During the retreat through Georgia Major Eblevin was killed. Jack Goodman recovered the body of his dead master and conveyed it on horseback for many miles to Decatur, Ga.

K. & T. depot at this place for several months, left here for Alvarado yesterday morning, from which place he wrote his wife that he was leaving her, that she would not see him again, but would hear from him. Some time last night he returned to his home, entered a small barn and took a dose of carbolic acid. He was found this morning about 4 o'clock in an unconscious condition and died about 7 o'clock. His friends know no cause for his action, except that his health has been very poor for some time. He leaves a young wife and two small children.

GORMAN WILL NOT TALK OF POLITICS NEW YORK, May 18.—Venturing upon his first trip across the ocean, Senator Arthur Pue Gorman, the democratic leader of Maryland, was a passenger in the Atlantic Transport Company's steamer Minnehaha, which began her voyage to London. The senator was accompanied on the trip by Mrs. Gorman and two of their daughters were at the pier to wish their parents bon voyage. Senator and Mrs. Gorman go abroad to spend a holiday near London with Mrs. Gorman, a married daughter, the wife of the English representative of a security company.

"What do you think of Cleveland's chances for a third term?" "Young man, I always try to avoid trouble. Under no circumstances do I wish to discuss national politics."

"What do you think of President Roosevelt's negro policy?" "The same answer applies to that."

"Do you think that Mr. Roosevelt is the strongest man in the country, politically?" "I certainly do not."

"Well, who is?" "Well, a man of my acquaintance, but I will not give his name at present."

PRESBYTERIANS IN CALIFORNIA CITY LOS ANGELES, May 18.—Arrangements for the Presbyterian general assembly, which will meet here next Thursday for a two weeks' session, are about completed. The attendance promises to be unusually large. Many important matters will come before the general assembly. Later reports show that out of 240 presbyteries 229 voted in favor of creed revision, and consequently the report of the stated clerk on the overture submitted by the last general assembly is already anticipated and the announcement will probably scarcely occasion a ripple on the floor of the assembly on Friday morning.

The first authoritative announcement of the result will come from the moderator, Rev. Dr. Henry Van Wyke at the opening session.

Mr. Schmidt has been the recipient of many congratulations since his return to Denton upon the honor the association conferred on him.

Denton and Decatur are very anxious to have a railroad from McKinney through Denton to Decatur, Texas. The Decatur people are in correspondence with M. J. VERANDA FALLS WOMAN IS KILLED

Sunday Party at Fall River, Mass., Has Tragic Ending When a Score Have a Narrow Escape From Death

FALL RIVER, Mass., May 18.—One workman has been killed and two persons severely injured by the collapse of a veranda on the third story of a house in King Phillip street. Five others who were on the veranda at the time had miraculous escapes from injury or death. The dead woman is Mrs. Vitaline Vergeon, and the injured are: Mrs. Octave Frenotte and Eugene Vergeon.

The party of eight were seated on the veranda when it collapsed without warning. Miss Josephine Croteau succeeded in clinging to a portion of the broken platform, but the other seven were precipitated to the veranda at the second floor. The force of contact broke the rail on this balcony and Mrs. Vergeon, Mrs. Frenotte, Eugene Vergeon and Alfred Vergeon, the last named 7 years old, rolled over the edge and into the yard 30 feet below. Mrs. Vergeon's skull was fractured and she died while being carried to the house. Eugene Vergeon and Mrs. Frenotte were unconscious, but Alfred escaped without any apparent ill effect.

The three who succeeded in holding on to the second veranda had nothing more than slight bruises and Miss Croteau was rescued without injury whatever.

MURDER TRIAL IN INDIANA COMMENCED COVINGTON, Ind., May 18.—Mrs. Elmira Drake was arraigned for trial today on a charge of having poisoned her husband, Robert Drake, last fall. Public opinion as to the guilt of the woman appears to be about equally divided and the trial of the case will be followed with close attention.

Mrs. Drake lived on a well stocked farm near this place and became acquainted with her future husband through a matrimonial advertisement. It is said that after their marriage there were numerous quarrels between the two because of the desire of the husband to become possessed of his wife's property. Mr. Drake died rather suddenly and an analysis of his stomach, it is alleged, showed traces of poison. Mrs. Drake has attracted public attention several times before. Several years ago she acquired notoriety by seeking to obtain possession of the estate of a prominent New York millionaire, claiming to be the widow of the deceased.

FLOUR WAR IS ON AT HILLSBORO, TEX. HILLSBORO, Tex., May 14.—There is a flour war on in Hillsboro. It was caused by the failure of the grocery merchants to handle the flour of the Hillsboro roller mills exclusively, or at least to push the sale of it as the Hillsboro mills thought they ought to. The reason the merchants preferred selling northern flour is that they got it at such low prices that there was more money to them in selling it than in selling the home flour. The grade and quality of the home flour is equal to that of the northern flour mills, and the mills guarantee it to give satisfaction or to refund the money. Despairing of getting the merchants to handle it to their approval, they today decided to sell the flour and all the products of the mill to the public at wholesale prices. The merchants are astonished and are wondering what the result of it will be. Hillsboro and her trade territory consumes 300 sacks of flour daily. While the war is on the consumers are enjoying the luxury of cheap bread. T. S. TURNER.

