PANAMA, Nov. 5.—The revolution which resulted in the proclamation of the independence of the Isthmus of Panama was not unexpected. For two days previously groups of people had been thronging the town discussing the situation which caused alarm on the part of the authorities, the houses of Don Amador and Jose Arjano and Frederico Boyd and other leaders of the popular movement were watched by the police, but the revolutionists fearlessly went in and out of their residences, issued their orders and their plans were carried out.

SHELLS EXPLODE; SIX ARE KILLED

Three Shell Houses Destroyed and Detonation Heard Many Miles

IONIA ISLAND, N. Y., Nov. 5.—Six men, instead of sixteen, as first reported, were killed and ten slightly injured yesterday afternoon by an explosion at the United States naval arsenal, one of the largest magazines in the United States, which is located here.

STOCK YARDS STRIKE NEAR SETTLEMENT

Difficulty Between Packers and Sausage Makers Will Probably Be Adjusted Today—Demands Granted

CHICAGO, Ill., Nov. 5.—Representatives of the packing interests at the Union stock yards have offered the striking sausage makers and camerons an increase in wages that probably will be accepted by the employees, preventing a general strike in all the centers of the industry.

FRANCE INTERESTED

PARIS, Nov. 5.—The grave reports received from Panama are being given the most serious attention of the officials here, owing to the number of French citizens

there. But thus far the government has not taken action, as it does not consider that the revolutionary movement seriously imperils French personal or property rights.

ENGLAND WILL WAIT LONDON, Nov. 5.—The British government has received a brief dispatch from its minister at Bogota, Colombia, announcing the revolution at Panama. The present disposition of the British foreign office is to leave any polling that may be necessary to the United States.

SAYS IT WAS SPONTANEOUS NEW YORK, Nov. 5.—Philippe Bunavarrilla, former engineer in chief of the Panama canal, who is now here, says the revolution on the Isthmus is spontaneous combustion, due to the accumulation of injured feelings and the result of the Spanish colonial system used by the Bogota government.

"The people of Panama saw the Colombian congress adjourn on October 31," he said, "and not give so much as a hint of what it intended to do toward the ratification of a treaty with the United States. 'The Isthmians had been taxed for the benefit of Bogota and I do not see how Colombia can regain the state."

"As to the canal, the new republic will, I believe, have a perfect right to treat the United States, Colombia will have lost her sovereign rights if the revolution succeeds, which I think it will. 'I believe the Spooner act contains a provision that the United States shall acquire the canal and its neutral banks of Colombia and not 'from' and that eliminates the latter if any claim is set up."

PLACED IN QUARANTINE

Precautions Taken at Georgetown to Prevent Yellow Fever's Start GEORGETOWN, Texas, Nov. 5.—(Special.)—When the state quarantine against yellow fever was established a large number of Williamson county people were in San Antonio, attending the fair. Among them was Captain W. P. McNeill, manager of the Williamson county agricultural exhibit, which won the \$250 premium as the best farm exhibit in Texas. He returned home last night and was placed in quarantine on the county farm, under the direction of Judge Wilcox and County Health Physician Thomas, who telegraphed Dr. Tabor to allow Captain McNeill to return home. There is no fear the Captain McNeill will have the yellow fever and he will be released early next week.

FIVE DOZEN DOLLARS

A Fort Worth Traveling Man Recovers a Lost Pocketbook

There promises to be something doing in Fort Worth next Sunday, and two young men, one a traveling man who makes Fort Worth headquarters, and the other a Bonham security boy, will endeavor to finish what remains of five dozen dollars which were lost and again found. The Bonham Daily Favorite says:

"Ham Wasson lost \$50.45 yesterday in the large crowd in town. Many sharp horse traders stepped over that pocketbook but a lady picked it up. The ad in the Daily found the finder and the loser will get his money. Luther Crawford telegraphed Ham the good news, receiving the following: 'Good. Meet me in Fort Worth Sunday. Come on my money. Mr. Crawford went him one better by presenting the finder with a handsome skirt, paying for it out of the find.'"

Mr. Wasson is a traveler for the National Biscuit company and has headquarters in Fort Worth. If his friend accepts the invitation, and has not purchased other presents for the lady who found the purse, there will be enough left for "Ham" to show him a time.

A Grandfather's Clock That Has the Air of the Real Thing

PIERSTOWN, N. Y., Nov. 5.—A grandfather's clock was brought to a watchmaker's shop in this place this week for repairs, the first that have been made upon it since some trifling one in 1778, which was due to the raid of the Indians under Brant and the Tory Butler at Cherry Valley in November of that year.

The clock, which bears across its face the name of Thomas Jenkin, Sandwich, has long been in possession of the Allert family of Pierstown, and it is Mrs. James Allen who has brought it forth for its first fixing up in 125 years.

PAUL WAPLES POINTS OUT ACTUAL FACTS REGARDING PRESENT CONDITIONS IN TEXAS

***** VALUE OF TEXAS' PRINCIPAL CROPS ***** (As estimated by Paul Waples.)

Table with 3 columns: Crop, Quantity, Value. Includes Cotton, Corn, Wheat, Oats, Rice, and Total.

The grand total given above, of course, does not include many other great crops of Texas, and totally excludes livestock. It does not include an estimate of the value of the hay and forage crops of this year, which are the largest in the history of the state.

Mr. Waples was goaded into action by an article which appeared recently in the New York Commercial. He determined to pen a reply to it and being a great believer in the efficacy of figures in healing the mal-informed, proceeded to fortify himself with them before proceeding about his self-imposed task. His reply was printed in the Commercial of last Monday, and is as follows:

Editor New York Commercial: Sir—On the front page of your issue of October 20, under the caption, "South Is Happy," you give a most excellent review of the situation in the South and the Southwest, taken as a whole; but in the reference made therein to Texas the representations of both your staff correspondent and the quotations from E. C. Simmons of St. Louis on the conditions that prevail here are so glaringly erroneous that I feel that, in justice to our people, a true statement of the conditions ought to be made, since this article is calculated to do serious injury to the credit of our state abroad.

CALCULATED TO INJURE Your staff correspondent begins the article: "Barring Texas, prosperity has set its seal on Southwestern trade conditions," and further on, quoting from Mr. Simmons, the article says: "The effect of reigning conditions in Texas will be felt most in about thirty days. We have customers there whom we have carried for a year; their bills mature November 1, and when they do mature the devil will be to pay. The people of a big section of Texas will, figuratively speaking, have to live on bread and water for the next year."

I submit that this statement of "reigning conditions," if not true, is calculated to do the credit of our state vast injury, and I trust that you will permit me to offer some evident facts countervailing these statements as to what the true "reigning conditions" are.

As stated in your article, the great money-making crop of the state of Texas is undoubtedly cotton, and I will make that the basis of my testimony so as to show that Texas is not only not in an impoverished condition, but, on the contrary, is—or will be as soon as the cotton crop is gathered—in a very prosperous condition; and I will substantiate this by facts and figures, first on the cotton crop alone, then adding thereto the other agricultural products of the state this year.

proceedings of the boll weevil convention. Secretary Wilson said:

"I came to Texas for information. It is the duty of the department of agriculture to gather statistics for the information of the people. In December of each year we make an estimate of the cotton crop. The object of this is to give the farmer information that is of vital importance to him of marketing his crop. I am in Texas at this time to learn something of the boll weevil. For the past two years the department of agriculture has had men in Texas making an investigation. So far these investigations have not been attended with satisfactory results for the reason that the people become excited and where the pest has been great in one locality they imagine it is the same in the entire cotton belt.

DANGERS TO COME

"You have a fine state and a fine people. It is dangerous to come to this state, for the reason that your hospitality re-ounds so. A man, after he has gone home, is likely to feel worse than when he came. He wants to come back again. It is lucky for the people of Texas that they do not depend upon one crop. You grow in this state nearly one-third of the cotton produced in the United States. Notwithstanding this, there are other interests that you should study. You are losing many millions of dollars because of the ravages of the boll weevil, but you are also losing many more millions of dollars because of the apathy shown toward other stable crops. For instance, take forestry and the other interests; none of them has the attention which it should have.

MORE EDUCATION

"The progress made along the lines of experimental stations has been gratifying. We have scholars in the land making investigations. The people of Texas should have more education along agricultural lines. It should be remembered that the state is an empire. The people should know more about the climate. They should study this in order that they may know something of the different crops that can be grown in the different localities and the time of their maturing. When I first went into this department under the administration of President McKinley no attention was given to scientific knowledge along agricultural lines. Now we have fourteen colleges in the country that are giving training along the lines of agricultural science. The people of Texas should know something of the value of the soils. I never saw such magnificent fields as I have seen in Texas.

