

# TWO NEW STATES UNDER NAMES OF OKLAHOMA AND ARIZONA

## AFTER DEBATING ALL THE SESSION THE HOUSE FINALLY PASSES BILL GIVING STATEHOOD TO THE TERRITORIES

### McGUIRE FAVORS THE BILL

Both He and Rodey of New Mexico Willing to Take Not What They Want But What They Can Get

WASHINGTON, April 20.—After a debate extending through the entire session the house has passed the bill providing for joint statehood of Oklahoma and Indian Territory under the name of Oklahoma and Arizona and New Mexico under the name of Arizona. Delegate Wilson of Arizona opposed the bill. It was favored by Delegates Rodey of New Mexico and McGuire of Oklahoma.

Soon after the house met Mr. Dalzell of Pennsylvania presented a rule for the immediate consideration of the statehood bill. Following a brief explanation of the bill by Mr. Dalzell, Mr. Williams of Mississippi, the minority leader, charged that the bill was but a pretext to stay the demand of the territories for admission. He expressed the opinion that the republicans had no idea of passing the bill at this session, or in fact any idea that it would pass at all. The bill, he said, simply was "apples to the eye and ashes to the taste," and offered in such a form that it was known beforehand it could not receive the approbation and votes of the minority.

After the previous question had been ordered, 137 to 123, a party vote, the eyes and noses were ordered on the adoption of the rule.

The rule was adopted 150 to 111, a strict party vote. The bill was then taken up, the rule requiring the vote to be taken at 4:30 today, with no opportunity for amendment.

Mr. Spaulding of North Dakota of the territories committee explained the conditions which led the committee to recommend two states out of the four territories, and Mr. Sterling of Illinois also defended the bill.

In a brief speech in support of the bill Mr. Curtis of Kansas insisted that the Indians of the five civilized tribes and the whites of Indian Territory were ready for statehood and that 90 per cent of the Indians were in favor of joint statehood with Oklahoma.

While stating that the bill did not exactly conform to his idea of what was wanted by the people of Oklahoma, Mr. McGuire of Oklahoma declared that should it pass there would not be a vote against it either in Oklahoma or Indian Territory.

Mr. Russell of Texas criticized the division of the delegates to the constitutional convention of the state of Oklahoma, which, he said, proceeded on the rule of eliminating from the population of Indian Territory the Indians of the civilized tribes. He also opposed other details of the measure.

Brief but vigorous speeches in opposition to the bill were made by Messrs. Reid of Arkansas and Lloyd of Missouri.

The debate was closed by Mr. Rodey of New Mexico, who said that while the bill did not suit the people of his territory, they nevertheless acquiesced in it. The bill was passed, 147 yeas to 104 nays, a strict party vote.

### AN ORGANIZATION OF EMPLOYERS

NEW YORK, April 20.—An organization of employers, to be known as the Employers' League, has been perfected here at a meeting of representatives from the Building Trades Employers' Association, and the associations in the metal, printing, lithographing, ship building and clothing trades.

Those interested declared that there is no antagonism to trades unions in the plans of the league. Its objects are understood to include, however, plans by which employers' associations in all branches of industry can keep in touch with labor troubles of any kind so that there can be co-operation in a general way if it is considered necessary.

### STRIKE TIES UP LIBSON PAPERS

NEW YORK, April 20.—Not a single newspaper is being published here in consequence of a printers' strike, says a Herald dispatch from Lisbon. The trouble is likely to continue for some days.

### DIED AT THE ALTAR

CLEVELAND, Ohio, April 20.—While on his knees in front of the altar in St. Francis' church laying a marble floor, W. T. Butler fell over this afternoon and died. A doctor said it was heart failure.

### SENSATIONAL DEVELOPMENTS IN NORDICA DIVORCE CASE

NEW YORK, April 20.—It is said on good authority that counsel in the original suit of Mme. Nordica for divorce have decided to go to the last resort to force a complete exposure of every feature of the case, in spite of strong pressure being being brought to bear on sources that have already been hinted at.

### PEARSONS RETURNS FROM VISIT SOUTH

#### Tells of Institutions He Has Endowed Where They Are Needed

### AIDS ONLY POOR SCHOOLS

#### After a Vacation Will Begin to Give to the Schools of the West

CHICAGO, April 20.—Dr. D. K. Pearsons, the philanthropist, who has just returned to Chicago from a five months' visit in the south, proposes to take a year's rest, after which he will enter a new season of giving to the young colleges of the west.

"Five of my thirty colleges have not yet raised the sum which I required to offset my gift," said Dr. Pearsons. "I may have to extend the time for some of them."

"When the books are clear, I shall begin to look around west, particularly in Montana, Wyoming and Indian Territory. That's where they need colleges. Many of the eastern and middle states have more than they need, while the poor students in the west have not a chance. I don't care a copper for the rich schools. I'm after the poor ones."

"The last three on my list are Yankton College, South Dakota; Kingfisher College, Oklahoma; and Rollins College, Winter Park, Fla. This was to be my birthday celebration—eighty-four—but it will be rather belated since the date was April 14, and I will not know until I reach my office whether or not they have accepted my offer, which was a gift of \$50,000 to each, provided they each raised \$150,000. The donations will raise the total of my gifts to a little over \$4,000,000."

Dr. Pearsons recently received a letter from Andrew Carnegie, who, although not personally acquainted with him, sent a friendly note of congratulation on his eighty-fourth birthday celebration, containing praise of his theory of helping the small colleges.

### EIGHT PEOPLE DEAD IN MEXICAN WRECK

CITY OF MEXICO, April 20.—The northbound fast passenger train on the Mexican Central jumped the track about four kilometers north of Zacatecas shortly after 1 o'clock yesterday afternoon, resulting in the death of eight persons and the injury of many others.

The train was bowling along at a high rate of speed when a defective piece of rail was struck, precipitating the locomotive, which was followed by the express, baggage, first, second and third-class coaches, down an embankment, totally demolishing them.

The two Pullmans were the only cars which did not leave the track, and consequently those occupying them received no injuries beyond a severe shaking up.

It is impossible at this hour to secure a list of those who lost their lives in the wreck, but it is understood that among the dead are the coal passer (Mexican), the express messenger and the engineer, both Americans.

### AVALANCHE BURIES HOUSES AND PEOPLE

NEW YORK, April 20.—After three days of continuous rains, many avalanches and landslides have occurred in the neighborhood of Simplon Pass, says a Herald dispatch from Geneva.

At Gringols, an avalanche buried twenty persons and five houses.

except the order of the court. If such an order is issued further steps will be taken to thresh the thing out, even if other suits have to be brought.

It was said on good authority today that great interest in the outcome of Mme. Nordica's struggle to free herself from her latest husband is felt, not alone by the financier from across the North river, but by at least one other very rich man.

It is said that he will certainly be called as a witness, if he does not get out an injunction. It is asserted that this man and Mme. Nordica met in Europe last year and that much that developed in the case has resulted from jealousy between the two rich men.

## BIG INTERESTS AS TO SANITY OF THIS ANIMAL USED IN COMMUNITY HIS SON-IN-LAW HIS "HORSESENSE"

### Belmonts and Whitneys May Get Together on the Sub- way Matter

NEW YORK, April 20.—A "community of interest" arrangement between the Metropolitan and the Belmont subway interests may be the outcome of a four hours' conference between August Belmont and Harry Payne Whitney, says the Tribune.

Authorization for the construction of a second system of subways is expected in the near future, and the Metropolitan street railway interests are said in financial circles to have determined on making a strong bid for the building of the new tunnel.

According to mutual friends in Wall street, the Tribune asserts Mr. Belmont told Mr. Whitney that it would be wisdom on the part of the Metropolitan interests to plan their proposed subway, assuming that they received the contract, so that it would complement the Belmont system, thus facilitating a future amalgamation of the two systems on "community of interest" lines.

### MISSOURI COUPLE MARRIED, THAT'S ALL

SHERMAN, Texas, April 20.—R. B. Hulien and Miss Callie Hulien, who gave their place of residence as Centerville, Mo., arrived in the city yesterday and procuring a marriage license and a preacher, were united in marriage by Dr. E. F. Mulkey and at once departed without giving any information concerning the romance that their long journey and unusual actions would dictate.

### Senator Blackburn Seeks Es- tate for Granddaughter Eight Years Old

NEW YORK, April 20.—Testimony as to the sanity of the late Thomas P. Lane, son-in-law of United States Senator Joseph S. C. Blackburn of Kentucky, has been taken in Newark, before a commissioner, to be used in the hearing on the appeal from the probate of Lane's will before the supreme court of the district of Columbia. Senator Blackburn opposes the probate of the will on the ground that his son-in-law was of unsound mind. Lane killed himself in Washington in October 1900, and his widow died in July, 1902. Senator Blackburn is acting on behalf of his granddaughter, Therese, who is 8 years old.

After her husband's death Mrs. Lane persistently refused to make known the contents of his will, and on her death it was found in her safe deposit vault. It provides that his estate be divided among his mother, brother and sisters, all of whom are residents of Summit, N. J. Among the witnesses were former United States Senator James Smith Jr., who said he met Lane in Saratoga shortly before his death and found him perfectly sane, but showing signs of intemperance.

### DON'T STRIKE MATCHES AGAINST SALOON POSTS

CLEVELAND, Ohio, April 20.—In striking a match George Williamson today broke his right arm above the elbow. He tried to strike the match on a post in a saloon. His hand missed the post and he brought his arm down on the bar so forcibly as to break it above the elbow.

### THE WEATHER

The forecast until 8 p. m. Thursday, for Fort Worth and vicinity: Generally fair tonight and Thursday; stationary temperature.

### Doctor Grant Owes His Life to Intelligence of His Horse

SHERMAN, Texas, April 20.—Dr. John Grant, who was seriously injured at Roff, I. T., on Sunday, was brought to this city and is now at St. Vincent's Sanitarium. Mrs. Grant, who was driving with the doctor when the buggy overturned, escaped injury and in relating her experience states that but for the intelligence of the horse they were driving, her husband might have been killed outright, as he was pinned under the vehicle and the horse was struggling to regain his feet when she managed to calm him and at her bidding the animal remained down until she managed to get Dr. Grant out and to the roadside, where they remained until assistance came half an hour later.

Dr. Grant sustained, in addition to other injuries, fractures at both the hip and thigh, which, while not such as to cause alarm, are calculated to keep him bedfast and practically an invalid for several months.

Dr. Grant, who formerly resided in this city, is widely known throughout the state, having served as chairman of the state republican committee and as United States marshal of the Northern District of Texas under the McKinley administration.

### WASHITA PRESBYTERY IN SESSION AT ARDMORE

ARDMORE, I. T., April 20.—The Washita presbytery met here in its first annual session and effected a permanent organization by electing Rev. H. C. Duckett of Tishomingo as moderator; Harry Miller of Furell as clerk. The presbytery will remain in session until noon Thursday.

## TORONTO FIRE UNDER CONTROL AFTER TEN MILLION IS LOST

### SEVERAL BLOCKS IN THE HEART OF THE BUSINESS SECTION OF THE CITY BURNED LAST NIGHT

### EXPERIENCES OF GRAND DUKE CYRIL

#### Tells of His Remarkable Es- cape From the Sinking Battleship

### INJURIES NOT SEVERE

#### Was in the Water Only Little Over a Minute Before Reaching Safety

NEW YORK, April 20.—Grand Duke Cyril has just arrived here on his way to St. Petersburg, says a World dispatch from Harbin. His injuries are not severe, although he is suffering from burns of the neck and ears caused by the explosion of the Petropavlovsk and from bruises of the back and loins caused, subsequently, by the beating of the turbulent waves.

The grand duke can walk a little today. He gives the following story of his escape which was almost miraculous: At the moment of the explosion on the bridge at the other end of which was Admiral Makaroff. It seemed as if the world, the skies, the waters were suddenly rent asunder and from the gulf arose a devouring cloud and blinding flame, which burst with a deafening roar into acrid suffocating fumes.

Scorched, blinded, choked, stunned, Cyril recovered consciousness sufficiently to recognize that the Petropavlovsk was settling down by the head. The bodies of the dead sailors were floating from off the forecastle deck, which was awash. All around lay wreckage; fallen top hamper and scalding steam cut off the grand duke's escape by the companionway.

He faintly remembers that he realized the necessity of making his way aft, dimly reasoning that there he was more likely, with some way still on ship, to clear the suction from her when she sank. He recalls clambering down from the bridge and making his way along the deck through clouds of steam and masses of debris.

He remembers ascending an incline, with the rising water, as it seemed pursuing him into a barbettes in which the water was already pouring with such force that he required all the strength he could muster to battle his way through it. However, he reached a gun port and dived down and outward with all the force of an athlete and practiced swimmer until his temples were bursting with the effort of retaining his breath. Then he struck upward. At last the light came and he reached the air. While he filled his lungs he supported himself on a piece of floating wreckage which he seized and to which he assisted another struggling swimmer.

