### ARBITRATION OF DISPUTE AT THE HAGUE IS AGREED

WHILE EVERY AUTHORITY STATES THERE IS A CHANCE FOR AN AMICABLE SETTLEMENT OF THE TROUBLE GROWING OUT OF THE NORTH SEA INCIDENT, AND A SUBMISSION TO ARBITRATION IS PROPOSED, YET GREAT BRITAIN IS PREPARING FOR A POSSIBLE CONFLICT—RUSSIA ORDERS ALL WARSHIPS WHICH TOOK PART IN FIRING DETAINED AT VIGO, SPAIN, WHICH ELIMINATES CHANCE FOR COLLISION WITH BRITISH NAVY

### AN INTERNATIONAL COMMISSION IS TO DECIDE

Russian Ambassador Makes an Early Call on Foreign Secretary Lansdowne and Conveys Latest Dispatches From His Government—Cabinet Meeting Is Held at Which Every Phase of the Affair Is Discussed—Russian Newspapers Accept Admiral's Statement of Affair as Correct and Are Not Showing Any Conciliatory Tone Whatever, Saying Captain of One of the Fishing Boats Confirms the Contention

LONDON, Oct. 28, 4:07 p. m.—The Associated Press is authorized to state that an apparent satisfactory settlement of the Anglo-Russian dispute has been reached. Several details and formalities remain to be arranged, but the proposal to refer the matter to a court of inquiry has been accepted. The entire dispute ended when Ambassador Benckendorff saw Lord Lansdowne after the cabinet meeting. The final inquiry will be held at The Hague, under the rules of The Hague convention. The appointment of arbitrators will be discussed tomorrow.

LONDON, Oct. 28.—Admiralty orders reached Portsmouth to stop the leave of all officers and men and directing the torpedo boat destroyer flotilla be kept in readiness to proceed wherever ordered.

ST. PETERSBURG, Oct. 28, 2:45 p. m.—Orders have been telegraphed Vice Admiral Rojstvensky to detain at Vigo all warships which took part in the North Sea incident.

LONDON, Oct. 28, 1:34 p. m.—Orders have been issued and acknowledged by Vice Admiral Rojstvensky of the Russian squadron to remain at Vigo until the conclusion of the present Russo-British negotiations. This eliminates what is regarded here as one of the most dangerous features of the situation, namely, the possibility of a premature clash between the British and Russian squadrons.

PARIS, Oct. 28.—Great Britain offered to submit the Russo-British complications to an international commission and there is reason to believe that Russia will accept this arrangement.

ST. PETERSBURG, Oct. 28, 2:20 p. m.—Despite the Chauvinistic tone of the Russian press this morning and the wild talk which is being indulged in regarding the possibility of war, the Associated Press is in a position to state positively the situation will enter on a distinctly better phase and that a basis of agreement between the two governments now appears probable. There is still danger, however, that some untoward incident in view of the excited state of public opinion in both countries, may precipitate another crisis. Both Russian and British governments are animated by a desire to promptly reach a common ground on which both can stand.

### NORTH SEA MATTER TO GO TO COMMISSION

LONDON, Oct. 28.—Russian Ambassador Benckendorff paid another visit this morning to Foreign Secretary Lansdowne at the latter's private residence. The visit was made before half past 10 o'clock. The ambassador conveyed to the minister further dispatches from the Russian government. The earliness of the call is accounted for by the necessity for placing the foreign minister in possession of the latest views at St. Petersburg regarding the North Sea incident, so Lord Lansdowne would be in a position to communicate to his colleagues at the cabinet meeting today the fullest details regard-

ing the negotiations had up to date. The ambassador's stay did not last more than half an hour.

Ambassador Cambon of France was again present and remained at Lord Lansdowne's residence a few minutes after the departure of Count Benckendorff. There are evidences of increasing belief among well informed persons that the dispute between Russia and Great Britain will not lead to various complications, and that an amicable settlement will be reached. Russia, so far as known, is showing every disposition to meet the British views and the conceded delay in replying to the British demands is readily explainable on the ground that the Russian government naturally desires to be placed in possession from its own

ed without reservation as the true explanation of the happenings at Dogger Bank, and stress is laid on the concurrence of Vice Admiral Rojstvensky's report that he was attacked by torpedo boats with the declaration of the fishermen that the torpedo boats, or which the Russian fleet had none, ran in close to the trawlers before heading for the vessels of the Russian squadron. Attention is called also to the statement by the fishermen that a small vessel remained six hours at the scene of the disaster, while Vice Admiral Rojstvensky reports that the whole Russian squadron proceeded to the southward.

While it is the general disposition to throw the blame for all the loss of life upon the Japanese, some of the newspapers do not hesitate to intimate that it is Great Britain's private affair.

The Novosti boldly suggests the possibility that the torpedo boats described by the Russian commander were boats loaned to the Japanese by the British government.

The Russ congratulates Vice Admiral Rojstvensky upon "beating off the Japanese attack," and says his report, as it was expected it would, puts an entirely different face upon the whole matter.

### WIDESPREAD INTEREST IN THE MEETING TODAY

LONDON, Oct. 28.—Widespread interest in today's cabinet meeting is evidenced by the early assembling of crowds in Downing street. These gatherings soon became so thick the police were obliged to disperse them into the neighboring White Hall district. Premier Balfour was early at work, attending to his correspondence and receiving visitors among whom was Lord Rothschild.

### HOME FLEET MOVING

LONDON, Oct. 28.—The first division of the home fleet left Firth of Forth this morning, and is expected to arrive at Isle Portland tomorrow.

### HOPES FOR SETTLEMENT

LONDON, Oct. 28, 1:08 p. m.—A statement has just been issued by the Russian embassy as follows: "We are in constant communication with the British government. As a result of these communications the embassy hopes there will be a speedy and satisfactory settlement of the channel fleet incident, the situation is decidedly improved."

### READY AT GIBRALTAR

GIBRALTAR, Oct. 28.—Boom defenses are being rigged at both ends of the harbor. The battlements of the channel fleet are still in port, with steam up and decks cleared.

### TO MEET RUSSIANS

GIBRALTAR, Oct. 28.—The British cruisers Lancaster, Suffolk, Hermes, Doris, Endymion and Thetys sailed to the westward this morning.

