NEW EMPEROR IS BUYING A COURT

Jacques Lebaudy Purchasing Outfit for His Capital

RECRUITING ARMY ALSO Fortune of \$60,000,000 Will Be Spent in Gratifying Whim of This Young Man

(Special cable to The Telegram, Copyright, 1903, by W. R. Hearst.) LONDON, Sept. 27.—However much the Parisians ridicule the pretensions of M. Jacques Lebaudy, this extraordinary young man is now on his way to London to purchase an immense outfit of supplies for his "court" at Troja, which he has declared to be the capital of his empire. The country which Lebaudy has annexed is sparsely populated, considering its enormous area. The inhabitants of the Sahara are about two million souls and consist of Moors, Tuareg, Tibbu, negroes, Arabs and Jews. His majesty thinks that this population needs the leave of Europeans, so he has invited 500 Breton and Corsicans to his kingdom. These people will be provided with portable houses, which his majesty will probably buy in England. They will proceed on November 15 to the new capital, Troja, which the imperial interloper has decided shall be the name of his metropolis. Naturally the spiritual well being of his subjects appeals to the emperor, and in consequence he has engaged twenty-four priests and twenty nuns to proceed to Troja, where they will educate the children and urge on the parents to deeds of virtue and piety. A gorgeous cathedral will be raised in the metropolis and four missionaries will have charge of this noble edifice. Always believing in the picturesque, Jacques I. will have a picturesque army. He has been in Switzerland, remaining at Geneva and Montreux young men for his imperial forces. Their uniform will consist of a species of tunic, similar to what the Swiss guard wear at the Vatican. His troops will be commanded by an ex-French officer who will have the title of "field marshal of the imperial forces of the Sahara." The ordinary officers will be recruited from ex-commissioned officers from various European armies. The emperor offers his officers good pay, rapid promotion and many decorations. His majesty has determined to develop the Sahara and among others of his enterprises is a railway which he proposes to build across the desert. The immense wealth at the disposal of this young man, who, with his brother, Robert, inherited from his father, the French sugar king, more than \$60,000,000, will enable him to keep up his imperial state for some time at least.

HE WANTS TO RUN ARMY

Edward Would Like to Succeed Roberts as Commander in Chief

(Special Cable to The Telegram, Copyright, 1903, by W. R. Hearst.) LONDON, Sept. 28.—The growing political and diplomatic power of the king and his majesty's obvious desire to be more than a figure-head in a constitutional monarchy is attracting the attention of the thinking classes of England. It is now stated that the king is ambitious to become commander in chief of the army when Roberts retires. The command of the army until five years ago always was held by a member of the reigning house. Five years ago the Duke of Cambridge was ousted from the command after bitter struggle by the liberals, led by Campbell-Bannerman, the minister of war. After Roberts' resignation, it was expected that the king would assume the command of the army until the king's own reign. The public regards the king's ambitions to regain the command of the army as a step toward a return to the old-fashioned monarchy. Veterans' parliamentarians are openly criticizing Lansdowne for increasing the king's power by allowing the king practically to become his own foreign minister. The king has met on foreign soil and conversed on political subjects with nearly all rulers of Europe during the past six months in the absence of the British cabinet minister. Since the days of the Stuarts no such unconstitutional conduct has marked the career of a British minister of foreign affairs.

French Jockey Club Is Considering Application for His License

PARIS, Sept. 28.—W. K. Vanderbilt is having a hard luck with his racers. Several of his horses have gone lame while the whole stable almost is temporarily suffering from a disabling fever. Vanderbilt is rapidly increasing his losses. The rivalry between Gardner and Vanderbilt is as keen as between Keen and Whitney. It is reported that Tod Sloan soon will be reinstated on the French turf. The Jockey Club is considering renewing his license. Baron De Rothschild is said to have used his influence working to obtain Sloan's rehabilitation.

Williams, United States treasury agent at Fort Worth, has accepted a position in the United States as a collector of wine, said to the American correspondent: "The Paris papers are making a mountain out of a molehill. The Bordeaux wine which was kept out of the United States is sold in France. The reason is because it contains salicylic acid. What is not good enough for French people to drink is not good enough for Americans. If the French authorities do not permit wine containing salicylic acid to be sold in France they have no reason to complain because America tries to protect similarly the stomachs of her people. "The 'pure food law' applies to the United States as well as to other countries. If we prevent our own people from selling impure food and drink we must apply similar measures to such commodities coming from foreign nations. "What happened was this: Some one, probably a consul sent word to the state department that this cargo of wine containing salicylic acid was being sent over and that the law prohibits its sale here. "The contention that the exclusion took place in order to favor California wine is absurd. A great deal of the California wine is brought here and mixed with French wine and the blend is not bad. "There is not, and in the nature of things there cannot be, an economic war between France and the United States. We want all the goods that France can send us. Germany discriminates against us, France does not."

TO MARTINIQUE VICTIMS

France Still Has a Million and a Half Dollars for Distribution

(Special cable to The Telegram, Copyright, 1903, by W. R. Hearst.) PARIS, Sept. 28.—Six million francs still remain in the hands of the commission for distribution among the unfortunate sufferers of Martinique. Before it can be distributed the state in writing of 18,000 individuals has to be passed upon. A separate portfolio is set apart for each individual. The situation brings out well the French love for red tape, office work, anything which implies a vast staff of clerks and many clerical people on earth. They delight to be at a desk copying something. When many moons hence, all the writing will have been over and done with, the government of Martinique will be left to superintend the distribution of the cash. The mayor of an American city would have distributed five times the amount in two days.

LOU DILLON VS. MAJOR DELMAR

Memphis May See a Race Between the Fastest Trotters in the World

NEW YORK, Sept. 28.—Ever since E. E. Smathers paid \$40,000 for Major Delmar, 2:09, the world's champion gelding, horsemen have been wondering for what reason the young millionaire acquired this handsome little bay racing machine. As a money maker on such a large outlay, Major Delmar would not bring a big profit, but Mr. Smathers has stated that he had not bought the champion to make money, but for his own pleasure, so it is not surprising that he has purchased playthings in the world has been purchased by the New Yorker just to satisfy a hobby for light harness horses. As for classes to enter, there is no competitor. Lou Dillon has only one competitor, Lou Dillon, and it is safe to say that the pair will never come together for an amateur event, in which the owners will drive. K. G. Billings, the owner of Lou Dillon, never races for money, neither does he permit his horses to be entered in professional races. Few horsemen have shown the sportsmanlike spirit of Mr. Smathers. After paying a record price for the gelding, he announced that he was willing to race him in the wagon races at Memphis, for which the gold challenge cup is offered. Mr. Smathers already has one leg on the cup, and when the contest is over, the greatest wagon race of the year. Up to this time it looked as though Mr. Billings had a mortgage on the cup, as it was a well-known fact that none of the amateurs had a horse fast enough to compete with the champion. The purchase of Major Delmar gives the matter a different aspect. Major Delmar is said to be eligible for the event, and if Mr. Smathers enters him there is no doubt that Mr. Billings will gladly accept the issue. When the Memphis races are over Mr. Smathers will have his horses returned to this city, where he and Mr. Billings may resume hostilities on the speedway. Lou Dillon and two such champions as Lou Dillon and Major Delmar will surely be a place to afford amusement for the lovers of light harness sport. Mr. Billings has already announced that he will race Lou Dillon against Major Delmar, and it is always Mr. Smathers' custom to have his horses race in the city during the winter.

FORMER MARRIAGES

Wilson, who at one time moved in the best society of Fort Worth, in recent years had dropped low in the social scale. His first marriage was with Dolly Love, who obtained a divorce from him. Then he married Gladys Allen. Meanwhile he had found employment as a bartender. The tragedy was enacted in Mabel Thompson's house on Rusk street, in room No. 7, on the second floor. Mabel Thompson, who conducts the place, occupies a room on the first floor, directly beneath room No. 7.