### HOTELS CAN'T STAND IN WAY OF RAILROAD

MUSKOGEE, I. T., April 20.—The Midland Valley railroad is making rapid progress towards getting their right of way through this city, having purchased over \$50,000 worth of property along the proposed route through town. Among these purchases was the Jones hotel, a large frame house, directly opposite the Frisco depot. This property alone brought over seventeen thousand dollars. Actual work on this line north of the city commences tomorrow.

### TRYING TO MAKE UNCLE SAM PAY A BILL 13 YEARS OLD

WASHINGTON, April 20.—A claim for compensation by John L. Smithmeyer and Paul J. Belz, who designed the great congressional library building, runs through sessions of congress like a constant story.

Bills for their relief have been favorably recommended by committees of both branches of congress. They \$1,500 was a prize given them for the other, but never by both at the same session.

In preparing plans for the building they were engaged for thirteen years. During twelve years they gave up their private business and devoted all their time to the work. For their services they received \$49,500. Of this amount \$1,500 was prize given them for the best design.

This prize was won in 1873 in competition with twenty-seven other architects. The firm secured \$48,000 in 1893, after having been awarded a judgment for that amount in the court of claims.

### ONLY ONE MAN PERISHED

#### Special Trains Carry Help From Neighboring Cities, But It Arrives Too Late to Be of Much Service in Stop- ping the Flames

TORONTO, Canada, April 20.—Ten million dollars' worth of property was destroyed by a fire, which devastated the business section of Toronto last night and early today. The flames were under control at 5 o'clock.

Two hundred and fifty firms are burned out. The area covered by the fire is three blocks in length and varies in width from a half block to two blocks. Only one man is missing and it is not certain that he perished in the flames. Chief Thompson of the fire department was the only person injured. His condition is not serious.

The custom house, a four-story stone building, was destroyed at 4 o'clock. Every building on Bay street, from Melinda street south to the Esplanade at the water front, was wiped out and the fire spread on to Wellington and Front streets, as well as along the water front from their intersection with Bay street, for distances of a few hundred feet to whole blocks. The total number of buildings destroyed is: Bay street, east side, 20, west side, 30; Wellington street, north side, 12, south side, 7; Front street, north side, 22, south side, 27; Esplanade, 4; Piper street, 1.

Early in the evening, when the fire assumed alarming proportions, appeals for assistance were sent to London, Hamilton, Montreal and Buffalo. Special trains at once started from these points, but it was long after midnight before the first of them began to arrive. At an early stage of the fire Chief Thompson got trapped by the flames and was forced to jump from the top of a building.

A network of wires broke his fall and saved his life. He escaped with a broken leg. When the chief made his leap for life a traveler from Montreal was on the roof with him. No trace of this man has since been seen. It is probable he perished in the flames.

The fire started in an elevator shaft at the rear of the Currie building. The flames spread across the street to the Brown Brothers building and from there east to Bay street. The wind, which had been brisk, increased to a gale. A general alarm was sounded, but before all the force reached the scene the fire leaped to the high buildings occupied by Ansley & Co. and Pugsley, Dingman & Co. Then Seckling & Co.'s building adjoining Currie's east, caught fire and almost simultaneously great forks of flame began to shoot out from the Brown building and firemen were obliged to split their forces. The roof of the Dingman-Moneyennys building on the northwest corner of Bay and Wellington streets was the next place to burst into flames. The Gale Manufacturing Company's immense plant at the rear of Ansley & Co., was the next to fall a prey to the fire. Shortly afterwards flames from the east side of Dingman-Moneyennys were carried across to the east side of Bay street to the office of the Specialty building.

It was here that the firemen united forces and made a desperate attempt to check the progress of the flames to the north part of the city. They won, but not until they had lost control of the flames, which were now sweeping down Bay street toward the river front.

For over a half hour the fire in Front street burned fiercely and practically unchecked. It then began to work itself back upon Bay street. It was only the intervening block that saved the Queen's hotel, one of the finest hostleries in the city. So imminent seemed the danger that all the guests hurriedly packed their belongings and left and everything portable was removed from the hotel.

percentage of expenses of all kinds of an architect's practice amounts to 50 per cent of the gross receipts. Applying this to the above amount, the claimants received for their own time and labor, over and above expenses, \$24,000 only. This would be \$12,000 for each member of the firm, their services extending over thirteen years. This gave to each one an annual compensation of \$923.07, which sum represents the wages of a junior draftsman employed in an architect's office as a copyist merely.

The architects received from the government for other work about \$25,000, but both they and the senate committee assert that this amount was for entirely different services and had nothing to do with the building and the building. For thirteen years' labor on the plans they have been given \$49,500. They ask permission to sue the government in the court of claims for additional compensation to the amount of \$108,700. This would make their pay for the plans and drawings 2 1/2 per cent of the cost of the building. They also declare that the percentage named is the compensation usually given architects for such work.

# COLORADO WINE OPERATORS HAVE THEMSELVES TO BLAME

## DR. WASHINGTON GLADDEN DISCOVERS THAT THE OWNERS IMPORTED A DEGRADED AND VIOLENT CLASS OF WORKMEN, WHO FINALLY GAINED CONTROL OF THE UNIONS—BAD LEADERSHIP ON SIDES OF LABOR, EMPLOYER AND THE LAW

BY DR. WASHINGTON GLADDEN, Special Commissioner of the Newspaper Enterprise Association at the Scene of the Labor War in Colorado.

"After all," I said, "the bottom trouble in the Colorado mining camps is bad leadership. It was bad leadership that called the strike in the Cripple Creek district which has precipitated this industrial war; it is bad leadership generally that produces these ugly conditions. When will the miners and all the rest of the unions have sense enough to choose good leaders?"

"My companion was a man who probably knows as much about the true inwardness of the mining troubles as any man in Colorado. He reflected a moment and then said: 'You haven't gone quite to the bottom yet. Why do the miners choose such leaders? Because these leaders represent a large and turbulent element among them. But how did this turbulent element become so strong among them? That is a question which is not often carefully considered.'

"It is largely due to the fact that when disagreements between the masters and the men have occurred, the people who have been brought in to take the striking miners' places have generally been ignorant, violent and brutal men. The miners could not permit these people to remain outside their unions; they have been compelled to take them in, and it is pretty largely from this class now in the union that the worst disorders come. This class wants violent and headstrong leaders and gets them. Who is to blame?"

This falls, of course, with the experience of the anthracite regions. The people of Colorado Springs have just had this matter brought close home to them. There was a strike in the coal mines just north of the city, and the men brought in to take the places of the striking coal miners were a terribly degraded lot; the social conditions of that neighborhood after their arrival were shocking. The whole city has been scandalized by this importation. Evidently if this labor remains on the ground and is gradually absorbed into the unions, the leadership is likely to prove increasingly bad.

Such are some of the deep-lying causes which underlie degenerate and turbulent conditions in the industrial world. Of these things the average critic of such conditions never takes any note; he simply judges of things as they now are, without ever stopping to consider how they came to be what they are.

I don't know that any lesson can be drawn from such an analysis which will prove instructive to the employing class. It might, I should think, suggest to them that victories in industrial warfare are apt to be about as costly in the long run as defeats. When you have succeeded in breaking your strike, by the use of such forces as you can command, you have probably got your whole business down upon a plane where succeeding strikes are likely to be more reasonable and brutal. Wouldn't it be better to exhaust the resources of reason and good will in trying to avoid strikes or to settle them in a more rational way?

There may also be some ideas hereabouts which reasonable unionists should take time to consider. Does it not seem

to conservative men in the unions a serious question whether they would not do well to guard their membership against elements which are sure to plunge them into turbulence and anarchy? If trades unions are to exist in this country they must stand for commonsense and fair play. Therefore they must have level-headed leaders. Therefore they must lead the rank and file to be filled up with ignorant and crazy followers who cannot be controlled.

On the whole, however, we are bound to be patient with the unions. In their choice of bad representatives. What are we all doing in our city councils, in our state legislatures? Are the people we choose to represent us in these places any better representatives, as a rule, than the unions are in the habit of selecting?

The trouble with us as with them is that those who have the intelligence and the capacity to lead are apt to refuse leadership, and the business too often falls into the hands of the incompetent and the selfish. In many of the Colorado mining districts—notably in the Cripple Creek district where this strike began—the majority of the miners are said to be intelligent and fair-minded men. They are mostly Irish, Swedes and Cornishmen—all good material for citizenship. Some less desirable elements have been brought in within the past year or two, but, on the whole, the constituency of the unions is very good. The sober-minded men of this district could have things their own way if they would assert themselves. It is time for them to make up their minds that they are going to have things their own way.

There is one deep cause of trouble in Colorado to which I have not yet alluded. Several years ago an eight-hour law was passed by the legislature, applying to the mining districts. The wisdom of such a restriction I cannot question. No man ought to work under ground more than eight hours a day, especially in those high altitudes.

The courts, however, pronounced the law unconstitutional; whereupon a constitutional amendment, authorizing such legislation, was submitted, and approved by the voters of the state by an overwhelming majority. Both parties, in their platforms, indorsed the measure; every man elected to the legislature was elected upon the distinct pledge that he would vote for such a law.

But the legislature failed to enact the law; and the miners all believe that corrupt influences were employed by the mine owners to prevent its enactment. It must be admitted that such things are not rare, and that such suspicions are too well grounded.

It happened, however, that the legislature left a serious flaw in the main appropriation bill, and had to be called together in a special session to remedy it. When that fact was known the miners urged the governor to put the eight-hour law into the call, but he declined to do so. Probably his legal reasons were good; but the miners felt that the failure to pass this law was a practical breach of contract, and that the legislature ought to have been held to its performance, and they have been greatly embittered by the whole incident.

The feeling has entered into this struggle, and has greatly tended to intensify and prolong it. The miners feel that the powers that be are not disposed to keep faith with them. Such a transaction has done more to make socialists than all the crazy speeches that have been heard in the camps.

We are not, then, I fear, in the way of learning much about the management of labor troubles from the recent history of Colorado. A good deal of strenuousness and not much good sense has been imported into the struggle in the Guggenheim state. One remark, made to me by a gentleman long a citizen of Colorado, and well qualified to testify, may throw some light on existing conditions.

"With honorable exceptions," he said, "I fear that our mine operators belong to a type of employer which is not the highest—men who have not much social sympathy and few philanthropic aims; who are in the business to make their fortunes as soon as they can and do not care very deeply about the welfare of the men whom they employ. Perhaps the miners, too, are even rougher and cruder than men of their class usually are; so that the problem here is a little tougher than you can find it in the east."

This opinion I quote without making myself responsible for it.

Just what the outcome of this struggle is to be I am not going to predict. That it has already inflicted immense damage on the industries of the state is probable; not only the miners' strike, but the exorbitant and merciless demands of the unions in all the cities have paralyzed trade. The loss borne by productive industry during the last year is estimated at \$50,000,000. It is this tremendous injury which has stirred up the citizens' alliance to fight the unions, and which has encouraged the drastic measures of the state administration. But there are remedies which are worse than the disease to which they are applied, and Colorado needs to beware.

The miners' union and the labor unions generally must learn to be reasonable and decent. If they insist on having the earth they will be wiped from the face of it. Tyrannies are not going to thrive in the twentieth century. It is time for the sensible members of the union to assert themselves and to enforce a policy of live and let live. I heard of a unionist saying the other day in Colorado:

"We must stop electing scoundrels and choose men who will prove their ability."

not by getting us into trouble, but by keeping us out of it."

Cheers for that man! May his tribe increase!

The employers have got as much to learn as the unionists. They ought to be a great deal wiser, but they are not. They think that they can put an end to labor troubles by force, and they never will. They have got to learn to put as much brains and tact and good will and patience into the business of managing their men as they do into managing the mechanical or the financial sides of their enterprises. Doubtless they must organize. No single employer or company standing alone can deal with a compact labor union. There will have to be collective bargaining on the part of the masters as well as the men.

But this organization must keep in

view the issues of peace and not of war. War, internationally or industrially, is simple idocy. It settles nothing; it simply devours and destroys.

Industrial disputes must be settled by reason, not by force, and no man is fit for large business, in these days, who does not recognize this as the end, and work toward it with all his might.

By the same rule the officers of the law must be guided, only here the maxim should have redoubled emphasis. The first business of the magistrate is not to make war, it is to make and keep the peace. He, by his function, is the prince of arbitrators. If he must enforce law, let him do it lawfully. Above all, there must be with him no favorites. No poor man in the land must have the slightest reason for thinking that the strength of the state is put forth to aid the strong in trampling on the weak. If the magistrate cannot convince the poor that this is not true, he has failed in his function. For poor men are not, as a rule, any less capable than rich men of comprehending the real menacing of state politics and the essential truth of things.

