's Return to That City, Roosevelt Fails to Tell What Will Finally Be Done With the Islands

The following is the address of President Roosevelt last night on the occasion of the banquet at Memphis to General Luke Wright. Addresses of welcome were made by Mayor Williams and Governor McMillin, and General Wright delivered a response. He spoke in gratitude for the welcome given him and went rather lightly into the Philippine question. President Roosevelt then spoke, the full text of his speech being given herein:

**President Roosevelt's Address**  
It is a real and great pleasure to come to this typical city of the southern Mississippi valley in order to greet a typical American, a citizen of Tennessee, who deserves honor not only from his state, but from the entire country—General Luke E. Wright. We have a right to expect a high standard of manhood from Tennessee. It was one of the first two states created west of the Allegheny Mountains, and it was in this state that the first self-governing community of American freemen was established upon waters flowing into the gulf. The pioneers of Tennessee were among the earliest in that great westward march which thrust the nation's border across the continent to the Pacific, and it is eminently fitting that a son of Tennessee should now play so prominent a part in the further movement of expansion beyond the Pacific. There have been presidents of the United States for but one hundred and thirteen years, and during sixteen of those years Tennesseans sat in the White House, Hardhood, and daring, and iron resolution are of right to be expected among the sons of a state which nurtured Andrew Jackson and Sam Houston; which sent into the American navy one of the most famous fighting admirals of all time, Farragut.

**General Luke E. Wright**  
There is another reason why our country should be glad that it was General Wright who rendered this service. General Wright fought with distinguished gallantry among the gallant men who served in the armies of the Confederacy during the civil war. We need no proof of the completeness of our reunion as a people. When the war with Spain came the sons of the men who wore the blue and the sons of the men who wore the gray went with one another in the effort to get into the ranks and face a foreign foe under the old flag that had been carried in triumph under Winfield Scott and Zachary Taylor and Andrew Jackson.

It was my own good fortune to serve under that fearless fighter, old Joe Wheeler, a memory of which I shall always be proud. But if we needed any proof of the unity of our interests it would have been afforded this very year by General Wright, the ex-Confederate, in his administration as acting governor of the Philippine Islands. Upon him during the months of summer rested a heavier burden of responsibility than upon any other public servant at that particular time; and not the least of his titles to our regard is the way in which he was able to work on terms of cordial good will with the head of the army, himself a man who had honored the blue uniform as Wright had honored the gray.

**Work Difficult and Important**  
General Wright's work has been as difficult as it was important. The events of the last four years have definitely decided that whether we wish to or not we must hereafter play a great part in the world. We cannot escape facing the duties. We may shrink them if we are built of poor stuff, or we may take hold and do them if we are fit sons of our sires—but face them we must, whether we will or not.

Our duty in the Philippine Islands has simply been one of the duties that thus have come upon us. We are there, and we can no more haul down our flag and abandon the islands than we could now abandon Alaska. Whether we are glad or sorry that events forced us to go there is aside from the question; the point is that, as the inevitable result of the war with Spain, we found ourselves in the Philippine Mountains and the Pacific slope—and lands without discredit. The islands were wholly unfit to govern themselves, and if we had left them would have been a brief period of bloody chaos, and then some other nation would have stepped in to do the work which we had shirked.

It cannot be too often repeated that there was no question that the work had to be done. All the question was, whether we would do it well or ill; and, thanks to the choice of men like Governor Wright, it has been done well.

The first and absolutely indispensable requisite was order—peace. The reign of lawless violence, of resistance to legitimate authority, the reign of anarchy, could no more be tolerated abroad than it could be tolerated here in our own land.

**The American Flag's Significance**  
The American flag stands for orderly liberty, and it stands for it abroad as it stands for it at home. The task of our soldiers was to restore and maintain order in the islands. The army had the task to do, and it did it well and thoroughly. The fullest and

heartiest praise belongs to our soldiers who in the Philippines brought to a triumphant conclusion a war, small indeed compared to the gigantic struggle in which the older men whom I am addressing took part in the early sixties, but inconceivably harassing and difficult because it was waged amid the pathless jungles of great tropic islands and against a foe very elusive, very treacherous, and often inconceivably cruel both toward our men and toward the great numbers of peace-loving Filipinos who gladly welcomed our advent.

The soldiers included both regulars and volunteers, men from the north and south, the east and the west, men from Pennsylvania and from Tennessee, no less than men from the Rocky Mountains and the Pacific slope—and to all alike we give honor, for they acted as American soldiers should. Cruelties were committed here and there.

The fact that they were committed under well-nigh intolerable provocation affords no excuse for such cruelties, nor can we admit as justification that they were retaliatory in kind. Every effort has been made to detect and punish the wrongdoers and the wrongdoing itself has been completely stopped. But these misdeeds were exceptional, and their occurrence in no wise alters the fact that the American army in the Philippines showed as a whole not only splendid soldierly qualities but a high order of humanity in dealing with their foes.

**What the Soldier Did**  
But the soldier's work as a soldier was not the larger part of what he did. When once the outbreak was over in any place, then began the work of establishing civil administration. Here, too, the soldier did his part, for the work of preparing for the civil authority was often done by the officers and men of the regular army, and well done, too. Then the real work of building up a system of self-government for the people who had become our wards was begun, under the auspices of the Philippine commission, Judge Taft being made governor, and I having had the honor myself to appoint General Wright as vice-governor. During the critical period when the insurrection was ending and the time was one of transition between a state of war and a state of peace, at the time that I issued a proclamation declaring that the state of war was over and that the civil government was now in complete command, General Wright served as governor of the Archipelago. The progress of the islands both in material well-being and as regards order and justice under the administration of Governor Wright and his colleagues has been astounding.

There is no question as to our not having gone far enough and fast enough in granting self-government to the Philippines; the only possible danger has been lest we should go faster and farther than was in the interest of the Philippines themselves. Each Filipino at the present day is guaranteed his life, his liberty and the chance to pursue happiness as he wishes, so long as he does not harm his fellows, in a way which the islands have never known before during all their recorded history. There are bands of lawless, of brigands, still in existence. Now and then they may show sporadic increase. This will be due occasionally to dissatisfaction with some of the things that our government does which are best—for example, the effort to quarantine against the plague and to enforce necessary sanitary precautions, gently and tactfully though it was made, produced violent hostility among some of the more ignorant natives.

Again, a disease like the cattle plague may cause in some given province such want that a part of the inhabitants revert to their ancient habit of brigandage. But the islands have never been as orderly, as peaceful, or as prosperous as now; and in no other oriental country, whether ruled by Asiatics or Europeans, is there anything approaching to the amount of individual liberty and of self-government which our rule has brought to the Philippines.

