RETAIL TRADE SHOWS SIGNS OF ACTIVITY

Reports From Throughout the Country Are of an Encouraging Nature

ELECTIONS ACTED AS SLIGHT CHECK

Cut in Steel Is Expected to Help Adjust Conditions of Trade

MONEY IS FIRMER THROUGHOUT WEST

Cotton Promises to Call for More Money Than Last Year and Corn and Wheat Rush Is Yet to Be Cared For

NEW YORK, Nov. 6.—Special telegraphic reports from correspondents of the International Mercantile Agency throughout the United States and Canada, regarding the state of trade, are summarized as follows:

The intervention of election in eleven states, with a week of mild weather, has served to check retail sales of seasonal goods, notably clothing and millinery, but a canvass of leading jobbers in staple lines at important cities indicates that the season's total business is somewhat in excess of expectations.

Boston reports orders for cotton goods larger than a year ago, but merchants show a conservative disposition. At Philadelphia general trade has been of only fair volume; at St. Louis a little less active; at St. Paul it is increasing, but is smaller than a year ago, while in Texas the volume is not large for the season.

Chicago explains that buying has been in smaller lots and that railways operating east are carrying less tonnage. At Buffalo the elevators are nearly full of grain and the railroads complain of a car shortage.

THINK CUT WILL HELP: Merchants as well as manufacturers, say the cut of \$4 a ton for steel billets, with accompanying reductions in prices of finished steel, which it is conceded must follow, will hasten the industrial revival which they say must appear when steel quotations show a shrinkage corresponding to that in iron. More mills and factories have closed and some have reopened.

FINANCIAL CONDITIONS: In financial circles, features have been the ease with which the Wall Street stock market resists shock, the ease with which gold was engaged for import after the first flush of cotton export bills, and the increased firmness of money at the west, where, as Chicago bankers say, continued tension is promised for the next four weeks. At the northwest demand for crop moving funds will not reach the maximum until the ground freezes. Minneapolis bankers report. The flurry in St. Louis banking circles has disappeared, and collections there in most lines, as at Baltimore, Chicago and Cleveland, are better. At Philadelphia payments have been prompt in some lines, but slow in others. At St. Paul, too, they are less satisfactory than looked for.

MECHANISMS: The cotton, representing \$100,000,000 more than that of last year, even if no larger, points to further financial drafts to market it. The big rush of corn and wheat to market is yet to come forward, although receipts of both are growing. Wheat seedling at the southwest is completed, and needed rains have fallen.

COTTON AT TIoga, TEXAS: Yield Is Running from One-Half to Three-Quarters of a Bale Per Acre. TIoga, Tex., Nov. 4.—Cotton is about two-thirds gathered. The yield is running from one-half to three-quarters of a bale per acre. Some fields yield a bale per acre. The farmers are in good shape, with money ahead.

ers are financially able to hold it. The year's output of cheese in the Dominion has been very heavy, exports being valued at \$25,000,000 against \$21,000,000 last year.

A BATTLE AT RIVEIRA

Twenty Persons Killed in Conflict Between Brazilians and Uruguayans

NEW YORK, Nov. 6.—The latest reports received here, cables the Herald's Montevideo correspondent, are to the effect that about twenty persons were killed or wounded in the battle at Rivera between the Uruguayan police and Brazilians.

POPULATION OF FRANCE

Is Falling Off So Rapidly as to Cause Alarm

NEW YORK, Nov. 6.—A falling off in the number of French recruits this year by 24,000 draws attention to the depopulation of the country, says a Paris dispatch to the Times. An extra parliamentary commission is advocating reforms calculated to lighten the burdens of the parents of large families, improved sanitation in order to reduce infant mortality, obligatory naturalization, and a revision of the law of inheritance diminishing the portion left to any only child, together with moral suasion and a propaganda to deter the peasantry from flocking to the towns.

HERE FOR ROXBURGH WEDDING

NEW YORK, Nov. 6.—The Duchess of Roxburgh, mother of the Duke of Roxburgh, and her daughter, Lady Esch, and her daughter, Lady Esch, were passengers on the Cunard liner Campania, which arrived today from Liverpool. They came to attend the wedding next Tuesday of the duke and Miss Goelet. Safely stowed away in the Campania's strong box were emeralds of priceless value, which will form a part of the Duchess of Roxburgh's wedding gift to the bride.

IRON PRICES ARE BEING ADJUSTED

Demand in Europe Continues Strong and Many Large Shipments Are Being Made. Outlook More Encouraging

CLEVELAND, Ohio, Nov. 6.—The Iron Trade Review says: The news of the week gives plenty of indications of the progress throughout the iron trade. Many blast furnaces and steel works have been put on the idle list. More furnaces will go out when raw materials on hand have been worked up. Pig iron has declined further in the week; coke is lower; the pool price on steel billets has been cut, and in connection with some forms of finished material on which agreements have existed the only open question is as to the date of announcements of new prices. Foreign business leads in interest. Some good export sales of plates and steel bars have been made, but no authentic statement of tonnage is given.

THE MATERIAL GOES LARGELY TO GREAT BRITAIN. Sheet bar business is understood to be under negotiation. In the East concessions on structural material are regarded as possible. Much depends on the bill meeting in New York today. Independent interests have sold steel at \$2 a ton below the pool price and the amount of steel marketed at cut prices recently named on prompt basis has given rise to reports of concessions by concerns parties to the agreement.

FULLY 50,000 tons of Alabama pig iron has been sold or is now being figured on for shipments to British ports. One 5,000 ton sale of gray iron was made at \$3.50 a ton for export, a rate of \$2 a ton below Birmingham to British ports having been secured. Another sale was of 10,000 tons on No. 3 foundry. The lifting of accumulated stocks off the domestic market is expected to strengthen the Southern situation and has already done so to the extent that leading interests are not willing to sell for delivery until next year.

THIRTY-NINE furnaces in Ohio and West, or Pennsylvania are now idle. As yet Northern foundry business have not met the low prices of Southern producers, and are therefore looking for a better market. Significant development is the coming of the Fyfe-Coke company, and the market again for the sale of foundry coke.

COTTON AT TIoga, TEXAS

Yield Is Running from One-Half to Three-Quarters of a Bale Per Acre

TIoga, Tex., Nov. 4.—Cotton is about two-thirds gathered. The yield is running from one-half to three-quarters of a bale per acre. Some fields yield a bale per acre. The farmers are in good shape, with money ahead.

RECOGNITION OF THE NEW GOVERNMENT

Provisional Rulers in Panama Will Hear From the United States

NOTICE WILL BE ISSUED AT ONCE

Dixie Arrives at Colon and Lands Marines to Protect Americans

COLOMBIAN TROOPS EVACUATE THE CITY

Situation at Colon Is Quiet. Pacific Squadron Is on Way to Panama—Permanent Government Soon

WASHINGTON, D. C., Nov. 6.—Assistant Secretary of State Loomis has announced that an official statement on the Panama situation will undoubtedly be issued from the White House today.

Mr. Loomis had an early conference with the president on the situation and on leaving was asked if this statement meant a recognition of the new government. He replied it undoubtedly does. He suggested there are many kinds of recognition and that the United States would probably recognize a de facto government with which our consuls can transact business. As it is, without recognition of a de facto government and as Colombia has withdrawn, there is no government at all which we can transact business with. Mr. Loomis said it is probable a permanent government will soon be established.

SQUADRON ON THE WAY

WASHINGTON, D. C., Nov. 6.—The navy department has received a cablegram from Rear Admiral Glass, commanding the Pacific squadron, announcing the departure of the Marblehead, Concord and Wyoming and the collier Nero yesterday at Acapulco, for Panama. The squadron is proceeding at full speed.

DIXIE REACHES COLON

WASHINGTON, D. C., Nov. 6.—The navy department has received a cablegram from Commander Delano, announcing the arrival of the Dixie at Colon. The cablegram states that the Colombian troops have evacuated the city. The situation is quiet. Commander Delano cables he had an adequate force of marines from the Dixie, and the blue jackets who were landed from the Nashville re-embarked on the Nashville. The Dixie carries 400 marines.

COLOMBIAN TROOPS LEAVE

COLON, Nov. 6.—The Royal Mail steamer Orinoco, with twenty-eight officers, 415 men and thirty women, sailed last night. The United States auxiliary cruiser Dixie has arrived.

TORRES DEPARTS

COLON, Nov. 6.—After a conference yesterday afternoon, General Torres, commander of the government troops, seeing the situation was hopeless, agreed to embark on the Orinoco, for Panama. A special train from Panama will bring General Torres, who will also sail on the Orinoco. The people of Colon are now jubilant. The flag of the new republic flies from the railway stations at Guan and Bolito. Soldiers near Colon. Troops from Panama will doubtless take charge of the city tomorrow. Part of the troops have already embarked on the Orinoco, and the ammunition has been taken aboard.