INVESTING IN A TITLED HUSBAND Over-speculation in the title market seems to be wanting, like over-speculation in Wall street. The Thaw-Yar-mouth marriage was a useful object lesson, like the Morgan undigested securities. The press, the public, and the brothers of 'the Pittsburgh bride' showed a tendency to examine the real nature of the aristocratic stock disposed of in the American market. The general decision was that the earl was listed to high. He might be worth something, but he was not worth the price which he was offered, a pretty American girl with a generous income of her own. The title was good, the prospects for a still higher title were excellent, but the other part of the property, the bridegroom himself, was put down by the examiners at a low figure. Still, if she conducts her investment with executive skill, Miss Thaw may come out with a balance on the right side of the ledger. All she needs to do is to reorganize her husband, and almost any wide-awake Pittsburgh hess is capable of that. She probably likes the earl. A man's attention is attracted to a woman because she has violet eyes of a delicate profile, and after a while he loves her for a hundred other reasons. A girl's attention is focused on a youth because he is called Lord and he was not worth the price he was gradually changed by nature into love. Let us not be discouraged. Many an American girl who puts her money into a mediocre foreign nobleman manages her affairs with such dexterity that his is never forced to repent of her investment.—Collier's Weekly.

DONKEY ON THE BADGE DECIDEDLY DISTASTEFUL

EL PASO, Texas, May 18.—The Kansas City business men who arrived here yesterday were presented with badges in the Mexican colors with a burro printed on the face. When the delegates crossed the river the authorities at Juarez threatened to throw them in jail for an insult to the Mexican flag and made all remove them.

NATIONAL THEATER AGAIN DISCUSSED NEW YORK, May 18.—A meeting in furtherance of the plan for the establishment of a national art theater was held last night in the Garrick theater. Joseph Jefferson made the principal address in the course of which he said that while he was in favor of an endowed theater there were many problems to be solved.

"I believe," said Mr. Jefferson, "it is much better to call attention to the stumbling blocks before the project is under way than after. Forewarned is forearmed. The people who subsidize the theater will be exacting in their demands of the actors and very critical. The authors will be severely criticized. If a theater can be established with a saving of rent and a continued subsidy it is sure to be a success. It will be able to present more finely the drama. The drama is better than ever today, not only commercially but artistically and it is better acted. It is far better represented than ever."

BRIDGEPORT MORE QUIET

NO STRIKE DISTURBANCES REPORTED THIS MORNING

THE OFFICIALS MUDDLED CLASH IN AUTHORITY BETWEEN MAYOR, POLICE AND SHERIFFS MAKES LATTER ANGRY

MAY CALL STATE TROOPS Sheriff Declares He Will Ask Assistance From the Governor Unless Mayor Mulvihill Lets Him Maintain Order—Firemen Quell Riot Yesterday

BRIDGEPORT, Conn., May 18.—In view of yesterday's serious rioting officials of the Connecticut Railroad and Lighting company made no effort to start cars on its lines in this city early today, preferring to wait until the question of police protection is decided.

"To consider this matter a meeting of the police commissioners was held this morning. Mayor Mulvihill's alleged interference with two deputy sheriffs who were trying to arrest a stone-thrower was denounced by Sheriff Hawley, who informed the police commissioners that unless the police tried to cope with the situation he will take the reins of authority today and summer state aid without further delay. All was quiet about the city during the early morning.

YESTERDAY'S RIOT Yesterday morning six trolley cars were started on the Barnum and State street lines. There were large crowds around the car sheds at the time. The cars were manned by twelve of the 130 strike breakers brought to this city by the trolley car company.

There was no disturbance of any kind for a couple of hours. When the first car, however, had completed its third round trip, and was directly in front of the Wheeler & Wilson factory, where a crowd of at least 1,000 persons had gathered, a bombardment of stones began. Deputy Sheriffs Hendrick and Plumb, who were riding on the car, plunged into the crowd to arrest a man whom they had seen throwing a stone. He was seized, and with considerable difficulty dragged fifty feet to the car. The stone thrower was a big fellow, and struggled so fiercely that a policeman who was standing near by went to the assistance of the sheriffs. Instantly Mayor Mulvihill was seen hurrying through the mob. He rushed up to the policeman and ordered him to take his hands off the prisoner. He then told the deputy sheriffs that they had better let the man go. During the argument the stone thrower wrenched himself free and dashed away.

MAYOR STRUCK In the meantime stones were flying in a shower, and one of them struck Mayor Mulvihill on the head, bruising it badly. The two sheriffs jumped on the car and ordered the motorman to proceed to the car sheds, a quarter of a mile distant. The bombardment did not abate, and the crowds on the streets were so dense that the motorman had to go slowly. The stone throwing soon became so furious that the sheriffs drew their revolvers and fired five shots in the air. This caused the bombardment to let up a little, and the car reached the other five cars operated on the same streets received exactly the same treatment as they following the first car into the car barns.

ANOTHER STRIKE IS DUE IN TORONTO TORONTO, Ont., May 18.—After three weeks of practically fruitless negotiations matters now appear ripe for another strike on the Toronto street railway. The company has flatly refused the men's demands for 23 cents an hour and a grievance committee, though certain minor points were conceded. The men are determined on the grievance committee or some form of recognition of their union and trouble seems inevitable. The men will present a final ultimatum to the company today and a strike may be precipitated at any time.

UMBRIA REACHES LIVERPOOL SAFELY LIVERPOOL, May 18.—When the Cunard line steamer Umbria arrived here she was searched by detectives, but no arrests were made. Her passengers were not aware of the dynamite affair until they reached Queens-town.