The nation owes a great debt to the people through whom this splendid work for civilization has been achieved, and therefore on behalf of the nation I have come here tonight to thank in your presence your fellow-townsmen, because he has helped us materially to add a new page to the honor roll of American history. General Wright, I greet you, I thank you, and I wish you well.

## DOCTORS ENDORSE SWAMP-ROOT

For Uric Acid, Kidney and Bladder Troubles.

East Atlanta, Ga., March 1, 1901.

DR. KILMER & CO., Binghamton, N. Y.  
Gentlemen—While it has never been my habit or inclination to recommend remedies the ingredients of which are not all known to me, it seems as if I should make an exception in the case of Dr. Kilmer's Swamp-Root. My experience, so far as I have tested it in my practice, forces me to the conclusion that it is a remedy of the greatest value in all uric acid, kidney, liver, bladder and other inflammatory conditions of the genito-urinary tract. I now take pleasure in prescribing Swamp-Root in all such cases with a feeling of assurance that my patients will derive great benefit from its use. I shall continue to prescribe it in other cases in my practice with the expectation of the best results. Very truly yours,

A. J. Halle M. D.

Gentlemen—I have prescribed that wonderful remedy for kidney complaint, Dr. Kilmer's Swamp-Root, with most beneficial effect and know of many cures by its use. These patients had kidney trouble, as diagnosed by other physicians, and treated without benefit. Dr. Kilmer's Swamp-Root effected a cure. I am a liberal man and accept a specific wherever I find it, in an accepted school or out of it. For desperate cases of kidney complaint under treatment with unsatisfactory results I turn to Dr. Kilmer's Swamp-Root with most flattering results. I shall continue to prescribe it and from personal observation state that Swamp-Root has great curative properties. Truly yours,

### WELCOME FOR WRIGHT

(By Associated Press.)  
Memphis, Nov. 20.—Although the festivities of Wednesday, celebrated the home coming of General Luke E. Wright, vice governor of the Philippines, it is no reflection upon the warmth of the welcome extended to him to say that President Roosevelt's presence was the overshadowing feature of the day. Excursion trains were run into the city and quite a number of distinguished people were present to participate in the celebration. Among them were Governor Benton McMillan and General Joseph Wheeler. In the afternoon the president attended and spoke at two receptions, given in honor of General Wright—one at the auditorium by the white citizens, and the other at a hall in the black section of the city by the colored people. Later there was a colonial dames tea at the Gayoso hotel and the festivities closed at night with an elaborate banquet at the Peabody hotel, at which the president delivered a set speech. Including some brief remarks at the breakfast, the president spoke four times during the day. Altogether it was a splendid tribute to the affection and esteem in which General Wright is held at home. That Mrs. Wright is also exceedingly popular was made apparent by the applause which greeted every reference to her. This was especially marked at the auditorium when the president referred to the fact that his mother's brother served in the Confederate navy under her father, who was Admiral Semmes, the commander of the famous Alabama.

Mayor Williams and Governor McMillan both made addresses. The president's reception when he was introduced beggars description. The colored people became perfectly frantic, jumping up and down in their enthusiasm and yelling themselves hoarse. The president made a speech. At the conclusion of the president's remarks the entire audience of over 3000 united in singing "God be With You Till We Meet Again."

There were 200 guests at the banquet at night, the attendance being limited to that number. Governor Longino of Mississippi traveled from Jackson to be present. Albert S. Caldwell acted as toastmaster.

**JAPAN TO SEND A FLEET**  
Will Station Warships Permanently on Pacific Coast of America  
SAN FRANCISCO, Nov. 20.—The Japanese empire will maintain a permanent fleet in the American waters of the Pacific. This important announcement was made today by Fleet Surgeon C. Aoki, of the Imperial Japanese navy. "Next year," said Fleet Surgeon Aoki, "Japan will send abroad its first fleet as a permanent unit. It will be stationed on the Pacific coast of America. Its headquarters will be at Esquimalt, in British Columbia, the naval station of Great Britain, our ally, and it will visit along the Pacific coast as far south as Valparaiso. The fleet will consist of three or possibly more of our best ships and the usual number of smaller vessels to accompany them. It is expected that we will have a fleet stationed in Europe also, with headquarters in one of the big British naval stations."

**A Violent Attack of Croup Cured.**  
"Last winter an infant child of mine had croup in a violent form," says Elder John W. Rogers, a Christian Evangelist, of Pilely, Mo. "I gave her a few doses of Chamberlain's Cough Remedy and in a short time all danger was past and the child recovered." This remedy not only cures croup, but when given as soon as the first symptoms appear, will prevent the attack. It contains no opium or other harmful substance and may be given as confidently to a baby as to an adult. For sale by N. E. Grammer, druggist.

## NEW DELEGATE FROM THE POPE

IS REPRESENTED BY AN AMERICAN CITIZEN

HIS NAME IS FALCONIO

He Succeeds Mgr. Martinelli as Apostolic Delegate and is Distinguished for Eloquence and Learning—Has Spent Much Time in This Country, Though Born in Italy

WASHINGTON, D. C., Nov. 20.—Mgr. Falconio, who has been appointed to succeed Mgr. Martinelli as Apostolic delegate to the United States, is expected to arrive in Washington before the end of the week to assume the duties of his new position. His coming is looked forward to with no little interest in diplomatic and official circles. Society, however, has nothing to expect from the newcomer as it is not at all probable that he will grace any function of a social character with his presence. In this respect he will follow closely the example set by his predecessors, Cardinal Satolli and Mgr. Martinelli. In fact, he is expected to be seen even less in public than his predecessors for as a member of the Augustinian order he is forbidden to indulge in any social recreation and is bound to follow strictly the simple life prescribed by the rules of that order. He is expected to pay his respects to President Roosevelt and probably will make formal calls upon the members of the diplomatic corps representing Catholic countries, but here his mingling with the official world will cease.

But with the coming of Mgr. Falconio the Vatican will be represented for the first time at Washington by an American citizen, he having been naturalized at Buffalo, N. Y., in 1872, while professor of classic languages at St. Bonaventure's college. Though born in Italy he has passed the greater part of his career on this side of the Atlantic. With the exception of a brief period when he was attached to the headquarters of his order in Italy, he has spent his time in America. In addition to his post at St. Bonaventure's college he was attached for a time to St. Anthony's church, New York City, and was also assistant to the bishop of Harbor Grace, Newfoundland. Three years ago he was appointed Apostolic delegate to Canada, which position he continued to fill until his recent appointment to a similar capacity to the United States. Mgr. Falconio speaks English and French in addition to Italian, and is distinguished for his eloquence and learning.