CHILE NOT INTERESTED

NEW YORK, Nov. 6.—The newspapers here say little regarding the Panama revolution, cables the Herald's Valparaiso, Chile, correspondent. The belief is general, however, that the movement was the work of the United States.

GOVERNMENT RECOGNIZED

WASHINGTON, D. C., Nov. 6.—The United States government has recognized the de facto government of Panama. It was announced at the state department after the return of Secretary Hay from the cabinet meeting, that instructions had been sent to United States Minister Beaupre at Bogota (assuming he has not yet left the capital), and Mr. Ehrman, vice consul at Panama, to inform the government of Colombia and the government of Panama the de facto government is recognized.

INTERESTING EXHIBIT OF GOURDS FOR WORLD'S FAIR

NASHVILLE, Tenn., Nov. 6.—Miss Susie Gentry of Franklin, will furnish for the Tennessee state exhibit at the St. Louis World's Fair one of the most interesting exhibits that will appear in the agricultural building. She has made a study of the gourd family, the uses of gourds and the conditions of their growth. She has made a collection of all the different varieties grown in Tennessee, and she has collected some fine specimens from foreign countries.

In the earlier stages of Tennessee civilization, when copperage vessels and glassware might have been classed as luxuries, nature supplied the most essential from the gourd family. The great-grandmothers of the present generations were familiar with the punch gourd, and they used it for many purposes. It was the receptacle for keeping such things as lard, molasses, sugar, coffee, fruit, eggs, preserves, salt and soap. It served the purposes of the modern cans, boxes, jugs, bottles, buckets, etc.

Legislators valued it so much that they exempted it by law from sale by execution for debt. The punch gourd has no handle, and the largest size is eight to twelve inches in height and from fourteen to eighteen inches in diameter. A large one will hold 100 dozen eggs, and one of the early times says she packed her silk wedding dress in one of them. The next size has a handle and was used as a water gourd in the field, for carrying salt to stock, etc.

DIPPER GOURDS: Then come the gourds with long handles, some about three feet in length, for dipping water from deep springs, and others approximating in size and shape the britanna or cocoon dipper. They follow the skims, smaller in size, the

MYSTERIOUS FIND NEAR ASHEVILLE

Body of a Richly Dressed Woman Found Under Train Wheels at Buena Vista—Her Name Is Unknown

ASHEVILLE, N. C., Nov. 6.—Mangled and torn by train wheels, her brains scattered along the track, the body of a handsomely dressed woman was taken from under the wheels of Southern railway passenger train No. 13, near Buena Vista, five miles from this city, at 7:30 last night.

It is not thought that the woman was killed by the fast passenger train, as the body was cold when the train crew took it from under the engine. The engineer states that he saw something white on the track. He at once applied the brakes, but too late to avoid striking the body. The slight that greeted the train crew and passengers was sickening. The shoulders and head of the woman were crushed to a pulp. In her right hand, which was severed from the arm, was clutched a pocketbook containing \$56.

Passengers on the train state that the body was that of a middle-aged person. The slight that greeted the train crew and passengers was sickening. The shoulders and head of the woman were crushed to a pulp. In her right hand, which was severed from the arm, was clutched a pocketbook containing \$56.

THE CASE OF DRESSER

NEW YORK, Nov. 6.—United States Shipbuilding Company stock figured briefly in the hearing of Dresser & Co. creditors, yesterday, at which Daniel Leroy Dresser was again a witness. As to the \$1,000,000 worth of Shipbuilding stock, to the receipt of which he had testified in a former examination, Mr. Dresser said it had been sold outright for \$100,000. Asked if he had received other Shipbuilding stocks, the witness said \$200,000 of \$200,000 worth had been delivered to him under an agreement with William S. Andrews, acting for John W. Young. Permission was given for the use of this stock either as collateral or by sale for the benefit of Dresser & Co.

COTTON AT GEORGETOWN

GEORGETOWN, Texas, Nov. 6.—United States Government Statistician C. J. Harris reports that the cotton crop for 1930 is 65,000 bales, against 50,000 in 1929. The crop is about all gathered and at the gins.

INTEREST IN MARTIN CASE IS UNABATED

Great Crowd Again Throngs Forty-Eighth District Court Room

MUCH DIFFICULTY IN OBTAINING A JURY

Twenty-five Veniremen Fail to Yield a Single Juror Eligible to Serve

DEPUTIES FORAGING FOR MORE MATERIAL

Odd Replies Are Made by Some of the Veniremen to Questions Propounded by Attorneys for Defense

Promptly at 9 o'clock this morning Deputy Sheriff Jackson rapped for order in the Forty-eighth district court, and the effort to complete the jury in the Rufus Martin murder case was at once resumed. Martin, the negro who is to be tried for the murder of Charles Sweckheimer, a farmer, last week, was again in the court room. The same hellish, hunted look was in his strange, blue eyes. The court room was crowded to the doors as was the case yesterday, and deep interest in the replies of each venireman questioned was manifested.

At the opening of the session T. C. Washam, who was accepted as a juror yesterday, was excused on account of illness. He suffered a chill during the night. This left but eight accepted jurors. Twenty-five veniremen were examined this morning and not a single one was accepted as a juror. At 10:45 the list gathered in by the deputies over night had been exhausted and Judge Dunklin dispatched the deputies after fifty more veniremen. He then adjourned court until 1:30 p. m., when the effort to complete the jury was resumed.

TEXAS RICE TOO STRONG A COMPETITOR

WASHINGTON, D. C., Nov. 6.—Governor Sanford B. Dole, chief executive of the Territory of Hawaii, expresses the opinion, in his annual report to the secretary of the interior, "that the statistics show a steady increase in the last three years in the production of sugar and an increase in the shipments outside the territory. Coffee shipments show an increase of 720,000 pounds over the previous year, but a decrease of 689,000 pounds compared with the year ended June 30, 1931."

The report says, "It is inevitably diminishing product both from the competition of the new rice fields of Texas and Louisiana, and the diminishing numbers of Chinese in the territory. Governor Dole says that the majority of the new settlers on the public lands last year were white men, and he adds: "It is evident that the settlement of the available lands of the territory by farmers owning and cultivating the holdings, must be of gradual growth. The large area of public lands held under unexpired leases is one reason for this."

Another venireman was asked if he had heard anything while waiting around the court room that tended to form an opinion in his mind as to the guilt or innocence of the accused. He replied that he had not heard anything that enabled him to form an opinion.

A THOUSAND NEEDLES

Horribly Torn the Flesh of a Lad in New York Rope Factory

NEW YORK, Nov. 6.—Thomas Walsh, a lad of 14, employed in a rope factory here, has met with a peculiarly horrible accident which undoubtedly will cost his life. His body was perforated by 1,000 steel needles in the machinery. Walsh's duty was to watch the machine which regulates the hemp into strands and regulate the movement of the hemp. As he bent over to pick up a piece of hemp the machinery clutched his clothing and he was drawn into it shrieking for aid. There were 1,000 steel needles moving up and down and his body was literally crushed. The machinery was stopped, but it was found necessary to take it apart before he could be released. So acute was the pain that the boy prayed for death after reaching the hospital.

TO FIGHT CIGAR TRUST

Independent Dealers Have Plan to Secure \$200,000 a Year

CHICAGO, Ill., Nov. 6.—The Chronicle today says: The independent cigar dealers of the country have adopted a plan to secure \$200,000 a year with which to fight the cigar trust company. This plan will remain in effect until the independent dealers have accomplished some results, according to the statement last night of M. W. Duffley, chairman of the executive committee of the board of directors of the Cigar Dealers' association of America. The money will be raised by selling stamps to the dealers to be placed on all goods sold.

INSURANCE COMPANIES

Are Merged by a Recent Sale Completed in London

NEW YORK, Nov. 6.—The Union Assurance society of London has purchased the Scottish Alliance Insurance company, limited, of Glasgow, says a dispatch to the Journal of Commerce from London. The capital stock of the Scottish is \$500,000 in shares of \$3.75. The price paid by the Union was about \$650 a share. The Scottish Alliance did some surplus line business in the United States.

PRIZE LIST MADE PUBLIC

More Than \$32,000 in Premiums Will Be Awarded at New York Show

NEW YORK, Nov. 6.—The official prize list of the National Horse Show association of America for its nineteenth annual exhibition has been made public. The exhibition will take place November 16 to 21, inclusive, in Madison Square Garden, and the premiums amount to more than \$32,000. The classes number 110.