That fair young state of Colorado, with its kingly mountains and its queenly cities, its veins of wealth, and its glories of enterprise—one does not like to think of the passions that are spoiling its peace and the feuds that are trampling out its prosperity. How quickly all this might come to end if only the men of real good will would get together and resolve to end it. Why should they not say to one another—mine owners, labor leaders, officers of the law, all the rest: "Men and brethren, we are fools! Let us stop and consider! What is the earthly use of fighting? Why not make peace? Why should we cripple the industries of

this great state, blast its credit, paralyze its traffic, undermine its moral life any longer? Tell us what things are honest and fair and we will stand for them. We don't want to put anybody down. If anybody is down, we want to take him by the hand and lift him up. Let all stop fighting one another, and take hold and help one another all we can."

What is to hinder the reasonable men of Colorado, of whom I am sure there are tens of thousands, from saying this, right now, and making it good?

## GENERAL ORDERS CLOAK LOVE TALE

### Lieutenant Dismissed From the Army for Unbecoming Conduct

WASHINGTON, April 20.—General orders of the war department just published here tell of the dismissal from the service of First Lieutenant Arthur G. Sharp, Philippine Islands, after a trial by courtmartial on the charge of "conduct unbecoming an officer and a gentleman." The charge cloaks the tale of the love of the young officer for an enlisted man's wife which has stirred military circles in the Philippines.

Lieutenant Sharp was daring in his attempts to allay the affections of Mrs. Josephine Alice Heckert, wife of Sergeant Milton Heckert, troop K, Twelfth cavalry, and it is alleged offered to give up his commission and fly from the islands if Mrs. Heckert would accompany him. Mrs. Heckert is said to be a beautiful woman, and the young lieutenant's ardor led him to make comparisons between her and the wives and relatives of brother officers which were by no means complimentary to the latter. There is no doubt that this comparison embittered his brother officers against Lieutenant Sharp.

There was no recommendation for mercy in the findings of the courtmartial, which recommended dismissal. President Roosevelt, as the final reviewing officer, approved the findings of the court, and Lieutenant Sharp ceased to be connected with the army on April 4.

The fascination that drew Lieutenant Sharp to Mrs. Heckert was first manifested at Camp McArthur, Batangas, Philippine Islands, in November last, and the court that he paid to Mrs. Heckert was so pronounced that it could not escape the attention of his brother officers. It is understood that he was warned several times that his conduct was such that he would incur a reprimand or something more serious, but Lieutenant Sharp refused to heed this advice. Finally a letter from him to Mrs. Heckert, in which he criticized his brother officers' wives and relatives at a dance, fell into the hands of officers of his regiment. Charges were formulated and the courtmartial ordered. Colonel Albert L. May, Eleventh infantry, was president of the court.

The charge was that Lieutenant Sharp "did, by promise, presents and other means, attempt to allay from her husband the affections" of Mrs. Heckert; also, that Lieutenant Sharp "did, in a letter to the wife of an enlisted man, make disparaging remarks concerning the ladies present at a garrison party, to wit: 'But last night when some of them tucked up their dresses to dance it looked like they were going to waddle over to the wash-tub and bend over the washboard. I just thought they had better watch my Alice.' Also, 'I wish I could just walk around the room with Alice on my arm. They could all die with envy,' or words to that effect."

Lieutenant Sharp is not a graduate of West Point, but was commissioned in the regular service after having served as an officer in volunteer regiments during the Spanish war. He was appointed from Kentucky, but was born in England. His military record is good.

## SWOONS BECAUSE HER JEWELS CAME BACK

NEW YORK, April 20.—So great was the joy of Mrs. Nellie Grant Sartoris today at recovering, through the honesty of a little French flower woman, her jewels—Jewels of \$5,000 intrinsic value, but priceless in historic worth—that she fell in a swoon at her room at the Holland house. As she related she clasped to her breast a heart-shaped locket, containing a tube rose that the great general had held in his hand when dead.

Saturday afternoon Mrs. Sartoris dropped the jewels. They were found by a "sandwich man," who sold them to the flower woman, who outbid a peddler. For fifty cents Mme. Lena de Guelle obtained what a sub-treasury could not buy. The peddler, however, purchased a ring with the police expect to recover tomorrow.

## THE TRUCK DRIVERS' STRIKE A FAILURE

KANSAS CITY, Mo., April 20.—The strike of the truck drivers in this city which has been in progress for several weeks has been declared off by the truck drivers' union, the strikers being advised to make peace with the employers and each striker instructed to secure employment on any terms that he may choose. Much violence attended the strike. Clash between the union and non-union forces were of daily occurrence, many persons were injured and many arrests were made. At the outset of the strike more than 600 men were affected, but as the strikers were gradually losing their fight, more than half of the men returned to work before the strike was declared off.

## H. T. PANGBURN & CO.'S NEW DEPARTURE

Selling Medicine at Half Price Under Guarantee of Cure

After two months of remarkable sales, H. T. Pangburn & Co., the enterprising druggists, say that their plan of selling at half price the regular 50-cent size of Dr. Howard's specific for the cure of constipation and dyspepsia, and guaranteeing to refund the money if it does not cure, has been the greatest success they have ever known.

They have sold hundreds of bottles of the specific; and as yet have not had one returned, although they stand ready at any time to refund the money should any customer be dissatisfied. This is the strongest testimony that can be furnished to the great merit of this medicine.

Any one suffering with dyspepsia, constipation, live troubles, headaches, dizziness, coated tongue, or the general tired feeling, caused by inactive liver and bowels or disordered digestion, should take advantage of H. T. Pangburn & Co.'s new departure and buy a bottle of Dr. Howard's specific at half price, with their personal guarantee to refund the money if it does not cure.

# GRAND LODGE OF KNIGHTS OF PYTHIAS

## Thirty-First Annual Session Will Be Held at Houston April 26, 27 and 28—Location of "Home"

The coming thirty-first annual session of the grand lodge, Knights of Pythias, which meets at Houston April 26, 27 and 28, will be one of the most interesting held in many years, as two very important matters will come up for consideration—the endorsement of the Widows' and Orphans' home and the adoption of the revised constitution and statutes, as will be reported by a committee which was appointed at the last grand meeting in Fort Worth.

As to the first proposition, there is some doubt of the grand lodge taking decisive action at the present time because of the fact that the fund for the establishment of the home has only reached \$10,000 and the total amount desired is \$100,000. A member of the grand lodge said this morning that it was his idea that the grand lodge would not act definitely upon locating the home at the coming convention, but that this matter would be settled at a subsequent grand lodge meeting, without doubt.

Fort Worth will be well represented in the grand lodge, as the following list of delegates will show: Representing Red Cross No. 14, J. Matt Perry; Queen City No. 51, Dr. J. M. McKnight; Ruby No. 92, John A. Walker; Alexander No. 249, J. S. Staiti; Marine No. 230, I. S. Valentine.

The following past chancellors will go: W. Alex. Abey, John T. Montgomery, E. T. Hollis and John M. Adams; George B. Johnson, chairman of the finance committee; Wallace D. Peak, chairman of the committee on mileage and per diem; J. M. Hartsfield, member of the committee on officers' report; G. S. Rail, chancellor commander Red Cross, and R. H. Buc and C. M. Carb, Dr. J. L. Cooper and many others.

From the Rathbone Sisters will go quite a large delegation. Mrs. John McBride and Mrs. Robert Cook will be the representatives to the grand temple meeting from local Temple Eleanor. Supreme Representative John M. Adams of this city has been asked to respond on behalf of the visiting knights of Texas to the addresses of welcome from Mayor Jackson and the Houston lodges.

### THE LODGE'S GROWTH

The growth of the Knights of Pythias order throughout the United States has been phenomenal during the past year, as reports received here by John M. Adams show.

There has been material growth in every state in the union except two, Montana and Wisconsin. The loss in the former during the last year was eight, while Wisconsin's loss is twenty-one. The gains have been from ten to 3,500 in the different states. Ohio and Indiana both show a net gain of 3,500 each. Texas' gain was 1,711, and stood sixth in the list of states showing gains.

Omitting Alaska, the total membership of the Knights of Pythias was on December 31, 1903, 594,819, a net gain during the year of 32,545. This is the largest gain in membership since 1892.

### RAILROAD RUMBLINGS

A party of prominent Frisco officials reached this city late last evening. The party consisted of R. F. Yoakum, president of the board of directors; A. J. Davidson, president; S. W. Fordyce of St. Louis; W. K. Vanderbilt, Jr., and three friends, and they arrived in a special train from the north. A carriage drove when the party left at about 9 o'clock, and before returning will visit south Texas incidentally discussing railroad matters.

Mr. Davidson said he did not know when the Frisco would make further extensions from Brady, and that for the present there would likely be nothing of the kind done this year.

Touche the matter of prospective changes among Texas officials of the Frisco. President Davidson was of the opinion there would be none except, possibly, the election of Mr. Fickinger to succeed Mr. Brady, who is at present vice president of the Red River, Texas and Southern railroad. The directors of this company will hold a meeting at Sherman on May 20, and at this date it is more than likely that the change will be made.

This morning the party left for the south.

### MEXICAN MERGER SLATE

It is believed here in railroad circles that by May 1 the slate of appointments of freight and passenger officials of the merger system of Mexican roads will be announced. The make-up of this slate it is thought will be as follows:

## All Humors

Are impure matters which the skin, liver, kidneys and other organs can not take care of without help, there is such an accumulation of them.

They litter the whole system.

Pimples, boils, eczema and other eruptions, loss of appetite, that tired feeling, bilious turns, fits of indigestion, dull headaches and many other troubles are due to them.

## Hood's Sarsaparilla and Pills

Remove all humors, overcome all their effects, strengthen, tone and invigorate the whole system.

"I had salt rheum on my hands so that I could not work. I took Hood's Sarsaparilla and it drove out the humor. I continued its use till the sores disappeared." Mrs. I. A. O. Baow, Rumford Falls, Me.

Hood's Sarsaparilla promises to cure and keeps the promise.

and passenger agent of the Interoceanic, to be general passenger agent.

In the above appointments all the men would come from the ranks of the consolidated lines. It has been intimated that a man would be selected from the International and Great Northern road, headquarters at Palestine, Texas, who would be made general passenger agent of the merger.

### PROMOTED BY INTERNATIONAL

A report is current that surveyors are now in the field running a line from Mazatlan to Durango, and the impression is that the road is to be constructed soon. The new line is being promoted by the International, under the direction of President Metcalfe.

### MISSOURI PACIFIC MAY EXTEND

It is reported that the Missouri Pacific will extend the Carthage and Western road from Asbury, the western terminus of that division, to Yates Center.

### CANE BELT TO EXTEND

It is reported here that the Cane Belt railroad is to be extended to Big Hill oil district at once, and also that other important branches of this system are to be extended in that section of the state.

### MAKING BETTER ROADBED

The Galveston, Houston and Northern Railroad Company is having the roadbed put in good condition. The work is being done near Virginia Point, where the roadbed is being ballasted.

The company has already received a large amount of heavy steel with which the new track is to be laid. When completed the track between Houston and Galveston will be laid with eighty-pound steel, thus enabling the company to make faster time.

The work is being prosecuted northward toward Houston, and is expected to be completed some time during the present summer.

The company denies the report that the track between Houston and Galveston is to be double-tracked, though the roadbed is being so constructed that double tracks can be laid at any time such improvements are thought to be justified.

That there is some connection is accepted as a foregone conclusion from the fact that the petition yesterday in the circuit court at St. Paul the petitioners were Harriman, Winslow S. Pierce and the Oregon Short Line.

Winslow S. Pierce is the general counsel for the Missouri Pacific and the Fort Worth and Denver and though not nominally appearing upon the legal staff of the various smaller lines controlled by the Goulds, his hand is nevertheless acknowledged to be the guiding one in their legal questions of importance.

This has started the question going and the answer is anxiously awaited.

### DID IT

Result of Change of Food

Says a lady of South Dakota: "I don't believe any one ever suffered from dyspepsia worse than I did for 30 years for sometimes I laid in bed for months at a time with no appetite and what I did eat was impossible to retain on my stomach, which often kept me awake all night with severe cramps. About three years ago I became nervous I was almost wild. As I lay on the bed (for I could not sit up) a weed growing in the grass it saw a gay hysteric, I begged my daughter to go out and pull it up and one moment's delay on her part almost sent me into fits. Think of such a condition. Of course she could not know the intense agony I suffered while waiting, but it was no wonder my mind was deranged, for I had scarcely slept at all for four months."

"It was at this critical time my food was changed and I commenced to eat Grape-Nuts regularly two or three times daily and began to gain in a few days; appetite improved, gained in flesh and strength, and the chronic diarrhea, which had troubled me for years gradually gave way.

# BREWERS START FIGHT ON THE DIVES

## All Saloons Not Obeying the Law to Be Prosecuted—Beer Men Propose to Clear the Atmosphere

War to the finish against "speakeasies" and low dives has been begun upon the part of the National and State Brewers' Associations and a vigorous prosecution of all such places in this city may be expected within the course of a few weeks.

A prosecutor at Dallas has already been engaged by the secretary of the organization, whose headquarters are at Galveston, and a similar step is expected to be taken here at any time.

When seen in regard to the matter yesterday Mr. Zane-Cetti of the Texas Brewing Company stated that he knew nothing further in regard to the matter than that the association had decided to make a war upon the dives and that he supposed they were first picking out the places where the most flagrant violations of the law existed.

