STORY OF THE POSTOFFICE INVESTIGATIONS

FIND SAFE EMPTY

THE OFFICIALS RETURN TO ROOM WHERE THEY LEAVE A WOMAN AND FIND PAPERS MISSING

DEPARTMENT SCANDALIZED

Much Excitement is Aroused by the Conduct of Assistant Attorney General James Tynes for the Postoffice Department, Who is Summarily Dismissed

WASHINGTON, April 24.—Rosa Perry, attorney for Mrs. James Tynes, whose husband yesterday was summarily removed from the position of assistant secretary general of the postoffice department under rather sensational circumstances, called upon Attorney General Knox today and talked over the case with him.

Perry made substantially the same statement given out last night, namely that the papers taken by Mrs. Tynes from the safe in husband's office on Tuesday were altogether personal, but that they will be returned when called for. The attorney general declines to make any statement concerning the use of the receipt of the papers.

SENSATIONAL CASE

WASHINGTON, April 24.—As a result of the investigation of the postoffice department affair, Postmaster General Payne Thursday announced the summary dismissal of James N. Tynes, assistant attorney general for the postoffice department, and charged that all the papers and records in the safe of Tynes's office had been abstracted by Mrs. Tynes, wife of the discharged officer, with the assistance of others. The postmaster general says that Mrs. Tynes had refused the demand of the government for the papers and said circumstances in the case would be submitted by him to the department of justice at once. The question of arrests is now under consideration, and will be passed on immediately by Attorney General Knox.

AN EMPTY SAFE

Mrs. Tynes came to the office of the assistant attorney general at 5:35 p. m. Tuesday and remained there exactly an hour. Mr. Bridlow asked authority to have Mrs. Tynes ejected from the office. The authority came too late. When the inspector returned Mrs. Tynes had left. The safe, on being examined, was found to be empty.

MUCH EXCITEMENT

The affair created much excitement among the investigating officials, but the news was concealed carefully from the public. Two inspectors were dispatched to the Tynes residence to recover the papers. Mrs. Tynes refused to give them up, saying she was acting under the direction of her husband. She told the inspectors, so they reported, that they had no right to the papers, as Mr. Tynes was still assistant attorney general, and moreover, insisted that the papers were all of a private character. It is suspected at the department that the papers have some connection with the recent conduct of the office. Some weeks ago a turf investment concern, whose affairs were averted in court, alleged that its operations and working methods had been sanctioned by the assistant attorney general for the postoffice department. The charges involving the office of the assistant attorney general and a lawyer formerly connected with the office were ventilated and an investigation was ordered by the postmaster general. This was really the inception of the investigation that has spread into every part of the department. The complaints against Mrs. Tynes were made by Mr. Tynes's resignation, signed by Postmaster General Payne on March 9 last.

TO ATTEND GOOD ROADS CONVENTION

City Engineer John E. Hawley and Attorney Ben Waggoner, chairman of the street and alley committee of the city council, departed this morning for St. Louis, where they will attend the meeting of the National Good Roads Association. Mr. Hawley is one of the delegates to the convention from Texas, having been appointed at the recent meeting in Dallas. Mr. Waggoner goes as the representative of Fort Worth.

WOMAN HURT IN A RUNAWAY, IS DEAD

LONGVIEW, Texas, April 24.—Mrs. P. M. Huckleby, who was thrown from a buggy in a runaway here last Sunday afternoon and her forehead badly cut by striking the wheel of the buggy, died Wednesday from the injuries received. The body was taken to her late home in Aradale, La., for burial. She leaves a husband and several little children.

DRY WEATHER HARMFUL

The continued dry weather in this section is being felt a great deal by the farmers around here, it being dreadfully dry. The streets here are veritable sandbanks, the dust flying in all directions as it does in summer time.

WHAT BAILEY GOT FOR THE KIRBY JOB

CHICAGO, April 24.—A dispatch from New York says: United States Senator J. W. Bailey of Texas is receiving congratulations on having recently been paid a fee of \$200,000. John H. Kirby, the "industrial king" of Texas, recently determined to finance one of his large companies operating in the pine forests of southeastern Texas and employed Mr. Bailey to assist in conducting New York financiers in the enterprise. His compensation to be a fee and commission amounting to \$200,000. The negotiations were successful and Mr. Kirby has informed Texas friends that Mr. Bailey received that amount.

BUT LITTLE AHEAD OF FORT WORTH

LAKEWOOD, N. J., April 24.—Society records the first annual horse show of the Lakewood Country Club, which opened today, as the event of the spring season. In the quality and number of exhibits the show is equal to some of the more important metropolitan exhibitions. The prize list consists of twenty-nine classes, divided into competitions for roadsters, racers, horses in harness, tandem, four-in-hands, saddle horses, ponies and jumpers. The complete list of exhibitors is a long one and includes almost every one of prominence in Lakewood society. Prominent among the number are Mr. and Mrs. George J. Gould, Peter F. Collier, Irving T. Rush, Lawrence Waterbury and Mrs. Henry W. Seligman. Special features of the show include a pony race, to be decided tomorrow, and the exhibition of Mr. James H. Hyde's New York and Lakewood public coach Liberty.

FIRE IN THE HOPE OF ESCAPE

WEATHERFORD, Texas, April 24.—The facts concerning the fire at the jail Monday night are said to be as follows: Fred Williams and Joe Belton, the convicted young house robbers, were sitting in their cell when Williams suggested to Belton that if they were to get fire to the jail that perhaps Jailer Daggert would rush up and release the prisoners, thereby giving them an opportunity to escape. The more they talked over the scheme, the stronger it appealed to them, and finally, Williams dared Belton to go in with him and set fire to their respective ends of their matting simultaneously. Belton accepted the challenge and each striking a match, they deliberately proceeded to carry out their scheme, thereby endangering the lives of their dozen fellow prisoners. The failure of their plan in known to the public.

MRS. WHITNEY'S BODY IS MOVED

NEW YORK, April 24.—For reasons which the church authorities decline to make public the body of Mrs. W. C. Whitney and that of her first husband, Captain Arthur R. Randolph, have been taken from their graves in the cemetery of Zion Episcopal church at Douglass, L. I., placed in metallic caskets and shipped to Washington.

No member of the Whitney family nor any relative of Captain Randolph was present. The Rev. Arthur E. Bagley, rector of the church, would give no explanation for the removal other than the issuance of the order authorizing the taking up of the bodies, was, as the official records show, on application of Miss Randolph, a relative of the first husband of Mrs. Whitney.

YACHT SAILS BUT NEVER HEARD FROM

NICE, April 24.—A great sensation has been caused all along the Riviera by the mysterious disappearance of the yacht Reine Victoria. The vessel had on board M. and Mme D'Esmerald, the sister of the latter, Mlle. Marguerite Gouri De Refuge, and two sailors, Lafont and Bertin. The D'Esmeralds were married only a month ago and were on their wedding tour. They were residents at Cannes and made frequent excursions on the Reine Victoria.

On April 7 the party embarked on the yacht for Nice, Mme D'Esmerald carrying all her jewels and her husband had with him several thousand francs. Since their sailing nothing has been heard of them. They should have reached Nice the same day. As the weather was magnificent no reason can be assigned for the disappearance of the vessel.

All kinds of extraordinary stories of murder and piracy are current, but there is nothing to justify them beyond the fact that M. and Mme D'Esmerald carried thirty or forty thousand francs in money and jewels.

A search is being carried out by the police and the maritime authorities all along the coast.

OFFICERS ON TRIAL

L. M. WALKER TESTIFIES AGAINST TEMES AND HOLLEY

IN SALOON SUNDAY

THEY ARE CHARGED WITH FAILING TO ARREST MAN FOR VIOLATING SUNDAY LAW

TEMES NOTIFIED SHERIFF

Testimony Introduced Shows That Case Was Made in Rowland's Court for Violation of the Law on the Date Mentioned in Indictment—Wait for Witnesses

The trial of Officers John Temes and W. C. Holley, who were indicted on the charge of failing to arrest and prosecute a man for a violation of the law against Sunday selling, was begun before Judge Millam in the county court at 10 o'clock this morning. Every foot of the way is being contested by counsel for both sides and the case is arousing much interest. Jordan Cummings and C. R. Bowlin represent the state, while the interests of the officers are looked after by Jeff McLean, Walter Scott and Assistant City Attorney R. E. L. Roy.

