Provides That Russians Alone Are to Be Employed in Government Offices and Forbids Alienation of Eastern Provinces With Any Other Power

VICTORIA, B. C., May 13.—According to advices received by the steamer Empress of India, the Japanese arsenals are being worked day and night, provisions being concentrated, coal stored on Esplanade island, and on all sides it was evident that Japan, doubting the extent of Russia's withdrawal from Manchuria, was preparing for war.

Hon. Sidney Fisher, Canadian minister of agriculture, who was one of the passengers by the steamer and who had been in close touch with Japanese royalty and officials, says the war feeling in Japan is very strong and warlike preparations were in view.

The massing of Russian troops on the banks of the Yalu river on the pretense that protection is being accorded timber concessions, was causing strong feeling in Japan, this being regarded particularly as a menace to Japan.

The destruction by fire of the powder factory at Tokiofu has led to sinister rumors that Russian spies were connected with the disaster.

Russia continues making extensive military preparations. The North China Daily News reports that there have been continuous lines of Russian troops traveling by train from Harbin to Port Arthur, while other large bodies have been moving to the eastern borders of Manchuria, camping in the vicinity of the Yalu river, which divides that country from Korea.

The warlike movements are causing great alarm to Chinese officials, and an unnamed Chinese official is quoted as saying that the Russians are preparing for the inevitable struggle with Japan, while the Chinese officials believe the day is not far distant.

One report that has caused great excitement in Japan is to the effect that Russia is endeavoring to make an agreement with China regarding Manchuria.

SECRET TREATY

The Niroku says the secret treaty provides for the insuring to Russia of rights in Manchuria, Russians alone to be employed in government offices, and that under no circumstances shall the eastern provinces be alienated to any other power.

In case of any future emergency necessitating military measures China and Russia are to co-operate and no other power allowed to interfere. It was reported that Cais Wen Shu was heavily lobbied to endeavor to secure this arrangement for Russia, the British and American ministers, it was said, making strong objections.

CONGRER'S COURSE

The Niroku states that the United States minister, in an interview with Prince Ching, praised his courage in rejecting the Russian demands, and advised China to deal with diplomatic affairs in the future with the same determination.

The Assy reports several battles as having taken place along the Yalu river between the Chinese marines levied by Russia and Chinese troops, in which heavy losses have occurred on both sides. The paper says that mounted Chinese bandits are being used by Russia to foment rebellion to give them the excuse for non-resistance of Manchuria.

The attitude of the Japanese papers shows that the Japanese are keenly alive to the situation and that the majority of the papers counsel an appeal to the sword if Russia does not evacuate Manchuria.

The Hong Kong Telegraph reports that the Japanese government has instructed its representatives at Hong Kong and Shanghai and in the Straits Settlements to purchase quantities of provisions and supplies for the Japanese troops.

FISHERMEN CATCH A MONSTER CAT

WILHELM, Texas, May 13.—J. I. Johnson has moved his barbership into the new stone building, and he is getting ready in an up-to-date order. Hudson & Johnson will move their confectionery store to another part of the building.

Messrs. Wetzel, Melton and others were fishing last week on the Little Washita river. They caught one catfish which weighed seventy pounds and another which weighed twenty-eight pounds, besides lots of smaller ones. Hunting is also plentiful.

FORT WORTH LIKED AT TISHOMINGO, I. T.

TISHOMINGO, I. T., May 13.—There is a certain article of merchandise sold throughout the territory called only by the name "Fort Worth," and it is sold by those places that have all the appearances of licensed saloons in other states and territories. "Fort Worth" has grown so popular among the "anti" crowd at Tishomingo that it has become necessary for the C. O. G. to run a special baggage car from Ardmore to Tishomingo, the car being set out here and containing nothing but express.

W. B. Johnson, United States attorney, got sample bottles of "Fort Worth," "El Fino" and other suspicious looking bottles containing different concoctions under different names and has had the same sent to St. Louis to be analyzed. The result is anxiously awaited.

PLOT DISCOVERED ALMOST TOO LATE

Plan to Wreck Houston and Texas Central Passenger Near Mill Creek Is Thwarted Just in Time

BRENNHAM, Texas, May 12.—The news has reached this city of an attempt to wreck a night passenger train on the Houston and Texas Central railroad at Mill Creek switch, seven miles west of here, made last Saturday night. Owing to the fact that the matter was kept very quiet, the information did not reach the city until today.

It seems that shortly before train time Saturday night some unknown parties loosened a bolt and took out a rail, then put several ties across the track. Louis Grimm and Rudolf Windt, half-brothers, who live near Mill Creek switch, happened to be crossing the track at that point soon afterward and saw what had been done. They reported it to their father, Joe Windt, who sent them at once to the section foreman, Mr. Dummeyer, with the information. Dummeyer succeeded in getting the obstructions removed and the track repaired just before train time.

There is no clew to who the perpetrators of the deed are. Various theories are advanced for their motives. Some think robbery was intended.

DENTON JAIL HAS FIVE NEW GUESTS

DENTON, Texas, May 13.—The Denton county jail had more than an ordinary trade last Sunday. Its register shows that it received five new guests on that day to enjoy its hospitality, whereas, it had been a month and two days before that since it had received one. They were John Wigginton, charged with murder; Rebecca Crewsbaw, charged with threatening; Bob Tatum, charged with threatening; and Charles Bradley, charged with seduction, and Roll Garrett, charged with stealing cattle.

TALK OF POLLING SPECIAL TAX VOTE

WAXAHACHIE, Texas, May 12.—The commissioners court is holding its quarterly session this week. At yesterday's session an election was ordered held in the county on June 6 for the qualified voters to determine whether the county shall levy a special tax on the \$100 valuation of property for public road improvements. The election was ordered in response to a numerously signed petition presented to the court.

NEWSPAPER NOTICE FINDS MISSING GIRL

BALTIMORE, Md., May 13.—Ethel Clarke, daughter of Mr. and Mrs. Jasper W. Clarke, who was kidnapped twenty-three years ago, is once again in the home from which she was stolen.

One morning in the spring of 1880 Mrs. Clarke arose early to go to a grocery store, two or three blocks distant, from home, then in a sparsely settled neighborhood. On returning she was confronted by a tramp whom she had before befriended and who demanded his breakfast immediately. Mrs. Clarke told him she would have to wait until she saw it give him something. The fellow cursed and threatened her. That afternoon Ethel disappeared.

On the last anniversary of her disappearance one of the local newspapers published a story of Ethel Clarke's kidnapping. A few days later a handsome young woman called upon Mrs. Clarke.

"My name is Ethel Clarke, and I believe I am your daughter," said the visitor. Then she told how she remembered being taken away when very young by a rough man and carried to an orphan asylum in Washington, where she remained twelve years. She was transferred to other institutions, where she remained until she was 18 years of age, since which time she has been earning her living in a silk factory in this city.

The fullest investigation has been made resulting in the positive identification of the young woman as the daughter of Mr. and Mrs. Clarke.

TRIBESMEN REPULSED

Dispatch From Morocco Says They Have Been Repulsed at Tetuan and Many Killed

MADRID, May 13.—A dispatch from Ceuta Morocco announces that the tribesmen who attacked Tetuan Monday were repulsed. They stubbornly fought their way through the suburbs to the foot walls, but the imperial troops eventually regained the lost position and cut off the rebels with heavy losses on both sides.

