FIGURES SHOW THAT THE COST OF PAVING HAS BEEN INCREASED

BUT WAGES ARE NOT MATERIALLY HIGHER

It Takes \$1.24 to Buy What \$1.00 Would Buy Then — "Prosperity," However, Has Wiped Out the Great Idle Population of That Time, to the General Good

WAGE EARNER WAS BETTER OFF IN 1896

WASHINGTON, Nov. 27. — Labor department officials estimate the increase in wages during the past year at 2 per cent. All available statistics show that the average wage earner lived better in 1896 than today. His wages were less, but the cost of living was considerably less. Since 1896 wages have increased about 12 per cent and the cost of necessities from 33 to 49 per cent.

It is believed the statistics now being collected will easily prove that wages are higher than at any time since the civil war, and also that the prices of living necessities are higher than at any time in the same period. The following table indicates the increase in wages during the past six years in certain lines of industry:

	Per cent.
Passenger conductors	15
Passenger engineers	10
Planers and sawyers	10
Bricklayers	11
Carpenters	8
Plumbers	7
House painters	7
Machinists	14
Comparative prices of certain food articles, using 100 per cent as a basis, are shown in the following:	
1896.	1901.
Hogs	78.6 124.5
Bacon	73.1 132.0
Hams	65.8 109.2
Lard	71.7 132.3
Mutton	82.9 89.3
Beef	88.3 116.6

LAW FOR SIAM

WASHINGTON, Nov. 27. — Within the past ten days a number of the important railroads of the country have increased the wages of about 700,000 employees 10 per cent because of the increased cost of living. Facts and figures gathered in this and other large cities of the country show that the cost of living throughout the Union has increased within the last four years more than 20 per cent. They establish the following propositions:

The wages in many industries and callings have not been increased. That the high prices brought about by the present "era of prosperity" have actually worked to the disadvantage of many persons.

That to equalize the purchasing power of a dollar on necessities of life four years ago, about \$1.24 is now required. That the one thing which makes better times for the people as a whole is the fact that "prosperity" has wiped out the idle population of four years ago, thereby increasing the wage-earning returns of the nation by nearly 40 per cent.

Compared with all other classes, the farmer has benefited more in proportion than the workman, or even the capitalist. Any persons in small communities have benefited more in proportion than persons in large communities.

The Railroad's Increase

Recent advances in wages of railroad men have caused rejoicing, but, in the aggregate, the population of the country will pay about \$195,000,000 more to the railroads during the next year than they did in the last, and the railroads will pay out of this sum about \$50,000,000 in extra wages to employees.

Salaries have not been raised generally to the great working population employed as clerks.

The immense number of women workers, with the exception of a few isolated cases, are receiving practically the same wages.

The increase of 24 per cent in price of living means that the same quantity and quality of the necessities of life which now cost \$1 could be purchased four years ago for 76 cents.

IN TEXAS

AUSTIN, Tex., Nov. 27. — Wages have advanced in the cities of Texas

from 5 to 15 per cent. On the farm the advance has not been as much, and in many instances no advance at all has been made. At the same time, food products have advanced from 10 to 300 per cent. For instance, butter is selling here for 30 cents in 1901, sold for 15 cents. Bacon advanced from 5 cents to 14 cents a pound in the same period. Beef and pork have gone from 5 to 15 cents a bushel, and corn meal from 40 cents a bushel to 80 cents a bushel in the same time. Cost of farming implements unchanged. Prices received by farmers for products are as follows: Corn, per bushel in 1897, 35¢; in 1902, 50¢; hay, per ton, in 1897, \$3.50; in 1902, \$5.00; cottonseed meal, per ton, \$14; in 1902, \$22; hulla, per ton, \$4; in 1902, \$7.50.

RICH MAN IN TROUBLE FOR DEFAULTED TAXES

ROBBERS OF COLORADO SOUTHERN NOT FOUND

IN HOT PURSUIT OF RINGLEADER LA CROIX. The Dead Bardit's Wife Talks at the Inquest.

TRINIDAD, Col., Nov. 27. — There are no new developments in the Colorado and Southern holdup. Special Detective Reno and seven deputies are in the vicinity of Texline and Clayton in New Mexico, where it was reported that Guy La Croix had been seen. No word has been received from the posse in pursuit, and as they did not return when expected it is the supposition that they are on the trail of the bandit.

AN ATTACK ON DUTCH TROOPS

BARGE IN RIVER IN SUMATRA SUNK WITH 45 ON BOARD. THE HAGUE, Nov. 27. — A dispatch from Achin, Sumatra, announces that Lieut. Debel and forty-five Dutch troops on board a barge on a river in the interior were recently attacked by a band of Achinese, with the result that the barge sank and the lieutenant and twenty men were drowned.

The Missouri Pacific Secures an Outlet to the Western Ocean and the Orient Gets Concessions Into Eastern Territory—Thus the Two Lines Are Made Practically Impregnable.

(By Associated Press.) NEW YORK, Nov. 27. — Missouri Pacific and Kansas City, Mexico and Orient Railway system, according to a well defined report, have perfected a long time alliance for inter-traffic purposes.

By this alliance the Missouri Pacific and Gould interests get a Pacific outlet while the Orient or Stillwell interests get concessions into eastern territory. Gould has been elected a director of the Orient railroad.

ARE GUARDING HORN FROM HIS ENEMIES

Officers Fear Poisoning Will Be Attempted to Prevent Confession By Condemned Man.

CLAY, Wyo., Nov. 27. — The county authorities are using every precaution to guard Horn from any attempt to poison him. They are apprehensive that an attempt of this kind will be made, and every particle of food put into his mouth is subjected to a minute examination before it is allowed to pass into the hands of the prisoner. It is briefly hinted that a confession by Horn is feared by his co-conspirators, and that it is not improbable an attempt will be made to insure silence by putting Horn out of the way before he can go to the gallows.

