FEDERATION OF LABOR IS IN SESSION

Organization Assembles in Fort Worth Labor Temple Today
 MAYOR T. J. POWELL WELCOMES VISITORS
 President Max Andrews of Houston Makes Response to Mayor's Address

THE COMMITTEE ON CREDENTIALS NAMED

Convention Then Adjourns Till 2:30 This Afternoon—Many Delegates Already Here and Big Attendance Expected

The State Federation of Labor assembled in Labor Temple in this city this morning and was called to order by Mayor T. J. Powell, president of the city. The indications are that the Federation will be largely attended. There are several delegates here at this time, and the session will be in session several days. The delegates were called to order by Mayor T. J. Powell, who introduced Mayor T. J. Powell as a welcome address.

The Chairman and delegates: It is a honor and an official pleasure that I am being privileged to extend a cordial welcome to you all. It is an honor to have several years has been free from conflict between labor and capital. While there have been some things which have caused a friction between employers and labor, the wise leadership which has held it into action has brought about settlement. Labor conditions today are the most beautiful word painter has not show him a drop of water and he will see the ocean, and exhibit to him the faces of these representatives of the labor organizations of Texas. I see the hope of the hope of a few leaders a few years ago, all struggling to one another's betterment of yourselves and of your companions. A man's duty is first to himself and next to himself. When he is contemplating that in the various ways there is an elevation of the citizen and the betterment of mankind, that is the world movement which should be the aim of the people, more than any other labor cause. The year just past, or going back a little more than a year, it is a demonstration to me and to all men that there is a promise in the labor movement of a better citizenship. There is more intelligence, more knowledge and more sympathy for your cause. The lamp which burns today, the lamp of tomorrow, and the lamp which burns tomorrow has an added glow because of the lamp which burns today.

REFERS TO EXPRESSMEN
 Struck by a singular fact in connection with the recent strike of the expressmen. Every man in business in Fort Worth expressed sympathy that the express men should strike, though lost, because it failed, because it enlisted the sympathy and educated the people, for the cause. Though a losing fight, it will be the results in the way of a victory.

DR. ANDERSON HONORED
 GEORGETOWN, Tex., Nov. 16.—Dr. J. C. Anderson of Granger, has been appointed to represent Texas on the committee on legislation of the American Medical Association. The appointment was made by Dr. Chas. A. L. Reed, chairman of Cincinnati, Ohio. The appointment of Dr. Anderson on this important committee will be received with pleasure by the physicians of Texas as he is eminently qualified for the important post.

TANK WAS DYNAMITED
 GUTHRIE, O. T., Nov. 16.—It has been ascertained that the Fort Smith and Western water tank in this city was dynamited by unknown parties shortly after its recent construction and torn to pieces. The company is offering a reward for the arrest of the guilty party. It was done, it is alleged, by a man whom the company refused work.

NEW HOTEL FOR ENID
 ENID, O. T., Nov. 16.—Colonel Billings, landlord of the Frantz hotel, has closed a deal for two lots in the business section for \$5,500. He will build a hotel on the site, commencing as soon as the lease on the buildings now on it, Colonel Billings is on Governor Ferguson's military staff.

State Federation of Labor Opens Convention in this City
FORT WORTH TELEGRAM

TABLOID NEWS
 State Federation of Labor convenes—Fort Worth engineer killed—Heavy frost predicted tonight—Big fire in Cleveland, O.—The battleship Maine reaches Colon.

FORT WORTH, TEXAS, MONDAY, NOVEMBER 16, 1903.

VOL. XX. NO. 131.

C. W. Woodman of Fort Worth, Secretary-Treasurer State Federation of Labor.

Andrews, president of the State Federation of Labor, Mr. Andrews thanked the mayor heartily for the welcome extended. He said the delegates from Fort Worth a year ago at Houston promised the State Federation a Labor Temple in which to meet if they would come here, and they have it. He complimented the union organizations of the city on that result.

Mr. Andrews then introduced Rev. James S. Myers of Fort Worth, who invoked divine blessing on the gathering. The Federation was called to order and President Andrews then announced as assistants to Secretary Woodman, F. C. Southern of Fort Worth, R. S. Cooke of Austin and Frank R. McCurdy of Houston.

The following credentials committee was appointed—Walter Petzet, San Antonio; J. R. Spencer, Waco; M. B. Leach, Houston; George A. DeQuey, Galveston, and A. W. Hartman, Fort Worth.

The convention took a recess until 2 p. m. to give the credentials committee an opportunity to formulate its report.

SOME OF THE VISITORS
 E. S. Hughes, state printer, is attending the convention. Mr. Hughes is a member of the Austin Typographical union, and since he has had charge of the state printing has inaugurated a number of reforms.

R. J. McCool of Tyler, chairman of the legislative board of the Brotherhood of Locomotive Engineers, is a visitor to the convention.

Frank B. Graves is a typographical delegate from Cleburne.

There appears to be no doubt that C. W. Woodman of Fort Worth will be re-elected secretary of the State Federation. His union work at Thurber shows up well in his last year's records.

Max Andrews, president of the Federation, who comes from Houston, is spoken of as the "Little Giant" in the labor movement in this state.

Mrs. Emma Lanphere, national organizer for the Clerk's Union, is attending the convention. It was the pleasant duty of Jake Stine of the Fort Worth Trades Assembly to pin her badge on her this morning, and welcome her to Fort Worth.

F. B. McCurdy of Houston is chairman of the label committee of his local union. He tells of a fund of \$25 per month for "pushing the label," which is an interesting story to other union men who live in towns which are not energetic on the label work.

Rev. James S. Myers was a pleasant visitor at the morning session, and his views on the labor movement found a ready response in the minds of many delegates.

Mayor Powell was generously applauded when he made his address of welcome.

DR. ANDERSON HONORED
 GEORGETOWN, Tex., Nov. 16.—Dr. J. C. Anderson of Granger, has been appointed to represent Texas on the committee on legislation of the American Medical Association. The appointment was made by Dr. Chas. A. L. Reed, chairman of Cincinnati, Ohio. The appointment of Dr. Anderson on this important committee will be received with pleasure by the physicians of Texas as he is eminently qualified for the important post.

TANK WAS DYNAMITED
 GUTHRIE, O. T., Nov. 16.—It has been ascertained that the Fort Smith and Western water tank in this city was dynamited by unknown parties shortly after its recent construction and torn to pieces. The company is offering a reward for the arrest of the guilty party. It was done, it is alleged, by a man whom the company refused work.

NEW HOTEL FOR ENID
 ENID, O. T., Nov. 16.—Colonel Billings, landlord of the Frantz hotel, has closed a deal for two lots in the business section for \$5,500. He will build a hotel on the site, commencing as soon as the lease on the buildings now on it, Colonel Billings is on Governor Ferguson's military staff.

FIREMEN ARE CRUSHED BY A FALLING WALL

Cleveland, Ohio, Has a Dismal Blaze Early This Morning

THE PROPERTY LOSS IS OVER \$230,000

Blaze of Incendiary Origin Starts in Electric Railway Car Barn

FIRE CHIEF CAUGHT UNDER MASS OF BRICK

Four Others Are Also Injured by Wall Which Collapses Without Warning—Many Motors Are Destroyed

CLEVELAND, Nov. 16.—Three firemen were killed and two injured in the largest fire this city has suffered in months, early this morning.

Fire in the large street car barn of the Cleveland Electric Railway Company started at 2 o'clock. It is believed from incendiary origin.

There were one hundred motors stored in the building, which covered four acres, and all the available fire fighting apparatus was called out.

The motors were valued at \$2,000 each; the loss on the building is \$30,000.

The dead: ROBERT DUFFY, JAMES SCHWEIDA, ROBERT REED.

Injured—Michael Corrigan, Harry Van Develde and Battalion Chief Andrews.

Duffy and Schweida died almost instantly, being caught under a falling wall. Reed died an hour or two later.

T. E. Moore of Fort Worth, Vice President of the State Federation of Labor.

or not I do not know. But it does not matter. We can make precedents in this country.

"Such a course would not reflect on the able corps of scientists in the Department of Agriculture, whose time is so fully occupied with other matters and the time they give to the cotton boll weevil is merely an incident. Mr. Hudson, president of the San Antonio and Aransas Pass Railway company in Texas, and it is not one of the very important cotton hauling roads, told me a few days ago that approximately 100,000 bales of cotton had been eaten up on his line alone this year. That means a loss of \$5,000,000 to the farmers and proportionately large sums to the transportation lines, ginners and others.

"Half a million dollars would be a trifling sum for the government to pay to exterminate this pest and if no exterminator were found, no reward would be paid. That, by continued scarcity and high prices in the United States the cultivation of cotton will be fostered in other parts of the world and we lose a market which we have almost monopolized for so long. The situation is very serious."

Mr. Slayden is making a most earnest fight before congress for the elimination of this pest. He took up the fight in the 57th congress, has been pushing it ever since and now feels confident that steps will be taken by the government to put an end to the destruction of crops.

TREATY WILL OCCUPY WEEK IN CONGRESS

No Other Business Will Be Disposed of—Morgan May Postpone Remarks Regarding Isthmus Till Later

WASHINGTON, Nov. 16.—It is the intention of the senate leaders to confine as closely as possible the legislation of the present extra session to the bill to carry into effect the Cuban treaty, and with that end in view, the daily sessions of the senate during the present week will be taken on Thursday or Friday until the following Monday. The work of introducing bills and of presenting petitions will go forward, but with the exception of the Cuban bill, neither bills nor petitions will be taken up in committee nor discussed in the senate during the week.

It is quite well understood that Senator Morgan is prepared for a prolonged discussion of the situation on the isthmus of Panama, but while he seems not to have taken any one into his confidence, the general supposition is that he will defer his speeches until the new canal treaty shall be sent to the senate. There is an understanding on the part of the senators that even though the negotiations of the new convention are completed, it will not be transmitted to the senate until the beginning of the regular session of congress in December. It is expected that the Cuban bill will be referred to the committee on foreign relations, which will begin its consideration at once.

The committee on military affairs will meet during the week to consider the nomination of Gen. Wood, and as soon as practical after the convention committee reports on it, the question of confirmation will be brought before the senate in executive session in consideration of other nominations.

Senator Hale, who is chairman of the Republican Committee on Organization of the senate committees, expresses the opinion that the reorganization will be completed by the close of the week. Other senators say it will be impossible to complete the work until the following week.

LODGE ELECTION

HILLSBORO, Texas, Nov. 16.—Imperial Ruling 911, Fraternal Mystic Circle, has elected the following officers: J. A. Matthews, W. R. John S. Capps, W. V. R. M. E. Hanson, P. R.; A. P. Horton, C.; Sam Smalley, R.; Frank Harvick, collector; Charles Bruner, treasurer; John P. Mackey, M.; John E. Hunt, W.; Walter Moore, G.; John W. Ratliff, sentry; Dr. J. M. Martin, examiner.

CELERY SUCCESSFULLY GROWN

GUTHRIE, O. T., Nov. 16.—H. A. Bletcher of Perry has successfully demonstrated that celery may be grown profitably in this territory. He planted an entire lot, 50x50, in celery last April and thus far has received therefrom \$400 and the best of the season of the year is just approaching for that product.

TRACKLAYERS NEAR ENID

ENID, O. T., Nov. 16.—Tracklayers on the Arkansas Valley Western road, building through Enid, from Tulsa to Avard, are within seven miles of Enid. Work on the track will be completed, it is thought, by December 1. Several delays have retarded the work but plenty of material is on hand to finish the track, and unless there is bad weather, the work will be completed to this point by the time estimated. The citizens are planning a celebration of the event.

SAYS CHURCH SHOULD NOT BE ENDOWED

Bishop Duncan Addresses the Methodists on the Subject "Making of Wills"

PEOPLE FORGET THE WIDOWS AND ORPHANS

Give Away All Their Property to Their Own Relatives

THEN THEY BESTOW THEMSELVES ON GOD

He Will Make Appointments Late This Afternoon—Morning Session of Conference Devoted to Reports

This morning's session of the Northwest Texas Methodist conference was signalized by a few remarks by Bishop W. W. Duncan, the presiding officer, on the making of wills. The remarks were brought out by the report of the Educational Board delivered by Rev. Jerome Duncan and commented on by Dr. G. C. Kilgore, financial agent, and Dr. W. L. Nevins.

Bishop Duncan urged the ministers to advise with members of their flocks when the latter make their wills.

"As a rule in making a will a person starts off by complimenting the Lord by recognizing his existence," said the Bishop. "He then proceeds to give away all his earthly possessions to children and wife and perhaps other relatives and then, at the end, bestows himself upon God and asks God to take him. In his will he does nothing for God. He does not think of the widows and orphans, of the poor and the outcast—he does not think of the Son of God.

"The last thing a minister should do is to advise a member of his church to endow his church, or to endow any other church. As an endowment for a church is the first spade of dirt thrown from the grave in which that church is to be buried. I have never known an endowment to fail to kill a church.

"But in the making of wills there are orphanages, rescue homes, educational institutions to be remembered and in remembering them the people who do so are giving to God.

MONEY'S ONLY USE.

"I don't know what your experience has been, but I have never found any use for money on the face of the earth, except its power to do good. And don't be afraid to tell the rich members of your church this truth."

At another time, near adjournment for the noon meal, following a minister who had eloquently referred to the feelings of those in the conference, of power, the tremor and the sensation which all experienced. Bishop Duncan advised all present not to drink so much coffee and tea and not to smoke and chew so much. "Then you won't tremble," he said. "We shall adjourn in a few minutes and a good dinner, I believe will cure that sensation."

It was expected that the conference would adjourn finally at noon but it was found impossible to finish the work, owing to the large number of reports necessary to be read and adopted and commented on. The statistical secretaries were not ready with their reports on church property, etc., and these were heard this afternoon.

When the conference adjourned for luncheon it adopted a motion to reconvene at 3 o'clock. There will be several reports by committees this afternoon and then Bishop Duncan will read out the appointments of which there are about 260.

The committee on state of the church and collections were good.

The committee on books and periodicals made a report which showed a vast amount of work accomplished. The Nashville and Dallas publishing houses were in a prosperous condition and over 500,000 copies of periodicals had been distributed in the last year. There was a profit shown of \$5,000.

RANKIN ON PROHIBITION.

Dr. W. L. Nevins and Dr. G. C. Rankin, the latter being editor of the Texas Christian Advocate, commented on the result brought about by the \$25,000 libel suit against the Advocate by reason of an issue of its prohibition articles and said that it was a matter of regret that under the libel laws of Texas it was possible for a man to receive damages by insinuating he was afflicted with mental anguish. He told of the fight being made by the Texas Christian Advocate for prohibition and urged the ministers to support the paper.

The report on Sunday schools was made

CONVEY

HILLSBORO, Texas, Nov. 16.—The remains of A. G. Convey were brought in from Kerrville today and will be interred Tuesday by the side of his mother in the old cemetery. He was formerly city assessor and collector of Hillsboro.