A later dispatch from Ceuta, says a courier who has arrived there by sea from Tetuan states that the battle was suspended in order to allow the opposing forces to bury the dead, numbering 300.

Many heads were displayed on the walls of Tetuan, which still has three days' supply of ammunition.

Advices from Tangier announce that the imperial forces routed the rebel mountaineers near Fez, inflicting great loss on the enemy.

POLICE TROUBLES AT HILLSBORO, TEX.

HILLSBORO, Texas, May 13.—There is a warm controversy on between Mayor Pitts and the new city council. The origin of it is in the fact that the newly city marshal, H. W. Kennedy, and the officers of the policemen do not work in perfect harmony and he asked that they be relieved and one new policeman be appointed. He thinks that one policeman now on duty and one more to be appointed could, with himself, attend to the business of his department. Mayor Pitts refused to agree to the change. At a special session of the council last night he read a long message, setting forth his reasons for refusing to make the change, which were that the policemen having been appointed at the first term in January (the time fixed by law for making such appointments) and their salaries fixed at that time, they could not be retired or relieved until the end of the year, except for cause, which he said did not exist in this case.

The message was ordered filed and the matter will come up in the regular meeting next Tuesday night, when the fight will be waged to a finish. Two of the councilmen are with Mayor Pitts in his contention, but the balance of them seem to be opposed to it very strongly.

CLEARANCES AT CHICAGO

CHICAGO, Ill., May 13.—Clearances of grain at the port of Chicago today were: Wheat and flour, 278,000 bushels; corn, 126,000 bushels; oats, 15,250 bushels.

ALL IMMIGRANTS MUST PAY \$2 FOR COMING IN

EL PASO, Texas, May 13.—By a ruling of the commissioner general, all of immigration received here, all emigrants coming into the United States must pay \$2 a head tax, regardless of their means. This is to apply to those who travel on the street cars between Juarez and El Paso and affects the numbers who daily travel between the two places.

Among them is the German consul to Juarez, who necessarily makes two or more trips a day.

NEW TEACHERS FOR WAXAHACHIE SCHOOL

WAXAHACHIE, Texas, May 13.—At the last meeting of the board of trustees of the public schools the following teachers were elected for next year:

G. B. Winn, principal of the high school; P. J. Herndon, R. H. Scooby, W. C. Bryant, J. E. Bullock, Miss Kate Lrid, Miss Mary Caldwell, Miss Jennie die, Miss Mattie Warren, Miss Crickatt Keys, Miss Fannie Malone, Miss Lina Quate and Mrs. M. E. Fulkerson.

MOTT STREET GANG KILLS LITTLE BOY

NEW YORK, May 12.—Edward De Rosa, 7 years of age, is dead at his home in Baltimore, Md., after being killed by a street gang.

The boy had been allowed to go out to buy some candy with a cent that his sister had given him. The little fellow was standing in front of his home when the crowd of boys known as the "Mott street gang" came running down the street after another boy whom they had struck against. Without trying to avoid the De Rosa boy the crowd swept down on him, knocking the child to the sidewalk and trampling over him as they rushed by.

FIGHT TILL UNCONSCIOUS; GIRL MARRIES ANOTHER

MORRISTOWN, N. J., May 13.—As the result of a duel fought at Wharton over Rosa Latsky, an 18-year-old Hungarian girl, who told her suitors that they would have to fight for her, Henry Waldee is in the hospital in a badly damaged condition. Rosa helped to arrange the duel, which was to be fought with clubs in the presence of no witnesses save Rosa and a young man whom she asked to accompany her to the place. She watched her admirers club each other with their chess until neither could stand, and then departed with her friend and they were married by a justice of the peace.

The duelists were found by mine employes, both unconscious, and Waldee so badly bruised that he was brought to the hospital.

Omaha Judge Issues Order Preventing Merchants of that City From Interfering With the Work of Unions in Any Way

OMAHA, Neb., May 13.—Judge Dickenson in the district court at 7 o'clock last night on application on John O. Yeiser, an attorney representing the labor unions whose members are on strike, issue an injunction against the business men and proprietors, even more sweeping than that issued by the Federal court against the unions last week. The order restrains the business men from refusing to sell goods to dealers who employ union labor, prevents them from boycotting union labor, requires the business men's association to cease holding meetings or conspiring against the unions, or in any way interfering with the unions in the management of their affairs.

The order of the court restrains the business men's association and others named as defendants as follows:

First, from in any manner threatening to injure the business of the persons of any one employing members of cross complainants' union or members of the labor union, or any person who may employ or desire to employ such union men, or from refusing to sell commodities and supplies of merchandise to employers of such union labor and from discriminating against such persons in prices charged for any commodities.

Second, from threatening or intimidating in any manner any person into joining the said business men's association or any organization to join labor unions.

Third, from threatening or intimidating any person who may have become a member of said association or organization if he employs organized labor, or recognizes labor unions, into discontinuing such employment.

Fourth, from imposing any fines upon its members or any person violating any agreement not to employ organized labor, or not to recognize a labor union.

Fifth, from receiving or paying out any money whatever in pursuance of any agreement to break up labor unions except to attorneys in this action.

SIXTH, from paying or offering any money to officers or members of any union, directly or indirectly, as a bribe to do or not to do any act in pursuance of any agreement against such unions.

SEVENTH, from importing or engaging agents or servants to import any laborers into the city of Omaha or state of Nebraska in pursuance of any existing plan to destroy labor organizations or under similar or new scheme of plan.

EIGHTH, from bringing any other injunction suits or actions in pursuance of any general plan of prosecution to break up labor unions, or any new or similar plans connected, directly or indirectly, with any existing plans.

FARMER INSTITUTE AT WAXAHACHIE, TEX.

WAXAHACHIE, Texas, May 13.—The Ellis County Farmers' Institute met in Waxahachie today with a large number of the tillers of the soil in attendance. The program includes addresses by R. E. RUSSIA SENDS OFFICIALS TO DEAL WITH CONDITIONS IN KISHINEFF FOLLOWING THE MASSACRE

DEAD NUMBER FORTY-FOUR

Nearly a Hundred Lay in the Hospitals Seriously Wounded—Local Authorities Apathetic During the Horrible Atrocities of the Slaughter

ST. PETERSBURG, May 13.—Additional details of the Kishineff massacre of the Jews are printed here daily. The correspondents give the number of victims thus far buried in the Jewish cemetery at forty-four, and say that eighty-four persons were seriously wounded and are still in the Jewish hospitals.

The horrors reported scarcely will bear repetition. In one instance, the mutilation has been authenticated.

About 800 to 1,000 persons have been arrested. An energetic official has been sent from Odessa to deal with the situation. The apathy of the local authorities during the two days rapine and murder appear to have been fully established.

action last night, to turn Schinzel over to him at 9 o'clock this morning.

This morning Assistant County Attorney Jordan Cummings made two more cases against Schinzel in Justice Rowland's court. It is claimed that the forgeries were committed in Fort Worth, even if the money on two of the bogus checks was obtained in Dallas and that there is no reason why Schinzel should not be tried in all three cases here.

BENCH WARRANT ISSUED HERE

Following his action in the justice court Mr. Cummings went into the Seventeenth district court and made a statement to Judge Smith going to show that Schinzel's bond here was insufficient and asking for a bench warrant to hold him. The bench warrant was issued. Just before court adjourns this evening, it is understood, Mr. Cummings will ask to have the bond in Schinzel's case increased to \$4,500 or \$5,000 in each case against him.