VALUE OF ALFALFA

"Since coming into the state I saw one field of 30,000 acres of the finest cotton and rich lands, and it is virtually lying idle. A few cattle are being grazed upon it. This land will grow alfalfa, as well as cotton and rice. Alfalfa is a very valuable crop. You can feed your hogs on it and they will become fat and then you can harvest several crops from it. Dr. Stubbs, over in Louisiana, told me a few days ago that he had cut his alfalfa once a month.

"One becomes amazed when he contemplates the possibilities of Texas. Within an area 700 miles long and fifty miles wide you can produce enough from your lands to supply the United States. So far you are hardly scratching the lands. You grow a little sugar. Yes, some rice and some cotton. You should know the value of diversification in its true sense. When one crop is grown on lands year after year it deteriorates in its producing value. You should plant different crops. The soil should have more study. The agricultural college of your state should have more money. There is scarcely a college in America that studies the soils. You have so many different soils in Texas that one would not dare estimate how many kinds there are. I will take the liberty of saying that there are at least 1,000 different kinds.

TOBACCO RAISING

"A few years ago the department of agriculture wanted a soil that would grow a fine filled tobacco. Scientists were sent to Cuba and the soils on which this tobacco was grown were brought to this country. Agents of the government were ordered to go forth and find this soil, no matter where it was. It was the desire to find it if it was in America. There is small wonder that this soil was found in Texas. Think of it, we are paying \$18,000,000 per year for that kind of tobacco. That is yours if you want it. We are ready to give it over to you.

FORESTRY

"You should pay more attention to your agricultural college. You should have more education along the line of pathology and forestry. Do you know what the forestry industry of this state means? A few years ago you had in this state 300,000,000 feet, now you have only 25,000,000. You are more than two-thirds through with your yellow pine. Your oak and other trees are fast going. It is estimated that within forty years our forest industries will have been gone through with. You should plant trees.

"The most important thing is the education of scientists in agricultural knowledge. Foreigners do not meet the requirements. We must have American-born and educated men for this work owing to the vast variety of soils and climatic conditions. If there is something needed in the southern country the department takes men from the southern farms and lets them make the investigation. If from the northern country the same method prevails."

Forty-eighth District Court Is Crowded to the Doors—The Widow and Children Are Present at Opening of Trial

At 9 o'clock this morning the Forty-eighth district court, Judge Irbly Dunklin presiding, was packed to the standing room limit by spectators interested in the trial of Rufus Martin, the negro, charged with the murder of Charles Sweckheimer.

Sheriff Honea posted a number of deputy sheriffs about the room to keep order. The murder of Sweckheimer, it will be remembered, was one of the most atrocious in history by reason of the cool and deliberate way in which it was planned and carried out, and when the negro who is suspected of the crime, and who, in fact, has offered to confess his guilt, if promised a life sentence instead of death, was brought in there was a general movement in the big throng to get a good look at him.

A pathetic feature was the presence in the court room of the widow of the murdered farmer, together with her four forlorn little children.

COLLECTION FOR WIDOW District Clerk John C. Martin, after seating the widow and children, went down stairs and out on the court house steps, where quite a throng had gathered. He told some of his friends about it and a subscription was started. In the crowd \$25 was collected inside of ten minutes, which Mr. Martin turned over to the woman.

As soon as the case was called, James S. Davis, who, with W. T. Simmonds, was yesterday appointed by the court to defend Martin, arose and stated that the attorneys would require a little time in which to prepare some motions which they desired to file. Inasmuch as they were only brought into the case yesterday, Judge Dunklin granted them until 1:30 o'clock this afternoon in which to get ready.

The big crowd then filed out of the court room in good order and the prisoner was taken back to jail.

MOTIONS FILED Promptly at 1:30 the afternoon court reconvened. There was another large crowd present, among the number being many negroes.

The attorneys for the negro presented motions to quash the indictment, to quash the present jury panel on the grounds of negro discrimination, and for a change of venue.

During the arguments the deputy sheriffs were obliged to rap for order several times.

OLD NEGRESS' VIEW An old negress who occupied a front seat in the court room looked at Martin, the prisoner, for a few minutes and then gave utterance to the following sentiments:

"That negro is not to blame for the trouble he's in. It's the white people that is to blame. They know that they got to make niggers work or they ain't no good and they know as long as they 'low niggers men to loaf aroun' low down saloons they ain't goin' to work. ANNUAL REPORT FOR THE ASYLUM

Superintendent Worsham Has Filed Figures With the Governor

AUSTIN, Texas, Nov. 5.—(Special)—The report of Dr. E. M. Worsham, superintendent of the state asylum for the insane, for the year ending August 31, 1903, has been placed in the hands of the governor.

The health of the institution upon the whole has been most excellent, and no epidemics have prevailed, and at present not more than one-half dozen patients are confined to their beds.

A very interesting table is given of admissions and discharges since the beginning of the hospital from which these figures are taken: Admitted, 5,492; males, 3,225; females, 2,267; discharged, 2,972; males, 1,855; females, 1,117; died, 1,252; males, 749; females, 483; carried on furlough, 63; males, 32; females, 31.

The present population given by counties shows Travis to have 35 inmates, the largest number of any in the state. Of these 22 are males and 13 females.

Tennessee is the native place of 17 of the patients, the largest number of any state in the union, except Texas, which has 194. The place of nativity of 22 of the inmates is unknown.

Today's Market Quotations

Latest and Most Complete Report Printed in North Texas

NORTH FORT WORTH, Nov. 5.—Receipts of cattle today figured close around 2,000 head and, with the packers pretty well filled from Tuesday's and Wednesday's run, the market opened slow and trading was dull and drab, the market ruling barely steady with yesterday's close. Buyers Bros. of Jolly topped the steer market with 100 good quality feeders, weighing around 1,650 pounds, which sold to an outside buyer at \$3.65, the usual run of light stuff selling at unchanged prices. The cow market generally ruled steady with yesterday's 10-cent decline, good quality range cows selling at \$2.10 to \$2.25, with a top price of \$2.50 for six choice quality heavy cows, averaging 1,000 pounds, and the bulk of sales on medium to good butcher cows at \$1.90 to \$2.05.

The quality of supply was light and, considering the fall, the small run sold steadily. Buyers were slow sellers, the market, however, showing no quotable change from yesterday.

With eight leads of hogs in and favorable reports from the northern markets, the local market this morning opened about steady with yesterday's weak close and 10c to 15c lower than Wednesday's morning trading. The Houston Packing Company, with other outside buyers, offered good competition and the morning's supply sold fairly active, the yards being cleared before the noon hour. The Houston Packing Company bought the choice sorted hogs, averaging 215 pounds, for which they paid a top price of \$5.25, with the bulk of the supply going to the local packers at prices ranging from \$5.05 to \$5.15. Best carload hogs were shipped in by Eugene Kile of Cushing, Ok. They averaged 210 pounds, and sold to the Houston Packing Company at \$5.17 1/2. Choice sorted hogs are quoted today at \$5.05 to \$5.15, medium butchers at \$5.00 to \$5.10, and pigs and lights at \$4.75 to \$5.20.

WILSON WILL NOT VISIT THE CITY

Secretary of Agriculture Receives Orders From Washington to Return Immediately and Will Leave Tonight

DALLAS, Texas, Nov. 5.—(Special.)—Secretary Wilson will not visit Fort Worth, as had been ardently hoped. This afternoon the Fort Worth committee appointed to call upon the secretary received definite word that he could not come here. On the first invitation Mr. Wilson said he would gladly come. This afternoon at a late hour when the committee waited on him, Secretary Wilson said that he had just received word from President Roosevelt ordering his immediate return to Washington. The secretary gave this information to the committee and Paul Waples asked the question: "Mr. Secretary, if you were touring Italy, would you fail to visit Rome?" The secretary smiled, but shook his head. "I'd rather visit Fort Worth than Italy," he said, "but just at this time I can do neither. I must return to Washington tonight."

TROUBLE LIKELY TO BREAK OUT

WASHINGTON, Nov. 5.—The withdrawal of marines from Colon leaves the town practically in the possession of the Colombian government, thus maintaining a condition of ownership which may lead to a clash at any time. If the Colombian ginsbot Cartagena returns to Colon troops of United States warships will certainly not allow them to land if landing involves a conflict with the revolutionists, thus jeopardizing free transit across the isthmus.

Shirt Waists and Shirt Waist Material Galore!