Several witnesses were examined this morning. Chief Rea and Assistant County Attorney Cummings took the stand momentarily to establish minor points. At 11:15 adjournment was taken until 3:15 this afternoon, when the testimony of E. B. Oliver, a brakeman on the Texas and Pacific, will be taken.

The defense put Quinny Thompson on the stand to testify in the testimony of Sheriff Honea, who is in Oklahoma today. According to the defense, Sheriff Honea will testify that Officer Temes notified him on Monday, March 16, the day after the alleged offense was committed by J. A. Bennett, the saloonkeeper at Fifteenth and Main street, that Bennett had violated the law in regard to Sunday selling.

TEMES TOLD HONEA

The defense put Quinny Thompson on the stand to testify to the conversation between Temes and Honea. He quoted Temes as saying to Honea that Bennett's place had been open the day before, which was Sunday, March 15, and with adding that it was open every Sunday. Counsel for defense announced to the court that one purpose of Thompson's testimony was to support in part the defense's contention that it was the habit to prosecute cases for Sunday selling in the justice and county courts and not in the city court and that the officers considered their duty performed when they reported violations of the Sunday selling law to the county authorities. Counsel for the prosecution contended that the city charter and ordinances requires the officers to "arrest and prosecute," and that "habit" could not be pleaded in extenuation, which view Judge Millam sustained.

AGAINST OFFICERS

The principal witness for the prosecution was L. M. Walker, an employee of a local clothing store. He said that he was the friend of both defendants. He has a brother on the police force. He testified that he was in Bennett's place on Sunday afternoon, March 15, about 3 or 3:30 in the afternoon. There were half a dozen men standing at the end of the bar. He drank a bottle of beer as did Brakeman Oliver; the latter paid for the two bottles, which were served by the porter; Pres Mitchell, the bartender, was at the far end of the bar at the time, behind the cigar case; he did not remember seeing Mitchell serve beer or other drinks to any one.

He saw Officers Temes and Holley enter the saloon; he believed they entered with the proprietor, Mr. Bennett. Officer Holley asked the porter for a glass of water; he said that each of the officers then took a bottle of beer and Mr. Bennett took a cigar.

SAW NO MONEY

He saw no money over the bar while the officers were in the place. He did not remember whether bottles were on the bar, or drinking or selling in progress while the officers were in the saloon. Oliver paid for the two bottles of beer consumed by Walker and himself; after the officers departed. Some of the men who were in the bar left when the officers appeared, saying they were afraid they would be "pinched."

The officers, according to Walker, entered the saloon from a restaurant near door. Justice Charles P. Rowland testified that a case of Sunday selling was made against Bennett on Monday, March 16, in his court and that he pleaded guilty and was fined \$20 and costs. He did not testify as to who made the complaints. Mr. Cummings, when on the stand, swore that no complaint was made in the county attorney's office by the officers against Bennett on the occasion referred to.

There the case rests until Brakeman Oliver and Sheriff Honea shall arrive in the city.

COUSIN OF TOM REED DEAD IN DURANGO, MEXICO

DURANGO, Mexico, April 24.—Harvey Reed, a cousin of the late Thomas R. Reed of Maine, died in this city. He was a prominent engineer and one of the most enterprising men in this section.

W. K. VANDERBILT.

(Copyright, 1903, by W. R. Hearst.) PARIS, April 24.—Members of the American colony have today confirmed the report that William K. Vanderbilt, Sr. will marry within a few days Mrs. Lewis Morris Rutherford, Jr., daughter of Oliver Harriman, Sr., of New York city. The wedding, it is said, will be quiet. There is some doubt as to where it will be celebrated, but it is believed that London has been chosen for the event.

Mr. Vanderbilt's intentions with respect to Mrs. Rutherford, who is considered the beauty of the American contingent in Paris, have been an open secret for a long time. The American multimillionaire's devotion to his charming countrywoman was so marked as to attract general attention and it was freely declared that the widow of Lewis Rutherford was deeply in love with Mr. Vanderbilt.

Mr. Rutherford's husband died a year ago of consumption. For a time the widow lived in a tiny cottage set in a little courtyard in the avenue Bois de Boulogne. She recently removed to her handsome home in the arrondissement of Poissy, in which fashionable part of the city the De Castellanes have their mansion and where there are many other splendid homes. Mr. Vanderbilt claims a legal residence in Poissy, which is fourteen miles out of Paris and where he and Mrs. Rutherford could declare their intentions as the law requires. The necessary legal action might also be taken in Poissy, and since nothing of the kind has been done at either Poissy or Passy it leads to the belief that Mr. Vanderbilt and Mrs. Rutherford will avoid the red tape and circumlocution of the marriage requirement against foreigners in France and seek the less exacting regulations of England.

An American marrying in France must, among other things, present a fully attested certificate of birth, and not being able to provide this, must make oath to the facts of the custody of his residence and conform to certain other declarations to be made at the nearest American consulate of embassy.

There is not yet on file with the American ambassador or consul here any of the necessary legal papers, which lends additional color to the statement that the marriage will take place in London. It is not improbable, however, that the event may be celebrated at Mrs. Rutherford's house in Poissy or at Passy.

PARDON PETITION FOR GUILTY BOY

WEATHERFORD, Texas, April 24.—A petition for the pardon of Will Wingo, the boy convicted Wednesday or horse theft, has been circulated and the signatures of Judge Patterson, County Attorney Wilson, the grand jury which indicted him, the petit jury which convicted him and many prominent business and professional men are on it.

SHOP GIRLS CLASH OVER PRESIDENT

NEWARK, N. J., April 24.—In a race riot between the Christian and Hebrew working girls who gathered for a labor union election in this city last night, blows were freely given and received and many were painfully injured before the police restored order. The 300 girls who went to the hall are members of the Hat Trimmers' Union, William Oxy was elected president when the union was formed. The members are about evenly divided between Christians and Hebrews. Both factions agreed it would be better to have a woman for president and the election was called. Ballots were cast and the counting was under way when the trouble started. Oxy had taken a prominent part in the election. Before the counting had progressed far some of the girls charged that sharp practices were going on. Angry words and accusations were exchanged.

Would Rather Be Mayor of the Thriving City by the Lake Than Unsuccessful Candidate of Any Party—Makes Known Decision in Letter to a Friend

KANSAS CITY, Mo., April 24.—Mayor Tom L. Johnson, under the date of April 21, wrote a letter to J. L. Merrill of this city, a democratic politician, in response to a letter from Merrill discussing Johnson for the nomination for president in 1904, saying: "I think my field of usefulness is right here in this city, and at most in the state of Ohio, and I must condemn any movement such as you speak of as being unwise and undesirable."

OPINIONS VARY AS TO THE WHEAT CROP

DENTON, Texas, April 24.—Right at the present time the husbandmen of Denton county, who are as bold in their claim that Denton is the banner wheat county in Texas as those of Williamson county are that Williamson is the banner cotton county, are very anxious about the wheat. Just now it is passing through the most critical stage of its life, from the time it is planted or sown until it is harvested.

A large wheat farmer of Denton county was heard to remark here today: "If I had the fixing of the tariff for an individual or a company whose business was insuring a good yield of wheat in North Texas, and the policies were issuable fortnightly, I would fix the tariff or rate of insurance highest on the policy covering the last two weeks of April. From my observation and experience, which covers a period of many years, I consider that the chances for a failure or poor yield are reduced to a minimum if the prospects are good up to the first of May."

As to just what the prospects for a wheat crop in this country are at this writing it is hard to definitely determine without a personal inspection of the wheat, which your correspondent hasn't made, as the opinion of the farmers who come to town and are interrogated by interested parties on the subject is so different concerning it. Some of them say the wheat is suffering badly for rain and has already been greatly injured by rust. Others claim that it is not as yet suffering for rain, nor hasn't been appreciably hurt by rust, and that the outlook for a fine crop was never brighter at this time of the year.

ONE OF THE OLDEST TWINS IS NO MORE

PAWTUCKET, R. I., April 24.—Mrs. Hanna H. Southwick, 88 years old, an original Daughter of the Revolution, is dead here as a result of a shock. Mrs. Southwick and her brother Jeremiah, who died recently in Franklin, Mass., held the distinction of being the oldest twin brother and sister living in the United States. They were born in Cumberland in 1815. Their father, John Hazleton, crossed the Delaware with Washington and was the first man in the party to land.