# STRIKES YOU ANYTIME!

**NEVER KNOW WHEN** a stitch, a twitch, or crick in the back will strike you. The aches and pains of a bad back strike you at any time. Kidneys will go wrong, and when the kidneys fail the back generally fails, too. Backache comes to the busy man, to the mechanic, the laborer, to women, old and young; to all who have sick kidneys and kidneys are no respecter of persons, time or place, they will get sick when you overtax them.

**NEVER KNOW WHERE** a simple ache in the back will end. Backache pains, irregularities of the urine, infrequent or too frequent urinary discharges, painful passages, incontinence are beginnings in kidney ills. Let them run, neglect them, fail to relieve the congested or inflamed condition, in a few months, few weeks, few days, 'tis Dropsy, Diabetes, Bright's Disease that faces you.

#### FIFTH STREET

R. C. High, dealer in horses and mules, living at Fifth and Grove streets, says: "Doan's Kidney Pills procured at Weaver's Pharmacy is the best remedy of the kind I ever used. I am pleased to allow my name to appear as an endorser of their claims. A dull aching pain across the small of my back had annoyed me for some little time, and although it was not at all alarming I thought I might as well get rid of it in its early stages as to wait until it became more difficult to remove. A few doses of Doan's Kidney Pills clearly proved that they were going to the root of the trouble and a continuation of the treatment for a short time placed my kidneys in a better condition than they had been in for an indefinite period."

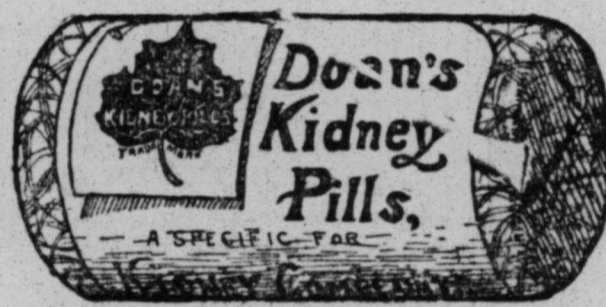

#### EAST FOURTH ST.

J. B. Feightal, brakeman on the Houston and Texas Central, residence 505 East Fourth street, says: "If the primary cause of attacks of dull pain in my back which clung to me persistently was not the jolting and jarring of the train certainly during and after long runs when the attacks were at their height my suffering was increased. Reading about Doan's Kidney Pills led me to go to Weaver's Pharmacy for a box. I knew after a dose or two that they were acting directly upon the kidneys and when I had finished the treatment the last attack stopped. After a thorough trial I must emphatically declare Doan's Kidney Pills to be an excellent remedy."

#### MILLS STREET

F. J. Jenkins, clerk in his brother's store, 102 Houston street, living corner of Mills and Malone, says: "Pain across the small of my back was often sharp and severe and when the paroxysms were at their height trouble with the kidney secretions existed despite the fact that I consulted physicians and took more than one remedy recommended as sure cures for such conditions. Thinking if Doan's Kidney Pills performed half what they promised they might help me, led to go to Weaver's Pharmacy for a box and take a course of the treatment. I used three boxes. They absolutely stopped the last attack. I will be only too pleased to corroborate the above in personal interviews."

#### LAMAR STREET

J. A. Gattou, of 1116 Lamar, says: "Most of the time there was a dull heavy aching over my kidneys, sometimes it changed to sharp twinges, and as a rule, at the end of a day's toil I felt greatly fatigued and used up. This ran along, changing from better to worse until I saw an advertisement about Doan's Kidney Pills being a sure cure for such annoyances. When a man's back feels like breaking every time he stoops and when he attempts to straighten he endures extreme suffering, he naturally grasps at every chance that comes in his way to, if not radically dispose of the trouble, at least to check it. This led me to go to Weaver's Pharmacy for Doan's Kidney Pills. I felt their effects in twenty-four hours. A continuation of the treatment for some time radically disposed of the last attack."

## BROTHERHOOD OF TRAINMEN MEETS

**Biennial Gathering of Powerful Railroad Organization Is Now in Session in Denver—Many Delegates**

DENVER, Col., May 18.—The sixth biennial convention of the Brotherhood of Railway Trainmen met here today and probably will continue for two weeks. Matters of routine character were discussed at the opening session. Changes in the constitution and matters affecting the insurance branch of the order are the principal questions before the convention, the sessions of which are secret. More than 1,000 delegates and visitors are in attendance. Buffalo and several other cities are bidders for the next convention of the order.

The report of the secretary and treasurer shows the organization to be in a flourishing condition. During the last fiscal year there was an increase in the membership of 9,000, making a total of 69,000 in round numbers, scattered over all the prominent roads of the United States and Canada. During the year thirty-two new lodges were organized, making a total of 670 lodges.

The Brotherhood of Railway Trainmen is the largest order of the kind in existence and was organized for the purpose of lending mutual aid to the members of that vast army of workers who handle and care for the trains of the various roads of America. It was organized at Oneota, N. Y., September 23, 1883, tak-

ing for its model the large and successful order, the Brotherhood of Locomotive Engineers. Not only does the order work for the temporal interests of the trainmen, but it has attached to it as an auxiliary an insurance order wherewith to provide for those who are left when the far too common switching, ditching or wrecking accident takes away the head and support of the home; when the unannounced crash tells of trouble ahead and the cars are piled in telescoped heaps on and around the track and beneath is the mangled bodies.