BOARD OF TRADE IS TO HAVE ELECTION

Annual Meeting Will Be Held Next Week, at Which Time Officers Will Be Elected for the Ensuing Year

The annual meeting of the Fort Worth Board of Trade is to be held November 10, at which time officers will be elected. The Board of Trade has accomplished a great deal during the past year, all of which will be shown in the annual reports which will be submitted. There is a great deal more to be accomplished, however, and it is to the interest of the city that active work shall be kept up. Secretary Paddock is now sending out the following notices to the members:

Dear Sir: The annual meeting of the full membership of the Fort Worth Board of Trade will be held on Tuesday, November 10, at 7:30 p. m., at the rooms of the board in the basement of the Hoxie building. At this time and place reports of the officers and the business of the board for the past year will be presented, and directors for the ensuing year will be elected. Arrangements will be made for the entertainment of those present and refreshments will be served.

The importance of an active organization to promote and advance the interests of the city must be manifest to every citizen, and all are urged to be present, and lend their assistance and encouragement to this laudable undertaking in behalf of the city. Respectfully, B. B. PADDOCK, Secretary.

MACEDONIANS AT FAIR

New Departure Will Probably Be Made at St. Louis

ST. LOUIS, Mo., Nov. 6.—A Macedonian-Albanian concession at the Louisiana Purchase Exposition is likely to mark a departure from all previous expositions. An attaché of the consular section of the ministry of foreign affairs at Belgrade has been in correspondence with Thomas W. Childer, World's Fair commissioner for Europe, with the view to obtaining such a concession.

FIVE FIREMEN ARE HURT

And Two Horses Killed While Responding to Alarm of Fire

CHICAGO, Ill., Nov. 6.—While responding to an alarm of fire the fire truck company were seriously injured last night. The truck was on a passenger train on the Chicago and Western railway. Two men were instantly killed and five others injured. Henry Busch and the most severely injured are not serious.

COBURN MAY HEAR FROM SECRETARY

Hon. James Wilson Promised to Look Into World's Fair Ruling

ELOQUENT PLEA FOR TEXAS CATTLE

Made by Hon. L. J. Wortham to the Secretary of Agriculture

WILSON INTERESTED IN TEXAS VIEWPOINT

Result May Be Modification of Ultimatum That No Cattle From Below Quarantine Can Be Exhibited at St. Louis

If Hon. James Wilson, secretary of agriculture, will keep faith with Louis J. Wortham, general manager of the Texas World's Fair commission, there will be a virtual reversal of the F. D. Coburn ruling regarding the exhibition of cattle at the World's Fair.

Secretary Wilson was not as easy of approach as one might think. He was in "private" most of the day at Dallas yesterday, and it was with difficulty that any one obtained an audience with him. Several made the attempt, but they were turned down.

Colonel Wortham wanted to bring up the Coburn ruling with him, and after others had been turned down, he made up his mind he would see what could be done with the honorable gentleman from Iowa who controls the subject of the agricultural department. A courteous note was written, in which Colonel Wortham stated his desire to have an interview with the secretary on the subject of the Coburn ruling, and that he could possibly give the head of the department some valuable information on the subject. The honorable secretary replied that he would grant an audience within half an hour.

When Colonel Wortham called on the secretary, the Telegram representative accompanied him. The interview was not of length, as a multiplication of words was not to the interest of the secretary. A courteous note was written, in which Colonel Wortham stated his desire to have an interview with the secretary on the subject of the Coburn ruling, by which cattle from below the line are barred from participation in the exhibits at the World's Fair, and sought to show the secretary that such a ruling was unjust, and that it was based upon a groundless fear, as there will be no transmission of disease by those cattle which are offered for the exhibit. He stated the Chillicothe case to Mr. Wilson. To all of this Secretary Wilson gave attention, and asked numerous questions. He confessed that the matter had never been brought to him in the light shown by Colonel Wortham. He said that he had written a letter addressed to his personally at his Washington office, and assured the general manager of the Texas World's Fair commission that his ruling would be such that all cattle from below the line, disinfecting as the department would, should be admitted. The result of this is that Texas cattle will be provided to the exhibits at the World's Fair.

This interview between the Texas secretary of agriculture is of great importance to the Texas cattle industry. In fact if Colonel Wortham has succeeded in his object in this matter, he will have added important to the list of the secretary to this state. It is the culmination of a work commenced some time ago by Colonel Wortham, and one which he has pushed on every occasion. He has been unable to get satisfaction from the department representatives, but now that result, Colonel Wortham is assured of success.

It is proposed to include in the exhibit a Macedonian house with its inner arrangements and its home life; national and feminine costumes; national customs, especially those of the picturesque characters; home and house industry, such as spinning, weaving, needle work and pottery, and national songs and music, together with Turkish, Albanian, Greek, Servian, Roumanian and Bulgarian dances.

Store Open Saturday Night Until 10 O'Clock

W. C. Stripling THE PRICE IS THE THING.

207-9-11 Houston and 208-10 Main

The Height of Fashion In Clothing Styles.....

We are showing the very best styles in men's and boys' clothing that can be found in any first class store...

Gowns, zephyr shawls, etc., prices from 25c to 50c. Boys and girls tomorrow at, per pair, 20c. Socks of seamless hose, 2 pairs for 25c.

KIDNEY AND BLADDER DISEASE

of Many Years' Standing, Causing Much Suffering, Entirely Cured With Six Bottles of

WARNER'S SAFE CURE

Mr. Dodge of Worcester, Mass., tells how Safe Cure entirely cured him of Kidney and Bladder Disease.

"I have been a great sufferer with kidney and bladder troubles for a number of years, and though I used many remedies, I got relief and finally was cured through the use of Warner's Safe Cure, which I take great pleasure in recommending to all sufferers with kidney and bladder trouble. I used but six bottles of 'Safe Cure,' and found that it not only rid my system of all trace of kidney and bladder disease, but toned up the system, and now I feel much better than I have for many years. I consider Warner's Safe Cure a great boon to mankind." Axel L. Dodge, Vice President Worcester Legal Aid Society, 37 Gardner St., Worcester, Mass.

Thousands of unolicited letters are received daily from grateful men and women who have been cured by Warner's Safe Cure. Doctors prescribe and hospitals use "Safe Cure" exclusively in all cases of kidney or bladder trouble.

HOW TO FIND OUT IF YOUR KIDNEYS ARE DISEASED.

Let your morning stand 24 hours. If you find a reddish, brick dust sediment in it, or if particles are floating in it, or if it is cloudy, your kidneys are in a diseased condition and unable to perform their work. The result will be that bladder and urinary organs will become inflamed, uric acid will poison the blood, the stomach will become affected and unable to digest the food, you will have pains in the small of the back, torpid liver, pains in the back of the head and neck, rheumatic pains and swellings all over the body. Urinaemia and general health will take place, with Bright's disease or diabetes, which will prove fatal if not treated promptly and with great care.

"Safe Cure" is purely vegetable and contains no harmful drugs. It is free from sediment and pleasant to take. It is a valuable and effective tonic, a stimulant to digestion and awakens the torpid liver. It repairs the tissues, soothes inflammation and irritation, stimulates the enfeebled organs and heals at the same time. It builds up the body, gives it strength and restores energy. You can buy "Safe Cure" at any drug store or direct, 50 CENTS AND \$1 A BOTTLE.

Refuse Substitutes. They are dangerous. Ask for Warner's, it will cure you. WARNER'S SAFE PILLS move the bowels gently and aid a speedy cure. Write to Warner's Safe Cure Co., Rochester, N. Y., for free medical book.

REPORTS ON LAST ENCAMPMENT OF TEXAS NATIONAL GUARD

AUSTIN, Texas, Nov. 4.—(Special.)—The adjutant general's department has been furnished with the reports of General Fred D. Grant, commander of the department of Texas; J. L. D. Hartman, captain First United States cavalry; Ernest Hines, captain United States artillery corps, and W. S. Barlow, captain Twenty-sixth infantry, relative to the encampment of the Texas National Guard held at Camp Mabry, near Austin, August 18 to 26, 1903. These reports are directed to the adjutant general, United States army, at Washington.

General Grant, after mentioning the various officers he had detailed to assist in the camp of instruction, says: "I believe the Texas organized militia is thoroughly in earnest, and all efforts are aimed at improvement and efficiency. I believe in course of time many of the conditions noted by the inspecting officers will be remedied, and from knowledge derived by personal observation and conferences during my visit to the encampment, it is only a question of time when, with continued federal encouragement and the much-needed increased state aid, the Texas organized militia will be on a par with that of any other state."

"I am in close touch with Governor Lathrop in all military matters, and the plan adopted by me of placing an available officer in direct charge of militia matters, under my immediate supervision, required constantly to co-operate with Adjutant General Hulien, is bearing good fruit, and will commend itself to the department as a useful and practical method of helping the state militia to reach the desired military status."

