The CASTRO COUNTY NEWS

42nd Year — No. 43 Dimmitt, Texas, Thursday, August 7, 1969 14 Pages

Water okayed 9-1 here

Castro Countians gave the Texas Water Plan amendment a whopping 9-1 endorsement Tuesday, but only 36 percent of the county's registered voters took the time to cast ballots.

THE TURNOUT — 1,082 of the county's 2,956 registered voters — was high for a constitutional amendments election. But the vote here and throughout the rest of West Texas apparently wasn't heavy enough to offset the number of downstate votes against the water plan.

At press time Wednesday morning, statewide returns from the Texas Election Bureau showed the water plan amendment — No. 2 on the ballot — trailing by 6,000 votes, 310,000 to 304,000, with approximately 20,000 votes still to be tallied.

VOTER INTEREST likely will prove to be the difference in the amendment's passage or defeat. If the water plan still trails by 6,000 after all the state's votes are counted, it would mean that 25 more votes per county in favor of the amendment — or slightly more than one vote per precinct — would have put the water plan over the top.

Texas. Seldom does a constitutional amendments election draw more than a 20 or 25 percent turnout.

Castro Countians went against the statewide trend on only one other amendment — No. 4, which would exempt non-profit water corporations from taxation. Castro favored the amendment, 610-370, while the rest of the state was voting against it by a margin of less than 3 to 2.

In the incomplete statewide returns, four of the amendments were passing and five were going down to defeat at press time Wednesday.

HERE'S THE county's complete, unofficial totals on the nine amendments, together with the incomplete state returns as of mid-morning Wednesday:

No. 1, to update the Texas Constitution — carried in Castro County by 642-329, and was carrying statewide by 319,000 to 258,000.

No. 2, to authorize development of future water resources for the state — carried in Castro County by 880 to 85, but was trailing

statewide by 304,000 to 310,000.

No. 3, to raise the salaries of state legislators — vetoed by Castro County's voters, 596 to 388, and was being soundly defeated statewide, 384,000 to 197,000.

No. 4, to exempt non-profit water supply corporations from taxes — carried in Castro County by 610 to 370, but was being defeated statewide, 269,000 to 307,000.

No. 5, to raise the state welfare ceiling from \$60 million to \$80 million — favored by Castro County's voters, 614 to 435, and was carrying statewide by a margin of 409,000 to 221,000.

No. 6, to remove the present interest rate limitations on state revenue bonds — defeated by Castro County's voters, 537 to 418, and being defeated statewide, 307,000 to 269,000.

No. 7, TO provide benefit payments to survivors of certain government employees (including volunteer firemen and reserve policemen) who are killed in the performance of their duties — approved by Castro County, 567

to 428, and carrying statewide, 378,000 to 210,000.

No. 8, to provide for additional loans to college and trade-school students under the Texas Opportunity Plan — carried in Castro County by 632 to 369, and assured of passage in incomplete statewide returns by 360,000 to 234,000.

No. 9, to provide for annual sessions of the Texas Legislature — opposed by Castro Countians, 528 to 437, and defeated statewide, 319,000 to 254,000.

IN VOTER TURNOUT, Arney and Jumbo led the county, with Precinct 13 of Arney recording a whopping 61 percent turnout and Precinct 8 of Jumbo chalking up a 60 percent vote. Bethel, Summerfield, East Sunnyside and Frio had voter turnouts of 50 percent or more. The least voter interest was shown in Big Square, where only 25 percent of the registered voters cast ballots.

Here's the total number of ballots cast in each precinct, with percentages:

- 1, Southwest Dimmitt — 277 of 793 for 35 percent.
- 3, Northwest Dimmitt — 167 of 607 for 26 percent.
- 4, Northeast Dimmitt — 50 of 136 for 36 percent.
- 5, SOUTH Nazareth — 44 of 129 for 34 percent.
- 6, Hart — 145 of 461 for 31 percent.
- 7, Bethel — 30 of 55 for 54 percent.
- 8, Jumbo — 21 of 35 for 60 percent.
- 9, Summerfield — 23 of 45 for 51 percent.
- 10, East Sunnyside — 27 of 48 for 54 percent.
- 11, Big Square — 22 of 86 for 25 percent.
- 12, North Nazareth — 89 of 220 for 40 percent.
- 13, Arney — 30 of 49 for 61 percent.
- 14, Frio — 31 of 63 for 50 percent.
- 15, Easter — 27 of 59 for 46 percent.
- 16, West Sunnyside — 43 of 93 for 46 percent.
- Absentee votes — 24.

