Two Million Dollars Represents the Sum Expended for Gifts to the Young People—The Groom's Income is at Least Half a Million Annually

NEWPORT, R. I., April 14.—

Crowds began to assemble in front of Arleigh villa as early as 9 o'clock this morning and the services of a considerable force of police were necessary to keep Bellevue avenue clear of the many men, women and children curious to obtain at least some outward glimpses of the fashionable wedding of Reginald Vanderbilt and Miss Kathleen Nelson.

ST. PAUL, Minn., April 14.—The state experiment station of the University of Minnesota has succeeded after long and patient efforts in growing potatoes and tomatoes on the same vine.

ROME THEATER IS DESTROYED BY FIRE

ROME, N. Y., April 14.—A score of people who had crowded inside the fire limits were injured by the debris when the massive walls of the Washington theater fell early this morning, after a fire which gutted the building and destroyed property valued at between \$125,000 and \$150,000.

HOTEL THREATENED

The fire broke out in the theater about 3 o'clock this morning, the cause being unknown. The flames quickly spread to the Arlington hotel, which is the adjoining building, and the frightened guests were roused from their beds by the flames which threatened death to the entire number.

WALLS FALL

Shortly afterwards the walls of the theater fell and the flying bricks injured a number of those who were standing too near, but no fatalities were reported.

TOWN ROUSED

The news that the Arlington hotel was on fire roused the entire city, as the building, in addition to its large number of rooms for guests, contains many of the largest and most important business offices of the city.

CRUELTY IS REVOLTING

LOUISVILLE, Ky., April 14.—Throwing himself upon the mercy of the investigating committee of the board of trustees of the Central Insane Asylum and begging for protection, declaring that he feared for his life, a patient of the institution who has just recovered from an assault made by an attendant, yesterday gave his testimony in the presence of a sub-committee representing the grand jury.

A DRAMATIC SCENE

The examination of the patient was the most dramatic incident of the investigation of the charges of cruelty on the part of the attendants at the asylum and it was also brought out that several physicians at the institution knew of the affair, though they failed to report it.

CRUSHES CHILD'S SKULL

Shouting curses at his wife, and still holding the child by the legs, he swung the little body around his head and brought her head down with crushing force upon a stove.

GOES TO SEE HER

Early this morning Phillips left his home and went to see his wife. He carried a heavy double-barreled shotgun and evidently went to make trouble.

WARNS FATHER

She hurried to the field, where her father was working and told him that Phillips had come to see her and that he was looking for trouble.

SHOT FROM AMBUSH

From the story told by the father, Phillips was waiting for her as she came back from the field. Without warning he fired, the charge of shot taking effect and killing her instantly.

FATHER BRINGS NEWS

When the horrified father reached the side of his daughter, he was already too late. The body of the unfortunate woman was taken to his home and Yates then hurried to Arlington to notify the authorities.

TOWN STIRRED

When the news of the circumstances of the shooting became known the whole town was stirred. The sheriff's office at Fort Worth was notified immediately and deputies at once left for the scene of the tragedy.

NORTHERN COMMISSION MEN RETURNING FROM TRIP THROUGH TEXAS ARE ENTHUSED OVER PROSPECTS AND CONDITIONS IN THE STATE - WHAT THE LADIES THINK OF TEXAS AND HER PEOPLE

J. A. Taylor-The fruit and truck growing in Texas is only in its infancy. The large city population of the north and west is ready to take all the truck and fruit that can be grown in Texas, but it must be of good quality, picked and packed in the best possible manner, in the standard package for the class of products so packed. Of course, they cannot expect them to attain the highest standard in one year, but they must profit each year by the mistakes of the past. The peach and tomato growers of east Texas have already attained this high standard and are reaping their reward in fancy prices for their products.

C. E. Walker-I think Texas has the best fruit and vegetable prospect of any state in the union. It has the railroad facilities, climate and soil. The thing most needed is education among the growers.

A. B. Thomas-From my observation there are great possibilities for the people of Texas. They are the most friendly people on earth. Go to Texas, see them, and be convinced.

W. L. Grush-The most noticeable thing to me is how much more can be done, and how slow people from other states are to grasp the opportunities, while land is cheap. It is a sure thing to get rich, even if one has only limited capital.

T. E. Armstrong-I think Texas has wonderful resources, and there is no limit to what can be done. The time has arrived when people in general have made up their minds that they must make something besides cotton, and there is no state where such a diversity of crops can be produced as in Texas.

W. W. Harnden-I think Texas has the greatest natural resources of any state in the union. Don't discourage immigration. You need it.

J. N. Barrick-Texas will some day grow enough fruits and produce to feed all America.

J. W. Brown-Texas is fast becoming the early garden for the northern markets.

W. G. Campbell, Jr.-I will be willing to swear to almost anything good that may be said of Texas. Her hospitality, certainly cannot be exceeded.

Mrs. W. L. Grush-Texas is a beautiful, delightful state, not alone to those who live there.

and citizens' committees, and feasted and entertained royally. "The trip this year was made a little late, but it was the first one of this nature, and we will know better how to proceed next year," he said. "We were just getting acquainted this time, but next year we will come to Texas much earlier and in much larger numbers. We will come before the crops are ready for market and contract for them in advance. Northern vegetable and truck men appreciate the future of Texas in this particular, and will lend valuable aid in developing the country of that part devoted to raising these commodities.

"When we arrived at Alvin we found the 250 members of the Truck Growers' Association and 1,000 citizens of that place at the depot to welcome us. We went to the opera-house, where we heard addresses and were banqueted on strawberries, which are being harvested at Alvin in such quantities at present. On the following day we paid a visit to the berry fields, from which are being shipped to northern markets one carload a day. This crop will last until June.

"At Cameron we found 200 truckers and about 1,800 acres in melons, tomatoes, cantaloupes, peaches and plums.

"At Milano there were forty truckers and 250 acres in truck.

"Yellow Prairie has forty-five growers and 300 acres in truck.

"Caldwell boasts 150 members of the Truck Growers' Association, and has a large acre in cultivation.

"At Somerville, twenty-five growers have 300 acres.

"At Breonham, 150 growers have 1,200 acres, 1,000 of which are in potatoes. The first potatoes are nearly ready for use and after May 5 it is estimated that fifteen cars a day will be shipped from that place until the crop is exhausted.

"Houston received her first new potatoes last Saturday. They were raised by F. G. Edmundson, of Crockett, Texas, and were shipped to Z. A. Ziegler, a commission merchant of that place. The potatoes were about the size of hen eggs, and sold for \$1.50 per cwt.

"There are forty growers at Hitchcock, who will ship from forty to fifty cars of berries this season. The price of berries last week ranged from \$2.50 to \$3.75 per twenty-four quart crate.

"After passing through such various sections where fruit and truck growing has become more or less developed, we went on down to Galveston to spend Sunday. Here the Santa Fe railroad chartered a boat and gave the party a ride on the gulf. We were greatly interested in all we saw.

The sea wall is an immense undertaking, but is apparently having more to do in seawall construction and contentment in Galveston than anything else that has been done since the flood."

Referring to the organization which was perfected during the stay of the party at Galveston, Mr. Barrick said that the membership will include commission men, railroad men, shippers, seed men, refrigerating men, packers, men and every one who is at all interested in the production and transportation and sale of vegetables and truck.

"In the past the whole section of Texas in which there is so great a development in this line," said he, "has been shut off from the consumption of the north by the fact that the sales have been made largely to irresponsible parties, and also by the fact that they do not know how to properly pack their produce for the markets. It is a fact that as soon as the Texas truck grower learns to grow stuff properly and to pack it according to regulations, he will begin to make money, and a feature of enjoyment to all who like good ball playing. The latter team scored the victory by one run.

CATARRH CURED BY DRY AIR. Hyomei Medicates the Air You Breathe, Kills the Germs and Cures the Disease.

Hyomei cures catarrh thoroughly and permanently because it reaches the smallest air cells in the head, throat and lungs, kills the germs causing the disease and drives it from the system. Hyomei goes to the root of the disease, destroys the cause, and makes permanent cures which can be effected in no other way. Breathe it for a few minutes four times a day and benefit will be seen at once. Continue this treatment for a few weeks and Hyomei will have cured you.

The Hyomei in the inhaler furnished with the outfit dries and sterilizes the air you breathe. It is a local and direct treatment for eradicating all catarrh germs in the mucous membrane and tissues, and in this way cures catarrh in any part of the system. Used in connection with Hyomei Balm, it has been successful in curing the worst and most deep-seated cases of catarrhal deafness.

A. W. Clark of Everett, Mass., writes: "I have spent a fortune on different treatments for catarrh and could not hear across the table. After using Hyomei and Hyomei Balm for eight days I can hear as well as ever."

Stronger than any claims that can be made in an advertisement, is the fact that Weaver's Pharmacy, 504 Main street, will give their personal guarantee with every Hyomei outfit they sell to refund the money if the purchaser can say that Hyomei has not given satisfaction.

Fire-Fighter's Story How the Strongest Man in the Philadelphia Fire Department, Once the Weakest, Gained His Strength and Health by Using Swamp-Root, the Great Kidney and Bladder Remedy.

HERE'S the story of a man who was near death's door and was saved by using Swamp-Root.

If he came to you and said: "My friend, do you suffer with kidney trouble? Does your back ache? Do you feel bad all over and can't tell exactly what's the matter? Have you tried medicines or doctors without benefit? Are you discouraged? Then do as I did, and get well—Use Dr. Kilmer's Swamp-Root! I know it will cure you. If he did this, would you believe him? Wouldn't you, if you were a sufferer, follow his advice, knowing that he bore living, sentient, vital testimony to the wonderful virtues of this great natural remedy?"

WELL, that is just what Hugo Hutt, strongest man in the Philadelphia Fire Department, hero of a hundred battles with the flames, is doing now through the medium of this newspaper.

Hugo Hutt has been connected with the Philadelphia Fire Department for the past four years. He is stationed at the engine house at Nineteenth and Callowhill streets. Mr. Hutt is known as the strongest man in the Fire Department and has taken many prizes at athletic tournaments for his prowess in the field of sports.

He is also an ex-sergeant of the United States Infantry, having for several years been stationed at Fort Niobrara, Neb. Mr. Hutt also served with the Sixth Pennsylvania Regiment during the Spanish-American war.

HUGO HUTT, PHILADELPHIA FIREMAN.

HERE is the story as he gave it to a special representative of Philadelphia's Great Newspaper, "The North American."

"You will hardly believe it when I tell you there was a time when my body was in such a diseased condition that my relatives and friends would have, at no time, been surprised to learn of my death. It was all due to kidney trouble, for which I could secure no relief. I was under the care of my family physician for a number of years, but he was unable to do me any good. I also consulted two noted specialists on kidney diseases, but they were unable to give me more than temporary relief. I had already made application to join the army, but was turned down on account of my bad physical condition.

"I was advised to try that greatest of all remedies—SWAMP-ROOT.

"I wrote to Dr. Kilmer & Co., at Binghamton, N. Y., for a sample bottle, and its effect upon me was so noticeable that I went immediately and bought a supply from my druggist, with the result that in a comparatively short time I had entirely recovered and became the man you see me now.

"I served a number of years in the army, and for the past four years I have been connected with the Philadelphia Fire Department. My work, both in the army and fighting fires in Philadelphia, has been of the most arduous, and work that I could not do, did I not have a strong physique.

"I do not know what the words 'Kidney Trouble' mean now, and do not expect to. I cannot speak too highly of Swamp-Root. A few bottles of this great remedy did more for me than a dozen physicians could. (Signed) HUGO HUTT, 855 Stillman St., Philadelphia, Pa.

AND this is only one man's story—if the average reader of a newspaper could be persuaded to read the thousands of such testimonials which come to Dr. Kilmer's Swamp-Root, the kidney troubles which now afflict humanity would be cut down fifty per cent. For these testimonials all prove beyond a doubt that the greatest cure for kidney, liver and bladder troubles is

Dr. Kilmer's Swamp-Root NATURE'S GREATEST AID TO THE SUFFERING

EDITORIAL NOTICE—Swamp-Root is so remarkably successful that a special arrangement has been made by which all of our readers who have not already tried it, may have a sample bottle sent absolutely free by mail, also a book that tells all about it and its wonderful cures. The regular fifty-cent and one-dollar-size bottles are sold by all druggists. Don't make any mistake, but remember the name, Swamp-Root—Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

AMUSEMENTS

ANNA EVA FAY Greenwall's was packed to standing room last night at the opening night of Miss Anna Eva Fay's engagement here. Most of the crowd was filled with curiosity and came away with mystification in its place. Those who had seen Miss Fay's wonderful work before, were prepared for some of the surprises, but were as far off from the solution as before.

Miss Fay's greatest work is in her unusual development of what has been called the "sixth sense," an indefinable power which is awe-producing in its effects and so far, unexplainable in its mysteries. Miss Fay's success last night in reading questions by members of the audience and not only reading them, but giving the name of the writer and the answers to the questions, borders on the uncanny, and of the most successful test of the power of telepathy seen on the stage today.

Throughout the week Miss Fay will continue her exhibitions, and test giving exclusive matinees for ladies Wednesday and Saturday afternoon. Already Miss Fay's work has baffled the most skilled scientists, so it is safe to say her mysteries will not be solved during her stay here. A lack of understanding, however, only heightens the enjoyment of the audience, and crowded houses are expected every night.