### "NOW BID YOU ALL GOOD-BYE PORT ARTHUR IS MY GRAVE"

GENERAL STOESSEL FORESEES THE RESULT OF THE LONG SIEGE AND ADMITS THAT SOON THE GARRISON MUST FALL, BUT HE INSISTS THAT GLORIOUS DEATH IS PREFERABLE TO CAPITULATION—ATTACKS UPON FORTRESS FROM DAY TO DAY ARE HAVING AN EFFECT—WHEN FINAL STRUGGLE COMES THERE WILL BE TERRIBLE SLAUGHTER, AS FIGHTING WILL BE AT CLOSE QUARTERS, AND JAPS WILL ENCOUNTER MANY MINES

### THE SOLDIERS HOLD FEASTS OF HORSE FLESH

Water Supply Is Cut Off and Provisions Are Scarce—Only Tinned Meats to Be Had Now—General Simnoff Would Surrender, But He Is Overruled by Stoessel, the Stubborn, Who Insists Upon a Final Stand—Certain Troops in the Garrison Must Be Watched Because of Fear They Will Either Desert or Prove Treacherous—Private Letter to a Merchant at Shanghai Tells of Conditions Under Which Defenders Await Final Battle

SHANGHAI, Oct. 28.—A private letter from Port Arthur, dated October 21, received here today, says:

"General Stoessel has wired the Russian emperor and the court recently: 'I now bid you all good bye forever. Port Arthur is my grave.'

"General Stoessel has instilled the garrison of the beleaguered fortress with a spirit that to court a glorious death is preferable to capitulation. The Japanese shells are inflicting great damage to the Russian fleet in the harbor and to the fortifications. The arsenal and its contents of ammunition and small arms have been destroyed, and preparations are being made for the last deadly struggle at close quarters. The water supply having been cut off, wells are being sunk. Provisions are scarce, only tinned meats being left and the soldiers are holding feasts on horses killed by shells. General Simnoff, it is said, would surrender, but is overruled by General Stoessel.

"Certain troops included in the garrison have to be closely watched at present for fear of desertion or treachery. Field and naval hospitals are crowded and the hygienic conditions are becoming desperate. Bombardment at times is so incessant it is impossible to bury the dead any depth. Over one-half of the original garrison are dead, wounded or sick.

"The high angle at which the artillery fire is directed by the Japanese has practically destroyed the new town. When the fleet attempted to break through the blockade some time ago the garrison was to have made a desperate sortie and inflict as much damage as possible and if

necessary capitulate. The failure of the fleet to escape frustrated the plan.

"The besiegers are pressing closer daily and it is hard to say how long we can hold out. When the end comes there will be a desperate fight and surprise. Thousands of the enemy will perish, as everything is mined."

This letter was entrusted to a native boatman, who ran the blockade and mailed it at Chfoo. The recipient is a prominent continental business man of this city, with a branch house at Port Arthur.

### TEN THOUSAND IS THE DEFENDING FORCE

CHEFOO, Oct. 28, 5 p. m.—The Japanese at Dainy report the continued arrival of huge siege guns. The junk from Port Arthur with eleven Chinese, who left there October 19, an account of the costliness of food, arrived here today. They say several Russian warships have been hit by dropping shells, but none have been sunk. They estimate the able-bodied soldiers there now at 10,000, as a small force will be insufficient to garrison the various positions. Scarcely a night passes without small engagements over minor positions and artillery fire is exchanged daily. Opium is scarce. The Chinese are economically inclined to eat it, as smoking requires much larger quantities. Last winter's uniforms are being worn by the soldiers who are now mostly supplied with summer clothing.

### ALEXIEFF HAS ISSUED HIS FAREWELL ORDER

HARBIN, Oct. 28.—Vice Admiral Alexieff today issued the farewell order of the day. It is as follows: "In execution of his majesty's orders, I am leaving for St. Petersburg. I thank all officers of the fleet most heartily for the self-sacrificing work at sea during the last ten months, which in the matter of the Russian squadron, has been examined on oath by the magistrate at the instance of the government.

All members of the crew affirmed the conviction that the cruiser fired a shot, and not merely a blank charge. The captain deposited that shells were seen to burst in the air near the steamer. The guns used were supposed to be quick-firers. The ships were half a mile apart at the time of the attack.

### NO MOLESTATION

LONDON, Oct. 28.—London agents of the Norwegian steamer Skaatol say the statement cabled from Copenhagen last night to the effect that the vessel was fired upon by a Russian warship on Sunday is incorrect. The Skaatol passed the Russian squadron off Dover, but there was no firing or other molestation.

### A DESPERATE ENGAGEMENT

TOKIO, Oct. 28, 4:30 p. m.—It is reported that the Japanese opened a desperate attack on the eastern forts of Keerakawan, the group north of Port Arthur, during the morning of October 26, and silenced the Russian batteries. A shell exploded the Russian magazines. Simultaneously the Japanese attacked the forts on the Riblung mountain and on the Sungohowian mountain, silencing the Russian batteries and storming the occupied forts in front of these mountains.

### LAND PATENTS SIGNED

AUSTIN, Texas, Oct. 28.—The Commissioner of the General Land Office issued and the Governor signed patents to the following tracts of land today: Bonham County 5,129 acres, Hale 640, Newton 29, Callahan 408, Runnels 640, Tyler 127, Midland 80, Llano 320, Taylor 488, Schleicher 1,280, Kendall 80, Jack 80, Tom Green 160, Motley 234, Archer 24, Mills 160 and Tarrant 15; total amount embraced in the above patents 9,886 acres.

### A DYNAMITE EXPLOSION

SEATTLE, Wash., Oct. 28.—By the accidental explosion of 400 pounds of dynamite in a blacksmith shop at Council City, Alaska, October 7 last, two men were fatally injured, seven others were seriously hurt and a large amount of valuable property was destroyed.

of the above is lacking, but the reports are believed to be true.

### JAPS CALLED HOME

MISSOULA, Mont., Oct. 28.—Japanese section hands on the Northern Pacific railroad have received word for all members of the first reserve of the Japanese army to return at once to Japan for military purposes.

### IN HOSPITAL AT HARBIN

NEW YORK, Oct. 28.—Prince Jaime of Bourbon, who is in the hospital at Harbin, suffering from dysentery, is rapidly improving, according to a Herald dispatch from St. Petersburg. He intends leaving there shortly for Mukden.

### WILL NOT INVESTIGATE

BERLIN, Oct. 28.—The German government is not disposed to take up the case of the German fishing vessel Sonnfar, which was fired on on October 31 off Herts Reef by the Russian warships, unless the owner asks for indemnity.

### TO FORFEIT CHARTER OF FRATERNAL ORDER

AUSTIN, Texas, Oct. 28.—In the Fifth Third District Court yesterday Attorney General C. K. Bell, on behalf of the State of Texas, instituted suit against the Supreme Lodge of the Independent Order of the American Knights of Liberty, a fraternal organization with its principal office at San Antonio, and whose chief executive officer is Mrs. Eva McIntosh of San Antonio, for a writ of injunction to enjoin the defendant company from doing business in Texas.