Karyn's year included laurels and lampoons

Being chosen one of the Ten Most Beautiful Women on the campus of the University of Texas at Austin — then seeing "Miss Grain Sorghum" depicted in the campus humor magazine as a hayseed girl in overalls standing in a grain shock . . .

BEING outfoxed by a cold front at a big grainmen's event, and having to pose for photographs outdoors, in a short-sleeved dress, in miserably cold weather . . .

Being named to the Dean's Honor List and to Alpha Lambda Delta scholastic honorary sorority while attending the University of Texas on her \$1,000 scholarship . . .

Being named a "Southern Belle," or "little sister" of Kappa Alpha fraternity . . .

SERVING AS captain of her dormitory's intramural "powder puff" football team and tennis team . . .

Making the girls' varsity tennis team as a freshman . . .

Representing the grain sorghum industry at many events during the year, in many cities, and meeting the people who are leading the big industry to greatness . . .

THESE ARE some of the memories Karyn Hughes will carry forever of her year as "Miss Grain Sorghum of the Nation."

She will give up her crown Saturday night to the new winner.

who will emerge from a field of 30 beautiful contestants from five states.

Using her \$1,000 scholarship, Karyn sailed through a storybook freshman year at the University of Texas at Austin.

SHE WENT to the university determined to spend her freshman year solely in studying and representing the grain sorghum industry when called upon.

But things got a little more hectic than that. First, the UT yearbook, "Longhorn," started its annual search for the Ten Most Beautiful Women. Karyn was nominated from the freshman class, and finished as a winner. Between her nomination and selection, though, she had to spend a lot of hours posing for photographs and being interviewed and judged.

"I considered this a great honor because of the number of girls on campus," she says. The Ten Most Beautiful were chosen from more than 10,000 coeds.

THEN CAME her other honors and interests. She was called upon to captain her dormitory's touch football team, and represented both her dormitory and the university in tennis.

But at the same time, she proved her worthiness of the \$1,000 scholarship by making the Dean's Honor List and being named to Alpha Lambda Delta — an honor reserved for the top

five percent of freshman women.

If all this was enough to make her walk on clouds, the "Texas Ranger," campus humor magazine, brought her back to earth with a lampooning thud.

THE MAGAZINE published a map entitled "Where to Get Your Jollies This Summer" — a take-off on the state's tourist brochure. In the general area of Dimmitt, there was a cartoon caricature of "Miss Grain Sorghum" — dressed in overalls and standing in a grain shock. The caption told everyone to drop in and see the pageant.

"It was kind of a cut," Karyn said, "but I thought it was funny. I got a good laugh out of it."

She said she has enjoyed her year as Miss Grain Sorghum, and that she "will never forget the nice things that have happened to me in Dimmitt."

HER ONLY bad moment, she said, came before she won the title — when the tape for her pageant routine broke during pageant rehearsals last year. She thought all was finished.

But her father, Van Earl Hughes, and Radio Station KDHN saved the day for her by recording a new tape of her Oriental dance music from the original record.

She said she hopes that such a rocky start won't happen to any of the 30 girls who will compete for her title Saturday night.

Meanwhile, backstage... 30 girls will vie for crown Saturday

Hard work, time and energy are behind every successful venture, and the Miss Grain Sorghum of the Nation pageant is no exception.

FROM EARLY June until the last curtain falls in August, several people who are never seen on the stage are working together to make sure that the pageant "clicks," that everything runs smoothly.

Mrs. Dorothy Magness, secretary of the Chamber of Commerce, has mailed letters, entry blanks, information and instructions to hundreds of businesses and civic organizations, to say nothing of the telephone calls from those whose entries would be postmarked before the deadline, but wouldn't reach her desk before closing.

Stage decorations are being handled by Mrs. Walter Maynard, and Mrs. Marty Benton will coach the girls in their opening number for the show.