GENERAL ORDER TO TEXAS BRIGADE

J. H. Tiller, brigadier general of the Texas brigade, Uniform Rank, Knight of Pythias, and T. T. McDonald, colonel and acting adjutant general, have issued the following general order, No. 5, which will be of interest to the members throughout the state:

"All field, line and staff officers are hereby commanded to attend a meeting of the officers of the brigade to be held on Tuesday, April 28, 1903, at 7:30 o'clock p. m., at the Castle Hall, in Fort Worth, Texas (in fatigue uniform). "The purpose of this meeting is to reorganize the Texas brigade, to fill all vacancies and any business that may come up before the meeting for the good of the rank will then receive attention. "This meeting is of great importance to the rank, and no trivial excuse will be accepted from any officer who fails to attend this meeting."

THE FORT WORTH POSTOFFICE HAS TEN-THOUSAND-DOLLAR GAIN. An increase of \$10,000 in the receipts of the postoffice of Fort Worth for the year ending March 31 over the preceding year is not only gratifying, but is at the same time indicative of the good, healthful growth which has been so manifest in this city during the past twelve months. The total receipts for the year just ended were \$96,908.67. "The increase," Mr. Burroughs said, "was more than I had anticipated. I realized that the business of the year was much greater than it had ever been, but I did not estimate the increase at much more than one-half what it has proved to be."

Be Careful of the Children

Illustrations of refrigerators labeled 'THE HERRICK' and 'OLD STYLE'. Text: Do you honestly believe your zinc-lined refrigerator to be a safe place to keep the milk you feed the precious baby? Read what Dr. Cyrus Edson, M. D., Sanitary Superintendent of the New York State Board of Health, says on the subject below.

"THE SKELETON IN THE CLOSET." Her ice-box became the most dangerous thing in the house. This is true with such delicate foods as milk. There is a marked increase in the number of deaths from diarrhoeal diseases among children, so soon as the hot weather sets in, during which it is necessary to place the milk in the refrigerator. Children form the most delicate thermometer of health. Being more delicate, having less strength, being almost wholly without that reserve force of life we call stamina, they show quickly the evil effects of any cause. On the other hand, milk being a food in which the food elements are adjusted for digestion more perfectly than in any other, it will purify more quickly than any other. Parents should respect hygienic truth for the baby's sake, even though they do not for themselves. GARDEN HOSE, LAWN MOWERS, ETC. Sold on Easy Payments.

A London correspondent says that Liverpool and Manchester are figuring over which shall receive the most American cotton.

Rev. William Henry Milburn, the blind chaplain of the United States senate, is dead. It is he, of whom it was remarked on one occasion of his opening a session of the upper house with prayer.

A Fort Worth young lady who has returned from a visit to Washington made the discovery while there that the president's favorite expletive was "By George."

Brigham Young, head of the Mormon church, is dead. The thought of the crop of widows' weeds that will be garnered is enough to drive milliners and dressmakers into rhapsodies of ecstasy.

According to conservative estimates it will take at least ten days for the legislature to spend that \$6,000,000. For so long a time needed, it is easy to see that none of the appropriations will go for Easter bonnets.

Princess Louise of Saxony will leave her children's tutor with whom she eloped last fall, and will return to her husband. She evidently has been taught her lesson.

George Gould says that the West will be prosperous for at least another year. Which means that the Gould lines will still continue to pay dividends.

New Jersey bread makers are at work on plans for a trust to embrace property valued at \$2,300,000. As yet however, the proposition is only half baked.

All Fort Worth infants are up in arms at the prospect of the coming Baby Show.

A professor tells this story at his own expense. He was instructing a class of boys about the circulation of the blood, and to make sure that they understood him he said, "When you tell me why it is that if I stood on my head the blood would rush to my head, and when I stand on my feet there is no rush of blood to the feet?" And then a small boy, after pausing for a short time, answered, "It is because your feet are not empty, sir."

Coming though it does, so near the end of the school year, the paper read before the teachers of Fort Worth on hygiene in the schools, especially as relates to the eye, is timely and practical. There is time between now and the opening of the next session to remedy the defects in seating which are responsible for a large amount of trouble with children's eyes.

It is a beautiful name the ladies of El Paso have chosen for the modest building in which they will soon begin the work of caring for the fallen women of their city.

Some time ago about sixty ladies got together and decided that something should be done for the women who have given up everything for a life of shame.

They decided that working was better than passing resolutions. They raised enough money to pay for the renting of a modest six-room cottage. They will hire a matron and in a short time, quietly, but effectively, the work will be begun.

By way of severe punishment it is respectfully suggested that the house compel the offending publication to prove that it has done anything at all.

To avoid conviction for murder, it is said, a Hillsboro negro married the state's star witness thus keeping her from giving her testimony. If he can find as easy a way to keep her from throwing that fact up to him the rest of his life, he will be more than lucky.

Daily Short Story

(Continued from Monday's issue.) "Sure of that?" "Sure as death!" "Hope you're right, my boy! Hope you're right—but I have my doubts."

Never one to harbor malice or hard thoughts, Michael assented, and the two men went below to the mate's cabin. Up above the roaring of the elements; down below the doing of devil's work.

Michael's lips were no sooner put to the glass of spirits and water than he was conscious of something uncanny about it. There was no delay in its effect. Seemingly to madden and burn like vitriol, it produced an instant sense of suffocation, but fortunately not of blank unconsciousness.

Except the "look-out" in the bows, and the man at the wheel, art, there was not a soul to see Dick Corbett stagger on to the poop deck with the inert body of Michael over his shoulders.

The crazy steamer rolled and pitched in the swell so that more than once man and burden were in danger of falling in a heap to leeward. Arrived at the lee quarter boat, Corbett, using all his strength, tried to heave the insensible man into the stern sheets.

Michael, however, roused back to a sense of his position by reason of the motion during his journey on deck on Corbett's shoulders, managed to shake himself free of his intended murderer, grasping him resolutely by the throat.

Corbett, alive to the fact that the easy accomplishment of his design was now impossible, fought with the desperation of a madman.

Then Michael, gathering himself together for one big effort, dealt his opponent a terrific blow between the eyes, and felled him senseless to the deck.

Knowing that he was within five miles at most of the Portuguese coast, he sprang to the davits, let go the tackle of the lee quarter boat, jumped into her and when the rail kissed the water, let the boat down with a run into the boiling sea.

At Tat's Corner Kitty Hazell sits, under the lee of some rocks on the beach, wearily mending her nets.

There are half a score of other women, young and old, working around her, but she looks to no one, and with the sympathy of their kind they leave her severely alone.

By and by the old man who performs the duties of letter carrier and general post office in Tat's Corner and its neighborhood, is seen to be hobbling toward the beach.

"What he said Maartin a deen" now, now, I winner," said an old dame sitting close by Kitty.

The remark was sufficient to make the girl raise her head.

As she did so the old postman saw her looking at him and waved something above his head.

"Kitty Hazell, it's a message for 'ee," he said, putting the orange colored envelope into her trembling hand.

Inflammation of the Bladder

Mr. Michel Blandypos, Secretary Marlowe Club, New Orleans, Who Suffered From Inflammation of the Bladder Cured By

the Only Absolute Cure for All Diseases of the Kidney, Liver, Bladder and Blood, WARNER'S SAFE CURE

Gentlemen: It affords me the greatest pleasure to testify to the merits of Warner's Safe Cure, as I consider it the sole means of restoring me to health.

"SAFE CURE" CURES KIDNEY DISEASE. If you have pains in the back, rheumatism, uric acid poison, rheumatic gout, diabetes, Bright's disease, inflammation of the bladder and urinary organs; scalding pains when you urinate, eczema, jaundice, swellings or torpid liver; if a woman, bearing-down sensation, fainting spells, so-called female weakness, painful periods; these symptoms tell you that your kidneys have been diseased for a long time, for kidney diseases seldom put out such symptoms as the victim recognizes until they have been working several months.

Doctors prescribe and hospitals use "Safe Cure" exclusively in all cases of kidney or bladder trouble.

Warner's Safe Cure is purely vegetable and contains no narcotic or harmful drugs. It is free from sediment and pleasant to take. It does not constipate. It is a most valuable and effective tonic; it is a stimulant to digestion and awakens the torpid liver. It repairs the tissues, soothes inflammation and irritation, stimulates the enfeebled organs and heals at the same time. It builds up the body, gives it strength and restores energy.

TEST YOUR KIDNEYS. Let some morning urine stand for twenty-four hours in a glass or bottle. If it is milky or cloudy or contains a reddish or brick dust sediment, or if particles or germs float in it, your kidneys are diseased.

ANALYSIS FREE. If, after you have made this test, you have any doubt in your mind as to the development of the disease in your system, send a sample of your urine to the Medical Department, Warner's Safe Cure Co., Rochester, N. Y., and our doctors will analyze it and send you a report with advice free of charge to you, together with a valuable book describing all diseases of the kidneys, liver, bladder and blood, and treatment for each disease.

Beware of so-called kidney cures which are full of sediment and of bad odor—they are positively harmful and do not cure. WARNER'S SAFE PILLS move the bowels gently and aid a speedy cure.

"Madam, I had burnt my breeches beneath me." "Good gracious," ejaculated my mother, with an involuntary startled glance in the direction of the professor's coat tails.

"My father interposed tactfully, the professor meanwhile nodding acquiescence." "You will be glad to know, my dear, that what Professor Schell means by saying he has burnt his bridges behind him is that he has leased a house here for a year and has now no choice but to stay."

"Oh!" exclaimed my mother, greatly relieved. "How delightful!"

BILIOUS?

Skin yellow? Tongue furred and flabby? Appetite gone? Constipated? Brown taste in your mouth? Headache? Bad breath?

Your liver, of course. You need something to stimulate that important organ to beneficial action—something that will aid digestion, cure constipation and purify your blood. The rest will care for itself.

Heptol Split "THE SPLIT THAT'S IT" Puts things right that go wrong inside you.

NOT CONTAGIOUS During the epidemic of smallpox in the city last year, when every precaution possible was taken to prevent the spread of the disease, a little tot, coming to school one day, informed her teacher that her mamma had been taken to the hospital in the ambulance that morning.

For liver troubles and constipation There's nothing better in creation Than Little Early Risers, the famous little pills. They always effect a cure and save doctor bills.

REAL SORROW A little girl with the whooping cough very badly, and it seemed that no one could aid her in any way when a paroxysm of coughing seized her. One day, after a most severe one, she sat down all tired out, and with a look of patient resignation said: "Oh, I do feel so sorry for myself!"

WALKS WITHOUT CRUTCHES

I was much afflicted with sciatica, writes Ed. C. Nash, Iowa, Va., Sedgwick Co., Kan., "going about on crutches and suffering a deal of pain. I was induced to try Ballard's Snow Liniment, which relieved me. I used three 50c bottles. It is the greatest liniment I ever used; have recommended it to a number of persons. All express themselves as being benefited by it. I now walk without crutches, able to perform a great deal of light labor on the farm." 50c, 50c and \$1.00 at H. G. Pangburn & Co's.

THE YEAR'S WORK IN CARNEGIE LIBRARY

ANNUAL REPORTS READ LAST NIGHT AT THE MEETING OF THE FORT WORTH LIBRARY ASSOCIATION SHOW GRATIFYING SYSTEM OF MANAGEMENT ON PART OF OFFICIALS

A YEAR IN THE LIBRARY

Received from the city.....	44,028.48
Total receipts from all sources.....	4,568.11
Paid for salaries.....	2,312.22
Paid for books.....	1,907.27
Total disbursements.....	5,424.67
Number of books at beginning of year.....	4,494
Number of pamphlets at beginning of year.....	404
Number of books added.....	1,494
Number of pamphlets added.....	471
Number of volumes circulated.....	53,045

Last night at the library the membership of the library association was represented by about thirty members. It was the annual meeting for the election of seven new trustees.

The meeting was called to order by the president, Mrs. Burnett. The secretary, W. B. Paddock, read the minutes of the last annual meeting which were approved. The librarian, Mrs. Scheuber, followed with her report for the last fiscal year, showing the number of books on hand, the number lost and the money subscribed for the past year for new books, etc.

The secretary's report was next read and ordered filed. After the reading of these reports, Mr. Hawley made a motion that the chair appoint three to submit fourteen names for new trustees.

The following seven were elected: Mesdames Roy & Leffler, practical jewelers, 402 Main street. Work called for and delivered. Phone 1532.

J. J. Fulford, depot master at the Texas and Pacific depot, while caring for a sick Jersey calf Sunday, was bitten on the hand by the animal, which, it is believed, was suffering from rabies. The calf died and Mr. Fulford has had the wound cauterized as a precautionary measure. He thought the animal had choked, and was endeavoring to relieve it when injured.

by the teachers of the schools and members of the clubs of the city on Grecian mythology, Homer's Iliad and Odyssey, and the sculpture. The talks were fully illustrated by means of photographs and casts. The books bearing on the subjects were placed on special shelves and lists of the books posted on the bulletin boards. We are planning for a series of talks during the spring on Nature.

WORK WITH THE SCHOOLS

Through the generosity of Mrs. Burnett and Mrs. Burton we were enabled to commence the work of circulating the library books through two of the ward schools. No work that the library has undertaken is more important than the work of sending carefully selected books to be circulated through the schools.

The plan is to send twelve books to each of the first seven grades of the public schools and change them every six weeks. In this way the child is surrounded from his first year at school with the best of children's books and is unconsciously having his reading directed and forming that best of all foundations for his future education, a taste for good literature. It is hoped that before the beginning of the next school year we will have sufficient books to enable us to extend the service to all the schools of the city. The superintendent and teachers of the public schools have been most enthusiastic in their support of the plan and have in every way done their utmost to assist in making the library helpful to their pupils.

