He Was Very Prominent in the South as an Iron Man - Two Strangers Talking to Him Are Missing and May be Under the Molten Metal

(By Associated Press.)
BIRMINGHAM, Ala., Nov. 26. — A sudden break in the furnace of the Williamson Iron company this morning caused a mass of molten iron to gush forth. Thomas J. Edwards, general manager, who was standing near by was burned to death. His body was literally covered with molten metal.

James F. McAnnally was fatally burned. Charles Simpson was severely hurt.

Two strangers talking to Edwards at the time are missing. They may be under the debris and hot iron.

Edwards was very prominent as an iron manufacturer.

News of Operators' Action Unexpected by Mitchell and MacVeagh.

Washington, Nov. 26 .- All prospects for an understanding between the United Mine Workers and local operators, outside the anthracite coal strike commission came to a sudden termination late Friday afternoon Grough the receipt of a dispatch to Mr. Wayne Mc Veagh, representing the Pennsylvania Coal company and the Hillsdale Coal o not to grant an interview to Mr. Mitchell and his associates, which had been suggested for Friday next. The announcement, coming as it did after an all-day conference in this city, between Mr. McVeagh and Mr. Mitchell and his associates, attended part of the time by Carroll D. Wright, in an endeavor to adjust some details of the proposed agreement between the operators and of Mr. McVeagh, who was no less surprised than Mr. Mitcheil himself at the turn affairs took.

From statements made by Mr. Dar row early in the day the impression had spread that a complete agreement would be effected at the conference, but when the meeting broke up Mr. Darrow read to the newspaper men, in the corridor outside his room in Willard's hotel, a statement which made it clear that no final agreement had been reached and that no further conferences were likely.

LEARNING A LANGUAGE.

It Is Comparatively Easy to Acquire a Working Vocabulary.

"It doesn't require any great length of time to learn a language if one has patience," said a man who has mastered several languages, "and when I hear a man regret that he is not able to speak French or German or Spanish or some other language unknown to him I cannot conceal my amusement. In nine cases out of ten I might say that the men who express a regret of this sort handle English very poorly if that happens to be their language.

"The chances are that their vocabularies are extremely limited, and it would probably surprise them to know that despite the advantages of birth and education they could not command more than 600 or 700 words in English if their lives depended upon it. Yet they are able to carry on intelligent conversation, and many of them may become forcible and even axiomatic in their savings, and they plunge into discussions of literature, art, music and other subjects of such fine elegance and do it rather successfully too.

"Now, how long ought it to take for a man to learn 600 or 700 or even 1,000 words in any lauguage? Certainly it ought not to take any great length of time, and from my own experience I know that it does not. Of course I am not speaking now of mastering so that one can get the full benefit of all the refinements of speech in a particular

"But I have in mind the idea of speaking intelligibly in a given language and being able to understand perfectly what is said in return. I have a system which I have worked out, and it has been of vast benefit to me and has enabled me to learn a number of languages. It occurred to me while I was in Mexico a few years ago on important business.

"I could not speak a word of Spanish and could not understand the language. I concluded that I would learn the language. My plan was simply this: I made up my mind that I would not retire at the close of any day as long as I was there without learning at least three words in Spanish, how to pronounce them and what they meant. That would give me ninety words per month, or something over 1,000 in a year's time."-New Orleans Times-

Look Out For Your Pate.

A contemporary says "pate" is slang for head. It is, eh? Wherefore? Surely the word is used in a trivial or derogatory sense, as noddle, noggin, cranium, brainpan, etc., but its origin is eminently respectable. Shakespeare says "the learned pate ducks to the golden fool." Pope's epigram is good: You beat your pate and fancy wit will come; Knock as you please, there's nobody at

We have "bald pate" and "shave pate." Why, the word is used once in the Bible, and by David, in Psalm vii. 16, "His mischief shall return upon his own head, and his violent dealing shall come down upon his own pate." Accurately, pate does not mean the head, but the crown of the head .- New York

ROXBURY (Boston). MASS.

Treasurer Roxbury Household Economics.

12 Brookford Street. ROXBURY (BOSTON), MASS., Feb. 28, 1902.

I am pleased to add my testimony on behalf of your Wine of Cardui I cannot find language to express my full gratitude and joy over the fact that I am well once more. The wearing of corsets too tight seemed to have brought on an inter-abdominal pressure, weakening the ligaments and thus dragging the uterus down until I was not fit to walk and could hardly stand at times. My brain seemed clouded, weighing down the energies and gradually sapping the strength, weakening the heart's action, infecting and undermining the tissues. I gradually became so weak that I was unable to perform my household duties and passed a large part of each day in bed. What to do I knew not, no medicines nor any doctors were any help to me, until a neighbor advised me to try Wine of Cardui. Before the first bottle was used I felt so much better I hardly believed it was permanent, but my improvement went steadily on and within four months I was like a new and well woman once more.