GOULD LINES TO GRANT A RAISE

INCREASE OF 10 PER CENT WILL BE ANNOUNCED IN FEW DAYS

LOCAL MEN ARE AFFECTED

Estimated That Pay Roll of Texas and Pacific and Cotton Belt Roads in Fort Worth Will Be Increased About \$5000 Monthly—Public Will Pay for It

The close of 1902 seems to be an era of prosperity for railroad men. Following the announcement of the recent increase in wages of employees by the Pennsylvania system, comes the story from New York to the effect that the next important advance in railroad men's wages will be made on the following lines of the Gould system: Texas and Pacific, Missouri Pacific, Denver and Rio Grande, St. Louis and Southwestern, Rio Grande and Western and the Wabash.

The announcement that the increase in wages of more than 150,000 men employed on these lines will be made public in a few days, comes on the authority of one of the presidents of a line mentioned above.

Means Much Here. The railroads entering Fort Worth which will be affected by the advance are the Texas and Pacific and Cotton Belt. At present the Texas and Pacific monthly pay roll in this city is about \$50,000 and the increase will mean a considerable addition to this sum, though it is not known in just what departments the advance will be made.

The announcement is made that the increase will be 10 per cent and if the example of increases recently made by eastern railroads, it will affect the salary of every employe now receiving less than \$200 per month.

There are not a host of Texas and Pacific and Cotton Belt employes in Fort Worth who are receiving above this sum, so it is safe to say that the increase will mean at least \$5000 per month paid out in Fort Worth to the employes of the two roads.

Public Will Pay. It is intimated that the coming advance is not wholly voluntary on the part of the companies interested, though no dissatisfaction is known to exist on the lines. There is no hesitancy in stating, however, that the public will have to pay for this increase in wages, principally in an increase of freight rates. Whether or not the announcement of an increase of wages is made to break the news gently regarding a general increase of freight rates, or whether the companies foresee they will eventually be compelled to follow the example of the Pennsylvania system, and plan an increase of freight rates to offset this, is a matter known only to the officials.

Many Railroad Increases. It is stated on good authority that the following railroad companies have granted or will shortly grant increases approximating 10 per cent to their employes: New York Central and West Shore, Missouri Pacific, Texas and Pacific, Denver and Rio Grande, Rio Grande and Wabash, Lake Shore, Delaware and Lackawanna and Western, Southern Railway, Union Pacific, Southern Pacific, Nickel Plate, Wheeling and Lake Erie, Pittsburg and Lake Erie, Wabash, Pennsylvania system, St. Louis and Southwestern, Erie, Philadelphia and Reading.

The approximate number of employes who will be affected by this increase is 650,000 and a conservative estimate that the total increase in wages on the different lines will amount to \$17,000,000 yearly.

Injured Engineer Is Dead. Joseph Burts, engineer of the Sunset Limited, died last night at the Houston infirmary as a result of injuries received in the wreck of the Limited near Devers, Tuesday morning. It is thought the other injured in the wreck will recover.

Road Gives Lost Man Up. In a circular letter the Great Northern railroad accepts the fact that Benjamin F. Egan, superintendent of the Kallispell division, has perished, and appoints A. E. Long as successor with the title of acting superintendent. Egan disappeared in the mountains two weeks ago and his absence has been the cause of more interest in northern railway circles the past two weeks than the death of almost any official would cause. A party of 200 men has been hunting for the missing man ever since his disappearance, but has failed to find him.

SOUTHWESTERN RAILROADS Plans for Opening Immigration Campaign Are Completed Yesterday. Seldom has any joint railway movement ever been so quickly formed or so quickly put on working basis, as the combination of interests by representatives of railroads entering the great southwest for the purpose of encouraging immigration to Texas, Arkansas, Oklahoma, Indian Territory and Louisiana.

Representatives of the following lines were present at the meeting held in St. Louis yesterday: International and Great Northern, Texas and Pacific, Missouri Pacific, Santa Fe, Cotton Belt, Fort Worth and Denver City, Missouri, Kansas and Texas, Iron Mountain, Rock Island and Frisco. A. A. Glisson of the Fort Worth and Denver City, was the only Fort Worth man present. As was stated in The Telegram, the Fort Worth and Denver City is one of the older pioneers in the immigration movement, though strange as it may seem its line enters the state from the north-

west instead of the northeast as is true of nearly all the other roads interested.

Plans involving the expenditure of \$50,000 the first year for advertising the southwest were formulated at the meeting, and J. W. Steele, formerly editor of the Corn Belt, a publication devoted to the interests of the Burlington route, was selected as head of the joint agency to be established in St. Louis by the roads interested.

The agency will be known as the Colonization Agency of the Southwest Lines, and Mr. Steele's title will be commissioner. Messrs. Snyder of the Frisco, Nicholson of the Santa Fe, Sebastian of the Rock Island, and Townsend of the Missouri Pacific and Iron Mountain will remain as members of the managing committee.

Subscribe to the State Fund. The Southern Pacific railroad, through C. H. Markham, vice president, has subscribed \$10,000, and the Gulf, Colorado and Santa Fe has authorized General Manager Wortham to draw on the road for \$5000 for the Texas World's Fair fund. In addition to this, the Southern Pacific has appropriated \$10,000 for an independent exhibit of resources along its lines in Texas, Louisiana, California and New Mexico. In view of the fact that neither of these two railroads has direct connection with St. Louis from Texas, their donations are regarded as extremely liberal.

TRAIN COMES THROUGH SAFELY

First Train Over International and Great Northern Reaches Here

As stated in last evening's Telegram, the first train over the International and Great Northern extension from Waco to Fort Worth, started yesterday at the connecting point about fifteen miles below the city and reached here last evening with Superintendent A. L. Bowers and other officials on board. They were met here by Land Commissioner Cunningham who came over from Dallas on the Interurban. They expressed themselves as being greatly pleased to be able to reach Fort Worth over their own line. Up to 2 o'clock this afternoon General Manager Leroy Trice had not reached here from Palestine but was expected to come at any time over the new line.

As intimated last evening, the road cannot begin operations for some time as there is yet twenty-eight miles of telegraph wires to string and poles for that distance are not yet put in place. An old railroad man said this morning that this work would consume almost a month and in his opinion it will be at least January 1, 1903, before a regular schedule is in effect on the new line.

LOCAL FIRE BOYS AND BALL PLAYERS HUNTING

Out for a Six Weeks' Stay in Search of Big and Little Game—One of the Boys Accidentally Shot

A card was received yesterday by some of the fire boys at central station telling of the good luck the party of ball players and firemen were having on their hunt in the Bryan neighborhood. In the party are Walter Townsend, Jack Jarvis, Harry Steinfeldt, Gene Bradley, Louie Ferguson, Doyle and two or three others.

Assistant Fire Chief Bideker and Charley Jones left last night to join them. Messrs. Bideker and Jones will be absent about ten days. The other party will remain until near Christmas. They left here November 3.