The State alleges that a valid judgment was obtained on June 24, 1904, by Creasy Jones for her son Boman Jones against the defendant organization in the District Court of Jefferson County for \$1,000; that said defendants have failed to pay said judgment for a period of sixty days, in violation of the provisions of chapter 86, acts of the Twenty-eighth Legislature.

### APPEALS WHICH ATTACK THE VALIDITY OF THE CITY CHARTER

Two appeals have been taken from the assessment of personal property by the board of equalization of taxes of this city, the first by A. B. Wharton and the other by the Ball estate.

The appeal of A. B. Wharton filed with City Collector and Assessor Gilvin attacks not only the assessment made by the board, but the board itself, declaring it an illegal body and one without power. The valuation of the personal property of A. B. Wharton is \$121,400, as stated in the appeal, and this amount it is claimed should be reduced to about \$40,000. In the Ball appeal complaint is made of the assessment of \$449,300.

Paraphrase 1 of the Wharton appeal, the one attacking the legality of the board, is as follows: "Because that provision of the city charter of the city of Fort Worth, Texas, which relates to the personnel and composition of the board of equalization that purports to confer power on the Judge of the county court of Tarrant county and on the Judge of the district court of Tarrant county, each to appoint a member of said board of equalization, under which said board acted in the case of the appellant, is null and void and is not sanctioned nor permitted by the constitution of the state of Texas, and said board is without power to act in the premises."

Another point made in the appeal is that the board had no power to fix the valuation, because none had been previously assessed nor had any valuation been placed on it by the city assessor and collector, nor was any rendition made by appellant and no appeal prosecuted before

said board from the rendition containing no personal property.

Other claims made are a failure to allow as offsets \$60,000 liabilities of the assessment against stocks and bonds is made on the basis of 100 per cent instead of 80 per cent as in other cases, according to the usual custom.

AUSTIN COUNTY NOMINEE DIES OF WOUND

HOUSTON, Texas, Oct. 28.—At Sealy last night, Paul B. Engelking, the Austin county candidate for the state legislature, while standing in front of a barber shop on Main street, was accidentally shot and killed by Richard Ward, who was handling a pistol in a saloon across the street.

ROOSEVELT MAKES CAUSTIC REPLY TO TYNER

WASHINGTON, Oct. 28.—By direction of the president, Secretary Loeb today sent to James N. Tyner, former assistant attorney general for the postoffice department, a letter in reply to Mr. Tyner's letter, dated October 5, made public last night.

The letter says that as to the question of Mr. Tyner's guilt on the criminal charge on which he was tried, and which has been passed upon by a jury, the president acquiesced in the jury's finding, but the evidence "seems to him overwhelming that you (Mr. Tyner) were guilty either of moral obliquity in the performance of your duty or of the grossest inefficiency."

WHY APPENDICITIS?

Why is appendicitis so common today? Because we have fallen into the pernicious habit of eating too much.

Dr. Curtis, the great authority on this disease, says: "Appendicitis often follows the eating of a very heavy, or particularly large or indigestible meal."

After carelessly following a foolish custom, you can insure your safety by taking Stuart's Dyspepsia Tablets.

It is an accepted scientific truth which admits of no dispute, that if you will keep your digestive apparatus in good order, you will never suffer from this dread disease, which, at best, means a weakening operation, with long weeks wasted in bed, and big doctor's and surgeons' bills to pay as souvenirs.

Keep your appendix in health by the proper use of Stuart's Dyspepsia Tablets, whenever you have laid yourself open to danger by overeating, and upon the least sign of somach or intestinal troubles, for otherwise, at any time, this dangerous disease may lay you low.

The curative influence of this great medicine is quickly shown in the gentle, soothing effect it has on all inflamed conditions of any part of the digestive tract.

Stuart's Dyspepsia Tablets tone all these parts up to a proper condition of perfect health, and regulate their functions into a proper working state.

They also make away with all the causes of irritation, inflammation or indigestion, by helping to dissolve, digest and assimilate, or put to proper use, all the food which is lying around in odd corners of your digestive apparatus, fermenting, rotting and curdling, like so much garbage.

In these natural and perfectly simple ways, Stuart's Dyspepsia Tablets rest all sufferers, from any form of dyspepsia, trouble, or health.

CATTLE DYING IN GOLD RAIN IN THIS COUNTY

The severe, cold rain storms of the first part of the present week has already resulted in killing many head of cattle in this county, as well as in several of the adjoining counties.

"Thirty-six consecutive hours of rainfall, accompanied by a norther is enough to kill anything," said a well known stockman to The Telegram today.

The cattle losses in this county alone, said James Hovenkamp, will reach several hundred head, and all over the Panhandle, North Texas and in the west part of the state reports are coming in that ranchmen have sustained heavy losses on the ranges not protected as to shelter.

Mr. Hovenkamp himself has sustained loss, while on the Burgess Company ranch in the Blue Mound country Mr. Hovenkamp saw as many as ten head of dead cattle lying along the south fence, showing that the stock drifted with the storm in an effort to reach shelter.

He says that the severe cold and continuous rains completely chilled the cattle, and being exposed they were unable to withstand the storm. He says that the losses of cattle over the country is due to this reason now, but is due solely to the cold rains of a few days ago, which continued nearly two days without cessation.

He is satisfied that the cattle reported to be dying in Parker county are not affected with disease, but simply were unable to stand up under the severity of the storm, which was a piercing one.

Mr. Hovenkamp states that while on his way to Fort Worth this morning he noticed dead stock in several pastures.

When full reports are received it may be shown that the losses over the state have been quite heavy, although inquiry at the office of the Texas Cattle Raisers' Association today developed the fact that not a single report of losses has been received thus far. However, these reports may come in later.

LOSS NEAR CROWLEY

M. W. Hampton of near Crowley, this county, is in the city today with a bunch of fat steers for the local market. He reports the loss of eight or ten head of cattle during the storm Monday.

On Sunday he penned the cattle, preparatory for shipment to Fort Worth, and when the storm came the cattle became frightened and began "milling," with the result as noted above.

Mr. Hampton states that the cattle fairly stampeded and nothing could be done with them except to await results. Quite a number of cattle were also crippled and may yet die.

Mr. Hampton reports that his part of the county sure got a thorough drenching and farmers are in good spirits over the condition the grounds has been left in for planting.

SMITH CONVICTED OF MURDER IN WACO TRIAL

WACO, Texas, Oct. 28.—Argument of attorneys in the murder case of Addison Smith, charged with the murder of Officer Ike Grubbs in Bell county, was concluded yesterday afternoon with impassioned appeals from strong attorneys on both sides, and the case was given to the jury. It had been both fought for several days, and T. E. Smith and Mrs. T. E. Smith, father and mother of the accused, will be tried on the same charge at once. The cases came here on a change of venue from Bell county, and much interest centers in the result.