LUMBER MAY ADVANCE IN PRICE NEXT MONTH

At the dawn of an extensive building season in Fort Worth comes the rumor that the price of lumber will be raised within the next month. The advance in price will, if the rumor is true, be an even dollar on every thousand feet of lumber. At present lumber is retailing at prices ranging from \$16 to \$18 per thousand feet, and many local dealers receive the standard market price of \$18. Should this predicted advance become a reality the citizens of Fort Worth who contemplate building next season will experience a material difficulty in the matter of price for the yellow pine which is the lumber that will be principally used in the buildings which will be erected.

The yellow pine forests are not a great distance away from Fort Worth and the advance in price cannot be laid to the door of the railroads for freight charges in hauling it to the local markets.

The principal reason given for the advance is that there is no stock on hand and the coming season, which will be an extraordinary one, has prompted the sawmill interests to prepare for an emergency. Lumber dealer in speaking of the situation yesterday was not inclined to give much credence to the rumor, although he had personal knowledge that there are many new buildings under contemplation for this city next spring, and considering the demand will be greater than former seasons, the possibility of such being a fact, is plausible. Should such an advance become assured the local dealers have a good supply of stock on hand in fact more than usual, and the season can be well started and the demand supplied for awhile.

STREET CAR DOWN A HILL

COLLIDES WITH ANOTHER AT THE BOTTOM

THE FATALITIES ARE TWO

Runaway Car Was Telescoped While the Other Attempted to Run Into a Drug Store Nearby, but Was Prevented by an Iron Post—Six Seriously Hurt.

(By Associated Press.) DES MOINES, Ia., Nov. 27. — Two persons were fatally injured and six seriously hurt by a street car collision on Sixth street this morning. The car got away at the top of the hill and crashed into another at the foot of the incline.

Runaway car was telescoped and the second car darted into the entrance of a drug store, but was stopped by an iron post.

The body of Mrs. Frawley was found under the stove. The fatally injured are Mrs. J. H. Frawley, crushed internally; Helen Frawley, aged ten, spine crushed. Seriously injured Mrs. J. J. Fox, P. P. West, motorman, Klein, unknown boy, James J. Kirkwood, Justice Shano.

SNOW FALLING IN SOUTHERN STATES

(By Associated Press.) CHATTANOOGA, Nov. 27. — Snow fell here early this morning. A fall of two inches is reported on Lookout mountain.

(By Associated Press.) BIRMINGHAM, Ala., Nov. 27. — The first snow of the season fell this morning, and at 11 o'clock it was still coming down.

STARTLING FRAUDS ALLEGED IN ENTRY OF PUBLIC LANDS.

Said to Oppose Union of Oklahoma and Indian Territories.

(Special to The Telegram.) NEWKIRK, O. T., Nov. 27. — M. Moxey, president of the First National bank at Shawnee, O. T., and a leading Democrat of this section, called on Senator J. K. Jones of Arkansas, in Washington a few days ago and discussed the Oklahoma statehood proposition.

"The Democrats of Oklahoma want statehood with the Indian Territory annexed," said Mr. Moxey.

"But the Democrats in congress want two states there," responded Jones. "The Oklahoma Democrats here made a mistake in asking for one state instead of two."

TRIES TO KILL HIS WIFE AND DAUGHTER

Mourning in East Tennessee Shoots Both and Then Turns Shotgun on Himself.

(By Associated Press.) SMITHVILLE, Tenn., Nov. 27. — In Hancock county in the mountains of upper East Tennessee Richard Green perhaps fatally shot his wife and daughter in an attempt to kill them. He then shot and killed himself, using a shotgun.

In the plan of self destruction he pulled off his shoes and used his big toe to pull the trigger. Jealousy or insanity is believed to have prompted the deed.

GERMAN CRUISERS SENT TO VENEZUELA

(By Associated Press.) BERLIN, Nov. 27. — Three additional cruisers, the Niobe, Ariadne and Amazon, have been ordered to leave Kiel and proceed to Venezuela. They sail the moment they can be fitted up.

THE VOLUNTEERS GIVE THANKSGIVING DINNER

Are Serving the Poor and Hungry of the City in a Store Room at 12 1/2 Main Street.

The Christian Volunteers are enabling the poor of the city of Fort Worth to secure a delicious dinner today and are bringing to their minds the significance of Thanksgiving. A large store room at 12 1/2 Main street is the scene of their efforts. Estimates for 500 people are being served by the corps of ladies under the supervision of Colonel and Mrs. J. Mayfield.

The first table was set at noon, and at that time when many were assembled at the board services were conducted by Colonel Mayfield. All afternoon and until tonight at supper, everyone who enters the hall will be accommodated with a substantial meal.

COUNTY PRISONERS HAVE TURKEY FOR DINNER

Sheriff Henca Provides His Seventy Boarders With a Thanksgiving Feast Today—An Even Dozen Devoured.

Sheriff Henca today "set 'em up" to turkey dinner, and had each of his seventy odd prisoners served with an ample supply of all that properly goes with it—such as cranberry sauce, celery, pickles, "stuffin", coffee and light bread.

Mr. Henca had a friend from the country bring him in an even dozen fine fowls, and employed a couple of assistant chefs to help prepare them. He figured that six prisoners to a gobble would be about the proper division.

DIVINE SERVICES ARE HELD TODAY

CONFESSION OF THANKSGIVING IN CHURCHES TODAY

MANY ARE IN ATTENDANCE

A Bright Morning Permits Many to Leave Their Homes and Enjoy the Annual Religious Observance of the Anniversary—Some of the Sermons.

The great day in Christendom, the day when spiritual thanks are offered for success in life and sacred devotion and prayers for a continuation of the same for the ensuing year, was observed in the churches of Fort Worth this morning.

Tonight at the Broadway Baptist church there will be an innovation in the regular Thanksgiving service, for the pastor, Rev. Gilson, has made such a plan whereby all workmen of the city who have worked all day may find time to attend services this evening. There will be special music tonight.