MRS. NANCY ROSS has been in charge of finding the girls homes for their stay here, and Mrs. Gail Bruegel is general manager, to make sure people are where they should be at the proper time, and handling a multitude of details as they arise.

Bob Murdock is in charge of backstage management. He will direct lighting, and the many aspects of behind-the-scenes coordination which must go smoothly for a successful pageant. Robert Froehner will assist Murdock with the stage lighting.

Robert Benton has arranged for the judges who will be working with the contest, and Mrs. Mary Jo Brown will head the ladies' corps of backstage assistants, helping with clothes and makeup, and assisting the two beauty operators who will be present.

DWIGHT JOINER will play the piano for all girls needing it, and Paula Birdwell has worked on the

banners the girls will wear. J. R. Brown has headed up the campaign for industrial contributions for the \$1,750 in scholarships, plus money for expenses for this year's pageant.

Bo Bryant has been working all year as chairman of the Miss Grain Sorghum Pageant Committee—a branch of the Chamber of Commerce. He has had to make assignments and tend to details ranging from tickets to timetables.

EACH OF these assignments is a big job in itself, and each has to be done well for the pageant to click as smoothly as it traditionally does.

The spotlight is never on these behind-the-scenes workers, but all of them can take a collective bow for their part in the Miss Grain Sorghum pageant which has been termed by a former Miss Texas as "better than the Miss Texas pageant!" in its smoothness of operation.

Bible Thoughts
GOD'S WORD AND LIARS
Col. 3:9
By Max Zamorano
There are some people who, although they would never steal, think nothing of stretching the truth. Many who shrink from using profanity seem to feel no restraint in telling a convenient "White Lie." Yet God classifies liars with the worst of sinners. They are listed together with murderers, whoremongers, sorcerers and idolaters (Rev. 21:8; 22:15). There is probably no single sin which can inflict more serious and permanent damage than lying. The Bible does not distinguish between "big lies" or "fibs." Truth is a positive term; a thing is either factual or false. "White lies" are really just black ones with a superficial coat of whitewash. As an example, consider this: A certain sausage manufacturer advertised "rabbit sausage." Upon inspection the food department found it was less than one percent rabbit and over ninety-nine percent horse meat. "How can you call this rabbit sausage?" asked the inspector. "Because," replied the sausage maker, "it is 'half' rabbit meat. It's made of one horse and one rabbit!" Today let us carefully consider the words of our text. "Lie not one to another" (Col. 3:9). "But let your eye be true, and your way, way" (Jas. 5:12).

The Marvels of God's Creations
WHY DO FISH LIVE IN WATER? We can answer this question partially by saying: that their lungs were created to draw oxygen from the water. However, to know how and why, we must look to God's word. "In the beginning God created the heaven and the earth."... "And God said, let the waters bring forth abundantly the moving creature that hath life..."
Attend Church and worship the one who created these marvels.
The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

AMBITIOUS PEACH—Mrs. E. G. Underwood did a double-take at this "double peach" when she found it on her 10-year-old tree last week. The tree had always produced only normal fruit, she said. From one angle, the strange peach somewhat resembles a baby chick, and from another angle it looks like a head with a bulbous nose on it. Apparently, two seeds merged in a quirk of nature, two peaches grew too close together or a seed became doubly ambitious through a genetic abnormality.

Bradley-Catoe vows recited in church ceremony Friday

MRS. ALEX CATOE
... The former Linda Sue Bradley

The First Baptist Church of Dimmitt was the setting Friday evening for the double-ring ceremony which united Miss Linda Sue Bradley and Alexander (Alex) Catoe in marriage.

THE BRIDE is the daughter of Mr. and Mrs. Jack Bradley of Weatherford, and Mr. and Mrs. R. E. Catoe of Dimmitt are the parents of the groom.

Rev. Frank Pollard, pastor of the First Baptist Church in Tulia, officiated at the ceremony. The church was decorated with an arched candelabrum and two spiral candelabra separated with baskets of yellow gladioli. A white satin rope and greenery completed the decorations.

Music was provided by Janice Mooney, organist, and Mrs. Maxie Herton, soloist, who sang "Till" and "The Wedding Prayer."