Grubbs was killed while trying to oust defendants from premises which had been turned over to others through foreclosure of mortgage, though the defendants are not charged with any part of the premises.

The jury at 11:30 o'clock last night rendered a verdict convicting Addison Smith of murder in the second degree and assessing punishment at twenty-five years in the penitentiary.

MALARIA

IMPURE AIR Malaria is not confined exclusively to the swamps is bad air this insidious foe to health is found. Poisonous vapors and gases this miserable disease, which are breathed into the lungs and taken up by every part of the body.

Amory, Miss., January 28, 1903. During 1900 I was running a farm on the Mississippi River and became so impregnated with malarial fever that for a year afterwards I was a physical wreck. I took a number of medicines recommended as blood purifiers, chill cures and malaria cures, but nothing did me any good until I began to use S. S. S., which I did about a year ago. The result was that after taking three bottles of the large size I was as well and strong as I ever was and have never had a chill since. I expect to take S. S. S. every year as a preventive, and would advise everybody else to follow my example.

ADVICE TO FIRST VOTERS. Tomorrow, J. LINCOLN STEFFENS, will, in these columns, address a message to the young Americans qualified to cast their first presidential vote next month.

Then there is swift and speedy punishment, often awful to contemplate, but perhaps no worse than the deed which provoked it.

There are many northern men in southern states today, and as a rule, they are honored, useful citizens. They have done much for the promotion of progress and development among us, and we want more of them.

The Russian army at Mukden seems to be doing nothing, and the Japs appear to be glad of it. Senator Fairbanks made thirteen speeches in Ohio, and still the republicans expect to carry that state.

THE FORT WORTH TELEGRAM. They should have been answered straight from the shoulder. After all, it is perhaps too late to try to inject enthusiasm into the campaign at Texas. The election is as good as over right now, so far as this State is concerned, and no amount of discussion will add interest to it or change the result.

Perhaps the Times-Herald does not believe in the proposition of answering a fool according to his folly. The Republican effort in this city to cast odium upon the Democratic State administration was about as puerile as was ever witnessed. That it was an interesting event to the Republican spellbinders is attested by the fact that it was over their hides were hanging on the back fence. They were completely whipped out and left town, sadder and wiser men.

To remove the marks of stitches in a madeover garment, moisten the marks thoroughly and let dry; smooth out marks with a hot iron, steam over boiling water and press with hot iron.

Letters to The Telegram

AUSTIN, Texas, Oct. 26.—To the Editor of The Telegram: I have read with interest the editorial in The Telegram of the 22d inst. in reply to an inquiry as to how, if at all, the consolidation of two or more railroads into one added anything to the indebtedness that constitutes a burden on the traffic of the state.

There is a generally prevalent idea in the public mind that in the first suit to enjoin the railroad commission of Texas, the supreme court of the United States has decided that traffic rates between points at such a figure as to give the holders of railroad bonds the legal or a reasonable rate of interest on their investment.

A society girl (living in Arkansas) who is not only up to date, but is beating the schedule, described a kiss to her timid but tickled beau thusly: "It seems like a moonlight trip, sailing on a banana down a stream of lemons, and a big cream festival."

A London doctor has found that a new disease which he calls crawl-crawl, or some such name, is spread by kissing only. But the public is hard to scare on propositions of that kind.

On any night there is a theatrical show in town, almost any number of little boys can be seen prowling about the streets. This certainly is a danger to the grown people no good and it does the boys a positive harm.

The army of Texas convicts now doing time in the State penal institutions is constantly being recruited from boys who have grown to manhood with the liberty of the streets in our cities and towns.

"God works in a mysterious way his wonders to perform." A woman at Opous, La., lived for one hundred years, only in the end to meet a death which was least expected.

The railway commission in Texas are fixed by the railroad commission, and not by the roads, and the consolidation of roads has no effect whatever in the commission's determination of the rate, and is not, as I understand, considered in that connection.

Under the act of 1899 consolidating the Sherman, Shreveport and Southern Railroad with the Missouri, Kansas and Texas of Texas, and in the process of consolidation, the outstanding indebtedness of the Sherman, Shreveport and Southern road, bonded at \$20,000 per mile, was called in and nearly one-half of it extinguished.

Those who expected sensational disclosures in the debate between Democrats and Republicans at Fort Worth Monday night were doubtless disappointed. According to newspaper reports of the affair, it was not even interesting.

It is suggested that the Russian attack on the English fishermen is owing to the fact that they are in such terror of the Japanese that they see a Japanese warship on the swell of every advancing billow.

The country has all along believed that there would be no change in the administration of American affairs at Washington, and this has been the reason why there has been no panic in the markets, or preparations for a change of policy that would have brought disaster in its train.

Those who expected sensational disclosures in the debate between Democrats and Republicans at Fort Worth Monday night were doubtless disappointed. According to newspaper reports of the affair, it was not even interesting.

THE YELLOW HOLLY. BY FERGUS HUME, AUTHOR OF "THE MYSTERY OF A HANSOM CAB," ETC. Copyright, 1903, by G. W. Dillingham Co.

George Brendon attends social gathering of shabby London gentility at Mrs. Jersey's boarding house, with his friend Leonard Train, a boarder in the house. His object is to learn from Mrs. Jersey her supposed knowledge of his birth. Mrs. Jersey is mysteriously murdered during the night.

George looked sharply at the detective. "What magic did you use to make him talk? Mr. Ireland knows how to hold his tongue." "Well, when he found that I was looking after the case of Mrs. Jersey—and I made no secret of that—he was good enough to tell me all he knew. He thought, as I did, that the murder in San Remo was connected with the crime of Amelia square. There is nothing more to say. Mr. Ireland declined to tell me who he thought was guilty, but he hinted that he had seen the lady in the blue domino unmasked."

"Did he recognize her?" "I think he did, but he assured me that he could not be sure and that he had not seen the lady again." "Then he did know the face?" Bawdsey's face assumed an impenetrable expression. "I can only refer you to Mr. Ireland," he said. "And as to Lola—"

"Oh, she'll turn up again," said Brendon irritably. "Don't worry me about Lola. I wish you would marry her and take her back to your native land." "What land am I native of, Mr. Brendon?" asked Bawdsey calmly. "America, I understand. You hinted as much when we met."

"Bawdsey shook his head. 'I am as English as you are,' he declared. 'Well,' said Brendon, with a shrug. 'I thought as much. Your accent falls at times. You are not a good actor, Bawdsey.' 'Never you mind, sir. I can hold my tongue when it suits me, and on this occasion it does suit me. But remember, Mr. Brendon, that whatever happens you have a friend in me.'