DISCOVERY OF OIL NEWS STIRS TOWN

COLORADO, Texas, April 23.—For several months parties have been secretly investigating the country south of this city along the river on a search for oil. The first party felt positive he had struck a lucky find. So he went to El Paso and returned with an expert, and on his return yesterday from a thorough investigation reports that a superior quality of oil in paying quantity has positively been found. It had oozed out of the banks into a pool of water and was easily discernible. The exploring party was composed of three intelligent, businesslike men, all strangers here, and from information gained from other sources The Telegram's correspondent knows they mean business. They will return again in a short time, amply prepared to make a thorough test of the matter.

IS CHARGED WITH ROBBING THE MAIL

DENISON, Texas, April 24.—Eugene Leutwiler, clerk in the Denison postoffice, was arrested yesterday by Postoffice Inspector Joe Bass on a charge of robbing the mails. Leutwiler is said to have stolen coin cards containing money for a local publishing company, and is said to have confessed his crime to the inspector.

TRUXTON BEALE IS NOW MARRIED

NEW YORK, April 24.—Truxton Beale, formerly minister to Persia and Greece, has married Miss Marie Oge of San Rafael, Cal., in this city. Only the mother of the bride—Mrs. W. L. Oge—Mrs. John R. McLean, Mr. Beale, Creighton Webb, his best friend, and Archibald Forbes were present at the ceremony, which took place in Mrs. Oge's apartments in a hotel. After an informal wedding breakfast, Mr. and Mrs. Beale started for Washington on their wedding journey. They will sail shortly for Europe, where they will remain all summer, and will divide their time after their return between Washington and San Francisco. Truxton Beale and Thomas Williams Jr., president of the California Jockey Club, attacked Frederick Marriot, editor and proprietor of a San Francisco paper, on Sept. 4, 1902, because of an article which they alleged referred to Miss Oge, Mr. Beale and Mr. Williams, and that the article was untrue when they went to Mr. Marriot's home to force him to make a retraction. That he refused to do and they shot him three times. Both were arrested, but as Mr. Marriot recovered they were acquitted.

CROOK CATCHERS ARE IN ST. LOUIS

ST. LOUIS, Mo., April 24.—Detectives are being brought to St. Louis from many of the principal cities of the United States. This is because of the dedication of the world's fair and the presence of President Roosevelt next week, which will attract tens of thousands of visitors from the rural districts of the different states—the very kind the crooks and the pickpockets of the large cities follow. It is well known that some of the most notorious confidence men in the country will be attracted to St. Louis. The detectives from the cities know these crooks on sight, so several will be brought from Chicago to look out for Chicago crooks. Cincinnati detectives to keep an eye on the bad men from that city, and so on.

There are to be more than 100 of these men. Whenever a professional crook is recognized he will be arrested. He will be put in jail at once and kept there until the festivities are over. It will not be necessary for him to commit a crime before he finds himself behind the bars. If there are any old charges on which these professional crooks can be held they will be punished to the full extent. Special precautions likewise will be taken for the safety of the president during his stay in St. Louis. Besides the secret service men who are now accompanying him, a special detail has been ordered from Washington and will be here by the time the presidential party reaches the city.

OBSERVE ARBOR DAY IN OLD ILLINOIS

SPRINGFIELD, Ill., April 24.—Advice received by the state superintendent of public instruction indicates that Arbor day is to be more generally observed by schools and colleges throughout the state today than has been the custom heretofore. Persistent efforts are being made by the state authorities, aided by various interested societies, to have the public schools observe Arbor day, the planting and preservation of trees. In his proclamation designation today as Arbor day Governor Yates said in part as follows: "The forests of this country are of great economic value. It is estimated that the annual consumption of wood is at least twice as great as the annual growth of the trees, from beautifying the home surroundings and the public grounds and highways, it is good public policy to increase the practical knowledge, which may lead in due time to restoration of an especial value. For these reasons I urge in an address that the work of planting trees be continued, and that all teachers employed by the state or any school district provide for suitable instruction in the care of trees and their importance."

DRAMATIC INCIDENT AT YOUTSEY TRIAL

FRANKFORT, Ky., April 24.—J. M. Hardgrove of Pulaski county was the first witness in the Howard trial Thursday. He had testified in former trials and his testimony was not different from that given heretofore in some points. John Mastin, a local hardware merchant, told of Youtsey and Mr. Johnson coming to his store ten days before the shooting and trying to buy a Mauser rifle. Mastin said he declined to sell as he heard much talk of killing and suspected it might be used for that purpose. Youtsey offered to return the gun and sell it back to the witness at his own price in a few days, but witness still refused and Youtsey told him not to mention their conversation to any one.

MATADOR HAS A GENERAL EMBROGLIO

MATADOR, Texas, April 24.—A general embroglio, in which two men and two boys were engaged, occurred here Monday and resulted in lines for all four. The trouble started in a fight between the boys—Lucian Day and Turner Kimball—whiskey, it is said, being the cause of the trouble. Then Day's father and Joe Wayborn had a fight. Day alleging, Joe Wayborn gave the boys the whiskey which started the first difficulty.

Regard Jesus in That Light Alone, Accept the Lord's Prayer and Many of the Doctrines Advanced by the Man of Galilee—Speaker Loudly Applauded

CHICAGO, Ill., April 24.—"If Jesus Christ should return to earth tomorrow he would be welcomed in every Jewish synagogue in the land, and every Jew would say with David, 'Lift up your heads, ye everlasting doors, and the King of Glory shall come in.'" This was the climax of a lecture by Dr. Emil G. Hirsch, delivered last night before the Epworth League of St. James' Methodist church, Ellis avenue and Forty-sixth street. The big audience gave the speaker a storm of applause when he sat down, the chairman of the meeting thanked him for his lecture, the people thanked him for it by a rising vote and as he had eulogized the Lord's prayer the meeting was closed with it. Dr. Hirsch repeating it in unison with his Christian friends.

ORIGINAL SIN

"The Jews," said Dr. Hirsch, "do not believe at all in original sin and inherited depravity. They believe every man is a responsible free agent and is not involved in the guilt of his fathers or his children. Of course, therefore, they do not believe the story of the fall of man in the book of Genesis in its literal sense. They accept the teachings of the higher criticism, and consider the story of the Garden of Eden an allegory. As they reject the doctrine of original sin, they reject, of course, the doctrine of redemption from sin. They believe in a Messiah, but the Messiah of the old testament is a temporal prince who shall reign over the Jews after they shall have been reunited and become a nation again in Palestine."

"At least," said Dr. Hirsch, "I believe this, but the liberal Jews do not believe in the Messiah prophecy at all. For instance, the prophecy in Isaiah supposed to teach the miraculous birth of Jesus was undoubtedly spoken of Hezekiah, and properly translated there is nothing miraculous about it. "The Jews hold that Jesus preached nothing but Judaism. The supremacy of the commandment to love God and man, the doctrine of the fatherhood of God, the doctrine that the Sabbath was made for man, the abrogation of the law of retaliation, the obligation to love even one's enemies, and even the Lord's sublimest precepts ever framed in human language—all the elements were taken from the Jewish writings, some of which were composed hundreds of years before Jesus was born. "Moreover, when it comes to practicing the loving precepts of Jesus the Jews claim that the Christians have made an utter failure of it. The truth is, Jesus was crucified by a Roman governor and Roman soldiers, and though the crucifixion was instigated by Jews, it was by a few jealous priests and not by the mass of the Jewish people, who admired and loved him, as is evident from his triumphal entry into Jerusalem. JESUS A TEACHER

"So far as the modern Jews are concerned, they regard Jesus as one of the nobles' spiritual children, who ever appeared in the world, and that the Jews have furnished the only shining example of obedience. The so-called disciples of Jesus have persecuted the Jews with savage ferocity for ages, and the Jews have borne these persecutions with unshakable gentleness and silence. "Dr. Hirsch then presented the belief of the Jews in the resurrection and the immortality of the soul. He said it could not be denied that man had a soul and the bare existence of a soul proved its immortality after death.

THE OPENING OF THE MONEY JAR

The Telegram's money jar will be opened Saturday at 2 o'clock p. m. in the Washer window, and the counting of the money contained in the jar will be done by Tom Slack of the First National bank and E. H. Martin of the Farmers and Mechanics bank. When the counting of the money has been completed, a committee composed of H. L. Calhoun, secretary of the city waterworks department, W. J. Estes, assistant city secretary, and Captain J. A. Starling will commence the tabulation of the estimating coupons that will be turned over to the committee under lock and key. The person or persons who have accurately estimated the amount of money in the jar, or who have estimated closest to the actual amount will be declared the winners, and the money will be promptly paid over.