In the beginning the name of the order was the Brotherhood of Railroad Brakemen, but as the order grew, the others of the train crew evinced a desire to associate themselves with the order, and its title was broadened to suit the broadened conditions.

**SWITCHMEN'S UNION**

INDIANAPOLIS, Ind., May 18.—The biennial national convention of the Switchmen's Union of North America opened with a mass meeting in Tomlinson's hall today, when addresses of welcome were delivered by Governor Durbin, Mayor Bookwalter and others. More than 600 delegates were in attendance, representing the local branches of the organization throughout the United States and Canada.

A great number of matters of importance to members of the order are scheduled for discussion and action at the present convention and it is probable the sessions will continue for two weeks or longer. An important question to be decided is whether the organization shall depart from its old principles and affiliate, in the future, with large central bodies, such as the American Federation of Labor and central trades councils. The organization's future attitude toward the Order of Railway Trainmen will also come up for discussion. In the past the two organizations have been hostile. Another matter of importance to receive attention is the proposition looking to a reduction in the rate of insurance now charged members of the union.

## PEACE PLANNERS MEET AT THE BUB

**National Society for the Furtherance of Universal Peace Among the Nations Is Being Held Today**

BOSTON, Mass., May 18.—The establishment of a congress of representatives of all the civilized nations, to assemble at regular intervals to deliberate upon matters of common interest to the nations with the main view of averting appeals to arms, is the aim of a small but enthusiastic coterie of Americans who have long been identified with the universal peace movement.

The subject was discussed today at the annual meeting here of the American Peace Society, and committees were appointed to further consider the matter. Today's meeting rounded out the seventy-fifth year of the society and the gathering was devoted largely to a review of the work of the organization and the general progress of the cause of international peace during the last three-quarters of a century.

Tonight the meeting concludes with a banquet at the Twentieth Century Club, at which it is expected that some 200 members of the society and their guests will be present. The speakers of the evening are to include Robert Treat Paine, the president of the society; Dr. B. F. Trueblood, the secretary; Henry Demarest Lloyd of Ohio, Anna Garland Spencer of New York city, the Rev. Charles F. Dale, president of the Twentieth Century Club; Lucia Ames Mead, the Hon. Moorfield Storey and others.

## MAN KILLED WOMAN HELD

**SUNDAY MORNING TRAGEDY NEAR ARLINGTON**

## A BULLET IN HIS BACK

**SIX CHILDREN IN ONE FAMILY AND FIVE IN THE OTHER THE REAL SUFFERERS**

## I. D. COKE BURIED TODAY

Mrs. Lu C. Lane and Her Husband are in County Jail—Victim Visited Their Home to Borrow a Cow—Marshal Douglas' Account

On a lonely, dreary farm seven miles south by east from Arlington with only their weeping mother to comfort them, are six little fatherless girls. At the Summit House in Fort Worth are five other little children whose mother and father are in the county jail, the mother held, charged with being a murderer and the father as an accessory.

This is the sad result of a tragedy that was enacted seven miles from Arlington Sunday morning. While the church bells in all the neighboring hamlets were summoning the God-fear-

ing farmers, their wives and children to the houses of worship, I. D. Coke was shot in the back and killed almost instantly. Coke was the father of the six little girls.

**HUSBAND AND WIFE IN JAIL**

Following the tragedy, Mrs. Lane and her husband, both burned yellow by the sun, were arrested and taken to Arlington, where Mrs. Lane's bond was fixed at \$2,500 and her husband's at \$1,500. In the evening the husband and wife were brought to Fort Worth and locked up in the county jail. Mrs. Lane will become a mother for the sixth time within a few days.

City Marshal W. M. Douglass of Arlington this morning brought in the rifle with which Coke was killed. It is the Stevens make, 32 calibre. Only one bullet was fired. It struck Coke in the back just under the right shoulder blade and did not emerge. It is believed it penetrated his heart, for he died almost instantly. Marshal Douglass gave the following account of the shooting to a Telegram reporter:

**MARSHAL'S ACCOUNT**

"The Lanes rent a farm from Frank McKnight. The Cokes formerly lived in the house occupied by the Lanes at the time of the shooting. When the Cokes moved in they occupied part of the house while Mr. Lane and family lived in the other part. The families did not agree and quarrels were frequent. Mr. Coke finally moved his family to a house on a farm owned by a man named Miller, about a mile from where the Lanes resided.

"Last Tuesday Mr. Coke went to Mr. Lane's house. He wanted to borrow or rent a milk cow. Mr. Lane did not let him have one. After getting shaved Mr. Coke said he believed he would try the Lanes once more and he started for their place. He and I heard that he had been shot and killed. According to the story as it was told to me, when Coke approached the house Mrs. Lane picked up her husband's rifle and ordered Coke away and as he started to leave she fired one shot into the ground behind him. Her husband started to follow Coke down into the

lot and told his wife to attend to her own business. He also told her to put away the rifle. It seems that she reloaded it, however, and followed the two men into the cow lot. Mr. Lane, I am told, caught up with Mr. Coke just as his wife, who was fifteen or twenty feet behind the two men, fired. Coke went to the ground at once."

Mrs. Lane is about 40 years old; her husband is about the same age. Coke was about 45. The funeral of the latter took place this afternoon.