RETIRED IN GOOD SPIRITS

At 3 o'clock this morning the couple retired. Before that they chatted awhile with Mabel Thompson in the latter's room. Both were sober. She heard no sounds of a quarrel after they retired. It was her custom to awake Wilson at 6:30 every morning. This morning at that hour she went up stairs and rapped on his door. He awoke and when she told him it was time to arise he responded, "All right. I'll be right down." She then returned to her own room on the floor below and went to bed. Fifteen minutes later she heard Wilson rapping at her door. A minute later she heard a sharp report. She thought Wilson had dropped his shoe on the floor and said no further attention to the noise for a few seconds. Then she heard another report and knew this time that it was a pistol shot. She ran out of her room and up the stairs. Other women, some in various stages of dishevelment and some in tawdry finery, were running from their room and were going into hysterics and screaming in high pitched voices. Mabel Thompson tried the door of room No. 7. Who it did not open. A chair was brought and one of the girls clambering upon it, peered through the transom into the room.

SCENE IN THE ROOM

She screamed at what she saw. Wilson was on his knees in front of a mirror and a red stream was issuing from his left breast. He was groaning and slowly sinking to the floor. The door was opened by force by the frantic women. On the bed lay the woman. She was on her right side and her arms were crossed. The expression on her face was that of a woman in peaceful sleep. In her left temple there was a jagged hole from which a thin line of blood trickled. The bullet passed through her head and tore a large hole at the point of exit. On the pillow, when they raised her head, was a clump of hair. Meanwhile Wilson's life was fast ebbing away. He gradually became motionless.

THE VERDICTS

Justice of the Peace Charles T. Rowland was summoned and he held the inquest and rendered his verdicts as follows: "Hugh Wilson came to his death from a pistol shot administered by his own hands with suicidal intent. Gladys Wilson came to her death from a pistol shot fired by Hugh Wilson with intent to murder." The justice of the peace also questioned the inmates of the house and took down a statement made by Mabel Thompson. The latter grieved several times and when conscious wept convulsively. "It was so useless—so useless," she said. "O, if we could only have foreseen it." A note written by the dead woman to Wilson yesterday was found on the dresser this morning. It is written on a Western Union telegraph form and simply says: "Dear Little Dad: Please come home. It is so hard for me to get up there. With a world of love. "YOUR WIFE," Wilson signed himself "Dad" in various notes written to his wife. HIS MOTHER'S LETTER Among the letters and papers found in the room by Justice Rowland are several anonymous for the lovers of light harness sport. Mr. Billings has already announced that he will race Lou Dillon against Major Delmar, and it is always Mr. Smathers' custom to have his horses race in the city during the winter.

AMERICANIZATION OF FOREIGNERS

Dr. Robert MacArthur Discusses Great Problem

DISTRIBUTION NEEDFUL He Sees Benefit in Settlement of Scattered Districts and Good in Public Schools

NEW YORK, Sept. 28.—The Rev. Dr. Robert S. MacArthur has preached at Calvary Baptist church on the problems arising from the arrival here of immigrants. He said in part: "Tidal waves of immigration are breaking upon our shores. During the fiscal year recently closed the number of immigrants pushed up well toward 1,000,000. Every steamer coming into our ports brings great numbers. Prosperous times in America invariably greatly increase the number of immigrants. Our country has shown a remarkable capacity for assimilating and absorbing the heterogeneous elements seeking a home in America. "A providential chemistry has largely neutralized the toxic features and greatly stimulated the tonic qualities of the very life of the American republic. These fears led patriotic Americans as early as 1842 to aim for stringent naturalization laws, so as to reduce the political power of ignorant immigrants. "SHOULD BE DISTRIBUTED "The recent marvelous expansion in American life has given a cosmopolitan character, socially, racially, politically and religiously, to our people. We must, however, teach the children of the foreign-born to love their adopted country and to be at once patriotic and loyal to the American flag. "The public school must have its full influence in Americanizing the children of foreigners. Private schools lead to the segregation of foreigners and in this way racial prejudice is fostered. The children of foreign-born parents are preferred. Lectures under the auspices of the public school system and under the direction of patriotic political clubs ought to be given all over the city. Missionary teachers must seek out these foreigners, teachers going with the American constitution in one hand and the Bible in the other hand. The gospel of the Holy Ghost is the only hope of humanity in every land. We used to send missionaries to foreign lands; now many of the people of these lands are coming to America. We now can do the work of foreign missions at our own doors. "The impulses of a common humanity, the duty of American patriotism, and the promptings of our holy religion should lead us to Americanize the children of the swarms of foreigners seeking a home and a nobler life and a grander future under the American flag."

TERRITORY NEEDS LEGAL MACHINERY

Congested Condition of Courts Cause Great Inconvenience to Settlers

OKMULGEE, I. T., Sept. 28.—At a meeting of the bar association of the western district of the Indian Territory, held at Okmulgee on the 22nd, the initial steps were taken toward perfecting an organization that will move "on to Washington" with an earnest appeal to congress to take such action at its coming session as will relieve the United States courts here of their present congested condition. The recent decision of Judge Raymond of the western district to the effect that all leases made by parents for their children, for a period longer than one year, must have the approval of the court involves the legality of thousands of leases in the Creek Nation, and makes it a hazardous undertaking for a lessee to place improvements of any considerable value upon lands belonging to minor children. These matters must all go through the courts, and with only one judge for the entire Creek Nation, whose jurisdiction is exclusive in all criminal matters, other than misdemeanors, in all civil matters where the amount involved is more than \$200, and in all probate matters, it may readily be seen, even by those entirely unfamiliar with court methods, that an unsurmountable obstacle has now arrived—the business cannot be done with the machinery at hand. This condition has arisen from the recent unadvised settlement of the Indian country, and conditions will continue to grow worse so long as we have "legislation without representation. The solution of this problem must eventually be the formation of a territorial government.

BACK TO THE OLD WAY

British Workmen Refuse to Adopt American Method of Hustling

(Special cable to The Telegram, Copyright, 1903, by W. R. Hearst.) LONDON, Sept. 28.—Employers of British labor have just received an emphatic reminder that it is useless to expect the English workman to "hustle" in the American fashion. The lesson was administered at Neasdon, where the British Westinghouse Company is erecting on the electrification of the Metropolitan railway. The American manager of the works, Mr. Huntington, considered that as the British bricklayer 22 cents an hour, instead of the union rate of 20 1/2 cents, and in addition \$10 a week in bonuses for energetic work, the company was entitled to ask for a little extra smartness, and he told them so. The British bricklayer on the other hand, regarded the attempt to make him hustle as an insult. He "hooter" sounded as an unbecoming piece of American slang. Accordingly, they struck work in a body, throwing out of the works the laborers, who felt no scruple about the "hooter" and did not want to strike. The strike is now practically over. The British bricklayer has abandoned his extra halfpenny an hour, but he still waits for the "hooter" before ascending the ladder. LIFE IN HARLEM FLATS

It Is Occasionally Enlivened by the Work of Incendiaries

NEW YORK, Sept. 28.—Five fires were started in the cellars of as many flat houses in Harlem during Sunday by incendiaries. In each case it was found on investigation that kerosene had been used to hasten the work of the flames. Hundreds of lives were imperiled and property worth thousands of dollars endangered. The burning early Sunday morning of the church of the Archangel in St. Nicholas avenue is also believed to have been the work of incendiaries. When the rumor of firebombs spread through the eastern section of Harlem, where all the fires were discovered, terror prevailed among the flat dwellers. Scores of policemen in citizen dress are now at work in the district, but no trace of the incendiaries has yet been secured. In some cases it was found that old mattresses had been dragged into the basement of a building, soaked with kerosene and then set on fire. This is the only possible explanation.

HUNDREDS WRITE TO J. P. MORGAN

Accusing Him for Their Failures

NEW YORK, Sept. 28.—Many letters execrating J. P. Morgan as the cause of the ruin of thousands of persons have been received at the office of J. P. Morgan & Co. the last few days. Most of these letters are said to be signed with the true names and addresses of men who claim to have been ruined through investments entered into on the publicly stated opinion of Mr. Morgan. It is not known that any of these letters threaten violence. Such letters are received occasionally by Mr. Morgan, as well as other men prominent in Wall street and are always investigated, but the present flood of such letters into the Morgan office has caused the Morgan detective force to take unusual precautions. Mr. Morgan has no fear that any person will offer personal violence and walks freely about his office. His chief safeguard lies in the fact that he is so hedged about that no person could harm him and escape. There are at all times from three to a dozen police detectives in plain clothes at his front steps or just across the street. These detectives are stationed there because of the tremendous value of securities carried into the stock exchange vaults and out of them daily.