A card was also received by Kid Nance from one of the boys, who stated that Doyle peppered Walter Townsend with bird shot while out a day or two since, but that the wounds were not at all serious. Bets were made and taken among the friends and associates of the hunters when they departed that Doyle would shoot some one or more of the crowd before he got back. Doyle is the "big game" hunter of the party. Of course the wounds were inflicted by accident.

AN OBSTREPEROUS WAITER

Knocked the Head Waiter Down While on Duty in the Dining Room. Ed Scott is a slinger. He is also a "biker." Ed is colored, and was employed as waiter in one of the prominent hotels in the city. Ed was weighed in some balance of duty and was found wanting. The head waiter reprimanded Ed which hurt Ed's feelings. The head waiter is also colored.

Yesterday morning during the breakfast hour, when the head waiter attempted to place a chair for one of the ladies of the hotel, Ed let drive at his superior in service and felled him to the floor. Ed then made a run from the dining room and "biked" over to the police station and asked for a room—he got it.

AT FIRST GLANCE

It Would Appear That Local Remedies Would Be Best for Cure of Catarrh

It would seem at first glance that catarrh being a disease of the mucous membrane, that salves, sprays, etc., being applied directly to the membranes of the nose and throat, would be the most rational treatment but this has been proven not to be true.

The mucous membrane is made and repaired from the blood and catarrh is a blood disease and any remedy to make a permanent cure must act on the blood, and when the blood is purified from catarrhal poison, the secretions from the mucous membrane will become natural and healthy.

In this climate, thousands of people seem scarcely ever free from some form of catarrh; it gets better at times but each winter becomes gradually deeper seated and after a time the sufferer resigns himself to it as a necessary evil.

Catarrh cures are almost as numerous as catarrh sufferers, but are nearly all so inconvenient and ineffective as to render their use a nuisance nearly as annoying as catarrh itself; anyone who has used douches, sprays and powders will bear witness to their inconvenience and failure to really cure.

There are a number of excellent internal remedies for catarrh, but probably the best and certainly the safest is a new remedy, composed of Red Gum, Blood Root and similar antiseptic remedies and other valuable catarrh specifics.

This remedy is in tablet form, pleasant to the taste and sold by druggists under the name of Stuart's Catarrh Tablets, and anyone suffering from catarrh may use these tablets with absolute assurance that they contain no cocaine, opiate nor any poisonous mineral whatever.

A leading druggist in Albany speaking of catarrh cures says, "I have sold various catarrh cures for years, but have never sold any which gave such general satisfaction as Stuart's Catarrh Tablets. They contain in a pleasant, concentrated form all the best and latest catarrh remedies, and catarrh sufferers, who have used douches, sprays and salves, have been astonished at the quick relief and permanent results obtained after a week's use of Stuart's Catarrh Tablets." All druggists sell full sized packages for fifty cents.

A GREAT HERFORD SALE.

The ranch men and breeders of Texas will be afforded an opportunity to buy Hereford cattle from three of the largest and best herds of Hereford cattle in the world, on Tuesday and Wednesday, November 25th and 26th at Ft. Worth, Texas. The cattle will be sold in the northern pens at the Ft. Worth stock yards, so buyers from north of the quarantine line will run no risk in buying the cattle.

One of the consignors of the sale said, in speaking of the cattle to be sold, that they were the best lot that they had ever sold in Texas. This is saying a good deal, as this is the fourth sale these parties have made at Ft. Worth, and they have always sold an exceptionally good lot of cattle.

Parties wanting bulls or females to add to their herds should not miss this opportunity. Read their ad in this issue.

There is no cough medicine so popular as Foley's Honey and Tar. It contains no opiates or poisons and never fails to cure. Sold by Reeves' Pharmacy, Ward Pharmacy and Arlington Drug Co.

Kodol Digests what you Eat Dyspepsia Cure

The agony you suffer after eating that feeling of fullness, flatulence (wind on the stomach) and belching is caused by decay of undigested food which forms a gas that distends the walls of the stomach and exerts a pressure against all the internal organs. The eating of more food forces out part of this gas and causes belching. Just take a little KODOL DYSPEPSIA CURE. It will relieve you at once. It never fails to permanently cure the worst cases of indigestion and dyspepsia.

It can't help but do you good. Prepared by E. C. DeWitt & Co., Chicago. The \$1. bottle contains 2 1/2 times the 50c size.

The favorite household remedy for coughs, colds, croup, bronchitis, grippe, throat and lung troubles is ONE MINUTE Cough Cure. It cures quickly.

CAMERON MILL AND ELEVATOR CO., FORT WORTH, TEXAS.

DURING the winter many people visit California. Several desirable Routes—in fact, none better, are available via Fort Worth. For Los Angeles and points South, one makes good connections at Dalhart, Texas, with the Rock Island Route (a good way to Old Mexico, too) with first-grade Eating Cars the entire trip, and with the Santa Fe System at Trinidad, Colorado. The time made by combining "THE DENVER ROAD" with either of these, surprises Investigators. For other California and Pacific Coast points thru Colorado Service (which no other line has) may be enjoyed, with a choice of routes beyond, via Pueblo, Colorado Springs and Denver—and the Rockies are magnificent now. Remember, that Class A service which has nourished the "Only-One-Road"-and-"You-Don't-Have-To-Apologize" idea is no mere Summer Flirtation—"THE DENVER ROAD" makes good twelve months in the year.

ELKS' FAIR IS DRAWING CROWD

ENTERTAINMENT AT ELLIS HALL BRINGS MANY VISITORS

IS BETTER EVERY NIGHT

Last Night Better Than the One Preceding and Tonight is Expected to Surpass Both—Plenty of Excitement, Amusement, Entertainment and Enjoyment.

"Say, won't you buy a chance on my palm?" and "Say, won't you take a ticket on my sofa, pillow over here?" and "Say, have you seen my lovely cut glass bowl?" and "Say, here's a telegram for you," and "Say, you're arrested."

Only the last statement is regarded seriously, for an arrest at the Elks' charity fair is a serious matter. There is the big, benevolent, blue-coated policeman to reckon with; there's the judicious judge whose judgments jar you; there is the jailer and the jail both to be dealt with according to the most diplomatic methods, or it'll cost you a couple of dollars before you get out.

Last night at the Elks' fair was much better than even the opening night. Jokes and joshes were handled about freely, and had there been any sourests in the crowd they would have called it a screaming time.

People have begun to get used to the Elks' fair and are now going as a matter of course and as a matter of enjoyment. It's the liveliest place in town these evenings and the person who couldn't get fun in plenty after he or she has mounted the wooden steps leading to the scene of the fair, is very dolefully disappointed.

The attendance last night was excellent, and the sales swept high up the total receipts for the first two evenings of the fair. The prize drawing every night is an entertaining feature the \$15 umbrella being awarded to Theodore Schrader. A fine steel stove awaits the holder of ticket No. 125.

