Castro County To Display Agriculture At Amarillo Exposition

Tri-Weekly Train Schedule Will Become Effective Monday

CASTRO TO HAVE FAIR EXHIBIT

AGRICULTURAL AGENTS ARE AT WORK GATHERING ITEMS FOR SHOW LIST

Castro County this year through the initiative of County Agents E. W. Thomas and Otis Holley and a few interested citizens, will be represented at the Tri-State Fair at Amarillo this fall with an agricultural exhibit.

For years past Castro County has been content to be the only Panhandle county which has failed to arrange and enter an exhibit in the exposition year after year. This condition of lack of pride or interest has been noted by a group of citizens who have the welfare of the county at heart and committees have been set to work to make an exhibit possible for this year.

County Agent Thomas has asked The News to request any one having especially products such as grain, feed, fruit, vegetables and other like commodities who would like to help in rounding out the variety of products raised in Castro County please notify his office

AMERICAN BOY MAGAZINE IS LOADED WITH ADVENTURE

"We try to make a subscription to THE AMERICAN BOY," states Griffith Ogden Ellis, editor, "a round-trip ticket to a world-wide venture cruise.

"Most boys cannot afford the luxury of travel but they can afford the luxury of travel but they can afford to settle down under a reading lamp and take an imaginative trip to foreign lands in American Boy stories."

American Boy Stories, during the coming year, will take readers to the atolls of the South Seas in a trading schooner, to the polar wastes behind a dog team, into the Canadian wilderness with the Mounted Police, through the Caribbean with the U. S. Navy, even to the far-away planet of Mars in a space ship!

There'll be true adventures among the lions and chimpanzees of Africa with Captain Carl von Hoffman, famous explorer and ethnologist. In addition there'll be stories about the favorite characters of a million boys—bonehead Jim Tierney, detective; Square Jaw Davis, engineer; Hide-rack, the red and gold collie; Connie Morgan, and Douglas Renfrew.

There'll be vocation stories that will help the reader select his life work, advice on hobbies, sports tips from famous coaches and players, money-earning suggestions, vacation hints, and worthwhile contests.

THE AMERICAN BOY costs only \$1 a year, or \$2 for three years, foreign subscriptions 50 cents a year extra. Send your name, address and remittance to THE American Boy, 7430 Second Blvd., Detroit, Mich. Service will start with the issue you specify. On newsstands, 10c a copy.

TRI-STATE FAIR PLANS FEATURES

AMARILLO TO REPLACE DALLAS FAIR AS STATE'S BIGGEST EXPOSITION FOR '35

Entertainment, of course, is a prominent feature of any exposition.

Fen, women and children go to fairs to learn more about the country's greatest industry—the source production and marketing of foods, agricultural and livestock, and to see the fine arts and other educational material.

But they also go to have a good time.

And so the Tri-State Fair in Amarillo, September 14-21, the largest exposition in Texas this year will be a well balanced combination of both education and entertainment.

Among the major attractions will be a well-balanced etoaino eaoiee be Harley Sadler's three-ring circus, which will give daily performances.

Harley Sadler, long known in West Texas as the "emperor of entertainment," especially in the repertoire field, has purchased the entire equipment of Bailey Brothers' circus.

Under the new management—Sadler is the sole owner and manager—the circs will open August 29 at Tulsa, Oklahoma, and will play 10 days in Oklahoma before coming to Texas and the Tri-State Fair engagement.

Every other day during the fair the circus will stage a mile long street parade.

On the midway will be the Beckmann and Gerety Shows, which will come direct from Detroit. This attraction has the latest riding devices, seen for the first time at the Century of Progress in Chicago and the Pacific exposition in San Diego.

Daily horse racing on one of the fastest tracks in the United States also will be featured.

There will be other attractions, too, so the Tri-State Fair will appeal to every amusement taste.

Prize exhibits and record crowds are assured.