At Trinity Church. At the Trinity Episcopal church to-night at 8 o'clock, there will be the regular Thanksgiving service in addition to their special musical program arranged as follows:

Trinity church, corner Hemphill and Pennsylvania avenue, November 27, 1902, at 8 p. m.

Choral Evening Prayer. Processional, "Come, Ye Thankful People, Come." Elvy Chant, "O, Praise the Lord." T. S. Dupuis

Magnificat and Nunc Dimittis. Baker Anthem, "O, Lord How Manifold."

Hymn, "Lord of the Harvest." These We Hail. Burrwell Offertory, "Praise God." Old Hundred Hymn, "To Thee, O, Lord, Our Hearts We Raise." Sullivan Sevenfold Amen. Stainer Recessional, "Praise to God, Immortal Praise." Kocher

This morning in the various churches of the city all services were well attended. Rev. Dr. J. E. French delivered an interesting sermon at the Broadway Presbyterian. There was special music, and W. G. Armstrong rendered a vocal solo. Offerings were for the Free Kindergarten and Fort Worth Benevolent Home.

At the First Presbyterian church Pastor Charles Hyde spoke of the essentiality of Thanksgiving and of the spiritual good derived from the religious adherence to its principles. Charitable offerings were taken up. The service at the First Baptist church began at 10:30 o'clock, and Rev. Luther Little preached. An offering for the Benevolent Home was taken. There were special Thanksgiving services at the First Methodist church and Rev. R. C. Armstrong delivered the sermon.

At the services at the St. Paul's M. E. church, Rev. J. E. Boeve took for his theme "The Place of the United States in the World's Education." A collection was taken up and the proceeds are to go to charitable causes.

In connection with the special service at the St. Andrew's Parish House the Harvest Home service was also held. At the latter service contributions of eatables of various kinds were offered to God and in the afternoon were distributed among the poor in the city.

MARKETS BY WIRE

There are no market prices today, owing to the fact that Thanksgiving is being observed as a holiday in the various market center of the country.

DAUGHTERS TO MEET TOMORROW AFTERNOON

The Last Meeting Prior to the State Session to Be Held Here Next Week

The Daughters of the Confederacy will meet at the court house at 3 p. m. tomorrow. This will be the last meeting before the state session convenes here next Tuesday, and it is earnestly hoped that every member will be present. All committees are requested to make report of work done.

The meeting tomorrow will be an important one, as much remains to be done in order to be ready for receiving the visitors from over the state and carrying out the program of the three days' session.

"CANADA BILL" HAD A BAD FALL YESTERDAY

Rolled Down a Flight of Stairs Bruising Himself in a Painful Manner—He'll Get Over It

"No, I have not been refereeing a badger fight—but you ought to see the other fellow," explained "Canada Bill" Heffner, the invalid fireman who makes his headquarters at central station this morning when a Telegram reporter looked inquiringly at his face. Bill's face and head came under the "holy horrors" list. They are frightful to behold. When he laughs you'd think he was crying, and when he cries you'd swear he was laughing.

It all came about in this way. One-half of Bill is paralyzed. He calls it his "flat wheel." Yesterday he called on his friend Ederle at the cigar factory, up-stairs over the Interurban offices, and when he started down he fell from the top step to the sidewalk. He was frightfully bruised up—as his face will attest.

OTHERS ARE INTERESTED IN COMING OF REV. RILEY

Dallas Pastors Congratulate Rev. Luther Little in Securing Distinguished Speaker.

The series of revival meetings which are to begin at the First Baptist church next Sunday is being looked forward to by the members with increasing interest.

Rev. W. E. Riley of Minneapolis is a strong preacher and will be an attraction to many outside the membership.

A message from Rev. Geo. W. Truitt, pastor of the First Baptist church of Dallas, is as follows:

Dear Luther Little—I congratulate you in securing Riley. He is a charming man—a tremendous man. He has one of the best organized churches in America. I expect to begin a meeting in my own church next Sunday and I want Dr. Riley to preach for my church at least once before he returns home. Geo. W. Truitt.

A message from Rev. Travis of Dallas, says: Dear Little—I worked by Riley's side for four years. You could not have gotten a better man. I am coming over to hear him. ours, Travis.

DID A HALF DAY STUNT IN THE R. M. S.

Railway Mail Service Employees in Superintendent's Office Took a Half Day Off Today.

"Call up this afternoon—and we won't be in," chimed out a half dozen voices in Superintendent Gaines' office this morning when a Telegram reporter butted in for "his usual."

Another young man who was pounding the keyboard of a typewriter for dear life, piped out, "We used to be like you—and have to work for a living."

It was learned also that Mr. Berger, chief of the printing department, was off on a vacation, and that his assistant, Harry Pidcoe, was ill—hence the weekly general order had not been printed.

Superintendent Gaines is doing a turn about Washington City and has been absent a week or ten days.

TEXAS BAPTISTS ARE WELL FIXED

AT ANY RATE ARE LIBERAL IN MISSIONARY MATTERS.

\$135,000 FUND SET ASIDE

And a Good Fat Reserve Fund for Future Appropriations—Board of Directors of Texas' General Convention, in Session at Dallas Yesterday Afternoon.

Texas Baptists appear to be pretty well fixed in this world's goods as well as in a spiritual way. The board of directors of the Baptist general convention which has been in session at Dallas during the week adjourned yesterday afternoon after appointing a large number of missionaries and making an appropriation of \$50,000 for state missions. Twenty-five thousand dollars was reserved for appropriation at another time.

The work of this church the coming year is to be upon the following basis: \$25,000 for home missions, \$25,000 for foreign missions, \$75,000 for state missions, \$10,000 for a church building fund, a total of \$135,000.

BRAIN WORK.

Its Effect Upon the Body and the Kind of Food It Demands.

The changes of tissue in the brain that take place during study and thought are very important and very rapid. It has been estimated that three hours of brain work cause as great an exhaustion of the forces of the body as an entire day of manual labor.