Yesterday, as Free Kindergarten Day, was well patronized and today is Revere Day. Tomorrow is Dallas and Denton Day, and visitors from the Elks' lodges of both places are expected to be in attendance.

Some of the Stars The wheel of fortune is a gay gilded creation, and by means of it many of the donations are sold. W. A. Tuley, who wears a leather medal like the shield of a Roman centurion, is chief "spieler," and he draws buyers in abundance. E. Marshall Spoonst is "spieler" for the flaming ice palace. Spoonst's superb spelling is especially spectacular, and the stream of visitors to see the fiery cake of ice grows nightly.

Among the pretty booths are those of the Gibson Girls and the '93 club, the art booth of the former being attractively arranged. The young ladies in charge are the Misses Lois White, Ella Hogsett and Mabel Bradley. The '93 club booth deals in refreshments and is in charge of Mrs. C. A. Butts, Mrs. F. E. Merrell and Mrs. Leon Gross.

To say one had seen the fair in a single evening would be folly, for it takes a whole half dozen nights to see all that is to be seen. The contests for the most popular conductor, the most handsome man, etc., are beginning to be interesting and a number of names are chalked up on the blackboard.

HOW TO READ WEATHER MAPS

New Method Which is Respectfully Referred to Scientific Students

The seedy man was gazing intently at the weather map posted in the postoffice at noon today when one of those waiting near asked: "Can you read the map?" "Sure," was the answer.

"Now for instance," said the questioner, "how could you prove to me by the map that the prediction for rain tonight and Friday is likely to come true?" "See them curved lines?" asked the seedy man, pointing to the isobars passing through points with equal barometric pressure.

"Yes." "Well, then," said the seedy man triumphantly, "can't you see for yourself that they make the outline of a water pitcher and if that don't mean rain, I'd like to know what weather maps are for anyway?"

If you don't believe this story, look up today's weather map and be convinced. Rain tonight and Friday, cooler; is the prediction for tomorrow. Snow has fallen in Wyoming and Utah during the past 24 hours and it was raining in Arizona this morning.

All who have done anything to further this great cause by preparing for this day are urged to bring in reports. Bring in all literature. Let us have an enthusiastic meeting. Let its influence be felt throughout the city. FANNY L. ARMSTRONG.

DEAD ROBBER IS IDENTIFIED

Man Killed by H. W. Schreiber of This City Was A. E. Hudson

A dispatch from Trinidad, Col., states that the dead robber who attempted to hold up the Colorado and Southern passenger near Beshear Junction and who was shot by Hollis W. Schreiber of this city, was A. E. Hudson, his identification having been established by letters found on his body. He was a coal miner and was evidently an amateur at the business of train robbery. Mrs. Hudson, wife of the dead man, is confined in jail at Trinidad. At the office of Superintendent Gaines of the Eleventh division, railway mail service, word was received from the mail clerk who was on the Colorado and Southern train, stating the train had been held up, but giving no particulars.

IT DID NOT RUIN CUBA

Failure of Reciprocity Did Not Close Any Sugar Estates

HAVANA, Nov. 20.—Lionel Carden, the British minister, in a report on the situation in Cuba, says none of the evils so confidently predicted by the advocates of reciprocity has come to pass. No sugar estate of importance was compelled to stop, and the recent crisis, far from being disastrous to the island's prosperity, has really been of immense service to Cuba in teaching the planters to be economical in the management of British plantations thus lowering the cost of production until it is thought that plantation expenses will not exceed one cent per pound. Under the present conditions, the minister adds, Cuba has little or nothing to fear from the competition of other countries in the production of sugar, whether cane or beet.

IN JAIL FOR QUEER CONDUCT

Young Man Living Near Hillsboro Will Face Serious Charges

(Special to The Telegram.) HILLSBORO, Tex., Nov. 20.—A young man who lives a few miles west of town was jailed today on a charge of improper conduct and drunkenness. He met some girls in the road west of town and his conduct is said to have been very unbecoming toward them. He had a pistol belt in plain view and pretended to have a gun and terrified them. When some men appeared in sight he left. As soon as they arrived in town a complaint was sworn out against the young man and he was arrested.

Six hundred tons of chillies were produced last year in Zanzibar.

IN DAKOTA FOR DIVORCE

Says Her Life For The Last Four Years Has Been One of Tremendous Sacrifice, Gone Through With Only For The Sake of General Molineux, Whom She Respects

(Special to The Telegram.)

PEN PORTRAIT OF MRS. MOLINEUX

Mrs. Blanche Chesbrough Molineux may be seen in the following pen portrait: Height—5 feet 10 inches. Weight—150 pounds. Figure—Ample, but full of grace. Dress—Fashionable. Complexion—Transparent, naturally high-colored, no cosmetics. Mouth—Straight, full-lipped. Teeth—Large and white. Hair—Brown, abundant, worn high. Mrs. Molineux's elements of beauty are: A good height, a slender figure, a long neck, a well-set head, a delicate, aristocratic nose and a chin with character; an abundance of pretty hair and large, brown eyes with well defined black pupils. It is known that Mrs. Molineux's left eye is artificial, but she has it so well under control that this deceit could not be suspected. Her greatest beauty is her skin—transparent, soft, sometimes pale, oftener flooded with exquisite color, always innocent of cosmetics.

"I desire my freedom above all else in the world, and I am justified in seeking it." She also declared that she had no reason for wishing to keep the object of her coming a secret. In fact, she wished the world to know why she has taken up her residence in Sioux Falls.

"I've Been a Martyr, That's All." "Yes, I am Mrs. Molineux of New York," she said to the correspondent with a laugh.

"Will you say anything of your differences with your husband for the newspapers?" She shrugged her shoulders deprecatingly.

"O, I've been a martyr, that's all," and she rose and walked fiercely across the room to a davenport.

"A martyr?" "O yes, and I've been under such a fearful strain. I want quiet; I want rest. For four years I have been waiting to see what they would do with that man. Now it's all over and I will rest."

"You showed a good deal of interest in your husband, Mrs. Molineux," was suggested.

"All for appearance sake. I simply lived, while the world thought I was loving him. I've been a martyr for four years. That's it."

"It was all for General Molineux. I like General Molineux and promised him I would wait till he had done all possible to save that man. I respect him and his struggle to save his son. For no other person in the family would I have done what I did. But now I am free," she concluded, and she would say no more."

That she is in earnest is shown by

the fact that she engaged a law firm, the senior member of which is United States Senator A. B. Kittredge, while the junior member is the state's attorney of this county. Refuses to State Grounds for Divorce Mrs. Molineux declines to state the grounds upon which the suit will be based. This probably will be kept a secret and nothing in reference to it will be definitely known until after the expiration of the six months necessary to establish a residence.