NEEDS OF THE LIBRARY. In connection with the work of the library, we need more books in every department of the library. Our reference, scientific, useful and fine arts departments are especially weak. We need duplicates of the best fiction, and more books for the young people's room, to enable us to circulate the books through all the ward schools. We should commence to move in an effort to form an art collection. The splendid building and equipment we possess, capable of doing such magnificent work—work so far-reaching in its influence of fitting the young people of this busy town for a broader and nobler American citizenship, but that not one can gaze at—should not be crippled for the lack of a few thousand dollars. This library should have at least \$2,000 per annum additional funds to meet the urgent need for more books in the departments mentioned and to provide for the symmetrical upbuilding of the library. The present appropriation by the most economical administration can only be made to suffice for maintenance. The stamps on all the envelopes are of different shapes. The 1-cent envelope has a green stamp in the form of a perfect circle about an inch in diameter. The bust of Franklin in white is the central figure. The 2-cent stamp is oval in shape. It is a brick red and bears the bust of Washington in white. The stamp is about one and one-fourth by one inch in size. The stamp on the 4-cent envelope is about one and one-fourth inches square and is brown. It bears the portrait of General Grant in white. The 5-cent stamp is shaped like an ellipse. It is blue and bears the portrait of Lincoln in white.

VESSELS COLLIDE NEAR GALVESTON. GALVESTON, Texas, April 14.—The four-masted schooner Margaret A. Ward, out of Philadelphia, bound for Galveston and loaded with railway iron, was run into early yesterday morning, about thirty miles out from Galveston, by the El Rio of the Morgan, and sunk in three minutes.

The Morgan line ship cut the stern of the Ward off.

Two small children of Captain McCaw of the Ward and one sailor were drowned.

The rest of those on the unfortunate boat were rescued.

The weather was densely foggy and the El Rio, under Captain Parker, did not see the Ward until at the very moment of the collision.

Captain McCaw's home is in Philadelphia and the children were making the trip with him. They were asleep below at the time of the disaster and there was no chance to save them.

Both vessels are said to have been in their proper course and the accident is attributed solely to the dense fog prevailing.

TRINITY PARISH ANNUAL MEETING

HELD AT THE CHAPEL LAST EVENING AND WELL ATTENDED

Reports of the Year's Work Read and Received—Resolutions Regarding the Death of the Late Wharton Davenport Passed—Officers Are Re-Elected

The annual Easter meeting of Trinity parish was held last night in Trinity church, Pennsylvania avenue and Hemp-hill street. Though the financial showing was not quite so good as in previous years, the only arraignment was that of the diocesan assessment.

Mr. Heathcote made an interesting speech, in which he acknowledged the faithful services of the Sunday school teachers, choir and rector's aid, making special mention of the work of R. C. Galbraith as superintendent of the Sunday school and of the Holy Innocent's mission, which last had been continuously carried on during the year with the able assistance of G. R. Bowman. Mr. Heathcote also proposed a suitable resolution in memory of the late Wharton Davenport, a parishioner and vestryman, who had died during the year, which after the special prayer in commemoration of the faithful departed, was carried by a standing vote, and copies ordered to be spread on the minutes and a copy sent to the widow and family.

He also presented to Miss Ethel Cotton a framed, illuminated testimonial in recognition of her able services as choir director. Miss Cotton reported having received an Easter letter from Mr. Springer, a traveling man, who had become very much interested in the musical services of Trinity church, before and during Bishop Coleman's mission in St. Andrew's parish, and inclosing a check for \$10 toward a professional cross. The rector spoke feelingly and regretfully of the necessary retirement of the senior wardens, S. G. Dickerson, and mentioned specially his faithfulness and that of his family in regard to church attendance, which, for a railroad man, is somewhat exceptional.

The rector reported twenty-three baptisms, twelve confirmations, three weddings and five burials.

NEW OFFICERS. Charles Washington Maxwell and Joseph Salt having been named as tellers, the ballot was then taken and use following are the officers for the ensuing year: Senior warden—William Waldemar Heathcote, M. A.

Junior warden—Clarence Christopher Hennings.

Vestryman—Archibald Andrew Billingsley.

Treasurer—Joseph Haydn Farnum.

Clerk of the vestry—Mrs. W. W. Heathcote.

Delegates to the diocesan council—Richard Cecil Galbraith, John Henry Bevan, Simon Ghio Dickerson, Alternates—William Waldemar Heathcote, Clarence Christopher Hennings, Joseph Haydn Farnum.

Lay readers—George Reuben Bowman, Richard Cecil Galbraith, William Waldemar Heathcote.

NEW DESIGNS FOR STAMPED ENVELOPES. The new stamped envelope that has been under preparation in the postoffice department at Washington for several months past has been made ready for issue and is now being distributed to the postoffices throughout the country.

The local office thus far has not been supplied with any of the new issue, but it is expected that a recent requisition for envelopes will be filled with the new designs.

The envelope is in four denominations—1-cent, 2-cent, 4-cent and 5-cent. The change made is very great, and it is believed by the officials who have had the matter in charge is a great improvement.

The stamps on all the envelopes are of different shapes.

The 1-cent envelope has a green stamp in the form of a perfect circle about an inch in diameter. The bust of Franklin in white is the central figure. The 2-cent stamp is oval in shape. It is a brick red and bears the bust of Washington in white. The stamp is about one and one-fourth by one inch in size. The stamp on the 4-cent envelope is about one and one-fourth inches square and is brown. It bears the portrait of General Grant in white. The 5-cent stamp is shaped like an ellipse. It is blue and bears the portrait of Lincoln in white.

The portraits on all the stamps are busts and are embossed on the envelope. The stamps are all larger than those used at present, except the 1-cent and 5-cent varieties, and have less decorations.

NOTES AND PERSONALS FROM ABILENE
(Special to The Telegram.)
ABILENE Texas, April 14.—E. P. Nolen of Memphis, Tenn., takes a position with the J. M. Radford Grocery Company as bookkeeper. E. A. Nash, his predecessor, has accepted a similar position in Dallas.

It is reported that the Texas and Pacific railway will soon extend its short passenger service from Fort Worth to Colorado. Instead of stopping at Abilene, as heretofore.

Captain Pickens leaves tonight for Austin to attend the grand commandery of the Texas Knights Templars.

Theodore Goedeke, an Abilene grocer, was married Sunday to Miss Rosa Fredeck of this city.

Miss Mal Leake has returned from a three months' visit to Waco.

United States district court met here today. The trial of Jim Graves, charged with the robbery of the Anson postoffice in December, was begun.

PUSHING A FORT WORTH PRODUCT
Here is one Fort Worth concern that is pushing its product abroad. The Denton Herald says:

"Phil Gaither of Fort Worth, who has been in the city for the past week, has quite a number of old Kentucky 'an Texas friends here. Mr. Gaither has been here in the interest of the Queen Quality Starch Company of Fort Worth. He said today to a Herald man that his lady canvassers had been over the town and that the local trade in this community has been turned over to the retail grocers. Mr. Gaither says this starch has made many friends in Denton."

A PROFITABLE DOG
"Expect they had some fine dogs at it show," remarked a man to Gubbons. "I have a dog at home I wouldn't change for the best of 'em."
"What breed is he?"
"Don't know exactly, but call him 'coaly.'"
"Collie, you mean?"
"No, I mean just what I say—coal. Money wouldn't buy that dog. He's a cur, but we couldn't keep him within him. You see, several years ago I trained him to bark at the railway trains; they passed our house. Well, he annoys the railroad men so that every driver on the line has sworn to kill him. Oh, he's a valuable dog."
"I can't see where the value comes in."
"You can't? Well, you could if you were in my place. I had all the ore you could burn and some to sell, through at your back door, free of cost. —Tit-Bits.

A year ago 1,262 women were enrolled in the German universities; now, in consequence of restrictions and discriminations against them, the number is but 737.

A Demonstration of What Chamberlain's Colic, Cholera and Diarrhoea Remedy Can Do
"One of our customers, a highly respected citizen of this place, had been ten years a sufferer from chronic diarrhoea," writes Walden & Martin, druggists, of Enterprise, Ala. "He had used various patent preparations and was treated by physicians without any permanent benefit. A few months ago he commenced taking Chamberlain's Colic, Cholera and Diarrhoea Remedy and in a short time was entirely cured. Many citizens of Enterprise who know the gentleman will testify to the truthfulness of this statement." For sale by all druggists.

Slave
To Morphine From Doctor's Orders.
Habit Worse Than the Disease.
Dr. Miles' Nervine Cured Me.

When the nervous system has been shattered by the use of deadly drugs there is nothing to equal Dr. Miles' Nervine in restoring it to health and normal activity.

"I feel so grateful for what Dr. Miles' Restorative Nervine has done for me that I must tell it for the sake of humanity that suffers as I have. During the three years I suffered from nervous prostration I found no relief except when doctors gave morphine. To get rid of suffering I took morphine myself as it was the only thing that would give ease, and now you, who point with scorn at morphine using, how could you, when in such agony, knowing it about the only thing that would give relief, resist it? I knew it was a terrible habit and I knew of its deadly grasp, but I never fully realized its significance until I had used it a number of months. Oh, the misery of being addicted to such a habit. I resolved then and there to quit it and resolved I would never be a slave to any such demon. About this time I happened to notice Dr. Miles' Restorative Nervine advertised and ordered a bottle. After using five bottles I can truthfully say I am cured of using morphine. Now, however much persons may doubt it, God is my witness I am cured. This testimonial is unsolicited but I feel it my duty to give it for the benefit of the suffering."—MATTIE PHILLIPS, Prescott, Ark.

BEAUTY AND STRENGTH
Are desirable. You are strong and vigorous, when your blood is pure. Many—men, most—women, fail to properly digest their food, and so become pale, sallow, thin and weak, while the brightness, freshness and beauty of the skin and complexion depart. Remedy this unpleasant evil by eating nourishing food and taking a small dose of Herbine after each meal to digest what you have eaten. See at H. G. Pangburn & Co.'s.

PRESIDENT LOUBET IMITATES ROOSEVELT

MARSEILLES, April 14.—President Loubet arrived from Paris on his way to Algeria after receiving continuous ovations along the route.

During the day M. Loubet made several short speeches, mainly expressive of his sturdy republicanism.

Only one minor disturbance was reported. This was between a group of socialist agitators and a number of adherents of the army.

CHATTANOOGA, Tenn., April 14.—The progress in southern industrial development for the week just closed as reported by the Tradesman, includes the following new organizations as among the most important:

Arkansas—Little Rock, \$5,000 stove factory; Camden, \$5,000 stove factory; Zinc, \$50,000 mining company; Siloam Springs, \$10,000 wood fibre company.

Louisiana—Wah, telephone system; Morgan City, \$15,000 fertilizing and manufacturing company; Rayne, electric light plant, and an oil company; Coifax, \$8,000 brick works.

Texas—Dallas, bridge works, and \$100,000 candy and cracker factory; Bay City, \$300,000 canal company; Beaumont, \$50,000 oil company, and \$5,000 gas and light company; Orange, \$20,000 construction company; Smithville, \$20,000 telephone company; Arlington, laundry.

SAVE THE LOVED ONES

Mrs. Mary A. Vliet, Newcastle, Colo., writes: "I believe Ballard's Horehound Syrup is superior to any other cough medicine, and will do all that is claimed for it, and it is so pleasant to take. My little girl wants to take it when she has no need for it."

STREET CAR DIFFICULTY

MAIN STREET CAR BLOCKED FOR HOURS

TO MOVE A HOUSE

CONTRACTOR WOULD CROSS THE MAIN STREET TRACKS, BUT COMPANY OBJECTS

AN INJUNCTION IS SOUGHT

Northern Texas Traction Officials Obtain Restraining Order in Seventeenth District Court to Prevent J. H. Fitzgerald From Carrying Out His Intentions

A two-story frame house squatting in Main street at Second, surrounded by a large crowd and interrupting traffic on the city and interurban lines of the Northern Texas Traction Company was the interesting condition that prevailed in Fort Worth for five hours today.

J. H. Fitzgerald, contractor, was moving an eight-story frame house owned by William Boaz from Fifth and Throckmorton streets to a point on Samuels avenue. The street car company attempted to stop him from raising the heavy wires on Main street in order that the big house might be hauled under them—and then the hitch came.

The street car people made a show of force and three of its men attempted to unhitch the horses that were drawing the house. W. D. Dill, one of Mr. Fitzgerald's employees was driving the horses and he declined to have them unhitched. He said that one of the three men made a bluff at drawing a revolver, but did nothing more than to make a movement toward his pocket. Dill stood his ground and the three men withdrew and left the argument in abler hands.

ATTORNEYS ON SCENE

Messrs. Capps and Canty, attorneys for the traction company, and F. V. Crandall, purchasing agent of the company, arrived on the scene early. The house by this time was on the tracks on the west side of the street and right up against the heavy "figure 8" wire.

Traffic was stopped on both tracks by the cable to which the horses down Second street looked. Rusk wires hitched. After the tie-up had prevailed for an hour a big car came along carrying mail and this was permitted to pass, as Mr. Fitzgerald entertained no idea of mixing up with Uncle Sam.

Mr. Fitzgerald says he offered to stop work until midnight providing the traction company would pay for the time of his men. Purchasing Agent Crandall says that an agreement as to the amount to be paid had been reached, but that Mr. Fitzgerald refused to sign the agreement of the company to fix up the matter. Mr. Fitzgerald said that he was willing at any time to stop work if the company paid him for the time of his men.

A Prominent Newspaper Business Manager Who Used

Paine's Celery Compound

Says: "There is Nothing Else Which So Well Restores Vitality to the System"

"Worn and sick in body and mind" is the unfortunate condition of a vast army of our American people, young and old, in the springtime. The strenuous life of business, professional and literary men and women—their worries, cares and anxieties, all contribute to weakness and physical ailments that manifest themselves to an alarming extent as spring advances.

W. H. PEEDAN.

Tired and deathly feelings in the morning, sluggish and poisoned blood, defective digestion, constipation, kidneys and liver unable to perform their functions—all tend to make life a heavy burden. Men and women should commence this very day to exercise the God-given quality of common sense and use Paine's Celery Compound, the one and only reliable spring health builder.