This waste must be replaced by abundant food, but its selection requires careful consideration and often self denial, for many things which the physical worker can eat with perfect impunity are slow poison to the brain worker, who exercises the brain at the expense of the body and rarely gives the latter sufficient exercise to counteract the mental strain and keep it in condition to resist disease. Bear in mind that, while the waste of the body is much more rapid, the deprivation of physical exercise encourages torpidity of the voluntary functions and renders them sluggish in eliminating these wastes; therefore it is of the utmost importance that the tasks imposed upon them should be light.

Brain workers require the most concentrated and easily digested foods. They should eat fresh beef and mutton, fish, eggs—cooked in many forms, but never hard boiled or fried—oysters and crisp salads, lettuce, celery, tomatoes, watercress, etc., with mayonnaise or French dressing. They should begin the day with fruit and make it form the principal part of luncheon and be very sparing in their use of cereals, eschewing entirely white bread and oatmeal. Their ideal luncheon, which must be light if they continue to work in the afternoon, is a glass of milk or cup of hot chocolate or, better still, a glass of fresh buttermilk, with two or three Graham wafers or a bit of toast and some fruit, an apple, figs or an orange.

THE MILKY WAY.

A System Which Gives Us a Vague Idea of the Eternity of Space.

The Milky Way, the grandest feature of the "firmament which bends above us," the hazy path which so majestically bands the whole fabric of the skies together, is now known to be composed of a grand aggregation of at least 18,000,000 suns, each as large as or larger than that which makes vegetable and animal life an earthly possibility. One is apt when allowing the mind to revert to the contemplation of these misty and indistinct astronomical subjects to measure their magnitude or attempt to measure it by making terrestrial comparisons.

It is obvious, however, upon more mature reflection that such comparisons are worse than "odious." The bulk of our sun exceeds that of the earth 1,200,000 times, being 600 times greater than that of the bulk of his whole train of planets taken collectively. This being the case, what basis can we use for calculating the magnitude of 18,000,000 suns, each, as I have said before, probably larger than that which gives us heat and light?

The infinite number of suns which, taken together, make up the Milky Way are not set at a uniform distance from our earth or even from our sun. In fact, they appear to work altogether independently of either this mundane sphere or our "glorious orb or day." The majority of them are planted at a distance too remote to be even imperfectly measured or understood. Some of them are so near (?) that light, which travels at the rate of 185,000 miles per second, would cross the distance between us and them in the period of about an even ten years. Others, however, are so remote that it would take a full thousand years for their light to reach us.

A Curious State of Affairs.

You must be very cautious how you treat your neighbor in Isle of Jersey, for he can have you arrested on the slightest pretext and if he has a grudge against you can bring about such a calamity by simply giving a fictional account of your misconduct to the nearest lawyer. The latter will demand a fine, and should you decline to pay it he will cause you to be thrown into prison to await trial. Then, even if you are acquitted on the ground that the charge is unfounded, you have absolutely no claim against your persecutor, though you may have suffered a couple of months' imprisonment for nothing.—London Tit-Bits.

NEW DIRECTORS HOLD MEETING

SESSION OF BOARD OF TRADE OFFICIALS HELD YESTERDAY.

WILL PREPARE A PAMPHLET

Fort Worth's Advantages to Be Set Forth—J. W. Spencer is Elected President for Ensuing Year and Captain B. B. Paddock is Re-Elected Secretary.

At a meeting of the directors of the Fort Worth Board of Trade held yesterday afternoon at 4 o'clock, the following officers were elected for the ensuing year:

J. W. Spencer, president.

Jake Washer, first vice president.

Marion Sansom, second vice president.

B. B. Paddock, secretary.

W. B. Harrison, treasurer.

The election of Mr. Spencer as president was done at the earnest request of ex-President Paul Waples, who desired to be relieved from the duties attached for this year. Jake Washer succeeds Dr. J. L. Cooper as first vice president.

The re-election of Captain B. B. Paddock as secretary was in recognition of his efficient work during the past year, and a recognition of the fact that there is no other member of the Board who can fill the office of secretary so well.

Other matters disposed of included the appointment of a committee composed of B. B. Paddock, Jake Washer and W. B. Harrison whose duty it shall be to prepare and issue a descriptive, illustrated pamphlet setting forth the advantages of Fort Worth for advertising the city.

The secretary was instructed to learn the time when the International and Great Northern will open its line for traffic to this city in order that suitable arrangements for welcoming the officials may be made.

The matter of navigation of the Trinity was discussed and Congressman-elect O. W. Gillespie will be invited to attend the next meeting for the purpose of discussing the matter more fully and becoming familiar with the attitude of the Board on the subject that is agitating Dallas.

CHLORIDE OF LIME EATS BODY

James E. McRady's Remains Sent Through to Louisville, Ky.

The body of the late James McRady who was killed in the Fort Worth and Denver City wreck near Carlyle Station Tuesday morning, was brought through this city and shipped to Louisville, Ky., the deceased man's former home. Details of the wreck show that McRady was killed in the collision as stated in The Telegram, and that his body was partially destroyed by chloride of lime, a carload of which was in the train. Mrs. McRady was in the city last night, having come here from Louisville.

DENVER'S MAYOR WAS AT AMARILLO, TEXAS

Living Fashionably There, at the Best Hotel and Having a Good Time—Will Go Home This Week

A well known live stock commission man of this city who came in from Amarillo last night said today: "Had I wanted to do so I could have turned up" Denver's mayor. He has been at Amarillo, living fashionably, in the best hotel in the city. Mayor Wright is a fine fellow. This applies to him personally. I know nothing of the causes which took him so hurriedly away from Denver save only what the papers have exploited—to get away from some injunctive proposition connected with his administration. The people of Amarillo enjoyed his stay very much, and made it pleasant for him.