That the association is in earnest in the matter is shown by the following communication sent to Attorney W. P. Linticum, who has been engaged by them in Dallas:

Dear Sir—I sent you a telegram today, and there is no use to repeat it here, and occupy space, but you can publish to the world the fact that the National and State Brewers' Associations have arrived at that stage where they will take in hand the extermination of all dives and joints which may exist in the state of Texas.

For years they have submitted to the obliquity of the prohibitionists' statement that the breweries were back of the dives. The statement was without foundation in fact, and the people officers back of the heavy citizens who rent the premises and receive exorbitant rent therefor. If we should make public some of the evidence which has come into our possession of the leases and other contracts made with the proprietors of a class of resorts known as the "dive," it would certainly astonish many of the good citizens of Dallas and other cities in this state.

For years the association has been trying to get the law officers to execute the laws upon the statute books, but for one specious excuse or another, they have heretofore failed. Now the association has determined that they will prosecute and employ private counsel in every city and hamlet in the state and drive out of business every man who will not obey the laws upon the statute books. They are doing this, not as a "sop" to the prohibitionists; but because they have grown thoroughly and absolutely tired of carrying the burden of abuse which has been heaped upon them, and before this crusade closes there will be some astonishing revelations, and I believe that the movement will receive, at the hands of the great majority, 90 per cent at least, of the men engaged in the liquor traffic, their hearty accord and support, and it must of necessity command the respect of all honest prohibitionists.

That there have been places where the liquor traffic was conducted that were objectionable, not only to the best, but even to the worst citizens, we are free to admit, but that the breweries were behind such places, we deny and are now ready to prove.

The slogan that was taken up by the prohibitionists that the dive must go, was merely in their hands a "fig-leaf" to cover their own nakedness, but now that the Brewers' Association has taken up the matter, there will be no temporizing; there will be no trades; there will be no deals—it is either conformity with law, or go out of business, and the brewers are not afraid of the law. All they ask is fair play and the hearty co-operation of all friends, whether they be prohibitionists or antis.

You are retained by the association to prosecute in the county of Dallas and other fearless men will be retained in every county or city where a necessity for such may arise.

This is final, and I hope you will understand it. Allow neither fear, favor or affection to interfere in your absolute prosecutions, and if the law officers will not aid you in this matter, the law will follow and prosecution of them, just as certain as the law-breaker will be prosecuted. We hope you will understand the foregoing, and that there will be no further necessity of communication in this direction.

### KANSAS CITY IS IN DANGER FROM FLOOD

KANSAS CITY, Mo., April 20.—H. C. Frankenkfield of Washington, D. C., chief weather forecaster for the entire United States, is here establishing flood observation stations in the Kansas river valley.

### FIRST FELLOWSHIP FOR A CHINAMAN

NEW YORK, April 20.—The first fellowship ever won by a Chinaman at Cornell University has been awarded to Ching Yung Yen for exceptionally brilliant work in the school of political science. Although only 23 years old, Yen is a graduate of the Imperial Tien Tsin university. His fellowship was won in constitutional law.

### VOGUE IN BABIES

"My baby cries," faltered the woman, with quivering lip.

I pitied her, sincerely.

"I have read that old-fashioned babies are likely to come in again," I said.

I lied, of course, but it comforted her, and that was enough.

# HOW ARE YOUR KIDNEYS?

## You Owe It to Yourself to Find Out at Once.

Diseased Kidneys Cause More Sickness and Serious Complications Than Any Other Disease.

WILLIAM McLAUGHLIN.  
I cannot speak too highly of Safe Cure, and I have recommended it to no less than a dozen of my friends, all of whom received just as good results as I.

WILLIAM McLAUGHLIN, 1739 S. 19th St., Philadelphia, Pa.

Many such unsolicited letters are received daily from grateful men and women who have been cured by Warner's Safe Cure.

Thousands of Men and Women Have Kidney Disease and Do Not Know It Until It Has Developed into Bladder Trouble, Rheumatism, Diabetes, or Bright's Disease, Which Will Prove Fatal if Not Attended to Immediately.

**PAINS IN THE SMALL OF THE BACK,** painful passing of urine, inflammation of the bladder, torpid liver, cloudy urine, pains in the back of the head and neck, rheumatic pains and swellings all over the body, eczema and jaundice, tell you your kidneys are diseased and are not able to do their work properly. If you have any of these symptoms, great care should be taken to stop the progress of the disease and prevent it becoming chronic and impregnating the entire system.

## TEST YOUR URINE.

After your morning urine stands 24 hours, if you find a reddish, brick-dust sediment in it, or particles floating in the urine, or if it is cloudy, you will know your kidneys are in a diseased condition and are unable to perform their work.

## "SAFE CURE" CURES WEAK KIDNEYS.

It purifies and strengthens the kidneys and enables them to do their work; it will cure rheumatism, rheumatic gout, diabetes, Bright's disease, uric acid poison, inflammation of the bladder and urinary organs, and restore the patient's health and vigor.

Safe Cure is purely vegetable and contains no narcotic or harmful drugs. It is free from sediment and pleasant to take. At all drug stores, or direct, 50 cents and \$1 a bottle. Beware of so-called kidney cures which are full of sediment and of bad odor; they are positively harmful and do not cure.

If there are any complications that you do not understand, write in confidence to our doctors for free advice and counsel. Medical booklet free. Address Warner's Safe Cure Co., Rochester, N. Y.

WARNER'S SAFE PILLS move the bowels gently and aid a speedy cure.

# UNIVERSITY FACULTY

## Member of Legislature From This City a Candidate for Vacancy in the Law Faculty of the State Institution

The friends of Hon. W. D. Williams of this city are making an effort to secure for him the position of assistant professor of law in the State University at the meeting of the faculty to be held in June.

Judge Williams is now a member of the Texas legislature from this county and is a candidate for re-election. Judge Yancy Lewis of the faculty has resigned and when the regents meet in June they will decide upon his successor. Judge Williams was urged by his friends to make application for the place, and very fine endorsements have been filed for him. He was city attorney in Fort Worth for a long time, and here where he is known his ability is unquestioned, and it remains for the influence of those who can have weight with the board of regents to secure for him the position. Pending his application to the board of regents, Judge Williams has not withdrawn from the legislature, and in this contest he has no opposition.

# WEATHER FORECAST

April assayed this morning to rob March of its windy reputation and blew things right and left. At the same time, however, the month maintained its own reputation for fickleness, the wind seeming to come from every direction at once.

Although seeming oppressive because of the humidity, the temperature was only 86 degrees, around which it is expected to continue today and tomorrow. Generally fair weather will prevail.

# CONDITIONS IN COTTON REGION

The weather is generally fair in the cotton region this morning. The temperature is near the seasonal average in the western districts, but continues cold in the extreme northeast portion of the eastern states, with frost in North Carolina. The precipitation was light and unimportant during the past twenty-four hours.

### INDICATIONS FOR THE SOUTHWEST

Arkansas—Tonight and Thursday, showers.  
Oklahoma and Indian Territories—Tonight fair; Thursday showers; cooler.  
East Texas, North—Tonight and Thursday fair.  
East Texas, South—Tonight and Thursday fair; fresh southerly winds on coast.

### FORECAST

The forecast for Texas east of the one hundredth meridian, issued at New Orleans, is as follows:  
North—Tonight and Thursday, generally fair weather; stationary temperature.  
South—Tonight and Thursday, generally fair weather; stationary temperature.

### WEATHER CONDITIONS

Forecaster George Reeder issued the following statement of weather conditions this morning:  
The low pressure is over the Rocky Mountain states and extends eastward over the middle west. Light rain has fallen during the past twenty-four hours over the greater portion of the north and west. Heavy rain fell in the lower Mississippi valley. Cold weather continues east of the Mississippi and north of the Ohio; light snow is falling at St. Louis this morning.  
The weather in Texas is generally fair this morning; no precipitation of any importance occurred during the past twenty-four hours; similar conditions prevail in the eastern cotton states.

### WEATHER RECORD

Following is the weather record for the last twenty-four hours—minimum and maximum temperature, wind in miles per hour at 8 a. m. and rain in inches:

# NO PENSIONS FOR MEXICAN WAR VETERANS

## Report Received in Fort Worth by Letter Was Incorrect and the Bill Is Yet in the Hands of the Committee

A few days ago The Telegram published a story to the effect that through the influence of Mrs. Moore Murdock of this city a bill to grant a pension of \$20 per month to veterans of the Mexican war had passed both houses of congress and is ready for the signature of the president, and that a bill granting a pension of \$30 per month to Colonel Abe Harris of this city because of wounds received in that war had passed.

The Telegram received its information on the subject from Colonel Harris, who stated that he had a letter to that effect from Mrs. Murdock. There are some doubts expressed by some of the citizens of Fort Worth regarding the matter at the time, and from another source in the city The Telegram learned that Mrs. Murdock had written that a pension had been provided for Colonel Harris. Yesterday there was some doubt expressed by some of the citizens of Fort Worth regarding the progress of such pension legislation, and accordingly The Telegram sent a wire to Senator Charles A. Culberson, asking about it. Late yesterday the following telegram was received:

WASHINGTON, April 19.—James Hays Quarles, Fort Worth, Texas: Mexican pension bill is still in committee. No bill pensioning Harris has been introduced in the senate.

C. A. CULBERSON.  
If the legislation has been secured it was in some way other than through Senator Culberson would know of it had it passed.

# GET AWAY FROM THE RAILROADS

## Harvard Professor Says This Is the Only Way to See the Real South

BOSTON, April 20.—Prof. Albert Bushnell Hart of Harvard university, sharply criticized the south in the matter of education in an address before the Massachusetts schoolmasters today. "The way to see the southern states and know them as they are," he said, "is to get away from the railroads. The people are most difficult to understand, their ideas are so vastly at variance with northern points of view. The conversation still hinges on the civil war, and it is Robert E. Lee, morning, noon and night in polite conversation."

"The colleges are mostly of the old type that the grandfathers of the present generation went to. A Dunkard teacher in one of the girls' high schools holds his position because there is not public sentiment enough to drive him out. One man is employed as a teacher in a southern school who can neither read nor write. The newspapers in general are poor, although there are a few good ones, except for their southern prejudices."

# ODD FELLOWS' HOME AT CORSIANA

WAXAHACHIE, Texas, April 20.—Next Tuesday will be the eighteenth anniversary of the laying of the corner stone of the first building of the widows' and orphans' home at Corsicana, established and being maintained by the Independent Order of Odd Fellows of Texas. For several years it has been the custom of Odd Fellows to meet at Corsicana on April 26 and celebrate the day in an appropriate manner. Ellis county has always been represented at the home on these anniversary days, and on next Tuesday a large delegation will go from this county. A special train will leave Waxahachie at 8:30 on the morning of the 26th, and returning leave Corsicana at 8 in the evening.

In many peasant homes in Europe house and stable are one. Sometimes the family lives upstairs, but oftener it is on the same floor with the cattle, or even in the same room.

## Louisiana Elects Democrats in Every Parish in the State

NEW ORLEANS, La., April 20.—Later returns increase to more than 15,000 Judge Blanchard's majority in the city, out of a total vote of less than 20,000. The vote in the country is exceedingly light. The total of the whole state is between forty and fifty thousand. Blanchard's majority will not fall under 20,000.

# GEORGIA HOLDS STATE PRIMARIES

ATLANTA, Ga., April 20.—The state democratic primaries are in progress today in every county in Georgia, at which nominations will be made for every office from governor down to constable. The most interesting and closest contests on the state ticket is between Chief Justice T. J. Simmons of the supreme court and Colonel R. B. Russell, who opposes him for the office, and between Judge J. S. Turner of the prison commission, who is a candidate for re-election, against Judson M. Strickland. Governor J. M. Terrell is unopposed.

# COTTON BREAKS EVEN ON THE DAY

NEW YORK, April 20.—The cotton market opened firm at advance of 5 to 12 points on covering and some buying for long account promoted by better cables than were expected, due rather to unfavorable weather forecast and to somewhat smaller receipts. The market soon turned a little easier, declining about the opening figures.

# VANDERBILT WORE HIS "DINKY" HAT

When the Youkum party left the Union station at 7 o'clock this morning, going south to San Antonio, upon the rear platform stood W. K. Vanderbilt Jr., wearing the "dinky" hat introduced in college circles a year ago, and which the New York correspondents are hailing this spring as an invention of the Vanderbilt boys which bids fair, through their patronage, the correspondents say, to become the fad for the summer.

As a matter of fact The Telegram reporter, who witnessed the departure, wore one when he arrived in Texas a year ago, from the east, and was wearing it this morning poked into a Fedora, having since adopted that shape as less likely to excite unfavorable comment in the "wooly west."

# THE WARRANT ON WHICH BUNYAN WAS ARRESTED

LONDON.—The announcement of the impending sale of the original warrant on which John Bunyan was arrested 230 years ago and clapped into Bedford jail for a ranting, crop-headed vagabond, has evoked many expressions of fervent hope for English bibliophiles that the document will not be allowed to cross the Atlantic.