WHEAT REDUCTION LESSENER

1936 WHEAT ACREAGE REDUCTION WILL ONLY REQUIRE FIVE PERCENT

According to notification received this week by County Agent E. W. Thomas from Jno. R. Edmonds, State Wheat Agent, only 5 per cent reduction in wheat acreage will be required for 1936 under the new wheat reduction contracts soon to be offered. The reduction in 1934 was 15 per cent and in 1935 was 10 per cent.

Misses Ona Faye and Lila Mae Smith are visiting relatives in Canyon this week.

Misses Pauline Rothwell, Juanita Benton and Maxine McCraw and Messers. Bob Estes, Jack Boren and Robert Ramey attended the show in Hereford Sunday evening.

VOTE AGAINST REPEAL AUG. 24

QUESTIONS ARE ANSWERED IN DRIVE TO DEFEAT PROHIBITION REPEAL AUG. 24

In Saturday's Amendment election the one holding the spotlight is the Amendment to repeal prohibition. It is a momentous question and one which deserves a great deal of thought. A number of questions and answers have been prepared by Rev. E. C. Armstrong, chairman of the local county anti-repeal movement. Readers of The News will likely find these interesting and educational. They follow:

Q. Does the proposed amendment to be voted on August 24 specifically set out that the open saloon shall not be permitted to return?

A. Yes. It is so stated in the proposed amendment but the legislature failed to define for us what they mean by open saloon. Whether the place where hard whiskey is to be sold is called a saloon or by some other name, it makes no difference, it will be the same kind of deadly intoxicant that the old saloon dispensed on other days.

Q. Are any of our leading men opposed to the adoption of the present amendment?

A. Yes, a large number, among them we find such men as Senator Morris Sheppard, Governor James V. Allred, former governors Pat M. Neff and Dan Moody, former attorney general W. P. Keeling; distinguished educators like Dr. C. C. Sealeman, Dallas; J. D. Sandefur, Abilene; Dr. T. W. Brabham, Fort Worth; Dr. Waite, T. C. U.; Dr. F. S. Groner, Marshall, and many others.

Q. Are the "antis" themselves satisfied with the proposed amendment?

A. No. Former governor James A. Ferguson, a life-long Anti, says that the bill is improperly drawn.

Q. Do distinguished dry attorneys have the same opinion?

A. Yes, without exception.

Q. If the proposed amendment carries in the election, will we still have our local option laws to fall back on, will we not?

A. No, the adoption of the proposed amendment will destroy all old local option laws.

Q. Then under the proposed amendment if a county voted dry did not wish saloons within its borders would it not have a right and power to do so and would not the laws of the land protect such a county in its desire to remain dry?

A. No, for it limits the voters to prohibiting intoxicants for beverage purposes only. A man might open a saloon in a dry county and dispense hard liquor but "not for beverage purposes" and the laws would not reach him.

Q. But what about the amount of revenue that our State will receive? I saw in the papers where leading Anti says that we would receive ten million dollars a year revenue from the sale of hard whiskey only.

A. That is just another Anti fairy story. Mr. George H. Sheppard, State Comptroller of Public Accounts at Austin says that the largest amount of revenue paid in Texas since 1901 was in 1903. That year the total amount of revenue received from the sale of both hard whiskey and beer amounted to only \$975,000.00. It does not stand to reason that we would receive so much more revenue now than we received back in the days when the saloon element dominated

DUCK TO BE PROTECTED BY LAWS

RESTRICTIONS ARE PLACED ON DUCK HUNTING FOR COMING WINTER SEASON

Duck hunters who have visions of thirty days of duck and geese shooting this fall on plains lakes, will have their wishes as usual this fall, but under the most rigid regulations in the history of American wildfowling. So says a statement issued August 1 by the U. S. Biological Survey, which says the new regulations are the only alternative for a completely closed season.