THERE are new features in Ladies' Shirt Waists this season that some have not thought about. The shirt waist is a dignified article of dress today as never before. Time was and not so long ago, when a shirt waist could be made of any kind of material and in any kind of way. It was only a shirt waist anyhow and then when dress occasion came along, it was silk shirt waists—anything, if made out of silk, would do for reception, visiting, funeral, wedding, etc., until the poor silk shirt waist (after having done duty for a dozen years) has played out and nobody wants them. We have not bought a silk shirt waist this year. Silk shirt waists are only bought now for country trade.

Now, about the new shirt waist and the new shirt waist material—A page in this paper with a Gladstone pen, could not describe the beauties of fabric, the swag cut, the adaptability for all occasions; the price ranging from 75c each to \$8.00—each and every one of which will wash and wear like linen; so you'd better get a glimpse of about forty styles in window and come inside and see the rest, all very moderately priced.

will you be up about Ohio way?" "I think I'll take a trip to Columbus about February. Peter Sells will be there, and you can manage to come. I want to get away if I can get the earth to stop revolving long enough for me to be absent from duty."

"Come up, and we will move the center of the universe to Columbus as a tribute to your importance. I understand you are working about seven minutes a day now, since you have two courts operating here."

Mr. Field says that business has been good all over the state. He is glad always to get to Texas, because he has so many friends in this state.

A WILD MARKET AT NEW ORLEANS

NEW ORLEANS, Nov. 5.—The cotton future market opened wild and excited and within a few moments after the opening, with the buying craze from all quarters prices advanced 25 to 26 points higher than the close yesterday. The bullish sentiment and the belief of a short crop and ultimately 15-cent cotton were the only causes for the advance.

MAN IS KILLED AT CORSICANA

CORSICANA, Texas, Nov. 5.—(Special.)—An unknown man was run over and killed one mile west of town by a train last night. His head and right arm were cut off. He was about 23 years old, 5 feet 10 inches tall, weight 150 pounds, and has brown hair and blue eyes. He was seen here yesterday and claimed to have lived in Hubbard. He was asleep on the track when killed.

NEWSPAPER MEN NOT AFTER CHARITY

The Messenger is more interested just now about the Thanksgiving gobble that some good subscriber is going to send in, than it is in "how old is Ann?"—Galveston Messenger.

While paragraphs like the above are written in a joking vein, yet they give a bad impression, and the newspapers ought to stop publishing them. Newspaper men are not mendicants, they are not objects of charity, and they are not dependent upon the "gifts" of the public to enable them to live. It is just such statements as the above which make people think that newspapers are not valuable. It is time to stop it, and convince the people that the newspaper man is a respectable representative of the business and social element of the community in which he lives, and that he is entitled to nothing free because of his calling. It is true the representative of the paper who attends a theatrical entertainment, a lecture or some other affair where admission is charged, is provided with tickets by the management.

This is not a free ticket by any means, as the reporter is there for work, and that which he writes is worth a great deal more to the entertainment and the entertainer than the few tickets are in money. If the entertainment is meritorious, the newspaper man does not ride free on the railroad trains. He pays for the privilege and pays liberally. Newspaper transportation is issued by the railroads, but the newspaper carries an advertisement for it, and the advertising is worth per line and per inch a great deal more than is the travel per mile.

The Telegram would like to see the public have a different idea of this question, and would like to change public opinion on the subject. Newspapers present their columns to the reader and the advertiser on a question of merit. They promise the news and they promise results. A price is fixed for the subscription and for the advertising space, and it wants its price, and no more. The editor of a newspaper is no more entitled to a turkey, a hat or a suit of clothes than is any other man, and to continually make the public believe he is, is to put the newspaper forward as an object of charity. It is not true.

Recently a prominent New Yorker was in the city, and a great deal was said about him in the newspapers. A remark was made by a gentleman in this city that the New Yorker might have had the newspaper men for dinner on his private car, as he had been so nicely treated by the press. Why should he? The newspaper men were doing only their duty in the matter. His visit here was an object of interest to the people, his presence was a news item, and the newspaper owes a duty to its readers to cover all such news items. That is what the subscriber pays for. He was treated nice by the newspapers because it was necessary to treat him so, to tell the news. Had his mission been a different one, and had its effect been different, the newspapers would have told a different story. Then he would not have been treated so nice.

Let the newspaper man buy his own cigars and drinks, purchase his own turkey, and pay his own score in the world. He gets a salary equally as good as any other man in professional life, and he can afford to pay his way. This charity business is a thing of the past. Stop it.

"Bob" Burdette is in the ministry, having abandoned the lecture platform for the new work he has undertaken. While it may appear that he is keeping up his humor, as he proposes to erect a million dollar church in the heart of the business section of the city of Los Angeles, Mr. Burdette says it is a sure thing and will be built. The immense pool for immersion will be surrounded by pictures of the riv-

er Jordan. Mr. Burdette talks of Dowd and the new church in the same breath. He says Dowd is a hypocrite, and that he was foolish to take his new religion to New York. He further says that any kind of a new religion will flourish in southern California. Is the one the humorist is following a new one, and is that the reason it promises so much in the Golden State?

The Telegram a few days ago called attention to the prosperity which exists in this trade territory, and the benefit which the Fort Worth business world gains by it. The same statement is made in every newspaper received from the West, the Northwest and the Southwest, and every traveler through the sections mentioned tells of what he has seen. It is reflected in every business mirror in which you look, and it will continue. Verily this has been a good year with the people in this part of the great state, and there promises to be a better next season. Let the people bend to the efforts they are making, and the newly developed country will prove the garden spot of the world.

An exchange, writing of Longfellow, says, "Hiawatha" was a daring experiment in poetry. There is a fellow up along the Mississippi river somewhere who made a daring experiment in writing a piece of music and he has called it "Hiawatha." His first offense is forgiven, but he had better not try it again. The public will stand just so much and then comes the crash.

The San Antonio Express now carries a big black line on the first page, "Fumigated." Glad of it. We have been afraid to handle the thing because it did not have a lot of holes punched in it, like the letters we get from the lower country. But here how could a mosquito travel all the way here in a copy of the Express?

If those who are urging George C. Pendleton to make the race for railroad commissioner of Texas succeed in bringing him out, there will be lively times in that contest. Mr. Mayfield is a campaigner, than whom there is no better, and George C. runs in the same class.

The Kansas City Star has an editorial headed "The Joy of Chestnut Gathering." It is not necessary to read it, as it is possibly a collection of the speeches and other public utterances of the "only available."

San Antonio will have much to be thankful for when the last Thursday in November reaches here. By that time the quarantine will be raised.

TRUE COURAGE True courage does not scowl and fret; It lacks is but the test of it. If it the worst of luck should get, It simply makes the best of it.

A TEST EXPERIMENT

Peculiar Power Possessed by a New Medicine

Of new discoveries there is no end, but one of the most recent, most remarkable and one which will prove invaluable to thousands of people, is a discovery which it is believed will take the place of all other remedies for the cure of those common and obstinate diseases, dyspepsia and stomach troubles. This discovery is not a loudly advertised, secret patent medicine, but is a scientific combination of wholesome, perfectly harmless vegetable essences, fruit salts, pure pepsin and big muth.

These remedies are combined in lozenge form, pleasant to take, and will preserve their good qualities indefinitely, whereas all liquid medicines rapidly lose whatever qualities they may have had as soon as unworked and exposed to the air. This preparation is called Stuart's Dyspepsia Tablets, and it is claimed that one of these Tablets or lozenges will digest from 200 to 3,000 times its own weight of meat, eggs and other wholesome food. And this claim has been proven by actual experiments in the following manner: A hard boiled egg cut into small pieces was placed in a bottle containing warm water heated to ninety-eight degrees for blood heat; one of these Tablets was then placed in the bottle and the proper temperature maintained for three hours and a half, at the end of which time the egg was as completely digested as it would have been in a healthy stomach. This experiment was undertaken to demonstrate that what it would do in the bottle it would also do in the stomach, hence its unquestionable value in the cure of dyspepsia and weak digestion. Very few people are free from some form of indigestion, but scarcely two will have the same symptoms. Some will suffer most from distress after eating, bloating from gas in the stomach and bowels, others have acid dyspepsia or heartburn, others palpitation or headache, sleeplessness, pains in chest and under shoulder blades, extreme nervousness, as in nervous dyspepsia, but they all have the same cause, failure to properly digest what is eaten. The stomach must have rest and assistance, and Stuart's Dyspepsia Tablets give it both, by digesting the food for it and in a short time it is restored to its normal action and vigor. At the same time the Tablets are so harmless that a child can take them with benefit. This new preparation has already made many astonishing cures, as, for instance, the following:

After using only one package of Stuart's Dyspepsia Tablets I have received such great and unexpected benefit that I wish to express my sincere gratitude. In fact, it has been six months since I took the package and I have not had one particle of distress or difficulty since. And all this in the face of the fact that the best doctors I consulted told me my case was Chronic Dyspepsia and absolutely incurable, as I had suffered twenty-five years. I distributed half a dozen packages among my friends here who are very anxious to try this remedy.