KITCHEN IN WORKSHOPS

Kaiser Introduces Means of Making Kaiser Workmen More Comfortable

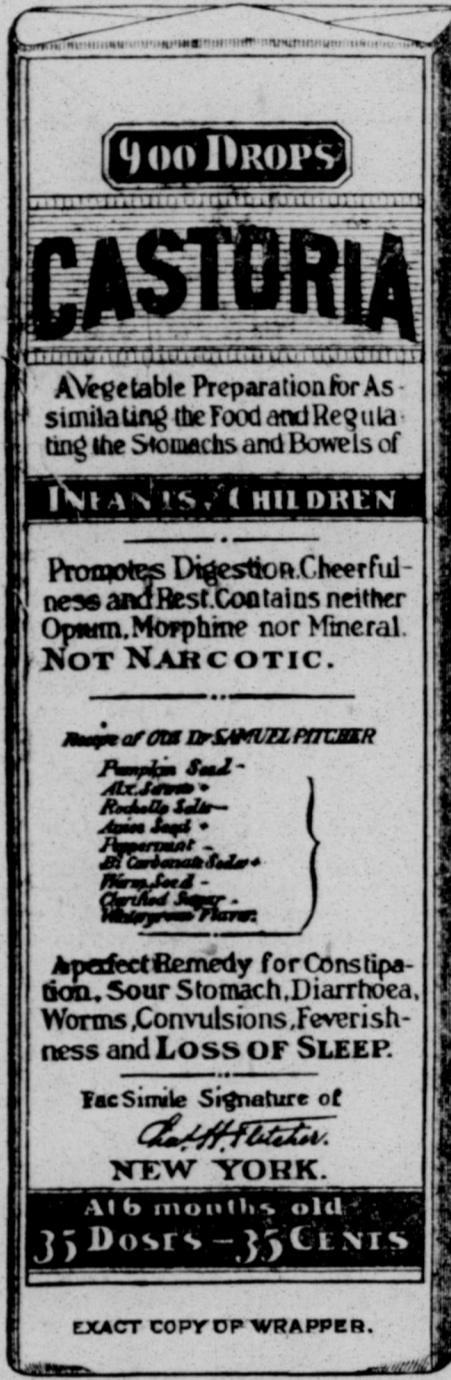

(Special Cable to The Telegram, Copyright, 1903, by W. R. Hearst.) BERLIN, Sept. 28.—The versatile Kaiser recently visited Danzig and investigated the workmen's homes and manner of life. He chatted with the men employed in the government arms manufactory. He asked their rent; when told he exclaimed: "It is much too high." The Kaiser inquired whether the government factory provided kitchens where midday lunches could be warmed. The Kaiser said to a member of his suite: "These kitchens are as necessary for workmen as for us, for workmen have just as sensitive stomachs as we and like their food warm instead of cold; besides, the wives do not have to bring their husbands warm dinners; they can remain at home and attend their duties. The result will be that the kitchens will be installed in all government workshops."

A Thoughtless Druggist.

ONLY a thoughtless druggist would offer a preparation without the signature of Chas. H. Fletcher when Castoria is called for; the "delicate, faint and flickering light" that joins baby's life to its devoted parents being too sacred, to the self-respecting druggist, to be trifled with.

For over thirty years Mr. Fletcher has given, and still gives, his personal attention to the preparation of Castoria. It has won the confidence of mothers and physicians everywhere—never harmed the tiniest babe. This cannot be said of Imitations, Counterfeits and the "Just-as-good" rot.

The thoughtless druggist only offers the counterfeit because of a few pennies more profit. Any new preparation can be but an experiment, and they are experiments—mere guess work—irrespective of what their sponsors may say for them. LATEST NEWS OF THE RAILROADS

There is a revival of the movement to have built from Fort Worth to Mineral Wells an electric line. Some months ago the matter was taken up and a canvass was made of several towns along the proposed route in an effort to learn the sentiment existing among the people as to whether they wanted a line of this kind or not.

decision was reached it has never been announced. The matter is to be seriously considered in the near future, and it is stated that if the Traction company does not take up the scheme people along the route will with the assistance of outside parties will certainly build the line. Those who have been over the proposed line say that it will pass through some of the finest country in this part of Texas.

Revival of the Movement to Build Electric Line to Mineral Wells

(Special to The Telegram.)

AUSTIN, Texas, Sept. 28.—Judge C. K. Bell, attorney general, has returned from Galveston, where he had been to represent the state in the controversy with the federal authorities on the location of the quarantine station.

The \$50,000 suit mentioned in this paper was filed in the district court of Galveston county and is against the persons who dispossessed the state of this property.

Judge Bell thinks the state's title to the property is without flaw, and has no doubt as to the outcome of this suit.

RED MEN HAVE A NEW SYSTEM

Great Council Adopted a Texan's Suggestion

G. B. GRIGGS HONORED

He Will Be at the Head of the Judicial Department of

George B. Griggs of Houston, representative in the legislature, and prominent in the work in Texas of the Improved Order of Red Men and the Knights of Pythias, is in the city today en route to Houston, after a visit through the north and east.

Mr. Griggs attended the great council of the United States of the Improved Order of Red Men, which was held at Atlantic City, and is just now returning home.

The council honored him with the appointment at the head of the judicial system of the government of the order, under the new constitution and laws.

Eighteen years ago, when U. S. Wakefield of this city was great sachem of the order in Texas, he appointed Mr. Griggs a member of the committee on laws. Since then Mr. Griggs has been great sachem, and attended the great council of the United States. Last year he was appointed a member of the committee to revise the constitution and laws of the order.

Under the laws as drawn up by Mr. Griggs, his draft being accepted by the committee at a meeting held in Chicago prior to the great council, the government of the order is based on the system of the United States. Mr. Griggs used the constitution of Texas and from that he formed a government composed of three co-ordinate branches, legislative, executive and judicial.

The power of the executive will be vested in the great sachem, who is at this time Thomas G. Harrison of Indianapolis. The legislative will be the great council, when it is in session, and the passage of bills, resolutions, etc., will be identical with the procedure in the Texas legislature.

The judicial is to be directed by three appointive officers, the committee being designated as the board of appeals. Mr. Griggs has been appointed to the long term and is the head of the board. As soon as the new system can be promulgated, each state will be expected to constitute itself into such form of local self-government, each tribe to be identical with a municipal council, and each state great council to be identical with the legislative of a state.

Mr. Griggs had a number of friends here and while in the city was the recipient of many courtesies. He returns to Houston tonight. He is prominent in legislative work, having been a member of the Twenty-seventh and the Twenty-eighth assemblies.

"Speaking this morning Mr. Griggs said: 'I am convinced this is the best system of fraternal government in this country. It is based on a republican form of government, with every principle of local self-government provided for. There can be no objection to it in any way, and the great council adopted it unanimously as soon as it was explained.'

NOTICE TO THE PUBLIC

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of The Fort Worth Telegram will be gladly corrected upon due notice of same being given at the office, 1010 and 1012 Houston street, Fort Worth.

THE OLD SETTLERS OF THIS COUNTY WILL MEET THIS WEEK.

While it is not a proper thing to endeavor to force a man to leave congress when he is doing his full duty, it is up to Congressman Ball to resign, as he is intimated he would, listening to no pleading from his friends.

The Fall Festival will open next week. Everybody get ready for a big time, and send for your friends to come and join you.

The state photographers will meet in Fort Worth this week, so all be prepared to look pleasant.

CLEANINGS FROM... THE EXCHANGES

Will the city council, after buying the Bell water plant, leave it in a shape to be used by sportsmen in city politics in the years to come?

It is a surprise to see Editor McCollum oppose municipal ownership of a public utility.

A new play is called "His Last Dollar," but it is not cast along the properly tragic lines.

Will some one please point to a time since 1892 when Hogg was involved in a political discussion that there was harmony.