Deputy Sheriff Smith started for Dallas at noon. He is very confident that Chief Allen has brought himself into contempt of court by his refusal to comply with the terms of the bench warrant. Chief Allen claims that the paper presented by Smith is not a bench warrant for Schinzel, but that it is simply the same sort of a document that Detective Thomson carried when he went to Dallas after Schinzel, a capias, indorsed by the judge of the criminal district court, this endorsement being necessary in order to make the capias effective outside of the county in which it was issued.

The case promises to furnish some interesting developments. Schinzel, meanwhile remains in jail here.

WATERBURY WOMAN MYSTERIOUSLY HURT

WATERBURY, Conn., May 13.—Miss Margaret Crane of this city has been waylaid and so severely beaten about the head that her condition is pronounced critical. She left her home early in the evening to attend a meeting of a singing society. Early in the morning she was found in a house on School street with her face bruised and covered with blood. Later she was taken home. The motive for the crime is believed to have been robbery, as her purse was missing when she was found. She is suffering from concussion of the brain and has not recovered consciousness sufficiently to explain the mystery. There is practically no clew to her assailant.

GREATER NEW YORK TO GREATER FORT WORTH

The Texas and Pacific station was enlivened for a short time last evening by the presence of 165 representatives of eastern cities, principally from Greater New York. The party comprised representatives of master plumbers' associations en route to San Francisco to attend the twenty-first annual national convention of the craft. Many of the members were accompanied by their wives. The entire party was like one jolly big family. While the trainmen were changing engines, the ladies enjoyed a promenade about the station, singing and dancing about as gleefully as a party of school girls. The master plumbers were going to the convention and their wives were going to have a good time, and they were carrying out their intention.

Five Pullman cars and a baggage car comprised the special train in which the delegation is traveling. The train is in charge of J. P. McCann, of New York, traveling passenger agent of the Missouri Pacific railway. There were 125 men and 50 ladies in the party. At St. Louis, through the courtesy of the Missouri Pacific, they enjoyed a drive through the exposition grounds. En route they will pass through El Paso and many other important cities which have been arranged into an interesting itinerary, arriving in San Francisco in time for the opening session of the

THE GOVERNMENT INTERPOSES

TALKS TO SURGEONS AS THEY CUT OFF LEG

JERSEY CITY, N. J., May 13.—Henry Nichols, a well-known member of the Jersey City Club, was taken to a hospital on Sunday suffering from blood poisoning, the result of an injury to his right leg.

Later he was informed that the leg must be amputated.

The surgeons found that the action of Mr. Nichols' heart would not warrant the use of anesthetics and he was obliged to submit to the operations without them. After the leg had been amputated below the knee, it was found that gangrene extended above the knee and a second operation would be necessary.

The leg was then amputated at the thigh. Not once did the patient lose consciousness. He talked with Dr. Dickinson and others while the leg was being removed, and when the operation was over congratulated the physician.

TEXAS CATTLE ON THE BLUE OCEAN

Report from the First Shipment Consigned From Galveston to South Africa

GALVESTON, May 13.—Maj. Maud of the British army, who has charge of the shipments of cattle that are being made by the British government to South Africa, is in the city and will remain here until the Cranley sails. The first of the cattle for the cargo of the Cranley arrived here last night and consists of three cars of 2-year-old heifers. The bulk of the cattle to be shipped will not arrive here until Wednesday.

Maj. Maud says the Atlantean, the ship that carried the first cargo of cattle from Galveston, has not yet arrived at Delagoa bay and is not due there until May 14. The Atlantean has been reported only once since she left this port, and that was at Barbadoes. Up to that time only six head of cattle had died and the death of these was caused by injuries received in loading and not from incidents of the voyage.

In addition to 1500 head to be taken by the Cranley, the steamship Anglo-Saxon is due to arrive here on May 20 and as soon as she can be fitted for the voyage she will leave this port for Delagoa bay with 1,000 head of heifers. The Atlantean will return to this port as soon as she can discharge her present cargo and get here. She will carry approximately the same number of head of cattle on her next voyage that she took on her first trip. The Cranley will also make another trip to this port for a cargo of heifers and the probabilities are that other ships will be used in the trade later on in the season.

Maj. Maud says that he has no idea when he will receive orders to cease the shipments and that until he does receive such orders he will continue to make them from this port. Taking everything into consideration, he is abundantly pleased with the results that have thus far been obtained in Galveston and has planned to ship cattle away from here as late as July of this year anyway.

WASHINGTON COUNTY GOOD FOR TRUCKERS

BRENNHAM, Texas, May 12.—County Clerk O. A. Seward today presented the Telegram correspondent with some specimens of strawberries raised on his place here in Brenham. They measured a little more than four and a half inches in circumference and were by far the finest exhibited here this season. Those shipped in here from other points do not compare with them in size nor in appearance. Their flavor is exquisite and a close examination of them fails to show a flaw in their appearance. Mr. Seward has only about a hundred of these plants on his place now, but he is so well pleased with the result of his labors with these this year that he will plant more of them next season.

This is not the first instance wherein it has been shown that Washington county is adapted to the culture of fruits and berries, as well as vegetables of nearly every kind. The only thing about it that is surprising nature is that the farmers have not long since given them more attention. But the new epoch of things agricultural has now dawned, as is shown by the truck crop this year, and while more attention has been given all kinds of truck, fruits and berries here this year than has ever before been bestowed on them, it is only a beginning and next year's crop will far eclipse this one, both in the quantity raised and in its quality.

The effort along these lines heretofore has been largely of an experimental nature; the future crops will show the results of many a valuable lesson learned from the past, and to one who knows the possibilities of our soil it is evident that the result will be a betterment of conditions all around.

THE PASSING OF AN IDEA
 The New York Sun (Ind.) has some
 valuable correspondents. Regardless of
 the fact that it does not print its editorials
 with a red border or use scare heads
 over anything less than a declaration of
 war, it nevertheless flies at its masthead,
 "If you see it in the Sun, it's so," and
 that ought to be enough to satisfy anybody.

Under a Sioux City, Iowa, date line a
 fun correspondent has contributed some
 interesting reading matter about "The
 Passing of an Idea," although it bears
 a different headline and purports to be a
 severely impartial account of the conduct
 of party plans on the part of republican
 leaders during the past few weeks.

The article refers to the part the much-
 advertised "Iowa idea" will play in the
 coming campaign and is in part as follows:
 Tariff reform will be the dominant feature
 of the national republican platform of
 next year, if men of such influence as
 President Roosevelt, Senator Allison and
 Governor Cummins can have their way.

It is learned from authentic sources that
 they have spent many hours in considering
 a plank written by Governor Cummins
 and that they have agreed to lend it
 their joint support.

The platform as endorsed by them is a
 radical departure from that of 1900,
 though it differs little from that of 1896.
 The St. Louis plank is paraphrased in
 several places, but in each case it is to
 strengthen the idea that the tariff schedules
 are not permanent and must be
 modified from time to time to meet altered
 conditions.