Mrs. Molineux speaks in terms of the highest praise of General Molineux, the father of her husband, but refers to her husband in terms which are anything but flattering. She does not refer to him by name or as her husband, but invariably speaks of him as "that man."

Her visits to the home of General Molineux after the acquittal was simply for appearances at the earnest solicitation of General Molineux and on the understanding and promise that she should not see her husband.

After remaining there two days, during which time she did not speak to or see her husband, she departed for Sioux Falls with the intention of procuring a divorce, as stated. Since arriving here, she says she is very happy and is breathing free air again.

GENERAL MOLINEUX THE GUEST OF HONOR

NEW YORK, Nov. 20.—Gen. Molineux is to be the guest of honor tonight at a banquet given by the U. S. Grant Post, G. A. R., of Brooklyn. The affair is in recognition of the public pleasure felt at the acquittal of Gen. Molineux's son, Roland B. Molineux, at his recent trial for the murder of Mrs. Kate Adams.

During the entire four years of the aged General's worry and expense in connection with his son's misfortune, his old war comrades stood steadfastly by him. Among other things they offered to furnish the funds necessary to meet the immense expense of the second trial, which offer, however, the valiant old fighter declined with thanks.

"Be instant in season." This is a good text for the advertiser. Find out, know, what the people want and give it to them. Let them know that you have it in stock. Anticipate, if possible, what is likely to be popular. Seek to be the first to let the public know it is in stock. Those who wait until others have had their say, are likely to get only the few straws that are left by the blades of the harvesters.

Why shouldn't the school teachers get into the Federation of Labor? If their employment isn't labor—what is?

If Argentina dressed meat is sold at a cheaper price in England than the American product you can rely on it that it is "cheaper" meat.

Fort Worth gets the next convention of the Federated Women's Clubs of Texas. As usual, there were other cities contesting for the honor and pleasure of next entertaining the ladies, and equally as per usual Fort Worth was favored.

"Strike while the iron is hot" is a good maxim for others besides blacksmiths. The Fort Worth iron is hot; and if you will join the Board of Trade you may have an opportunity to strike a few blows, or work the wind machine, for the good of the city.

Hollis Schreiber of this city, the express messenger who killed one train robber and frightened away five others near Trinidad, Colorado, the other night, is one pistol "toter" that should be commended. It's really too bad he didn't have a Gatling gun on his person and bag the entire half dozen.

Will Shaw resign from the treasury? is being asked by the newspapers. He may if he has peace fixed up with the Wall street crowd, so that he can step into the presidency of some nice, fat banking institution. The sole object of the United States treasury nowadays is to try out financial timber and see if it is good enough for a banking job. If it is, it resigns, and if it is not it continues to serve Uncle Sam.

The readers of The Telegram are asked not to confound the new serial story that will be begun soon in its columns with the slush that masquerades so generally nowadays under the name of literature. There is nothing cheap or commonplace about the story. It is positively the success of

the present year and is as much entitled to live as the work of any American author. If it were not a novel of striking and extraordinary merit, this paper would not announce it as such. But it is, and it should be read by every one who sees The Telegram. As has been said before, it is a book that has kept and is still keeping numerous patrons of the Fort Worth library on the waiting list for an indefinite period.

## THE PRESIDENT ON THE PHILIPPINES.

President Roosevelt's speech at the Memphis banquet to General Luke E. Wright, formerly acting governor of the Philippine Islands, is in one respect notable. It is the expression direct from headquarters on the questions of the present and past conditions in the islands. What was said has, then, the value of being authoritative.

The president takes the stand that we can no more abandon the islands now than we can abandon Alaska. He hints that it was a mistake that we ever got into the mess, but that now we are in it, we cannot step aside and let bloody chaos follow, to be straightened out finally by some other country. The instances of cruelty of American soldiers, he refers to as merely isolated cases, in part the result of the treachery and barbarity of the foe. He asks the same charity for the shortcomings of the soldiers that is granted the people who stayed at home in peace and comfort.

He asserts that the war is now over and that the progress of civil government is in every way satisfactory; that the islands have never been as peaceful, orderly and prosperous as now. Self-government has been granted the natives just as fast as they are prepared for it, possibly faster than was to their interest; for he alleges that they are notoriously incapable and blind.

But the absorbing and most important query: What is to be done finally with the Philippines, the president avoided as carefully as one does a red-hot ember. Whether they are to be held by the United States as a colony, under an imperial policy, or whether they are to become an integral part of the federation, as is a state or territory, seemed never to have occurred to the president as worthy of an expression.

Irrigation is a Western question, essentially so, as far as public interest goes. Probably not one man in 500 outside the arid regions realizes the significance of it. In the East and in some parts of the South there is not only indifference but opposition. But nevertheless the plan is to add to the national domain, to make practicable the settling of a large area by converting what is now waste territory into small farms. It is a great work and it is moving slowly, but the end is sure. You can't obstruct progress long in this age.

The steel workers strike conducted by President Shaffer of the Amalgamated association was a sad failure, for reasons that the public is not interested in now; and the attempt of Shaffer to throw discredit and blame for the failure on Samuel Gompers and John Mitchell is exceedingly ill timed. Both of these men stand high in the public estimation and Shaffer's attack can but circle around and come back and smite its instigator.

How's business? Good. How do you account for it, when dullness prevails in every other town? By the construction of the packing houses, and the money it puts in circulation. The Board of Trade was the active instrument, the potent factor, that secured the packing houses. Under its direction the people rallied to the work and secured this valuable enterprise. Let's help the Board get some other industry.

# MOVEMENT IN EUROPE TO HELP COTTON HERE

NEW YORK, Nov. 20.—An enterprise of great moment to Manchester has been planned and will in all likelihood shortly be carried out by a syndicate of New York capitalists, cables the London correspondent of the Tribune, who quotes the Manchester Guardian as authority for the story. Already, it is stated, arrangements have been made for the purchase of eighty acres of land on the south bank of the Manchester ship canal, upon which it is proposed to construct wharves and a large dock for the accommodation of ocean-going steamers and to erect warehouses for the storage of cotton and other produce. This, however, is only part of the scheme. The company owning the dock and warehouses also will furnish mercantile and financial machinery enabling American holders of cotton or other produce to sell it directly from the warehouse in Manchester to the English spinner, and making it possible for spinners on this side to hold cotton in stock until required for consumption, without locking up an equivalent amount of capital. It is intended, adds the despatch, to establish similar warehouses at Harve, Bremen and one or two European ports.