An attraction for the state fair: Diavolo Hogg looping the loop with Director Shaw holding the rope.

It will not be Hogg's first swing around the circle.

Summer, it appears, is back again, doing business at the old stand.

The satisfaction we have is that it is a new summer and not that "Good Old Summer Time."

Hog planting will be one of the chief industries throughout North Texas this coming year.

Drive your hogs down this way and the packing houses will pay you a good price.

The Tyler Courier compliments the Austin Statesman on its very able editorials.

Does the Courier judge by quality or quantity?

Thus far no report has been made on the condition of the coming "possum and persimmon crop."

It is a ten to one shot that "Tom Perkins of the McKinney Gazette is posted on the prospects and that he is keeping "Bill" Sterret advised.

Zealous Washington policemen who are yearning for fame are waiting for this

Edgar L. Markham wrote of the "man with the hoe." If he visits Fort Worth about January 1 he can write of a newspaper with a Hoe (press), a new building, a fine newspaper plant, a big circulation, and a genuine popularity at its own home.

The complaint because of the failure of the company to commence the work of paving Houston street is general.

There is no reason that will justify the city in failing to collect the \$2,000 due by the company, if there is any way by which it can be done.

Fort Worth is a railroad town, and refugees are fleeing from the yellow jack

pest at Laredo in crowds of hundreds. If one infected person should pass the lines and reach this city, it would cause trouble; so clean up, that your home and your premises may be immune.

If there is any chance for the city to collect the forfeit of \$2,000 which was deposited by the Parker-Washington company, guaranteeing the paving work, it should be done.

The El Paso Herald has an editorial on the "Origin of Gold." It is not the origin of the stuff that is worrying the masses.

We want to know how to get hold of that which now exists. Give us gold and its origin and previous condition is of small matter.

Since the Tyler Courier has read the charges made by The Telegram against the extravagance of the legislature, will it keep up a good fight for reform?

The arrangement committee of the state photographers' convention should provide that no camera be allowed on Houston street during the meeting.

Did you see the picture of the big Hoe press which is to be installed by The Telegram? It was published Sunday morning.

The Old Settlers of this county will meet this week. Let them discuss Fort Worth of the old days and the Fort Worth of today.

Yellow fever is reported on the increase in Laredo. Do not fail to clean up at your house, as the city physician has advised.

To assist digestion, relieve distress after eating or drinking too heartily, to prevent constipation, take

Hood's Pills

Sold everywhere. 25 cents.

And they should be promptly fired from the force. It is all right to criticize Roosevelt when there is something to criticize him for, but not for this. He is commander-in-chief of the army, so why not let him bear his side arms?

Fort Worth seems to need just 4,700 hogs a day more than can be found. Some neighboring cities might spare a few hogs—the "end seat hog," "the hotel hog," "the office hog," etc.—Dallas News.

Fort Worth wants the bacon hog, the ham hog, the lard hog, the sausage hog, the pigs' feet hog, the hog's head hog, and the little shoit. Farmers can make a good thing by sending to this market.

Houston officers are making it hot for "dope" sellers. Here in Dallas "dope" is never sold. High life is good enough for denizens of the slums and those who are headed for the slums.—Dallas Times-Herald.

Fort Worth has a physician who is humanitarian enough to discover how to cure the "dope" habit. Fort Worth therefore is better to the suffering people.

Statistics show that Fort Worth, in proportion to population, is the second healthiest city in the world, and with the introduction of artesian water it is certain to become the most healthful.

Although young in comparison with other leading Texas cities, Fort Worth is rapidly overcoming the disadvantages its rivals had by reason of their earlier starts.

If you are interested in Fort Worth, read the following:

Population, 43,000. Good newspapers. Rural mail routes. Free kindergartens.

A \$100,000 city hall. A healthful climate. Beautiful residences.

A \$75,000 county jail. Many women's clubs. The Commercial Club.

Five artificial ice plants. Four express companies. Reasonable city taxation.

Over 500 business houses. Forty acres of public park. Eighteen wholesale houses.

Several messenger services. Annual business \$30,000,000. A \$500,000 county courthouse.

Four railroad machine shops. Bank deposits over \$5,000,000. A teachers' training institute.

Two local telephone systems. The natural live stock market.

Five loan and trust companies. Seventy miles of water mains.

Over 150 miles of public streets. Freedom from labor disturbances.

A \$50,000 public library building. Twenty hotels of various grades.

Annual pay rolls of over \$4,000,000. Street-cleaning and fire departments.

Sixty-eight passenger trains, all daily. Two long-distance telephone systems.

The finest Country Club in the South. Real estate valuation about \$17,000,000.

Seven national and two savings banks. One company of Texas National Guard.

The Board of Trade, with 255 members. Many philanthropic and charity societies.

A splendid surrounding agricultural region. The gateway to the panhandle and the west.

Unsurpassed advantages as a business center. Unrivaled facilities as a manufacturing center.

Look well to the record. What they have done many times in years gone by is the best guarantee of future results.

Anyone with a bad back; any reader suffering from urinary troubles, from any kidney ills, will find in the following evidence that relief and cure is near at hand:

Mrs. Myrtle Sinclair, wife of J. M. Sinclair, of 415 North Royal avenue, who is employed at the water works, says: "The tests of twelve months' time have proven to me that Doan's Kidney Pills make lasting cures. I just as enthusiastically endorse them today, in the month of April, 1903, as I did in April, 1902. At that time we had given our little boy, now thirteen years old, a course of treatment for attacks from which he had suffered for many years. He had a weakness of the kidneys which was very annoying and distressing in its symptoms. He seemed to have no ambition and was weak and languid and never cared to go out and play like other children. Sometimes he was so bad he could not attend school, and although we had given hundreds of dollars for physicians and tried remedy after remedy, nothing gave him any relief. We felt very disheartened and thought that we were going to lose him. Doan's Kidney Pills saved his life. Mr. E. J. Jenkins advised us to try them and was so emphatic about it that I followed his advice and got a box at Weaver's Pharmacy. The child took in all about four boxes, when we considered him cured, and up to the present time, now a year after, there has been no symptom of a recurrence, which proves to my mind that when Doan's Kidney Pills are used the cure is permanent."

For sale by all dealers. Price 50 cents per box. Foster-Milburn Co., Fort Worth, Tex., sole agents for the United States. Remember the name—Doan's—and take no substitute.

The home of the Texas Cattle Raisers' Association, the richest association of cattlemen in the world, the National association not excepted.

Many clubs devoted to social, athletic, literary, musical and dramatic objects, besides a large number of lesser social organizations.

A paid fire department of eight companies, forming the best fire department in the southwest, besides several voluntary departments.

Twelve public and one parochial schools, all of high order; the Fort Worth University, Polytechnic College, St. Ignace Academy for girls and several business colleges.

One Grand Army of the Republic post, one Woman's Relief Corps, one Confederate camp, one Sons of Confederates, one Daughters of the Confederacy, one Children of the Confederacy, one Mexican Veterans' Association, and one Dames of '46.

Eleven railroads, all trunk lines, including the Texas and Pacific, Missouri, Kansas and Texas, Gulf, Colorado and Santa Fe (Atchison system), Houston and Texas, Missouri and Southern Pacific system; Fort Worth and Rio Grande (Frisco system), Transcontinental branch of the Texas and Pacific, Fort Worth and Denver City, Chicago, Rock Island and Texas, St. Louis Southwestern (Cotton Belt), St. Louis and San Francisco, International and Great Northern.

Over 100 manufacturing establishments, including the Armour and Swift packing-houses, the two most modern and finest packing plants in the world, representing an investment of \$5,000,000 and having an annual pay roll of \$1,500,000; the largest brewery in the southwest, a large candy and cracker factory, two flour mills of a total of 2,800 barrels per day capacity, four foundry and machine shops, two bed spring and mattress factories, one suspension factory, one furniture factory, one harness and saddlery factories, one horse collar factory, one shirt factory, one baking powder, one starch and two bluing factories, one large shoe and retail coffee-roasting plant, two blank book plants, one pickling factory, one bar and office furniture factory, one broom factory, two confectionery plants, three cigar factories, two tombstone and marble works, one proprietary medicine plant, one macaroni factory, one wire fence factory, two grain elevators, one cottonseed oil mill, eight steam laundries.