The Iowa idea, as expressed in the
 Iowa platforms of 1901 and 1902, dictated
 by Cummins, is substantially the same,
 except that the objectionable words,
 "shelter for monopoly" have been eliminated,
 on the theory that they are too
 easily distorted. It is practically agreed,
 however, that the word "monopoly" shall
 appear in the platform in some connection,
 so as to express the sense of the
 republican party to be that in case it is
 found that the tariff is building up any
 monopoly it is to be revised immediately.

The Iowa plank, which has made Governor
 Cummins famous, says:
 "We stand by the historic policy of the
 republican party in giving protection to
 home industries, and point for ample
 vindication to the extraordinary rapidity
 with which our national resources have
 been developed and our industrial and
 financial independence secured. We favor
 such changes in the tariff from time to
 time as become advisable, through the
 progress of our industries and their
 changing relations to the commerce of
 the world. We endorse the policy of reciprocity
 as the natural complement of protection,
 and urge its development as necessary
 to the realization of our highest
 commercial possibilities. We favor
 any modification of the tariff schedules
 that may be required to prevent their
 affording a shelter to monopoly."

Note, then, the passing of the "Iowa
 idea." At first sprung by the youthful
 governor of the Hawkeye state, it ex-

cited the bitter opposition of Secretary
 Shaw, Senator Gear, Congressman Hepburn,
 Lacy, Hull and Cousins. Senator
 Allison was displeased, and of the entire
 nest of Iowa politicians, only the young
 man Dolliver cawed in unison with Cummins.
 But a chance came. The "Iowa idea"
 was not democracy, but it was evidently
 much better than the trust-pandering
 policies of the old republicanism. The
 farmers and workmen of Iowa, and of
 the West hailed Cummins as a new
 leader in republicanism and deluded
 themselves in the fond belief that they
 could still be republicans while they
 believed in what they knew was a pitiful
 attempt at imitation of the broader
 principles of democracy.

So the idea spread and Cummins continued
 to preach it. Other Iowa republicans
 declared that Cummins was preaching
 democratic doctrines and as a
 seeming result of this free advertisement
 his dates for public speeches became so
 numerous that he was in demand all over
 the country.

It was nothing more than natural that
 this spread of interest should come to the
 ears of the eastern party leaders and to
 President Roosevelt himself.
 Here was the nice problem that presented
 itself. A fiery and eloquent republican
 preaching a doctrine clearly
 stolen from the democrats, and yet making
 good campaign capital out of it. It
 had to be stopped. It was offending the
 trusts and even many of the republican
 leaders were laughing at the farce.

It took a little time for Teddy to study
 over it, and then his politics began to
 work. Cummins received an invitation to
 visit Washington. Cummins went. Roosevelt
 innocently asked the Iowa governor
 to tell him what the idea was all about
 and Cummins made a breast of it. Then,
 very gently, so as to not alarm the bird,
 the suggestion was made that the old
 St. Louis platform was good enough, but
 Cummins required stronger salt. It took
 several more conferences, and to the last,
 we are told, the Iowa man stuck out for
 the retention of the word "monopoly" in
 the platform, and this was finally given
 as a reward for merit for the omission of
 the phrase "a shelter to monopoly,"
 which was the pith of the original plank.

Thus passes the "Iowa idea." The next
 republican platform will doubtless have
 a vacant chair for its ghost, but with its
 entire force skillfully tucked away in
 some unseen corner by the astute Roosevelt
 and his counselors the idea can sleep
 a long and dreamless sleep.

DAILY SHORT STORY

BY THE SIGNS OF THE ZODIAC

BY ANGELA MORGAN
 (Copyright, 1903, by W. R. Hearst. Great
 Britain rights reserved.)
 Elizabeth's peach blossom countenance
 was pale that evening and her violet eyes
 seriously shaded.

"Richard," she said, solemnly, when
 her betrothed had taken his usual easy
 position among the sofa cushions, "I have
 something very important to tell you and
 I may as well say it at once."
 Young Caldwell had sat bolt upright at
 the very first word. Since their engagement
 she had called him Dick. What in
 thunder had happened?
 "I have learned," she proceeded, "that
 it will be a grievous mistake for us to
 marry, so I recall my promise to be your
 wife."

Caldwell drew a long breath and stared
 helplessly. "Well," he managed to articulate
 at last. Then, leaning toward her,
 he impulsively, "You can't mean it,
 Bess! What is your reason? Have I
 disappointed you in any way? Have I—"
 "No, not that," she interrupted him.
 "Not that, Richard. You never disappointed
 me."
 "Well, then?" demanded Dick.
 "It's just this," Elizabeth explained.
 "You remember I told you that I intended
 to investigate solar biology? The sort
 of thing that is being done at the
 University of Chicago? Well, I have
 discovered something of the sort. There
 was scarcely a popular ology that Elizabeth
 did not investigate. She kept up with
 them all religiously as she followed
 fashions in dress. For her sake he, too,
 had gone deep into the occult sciences
 of late. Indeed, it was his increasing
 enlightenment along these lines that
 had really won Elizabeth's promise.

"Well," pursued the girl, "I've been
 reading a book on the subject—it's a
 splendid book, Dick, so convincing—and
 the reason for all unhappy marriages is
 now perfectly plain to me. Human beings,
 believing themselves in love, rush
 blindly into matrimony without considering
 whether or not the signs under which
 they were born favor such a union. You
 and I, Dick, are too far advanced spiri-
 tually to take any course so utterly selfish
 and unthinking. So long as we are really
 not intended for each other, we must be
 content to remain friends."

"But who says we're not intended for
 each other?" I thought you and I were
 both thoroughly convinced on that point,
 Bessie, I thought—"
 "Oh, but it isn't what we erring human
 beings think that counts. It's what the
 signs tell us—the governing signs of our
 triplicities. The date of my birth, Dick,
 is April 5, you know. I looked it up and
 found that I was born under Aries, head
 sign of the Fire triplicity. I looked you
 up, too, and discovered that you were
 born under Cancer, head sign of the Water
 triplicity. Now, the book sets forth
 most invincible arguments as to why two
 persons born under head signs should
 not marry. Heads of triplicities cannot
 get along together in harmony, as each
 will want to rule. Besides this difficulty—"

Her lengthy speech was broken suddenly
 by the hearty laughter of Dick.
 "Why, Bess, is that all the trouble?"
 I supposed some really great obstacle
 had arisen. Well, well! And you are making
 all this about that absurd volume of
 rubbish?"
 "Rubbish!" repeated Elizabeth, turning
 to him a face of white indignation that
 he saw his error and quailed.
 "Pardon me, Bess, I didn't mean that,
 dear. But really, on the square, would
 you allow mere superstition to spoil our
 happiness? I supposed you to be above
 it."
 "Superstition! Why, Dick, it is just the
 reverse of superstition—it is true enlighten-
 ment. If you'll allow me to continue

 said by advertising men of news writers),
 but as a matter of fact more originality is
 demanded by the merchant who wants to

 is asked by the average city editor when
 he assigns a reporter to a big fire.