HARRY MC CART AND ROSE ELLIS ELOPE

THEIR MARRIAGE IN DALLAS YESTERDAY A COMPLETE SURPRISE TO MISS ELLIS' FAMILY—DIDN'T EVEN KNOW THEY WERE SWEETHEARTS

Harry C. McCart, the popular young Fort Worth lawyer, and Miss Rose M. Ellis surprised a host of local friends yesterday evening by going over to Dallas and there being united in marriage. Indeed, the news of the wedding will be a surprise to most of their friends when it is read in this afternoon's Telegram...

MRS. HARRY C. MCCART

The first news Mrs. Ellis, mother of Mr. McCart's bride, had of the wedding, was received over the long distance telephone from Dallas last night. "It was a complete surprise to me," Mrs. Ellis said today. "Mr. McCart called me up by telephone and told me that he and Rose had just been married and that he had all said. I did not get to speak to Rose. I expected them home this morning but they have not arrived, and I suppose are off somewhere on a honeymoon trip. I did not even know that they were sweethearts. They played together in several amateur productions here and were very good friends, but it never occurred to me that they were any thing more than warm friends. Why, Rose left me this yesterday with another gentleman, to go to church."

It is understood that the marriage ceremony was performed at the Oriental hotel. A legion of friends will wish the young couple all the happiness in the world.

BIG COMMITTEE TO RECEIVE PRESS GANG

J. W. Spencer, president of the Board of Trade, this morning appointed the following Fort Worth men to be a reception committee on the occasion of the visit to this city of the Texas Press Association next Saturday: A. J. Sandegard, chairman; J. A. Starling, John L. Terrell, S. M. Whitting, Glen Walker, F. S. Bouliware, F. H. Collins, N. A. Cunningham, M. L. Chambers, J. T. Clements, John E. Homan, E. L. Huffman, John D. Kane, J. J. Langever, Oscar Lenglet, W. T. Ladd, C. H. Lilly, George McGowan, C. T. McIntosh, W. H. Peckham, L. P. Robertson, T. L. Ray, R. L. Rogers, E. G. Rall, Charles Gomer, J. P. Brashear, W. S. Essex, Lee Fleming, J. L. Frazier, W. B. Harwood, T. Graham and L. L. Hawes.

"I have appointed a big committee because the visit to Fort Worth of the Texas Press Association is a big thing," said Mr. Spencer today. "I have put a good many members of the Board of Trade on the committee who are not in the custom of serving on committees and I shall be greatly disappointed if they fail me. Every member of the Board of Trade should remember that it is his duty to serve on these committees as well as to support the board by the payment of membership dues. The cash will not do us much good unless we have workers along with it, whereas money and men form a combination that can't be beat."

IN THE COURTS

ANKLE GOES HOME

Sheriff Charles Ankele of Chappes county, Col., departed this morning for home after an ineffectual attempt to obtain possession of Ernest Schinzel, the alleged forger, who is held in the city to answer to a charge similar to the one standing against him in Buena Vista, Col. Sheriff Ankele did not relinquish his efforts until he exhausted every means known to the law to obtain his man. There is a reward of \$1,500 in Colorado for Schinzel and this money is probably will go to Detective Jim Thomson and Assistant Chief of Police Allen when Schinzel is returned to that state. Schinzel was brought to Texas from Indianapolis, where he was captured. He gave bond in Dallas, where he is charged with forgery, and then was brought to Fort Worth, where he again made bond. He then returned to Dallas. When the local police heard that there was a reward of \$500 for the man in Colorado, Detective Thomson was sent to Dallas and there he re-arrested Schinzel and brought him to this city. The Dallas police then made an attempt to take Schinzel back to that state as they meanwhile had heard of the \$500 reward. They failed to get him. Then the Colorado authorities, too, were balked. Sheriff Ankele went to Austin and obtained a requisition, but when the local officers heard of this move they promptly entered into communication with Governor Lanham, who yesterday wired Deputy Sheriff Akers to hold Schinzel notwithstanding the requisition. "I will issue a proclamation revoking the requisition in the morning," said Governor Lanham. Upon hearing this, Sheriff Ankele boarded a Denver train for home.

LAST RITES FOR A SWEET SINGER

Sybil Sanderson Is Buried in Paris and Crowds Through the Church While Her Casket Is Heaped With Flowers

PARIS, May 18.—The funeral of Sybil Sanderson, the American opera singer who died in this city Saturday from the effects of an acute attack of grip, took place today at the church of St. Notre, and was largely attended by representatives of the operatic and theatrical world.

Many members from the American colony were present, and the floral offerings were so numerous that the casket was buried in flowers, and even the hearse was transformed into a floral chariot. The usual Catholic funeral services were rendered. A surprised choir was augmented by an orchestra and several prominent singers. M. Tisserand, the tenor, sang "De Profundis," and M. Reder, baritone, rendered "Ego Sum."

RENEWED ACTIVITY IN COTTON MARKET

NEW YORK, May 18.—Renewed action and activity marked the opening of the cotton market today. The first prices were at an advance of from 6 to 18 points and, notwithstanding the fine weather and large receipts and continued reports of the curtailed consumption and very heavy realizing, they were rushed still further upward during the first few minutes to a point 20 to 25 points over Saturday's close on the near months.

Liverpool cables were again sensationally strong. A decline of from 2 to 5 points had been expected, but after starting 1 to 2 points lower, the market there advanced before the opening of the local market to a level on net 5 1/2 to 11 points higher with specie cotton once more reported in good demand at an advance of 12 points. Private cables attributed the gain to bull support.