MRS. SARAH A. SKEEL, Lynnville, Jasper Co., Mo. Stuart's Dyspepsia Tablets are sold by druggists everywhere at 50 cents for full sized packages. A little book on Stomach Diseases mailed free by addressing F. A. Stuart Co., Marshall, Mich.

A Fort Worth man lost \$2,000 in jewelry down a sewer. Maybe they will get used to sewers over there after they have had them awhile. Dallas Times-Herald.

The people of Dallas ought to be accustomed to Fort Worth sewers by this time. The waste water from here goes to that city, and they know more about it than we do.

Fannin county is all right. The bins are full of corn and hay and feed stuff of all kinds for stock and the biggest hog and poultry crops the country ever saw are coming on.—Bonham Favorite.

The hog crop and the poultry crop are good things for the producers. The packing houses of Fort Worth will take all such things and will pay the highest market prices. Let the other counties follow Fannin in this.

Dallas is the art as well as the musical, educational, convention and commercial center of the southwest. Several artists of more than local or state reputation reside here, and they keep in close touch with the great world of art. They count the masters of America and Europe among their personal friends.—Dallas Times-Herald.

Dallas is welcome to art, while Fort Worth reaches out for cattle, hogs, sheep, poultry and manufacturing industries. Let the poor painters of the country locate in Dallas and the tin bucket brigade, the wage earners, of this city will make Fort Worth one of the wealthiest in the country. And then we will buy art from Dallas—that is if it is good art. We do not want daubs.

A cold wave is coming and the temperature is expected to fall to 28 degrees in north and east Texas by Sunday morning. It is the part of wisdom to be prepared for the cold wave, even though it may not extend this far south, and to have the stoves up and fuel handy.—San Antonio Express.

Dallas people are worried over the question of raising funds to make the Trinity river navigable. Lack of money ought not to worry them so much as lack of water.—Denton Record and Chronicle.

The increase of the water supply of Fort Worth will help the navigation question of Dallas. When Fort Worth gets through with its water it passes on to Dallas, but that volume necessary to float boats will never be secured.

Suppose we start the work gathering in all the gun totes and the grand jury then have less work to do with murder cases.—Fort Worth Telegram.

The gun totes have votes and the officers can't afford to offend them. Let the legislature disfranchise gun totes and then law-abiding citizens may get an equal showing with totems.—Ablene Reporter.

The people should retire officers who do not enforce the law. The officer who overlooks the pistol toter is an enemy to his community.

A FREE PASS SCARE

It may be a good time for the newspapers to take up the anti-pass scare, but will the country papers do it? It will require a considerable amount of backbone for a man to take up a fight that will bring down on him the unmitigated censure of his neighbors and townsmen. It becomes too personal, and not only that, it is also calculated to deprive the newspaper of a subscription or an announcement fee, and this would be horrible—especially the latter. Think of the News, will you, having to run all through a campaign without Mr. Crawford and Judge Akins and Henry Williams and W. P. Beckham's and perhaps others' announcement! \$225.00 would be the sum total at least of the announcement fees that a fellow would have to sacrifice in behalf of the hobby that The Telegram and a few other papers are

A Clever Illustration

WITH CONCLUSIVE PROOF. There is an old formula in philosophy which says that no two things can occupy the same place at the same time. As a simple illustration, drive a nail into a board and you will find with every stroke of the hammer, the nail will force aside the particles of wood into which it is being driven, finally making a place for itself, and proving that the nail and the wood do not occupy the same place at the same time.

DISEASES OF THE KIDNEYS AND BLADDER and Dr. David Kennedy's Favorite Remedy cannot occupy the same place at the same time. If you are troubled with frequent pains in the back; if your urine stains linen; if you are forced to urinate frequently during the night, and a burning pain accompanies its passage, your kidneys and bladder are in bad shape and should be treated at once.

With every bottle of DR. DAVID KENNEDY'S FAVORITE REMEDY, taken according to directions, some of the particles of the dread diseases of the kidneys and bladder, liver, blood, rheumatism, dyspepsia and constipation of the bowels, are slowly, but surely, pushed aside until they completely disappear. Do not lose faith or find fault, if you are not entirely cured by one bottle, because if these diseases have fastened their grip on you the longer and harder it is to drive them away.

Druggists sell it in New 50 Cent Size and the regular \$1.00 size bottles. Sample bottle—enough for trial, free by mail.

so valiantly pawing up the dust about. Would the sacrifice justify the end? Can the newspapers accomplish what they contend for every time? We are afraid not.

Take for instance the libel law of Texas; a law which directly affects every newspaper in Texas, and one that is vehemently opposed by every paper in the state. Have these "holders of public opinion" succeeded in impressing the Texas lawmakers with the importance of their demands on this question? Not enough that you can tell it. Then how can we expect to make our public officials give up their passes, which are as dear to their hearts as the editor's pass? How can we convince them that the passes they hold are more liable to influence them in the interest of the railroads than the editor's pass is his paper, even if we do have to give a little advertising in exchange?

The Telegram and its few followers have taken up a fight with the odds against them. Of course if we can help to save the country from going to ruin by opposing the loading of free passes to public officials, we are willing to go on record as opposing their issuance to officials in Tarrant, Cherokee and Johnson counties, but it should be remembered that we have had a railroad here only a short time and our officers would like to ride till the new wears off before they are deprived of these tokens of esteem furnished them by clever railway officials.

SOME PROSPERITY IN TEXAS

We gather the fact that Clarendon business men have handled more cash through our banks this month than in any previous month in the history of the banks. This is a business barometer.—Clarendon News.

The total receipts of cotton on the Denton markets up till 2 o'clock this afternoon amounted to 5,531 bales. Of this number 3,101 are square bales and 2,430 round bales. The receipts at the yards aggregate 2,291 bales, just fifty-two bales more than the entire receipts of last year. The total receipts for last season were 4,726 bales, which number falls 1,125 bales below the receipts for the present season up to this afternoon.—Denton Record and Chronicle.

LITTLE STORIES

PRESIDENT MUST HAVE "TALKED"

"I have stopped talking to you fellows about the plans of this department," blurted Secretary Shaw to a newspaper friend the other day, according to the Washington Capital. "I know, of course, that I can trust you, but I have learned that it is better not to talk to anybody when I am making an important movement. Now, take this last refunding operation of the treasury involving \$29,000,000. Why, man, I said nothing to anybody about that, and still news of it leaked out before I was ready for it."

"How did it get out?" asked the newspaper man. "The keen gray eyes of the secretary of the treasury twinkled. He screwed up his face until it looked like a funny mask."

"That's what I'd like to know," he said. "Do you know?" he went on to say, "since I come to think it over, I do remember that I wrote one letter about it."

NO GETTING AROUND IT

George Bruce Cortelyou, chief secretary to President McKinley, one morning sat before an amassment of mail energetically trying to reduce its proportions. Secretary Long, passing through the room at the time, extended the sympathy of a man familiar with the contents of so many letters. "Mr. Cortelyou, are you sitting enraptured before an Egyptian pyramid?" asked the head of the navy.

"The Egyptian pyramids have an advantage," answered the forlorn Cortelyou. "You can go around them, but there's no getting around the one on my desk. You have to go through it."

ONLY A FRIGHT

Andrew Carnegie, at the opening of the autumn conference of the Iron and Steel Institute at Barrow-in-Furness, England, told an odd little story from his vast collection of Scottish anecdotes.

"A Scot," he said, "was unhappy because he had lost his money. He borrowed a loaded gun and with a desperate look started toward a dismal fen. The owner of the gun, a little anxious, bawled after him to know if he was going to commit suicide. He bawled back: 'Not just that. I'm only thinkin' of gangin' down to the fens to gie myself a confounded fright.'"—Boston Post.

Music and Drama

ATTRACTIONS THIS WEEK.

Tonight—Al G. Field's Minstrels. Friday, matinee and night—"The Chaperons." Saturday, matinee and night—"Way Down East."

More Hoytian satire was enjoyed at Greenwall's yesterday afternoon and night when the company which, on the night before, presented "A Stranger in New York" gave two performances of "A Trip to Chinatown." The company gave an adequate interpretation of it, Jack Campbell in the role of Welland Strong was the center of action. As is well known to most theatergoers, the part is that of a man who is convinced that he is ill and has to live. When he takes a drink he takes off 15 hours, and when he kisses "The Widow" he takes his temperature. Various other satires on several kinds of humanity run through the play—for instance, the highly moral path which old men mark out for their children and the promise one which they sometimes travel themselves. And then there is the waiter who is forever handing the evening paper to guests. Many specialties were introduced. The only songs of the original production which are retained are "The Widow" song and "Reuben, Reuben."