The mayor is, or at least has been, gunning. His success has been not the best. He promised to ship certain game to Denver in the event of abnormal success, but not a slice of venison has he sent. He will return to Denver this week, at least he was figuring on doing so. I understood that great interest is manifested by Denver city hall officials as to the outcome of the injunction. Should the mayor be arrested, which is almost inevitable, there will be a ready bond furnished for his appearance.

"It is said that the mayor is in constant communication with Republican leaders in Denver."

RACES AT PROSPECT PARK.

Drawing a Good Crowd to the Mile Track This Afternoon.

A number of good racing events are drawing a crowd of visitors to the Prospect Driving Park track north of the court house this afternoon. The recent winds have dried the track till it is in fair shape. The events scheduled for this afternoon are as follows:

VOLCANO IS STILL ACTIVE

SANTA MARIA KEEPS GUATEMALA IN DISTURBANCE

SPOUTS ASHES AND SMOKE

The City of Quezaltenango Visited By Ruin—Natives Making Their Way to the Sea Coast and Leaving the Country By Steamers Southward—Ruin for Ranchers

Santa Maria, Nov. 27.—The volcano Santa Maria was in violent eruption when the Pacific Mail steamer City of Panama, which arrived here Wednesday, left there nine days ago. While the steamer lay at Champerico the mountain, far away, was spouting ashes, smoke and pumice stone...

The city of Quezaltenango has been visited by ruin. Quezaltenango is located at the base of Santa Maria, on the eastern slope, and no fears have heretofore been entertained for the town's safety. All the damage reported has been on the western side, reaching from the mountains to the seashore, thirty miles away.

Natives are making their way to the seashore and proceeding south by steamer. From the officers of the City of Panama it was learned that some of the planters are of the opinion that the ashes may be beneficial to the soil and that the damage to ranches may be only temporary.

Absolute ruin stares many ranchers in the face, and the livelihood of thousands of natives for many months to come has been cut off by the destructive work of the volcano, and the work of rehabilitating the farms will probably be that of other lands than the present owners, for so great has been the damage that the majority of planters may never recover from their losses.

Violent Eruption. Kingstown, St. Vincent, Nov. 27.—A violent eruption of La Soufriere, the fifth high outburst since the catastrophe of May 12, has taken place. Georgetown and the village of Chateaubelair, situated on the west coast of St. Vincent, were again evacuated by their inhabitants.

EL PASO INSURANCE FRAUDS IN THE COURTS

Sensational Evidence Brought Out in the Hearing in Case of Richardson and Mason

El Paso, Tex., Nov. 27.—At the trial of Richardson and Mason, accused of insurance frauds, Wednesday, Dr. C. S. Harle, the examiner of the New York Life Insurance company at Chihuahua, Mexico, and formerly of this city, testified concerning the deaths of James Devers and Harry Mitchell.

The doctor described the sufferings of James Devers, and said Richardson went when he saw the man's agony. Devers was insured for \$10,000.

CHARGED WITH THE MURDER OF HIS WIFE

Texarkana, Ark., Nov. 27.—E. L. Weigel, one of the principals in Tuesday night's tragedy, was arrested here Wednesday charged with the murder of his wife. Weigel was found in a room at the Cosmopolitan hotel suffering from wounds inflicted by a razor and the dead body of Mrs. Weigel lay beside him, her throat cut from ear to ear.

Mrs. Weigel's body was shipped to Anniston's Ala., where she was married on Friday to Weigel. The body is being accompanied by W. E. Quinn, brother of Mrs. Weigel, who arrived here Wednesday from Shreveport. An autopsy showed, in addition to the gashes at the throat, a small knife wound on the left side, piercing the heart. Weigel is being guarded by the officers.

SAW AND TALKED WITH PRESIDENT ROOSEVELT

Members of the British Labor Commission Call Upon the Executive at the White House

Washington, Nov. 27.—President Roosevelt received Wednesday the members of the British labor commission, who are making a tour of the United States as the guests of Alfred Morley, the British philanthropist. After greeting the members of the party the president said:

"I am delighted to have the pleasure of meeting you gentlemen and Mr. Marks. I have had communication with Mr. Marks on more than one occasion leading up to the coal strike. Naturally, I like any man who has anything to do with public affairs. I not only take, but am bound to take the very deepest interest in all the manifold social problems which include as one section of them what we group together as the labor problem. More and more as our modern industrial progress goes on, there is a tendency to work in federation or combination, both among employers and among employees, in corporations and in unions, and, of course, gentlemen, the reasons why I take a very great interest in these combinations is the very fact that by their power they have such great possibilities for good—which necessarily implies that they have also great possibilities for evil."

Whether you wish them or not, it is idle in my opinion to protest against the inevitable tendency of the times toward both corporation and union. It is worse folly to take exceptions to either corporation or union as such. The line should be drawn on conduct. "I greet you with all heartiness and am delighted to see you."

ARE YOUR KIDNEYS WEAK?

Thousands Have Kidney Trouble and Never Suspect

To Prove What the Great Kidney Remedy, Swamp-Root, Will Do for YOU, Every Reader of The Telegram May Have a Sample Bottle Sent Absolutely Free by Mail.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs. The kidneys filter and purify the blood...

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected, and how every organ seems to fail to do its duty. If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health.

A trial will convince anyone. Weak and unhealthy kidneys are responsible for many kinds of diseases, and if permitted to continue much suffering with fatal results are sure to follow. Kidney trouble irritates the nerves, makes you dizzy, restless, sleepless, and irritable. Makes you pass water often during the day and obliges you to get up many times during the night.

Unhealthy kidneys cause rheumatism, gravel, catarrh of the bladder, pain or dull ache in the back, joints and muscles; make your head ache and back ache, causes indigestion, stomach and liver trouble, you get a sallow, yellow complexion, makes you feel as though you had heart trouble; you may have plenty of ambition, but no strength; get weak and waste away.

The cure for these troubles is Dr. Kilmer's Swamp-Root, the world-famous kidney remedy. In taking Swamp-Root you afford natural help to nature, for Swamp-Root is the most perfect healer and gentle aid to the kidneys that is known to medical science.