NEW ORLEANS, May 18.—Ex-Lieutenant Governor Clay Knoblock was shot and killed today on Main street at Thibodeaux, La., by James Garuit, a barber. Governor Knoblock was a member of a prominent family and was lieutenant governor under Governor McEnery.

FAIR CYCLISTS FLY BEFORE BAD BULL

LAKE HOPATCONG, N. J., May 18.—Miss Mabel Marshall, Miss Louise Duncan, Miss Jennie Hoffman and Miss Clara Howland of New York, who are visiting here, were attacked by a bull while bicycling. At the time the young women were wheeling along a path through the fields. They had not gone far when a young bull pursued them. In spite of their efforts the bull gained on them and realizing they would soon be overtaken the girls sprang from their wheels and ran to a large tree with low, drooping branches and scrambled to places of safety just as the infuriated animal, bellowing and tearing the earth, reached the tree. Among the branches of the tree the young women were prisoners for nearly two hours. The bull nearly destroyed the bicycles at the foot of the tree.

DANGEROUS WEAPONS ON ITALIAN WOMEN

NEW YORK, May 18.—The police were called today to quell a riot at Broadway and Sixty-eighth street, where several Italian women, evidently strike sympathizers, have been intimidating the men at work on the subway. Stones were thrown indiscriminately and the women flashed huge stilettos. The women were arrested. Two of them had stilettos, one of which was two feet long.

POSTMASTER'S FIGHT STILL STIRS DALLAS

DALLAS, Texas, May 18.—The Middleton and Robinson forces are pushing the postmaster's fight vigorously today. It is reported here that State Chairman Lyon will start for Washington in the interest of Mr. Robinson within the next few days.

S. H. Milliken is still in the race for the postmastership, and has some strong backing, including, it is said, the quiet efforts of Governor Lanham.

TODAY'S MARKET

NORTH FORT WORTH, May 18.—The cattle receipts today for this market were about 1,100 against 3,000 same day last week and 1,500 for the corresponding day last month. The quality today was common with a good proportion of both steers and cows. The opening market was on a very unsatisfactory basis, some of the sellers quoting as steady to weak with last week's close and others quoting it straight 10c lower. The best price paid for steers today was \$3.85, and went to Lucas & King of Taylor, Texas, for seventeen head averaging 1,197 pounds. The sale was on a steady basis with last Friday and Saturday, but a few of the cow sales showed a 5c to 10c decline. One hundred and thirty-two cows averaging 818 pounds brought \$2.50, with a small bunch sold to an outside buyer at \$2.55. The supply of bulls and stags today was sort with prices about steady. Two extra well finished stags averaging 1,355 pounds brought \$3.25. The general market closed weak to a shade lower.

The quality of hogs today was extra good. Every one of the eight cars being Oklahoma hogs and mostly heavy weight stuff. **EVERY MAN HIS OWN ELECTRIC LIGHT**

NEW YORK, May 18.—Rays of light emanating from the human body and visible to the eyes of some of these lower animals form the interesting scientific discovery announced as having been made by accident by Prof. A. W. Goodspeed of the Randal Morgan laboratory of physics of the University of Pennsylvania.

Divested of its technical terms, the discovery of Prof. Goodspeed means that the rays of light shed from a living human body may have sufficient intensity, although invisible to the human eye, to produce a picture on a plate properly sensitized and in a room pitch dark.

The discovery was made while X-ray photographs were being taken. While an iron-tripod stand, with a ring-shaped top as a support for a photographic plate, was being used, it was observed that the plate, when exposed to the rays was affected by the iron ring below. Puzzled at this seeming departure from the rules, the operator attempted to discover the cause. In so doing one of his assistants placed his hand below the plate. The result was an imperfect radiogram of the bones of the human hand, like those obtained from the Roentgen rays when experimentation in that line was in its first stages.

It was so entirely new that Prof. Goodspeed was perplexed. He tried again and again. Every time a human hand was placed within the proper focus the same amazing phenomena followed. The experiments were continued for three months and the conclusion of Prof. Goodspeed was not announced until he had satisfied himself beyond all question of the correctness of his results.

**FORT WORTH LOST IN THE ELEVENTH**

GREAT GAMES IN DALLAS AND THIS CITY YESTERDAY.

Dewey, the New Fort Worth Player, Arrived This Morning—He Looks Good and Will Be in Today's Game—Pace Gets Close

Such games as the Texas League teams played yesterday warm the cockles of the hearts of the fans and do good for the national game in Texas. In Fort Worth eleven innings were played between the local club and Corsicana before a run went over the plate, and while a short score game is generally a dull affair, this game was an exception to the rule. In the eleventh inning things broke well for Corsicana and she landed the victory by a score of 3 to 0.

Over in Dallas the score was the same, Dallas winning from Paris. The remarkable feat of Pitcher Reagan of the Dallas club shutting out Paris without a hit or run is seldom equaled in any sports league. He allowed one base on balls, and Paris managed to hit only one ball past the infield. Both teams fielded errorlessly. It was a brilliant contest.