The contest closes at noon. After 12 o'clock noon Saturday not another estimate will be received. Estimates will be received at Washer's up to noon under the conditions announced in their advertisement. Estimates will be received at The Telegram office up to noon on money paid to the subscription department. Remember, no estimate will be received after 12 o'clock noon on Saturday, April 25. Come up town and watch the process of counting and awarding. All the estimating coupons will be turned over to the committee, tied up in packages. All estimates of \$50 will be in one package. All estimates of \$40 in another; of \$30 in another, and so on through the various denominations. Every possible safeguard has been thrown around this contest, so that there will be no chance of error, collusion or partiality. The estimates received every day are put into a big box, with the lid padlocked tight. The sorting of denominations is carefully done, and there is no possible chance of error or fraud. But a few hours remain in which to make estimates. Purchases made at the Washer store or payments on subscriptions entitle those who wish it to estimate on the money in the jar. Should there be more than one to make the accurate estimate the money in the jar will be divided. Should there be no accurate estimate the money will go to the one making the nearest estimate, or if more than one makes the same estimate the money will be divided.

TRAVELING MEN IN BEAUMONT CONVENE

BEAUMONT, Texas, April 24.—The fourteenth annual convention of the T. P. A. convened this morning with one of the largest attendances in the history of the organization. After an invocation by Rev. Homer T. Wilson, the convention proceeded to business. Reports of the president, secretary and treasurer were read and referred to the proper committees, also the railroad committee's report was heard. Under a suspension of the rules D. R. Snodgrass, of Post W., Nacogdoches, and D. C. Malley, of Post X., Palestine, were elected state directors. The secretary's report embodied the alleged criticism of the national board of directors regarding the approval of claims. An effort to have that portion eliminated failed, and the report was adopted. The next piece of meeting seems to be between Dallas and El Paso.

O. W. GILLESPIE ON POLITICS AS CAREER

The young men of Fort Worth who did not attend last night's meeting of the Young Men's Self-Culture Club in the parlors of the Christian Tabernacle missed an opportunity of hearing one of the most thoughtful and excited talks on politics ever delivered in Fort Worth. Congressman O. W. Gillespie was the speaker of the evening. His topic was "Politics as a Career for the Young Man." It was the first in a series of Thursday night talks in which successful men in various professional and business pursuits will discuss what makes for success in their respective lines. The president of the club, E. J. Cook, presided; the other officers of the club are J. H. Graham, vice president; E. L. True, secretary, and C. E. Greenwell, treasurer. The club, which was organized several weeks ago, already has a membership of thirty.

JEFFERSON ON POLITICS

Mr. Gillespie took a number of utterances of Thomas Jefferson as a sort of text. Among those utterances were: "Politics and party hatreds destroy the happiness of everybody here. They seem, like Salamanders, to consider fire as their element." (Written from Paris.) "I never suffer a political to become a personal difference." "Political interest can never be separated in the long run from moral right." "I shall be liberated from the hated occupation of politics and remain in the bosom of my family, my farm and my books." "But it is on politics, a subject I never loved, and now hate." (Written in acknowledgment receipt of a pamphlet from Adams.) "Politics is such a torment that I would advise every one I love not to mix with it." "Politics is my duty."

Mr. Gillespie also quoted the philosophic utterance of a German: "Last of fame is the last folly the wise man will lay aside."

Mr. Gillespie spoke not only of politics as a career, but he spoke of it in the abstract and gave wholesome advice to his hearers in regard to their duty when casting their ballots. "Your conscience and your God should dictate the ballot you cast; naught else," he said. He held that the American voter who did not consider above all else, even above friendship and party, the honesty of the candidate offering, did not merit the heritage left by the forefathers, the right to vote and the name of being capable of self-government.

He pointed to the political rotteness just uncovered in Missouri as a warning to his hearers. "The same thing, or something very much like it exists everywhere in the United States; the reason we do not hear of the corruption elsewhere is because it is not exposed."

LOVE OF POWER

Mr. Gillespie referred to the love of fame and power that was natural to every man—the desire to have authority over some one. This was the spur to a man in political life more than in any other pursuit. There was no money in politics for the pure man. This was shown by the fact that with hardly an exception the presidents of the United States had left the presidential chair poorer than when they took it, and he was proud to say for the congressmen of the south that with hardly an exception they had returned from Washington poorer men than when they went there. He would not advise any man to start upon a political career; he would not shoulder such responsibility; politics was what Jefferson depicted it to be.

THE DESIRE TO WIN

One trouble was that when a man entered a political race he wanted to win about as badly as a man does who is betting on his horse to win a race. "A man betting on his horse," said Mr. Gillespie, "will bet all his money, his hat and coat and shoes and everything else he can get and he feels the same way when he is in a political race."

Men should go into politics when they felt it their duty to do so; when they were prepared to make sacrifices, when they were prepared to have political friends whom they would not welcome as personal friends; when they saw their duty and felt strong enough to resist attempts to swerve them from it. They should enter political life when they could do so with clean hands and hearts and because they recognized the call was a call to duty, as Thomas Jefferson did.

THE BILL ADOPTED

AUSTIN, Texas, April 24.—The report of free conference committee on the text book bill was adopted this morning by both branches of the legislature, in the house by a vote of 105 to 0 and in the senate by 29 to 6, therefore the bill becomes effective at once. There was no opposition to the bill. It is practically the senate bill.

PROVISIONS

It provides that the board shall be composed of the governor, the attorney general, the superintendent of public instruction, the commissioner of insurance and three teachers appointed by the governor, to be selected from the school districts affected by the bill, and who have had five years experience.

The house this morning adopted a resolution requesting the Washington delegation at congress to urge the payment by Federal government of \$50,874.83, claimed due Texas the value of Greer county lands alienated from the state.

THE AUSTIN DAM

The house passed finally the bill authorizing the city of Austin to take steps to rebuild the Austin dam. It also passed the bill providing for the refunding of \$288,000 state bonds. The senate adjourned to Monday. The senate devoted the entire morning session considering miscellaneous items in its general appropriation bill.

ADDITIONAL CITY BRIEFS

A meeting of Eleanor Temple, No. 35, Rathbone Sisters, will be held this evening. This will be the last session before the meeting of the Grand Temple, for which final arrangements will be made tonight.

Conductor W. E. Hunter, who has been confined to his home on Galveston avenue, for some time, is yet in a serious condition. The many friends of Dr. O. L. Fisher, formerly president of the Fort Worth University, will be pleased to know that since his resignation of the office, the condition of his health is slowly improving. Howard Martin, assistant state attorney, was in the city yesterday morning on his way to his home at Weatherford.

MISSOURI TRAVELING MEN ST. LOUIS, Mo., April 24.—More than two hundred delegates and visitors are attending the thirteenth annual convention of the Missouri division of the Travelers' Protective Association in session here. The gathering was formally opened today, President J. B. Caldwell of the association presiding. Several matters of great importance to the fraternity of commercial travelers are to be considered by the convention, which will be in session two days. Some features of interesting entertainment for the delegates and visiting ladies have been arranged by the local posts.

IF WOMEN ONLY KNEW

What a Heap of Happiness It Would Bring to Fort Worth Homes.

Hard to do housework with an aching back. Hours of misery at leisure or at work. If women only knew the cause; Backache pains come from sick kidneys. Doan's Kidney Pills will cure sick kidneys. Fort Worth people endorse this: Mrs. M. E. Fleming, of 206 Elizabeth street, says: "If all troubled with pains in their back could have them ended as quickly as the use of Doan's Kidney Pills, procured at Weaver's Pharmacy ended mine, backache and its accompanying ills need have no terrors for ladies who use this strengthening and curative remedy. I only hope the benefits I have received from the use of the remedy may be lasting."

LET IT ALONE
It was a sensible address John De Witt Warner made in New York this week.

The solution of the misunderstanding called racial feeling, says Mr. Warner, is to let it alone. Mr. Warner said other good things on the subject, many of which were not new; but the point of his address was for both north and south to let the question drop, and to let it solve itself.