But leaving the ethics of the matter
 out, I freely confess I find enjoyment
 reading the advertisements. Sometimes
 I am startled. Such was the case the
 other night when I picked up a Texas
 country paper and read a startling head-
 line:
 "LADIES DO YOU DIP?"
 To say the least, I was startled. I'll
 admit I've perused the backs of most of
 the current magazines without even
 blushing and, when alone, can get along

Distress
 After Eating

Nausea between meals, belching, vom-

 ache, pain in the stomach, are all
 symptoms of dyspepsia, and the longer
 it is neglected the harder it is to cure it.

fairly well through one of the physical
 culture publications. But the bold ques-
 tion of the country advertiser was cer-
 tainly stunning.
 "TO ADD TO MY FEELINGS OF DISTRESS,
 THE NEXT LINE WAS EVEN WORSE. IT READ:
 "YOU WILL SEE MANY LADIES DIPPING
 IN OUR ELEGANTLY FITTED PARLOR"—
 I threw the paper down in horror and
 turned red to the roots of my hair. I
 am no more modest than most folks,
 but such brazen statements in a news-
 paper were so extraordinary that I
 couldn't help it.
 Fascinated, I picked the paper up again,
 determined to read the advertisement
 through to the bitter end. I resolved that
 having done so, I would go at once and
 report the matter to the authorities. It
 was too serious for trifling delay—and
 yet I wanted to make sure. So I read the
 rest.

"THEY ALL USE OUR PINEAPPLE
 DIP, PUT UP IN EIGHT AND FOUR-
 OUNCE JARS, THE MOST ELEGANT
 ARTICLE ON THE MARKET TODAY." My
 feelings of horror gave way to puzzled
 inquiry. I know something of the ex-
 igencies connected with traveling about
 interior towns, and have learned to be
 prepared for almost anything, but a four-
 ounce dip is beyond me.

The advertisement wound up with the
 modest declaration:
 "IF YOU HAVE NEVER TRIED IT,
 CALL AT OUR STORE AND WE WILL
 GIVE YOU A SAMPLE FREE."
 Before starting to read the advertise-
 ment I would have not been surprised
 at the last statement alone, but in view
 of what had preceded, you can imagine
 my state of mind.

Fortunately, I have a friend who has
 been in some parts of Texas longer than
 I, and he happened along just then in
 time to save me from blurring out my
 opinions to the rest of the company.
 "Since that time, strange to say, the
 very mention of snuff will make me
 sneeze."

CIVIC FEDERATION
 MEETS IN NEW YORK

NEW YORK, May 13.—In line with the
 work started last winter, the executive
 committee of the National Civic Federa-
 tion began a special meeting in this city
 today to further discuss ways and means
 for bringing about harmony between labor
 and capital. This is the committee of
 which Senator Hanna is chairman, and
 among the members are Samuel Gompers
 of the American Federation of Labor,
 former President Grover Cleveland, Cor-
 nellius N. Bliss, Archbishop Ireland, Presi-
 dent Eliot of Harvard, Bisshop Potter and
 other men of note.

The special purpose of the present
 meeting, it is understood, is to agree upon
 some satisfactory plan by which strikes
 may be averted. It is said that sugges-
 tions will be made by the members to
 appoint arbitration boards in the various
 districts. These arbitration boards will
 be composed of representatives of all in-
 terested parties. Any trouble that arises
 between employer and employe will be
 referred to the board for settlement. If
 the board fails to reach an agreement sat-
 isfactory to both sides, then the matter
 will be placed in the hands of a higher
 arbitration board. The Civic Federation,
 it is understood, will suggest that it act
 as the higher board. It is further sug-
 gested that while the dispute is in the
 hands of either of the boards no strikes
 can be declared.

The Ladies' Birthday Almanac
WINE OF CARDUI
CARDUI LITERATURE
 The Ladies' Birthday Almanac and the Cardui Book contain letters from cured and healthy women
 who tell how Wine of Cardui has relieved them of every kind of female suffering.
 The world knows little of the suffering and sickness of the women in American homes, and these little
 books are prepared to go into these darkened homes with their messages of health. From these books
 10,000,000 women learn that Wine of Cardui perfectly regulates the menstrual flow, cures bearing-down
 pains, ovarian troubles, leucorrhoea, barrenness, and relieves the distressful suffering during motherhood,
 and are enabled to treat themselves in the privacy of their own homes.
 What can be more fascinating to any woman than the true life story of scores of prominent women
 who tell the details of their restoration to health?
 Chicago, Ill., October 2, 1901.
 As a specific for female troubles, Wine of Cardui is certainly a superior medicine. I suffered for eight
 years with ulceration of the womb, and although my family physician prescribed different remedies, and I
 used a number of douches and washes, only to get worse, and finally gave up in despair, and decided that
 health would never be mine again.
 Fortunately, this spring one of your little Cardui books was left at my door. As I read how
 other sick women had been cured by using Wine of Cardui, new hope sprang up in my heart and I tried it.
 I was very pleased to find that health came very soon, and at my next menstrual period the pains were
 greatly lessened, and within seven weeks I was well.
 Mrs. CLEMENTINE RICHMOND.
 -Grove, I. T., January 20, 1902.
 I had a miscarriage in February. I flooded almost to death, and the doctors and neighbors gave me up
 to die. I got along so I could walk to my garden and back.
 I read in your Ladies' Birthday Almanac about your great medicine, Wine of Cardui.
 I have used one bottle and now I am able to do all of my work. I can't recommend Wine of Cardui too highly. Thanks
 for all the good Wine of Cardui has done for me.
 Mrs. LOTTIE GEORGE.
 Every druggist should have a supply of the Ladies' Birthday Almanacs and
 Cardui books, which you can secure without cost. If your druggist does not have
 them, send the names of your suffering lady friends to the Ladies' Advisory
 Department, The Chattanooga Medicine Co., Chattanooga, Tenn., and the books
 will be sent them or you free of charge.

CURIOS THINGS
Come From Coffee Drinking
A lady in New York city suffered an accident to her leg and a running sore followed that medical science tried to cure for many years, but unknown to her the coffee she drank daily kept the blood in a condition that would not let the sore heal. "Three years ago," says this lady, "I was advised to drink Postum and give up coffee, of which I was very fond. To say that I am thankful now for having done this is putting it very mildly, for as soon as I made the shift from coffee to Postum my leg began to heal and in a few weeks was quite well."
"It has never troubled me since and I think it marvelous. Neither have I suffered from the bilious headaches which used to afflict me. I can give you the names of many of my friends who are as firm friends of Postum as I." Name given by Postum Co., Battle Creek, Mich.
This is a case where Postum made red blood in a hurry. This lady thought it marvelous because her trouble of years standing was cured in a few weeks through giving up coffee and using Postum in its place. Nothing marvelous about it, only the simplest scientific reasons that it will pay anyone to look into.
Good healthy red blood will cure most any disease. Coffee in many people, destroys the red corpuscles and produces white or watery blood. A definite change is made by leaving off coffee entirely and using Postum. You can prove this by

by a street car a few months ago, is now able to be up.

Mrs. Florence Hunt of Temple is visiting her aunt, Mrs. McRea, on Beale street, Glenwood.

Mr. and Mrs. Edward Gamble entertained a crowd of young folks at their country home Sunday.

L. M. Webb, of Dundee, is in the city. Dr. J. A. Rickles of Jackboro passed through the city on his way to Houston, Texas, yesterday.

L. P. Norvell, traveling agent for the National Biscuit Company, spent Sunday in the city.

The Marguerites will not meet this week on account of the picnic Thursday.

R. F. Butts, formerly of this city but now of Houston, is in town on business.

The Masonic home reports a scholarship of 130 pupils and not one on the sick list.

The public school of North Fort Worth will close on May 22. A picnic at Handley has been discussed but nothing is definitely arranged.

The grading is finished around the new North Side depot and it will be formally opened in a few days.