"Are you referring to my father's murder?" "And to Mrs. Jersey. I have my suspicions, and—well, there's nothing more to be said. When I am certain I shall let you know." "One moment, Bawdsey," said Brendon as the man had his hand on the door. "Do you suspect Miss Bull?" "Why should I suspect her?" asked the detective in surprise.

"Because she was not on good terms with Mrs. Jersey, and you have taken up your abode in the house?" "To watch her, you would say. Well, maybe," rejoined the man composedly. "I know what I know, and when I am more certain of what I know, sir—"

He nodded. "Good day," he said and went abruptly. It struck George that Bawdsey was a most mysterious person and knew far more about the San Remo murder than Derrington could have told him. Still it was possible that Derrington had unbosomed himself to Bawdsey, and it was necessary to do so if he wanted the murder of Mrs. Jersey cleared up.

Derrington admires Brendon, and concludes to make him his heir, but to test him out he will continue to fight him. Dorothy becomes worried at the coupling of Brendon's name with Lola, the Spanish dancer. Derrington goes to see her. Advises her to say less. The two get in a heated discussion concerning the guilt of Brendon, and who murdered Mrs. Jersey. Dorothy, Mrs. Ward and Vane go to see Lola dance. Derrington joins the party in the box. A discovery as to who sent the yellow holly.

"As if any woman would accept such an excuse," said Brendon contemptuously. "Then she questioned you about the walk?" "Yes. She mentioned something about what you had told her, and I was rather free with my tongue. I am not usually," said Bawdsey penitently, "but there's something about Lola that makes me behave like a child. I'm wax in her hands. So she saw Miss Ward?"

"Yes. And she knows that I am angry. Of course Miss Ward sent to tell me at once, and I called on Lola to give her a talking to, but she was gone when I arrived. I am quite content not to see Lola again so long as she leaves Miss Ward alone." "I will try to keep her away," said the detective, "but I have very little influence with her."

"Tell her I am angry and will be still more angry if she does not keep away from Curzon street. Well, we have discussed this matter. I now want to hear what you meant by your reference to my father. Do you know who killed him?" Bawdsey shook his head. "I can't say for certain, but I can tell you who might know."

"Who is that?" "Mr. Roger Ireland." George looked astonished. "But that is ridiculous," he said. "Mr. Ireland told me that he did not know." "Oh, I don't say that he knows for certain. But he is better acquainted with the matter than you think." "How did you come to know Mr. Ireland?" "He called to see Miss Bull, and I dropped across him."

"How did you get talking of the case?" "Well, you see," said Bawdsey easily, "we naturally talked of Mrs. Jersey, and one thing led to another until discovered that Ireland had been in San Remo when your father was murdered. I wished to find out who killed him, so I questioned Mr. Ireland." "Why do you wish to know who killed my father?" asked George.

"Because I think that the murder of Mrs. Jersey is connected with that crime. See here"—Bawdsey cleared his throat—"Mrs. Jersey was in San Remo at the time of the death—" "How do you know that?" "Don't I tell you I questioned Mr. Ireland?" George looked sharply at the detective. "What magic did you use to make him talk? Mr. Ireland knows how to hold his tongue."

"Well, when he found that I was looking after the case of Mrs. Jersey—and I made no secret of that—he was good enough to tell me all he knew. He thought, as I did, that the murder in San Remo was connected with the crime of Amelia square. There is nothing more to say. Mr. Ireland declined to tell me who he thought was guilty, but he hinted that he had seen the lady in the blue domino unmasked."

"Did he recognize her?" "I think he did, but he assured me that he could not be sure and that he had not seen the lady again." "Then he did know the face?" Bawdsey's face assumed an impenetrable expression. "I can only refer you to Mr. Ireland," he said. "And as to Lola—"

"Oh, she'll turn up again," said Brendon irritably. "Don't worry me about Lola. I wish you would marry her and take her back to your native land." "What land am I native of, Mr. Brendon?" asked Bawdsey calmly. "America, I understand. You hinted as much when we met."

"We have much to talk about, as I wish to speak of Lola Velez." "Dorothy, surely you do not think—" "No, no! But I want to ask you a few questions. I believe she is mad. George. Get in and we will discuss the park."

"Meanwhile Mrs. Ward was seated in a chair facing Lord Derrington. The old gentleman looked savage, but Mrs. Ward was quite at her ease. They had been having a war of words, and Mrs. Ward so far had come off best. The conversation had been in reference to the sentence whispered in the little woman's ear when he had made her promise to hold her tongue about George."

"Of course I do think it is the meanest thing a man can do," said Mrs. Ward bitterly. "What if I did cheat at cards? Every woman does that, and I was losing no end of money."

"I don't think your friends would take that view," said Derrington gravely. "I came to hear of the matter quite by chance, and it is plain that you won over a hundred pounds by cheating."

"It's that horrid Mrs. Wayflete who told you—" "No. If Mrs. Wayflete knows she has held her tongue, I learned it from a source of which you are ignorant. But the fact remains you cheated, and if your friends knew it you would be ostracized by all of them."

"As if they did not do these things themselves," retorted Mrs. Ward. "But since you have been so nasty I intend to be nasty too."

"I shouldn't advise you to be nasty to me, Mrs. Ward. I have a large reserve fund of strength." Mrs. Ward laughed. "You needn't repeat my adjectives," she said in her most frivolous manner. "If you want to know the way in which I intend to protect myself—"

"What do you mean by that?" "I mean this," cried the little woman, growing angry all at once. "I am not going to be threatened about that unfortunate episode connected with the cards. It was that horrid Mrs. Wayflete who told you, so don't deny it. I am not going to be threatened with holding my own. Besides, I want Dorothy to marry your grandson."

"Which one?" asked Derrington coolly. "You have only Walter Vane." "Excuse me, George Brendon, whether there is a marriage or not, is equally my grandson. I admire him very much, and it is my mind to acknowledge him as my heir."

"I thought as much after your sticking up for him the other day," said Mrs. Ward furiously. "Now, look here, Lord Derrington, if Dorothy marries that Brendon creature I won't be able to do a thing with her. You know quite well I won't. But Walter shall be Dorothy's husband. I have made up my mind."

"Because he's a fool and putty in your hands." "I shouldn't be vulgar if I were you," said Mrs. Ward in a dignified manner. "But so long as George Brendon leaves Dorothy alone I shall say nothing."

"That's really very good of you, Mrs. Ward." "Your being nasty won't make me change my mind. But you quite understand the situation, Lord Derrington. Walter is to marry my daughter, and George is to be kept away."