Just who began the discussion that has been running through the press and among public speakers during the past few months, is hard to say. Whoever did has kindled a very extensive blaze. Honest men have their convictions and when they speak them they are apt to hurt dishonest men and schemers, and injured feelings are the surest causes of unpleasantness.

Nobody heard about the race problem during the Spanish war. The country was thinking about a common enemy and in a united thought, everybody forgot the little subjects for talk. It has always been this way. Whenever a country loses some purpose or movement on which it can concentrate the bulk of its attention, it is apt to take up little molehills and make mountains of them.

Unbused wits like idle horses' heels are apt to get their owners into trouble, and so good men, honest and brainy men, for want of some greater subject to discuss have turned attention to the race problem among other things. They have said wise things and much that is good, but of all they have said, the vast majority was unnecessary.

Had, however, the wise and great thinkers of the country done all the talking and writing, it would have been of little harm; but lesser folk took up the talk and made of it chatter, and deny it though we may, the chatters are as great moulders of opinion as the thinkers.

The Telegram has tried to avoid the race question and expects to continue doing so unless the liberty or the rights of the general public become involved.

At present, neither is interested, and the only course left to those who wish to avoid being classed among the lovers of argument for argument's sake, is to let the matter heal itself and be forgotten.

SOMETHING DOING
There is something doing in north Texas these days. We hear much of growing crops, busy farmers, cattle-men working overtime to remove Texas herds to northern pastures, but in addition to all this bustle and push of Texas in springtime, there are other and louder notes of progress to be heard.

Every day, from its many correspondents, The Telegram receives newsletters, and there is scarcely one that does not contain some live note of progress, some business change, perhaps a new building going up, or maybe a corporation formed to push some Texas industry.

Yesterday readers of The Telegram might have caught the following items among the many:
Waxahachie gets a new library to cost \$25,000; A company has been formed in Frisco, Tex., to build a new waterworks system; at Amarillo a newspaper changes hands and the owner announces he expects to make a larger publication, giving news of stock interest in the entire Panhandle; It goes on every day in an endless chain.

The hum of Texas progress can be heard all over the Southwest, and the northern part of the state is not behind in swelling the volume.

A tavern according to the plan of Bishop Potter is to be opened in New York. There is to be no treating, no

women are to be allowed in the place and a drink will not be sold to an intoxicated man. Of all the ridiculous ways of trying to solve such problems as the liquor question, the most foolish is the one that attempts compromise. If it is to be fought to a finish, well and good, if it is to be left to its own business, none the worse; but the attempt to run a Sunday School saloon has heretofore either resulted in bankruptcy for the proprietor or bankruptcy of the place's morals, and better results are not to be expected from future efforts.

In commemoration of the fourteenth birthday of Oklahoma City, the Oklahoma Times-Journal issued a double number Wednesday evening, telling something of the resources and accomplishments of the city. For a city fourteen years old the growth has been more than phenomenal, and it affords a striking example of what progress can do in the great southwest.

Despite the fact that it is one of the breeziest of the state's evening papers and crams more news into its four pages than many papers do in eight, the Austin Tribune oversteps the line when it heads a new story: "Peace Park Cutoff Surrendered Today." Of course there is a strong tendency in a city where lobbyist is used so frequently, to depend on "list" in a tight place, but "cutoff" is too strenuous. Will we next hear what the "legislators" did?

There is nothing remarkable in the fact that George Gould stood quietly at his Lakewood, N. J. home the other evening and watched fifty barrels of gasoline burn, without getting excited. Now if it had been one pint of gasoline, a kitchie stove, and a careless cook, the dispatches would have told a different story. Gasoline is easy to get, but cooks?

General Manning, commanding British forces in Somaliland, has joined the ranks of his distinguished predecessors by sending in a dispatch beginning, "I regret to report."

AMONG EXCHANGES

The latest pictures of President Roosevelt printed in the newspapers and weekly magazines to illustrate his speech-making pose in bringing out points and driving them home are very apt. They make him look as though he is about to spit through his teeth into a mountain lion's face.—Atlanta Journal.

Mrs. Robert Fitzsimmons, who died the other day, will be best known to fame as the lady who is credited with the historic phrase, "Paste him in the snats, Bob." She ought to make a head-gain angel.—Memphis Commercial Appeal.

Those Missouri senators ought to have known that talking powder would rise to course them.—Oklahoma Times-Journal.
"Golden Rule" Jones made an address in Beaumont the other night. He said he believed in the city beautiful. "Why," he went on to say, "I observe a vacant spot just in front of this building. With this splendid tropical climate of yours it could be made beautiful and attractive, instead of an eyesore, as it now is. Beautify the city, and above all, and more than all, beautify and elevate the lives, the minds and hearts of the men and women who live in your city." Every town should have a "Golden Rule" Jones at the head of its municipal affairs.—Waco Times-Herald.

Hogs are still high in the Fort Worth market, and that should be a reminder to the farmer to plant more hogs. There is no other crop that he can grow with as little cultivation and so much profit. Then, again, when he raises hogs, he is sure to keep his smoke-house at home instead of in the north of at Fort Worth. The farmers become independent in proportion as they raise at home everything they consume.—Hillsboro Mirror.

GIVES RELIEF QUICKLY

Regular Use of Hyomel Cures Most Stubborn Case of Catarrh
No other medicine gives such prompt relief as Hyomel in the treatment of catarrh.

The first breath of this remedy soothes and heals the irritated and smarting air passages, and the regular use for a few days or weeks will cure the most stubborn case. Some of the reports from those who have been cured of catarrh by Hyomel read like miracles.

John S. Gray of Richmond Hills, Pa., writes: "I am 82 years old and have been a sufferer with catarrh in the head for 25 or 30 years. I have doctored with many specialists and they all told me that the disease was incurable on account of my age. After using Hyomel a short time I was greatly benefited and can now say that I am entirely cured. It has been six months since I stopped using the remedy and I still remain cured."

In nearly every town and village of the country can be found those who have been cured of catarrh by Hyomel. In Fort Worth there are probably over a thousand people whose health has been restored by this remarkable treatment.

Wheatley's Pharmacy have sold package after package and every one has been with their personal guarantee to refund the money if it did not cure. Only two outfits have been returned and in each instance the money was paid back without question.

You run no risk whatever in buying Hyomel and your word decides the question as to whether you pay for the remedy or not.

Can you afford to suffer longer with catarrh when you can buy a guaranteed treatment on this plan?

RAISING SILK MIGHT DO IN TEXAS

Why not raise silk worms and spin your own silk? If you would like to try it, Uncle Sam will make you a present of a few thousand silk worm eggs to start with, and to these he will add a free gift of a white mulberry tree to furnish the leaves for the caterpillars to feed upon. The government is anxious to do everything in its power to encourage the silk producing industry in this country. At the present time we import from abroad more than \$20,000,000 worth of raw silk annually, which might just as well be spun in the United States, putting that amount of money into the pockets of industrious Americans.

If you want to try your hand at this kind of enterprise all you have to do is to write the department of agriculture, asking for some silk worm eggs, and you will promptly receive a small wooden box, which, when opened, will be found to contain a little tin box-perforated around the sides. Inside the latter will be, perhaps, a quarter of an ounce of eggs, about the size of turnip seeds, representing 3,000 or so probable worms.

Your next step will be to write to Clifford Pinchot, forester of the United States, at Washington, asking him to send you a white mulberry tree. This he will quickly do. It will be only a small tree, but it will grow fast. If you will plant it, and take slips from it to start other trees, you will soon have a sufficient plantation to supply with their chosen food an army of silk worms.

The white mulberry is the only kind of mulberry that serves the purpose, though silk worms are quite as well satisfied with the leaves of the orange orange, of which unlimited quantities are available in many parts of the south.

EGGS GIVEN AWAY
The eggs now being distributed in this way by the government have been obtained from France, but Uncle Sam may soon go into the business of producing them on a large scale for himself, and this he can do at no great expense, inasmuch as each caterpillar, when transformed into a moth, lays from 300 to 700 eggs. Also, there is to be established at Washington a reeling plant, which will have limited quantities of the cocoons from producers at the market price (about \$1 a pound), and unwind the silk from them. The reeled silk will be sold to manufacturers of silk fabrics.

When you receive your eggs you must take the tin box out of the wooden box and put the former, with the eggs which it contains, into a refrigerator, in order to keep them from hatching until you are ready for them to do so. Then you must watch for the budding of the white mulberry or orange orange, and thereupon remove the eggs from the tin box and place them in a warm room, spreading them thinly upon clean sheets of paper. They will hatch in four or five days.