Mayor Glenn visited Dallas yesterday.

A large audience listened to Elder C. E. Holt's discourse last night at the South Side Church of Christ. Preaching tonight on the text "Jacob and Esau." Song service begins at 8.

The ladies of the Glenwood Methodist church gave an ice cream social last night on the school house lawn. There was a large attendance and it is reported a splendid success both socially and financially.

Little Clara Eddleman, living on Beale street, sustained a badly crushed leg on Sunday evening while playing on the turntable at the roundhouse of the International and Great Northern.

The little child of Mrs. John Johns of North Fort Worth fell from the porch of her residence yesterday, breaking its collar bone. Dr. West attended it and at last reports the little patient was resting easy.

June 4 to 10 inclusive, is the date of the annual meeting of the United Danish Evangelical Lutheran Church of America, at Elkhorh, Iowa.

The choir of St. Paul's church, under the direction of Professor Pease, will render the cantatas "Ruth" and "Galia" at the church tomorrow evening for the benefit of the Epworth League. Everybody invited.

During the past two days many representatives of volunteer fire departments of the state have passed through the city en route to Corsicana to attend the annual tournament of the State Firemen's Association which began there today. Last evening the following were in Fort Worth on their way to the state tournament from Denton: Edward Schmitz, chief; H. B. Caddel, fireman; Noah Roark and Will McGintie, delegates; Miss Rosa Poe, sponsor, and Miss Lillian Roark, maid of honor.

The piano recital given by Miss Etta Wilson and her pupils, assisted by William G. Armstrong at the Tabernacle last night had a flattering reception by the large number of friends who attended. The numbers were taken from Godard and Beethoven and were played by Misses Annie Millican, Mabel Long, Mamie Williams, Bernice Allen, Lorrain Brown, Emma Carville and Annie Stratton. In execution and phrasing they won applause from all the audience. Mr. Armstrong received encores for both of his numbers and Miss Wilson had her most enthusiastic following in the best informed musicians. Her Chopin scherzo, opus 31, would have delighted the most critical Chopin enthusiast.

IT WAS A GOOD ONE
The rain that was needed to round out the crops; no fears now for the grains and feedstuffs in Fort Worth's territory, hogs and packing-house products are plenty now. Some of the packers and numerous investors have been waiting for crop assurances that nothing but the good rain we had could have furnished. Ebers & Trice, real estate brokers, advise the purchase of property now as a sure and safe investment.

They have for sale the best to be had in improved and vacant business property on both Main and Houston streets. Can offer some of the most desirable residences and lots to be had at cheap prices and easy terms. If you wish to sell or buy, see them at 705 Main street or phone 1192.

LABORERS STRIKE BECOMES SERIOUS
SANTIAGO, Chile, May 13.—The strike of dock laborers at Valparaiso is becoming more serious.

The strikers, after setting fire to the quay and to the office of the South American Steamship Company, had a number of encounters with the police, during which ten persons were killed and 200 injured.

A detachment of 3,000 troops has been dispatched to Valparaiso to quell the disturbance. The government refuses all offers to compromise the difficulties and is determined to adopt the sternest measures and restore order.

SAYS THE ESTATE SHOULD BE LARGER
BRUSSELS, May 13.—The report that Countess Lonyay has brought suit against her father, King Leopold, has been confirmed. The countess claims that her share of the estate of her mother, Queen Marie Henrietta, should be \$3,000,000 instead of \$1,120,000, as offered by King Leopold.

The Countess Lonyay is better known as the Princess Stephanie. She is the second daughter of Leopold and the late Queen Henrietta, and was married to Count Lonyay, chamberlain to the emperor of Austria, in 1904.

EZEMA

The Blood Aflame with an Itching
Humor that sets the
Skin on Fire.

PRESIDENT OF THE KIKKEHAHA CLUB.

Gentlemen:—I suffered with Eczema on the hands and face for over a year. It was not only annoying and painful, but very unsightly, and I disliked to go out in the streets. I tried at least a dozen soaps and salves, and became very much discouraged, until I read in the papers of the cures performed through the use of S. S. S., and determined to give it a month's trial at least. I am pleased to state that I soon noticed a slight improvement, sufficient to decide me to keep it up. After the use of six bottles my skin was as soft and smooth as an infant's. This was a year ago, and I have never had any trouble since.

MISS GENEVA BRIGGS,
216 S. Seventh Street, Minneapolis, Minn.

Eczema, the most common and terrible of all skin troubles, begins sometimes with a slight redness of the skin, which gradually spreads, and as the inflammation and itching increase, the entire system is thrown into a restless, feverish condition. Soon little watery blisters or pimples break out, from which a clear liquid or yellow fluid is discharged, which forms thick crusts and sores, or falls off in fine particles or scales, leaving the skin raw and tender, or hard and dry like parchment. Eczema attacks most frequently the legs and arms, back and chest, face and hands, and is a disease that comes and goes in the earlier stages, but is a perpetual torment and constant annoyance when chronic. At times the itching and stinging is so great that the sufferer is driven almost to distraction, and tortured beyond endurance scratches and rubs till the skin is broken and bleeds; but this only aggravates and spreads the disease. The humors and poisons that produce the itching eruption, roughness and redness of the skin, must be rooted out before there is complete relief from the terrors of Eczema. Nothing applied externally does any permanent good, for whenever the blood is overheated, or the skin is reacting during Spring and Summer, the disease breaks out again. You can't rely upon washes, soaps and salves, or such things as are applied to the surface, for they do not reach the seat of the trouble, which is internal and deeply implanted in the system; the blood is aflame with the itching, burning humors, which are carried by the circulation to the surface and are being constantly forced out through the glands and pores of the skin, and you can never heal the sores or stop the aggravating eruptions with external applications.

To neutralize the acids in the blood and expel the humors and poisons is the only way to get permanently rid of this torturing skin trouble, and no remedy known does this so quickly and thoroughly as S. S. S. It purifies the blood and restores it to health, and the outbreak of the poison through the skin ceases, and the sores and eruption gradually disappear. S. S. S. builds up the thin acid blood, makes it rich and strong, and restores to it all the elements of nutrition, and drives from the circulation all impurities; and under the tonic effect of S. S. S. the general system is invigorated and toned up, and you not only get rid of your old skin trouble, but the health is benefited in every way. S. S. S. being a strictly vegetable medicine, acts gently, leaving no bad after-effects, as do Arsenic, Potash and other minerals which are usually prescribed in skin diseases.

Eczema cannot be cured by anything applied to the surface of the body; the blood must be purified and the cause removed, and in no other way can this deep-seated skin disease be reached. If you have Tetter, Psoriasis, Salt Rheum, Nettle Rash, or any form of Eczema, you will find S. S. S. does its work well and thoroughly, and relieves the itching and burning, soreness and pain, and soon produces a lasting cure.

"THE PEARL OF SAVOY"

"The Pearl of Savoy," at Greenwall's opera-house last night, by Mr. W. W. Heathcote and his clever pupils, was by far the best home talent entertainment ever seen in the city. This was the general expression of the large and appreciative audience that enjoyed the performance. This fact again demonstrates the superior ability of the instructor.