THE CONGRESSIONAL RACE (Stephenville Empire).

It is generally expected as a matter of course that Oscar W. Gillespie will be a candidate for renomination to congress from this district next year.

But the announcement that Shivers Lattimore of Fort Worth will also be a candidate for the same honors comes as a slight surprise to political circles here.

Both gentlemen have a great many friends in this county, and the fight between them will be a warm one. There is not much likelihood of an opponent for them in the district unless J. C. George of this place should decide to mix it with the boys.

In that case the congressional situation would be very much complicated. There are some rumors afloat to that effect, but it is too early yet to condense them into positive announcements.

DIPPING CATTLE ON THE 49 RANCH

D. N. Arnett and G. B. Goodlett Are Working in West Texas Counties

COLORADO, Texas, Sept. 27.—D. N. Arnett, assisted by G. B. Goodlett, the proprietor and introducer of the new cattle dip, has just finished dipping 300 head of cattle on the Bendbrook ranch, and is going to the 49 ranch in Borden county tomorrow to dip a big lot of cattle up there. Mr. Arnett dipped some cattle in the spring with this same preparation and says that as far as he could tell it was an entire success. Mr. Goodlett, who has spent much time and money in preparing and testing this dip, is here and superintends the work himself. He feels very confident that by a proper application of his preparation the tick question is practically solved.

County court convenes here on October 5, and the usual number of damage suits against the railroad company by cattle shippers is expected.

George E. Root of this city, who has some fine horses, trotters and runners, is now with all his fast stock in the city of Roswell, attending the big fair and races. He is winning many laurels with his horses, among them a few days ago won a \$500 cash prize in a running race.

John Glover is just finishing up a fine residence on his ranch a few miles north-east of town.

A number of counties in this part of the state are taking advantage of the late law, which provides for the killing of prairie dogs, and are voting almost unanimously to put the law in force, raise the tax and kill the dogs. After this many more cattle can be maintained on a section of land, and thus the taxable values of the county will be largely increased.

C. S. Knott of Gaines county is in town today. He says rains have recently visited Gaines county, and that the many settlers who have recently come in there are all busily engaged making improvements on their lands and establishing permanent homes.

J. J. Lindsey is putting up a drug store and land office in the new town of Lamessa, in the center of Dawson county.

J. F. Lockhart, Baptist, and R. Freeland, Holiness, will begin a five days' debate on religious topics in Snyder October 1. Much interest is felt in the discussion.

G. H. Bunton of Sweetwater this week shipped a bunch of nice 2-year-old heifer calves to Fort Worth and only realized a little over \$5 around for them.

J. F. Newman of Sweetwater, a well-known stockman, making a specialty of raising a few fast horses, has already this year made clear on his racers the nice little sum of \$13,250.

Cass Stephens, from the northeast part of this county, has sold his farm, consisting of 160 acres, to Jim Ammons, an

Now my sleep is refreshing and digestion perfect." Sold by druggists.

old resident, and gone east, where the water fairs is more regular.

Mrs. M. Durham of this city has sold her residence to J. J. Bromley, for \$800 cash. Mrs. Durham's health is very bad and she wishes to go east at once, where she can be under treatment of a specialist.

Rev. W. W. Werner is conducting a protracted meeting at the Cumberland Presbyterian church in this city.

SIMMONS COLLEGE OPEN

Attendance 50 Per Cent Greater Than Same Time Last Year

ABILENE, Texas, Sept. 27.—Miss Hinda Barry is visiting friends in Colorado City and Pecos City.

Miss Laura Ramsey has returned to her home in Plano, having spent the summer with her sister, Mrs. W. C. Bailey, at this place.

Miss Elva Britton has gone to Sherman to enter Mrs. Kidd-Key's school.

E. W. Turner has returned from a visit to his father in Kansas.

Messrs. Louis Montgomery and Seth Garrison left yesterday for St. Louis to enter the St. Louis School of Pharmacy, the former entering the second, and the latter the first year class.

Thomas Leake, formerly of Fort Worth but now of Houston, arrived in Abilene yesterday on a visit to his parents. He is taking a vacation from his work as mail inspector, and has just returned from Washington city and Virginia.

Miss Olive Carter has gone to Milford, Ellis county, to attend school.

Miss Minnie Bohnfeld returned to Temple yesterday after a visit to Mrs. Walter Lowry of this city.

Mr. and Mrs. Corn of Little Rock, Ark., are visiting the latter's uncle, Colonel C. P. Warren of Abilene.

J. A. Thomas, ex-county surveyor of Taylor county, has returned from Kentucky to spend the autumn and winter in Abilene.

Dr. Charles Garrison leaves for Nashville today to finish his course in medicine.

Miss Elouise Cockrell left a few days ago for Austin, where she will enter the State University.

Charles K. Cullom, editor of the Monthly Eagle of Garland, Texas, entered Simmons College this week. He will continue to edit his magazine while in school.

The matriculation in Simmons College the first week of the session this year was about 50 per cent greater than for the first week of last year. Students have entered from several states and territories. Owing to the demand on this institution, primary and sub-academy departments have been added, a new pipe organ has been purchased, and other changes have been made, all to the improvement of this institution.

Captain A. D. Hardin has resigned his position in the Simmons College military company, and will soon enter the medical department of Baylor University at Dallas.

A series of meetings began at the Methodist Episcopal church, South, at this place yesterday. Rev. Birdwell of Coleman assisting the local pastor. A tent with a seating capacity of about five hundred has been secured and stretched near the church to accommodate the crowds that are expected.

COIT CASE IS SETTLED
Suit Over a Will Is Ended in District Court at Marshall

MARSHALL, Texas, Sept. 26.—The Coit will case, that has been on trial for the past week in the district court here, came to an end yesterday afternoon. In response to special issues submitted by Judge Levy the jury found Coit had testamentary capacity, but that Mrs. Coit had another living husband at the time she married Coit. The jury also found that L. H. Norwood and wife and Scott

AN ATTORNEY IS SERIOUSLY HURT
S. B. Hawkins of Gatesville Is Thrown From His Horse and May Die

GATESVILLE, Tex., Sept. 27.—City Attorney S. B. Hawkins was seriously if not fatally hurt last evening on his ranch, twelve miles south of here. He was riding after cattle at full speed, when his horse stumbled and fell, throwing Mr. Hawkins to the ground with great force. The latest reports from his home today are that there is very little hope for his recovery.

A boy named Simpson, aged 9 years, died last night near Purnela, and his body was brought here today for burial.

The weather here continues very dry and farmers have not yet sown any grain because the ground is too hard to work.

THE MERRILL WILL CASE
Battle Over a Document Is Finally Ended in Abilene

ABILENE, Texas, Sept. 26.—The jury in the Merrill will case returned a verdict for the proponents this afternoon. A fierce legal battle has been waged in this cause for the past two weeks. Attorney D. M. Edwards of California and Judge Taylor of Fort Worth being among the attorneys for the contestants. Much local interest has been manifested in this case throughout its progress, and during the argument which covered eighteen hours, the courtroom was well filled and at times crowded beyond its seating capacity. The estimated value of the Merrill estate is nearly \$40,000, the major portion of which was bequeathed to Mrs. M. C. Hardwicke.

A STOCKMAN SUICIDES
J. B. Clendenin Kills Himself on His Ranch Near Floydada

FLOYDADA, Tex., Sept. 25.—J. B. Clendenin, a well-to-do stock farmer, committed suicide by shooting himself through the head with a Winchester rifle at his home, about eighteen miles southeast of Floydada, yesterday morning, and has just been buried here at Floydada. The cause of his act is unknown. He leaves a wife and two children.

MYSTERY OF A VALISE
Owner Cannot be Found for One at Mt. Pleasant, Tex.