UNUSUAL INDIVIDUAL

"He is positively uncanny—he is so unlike the average man."
 "Why, what's the matter with him?"
 "I don't know. I told him today that I was suffering from a bad cold and he didn't suggest a single remedy for it."
 Cincinnati Times-Star.

EXPORTS OF COTTON FOR LAST MONTH

Figures Show That Their Value Averaged \$2,000,000 Per Day—Value of Cotton Exported Breaks the Record

WASHINGTON, D. C., Nov. 16.—(Special.)—Two millions of dollars a day is a snug sum for the total receipts from the sale of a single agricultural product in a single country, even such a country as the United States. This is a figure shown by the report of the Department of Commerce and Labor, through its Bureau of Statistics, as the value of the cotton exported from the United States in the month of October, 1903.

The preliminary state of the bureau for the October exports shows the value of cotton exported in the month of October, 1903, to be \$60,283,412, against \$42,000,000 in October, 1902, \$46,000,000 in October, 1901, and \$60,474,437 in October, 1900. The total quantity exported in October, 1903, shown by this preliminary statement, was 594,540,872 pounds, being an average price of 10.1 cent per pound.

This figure of \$60,000,000 receipts for cotton in a single month is not equaled in the history of cotton exports in the month of October, 1900, when the total value of cotton exported was \$60,474,437. Even the figures of \$60,283,412 for the month of October, 1903, are subject to a slight prospective increase, as this preliminary statement of the Bureau of Statistics does not include the figures of certain distant ports through which small quantities of cotton are exported.

It should not be understood from the above statement that the value of cotton exports of the United States averages \$2,000,000 per day the year around, although they have averaged \$2,900,000 per day during the month of October. Taking the entire year, it may be said, however, that the value of cotton exports now averages \$1,600,000 per day for each business day of the year. In the twelve months ending with October, 1903, the total value of cotton exported was \$20,406,314, and in the fiscal year ending June 30, 1903, was \$316,180,429.

These figures, either those of the fiscal year ending June 30, 1903, or those of the twelve months ending October 31, 1903, show a larger total (that of value received for cotton) than in any preceding year in the history of the country. In only two fiscal years in the history of the country has the value of cotton exports exceeded \$300,000,000, namely, 1901, \$313,673,443, and 1903, \$316,180,429. Prior to 1860 the exports of cotton had never reached as much as \$200,000,000 in value. From 1866 to 1900, the value of cotton exports ranged between \$200,000,000 and \$300,000,000 and in 1901 \$200,000,000 and in 1902 \$290,000,000 for the first time, passed the \$300,000,000 line, being as above indicated, \$313,673,443; in 1902 they dropped to \$290,651,819 and in 1903 were \$316,180,429, while in the twelve months ending with October, 1903, the total is \$320,406,314. In quantity the figures of 1903 do not reach high-water mark, being for the fiscal year 3,543,943,622 pounds against 3,850,264,295 in 1898, the year of the largest export in quantity. The increased price, however, has resulted in the facts above stated, a greater total value of cotton exports in 1903 than in any preceding year.

The total value of cotton and its products exported from the United States in the fiscal year 1903 was \$376,767,645, or an average of more than \$1,000,000 per day.

CONGRESSMAN SLAYDEN ON BOLL WEEVIL

He Tells The Telegram Correspondent That Extermination and Not Early Planting Is the Only Remedy

WASHINGTON, D. C., Nov. 16.—(Special.)—Representative Slayden from the San Antonio Congressional district whose territory has been ravaged by the cotton boll weevil, does not find much encouragement in the position of Secretary of Agriculture who has just returned from a study of the pest in the Texas cotton fields.

Mr. Slayden said to The Telegram: "I see that Secretary Wilson says that the pest cannot be exterminated, that it is bound to sweep over the cotton country and that the evil can only be mitigated by early planting. He also says that we should plant early and get in the crop before the weevil has an opportunity to destroy it.

"I have profound respect for the ability and character of Mr. Wilson and I therefore regret to have to differ from him. What he suggests is not practicable—at least not entirely so. Whether cotton is planted early or late in Texas does not depend upon the will of the planter. The seasons regulate that, and the seasons in Texas cannot be regulated. The weevil did millions of dollars of damage in South and South Central Texas this year in August and September, during which months cotton continues to bloom and to fruit. In my opinion, the state of Texas has adopted the right course in offering a reward for a complete remedy for this distressing situation. Our state has offered a reward of \$50,000 open to the world for the discovery of a practical method of destroying the weevil.

"Suppose the Federal government were to offer five times as much would it not stimulate the men of science to even greater exertion? I am told that when the vineyards of France were in danger from an insect a reward of \$100,000 was offered for the finding of a remedy, and that it was found. Whether that is true

Specialties in Little Gents', Boys and Youths' lines, at popular prices—all leathers. We are "Foot Fitters" for the little ones.

MONNING'S

AMERICAN MAY BE PRESIDENT OF REPUBLIC

Frederick Boyd Is Very Popular With People of Panama. Native of the New State Talks of Revolution

Senor Jose Juan de Yeaza, a native of the new state and republic of Panama, was in El Paso this week, says the Times. Regarding the recent rebellion at Panama, he says: "The recent action in declaring themselves a free and independent government has been brewing with the citizens of Panama since the failure of the last revolution and has recently been given impetus by the refusal of the Colombian government to ratify the treaty with the United States whereby the longed-for Panama canal would be built."

"The state of Panama voluntarily entered into the United States of Colombia on the promise and with the belief that they would be treated as an equal state with equal voice in the administration of affairs, but as time went on it dawned upon the citizens that this expectation was vain and that for the past eighty-five years they have been nothing but the vassals and footstools of the Colombian government, used by the men in charge to make more money that it might be spent in lavish and extravagant ways by the heads of the government."

"This naturally created a feeling of discontent, but the people soon found that while it was very easy to enter the union, that it was entirely another matter to withdraw, and they have had to endure in silence until this last of all indignities was heaped upon them—the failure to ratify the canal treaty. As the people saw the realization of their dream fading away from them, they decided to strike, and the blow has fallen and Panama is no longer a part of the south federation and is recognized as an independent state by two of the strongest nations on earth and with the recognition he says that he has no doubt that she will be able to maintain her independence."

He says that Sen. American, Frederick Boyd, now one of the representatives of the new government, on his way to the United States, will likely be the first president of the republic. He says that Boyd is an able and brainy man and very dear to the people of Panama on account of his fair and equitable administration of affairs in the state while a representative of the Colombian government, and afterward, being convinced of the injustice done the state by the government of which he was the representative, he espoused the cause of the revolution party and was one of the ring leaders in the recent movement that severed the state from her master for all times to come.

He says that the government of the United States is looked upon by the people as the greatest nation on earth and that this country, with the assistance of the \$10,000,000 that the United States will pay for the canal concession, will be able to start on a stable basis and that he entertains no fears for her future.

He says that with the clause in the canal treaty that stipulates that the United States will improve the sanitary conditions of the canal strip, that malignant fevers of all kinds will be wiped out and the government and people will be free to develop those latent resources of the state, of which he says she abounds.

ZIEGLER IS INDICTED

Cold Day for Millionaire Arctic Explorer at Jefferson City. ST. LOUIS, Nov. 16.—William Ziegler, of the so-called baking powder trust, otherwise the Royal Baking Powder Company of New York, has been indicted by the grand jury at Jefferson City on a charge of complicity in the bribery of certain members of the legislature. It is supposed that Ziegler is in New York.

In 1909 the "trust" obtained the passage by the legislature of a pure food law from which the manufacture of baking powder containing alum was prohibited. 1901 the alum baking element made a strong effort to have this measure repealed. The measure passed the house but in the senate the bill disappeared. Subsequently it appeared that certain senators had obtained money through Lieutenant Governor Lee in return for their services in killing the bill. Ziegler is several times a millionaire and has attained some fame as an Arctic explorer.

COTTON AT DENTON

DENTON, Texas, Nov. 16.—The cotton crop in Denton county is turning out better than the most optimistic and hopeful farmers thought it would. The lateness of the fall has been a good thing for the cotton in this county, the late bolts having had time to mature and make cotton, whereas an early frost would have killed them. There is lots of cotton to open yet, particularly on the bottom lands, and lands that partake of the nature of bottom. From the way it looks at present there will be many bales of cotton in the fields this Christmas in this county. Notwithstanding Lewisville, Garza, Roanoke, Aubrey, Arzyle, Pilot Point, Justin, Ponder, Krum and Sanger are all very good cotton markets in this county, as well as Denton, and notwithstanding the backwardness of the season and the great quantity of cotton still in the patch, Denton has received 7,822 bales. After all, the boll weevil was merciful enough to leave a good cotton in Denton county.

UNFORTUNATE "She bears the appearance of one who has seen some great sorrow." "She has. You see, she is a collector of antiques and bizarre bric-a-brac. Finally her home got so full of her battered treasures that people were continually mistaking it for a second-hand store."—San Francisco Bulletin.

RESOLUTIONS ADOPTED BY TARRANT BAR

Death of Hyde Jennings Made Topic of Meeting of Association This Morning—Tributes to Lawyer's Ability

An adjourned meeting of the Fort Worth Bar Association was held in the Forty-eighth judicial court room this morning at which the report of the committee appointed at a former meeting was made on the death of Hyde Jennings, whose death occurred the early part of last week.

Tilman Smith, in the absence of Col. R. M. Wynne, was made chairman of the meeting this morning, and on motion E. C. Orrick was called upon to read the resolution which had been prepared, which was adopted on motion of Q. T. Moreland, seconded by Judge J. C. Scott.

The resolution was as follows: To Hon. R. M. Wynne, Chairman of the Bar meeting: We, your committee, appointed to draft resolutions on the death of Hyde Jennings, late a member of this bar, beg leave to make the following report:

An Anglo-Saxon, stalwart in his convictions, a pattern with the ancient lawyers who wrote Magna Charta, Hyde Jennings the man of original mind, of strong intellect, now sleeps in the bosom of the state in which he was born.

He was an individual man. He was his own prototype, and his own mind was the mold from which his ideas took shape. If ever he borrowed thought his rich mind repaid it with usury. He had the acumen of the natural lawyer, and his clear, comprehensive intellect made him a wise man whose sage counsel was a rudder in a sea of bewildering doubt.

He was a learned man, widely read in things exotic as well as in the lore of the day, and from the warp and woof of these materials he created new ideas as easily as the oyster creates the pearl within its shell.

He hated stunts and had a distaste for badges. He loved the gospel of truth for its own sake and cared nothing for applause. As a citizen he was just and honest because it was right to be so, and in a quiet, unobtrusive way he practiced a quiet charity which he screened from the public view to the young man always benighted.

As a lawyer he would have ornamented the bench and imparted firmness to judicial decision. The community has lost a friend, and a great man has passed beyond the gateways of our vision into the realm where the hosts of silence sleep the centuries away. Therefore be it

Resolved, that we deplore his death and mourn with his family upon whom his death has cast the pall of a deep sorrow; and be it further

Resolved, that we spread this memorial of our grief and this testimonial to his intrinsic virtues, clean and un-sullied life, upon the minutes of the courts of this county, the court of civil appeals of this district, the supreme court of the state, and that a copy of these resolutions be presented to the members of his family, and to the public press.

Respectfully submitted, E. C. ORRICK, A. M. CARTER, SIDNEY SAMUELS, R. E. BECKHAM, W. D. HARRIS, Committee.

Speaking of the resolution, Judge William Thompson said the resolution paid a just tribute to the memory of the deceased member of the bar. He further praised his memory by saying that Judge Jennings possessed a splendidly equipped legal mind, and had been permitted to live would have still added further lustre to himself and been a credit to the Fort Worth bar. "Judge Jennings was always kind and considerate to the young members of the profession and it gave him delight to be able to assist and lend a helping hand to the lawyer just beginning to practice," said Judge Thompson. He said the deceased possessed another quality that he admired very much, and that was his independence; that he was always free from the influence of public opinion, as he cared very little about what the public thought. Judge Thompson concluded by saying that while Judge Jennings was no more, his memory would not be forgotten.

Sidney L. Samuels also paid the deceased a glowing tribute and said that he had known him while he (Samuels) was just entering the practice of the law, and to him Judge Jennings was more than a friend and companion. "The deceased was a philosopher and had a mind like a sponge, absorbing the law which to him was as natural as the growth of the grass," said Mr. Samuels. "Judge Jennings," said Mr. Samuels, "was a safe counselor; he dared to brave public censure and honesty was a part of his nature."

On motion the committee on resolutions was continued with instructions to present copies of the resolution to the deceased's family, the different courts and to the public press.

Judge W. D. Williams also moved that the same committee prepare resolutions on the death of the mother of former County Judge R. H. Johnson and to report the same to a future meeting of the bar association. The motion of Judge Williams prevailed and the association adjourned.

CLOSE TO NATURE

WHY SUNSHINE BRINGS HEALTH.

EVERYONE knows that the pure country air and a chance to close to Nature in the fields and woods, is sure to invigorate animal spirits and bodily health. We are only civilized, after all, and the present dwellers in the cities are cramped and live in badly ventilated rooms or factories filled with the germs of disease—of grip, consumption or catarrh. They are compelled to eat lunch hastily, and, in fact, to run the human machine at all improperly that they are constantly in danger of being sick. Sunshine and good air are essential for good health. Nature provides the destroyer, if we only find it, in a life in the open air and sunshine. We are run down physically, if our blood has too many of the white blood corpuscles and not enough of the red corpuscles; if we are anemic, or with pimples or hives appearing on the skin, it is a warning that we need a little of nature's cure. For these conditions confined indoors and need a strengthening tonic, a blood and nerve builder, there is a remedy provided by Nature which is sure and effective. Alternative Extract from roots and herbs, without the use of medicine which nourishes the tissues and nerves with good red blood medicine was the discovery of Dr. R. V. Pierce, the founder of Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. It was used by druggists thirty-seven years ago or more and has become more popular every year since, under the name of Dr. Pierce's Golden Medical Discovery. Dr. Pierce receives quantities of grateful letters and testimonials every day. It would take all of this newspaper's space to tell those received in a single month. Here is a sample:

"About seven years ago my health failed, and I tried different doctors but they could not help me," writes Reuben S. Kieppinger, Esq., of Highton, Pa. (Box 673). "I was still getting worse. Had a cough in chest, night-sweats, was weak and nervous. I decided to write to Dr. R. V. Pierce, of Buffalo, N. Y., and state my case. I received a prompt and careful reply, which I still have in my possession. The medicine was a complicated one, involving the nasal and other air-passages. I was a catarrhal condition extending from head to the bronchus and lungs. The use of Dr. Pierce's Golden Medical Discovery and Dr. Sage's Catarrh Remedy was advised. Dr. Pierce's Golden Medical Discovery, also some of Dr. Pierce's Pleasant Pellets, and these remedies have done their work. Since that time I don't believe I have lost a day's work on account of sickness. Am well and have been able to do anything ever since. Thanks seem but a slight return for all the good medicine has done me."