The new regulations, says the Biological Survey, are based on the necessity of having a net annual increase left over at the end of the shooting season until the depleted population of migratory waterfowl is restored to normal. This year's rigid restrictions, which follow a period of approximately 35 years during which the kill each year has exceeded the annual increase from breeding, are summarized by the Bureau, as follows:

Those species which are nearest the danger point of extinction, such as canvasbacks, and redheads, will be particularly favored by the elimination of sinkboxes, sneak boats, and open-water shooting, practices which have been the chief methods of taking these species.

Shooting over baited water or land, which has furnished the heaviest toll from all species and accounted for the most consistent full bag limits, will be prohibited.

Live decoys, one of the most effective methods of luring the migratory flocks to the blind, are also ruled out. None will be allowed.

Zoning of States by seasons will be eliminated, and there will be only two zones, northern and southern.

Shooting will be restricted to the hours between 7 a. m. and 4 p. m. Some bag limits have been reduced. The possession of more than one day's bag has been made illegal.

The 3-shell limit placed on au-to-loading and repeating shotguns last February will take effect for the first time this fall, and the new regulations provide that hunters may use a shotgun only, not larger than No. 10 gauge.

Adoption of a short hunting season with heavy restrictions, says the Biological Survey, was the only alternative to a completely closed season. Though advocated by a considerable body of conservationists, including leading sportsmen and sportsmen's organizations, a closed season was considered ill-advised. Reports from Bureau investigators on the breeding grounds indicated that the needed net annual increase would be insured by a short season with heavy restrictions. Complete prohibition of shooting thus seemed unnecessary, and the Bureau knew that complete prohibition would be difficult to enforce. Loss of support of the regulations and a breakdown of local enforcement through the cutting off of State operating revenues from the sale of hunting licenses were other obstacles to a closed season.

The 30-day shooting season, applying to geese, brant, jacksnipe, and coot, as well as to ducks, will open in northern states on October 21 and will close on November 19. In southern states the season will run from November 20 to December 19.

No open season is allowed on wood ducks, bufflehead ducks, Ross' geese, or swans.

Rev. and Mrs. Joe Strother and family left Tuesday for Dallas to attend the wedding of Rev. Strother's brother, Dr. W. K. Strother, which was held today.

Mr. George Steele of LaMesa was the guest of Mr. and Mrs. S. Carroll the past week.

Mr. Andy Nelson of McLean is here on business this week.

JEWELL WEBB IS BURIED MONDAY

POPULAR YOUNG LADY SUC-CUMBS TO APPENDICITIS ATTACK AUGUST 18TH

Dimmitt and the entire community was saddened Sunday when it was learned that death had robbed this earth of one of its sweetest and most promising young lives, that of Jewell Faye Webb, daughter of Mr. and Mrs. G. H. Webb. The untimely departure from this life was occasioned by complications arising from an acute attack of appendicitis.

Jewell Faye was a graduate of Dimmitt High School finishing with the class of '35, and was one of the most popular and beloved students.

The deceased was born in Baylor County, Texas, September 5, 1916. She was raised in a christian home and at the early age of 12 years was converted and joined the Methodist church, to which she has been a loyal and faithful member. Her Pastor has said of Jewell Faye, "She was an ideal christian character, one that was highly esteemed and loved by all who knew her. We feel a great loss by her going, but Heaven will be made brighter by her coming. She lived that kind of life that becometh a christian, living for Jesus each day, giving her best to the world and Church. Her associates and church."

Funeral services were conducted in the High School auditorium with the Rev. E. C. Armstrong in charge with the Rev. Ed A. Thorp assisting together with four guest pastors. Interment was made in the local cemetery.

The News, together with the entire community, extends its most sincere sympathy to the bereaved family in their sorrow.

Mr. and Mrs. Chas. McLean, Misses Thelma Jones and Norma Cowser attended the show in Hereford Sunday evening.

Tom Hanks is visiting in Houston and Austin this week.