MT. PLEASANT, Tex., Sept. 28.—A valise was found near Fuller's lumber yard, back of a blacksmith shop, Sunday morning by a young man employed at the lumber yard, which contained a number of articles of gentleman's wearing apparel, and an envelope directed to W. M. Spinks, but no owner for the valise has been found and why it was left there is a mystery. On Saturday a man was seen to go past the place with his valise, and he changed shirts. It is thought he is the owner of it, but why he left it there is yet to be ascertained. No trace of him has been found. The envelope in the valise bore the return card of the Van Vleet-Mansfield Drug company, Memphis, Tenn. The articles were turned over to the sheriff.

YOUNG LADY IS INJURED

INSURANCE TAXES HAVE BIG LEAKS

R. W. Mayo Points Out Some Pertinent Facts to Insurance Commissioner

AUSTIN, Texas, Sept. 28.—Mr. R. W. Mayo of the insurance office of the department of agriculture, insurance statistics and history, who has just returned from a trip to Wisconsin, where he went to investigate the methods of several large insurance companies operating in Texas, made some interesting discoveries in the way of tax leaks which he presents in the subjoined report to Commissioner Clay.

He also presents some very pertinent suggestions and offers some remedies as to how the loss of revenue to the state from the tax on reinsurance may be prevented.

SUMMARY OF THE REPORT
On September 23 I made an examination of the marine business transacted in Texas by the St. Paul Fire and Marine Insurance Company for the years 1901 and 1902. I find as the result the following gross premiums received on marine business in Texas for the two years referred to:

For 1901.....\$24,437.55
For 1902..... 5,831.22

The figures submitted in the sworn annual statement show gross premiums for 1901, \$2,450.71; for 1902, \$1,328.67. It will be observed that the discrepancy here shown amounts to \$25,489.10 in the two years examined. Under the plain meaning of the law the state of Texas is entitled to the tax on this \$25,489.10 in addition to the tax on the amount of the premiums submitted in the annual report, but the company takes the position that the state is entitled to direct business only, and not to business reinsured in other companies. I find that a very large proportion of these premiums represent business that was reinsured in other companies, some of them not licensed in Texas.

It is my opinion, based upon close observation and answers to inquiries directed to the officers of this company, that the state of Texas has for many years been losing a large proportion of the taxes to which she is entitled, due from the marine companies operating in Texas as well as from those not licensed in the state. It is a well known fact in insurance circles that the reinsurance feature of the marine business is far larger than the business written and retained by the original insurer. But companies say they will not pay double taxes on the business written, and therefore they will report as gross premiums only so much of the premiums received as is finally retained by the company, after deducting the reinsurance. The result is that the tax obligation is shifted from company to company, a large part finally going to unlicensed companies, and the state loses the tax on every dollar of this business. This condition may be remedied by these two methods: First, require all companies to report the entire business written, including reinsurance. Second, require a separate statement showing all the reinsured business, in what companies reinsured and the amount that is taken by each company. Having this information, which may be at any time checked against the various companies, you may now elect to require the companies to pay on the total gross premiums received, including reinsured business, in which case the company disposing of its surplus lines must look to the reinsurer for reimbursement for taxes, or you may elect to require companies to pay on all the business retained and in addition on all the business reinsured in unauthorized companies. In either event, the state will collect the taxes on all the business that can possibly be reached under our Texas laws. This same principle may be followed in dealing with the fire insurance business and all other lines of insurance where you would obtain the best results. Heretofore, the companies seem to have been construing "gross premium receipts" to protect themselves. Our scheme proposes to construe the words to protect the state.

RAILROAD COMMISSION'S ROOM
AUSTIN, Texas, Sept. 28.—The new hearing room for the railroad commission in the capitol has received the finishing touches. The furniture is expected very soon and will be ready for use next hearing day on the 29th of October.

The work is pronounced to be a No. 1 by all who have inspected it, and fully equal, if not superior, to other work of the kind on the building.

KOUNTZ SCHOOL BONDS
AUSTIN, Texas, Sept. 28.—The comptroller has registered \$700 Kountz independent school district bonds. Bonds mature in twenty years, bear six per cent interest and were issued for the purpose of repairing the public school building.

HAY FEVER UNKNOWN
Certain it is, and many years of careful experience are back of the statement, that hay fever, and kindred annoying and troublesome summer affections distressing to so many thousands all over the country, recurring as regularly as July and August, are absolutely unknown in the "Highlands of Ontario." Thousands of people go to Muskoka, Georgian Bay or the Lake of Bays every year for nothing else but to avoid hay fever, and find perfect immunity from the ailment, and many by going there regularly for a period of a few years are said to be permanently cured.

Hay fever booklet can be had free for the asking by applying to Geo. W. Vaux, room 917, Merchants' Loan and Trust Bldg., Chicago, Ill.

Well, Farmer Jones he came to town,
As farmers sometimes do;
He wanted a cab—"a dead swell cab
And big enough for two."
He asked a newsboy on the curb,
As farmers sometimes do,
If he could hire a cab an hour
And big enough for two.
This lad, knowing the best what is,
And being onto tricks,
Just brushed up to the phone near by

TWO MORE DEAD OF YELLOW FEVER

Mexican Woman and Girl Die of the Dread Disease

THE TOWN IS DESERTED

Estimated That 4000 People Have Left Since Fever Made Appearance

LAREDO, Texas, Sept. 28.—Dr. Guiteras has pronounced twelve cases of influenza here genuine yellow fever. The daughter of Juan Cortinas, a Mexican boiler maker, died here yesterday afternoon and another Mexican woman has also died of the disease. The city is now deserted and it is estimated that 4,000 people have left here since the scare first began.

The work of placing the city in a thoroughly sanitary condition is being effectively and scientifically carried on under the direct supervision of Dr. Guiteras and a corps of expert assistants. Among the out-of-town physicians here in charge of affairs are Dr. G. M. Guiteras, the United States Marine Hospital service yellow fever expert; Dr. George R. Tabor, chief state health officer of Austin; Dr. John T. Moore, bacteriologist from the medical department of the State University of Galveston; Drs. John H. Foster and R. L. Dinwiddie, respectively of Austin and San Antonio, and Dr. John Erick of the United States Marine Hospital service, who arrived here this morning from Mexico.

IN NEUVO LAREDO

The situation in Neuvo Laredo is unchanged, no deaths or new cases having occurred, as far as can be learned.

Dr. Mariano Trevino, a Mexican government yellow fever expert, is in charge, assisted by Dr. J. F. De La Garza. Dr. Trevino states that the situation looks favorable and believes that within eight days he will have stamped out all vestige of the scourge.

The Mexican custom house authorities have been temporarily moved to Lampasas, where all incoming baggage and freight over the National is examined, thus permitting trains to run through Laredo, Tex., without stopping at Neuvo Laredo, because south bound passengers object to the inconvenience attendant on doing the work of revision at the border.

Burnett's Vanilla Extract has outlived criticism. It is the finest and purest vanilla extract that can be bought. Once tried, always used.

A. Curry Says the People Are Jubilant Over Prospective Lines

A Curry, who came from the mouth of the Rio Grande to attend the state photographers' convention, which convenes in this city tomorrow morning, brought with him several good railroad news stories, as well as a thorough knowledge of the art he represents in the town of Brownsville. Mr. Curry said to The Telegram that the people of his town were feeling very jubilant over the prospects of being connected with the outside world by rail within the next eighteen months. Work, he says, has actually commenced on the first twenty miles, which starts from a point sixteen miles from Corpus Christi on the Texas and Mexican road. The grade on this piece of the road has been completed and a gang of steel layers are now at work laying the rails.

The line will run almost due south to Brownsville, a distance of 141 miles. There is talk, says Mr. Curry, that the company building the Brownsville road intend to also extend the line to about sixty miles from the Texas and Mexican crossing.

Mr. Curry said that it is not known at Brownsville who is back of the Lott enterprise, but the supposition is that it is either the Frisco or the Rock Island.

There is also another railroad talked of for Brownsville, and a survey is now being made from Alice to Brownsville by the San Antonio and Aransas Pass, but Mr. Curry does not believe that the road is to be built. The distance from Alice to Brownsville is about 145 miles.

The rice crop in the vicinity of Brownsville is the best in many years, says Mr. Curry, and the first crop has about been gathered and is being shipped to Galveston and New Orleans in sacks. A fine rice mill is now being constructed in Brownsville and will soon be ready for operation. This industry has become quite a promising one in that part of the state and many acres are being planted in rice.