If there is any doubt in your mind as to your condition, take from your urine on rising about four ounces, place it in a glass or bottle and let it stand twenty-four hours. If on examination it is milky or cloudy, if there is a brick-dust settling, or if small particles float about in it, your kidneys are in need of immediate attention.

Swamp-Root is pleasant to take and is used in the leading hospitals, recommended by physicians in their private practice, and is taken by doctors themselves who have kidney ailments, because they recognize in it the greatest and most successful remedy for kidney, liver and bladder troubles.

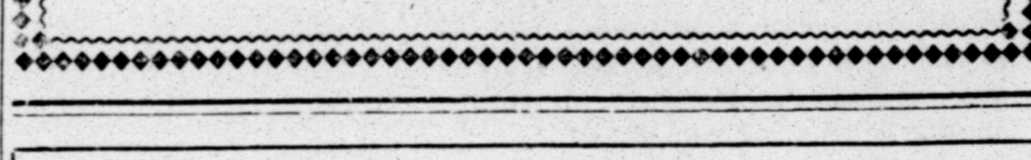

If you are already convinced that Swamp-Root is what you need, you can purchase the regular fifty-cent and one-dollar bottles at the drug stores everywhere. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address Binghamton, N. Y., on every bottle.

EDITORIAL NOTE—You may have a sample bottle of this wonderful remedy Swamp-Root, sent absolutely free by mail, also a book telling all about Swamp-Root, and containing many of the thousands upon thousands of testimonial letters received from men and women who owe their good health, in fact their very lives, to the great curative properties of Swamp-Root. In writing to Dr. Kilmer & Co., Binghamton, N. Y., be sure to say you read this generous offer in the Fort Worth Daily Telegram.

A KNOXVILLE MAN KNEW MRS. MOLINEUX

She Was Esteemed as an Ideal Christian Woman - Knew the Entire Family at Knoxville, Tenn. A gentleman visiting in Fort Worth from Knoxville, Tenn., remarked to The Telegram reporter today that the Molineux case had a Knoxville end, said he: "For several years Mrs. Roland B. Molineux, who is now in Sioux Falls, S. D., for the purpose of securing a divorce, was a resident of Knoxville. She came there with her father and mother and sister, Lora Chesborough. I knew them all well. They resided in one of the best residence districts of the city. They were possessed of apparently unlimited means and were popular with the very best people of the city.

A Violent Attack of Croup Cured. "Last winter an infant child of mine had croup in a violent form," says Elder John W. Rogers, a Christian Evangelist, of Filley, Mo. "I gave her a few doses of Chamberlain's Cough Remedy and in a short time all danger was past and the child recovered." This remedy not only cures croup, but when given as soon as the first symptoms appear, will prevent the attack. It contains no opium or other harmful substance and may be given as confidently to a baby as to an adult. For sale by N. E. Grammer, druggist.

One Minute Cough Cure Is the only harmless cough cure that gives quick relief. Cures coughs, colds, croup, bronchitis, whooping cough, pneumonia, asthma, lagripps and all throat, chest and lung troubles. If got soaked by rain, says Gertrude E. CRESCENT CITY'S OPENING DAY

WINTER RACING AT NEW ORLEANS IS BEGUN

THE FASHIONABLES ARE OUT

The Opening Day Made the Occasion For a Display by Society — Many Ladies, Handsomely Gowned, and Stylish Equipages at the Track — The Biggest Meeting Ever Held

(Special to The Telegram) NEW ORLEANS, La., Nov. 27. — This is the opening day of the winter racing season of the Crescent Jockey club. An immense crowd of fashionable and unfashionable folks are present at the track at the beginning of the afternoon. It has been made an occasion for society and notable folks from all over the South are present. Ladies are out in full force and their gay attire adds to the beauty and color of the scene. Handsome carriages and turn-outs of all descriptions are seen everywhere. The grandstand and other buildings have been enlarged and renovated and the track itself greatly improved. Over 1,200 horses are already stabled on the grounds and the arrivals tonight and tomorrow will augment the number considerably. The class of animals is much superior to that usually seen here in the winter. All of the great Western stables are represented and most of the prominent Eastern turfmen have sent drafts from their string.

The riding talent is the best seen here in years, all of the most prominent jockeys of the East and West being scheduled to appear. The number of books in the ring are considerably larger than usual and all of the large operators are represented. The track is a little slow though the new top dressing laid during the summer dries very quickly. The superintendent and his forces have been working energetically to have it in the best condition possible.

SURE CURE FOR A CANCEROUS GROWTH

Said to Have Been Discovered by an Illinois Physician — A Man Talks Who Knows Him

"I see that Dr. Floyd Clendenin of LaSalle, Ill., has started the medical fraternity with the announcement that he has discovered a positive remedy for cancerous growths of all nature," said a Quincy, Ill., traveling man last night. "I know Dr. Clendenin intimately and I have been expecting him to make just such an announcement for years. I have heard him discuss the fact that when a boy he remembered having seen his uncle, a farmer living near Charleston, W. Va., curing cancerous growths with a plaster made up of vegetable ingredients, which he obtained from an Indian."

Dr. Clendenin secured the formula from his uncle. Aided by a knowledge of chemistry and medicines, Dr. Clendenin and his brother, Dr. George Clendenin, have studied and experimented for sixteen years in an endeavor to perfect a remedy that would effect a positive cure. "They finally made what they claim to be a plaster that would destroy the germ without effecting the sound tissues. Then dissolving the ingredients of the plaster, the solution was hypodermically injected with even greater success. During the last ten years Dr. Clendenin has successfully treated 196 out of 200 patients afflicted with the disease. Medical journals and authorities have sought for years to have Dr. Clendenin exploit the remedy. I hope he will make it a go."

Prescription No. 2851 by Eimer & Amend, will not cure all complaints, but it will cure rheumatism. F. F. Rohmidt, Houston, Texas, sole agent.