FIELD'S MINSTRELS

A beautiful and realistic stage picture is the dancing specialty. "In the Evening by the Moonlight," performed by the dancing corps of the Al G. Field's Greater Minstrels. The rippling of the waters, moonlight on the lake, lights and shadows as the moon shines through the trees, all give a magnificent setting to the work of the nimble dancers. Field's Minstrels come to Greenwall's opera house tonight only.

"THE CHAPERONS"

The favorably known musical travesty, "The Chaperons," is announced for presentation at Greenwall's opera house Friday, matinee and night, November 6. This

is rather expected to be the most notable of the season's offerings here. John G. Sparks, Mabel Hite, May Boley and others who were identified with the piece last year will be seen here.

"WAY DOWN EAST"

There are many things to take into reckoning when accounting for the tremendous success of "Way Down East," which will be at Greenwall's opera house, Saturday, matinee and night, November 7. The simplicity and the directness of the story appeal to everybody, the broad and the fun of the imitable "Hi Holler" and the comedy of the other characters, the realism of the various scenes, the wonderful simulation of the blizzard, the strength of the company and the power of the story itself, these things in some measure will tell why "Way Down East" fills the theaters season after season.

"ARIZONA"

Augustus Thomas' masterpiece, "Arizona," is a most elaborate spectacular production of an excellent drama. The company contains several players who were conspicuous factors in the success of the New York production, and an excellent performance is assured. "Arizona," with the original cast and production, will be

Deadly

Grasp of Grip Prostrated Me.

Dr. Miles' Nervine Built Up My

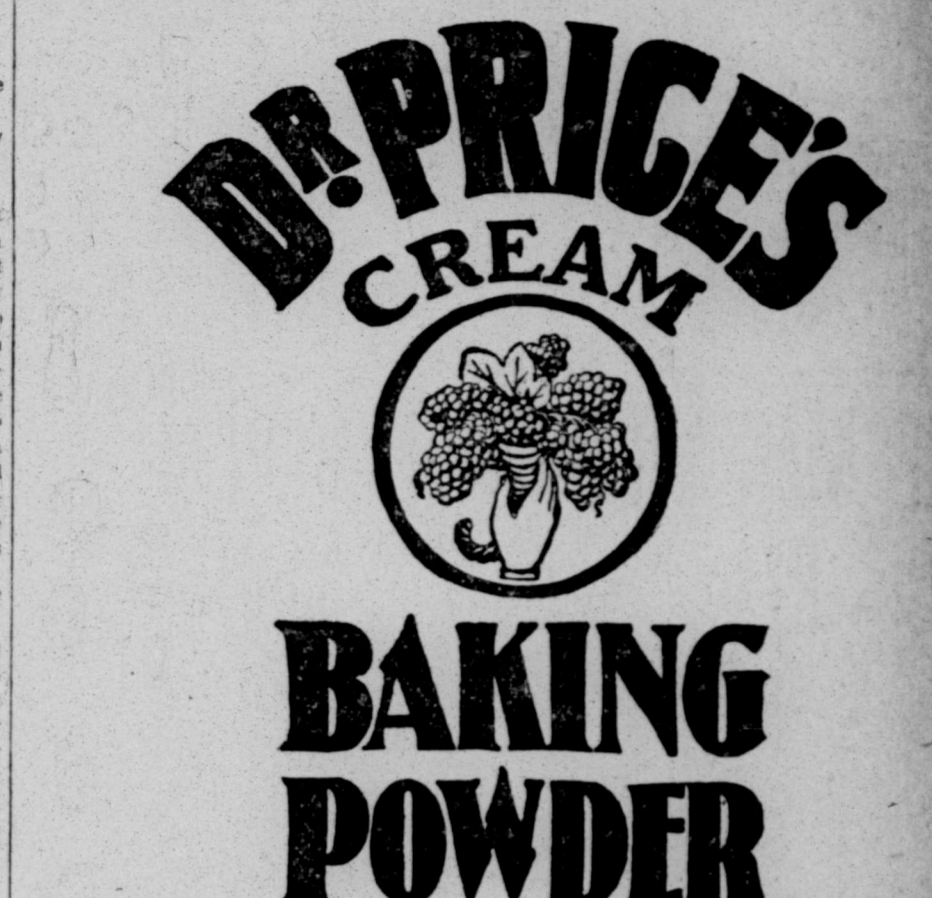

Shattered Nerves and Gave Me an Appetite.

Of the millions of people, who today suffer from nervous or heart weakness, a large percentage trace the cause directly to deadly LaGrippe. It is a germ disease, and makes a direct attack upon the nerves, putting an extra strain upon them at the time their vitality is at the lowest ebb. If LaGrippe will leave you with a shattered nervous system, with loss of appetite, lack of energy, insomnia, frequent headaches and morbid tendencies, you should strengthen the weakened nerves with Dr. Miles' Nervine. It will undo all that grip has done, bring back appetite, rest and restore the nervous to their normal activity.

"I want to write this testimonial for the benefit of those who have suffered from that dreaded disease—LaGrippe. I suffered several weeks with it, and nothing tried seemed to benefit me in any way, shape or form (I suffered almost death) and finally my daughter recommended Dr. Miles' Nervine to me and I can truthfully say from the first day I felt better than in weeks. It gave me relief, built up my shattered nerves and gave me a splendid appetite. I cannot speak too highly of it and want to say, each and every one who has suffered from LaGrippe will find instant relief by getting a bottle of Dr. Miles' Nervine. Insist on having it and take no other. It is simply splendid. Hoping this will benefit some poor sufferer, I remain, —MRS. GEORGE B. HALL, Jackson, Tex.

PRICE BAKING POWDER CO., CHICAGO.

presented at Greenwall's opera house Monday night, November 9.

Had the prices for the concert in Dallas last night been more reasonable there would have been a larger crowd from this city attending. But the management did not appear to care for crowds, and the exorbitant charges of \$5 and \$4 for seats interfered, and the result was that many "empties" were seen throughout the house. An idea can be had of the disapproval of high prices, when it is shown that forty-four seats in one section were unoccupied and there were more than 100 seats vacant in the parquette. The Fort Worth lovers of music, who attended enjoyed the concert very much, but were not convinced that Dallas had been exacted fairly in putting up the prices to such a high rate.

Madame Nordica and the Duss orchestra were the attraction. The Duss orchestra is composed of about fifty persons, under the direction of Mr. J. Duss, the millionaire conductor. The appreciative audi-

ence enjoyed to the utmost the various numbers from Thomas, Tschalkowsky, Gorman, Wagner, Weber and others. It was magnificent, and the conductor was the recipient of great applause at the close of each number.

Madame Nordica is an obliging prima donna. That she is appreciated was shown by the outburst at the close of each vocal rendition, and her readiness to respond to one encore after another pleased those who enjoyed her beautiful voice.

The many from this city who attended were given every accommodation by the Northern Texas Traction company. General Manager Haines and General Passenger Agent W. C. Forbes were in Dallas to look after the comfort of their patrons, and an extra car was operated late to accommodate the large number. Many came on the car leaving Dallas at 11 p. m. and others came later.

"HER ONLY SIN"

The plot of "Her Only Sin," Lincoln J. Carter's great emotional play, which makes its initial appearance at Greenwall's opera house Tuesday, matinee and night, November 10, hinges on a point of law, the question of the guardianship of a minor. Lincoln J. Carter sprung a big surprise when he produced "Her Only Sin" at his theater in Chicago, the Criterion, last June. The flattering press comments and the enthusiastic reception given it during its Chicago run, together with the big business it has done so far this season, leads Mr. Carter to reasonably believe that "Her Only Sin" will take its place as the legitimate successor to Miss Moulton, and the new Magdalen, "I. Article 47," the great emotional play of the past generation. Julia Gray has the leading role. Matinee prices, adults 50c, children 25c. Night prices, 25c, 35c, 50c and 75c.

RIPLEY TALKS OF THE CUT OFF

He Says Work on It Will Commence in February—Railroad News

Regarding the proposed cut-off of the Santa Fe system from Bolan, N. M., to Texline, Texas, President Ripley said while in Texas last week: "It is now our intention of resuming work on this cut-off next February and push it through to completion. By that time labor, no doubt, will be cheaper, and I think it almost a sure thing that material also will be cheaper and easier secured, and in fact all conditions will be much better for continuing the work at that time than now."