Getting back to the game in Fort Worth, Jimmy Buchanan was on the slab for Fort Worth and Hise worked for the visitors. For the third straight game Buchanan was compelled to go eleven innings before a result was reached. They might have been playing yet if Ditch had not fumbled the ball hit by the first man up in the eleventh inning and Barrett had not been bothered by the sun on the second one hit. When he got in motion after it he went back fast and almost got it. It struck about ten feet from the left field fence. After that some hits came and three runs resulted.

**HISE FANNED FOURTEEN**

Hise displayed wonderful control and a good share of speed. He fanned fourteen of the locals, Ditch being the victim three times. The game probably would have ended in the regulation nine innings but for two plays, in both of which Captain Schuetzke figured. He opened one inning by driving a liner to left center, on which Maloney made one of the most remarkable one-handed running catches ever seen on a diamond. With the crack of the bat the fielder started; by a heart-breaking sprint he managed to get within reaching distance of the hurtling sphere and he stabbed at it with his bare hand as it whizzed by. It stuck in his talons and what otherwise would have gone for a three-bagger, with no one out, went for an out. Just before this, with men on first and second and no one out, Sheldon drove a hot bouncer past second. Schuetzke started quickly and just got to the ball with his right hand. He held it, touched second and then threw Sheldon out at first. The next batter failed to bring Maloney, who was on third, home. In the inning following Maloney's great catch, Schuetzke in a measure evened up by a fine running catch of a liner from Maloney's bat. The game was played in the presence of the largest crowd that ever entered Haines' park, and although the home team lost, the crowd departed full of enthusiasm over the splendid afternoon's entertainment. But for the threatening weather the crowd would have been a bigger record-breaker than this was.

**TO JOHN L. WARD'S MEMORY**

Yesterday morning the Texas League magnates honored the memory of John L. Ward, lately deceased, by going in a body to the cemetery in which he was interred and depositing upon his grave a beautiful floral emblem. John L. Ward for several seasons was president of the Texas League and held that office up to the time of his death. In baseball circles in Texas his name stands foremost among those who have honored the great national game by their allegiance and devotion to its cause. The managers were accompanied by members of the two local clubs and the occasion was made notable by a beautiful tribute to the upright and gentlemanly character of the departed, delivered by Newt Lassiter, the well-known lawyer, who succeeded Mr. Ward in the presidency of the league.

**TODAY'S GAME**

Corsicana and Fort Worth are at it again this afternoon in the last game of the series. After today's contest the locals depart for a trip around the circuit. They will play nine games before they return. They go from here to Dallas, thence to Paris and wind up at Corsicana. Sorrels and Wright will be the pitchers today.

**DEWEY ARRIVES**

Dewey, the new California acquisition, arrived this morning. He will play center field this afternoon and Poindexter will return to his old job, right field. This new young Panther's arrival is big news to the local fans. The prevailing questions among fans for the last four days have been, "What will they do with Dewey?" He was expected last Friday, then it was thought he surely would not come in time for Saturday's game. Saturday night a man walked into the White Elephant and introduced himself as Dewey and was told where to get a room and given other useful directions, but it developed that taking advantage of the new interest in the young player, this stranger had really hoodled everybody.

he has been identified by McMurray and Lockhead, who knew him in California and who recommended him to Manager Ward. He is a hefty youngster and looks like a ball player. He has a big reputation on the coast. Seattle of the Pacific Northwest League tried to sign him, but Manager Ward outbid that club and landed him.

**AGE AND ORIGIN OF BASKET BALL**

Hundreds of young men are now playing basketball who probably have but a vague idea regarding its origin or realize that for so young a sport it has had a most unusual career. Started first as a game for members of the gymnasium classes of Young Men's Christian Associations, it has now attracted the attention of all classes of athletes, as is seen from the scores of associations that now exist, including intercollegiate, interscholastic, Christian associations, and even professional.

Basketball had its birthday in Springfield, Mass., eleven years ago. Dr. James Naismith has been given the unquestioned honor of inventing it, for it was an invention pure and simple. Unlike baseball, football, hockey, golf and other sports, it was not evolved into its present standard through years of growth with gradual improvements, but leaped with one bound into its present position. The method of playing the game today and its rules differ only in the merest details from the first games played eleven years ago.

Dr. James Naismith brought out the game while he was an instructor in the Young Men's Christian Association training school in Springfield. Dr. Luther Gulick, who is now in Brooklyn, was also an instructor in the school at the same time, and he had a share in bringing the game to perfection. He has always maintained an unflinching interest in the sport, and is the chairman of the basketball committee of the Amateur Athletic Union.

The game was the result of a general demand at that time for something which would present new features in regular gymnasium work and fill other requirements for the necessary physical instruction in the training school. The new game, whatever it might be, was obliged to stand a severe test, for seven requirements were demanded of it—namely: a game that could be played on any kind of ground, a game that could be played by a large number of men at once, a game that should exercise a man all around, a game that should be so attractive that men would like to play it for its own sake, a game that should have little or none of the required roughness of Rugby or association football, a game easy to learn, and a game scientific enough to be interesting to older players.—New York Times.

**MEMORIAL SERVICES BY ORDER OF EAGLES**

Memorial Day of the Fraternal Order of Eagles the third Sunday in May, was observed by Local No. 42 last night. The beautiful hall was crowded to its capacity when Rev. Nat. B. Reed, pastor of the Peach Street Methodist church and a member of the order, arose to deliver the memorial day oration. He said in the beginning that the custom of memorial day had its origin in the fact that the memory of God was mentioned in the Bible. He then delivered an eloquent and impressive oration, at the conclusion of which the order sang the hymn, "I Will Remember From Me." The oration was a beautiful and inspiring tribute to the memory of those who have departed this life.