"About two years ago I consulted a physician to try and get relief from a cold which had stopped up my head, and also settled on my lungs, causing catarrh in a very bad form, and also throat difficulties," writes James Thomas E. Bourquin, 1808 Ogercher Road, Savannah, Ga. "He gave me some medicine, but one month's faithful use of same failed to do me any good, so I decided to try Dr. Pierce's Golden Medical Discovery, and bought a bottle. After using it a few days, my lungs began to heal, I could not cough nearly as much nights, slept much better, and in two weeks the cold, cough, catarrh and throat difficulty were all cured. I am certainly pleased with the results, and so wish to write you of it."

"We quote from the New York Journal the following: 'In Allen street, in eight blocks of tenement houses, live ten thousand seven hundred and thirty-seven human beings. The features of this miserable street are: 'Darkness; Dampness; Disease; Death. The deaths are especially plentiful among the very young children. Of all the New York streets in which evil conditions destroy children, life Allen street is the worst. It has a record for killing children under five years of age.'"

"The street is very narrow, and the Second avenue elevated railway running through it, filling it from house to house, roofs it in, making it a dark, gloomy tunnel. On the ground it is dark all day, the lamps are always lighted. Diseases of the eye, pneumonia, tuberculosis, the rickets and other troubles of ill-nourished children, are features of this street. 'Among the dirt, the dim, the darkness, the dampness of this infernal death tunnel, children are supposed to 'play.'"

"Do you wonder that they are deformed and sickly? Do you wonder that they die off before they reach the age of five. As well try to grow a flower in a cellar as to bring up children in that horrid street to which poverty and the city's culpable neglect condemn so many families."

WEATHER CONDITIONS

FORECAST

For Fort Worth and vicinity—Tonight, fair and much colder; but probably not colder than 35; heavy frost Tuesday, fair and continued cold.

For Texas east of the 100th meridian, issued at New Orleans, Louisiana, Nov. 16, 1909. Tonight and Tuesday, fair except probably rain in east portion tonight; colder in south portion; decidedly colder with freezing tonight in north portion; cold wave in extreme northeast portion; temperature will fall to 28 Tuesday.

WEATHER RECORD

It is much colder this morning throughout the northwest and Rocky Mountain states. The greater portion of the country west of the Mississippi is under the influence of a cold wave; the thermometer has dropped nearly to zero in Montana and the Dakotas, and the freezing line has advanced well southward skirting the northwestern portion of Texas. The cold wave is advancing eastward and southward and will reach the Rio Grande tonight and the Atlantic coast by Tuesday night. Snow is falling in the Dakotas but is generally clear or clearing in the west and south. GEORGE REEDER, Official in Charge.

WEATHER RECORD

Following is the weather record for the last twenty-four hours—minimum and maximum temperature, wind in miles per hour at 8 a. m. and rainfall in inches:

| Stations— | Temperature. | Wind. | Rain. |

REPAIRING CARRIAGES

Pope Plus X. Expresses Intentions of Taking Drives

LONDON, Nov. 15.—The papal carriages with the armorial bearings of Pope Plus IX. were not interfered with by Pope Leo XIII., who never had any use for them outside the Vatican. Now, however, much to the surprise of the Vatican officials, Plus X. has directed that they be put in order for immediate use, and that his own escutcheon shall replace that of his illustrious namesake.

FEVER AT LAREDO

LAREDO, Texas, Nov. 16.—The official yellow fever report yesterday, at the end of the second month of its recognized appearance in Laredo, reads: Total number of cases to date, 888; total number of deaths to date, 84; total new cases reported in the past twenty-four hours, 2.

It is believed that the situation is in hand now, and five days after the entire brigade of inspectors went to the 100 street yesterday, the number of daily will begin to considerably decrease.

Today's Market Quotations

Latest and Most Complete Report Printed in North Texas

The receipts of cattle today for active trading were about 3,500 head with eighteen cars in sight for late arrival. Receipts to increase the receipts to about 4,250 head for the day. With enough to go around and more in sight buyers were a little slow in starting in, the market opening slow and weak. Sellers generally quoting it 5 to 10 cents lower than last week's close. Considering the heavy run, steers were scarce, the bulk of the receipts being cows and calves.

Best range cows today sold around \$2.20, with the bulk of sales on the fair grass kinds at \$1.50 to \$1.95. Although the calf supply was large the quantity was good and the market ruled steady. Choice light calves averaging 140 pounds selling at \$4.00, with the bulk of sales at \$3.25 to \$3.50.

A few bulls were in and sold at unchanged prices. The supply of hogs today including ten cars which arrived at noon for the afternoon market, was comparatively large, though not above the estimated receipts placed by the buyers last week. The good tone of the closing markets last Saturday helped to sustain values somewhat and this was manifested on the morning market, the early run changing hands at steady, strong prices with last week's close.

One load of choice corn and alfalfa fed medium weight butchers shipped in by H. Downing of Norman, O. T., topped the market at \$4.90. There were 93 head of them and they averaged 198 pounds. The bulk of trading in the average grade butcher stuff was done at prices ranging from \$4.70 to \$4.80, with a few sales on heavy rough cows at \$4.50 to \$4.90. The heavy arrivals of hogs on the late market had a depressing effect on morning values causing a small decline from the opening. Which sellers were slow to accept, the market finally closing slow and weak at almost 5 cents lower.

From present indications this week's average weight of good hogs at this market will be light which shows plainly that they have been put on feed at a later date than usual. From the present outlook no very heavy runs of hogs of big weight are to be expected the balance of this month. Yet packers all over the country are holding the trade well in hand and the prospects are that the narrowing process in prices will be continued in the year future though the range in prices are the narrowest the markets have experienced in a long time.

FEDERATION OF LABOR.

At 2 o'clock the state federation re-assembled and while waiting for the committee on credentials the annual report of President Max Andrews and Secretary C. W. Woodman were read.

LONDON SLEUTH MAKES A CATCH

Four Men Wanted in Connection With \$50,000 Robbery Are Caught

NEW YORK, Nov. 16.—Four men have been arrested in connection with the stealing of jewelry worth \$50,000 from the auction rooms of Knight, Frank & Rualey, in Conduit street, a month ago, cables the London correspondent of the Herald.

It was by a clever scheme on the part of the famous detective, Chief Inspector Drew, that the men were tracked down simultaneously and arrested in various parts of the north of London.

Traced by their finger prints, the men were discovered two weeks ago, and without them knowing it, they have been shadowed day and night. Before making the arrests Inspector Drew wanted, if possible, to trace the missing jewels but failed. Then Drew decided on a daring coup.

HOSKINS' LAWYER TAKES NON-SUIT IN CIVIL CASE

In the Forty-eighth district court this morning, Judge Robert Seay of Dallas, representing Oran Hoskins, made a motion for a continuance in the case of Oran Hoskins, by next friend, Mrs. Nellie Hoskins vs. the Frisco railroad system. After hearing the motion argued, Judge Irby Dunklin refused to grant a continuance.

Judge Seay then took a non-suit. The suit probably will be re-filed before the next trial of the criminal case against Mrs. Hoskins and son.

The case in which a non-suit was taken today was the civil suit in which \$75,000 is asked for injuries sustained by Oran Hoskins. The first trial of the civil suit resulted in a verdict for \$35,000 for Hoskins. When Colonel R. M. Wynne made his affidavit to the effect that the case was a fraudulent one this judgment was set aside and a new trial granted.

Early in the morning there might have been seen walking toward the house of each suspect a milkman who wore the usual glazed hat and carried the usual money pouch and milk bucket with an can around the side.

His cry rang out lustily as he came down the street. When at the door of the house he knocked loudly. The door was opened, the milkman stepped inside and the professional air at once left him as he raised his hand above his head.

At a signal four men came hurrying from hiding places nearby. All were detectives, the milkman disguise having been adopted for the purpose of securing admittance.

Together they mounted the stairs to the bedroom of the man they wanted and in each case the man was found in bed. The prisoners were quickly bundled off to the nearest station.

Jewelry, including gems taken out of their settings, were discovered to the value of several hundred pounds.

J. O. ARMOUR PLEASED WITH STOCKYARDS

Party of Armour Officials Visiting Fort Worth Praise Evidence of City's Prosperity and Growth

A party of packing house magnates composed of J. Ogden Armour of Chicago, Watson Armour of Kansas City, S. McRoberts of Chicago, Walter Herlick of Chicago, and C. H. Hodges of Kansas City, visited the packing plants, yards and exchange this morning, the guests of General Manager Homer A. Judd of Armour & Company's plant here.

J. Ogden Armour said to The Telegram: "I am well pleased with our local plant and think it one of the most modern of our packing houses. The yards are the best arranged and most up-to-date to be found anywhere and the exchange building is one of the best in the country. I am perfectly satisfied with everything and think Fort Worth is destined to be a great market."

Mr. Armour stated that there was no particular significance attached to his visit and that he was simply on a trip of inspection and to see more of Texas. The party will leave for Dallas in the morning and from there to Kansas City tomorrow evening.

REPORT ON HARVEY

WASHINGTON, Nov. 16.—(Special.)—Commissioner Jones has forwarded recommendations to Secretary Hitchcock on Superintendent Harvey of the Pawnee, I. T., reservation. It can be stated by good authority that the report is unfavorable and recommends his removal.

TO AID RUSSIAN JEWS

NEW YORK, Nov. 16.—A movement to put aside two per cent of their incomes to aid the Russian Jews in this country is to be started, according to Dr. Isadore Singer, president of the Zion Educational League. The doctor who announced his intention at a meeting of the league just held, also said that an attempt would be made to have the \$45,000,000 left by Baron De Hirsch to the Jewish Colonization Association administered in this country in aid of the work. Dr. Singer declared that there is no probability of emancipation for the Jews in Russia under present conditions and that the only remaining possibility lies in emigration to the United States.

FEVER SITUATION

SAN ANTONIO, Texas, Nov. 16.—(Special.)—Experts failed to find any new cases today up to noon. There were no deaths, and the sick are doing well. A meeting of doctors to raise the quarantine is in progress.

MAINE AT COLON

WASHINGTON, Nov. 16.—The navy department is in receipt of a cablegram from Colon announcing the arrival there of the battleship Maine.

ROBBED AN OLD WOMAN

NEW YORK, Nov. 16.—Because he could not face the charge of having knocked down and robbed an old woman, which crime he had previously confessed Isaac Weyner has knotted his suspenders and handkerchief into a noose and hanged himself in a city police station.

According to Mrs. Mary Golde, the woman who was robbed, Weyner whom she had known for several years, came to her apartment, ostensibly to rent a room. While she was showing him through the place, Weyner struck her on the head with a club, knocking her down. He then pulled her diamond earrings from her ears, mutilating the lobes. Weyner at first denied his guilt, but finally confessed and showed the officers where he had secreted the jewelry. He said that he had lost considerable money on the races recently and that this was the reason for the robbery. He leaves a wife and three children.

CAPT. CUMBIE'S APPEAL

Needs Donations to Help a Poor Widow and Her Children

Editor of The Telegram: The local Salvation Army officers have found a very worthy widow with three small children without fire, food or proper bed clothing. Through the kindness of one of our furniture men we obtained a small stove; another gave stovepipe. We need bed clothing and groceries and coal or wood. If our mill men and wholesale merchants will give something toward our work we will place donations where they will do the most good. Drop us a card and we will come for anything you will give. Yours to help the helpless,

CAPT. AND MRS. CUMBIE, 363 Rusk street.

SCANDAL IN BOSTON

Treasury Agent Find Evidence of Crooked Work in Boston

BOSTON, Nov. 16.—Special treasury agents sent to Boston by Secretary Shaw claim to have found evidence showing that the government had been mulcted in the sum of \$200,000 through collusion between persons employed in the appraiser's department. At least a score of importing firms in Boston are said to be concerned in the affair.

Three men are now awaiting trial by the government on charges of smuggling, which the government officials say has been going on for two years.

KING CHRISTIAN'S BIRTHDAY

COPENHAGEN, Nov. 16.—All the sovereigns of Europe have sent telegrams of congratulations to King Christian on the event of his birthday.

Some time afterwards coolies passing through the tunnel found the commander in chief lying there helpless and brought him to Simla. He is now reported to be doing well.

DELEGATES ARE WELCOME

Fort Worth today welcomes the delegates to the State Federation of Labor, and the words of welcome which have been spoken, are sincere in every respect.

The State Federation of Labor represents a class of people without whom no state or municipality can exist, and at the same time make progress.

Go or Telephone to H. Brann & Co. A full stock of whiskeys, liquors and wines for medicinal and family use.

TEXAS AND TERRITORY PENSIONS

WASHINGTON, Nov. 16.—The following pensions have been granted: Texas—John Maeneuch, Charles M. Rice, Robert C. Marsee, Gertrude S. McConnell, James C. Rich, Lawrence B. Wood, William A. Williams, James E. Wilson, Robert F. Schaefer, Israel F. Standifer, Daniel Gensel, Ernest A. Dorsch, Elizabeth Burton, Sarah Wood, \$5 each; John C. Williams, Asa B. Thomas, Harold W. Daniels, \$10 each; Alfred Reynolds, Ben A. Yarbrough, \$12 each; minors of Loyulus H. Schubert, \$12.

POSTAL NEWS

WASHINGTON, Nov. 16.—The following postmaster have been appointed: Lamont, Polk county, Emmett M. Ward, vice Middleton Tackeberry, resigned; Running Water, Hale county, Sallie Jones, vice Addie Windsor, resigned; Rattan, Delta county, Edgar P. Lowe, vice Joseph D. Allison, deceased; Sligo, Yukon county (new office), Kate McHugh; Tres Palacios, Matagorda county (new office), Dr. Arthur Wheeler.

AN HOTEL NEEDED.

In an interview in The Telegram Sunday Capt. B. B. Paddock suggests the need of a new hotel in this city. There is today but one first-class, American plan hotel in the city.

CURES WEAK MEN FREE

Insures Love and a Happy Home for All. Insures any man who quickly cure himself after years of suffering from sexual weakness, lost vitality, night losses, varicocele, etc., and enlarge small, weak organs to full size and vigor.

REPLICA AT THE FAIR

Contract for Duplicate of the Beauvoir at St. Louis is Awarded. JACKSON, Miss., Nov. 16.—Governor Longino and L. C. Enochs, member of the World's Fair bureau, have awarded the contract for building a replica of Beauvoir to J. F. Barnes & Co. of this city.

Following the overthrow of Colombian rule on the Isthmus of Panama, the representatives of the United States have gone to take charge of the canal work at once.

Brownwood's street fair is over, and the reports are that the crowds were large and all had a good time.

Now that we do not have to worry about the asphalt paving longer, suppose we take up the auditorium as a winter proposition and worry it to success.