BAPTIST REVIVAL HAS FINE START

REVIVAL IS CREATING WIDE-SPREAD INTEREST AS IT CLOSES FIRST WEEK

Increases are noted at each service of the Baptist Revival which ends its first week Saturday night. Great interest is being manifest in the campaign and one of the best and far reaching revival meetings is most certain to be the result if present indications are followed to the conclusion.

Powerful and inspirational messages are being brought by Rev. Vernon Shaw and the beautiful special songs being brought by Rev. Joe Trussell of Brownwood which together is proving a most pleasing and beneficial combination.

The morning services begin at 10:00 o'clock and the evening services at 8:30 o'clock.

NEW TRAIN SERVICE BEGINS MON

TRAIN SERVICE WILL BE HAD THREE TIMES WEEKLY. MAIL SERVICE DAILY

In a statement to The News this morning, Station Agent Earl Allbright announced that beginning Monday, August 26, the new train schedule will be inaugurated over the Fort Worth & Denver R. R. between Dimmitt and Plainview.

As has been known for some time, the train service will be had only three times each week, however it was unknown just when the change would become effective.

Trains will be run on Monday, Wednesday and Friday of each week starting this coming week. Mr. Allbright states that the mail service will continue on a daily schedule as usual, by automobile, and it is likely that express service will also be given daily, although this information at the present time is unfounded.

BETHEL H. D. CLUB MET WITH MRS. J. C. WILLIAMS

The Bethel Home Demonstration Club met Friday, August 9, with Mrs. J. C. Williams.

A real interesting report was given of the A. & M. Short Course trip by Mrs. Jim Bagwell and Mrs. J. G. Davis.

Present at this meeting were the following ladies; Mesdames J. C. Williams, J. G. Davis, Jim Bagwell, George Bagwell, Homer Terrell, Earl Lust, Vern Lust, T. F. Crawford, Bennett, Branson, Copeland, H. Rothwell, Jim Givon and Misses Grace Marie Bagwell and Mildred Lust.

The Bethel Club will have the next meeting September 13 at the Bethel school house and serve a country supper.

CARD OF THANKS

Words are inadequate for us to express our appreciation to every one who rendered us assistance in any way during the illness and death of our darling Jewell Faye. The beautiful floral offerings and the love which they expressed meant much to us.

We especially thank the doctors and nurses for their untiring efforts. All of these kindnesses has made our sorrow easier to bear.

Our prayer is that when like sorrows come to you that you may be comforted as we have been.

"WE MISS YOU, DADDY"

The following editorial was printed in the Rockville, Connecticut, Journal, about a year ago. Thereafter, to the editor's surprise, it was reprinted by most of the other papers of the state, and was used by highway safety officials, insurance companies, accident prevention organizations, motorists' publications and by others who are fighting the great war against the toll of automobile deaths.

"Tuesday morning there was a fatal accident on the Minterburn Hill and when the medical examiner was going through the pockets of the dead man . . . a telegram was found. It was not very long, just the ordinary ten-word length, but it was a message that would make any father happy. It read: 'We miss you, daddy. When are you coming home?'"

"Those who have little children and those who were once little children, can think of the great blow to the child when the father did return home—dead.

"'Daddy' will be missed by those children in the long years ahead. No longer will they have his support, his earnings and most important, his companionship.

"If ever there was a reason for people driving more carefully on the road, it is that they might get in an accident and deprive their own child or some other child of their 'Daddy'.

"More might be written, but just let us repeat those words: 'We miss you daddy. When are you coming home?'"

"GOOD LUCK, DAD"

We received a letter the fore part of the week from our dad, Sam M. Braswell, apprising us of the fact that he had purchased the Longmont, Colorado, Journal, a newspaper in a city of 8,000 persons nestled in the beautiful St. Vrain valley, thirty-two miles North of Denver.

For the past eighteen years dad has successfully edited and published The Clarendon News, one of the best weeklies of the state. And during that time the writer grew up and caused lots of worry and disappointments which I suppose is usual with a carefree, irresponsible kid and bullheaded young man.