Just before the worms come out, small pieces of mosquito net should be laid over the eggs, with a sprinkling of fine-cut leaves, which will cause the baby silkworms to crawl through the meshes of the net to get at the food—whereupon they may be removed, not and all, to another table.

They must be fed four or five times a day, giving them all they will eat up clean, but it will be necessary to move them frequently from table to table so as to get rid of debris. This may be accomplished easily each time by laying fine over them mosquito net with a fresh one.

PAVING COMMITTEE IS A BIG SUCCESS

A total of 350 feet, signature for the paving of which had been denied up to last Monday, has been won over to the pro-paving side of the question since the committee took up its work. Of this, 150 feet has been signed for and the signature for 200 feet more has been agreed upon as soon as the contract can be prepared. This signature will be added to the list some time today.

This leaves about 300 feet owned by residents of Fort Worth yet to be signed for. Papers have been mailed to non-resident owners for their signatures, and the committee is confident of prompt and favorable action by the non-residents. In fact, the latter can be forced to pave by the city, but, of course, such a course will not be taken unless persuasive methods fail.

The earnest hope of the merchants that the paving of the street shall be begun soon and finished during the dull summer months seems certain of fulfillment.

Dr. Charles Bennie is visiting in Fort Worth, the guest of his aunt, Mrs. R. D. Hunter.

John to Mr. and Mrs. James Stewart, April 20, a baby girl.

Jim Williams of Sacoche, Texas, is spending a few days with friends in Thurber.

Nos. 7, 8, 9 and 10 mines have been equipped with new pumps and hose.

Jack Caradine, who has held a position in the Blacksmith department of the Thurber mines for several years, returned Tuesday from a month's vacation in the Indian Territory.

Thomas L. Andri departed Friday for Strawn, where he has accepted a position with a new coal mining company.

Mrs. E. H. Frand and her brother, Philip Bowen, came in this week from a few days' visit to relatives and friends at Jefferson.

Stroeker Ed S. Britton and Department Manager Robert Gurganus spent Sunday with friends in Strawn.

Thurber's fire department met Tuesday night. A large number of the fire boys responded. Refreshments were served at the department's hall.

Chief William Lightfoot reported the different companies of the department in first-class condition. Thomas R. Hall moved this, owing to the warm weather now existing that the committee on refreshments be appointed a little early in the game, and it was unanimously carried.

A very successful Methodist meeting has just closed in Thurber and a church was organized with a membership of fifty-eight.

A grand ball will be given at the city pavilion Saturday night. Music will be furnished by the Hurst orchestra.

Mrs. D. W. Barrow and children of Calhoun, La., are visiting at the home of Mrs. Barrow's parents, Mr. and Mrs. S. Mims.

Miss Lulah Anderson of Edwards, Miss., is visiting relatives in the city.

MUNICIPAL LEAGUE CONVENTION CHANGE

ANN ARBOR, Mich., April 24.—The convention of the National Municipal League, which has been in session in Detroit for two days past, today changed the theater of its discussions to Ann Arbor, the delegates arriving by special train this morning and being welcomed by the city officials and university authorities. At the forenoon session, held in the assembly hall of the University of Michigan, the following were some of the interesting papers presented: "Local Self-Government in Michigan," Otto Kirchner of Detroit; "Elementary Instruction in Municipal Government," President Edmund J. James of Northwestern University and Dr. John A. Fair of the University of Michigan; "The Gill School City," Professor C. R. Drum of Syracuse, N. Y.; "Municipal Situation in the Philippines," Dr. Paul S. Reisch of the University of Wisconsin.

WARNER'S SAFE CURE

Rev. Dr. I. Villars, a Prominent Methodist Divine, Says Warner's Safe Cure Cured His Rheumatism.

SANDWICH, Ill.—"After a delay of months to be sure that my rheumatism of over a year's painful suffering had been effected, I desire to assure you that so far as I know anything of myself I am well."

I am persuaded that Warner's Safe Cure did it. I believe that the medicine will do all that it claims to do, if the patient will follow the instructions to the letter.

TEST YOUR URINE. If there is a reddish sediment in it, or if it is cloudy, or if you see particles of germs floating about in it, your kidneys are diseased.

ANALYSIS FREE. Send a sample of your urine to Medical Dept., Warner's Safe Cure Co., Rochester, N. Y.; the doctors will make analysis and send you a report and advice free, together with a valuable medical booklet which tells all about diseases of the kidneys, liver, bladder and blood, and their treatment.

WARNER'S SAFE CURE is purely vegetable and contains no narcotic or harmful drugs.

It is free from sediment and pleasant to take. (Beware of so-called kidney cures full of sediment and of bad odor—they are dangerous.) It does not constipate, it is prescribed and used by doctors themselves in the leading hospitals as the only absolute cure for all forms of disease of the kidneys, bladder and blood.

WARNER'S SAFE PILLS move the bowels gently and aid a speedy cure. Warner's Safe Cure is what you need, you can buy it at any drug store, two sizes, 50 cents and \$1.00 a bottle.

Refuse Substitutes and Imitations. There is no kidney cure "just as good" as Warner's. Insist on the genuine. Substitutes contain harmful drugs.

MONKEY BABIES

Comparatively few monkey babies are born in America, and but few of those born here live to attain their monkey majority. Owing to the excellent care bestowed on the big colony of monkeys wintered in the Photo show in quarters last winter, several of the cute little tots born have been reared and are on daily exhibition in the menagerie tent. It is a rare sight to see the monkey mother fondling her baby with the care its human sister could bestow. She will sit and rock the little fellow in her arms by the hour and soothe it in monkey baby talk. The monkey colony with the Photo show is the largest in the country. They exhibit here Monday and Tuesday, April 27 and 28.

RAIN WOULD HELP AT BIG SPRINGS

BIG SPRINGS, Texas, April 24.—This section of the country is beginning to need rain pretty badly. However, the grass is growing some and live stock of all kinds is in good condition. WAXAHACHIE PLANS GUEST'S ENJOYMENT

WAXAHACHIE, Texas, April 24.—The citizens of Waxahachie are making elaborate preparations to give the Texas penitentiary a right royal reception on May 21 and 22, when the Texas Penitentiary will be here.

THE CITY IN BRIEF

Association meets here. An enthusiastic mass meeting was held at the city hall yesterday afternoon for the purpose of taking the initial steps in the matter of providing entertainment for the editors when they come to the meeting of the association. Several addresses were made by leading citizens of the town and all necessary committees were appointed. The committees will begin work at once and nothing will be left undone looking to the comfort and entertainment of the association.

The business sessions will be held in the district court room, which is large and airy and will accommodate several hundred people. The room will be supplied with electric fans, ice water, etc., and special pains will be taken to make the business meetings comfortable.

On Thursday night, May 22, an entertainment will be given in the chapel of Trinity University by the music faculty and pupils of that institution. This will be one of the principal features of the entertainment of the editors during their stay in the city.

Friday afternoon the ladies of the Shakespeare Club will keep open house for the benefit of the association. This reception will take place after a visit to the Waxahachie cotton mills and other places of interest in the city. The visit to the cotton mills will doubtless be an interesting feature to the majority of the newspaper men, and will furnish them an object lesson of what can be accomplished in the line of industrial enterprises. The mills were built with Ellis county money, the capital stock being \$125,000. Employment is given one hundred and twenty-five people and the pay roll is \$2,000 a week. Each year 2,500 bales of cotton, bought chiefly from Ellis county farmers, is manufactured into cloth. Last year the company paid \$115,000 for cotton and the sales of the manufactured product amounted to \$192,100.

On the night of May 22 an elaborate banquet will be tendered the association by the citizens of the town.

FINE PROGRAM AT TABERNACLE

Last night at the Christian Tabernacle a delightful program, given for the benefit of the All Saints Hospital, was rendered to a fair-sized audience. Among the best numbers were those of Mrs. Harry Fisher, in a character monologue, and Miss Ethel Maynor, in a humorous monologue. Miss Fanny King deserves special mention for her rendition of "The Passing Cloud." Miss Mary Eubank, in her three piano selections, received much applause. Others whose performances were particularly pleasing were Miss Walton, piano selection; Alice Laneri, dramatic reading; E. M. Pease, vocal solo; Adrian Ford and Katie Lohane, comic dialogue; Mattie Shaw, dramatic reading.