All did so well that it is difficult to particularize. Miss Ethel Maynor, as the hungry Chouchon, was really equal to anything of the kind seen here, either amateur or professional. From first to last she held the audience and did some wonderfully clever work. Another surprise was in Carl Gillham. He is a new light brought out by Mr. Heathcote. His acting was natural and easy, and in the drinking scene he seemed to forget entirely that he was an amateur, so well did he carry out his part.

Walter Edmondson did good heavy work as Father Lonstlot. He is quite a young man, but his portrayal of the injured father was a powerful piece of acting, especially in the scene where he repudiates his daughter.

Miss Lela Walton brought tears to many eyes by her pathetic acting in the first act. Arthur Walton was a trifle cold, but he played a difficult part well. Mrs. Harry Fisher made a beautiful and aristocratic Marchioness. She carried out well the part of the proud mother.

All the minor parts were well taken and the stage settings and costumes were effective.

The greatest surprise of the performance was Miss Mary Swayne, who has only been studying with Mr. Heathcote a few months. As Marie, the Pearl, she captured the audience by her exceedingly strong conception of the part and in many places her acting was perfect. Many have expressed the hope that Miss Swayne will continue the cultivation of the splendid talents displayed on her part last night.

Mrs. H. Compton, with her fine vocal solos, Miss Forrest Croom, in pretty and graceful dances, and Messrs. Otis Kent and Guy Pitner at the piano, added greatly to the enjoyment of the evening. It was a performance that all concerned in may be proud of.

WOUNDED MAN GETS OVER HIS INJURY

BRENNHAM, Texas, May 12.—County Commissioner Johnson was in the city today and reported that B. T. Henry, who was shot from ambush while en route from Navasota to his plantation in the Grabbal neighborhood last Saturday afternoon, is improving and the announcement is made that he will recover. Johnson, who lives near the scene of the shooting, says Deputy Sheriff John Ewing and Constable Ben Connor are in pursuit of the two young men who are thought to have done the shooting, and it will be only a question of time when they will be found and lodged in jail.

Mr. Henry, the wounded man, is well known in this city. The attempt on his life is said to have been the result of family troubles.

SURVEYORS WORKING NEAR FLOYDADA, TEX.

FLOYDADA, Texas, May 11.—A railroad surveying corps of thirteen men, surveying a route from Quanah by way of Paducah and Floydada, have just run their survey through the south part of town and are going on in a western direction.

CROPS IN FLOYD COUNTY

The acreage in wheat, rye and oats is increased more than 50 per cent over last season. The condition of these cereals is good, but will suffer if we do not get rain within the next few days. There will be a greatly increased acreage of corn, kafir corn and almost all kinds of forage crops. Our farmers will hereafter plant more wheat and rye for winter pasture.

NEW PRESIDENT OF OBERLIN COLLEGE

OBERLIN, Ohio, May 13.—Oberlin was garbed in crimson and gold, the college colors, today, marking the inauguration of a new president of Oberlin College, Dr. Henry Churchill King, in succession to the late Dr. Jerome Barrows. The first church, where the inaugural ceremonies took place this morning, was elaborately decorated with flowers and potted plants. The attendance included the students, members of the faculty, trustees, alumni and friends of the institution from many points. The address of the day was delivered by President Tucker of Dartmouth College, after which the new president delivered his inaugural, taking as his subject, "Personal and Ideal Elements in a College Education."

The new president of Oberlin college was born in Hillsdale, Mich., Sept. 18, 1858. Most of his college experience has been in connection with the institution of which he is now president. In 1879 he received from Oberlin the degree of A. B. In 1882 Harvard gave him the degree of D. D. From 1879 to 1882 he was professor of Latin and mathematics in Oberlin. For two years Dr. King was a student in Berlin. Since 1897 he has been directly connected with Oberlin, and was the unanimous choice of the trustees for the presidency of the institution upon the death of Dr. Barrows.

WEATHERFORD HAS A LITTLE BLAZE

WEATHERFORD, Texas, May 12.—Fire broke out this morning at the residence of Ed Robinson, on North Main street, but was gotten under control before the department arrived. The cause of the fire was an explosion of a gasoline stove. When the alarm of fire was sounded two young boys mounted on a horse followed the fire department and accidentally ran over H. A. Randall, who was knocked down, his head, body and right leg being severely but not seriously bruised.

Miss Hattie Everett, daughter of the late Dr. Everett, died Sunday morning and was buried Monday afternoon at 4 o'clock.

The following Weatherford citizens went to Dallas today: Guy Short, Mrs. Fred Egglehoff, Mrs. Abbe K. Davis and Rev. Francis Moore, and the following went to Fort Worth: Ed Everett, L. D. Brannon and James and Jack Rantz.

LINDSAY ENJOYING A BUILDING BOOM

LINDSAY, I. T., May 11.—The Kentucky, Oklahoma and Indian Territory Development Company has just completed an office building on Main street. They will soon begin the erection of a large brick hotel on Murray street.

A couple of deputy United States marshals came over from Pauls Valley a day or two since and broke a few suspicious looking packages.

Andrew Allen Veatch, a native Texan, known as the "poet of the Piney Woods," who established the Lindsay News last fall, and still publishes the same, is preparing to issue and place upon the market a volume of new and original poems. He is also engaged in writing a romance of the Wichita mountains and the "B. I. T.," "Beautiful Indian Territory"—for a well-known eastern publishing house.

The Masons of Lindsay and vicinity met Saturday night for perfect arrangements for organizing a blue lodge here. It is expected that a dispensation will be granted at an early date, and the lodge instituted. The lodge will erect a fine two-story brick block, the first floor to be rented for a mercantile establishment, reserving the second story for lodge rooms.

The Knights of Pythias here have met and temporarily organized, and will at once apply for a charter. The Old Fella would like to organize, but as they have a lodge at "Old Town" (Erin Springs) one and one-half miles away, they cannot organize for some time. They may move the lodge here from Erin Springs in the near future.

A large number of residences are being erected all over town, and business in all lines is good, notwithstanding the recent frost.

Lindsay has been incorporated a month, and not an arrest has yet been made here by the city officials—yet some people are often talking of lawlessness in the Indian Territory.

The Rock Island visits Lindsay every few days, and it is expected regular train service will be established in a few days. The Santa Fe system has changed its time. It now reaches here at 4:35 p. m. instead of 5 a. m., as formerly.

The First National Bank has moved into new quarters, their own two-story brick block on Main street. The Lindsay National Bank was recently opened for business.

COUNTY AGREES TO PAVE ITS PORTION

Judge R. F. Milam, who is still confined to his home by the illness which has prevented the resumption of his duties as county judge for several weeks, announced this morning that he would give his official sanction to the paving of the east side of Houston street, between Weatherford and Belknap, in front of the courthouse.

"I have always been in favor of asphalt on Houston street," he said, "and inasmuch as the county commissioners have left the decision in this matter in my hands I am free to say that the county will pay for its portion of the work."

THE WORST GAME OF THE SEASON

DALLAS BEAT FORT WORTH EASILY FIFTEEN TO NINE

Lockhead Knocked Himself Out of the Box—Fred Schuetzke Made an Auspicious Reappearance at Second Base. Reagan Was Hit Hard

Unless rain interferes, Dallas and Fort Worth will lock horns for the second game of their series here at Haines park this afternoon. Railing and Buchanan probably will be in the points, and it is a safe prediction to say that the game will be a better one than was yesterday's.