Interest in Bunyan relics is very keen among collectors and it is sure to fetch a big price. Three years ago a first edition of the "Pilgrim's Progress" published at 36 cents—fetched \$3,375. But when the warrant was first offered for sale at Sotheby's many years ago in some inexplicable way it eluded the vigilance of some of the keenest eyes among European antiquaries. Perhaps this was due to the way it was catalogued among a list of valuable old manuscripts, the entry relating to it reading:

"Bunyan—Letter to the constables of Bedford relative to the imprisonment of John Bunyan for preaching. Autograph signature and seals, March 4, 1664." The only man who recognized its value was the late W. G. Thorne, who tells the story in his "Still Life of the Inner Temple." By "laying low and saying nothing" he managed to buy the document on the fateful day of the sale for a few shillings. Great was the dismay of the rich collectors gathered at the auction when Mr. Thorne explained to them what a treasure they

had allowed to slip through their fingers. In the warrant Bunyan's name appears twice, the first time spelled "Bunyon" and the second "Bunnion." It is signed by thirteen justices of the peace, six of them baronets and seven esquires, and little they could have dreamed that in their ordering the arrest of the said "Towne Tynker," as he is styled in the warrant, they were doing the only thing in their hands that would preserve their names from complete oblivion. The document will be sold at Sotheby's on April 23.

And look over our line of Furnitures and Carpets. Compare, criticize—if you wish. If our line is not up to the standard, and the value offered as good or better than elsewhere, we won't expect you to buy. Refrigerators ..... \$7.50 to \$20.00 Coolers ..... \$1.25 to \$2.00 Ice Cream Freezers ..... \$1.00 to \$2.00 Lawn Mowers ..... \$4.75 to \$10.00 Rubber Hose, best Diamond brand, per foot ..... 12 1/2 Hammocks ..... 75c to \$7.00 And many other reasonable goods.

Market Quotations

NORTH FORT WORTH, April 20.—Following Monday's and Tuesday's heavy receipts of cattle, the light supply today was somewhat of a disappointment to local buyers.

The entire receipts figured less than 1,000 head, with seven cars of the number shipped out on through billing for pasture purposes.

The market showed no quotable change in values from yesterday, and salesmen generally sold on the morning market at steady prices.

With a total supply of close around 1,100 hogs offered today and strong to high markets at outside points, local trading opened active, the market showing a slight advance in the bulk of sales, with the extreme ends on a steady basis with yesterday.

Mr. Saunders, local manager of the George W. Saunders Live Stock Commission Company, returned this morning from a four days' trip to San Antonio and other south Texas points.

Mr. Saunders says that everything is looking fine and that, while the grass is a little slow from the results of the late spring rains, the prospects are now very good for a favorable spring and summer.

Mr. Saunders says that the grass movement of cattle this year will be exceedingly light, and in any comparison with the heavy movement of last year, he attributes this to the late spring and the discouraging condition of the cattle market during the winter.

Mr. Saunders shipped from New Braunfels to the northern markets Monday a trainload of bulls.

A. M. Sawyer of Fairfax, Osage Nation, writing to a local commission house regarding conditions in the nation says: "We have had a fine winter followed by a dry spring, which has been a setback to the farmers and stockmen."

John K. Rosson, manager of Campbell & Rosson Live Stock Commission Company, is in Amarillo, where he went to be in attendance at the Panhandle Cattle Raisers' Association meeting.

# UNEXAMPLED CLEARANCE SALE!

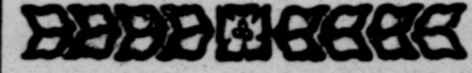

Preparatory to the extensive alterations we purpose making to our building, we find it necessary to secure room—room in which to move about. To effect this object, we shall offer for the remainder of this week many bargains that will open the purse-strings of the buying public. These goods are fresh from the factories and were ordered before our present plans were made. We have them on hand. It will be cheaper in the end to sell them at the closest possible figures, rather than incur the expense or subject them to possible damage in storing. These prices are practically spot cash factory prices. If these goods are compared with goods of like quality elsewhere, the great saving will be appreciated. You will have to hurry—they will not last long at these figures.

## SHIP BUILDING AND DRY DOCK

### Important Enterprise About to Be Launched in Mexico With Big Capital

A gentleman who has just returned from Mexico reports that a new enterprise is about to be launched in that country that will be of great value to the industrial and financial life of the republic. A company for naval construction has just been organized with a capital of \$1,000,000, and it is to be known as "The Naval Construction Company," with Major Robert G. Gorsuch, as president. This company will engage in the building and repairing of large sea-going vessels for government and private use, as well as of river steamers of wood or steel, barges, lighters, tanks and similar articles for use in the naval and steamship service. Ship yards and docks are to be maintained at Frontera. All the gentlemen interested in the company are influential and well known in

commercial and financial circles of the republic. Major Gorsuch is chief engineer of the International Railroad Company and representative in Mexico of the Pacific Mail Steamship Company. Another member of the company is A. F. Nathan. He is vice president of the United States and Mexican Trust Company, and also general representative of the Kansas City, Mexico and Orient Railroad Company in Mexico. Robert G. Hart is chief engineer of the National Supply and Construction Company. Hon. Arthur Gehm, United States consul at Toluca, is another member of the new company. A favorable concession from the Mexican government is to be secured for the naval construction. The works of the company are to be established at Protona, Toluca, but a central office will be maintained in the City of Mexico. The establishment and maintenance of a dry dock and thoroughly equipped ship yards for the building and repair of both ocean and river craft is the purpose of the company.

## INTERRUPTED AT THE FIFTH BATTLE

### But for That the Cabman Might Have Consumed an Entire Case

(Washington Post.)  
"A year or so ago I went down to Austin to do a little missionary work among members of the Texas legislature," said Mr. Paul Wapies, a wealthy merchant of Fort Worth, Texas, at the Raleigh.  
"The law-making body at that time was dominated by an element that had it in for any man or set of men that could lay claim to a fair amount of this world's goods. They were proposing to enact all sorts of oppressive statutes directed against capitalists. One of their beautiful propositions, and the one that bore on my case, would have prevented a business from operating stores in several different towns, except under very adverse conditions. It was to reason with them on the folly and injustice of the measure that I was moved to go to the capital."  
"It was night when I arrived in Austin, and after supper I repaired to the Iron Front saloon, where I supposed I would encounter a few of the great intellects that were scheming to make me a poor man. It happened that this resort was almost deserted at the time, and the only person in it—a well-dressed, intellectual looking man—who looked as though he might be a legislator, was chatting with the barkeeper. I thought to be sociable and perhaps do a stroke of business at one and the same time, so I introduced myself and asked the stranger if he would join me in a bottle of champagne. He replied with cheerful alacrity in the affirmative, and we consumed the wine, my companion drinking with the air of a connoisseur.  
"Not being used to the lobbying game, I thought the best way was to keep on buying wine and the best imported cigars, which my newly-found friend accepted unhesitatingly. At length, after I had paid for the fourth bottle, and was about ready to give up my confidence, the affable and good-looking unknown said: 'Excuse me, Wapies; somebody wants me on the outside; I am No. 7, and if you need a good carriage while you are here, I'd be pleased to wait on you.'"  
"Not being used to the lobbying game, I thought the best way was to keep on buying wine and the best imported cigars, which my newly-found friend accepted unhesitatingly. At length, after I had paid for the fourth bottle, and was about ready to give up my confidence, the affable and good-looking unknown said: 'Excuse me, Wapies; somebody wants me on the outside; I am No. 7, and if you need a good carriage while you are here, I'd be pleased to wait on you.'"  
"Now, my men," said the sergeant, addressing them, "no one is allowed to dismount without orders from a superior officer. Remember that!"  
Tim was no sooner in the saddle than he was hurried head over heels through the air, and came down so hard that the breath was knocked out of him.  
"Murphy!" shouted the sergeant, when he discovered the man spread out on the ground, "you dismounted."  
"I did."  
"Did you have orders?"  
"I did."  
"From headquarters, I suppose," with a sneer.  
"No, from headquarters."

### RACE SUICIDE FALSE ALARM

From the Milwaukee Sentinel.  
"President Roosevelt's theory about race suicide is not borne out by the statistics of the baby buggy business," said Elison Jennings of Springfield, Ill. Jennings represents one of the largest wigwag companies in the country. "In the last year there have been more baby buggies manufactured and sold by 25 per cent than ever before, which goes to show that not only is the race suicide scare a false alarm, but that late arrivals in large families are being treated to new perambulators instead of being forced to ride in the aged vehicles that carried their older brothers and sister. This indicates prosperity."  
"Naturally, being in the business of selling baby buggies, I sympathize with President Roosevelt in his crusade against race suicide, and in this I am also moved by a feeling of interest in the welfare of my fellow men. Think how many men earn their livelihood by catering to the wants of children under a year old. Think how many people would be thrown out of employment should the production of babies cease, or even fall off appreciably. There are the operatives in the baby carriage industry, manufacturers of nursing bottles, the thousands of men employed in manufacturing infants' foods and many men engaged in different branches of the rubber trade would be affected; in fact, there is no end to the hardship that would be caused if race suicide should assume the proportions feared by our illustrious chief executive."  
"Speaking of baby carriages again, styles in these vehicles change radically and the old time 'perambulator' has been almost entirely supplanted by the new-fashioned 'go-cart.' We make a few of the old style, which can be used as carriages in the daytime and as cradles at night, but the great demand is for the go-cart style."

## WOMEN'S VOICES IN THE VATICAN

### Heard for the First Time in Centuries at Rendition of Oratorio

ROME, April 20.—The vatican this morning presented a spectacle unprecedented for centuries when Pope Pius, the cardinals, other dignitaries of the church, the members of the papal court, the "black" aristocracy and 300 other guests assisted at the performance in the Sala Regia of the Abbe Perosi's new oratorio, "The Last Judgment." The choir, which included women singers, was personally directed by the composer. The pope was greatly pleased with the presentation of Abbe Perosi's latest work, and offered him his congratulations on the success of the oratorio. It is popularly said that the present pontiff will be a golden era of sacred music.  
The performance was attended by the sisters of the pope, and America was represented by Mgr. Kennedy, rector of the American college in Rome, and Right Rev. John J. O'Connor, bishop of Newark, N. J. The audience was silent, knowing the aversion of the pope to noise and manifestation; but after a hymn the pope himself gave the signal by clapping his hands, and everybody broke into applause. When this subsided Abbe Perosi intended to continue the performance, but his holiness requested an encore, which was given. Immediately at the end of the performance the pope clapped his hands, and then received Abbe Perosi and the singers. His holiness remarked that it was the first time in four centuries that music had been sung at the vatican with female voices, and he expressed the hope that Abbe Perosi would compose a work for the fiftieth anniversary of the proclamation of the immaculate conception on December 8.  
"Dad," said little Reginald, "what is a bucketshop?"  
"A bucketshop, my son," said the father, feelingly, "a bucketshop is a model co-operation establishment to which a man takes a barrel and brings back the bunghole."

### COMPANIES CHARTERED

Chartered—Cold Storage Company of Clewiston, capital, \$30,000. Dalhart Lumber Company of Dalhart, capital, \$50,000.

John D. Crimmons, who made last month an unusually favorable impression upon the apostolic society of Rome, is never more delightful than when he is telling anecdotes of children.

"A little girl of 7," Mr. Crimmons said one day, "came to me after church on a Sunday morning and asked:  
"Have I any children?"  
"I dropped my newspaper and regarded her with astonishment.  
"What? I asked.  
"Have I any children?" she repeated.  
"Well, I should hope not," I exclaimed. "Why on earth do you ask me such a question as that?"  
"Why, in church this morning," said the little girl, "the clergyman preached about children's children, and I wondered if I had any."

### HE EVIDENTLY BOUGHT IN

From Town Topics.  
"Dad," said little Reginald, "what is a bucketshop?"  
"A bucketshop, my son," said the father, feelingly, "a bucketshop is a model co-operation establishment to which a man takes a barrel and brings back the bunghole."

## REPORT REVENUES OF FIVE TRIBES

### Business Transacted at Union Agency at Muskogee Is Heavy

MUSKOGEE, I. T., April 20.—That the Union agency for the five civilized tribes exceeds any other agency in the United States in volume of business is evidenced by the figures given below. The money that passes through this office required such an amount that it became necessary to establish a United States depository here. The Indian agent is the collector and custodian of all the revenues derived from the nations which accrue to the benefit of the tribes, and his report for the quarter ending March 31, 1904, shows the total collection of \$230,728.45 from the following sources:  
Choctaw and Chickasaw Nations—Coal, \$59,769.18; asphalt, \$27.41; rock and stone, \$1,593.41; town lots, \$82,017.29; cattle lots, \$8,800.78.  
Cherokee Nation—Hay, \$111.60; coal, \$43.92; ballast, \$796.40; schools, \$6,752.50; oil and gas, \$11,140.54; town lots, \$14,413.12.  
Creek Nation—Coal, \$2,400.63; pasture, \$1,236.75; rent on capitol building, \$1,000.00; town lots, \$20,799.29; sale of town lots, maps, \$24.45.  
Total collections less exchange, \$230,728.45.  
Of this amount there is reserved \$12,102.14 to be paid to allottees as revenues accruing from land that has been allotted.