PLAN OF THE FRISCO IN THE TERRITORIES

Two Extensions Are Reported, One Reasonable, the Other Much Less So. A dispatch from Guthrie, Okla. T. states the latest plans of the Frisco show that the Denver, Enid and Gulf Line, now being completed from Enid to Guthrie, will be extended to Coalgate, I. T., a distance of 125 miles. The plans also show, says the dispatch, that the Arkansas and Choctaw, recently purchased by the Frisco, will be extended from Ardmore to Waurika, sixty miles, and thence to Vernon, Texas.

As to the latter report, there is ground for acceptance. A line from Ardmore to Vernon, Texas, would pass through the lower ends of both territories through a good region, in fact the Red River valley, almost the entire distance. The Frisco has already under construction an extension from O'Keene, Oklahoma, south to Vernon, Texas, which is on the line of the Fort Worth and Denver, and the connector of the two extensions would give it a foothold in the territories unequalled by that of any railroad now entering that country.

As to the first report, that of extending the Denver, Enid and Gulf line to Coalgate, such a line would enter the territory which will be opened up by the Missouri, Kansas and Texas extension from Coalgate to Oklahoma City. As the strip on either side of this Katy extension does not extend more than twenty miles before being bounded either by the Choctaw, Oklahoma and Gulf, or the Santa Fe, a fourth railroad would be operated at a loss as the country is not yet enough settled to stand for it.

The Frisco has lately come to the attention of "rumored railroad" builders, the Rock Island having been temporarily disposed of. Rumors concerning the Frisco for the next few weeks, can therefore be taken with a grain of salt.

ROCK ISLAND MAKES RATE

Announces One Fare Holiday Schedule to Points on its Line in State

The Rock Island is the first Texas line, announcing a rate of one fare round trip to any point on its line within 200 miles of selling station on Chicago, Rock Island and Texas railway. Dates of sale for this low rate are December 23, 24, 25, 26, 31 and January 1, final limit, January 3, 1903. The Santa Fe recently announced the rate of one fare round trip for points within 100 miles, on the main line, but the rate of the Rock Island is the lowest that has yet been made in Fort Worth.

Other rates announced in a circular issued yesterday by W. H. Firth, general passenger and ticket agent, are convention rates for round trip tickets to points on other lines in Texas, dates of sale being December 23, 24, 25, 26, 31 and January 1, with final limit, January 3, 1903.

Excursion rate arrangements to points in the southeast, limited by the boundary lines recently given in The Telegram, and to the northern states mentioned at the same time, are also announced.

HUNTERS FROM TEXAS AND OTHER STATES AND TERRITORIES

BETTER KEEP OFF GRASS

Some Oklahoma Officials and Business Men in Trouble in Creek Nation — Their Goods and Chattels Confiscated — A Word to The Wise And Otherwise

A gentleman in the city from Guthrie, Oklahoma, today gives out a bit of information which it would be well for prospective hunters who have any of the Indian nations on their program to heed. He said that yesterday telegrams were received at Guthrie by Chief Justice Burford, United States Marshal Fossett and United States Attorney Speed, imploring their assistance in securing the release from the federal officer in the Creek Nation of the guns, ammunition and supplies of a party of Guthrie hunters, who went to that country recently on a Thanksgiving hunt. The laws of the Indian nations forbid hunting by outsiders, and therefore the supplies, amounting to several hundred dollars, were confiscated by the authorities.

In the party are Major N. D. McGinley, City Clerk George Sandbach, Emil Ritterbusch and W. B. Wheeler, the two latter being merchants.

MANY RATES ARE ANNOUNCED

Cotton Belt Has Bunch of Special Inducements to Passenger Traffic. The following reduced rates are announced by W. H. Weeks, general passenger and ticket agent of the Cotton Belt:

North Texas Medical association, Dallas, December 9 to 11. Rate, per convention excursion circular No. 1; date of sale, December 9 and 10; limit, December 12.

Street Fair and Carnival, Athens, Ga., per excursion rate circular, No. 1, applying from Jacksonville to Corsicana, inclusive; dates of sale, December 2, 3, and 4; limit, December 7.

State Superintendents and Teachers' association, Austin, December 29 to 31. Concession agents may sell tickets as follows: Rate, per convention circular No. 1; dates of sale, December 28 and 29; limit, January 1.

Railroad Notes and Personals. According to a Dallas paper, W. H. Firth, general passenger and ticket agent of the Rock Island stated in that city yesterday, the new ticket office there will be opened early in December.

It is reported from Kansas that the Rock Island system is negotiating for 10,000 new freight cars to be delivered in 1903. The Santa Fe is also trying to find some factory that will take an order for 3,000 freight cars, it is said.

The Missouri, Kansas and Texas has made excellent progress in the first quarter of the current fiscal year. A gain of \$269,000 gross earnings, \$202,000 net earnings and a surplus of \$4,323,920 at the close of the three months indicates that the road's development in the southwest is a paying proposition. At the same time the Katy is spending a great deal of money in equipment and repairs along its line.

Cured of Piles After Forty Years
Mr. C. Haney, of Geneva, Ohio, had the piles for forty years. Doctors and dollars could do him no lasting good. DeWitt's Witch Hazel Salve cured him permanently. Invaluable for cuts, burns, bruises, sprains, lacerations, eczema, tetter, salt rheum, and all other skin diseases. Look for the name DeWitt on the package — all others are cheap, worthless counterfeits.

THE CHILDREN ENJOY

Life out of doors and out of the games which they play and the enjoyment which they receive and the efforts which they make, comes the greater part of that healthful development which is so essential to their happiness when grown. When a laxative is needed the remedy which is given to them to cleanse and sweeten and strengthen the internal organs on which it acts, should be such as physicians would sanction, because its component parts are known to be wholesome and the remedy itself free from every objectionable quality. The one remedy which physicians and parents, well-informed, approve and recommend and which the little ones enjoy, because of its pleasant flavor, its gentle action and its beneficial effects, is—Syrup of Figs—and for the same reason it is the only laxative which should be used by fathers and mothers.