While the improvement was gradual I felt it was permanent. The functional powers of my stomach first became greatly improved, the usual oppression, nausea and heart burn passed away, my appetite increased, the nervousness and headache passed away. My sleep became regular and restful and gradually from a weak, sickly woman I became a strong and healthy one. URING the winter many people visit California. Several desirable Routes-in fact, none better, are available via Fort Worth. For Los Angeles and points South, one makes good connections at Dalhart, Texas, with the Rock Island Route (a good way to Old Mexico, too) with firstgrade Eating Cars the entire trip, and with the Santa Fe System at Trinidad, Colorado. The time made by combining "THE DENVER ROAD" with either of these, surprises Investigators. For other California and Pacific Coast points Thru Colorado Service (which no other line has) may be enjoyed, with a choice of routes beyond, via Pueblo, Colorado Springs and Denver-and the Rockies are magnificent now. Remember, that Class A service which has nourished the "Only-One-Road"-and-"You-Don't-Have-To-Apologize" idea is no mere Summer Flirtation-"THE DENVER ROAD" makes good twelve months in the year.

President Waples' Speech.

President Paul Waples, the organization's first president, and an active member since the Board's inception, presided at the meeting. He briefly stated its purpose, that of electing seven directors, and in speaking of the GREAT ROCK ISLAND ROUTE SPE. Work devolving on the directors of the Board, called attention to the annual report of Secretary B .B. Paddock, recently published.

He spoke of the encouragement the directors received from a good attendance on called meetings. The board of directory, he said, was apt to get discouraged and despondent at times under the influence of adverse criticism, and the members of the board needed to have their hands held up by the members of the entire body.

Regarding the importance of an organization such as the Board of Trade, he said that there is no other way by which busines men with ideas for the advancement of the city's interests can communicate those ideas to the public and to the outside world. At the same time there is no other organization through which business men and firms on the outside can communicate to the city, than through the Board of Trade.

He called attention to the struggle for supremacy between the four leading cities of Texas, San Antonio, Houston, Dallas and Fort Worth, and By sending 13 miles Wm. Spirey of of the great necessity of the city's in-Walton Furnace, Vt., got a box of Buck- terests being continually advanced to

Some of these are as follows: Two cotton mills, one from Massachusetts, and a strong business institution; another cotton mill now located at Houston: two canning factories, one from Chicago and the other from Springfield: one woolen cloth factory of considerable repute among clothing manufacturers and an industry that would

prove important if secured. Mr. Paddock pointed out the slow ness of correspondence and the advantages that might be secured by personal visits which may be made possible if the Board's membership increases sufficiently to warrant the out-

During the evening cigars were passed and at the close of the ballotng, coffee, sandwiches and pickles were also served to the members present. The lunch gave opportunity for more speaking and at this time, G. W. Armstrong was called on by President Waples.

Suggests Important Plan.

Mr. Armstrong said that it had been the impression of many members at the beginning of the recent canvass, that a membership in the Board of Trade was a permanent thing, whereas it existed for but a year, and at the end the members might drop out if they so wished. He said he believed the Board ought to have some more permanent form of organization and suggested a plan now under consideration at houston.

OR TETTER Is one of the many varieties of that tor-

menting disease called Eczema. It slumbers through the summer and breaks out in winter. The head, feet and hands are the parts most often attacked, though it sometimes appears on other parts of the body, the skin hardens, cracks open and bleeds, while the itching and burning is at times almost unbearable. Scratching only makes it worse, sores and scabs PLAN TO at times almost unbearable. Scratching forming where the skin is broken.

In this form of Eczema brownish white crusts sometimes form which scale off SKIN CRACKS in fine particles, leaving the skin raw AND BLEEDS

and inflamed. It is especially painful and severe when confined to the hands, which often become so badly affected that the sufferer is unable to perform the lightest work. This, like all other types of Eczema, is due to acid poisons in the blood and not to local causes. The trouble is more than skin deep, and washes, soaps, powders and salves nor anything else applied to the surface can possibly do more than soothe the burning and itching or relieve tempo-

rarily the inflammation and pain. It is the acids thrown off by the blood and which are forcing their way through the pores that cause the skin to harden, crack and bleed, and produce the irritation and soreness. S. S. S. neutralizes these acid poisons

of all irritating substances and humors and does it promptly and effectually. and all signs of the Eczema disappear.

TO THE LADIES.

Freedom from aches, good general and special health and bodily vigor, tend to render you happy, contented and attractive—to make life worth living and fit you for pleasure or duty. What is the use of dragging through existence only half alive to its opportunities and enjoyments? Why do many of you do it? Is it because you think there is no cure? Then you are very much mistaken. Women are made much alike—all are subject to or liable to the same drains, pains, aches and nervousness. These ills come to many—may come to all. G. F. P. has cured thousands of them,

do so.

"I had suffered for a year and three bottles has restored my health entirely. Physicians and the many tenuale remedies used had no effect upon me whatever, but to G. F. P. I owe my life.