IT'S BREATH

Came Stealing in the Doorway. The aroma from a neighbor's kitchen was the curious starting point for a great change in the life of a woman in Kansas City, whom coffee kept in bed for days at a time with stomach trouble and severe headaches.

She says: "One day I was attracted to a Guaranae from the kitchen of a neighbor who told me that it was Postum Food Coffee and asked me why I did not quit coffee and use Postum to see if it would not benefit my health.

"I made the change recommended and in a few days my headaches disappeared, stomach got better and I began to get well. That was about five months ago.

"I have steadily used Postum since and am now so well that I can eat practically anything, but I absolutely cannot drink coffee without getting right back into the old trouble. I wish I had known of Postum years ago." Name given by Postum Co., Battle Creek, Mich.

HILLSBORO HAS ANOTHER MURDER

HILLSBORO, Texas, April 24.—On the 4th of April Charles Madden killed Anderson Taylor near Waxon. He was indicted last week on a charge of murder and is now on trial. The case has just gone to the jury. Both are negroes.

Weather Conditions

The most prominent feature of the weather is a storm of considerable energy over the upper Mississippi valley section, resulting in high winds and thunderstorms; trailing southwestward from this disturbance is a trough-shape pressure which extends to the Rio Grande valley, resulting in brisk to high southerly winds in Texas, but no rain, except a very light shower in the Panhandle. Generally high winds prevail in the cotton region west of the Mississippi, and in the wheat and corn belt, with scattered showers in the northern portion of the belt.

DISPENSING WITH TRAFFIC MANAGER

It is said the services of many men employed as traffic managers in connection with industrial concerns, have been dispensed with since the Elkins law went into effect. The employment of these men became a necessity that in many respects no longer prevails. While rate cutting was supposed to have been largely eliminated, it is well understood that rates were manipulated in a variety of ways, and in order to get these concessions it was essential that men experienced in railroad affairs, particularly in rate-making and routing of business, and with a full knowledge of how to get concessions, should be employed as traffic managers.

The big shippers, like the great brewing interest, steel industries, packers and many other large concerns had to have such men to keep track of rates and rebates, and make the deals under which their products were transported, and many a first-class railroad man gave up his position to accept one of these. While the duties devolving upon these managers were onerous and exacting, they were equally important, and often required the exercise of much tact and skill, but the compensation in the majority of instances was commensurate with the responsibilities, so that the places were eagerly sought.

But there is less need of such men now. Shippers are on an equality under the Elkins law, and no traffic representative of a railroad cares to subject his road by any act of his to the danger of being convicted of a violation of the law and compelled to pay a big fine. While he occupies such a position, he cannot hope, in such a case, to retain his position.

COURT MATRONS

District court adjourned today until next Monday, when the Nix and the Yumming arson cases will come up for trial. During the week there have been six cases up and in each case a conviction was had, and each party got a term in the state penitentiary. County Attorney Wilson's friends are all speaking of the good record he is making.

BOXING MATCHES TO RAISE FUNDS

NEW ORLEANS, La., April 24.—The entertainment committee for the reunion of Confederate veterans, through Chairman Blakeley, is arranging for giving a mammoth carnival of boxing, wrestling, fencing and other athletic features, to increase the receipts of the fund for the entertainment of the old soldiers, and the committee has requested "Parson" Davies to act as manager of the affair. Davies is endeavoring to arrange with Jeffries and Fitzsimmons to appear in a scientific exhibition in connection with other celebrities. The carnival is to be held May 15.

ALL IS READY FOR CRY, "PLAY BALL"

CORSICANA VS. FORT WORTH TOMORROW AFTERNOON

Buchanan and Wright Are Picked to Oppose Each Other on Firing Line. Grounds in Better Condition—Have You Sent in Your Guess?

LINE-UP IN FIRST GAME

Fort Worth—Barrett, left field; Lucid, first base; Ditch, second base; Polindexter, center field; McMurray, catcher; Combs, third base; Moynihan, short stop; Fenner, right field; Buchanan, pitcher.

Corsicana—Maloney, center field; Dugan, second base; Shelton, third base; O'Connor, first base; Westlake, catcher; Pendleton, left field; Redus, right field; Hill, short stop; Wright, pitcher.

Umpire—Wirt Spencer.

Plays in the first championship game of the Texas League season of 1903 in Fort Worth will be called at 3:30 tomorrow afternoon at Haines' park, when Corsicana, last year's champions, and Fort Worth, last year's fall-enders, will oppose each other. Mayor Powell will pitch the first ball. There has been some betting on the result, in a light way, for several days and it speaks well of the impression made on the local fans by the new Fort Worth club, to be able to say that they are laying even money that the locals win the first game.

BUCHANAN VS. WRIGHT

Barring the unexpected—which is always turning up in baseball—the two nines will line-up as given in today's Telegram. That it will be a battle royal from start to finish is a foregone conclusion. With Buchanan and Wright pitching the twirling honors should be about evenly distributed. Although he is a youngster just out of college, Buchanan is cool headed, has excellent control and a world of speed and curves.

The Corsicana bunch hasn't done anything surprising at the bat thus far this year, in fact has not shown nearly as good form at bat as have Dallas and Fort Worth. After the fierce drubbings given to Galveston by Fort Worth and Dallas, it is a matter of surprise that the Sand Crabs should go to Corsicana and defeat that club by a score of 5 to 1, as they did yesterday.

THE PENNANT RACE

It is understood that Manager Ward rather expects the race for the pennant to be between Fort Worth and Dallas, with Corsicana and Paris in third and fourth places, but close to the leaders all the way. The outlook is that the four clubs will be within hitting distance of one another throughout the two championship seasons.

Hard work has been done on the Haines' park grounds this week, both by the players and by the ground keeper. On the score of condition the team is ready for the battle. The bad fingers are not giving much trouble and it is expected that most of the soreness will have departed by tomorrow afternoon. Ground-keeper Finney has softened the hard places in the infield until now when a ball is hit across it travels in a straight line instead of taking a zig-zag course. With the improvement of the grounds the local infield is going after every ball with more confidence that was warranted before. The practice of the infield in the last two days has been on the lightning order.

THE GUESSING CONTEST

Have you sent in your guess yet as to which member of the local team will be first to knock the ball over the fence for a home run? If you name the man and come closest to naming the date on which he will perform the feat, you win six months' subscription to The Telegram, to date from the day your regular subscription expires. Send your guess in early as possible to the office of the show, one whose guess was first received by The Telegram. The guesses already in show that sentiment among the fans is widely divergent as to the hard-hitting abilities of the local players. Nearly every one is given a chance in the guesses so far received.

SOMETHING ABOUT BRONCHO BUSTERS

While the arrangements for the Horse Show have been getting underway with all speed, but little has been said or written of the "broncho busters," whose performance Saturday afternoon and night of the Horse Show week will perhaps be as enjoyable as any of the week's attractions. A sort of congress of rough riders has been gathered together by George I. Goulding of Denver, who is a high officer of the National Live Stock Association. Some of the best riders of the western and southwestern states are with the aggregation, and some of the neatest "outlaws" which ever drew breath will be under the "bustlers" when the show opens.

Perhaps the best illustration of the popularity and worth of the "broncho busting" combination is shown in the account of the performance given in Dallas a week ago.

"Fully 5,000 people witnessed the performance of the broncho busters from the seats of the Horse Show tent yesterday afternoon and several hundred more stood around the ring and inside the arena. Just before the show began the ticket sellers were ordered to stop selling, as the tent was full to overflowing.

"While handicapped by lack of space, the cowboys and their animals gave an entertainment which enthused the audience to the highest pitch and the addition

of the "bustlers" when the show opens.

NEGRO GIRL IS BIT BY RABID DOG

TYLER, Texas, April 24.—Lucy Warren, colored, bitten by a rabid dog some days since, had the mad-dog applied today. It stuck eleven times. She was bitten on the lower lip. W. M. Kee of this place applied the stone.

The Methodist brethren here are having a revival meeting, there were thirty members taken to the church Sunday. The Second Baptist church has been holding revival services, and had fifty accessions to the church.

MERCURY A POOR CRUTCH.