TEXAS AND PACIFIC TRAVEL Flattering reports are received from Texas and Pacific headquarters over the success following the change of time of passenger trains west in order to make connections with the Southern Pacific at El Paso and from California. Since the change has been made there has been a good increase in travel over that line.

NEARING COMPLETION By the middle of this month a road which has been in the course of construction from a point on the Coahuila and Pacific to San Pedro Ocampo copper mines will be finished. The line is owned by the Mazapil Copper Company and is of narrow gauge construction. The road was built to give a line of communication with the markets for the rich mines in the vicinity of San Pedro Ocampo. Some of the richest mines in the republic of Mexico are in this district and the road became, with the increasing development of the properties, absolutely necessary, as the only means of transportation was by pack animals and at a very great expense, digging into the profits resulting from the sale of the ore.

PUTTING ROAD IN SHAPE The Southern Pacific is spending considerable money in making improvements on the line between El Paso and San Antonio. Nearly all the steel bridges between these two points are being rebuilt with heavier steel or iron structures. A bridge 300 feet long, costing \$100,000, has just been finished near Watkins, and a handsome steel structure is now being built over Devil's river. The matter of the erection of a new bridge over the Rio Grande at El Paso is now under consideration and it is said that this will be built during the next year. It will be the largest and finest bridge on the entire line of the Southern Pacific.

JAPANESE COLONY LOCATES The location of the Japanese colony has been decided upon. Referring to the matter the Houston Chronicle says: Messrs. Sabara and Onishi, who have been looking after securing the land, have purchased from Mr. H. T. D. Wilson three tracts at Webster, in Harris county, on the Galveston, Houston and Henderson, about fifteen miles from Houston. The three tracts comprise about 1,400 acres and have been surveyed and staked off by Mr. A. J. Wise of this city. Two of the tracts join the right of way of the Galveston, Houston and Henderson, while the third is about three miles northeast of Webster. One thousand acres were purchased outright, while 400 acres are held under an option. The land will be fenced in at once, plowed and made ready for putting in a crop of rice next season. Next month they will be joined by their families from Japan, accompanied by about thirty others, and "Little Japan" will be founded upon the land aforesaid.

ROCK ISLAND-FRISCO DEAL CHICAGO, Ill., Nov. 5.—Failure of the Rock Island stockholders to vote at the meeting called for October 8, on the execution of a blanket mortgage for \$250,000,000, created at the time some surprise and a good deal of speculation as to the cause. The explanation is believed to be found in the trust agreement of May 2, 1903, securing the 5-per-cent gold bonds, maturing in 1912, given in exchange for St. Louis and San Francisco stock. The company which proposes to execute the blanket mortgage of \$250,000,000 is the railway company, the old company, while the company whose bonds have been given in exchange for the railway company's stock and for the stock of the St. Louis and San Francisco is the railroad company. It will be easily recognized that a bond of the railway company would be preferable to the one of the railroad company, and, therefore, it is the former that was naturally selected as the vehicle for the refunding scheme. However, a clause in the trust agreement securing the bonds of the railroad company gave in exchange for St. Louis and San Francisco stocks stands in the way. This clause reads as follows: "The amount of bonds authorized is not to exceed \$18,500,000, and from the terms of the agree-

ment these must apparently be gotten out of the way before the refunding scheme can be put in execution. These bonds do not mature until 1913.

A SENSIBLE VIEW The people of Oklahoma do not propose to throw anything in the way of securing a railroad in that territory, and for that reason it is proposed to not attempt to regulate what is termed an unsatisfactory freight situation just at this time. The situation in that country is best told by H. W. Williams, the representative from Pawnee county, who has given the following statement to the public: "As matters now stand we have no legislation whatever affecting freight traffic, which leaves it absolutely with the railroads to fix the rates. This condition has existed ever since the first settlement of Oklahoma, and during this time we have had seven sessions of the legislature, in which all political parties have been represented. A great deal of discussion on this subject has been indulged in, pro and con, with the result that each and every one of the seven sessions of the legislature has come and gone without this much-needed legislation. It has been brought very forcibly to the attention of the legislatures that all parts of Oklahoma have been clamoring for railroads, with no way of getting them except by persuasion and by assisting the railroad promoters in showing Eastern capital that Oklahoma is a good field for railroads and that Oklahoma is very friendly toward such projects. "After thoughtful deliberation it has been deemed advisable to hold off any freight rate regulation and all other legislation which might limit the profits of railroads until we get railroads, and then enact some of the much-needed legislation on freight rates and other matters. These matters were thoroughly gone over during the last legislature, and it was the unanimous opinion of the members that such legislation should be put off two more years."

INDIAN MINERS WANTED Chinese Are a Failure in Mexican Mines at Zacatecas "Indian miners are now in demand in the Republic of Mexico," said a new arrival from there today. The reason given is the fact that the attempt to utilize Chinamen in the mines in Mexico has proved a decided failure. Recently 300 Chinese imported from the Flowery Kingdom were put to work in the great mines at Zacatecas. They were inexperienced and finally discharged. Now the mine management is seeking to employ Indians. Years ago Indians were used exclusively in the mines, but they gradually dropped out. The operators now desire to give them another trial and if they prove satisfactory Indians will be employed almost exclusively in the mines of the republic. On account of the introduction of modern methods and modern machinery, the Indians will, of necessity, be compelled to acquaint themselves with their use from star to finish. Mexico is becoming a great market for American machinery, and in this respect American merchants are outstripping European manufacturers.

A DANGEROUS MONTH This is the month of coughs, colds and acute catarrh. Do you catch cold easy? Find yourself hoarse, with a tickling in your throat and an annoying cough at night? Then, you should always have handy, a bottle of Ballard's Horehound Syrup. J. A. Anderson, 254 West Fifth Street, Salt Lake City, writes: "We use Ballard's Horehound Syrup for coughs and colds. It gives immediate relief. We know it's the best remedy for these troubles. I write this to induce other people to try this pleasant and efficient remedy." 25c, 50c and \$1 at H. T. Pangburn & Co.

TO MAXIM & GAY Co. (Incorp.), 928 Canal St., New Orleans, La. In accordance with the terms of your ad in The Fort Worth (Tex.) Telegram, I enclose \$..... Dollars. Please bet for me daily..... Dollars on each selection of your Discretionary Series at the New Orleans races. You agree to send me every day, in a letter postmarked before the races are run, the names of the horses which will be played for my account that afternoon and to send me statement and other monthly. They cannot miss the game too big for us to handle. We move with the times. If you want to get aboard our discretionary series, with the privilege of not playing any horses at all on days when we consider conditions unpropitious, fill out the following blank and forward your remittance to us at New Orleans as soon as you can. Play will begin on the first day of the meeting, if your money reaches us in time; otherwise, we will begin play the first day it reaches us after the meeting has begun. Money should be sent by bank draft, express money order, or currency in registered letter. Uncertified checks are not accepted.

THE FOLLOWING SUMS ARE THE MINIMUM ACCEPTED FOR PLAY: For a \$5 play on each horse.....\$25 For a \$20 play on each horse.....\$100 For a \$10 play on each horse.....50 For a \$50 play on each horse.....250 For a \$15 play on each horse.....75 For a \$100 play on each horse.....500 Remit direct to the Maxim & Gay Company, 928 Canal Street, New Orleans. All accounts received by the Maxim & Gay Company will be played at the track by the Maxim & Gay Co. and the Maxim & Gay Co. will make all accountings direct to its clients. The Maxim & Gay Co. assumes all responsibility for a proper execution of its clients' orders. Our friends are cautioned against sending money through the mails without registering.

MAXIM & GAY CO. (INCORPORATED UNDER THE LAWS OF THE STATE OF NEW YORK.)

ESTABLISHED THREE YEARS. CAPITAL, \$50,000. BEFORE THE PUBLIC EVERY DAY. NEW YORK, NEW ORLEANS, CHICAGO, SARATOGA, WASHINGTON. REFERENCES: ANY BANK OR BANKER IN NEW YORK, NEW ORLEANS, CHICAGO, SARATOGA OR WASHINGTON.

\$50.00 WON \$201.75 EVERY WEEK A WINNER IN OCTOBER Average Profit Earned Weekly on \$50 in October, \$50.44. Total Profits Earned on \$50 in October \$201.75

YOUR MONEY WORKS WHILE YOU SLEEP Our famous corps of track sharps are up at break of day, "clocking" the horses in their morning tryouts and while you sleep they spot the winners that bring you steady income—Our method puts you on a level with the most successful plungers of the American turf—We operate for you 25 per cent of weekly earnings. We win only when you win—Results obtained really "beyond dreams of avarice."