Mr. W. H. Peedan, business manager of the "Globe-Gazette," Mason City, Iowa, says: "I feel impelled by a deep sense of gratitude to express how much I have benefited by Paine's Celery Compound; it has made me a new person. There is nothing else which so well restores vitality to the system."

The Hon. Edward McKenny, Jefferson City, Mo., says: "Paine's Celery Compound is the great national remedy. I can cheerfully recommend it."

GO INTO COURT

Messrs. Capps & Canty went into the Seventeenth district court and obtained a restraining order to prevent Fitzgerald from proceeding. This stoppage the house on the company's tracks, Fitzgerald declined to move back off the tracks and the attorneys went back to Judge M. E. Smith and instituted mandamus proceedings to obtain an order from the court requiring the house to be moved off the tracks.

Meanwhile traffic was delayed. Mr. Fitzgerald engaged the services of Judge D. McLean and Walter Scott to uphold his contention in court. He holds that he has a permit from the council and has furnished the required bond to move the house. Under the ordinance he is required to give the company six hours notice of his intention to raise the wires.

He gave this notice yesterday. "The company accepted the notice and even had a man at Second and Houston streets this morning to assist me in passing the house under the wires on that crossing," said Mr. Fitzgerald. "Then when I reached Main street the company stepped in and stopped me. I offered to hold off if I was compensated for my lost time. Mr. Capps saw no reason why I should be paid anything and, feeling that I was within my rights, I resolved to go ahead."

CRANDALL EXPLAINS

Purchasing Agent Crandall explains the action of the company by saying that the moving of a house under the wires on Houston street is a much simpler task than the moving of one under the heavy interurban wire on Main street.

"This is the 'figure 8' wire—the heaviest used for trolley purposes in the United States," he said today. "It carries a voltage of 500. If this wire should break in one place it would fall to the ground all the way down Main street, and many persons might be killed. It is heavy and is tightly drawn. It is held up by clamps which fit into the top of the figure 8. When the wire breaks and the ends fall the strain breaks the next clamps in both directions and when these give the next nearest clamps are broken, and so on all the way down and up the street on which the first break occurs. We offered to cut the wires and move the house with our own men if Fitzgerald would wait until midnight, but he refused to do this. The carnival at Dallas makes the traffic on the interurban unusually heavy today so that the loss to us in case of a break in the wire would be serious. You see in case of a break the whole system would be tied up."

A full-sized quartz mining claim is 600 feet wide and 1,500 feet long, thus being approximately twenty acres in area.

MANUFACTURERS GATHER IN NEW ORLEANS

NEW ORLEANS, La., April 14.—Men representing the leading manufacturing institutions of the United States to the number of nearly 1,000, gathered in Tulane Hall today, when the eighth annual convention of the National Association of Manufacturers of the United States was formally opened.

The gathering was called to order by Vice President Forch. Governor Heard and Mason Cadeville welcomed the visitors, and President David M. Parry of Indianapolis responded. Following the president's address came the appointment of committees, and then President Parry read his annual report. In the course of his remarks he referred at length to the defeat of the eight-hour bill before congress and laid great stress upon the necessity of the manufacturers sticking close together in order to withstand the unjust demands of organized labor bodies. The reports of the secretary, treasurer and various committees followed. The total membership, as shown, is more than 1,500, scattered among nearly forty states. Pennsylvania leads the states in membership, with New York, Ohio and Indiana following closely behind.

Toledo, Ohio, has a large delegation on hand, prepared to make a hard fight to secure next year's convention of the association. Pittsburg and one or two other cities are also applicants for the gathering.

FINE POLO STALLION BROUGHT TO STATE

Sid Martin was in the city Wednesday to receive a fine polo stallion which was purchased by William Anson in Boston at a cost of \$1,000, and will be used for breeding purposes at his South Concho ranch. The animal was shipped by express from Boston at the expense of the delivery at San Angelo being \$18. Mr. Martin left Thursday night with the horse for the ranch at the head of South Concho—San Angelo Standard.

CIGAR FIRM GIVES AWAY REAL DOLLARS

SAN ANTONIO, Texas, April 14.—The Wolf Cigar Stores company instituted in their stores yesterday throughout the state a novel sale under the terms of which each purchaser of a dollar's worth of merchandise shall receive in return a silver dollar. BRAKEMEN AWARDED DAMAGES FOR INJURY

EL PASO, Texas, April 14.—Word has been received by W. W. Swearingen that the United States court of appeals, sitting at New Orleans, has affirmed the decision of the lower court, which awarded him \$7,500 damages against the Texas and Pacific Railway Company last fall. Swearingen at the time of getting hurt by the railroad was employed as a brakeman and while standing on the ladder of a freight car in the El Paso switching yards he came in contact with a scale box from which he received injuries of a permanent character about his spine and side.

TRIBAL POLICE TO COLLECT GRAZING TAX

ARDMORE, I. T., April 14.—The tribal police will begin immediately to collect a tax of 25 cents a head on stock grazing in the Indian Territory, assessed by the tribal government and just declared valid by the court of appeals at Washington. Stockmen who still question the legality of the tax will, it is stated, take the case to the United States supreme court. Others will settle rather than have their stock seized.

FINDS MAN'S BODY LYING IN BARREL

(By Associated Press.) NEW YORK, April 14.—A murder was discovered early this morning by the finding of the body of a man, apparently an Italian, in a barrel on East Eleventh street, near the docks.

The man's throat was cut from ear to ear, and the body was still warm. A scrub woman on her way to work noticed the barrel on the sidewalk, and saw hanging on it a man's coat, soaked with blood.

It is supposed somebody intended to throw the body into the river after bringing it there in a wagon, but found the door closed and dropped the load in the street in a hurry, fearing discovery.

J. A. TAYLOR, A PROMINENT TERRITORY MAN, GROWS PEACHES

Discusses the Ravages of Boll Weevil and Predicts a Greater Loss to Cotton Crop of Texas This Year

Prominent among the members of the Kansas City packers' excursion to Texas, who were in the city last evening, was J. A. Taylor, proprietor of the Wynnewood wholesale nursery and fruit farm, near Wynnewood, I. T. Mr. Taylor is also president of the Territorial Horticultural Society, secretary of the Southwestern Nurserymen's Association and chairman of the fruit committee of the St. Louis World's Fair in 1904. He is a firm believer in the future of Texas as a fruit and vegetable state, himself boasting the largest peach orchard in the state. In Jasper county Mr. Taylor has 800 acres in Elberta peaches, from which he expects to realize 500 cars annually after the first five years.

BOLL WEEVIL AND COTTON

Mr. Taylor says the farmers of Texas will be compelled to turn their attention to something besides cotton if the ravages of boll weevil, which have made such inroads on the cotton crop, increase as rapidly as they have started. Last year it is estimated that the cotton crop in this state was damaged 15 per cent, which means, in round numbers, thirty million dollars. This season it is estimated that the damage will reach 20 per cent, and the evil is spreading rapidly.

RECOMMENDS EARLIER VARIETY

"The only remedy I see in sight for freeing the state of the little pest is to endeavor to cultivate an earlier maturing cotton, which, I believe, can be done in this state. Boll weevil came into Texas from Old Mexico and has gradually been making its way across the cotton fields of the state until it has finally covered the greater portion of Texas. As far as I know, it has not been reported in the Indian Territory, although recently I saw an article in a territory paper relative to a farmer in the vicinity of Deadman, who reports that he has found a quantity of eggs deposited in the stalks of cotton in his field, and that he does not know what they are. I would not be surprised to learn that it is boll weevil.

DRUNKEN MEN TAKE PART IN TRAGEDY

CHATTANOOGA, Tenn., April 14.—News has reached this city of a fatal tragedy which occurred near Ringgold, Ga., a few miles south of here. Joe Phelps and Bud White, while under the influence of liquor, quarreled and both drew their pistols. Phelps fired first; instantly killing White. The former fled and the sheriff of Walker county is pursuing him with a posse.

Two Million Dollars Represents the Sum Expended for Gifts to the Young People—The Groom's Income is at Least Half a Million Annually

NEWPORT, R. I., April 14.—Crowds began to assemble in front of Arleigh villa as early as 9 o'clock this morning and the services of a considerable force of police were necessary to keep Bellevue avenue clear of the many men, women and children curious to obtain at least some outward glimpses of the fashionable wedding of Reginald Vanderbilt and Miss Kathleen Neilson.

Almost from the break of day the managing decorators, florists and caterers had been quietly though none the less busily employed inside the magnificent cottage, putting the finishing touches to the arrangements for the ceremony and the breakfast and reception that were to follow.

AT HIGH NOON Freshly at 12 o'clock Nathan Franko waved his baton and thirty members of the Grand orchestra stationed behind a bank of palms in one corner of the white and gold parlor struck up "The Cortège Nuptial" from "Romeo and Juliet."

THE BRIDE'S GOWN The bride's gown was of delicate chiffon of the finest texture, over ivory white satin as its groundwork.

During the ceremony selections from "Romeo and Juliet" were played softly, while the bridal party filed out of the parlor into the main floor where there was played the grand march from "Aida," by Tchaikovsky.

ROME THEATER IS DESTROYED BY FIRE

By Associated Press. ROME, N. Y., April 14.—A score of people who had crowded inside the fire limits were injured by the debris when the massive walls of the Washington theater fell early this morning, after a fire which gutted the building and destroyed property valued at between \$125,000 and \$150,000.

HOTEL THREATENED The fire broke out in the theater about 3 o'clock this morning, the cause being unknown. The flames quickly spread to the Arlington hotel, which is the adjoining building, and the frightened guests were roused from their beds by the flames which threatened death to the entire number.

WALLS FALL Shortly afterwards the walls of the theater fell and the flying bricks injured a number of those who were standing too near, but no fatalities were reported.

A DOUBLE TRAGEDY NEAR ARLINGTON

MRS. WILL PHILLIPS OF JOHNSON STATION MURDERED ABOUT TEN O'CLOCK THIS MORNING NEAR HER FATHER'S HOME

HUSBAND SHOT HER AND KILLS SELF

THEY HAD SEPARATED AND SHE WAS LIVING WITH FATHER—HUSBAND WENT TO SEE HER PREPARED FOR TROUBLE—WOMAN GOES TO WARN HER FATHER THAT SHE IS IN DANGER AND IS MURDERED AS SHE RETURNS

(Special to The Telegram.) ARLINGTON, Texas, April 14.—One of the most cold-blooded murders in the history of Tarrant county was committed this morning on the farm of William Yates, near this place, when a farmer named Phillips deliberately killed his wife, who was Yates' daughter, shooting her as she was returning from the field, whither she had gone to warn her father that Phillips was threatening trouble.

Further details of the murder were learned by the posse, which reached the Phillips' farm this afternoon. It seems that Phillips had gone to the home of Yates this morning and asked to see his wife, Mrs. Yates, mother of the dead woman, refused to let him see her.

GOES TO SEE HER Early this morning Phillips left his home and went to see his wife. He carried a heavy double-barreled shotgun and evidently went to make trouble. Mrs. Phillips was at the house when he reached the Yates farm, but her father was plowing in the field.

WARNS FATHER She hurried to the field, where her father was working and told him that Phillips had come to see her and that he was looking for trouble. Then she went back to meet her husband.

SHOT FROM AMBUSH From the story told by the father, Phillips was waiting for her as she came back from the field. Without warning he fired, the charge of shot taking effect and killing her instantly. Phillips immediately fled, going, it is said, to the home of his own father. From there trace of him has been lost.

FATHER BRINGS NEWS When the horrified father reached the side of his daughter, he was already too late. The body of the unfortunate woman was taken to his home and Yates then hurried to Arlington to notify the authorities.

TOWN STIRRED When the news of the circumstances of the shooting became known the whole town was stirred. The sheriff's office at Fort Worth was notified immediately and deputies at once left for the scene of the tragedy.

THE DEAD WOMAN WAS WELL LIKED BY those who knew her, and while Phillips had at times a bad disposition, he was not known as a dangerous man.