# ENTIRE TOWN GOES UNDER THE HAMMER

KNOXVILLE, Tenn., Nov. 20.—Practically the entire town of Elizabethton, the county seat of Carter county and once heralded as "The Iron City of the South," goes under the sheriff's hammer at public sale today. The sale marks the final chapter of one of the most gigantic enterprises ever floated in this section of the country. The town was projected by the Watagua Land company, which included among its backers John G. Carlisle of Kentucky, Senator Mc-

## AMUSEMENTS

**A Trip to Chinatown**  
 A good farce comedy presented by a capable company played to a better house than "A Stranger in New York" and was better played. Last night's audience was well pleased and gave frequent encores. The members of the company have good voices, are not affected, and present a much better show than might be expected from the prices.  
 Miss Sylvia Starr made a good widow and William T. Sturgeon, again pleased with his singing. Leading roles were taken, of course, by Wm. Keller Mack and Jack Campbell. It would take very little changing to turn the two into "Jack Campbell and Billy Mack—the sketch comedy team." Their work in that line last night was a good vaudeville imitation. Tonight at Greenwall's "A Triumph of Love" for the benefit of All Saints' hospital will be presented.

"At the Old Cross Roads"  
 "At the Old Cross Roads," which will be seen at Greenwall's opera house Friday night, Nov. 21, was one of last season's most pronounced successes. When produced at the Grand opera house, New York City, that

brilliant young comedian, Mr. John Henderson, who is one of America's most popular comedians, in the latest and greatest New York sensation "The Wizard of the Nile." The engagement of this organization in Dallas, Galveston, Houston and San Antonio was a record-breaker in point of receipts. The coming of "The Wizard" to Fort Worth has been a long-looked for event, and no doubt will be received here as it is everywhere, by a packed house.

Grau always brings novelties to the public and always give them to the public at his prices—25c, 50c and 75c—when others would charge \$1.50 a seat for this same production. "El Capitán" will be presented Tuesday night, Nov. 25.

**AMONG EXCHANGES**  
 Bonham Favorite: Tom Johnson, crawling from under the wreck of the late Ohio campaign, bravely declares: "Truth loses some battles, but no wars." This indicates that the single-taxer, although badly bruised, is still in the ring.

San Antonio Express: Galveston is going to have a sea wall jubilee in December, to which all her friends of the interior will be invited. It is intended to signalize the beginning of the construction of the defensive wall which is to protect the city from overflow.

Galveston News: Plant hogs instead of cotton another year, is advice that is being given the farmers, and it is advice that should be heeded. The building of the packeries at Fort Worth will open up a market right here at home, thus avoiding the enormous expense of transportation.—Grosbeck Journal.

Some editors continue to tell the farmers to raise hogs for home consumption. That advice is on a par with telling the farmer to drink water. He has to drink water, and he has to raise hogs for his own meat if he would thrive. But that to one side, the advice to raise hogs for the market is good. The packeries are established, hence the market is established. The product of the hogen can be sold at any time of the year, and the man who has hogs has money in his pocket. As to raising them, experiments show that it can be done as cheaply in Texas as anywhere else. The hog cholera appears less frequently in Texas than elsewhere. The season when swine can be fed on grass and green products of all kinds is longer than it is elsewhere. Sorghum is luxuriant in its growth. Corn can be produced as cheaply in Texas as elsewhere. In fact, there is nothing that can prevent hog-raising in Texas from paying. Therefore, raise hogs.

Stockman and Farmer: The Fort Worth packing plants say they want for their daily kill something like 5,000 head of hogs. They hope to buy the bulk of those hogs in Texas, but they are not to be had this year. It will take a good while to overcome the shortage in the hog crop of Texas, but in the meantime the man who has a supply to sell will make good money. It will pay Texas farmers to plant hogs, and they should lose no time about it.

Denison Herald: There are a great many people in Texas who believe that the best thing that can happen to the country is a year's wet weather. There is one thing sure—when this Texas soil gets soaked good and full of water there are always bountiful crops the next year.

**Luck in Thirteen.**  
 By sending 12 miles Wm. Spirey of Walton Furnace, Vt., got a box of Bucklen's Arnica Salve, that wholly cured a horrible Fever Sore on his leg. Nothing else could. Positively cures Bruises, Felons, Ulcers, Eruptions, Boils, Burns, Corns and Piles. Only 25 cents. Guaranteed by W. J. Fisher, 502 Main street and 413 Houston street.

**Grau's Big New Opera Company**  
 Theaters-goers will have Monday night, Nov. 24, and Tuesday matinee, Nov. 25, an opportunity of seeing the

elevating to the mind. The production was made without regard to cost, with five acts of beautiful scenery, tapestry hangings, and with attention to every detail.

# THE PRESIDENT

Of the City Council, Wilkes-barre, Pa., Cured of Rheumatism.

Col. Wm. J. Harvey, a president of Wilkes-barre's city council, who will long be remembered for his great work for the city, was once a mere physical wreck, torn in every muscle and nerve from the frightful pains caused by rheumatism. He consulted the best physicians, went abroad, took mud baths, and almost every known treatment for the disease. One of the city officials had had a very similar experience and Dr. David Kennedy's Favorite Remedy had cured him, so he recommended this great kidney medicine to his friend, and Col. Harvey is today a well man, hale and hearty. In his own abrupt way he states his case:

Dr. David Kennedy,  
 Dear Sir:—This is to certify that I was permanently cured of rheumatism by the use of Dr. David Kennedy's Favorite Remedy.

WM. J. HARVEY.  
 Nothing could be more direct or more to the point than this simple statement.

Rheumatism is but another name for uric acid poisoning which is caused primarily by diseased kidneys. Cure your kidneys and the rheumatism disappears.

For all diseases of the kidneys, liver, bladder and blood, rheumatism, dyspepsia and chronic constipation, as well as sickness peculiar to women, Dr. David Kennedy's Favorite Remedy is unquestionably the greatest medicine known to the medical profession.

All druggists sell Dr. David Kennedy's Favorite Remedy in the New 50c Size and the regular \$1.00 size bottles. Sample bottle—enough for trial, free by mail. Dr. David Kennedy Corporation, Rondout, N. Y.

Dr. David Kennedy's Rose Jelly radical cure Catarrh, Hay Fever and Cold in Head. 50c.

I used it, and got two more bottles. It cured me and I haven't felt any rheumatism since. I can recommend Snow Liniment to be the best liniment on earth for rheumatism." By BRIG. GEN. CHAS. KING, USA  
 COPYRIGHT, 1899, BY F. T. WAINSWORTH NEELY

Brought to by a bullet in the leg, George Nevins was recaptured down the Missouri three days later and sent for his wife that she might come and nurse him. Though everybody said no, she went and did her best, and if nursing could have saved a reprobate life, he might still have remained an ornament to society such as that in which he shone. But Naomi wore a widow's veil when late in October she returned to Folsom's roof; the good old trader had stood her friend through all.