Will the people of Fort Worth build that auditorium?

auditorium here. The building is needed for large meetings, and with it this city can get conventions. The amount necessary can be raised without a hardship on any one.

In an interview in The Telegram Sunday, Col. T. N. Jones of Tyler suggests that \$500,000 asked for by the Burgess bill, which is for the relief of the pest ridden cotton farmers of the south, is not sufficient and that millions should be asked for instead of thousands.

Col. E. S. Peters of the Texas Cotton Growers' association, has very wisely asked the cotton exchanges in the country to take some action looking to an endorsement of the Burgess bill to make an appropriation to fight the boll weevil.

FOR FAMILY LIQUORS

Go or Telephone to H. Brann & Co. A full stock of whiskeys, liquors and wines for medicinal and family use.

SECRETARY OF OKLAHOMA SANITARY BOARD

GUTHRIE, Ok., Nov. 16.—Regarding the fact that the grand jury of Oklahoma county, it is alleged, has asked for the removal of A. G. French, cattle inspector of Oklahoma county, for the alleged reason that he is charged with receiving \$4 from a Mr. Holzappel for the inspection of a cow, the secretary of the Oklahoma Live Stock Sanitary Board, Tom Morris, says there is nothing whatever in the charges.

REPLICA AT THE FAIR

Contract for Duplicate of the Beauvoir at St. Louis is Awarded. JACKSON, Miss., Nov. 16.—Governor Longino and L. C. Enochs, member of the World's Fair bureau, have awarded the contract for building a replica of Beauvoir to J. F. Barnes & Co. of this city.

Music and Drama

"HAPPY HOOLIGAN."

When "Happy Hooligan" comes to Greenwall's opera house tonight and tomorrow, matinee and night, all the latest and most popular music of the day will be heard.

and most popular music of the day will be heard. The management this season has paid a great deal of attention to the musical part of the entertainment, the result being particularly gratifying.

"ARE YOU A MASON?"

"Are You a Mason?" the farce that has kept Americans laughing for the last four years, is accounted one of the best pieces of dramatic property of the day.

KELCEY AND SHANNON.

Kelcey and Shannon in "Sherlock Holmes," will be the attraction at Greenwall's opera house Saturday matinee and night, Nov. 21.

THE RIVALS.

W. W. Heathcote and his pupils will present Sheridan Knowles' great classic comedy at the opera house next Wednesday night.

THAT HOLZAPFEL COW

Secretary of Oklahoma Sanitary Board

GUTHRIE, Ok., Nov. 16.—Regarding the fact that the grand jury of Oklahoma county, it is alleged, has asked for the removal of A. G. French, cattle inspector of Oklahoma county, for the alleged reason that he is charged with receiving \$4 from a Mr. Holzappel for the inspection of a cow, the secretary of the Oklahoma Live Stock Sanitary Board, Tom Morris, says there is nothing whatever in the charges.

"I have had full correspondence, covering the entire matter from the first," said Mr. Morris. "The cow in question was one for shipment to Caddo county and not for slaughter. Mr. Holzappel came to French to inspect the cow for shipment and was told by French that the cow did not need to be inspected for shipment; the Choctaw road, however, refused to receive the cow for shipment unless she was inspected, and I have a letter from Mr. C. B. Hart, the general agent for the Choctaw at Oklahoma City, saying as much. French then inspected the cow for shipment, doing this in the capacity of a live stock inspector and receiving therefor the sum of \$3 and expenses, allowed cattle inspectors by law. He fixed the total at \$4, which so far as I have ever been able to learn, was correct. Afterward, it seems, Holzappel went to French and wanted him to refund the \$4 on the grounds that the cow did not need to be inspected. French of course refused to refund, and this fact evidently angered Holzappel, who presented the matter to the last grand jury, which body threw it out as not sufficient grounds on which to return an indictment. Now it seems that Holzappel himself is the foreman of the present grand jury, a body that asks for French's removal. My honest belief is that Mr. French is entirely innocent of any wrong doing; as cattle inspector, whether he inspected one cow for shipment or an entire herd, he was entitled to his \$3 and expenses under the law."

MAXIM & GAY CO.

(INCORPORATED UNDER THE LAWS OF THE STATE OF NEW YORK.) ESTABLISHED THREE YEARS. CAPITAL, \$50,000. BEFORE THE PUBLIC EVERY DAY. NEW YORK, NEW ORLEANS, CHICAGO, SARATOGA, WASHINGTON.

WIN AT NEW ORLEANS

No greater opportunity has ever been afforded the American racing public to earn a steady income with a small capital than does the Maxim & Gay Co. offer you at New Orleans, beginning Thanksgiving Day, November 26.

Everybody conversant with the history of the Maxim & Gay Co. knows that at New Orleans it has scored those sensational successes which have made its name a household word among patrons of the turf.

Every indication points to us surpassing our best efforts in furnishing information from that track, and we are again certain we will enable patrons of the Company to win steady incomes on small investments there.

\$50 Netted 201.75

Here is a complete statement, showing the result of a \$10 play on each horse given in our "Discretionary Series" during October. (Note: A capital to begin with of \$50 is required by us, as a matter of conservatism, to make a \$10 play on each horse that is considered by us a good betting proposition.)

Table with columns: Day, FIRST WEEK, Net Daily Result, Won, Lost, and THIRD WEEK (For Nov 11-13). Includes results for various horses and dates.

Net profits on \$10 play for month...\$201.75

We Pick the Winners.

The system we employ to locate winners is identical with that used by "Pittsburg Phil" John A. Drake, John Gates, W. Langdon, Joe Yeager and other famous plungers who win hundreds of thousands on the turf every year, and it proves just as successful.

We gather our information of prospective winners through a force of expert horsemen who hold a watch on the horses in their early morning trials, and in that way learn when they are ready to win.

The money that is played into the game by persistent losers, such as the large mass of uninformed players are bound to be, goes into the pockets of the big operators, of which the Maxim & Gay Co. is to place the general public upon a level with the winning plunger, and our success in this accomplishment has made us famous on two continents.

We do business only on the great race tracks of the U. S. We number among our clients some of the best known sportsmen, financiers and merchants in the country. Investment on the turf is now deemed as legitimate as any other high-class form of speculation.

Another reason for the rapid growth of turf speculation in popular favor, is the rapidity with which all transactions are wound up. The speculator makes his investment at the race track in the afternoon through us and receives a notification by mail, in a letter guaranteed to bear a postmark earlier than the race is run, of just what horses are to be backed for his account. By the next mail he is informed of the result of that day's operations, and he learns quickly just where he stands. At the end of each week he receives a complete statement of his account with a money order for his profits, less 25 per cent, which we deduct as our fee.

This gives a wholesome tone to legitimate turf speculation which cannot be found in the more or less involved transactions of the big exchanges, and this is why turfmen live more comfortably and live longer than stretch.

Our Clients Won a Million Dollars.

As it is well known that our clients have collectively won as much as a million dollars at a single race meeting, it is sometimes asked: "Why do not Maxim & Gay simply sit down and back their own selections instead of running a considerable clerical force and spending large sums in advertising in newspapers throughout the country?"

The answer is simple enough if one stops to consider the situation. Maxim & Gay, by dint of ability, energy, organization, capital and advertising, have secured an enormous clientele, which means the command of immense capital. If we can pick winners for this immense number of investors, our profits are larger than if we played our own money only, for on a basis of 25 per cent of winnings, which we charge for information and works for the benefit of the public as well as that they win three weeks out of four and our books show that no customer who stuck to us for two months ever failed to get well ahead of the game, while not a few of those who now own winning stables of race horses and who are cutting an important figure on the turf, began the game as mere novices, playing our selections through us.

The principle upon which we operate is such that we must of necessity do the best we can for you. Our income, as pointed out, is derived solely from a percentage of the winnings of our clients, and if we cannot prove by the fact that we have prospered for upward of three years, while imitators, pursuing more economical and less business-like methods have gone under by the score. Noting the success that was being achieved by Maxim & Gay, scores of "get-rich-quick" operators tried to break into the field successfully occupied by the legitimate and the illegitimate, and as a result we have continued and public long to discriminate between the old and the new, while in the ranks of our rivals there have been scores of enterprises initiated, only to end in failure.

Join Our Winning Army.

The greatest race meeting in the history of the South begins at New Orleans on November 26. In magnitude it will eclipse all other turf gatherings of the past. The Crescent City Jockey Club knows this to be a banner year and has prepared for it. So have we. If there are more horses at the New Orleans race track than ever gathered there before, we have more expert "clockers" and handily betters than we ever employed at any other meeting. They cannot make the game too big for us to handle. We move with the times.

If you want to get aboard our discretionary series, at New Orleans, in which we play daily those and only those horses we think all betting propositions, with the privilege of not playing any horses at all on any days when we consider conditions unpropitious, fill out the following blank and forward your remittance to us at New Orleans as soon as you can. Play will be begun on the first day of the meeting, if your money reaches us in time; otherwise, we will begin play the first day it reaches us after the meeting has begun. Money should be sent by bank draft, express money order, or currency in registered letter. Uncertified checks are not accepted.

TO MAXIM & GAY Co. (Incorp.), 928 Canal St., New Orleans, La. In accordance with the terms of your ad in The Fort Worth (Tex.), Telegram, I enclose \$50 Dollars. Please bet for me daily \$50 Dollars on each selection of your Discretionary Series at the New Orleans races. You agree to send me every day, in a letter postmarked before the races are run, check weekly for profits, less 25 per cent of winnings. Post odds are guaranteed as published in the New Orleans Morning Newspaper. My account is subject to withdrawal in full on demand.

Name Street Town or City State.

THE FOLLOWING SUMS ARE THE MINIMUM ACCEPTED FOR PLAY: For a \$5 play on each horse \$25; For a \$10 play on each horse \$50; For a \$15 play on each horse \$75; For a \$20 play on each horse \$100; For a \$50 play on each horse \$250; For a \$100 play on each horse \$500.

Remit direct to the Maxim & Gay Company, 928 Canal Street, New Orleans. All accounts received by the Maxim & Gay Company will be played at the track by the Maxim & Gay Co. and the Maxim & Gay Co. will make all accountings direct to its clients. The Maxim & Gay Co. assumes all responsibility for a proper execution of its clients' order. Our friends are cautioned against sending money through the mails without registering.

Kodaks... \$1 to \$75. and all requisites. Films can be mailed. Developing and Finishing. Prices on application. Mail orders solicited. Sterco Views of Fort Worth.

TEXAS CORN CROP SHOWS A BIG GAIN

Government Estimate Places Average Yield Three Times That of Last Year—Figures for Other Crops

WASHINGTON, Nov. 16.—Preliminary returns to the chief of the bureau of statistics of the department of agriculture show a total yield of about 2,313,000,000 bushels, or an average of 25.8 bushels per acre, as compared with an average yield of 25.8 bushels one year ago, 16.7 bushels in 1902 and a ten year average of 25.9 bushels.

| States | 1903 | 1902 | Ten year av. |
|---------------|------|------|--------------|
| Illinois | 31.2 | 28.7 | 22.8 |
| Iowa | 27.0 | 22.9 | 21.1 |
| Nebraska | 27.2 | 22.2 | 22.6 |
| Kansas | 26.8 | 29.9 | 21.2 |
| Missouri | 29.9 | 29.0 | 26.8 |
| Texas | 24.2 | 8.1 | 17.2 |
| Indiana | 23.2 | 37.9 | 32.1 |
| Georgia | 11.7 | 9.0 | 10.6 |
| Tennessee | 23.5 | 21.9 | 21.4 |
| Kentucky | 26.5 | 27.0 | 24.9 |
| Ohio | 30.0 | 29.9 | 22.0 |
| Alabama | 14.8 | 8.1 | 12.7 |
| N. Carolina | 14.7 | 12.9 | 12.0 |
| Arkansas | 20.9 | 24.2 | 17.5 |
| Mississippi | 18.4 | 11.5 | 14.2 |
| Virginia | 21.8 | 22.0 | 19.8 |
| S. Carolina | 10.3 | 10.4 | 9.1 |
| S. Dakota | 29.9 | 18.9 | 21.0 |
| Oklahoma | 23.3 | 22.8 | 19.6 |
| Pennsylvania | 31.2 | 36.1 | 32.1 |
| United States | 25.8 | 25.8 | 25.9 |

The following table shows for the twenty principal corn states the preliminary estimate of average yield per acre, in bushels, in 1903, with the final estimates for 1902, and the mean of the averages for the last ten years:

The general average as to quantity is 83.1 per cent, as compared with 80.7 last year, 73.7 in 1901 and 85.5 in 1902. It is estimated that about 5.2 per cent of the corn crop of 1900 was still in the hands of farmers on November 1, 1903, as compared with 1.9 per cent of the crop of 1902, 4.8 per cent of the crop of 1900 on November 1, 1901, and a six years' average of 6.1 per cent.

BUCKWHEAT. The preliminary estimate of the average yield per acre of buckwheat is 17.7 bushels, against an average yield per acre of 18.1 bushels in 1902, 18.6 bushels in 1901 and a ten year average of 17.6 bushels. The average for quality is 91.4 per cent, against 88.1 last year, 92.3 in 1901 and 90.2 in 1900.

FLAXSEED. The preliminary returns indicate a flaxseed crop of about 27,300,000 bushels, or an average of 8.4 bushels per acre as compared with a final estimate of 7.8 bushels per acre in 1902. The average as to quality is 84.9 per cent.

POTATOES. The preliminary estimate of the average yield per acre of potatoes is 84.7 bushels, against an average yield of 96 bushels in 1902, 65.5 bushels in 1901 and a ten year average of 79.5 bushels. The average as to quality is 85.4 per cent in November last, 78.4 in November, 1901, and 88.1 in November, 1900.

HAY. The preliminary estimate of the average yield per acre of hay is 1.54 tons, against an average yield of 1.50 tons in 1902, 1.28 tons in 1901, and a ten year average of 1.23 tons. The average as to quality is 91.3 per cent, against 85.7 per cent in November last, 91.3 in November, 1901, and 89.7 in November, 1900.

TOBACCO. The preliminary estimate of the average yield per acre of tobacco is 782.1 pounds as compared with the final estimate of 757.3 pounds in 1902. The average as to quality is 85.9 per cent.

RICE. The preliminary estimate of the average yield per acre of rough rice is 32.1 bushels, against an average yield of 27.3 bushels in 1902, 32.3 bushels in 1901, and 30 bushels in 1900.

The report also includes fruits and various minor crops which will be published in detail in the Crop Reporter.

BLAIR IS HELPLESS
Relatives Have Given Up Hope That He Will Ever Recover
ST. LOUIS, Nov. 16.—Relatives and friends of Attorney James L. Blair have, it is stated, given up hope of his recovery of either mental or physical health. Before the family gave up the country home fears for his recovery were entertained. When he was removed to the Maryland hospital it was believed that his stay there was only temporary. Mr. Blair's condition is not one which causes fear of immediate death, but it is stated that, while he may live for a long time, he will be practically helpless.