## ROUGHS RAISE A RAUCOUS RIOT

NEW YORK, May 18.—Rowdies held up a train returning from Coney Island yesterday, terrorized the passengers by fighting and cursing, and assaulted trainmen and the policemen who went to stop the trouble. One policeman had his nose broken and others had hats crushed and uniforms torn before the excitement was quelled. Eight men were finally landed in cells at the Bath Beach station and were held for a hearing.

When the train left Coney Island five cars were jammed to the doors. The crowd was hilarious and all semblance of order soon disappeared.

Stopping the train between stations, the conductor ordered the motorman of the train to blow the whistle without ceasing and to run the train ahead until Bath Beach was reached. This is near to the police station.

When the train reached Bath Beach station Captain Cullen, Sergeant Ryser and Roundsman Nugent, with nine men, were there.

Captain Cullen sent half of his men, with the sergeant, into the car and they went to arrest those whom they considered the ringleaders and push them through the windows of the cars, where they would be caught by the captain and his other men.

Then followed a fierce battle. Roundsman Nugent had just seized one man who had been thrown out, when another was thrown on his back and began to pummel the roundsman's face. The fellow grabbed the policeman's club and got Nugent down and was belaboring him when the captain went to the policeman's aid. When it was over, Nugent's uniform and hat were ruined and his nose was broken.

All the prisoners were held on charges of disorderly conduct except the one who had beaten Nugent, and he was held for assault.

## IMMIGRATION SHOWS FURTHER INCREASE

NEW YORK, May 18.—Immigration continues on the increase. For the 15 days of May this year 50,977 aliens passed through Ellis Island, as against 45,486 last year and 36,371 in the same period of 1901. This is an increase of 5,221 over the same period last year, and 22,900 are expected this week, and the last week in May promises to be unusually large. It is predicted that the month will show fully 100,000, as against 84,000 last year.

It costs \$100 to \$500 in advertising to sell \$1,000 worth of breakfast food.

Fisher's Drug Store and Reeves' Pharmacy.

## The Proverbial "Peck"

It is said that everybody "eats a peck of dirt." No one is anxious to get more than their share, yet a few people still buy soda crackers in bags. Crackers sold from a can or barrel are likely to collect dust and other things in the cleanest of groceries. The store must be swept; boxes and barrels moved and the cracker box uncovered now and then for a thoughtless buyer.

If you don't want to eat a peck of dirt buy **Uneda Biscuit** in the airtight, dust-proof, moisture proof In-er-seal Package, identified by the famous red and white trade-mark design. Baked and packed in perfect cleanliness they reach you in the same condition.

Whether bought at the general store in the country or at the great city grocery, they are equally fresh, and good, and wholesome.

ELKS DEVISE CLEVER PROGRAM FOR SOCIAL

For the social to be given by the Elks tomorrow night a clever program has been arranged. It is printed on brown paper and reflects true good fellowship and sociability. Catchy verses and apt quotations give the key to the sort of evening it is to be. Here is the program in full: "Some men are born to feast, and not to fight."

Justice Charles P. Rowland: "It was a hummer." RAILROAD MEN APPRECIATE IT T. T. McDonald: "I have a lot wrapped up here to send away to my friends. It is a great edition." Colonel W. R. Smith: "It's a fine paper and shows enterprise both on the part of The Telegram Publishing Company and the patrons of the big edition."

BIGGEST NEWSPAPER IN STATE'S HISTORY

SOME OF THE FACTS AND FIGURES ABOUT THE TELEGRAM'S SPECIAL EDITION YESTERDAY WHICH MADE A NEW NEWSPAPER RECORD IN TEXAS

Laid side by side, the separate sheets of yesterday's big special edition of The Telegram would make a strip of paper twenty-two inches wide and 209 miles long. The sheets would cover an area of 21,000 square yards, or more than forty-five acres. The total weight of the paper used was eleven tons, and it required 500 pounds of ink to print it. The number of columns in each paper was 504, of which 288 columns, or 5,322 inches, were advertising matter, and 216 columns reading matter and illustrations. These are the principle figures of the biggest special edition of a newspaper ever printed in Texas, and constitute a newspaper record of which the management of The Telegram has reason to be proud.

expressions The Telegram has received since yesterday from representative Fort Worth citizens: J. W. Spencer, president of the Board of Trade: "The Board of Trade has subscribed for a large number of copies of The Telegram special edition. In addition, so many people told me today and yesterday that they wanted extra copies of the great issue that I started a list of them and told them I would get the copies for them. I now have five lists of names of persons who want from two to twenty copies each, and am sending them to The Telegram office. It is a magnificent edition." Captain B. B. Paddock: "It is complete and artistic and is a credit to the mental and mechanical skill of The Telegram."

NOT A SICK DAY SINCE "I was taken severely sick with kidney trouble. I tried all sorts of medicines, none of which relieved me. One day I saw an ad. of your Electric Bitters and determined to try that. After taking a few doses I felt relieved, and soon thereafter was entirely cured, and have not seen a sick day since. Neighbors of mine have been cured of Rheumatism, Neuralgia, Liver and Kidney troubles and General Debility." This is what B. F. Bass at Fremont, N. C., writes: "Only 50c at Reeves' Pharmacy and J. W. Fisher's Drug Store"