There were some joyous weddings in the department of the Platte the summer that followed, Loring gravely figuring as best man when Dean of the cavalry was married to Elinor Folsom, and smiling with equal gravity when he read of the nuptials of Bravet Captain Miss Allyn. He had reverted to his original idea—that of waiting in patience until he had accumulated a nest egg and had acquired higher rank than a lieutenant in the engineers—and so he might have done if it took him a dozen years had not orders carried him once more to the Pacific coast after the completion of the Union Pacific railway. Regularly every month he had written to Pancha, noting with surprise and pleasure how rapidly she learned. Glad-

ly he went to see her at the gray sisters' the day after his arrival. He had meant to laughingly remind her of his goodby words, "You know we always come back to California," but he forgot them when she came into the room. He took her hands, drew her underneath the chandelier and looked at her and only said:

"Why, Pancha!"  
 Loring never did say much, and it was a beautiful, dark eyed girl who uplifted those eyes to his and smiled in welcome, saying as little as he. She was a graduate now. She was teaching the younger girls until—until it was decided when she should return to Guaymas—to the home of Uncle Ramon, who had been good to her always, but especially since her poor father's death. She did go back to Guaymas by and by, but not until Uncle Ramon had come twice at long intervals to San Francisco to see her and the good lady superior and to confer with an earnest, clear eyed, dignified man at headquarters.

There came a new Idaho on the line to Guaymas, and a newer, bigger, better steamer still a year or two later, and bluff old Captain Moreland was given the command of the best of the fleet, and on the first trip out from Frisco welcomed with open arms two subalterns of the army, one of the engineers, the other a recent transfer to the cavalry, both old and cherished friends.

"We can't have you with us on the back trip, Blake, old boy," he said as he wrung their hands when he saw them go ashore at Guaymas, "but I can tell you right here and now there won't be anything on this trip too good for Mrs. Loring or the engineers."  
 "It is a pretty name! I'm glad it's mine now," said Pancha, one starlit night on the blue Pacific as they neared the lights of the Golden Gate.

"It was a wounded name, Pancha—wounded worse than I," he answered reverently, "until you came and healed and saved it."  
 THE END.

**Why We Eat Salt.**  
 Some diversity of opinion has existed among physiologists as to the physiological significance of eating salt. According to Bunge, the use of sodium chloride with food is to counteract the effects of the potassium salts predominating, especially in vegetable diet, while other physiologists regard salt purely in the nature of a condiment with no special action. M. Leon Fredericq, writing in the Bulletin de l'Academie Royale de Belgique, describes his observations on certain salts used by the natives of the Congo State.

These salts are produced by the incineration of aquatic plants and are placed on the market in the form of cakes produced by evaporation of the

solution formed by dissolving the residue. An analysis shows them to consist almost entirely of chloride and sulphate of potassium, the former largely preponderating and the presence of sodium being only detectable by the spectro-scope. The fact that salts of potassium are thus used for cooking purposes seems to negative the views of Bunge and to support the opinion, previously advanced by Lapique, that the use of salt is primarily to improve the flavor of food.—Scientific American.

**Making a Room Look Livable.**  
 The successful placing of chairs in a drawing room amounts to art. Every one knows how, with some articles of furniture, one woman will make a room look livable and another will make it look stiff, while a stupid servant will completely spoil the effect after a general cleaning by putting each thing "just wrong."

Any one who entertains much should study the arrangement of chairs, as their juxtaposition and look of invitation have much to do with the success of small gatherings. A Washington woman, whose charming receptions were noted for their attractiveness, and who had the nearest approach to a "salon" that is possible in this country, said when asked for the secret of her success: "I really ascribe what you are kind enough to term my popularity to my chairs. I never clear out my rooms for a crowd, as is generally the custom, but place inviting looking seats in groups, and it is astonishing how quickly each group forms, as it were, a focus and draws congenial people together." Exchange.

**Faithful Unto Death.**  
 At Marengo, while Napoleon reconnoitered the enemy's movements and gave his orders in writing, a cannon ball struck the officer to whom he was dictating and threw him to the ground. Napoleon ordered another secretary—he came. At the moment when Napoleon resumed his despatch the wounded man raised himself.  
 "General," said he in a dying voice, "General"—and he repeated the last words that he had written.

**HE COULD HARDLY GET UP.**  
 P. H. Duffy, of Ashley, Ill., writes, "This is to certify that I have taken two bottles of Foley's Kidney Cure and it has helped me more than any other medicine. I tried many advertised remedies, but none of them gave me any relief. My druggist recommended Foley's Kidney Cure and it has cured me. Before commencing its use I was in such a shape that I could hardly get up when once down." Sold by Reeves' Pharmacy, Ward Pharmacy and Arlington Drug Co.

JAKE ZURN IS ON THE LIMB, YET YET

Being Urged to Run for Alderman from the Eighth Ward to Succeed E. C. Orrick.

Colonel Jake Zurn, he of the Texas and Pacific city ticket office and school board fame, is being urged by his friends (and enemies) to stand for alderman from the Eighth ward, to succeed E. C. Orrick, who will, it is said, resign to accept the appointment of city attorney. Judge Williams, the present city attorney, will resign to go to the Texas legislature. His resignation will be handed in tomorrow night, to take effect December 1. Mr. Zurn has not yet decided to make the race. He has had every assurance necessary that he could be elected over any opposition. Still he is undecided, and pleads for time. In the meantime there are others being urged to run. For instance, Frank E. Dyess and D. E. Ross. Both these gentlemen are well known citizens of Fort Worth, but neither will they "I will run."

ADMIRAL SCHLEY IS AT KANSAS CITY BANQUET

(By Associated Press.) Kansas City, Nov. 20.—Rear Admiral Winfield Scott Schley was the guest of honor Wednesday night at the annual banquet of the Commercial club, held in commemoration of the signing of the John Hay treaty. The affair was a notable one and Admiral Schley was given a decided ovation, the climax of a day of enthusiastic greeting to the naval hero. The banquet, held at the Midland hotel, was most elaborate. Plates were laid for 500, the capacity of the hall, and among the guests were Capt. Andy Rowan, U. S. A., Atchison, Kan., who "carried the message to arctic"; General John C. Bates, commander of the department of the Missouri; Hugh Gordon Miller, of Norfolk, assistant United States district attorney of Virginia; Judge C. J. Gavin, of Baton, N. M.; M. W. H. Rossington, of Topeka; Governor Wm. E. Stanley of Kansas, and Frank Strong, Chancellor of the University of Kansas.

Following a parade upon his arrival from Chicago in the afternoon Admiral Schley and other distinguished guests were given a reception at the Commercial club, attended by several hundred persons, then a luncheon at the Baltimore, and finally, a drive about the city. Preceding the banquet an informal reception was held in the Midland hotel parlors.