Escorted to the altar by her father, the bride wore a formal gown of ivory pea satin, fashioned with a scalloped neckline and petal point sleeves. Ivory Alencon lace formed a panel on the front of the dress, and bordered the cathedral length train. Her veil of candlelight illusion was floor length, fashioned in a full shoulder-length effect, and secured by a double crown of pearls. She carried a bouquet of white daisies and white satin streamers tied in love knots, centered around a green orchid.

Mrs. Larry Burks of Dimmitt, sister of the bride, was matron of honor. Mrs. Chuck Lay of Levelland and Mrs. Johnny Davis of Lubbock served as bridesmaids. They wore formal gowns of yellow and orange daisy print, and avocado green picture hats. Their bouquets were balls of daisies, with streamers tied in love knots.

J'Laun Burks, niece of the bride was the flower girl, and Jim Bob Catoe was ring bearer. Terrye Dowdy of Dimmitt and Jerry Johnson of Clovis, cousin of the bride, were candlelighters.

DONNY McDANIEL of Dimmitt was best man and groomsmen were Paul Catoe, brother of the groom, and Mike Hutton. Guests were seated by Bob and Jack Bradley, brothers of the bride, Johnny Davis of Lubbock, Chuck Lay of Levelland, Joe Johnson and Danny Goolsby of Dimmitt.

Fellowship hall of the church was the setting for the reception which followed the wedding. The lace table covering was scalloped, with wedding bells set in the scallops. Centered on the table was a gold candelabrum, surrounded by the bouquets of the bride and bridesmaids. A three-tiered wedding cake trimmed in yellow, and orange punch with lemon and orange slices completed the table setting.

Mrs. Jack Holmes Bradley and Mrs. Bob Bradley, sisters-in-law of the bride, served the cake and punch, and Patty Simpson of Dimmitt registered guests.

THE BRIDE chose a dress of gold knit in an Empire style and white accessories for traveling, and her corsage was the orchid from her bridal bouquet.

After a wedding trip to Carlsbad, N.M., the couple will be at home in Fort Worth, at 3636 Brookland St.

The newlyweds are both 1969 graduates of Dimmitt High School. Catoe will work for General Dynamics, and plans to attend Tarrant County Junior College in the fall.

Surprise shower fetes Kay Bradley
Kay Bradley, bride-elect of Joe Lynn Magee, was honored with a surprise lingerie shower and party recently in the Bob DuLaney home.

HOSSESSES were Poppy Byrnes, A'llan Webb, Paralyne Renter, Sue Lust, Mary Lynn Hays and Paula Birdwell.

Miss Bradley and Magee will exchange vows in the First Baptist Church of Dimmitt Aug. 8.

MRS. ALLEN DOBMEIER

... The former Stephanie Marie Birkenfeld

Miss Birkenfeld weds Mr. Dobmeier

Double ring vows solemnized the marriage of Miss Stephanie Marie Birkenfeld and Allen Dobmeier Saturday afternoon.

MR. AND MRS. Chris Birkenfeld of Nazareth are the parents of the bride. Dobmeier is the son of Mrs. Leo Dobmeier of Nazareth. The ceremony was officiated by Father Robert Hammand of Clovis.

The sanctuary of the Holy Family Church of Nazareth was decorated with gladioli and marigolds. Mrs. Velma Slavik, organist, and Rita Kleman and Pat Brockman, soloists, provided wedding music.

The bride, given in marriage by her father, wore a formal gown of silk organza over taffeta, designed with a closely fitted neckline applied in lace. Her fitted bodice was applied with lace, re-embroidered with seed pearls and crystal. A self-fabric bow enhanced the Empire waistline. A detachable bouffant court train fell from a bow at the back of the lace yoke. Miniature bridal buttons completed the back. Scalloped lace traced a pattern on the gown's train. A headpiece of jeweled lace centered by a tulle puff held her tier veil of imported silk illusion trimmed with applied lace and seed pearls.

ALVERNA SCHACHER of Muleshoe, sister of the bride, was matron of honor. Janice and Gail Dobmeier, sisters of the groom, were the bridesmaids.

Steve Schacher of St. Paul, Minn., served as best man. Groomsmen were Ricky Dobmeier, brother of the groom, and Leslie Birkenfeld, brother of the bride.

Eugene Schacher, brother-in-law of the bride, Gene Dobmeier, brother of the groom, and Bryan Birkenfeld of Irvin, brother of the bride, seated the guests.