A FORTUNE IN DOGS
One of the features of the Great Floto shows, united this season, is their troupe of thoroughbred dogs. In selecting material for their kennels only registered dogs were purchased and to the fancier of thoroughbred stock a genuine treat is promised. The long list includes imported French, German and Russian Poodles, Sky Terriers, English Bulls, a magnificent troupe of Scotch Collies in fact, each and every dog in the list is a pedigree beauty and many of them are the winners of American and foreign bench show prizes. If you are interested in thoroughbred dogs pay a visit to these kennels, where polite attendants will be pleased to point out the favorites and answer all queries.

THE NEWS OF CLEBURNE
Many New Buildings are Now in Process of Erection.
CLEBURNE, Tex., Nov. 16.—Considerable improvement is going on in Cleburne now. Twenty men are at work on the T. & P. new passenger depot, which is to cost \$20,000. Lumber has been placed on the ground and houses moved prepara-

some \$4,000. The Carnegie Library will be built on the freight depot site at once be erected at a cost of \$20,000, and employ some 20 mechanics all winter. Two new brick stores are being erected by T. S. Camp to cost some \$30,000. Ten men are building a \$2,500 residence for T. B. Scott. There are a number of smaller residences whose aggregated cost will be some \$20,000. Other buildings to be erected in the near future are brick buildings for stores by Messrs. J. C. Blakney and M. M. Pittman, a Baptist parsonage and an Odd Fellows two-story brick.

BREAKFAST FOOD NOT USED HERE

Arkansas Colony Where Morning Meal Is Omitted From Catalogue

ROGERS, Ark., Nov. 16.—Edgar Wallace Conable, founder of a strange health colony in Colorado several years ago, has abandoned the high altitude of the Rockies and has bought 500 acres of land in Northern Arkansas and colonized it with several hundred followers, all of whom believe in his manner of living.

The colonists eat no breakfast. The men do not love their wives, nor do the women love their husbands. Living in family groups is a mere matter of form, it is contended, although there have been family squabbles, caused by jealous husbands and wives, in this colony.

The settlement lies among the Frisco system, and is to be made into one vast orchard and vineyard. No form of animal life must be killed on the premises, but it is the endeavor of the colonists to drive away all kinds of insects and pests.

The land, which was bought only a few weeks ago, is now being planted in fruit trees, and settlers are building their homes on the wide stretch of the mountain country. By next summer they expect to have everything in first-class working order.

THEIR MODE OF LIVING. According to their creed, people should live in the highest form of physical and mental life. This embraces extended periods of fasting for purification of the body and the elimination of disease. It contemplates the use of meat, alcoholic stimulants and tobacco.

Conable says that as soon as his crops begin to grow he will allow no one on the premises, except as a temporary guest, who lives on anything but his sort of food. No morning meal will be tolerated by the Conable colony, and no cook stoves will be found in the kitchens. The household of the women will be limited, inasmuch as the only preparation of the food will be to wash away the dirt.

FASTING IS PART OF CREED. Fasting is regarded as a means of strengthening the body among these people. Miss Rida Benjamin, a young woman, has just completed a fast of twenty-five days without any food except to her body. She has muscles as hard as an athlete, and is a perfect specimen of physical womanhood.

No physicians are allowed in the colony. Whenever a person is ill he is placed under the care of one of the health teachers, who, by a system of cereal and fruit products, and by fasting or starving the disease, as they say, attempts to cure the patient.

Conable allows no horses on the farm, and all the work is done by human hands or steam power.

STATE OF TERROR IN THE CAUCASUS
Murder and Riot Are Every Day Topics of Conversation
LONDON, Nov. 16.—The St. Petersburg correspondent of the London Times declares that an epidemic of crime is prevalent in the Caucasus and that the authorities seem unable to keep the lawless classes under control. The sole topic of conversation among the passengers on the Vladikavaks railway, he says, is murder and plunder. Yet an inoffensive native, armed with any sort of a weapon, enter a train or a railway station and a veritable panic ensues among the occupants.

CONGREGATIONAL ACADEMY
GUTHRIE, O. T., Nov. 16.—The Congregationalists, under the leadership of Rev. Parker of Kingsfisher, will erect an academy in Southwestern Oklahoma and have asked Binger and other towns to bid for its location.

"Making a New Play for Sarah Bernhardt"

IN these progressive days, when actors and actresses are carefully measured by dramatists engaged to cut out plays for them, the task of fitting a play to a woman like Sarah Bernhardt would be a tolerably difficult matter, notwithstanding the artistic semblance attainable in the "fitting" system. She is the sort of woman who requires what the milliners, in their most exuberant goods, call "a creation."

Talents can be measured to order, and personality is a dominating feature of the stage; but there is a psychology in the character of genius that cannot be arranged for mechanically before hand. It was an indisputable distinction that fell upon

F. Marion Crawford

when he was asked, two years ago, by the great tragedienne, to write a play for her.

This article, illustrated from especially posed photographs of Mr. Crawford, is one of the many interesting articles in this month's (November) Metropolitan Magazine

AMUSEMENTS

FLOTO SHOWS

SATURDAY, NOVEMBER 21, Afternoon and night, at popular prices. Take a day off with your children and see the Great Floto Show, united, which will positively exhibit here under the waterproof tents.

The best tented exhibition that travels. Herds of big elephants and little baby elephants, with more high class salaried acts than any circus. See KIRO, the only baboon successfully taught to loop the loop.

Watch for the Grand Street Parade at 10 a. m.

BROOKS IS ARRESTED

Man Wanted in Waxahachie on Five Indictments, Caught.

WAXAHACHIE, Tex., Nov. 16.—Sheriff Minick yesterday received notice that Gus Brooks, wanted here on a charge of selling whiskey at Ennis, in violation of the local option law, had been brought to Dallas from Shreveport, La. Brooks has been gone from Ellis county about two months and was arrested at Shreveport a few days ago by a United States deputy marshal. The grand jury, which is now in session, has returned five bills of indictment against Brooks.

The prisoner will be brought to Waxahachie in a few days and lodged in the county jail. Five new inmates were incarcerated in the county jail yesterday. John Ford, Charles Sims and S. P. Perry were brought in from Fort Worth, where they were arrested Saturday night on charges of theft. Louis Holmes was arrested in Dallas on a charge of robbery and was brought in yesterday and lodged in jail. Levi Sanders, who was wanted here on charges of horse theft and robbery, was brought in yesterday from near Mexia, where he was arrested Saturday. All the parties are negroes.

NEWS OF CRESSON
CRESSON, Texas, Nov. 16.—Mrs. Wayne Smith (nee Miss Fannie Richards of Weatherford, but now of Cripple Creek, Colo.) is visiting her uncle, E. K. Wilson, the Santa Fe agent here.

F. O. Pflider and his son, D. W., are in the west buying feeders. Mr. Babe Woodhouse, a prominent Parker county feeder, was here Saturday. He only has 150 steers on feed at present, and will not feed more than half as many as last year.

Nathan Wooten, his son Edward and grandson Clifton of New Market, Tenn., are visiting Mr. Tip Wooten of Cresson. Rev. J. P. Calloway is attending the M. E. conference at Fort Worth. Mrs. W. R. Dunnivant is visiting her daughter, Mrs. Charles Tipton, West Weatherford street, Fort Worth.

Rev. J. M. Leech of the C. P. church, Denison, Texas, and Miss Mollie Boson of this place were quietly married here last Thursday, the Rev. C. C. McConnell of Whitesboro officiating.

day on a visit to his family here. Mrs. Eleanor Patton, formerly editor of the News, has disposed of her interests here and has gone to Roswell, N. M.

THE LATEST IN RAILROAD NEWS

THE CANE BELT SALE. The statement just made by Jonathan Lane, president of the Cane Belt road, settles the controversy as to who are the purchasers of that line, still that official declines to say just who the buyers are, except that the Missouri, Kansas and Texas did not get the property.

TRAIN LOAD OF WALNUTS.

A train load of walnuts from California was hauled over the Santa Fe from the southern part of that state last week en route to the East. The shipment consisted of forty-two cars and was the largest train of its kind ever hauled out of California.

NEW GOULD SOUTHERN LINE.

The Missouri Pacific line from Carthage, Mo., to the Arkansas state line, a distance of seventy-eight miles, is almost finished, and is said to be the most expensive piece of railroad work done this year.

GOULD-MEXICAN TRAFFIC DEAL.

General Manager Leroy Price of the International and Great Northern Railroad company, has authorized the announcement that a contract has been entered into between the Gould lines and the National railroad of Mexico for an exchange of traffic at Laredo, the border connecting point. This contract is to apply to both passenger and freight traffic.

FRISCO IS RETRENCHING.

News from Springfield, Mo., is to the effect that the Frisco has just discharged 115 men at that point, most shop and roundhouse employees. It is also said that a sweeping order is to be issued soon reducing the operating force upon the entire system.

THE RATE HEARING.

W. B. Biddle, freight traffic manager of the Santa Fe, gave interesting testi-

mony before the interstate commerce commission at Chicago, which is sitting in that city for the purpose of making inquiry into the rate charge situation as it affects Texas. Concerning the raise in rates to Texas, he said: "All well-informed traffic men have known for some time that the cost of operation was increasing beyond the control of the railroad managements. Conditions finally became so burdensome because of increases in the price of material and wages of from 15 to 25 per cent that we became convinced that increases of between 5 to 10 per cent in the rates, where they could be made, would not be unjust."

FIRST TRAIN OVER BROAD GAUGE

The National Railroad Company ran its first train out of the City of Mexico over the standard gauge road on the night of November 9, amid great rejoicing. After months of worry and the expenditure of over \$2,000,000 in gold the officials of the National had the satisfaction of seeing the road change from a narrow to a standard gauge, and the first train go out. The construction work on the road, taking the many disadvantages laborer, under was probably the quickest ever accomplished in the republic.

DEFECTIVE SEWER PIPE

Led to Damage Suit in Austin and Victory for Plaintiff. AUSTIN, Texas, Nov. 16.—Mrs. Ella Cheneville has recovered \$240 damages against the Austin Sewerage Company in the Twenty-sixth district court. The plaintiff sued for personal injuries claimed to have been sustained by the defendant company allowing a defective sewer pipe to remain in a broken condition in the basement of her house, thereby causing sickness and undermining plaintiff's health.

BAD FIVERS FLOATING

Counterfeit Bills Now in Circulation Have Been Discovered. A new counterfeit \$5 silver certificate is at present flooding the country, and the banks and other institutions that handle large sums of money have been advised to look out for the new counterfeit bill. The bill has an Indian head and is of the series of 1902, check letter plate No. 161, J. W. Lyons, registrar of the treasury; Ellis H. Roberts, treasurer of the United States.

Mothers! Mothers!! Mothers!!!

Mrs. Winslow's Soothing Syrup has been used for over SIXTY YEARS by MILLIONS OF MOTHERS for their CHILDREN while TEething, with PERFECT SUCCESS. IT SOOTHES THE CHILD, SOFTENS THE GUMS, ALLAYS ALL PAIN, CURES WIND COLIC, and is the best remedy for DIARRHEA. Sold in Druggists in every part of the world. Be sure and ask for "Mrs. Winslow's Soothing Syrup" and take no other kind. Twenty-five cents a bottle.

JUST THINK For only 10c you can buy a large one-pound can of WALKER'S RED HOT CHILE CON CARNE all ready for use. It is strictly a Mexican dish composed of Mexican beans, selected meat and a rich red gravy, flavored with Mexican Chile Pepper and other Mexican flavorings.

is described as being of a good quality, with red ink lines to imitate the silk threads of the genuine. The general appearance of this counterfeit is calculated to deceive the ordinary money handler, but a close observation and scrutiny of the counterfeit will suffice to detect that it is not genuine.

STORIES OF THE DAY

By The Optimist

"I don't like the financial outlook," my visitor said this morning, giving me the worried look. He strolled over to my jealously guarded exchange table and began to organize a merger between himself and some of the papers which everybody understands are to be touched by some but myself.

UNSETTLED CONDITIONS IN BOGOTA

Revolution in Columbia Capital Is Not Unlikely—Varilla Continues Efforts to Secure Recognition of Panama

MISSION HOPELESS

In official circles here the opinion is expressed that the commission consisting of General Reyes, Holguin and Ochoa, who, according to the Associated Press dispatches from Bogota, have started on a peace mission to Panama, are embarked on a hopeless task. It is now too late, it is said, for anything in the direction indicated in the dispatch to be accomplished. It is felt certain here that the Panamanians will not treat with them, as said one official, it is not likely that the isthmians will care to become again a part of the Colombian government.

ARRESTED IN CLEBURNE

Man Charged With Releasing Prisoners at Belton Is Caught. CLEBURNE, Tex., Nov. 16.—Bell county officers have been notified to come after Robert Davis. He was captured here by Cleburne officers and is wanted at Belton. He is one of the prisoners who broke fall there two days ago. He is charged with releasing the others, as he was a "trustee."

JOHNSON.

Mrs. Susan Dryder Johnson, aged 74 years, died at 6:15 o'clock last evening at the family residence. Mrs. Johnson had been very ill for the past few months and her death was not unexpected. She leaves besides a husband, three sons and three daughters, Lizzie, Lena and Mrs. Maud J. Henry. Judge Robt. G. Johnson of this city, Prof. Frank M. Johnson of the University of Nebraska, and Dr. Dryder Johnson of Antonio, Col. The funeral takes place from the residence this afternoon at 3:30.

HENRY CLEWS' LETTER

NEW YORK, Nov. 16.—It is quite probable that the crisis in the steel trade has now been passed and that improved conditions can be reasonably expected. Pig iron is selling at nearly \$10 below the recent high level, or, in fact, below present cost of production. Prices of finished products have also been sharply reduced, and at the new and more stable level many contracts which were held in suspense will now be placed. By extensive economies and cost reductions the big steel corporation may be able to partially offset the decline in selling prices but retrenchment is the order of the day not only in the steel industry but in other directions, and an immediate recovery in the volume of business is to be expected.

Is probably now equalled South of Saint Louis....If good taste suggests or custom demands it as a gift for Christmas, for Weddings or for any other occasion for the giving of gifts, it's here awaiting your order.

VETERANS AND SONS SESSIONS

Matter of Incorporation Discussed—Public Drill Is Proposed

The most interesting feature of the meeting of Lee Camp U. C. V. yesterday was the report of the committee appointed to investigate the matter of incorporating Lee camp, in order to put it in legal position to receive the plot of ground in the new cemetery which the council donated at its last session.

The committee reported that it had made a careful investigation into the legal phases of the proposition and discovered that it was not essential for the camp to incorporate in order to accept the gift.

The deed was given into the keeping of Quartermaster Dr. George Jackson as custodian.