While it is with a feeling of sadness we hold towards your leaving the Panhandle, dad, it is with the fullest and deepest expression of sincere hope that your new home and field of endeavor will prove a happy combination of true contentment and prosperity.

"Good luck, dad, and God bless you."

DAVIS PRAISES AAA FUNDAMENTAL AIMS COTTON BATTLEGROUND EXPORT DIFFICULTIES LAUDS FARMERS' TARIFF

It is a good thing for farmers to keep in mind the real purpose of the AAA, which is not short crops or large crops, but an increased income to the farmers of the United States.

Mr. Chester C. Davis, Administrator of the AAA, delivered a speech last week at Stoneville, Miss., addresses to cotton growers and discussing the problems of the staple, but illustrating the farm program as it applies to other basic crops.

Because the opposition is concentrating upon the cotton program, attacking the processing tax

and assailing the loss of foreign markets, it is interesting to read Mr. Davis' rejoinder. Briefly, we recount the salient points of his argument.

Two fundamentals are involved: (1) a sustained fair income to the producer and (2) conservation of soil fertility, one of the nation's most vital resources. The basic principle, boldly inscribed in the Adjustment Act, is "that American farmers are entitled to enjoy from their labor a living standard comparable to that enjoyed by other producing elements of society." Consequently, the price of a bale of cotton (or other farm product) is not to be its value to the export trade but its value to the man who produces it; not what it is worth to a Brazilian peon, a Sudanese sheik or a Chinese coolie.

Therefore cotton exports must be studied in the light of a sustained income for producers and while important are not worth the sacrifice of the two fundamentals. If necessary loss of exports is to be preferred to a price that means starvation to producers and robbery of the soil. While it is shocking to think of putting cot-

ton on a domestic basis, thus throwing families onto government care, farmers must remember that "with the aid of various controls over production which corporate industry exercised, non-agricultural employers cut down production and maintained price levels to the extent that millions of people were plowed out of factories and onto government aid."

Mr. Davis points out that the agricultural program came into being when prices for farm products had gone into a tailspin, farm buying power had collapsed, factories were idle, banks were in a panic and people dismayed. The policy of raising prices was adopted with full knowledge that there would be some toes trod upon and that owners would make an outcry. The clamor of textile and flour millers, packers and other processors, accustomed to buying cheap raw materials, was anticipated.

Much argument, says Mr. Davis, is given to the loss of export trade, which is blamed upon higher prices of American cotton, as there always has been plenty of cotton. Foreign nations, it is said, are substituting cheaper growths,

but Fr. Davis points out that we had difficulties in keeping up exports long before the Triple-A, and they touched many commodities. He cites these barriers—tariffs, embargoes and quotas.

Getting down to cotton the speaker says that in 1926 "our biggest cotton export year," the December 1 average price was 12 1-2 cents a pound. In 1932, with average price of 6 1-2 cents, our exports were two million bales less. Representatives from Germany, our largest cotton customer for years, have been pleading for our cotton but they "didn't argue price." They said they "have no exchange to pay us for cotton unless they can sell us something in return."

Down to figures: In 1934-35 our sales of cotton to Germany dropped enough to account for 3g per cent of our total decreased exports. Egypt and India also had decreased but Brazil, says Mr. Davis, gives the answer. True enough, Brazil sold cotton but "we find that Germany bought Brazil's cotton because special arrangements with Brazil and Germany made it possible for Germany to

pay for that cotton with goods she shipped to Brazil."

Concluding, Mr. Davis said: "Unless this country wishes to face permanent injury to its cotton export trade it must face the fundamental fact that we cannot sell unless we buy. The critics can go on telling the farmers that they should junk their control programs, maintain tariff protection for industrialists and resume permanently their production at starvation prices for export markets that are gone. But if the growers are as smart as I think they are, they will not listen to them. When this nation wants to abolish the tariff system which impedes export trade, then the farmers will talk about discarding their adjustment programs. But unless I miss my guess, not before."