Experience is a dear teacher, as those who pin their faith to Mercury find out sooner or later. This powerful poison combined with Potash, is the treatment generally prescribed for Contagious Blood Poison, but failure and disappointment is the invariable result. These minerals drive in the sores and eruptions, and apparently the disease is gone and the patient believes the cure permanent, but soon learns better when the old symptoms return almost as soon as the treatment is left off. You must either keep the system saturated with mercury or endure the tortures of sore mouth, ulcerated throat and the mortification that one naturally feels when the body is covered with disgusting sores, rashes, copper-colored spots and other aggravating symptoms of this vile disease.

Mercury and Potash are poor crutches, and their use eventually breaks down the constitution, ruins the digestion and cause the bones to decay. S. S. S., a guaranteed purely vegetable remedy, is the only antidote for Contagious Blood Poison. It destroys every atom of the deadly virus, overcomes the bad effects of the mercury and cleanses the blood and system so thoroughly that never after are any signs of the disease seen. Nor is the taint ever transmitted to others.

We will send free our book on Contagious Blood Poison, which is interesting and contains full directions for treating yourself at home. Medical advice or any special information desired given without charge.

ARBITRATION CANNOT SOLVE THE PROBLEM

Notwithstanding the many counter-attractions in the city last evening, there were over 200 people at the city hall auditorium to hear John C. Chase of Haverhill, Mass., on the subject of "Socialism."

Mr. Chase's remarks last evening were what might be termed the "tearing down" phase of his theory. In other words, as a socialist, he criticized the present conditions and causes leading up to them.

Mayor Powell, who last evening was to have preceded Mr. Chase's remarks with a brief address, was detained much to the regret of the present.

Mr. Chase was twice elected mayor of Haverhill, Mass., on the socialistic ticket. He is a champion of the people's rights and is one of the strongest lecturers on the socialistic platform today.

Mr. Chase said last evening that the subject of socialism is one that is commanding attention of every thinking person in the world.

Mr. Chase explained that he spoke as a socialist and at the same time as a tradesman, and that if there were those present who had come out of mere curiosity, or to see how many bombs, he as a socialist would throw, they would go away sadly disappointed.

It is often said there is nothing new under the sun, but this season finds the great Otto Floto shows offering for the first time under a canvas a world of new features and new acts until scarcely a single old idea remains.

GASKILL-MUNDY SHOWS ARE GREAT

HOME CELEBRATION ATTRACTIONS PACKED TO THE DOORS

Best People of Fort Worth Attend--Enthusiastic Praise From All--Children's Day Tomorrow--Visitor to the Maze Collides With a Mirror and Shatters It

That the many attractions offered by the Gaskill-Mundy Carnival organization have made good in every particular there exists not a doubt in the minds of the people of Fort Worth.

All classes have turned out in great numbers and society has joined with the masses in placing its stamp of approval upon the entire affair.

Last night was by far the greatest in point of attendance of the entire week, not less than twenty thousand people paying their way into the various shows.

Main street, from Third to Tenth, was one solid jam of delighted persons from 8 until 11 o'clock last night, and what, between the music, the laughter, the myriads of gayly colored electric lights, the glare of the arc lights and the twinkle of innumerable incandescents, the hilarious chatter of the thousands of people and the magnetism of carnival spirit which seemed to permeate the atmosphere, it is safe to state on general principles that Fort Worth never witnessed the equal in a spectacular line.

Both the added attractions were on in full regalia, one of them, the bicycle ride for life by Court Edwards, being a free feature act. This ride is made twice daily at 5 and 11 o'clock, and may be witnessed at the intersection of Seventh and Houston streets.

Here a chute has been built along the same plan as a toboggan slide, raising itself at the highest point to a height of fifty feet. From top to base the distance is 150 feet, and down this steep incline Court Edwards rides at full speed on his bicycle twice daily at the allotted hours.

Such reckless disregard of life was never before attempted as a steady diet, and Edwards, the intrepid rider, will sooner or later meet his death in the performance of his sensational act.

When the risk is referred to in conversation with Edwards, he only laughs and

replies that he is not afraid, and that ends the matter. It certainly represents the absolute limit in death defiance and cannot be comprehensively described by any words at present included in the English language.

The other new attraction which was thrown open to the public yesterday is situated at Third and Main streets. It is the Crystal Maze, and is the supreme funmaker of the carnival. Here the visitor finds himself wending his way in an uncertain manner along serpentine passages, walled in large plate glass mirrors and so arranged as to baffle the shrewdest of the shrewd.

The average man or woman will just as certainly bump into the mirrors of the maze as he goes in to investigate its mysteries.

A COWBOY'S ADVENTURE

This was exemplified last night in a manner most forcible and costly to the Gaskill-Mundy people.

A cowboy visiting the city and taking in the sights had some from one end to the other of the carnival line-up and was well-nigh beside himself with delight when he reached the Crystal Maze at Third street.

Arriving there, the visitor purchased a ticket and stepped boldly into the main entrance, which seems to the eye like a hallway half a mile straightaway. In-

stead, however, in less than ten feet the cowboy found himself square up against a mirror. He side-stepped this first obstruction and meandered slowly and in a dazed condition of mind through the winding passages until he was well within the mystic structure, when he decided to return.

Round and back and found again strolled the cowboy in a frame of mind bordering upon distraction, when in sheer desperation the idea occurred to him that he was positively lost in the heart of Fort Worth, more hopelessly so than upon any prairie or in any forest on earth.

To think was to act with the cowboy and whether by accident or by strategic effort he collided head on with one of the one hundred and ten 200 mirrors which combine to form the illusion.

Crash went the beautiful mirror and for several moments pandemonium reigned within this network of mysterious halls. No one knew who did it, nor what he had done. Everyone of the hundreds of visitors who were in the maze at the time knew that something unusual had happened, but whether it was an explosion, an earthquake or a cyclonic no one could tell.

The maze was emptied as soon as possible and today the broken mirror was replaced with a new one, so that this afternoon and tonight the Crystal Maze will be running in full blast again.

Tomorrow will be Children's day at the carnival and all of the little folks will be admitted absolutely free of charge to the Stadium show, at Tenth and Main, if accompanied by a grown person.

This performance consists of Tobi Mursie, the Hindoo neomancer; Abdallah and his troupe of eight whirlwind acrobats, Kitchi and Richards in feats

of strength, the Moore-Gilmore family of trapeze performers, unquestionably the greatest in the world; the "cyclo dazzer" with its four bicycle riders, including pretty Marie Vokes, irresistible Mlle. Lizette, Frank Dougherty, the world's champion rider, and Court Edwards, the dare devil, who later rides the chutes on his wheel, and as a fitting finale the high diving of Splash and Spray from dizzy heights into a tank containing but four feet of water.

The Stadium show opens at 3:30 afternoon and 9:30 at night. Both admission and reserved seats here will be perfectly free to all boys, girls and misses Saturday afternoon, and it is expected that every child in Tarrant county will be on hand to accept the liberality of Frank W. Gaskill and P. J. Mundy, the proprietors of the Gaskill-Mundy company.

At all other of the shows tomorrow children will be admitted at half the usual child's fare, or two children on one regular ticket.

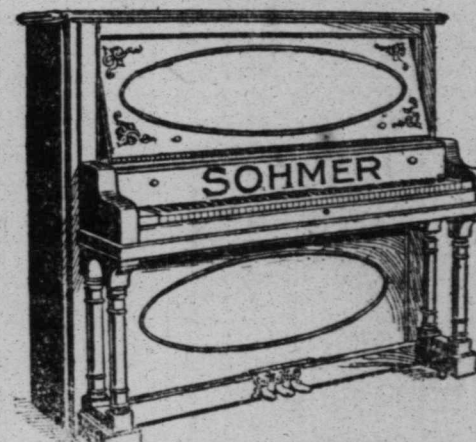

It will be the day of days for the little folks, and all are invited to come and enjoy themselves as they never did before.

MAKE NEW RULING IN BANKRUPTCY CASE

CHICAGO, April 24.--The filing of a petition in bankruptcy followed by seizure and by adjudication in bankruptcy, is a seizure of the property by the law for the benefit of creditors and an appropriation of it to the payment of the debts of the bankrupt. It is a seizure of the property by legal process, equal in rank to and of the same force and effect as by execution and attachment.

ander Rodgers, a seed merchant, who failed in May, 1901.

The lower court had denied that the Chicago Title and Trust Company, trustee, was in actual possession of the property of the bankrupt, the title to which was really in the name of holders of certain warehouse receipts. Attorney Newton Wyatt, representing the trustee, appealed from this ruling and the higher court has now set aside the other order.