A RECEPTION followed the wedding in the Nazareth Community Hall, with the tables decorated with arrangements of gladioli and mums. Many out-of-town guests were present.

After a wedding trip to New Mexico, the couple will be at home in Nazareth.

The bride is a graduate of Nazareth High School and attended South Plains College at Levelland. The bridegroom attended Nazareth High School and is engaged in farming at Nazareth.

THANKS TO each of you for turning your news to Elsie Moore, and thanks to her for relieving me for a month of rest from the papers, which reminds me of the joy of being in the newspaper business—there's nothing like it. But sometimes getting out the news is no picnic.
If we print jokes, people say we are silly. If we don't, they say we are too serious. If we stick close to the office, we ought to be around hunting material. If we go out and try to hustle news, we ought to be in the office. If we don't print contributions, we don't appreciate genius, and if we do print them, the paper is filled with junk.

New type smut threatens grain

Grain sorghum varieties, previously resistant to head smut, are now susceptible to a new smut race, according to Dr. R. A. Frederiksen, Texas A&M plant pathologist.

FIRST DISCOVERED by A&M researchers about a year ago, the new race of "Sphaerotheca reiliana," causative organism of head smut, has been identified in six Upper Coast and Coastal Bend counties of Texas where grain sorghum is a \$15 million industry.

More important is the fact that head smut occurs in all parts of Texas, which realizes more than a \$300 million annual income from the crop, Frederiksen said.

Though it would seem to be a gloomy story, the brighter side lies in the fact that Texas A&M has already developed a new resistant variety experimentally.

Darrell T. Rosenow, grain sorghum researcher for Texas A&M at Lubbock, used a smut resistant female plant to come up with a hybrid very similar genetically to previous resistant strains.

TESTS conducted in a uniform head smut nursery at Beeville

indicate there may be several good sources of resistance to the new threat, Frederiksen said. Reactions to the new sm

GARNISH ice cubes add a gay note to many fruit drinks. Fill an ice cube tray about two-thirds full of water. Boiled water tends to make the cubes clear. After the water freezes slightly, add an orange, lemon or lime wedge, or a pineapple tidbit, fresh berry, cherry or grape. Finish filling with water and freeze again, suggests Extension consumer marketing specialist, Gwendolyn Clyatt.

Attorney general urges refund claims on drugs

Attorney General Crawford C. Martin this week urged Texas consumers to check their records and file refund claims for broad spectrum antibiotics purchased during the years 1954 through 1966.

AUG. 16 is the deadline for mailing a notarized claim to the Clerk, United States District Court, P.O. Box 745, Bronx, New York 10451.

Texas consumers will receive a share of \$100 million offered by five large drug manufacturers in settlement of multiple civil anti-trust actions filed against them by Martin and the attorneys general of other states.

Forms may be picked up at the county clerk's office. The printed form above can be used by consumers also.

THE DRUGS involved are Aureomycin, Terramycin, Achromycin, Mysterlin, Panalba, Panmycin, Polycycline, Steclin, Tetracycline and Tetrex.

If a person fails to file a claim, it will constitute authorization to use the money recovered in his behalf for the benefit of all consumers in a manner directed by the federal court.

"Thousands of Texans are eligible to make claims and I hope they will avail themselves of the opportunity," the attorney general said. "The form is a simple one, providing for estimates of the total dollar amount a consumer purchased and the names and addresses of the drugstores where the purchases were made in the years 1954-66."

GRADED BORDERS LEAD TO BETTER IRRIGATION . . . Of hay and pasture land here

Conservation

Border that grass land

By LARRY O. STARNES

Why wonder what will happen to furrows after a year or two of grazing or machine harvesting of grass and/or alfalfa?

MAKE THE needed preparations now to eliminate costly failures later.

Each year, several thousand acres of marginal and submarginal land is put to good use of hayland

or pastureland. These crops, when irrigated, often produce sizeable incomes as well as conserve the soil on which they are planted.

Graded borders installed at the time of planting will insure even distribution of irrigation water for a number of years instead of a few months. These borders are parallel ridges of soil running down the slope with the arca between the ridges leveled so that the side-fall is removed. Grasses and haycrops are then planted flat to allow ease of water spreading.