NORTHERN COMMISSION MEN RETURNING FROM TRIP THROUGH TEXAS ARE ENTHUSED OVER PROSPECTS AND CONDITIONS IN THE STATE - WHAT THE LADIES THINK OF TEXAS AND HER PEOPLE

J. A. Taylor-The fruit and truck growing in Texas is only in its infancy. The large city population of the north and west is ready to take all the truck and fruit that can be grown in Texas, but it must be of good quality, picked and packed in the best possible manner, in the standard package for the class of products so packed. Of course, they cannot expect them to attain the highest standard in one year, but they must profit each year by the mistakes of the past. The peach and tomato growers of east Texas have already attained this high standard and are reaping their reward in fancy prices for their products.
C. E. Walker-I think Texas has the best fruit and vegetable prospect of any state in the union. It has the railroad facilities, climate and soil. The thing most needed is education among the growers.
A. B. Thoman-From my observation there are great possibilities for the people of Texas. They are the most friendly people on earth. Go to Texas, see them, and be convinced.
W. L. Grush-The most noticeable thing to me is how much more can be done, and how slow people from other states are to grasp the opportunities, while land is cheap. It is a sure thing to get rich, even if one has only limited capital.
T. E. Armstrong-I think Texas has wonderful resources, and there is no limit to what can be done. The time has arrived when people in general have made up their minds that they must grasp something besides cotton, and there is no state where such a diversity of crops can be produced as in Texas.
W. W. Harnden-I think Texas has the greatest natural resources of any state in the union. Don't discourage immigration.
I. N. Barriek-Texas will some day grow enough fruits and produce to feed all America.
J. W. Brown-Texas is fast becoming the early garden for the northern markets.
W. G. Campbell, Jr.-I will be willing to swear to almost anything good that may be said of Texas. Her hospitality, certainly cannot be exceeded.
Mrs. W. L. Grush-Texas has a magnificent state, not alone to those who live here but to visitors 'tis supreme. Her flowers are the loveliest; her soil the richest, and her people the most hospitable in the world.
Mrs. J. W. Brown-The beauty of Texas flowers is equaled only by its lovely women.
Miss Pearl Barriek-In Texas, the girls are the sweetest; the receptions the neatest, in Texas.
The future of Texas as an agricultural and truck producing state is convincingly set forth in the voiced contention of members of the Kansas City packers' excursion to this state, who returned home via Fort Worth last evening.
The men in the party have personally devoted time and money in making a more thorough investigation of the Texas field, and their wives and daughters accompanying them secured the same information with which all were returning.
There were over fifty in the party who made the journey across the state to Galveston in a special Santa Fe train, under the direct supervision of Horticultural Agent Hill of that road. The party comprised commission merchants from all parts of the east and north. The excursion started from Kansas City, but after reaching Galveston, it divided, twelve of the number returning via Dallas and Fort Worth, and other members returning home over various routes, the special having been abandoned at Galveston.
FORM AN ASSOCIATION
While at Galveston last Saturday the Packers' Trade Extension Association was formed. The object of the organization is to promote annual business trips to the fruit, produce and vegetable growing sections of Texas, and to bring together the dealers, growers and transportation companies for the mutual benefit of all interests.
The following are the officers of the newly formed association: President, I. N. Barriek, Kansas City; vice president, W. W. Harnden, Kansas City; secretary and treasurer, W. L. Grush, Kansas City; board of directors, Dan G. Coyn, Chicago; G. W. Brown, Des Moines, Iowa; G. W. Myers, Cleveland, Ohio; A. B. Thomas, Joplin, Mo.; J. A. Taylor, Wynnewood, I. T.; B. C. Vining, Mount Selma, Texas; L. C. Hill, Rose's Park, Ark.; T. Armstrong, Topeka, Kan.
CAME ON INTER-URBAN
The members of the packers' excursion returning home via Fort Worth yesterday, arrived in the city over the inter-urban, from Dallas, at 4 o'clock, and at 8:30 left on the Santa Fe for Kansas City. While here they were guests at the Worth hotel. Mr. Barriek, in relating the incidents of the journey across the state, said that every member of the party had become so favorably impressed with Texas that they all wanted to come down here to live. He said there had been no limit to the hospitality shown them. They were met at various stations with brass bands

and citizens' committees, and feasted and entertained royally. "The trip this year was made a little later, but it was the first one of this nature, and we will know better how to proceed next year," he said. "We were just getting acquainted at this time, but next year we will come to Texas much earlier and in much larger numbers. We will come before the crops are ready for market and contract for them in advance. Northern vegetable and truck men appreciate the future of Texas in this particular, and will lend valuable aid in developing the country of that part devoted to raising these commodities.
"When we arrived at Alvin we found the 250 members of the Truck Growers Association and 1,900 citizens of that place at the depot to welcome us. We went to the opera-house, where we heard addresses and were banqueted on strawberries which are being harvested at Alvin in such quantities, at present. On the following day we paid a visit to the berry fields, from which are being shipped to northern markets one carload a day. This crop will last until June.
"Mr. G. Edmondson, who found 200 truckers and about 1,800 acres in melons, tomatoes, cantaloupes, peaches and plums.
"Mr. Edmondson has forty-five growers and 250 acres in truck.
"Yellow Prairie has forty-five growers and 300 acres in truck.
"Calwell boasts 150 members of the Truck Growers' Association, and has a large acreage in cultivation.
"Mr. Somerville, twenty-five growers have 700 acres.
"Mr. Brenham, 150 growers have 1,200 acres, 1,000 of which are in potatoes. The first potatoes are nearly ready for use and after May 5 it is estimated that fifteen cars a day will be shipped from that place until the crop is exhausted.
"New POTATOES AT HOUSTON
"Houston received her first new potatoes last Saturday. They were raised by F. G. Edmondson of Crockett, Texas, and were shipped to Z. A. Ziegler, a commission merchant of that place. The potatoes were about the size of hen eggs, and sold for \$1.50 per peck.
"Forty growers at Hitchcock will ship from forty to fifty cars of berries this season. The price of berries last week ranged from \$2.50 to \$3.75 per twenty-four quart crate.
"After passing through various sections where fruit and truck growing has become more or less developed, we went on down to Galveston to spend Sunday. Here the Santa Fe railroad chartered a boat and gave the party a ride on the gulf. We were greatly interested in all we saw. The sea wall an immense undertaking, but is apparently having more to do towards restoring confidence and contentment in Galveston than anything else that has been done since the flood.
"Referring to the organization which was perfected during the stay of the party at Galveston, Mr. Barriek said that the membership will include commission men, railroad men, shippers, seed men, refrigerator men, package men and every one who is at all interested in the production and transportation and sale of vegetables and truck.
"Mr. Barriek said he has a development in which there is so great an opportunity in this line, "has been shut off from the consumption of the north by the fact that the sales had been made largely to irresponsible parties, and also by the fact that they do not know how to properly pack their produce for the markets. It is a fact that as soon as the Texas truck grower learns to grow stuff properly and to pack it according to regulations, he will begin to make money, and lots of it. These are some of the mutual advantages which we hope to obtain by this organization, and by our getting together in this manner.
"Mr. Barriek said that the diversity of crops will result from our visits to Texas. Various markets will be represented, and in the future contracts will be made by representatives from the northern markets with truck men to grow certain crops and certain quantities, all of which will be practically sold before the seed is sown. In fact, in some instances, it is expected that the seed will even be furnished, in cases where a certain variety of a vegetable or fruit is desired.
"Mr. Barriek said that the conditions which will develop rapidly from this on, and all for the greater benefit of Texas as a state."

These are some of the mutual advantages which we hope to obtain by this organization, and by our getting together in this manner.
"Mr. Barriek said that the diversity of crops will result from our visits to Texas. Various markets will be represented, and in the future contracts will be made by representatives from the northern markets with truck men to grow certain crops and certain quantities, all of which will be practically sold before the seed is sown. In fact, in some instances, it is expected that the seed will even be furnished, in cases where a certain variety of a vegetable or fruit is desired.
"Mr. Barriek said that the conditions which will develop rapidly from this on, and all for the greater benefit of Texas as a state."
PERSONNEL OF THE PARTY
The following were the members of the party, in Fort Worth last evening: W. Brown, manager of the C. O. D. Produce Commission Company, of Des Moines, Iowa; W. W. Harnden, of the Harnden Seed Company, Kansas City, Mo.; I. N. Barriek, of the Barriek Packer-Building Company, Kansas City; T. E. Armstrong, of the W. O. Anderson-Armstrong Company, Topeka, Kan.; C. E. Walker, of the Walker-Brewster Grocery Company, Kansas City; J. A. Taylor, proprietor of the Wynnewood Wholesale Nursery and Fruit Farm, of Wynnewood, I. T.; W. G. Campbell, Jr., of the Western Fruit Grower, St. Joseph, Mo.; A. B. Thomas, Joplin, Mo.; Mrs. W. L. Grush, Kansas City; Mrs. J. W. Brown, Des Moines, and Miss Pearl Barriek, Kansas City.

and citizens' committees, and feasted and entertained royally. "The trip this year was made a little later, but it was the first one of this nature, and we will know better how to proceed next year," he said. "We were just getting acquainted at this time, but next year we will come to Texas much earlier and in much larger numbers. We will come before the crops are ready for market and contract for them in advance. Northern vegetable and truck men appreciate the future of Texas in this particular, and will lend valuable aid in developing the country of that part devoted to raising these commodities.
"When we arrived at Alvin we found the 250 members of the Truck Growers Association and 1,900 citizens of that place at the depot to welcome us. We went to the opera-house, where we heard addresses and were banqueted on strawberries which are being harvested at Alvin in such quantities, at present. On the following day we paid a visit to the berry fields, from which are being shipped to northern markets one carload a day. This crop will last until June.
"Mr. G. Edmondson, who found 200 truckers and about 1,800 acres in melons, tomatoes, cantaloupes, peaches and plums.
"Mr. Edmondson has forty-five growers and 250 acres in truck.
"Yellow Prairie has forty-five growers and 300 acres in truck.
"Calwell boasts 150 members of the Truck Growers' Association, and has a large acreage in cultivation.
"Mr. Somerville, twenty-five growers have 700 acres.
"Mr. Brenham, 150 growers have 1,200 acres, 1,000 of which are in potatoes. The first potatoes are nearly ready for use and after May 5 it is estimated that fifteen cars a day will be shipped from that place until the crop is exhausted.
"New POTATOES AT HOUSTON
"Houston received her first new potatoes last Saturday. They were raised by F. G. Edmondson of Crockett, Texas, and were shipped to Z. A. Ziegler, a commission merchant of that place. The potatoes were about the size of hen eggs, and sold for \$1.50 per peck.
"Forty growers at Hitchcock will ship from forty to fifty cars of berries this season. The price of berries last week ranged from \$2.50 to \$3.75 per twenty-four quart crate.
"After passing through various sections where fruit and truck growing has become more or less developed, we went on down to Galveston to spend Sunday. Here the Santa Fe railroad chartered a boat and gave the party a ride on the gulf. We were greatly interested in all we saw. The sea wall an immense undertaking, but is apparently having more to do towards restoring confidence and contentment in Galveston than anything else that has been done since the flood.
"Referring to the organization which was perfected during the stay of the party at Galveston, Mr. Barriek said that the membership will include commission men, railroad men, shippers, seed men, refrigerator men, package men and every one who is at all interested in the production and transportation and sale of vegetables and truck.
"Mr. Barriek said he has a development in which there is so great an opportunity in this line, "has been shut off from the consumption of the north by the fact that the sales had been made largely to irresponsible parties, and also by the fact that they do not know how to properly pack their produce for the markets. It is a fact that as soon as the Texas truck grower learns to grow stuff properly and to pack it according to regulations, he will begin to make money, and lots of it. These are some of the mutual advantages which we hope to obtain by this organization, and by our getting together in this manner.
"Mr. Barriek said that the diversity of crops will result from our visits to Texas. Fire-Fighter's Story How the Strongest Man in the Philadelphia Fire Department, Once the Weakest, Gained His Strength and Health by Using Swamp-Root, the Great Kidney and Bladder Remedy.

HERE'S the story of a man who was near death's door and was saved by using Swamp-Root. If he came to you and said: "My friend, do you suffer with kidney trouble? Does your back ache? Do you feel bad all over and can't tell exactly what's the matter? Have you tried medicines or doctors without benefit? Are you about discouraged? Then do as I did, and get well—Use Dr. Kilmer's Swamp-Root! I know it will cure you. If he did this, would you believe it? Wouldn't you, if you were a sufferer, follow his advice, knowing that he bore living, sentient, vital testimony to the wonderful virtues of this great natural remedy?"

WELL, that is just what Hugo Hutt, strongest man in the Philadelphia Fire Department, hero of a hundred battles with the flames, is doing now through the medium of this newspaper. Hugo Hutt has been connected with the Philadelphia Fire Department for the past four years. He is stationed at the engine house at Nineteenth and Callowhill streets. Mr. Hutt is known as the strongest man in the Fire Department and has taken many prizes at athletic tournaments for his prowess in the field of sports.

He is also an ex-sergeant of the United States Infantry, having for several years been stationed at Fort Niobrara, Neb. Mr. Hutt also served with the Sixth Pennsylvania Regiment during the Spanish-American war.

HUGO HUTT, PHILADELPHIA FIREMAN.

HERE is the story as he gave it to a special representative of Philadelphia's Great Newspaper, "The North American": "You will hardly believe it when I tell you there was a time when my body was in such a diseased condition that my relatives and friends would have, at no time, been surprised to learn of my death. It was all due to kidney trouble, for which I could secure no relief. I was under the care of my family physician for a number of years, but he was unable to do me any good. I also consulted two noted specialists on kidney diseases, but they were unable to give me more than temporary relief. I had already made application to join the army, but was turned down on account of my bad physical condition.

"I was advised to try that greatest of all remedies—SWAMP-ROOT. "I wrote to Dr. Kilmer & Co., at Binghamton, N. Y., for a sample bottle, and its effect upon me was so noticeable that I went immediately and bought a supply from my druggist, with the result that in a comparatively short time I had entirely recovered and became the man you see me now.

"I served a number of years in the army, and for the past four years I have been connected with the Philadelphia Fire Department. My work, both in the army and fighting fires in Philadelphia, has been of the most arduous, and work that I could not do, did I not have a strong physique.

"I do not know what the words 'Kidney Trouble' mean now, and do not expect to. I cannot speak too highly of Swamp-Root. A few bottles of this great remedy did more for me than a dozen physicians could. (Signed) HUGO HUTT, 855 Stillman St., Philadelphia, Pa.

Dr. Kilmer's Swamp-Root NATURE'S GREATEST AID TO THE SUFFERING

home-grown vegetables at an early date. A hotly contested game of baseball Sunday afternoon at the East park, between the Mexican and Negro teams, was a feature of enjoyment to all who liked good ball playing. The latter team scored the victory by one run. The teachers of Erath county have received a communication from the teachers of Somervell county, inviting Erath and Hood counties to join with Somervell and hold a large normal at Glen Rose, Thomas B. CATARH CURED BY DRY AIR Hyomei Medicates the Air You Breathe, Kills the Germs and Cures the Disease Hyomei cures catarrh thoroughly and permanently because it reaches the smallest air cells in the head, throat and lungs, kills the germs causing the disease and drives it from the system. Hyomei goes to the root of the disease, destroys the cause, and makes permanent cures which can be effected in no other way. Breathe it for a few minutes four times a day and benefit will be seen at once. Continue this treatment for a few weeks and Hyomei will have cured you. The Hyomei in the inhaler furnished with the outfit dries and sterilizes the air you breathe. It is a local and direct treatment for eradicating all catarrh germs in the mucous membrane and tissues, and in this way cures catarrh in any part of the system. Used in connection with Hyomei Balm, it has been successful in curing the worst and most deep-seated cases of catarrhal deafness. A. W. Clark of Everett, Mass., writes: "I have spent a fortune on different treatments for catarrh and could not hear across the table. After using Hyomei and Hyomei Balm for eight days I can hear as well as ever."