Cotton in that part of the state, says Mr. Curry, is looking very fine, and he believes that it far exceeds that in that part of Texas. On one farm of eighty-five acres something like seventy-five bales have been picked. The majority of the fields in that part of the country will yield about two-thirds of a bale, which is exceptional. It is estimated that the cotton raising in that part of the state is something new. The results have been phenomenal, says Mr. Curry. There are no boll weevils around Brownsville.

PAYMENT OF POLL TAX

Assistant Attorney General Advises Collector to Wait Until After Oct. 1

AUSTIN, Tex., Sept. 28.—The poll tax amendment to the state constitution and the collector cannot be paid until the next legislature are still the source of some perplexity to collectors and other county officials who have their administration in hand.

A clarification of the amendment and law came up Saturday in the comptroller's department, which was referred to the attorney general's department, which was elucidated in the following letter:

Austin, Tex., Sept. 24.—Hon. J. W. Stephens, Comptroller, Capitol: Dear Sir: We are in receipt of a letter from John T. Smith, acting comptroller, of September 19, enclosing two letters from E. L. Fulton, tax collector of Galveston county, with the request that this department advise you on the points raised in the letters. Some of the questions propounded by Mr. Fulton have direct connection with his official duties as tax collector, and upon these he has a right to call upon the comptroller for instructions, and these it is proper that this department should advise.

With regard to his first question, as to whether he will be authorized to accept payment of poll taxes before the first day of October, you are advised that we have grave doubts as to the proper construction to be placed upon the provision in Section 12 of the Terrell election law. There can be no question that the tax collector cannot be required to accept poll taxes and receipt for the same before the first day of October, but we are inclined to think, admitting, however, that we have some doubts as to the correctness of your position, that if the tax rolls, properly certified, are in the hands of the tax collector before the first day of October, and he has been furnished with the poll tax receipts required by the Terrell election law, he would be authorized, before the first day of October, to receive payment of poll taxes and receipt for the same. In view of the doubts upon this point, however, it would probably be safer for the tax collector to decline to receive payment of poll taxes until the first of October.

In regard to the question propounded in Mr. Fulton's letter of the 17th inst., as to the form of receipt for poll taxes to be given to a member of the state militia or state volunteer guard, who are exempt from the payment of all poll taxes except that for the support of schools, you can see no difficulty whatever in using the form of receipt prescribed in Section 24 of the election law, inserting the amount of the school poll tax and giving the person upon the form prescribed in Section 25, a certificate of exemption from the payment of poll tax except the school poll. This form of the exemption certificate can be made to fit this kind of a case by making it show in the latter part of the certificate that he is exempt from the payment of a poll tax except school poll, by reason of, etc., "in certifying the words 'except school poll.'" Very respectfully,
T. S. REESE,
Office Asst. Atty. Genl.

COMES A LONG DISTANCE

A. Curry of Brownsville, Tex., is being congratulated and welcomed by all photographers because of the long distance he has traveled to attend the meeting, and the inconvenience to which he was subjected. His home, on an air line, is about 600 miles from Fort Worth, but he required a week for him to reach here. He did not attempt the stage trip of 165 miles, from Alice to Brownsville, but started out to make the trip by water. He left Brownsville last Monday morning on the little narrow gauge boat, which runs from Brownsville to Point Isabel, at Point Isabel he was forced to wait six hours for a coasting schooner to take him to Corpus Christi. He went aboard the schooner at 3 o'clock last Monday afternoon and it required until Thursday at 3 p. m. to make the bar of Aransas Pass, 125 miles distant. The vessel was becalmed from time to time, delaying the trip, and for twenty-four hours it was with a few miles of Aransas Pass harbor and there was not enough wind to budge it. When Aransas Pass was reached the quarantine guards held him up for two hours, and after getting inside the harbor, he vessel again became becalmed. Becoming tired of the delay, he left the boat and walked eight miles, carrying his valise, to the railroad station of Aransas Pass. There he took a train for Corpus Christi, but at the Neufuss county line he encountered more quarantine guards who held him up for a time. He finally reached Corpus Christi and took a train to Fort Worth, coming from the city in company with C. Wheelless of Corpus Christi, a photographer, who is also attending the convention.

Mr. Curry said he was determined to come to Fort Worth for the convention, and he would not be turned back. He will go back by the stage route, however, from Alice to Brownsville, and when the next convention meets he expects to have a railroad into his town.

The cake walk will take place this evening at Lake Erie regardless of the weather.

STOPPED BABY'S CRIES

Negro Infant Killed by Little Girl Near Itasca

HILLSBORO, Tex., Sept. 28.—A negro baby, one year old, named Iry Anderson, near Itasca, was left in charge of Lue Ward, a two-year-old negro girl, while its parents went to the cotton patch. She got tired of its crying and put dirt in its ears, nose and mouth, and it stopped crying almost instantly. Death being very quick. Esquire Stanley held an inquest on the remains this morning and rendered a verdict in accordance with the above.

CABLE TAKES A SPRINT

(By Associated Press.)

CHICAGO, Sept. 28.—Ten persons were injured, two seriously, in an accident on the Halsted street cable line. The train ran away and for two blocks from Sixteenth street to Eighteenth street imperiled the lives of many persons. It is said the train was in charge of a new gripman. Two wagons were struck by the train before it came to a stop.

Sixth Annual Convention in Session Tomorrow Across Neck of Frank Gayle

MANY HAVE DISPLAYS

A. Curry of Brownsville Travelled a Week by Rail, Water and Afoot to Get Here

The sixth annual convention of the Photographers' Association of Texas will meet at 2 o'clock tomorrow afternoon in Labor Temple in this city and will continue through three days.

After the opening exercises tomorrow Mayor Powell will make an address welcoming the visitors. This will be responded to by the president, A. A. Brack of San Antonio.

These officers are here, ready for the opening: A. A. Brack of San Antonio, president; J. H. Hillier of Houston, first vice president; John Schwarz of Fort Worth, second vice president; A. L. Blanchard of Hillsboro, secretary; Bert Williams of Denton, treasurer.

The following trade representatives are attending: N. A. Corning, for the Hammer Dry Plate Company of St. Louis; Fay E. Nottingham of St. Louis, for the Seed Dry Plate Company; J. H. Pratt, for the American Photo Supply Company of Three Rivers, Mich.; F. E. Hazlett and Thomas Gagnon, for the American Artistic Photo Company of Jamestown, N. Y.; F. K. Hart and George Bellar, for the Eastman Kodak Company of Rochester, N. Y.; R. C. Dunlap, C. E. Hoffman and C. Weichsel, for the C. Weichsel Company of Dallas; J. H. Pittman, for the Pittman Company of Dallas. These representatives all have displays to show the photographers. Mr. Corning of the Hammer Company has a number of souvenirs in the form of a pin for the camera, which shows a long handled hammer. He says it not only works well as a trade advertisement, but is useful in "knocking" the other fellow.

The displays by the Texas photographers in competition for the prizes offered will be up and ready for the judges tomorrow morning.

The following Texas photographers have entered the competition and are today arranging their displays: W. H. Adams, Greenville; Joseph Maurer, Galveston; C. O. Newman, San Angelo; Johnney & Powell, San Antonio; J. W. Hall, Cotulla; C. R. Blackburn, Houston; J. C. Boone, Dallas; Carter Bros., Bryan; Joseph Lux, Seely; Joseph F. Hurlik, West; P. H. Naske, Galveston; Wheelless & Wheelless, Corpus Christi; Pennington & Bruhn, McKinney; G. K. Miller, Cooper; W. W. Watkins, Palestine; Fay & Browning, Hallettsville; Swafford & Son, Baird; W. J. Lawlis, Hillsboro; Voorhees & De Voe, Dallas.

Mrs. Fitzgibbon Clarke of St. Louis, editor and publisher of the St. Louis and Canadian photographer, is expected this evening, to remain during the session of the convention. She is well known to the picture men of the country.