The city has agreed to lay out the ground in good shape, make a road through it and do all necessary grading. The ground donated the camp will provide burial space for about sixty.

The attendance yesterday was quite large, having been drawn out because of the announcement that C. C. Gibbs of San Antonio, a speaker of considerable note, was to address the camp, but there was genuine disappointment, as Mr. Gibbs failed to keep his date.

The business of the camp was mainly routine and was opened up by prayer by Rev. E. H. Ledger, a visitor of the camp.

Dr. J. Jordan of Pine Bluff, Ark., has written the camp in an effort to make a date to deliver his lecture here. The matter was referred to Judge J. C. Scott, who will take the matter up with the Arkansas lecturer.

Comrades Murphy, Bond and Pankey were named a committee to consider the advisability of giving an old fiddlers' concert, similar to the affairs previously given here under the jurisdiction of Lee camp.

The matter of beautifying the recently donated burial plot in the new cemetery was discussed. It was suggested that on a designated date each member take a pine, shrub or evergreen and plant it in the burial plot. J. J. Melton was selected to look after this matter and to prepare a design for the decoration of the grounds.

W. W. Dexton of Houston was present and made an interesting talk and related how he came to be a member of Dick's camp.

There being no other matters before the camp, adjournment followed.

MEETING OF SONS

At the meeting of the Sons' camp there was a very large attendance.

Comrade Lane, chairman of the Miller club, reported on the result of the Miller drive, stated that there was a profit of \$125, which would be donated to the fund.

Comrade Leech then read a set of resolutions drawn up by his committee, expressing hearty appreciation and thanks to Mrs. H. B. McGar for her gift of a piano of Fitzhugh Lee.

Comrade Leech, drillmaster of the Sons, reported that his committee looked with favor upon the giving of a public drill, and he instructed all the Sons to assemble in the hall Wednesday evening to prepare for the event.

The committee which had been appointed at the previous meeting to secure some form of entertainment for yesterday, reported that they had secured the services of Prof. Heathcote and his pupils. The Sons then repaired to the hall.

of R. E. Lee camp and the entertainment followed.

Prof. Heathcote, assisted by Miss Lella Walton, one of his pupils, gave three selections.

"The Sweet Girl Graduate," Miss Walton; "The Benediction," Prof. Heathcote; Schiller's "Mary Stuart," Miss Walton and Prof. Heathcote.

Commander Lane announced the following appointments: Joe Parcelum of Mount Pleasant assistant surgeon general; Albert Leach of Fort Worth, assistant adjutant general; Porter Key of Fort Worth, aid-de-camp; Hon. H. H. Hardy of Fort Worth, assistant judge advocate general; Prof. Cullen Bryant, historian.

AT BETSON'S PRAIRIE

New Oil Field in Hardin County, the Scene of a Boom

Another new oil field, tributary to Beaumont, has been developed within the past fortnight. A gusher has just been finished in the northern portion of what is known as "Betsen's Prairie," in Hardin county. The new field is located fourteen miles northwest from the now famous Sour Lake field, seven miles west from the Saratoga field, which has come into prominence during the past year as the next field to Sour Lake. The new gusher is owned principally by Beaumont people. The company is capitalized for only \$10,000 and owns 100 acres of land in fee simple. Already land values have soared skyward. Six weeks ago land in that vicinity could have been purchased at figures ranging from \$20 to \$50 per acre, but now the price is in the hundreds. The new field is fourteen miles from a railroad and seven miles from the Guffey pipe line from Saratoga to Sour Lake. Arrangements will probably be made to deliver the oil on the Santa Fe railroad north of the field.

The development of this new field will stimulate the "wild-cattling" now being done all over Southeast Texas, and the probabilities are that other fields will be discovered before the winter is over. Spindle Top and Sour Lake fields are both producing large quantities of oil. The price is advancing and the market seems to be firm now. The shipments of oil by rail and water for the month of October amounted to approximately 1,400,000 barrels, half by rail and half by water.

About 50,000 barrels of petroleum are shipped from Sour Lake daily to Beaumont, Port Arthur and Sabine Pass. Two new pipe lines have been completed from Sour Lake to Beaumont. The Security Oil Company (Burt refinery) and the United Oil and Refining Company both will be in the market for oil, and it is predicted that an advance will be posted in prices for the Sour Lake production.—Beaumont Correspondence of "The Tradesman."

WORK ON THE BEAUVOIR

Home for Aged Confederates at Gulfport, Miss., Being Pushed

GULFPORT, Miss., Nov. 16.—Architect A. Boggs, who has the contract for fitting up Beauvoir as a home for aged and disabled Confederate veterans, is pushing the work to insure completion by December 1. The Beauvoir home in appearance will be unchanged. All the new buildings that are to be added will be separate from the main building and will in no way interfere with the general appearance of the place. Under the dwelling is a latticed basement, which is to be inclosed and made into a dining room. It will be 40x45 feet and will have plenty of windows to make it light, airy and cool in the summer. On the site of the old kitchen will be erected a large new one and a laundry and servants' quarters. A dormitory of four rooms is to be erected. These rooms will be 16x18 feet, and will each have a wide fireplace. An infirmary 15x30 feet is to be erected in a quiet part of the grounds. All the new buildings will have an abundance of large windows, and the woodwork will be hard oiled.

NEW TEXAS INDUSTRIES

CHATTANOOGA, Tenn., Nov. 16.—The progress in southern industrial development for the week just closed, as reported by the Tradesman, includes the following new organizations as among the most important:

- Wichita Falls—Implement company.
- La Grange—Canning factory.
- Port Lavaca—Frigation system.
- El Paso—Flouring mill water works.
- Rockdale—\$10,000 mining company.
- Beaumont—Oil company.
- Saratoga—Pumping plant.
- Waco—\$10,000 fuel company.
- Clarksville—Telephone system.
- Weatherford—\$15,000 hosiery mill.
- Dallas—\$65,000 interlocking plant.
- Houston—\$10,000 illuminated pictorial sign company.

SEVEN YEARS IN TRINITY PARISH

Rev. Robert Hammond Cotton Reviews His Rectorship in Fort Worth

Yesterday morning at Trinity Episcopal church, Rev. Robert Hammond Cotton, the rector, devoted his discourse to a review of seven years' rectorship of Trinity parish. His text was "Who shall change our vile body that it may be made like unto his glorious body?" Phil. 3:22.

The doctrine embodied in the text was one of those special ones which the Episcopal branch of the Holy Catholic church stands for at the present day.

"Many of the heresies of the present day," said the rector, "as those of the early church, depend on the notion that mind or spirit is a separate existence, and the soul is spoken of as though it were a thing. Hence the ancient heresy that matter, or body, was the source of evil and such modern ideas as those of spiritualism, and Christian science, which seem to imply that mind, or spirit, is a reality instead of an abstraction. The church knows nothing about the immortality of the soul. When you said your creed just now you did not say 'I believe in the immortality of the soul,' you said, 'I believe in the resurrection of the body.'"

In Christian thought the material or bodily element is an essential part of what is called, for want of a better name, the ego, or the personality.

"Among other things which our little church has stood for in this city, it has been to protest against the treatment of that which is spiritual as though it were a separately existing reality abstracted from body or the material parts."

The rector went on to say that the teaching of Trinity church had, under God's blessing, been the means of influencing the religious thought of Fort Worth during the past seven years more largely than from the size of the parish might have been expected. The rector rejoiced to see that during the past month some things that he had said in time past and which had been objected to when they were said had been heeded in unexpected quarters.

He was glad to know that in the case of two recent funerals an attempt was made to make the funerals as simple and as plain as possible.

"One thing is certain," he said, "that in all probability that horrible institution, the funeral sermon, will never be heard of any more in this city, though it does seem strange that in the attempt to do away with display, the mourners should have to be deprived of the sweet comfort and comfort of sacred songs. Surely at no time could the songs of Zion breathe sweeter comfort upon the sorrowing soul than at the graveside."

In other respects too, the rector was glad to note, that words spoken almost at random had not failed of their effect. Many men and women had expressed gratitude for the thoughtful-ness which some of the ministrations of the little parish had imparted to their lives and to those of their children.

THE NIGHT SERMON

At night the rector continued his retrospect in a more general manner, taking for his text Gal. 6:11: "Let us not be weary in well-doing for in due season we shall reap if we faint not."

" Oftentimes during the past seven years," he said, "we have been much discouraged at the smallness of the congregations and the little response, made to financial and other appeals, made to us, and it is a necessity in every home, in every hospital and with every physician. Nothing can take its place.

We spend 14 days in making each bottle of Ligozone. The making requires immense apparatus and the process is in charge of the best chemists in Chicago. Ligozone is very expensive as compared with the cost of medicine. Yet we are spending \$500,000 to give it away—one bottle to every sick one. We supply it to physicians and hospitals at almost cost and we furnish it to charity institutions free.

We are doing our part to get this help to the sick, everywhere and at once. If you will do your part—if you will ask for it—we will, at our expense, show you how to get well.

It was beautified and enlarged. From that time to the present the mother parish has grown and prospered and little Trinity has also enlarged her borders.

"The first step in this direction was the building of our present conventual church; within a year or two the Trinity Guild Hall, a far better building from the church itself, was erected to front Pennsylvania avenue, along with commodious choir room and ante-room; a vested choir was established, which has grown in efficiency and is now indisputably the best choir in the city; our services have always been marked by spirituality and reverence and our congregations have come to attend regularly and to grow in understanding of the church doctrine and in sympathy with whatever things are good, beautiful and true. For all this we must be grateful but it is not enough. We require more earnestness, more zeal and devotion and though we grow often weary and faint let us remember the apostle's word, not to be weary in well-doing for in due season we shall reap if we faint not."

The rector then asked whether every parishioner was doing the best he could for the church, financially as well as spiritually. He said that there had been during the past week in the city a noble band of ministers of Christ assembled who spoke of large increases during the year in numbers; each Methodist minister could speak of 20, 30, 40, even 50 conversions during the year. "We are not able to do that; still we must not be depressed. These good men are engaged in bring-

ing in recruits and in that they are wonderfully successful. We seem to be called in the providence of God not so much to make recruits as to drill them after they are made, although some of our people seem to object to the drill. Let us each in our place do the best we can and God will prosper us."

The rector concluded the night sermon with an appeal to parents and friends to help in the work of the Sunday school.

The vested choir rendered the evening service very beautifully and concluded with the evening hymn "Now the Day is Over," and marched out to the recessional "Through the Night of Doubt and Sorrow."

Next Sunday night the rector will preach the fourth of his society sermons. This one is entitled "The Society Child."

JONES COUNTY JAIL

ABILENE, Texas, Nov. 15.—Jones county has voted the issue of bonds to build a county jail by a majority of seventy in the county. Stamford voted strongly against the issue. That county has heretofore been without a jail and has usually used the jail of this county.

VARDAMAN'S SECRETARY

McCOOL, Miss., Nov. 16.—Hon. George R. Edwards, Jr., of this place has been appointed to the position of private secretary to Governor-elect Vardaman. Mr. Edwards was born and raised at Carthage, Leake county, Miss., he being the eldest son of George R. Ed-

wards, Sr., one of Walthall's soldiers in the war between the states.

Mr. Edwards has been the private secretary of the Hon. John Sharp Williams of this state for the past eight years, and resigned his position to accept the one offered him by Governor-elect Vardaman.

FIRE AT ABILENE

ABILENE, Texas, Nov. 15.—The home of Mrs. C. E. Finley on South Second street burned here at 1 o'clock this morning. Only one trunk was saved of all the household goods and furniture. Mrs. Finley's daughter, Miss Amie, was burned slightly on her neck and had her hair partly burned.

We are unable to ascertain the amount of insurance.

PREVENT PERFORMANCE

Galveston Chief of Police Enforces Sunday Law Against "Arizona"

GALVESTON, Texas, Nov. 14.—For the first time in many years a Sunday performance at the opera house was prevented by the enforcement of the Sunday law of Texas.

A company was billed to play "Arizona" and was at the opera house with all stage settings placed and was about to ring up the curtain for the first act when Chief of Police Rowan appeared and informed the management that the company could not proceed and that if an attempt to give a performance was made he would be forced to place under arrest every member of the company. Not wishing to be detained in the city, Manager Paulser of the company decided to withdraw and

so informed the large audience which was in the house to see the play.

The stopping of the play was the result of instruction from Criminal District Judge Gillespie, who informed the chief of police, the county attorney and the sheriff that he would hold them responsible for violation of the Sunday law, and referred particularly to Sunday theaters and dance halls. Saloons were open as usual. No other special effort was made to enforce the law.

THE COLORADO STRIKE

Proposition for Settlement Defeated by Vote of Miners

LOUISVILLE, Colo., Nov. 16.—The official count of the votes cast by the miners of the northern coal district Saturday night defeats the proposal for a settlement of the strike. The sub-district board met here yesterday and canvassed the vote. They announced that the proposal was defeated, and there would be no work today, but refused to make public the vote. It has leaked out that there was a majority of six votes in favor of rejecting the proposal.

A mistake occurred in the counting of the votes at the various unions, and caused an announcement that the men had accepted the proposal.

GATESVILLE NOTES

GATESVILLE, Tex., Nov. 15.—A new grocery store has been opened here by L. W. Spann, from Gonzales. The flower show at Waco attracted a great many people there yesterday. It is reported the oil well will start up again tomorrow.

We Offer \$1,000 For a Disease Germ That Ligozone Can't Kill.

This offer is published on every bottle of Ligozone, yet nobody ever claimed the reward and nobody ever will. Ligozone always kills germs. Don't you know that a germ disease must end when the germs are destroyed? Can you not see that Ligozone cures are inevitable?

Liquid Oxygen

NO DRUG OF ANY KIND IN IT

Ligozone is nothing but oxygen; no drugs, no alcohol in it. Please do not think of it as medicine in any way, for it isn't. It is the discovery of Paul, the great German chemist, who spent 20 years in learning how to liquify oxygen. His object was to get such an excess of oxygen in staple form into the blood that no germ could live in any membrane or tissue. Ligozone does this. Oxygen, as you know, is the vital part of air. It is Nature's greatest tonic, the very source of vitality, the most essential element of life. It is oxygen that turns the blue blood to red in the lungs. It is oxygen that eliminates the waste tissue and builds up the new. We would die in three minutes without it. In this liquid form its effects are exhilarating, vitalizing, purifying.

But germs are vegetables, and an excess of oxygen—the very life of an animal—is deadly to vegetal matter. It is this fact that enabled Paul to solve the greatest problem of killing germs in the body without killing the tissues too. He thus gave to the world the only way to end a germ disease.

We Paid \$100,000 Germ Diseases

For the American rights to Ligozone before we made the first bottle. We first tested the product for two years, through physicians and hospitals, in this country and others. We proved it in thousands of the most difficult cases obtainable. Then we paid the highest price ever paid for similar rights on any scientific discovery.