Be Careful of the Children THE HERRICK. OLD STYLE. Do you honestly believe your zinc-lined refrigerator is a safe place to keep the milk you feed the precious baby? Read what Dr. Cyrus Edson, M. D., Sanitary Superintendent of the New York Board of Health, says on the subject below. "THE SKELETON IN THE CLOSET." "Her ice-box became the most dangerous thing in the house. This is true with such delicate foods as milk. There is a marked increase in the number of deaths from diarrhoeal diseases among children, so soon as the hot weather sets in, during which it is necessary to place the milk in the refrigerator. Children form the most delicate thermometer of health. Being more delicate, having less strength, being almost wholly without that reserve force of life we call stamina, they being quickly the evil effects of any cause. On the other hand, milk being a food in which the food elements are adjusted for digestion more perfectly than in any other, it will purify more quickly than any other."

MATCH FACTORY SOON MAY COME: Captain E. B. Paddock this morning received a letter which encourages him to believe that within a short time a large match factory, employing from 200 to 400 hands will be started in Fort Worth. It will be capitalized at \$100,000. The citizens of this city will be asked to subscribe for a portion of the stock—not over \$25,000, and perhaps less.

A DANGEROUS RISK.

You would say that the man who with his little children, attempted to cross the street in front of a team of runaway horses, was not only foolish, but criminally careless.

A man who would not use every precaution for the safety of his family and who would not avoid everything that might suggest danger to them, is an unnatural father and a defective citizen.

And yet there are Fort Worth homes into which the food that comes daily, may come from places where the sanitary conditions threaten imminent peril.

The man who permits his children to drink milk that may have come from poorly kept cows and may have stood in places where the air fairly teemed with disease germs, is criminally thoughtless. If he take no precaution that the food they eat be pure, he is running a dangerous risk.

City Physician Chambers has declared that Fort Worth ought to have a milk and food inspector. A doctor's advice is worth heeding, and not only worth heeding, but is such that it must be obeyed.

The safety of the public health demands it as an insurance against disease.

Delay's dangerous risk is never worth taking. The city council should be prepared to act at its next session, and effectively dispose of the danger at once.

A "DOOR OF HOPE."

It is a beautiful name the ladies of El Paso have chosen for the modest building in which they will soon begin the work of caring for the fallen women of their city.

Some time ago about sixty ladies got together and decided that something should be done for the women who have given up everything for a life of shame.

They decided that working was better than passing resolutions. They raised enough money to pay for the renting of a modest six-room cottage. They will hire a matron and in a short time, quietly, but effectively, the work will be begun.

In every Texas city there is a class the law cannot reach. Only the loving sympathy of woman for woman can avail. Fort Worth needs an institution where just such a work can be fostered and carried out. The city has many noble women who would aid such a work earnestly and effectively. The need of a home like the one El Paso will soon open has often been suggested, and just now Rev. I. Z. T. Morris, whose self-sacrificing efforts in behalf of the little children of the city and elsewhere have been so successful, is at work on a plan for a rescue home.

He has asked the interest and support of the church people of Fort Worth and if some definite plan of action can be decided on, the movement is one that is worthy of the support of every good citizen who believes that it pays to help other people get back into a better life.

Coming though it does, so near the end of the school year, the paper read before the teachers of Fort Worth on hygiene in the schools, especially as relates to the eye, is timely and practical. There is time between now and the opening of the next session to remedy the defects in seating which are responsible for a large amount of trouble with children's eyes. The tests suggested by Dr. Boyd for teachers and parents are simple and the advice to parents is practical. In these days when even the newspapers are printed clearly and on good white paper, much of the eye trouble with which children are affected can be

blamed to nothing but carelessness, either on their own part or on the part of those who have them in charge.

The first shipment of Texas cattle for South Africa has cleared Delagoa bay and is now on its way across the ocean. Representatives of the Boers are already in Texas making arrangements for the settlement of colonists from their native land in this state. If South Africa is willing to buy our cattle and at the same time send over valuable colonists, Texas is the gainer both ways.

The lower house of the legislature is justly indignant at the story of alleged corrupt acts on the part of its honorable body, printed in a Texas newspaper. By way of severe punishment it is respectfully suggested that the house compel the offending publication to prove that it has done anything at all.

To avoid conviction for murder, it is said, a Hillsboro negro married the state's star witness thus keeping her from giving her testimony. If he can find as easy a way to keep her from throwing that fact up to him the rest of his life, he will be more than lucky.

A London correspondent says that Liverpool and Manchester are figuring over which shall receive the most American cotton. If the capitalists of either one of the two cities, will invest in mills for using Texas cotton in Texas, they will make far more than by warring over the percentage they get on the other side.

Rev. William Henry Milburn, the blind chaplain of the United States senate, is dead. It is he, of whom it was remarked on one occasion of his opening a session of the upper house with prayer, "What a striking example of the blind leading the blind."

A Fort Worth young lady who has returned from a visit to Washington made the discovery while there that the president's favorite expletive was "By George." This is comforting. Think where he might be if it were "By Hen."

Brigham Young, head of the Mormon council, is dead. The thought of the crop of widows' weeds that will be garnered is enough to drive milliners and dressmakers into rhapsodies of ecstasy.

According to conservative estimates it will take at least ten days for the legislature to spend that \$6,000,000. For so long a time needed, it is easy to see that none of the appropriations will go for Easter bonnets.

Princess Louise of Saxony will leave her children's tutor with whom she eloped last fall, and will return to her husband. She evidently has been taught her lesson.

George Gould says that the West will be prosperous for at least another year. Which means that the Gould lines will still continue to pay dividends.

New Jersey bread makers are at work on plans for a trust to embrace property valued at \$2,300,000. As yet however, the proposition is only half baked.

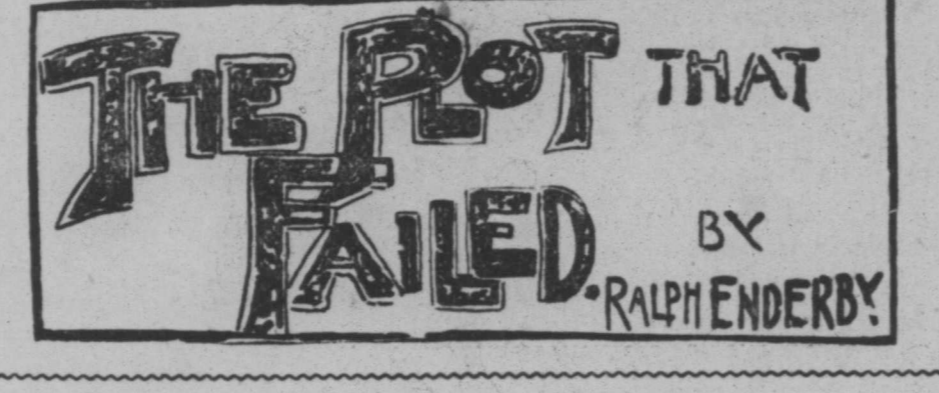

All Fort Worth infants are up in arms at the prospect of the coming Baby Show.

A professor tells this story at his own expense. He was instructing a class of boys about the circulation of the blood, and to make sure that they understood him he said, "Can you tell me why it is that if I stood on my head the blood would rush to my head, and when I stand on my feet there is no rush of blood to the feet?" And then a small boy, after raising for a short time, answered, "It is because your feet are not empty, sir."

"Sure of that?" "Sure as death!" "Hope you're right, my boy! Hope you're right—but I have my doubts."

"Of Kitty?" queried Michael fiercely. "I don't know! Let's change the subject. Come down to my cabin and have a tot—there's no one about."

Never one to harbor malice or hard thoughts, Michael assented, and the two men went below to the mate's cabin.

Up above the roaring of the elements; down below the doing of devil's work. Michael's lips were no sooner put to the glass of spirits and water than he was conscious of something uncanny about it.

There was no delay in its effect. Seemingly to madden and burn like vitriol, it produced an instant sense of suffocation, but fortunately not of blank unconsciousness.

Except the "look-out" in the bows, and the man at the wheel, aft, there was not a soul to see Dick Corbett stagger on to the poop deck with the inert body of Michael over his shoulders.

The crazy steamer rolled and pitched in the swell, so that more than once man and burden were in danger of falling in a heap to leeward. Arrived at the lee quarter boat, Corbett, using all his strength, tried to heave the insensible man into the stern sheets.

Michael, however, roused back to a sense of his position by reason of the motion during his journey on deck on Corbett's shoulders, managed to shake himself free of his intended murderer, grasping him resolutely by the throat.

Corbett, alive to the fact that the easy accomplishment of his design was now impossible, fought with the desperation of a madman.

Then Michael, gathering himself together for one big effort, dealt his opponent a terrific blow between the eyes, and felled him senseless to the deck.

Knowing that he was within five miles at most of the Portuguese coast, he sprang to the davits, let go the tackles of the lee quarter boat, jumped into her and when the rail kissed the water, let the boat down with a run into the boiling sea.

At Tat's Corner Kitty Hazel sits, under the lee of some rocks on the beach, wearily mending her nets.

There are half a score of other women, young and old, working around her, but she speaks to no one, and with the sympathy of their kind they leave her severely alone.

By and by the old man who performs the duties of letter carrier and general postal official in Tat's Corner and its neighborhood, is seen to be hobbling toward the beach.

"What be owd Maartin a doin' 'ere now, I wonder?" said an old dame sitting close by Kitty.

The remark was sufficient to make the girl raise her head.

As she did so the old postman saw her looking at him and waved something above his head.

"Kitty Hazel, it's a message for 'ee," he said, putting the orange colored envelope into her trembling hand.

With feverish eagerness she tore it open.

It was from the house surgeon of a large Liverpool hospital.

"Michael Fenwick, brought here on landing, from Braga, Portugal, is seriously ill. Wishes to see you."

"Kitty," said Michael, sobbing in his weakness like a child, "you will never forgive me for not keeping my promise."

"Yes, dear, I forgive you, for you have suffered most."

"One more question, Kit."

"Well, Michael."

"Dick Corbett—what of him?"

Inflammation of the Bladder

Mr. Michel Blandypos, Secretary Marlowe Club, New Orleans, Who Suffered From Inflammation of the Bladder Cured By the Only Absolute Cure for All Diseases of the Kidney, Liver, Bladder and Blood, WARNER'S SAFE CURE

Mr. MICHEL BLANDYPOS. Gentlemen: It affords me the greatest pleasure to testify to the merits of Warner's Safe Cure, as I consider it was the sole means of restoring me to health.

"SAFE CURE" CURES KIDNEY DISEASE. If you have pains in the back, rheumatism, uric acid poison, rheumatic gout, diabetes, Bright's disease, inflammation of the bladder and urinary organs; scalding pains when you urinate, eczema, jaundice, swellings or torpid liver; if a woman, bearing-down sensation, fainting spells, so-called female weakness, painful periods; these symptoms tell you that your kidneys have been diseased for a long time, for kidney diseases seldom put out such symptoms as the victim recognizes until they have been working several months.

Warner's Safe Cure is purely vegetable and contains no narcotic or harmful drugs. It is free from sediment and pleasant to take. It does not irritate, it is most valuable and effective tonic; it is a stimulant to digestion and awakens the torpid liver. It repairs the tissues, soothes inflammation and irritation, stimulates the enfeebled organs and heals at the same time. It builds up the body, gives it strength and restores energy. You can buy Safe Cure at any drug store or direct. 50 CENTS AND \$1 A BOTTLE. Be sure you get "Warner's Safe Cure"—take no other.

TEST YOUR KIDNEYS. Let some morning urine stand for twenty-four hours in a glass or bottle. If then it is milky or cloudy or contains a reddish, brick dust sediment, or if particles or germs float about in it, your kidneys are diseased.

ANALYSIS FREE. If, after you have made this test, you have any doubt in your mind as to the development of the disease in your system, send a sample of your urine to the Medical Department, Warner's Safe Cure Co., Rochester, N. Y., and our doctors will analyze it and send you a report with advice free of charge to you, together with a valuable book describing all diseases of the kidneys, liver, bladder and blood, and treatment for each disease.

All letters from women, read and answered by a woman doctor. All correspondence in strictest confidence.

Beware of so-called kidney cures which are full of sediment and of bad odor—they are positively harmful and do not cure. WARNER'S SAFE PILLS move the bowels gently and aid a speedy cure.

"Madam, I haf burnt my breeches be-hint me."

"Good gracious," ejaculated my mother, with an involuntary start, in the direction of the professor's coat tails.

"My father interposed tactfully, the professor meanwhile nodding acquiescence: 'You will be glad to know, my dear, that what Professor Schell means by saying he has burned his bridges behind him is that he has leased a house here for a year and has now no choice but to stay.'

"Oh!" exclaimed my mother, greatly relieved. 'How delightful!'