CAPTAIN DAPRAY'S REPORT Captain J. A. Dapray notes in his report that on his arrival in Austin on the night of August 12 he reported to the adjutant general. "On the day following, I reported to General W. H. Stacy, commander of the Texas National Guard, with whom, in connection with General Hulien, I conferred as to the details concerning the tour of instruction and the duty to be fixed for the encampment in accordance with the prescribed conditions set forth in the memoranda of instructions from the war department."

Captain Dapray was plainly displeased at some of the delays, traced to what he terms defective staff administration, and steps out in the open and administers a rebuke. "The fact stands out in bold relief," he says, "that a military division composed of a body of men, outwardly manifesting all the signs of soldiery, all assembled in good order, conducting themselves quietly and with marked discipline as to personal department, all waiting ready to do the hardest nine days' work of their lives, and to learn their duties as real soldiers, was more or less crippled, handicapped and retarded in perfecting organization by incomplete and unsatisfactory administration, due to a defective staff system and inexperience of certain high officials."

Speaking further in the same temper, he says: "It is a waste of time and money to conduct a nominal military camp of instruction. The men and officers of the line are willing and ready to learn, and the staff from the highest to the lowest headquarters ought to be able not only to execute but teach proper administration. The report is quite lengthy and covers almost every feature of the camp in detail, usually from the point of view of a

severe military critic, but before he closes the prospect presents a rosy picture and agreeable language is used. "I wish to praise and applaud the Texas National Guard for the very successful and soldierly encampment held. Having been on duty with the National Guard as far back as 1891, when the military establishments of the state may be said to have been in the embryonic state, I feel that I am capable of making just comparisons, and in doing so I am bound to state that the evolution of the more or less independent company military organizations of Texas into a solidly-organized militia of today, marks one of the most interesting demonstrations of military possibilities."

CAPTAIN HARTMAN'S REPORT Captain Hartman, in his report after expressing pleasure at the earnest effort of the officers and enlisted men to acquire knowledge in the duties required of them, says: "There was a conspicuous absence of a desire to play and seek enjoyment as compared with other volunteer camps I have attended. In this encampment, as I observed it, instruction and drill were the paramount features throughout. The enlisted men in the National Guard were particularly well behaved and thoroughly amenable to discipline, and while the courtesy between officers and enlisted men in some instances was noticed to be somewhat lax, I believe this arose from inexperience rather than design. I observed no boisterous conduct or horseplay within its lines, on the contrary, there was an orderly quiet always pervading its limits."

CAPTAIN HINES' REPORT Captain Hines, in his report, discusses sanitary conditions, medical department, hospital corps, drills and ceremonies, inspection, police of the camp, camp sanitation, records, discipline and recommendations for state authorities. Under this last head, he recommends that no more troops be organized until these men in the National Guard are fully armed and equipped. "That the state make an appropriation to pay armory rent, bonds for encampments, horses for occasional drills. He also recommends that only one-half of the troops be encamped at one time; that no organizations be brought to the camp that have not been organized three months, and close this: "The Texas National Guard is well organized, and while there remains much to learn in the way of training, it can at the present time be depended on for efficient service in maintaining peace and good order in the state, and in a little while be prepared for service anywhere."

CAPTAIN BARLOW'S REPORT Captain Barlow concludes an able and exhaustive report of what he observed in these words: "I saw some things to criticize at the encampment, but it must be taken into consideration that the guard has just been reorganized. Every man and officer with whom I come in contact, seem to be working hard and doing his best cheerfully and willingly. It is very easy to stand on the outside and criticize, but I found from my two weeks' sojourn with the Texas National Guard that they were working under many dis-

advantages, some of which will be eliminated next season. "Upon the whole, I consider the camp a great success, and think the lessons learned will be put to great use next year and that there will be corresponding improvement."

LAKE COMO IS LEASED

From now on there will be no hunting or fishing by the public permitted at Lake Como, a fishing delights that property having been leased to a club which is now in process of formation. Some of the parties who compose the club are W. G. Newby, E. L. Anderson, Morris Bernes, J. D. Collett, Stuart Harrison, L. O. Williams and a dozen others.

It is the intention to soon make a number of notable improvements at Lake Como, among them a club house. The new club will also put a number of boats into commission on the lake for the use of the membership of the club. The lake is well stocked with fish and at the present time there are many ducks there.

WEATHER CONDITIONS

FORECAST The forecast for Texas east of the one hundredth meridian, issued at New Orleans, is as follows: Tonight and Saturday generally fair; warmer in northwest portion.

WEATHER CONDITIONS Forecaster George Reeder issued the following statement of weather conditions this morning: A moderate storm disturbance has appeared in the extreme northwest, resulting in increasing cloudiness with southerly winds and warmer temperature. Another disturbance is in the Atlantic, some distance off the Florida and Georgia coast; threatening conditions prevail. Elsewhere clear and cool weather prevails, including the greater portion of the cotton region states.

Precipitation during the past twenty-four hours fell generally in the upper portion of the Old and the lower Atlantic coast; there was none west of the Mississippi. Local conditions will continue fair over Saturday. It will be a little warmer Saturday.

IN NEW YORK OFFICE

Postoffice Inspectors Have Commenced a Rigid Investigation NEW YORK, Nov. 6.—Under the specific orders from Washington, it is stated that the inspectors who have been here several days have begun a rigid examination into the affairs of the New York postoffice.

The inspectors are said to have obtained copies of the pay rolls and the names and addresses of every employee for the purposes of investigating each particular case and learning all the dates of first employment and all details as to term of service and the merit system employed that resulted in promotion with increased pay.

Postoffice Inspector Frank Little is in charge of the corps of investigators, and with him are Inspectors Holmes and Snow of Cincinnati, Farrell of Chicago, Pendleton of Boston and Thomas of San Francisco. The investigation probably will continue for several weeks.

Magill, manager townsite department, Chicago Great Western railway, Fort Dodge, Iowa.

THINK COFFEE POISONED

Farmer Dies in Peculiar Manner Near Shreveport, La. COLFAX, La., Nov. 6.—R. H. Williamson, a well-known citizen of Colfax, died near here Tuesday morning.

Williamson owns a small place about 100 miles from Colfax and had gone to his place Monday evening and stayed all night with one of his tenants, James Fletcher. About daylight Tuesday morning a woman that lived in the house and a widow, daughter of Mr. Fletcher, carried Mr. Williamson some coffee, remarking to Mr. Williamson that possibly he could drink the coffee but that it was not that hot. Mr. Williamson drank the coffee and went out to his barn to look after his stock, and was gone a short time when he returned to the house, and on entering fell, and remarked to Mr. Fletcher that he was poisoned and to get him some hot water quick, that the woman that gave him the coffee had poisoned him.

Dr. E. B. Gray of Colfax was summoned as quickly as possible, but was too late to do any good. Williamson lived about two and a half or three hours. All of the doctors agreed that all symptoms pointed to the use of strychnine. The woman escaped and has not been traced.

CAPT. CUMBIE WANTS CLOTHING FOR POOR

"I wish to say to the good people of Fort Worth that we need more clothing for the poor which are demanding assistance," said Captain Cumbie of the Salvation Army this morning. "We are having many calls for assistance. The coming of cold weather reminds us that there are many without the protection of warm clothing, and every day new names are added to the list. Especially is this true of children. We have quite a number of calls for clothing for little folk. I would appreciate any contributions on this line, and will send for the goods if I am notified by postal, or they can be sent to 303 Rusk street."

Other subjects that will engage the attention are the development of "Farrism" and the legislation desired from congress, such as the eight-hour law and the anti-injunction law.

CONVENTION PROMISES A CLOSE FIGHT

Coming Meeting of the American Federation of Labor Will Bring Up a Lively Contest for the Presidency WASHINGTON, D. C., Nov. 6.—On November 9 the annual convention of the American Federation of Labor—the largest in its history—will be called to order by President Samuel Gompers at historic Faneuil hall in Boston. From that moment on, the fight for control will be waged with unusual bitterness.

John Mitchell is not a candidate for the presidency, although it is intimated that within a year or two he will seek that honor. The man who will try conclusions with President Gompers, and who has the backing of the Mitchell or miners' contingent, is James Duncanson, national secretary of the granite cutters and first vice president of the federation. Duncanson is neither a socialist nor an extremist, and his policy would differ in but minor details from the one now established. In a political sense the change might be welcomed by the republican administration, as Mitchell has shown a pronounced friendliness for President Roosevelt, while Gompers has occupied a neutral position. And Mitchell would be the pretor behind the A. F. of L. president.