"I don't see how he is to be kept away. I assure you Brendon is a strong man, and his will is quite equal to mine." "Nonsense! You have the strongest will in London."

"And you come here to try to break it." "Life is a game," said Mrs. Ward, leaning back, with a pretty air of philosophy. "And at present I hold the trump card."

"What is it?" asked Derrington, wondering by what means she hoped to make him consent to her demands. "I'll tell you presently," said Mrs. Ward in a most masterful tone, which amused Derrington. "But you understand that if George Brendon doesn't keep away I shall give information to the police and have him arrested in connection with that murder."

"Oh, no; you won't," said Derrington good humoredly. "Oh, yes; I shall. As to your accusation about my having cheated, you shall say nothing about that." "Indeed I shall do so if you trouble Brendon."

"I think of Dorothy." "I do think of Dorothy, and I'm very sorry she has such a mother." "You dare to insult me," began Mrs. Ward when Derrington, who was losing patience cut her short. "I've had enough of this," he said sharply. "You shall hold your tongue about Brendon or I'll tell what I know."

"Then I'll do the same." Derrington bowed politely. "By all means," he said. "My reputation is already so bad that a word or two from you can scarcely make it worse." "Oh, it's more than that," said Mrs. Ward quietly. And she spoke in so positive a manner that Derrington began to recollect his worst sins. "Do you remember the night you came home here at 1 o'clock and found me in this very room?"

Incendiary Fire on a Pier in New York Destroys Valuable Store and Does Much Damage to Steamships

POLICEMAN IS KILLED

Rushes Through the Flames to Give Alarm and Is Caught by Falling Timbers as He Returns—Flames Spread With Great Rapidity

NEW YORK, Oct. 28.—Fire, believed to have been of incendiary origin, swept over the piers, warehouses and shipping at the Bush Terminal Company's piers, South Brooklyn early today. The loss is estimated at more than \$1,000,000.

One life, that of a policeman, is known to have been lost and other dead may be found later. A fireman was badly injured. Four ocean-going steamers were badly damaged, having been ablaze from bow to stern and hundreds of thousands of dollars' worth of cotton, hemp and the general cargo that the Chinese ships bring in were partially destroyed.

Crowds From Theaters Naturally Turn to New Method of Travel and Many of Them Ride for Pleasure—Question of Ventilation Comes Up

NEW YORK, Oct. 28.—None of the surface cars showed during the night an appreciable diminution in traffic as a result of the competition with the subway, which opened for public service at 7 o'clock in the evening.

When the first special train, operated by the mayor, left the main northern terminus it was noticeable that during the few moments that it took for the regular motorman to go from the head car on the trip up town to the other end of the car the temperature in the car rose considerably and several of the guests asked one another whether it was not probable that the trains would be quite uncomfortable in hot weather or if at any time trains should be stalled between stations.

CHICAGO TO HAVE ONE

CHICAGO, Oct. 28.—A comprehensive subway system for Chicago will be started before April, 1906, according to Alderman Milton J. Foreman, chairman of the transportation committee of the city council. The system as outlined by Mr. Foreman in an address at the real estate board banquet, will extend as far south as Twelfth street, as far north as Chicago avenue, and as far west as Halsted street. The subway will accommodate through traffic. Surface cars will continue to carry local traffic.

THE DEFICIT GROWS AND RELIEF IS NOT SOON

Legislature Will Not Be Elected for Two Weeks and Can Take No Action Until Next January

AUSTIN, Texas, Oct. 27.—As stated in this column Saturday last the deficit in the general revenue fund has well rounded the half million mark and is traveling on to an amount that can not be very accurately named until something is done to check it. The members of the Twenty-ninth legislature will not be elected until November 8, and that body will not convene until the second Tuesday in January, which will be the 11th day of 1905, as the legislative department of the state government is the only power that can grapple with this delinquency, it will perhaps reach mostly, if not quite a million in round figures before any steps will be taken to check it, for the reason that nearly three months must elapse before the Twenty-ninth legislature will have a practical, as well as legal existence. Meantime the fixed and ordinary expenses of the state government will go on, so that that body will not only be confronted with the complex proposition of providing for the maintenance of the state government for the two years to come, but they will have to devise some means and formulate some plan that will enable it to reach back twelve months and arrange for the payment of money already spent or used. The state has no source of income except from taxation and when the income is insufficient to meet expenses and appropriations there is but one thing to do, and that is to raise the tax rate and thus increase the income. This would all be very nice, and the Twenty-ninth legislature could raise the rate and "figure" out of the present trouble, but when it is considered that an assessment is one thing and a collection quite another, we are not as near the end of the present financial trouble as might be generally believed. The next legislature may, and doubtless will, raise the tax levy, but nearly one year must elapse before collections...

WOMEN AND TARIFF The nature of a tariff is illustrated amusingly in a pamphlet, circulated in the female suffrage states of Colorado, Wyoming, Utah, and Idaho, making correct an issue by declaring that they have become better and cheaper under a protective tariff. The argument is not an easy one to grasp. American corsets are cheaper, it is alleged, and much better adapted to American waists, and yet a tariff is needed to keep women from buying from Belgium, France and Germany. A law, apparently, is needed to force women to purchase what they desire instead of what they don't. The whole tariff question is about as lucid as this.—Collier's for October 22.

"TO RESTORE THE RULE OF THE PEOPLE AND EQUALITY OF ALL MEN BEFORE THE LAW"

THOS. E. WATSON SAYS THAT THE FIRST VOTER, IF HE INDORSES HIGH PRINCIPLES, MUST LINE UP WITH THE POPULISTS

The Producers in Time of Peace and the Country's Defenders in Time of War, They Are the Life of the Nation

The first voter shall either believe with us that manhood counts for more than dollars; that character weighs more than money; that the worker is the monarch of the world, or he shall believe the reverse and vote against us.

(For whom should the young American, voting for the first time, cast his ballot for president? With what party should he ally himself? These questions have been answered by six men of national repute. Secretary Shaw answers for the republicans; National Chairman Taggart for the democrats; President Candidates Debs, Swallow and Watson for the socialists, prohibitionists and populists; while J. Lincoln Steffens makes reply as a young man who has made national fame as a worker in the cause of good government and true citizenship.—Ed. Telegram.)

By THOS. E. WATSON, Populist Candidate for President.