HOW \$50 NETTED \$201.75 IN LESS THAN A MONTH. Here is a complete statement, showing the result of a \$10 play on each horse given in our "Discretionary Series" during October. (Note: A capital to begin with of \$50 is required by us, as a matter of conservatism, to make a \$10 play on each horse that is considered by us a good betting proposition.)

Table with columns: Day, First Week, Net Daily Result, Won, Lost, Net Daily Result, Won, Lost. Includes entries for 1-Rohadi, 7 to 5, won; Castilian, 9 to 5, won; 2-Darman, 5 to 2, won; 3-Paradise, 6 to 1, won; 4-S. Protect, 1 to 2, won; 5-Artisville, 8 to 5, won; 6-Land of Clover, 5 to 2, won; 1-Falconbridge, lost; 2-Surmise, lost; 3-No play; 4-Medal, 7 to 1, won; 5-Charawind, 4 to 5, won; 6-Outcome, 9 to 10, won; 1-Mamie Worth, 2 to 5, won; 2-Woodhatch, 12 to 1, won.

Net Profits on \$10 play for month, \$201.75. Less our Commission, 25 per cent., \$73.25. Net Winnings, \$128.50.

WE PICK THE WINNERS. The system we employ to locate winners is identical with that used by "Pittsburg Phil" John A. Drake, John Gates, W. Langdon, Joe Yeager and other famous plungers who win hundreds of thousands on the turf every year and it proves just as successful.

OUR CLIENTS WON A MILLION DOLLARS As it is well known that our clients have collectively won as much as a million dollars at a single race meeting, it is sometimes asked: "Why do not Maxim & Gay simply sit down and back their own selections instead of running a considerable clerical force and spending large sums in advertising in newspapers throughout the country?" The answer is simple enough if one stops to consider the situation. Maxim & Gay, by dint of ability, energy, organization, capital and advertising, have secured an enormous clientele, which means the command of immense capital. The speculator makes his investment in the race track, the after-the-fact, through our commission, one man out of every four of our customers is practically betting for us. The proof that this plan works for the benefit of the public as well as that they win three weeks out of four and our books show that no amount of his account with a money order for his profits, less 25 per cent, which we deduct as our fee.

A Few of Hundreds of Recent Endorsements of the Press Cincinnati Commercial-Tribune, March 1, 1903. Maxim & Gay, who have been so successful in selecting winners at the New Orleans races, are in a class by themselves and have no relation in their system of operation to the "get-rich-quick" schemes that have recently gone to pieces disastrously to those who patronized them. Maxim & Gay do not guarantee their clients' profits nor against losses, but merely play the money of their subscribers and deduct a fixed percentage from winnings for placing the commissions. This point is made clear in all their announcements. What they guarantee is to do is to confidentially handle all money forwarded them and place it on the races just as if it were their own. They have in their employ as "clockers" the most expert judges of track work in the country, and there is not a horse at the New Orleans meeting that they have not a record of. The information collected in this way is used to the benefit of their subscribers, and its reliable character is attested by the numerous winners they have picked in the past two weeks.

St. Paul Dispatch, February 28, 1903. An investigation of the methods of the Maxim & Gay Co. shows them to be conducting their business on straightforward business lines. They have been established three years; they conduct their business on straightforward business lines; their methods have been thoroughly investigated and are entirely different from those pursued by the "get-rich-quick" schemes, so-called, which were but recently closed by the authorities. The transactions of Maxim & Gay are legal in every sense, and they do exactly what they advertise to do, that is, play the money of their subscribers on the horses they judge will win, and they usually win. Prompt and proper accounting is made of the result, but they guarantee no fixed profits, though those who have continuously patronized them have not been losers.

JOIN OUR WINNING ARMY. The greatest race meeting in the history of the South begins at New Orleans within a fortnight. In magnitude it will eclipse all other turf gatherings of the South. The Crescent City Jockey Club knows this to be a banner year and has prepared for it. So have we. If there are more horses at the New Orleans race track than ever gathered there before, we have more expert "clockers" and handicappers than we ever employed at any other meeting. They cannot miss the game too big for us to handle. We move with the times. If you want to get aboard our discretionary series, with the privilege of not playing any horses at all on days when we consider conditions unpropitious, fill out the following blank and forward your remittance to us at New Orleans as soon as you can. Play will begin on the first day of the meeting, if your money reaches us in time; otherwise, we will begin play the first day it reaches us after the meeting has begun. Money should be sent by bank draft, express money order, or currency in registered letter. Uncertified checks are not accepted.

BEST LINIMENT ON EARTH I M. McHany, Greenville, Texas, writes, November 2, 1900: "I had rheumatism last winter, was down in bed six weeks; tried everything, but got no relief, till a friend gave me a part of a bottle of Ballard's Snow Liniment. I used it, and got two more bottles. It cured me and I haven't felt any rheumatism since. I can recommend Snow Liniment to be the best liniment on earth for rheumatism."  A gentleman from Springtown who was in the city last night said that 5,000 bales of cotton have been sold at Springtown thus far this season and 11 of this has been hauled either to

Weatherford or Boyd by wagon. He said that the need of a railroad is being recognized more every season at Springtown and that something to relieve present conditions is likely to be done before another year.

EXPERIMENT IS UNSUCCESSFUL

NEW YORK, Nov. 5.—On board the steamer Majestic, which arrived today from Liverpool, were twelve negroes from the Southern states who went to Liberia, West Africa, to experiment in cotton culture with the view to future colonization from this country. They say the experiment was a failure and they embarked on the Majestic in a penniless condition.

NOTES AND PERSONALS

Fred Hicks, private secretary of General Freight and Passenger Agent J. F. Lehane of the Cotton Belt, is in the city.
 Walter S. Keenan, general passenger agent of the Gulf, Colorado and Santa Fe, is here from Galveston.
 A. J. Chapman, commercial agent of the Queen and Crescent, headquarters in Dallas, is among the railroad men in Fort Worth today.
 J. A. Wilson, live stock agent of the Chicago and Alton, left today for South Texas to be gone several days looking after business for his company.
RAILROAD MEN ON A HUNT
 A party composed of several railroad men of the Frisco, left today for a hunting and fishing frolic down the Rio Grande road. They will go to a point near Brady, the terminus of the line, and will be absent two weeks. In the party were L. O. Williams, treasurer; E. F. Tillman, commercial agent; B. H. Moody, chief clerk in the auditor's office, and several others. Reports from the Brady country say there is plenty of all kinds of wild game—deer, turkey, duck, quail, etc. The boys expect to return well loaded with game.

MINISTER LIMANTOUR TO BE HERE

Distinguished Financier on the Way Home From Europe Will Visit This City—Brother Comes Here Tonight

Jose Ives Limantour, finance minister of the Republic of Mexico, was to have reached Fort Worth this morning on the westbound Texas and Pacific, but the distinguished Mexican official missed connection in St. Louis, and in consequence will likely arrive here tomorrow morning.
 Mr. Limantour is en route to the City of Mexico from an extended tour of Europe, where he has been some months. His brother, Jolio M. Limantour, is to reach here tonight from El Paso to meet the finance minister.
 The eminent Mexican financier reached New York City a few days ago from Europe, where he went primarily to give his country on the international monetary commission which recently met. Mexico is interested in the matter, as that country is anxious to have established a stable basis for the Mexican peso.
 Mr. Limantour's special private train consisting of four coaches was brought to El Paso by his brother last Tuesday and is being held there waiting the arrival of the finance minister.
 The prominent citizens of El Paso and Juarez have arranged to give a big banquet and reception in honor of Mr. Limantour when he arrives there, which will likely be Saturday night. He will probably reach Fort Worth in time to leave for El Paso Friday night.

O. W. MATTHEWS DENIES

Makes Statement in Regard to the Telegraph Companies' Action
 The Postal and Western Union Telegraph Companies have closed their offices at the stock yards for the present. The local representatives, when asked to explain the action today, said that the offices had not been making expenses and that they were informed that the old building in which they have kept their offices was to be torn down. They also complained that they have received notices that their rent was to be advanced.
 In reply to a statement in the Record of this morning, O. W. Matthews, secretary, treasurer of the Fort Worth Stock Yards Company, today asked The Telegram to print the following:
 "I notice in today's Record a statement attributed to Manager Jones of the Postal Telegraph Company that they had not been offered an office in the Exchange building, which is certainly erroneous, for I personally offered Mr. Jones to fit up an office for his company and also offered Mr. Otto for the Western Union, at a reasonable rental, and that to be paid for by either telegraph company in service; not a cent was to be paid in cash. Both these companies, possibly acting under instructions from their common headquarters, have tried to obtain offices in this building free, and we do not propose to be held up by the telegraph companies, who draw a large revenue from those yards. We are not seeking to enter into any controversy, but certainly do not like to be misrepresented."