Excellent results have been obtained with the use of borders around lakes and especially where producers have lake pumps and tailwater recovery systems where waste water can be returned and used on sod type crops.

First Christian hosts visitors

The First Christian Church had guest speakers Wednesday night at 8:30.

THREE visitors from Cookson Hills Christian School came in a truck to pick up vegetables — potatoes, onions and carrots — for the school. The food was arranged for by Roy Baylets and Minister Bedford Smith.

Fire at Arrowhead Drive-In

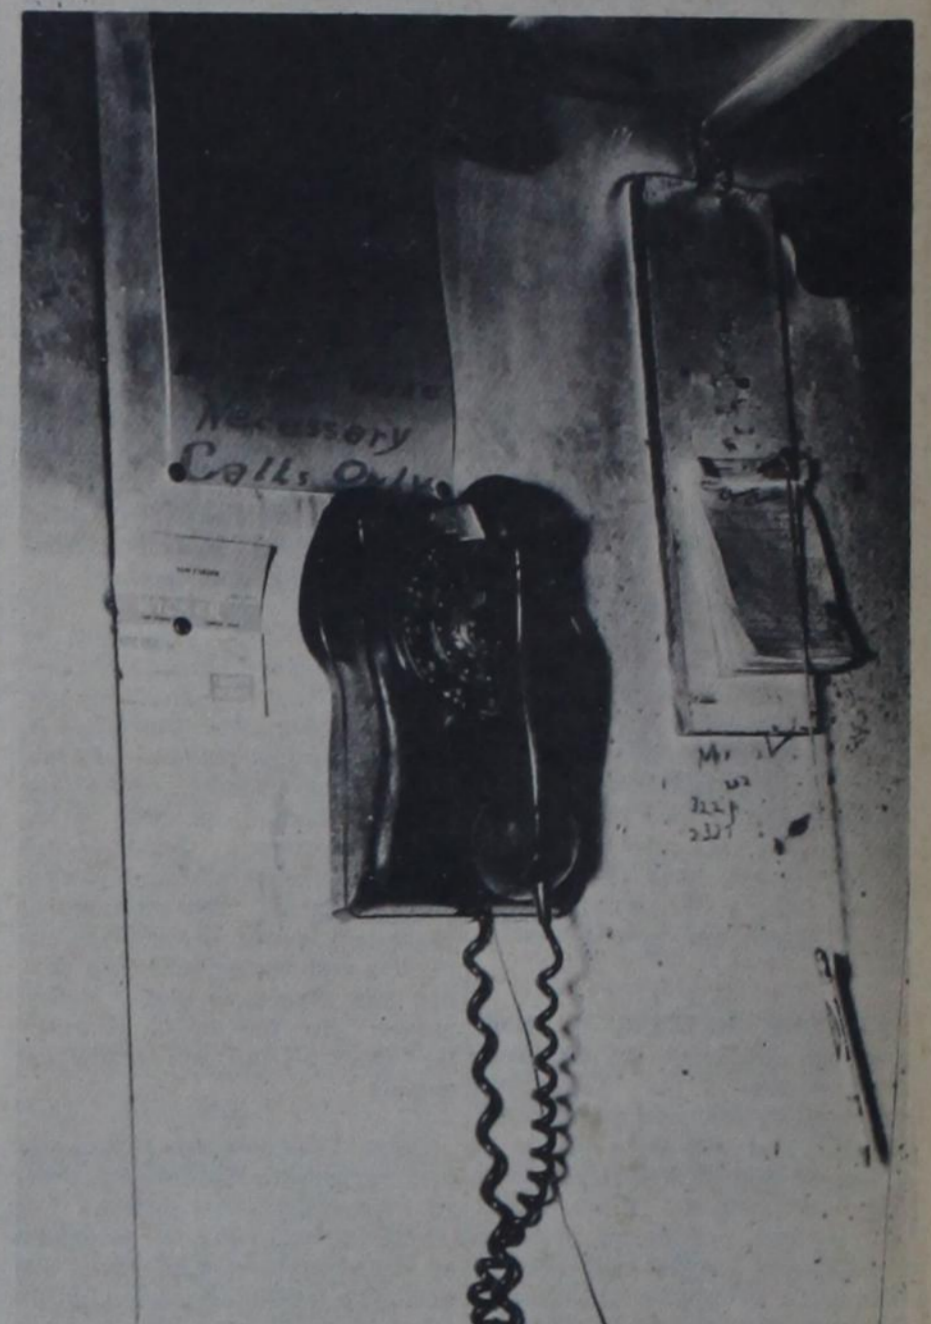

CHARRED CLOCK above kitchen service window shows what time Saturday morning's fire got out of control in the Arrowhead Drive-In kitchen—5:30 a.m. That's when the alarm was sounded, and firemen had the blaze quelled by 6.