When the sun is blazing hot, your motor heat goes up, too!

To protect your motor, use Germ Processed Oil, which has 2 to 4 times greater film strength and is less affected by extreme motor heat!

YOUR MOTOR runs lots hotter in Summer. That's why you must have oil that maintains high film strength under extreme temperatures to get safe lubrication. Otherwise, the lubricating film ruptures and the bearings and cylinders suffer damaging wear.

Plain mineral oils have little film strength and oils over-refined by new cleansing methods have even less. As motor heat goes up, these oils rapidly lose film strength.

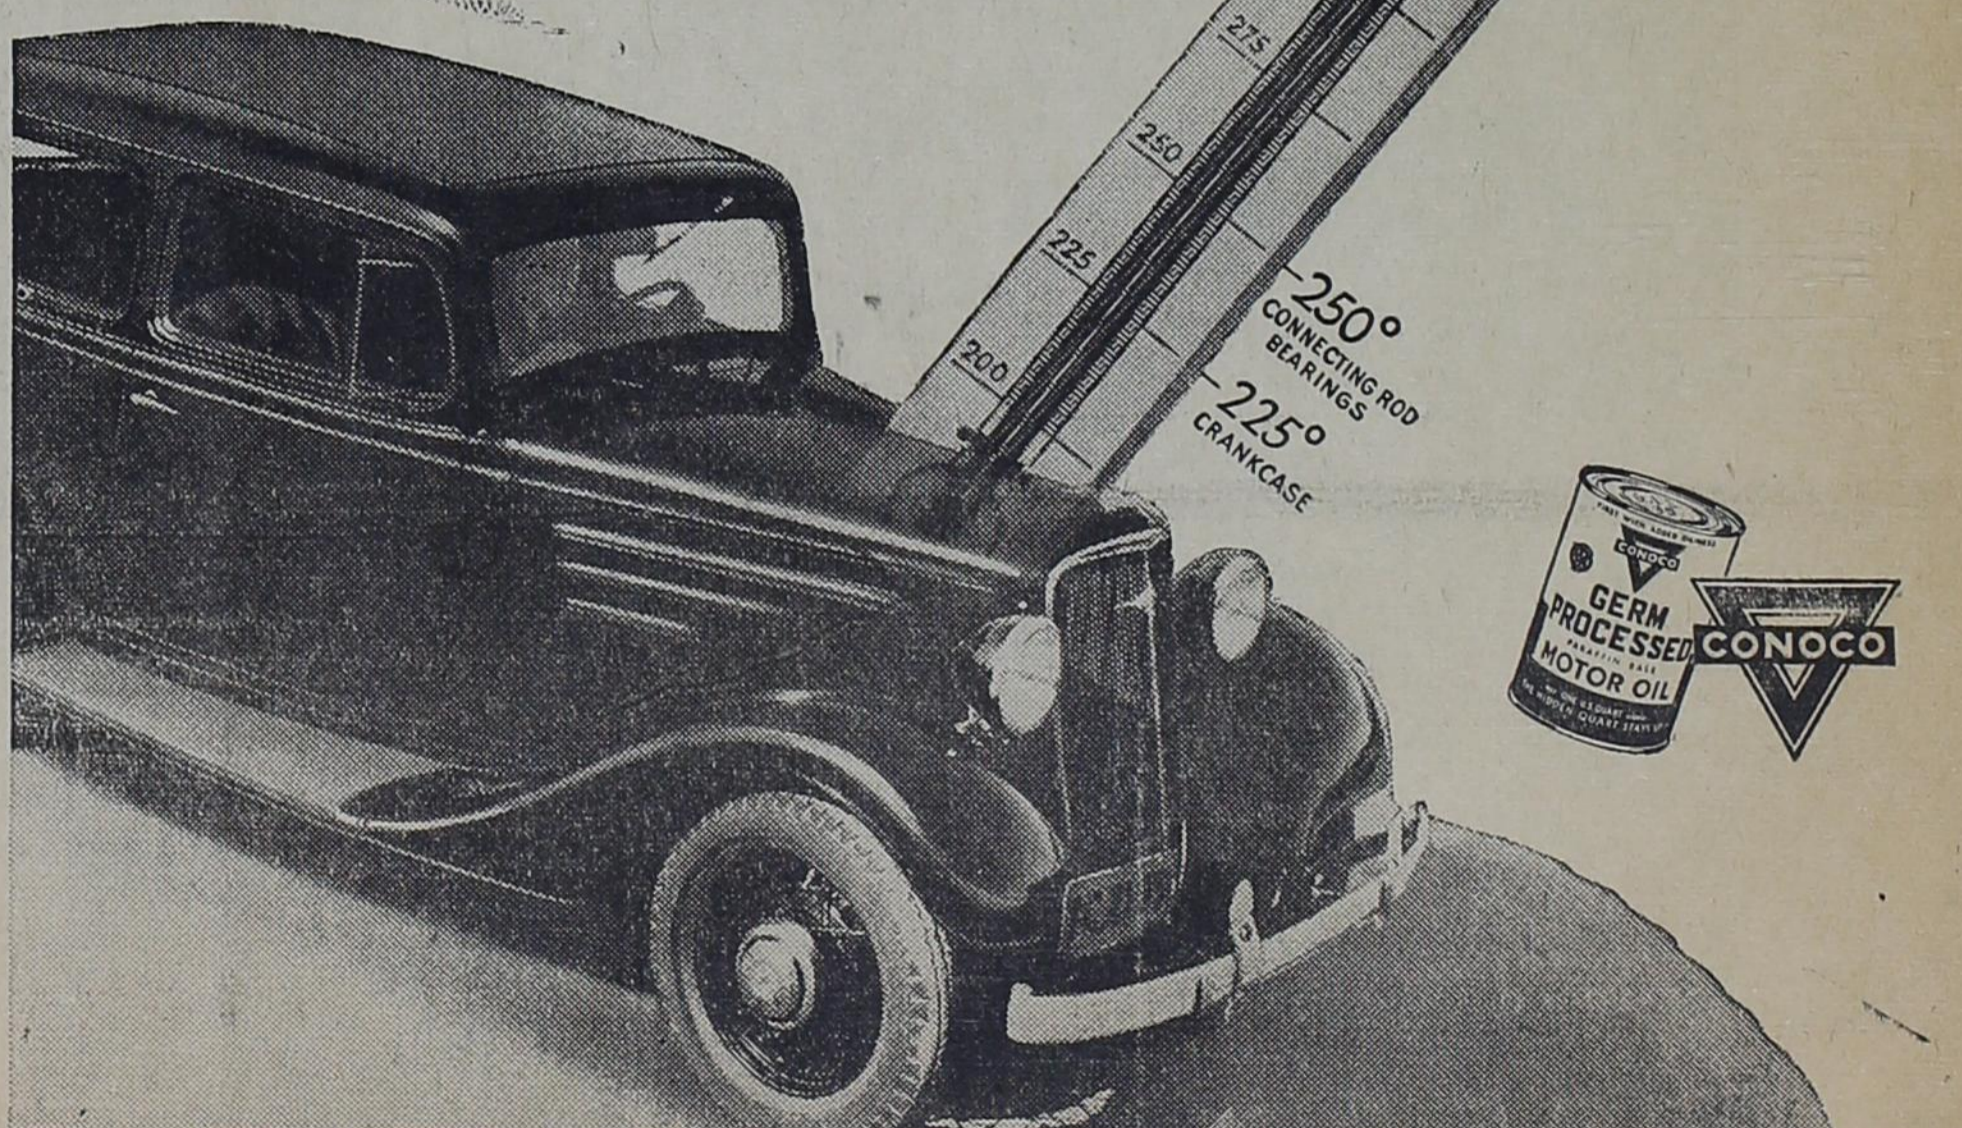

You'll get better motor protection with Conoco Germ Processed Motor Oil. Timken machine tests prove that it has 2 to 4 times greater film strength than any plain mineral

oil and that heat above 225° does not lessen this advantage.