A distinct advantage to the party I represent will accrue from having the young men of this nation, the first voters, understand the issues for which the people's party stands. The people's party never has been in power nationally, never had control of the government, never had opportunity to do that which it professes a purpose to do, and our cry to the masses of our country is, "You have tried the republicans; you have tried the democrats; both parties verbally relieve your burdens before the election; neither of them does anything for you after the election—Trust us awhile! Give the people's party a chance." We say this especially to the young man who is starting his career as an American citizen. We want him to study the question and let his decision be born from his inner consciousness, with a thought of its bearing upon him and his ambition for success and patriotism. The people I stand for have been the object of a cruel and relentless system of persecution in the form of

ridicule, a weapon chosen by the lordly magnates of class legislation. Rather than take honest issue they have sneered and vilified. The editor with his pen, the artist with his brush, and the careless and unthinking millions of the money power early caught up the slogan of ridicule and our principles have been distorted beyond recognition, and our leaders caricatured until they seem monstrosities. I believe that if the principles of the people's party were as well understood as they are popularly misunderstood we would today have a populist president, a populist congress and populist organizations in every state which would win their share of victories.

Our party is chiefly composed of those who toil in the hundred different fields of industry and who have never lifted their voices to ask this government for anything save the honest administration of just laws. Individually they may be obscure, but in the mass they compose the life and strength of this nation, for they are the workers and producers in times of peace and the defenders of our country in time of war. I am proud to proclaim their creed.

We declare that public roads should be owned by the great American people. So long as private corporations use for private gain those franchises which are of a public nature and were granted to them for public purposes, there is sure to be the tyranny of the corporation. It is simply a question whether the government will run the railroads or the railroads will run the government. We are in favor of an income tax. Upon the ground occupied by Thos. Jefferson, we say that the larger the

THOS. E. WATSON. Candidate of the Populist Party for President.

income the larger should be the rate of taxation on that income, to the end that vast accumulations should be discouraged and that the wealth of the country should always be in a process of distribution. No fairer tax can be imposed. We supplement our stand for a graduated income tax with a demand that there be no tariff tax upon the necessities of life, which the poor must have in order to live. Regarding the money question, we have always stood upon the quantitative theory, have opposed national banks and have said that the creation of money was a government function, never to be surrendered. Instead of a competition and conflict between labor and capital, there should be co-operation and concord. Capital is not to be hated for itself; labor produced it; labor is always producing it. The party which I have the honor to represent in this campaign is the only one which stands for Jeffersonian principles. It is the only one which wages war upon the principles

of the republican party. It is the only one which plainly, distinctly and positively tells the people wherein it differs in essential principles from the party of Roosevelt. No defeats can discourage us; no ridicule or abuse or misrepresentation can daunt us. From the passions and prejudice of today we appeal to the sober second thought of tomorrow. Looking neither to the right nor the left, we go marching on, proud to do battle for the sacred principles of popular self-government. We propose to restore the liberties of the people, the rule of the people, and the equality of all men before the law. The first voter shall either believe with us that manhood counts for more than dollars; that character weighs more than money; that the worker is the monarch of the world, or he shall believe the reverse and vote against us.

REPORTS OF THE WICHITA MINES ARE GOOD

James Hutton Says That While the Government Estimates Do Not Reflect Well, Property Is Paying

Flattering reports are made of the Wichita mountain mining district by James Hutton, who has just made an inspection of the country around Roosevelt, Okla., to determine the extent of the gold mineral belt, and he finds that the country is rapidly forging to the front as a mining region, which is a matter of much interest in this city, as Fort Worth people are interested there. He states that the Great Western Mining Company is now going down on the "Mountain Rose," while the "Homestake" claim, owned by the Entering Wedge Company, is being developed as rapidly as it can be, and the "Golconda and Hallett" mines are showing well under the developments being made on them by the Mountain Park Company. Mr. Hutton states that the Roosevelt Company is arranging to erect reduction works on the grounds at an early day, while the Wildman Company is already procuring the machinery for a cyanide reduction plant. This company owns the "Twin Rose" and "Bonanza" claims, which are being developed. He states that the Lightning Gulch group of fourteen claims are showing up better every day as the development work continues. The smelter, he says, at Sheridan is about ready to begin running out bullion, and plans are perfected for the construction of a smelter at Camp Wheeling. Free gold is being found in the "Hallett Lode," at a depth of 200 feet in paying quantities, while the "Queen Mine," now down 210 feet, is showing up in good shape. Mr. Hutton states that the Wichita mountain miners have experienced some pretty hard times and are still meeting with adverse government reports, but the greatness of the mines is forcing itself upon the world, and is bound to convince the world, with brains and imagination to be just, that gold exists in these mountains in paying quantities. "The man who will investigate the Wichita mountains by examining the fissure veins and scrutinizing the metamorphic and igneous formations, and then condemn the district is either a fool or a knave," says Mr. Hutton, who further adds that the practical gold-hunter is in the mountains from Colorado, California, Arizona, Montana, Mexico, Idaho, Alaska and New Mexico, and in fact, from every mining district known to the civilized world. Mr. Hutton states that the fissure veins of the Wichita mountains are traceable for miles and frequently the dry float rocks picked up in the grass carry good values. Discussing the formation of that section, Mr. Hutton states: "All of the wise experts agree that this is one of the oldest mountain ranges, and on this proposition we all agree. Therefore, the falling rains of untold ages have caused the disintegration and tumbling down of the once lofty range, until we now have only the skeleton of the once gigantic

mountains. Then is it not a practical proposition that if the skeleton only remains the miner can more intelligently pass on the anatomy? Certainly that accounts for the fissure veins carrying such values near the surface now. The surface one million years ago may have been a mile higher than it is now. The Creator has been for ages uncovering this gold deposit so that the brainy-armed sons of toil might be able to step in and be benefited along with the rest of God's creatures." Mr. Hutton states that values are being unearthed in the Wichitas which in any other country would set the population wild, but the repeated efforts of those who seek to control the field from the outside are keeping back the true condition of the gold situation in the mountains. He says that time, and a short time at that, will show that the Wichitas are among the best gold mining districts of this country. This will be demonstrated fully when the smelters and reduction works are set in motion, which will be very soon.

AN AMENDMENT TO CONSTITUTION IS TO COME UP

Drainage Matter Will Be Voted on at the General Election to Be Held in This State Next Month

AUSTIN, Texas, Oct. 28.—Among the constitutional amendments to be voted on by the people at the election in November, there is one including the subject of "drainage," which has provoked little discussion or attracted very little attention. This is the proposed amendment to section 52, article 3, and in addition to drainage provides for the issuance of bonds for the construction and maintenance of pools, lakes, reservoirs, canals, drains, and waterways for the purposes of irrigation or navigation. As the drainage statute now exists it provides for a tax against the land to be drained, has never met with much favor by the people and for this reason has never been applied. The amendment is published in the governor's proclamation, provides for a general tax on all the land in the county, and a bond issue for this specific purpose.