The result of the coming contest cannot be forecasted with certainty. The chances, in the convention of more than 500 delegates, favor Duncanson. Gompers, himself a cigarmaker, has the support of the cigarmakers, whose strength is about 35,000. Frank Morrison, the federation secretary, who must stand or fall with Gompers, is a printer, and behind him stand the 50,000 members of the printers' unions. But the miners, who side with Mitchell, are by far the strongest of the organizations affiliated with the A. F. of L., numbering 147,000. Next in strength are the carpenters, with a membership of 160,000. There has been a controversy between the carpenters and the woodworkers, in which the former were held in check by President Gompers. Frank Duffy, their general secretary, is, therefore, said to be opposed to Gompers' re-election. Other unions have had a remarkable growth in the last year—among them the painters, who now number 65,000; the waiters, who grew from 25,000 to 40,000; the teamsters, whose two unions amalgamated, and who now number 39,000—and upon the stand to be taken by these crafts depends the result of the contest. Another factor in the fight may be James Lynch, president of the International Typographical Union, who is said to be a candidate for the presidency. If Lynch could be brought to go after the secretaryship—and such a proposition is now under consideration—and combine his strength with that of Duncanson, Gompers and Morrison would be doomed. Duncanson is making a quiet but energetic canvass, and is making no public pronouncement whatever; if the convention wants

Today's Market Quotations

Latest and Most Complete Report Printed in North Texas

NORTH FORT WORTH, Nov. 6.—The lightest run of cattle for the week came in today, the total receipts for this market being less than 1,000 head. A good proportion of yesterday's run was carried over for today's trading, and with the general quality only fair the market opened slow at Thursday's prices.

Not so many good range cows were in evidence today, but the run of medium butcher stock about steady. Six good range cows, averaging 325 pounds, brought \$2.35, with the bulk of sales at \$1.80 to \$2.15; thin stuff and canners selling at \$1.25 to \$1.50.

On the morning market the light supply of calves sold steady, the bulk of sales being made at \$2.50 to \$3.00. One heavy load of stags was offered on the market. There was no sale for them and they were forwarded out in the afternoon for Kansas City. Trading in hogs was generally at unchanged prices.

The hog market this morning opened slow and dragsy, showing a decline from yesterday of 10c to 15c. Nothing was sold on the morning market, sellers refusing the bids offered by the packers and generally holding their offerings for late afternoon sale. All northern markets showed a small decline with few exceptions. Top hogs at Chicago brought \$5.20, and at Kansas City \$5.10. Buyers on the local market today are bidding for choice sorted hogs \$5.05 to \$5.10, with a possible top for extra choice Oklahoma hogs at \$5.15. Pigs and lights did not find much favor with the buyers and sold slow at \$4.75 to \$5.

Choice heavy sorted hogs are quoted at \$6.05 to \$6.10; mixed and butchers at \$4.85 to \$5, and pigs and lights at \$4.75 to \$5. The few stocker and feeder hogs offered sold at a proportionate decline with fat hogs.

WORKING FOR FORT WORTH

Although the effort to bring Secretary James Wilson of the department of agriculture to Fort Worth was unsuccessful, those who were active in trying to arrange for it are to be commended for their work for Fort Worth, and especially is this commendation due the officials of the Northern Texas Traction Company. Yesterday morning General Manager F. M. Haines spent several hours in Dallas, and at 10 o'clock when he communicated with General Passenger Agent Forbess of the line, who was in charge of the arrangements, he was assured that Secretary Wilson would accept the invitation. The private car Sagamore which had been in regular service was changed over at once. The seats were removed, a velvet carpet was laid, handsome wicker chairs were put in, and the apartment was made as handsome as a lady's parlor. This car went to Dallas on a special schedule to bring the distinguished visitor to Fort Worth. General Manager Haines giving orders that the fastest run ever made should be arranged, that the secretary could be whisked from one city to the other in the twinkling of an eye. All of this was more or less expense to the Traction Company, but it was done in the interest of Fort Worth, and of that territory between this city and Dallas. Its results would have been more to the benefit of Fort Worth had it been successful. Several things would have been gained. An experimental farm is wanted somewhere along the line of the Interurban, and it would of necessity have to be located near Handley, which is just without the limits of the City of Fort Worth, and therefore it would be more of a Fort Worth proposition than otherwise. Then, the people of Fort Worth wanted the secretary to see what we have here in the way of packing house industries, and live stock interests, because his influence is wanted to get around the Coburn ruling on the matter of an exhibit of cattle.

But the secretary would not come. He was ordered back to Washington, and with that order was the influence of the people of Dallas who were not disposed to have the cabinet officer come to this city, fearing the contrast between the two cities would be serious to them.

But the Interurban officials, Mr. Haines and Mr. Forbess, made every effort to do something for Fort Worth, and they are entitled to the commendation of the people for it all. They had assistants, but these assistants were Fort Worth people, except Oswald Wilson, who is a field agent of the department of agriculture, and Louis J. Wortham, general manager of the Texas World's Fair commission. These gentlemen joined Mr. Matthews, Colonel Waples, Mr. McPeak and others and urged the importance of Fort Worth, but the secretary was not to be moved by the eloquence of the speakers, and Fort Worth did not see him.

THE COBURN RULING

A matter of great importance to the live stock interests of this state is told in the story in this issue of The Telegram in which is related the interview between General Manager Louis J. Wortham of the Texas World's Fair commission, and the secretary of agriculture. The secretary promises to take up the Coburn ruling, and give it such personal attention as will devise a way by which to get below the line at the World's Fair. Mr. Wortham has had subject for some time active in endeavoring to change in the

ruling, but until he secured the ear of the secretary he had no assurance that he would be successful. Now he is promised relief for the cattle men in this matter, and the importance of the action cannot be considered lightly. Mr. Wortham has done a great service to the live stock interests below the line, by going with this matter to the secretary in person, and if he carries out the present plan, the live stock men of this state will have every opportunity to enter the competition at the World's Fair next year.

The letter of Colonel Paul Waples, published yesterday in The Telegram, is an unanswerable argument, and will do much to change public opinion in regard to conditions in this state. Colonel Waples considered the original publication so much of a reflection upon business interests in this section that he would not allow it to go unnoticed, and his letter to the New York paper is a strong one. It will result in a great deal of good to Texas when it becomes circulated.

Mr. Stripling's interview in The Telegram yesterday telling of the conditions in and about Bowie, is a duplicate of the story which comes from every section in the Fort Worth trade territory. There is business everywhere, and the people are in prosperous condition.

Now that work on Houston street has been commenced, let it be pushed, that the street may be paved before the inclement weather of winter may be an impediment to business interests.

Property owners would do well to confer with real estate agents who are urging the need of rent houses in this city. New people are coming in every day.

BARN BURNS AT FRISCO. (Special)—On Wednesday morning at 2 o'clock fire destroyed the barn of W. S. Collinsworth, one mile east of Lebanon, with its entire contents, consisting of 2,000 bushels of corn, 1,000 bushels of oats, 200 bushels of wheat, wind mill, tank and tower, wagon, survey, saddles and harness, etc., with only \$700 insurance. It represents a total loss of \$4,000. The fire started in the second story, and it was supposed to be of incendiary origin.

Rheumatism, more painful in this climate than any other affliction, cured by Prescription No. 2831, by Elmer & Amend. E. F. SCHMIDT, Houston, Texas, Sole Agent.

BOSTON DISSIPATION. (Special)—I notice you always turn to the page with the stock quotations when you take up a paper. I suppose you take an occasional flyer on the market, eh? Gray—Never invested a dollar in stocks in all my life. I find it cheaper to read the quotations.—Boston Transcript.

HELPING HIS WIFE. (Special)—I have been thinking I ought to give you a birthday present, Harold. Husband—Oh, very well. Just write down what it shall be and I'll buy it on my way uptown.—Town Topics.

IN THE ART GALLERY. (Special)—Old Lady—Haven't you got any more figures in marble? Attendant—No, madam; these are all. Is there any one you are looking after? Old Lady—Yes. I want the statue of limitations I've heard my dear husband talk so much about.—Tit-Bits.

FAIR PLAY. (Special)—Have you any rules in your married life? Eustacia—Yes; Eustacia insists that the one who begins the quarrel must begin the making up.—Detroit Free Press.

Pabst Blue Ribbon is the pure, healthful blending of choicest hops and finest barley under scientifically perfect conditions.

100 Doses For One Dollar

Economy in medicine must be measured by two things—cost and effect. It cannot be measured by either alone. It is greatest in that medicine that does the most for the money—that radically and permanently cures at the least expense. That medicine is Hood's Sarsaparilla. It purifies and enriches the blood, cures pimples, eczema and all eruptions, tired, languid feelings, loss of appetite and general debility.