### RAILWAY MAIL SERVICE

The following promotions have been made in the railway mail service for this division:  
Fred W. Barnett of the Memphis and South McAlester R. P. O., from class 1 to class 2; Karl M. Kramel of the New Orleans and Houston R. P. O., from class 2 to class 3; Quincy B. Mitchell of the Palestine and Galveston R. P. O., from class 2 to class 4; and Walter L. Lashburn of the Arkansas City and Shawnee R. P. O., from class 2 to class 3.  
John Lee Benton of the Bloom Springs and Shreveport R. P. O. has been transferred to the Fort Smith and Gutterick R. P. O., vice Romeo T. Perry.

### A GOOD AUDIENCE FOR MENDELSSOHN

The Mendelssohn quartet entertained a large and enthusiastic audience last night at the city hall, the entertainment being one of the popular T. M. C. A. entertainments. The quartet sang their selections beautifully, and were encored repeatedly. Miss Marguerite Smith, the child soloist, added greatly to the enjoyment. The last attraction of the course was Durno, the Mysterious, who comes May 2.

**SPORTING NOTES**  
**THE ARMOUR TEAM**  
Armour & Co. has re-organized its baseball team and will begin the amateur season in earnest within a few weeks. A practice game was played at Haines park last Sunday morning, in which the men showed up in good form. Next Sunday morning the team will cross bats with the Voxalla aggregation and a good game is expected.  
Last season the Armour team held the state amateur championship without dispute and the boys say that they intend to make it interesting to some of the best amateur teams this season.

**HOUSTON LOST**  
HOUSTON, Texas, April 20.—The first game of the series with Dallas was played here yesterday. Mealy, who was in the box for Houston, was pitched for Dallas and the way they slugged him from start to finish was a shame.  
The locals, however, were unable to find Pfister, the Dallas pitcher. His curves completely fooled them and at critical points they were unable to connect. The fielding of both teams was good.  
The score:  
Houston ..... 0 0 0 0 0 0 0 0 0 0 4 2  
Dallas ..... 2 5 0 0 0 0 0 0 4 11 15 2

**GALVESTON 4, SHREVEPORT 3**  
GALVESTON, Texas, April 20.—In a ten-inning game played here yesterday the Sand Crabs defeated Shreveport by a score of 4 to 2. Thomas pitched for the locals and did creditable work.  
**BEAUMONT WINS**  
BEAUMONT, Texas, April 20.—Due to the excellent work of Keib, who was in the box for Beaumont, Corsicana was defeated here yesterday.

**GAME WITH PENNANT WINNERS**  
DENTON, Texas, April 20.—Manager Schworer of the Denton Athletic baseball club has booked a game with the Paris leaguers, the winners of last year's pennant in the North Texas league. The game will be pulled off at the grounds in this city Friday.

**GUS RUHLIN WILL MEET MARVIN HART**  
PHILADELPHIA, Pa., April 20.—After several postponements arrangements have been finally completed for pulling off the fight between Gus Ruhlin and Marvin Hart tonight. It will be a six-round affair and will take place under the auspices of the National Athletic Club. Hart appears confident of defeating Ruhlin, and if successful will challenge the winner of the Jeffries-Munroe contest.

**THE DAY GIVEN OVER TO HANNA MEMORIAL**  
COLUMBUS, Ohio, April 20.—Business was suspended in both branches of the state legislature today and the day was given over to memorial exercises in honor of Senator Marcus A. Hanna. Lieutenant Governor Harding presided over the exercises, and Senator Dick delivered the memorial oration. Other addresses in eulogy of the life and character of the late senator were delivered by Governor Herrick, Speaker Thomas of the house and State Senator Shallenberger of Cuyahoga county. At the conclusion of the exercises, as a further mark of respect to the memory of Senator Hanna, an adjournment was taken for the day.

**TESTIMONY OF A MINISTER**  
Rev. John S. Cox of Wake, Ark., writes: "For twelve years I suffered from Yellow Jaundice. I consulted a number of physicians and tried all sorts of medicines, but got no relief. **ARMOUR'S PLANS FOR SIOUX CITY**  
Repeated Delays There in the Construction of the Packing Plant  
Repeated delays have put back the completion of the Armour plant at Sioux City by many weeks. But these delays have been caused by enlargement of the original plans in many particulars, and when the plant is finished it will be on a much greater scale than was originally intended. The revised plans call for the following:  
Beef cooler, 122x100, 97 feet high.  
Beef freezer, 122x100, 108 feet high.  
Hog killer, 132x86, 115 feet high.  
Beef killer, 113x80, four stories high.  
Hog cooler, 125x132, 97 feet high.  
Ham house, 87x132, 60 feet high.  
Power house, 130x100, 50 feet high.  
Machine shop, 30x80, one story high.  
Stock run, 80 feet long.  
The estimated total cost will be over \$2,000,000.

**ONLY TWO KINDS OF MEN**  
Representative John Sharp Williams, the democratic leader of the house, went to Texas a few years ago with a party of prospective English land investors. They stopped at a small town, and the mayor took them to the leading saloon and introduced them to the bartender, saying: "Jack, these gentlemen are earls, dukes and lords from England. What do you think of that?"  
"Well, Bill," said the bartender to the mayor, "they ain't but two classes of men in this here place. One class takes sugar in their'n and the other ain't so darned particular. What'll you have, gent's?"  
**NOISE NOT COUNTED**  
Speaker Cannon put the Philippines bill on passage at 1 o'clock.  
"All in favor will please say 'Aye.'" There was a gentle piping of "Ayes" on the republican side.  
"All opposed say 'Nay,'" continued the speaker.  
There was a thunderous burst of "Nayes" from the democratic side.  
"The nayes seems to make the most noise," said the speaker, calmly, "but the ayes have it, and the bill is passed."

**Good Stories of The Day**  
**ANOTHER NEW LINCOLN ONE**  
Senator Depew of New York, who has carried his prestige as a raconteur into the upper house of congress, relates a hitherto unrecorded story about President Lincoln. It is apropos of the demand for an immediate strengthening of the United States navy.  
"I remember," said the millionaire New Yorker on the floor of the senate, "being in the executive mansion at one time and in Mr. Lincoln's office when a telegram was handed to him which gave the information that a brigadier general, through foolishness of an extreme sort, had been captured down in Virginia. In his command was a long train of pack wagons and mules. Mr. Lincoln read the dispatch. Then he took up his pen and said:  
"With that pen I can make a brigadier general in a minute, but I cannot replace those mules!"  
**BIRTHDAYS AT THE LANDIS HOME**  
Representative Charles F. Landis of Indiana recently had a birthday, and Mrs. Landis, to give him a surprise, went out and bought many pretty things for his room. The list included trays, dollies and little knock-knacks for his dresser.  
When Mrs. Landis' birthday came along

Mr. Landis decided to surprise her with a few presents.  
"What did you get her?" asked Representative Hilderbrand of Ohio.  
"Oh, I bought a couple of boxes of good cigars, a pound or two of smoking tobacco and a fine meerschaum pipe," Mr. Landis said.  
**TWAIN COWS WHISTLER**  
Commenting on his first meeting with James McNeill Whistler Mark Twain is reported as saying:  
"I was introduced to Mr. Whistler in his studio in London. I had heard that the painter was an incorrigible joker, and I was determined to get the better of him if possible. So at once I put on my most hopelessly stupid air, and I drew near the canvas that Mr. Whistler was completing.  
"That ain't bad," I said; "it ain't bad, only here in this corner—and I made as if to rub out a cloud effect with my finger. 'I'd do away with that cloud if I were you.'  
"Whistler cried nervously: 'Gad, sir, be careful there! Don't you see the paint is not dry?'  
"Oh, that doesn't matter," said I; 'I've got my gloves on.'  
"We got on well together after that."

**APRIL DAY**  
By Alfred Tennyson.  
Dip down upon the northern shore,  
O sweet new year delaying long;  
Thou' dost expectant nature wrong;  
Delaying long, delay no more.  
What stays thee from the clouded noon,  
Thy sweetness from its proper place?  
Can trouble live with April days,  
Or sadness in the summer moons?  
Bring orchis, bring the foxglove spire,  
The little speedwell's darling blue,  
Deep tulips dash'd with hazy dew,  
Laburnums, dropping-wells of fire.  
O thou, new year, delaying long,  
Delayest the sorrow in my blood,  
That longs to burst a frozen bud,  
And flood a fresher throat with song.

**TENNESSEE RACE MEETING OPENED**  
NASHVILLE, Tenn., April 20.—What promises to be the most successful race meeting ever held in Nashville will be inaugurated tomorrow, when the new Tennessee Breeders' Association will throw open its gates. Over 800 horses are entered for the various events to be decided during the nine days the meeting will continue. Altogether there will be \$24,000 in purses distributed. Of this amount, \$2,500 added money will go to the winner of tomorrow's Cumberland Derby, which will be the event of the meeting.

You Won't Find Anything in Clothes More Snappy and Attractive Than Our Single Breasted

## Outing Coats and Trousers

This is particularly a young man's style, but if you like the looks of it on you, we won't ask you how old you are. Any man who likes these clothes is entitled to wear them as soon as he pays the price. It's an astonishingly easy price to pay, when you consider how very good the clothes are.

## DEVOUR STEWED JOWLS WITH BARK ON

The Menu of Dog-Eating Igorrotes at the World's Fair Grounds Afforded a Bewildering Choice of Dainties

ST. LOUIS, April 20.—Menu: Potage Chin. Pido Croquets. Bologna Sausage a la Naturel. Baked Rice, Dog Gravy. Brown Sweet Potatoes and Ribs (of Dog). Saute of Dog Livers a la Luzon. Stewed Jowls With Bark On. Sliced Bananas. Dog Biscuit. Coffee. Stogies. Vino.

Male members of the savage Igorrote tribe in the Philippine section of the World's Fair fought for favorite portions of the "luscious" stewed dog in a dinner which was served just outside the court yesterday at noon. It was the most unusual feast that has ever been witnessed in St. Louis and if the Humane society wishes to wage a war against the dog eater, eye witnesses to yesterday's banquet can give important testimony in behalf of the prosecution.

The yellow dogs—and there were three of them—were shown no mercy and the Igorrote ate the stewed canine as a hungry tramp would masticate a free lunch. The enthusiasm that attends a banquet at \$10 a plate was small in comparison to the manifestations of joy shown by the Igorrote. He had anticipated this feast for weeks. Every night for the last two weeks he has gone to bed hearing the barking of the dogs which made his sumptuous repast a noteworthy affair.

Maddened by the barking of the dogs, made ravenous by the knowledge that dogs were in his midst, the Igorrote was ready for the performance of any desperate act whereby he might be able to realize on his fondest dream—a genuine dog dinner, prepared according to the rules of dear old Luzon.

### LABOR NOTES

Two open labor meetings will be held in this city tonight, the one under the auspices of the carpenters' union and the other of the Switchmen's Union of North America.

The carpenters' meeting will be held in the Labor Temple and will be addressed by Sidney J. Kent of Lincoln, Neb., formerly labor commissioner of his state and national organizer of the Carpenters and Joiners Brotherhood. Several weeks ago Mr. Kent addressed a similar meeting in this city, his remarks being received with great approbation.

Frank T. Hawley, grand master of the switchmen's union, will address the meeting of that body which will be held in the Woodmen's hall at Thirteenth and Houston streets.

### HUNDRED MINERS BURIED ALIVE

TURIN, Italy, April 20.—About one hundred miners have been buried by an immense avalanche near the village of Pragalato. A violent storm is sweeping over that locality and it is feared other avalanches may result. Forty soldiers have gone to the scene of the disaster, hoping to save some of the buried miners.

## Price vs. Quality In the Matter of Clothes

THE shrewd buyer is not attracted by PRICE inducements—that time has gone—today it is a question of QUALITY.

VALUE stands for GOOD QUALITY and FAIR PRICE, while CHEAP price means CHEAP quality.

The man who really secures the best bargain seeks QUALITY first.

We offer the best clothing values in Fort Worth. OUR PRICES ARE ABSOLUTELY THE LOWEST, quality considered, and your money back on that proposition every time—that's fair.

Constant Skirmishing on the Yalu River But No Big Battle

QUIET AT PORT ARTHUR

Russians Still Guessing on the Cause of the Great War-ship Disaster

LONDON, April 20, 2:02 p. m.—A dispatch to the Central News from St Petersburg says it is reported that a Japanese force has landed near New Chwang.