We paid that price because the product that can kill inside germs is the most valuable thing in the world. More sickness is caused by germs than all other causes together. And there is absolutely no other way to destroy the cause of a germ trouble. Any drug that kills germs is a poison and it cannot be given internally. Every physician knows that medicine is almost helpless in any germ disease.

Ligozone does in a germ trouble what all the skill in the world cannot accomplish without it. Diseases which have resisted medicine for years yield at once to it. And it cures diseases which medicine never cured. Ligozone is a necessity in every home, in every hospital and with every physician. Nothing can take its place.

We spend 14 days in making each bottle of Ligozone. The making requires immense apparatus and the process is in charge of the best chemists in Chicago. Ligozone is very expensive as compared with the cost of medicine. Yet we are spending \$500,000 to give it away—one bottle to every sick one. We supply it to physicians and hospitals at almost cost and we furnish it to charity institutions free.

We are doing our part to get this help to the sick, everywhere and at once. If you will do your part—if you will ask for it—we will, at our expense, show you how to get well.

50c Bottle Free

WE WILL PAY YOUR DRUGGIST OURSELVES FOR IT

If you need Ligozone, and have never tried it, please send us the coupon below. We will then mail you an order to your druggist for a full-size bottle and will pay your druggist ourselves for it. This remarkable offer appears in 1,400 newspapers and we have appropriated \$500,000 to pay the cost of fulfilling it. We are doing this because Ligozone is new in America and millions who need it don't know of it. There is everywhere sickness which nothing but Ligozone can cure. In every neighborhood there are lives which Ligozone alone can save. Our offer is the right way—the best way—to quickly let the sick one know it.

This is our free gift, made to convince you, to help you; to show you what Ligozone is and what it can do. To accept it places you under no obligations whatever, and not to accept it would be very unjust to yourself. Our only request is that you tell your sick friends what Ligozone does for you. For the sake of humanity let other germ sufferers know that they too can get well. We have seen one cured in this way lead to hundreds of cures.

Accept this Gift

If you need this help please send us this coupon today. Do that in justice to yourself. The very fact of our offer must convince you that Ligozone does as we claim. We would certainly not pay for a bottle and give it away if there was any doubt of results. You want those results—you want to be well. And if yours is a germ trouble it is wise to stop medicine, for medicine is very uncertain. The best help it can give rarely leads to a cure. Let us give you a bottle of Ligozone—the best thing in the world for you. Let us show you what liquid oxygen can do. Ligozone is sold in two sizes—50c and \$1.

CUT OUT THIS COUPON

For this offer may not appear again. Fill out the blanks and mail it to the Liquid Oxygen Co., 221-225 Kinzie St., Chicago.

My disease is

I have never tried Ligozone, but if you will supply me a 50c bottle free I will take it.

626 Give full address—write plainly. Any physician or hospital not yet using Ligozone will be gladly supplied for a test.

Treat your scalp for dandruff, not your coat! Ayer's Hair Vigor.

COST OF LIVING IS GREATER NOW

Public Knew It Before, But the Fact Is Affirmed by Labor Bureau

WASHINGTON, Nov. 11.—(Special.)—The cost of living of workmen in the United States has increased about 16.1 per cent since 1896. This conclusion has been reached by the bureau of labor, after a careful examination of the living expenses of 345 families distributed throughout the thirty-three states representing the leading industrial centers. The 2,567 families consisted on an average of 5.31 persons, or .76 person above the average of private families in the whole country, as shown by the census of 1900. The average income for the year was \$27,119, the average expense \$768.54, and the average income for the year was \$27.13, per family, or 42.54 per cent of the average expenditure. Twenty-five similar articles or groups of articles of food, covering the period of 1896 to 1902, inclusive, show a range of 37.2 per cent in wholesale prices, but only 15.4 per cent in retail prices. The cost of food, considered as a whole, reached its highest point in 1902, the average for that year being 10.9 per cent above the average for the ten year period, 1896-1900, compared with 1896, time of lowest price, the cost of food in 1902 showed an increase of 16.1 per cent.

The increase in the cost of living as shown by the results of this investigation, relates to food alone, reporting 42.54 per cent of all family expenditures. Of the remaining articles, 66.48 per cent of the family expenditures, certain ones are from their nature affected only indirectly and in a very slight degree by any rise or fall in prices. Such are payments of personal debts, property and life insurance, labor and other organization fees, religion, charity, books and newspapers, amusements and vacations, intoxicating liquors and sickness and deaths.

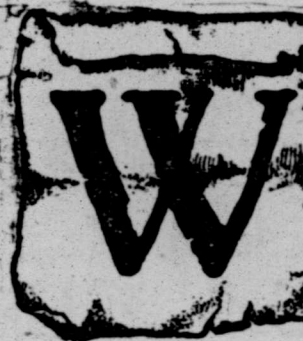

A MILLIONAIRE HERD
Perhaps the most expensive and interesting feature ever carried by a tented organization is the Floto Shows United magnificent herd of Arabian stallions, imported directly from the stables of the sultan of Morocco. They are the envy of the circus world; the acme of equine grace and beauty. The management points with pardonable pride to the fact that this is the first appearance in America of a genuine herd of the famous whirlwind steeds of the desert. They will be seen daily with the Great Floto Shows, in the most beautiful horse act the world has ever seen, designed and trained for this organization by Mr. D. G. Markle. If you are a lover of horses pay a visit to the Floto Shows and see these kings of the horse world.

them arrived. At Zelevo, it is reported, a young woman who had attained a local reputation as a Jew hater, was captured by her enemies and so badly beaten that she died. These are but a few instances cited and show the temper of the Jews in Southeastern Russia.

Fort Worth As It Is Today

In the first place Fort Worth is the most essentially American city of its size in the United States. It has 4 per cent colored population, 6 per cent foreign-born and 90 per cent American-born white population. Fort Worth possesses the purest water in the world. It is artesian and is obtained by a tunnel system from 900 feet below the earth's surface. Fort Worth is situated on a high bluff overlooking the beautiful Trinity river, the West and Clear forks of which converge at this city. Until the artesian system was installed Fort Worth's water supply came from the Trinity in part and from artesian wells in part. Statistics show that Fort Worth, in proportion to population, is the second healthiest city in the world, and with the introduction of artesian water it is certain to become the most healthful. Although young in comparison with other leading Texas cities, Fort Worth is rapidly overcoming the advantages its rivals had by reason of their earlier starts. Fort Worth today is acknowledged to be the most rapidly growing city in Texas. If you are interested in Fort Worth, read the following: Population, 43,000. Good newspapers. Rural mail routes. Free kindergartens. A \$100,000 city hall. A beautiful climate. Beautiful residences. A \$75,000 county jail. Many women's clubs. The Commercial Club. Five artificial ice plants. Four express companies in the South. Reasonable city taxation. Forty acres of public park. Eighteen wholesale houses. Several messenger services. Annual business \$40,000,000. A \$500,000 county courthouse. Four railroad machine shops. Bank deposits over \$5,000,000. A teachers' training institute. Two local telephone systems. The natural live stock market. Five loan and trust companies. Seventy miles of water mains. Over 150 miles of public streets. A \$50,000 public library building. Twenty hotels of various grades. Broadest Commercial Agency. Freedom from labor disturbances. Annual pay rolls of over \$1,000,000. Several energetic historical societies. Sixty-eight passenger trains, all daily. Two long-distance telephone systems. The finest Country Club in the South. Real estate valuation about \$17,000,000. Seven national and two savings banks. One company of Texas National Guard. The Board of Trade, with 295 members. Many philanthropic and charity societies. A splendid surrounding agricultural region. The gateway to the panhandle and the west. L. G. Dun & Co. report 950 business houses. Unsurpassed advantages as a business center. Unrivaled facilities as a manufacturing center. A commodious and well-equipped natatorium. Over forty-five miles of underground sewerage. Five and two-thirds square miles of territory. A \$175,000 postoffice building, about to be enlarged. Sixty-eight miles of paved public thoroughfares. Postal and Western Union Telegraph companies. Unequaled attractions as a place of residence. One handsome theater and several vaudeville houses. Headquarters of only literary magazine published in Texas. More fraternal organizations than any city of its size in the south. Most efficient police force of any city in the state. Lowest per cent of losses by fire for any city of the size in the south. There are three state banks in Texas. One of them is located in Fort Worth. Population of over 100,000 reached by electric car service. One extensive gas and three large electric lighting companies. The largest and costliest freight depot of any city of its size. A \$100,000 steel viaduct across the Texas and Pacific reservation. Two well-equipped hospitals, one suspended in course of construction. Forty-two church edifices, nearly all of striking architectural beauty. Young Men's Christian Association, about to erect a costly structure. Twenty-two miles of modern street car lines, not including the Interurban line. A newly formed merchants' and wholesalers' association, with fifty-six members. A kindling factory, where prepared kindling for making quick fires, is manufactured. One of the seven complete roundhouses in the United States and four other roundhouses. The finest passenger station in the world for a city of its size; also a second line passenger station. Over 200 artesian wells, supplying pure water for domestic, factory and fire protection purposes. The home of the Texas Cattle Raisers' Association, the richest association of cattlemen in the world, the National association not excepted. A paid fire department of eight companies which is the most thoroughly trained department in the southwest. Medical department of Fort Worth University which has graduated 1,200 students in the past ten years. Headquarters of the Eleventh division of the Railway Mail service, comprising Texas, Arkansas, Indian Territory and Louisiana. Many clubs devoted to social, athletic, literary, musical and dramatic objects, parties, forming the best fire department in the southwest, besides several factory besides a large number of lesser social organizations. Twelve public and one parochial schools, all of high order; the Fort Worth University, Polytechnic College, St. Ignace's Academy for girls and several business colleges. One Grand Army of the Republic post, one Woman's Relief Corps, one Confederate camp, one Sons of Confederates, one Daughters of the Confederacy, one Children of the Confederacy, one Mexican Veterans' Association, and one Dames of '46. Eleven railroads, all trunk lines, including the Texas and Pacific, Missouri, Kansas and Texas; Gulf, Colorado and Santa Fe (Atchison system); Houston and Texas Central (Southern Pacific system); Fort Worth and Rio Grande (Frisco system), Transcontinental branch of the Texas and Pacific, Fort Worth and Denton City, Chicago, Rock Island and Texas; St. Louis Southwestern (Cotton Belt); St. Louis and San Francisco, International and Great Northern. "Stanhurst Stock Farm" is one of Fort Worth's important business enterprises. At this stock farm one will find facilities for the breeding and management of pedigree swine that are unequalled by those of any similar institution in the South. The best brood stock known is to be found here. The farm consists of 400 acres, nearly all of which can be utilized for hog raising. Over 100 manufacturing establishments, including the Armour and Swift packing-houses, the two most modern and finest packing plants in the world, representing an investment of \$5,000,000 and having an annual payroll of \$1,500,000; the largest brewery in the southwest, a large candy and cracker factory, two flour mills of a total of 2,800 barrels per day capacity, four foundry and machine shops, two bed spring and mattress factories, one suspender factory, one furniture factory, two harness and saddlery factories, one horse collar factory, one shirt factory, one baking powder, one starch and two bluing factories, one large whole and retail coffee-roasting plant, two blank book plants, one pickling factory, one bar and office furniture factory, one broom factory, two confectionery plants, three cigar factories, two tombstone and marble works, one proprietary medicine plant, one macaroni factory, one wire fence factory, two grain elevators, one cottonseed oil mill, eight steam laundries.

The Last Words of Mrs. Baxter

WHEN Richard Baxter, noted in England in 1638, lost his wife he published a broadsheet headed: "The Last Words of Mrs. Baxter," which reached an immense sale. His printer seeing the profit in it brought out a broadsheet entitled: "More Last Words of Mrs. Baxter." To which Mr. Baxter replied that "Mrs. Baxter didn't say anything else."

If Mrs. Baxter were living today she would, like us, have a lot of "last words" to say about

Uneeda Biscuit

The Sunday Telegram now has 8 pages of colored, comic and magazine sections every Sunday, besides pages and pages of humorous and fiction articles. The Sunday Telegram is mailed out of Fort Worth on late Saturday night trains, making it possible to reach every Oklahoma and Indian Territory town on Sunday morning. The Sunday Telegram becomes, therefore, a Sunday paper for all Oklahoma and Indian Territory containing Sunday reading matter.

The New Sunday Telegram contains a full Associated Press and Telegraph report and is equal to any Chicago, New York or St. Louis Sunday Paper.

THE AWARDS
First—A \$400.00 Upright Piano.
Second—A Handsome Diamond Ring. A pure white stone without a flaw, set in the latest style Tiffany mounting and valued at \$200.00.
Third—A Ladies' Solid Gold Watch, Roman color satin finish, with seven whole cut diamonds set in the center of the case, valued at \$125.00.
Fourth—Two Round Trip Tickets to the World's Fair at St. Louis, 1904. In addition to the latter award, The Telegram will furnish free, tickets to the exposition grounds.

HOW THE VOTES COUNT
During the contest for every cent received by mail or delivered at The Telegram office on a prepaid subscription to The New Sunday Telegram, two votes will be counted for the lady of your choice until midnight, November 20, 1903, and one vote until midnight, December 1, 1903. The price of The Sunday Telegram is as follows: One year, \$3.00, counting the schedule number of votes for the popular lady of your choice. Six months, \$1.00, counting the schedule number of votes for the popular lady of your choice. The same conditions will apply to The Daily Telegram. The subscription price is fifty cents per month.

CONDITIONS OF CONTEST
First—The lady in Oklahoma or Indian Territory receiving the largest number of votes by midnight, Tuesday, December 1, 1903, will receive the first award, a \$400.00 Upright Piano.
Second—The lady receiving the next largest number of votes will receive the second award, a \$200.00 Diamond Ring.
Third—The lady receiving the next largest number of votes will receive the third award, a \$125.00 Solid Gold Watch.
Fourth—The lady receiving the next largest number of votes will receive the fourth award, Two Round Trip Tickets to the World's Fair, 1904.

NOTICE TO CONTRACTORS
Sealed bids will be received until 3 p. m. Nov. 20, 1903, at the office of the undersigned, and then there publicly opened, for graveling Fifth avenue from Terrell avenue to Myrtle street, in the city of Fort Worth. Certified check for \$100, payable to Thomas J. Powell, mayor, must accompany each bid. The city reserves the right to reject any or all bids. Plans and specifications on file in engineer's office.
JOHN B. HAWLEY,
City Engineer.
Fort Worth, Tex., Nov. 11, 1903.

ABILENE PERSONALS
ABILENE, Texas, Nov. 15.—Mrs. C. E. Pratt left this week for Illinois and Missouri to spend the winter. Miss Sue Matheson is visiting her sister, Mrs. Daniel, in Iatan. Miss Dona McAdams has gone to Brady to spend the winter with her sister. Mrs. Beville and children of Clarendon was the guest of Mrs. J. R. Henson this week. Miss Shirley Boone of Weatherford, who has been visiting the family of her brother, E. H. Boone, of this place, returned to her home a day or two ago.