"I have taken Hood's Sarsaparilla and found it reliable and giving perfect satisfaction. It takes away that tired feeling, gives energy and puts the blood in good condition." Miss Effie Colson, 1535 10th Street, N. W., Washington, D. C.

Hood's Sarsaparilla promises to cure and keeps the promise.

Cleanings From the Exchanges...

The club women of Texas will not overlook the fact that Colonel Quarles is "like one that on a lonesome road doth walk in fear and dread," only he draws the line against widows, as did the elder Weller. Colonel Quarles is seven years older than was Lee Rountree when the Times-Herald started in to relieve him of single blessedness. How old is Colonel Quarles?—Waco Times-Herald.

The elder Weller was a philosopher and he meant it all when he said "beware of widows." Following his advice today would not be a bad proposition. But because the Times-Herald succeeded in marrying off Editor Rountree of the Georgetown Commercial is no reason to believe the match making will be successful in every instance. There are a few in the "old bachelor" class who have reached the age of discretion.

Venus Times: The next legislature ought to give us relief from bad roads. If the Times will just buckle down to hard work and elect a candidate for the legislature who will promise to vote for and labor for a bill by which short-term convicts can be placed on the public roads it and its people may get them. Only by electing to the law-making body men who favor this plan will the state ever get them. All other suggestions have been tried.—Galveston News.

The people expect to do so next year. They will select the men who will give them relief. Quick adjournments and special sessions are the curse of the state.

Every man married or single should own a piece of land. The day is coming when it will be difficult to obtain a home in this country. Home owners make a country great, because every person has a double incentive to maintain his government. People who own homes are always more contented than those who rent homes year after year. Buy a home, "be it ever so humble, there is no place like home." I had rather live in a shack of my own than to live in a rented palace.—Baird Star.

So would we all, but tell how it can be had. Would you be willing to let some one give you a home or do you insist on earning it?

Kornegay & Staleup of the Dathart Sun have made a deal whereby V. K. McNeill, proprietor of the Dathart Texan, becomes owner of the Sun's subscription list, advertising accounts and job printing department and facilities, and E. B. Edgell acquires the newspaper press, fixtures, type and equipments of the Sun office. Mr. McNeill will consolidate the Sun with the Texan and the two job departments, and Mr. Edgell will begin next week the publication of a new local newspaper.—The Dallas County News.

The Telegram wishes success to the enterprise.

There is now a union in Sherman composed entirely of pretty girls, the Telephone Operators' union, organized Monday night. Query: Is there any possible way for one or more bachelor editors to get into this union? If anyone knows how it can be done, please let it be known. One of the editors of the Sherman Register is a red hot union man and the information is requested for his benefit. That's all.—Sherman Democrat.

What interest has the editor of the Democrat in the editor of the Register? If a mere man becomes a member of the union of pretty girls, the beauty of the whole thing would be spoiled.

Condemna Courier: "The Texas State University is the Tammany that is planning to run the government of Texas."

In view of the fact that the author of the bill which killed horse racing in Texas is a product of the university, it is to be hoped that the young hopefuls will be impressed with the idea that zeal should not be permitted to overshadow discretion. If they will only learn the secret of drawing up laws which will stand in the light of the constitution then they will be welcomed under the banner of Tammany or any other old rag.—Dallas Times-Herald.

The university is not in politics, but the university has turned out many excellent men in Texas and men worthy of office. Do not support a man because he is a "Varsity '91" or "Varsity '99," or oppose him for the same reason, but judge him on his merits.

Music and Drama

Tonight—"The Chaperons." Saturday matinee and night—"Way Down East."

Al G. Field came last night with the greatest minstrel organization he has ever had. It was a new class of minstrelsy, and it was a revelation to the large audience, because it was such a change and such an improvement. The opera house was crowded. There was not a seat unsold, and late comers were forced to purchase standing room, and they took positions along the walls, anxious to undergo the discomfort to enjoy the performance.

"The first part" is altogether different from the ordinary first part. The opening is more like the introduction to an opera, and the stage setting is something gorgeous. After the opening chorus, and the players are seated, Doc Quigley, attired in royal robes, and attended by two pages, makes his entrance, and is the master of ceremonies. There is no interlocutor. Mr. Quigley has disposed of that old character, and as master of ceremonies conducts the entertainment in a style decidedly new.

There were new songs and pretty ones, but there was little dancing. The caletum is used during this first part, which shows a beautiful effect on the handsome costumes.

"Tenting on the Old Camp Ground" is presented in a new form, and with new music accompanying it. When Old Glory is raised the audience burst forth in applause.

The Mignani family of musicians pleased with numerous numbers on various instruments. The acrobats were good, except for the make-up. This family of acrobats is known as the Walton Brothers, and several new acts were shown. The make-up of the brothers is subject to criticism, however. They use too much powder, and there is a ghastly appearance which detracts from the performance.

Al Field has a monologue. He makes but one appearance during the evening, but he is appreciated. Percy Leigh and his brother gave an exhibition of balancing. Leigh balances himself on one hand on one or more billiard cues, placed upright, and his heels in the air. It was a marvelous performance.

Taken all in all, it was a first class performance, and all were pleased.

"THE CHAPERONS"

The first pretentious comedy opera offering of the season will be "The Chaperons," which will be seen in this city at Greenwall's opera house, tonight. The company includes the customary chorus and contingent of "show girls," and a cast of principals embracing many of the original members and some fresh talent that should shine conspicuously in a venue of such possibilities. Among these are to be seen the well known comedian, John G. Sparks; the capital character actor, Thomas Whiffen; the powerful basso profundo, W. V. Struntz; and the sprightly, soubrette, Mabel Hite. "The Chaperons" pays its first visit to the Pacific coast this year and returns to all the leading cities of the East the third time.

"WAY DOWN EAST"

All Saints Church, Bay Side, N. Y.—Messrs. Brady and Grismore: In thanking you for the privilege of witnessing the production of "Way Down East," I will not attempt to particularize its many excellencies.

Speaking generally, I congratulate you for placing before the public in such an admirable and artistic manner a play that is so free from that which is objectionable.

So would we all, but tell how it can be had. Would you be willing to let some one give you a home or do you insist on earning it?

Ruby Bridges, as Anna Moore in "Way Down East," is able, and at the same time so rich in wholesome amusement.

Hoping that I shall soon have an opportunity to express in person my appreciation of your courtesy, believe me, with cordial regards to your family, Sincerely yours,

REV. GEORGE W. ECCLES. "Way Down East" comes to Greenwall's opera house Saturday, matinee and night, November 7.

"ARIZONA"

When "Arizona" was first produced, critics contended as to whether it would properly classify as a melodrama or a realistic comedy. Whichever or whatever may be its proper designation, it has won its way into the hearts of the people. This may be largely attributed to the fact that the author, Augustus Thomas, a journalist of wide experience, has lived the life he portrays. Manager Greenwall is happy to announce the engagement of the "Arizona" company for Monday night, November 9, at Greenwall's opera house.

IMPORTANT CONFERENCE IN ST. LOUIS

Rock Island-Frisco Freight and Passenger Officials Hold Meeting to Discuss 'Ways and Means'

A joint conference of the freight and passenger officials of the Rock Island-Frisco system was held in St. Louis Thursday.

In St. Louis all the officers of both systems, including the ticket and commercial agencies, will be located under one roof.

President Winchell, recently intimated that the reports regarding the merger of different offices of both systems was considerably exaggerated.

That there will be a wholesale merging of offices of the two systems all over the country is generally believed by well-posted railroad men.

Since the Chicago announcement that there was to be a general consolidation of offices, the employees of both systems in Fort Worth have been on the anxious bench.

NO ARGUMENT COULD MOVE SECRETARY

Fort Worth People Urged Cabinet Officer to Visit Here, But He Said No to All Their Pleading—Did Dallas Do It?

At 10 o'clock yesterday it was arranged that Secretary James Wilson of the department of agriculture would visit Fort Worth.

At 2 o'clock the visit was declared off, and no pleading by the Fort Worth committee could change the mind of the secretary.

What influences were brought to bear on him could not be learned. It is the impression that Dallas people had something to do with the matter, but how and why could not be learned.

Yesterday morning the committee from Fort Worth believed everything was fixed, and General Manager F. M. Haines of the Interurban was advised that the secretary would be ready at 3 o'clock to make a visit.

When the Fort Worth committee learned that the trip was abandoned, they immediately assembled and called on Secretary Wilson, Colonel Paul Waples head of the delegation and Jim Hines.

When the Fort Worth committee learned that the trip was abandoned, they immediately assembled and called on Secretary Wilson, Colonel Paul Waples head of the delegation and Jim Hines.

NOTICE!