J. Mauer of Galveston will have up a fine display of pictures of the Galveston sea wall.

PRESIDENT BACK TO OYSTER BAY

Intends to Stay Closely in Washington Until Next Summer

OYSTER BAY, N. Y., Sept. 28.—President Roosevelt left Sagamore Hill this morning en route to Washington. He has been absent from the capitol thirteen weeks and returns with the expectation of remaining practically uninterruptedly until next June.

It is the president's present intention to return to Oyster Bay early next summer. In the event of his nomination for the presidency he will remain here throughout the summer and the autumn until after the November elections. As yet he has perfected no plans for the presidential campaign. He has no intention of participating actively in it. It is likely, however, he will deliver some addresses here.

VIGILIOUS ATTACK ON CONDUCTOR

Passenger Draws Keen Blade Across Neck of Frank Gayle

Frank Gayle, the Texas and Pacific passenger conductor, with his neck heavily swathed in bandages, the result of a vicious effort to kill him while he was on duty last night, is at his home, 806 West Seventh street.

Mr. Gayle arrived in Fort Worth this morning at 11:30 from Dallas. He went at once to his home. A Telegram reporter arrived at the house a few minutes after Mr. Gayle and before the latter had removed the coat which he was wearing at the time of the assault that nearly ended his life. The coat is slashed in many places about the neck. Mr. Gayle believes that the man who cut him used a razor, although he did not see the weapon. He had no quarrel with the man who cut him, but the latter was in a party with two other men, one of whom had engaged in a heated argument with the conductor in regard to his fare.

Mr. Gayle received no warning that an attempt was to be made on his life. The attack was made on him as he was returning Mesquite. The blade made a deep incision. The jugular vein was scratched, but fortunately was not opened. Gayle's injuries were dressed on the train and he was then taken to Terrell. This morning on his way home to Fort Worth he stopped in Dallas and identified a man who had been arrested there as one of the three men who are wanted, but not the one who cut him. The three men left on a train at Mesquite after the conductor was wounded.

Conductor Gayle was in charge of No. 4 eastbound at the time he was assaulted.

MEAT CUTTERS ON VERGE OF STRIKE

Serious Situation Confronts Packing Houses of the Country

THE FIRST IN HISTORY

If Walkout Is Called, It Will Tie Up Packing Plants Everywhere

CHICAGO, Ill., Sept. 28.—Every packing plant in the United States is threatened with a tie-up by a general strike of butchers and affiliated workers throughout the country, for the first time in history, unless the owners yield to demands of the Amalgamated Meat Cutters and Butchers' Workmen of America.

While the packers are willing to pay the wages asked, a hitch in negotiations has arisen over the demand of the packers that the butchers increase their amount of work. Every lodge of butchers in the country has been asked to vote on the demand of the packers, and meetings are to be held for the purpose throughout the country. If the vote shall be unfavorable it is likely a general strike will be ordered, affecting more than 50,000 men.

This situation developed yesterday after the executive committee of the Amalgamated Meat Cutters and Butchers' Workmen had conferred Saturday with representatives of the packing industries on the demands made by the union some weeks ago.

The threatened difficulty referred to in the foregoing dispatches vitally affects the members of the union in Fort Worth, the majority of whom are employed in the packing houses of Swift and Armour. The local men have been keenly watching the development of affairs in Chicago for some weeks past and it is not unlikely they will take some definite action along the line indicated by the unions in that city. The highest scale paid to butchers employed in the packing houses in Fort Worth is in the neighborhood of fifty cents per hour (forty-seven cents it is stated on one authority), and a demand for more wages in the north would be almost certain to be followed by a similar action here.

STOCK YARDS MEN STIRRED

CHICAGO, Ill., Sept. 28.—Stock yards employes are to demand a complete unionization of all plants and ten per cent increase Wednesday.

Refusal means a strike of 23,000 employes all over the country. The increase means \$3,000,000 a year more on the pay roll.

MANY APPLICANTS FOR POSITIONS

Governor Lanham Has Four Candidates to Succeed Templeton

AUSTIN, Tex., Sept. 28.—Howard Templeton of the court of civil appeals of the Fifth district has tendered his resignation. Among the applicants for the vacancy received by Governor Lanham today are: J. M. Tolbert of Jefferson, Lee Clark of Greenville, Judge Eberhart of Glimmer and W. M. Abernathy of McKinney.

COMPANIES VOLUNTEER

The companies at Texarkana, Corsicana, Victoria, Bremond, Martin, Calvert, Denison, Cleburne, Austin and Timpson have volunteered to go on detail to the army maneuvers at Fort Riley. These are not necessarily the companies that will be selected if the others are expected by the adjutant general to send in their names.

CHARTERS FILED

The following charters have been filed: Oriental Oil company, Dallas, capital stock \$20,000; Investors' Drilling company, Beaumont, capital stock \$10,000.

THREE NEW CASES

Reports here indicate that the yellow fever situation in Laredo is unchanged, except that three new cases were discovered today. Austin is enforcing the quarantine against that city with all the rigor known to the law.

TUBERCULOSIS IS NOT INHERITED

A Berlin Bacteriologist Says Infants Get Disease After Birth

(Copyright, 1903, by W. R. Hearst.)

BERLIN, Sept. 28.—Professor Von Behring, the famous bacteriologist, delivered a lecture on the origin of consumption and its relation to tuberculosis before the medical congress, in session at Caesal. The professor contends the tuberculosis infection is not by any means identical with tuberculosis consumption. He believes tuberculosis is not inherited, but considers milk drunk by infants is the original cause of consumption.

The danger lies in the fact that the digestive organs of infants lack the protective tissues found in adults which prevent the entrance of infectious bacilli. An infant's mucous membrane, Von Behring says, is merely a porous filter. The professor seeks to prevent tuberculosis with serum obtained from cattle, and preventing the disease in much the same way as vaccination prevents smallpox.

Stick to Washer and Wear Good Clothes

The professor declared a large portion of mankind is infected in infancy with tuberculosis germs from cows' milk, but the professor draws a broad distinction between tuberculosis and consumption. Many persons are infected with tuberculosis who only after many years develop symptoms of the disease findable by physicians. In some cases they never develop such symptoms. Particular circumstances, like overwork, inadequate food or unfavorable conditions of life, may cause the disease to assume an active, virulent form, but in the vast majority of cases, he says, the disease must have been acquired in infancy.

He is now experimenting upon new born animals, testing the possibility of rendering them immune against tuberculosis by giving them a form of nourishment containing a suitable solution of tuberculosis virus. The professor believes these experiments will be successful and hopes to inaugurate a similar prophylactic method for the treatment of infants, he believes milk from cows which have been rendered immune contains prophylactic elements which can be employed in the treatment of humans. Von Behring admits this immune milk does not produce permanent immunity in animals treated, but he hopes soon to discover a method of employing the active principle of the virus together with its antidote so as to make humans immune. The professor believes the success of his method will render consumptive sanitariums superfluous by dietetic and hygiene means.

NON UNION MEN ARE PUT OUT

A number of non-union carpenters attempted to do some work in Labor Temple this morning, but it did not require but a few moments for Custodian Appleby to put them out.

The representatives of the various houses in the photographic trade and the photographers who are to have exhibits made a contract to have display boards erected in the temple for their exhibits. The contractor came up with his carpenters to start the work, and Custodian Appleby asked the men with hammers and saws if they had union cards. It developed that they did not and he informed them at once that they could not work in Labor Temple, as union men only were recognized in that place. They were asked to leave at once, which they did. The work was delayed about two hours, while the contractor looked about for other men to do the work. There was a meeting of some of the union carpenters afterwards, and the action of the custodian was endorsed. The photographers did not object to the action, and disclaimed any intention of employing non-union labor, saying they had let the contractor.

J. B. Seeger Agrees to Full Recognition of the Union and An Advance

The strike at the Alba lignite mines has been settled and the men will return to work.

There was a conference yesterday between J. B. Seeger, who has charge of the property of the Texas Lignite company and Peter Hanratty, president of district No. 21, and Organizer Hallow of Iowa. They reached an agreement on a basis of about 25 per cent advance in wages for the miners and a full recognition of the union, with the result that the men who have been out on a strike there for a month past will be instructed to return to work at once.