SKIRMISHING AT YALU RIVER  
SEOUL, April 20, 11:45 a. m.—The Japanese authorities here admit that constant skirmishing is occurring between the opposing armies on the Yalu river, but they claim that no decisive action has taken place up to date, though the news of such an engagement is expected at any moment. It is estimated the Russians now have fifty thousand men on the Yalu river. The wildest rumors are afloat, largely from Korean sources, which are absolutely unreliable.

ALL QUIET AT PORT ARTHUR  
PORT ARTHUR, Tuesday, April 19.—All is quiet throughout this district. It is persistently asserted that a Japanese cruiser was sunk off Port Arthur on April 15, and that the Japanese armored cruisers Nishin and Kasuga were damaged respectively below and above the water line.

MINES FOUND FLOATING  
NAGASAKI, April 20, 11 a. m.—Several contact mines have been found floating seaward forty miles from Cape Shang Tung. Three of them were recently discovered and destroyed by the Japanese fleet.

CORRESPONDENTS ADMITTED INTO LINES

NEW CHWANG, April 20.—The correspondents of the leading French and Italian and British newspapers and of one American newspaper and of the Associated Press have been permitted to proceed to Mukden. They left here today. United States Consul Miller entertained the correspondents at the consulate previous to their departure.

Russia of four ships in the United States. It is now said the deal was negotiated at Constantinople by General Williams, agent of the Philadelphia shipbuilding firm, and the Russian ambassador to Turkey, M. Zinovief.

The admiralty still lacks definite confirmation as to the cause of the Petropavlovsk disaster. The authorities at Port Arthur evidently are not yet convinced that they have the true explanation. The general staff here is divided between the two opinions—a mine or boiler explosion—although a few still cling to the theory that the ship was sunk by a submarine boat. The boiler explosion theory is based on the knowledge that the Petropavlovsk had been steaming at full speed, and that her sudden slow down may have caused an accumulation of pressure which burst her boilers. Those who accept the mine theory, and they are in the majority, believe the explosion of the mine detonated the magazine, which blew up before the boilers. The main objection advanced against the mine idea is that the water where the catastrophe occurred is too deep for anchoring a mine.

ALEXIEFF HAS ENOUGH  
ST. PETERSBURG, April 20.—Viceroy Alexieff has applied by telegraph to the emperor to be relieved of his position of viceroy in the Far East. It is expected that the request will be immediately granted.

While no official announcement has yet been made there is reason to believe that the above statement is correct.

The immediate cause of the viceroy's application is reported to be the appointment of Vice Admiral Skrydloff, one of Admiral Alexieff's strongest enemies and sharpest critics, as successor to the late Admiral Makaroff in command of the Russian navy in the Far East.

### A SEVERE CASE OF SMALLPOX AT SANGER

DENTON, Texas, April 20.—County Health Officer Martin was called to Sanger yesterday in response to a message received from that place, stating that there was a case of smallpox broken out there. The sick man, Daniel O'Brien, is a member of a construction gang of twenty men working on the Santa Fe, with temporary headquarters at Sanger. O'Brien had been sick for a week or two, but the case had not been diagnosed and it seems that he had had no medical attention until a day or two ago, when he was seen by Dr. Lain of Sanger, who immediately wired the county health officer to come up at once.

Dr. Martin on his return to Denton states that the man has a severe case of smallpox and that the pustules are thicker than on any other smallpox patient he has had.

### 'RUBBERS' AT STATION SUSPECT A SENSATION

A woman passenger on the northbound Katy river from New Orleans left the train at the Texas and Pacific passenger station in this city this morning, seeming greatly agitated and at once hurried to the cable office to send a foreign message, the contents of which are, of course, held sacred by the telegraph officials.

The woman, who was evidently a French woman and traveling alone, was dressed entirely in black and, after sending her message, left the station immediately, all trace of her being lost.

From the agitation she showed and her eagerness to find the cable office the message is thought to be one of great importance. Several of the waiting passengers approached her while she was in the station, but to all of them she returned answers in French, pretending not to understand them, although inquiring for the office she had used faultless English.

### YOUNG WIFE DOES CARRIE NATION ACT

WAURIKA, Okla., April 20.—Mrs. Jasper Penny, a young wife, played the role of Carrie Nation here last night. She threw an ax through a heavy plate glass mirror in the Cabinet saloon and destroyed other fixtures in the place. This morning, repenting of her acts, she paid the proprietor of the place for the damage done. The reason given for the attack was that the saloon keeper had sold her husband too much liquor.

## CAPTAIN SCOBLE LEAVES \$30,000

The will of Andrew W. Scoble was filed for probate in the county court today.

It provides that Mrs. Virginia Scoble, wife of the deceased, shall be appointed executrix of the estate, without bond.

The estate is valued at between \$25,000 and \$30,000.

The beneficiary of the will named is Mrs. Virginia Scoble, widow of the deceased, who shall control the property during her life time. In the event of her death the property reverts to Mrs. Virginia May Ford, daughter of the deceased, and in the event of her death, the will provides that Adrian Scoble Ford, son of Mrs. Ford, shall fall heir to the property, which consists of real, personal and mixed. The will was dated February 5, 1902, and was witnessed by H. L. Calhoun and J. J. Nunnally.

## NORTH SIDE AND ROSEN HEIGHTS

### Council Orders Election for Mayor to Be Held Saturday, April 30

Nash Furniture Company.

The North Side city council met last night in special session with Mayor Farmer presiding and all councilmen present with the exception of Alderman B. C. Smyth. The meeting was held in the offices of the North Texas Live Stock Commission Company and was well attended by visitors.  
The newly elected officers were installed, the new aldermen being J. J. Lydon, P. J. Conway, W. A. Arthur, D. D. Shannon and John F. Grant, City Marshal R. D. Howell, City Tax Collector and Assessor H. A. Mulholland, City Attorney I. T. Valentine and City Secretary H. C. Proctor. R. G. Hall, city treasurer, and J. W. Hall, city engineer, were absent, and will be sworn in at the next regular meeting of the council.  
The question of the mayorality race was then taken up and discussed. Mayor Farmer ordering an election to be held on Saturday, April 30. This election will be held at the Rosen Hill and will be for the office of mayor only.  
The petition from Sam Rosen for a franchise to maintain and operate an electric lighting plant in North Fort Worth which has been held over for several meetings was acted upon, the council granting Mr. Rosen a franchise to put in an electric lighting system, the city in turn to receive the benefits of light, power, etc., at actual cost. This is one of the most important franchises granted by the council in some time and the matter of an electric light plant has been of much interest to citizens of the North Side, who have in every way co-operated with the movement and assisted in putting the matter in shape where the council could ready see the benefit of such a system. Mr. Rosen will commence the work of setting poles and stringing the wires at an early date and will wire the town as fast as possible.  
On motion of Alderman Lydon a vote of thanks was tendered the retiring officers of the council, including Alderman B. C. Smyth, Alderman William Minck and City Attorney W. P. McLean, Jr.

### NOTES AND PERSONALS

The Rosen Heights public school closed last Friday with a picnic given the parents and students of the school. Prof. J. J. McCook has proven himself an able and untiring superintendent and has done much toward the building up of the Rosen Heights school to its present magnitude. Prof. McCook has declined the superintendency for the coming session, as he has several positions offered him. The rest of the teachers will be with the school next term.  
The retail clerks of North Fort Worth met in the Hewitt building Monday night and perfected a local clerks' union. The meeting was attended by about one-half of the clerks on the North Side, temporary officers were elected and a charter applied for.  
Dr. H. G. German of North Fort Worth, with Dr. E. L. Dye of Plainview, Dr. C. C. York of Fort Worth and Dr. Maharg will leave today for Austin, where they go to take the annual examination given by the state board of medical examiners on April 21, 22 and 23.  
Joe Collins has rented one of the store rooms in the Hewitt building and has opened up a plumbing and electrical supply house under the name of the North Side Plumbing and Electrical Company.  
Mr. and Mrs. W. K. Newton have returned from a week's visit with friends and relatives in Gainesville, Texas.  
Miss Pearl Woods is now permanently located on Rosen Heights, where she is in charge of J. B. Collier's branch dry goods store.  
Rev. R. H. Hamlin, pastor of the First Christian church of Fort Worth, has inaugurated a revival meeting on the North Side. The meetings thus far have been well attended and it is hoped that much good will result from the revival.

### NIGHTMARE

"I would give \$5,000.00 if I could do without eating for a year." This is the dyspeptic's constant cry. A disordered stomach means a distorted vision. Dyspepsia's victims not only have bad dreams, but their view of life generally is a pessimistic one.  
The "pepsin habit" means simply prolonging the disease. Pepsin only aids digestion—it never cures. Floyd's Dyspepsia Tablets effect a positive and permanent cure by toning up the digestive organs and assisting the stomach to supply its own digestive ferments.  
We are so certain that Floyd's Dyspepsia Tablets will cure the very worst case of stomach trouble that we authorize every druggist to return your money if you do not get immediate benefit and a positive cure in a reasonable time.  
Send for two days' treatment and get an idea of their merit. 50 large tablets for 50c at druggists' or by mail.

This brief story is simply intended to suggest some things about Coffee. If you are interested in coffee—good coffee—coffee fit to drink—we wish you to come down to our store today, or any day, and let us tell you the secret of making good coffee. Maybe you make good coffee now. If you do, we can suggest a way to make it very much better. By our method of making, coffee is always and invariably of uniform excellence, and is absolutely and undeniably healthful—something not always, or even generally, true of the old fashioned "Coffee Pot" method. Where coffee is unhealthful it is due to the presence of deleterious substances, chiefly caffeine, extracted by boiling. Our method leaves the injurious substances in the coffee bean, extracting only what may be termed the "goodness" of the coffee. In short, we have solved the problem of making good coffee. We know how and we wish you to know how too. That is why WE EXTEND AN INVITATION TO ALL THE LADIES OF THE CITY to come and let us explain the workings and the merits of

## Our Coffee Machine!

The picture shows you how it looks, but we must show you how it works. Drop in at your convenience, examine the machine, and your coffee troubles will soon be at an end. And while you are here, it will be just as well to look at some Chafing Dishes. The warm weather is here—Chafing Dishes are, too—in great profusion and variety. The weather and the Chafing Dish work well together. They range in price from \$2.00 to \$30.00.

### KOREAN IS HALTED BY INSPECTOR IN THIS CITY

He Has the Appearance of a Chinaman and Mr. Robb Wanted to See His Papers, Which He Produced

A full-blooded Korean, who was entirely ignorant of the progress of affairs in the far east, passed through this city this morning, en route from San Francisco to the World's Fair, where he has been engaged to take part in a side show, owing its coming existence to the present interest in things oriental.  
In general appearance and dress the

Korean is similar to the Chinese, and was accordingly stopped by Immigration Inspector Robb for an investigation.  
When he was made to understand that he must show his papers, he surprised every one by pulling out a document all covered with seals, and issued direct by the Korean legation. In regard to the situation in the east he displayed entirely a well-forged ignorance and seemed to take no interest in the outcome of the struggle.  
Although quite similar to the Chinese, a close study of his features showed him to be more swarthy and to have the high cheek bones which are characteristic of the American Indian. He wore the Chinese dress and had a long black queue.

### THE ELKS MAY JOIN IN A CLUB HOUSE

Dallas Members Were Entertained at a Social Session in This City Last Night—Installation of Officers

Among the possibilities of the near future is an Elks' Nest to be erected about midway between this city and Dallas and to be owned jointly by the lodges of the two cities.  
The suggested construction of such a building, surrounded by suitable grounds for a country club, contained in the speech made at the Elks' Club

last night by District Deputy G. A. Rasbury, met with hearty approval and steps along this line may be looked for at any time.

The installation of the new officers of the lodge was held last night, presided by the presentation of a badge by the members and Flng by the ladies' auxiliary to the retiring exalted ruler, A. M. McElwee. The presentation speech was made by E. W. Tempel. Short speeches were also made by T. B. Love and C. E. Shipp of the Dallas lodge, of whom members a large number were in attendance last night, including: J. P. Kelly, T. B. Love, C. E. Shipp, O. A. Rasbury, E. D. Harris, J. E. Farnsworth, G. S. Maxwell, J. H. Pittman, L. B. Torrey, Abe Samuels, Ben Cabell, J. T. Mayfield, J. F. Zaig, Sherwood Sabin, Dr. J. B. Titterton, W. S. Kenyon, R. M. Murphy, O. C. Lane, M. T. Lively, W. H. ### YOUNG MAN RUNS INTO ACCIDENT AFTER HAT

Edward Odell of Portales, N. M., Unconscious at St. Joseph's Infirmary—Condition Unchanged in Past Week

For just one week today a patient has been lying unconscious at St. Joseph's Infirmary, suffering from the effects of an injury received in a strange way at Portales, N. M.  
The patient is Edward Odell of Portales, who is engaged in the ranching business near that place. Last Sunday a week ago, together with a companion, he was making some necessary repairs to a wind mill upon the ranch, his companion working on the tower while Odell was at the base.  
In doing the work the man at the top removed a piece of piping four feet in length and looking to see that Odell was not in the way, threw it to the ground.  
Just at this moment a gust of wind caught Odell's hat and in running to catch it again he ran directly under the falling pipe, which had gained a great velocity in its fall from the top of the tower. The pipe struck him on the back of the skull, causing a fracture, from which he has been unconscious since that time.  
Local medical aid was summoned without any benefit, and it was finally decided to send the young man to the home of his parents at Quannah. When he reached there it was decided to bring him to this city for an operation, and he accordingly reached here last Wednesday, accompanied by his brother, W. J. Odell of Brownwood.  
The operation was performed successfully, to the extent that the young man is still living, although he has not regained consciousness since the accident. His chances of life are considered very slim, and even should he live it is doubtful if he will regain his full powers.