WILL COMMENCE WORK

H. K. McCullom, manager for the Parker-Washington Company, said today that some five car loads of material for asphaltizing Houston street have already arrived and the work of paving the upper part of the street will commence at once. Mr. McCullom thinks he will be able to begin the work by Saturday, but it may be delayed until Monday. He is certain that the work will not be delayed longer than Monday. Mr. McCullom says that material will be received right along from now on and does not anticipate further delays on this account.

THE ROSARIO GOLD MINE

There will be a meeting of the directors of the Rosario Gold Mining Company, of which several Fort Worth parties are members, next week. J. A. Peacock, who is connected with the company, has just returned from Mexico, where he went to look after the company's interests.
 This is the company which some fifteen or more months ago, granted an option on the Rosario property to Senator Clark and associates of Montana. The price, it is understood, was set at about \$500,000. It is further learned that the option soon expires.

DOCTORS OF DENTON

DENTON, Texas, Nov. 5.—(Special.)—The Denton County Medical Association met in the district court room here yesterday. The organization, which was about ten months old, dissolved for the purpose of organizing the Denton County Medical Society, which it did, electing J. M. Inge of Denton, president; F. U. Painter of Pilot Point, vice president; M. L. Martin of Denton, secretary; M. C. McBride of Denton, treasurer; O. C. Boster and C. P. Yeager of Pilot Point, and D. E. Kirkpatrick of Lewisville, were elected as censors.
 The society will be closely related to the state and national medical associations, its members being members of the state medical association, and also of the national organization.
 The object in forming this relationship between the local society here and elsewhere and the state association is that the state association may establish a private sanitarium in each town, owned and controlled by the local society.

In the United States nearly 13 of every 10,000 inhabitants are studying at colleges of university status. The number in Great Britain is less than five.

HILL TREASURE BELIEVED TO HAVE BEEN FOUND AT LAST

W. L. Taylor, a merchant of Springtown, was in the city last night. Mr. Taylor tells an exciting story of the finding of a stone jar containing \$8,000 in gold on the old Hill place, one mile west of Springtown, by parties unknown, Sunday night, and says the entire community is wrought up over the news.
 For years there has been a tradition that a brother of the Hill girls, four of whom were hanged with their father for harboring horse thieves many years ago, came to the place while in feeble health and before dying buried a stone jar containing his treasure, which, according to the story, amounted to \$8,000 in gold. He left no clue to the place where the money was hid, and for years ineffectual search

has been made for the treasure by various parties.
 The place is now owned by Colonel James Hutchinson, and he has had a standing offer to divide with any one who would find the jar.
 Last Sunday night, some one, it is believed, succeeded in finding the treasure. A hole was discovered at the root of an oak tree, and in this hole was found part of a stone jar.
 Whether or not this is the jar that Hill buried or whether it is the work of a practical joker is not known, but the neighborhood has been much excited by the discovery. The circumstances have been related to the authorities at Weatherford and Colonel Hutchinson hopes that whoever dug the hole will be found.

TESTIMONY AGAIN HEARD IN WOLF CASE

Jury Out Twenty-four Hours and Unable to Agree, Refreshes Its Memory—Interesting Vital Statistics

The jury in the case of the state vs. Joe Wolf, charged with murdering Hendricks Long, which retired shortly after 2 o'clock yesterday afternoon, is still considering its verdict. At 3 o'clock this afternoon it had not announced an agreement. This morning it was brought into the court room at its own request to hear again the testimony of Dave Gray, A. L. Heen and J. C. L. Moore, all three of whom were witnesses for the state.
 It was reported around the court house today that the jury stood 9 to 3 for conviction, but of course, there is no means of confirming this report.

EFFORT TO DELAY THE MARTIN CASE

(Continued from Page 1.)
 drink and gamble, till he just got to be no good and thought he didn't have to work. The police ought to raid them low down nigger saloons every day and every night till they make every blessed one of the nigger toughs go to work or else send 'em all to the county road. Them saloons is what makes bad niggers and the white folks is to blame for it, 'cause they let 'em run."
 After hearing the arguments for quashing the indictment and for a change of venue in the Rufus Martin case, Judge Dunklin overruled both motions and ordered the case to proceed. At a late hour this afternoon the jury was still being empaneled. The crowd which was large at the opening of the afternoon session, steadily increased in size as the afternoon progressed, filling the court rooms so that it was almost impossible for any one to get inside. The crowd overflowed into the district attorney's office and finally filled the corridors both above and below, many remaining outside on the steps of the court house waiting for whatever bits of news might be received from the court room above.

HILLSBORO POSTOFFICE
 HILLSBORO, Texas, Nov. 5.—The receipts of the Hillsboro postoffice for October aggregate \$1,773.30, an increase of \$213.32 over the same month last year. The total increased receipts over last year to date this year amount to \$690.

BOLL WEEVIL CONVENTION IS OPENED

Over Five Hundred Accredited Delegates Are Present at First Session in Dallas This Morning

DALLAS, Texas, Nov. 5.—(Special.)—Upwards of 500 accredited delegates and 2,000 other visitors were present at the opening session of the National Boll Weevil convention.
 D. E. Grove, president of the Dallas Commercial Club, welcomed the delegates. Former Lieutenant Governor Jester of Corsicana, Texas, was elected temporary chairman, and Mr. Gilbert of Willis Point, Texas, temporary secretary. Judge George N. Aldredge of Dallas delivered the opening address to the delegates and the secretary, James Wilson of the national department of agriculture, delivered a lengthy and carefully prepared address on "Agriculture in the South."
 After appointment of the usual preliminary committees, the morning session adjourned.

COMMOTION IN COLON IS INCREASING

American Residents Fear Marines From Nashville Are Too Few—Vessels Are Hurrying to Colon and Panama

COLON, Panama, Nov. 5.—2:35 a. m.—Much anxiety prevails in all quarters here today, as it is recognized that the crew of the Nashville is quite inadequate to cope with the situation ashore should serious disturbances occur, and the arrival of the Dixie is anxiously expected. The commotion here is intense. The Nashville is now preparing again to land a detachment of marines.

ANNOUNCEMENT AT WASHINGTON

WASHINGTON, D. C., Nov. 5.—Cable announcement from Panama tells of the establishment of the new government, which, it is stated, will be maintained.

APATHY IN LONDON

LONDON, Nov. 5.—The British official attitude toward events at Panama seems to be that it is entirely the United States' affair. This view, with the apparent apathy, appears to be shared by all diplomatic quarters in London. Except the unlikely possibility of outside interference, no action is contemplated by the British, or, so far as the Associated Press is able to ascertain at the various embassies here, by any other government.

COTTON GOING UP

DENTON, Texas, Nov. 5.—The price of cotton is advancing a little today, from what it was yesterday, and the local receipts are also some better. The highest price paid for lint cotton up till 2 p. m. was 9.98c per hundred, and for seed cotton, 3.8c.

W. C. STRIPLING TALKS OF EVIDENCES OF PROSPERITY

"I was struck with the difference between conditions this year and last, and at the general prosperity which is everywhere noticeable," said W. C. Stripling this morning, when asked what he found out on a recent trip to Bowie, where he has a business establishment.
 "Bowie has up to this time received as much cotton as was received the entire time of last season," he continued. "For this cotton already marketed the producers have received 33 1-3 per cent more than the aggregate amount received for last season's crop. The farmers are prosperous. On every hand it shows. Farmers who have been in hard luck because of bad crops heretofore are enabled this year to pay up old scores, and they are all good spirits. I get this from the farmers themselves with whom I talked. The banks are doing good business, and deposits are above the average, and a great deal better than at any other time at this season of the year."
 "My business there is better than it has been in four years. All crops have been successful, and the people have money to show for their efforts."

SALOONS TO BE SHUT FORTY-EIGHT HOURS

Fort Worth is in for a prolonged dry spell. It will last from Friday midnight until Sunday midnight—48 hours. During that period not a saloon in Fort Worth will be legally open.
 On next Saturday the stock law election in this city and county will be held. This election is to decide whether in Tarrant county cattle, hogs, horses, sheep, etc., are to be permitted to be turned out on open commons and pasture, or not. Thus far it has aroused practically no interest in the city and very little interest is manifested in the county.
 The principal effect of the election in the city will be the closing of the saloons on Saturday. They will, of course, as a rule, remain closed over Sunday.
 Sheriff Honea has delivered voters paraphernalia to every voting precinct in the county and to every ward in the city.