A Coat Of Quality

The frock overcoat never was and never will be a "popular" style.

That's why it's so thoroughly liked by men who are fond of the exclusive.

And why a man can almost build up a reputation for good dressing simply by wearing one that's properly cut and tailored.

Cheviot's best fabric for this style of coat. It's a dressy cloth; and dressiness is an essential in the frock overcoat.

We show cheviot overcoats in the standard blacks, oxfords and blues; and we show also a rare assortment of novelty styles in quiet, rich color-tones.

We tailor frock overcoats to order, properly, at from \$20 up to \$50.

THIRTY DEATHS FROM THE WRECK

Rear End Collision at Kentwood, La., Proves Worse Than Reported

NEW ORLEANS, La., Nov. 16.—Sixteen negroes, injured in the Illinois Central wreck at Kentwood, were brought to the charity hospital yesterday, and three of them died soon after reaching here. This makes a total of twenty-eight negro men dead, one negro woman killed, and Andrew C. Riser, foreman of carpenters, the only white fatally injured, a total of thirty deaths.

The injured list foots up eighteen. Larry Hawthorne, the only negro who escaped from the coach, has become demoralized as a result of the shock. The wreck has been cleared away. The responsibility for the accident will be hard to figure out. The first train was forty-five minutes late and the last five minutes behind, and the two trains were virtually running on each other's time. The engineer of the last train claimed that he had orders for a clear track to Chataway, while the operator at Tangipahoa claims he signaled the train to stop, intending to hold her ten minutes, but she went on and struck the train ahead.

ENGINEER IS KILLED WHILE ON WAY HOME

J. C. Robertson, Thought to Have Been Knocked From His Cab by Bridge Over the Clear Fork Near This City

J. C. Robertson, an engineer on the Texas and Pacific, was instantly killed at noon today just as he was within two miles of his home, coming in on a run from Big Springs.

Robertson was on an eastbound freight train when the accident which caused his death occurred. It is not definitely known just how he was killed, as the fireman and other trainmen did not see the accident, but it is believed that Robertson was knocked from the cab of the engine by the bridge over Clear Fork, as it was at this point where the accident took place.

The dead man was picked up near the bridge and carried to the Union station, where a coroner was summoned to hold an inquest.

The body was badly mangled, both legs and one arm being broken. The head was also mangled, which indicates that it came in contact with the bridge.

Robertson was about 36 years of age and had been in the employ of the Texas and Pacific Company several years and was considered one of the best men in the service of the company. He was a member of local lodge No. 187, Brotherhood of Locomotive Engineers, members of which are looking after the interment.

The deceased leaves a wife and two children, whose home is on Boaz street.

PETERS ASKS EXCHANGES TO HELP MEASURE

He Urges That Support Be Given the Burgess Bill Making an Appropriation to Fight the Boll Weevil

Colonel E. S. Peters, president of the Texas Cotton Growers' Association, has started out to get assistance from all over the country for the Burgess bill making an appropriation by congress of \$500,000 for the fight on the boll weevil.

Colonel Peters was here a few days ago and discussed the matter with Oswald Wilson, representing the agricultural department. Mr. Wilson agreed with Colonel Peters on the effective work necessary for the cause. Before leaving Colonel Peters addressed a letter to all the cotton exchanges in the country asking their support to the bill, and explained to them the need for this appropriation. In addition to that he sent a letter to Harvie Jordan, of Montecello, Ga., president of the national organization of the cotton growers. The letter to Mr. Jordan is the same as that sent to the cotton exchanges. It follows:

Calvert, Texas, Nov. 14, '03. Harvie Jordan, Esq., Montecello, Ga. My Dear Sir: From the press, you will note that Congressman Burgess of this state is preparing a bill to introduce in congress asking for an appropriation of \$500,000 for the control of the boll weevil in this state, to be expended by a commission provided in the bill. I think this is one of the most important measures that can be introduced into congress, and I should be glad indeed if you would write a letter to your personal friends in congress, members of the state delegation, and take such action as you may deem essential to the furtherance of this measure. I cannot urge upon you too strongly the necessity of prompt and strong resolutions, and letters being written to the congressman who may have this measure in charge.

In this state we have already taken action, and I trust that you will do so at once. Yours truly, E. S. PETERS, President Texas Cotton Growers' Association.

PRIEST FOUND ON EAST SIDE

New York Cleric Who Fought Vice Among Italians Is Rescued

NEW YORK, Nov. 16.—Father Carrington, who disappeared from his home under mysterious circumstances last Friday was found early today by a policeman in East 51st street, raving wildly in Italian and is now in a hospital. He had been dragged and kept prisoner in a cellar

Your Liver

Will be roused to its natural duties and your biliousness, headache and constipation be cured if you take

Hood's Pills

Sold by all druggists. 25 cents.

with his wrists bound and threatened with death. The police are making a rigid investigation into the case.

At the time of Father Carrington's disappearance, it was believed he had been kidnaped by Italians who opposed the vigorous fight against vice among the Italians of the East Side.

BOLD THIEVES ARE STEALING COPPER WIRE

Interurban Is Experiencing Much Trouble at the East End of Its Line—Officers Believe They Have Clew

The east end of the Interurban line between this city and Dallas is giving the Northern Texas Traction company much trouble, or rather the thieves that are robbing the track of its bond wires, are. The company recently discovered that hundreds of pounds of copper wire were being stolen from their storerooms and special detectives are after the thieves with a fair prospect of capturing them in the near future.

The stealing commenced, it is learned, about two months ago, and the losses to the company thus far will aggregate as much as \$1,000, considering the loss of wire and the replacing of the same.

A special officer of the company recently got a clue to who the thieves are and traced them, with an officer from Dallas county, to a point about eighteen miles below Dallas, and when an attempt was made to place the suspects under arrest, one of them, a Mexican, who lives in Dallas, drew his gun and forced the officers to retreat out the front door, while the Mexican made good his escape. The Mexican was said to be selling whiskey to the negroes.

Since then at least four of the men, two Mexicans and two whites, have been shadowed, and arrests will soon follow.

The matter has been reported to the grand jury of Dallas county, and it is being investigated.

An official of the traction company proposes to break up the gang that is doing the work if it can be done.

CAPTAIN CARTER GETS OUT SOON

Doors of Leavenworth Prison Will Swing Out for the Embezzler

LOUISVILLE, Ky., Nov. 15.—A special from Washington says: "After serving four years in the military prison at Fort Leavenworth, Kan., for embezzlement of government funds, Captain Oberlin M. Carter, formerly engineer and an officer in the army, will walk forth November 28 a free man. From reports received at Washington it appears that Captain Carter is in good health, and will attempt to regain the money which was seized by the government, come east and engage in business."

STREET CARS ARE MOVING IN CHICAGO

Under Police Guard Traction Conditions Are Beginning to Show Improvement — No Rioting Today

CHICAGO, Nov. 16.—The movement of cars operated on a regular star schedule began on the Wentworth avenue line this morning. Police were

massed about the barns, while a detail of patrolmen rode upon every car, as heretofore. Twenty cars were soon en route from the barn to the business districts. Superintendent Weatherwax of the railway company declares he is prepared to operate as many cars as the city can afford police protection.

ADOPT RESOLUTIONS CHICAGO, Nov. 16.—At a mass meeting last night of the street car strikers and their friends to the number of 2,500, resolutions were adopted scoring the Chicago city railway for the course it has taken in the present controversy. The chairman of the meeting was instructed to appoint a committee of forty representative citizens to wait upon Mayor Carter Harrison and the city council and serve them with an ultimatum to the effect that no franchise be granted or other privileges be accorded the company. The Chicago city railway is at present negotiating with the city for a new franchise, the old franchise having expired some time ago.

Among the speakers at the meeting were Clarence S. Darrow, Judge W. M. Prentiss and President Mahone of the Amalgamated Association Street Railway Employees.

OYSTERS NOT COVERED BY THE POLICY

Supreme Court Reversed Judgment Giving Widow \$5,000, Because Husband's Death Was Beyond Provisions

AUSTIN, Texas, Nov. 16.—Supreme court reversed the case of the Maryland Casualty Company vs. Sallie Hugins of Bowie, in which the defendant obtained judgment of \$5,000, the value of an accident policy issued by the plaintiff to the defendant's husband, in the grounds that death resulted from eating spoiled oysters and was accidental. The court held the death was the result of an accident, but was clearly excluded by the policy contract. Motions were granted to file petitions for mandamus against Land Commissioner Terrell by Joe Clark, Eva Angle and W. T. Burnam.

A number of politicians are here today from Montgomery, Madison and Leon who say their counties will give Pinkney a majority in the election tomorrow.

The following companies have been chartered—Dallas Gravel Co., capital \$5,000; Southwestern Immigration Publishing Co., Dallas, capital \$10,000; Guarantee Loan and Banking Co., Dallas, amendment and increased capital to \$40,000.

A. D. Boone who was accidentally shot near Port Lavaca Friday arrived here today, having stood the trip well.

The state convention of the brick layers' union met here this afternoon at 2 o'clock to arrange a schedule of wages and hours for all the local unions in Texas.

PECOS VALLEY CAR SHORTAGE

Problem Has Been Solved and Cattle Can Now Be Handled

The Pecos Valley branch of the Santa Fe system has at last overcome the vexatious matter of a car shortage and is now in position to handle all the cattle movements that are to go from the great Pecos country.

This statement was made today by Live Stock Agent E. W. Martindell of the Pecos Valley road, who added that many fat cattle have already been shipped out of that section of the state to the Kansas City and St. Louis markets during the present fall. He says that there are still about 1,500 calves of fat cattle to move, and from now on there will be no trouble in handling whatever stuff there is to go.

"The condition of stock in the Pecos Valley country is as good as one could desire," said Mr. Martindell. He also said that that section of the state is fast settling up with a prosperous class of farmers from the north who have located there and are engaged in the stock and farming business.

The enterprising citizens of the Pecos Valley, realizing the greatness of their country, have paid little attention to costs and have for months been advertising it in the north. An exhibit car con-

taining the products of the country, has been all through the north attending the country fairs advertising that part of Texas, and as a result hundreds of newcomers are headed toward the Pecos Valley to engage in stock raising and farming.

SAY CHURCH SHOULD NOT

(Continued From Page 1.)

by Rev. C. S. Field and showed a most beautiful growth.

Mrs. Johnson who conducts the rescue home in Dallas was introduced to the conference and made a brief address on her work. She said that 109 girls had been saved by the home in the year just past.

The report of the joint board of finance was delivered by James Robinson and the Rev. Jerome Duncan. It dwelt particularly on the effort to correlate the schools, its success and the plans for the future.

Dr. G. C. Kilgore, in commenting on the report, as financial agent, spoke of the progress of the schools, especially of Southwestern University and the effort to establish a medical branch.

Rev. J. J. Creed reported for the Bible Board and C. R. Wright for the Board of Church Extension.

The report of the Educational Board devoted considerable attention to Polytechnic College and recommended the reappointment of H. A. Boaz as its president.

It also appropriated \$600 for the college.

HOUSE BEGINS ON CUBAN BILL

WASHINGTON, Nov. 16.—When the senate convened today several petitions protesting against Senator Smoot's retaining his seat were presented and referred to the committee on privileges and elections. The house began the consideration of the Cuban reciprocity bill. Dalzell (rep.) reported a resolution providing that the bill reported from the ways and means committee be considered to the exclusion of all other business at 4 o'clock Thursday, when the vote will be taken without an intervening motion. Williams, democratic floor leader, declared it the most drastic rule ever introduced in

MESQUITE FARMER HAS DISAPPEARED

Citizens of the Town Are Wrought Up Over His Strange Absence

DALLAS, Texas, Nov. 16.—(Special.)—The people of Mesquite, twelve miles east of Dallas, are keenly wrought up over the mysterious disappearance of R. B. Cole, a prominent citizen of that place, who has not been seen since last Friday. Fears are entertained lest he is the victim of foul play or some other tragic incident. Hand bills offering a reward for information of his whereabouts if alive, or the recovery of his body, if dead, are being distributed over the country today. Rewards are offered by A. W. Lander of New Hope and G. E. Cole of Mesquite.

DELEGATES VISIT AN AGED LEADER

W. C. T. U. Convention Adjourns to See Crusade Founder

CINCINNATI, Nov. 16.—The members of the W. C. T. U. national convention took trains for Hillsboro, Ohio, today and spent the day with "Mother" Thompson, one of the founders of the crusade movement, which originated in 1873.

A fine edifice has been erected on the site of the old "Crusade Church" and in it is the "Crusade memorial room" with numerous mementoes, among them the hatbox used by "Mother" Thompson. The delegates returned to Cincinnati to resume the sessions at 3 p. m.

CITY IN BRIEF

Nash Hardware Company. Cut flowers at Drumm's. Phone 101. Broiles Electric Co., 1292 Main street. J. W. Adams & Co., Ice, Feed, Fuel and Produce, 409 W. Weatherford. Phone 530.

It will always be found a little better and perhaps a little cheaper at the William Henry & R. E. Bell Hardware Co. 1615-17 Main and 513-15 Houston streets.

Mrs. Helen E. Burton and Miss Clark of 402 Wheeler street, have returned home from Cleburne where they have been visiting during the street carnival.

Miss Mollie Borson and Miss Veta Steward of Granbury, have returned to their home after visiting Mr. and Mrs. Thomas Allen, 1116 Lamar street.

Mrs. Susie Stillman Waples of Ennis was in the city yesterday visiting her mother.

The reception which was to be given tomorrow afternoon by Miss Florence Smith has been indefinitely postponed owing to illness.

Dr. M. V. Creagan, 403 1/2 Main street, phone 2903. Special attention given to diseases of the skin.

Ed. W. Chapman, M. C. McKee, Jr., George K. Kilman, Earl Evans, Camp Moore and Herman P. McKee went on a coon hunt Saturday night and in addition to having good success in their quest for the shy and alert raccoon they witnessed the flight of an unusually brilliant meteor. In fact this meteor was so bright that they took it to be a comet. It was nearly 1 o'clock Sunday morning when it passed across the sky. It left a flaring tail behind it which did not disappear for 10 minutes.

W. B. Spaulding, general claim agent of the Frisco, is here from St. Louis headquarters.

FAT STOCK SHOW CATALOGUE Stuart Harrison, chairman of the executive committee of the Fort Worth Fat Stock Show, today closed a contract with T. W. Coolidge to publish the catalogue for the forthcoming exhibition which is to be held in March, 1904. The contract calls for 5,000 copies of the official catalogue which is to be published as soon as a date as possible. It is understood that as soon as the executive committee completes the premium list that the catalogues are to be printed. Mr. Coolidge said today that he was in hopes of being able to get at work without delay. He compiled the 1903 catalogue which was an excellent piece of work.

Cumso—Well, young Frisbie will make his way in the medical profession.