The Crist & Downey Company will open their store, 809 Houston street, Monday, Nov. 9. A handsome imported gold decorated china cream pitcher will be presented to all purchasers of one pound of coffee or one-half pound of tea.

NEW PHASE DEVELOPS

The railroad building race in the south part of the state, between the San Antonio and Aransas Pass and the St. Louis, Brownsville and Mexico, is assuming a very interesting phase.

Which of the roads now racing towards Brownsville will enjoy traffic relations with the National of Mexico is not known. It is believed, however, that the San Antonio and Aransas Pass will have the preference through the influence of the Southern Pacific with Speyer & Co. of New York.

The race between the Sinton-Brownsville line and the San Antonio and Aransas Pass is being run without any special change. Both lines are now under construction and the management are hurrying the work along as rapidly as possible.

The line proposed from Matamoros to Tampico to connect with the Mexican Central will afford opportunity for one of the lines into Brownsville to make connection into the City of Mexico.

FRISCO EXTENSION OPENED. The general offices of the Frisco have advised that, effective November 8, the line from Mead Junction, L. T., to Plattler Junction, I. T., nine and one-half miles, will be operated by the Frisco and will be known as the Plattler branch, Arkhuda district, Central division.

W. L. JONES MAKES REPLY. Postal Company Manager Says He Was Misquoted.

W. L. Jones, manager of the Postal Telegraph and Cable Company, was quoted in a morning paper yesterday as saying that he never was offered space for an office in the new exchange building at the stock yards.

Freight Agents' Meeting. Fort Worth will be represented in the national traveling passenger agents' convention to be held in New Orleans.

After the Preachers. At a meeting of the Western, Transcontinental and Southwestern Passenger associations, held at Chicago, it was decided to adopt the book form of credentials in the matter of issuing clerical permits.

A DRY SATURDAY. On account of an election taking place on Saturday, November 7, our retail liquor house will be closed, and people in need of some liquor should supply themselves in time.

RAT KILLING CONTEST. Is Down for One of the Features at Oklahoma Show.

OKLAHOMA CITY, Ok., Nov. 6.—A new feature, unique and interesting, will be developed at the pet stock and poultry show of Oklahoma and Indian Territory, in Oklahoma City, beginning December 22.

A STARTLING TEST. To save a life, Dr. T. G. Merritt of North Mehoopany, Pa., made a startling test, resulting in a wonderful cure.

PHILADELPHIA, Pa., Nov. 6.—Senator Quay, convinced that the country is not ready for the admission of four territories, with slight votes in the United States senate, is preparing a compromise.

Now Is the TIME to BUY Winter Goods!

When we purchased the \$30,000 stock of Sam Rosen, we never mentioned the fall and winter goods which were included in the purchase, but as now is the time to buy winter goods, we wish to call your attention to the fact that we purchased these goods at 52 cents on the dollar, and intend to sell them the same way. Our lucky purchase is also your good fortune, as we can save you one-third and one-half the regular price on Clothing, Gents' Furnishings, etc. The following prices speak for themselves:

- One lot blue black beaver Overcoats. Mr. Rosen purchased them for this season's trade to sell at \$7.00; our price... **\$3.39**
- And we will also present with each Overcoat purchased a silk plush cap.
- Another lot of genuine Melton Overcoats which Mr. Rosen intended to sell for \$13.50; our price... **\$7.75**
- Black Ulster, 52 inches long; Mr. Rosen's price \$10.00; our price... **\$5.95**
- About 50 different styles of Overcoats which would take too much space to mention; some worth as high as \$30.00, all at half price.
- A full and complete line of Suits, all the latest fabrics, which will all be sold at from 1-3 to 1-2 off the regular price.

- SPECIAL**—One thousand dozen Collars, of fifty different styles, all four-ply linen, regular 15c values, only, each... **6c**
- Sam Rosen's \$2.50 Hats, all shapes... **\$1.45**
- Sam Rosen's \$3.50 Hats, all shapes... **\$1.95**
- Boys' Caps given free with each boys' Suit from \$1.25 up.
- A 50c and 75c line extra heavy fleec lined Shirts and Drawers; our price **\$1.2c**
- Our regular 35c Underwear on sale at... **19c**
- Sam Rosen's line of pure wool Underwear, regular price \$3.00; our price, a suit... **\$1.95**
- \$2.50 line of Underwear for sale at, a garment... **69c**

All persons presenting this ad. will be allowed 5 per cent from the above prices on anything in our stock.

"Seems so," replied the machine, laconically.—Philadelphia Ledger.

MARK HANNA'S STATE GETS TEXAS CALVES

William Penn Anderson Returns From a Trip to Ohio Where He Took 1200 Vealers for Feeding Purposes

W. Penn Anderson, live stock agent of the Pecos Valley lines of the Santa Fe system, is here, having returned from a recent visit to the state of Ohio, consisting of 1,200 head of calves, to Ohio from the Pecos and Panhandle countries. The animals consisted of Angus and Herefords, chiefly the latter. The shipment was distributed among the farmers who will feed them and prepare them for exhibition purposes and also for export as beef.

The recent shipment was made by Dan W. Black, who took the sweetestest premium for the best display of stock at the second exposition of the International Live Stock Association at Chicago.

Mr. Anderson said that conditions in the Panhandle country were in good shape and that there was plenty of good grass and water on the plains. Discussing the cattle in the Panhandle and Pecos countries, Mr. Anderson said that there were more and better pure bred cattle raised there than anywhere else in the country, that blooded cattle were being raised in forty counties, but that while there were great quantities of blooded cattle, there were no pedigreed stuff.

Mr. Anderson is taking much interest in the movement of calves from that section to the eastern and southern states, and he is looking to see the business rapidly increase, as it is being discovered that breeders in the Pecos country and the Panhandle as well, can realize better profits from this source. Buyers in the north are discovering that it pays better to ship the calves instead of extra stuff, and the freight is much lower, because something like fifty or more head of calves can be put in a car, while a shipment of grown stuff is limited to eighteen or twenty head.

Another feature in this connection, says Mr. Anderson, is the rapidly increasing price of alfalfa in the Panhandle and Pecos countries, which precludes a greater profit on fed stuff. Time was when this hay sold for \$2 per ton, now it brings three or four times as much and is entirely too expensive as a feed.

SOME VISITORS HERE AND WHAT THEY SAY

By James Hays Quarles

J. M. Welby, manager of "The Chaparrals," which will play at Greenwall's opera house tonight, has been coming to Texas for fifteen years in the theatrical business. He has managed many attractions which toured this state, and they have always been good ones. He knows Texas from one end to the other, and "doing better than ever," he said, "we packed that big house down at Waco last night, and you know what that means. I find that Texas is in fine condition from a business standpoint, and I am glad to see it. Coming here every year, as I do, to see the rapidly increasing of the improvements, and I am gratified to see progress and prosperity. That new bank building I see going up on Main street is a handsome structure and would be a credit to any city in the country. That shows well for Fort Worth, and just as it has attracted me so will it attract every visitor."

PROGRAM IS ARRANGED

Semi-Annual Meeting of Presbyterian Woman's Missionary Union

The semi-annual meeting of the executive board of the Woman's Missionary Union of the Fort Worth presbytery was held in Fort Worth yesterday. The gathering took place at the Broadway Presbyterian church and was presided over by the president of the board, Mrs. J. C. Terrell. The pastors of the local Presbyterian churches were present, in addition to a number of out of town visitors, including Rev. J. V. McCall of Cleburne, Mrs. L. J. Thompson of Hillsboro and Mrs. J. A. Weakly of Bridgeport. The ladies of the Broadway church served a course luncheon to their guests. At the afternoon session Judge S. P. Greene made a talk on home missions. The principal business of the board was the arrangement of the program for the annual meeting next spring at Cleburne.

SUIT AGAINST KATY

HILLSBORO, Tex., Nov. 6.—S. M. Johnson filed a suit against the M. K. and T. Railway company today for \$2,000 damages. Mr. Johnson lives in South Hillsboro on property close to the Katy track. He alleges that the Katy graded up to the roadbed across a low place adjacent to his property and left insufficient drainage, and that it clogged up and caused water to stand and stagnate, causing sickness in his own family and in the families of his renters; that it caused his tenant houses to be vacated, etc. He estimates his damages as above and prays for judgment.

EXPERIMENT PROVES TO BE USELESS

Settlement of Negroes in Monrovia Results in Almost Entire Extinction of Negroes Who Tried the Plan

NEW YORK, Nov. 6.—Two negro men, three women and four children, gaunt, hollow-eyed and ragged, have arrived here from Europe, en route to their homes in Liberia, Ga., from Monrovia. They constituted a party of the survivors of a party of fifty-six Southern negroes who, about a year ago, were sent by a number of Southern philanthropists as an experiment in colonizing American negroes in Liberia.