Syrup of Figs is the only remedy which acts gently, pleasantly and naturally without griping, irritating, or nauseating and which cleanses the system effectually, without producing that constipated habit which results from the use of the old-time cathartics and modern imitations, and against which the children should be so carefully guarded. If you would have them grow to manhood and womanhood, strong, healthy and happy, do not give them medicines, when medicines are not needed, and when nature needs assistance in the way of a laxative, give them only the simple, pleasant and gentle—Syrup of Figs.

Its quality is due not only to the excellence of the combination of the laxative principles of plants with pleasant aromatic syrups and juices, but also to our original method of manufacture and as you value the health of the little ones, do not accept any of the substitutes which unscrupulous dealers sometimes offer to increase their profits. The genuine article may be bought anywhere of all reliable druggists at fifty cents per bottle. Please to remember, the full name of the Company—**CALIFORNIA FIG SYRUP CO.**—is printed on the front of every package. In order to get its beneficial effects it is always necessary to buy the genuine only.

PEOPLES' PULPIT

Socialism.

As stated by you in Sunday's issue, the large vote in favor of the socialist resolutions by the confederation of labor at its national convention, and the increase of 500 per cent in the party vote since the last national election, causes alarm, or perhaps happy congratulations.

The theory of the socialist is either correct or incorrect; its principles either right or wrong; its ethics either moral or immoral, and its adoption will aid or retard Christianity and civilization.

Socialists claim that their theory of government ownership of the means of production applied to all the necessities of life will solve the trust problem; that their theory of government will abolish bribery and corruption by officials—that their theory applied to labor will abolish crime and poverty; that their theory of co-operation in production and distribution will destroy greed and selfishness and bring peace upon earth.

The battle of ballots between capital and labor is in the near future. The above are only signals on the picket line. O which side the masses of the people will stand must be determined each for himself. To vote for or against socialism without an honest conviction is the act of an enemy to one's fellow man. To refuse to examine and investigate the details of all questions presented to the people and to vote according to his unprejudiced judgment is the act of a traitor to his country.

If possible let us have a fair discussion through our papers of every phase of the subject, that each may know for himself his duty to his country and his fellow man.

A SOCIALIST.

Jumped On a Ten Penny Nail.
The little daughter of Mr. J. N. Powell jumped on an inverted rake made of ten penny nails and thrust one nail entirely through her foot and a second one half way through. Chamberlain's Pain Balm was promptly applied and five minutes later the pain had disappeared and no more suffering was experienced. In three days the child was wearing her shoe as usual and with absolutely no discomfort. Mr. Powell is a well known merchant of Forkland, Va. Pain Balm is an antiseptic and heals such injuries without maturation and in one-third the time required by the usual treatment. For sale by N. E. Grammer, druggist.

THANKSGIVING SOCIAL EVENTS ARE NUMEROUS

Germans and Balls Given By Different Clubs of the City Are Brilliant Affairs.

A brilliant social affair was given last night by the members of the Imperial Dancing club at the Hotel Worth, and the Fort Worth Commercial club members, in their hall on Sixth and Main streets...

The Fort Worth Commercial club german was led by Cal O. Elliott, and was followed by over thirty-five couples, and at midnight, during the intermission, lunch was served.

Another Thanksgiving german will be given this evening at the Hotel Worth by the members of the Yonidia club, and from present indications there will be a large number of visitors from nearby cities in attendance.

THANKSGIVING LUCK FOR CHRISTINE HUDSON

Christine Hudson, the charming young woman who won the favor and interest of Fort Worth theater-goers last week when she appeared in the leading part in "The Princess Calic," has just come into some good fortune for Thanksgiving day.

The way of it is this: A year or so ago Christine was a gay and lightsome Chicago belle, the only daughter of P. D. Hudson, the grain broker.

Then one cold day the Chicago grain broker went broke in one of those snow-slides that are so destructive of cereals generally.

Incidentally Father Hudson gives some figures of the sudden rise in buckwheat, or whatever is the reason that presages a joyful Thanksgiving all along in the Hudson family.

Hazeline" singing the part of Princess Calic so daintily was Christine Hudson, and that the old gentleman who had come all the way from Chicago to Toronto to see for himself how his daughter succeeded, had just had another turn of fortune—this time to the good.

That is only half the story. In the cast of the parts Walter Lawrence was elected to play the duke of Burgundy, the lover of the Princess Calic. He played the part to perfection and by the time Father Hudson arrived at Toronto daughter had lost her heart to the gallant duke and he showed signs of a frantic desire to place himself and his worldly expectations at the feet of the princess in real life as well as at rehearsal.

All this happened a couple of months ago. Since then the duke and princess have been married a hundred times on the stage—and once in Ohio. And father has just been told.

Now, on the day before Thanksgiving, at Denver, comes a letter from Chicago of the most approved "bless my-my-children" type.

Incidentally Father Hudson gives some figures of the sudden rise in buckwheat, or whatever is the reason that presages a joyful Thanksgiving all along in the Hudson family.

THING IS IN GOOD SHAPE

Recent Rains Did Some Little Damage But Results Are Not Serious and Do Not Prevent the Running of Construction Trains Over the Line.

A. L. Bowers, general superintendent of the transportation department of the International and Great North-western, has been in this city the past two days in his private car, "Construction Car No. 1," making short trips from here, however, over the newly constructed line.

Mr. Bowers said today regarding the work that about 350 men are engaged in surfacing the track between here and Venus.

The roadbed of the line between here and Waco will be ballasted with gravel except about fifteen miles near Italy, on which rock ballast has been used.

He stated that it is not known when trains will be commenced as it is desired to have everything in first-class shape before starting a regular schedule.

The construction crew erecting the telegraph line, has reached a point about twenty-two miles from this city. They are building at the rate of about one mile a day.

Mr. Bowers will go down over the new line from here tomorrow.