BURNT HIS BREECHES. An eminent Chicago lawyer tells me this story, says a writer in the Brooklyn Eagle:

"My father always took a great interest in musical matters and was often the patron of impetuous musicians. Among the latter I remember a certain Professor Schell, a fine pianist, who used to visit our home. The professor had been making a hard but unsuccessful struggle, had become almost disheartened and was seriously thinking of giving up and returning to Germany. My father, who thoroughly liked him, had tried to encourage him and had promised to aid him in finding pupils, but still the professor vacillated for many weeks. One afternoon he entered our library, followed by my father, and, walking solemnly up to my mother, said, with an air of profound gravity:

SPRING, GENTLE SPRING. "Oh, ho! Margaret has a new hat," chorused Margaret's friends as she joined them at luncheon the other day in a Milwaukee cafe.

Margaret drew off her gloves with a slow, sweet, satisfied smile and cast an anticipatory glance over the menu.

"Yes," she said, "this is my spring hat, and this is the third season I have sprung it."

The trustees of the Fort Worth University are carefully engaged in the matter of a selection of a new president. A number of names are before the members of the board of trustees, but no haste will be made in the selection, that the right man may be found. Meantime everything is going forward at the university as of old. Plans for next year are being perfected and the outlook is as favorable for the future as at any time in the past.

WALKS WITHOUT CRUTCHES

I was much afflicted with sciatica, writes Ed. C. Nud, Lowaville, Sedgewick Co., Kan., "going about on crutches and suffering a deal of pain. I was induced to try Ballard's Snow Liniment, which relieved me. I used three 50c bottles. It is the greatest liniment I ever used; have recommended it to a number of persons. All express themselves as being benefited by it. I now walk without crutches, able to perform a great deal of light labor on the farm." 25c, 50c and \$1.00 at H. G. Pangburn & Co.'s.

THE YEAR'S WORK IN CARNEGIE LIBRARY

ANNUAL REPORTS READ LAST NIGHT AT THE MEETING OF THE FORT WORTH LIBRARY ASSOCIATION SHOW GRATIFYING SYSTEM OF MANAGEMENT ON PART OF OFFICIALS

A YEAR IN THE LIBRARY

Received from the city	\$4,928.48
Total receipts from all sources	4,953.11
Paid out for salaries	2,312.23
Paid for books	1,907.27
Total disbursements	4,219.50
Number of books at beginning of year	8,404
Number of pamphlets at beginning of year	434
Number of books added	1,491
Number of pamphlets added	471
Number of volumes circulated	53,946

Last night at the library the membership of the library association was represented by about thirty members. It was the annual meeting for the election of seven new trustees.

The meeting was called to order by the president, Mrs. Burnett. The secretary, W. B. Paddock, read the minutes of the last annual meeting, which were approved. The librarian, Mrs. Scheuber, followed with her report for the last fiscal year, showing the number of books on hand, the number lost and the money subscribed for the past year for new books, etc.

The secretary's report was next read and ordered filed. After the reading of these reports, Mr. Hawley made a motion that the chair appoint three to submit fourteen names for new trustees. The following were elected: Mesdames Ben O. Smith, D. B. Keeler, Winfield Scott and John C. Harrison and Messrs. John C. Phelan, W. B. Paddock and Sam Davidson.

These new trustees were elected to succeed the old board, which consisted of Mesdames D. B. Keeler, B. C. Rhone, Winfield Scott, B. C. Evans, James W. Swayne, W. A. Adams and William Burton and Messrs. Sam Davidson, C. D. Lusk and S. J. Hunter.

Sam Davidson offered a resolution that the association as a whole tender its thanks to Mrs. Burnett, the retiring president, which was duly done. Mrs. Terrell then offered the same resolution for the secretary, W. B. Paddock. This resolution was also carried and Mr. Paddock was tendered the thanks of the association for his efficient services for the past year.

The election of new officers will be made next week by the trustees. The secretary's report showed that the total receipts for the year were \$4,953.11 and the total disbursements \$4,219.50, leaving a balance in the treasury of \$733.61. This does not include the book fund now being raised.

MRS. SCHEUBER'S REPORT To the Board of Trustees of the Carnegie Public Library of Fort Worth, Texas—Ladies and Gentlemen: I have the honor to present my report of the work of the library for the second statistical year ending March 1, 1903.

Contents of library—On March 1, 1902, there were in the library, both catalogued and uncatalogued, 8,404 volumes and 434 pamphlets. There were added during the year 1,491 volumes and 471 pamphlets. After deducting the volumes lost, withdrawn and the volumes not in the library, there was a net gain of 1,420 volumes and 471 pamphlets.

Catalogue department—The number of volumes classified and catalogued during the year was 2,343. Service—On March 1, 1903, the library service consisted of assistant librarian, children's librarian and janitor. During the year we had the misfortune to lose our efficient assistant, Miss Smith, whose earnest and enthusiastic work had done so much to make the library popular. Her place was filled by the appointment of Miss H. M. S. Sherwin, former librarian of the Tyler public library.

Kidney Root Thousands of people are dying yearly with all forms of Kidney and Bladder troubles. At first they complain of a slight pain in back and limbs, and attribute it to rheumatism, but it is your kidneys or bladder that is inflamed.

If you will buy a bottle of this wonderful New Remedy, Dr. Johnston's Kidney Root, you will be restored to health at once. It dissolves and expels gravels, cures catarrh of the bladder and prevents diabetes, dropsy and Bright's disease.

by the teachers of the schools and members of the clubs of the city on Grecian mythology, Homer's Iliad and Odyssey, and Greek sculpture. The talks were fully illustrated by means of photographs and casts. The books bearing on the subjects were placed on special shelves and lists of the books posted on the bulletin boards. We are planning for a series of talks during the spring on Nature.

WORK WITH THE SCHOOLS

Through the generosity of Mrs. Burnett and Mrs. Burton we were enabled to commence the work of circulating the library books through two of the ward schools. No work that the library has undertaken is more important than the work of sending carefully selected books to be circulated through the schools. The plan is to send twelve books to each of the first seven grades of the public schools and change them every six weeks. In this way the child is surrounded from his first year at school with the best of children's books and is unconsciously having his reading directed and forming that habit of all foundations for his future education, a taste for good literature. It is hoped that before the beginning of the next school year we will have sufficient funds to enable us to extend the service to all the schools of the city. The superintendent and teachers of the public schools have been most enthusiastic in their support of the plan and have in every way done their utmost to assist in making the library helpful to their pupils.

NEEDS OF THE LIBRARY

In conclusion, I beg to call your attention to the needs of the library. We need more books in every department of the library. Our reference, scientific, useful and fine arts departments are especially weak. We need duplicates of the best fiction, and more books for the young people's room, to enable us to circulate the books through all the ward schools. We also need more money in an effort to form an art collection. The splendid building and equipment we possess, capable of doing such magnificent work—work so far-reaching in its influence of fitting the young people of this busy town for a broader and nobler American citizenship, that not any one can gauge it—should not be crippled for lack of a few thousand dollars. This library should have at least \$2,000 per annum additional funds to meet the urgent need for more books in the departments mentioned and to provide for the symmetrical upbuilding of the library. The present appropriation by the most economical administration can only be made to suffice for maintenance, provide the periodicals and a few new books. Other means must be procured if the library is to grow. With \$2,000 additional income we could add to the library each year not less than 2,500 volumes. In four years we would have 10,000 volumes, which would enable the library to do its work. An energetic effort should be made to secure contributions for an art collection. I would especially urge upon your committee the necessity for prompt action in trying to procure the necessary funds to provide for both the needs of the library and an art collection.

GIFTS TO THE LIBRARY

The library received during the year gifts from forty-six persons and institutions, amounting to 891 volumes, 694 pamphlets and 285 numbers of unbound periodicals. Among the notable gifts received during the year was that of 102 volumes of art books from the Anna Ticknor Library Association, in addition to the splendid collection of photographs and art illustrations reported in our former report, but which did not come to us until September; \$100 from Mrs. S. B. Burnett for children's books; \$100 from Mrs. F. D. McDonald; 250 volumes from the Hon. S. W. T. Lanham; 408 volumes and 169 pamphlets from the Hon. J. W. Bailey; forty volumes from the Current Literature Club; a large cast of the Athens Gulestiana; \$100 for children's books from Mrs. Willard Burton; a set of the Jewish encyclopaedia from Mr. H. Gernsbacher; and a set of South Carolina Regiments in the civil war from R. L. Paschal; a bust of Hermes from Fort Worth Art League; and from E. W. Lawson a copy of the "History of the American Cup."

THE YOUNG PEOPLE'S ROOM

The young people's room is one of the most popular departments of the library. The number of books circulated in this department during the year was 28.2 per cent of the whole issue. There are 1,446 titles in the young people's room, therefore our lending stock was turned over 9.12 times in the twelve months. The circulation in this department approaches the ideal; 46.1 per cent non-fiction, 53.9 per cent fiction.

TRINITY PARISH ANNUAL MEETING

HELD AT THE CHAPEL LAST EVENING AND WELL ATTENDED

Reports of the Year's Work Read and Received—Resolutions Regarding the Death of the Late Wharton Davenport Passed—Officers Are Re-Elected

The annual Easter meeting of Trinity church, Pennsylvania avenue and Hemphill street. Though the financial showing was not quite so good as in previous years, the only arrearage was that of the diocesan assessment.

Mr. Heathcote made an interesting speech, in which he acknowledged the faithful services of the Sunday school teachers, choir and pastor's aid, making special mention of the work of R. C. Galbraith as superintendent of the Sunday school and of the Holy Innocent's mission, which last had been continuously carried on during the year with the able assistance of G. R. Bowman. Mr. Heathcote also proposed a suitable resolution in memory of the late Wharton Davenport, a parishioner and vestryman, who had died during the year, which, after the special prayer in commemoration of the faithful departed, was carried by a standing vote, and copies ordered to be spread on the minutes and a copy sent to the widow and family.

He also presented to Miss Ethel Cotton a framed, illuminated testimonial in recognition of her able exertions as choir presenter. Miss Cotton reported having received an Easter letter from Mr. Springer, a traveling man, who had become very much interested in the musical services of Trinity church, before and during Bishop Coleman's mission in St. Andrew's parish, and inclosing a check for \$10 toward a processional cross. The rector spoke feelingly and regretfully of the necessary retirement of the senior warden, S. G. Dickerson, and mentioned specially his faithful and devoted service in regard to church attendance, which, for a railroad man, is somewhat exceptional.

The rector reported twenty-three baptisms, twelve confirmations, three weddings and five burials.

NEW OFFICERS

Charles Washington Maxwell and Joseph Salt having been named as tellers, the ballot was then taken and the following are the officers for the ensuing year: Senior warden—William Waldemar Heathcote, M. A. Junior warden—Clarence Christopher Hennings. Vestryman—Archibald Andrew Billingsley. Treasurer—Joseph Haydn Parnum. Clerk of the vestry—Mrs. W. W. Heathcote.

Delegates to the diocesan council—Richard Cecil Galbraith, Joseph Henry Bevan, Simon Ohio Dickerson, Alternates—William Waldemar Heathcote, Clarence Christopher Hennings, Joseph Haydn Parnum.

Lady readers—George Reuben Bowman, Richard Cecil Galbraith, William Waldemar Heathcote.

NEW DESIGNS FOR STAMPED ENVELOPES

The new stamped envelope that has been under preparation in the postoffice department at Washington for several months past has been made ready for issue and is now being distributed to the postoffices throughout the country. The local office thus far has not been supplied with any of the new issue, but it is expected that a recent requisition for envelopes will be filled with the new designs.

The envelope is in four denominations—1-cent, 2-cent, 4-cent and 5-cent. The change made is very great, and it is believed by the officials who have had the matter in charge is a great improvement. The stamps on all the envelopes are of different shapes.

The 1-cent envelope has a green stamp in the form of a perfect circle about an inch in diameter. The bust of Franklin in white is the central figure. The 2-cent stamp is oval in shape. It is a brick red and bears the bust of Washington in white. The stamp is about one and one-fourth by one inch in size. The stamp on the 4-cent envelope is about one and one-fourth inches square and is brown. It bears the portrait of General Grant in white. The 5-cent stamp is shaped like an ellipse. It is blue and bears the portrait of Lincoln in white.

The portraits on all the stamps are busts and are embossed on the envelope. The stamps are all larger than those used at present, except the 1-cent and 5-cent varieties, and have less decorations.

CHENG TUNG LAING CHENG

(Copyright, 1902, by W. R. Hearst.)

Sir Cheng Tung Laing Cheng, the new Chinese minister, has arrived in Washington with a big suite including a number of young men of aristocratic families who came to America for an education. Sir Cheng was at one time attached to the Washington legation and was educated in this country. It is believed he will be a most acceptable successor to Wu Ting Fang.

NOTES AND PERSONALS FROM ABILENE

(Special to The Telegram.) ABILENE, Texas, April 14.—E. P. Nolan of Memphis, Tenn., takes a position with the J. M. Radford Grocery Company as bookkeeper. E. A. Nash, his predecessor, has accepted a similar position in Dallas.

It is reported that the Texas and Pacific railway will soon extend its short passenger service from Fort Worth to Colorado, instead of stopping at Abilene, as heretofore.

Captain Pickens leaves tonight for Austin to attend the grand commandery of the Texas Knights Templars.

Theodore Goedeke, an Abilene grocer, was married Sunday to Miss Rosa Fredeck of this city.

Miss Mal Leake has returned from a three months' visit to Waco. United States district court met here today. The trial of Jim Graves, charged with the robbery of the Anson postoffice in December, was begun.

PUSHING A FORT WORTH PRODUCT

Here is one Fort Worth concern that is pushing its product abroad. The Denton Herald says: "Phil Gaitner of Fort Worth, who has been in the city for the past week, has quite a number of old Kentucky and Texas friends here. Mr. Gaitner has been here in the interest of the Queen Quality Starch Company of Fort Worth. He said today to a Herald man that his lady canvassers had been over the town and that the local trade in this community has been turned over to the retail grocers. Mr. Gaitner says this starch has made many friends in Denton."