WHERE IT STARTED — Jerry Summers, owner and operator of the Arrowhead Drive-In, shows where Saturday morning's fire apparently started—in this deep "fry-olator," which was left simmering when

the drive-in closed. Summers said his damage was comparatively light—approximately \$1,000—and praised the fire department for its quick action.

'HOT LINE' was created when intense heat from the Arrowhead kitchen fire melted the plastic casing of this telephone out of shape. But the phone, located in a nearby passageway, still worked despite its heat treatment.

Up in the air

... with Nancy

By NANCY JACKSON
This week I only flew three times, because I kept the office for Daddy. Monday, I actually did two stalls, and then I practiced S-turns, 360-degree turns, and a few take-offs and landings.

Friday, I flew in the evening at 7. The air was still pretty rough because it was so hot. I practiced S-turns, rectangular patterns and several landings with a pretty strong crosswind.

Saturday morning, I flew an airplane I had never flown before. I practiced S-turns, rectangular patterns, 360-degree turns and four or five landings. When I got down and had quit for the day, Bryce Dowell, my instructor, asked me if this airplane stalled any better than the one I usually fly. Since I hadn't done any stalls, I had to say I didn't know.

We have finished ground school, so I have been studying for my written test. It is supposed to be real hard, so I'll have to study a lot. I have plans to take it in Lubbock on Wednesday.

The test consists of 80 multiple choice questions. To answer these questions, you have to use a flight computer and your mind. There are three different tests, so if you flunk it the first time you might not get the same test the second time. As good an instructor as I've had, I don't think I will flunk.

The most popular salt-water fish on the Gulf coast is the southern weakfish, locally known as the "speckled trout."

A packtrain travels at an average speed of about 2.5 mph and can be expected to cover about 20 miles a day.

The best bait for yellow perch is a small, lively minnow.

Heavy sagebrush areas usually contain large rabbit populations.

To portage a canoe alone, you can make a yoke for your shoulders by lashing two paddles to the thwart.

Beardens root for grandson

When the Port Neches Little League All-Stars play for the state championship tonight (Thursday), Mr. and Mrs. Ray Bearden of Dimmitt will be rooting for their pitcher.

THE PORT NECHES hurler is Steve Fry, the Beardens' grandson. He pitched his all-star team to a 2-0 victory over Corpus Christi Monday night in the state semi-finals. It was his eighth win in the playoffs.

Steve's mother is the former Yvonne Bearden, and his father is Leonard Fry, head chemist for US Rubber Co. at Port Neches.

Although he's only 12 years old, Steve is already 5'11 tall and weighs 165. He has been a stand-out Little League pitcher all year and has been a mainstay in the Port Neches All-Star lineup during the playoffs. In Monday night's semi-final against Corpus Christi, he blasted a two-run homer in the sixth and pitched a shutout to lead his team to the state finals.

If the Port Neches All-Stars win the state championship tonight, they'll advance to Florida for the next stage of the playoffs leading to the Little League World Series.

Financial Facts
By Willis A. Hawkins, Jr.

Sometimes tellers get checks with a conditional endorsement. This is an endorsement which authorizes payment only on certain conditions.

For instance: "Pay to Frank's garage only if motor is in good condition. It must be as good as it was before the wreck."

Naturally the teller cannot honor such conditional endorsements. When a payee's name is misspelled, the payee must make two endorsements. First — the way the name was spelled despite being wrong. Second — the payee's name correctly spelled.

Most banks certify checks. However, banks are not required by law to certify a customer's check. Tellers will not cash post-dated or "stale" checks. A post-dated

check has an advanced date. Most banks regard a check "stale" if it is 30 days old.