More proof—supervised road tests were made in identical cars fitted with the new alloy metal bearings used in many 1935 cars. The bearings lubricated with a high-quality plain mineral oil showed 45% more wear than those lubricated with Conoco Germ Processed, the first alloyed oil.

You'll be certain your motor is safely lubricated even at high temperatures if you say "O. K.—Drain" and fill with Conoco Germ Processed Motor Oil—the oil with the "Hidden Quart" that stays up in your motor and never drains away.

Say "OK-Drain" - FILL WITH **CONOCO GERM PROCESSED MOTOR OIL**

REPEAL QUESTIONS—

(Continued From Page One)

practically the entire electorate of the State.

Q. If we receive only \$975,000.00 from the sale of hard whiskey, it would not be felt if the whole amount were applied to the Old Age Pension.

A. I should say not. It would be so small amount that the pensioners, if our pension law amendment carries, would know nothing about it.

Q. Why are we trying to legalize the sale of hard whiskey in Texas?

A. Because there are men who think more of gold than they do of God. Greed is the dominating spirit in their lives and they would sacrifice every principle in order to make money even at the sacrifice of the character and lives of men and women.

Q. But legalizing the sale of whiskey would stop bootlegging would it not? Everybody knows that the bootleggers thrive all over the State and since they cannot be suppressed, would it not be better to legalize the sale of liquor?

A. No. Bootleggers increase when we legalize the sale of whiskey.

Q. What then, should be the attitude of all good citizens toward the repeal of our State Amendment?

A. Every good citizen should work and vote against repeal. Prohibition has been the greatest economic blessing to say nothing of its moral and religious values, of any law that has ever been written upon the books of our State.

Q. But if we vote against repeal, will not our State be flooded with illegal whiskey from other states in the union?

A. No. Congressman Hatton W. Summers, Congressman from the Dallas District, is preparing a bill that will doubtless be passed by the present Congress forbidding the shipment of whiskey into dry states. That is provided for in the Twentieth Amendment, the amendment that repealed the Eighteenth Amendment.

Miss Mary Bell Carroll of Snyder is visiting in the home of her sister, Mr. and Mrs. Raymond Wilson.

ORDER OF COMMISSIONERS COURT ESTABLISHING BOUNDARIES OF ELECTION PRECINCTS

The Commissioners Court setting in regular session this 12th day of August, 1935, came to consider the matter of re-establishing the election precinct lines of election precincts No. 1, 4, 5, and 12 of Castro County on motion made by Commissioner L. A. Ricketts, duly seconded by Commissioner Andrew Acker and passed by unanimous vote of the court, the following order was passed, First:

That the boundary lines between election precinct No. 1 and No. 4, be changed from the present location as follows, From the center of the East door of the Castro County Court House in an Easterly direction to an intersection with the center line of State Highway No. 86, and thence following the center line of said Highway No. 86 in an Easterly direction to the present East boundary line of election precinct No. 1. The territory lying on the North side of this line being election Precinct No. 4, and the territory lying South of this line being election precinct No. 1;

Second, that the boundary line between election precincts No. 5, and No. 12, be as follows: From the East boundary of election precincts No. 1 and No. 4, along the center line of State Highway No. 86, in an Easterly direction to the Castro County & Swisher County line. The territory lying North of this line being in election precinct No. 12, and the territory lying South of this line being in election precinct No. 5. The boundary lines of commissioners Precincts No. 1 and No. 4, will be changed to conform to the change in election precincts.