## A Mother's Care

The coming of womanhood, the time when menstruation makes its first appearance is fraught with great danger for any girl.  
Wine of Cardui is the best medicine to take at this time, because it is the most successful menstrual regulator known to the science of medicine—because it is a simple vegetable extract, perfectly harmless to the most delicate child. Every mother who knows what Wine of Cardui will do always gives it to her daughter.  
Wine of Cardui, in removing the dangers from young girlhood, smoothes the way to uninterrupted health through life.  
With menstruation started right much of the danger which surrounds womanhood is warded off. Irregular menstruation induces bearing down pains, ovarian troubles, nervousness and the many ills which make young womanhood unhappy, motherhood a torture and middle age a time of distress.  
Wine of Cardui gives robust health to young women, strength to mothers and a happy old age to grandmothers. It makes any woman fit for any duty of life.  
Let your daughter start now to secure health. There is health in every bottle of Wine of Cardui.  
ALL DRUGGISTS SELL \$1.00 BOTTLES OF WINE OF CARDUI.

ALICE SEES

Her Adventures As Given at the Opera House by Fort Worth Children

The first performance of "Alice in Wonderland" was held at Greenwald's opera house last night.

The curtain first rose disclosing a scene in "Wonderland," with Alice fast asleep and a crowd of gay fairies and gnomes singing around her.

The Mother Goose scene, in which the various characters of the nursery rhymes appeared, each singing his song, was unique and laughable.

Little Marie Logan as Alice played her part wonderfully, and the audience marveled at her perfect acting and apparent composure.

The costumes of the chorus were white and covered with gilt stars. With the tinkered lights the effect as the children marched and sang was beautiful.

Every cent of the proceeds will go to the indigent fund of the Confederate veterans.

As Colonel Richard Wynne said in a speech directed at the first act: "Well your friends to come, and if necessary come again yourself."

The only drawback to the entire affair was the small audience. The downstairs part of the theater was nearly filled, but there was hardly a person in the balcony.

As Colonel Richard Wynne said in a speech directed at the first act: "Well your friends to come, and if necessary come again yourself."

The farce is by George H. Broadhurst, the author of "What Happened to Jones," "The Wrong Mr. Wright," etc.

On South Main street 5 east fronts, insides lots, at \$250 each. These lots are all right in the city—central to one of the most popular residence sections of the city, handsome improvements all around, among and far beyond them.

TERMS EASY

We will sell any lot or number of lots on the following terms: 1-10 cash on delivery of contract of sale; within 60 days thereafter a further cash payment to make total cash 1-4 of the purchase price at which time warranty deed will be delivered and notes taken for balance payable on or before one, two and three years.

Complete, certified abstract of title furnished with every sale FROM \$10 TO \$20 CASH NOW and a further cash payment of \$15 to \$45 within 60 days will buy any one of these lots. Balance in three yearly payments.

WE SINCERELY BELIEVE that the selling value of these lots will double long before the last payment matures—we expect this result by end of first year. That result would mean, on a \$250 lot, for instance—that a cash investment of about \$70 earned a profit in one year of \$250. We expect that within a year or two it will certainly be realized in less than three.

**HUNGER DRIVES BOYS TO ROBBERY**

Hold Up a Saloon at Council Bluffs, Iowa, in Broad Daylight

OMAHA, Neb., April 20.—Starvation drove John Lowing, aged 16 years, to turn outlaw. He was captured in Council Bluffs after successfully holding up a saloon in that city in broad daylight.

Young Lowing was accompanied on his desperate undertaking by his elder brother, Martin, aged 13 years, who shot himself when he saw that his pursuers were about to capture him.

A loaf of bread was given to young John Lowing after he had been arrested. He seized it like a wild beast and ate it ravenously.

The boys are the sons of Anton Lowing of Chicago. They left home a few weeks ago to earn their own living, as their home associations were not pleasant. Arriving in Council Bluffs, they found themselves without money. The day before the robbery they spent their last dime for a dozen rolls.

The next morning they set out to get their breakfast at 3:30 o'clock when they entered Oleson & Mortenson's saloon. Walking up to Mortenson, the younger of the lads put a revolver at the saloon keeper's head while the other bandit rifled the cash register.

The two boys then fled down the street with a large crowd in hot pursuit. John was quickly captured, but Martin took refuge in an old threshing machine. Knowing that he had a revolver, the crowd was not eager to approach his hiding place. Suddenly a shot was heard from the threshing machine. A few of the braver spirits advanced and found the youthful bandit had sent a bullet through his brain.

John is now in the county jail, awaiting trial for robbery. His only explanation for the crime is: "We were hungry."

The boys' father, on being apprised of the robbery, disowned his sons and refused to have anything to do with the burial of the older boy.

**GOTHAM SOCIETY**

NEW YORK, April 20.—Another daughter to the young Frank Goulds bears out the statement that this is a "girl year." Little heiresses have been coming inot the world at a great rate and the stork seems to be decidedly short on boys.

The Willie K. Vanderbilts hoped for heir was an heiress, the Regie's first born who came in February, is a daughter, and most of the others who have come to gladden the homes of the four hundred within a twelvemonth have been of the gentler sex. It is useless to say that the Frank Goulds didn't hope for a son. One charming little daughter already makes their home bright and they had planned a dear little brother for her, but the stork, like the perverse bird that he is, thought otherwise and decided as the Countess Castellane has two boys, Uncle Frank needed two more daughters to square things. But, as their friends are telling them, they needn't feel discouraged; they have only been married two years.

When Willie K. Jr. gets his home next to his father's, at Forty-Second street, there will be an almost unbroken line of Vanderbilts on Fifth avenue, beginning with George and running through the Twomblys, W. K. Vanderbilt, Shepards and Sloaness up to Mrs. Cornelius at Fifty-Seventh street. But a Vanderbilt in the neighborhood only enhances the value of property, so there is no objection to the family buying and building where it can. Uncle Russell Sage is thanking the stars on his knees (you didn't know perhaps that Uncle Russell had stars on his knees) that he didn't buy a block higher, for some Vanderbilts would come along and "bought him up" and of course he would have had to let his home go for lack of funds to hold out against a rich man. The Vanderbilts stick to the west side of the avenue.

On top of the intelligence that Prince Auerperg of Hassenpiffer, who married the daughter of an American millionaire, has laid down on a sausage bill for \$44, comes the rumor hurled through the air that the Countess Bosen de Perigord of Paris, who is the daughter of Honorable Levi P. Morton, came to this country to seek a divorce from her high-priced and good-for-nothing husband. It is the same old moral: Better for an American heiress to marry an honest American, even if he be a motorman, than transfer her hoodles for a title. A French title, though it is worth nothing, is as good as any of them. It has become a badge of disgrace for an American girl to have one. The Morton family sailed for Europe on Friday.

**SAVES TWO FROM DEATH**

"Our little daughter had an almost fatal attack of whooping cough and bronchitis," writes M. H. Haviland of Armonk, N. Y., "but when all other remedies failed, we saved her life with Dr. King's New Discovery. Our niece, who had Consumption in an advanced stage, also used this wonderful medicine and today she is perfectly well." Desperate throat and lung diseases yield to Dr. King's New Discovery as to no other medicine on earth. Infallible for Coughs and Colds. 50c and \$1.00 bottles guaranteed by Matt S. Blanton & Co., Reeves' Pharmacy and W. J. Fisher. Trial bottles free.

**Schlitz Hops from Bohemia**

We send our buyers there every year to get the best that are grown, and we pay twice what common hops cost. A partner in our business buys our barley, and selects the best from all. We get our water from six wells, bored 1400 feet to rock. Our yeast is all developed from the original mother cells which helped to make Schlitz Beer famous. All the air that touches Schlitz Beer comes to it through air filters. And the beer itself is filtered through white wood pulp. Then we age it for months, until it can't cause biliousness. We sterilize every bottle. Ask for the brewery bottling.

**TO TELEGRAM SUBSCRIBERS**

The Telegram is delivered to subscribers by district managers, who control the routes in which they work. They buy their papers from The Telegram Company and pay for every copy taken from the office. In behalf of these men the Telegram Company asks the co-operation of the readers of the paper in seeing that papers are promptly paid for. These district managers must depend on their collections for their daily living. They pay The Telegram Company for the papers they order every day, whether they make collections or not. The Telegram's responsibility ceases when the papers are placed in the hands of the district managers. Many subscribers do not understand this and it is in the way of explanation that this statement is made. These men have every authority to collect for the paper, for in doing so they are making their own collections.

**KNOWLEDGE OF FLORA DETECTED A CRIMINAL**

Sir George Birdwood has a phenomenal knowledge of the flora of India. He once detected a criminal in a man who turned up with forged credentials, supposedly from England. The stranger let slip the name of a flower. "Ah, then, you come from Ranook," said Sir George, in a moment. He knew that the growth mentioned could be found nowhere in the world but there. The man was taken off his guard, threw down his cards and fled.

**A LAKE COMES UP MISSING IN A NIGHT**

LOS ANGELES, Cal., April 20.—The only natural lake in Los Angeles county, Mud Lake, has disappeared. It went in a night to the astonishment of a party of duck hunters camped upon its banks.

The lake is a small one, about half a mile in diameter, situated in a basin in the San Gabriel mountains north of Pasadena. Whether the basin is in the crater of an ancient volcano has not been determined, but without warning and with no perceptible disturbance, the bottom of the lake has fallen out and the water has disappeared into the depths of the earth.

**SAME OLD THEATER BUT IN NEW HANDS**

SPRINGFIELD, O., April 20.—It was announced today that P. F. Shea of the Empire theater in Cleveland, in company with Hyde & Beaman and several other theatrical men, have purchased the Iroquois theater of Chicago. The ill-fated playhouse is being remodeled and will be called Hyde & Beaman's music hall. It will be devoted to vaudeville and the purchasers are thinking of buying the Schubert theater of St. Louis to complete the circuit.

**CABBIE RESERVED HIS FACTS**

Lee Fairchild, who is coming to the front as a humorist, visited San Francisco not long ago, and, like many literary pilgrims to the west, determined to pay a visit to Joaquin Miller, poet of the Sierras, who lives in a charming villa in the Contra Costa foot hills across the bay from the Golden Gate.

poet's side-hill hermitage. It was evening when he started; the night had settled and the moon was up when he arrived. He paid the driver, and was about to open the rustic gate to the famous home when the cabman said, dryly: "I suppose you know that Joaquin is not in California at the present time."

**WHY MR. SHAW WAS LATE**

A government scientist who has attained eminence in his profession gave a dinner not long ago in honor of ex-Speaker

Henderson, says the Washington Post. As this scientist is an Iowa man he decided to make it distinctly an Iowa dinner and invited distinguished Iowans in town. That, of course, included Secretary Shaw, and Secretary Wilson, Senator Allison and others.

The hour was 7 o'clock, and all the guests were then on hand except Mr. Shaw. The dinner party waited and waited. Finally it was 7:30 o'clock. "Shall we wait longer for the secretary?" inquired the host for the fifth or sixth time. It was decided not to wait further, and the dinner was served.

At exactly 7:55 o'clock the secretary of the treasury was announced. His explanation has been a joke among the Iowa contingent in Washington ever since. "I thought the dinner was for 8 o'clock," said he, in evident embarrassment. "I arrived outside at 7:30 by my watch. It was so early I decided to walk up and down the street till I saw someone else come. But no one came, and so I had to enter alone."

**A Lazy Liver**

WHEN your liver is sad and melancholy and your stomach is despondent and blue, it is a sure sign that they have not been acting as they should. The chances are that your liver is wholly to blame. Your stomach has probably been doing its best, but without a little assistance from the liver no stomach can hold things down long, and the first you know trouble has started and it's all up. Don't confer, don't arbitrate, but take a

**PRIMARIES BEING HELD TODAY IN GEORGIA**

ATLANTA, Ga., April 20.—Democratic primaries are being held throughout

Georgia today for the selection of state and county officers and members of congress. The nominations for state offices will be ratified by the state convention, to be held June 1. Active efforts have been making for some time to work up a strong Hearst sentiment throughout the state, but so far as outward indications go the propaganda has not been very successful. It is likely the delegation will be sent to St. Louis uninstructed, though the convention will in all probability express its preference for "a sound, conservative candidate" for president. The return of Congressmen Livingston, Lewis and nearly all of the other members of the Georgia delegation in congress is assured.