A PROFITABLE DOG

"Expect they had some fine dogs at the show," remarked a man to Gubbons, "I have a dog at home I wouldn't change for the best of 'em."

"What breed is he?"

"Don't know exactly, but call him coony."

"Collie, you mean?"

"No, I mean just what I say—coony! Money wouldn't buy that dog's hide! He's a cur, but we couldn't keep house without him. You see, several years ago I traded him to bark at the railway trains; they passed our house. Well, he annoyed the railroad men so that every driver and stoker on the line has sworn to kill him. Oh, he's a valuable dog."

"I can't see where the value comes in."

"You can't? Well, you could, if you were in my place, and had all the you you could burn and some to sell, fifty right at your back door free of cost."

T. T. McDONALD, City Ticket Agent.

Habit Worse Than the Disease.

Dr. Miles' Nervine Cured Me.

When the nervous system has been shattered by the use of deadly drugs there is nothing to equal Dr. Miles' Nervine in restoring it to health and normal activity.

"I feel so grateful for what Dr. Miles' Restorative Nervine has done for me that I must tell it for that part of humanity that suffers as I have. During the three years I suffered from nervous prostration I found no relief except when doctors gave morphine. To get rid of suffering I took morphine myself as it was the only thing that would give ease, and now you, who point with scorn at morphine using, how could you, when in such agony, knowing it about the only thing that would give relief, resist it? I knew it was a terrible habit and I knew of its deadly grasp, but I never fully realized its significance until I had used it a number of months. Oh, the misery of being addicted to such a habit. I resolved then and there to quit and resolved I would never be a slave to any such morphia. About this time I happened to notice Dr. Miles' Restorative Nervine advertised and ordered a bottle. After using five bottles I can truthfully say I am cured of using morphine. Now, however much persons may doubt it, God is my witness I am cured. This testimonial is unsolicited but I feel it my duty to give it for the benefit of the suffering."—MATTIE PHILLIPS, Fresco, Ark.

SHOOTS HIS SWEETHEART IN FRONT OF CATHEDRAL

LITTLE ROCK, Ark., April 14.—In front of Christ Episcopal cathedral Will Alexander shot and severely wounded Miss Irla Young and then killed himself. He and the lady were sweethearts. She married another, however, and he also wedded. Both marriages were unhappy. Miss Young secured a divorce and her maiden name was restored.

DUE NOTICE IS SERVED

Due notice is hereby served on the public generally that De Witt's Witch Hazel Salve is the only salve on the market that is made from the pure, unadulterated witch hazel. De Witt's Witch Hazel Salve has cured thousands of cases of piles that would not yield to any other treatment, and this fact has brought out many worthless counterfeits. Those persons who get the genuine De Witt's Witch Hazel Salve are never disappointed, because it cures.

PRESIDENT LOUBET IMITATES ROOSEVELT

MARSEILLES, April 14.—President Loubet arrived from Paris on his way to Algeria after receiving continuous ovations along the route. During the day M. Loubet made several short speeches, mainly expressive of his sturdy republicanism. Only one minor disturbance was reported. This was between a group of socialist agitators and a number of adherents of the army. Blows were exchanged and the police interfered. Several persons were injured, three of them severely. This was due to the denseness of the crowds, and interrupted the popular demonstration to the president.

Northern Texas Traction Officials Obtain Restraining Order in Seventeenth District Court to Prevent J. H. Fitzgerald From Carrying Out His Intentions

A two-story frame house squatting in Main street at Second, surrounded by a large crowd and interrupting traffic on the city and interurban lines of the Northern Texas Traction Company was the interesting condition that prevailed in Fort Worth for five hours today.

J. H. Fitzgerald, contractor, was moving an eight-story frame house owned by William Boaz from Fifth and Throckmorton streets to a point on Samuels avenue. The street car company attempted to stop him from raising the heavy wires on Main street in order that the big house might be hauled under them—and then the hitch came.

The street car people made a show of force and three of its men attempted to unhitch the horses that were drawing the house. W. D. Dill, one of Mr. Fitzgerald's employees was driving the horses and he declined to have them unhitched. He said that one of the three men made a bluff at drawing a revolver, but did nothing more than to make a movement toward his pocket. Dill stood his ground and the three men withdrew and left the argument in abler hands.

ATTORNEYS ON SCENE

Messrs. Capps and Canty, attorneys for the traction company, and F. V. Crandall, purchasing agent of the company, arrived on the scene early. The house by this time was on the tracks on the west side of the street and right up against the heavy "figure 8" wire. Traffic was stopped on both tracks by the cable to which the horses down Second street toward Rusk were hitched. After the tie-up had prevailed for an hour a big car came along, carrying mail and this was permitted to pass. As Mr. Fitzgerald entertained no idea of mixing up with the "figure 8" wire.

Mr. Fitzgerald says he offered to stop work until midnight providing the traction company would pay for the time of his men. Purchasing Agent Crandall says that an agreement as to the amount to be paid had been reached, but that Mr. Fitzgerald refused to go to the office of the company to fix up the matter. Mr. Fitzgerald says that he was willing at any time to stop work if the company paid him for the time of his men.

GO INTO COURT

Messrs. Capps and Canty went into the Seventeenth district court and obtained a restraining order to prevent Fitzgerald from proceeding. This stopped the house on the company's tracks. Fitzgerald declined to move back off the tracks and the attorneys went back to Judge M. E. Smith and instituted mandamus proceedings to obtain an order from the court requiring the house to be moved off the tracks.

Meanwhile traffic was delayed. Mr. Fitzgerald engaged the services of Jeff D. McLean and Walter Scott to uphold his contention in court. He holds that he has a permit from the council and the council furnished the required bond to move the house. Under the ordinance he is required to give the company six hours notice of his intention to raise the wires. The company accepted the notice and even had a man at Second and Houston streets this morning to assist in passing the house under the wires on that crossing.

Mr. Fitzgerald. "Then when I reached Main street the company stepped in and stopped me. I offered to hold off if I was compensated for my lost time. Mr. Capps saw no reason why I should be paid anything and, feeling that I was within my rights, I resolved to go ahead."

CRANDALL EXPLAINS

Purchasing Agent Crandall explains the action of the company by saying that the moving of a house under the wires on Houston street is a much simpler task than the moving of one under the heavy interurban wire on Main street. "This is the 'figure 8' wire—the heaviest used for trolley purposes in the United States," he said today. "It carries a voltage of 500. If this wire should break in one place it would fall to the ground all the way down Main street, and many persons might be killed. It is heavy and is tightly drawn. It is held up by clamps which fit into the top of the figure 8. When the wire breaks and the ends fall the strain breaks the next clamps in both directions and when these give way the next nearest clamps are broken, and so on all the way down and up the street on which the first break occurs. We offered to cut the wires and move the house with our own men if Fitzgerald would wait until midnight, but he refused to do this. The carnival at Dallas makes the traffic on the interurban unusually heavy today, so that the loss to us in case of a break in the wire would be serious. You see in case of a break the whole system would be tied up."

Paine's Celery Compound

Says: "There is Nothing Else Which So Well Restores Vitality to the System"

"Worn and sick in body and mind" is the unfortunate condition of a vast army of our American people, young and old, in the springtime. advances. Tired and deathly feelings in the morning, sluggish and poisoned blood, defective digestion, constipation, kidneys and liver unable to perform their functions—all tend to make life a heavy burden. Men and women should commence this very day to exercise the God-given quality of common sense and use Paine's Celery Compound, the one and only reliable spring health builder. Mr. W. H. Peedan, business manager of the "Globe-Gazette," Mason City, Iowa, says:

"I feel impelled by a deep sense of gratitude to express how much I have been benefited by Paine's Celery Compound; it has made me a new person. There is nothing else which so well restores vitality to the system."

MANUFACTURERS GATHER IN NEW ORLEANS

NEW ORLEANS, La., April 14.—Men representing the leading manufacturing institutions of the United States to the number of nearly 1,000, gathered in Tu-lane Hall today, when the eighth annual convention of the National Association of Manufacturers of the United States was formally opened. The gathering was called to order by Vice President Porth. Governor Heard and Mayor Capdeville welcomed the visitors, and President David M. Parry of Indianapolis responded. Following the president's address came the appointment of the committees, and then President Parry read his annual report. In the course of his remarks he referred at length to the defeat of the eight-hour bill before congress and laid great stress upon the necessity of the manufacturers sticking close together in order to withstand the unjust demands of organized labor bodies. The reports of the secretary, treasurer and various committees followed. The total membership, as shown, is more than 1,500, scattered among nearly forty states. Pennsylvania leads the states in membership, with New York, Ohio and Indiana following closely behind.

Toledo, Ohio, has a large delegation on hand, prepared to make a hard fight to secure next year's convention of the association. Pittsburg and one or two other cities are also applicants for the gathering.

FINE POLO STALLION BROUGHT TO STATE

Sid Martin was in the city Wednesday to receive a fine polo stallion which was purchased by William Anson in Boston at a cost of \$1,000, and will be used for breeding purposes at his South Concho ranch. The animal was shipped by express from Boston, the expense for delivery at San Angelo being \$215. Mr. Martin left Thursday night with the horse for the ranch at the head of South Concho.—San Angelo Standard.

CIGAR FIRM GIVES AWAY REAL DOLLARS

SAN ANTONIO, Texas, April 14.—The Wolf Cigar Stores company instituted in their stores yesterday throughout the state a novel sale under the terms of which each purchaser of a dollar's worth of merchandise shall receive in return a silver dollar. The two San Antonio stores conducted by the company carried off second honors, disposing of 1432 of the silver trophies.

BRAKEMEN AWARDED DAMAGES FOR INJURY

EL PASO, Texas, April 14.—Word has been received by W. W. Swearingin that the United States court of appeals, sitting at New Orleans, has affirmed the decision of the lower court, which awarded him \$7,500 damages against the Texas and Pacific Railway Company last fall. Swearingin at the time of getting hurt by the railroad was employed as a brakeman and while standing on the ladder of a freight car in the El Paso switching yards he came in contact with a scale box from which he received injuries of a permanent character about his spine and side.

TRIBAL POLICE TO COLLECT GRAZING TAX

ARDMORE, I. T., April 14.—The tribal police will begin immediately to collect a tax of 25 cents a head on stock grazing in the Indian Territory, assessed by the tribal government and just declared valid by the court of appeals at Washington. Stockmen who still question the legality of the tax will, it is stated, take the case to the United States supreme court. Others will settle rather than have their stock seized.

FINDS MAN'S BODY LYING IN BARREL

(By Associated Press.) NEW YORK, April 14.—A murder was discovered early this morning by the finding of the body of a man, apparently an Italian, in a barrel on East Eleventh street, near the docks.

The man's throat was cut from ear to ear, and the body was still warm.

A scrub woman on her way to work noticed the barrel on the sidewalk, and saw hanging on it a man's coat, soaked with blood.

It is supposed somebody intended to throw the body into the river after bringing it there in a wagon, but found the river closed and dropped the load in the street in a hurry, fearing discovery.

BELIEVE IN TEXAS AS A FRUIT STATE

J. A. TAYLOR, A PROMINENT TERRITORY MAN, GROWS PEACHES

Discusses the Ravages of Boll Weevil and Predicts a Greater Loss to Cotton Crop of Texas This Year

Prominent among the members of the Kansas City packers' excursion to Texas, who were in the city last evening, was J. A. Taylor, proprietor of the Wynnewood wholesale nursery and fruit farm, near Wynnewood, I. T. Mr. Taylor is also president of the Territorial Horticultural Society, secretary of the Southwestern Nurserymen's Association and chairman of the fruit committee of the St. Louis World's Fair in 1904. He is a firm believer in the future of Texas as a fruit and vegetable state, himself boasting the largest peach orchard in the state. In Jasper county Mr. Taylor has 800 acres in Elberta peaches, from which he expects to realize 500 cars annually after the first five years.

BOLL WEEVIL AND COTTON

Mr. Taylor says the farmers of Texas will be compelled to turn their attention to something besides cotton if the ravages of boll weevil, which have made such inroads on the cotton crop, increase as rapidly as they have started. Last year it is estimated that the cotton crop in this state was damaged 15 per cent, which means, in round numbers, thirty million dollars. This season it is estimated that the damage will reach 20 per cent, and the evil is spreading rapidly.

RECOMMENDS EARLIER VARIETY

"The only remedy I see in sight for freeing the state of the little pest is to endeavor to cultivate an earlier maturing cotton, which, I believe, can be done in this state. Boll weevil came into Texas from Old Mexico and has gradually been making its way across the cotton fields of the state until it has finally covered the greater portion of Texas. As far as I know, it has not been reported in the Indian Territory, although recently I saw an article in a territory paper relative to a farmer in the vicinity of Deadman, who reports that he has found a quantity of eggs deposited in the stalks of cotton in his field, and that he does not know what they are. I would not be surprised to learn that it is boll weevil.

"Boll weevil, you know, stings the young square just before it blooms. The egg is deposited at that time. The sting is inflicted by a small fly, and its egg develops into a worm which goes to work on the square where it is deposited and gradually eats the life out of that part of the plant until it falls to the ground. The worm then leaves the little square and enters the ground, where another transformation takes place and instead of a worm the pest comes out as a fly and proceeds in its deadly mission as before.

DRUNKEN MEN TAKE PART IN TRAGEDY

CHATTANOOGA, Tenn., April 14.—News has reached this city of a fatal tragedy which occurred near Ringgold, Ga., a few miles south of here. Joe Phelps and Bud White, while under the influence of liquor, quarreled and both drew their pistols. Phelps fired first, instantly killing White. The former fled and the sheriff of Walker county is pursuing him with a posse.