Financial aid in the colonization scheme was furnished by planters. It was hoped that the growing of cotton would mark the success of the venture, as reports had shown that the soil of Monrovia was adaptable to its growth.

The colonists arrived there early in February and those who have returned declare they were soon disillusioned. They found themselves in the midst of a tropical wilderness with only a few white traders, who were mere adventurers.

The party built three log cabins and planted their seeds, but the entire growth was rotted or washed out within two months.

There were continuous rains for weeks at a time, the natives were hostile, and finally the jungle fever broke out and wrought havoc among the colonists. Their provisions were depleted and they lived partly on native roots. In less than eight months more than half of the entire party had died. The party which came back did

GIRL WEDS A CHINAMAN

Montana Ranchman's Daughter Becomes Bride of John Wing Lee

CHICAGO, Ill., Nov. 6.—The Chronicle today says: While her uncle was searching San Francisco for her, Miss Bobb Clark, daughter of Montana, outwitted her father by coming east instead of going west, when she put her plans for an elopement into effect. The plans for the secret marriage were made a year ago, and she is now the wife of John Wing Lee, a naturalized Chinaman, who was formerly an employe of her uncle, Benjamin B. Hoyt, owner of the "Bar H" ranch. They have just been married by Justice Cochran and are now on their way to Niagara Falls for a honeymoon trip.

The father of the bridegroom was at one time cook in the Hoyt household, and it was while the son was on a visit to his home on Lake Superior at Stanford university, where he was a student, that he met Miss Hoyt.

CONVENTION WRANGLING

Over the Appointment of Delegates to Washington

ARDMORE, I. T., Nov. 6.—A special to the Ardmoreite from South McAlester in reference to the convention to appoint delegates to go to Washington to try and get congress to give us a delegate or representative, says:

The convention reorganized this afternoon after wrangling an hour. Jack Billis of Tablequah is temporary chairman and E. A. Newman of Atoka temporary secretary.

New committees on credentials, permanent organization and resolutions have been appointed.

The fight is over the question of a single delegate, or a delegation, with Ardmore and Muskogee favoring a delegation.

All but six of the twenty-five recording districts are represented.

Nobody can guess the outcome, but a delegation will probably be the compromise.

BIG GAME AT CLEBURNE

Fort Worth Lightweights Play Heavyweights at Cleburne

This morning at 9 o'clock the Fort Worth lightweight football team, accompanied by a large crowd of rooters, left over the Santa Fe for Cleburne, where they are to play the Cleburne heavyweights this afternoon. Before leaving Captain Peckham of the Fort Worth team said: "We have what I consider the best lightweight team in Texas and we intend to show the Cleburne men a few points in handling the piekin'."

Among the star players who are playing with the lightweights this year are: H. Bewley, formerly with the State university; H. Hill, Walter Townsend, Ben Pulliam, George Peckham and Joe Connelly.

THE DEPARTMENT CLUB

Will Hold Its Regular Monthly Meeting Tomorrow Afternoon

The regular monthly meeting of the Department club will take place at 3 o'clock Saturday afternoon at Edna's club rooms. The first hour will be devoted to business, the second to the following program:

Vocal solo... Miss Louise Zane-Cott
Talk on Southern Literature...
Piano solo... Mr. Heathcote
Reading... Mr. Pittner
Vocal solo... Miss Anita Lambri

BIG MODEL FOR THE FAIR

WASHINGTON, D. C., Nov. 6.—The \$14,000,000 railroad station which the Baltimore and Ohio and Pennsylvania railroad companies will build at Washington will be represented at the St. Louis exposition by a model with a front of 50 feet, a depth of 40 feet and a height of 15 feet from the floor. It will be on a scale of proportions and effectiveness never before attempted in an architectural model.

EXPERIMENT PROVES TO BE USELESS

Settlement of Negroes in Monrovia Results in Almost Entire Extinction of Negroes Who Tried the Plan

NEW YORK, Nov. 6.—Two negro men, three women and four children, gaunt, hollow-eyed and ragged, have arrived here from Europe, en route to their homes in Liberia, Ga., from Monrovia. They constituted a party of the survivors of a party of fifty-six Southern negroes who, about a year ago, were sent by a number of Southern philanthropists as an experiment in colonizing American negroes in Liberia.

Financial aid in the colonization scheme was furnished by planters. It was hoped that the growing of cotton would mark the success of the venture, as reports had shown that the soil of Monrovia was adaptable to its growth.

The colonists arrived there early in February and those who have returned declare they were soon disillusioned. They found themselves in the midst of a tropical wilderness with only a few white traders, who were mere adventurers.

The party built three log cabins and planted their seeds, but the entire growth was rotted or washed out within two months.

There were continuous rains for weeks at a time, the natives were hostile, and finally the jungle fever broke out and wrought havoc among the colonists. Their provisions were depleted and they lived partly on native roots. In less than eight months more than half of the entire party had died. The party which came back did

CITY IN BRIEF

Nash Hardware Company.

J. W. Adams & Co., Ice, Feed, Fuel and Produce, 409 W. Weatherford, Phone 130.

It will always be found a little better and perhaps a little cheaper at the William Henry & E. E. Bell Hardware Co., 1615-17 Main and 513-15 Houston streets.

Brolles Electric Co., 1202 Main street.

Mrs. Dora Neal Geyer, accompanied by her niece and nephew, departed this morning for Los Angeles, Cal. They will make their home in that city.

Miss Madeline Fly of Gonzales is visiting the family of R. V. Bishop in Mr. Bishop's new home, 1303 El Paso street.

News comes from Decatur, Texas, of the birth of a baby boy there to Mr. and Mrs. A. B. Wharton. Mrs. Wharton was Miss Electra Waggoner. Mr. and Mrs. Wharton's paternal residence is in Fort Worth.

Misses Peagle Lovellette and Minnie returned from an extended visit in the West and Northwest, which included Denver, Salt Lake City, Seattle and Victoria, B. C.

W. S. Knight, the north Texas cash merchant, is here today, accompanied by his wife. Mr. Knight is arranging to make a trip east to make his purchases for the next year. He will buy a bigger stock this time for Fort Worth.

DEPUTY PLEADS GUILTY

To Forgery in Enrolling Fictitious Names in Indian Territory

CLAREMORE, I. T., Nov. 6.—(Special.)—Tom Triplett, deputy clerk of the United States court at Tablequah, pleaded guilty to forgery yesterday before Judge Gill. He is accused of enrolling fictitious names on the Cherokee rolls; also of issuing fraudulent Cherokee warrants when district clerk for the Cherokee government.

Knight Dry Goods Co.'s

Full Silk Lined and in Style and cut the same as for men

Free Circulating Library for Boys

The boys were on hand yesterday and more will be here today. Want all the boys to come in, see the books and learn all about it.

"It Takes the Cake"

Is the usual favorable comment on the superb laundry work turned out at The Fort Worth Steam Laundry. The best of linen and other materials are easily ruined by careless and different laundering. We cannot do not hope to retain your patronage by slipshod work, and the best is none too good here.

TO PREACH SUNDAY ON SOCIETY MAN

DALLAS, Tex., Nov. 6.—(Special.)—The boll weevil convention today there was a larger attendance and, if possible, keener interest than at yesterday's sessions. The temporary organization served as permanent, George T. Jester acting as chairman until near the close of the morning session, when he called S. P. Peters of Calvert to the chair.

Professor Atwater of Houston, who is in the service of the Southern Pacific Railway company, read the best paper far presented, advocating his well known views on bird protection as a means to protect crops. Senator Willacy, author of the bird protection law, spoke in support and explanation of that measure. Big Senator McKamy also advocated strict enforcement of the bird law.

The report of the committee on resolutions contained a strong appeal to the national government to continue appropriations to assist in fighting the boll weevil.

Compression of the waist may be harmful, but if the right young man attends it most girls are willing to take chances.

TEMPORARILY SUSPENDS BUSINESS

Panhandle Live Stock Commission Company Rents Its Offices in Exchange Building to Greer, Mills & Company

The Panhandle Live Stock Commission company, which was organized at the Fort Worth market last year, has temporarily suspended business and has rented the office formerly occupied by them to the Greer-Mills Live Stock Commission company.

One of the main promoters of the Panhandle company was Colonel W. L. McGahey, who was elected president and general manager. Colonel McGahey is known throughout the state, having served several terms in the legislature and four years as land commissioner under the Hogg administration from 1890-94. Colonel McGahey is now at his home in Hood county and until he returns no definite action will be taken in regard to the reorganization of the company.

The Spartan Shoe

For \$3.50

It is now one of the leading shoes of today. They are snappy, stylish and serviceable. Can only be found at