This forecast is based on the assumption that a game could not well be worse than that of yesterday. It was clearly the worst game played in the Texas League this year. Fort Worth contributed eight nerve-racking errors, but these were simply manual mistakes. The flies that dropped in right field and went for one and two base hits, which Fiedler did not get to, could not be chalked up against that young man as errors. The final score was 15 to 9. Fort Worth hit Reagan hard, save in the last two innings.

The Dallas fielders were not far behind the locals in the number of errors they made. The high wind seemed to bother the outfielders on both sides, but there was no excuse for the dumb plays and errors of omission which rankled in the minds of the fans on the "talk-it-over" trip homeward in the cars.

Lockhead was knocked out of the box, or, rather, he knocked himself out of the box. He hit three Dallas batters in succession in the third inning and forced in several runs before he was yanked out. Sorrels did much better work than his predecessor, but the work behind him enabled Dallas to run her score up to 15, and she could not be overtaken. The game marked the first appearance of Schuetzke at second for the locals this year, and he acquitted himself creditably.

NOTES OF THE GAME When a man steals second up in St. Louis, they say he "hoodled" it. A few days ago the Dallas News complimented the Fort Worth club by saying it was the best that had appeared in Dallas this season. The Fort Worth club did not earn any such compliments as that yesterday, and the Dallas club played so poorly that it is impossible to return the compliment.

It should be a good game today, as both clubs made enough errors yesterday to last them for some time. Schuetzke promises to prove a tower of strength in the infield and at the bat. By the bye, none of the Telegram readers has yet sent in his name for the six months' subscription to the paper by knocking the ball over the fence for a home run. He is likely to turn the trick as any member of the team, barring, perhaps, Disch. Remember, the person who names the man and comes closest to naming the date on.

which he will get the six months' subscription, also gets the paper for half a year. Dewey cannot show up any too soon. Fort Worth probably would have won. Six or seven files that Barrett or Disch would have smothered had they been playing that position went for one and two-base hits yesterday. If Lucid had carried out the original program to play Fiedler on first and go to right field himself things probably would have been different. Fiedler showed yesterday that he cannot play right field.

Lockhead may be given a chance to make good today, although his arm seems to have "gone off." Buchanan has had two days' rest, however, and the chances are he will be trotted out. Pointexter is swinging on the ball mightily these days.

Weather Conditions

WASHINGTON, May 13.—Following are the predicted weather conditions for different sections of the southwest:
Arkansas — Tonight and Thursday, showers.
Oklahoma and Indiana Territory—Tonight and Thursday, showers, except in the far western portion Thursday.
East Texas, north—Tonight and Thursday, partly cloudy to cloudy weather, probably showers tonight in eastern portion; Thursday warmer.
East Texas, south—Generally fair tonight and Thursday, except probably showers in extreme eastern portion; light to fresh southerly to westerly winds on the coast.
West Texas, north—Tonight and Thursday, probably showers; warmer Thursday.
West Texas, south—Tonight and Thursday, generally fair; warmer in the western portion.

Observer George Reeder issued the following report of the weather conditions this morning:

The rain area has remained nearly stationary over the lower portion of the Mississippi valley section, covering most of the country from the Ohio to the gulf and east to the Atlantic; the rainfall was especially heavy in Alabama and Florida; Jacksonville, Fla., reports 8.49; Eufaula, Ala., 5.89, and Opelika, Ala., 4.34 inches. The rain area covers the entire cotton region of the east and south Atlantic states.

Clear and cool conditions prevail in the upper portion of the corn and wheat belts, with light frosts in Wyoming, South Dakota and Colorado.

WEATHER RECORD

Following is the weather record for the last twenty-four hours—minimum and maximum temperature, wind in miles per hour at 3 a. m., and rainfall in inches:

WHEAT ROOF GARDEN

Chilly west winds slightly thinned last night's audience at the Wheat Roof Garden, but the reception given the Curtis Comedy Company was none the less enthusiastic. The genuine humor and pathos mixed in the performance appeal strongly to the audiences and there are always liberal bursts of applause at the close of each particularly interesting scene.

"Ted," the trick dog, is a rarely intelligent animal and his antics are a delight to the children as well as calling for generous applause from the older folks of the audience. Frank Cushman can last longer than any funny man in the business and how he manages to turn up a fresh assortment of songs and jokes every night is a mystery.

Many English doctors are now convinced that the eating of pigs' flesh in different forms is greatly responsible for the increase of cancer. They point out that it is most common among the poor, whose chief meat is that of pigs, while the disease is extremely rare among the Jews.

VICTORIA, B. C., May 13.—News has been received here by the local miners that Caesar Bettarne who worked at Nanaimo for 22 years and recently went to work at the Washington mines has inherited three million francs as a result of the death of his brother who was a rich bishop of Constantinople.

BURLESON COUNTY PROHIBITION FIGHT

BRENNHAM, Texas, May 12.—Editor W. W. Rankin of the Burleson County Ledger was here from Caldwell today and in conversation with the correspondent he said there was no doubt that Burleson county is on the eve of a hot prohibition campaign. The commissioners court met in Caldwell Monday and may not adjourn for several days. The requisite petition for the election has been presented to the court and the election will be ordered as required of them. Workers from abroad will be engaged to stump the county for prohibition and a very decided rise in the temperature is looked for.

SAILED WITHOUT A RUDDER.

One of Britain's battleships just recently accomplished the remarkable feat of sailing over 2,000 miles without a rudder, and which reflects the greatest credit on her officers. The record of cures back of Hostetter's Stomach Bitters certainly reflects great credit on the ability of this medicine to cure stomach, liver and kidney disorders, even after other remedies have failed. During its fifty years' experience it has never been known to fail in cases of dizziness, loss of appetite, insomnia, headache, indigestion, dyspepsia, liver and kidney troubles, or malaria, fever and ague. In view of such a convincing record we feel justified in urging you to try it at once. We know you will be satisfied with the result. The genuine must have our Private Stamp over the neck of the bottle.

Raids are being made by the officers on the colored vagrants that infest the city, and an occasional round-up results in a day or two.

A horse belonging to Mr. Barker, proprietor of the city dairy, dropped dead on West Sandy street yesterday. The cause of the death is not known.

HORSE SHOW FINANCES AND BOARD OF TRADE

At the weekly meeting of the Board of Trade yesterday afternoon that organization was requested by the Horse Show Association to raise the balance of the \$2,500 bonus which was guaranteed when the Horse Show first was projected. It seems that the Board of Trade soliciting committees succeeded in obtaining only part of the bonus, the balance due the show's management being \$754. Even if this sum is obtained there will still be a deficit to be met, but the managers of

the show have agreed to stand this loss. The total deficit is \$1,316.93, which means that over \$500 will be paid by the gentlemen who made the show possible.

The resignation of George W. Armstrong as a member of the directory was received and accepted and F. G. McPeak was elected to fill the vacancy.

The Texas Poultry and Pet Stock Association was invited to hold its next show in this city.

HAVE YOUR SUITS CLEANED BY PEARL OF SAVOY EXCELLENTLY DONE

ELIZABETH N. J., May 12.—A verdict of \$18,000 has been rendered by the jury in the case of Fred L. Kanen, of Plainfield, against the Central Railroad of New Jersey for injuries received in the Westfield disaster on January 27, last. Considerable interest was manifested in the outcome of the case, because of the fact that it is the first suit to be tried in court growing out of the Westfield wreck, in which about seventy persons were killed or injured.