While a majority of all the votes cast in the state will be necessary to adopt this amendment the majority of the counties in the state would never invoke this part of the amendment because natural drainage obviates any such necessity; still it is a matter of vital importance to the counties bordering on the coast and was included at the urgent request of representatives in the last legislature from these counties. Along the gulf coast there are thousands of acres of land partially covered with water which by the application of an intelligent system could be reclaimed entirely and made to yield good crops of rice and sugar, but which will never be under the present law for the reason it would be the result of private or individual effort, whereas under the proposed amendment it would become a work of internal improvement in which the entire county in which the tract is situated would become interested. It is claimed that the people of the coast counties have taken the matter up and have organized "drainage clubs," and are pushing the canvass for the adoption of the amendment out into the interior, where it is meeting with much favor among the people.

MEDICAL MEN IN FORT WORTH TO BE MODEST

Local Society Says Name of Doctors Must Not Be Used in Newspapers, and if Done Record Will Be Kept

Dr. John Doe no longer returns from St. Louis for New York in his plain Mr. John Doe, or, according to the rules of the metropolitan press, John Doe now returns. Dr. John Doe also ceases to do numberless other things useful and otherwise, which he was formerly wont to do, according to the columns of the Fort Worth dailies. This astonishing inactivity is not due to paralysis of the said Dr. Doe, nor to his entering upon a life of calm serenity without interest to the public or his friends, but to the fact that as a member of a profession totally abhorrent of blowing its own horn, or permitting blowing by others, not so particular as to the noise emitted, he is obeying an edict that has gone forth from the Fort Worth Medical Society, under which a committee of the body is appointed to symphonize by means of the daily press and having discerned traces of "Dr." on its fair sheets to proceed at once with the diagnosis of the case, having first carefully adopted all measures calculated to prevent contamination during the study and treatment of the case. No more will the telephone sound in a way to induce the editor that murders and suicides galore are in the air, until rushing to the instrument he learns that Dr. So and So has returned after taking a post graduate course, etc.; nor will the same thinking sound lead him to learn that Dr. Doe has not gone to St. Louis, as he erroneously announced, but is visiting within the municipal boundaries of East St. Louis, where he has been called in consultation in a most important case. Newspapers must also be set straight on matters of public health and hygiene, and according to the Fort Worth Society, and at the same meeting held last Monday night, a committee to set the journals in the straight and narrow path was discussed, but not appointed. Failure to appoint of a committee to tackle such a job. Urging that consumption was not hereditary and that the people should be so informed in some means as by a citation of the fact that but in four cases have tubercular germs been discovered in infants just born, the question may have arisen as to whether there was not a still more remote stage than the "germ" labelled and pictured that all who run may read. This would indeed prove deterring, especially as the above course would put the committee on record. At all events the committee was not appointed, the press will continue to ruin the public health, and Dr. Blank will continue to gather the shekels of the people.

Dallas Counting a Little Fast in the Matter of a Refund of Sixty Thousand Expended in Securing Right-of-Way

SO SAY ROCK ISLANDERS Road Is Under No Obligation to Pay the Amount, But if Amount Is Returned It Destroys Any Hope of Terminal Facilities There

Dallas is counting her chickens before they are hatched, according to Rock Island officials in this city, and the announcement of the committee in Dallas yesterday that that road would refund the \$60,000 extra expended in securing the right of way into that city, is premature if not worse.

Regarding the Dallas terminals, it is stated no definite action has yet been taken by the road. Beyond this no information is vouchsafed, but railroad men in this city believe that if the \$60,000 is returned to the Dallas subscribers, the terminal hopes will go glimmering.

## OF INTEREST TO THE STOCKMEN

### CHICAGO'S BIG SHOW

The railroads are alive to the figure that successful live stock agriculture cuts in their revenues and are going to afford every stockman and farmer in the country a cheap means of attending the International Exposition to be held in Chicago November 26 to December 3 this year. Keep in touch with railway agents and see what will be offered.

### OLEO HIT AGAIN

Another blow against oleomargarine manufacturers was delivered at Washington by Justice Brewer of the United States supreme court in his decision that palm oil constitutes artificial coloring matter and that the product that the government has purchased there eight thousand mules, destined for the Indian army. The animals are to be delivered in Calcutta next February.

### DEMAND FOR STEERS

Jerry Yates, now of Red Rock, Okla., says that he for Yates Brothers has just sold to Colonel Ike T. Poyor 500 head of the J. T. steers at \$33 per head. He says this is a fair price considering the market, but nothing extra, considering the quality of the steers. Yates Brothers have bought 600 head of the Dick Sellman steers at \$25 per head. He adds "G. W. and Joe Carson bought the W. H. Gibbons steers, 420 head, at \$27. This cleans up all the cattle in the Otter reservation, 21,000 in all, except 2,100 head of extra choice young steers that will be wintered by Yates Brothers, as they have about 40,000 bushels of corn. These cattle will all be shipped at once to Oklahoma City, to be put on full feed, as they will feed several thousand head at that and other oil mills."

### SOUTH TEXAS STEERS

A thousand 3-year-old steers have been purchased and loaded at Hallettsville for shipment to Wichita Falls, where they will be gotten ready for market. They were bought in that section from different parties at \$18 per head. Some owners are holding their steers for \$17.

### TRADING IN LIVE STOCK

SAN ANGELO, Texas, Oct. 27.—Savage & Conover of Brady have secured for sale small horses for use as polo ponies. They purchased from Lee Mayes one for \$150, one from John Haley for \$150 and one from John Hegwood for \$80. These ponies will be taken to Brady for training and will later be shipped east for disposal at a profit of 50 to 100 per cent. Claude Anson has sold to Simpson & Farmer 700 steers, three and four, for \$15,800, for delivery here November 9.

### CONDITIONS OUT WEST

Sug Robertson, the prominent banker and cattleman of Colorado City, has been spending a few days in the city attending to some business matters. As he has just returned from a business trip at rheumatism, he did not stir out much during the bad weather, but nestled close to a steam radiator in an effort to ward off another attack of his old enemy. Mr. Robertson says the range and cattle conditions are very favorable, but in the western range country, and cattle are in fine shape for the cold winter months, and the general expectation is that they will go through without loss of any consequence. The present situation is that the shortage prevailing in all classes of Texas cattle is not fully appreciated, and expresses the opinion that there is not any good reason why cattle should not already be bringing good prices. He says in his judgment there is not as many as 5,000 head of four-year-old steers within a radius of 200 miles of Colorado City, and they are just about as short all over the range country. This shortage, he says, also extends to two and yearlings in the range country, and on the whole much surprised at the small number of cows that will be offered for sale. Mr. Robertson says that during all his long experience as a cattleman he has annually had from two to five thousand of cows to sell in the spring, but next spring he will not be able to muster a single train load. The yearling supply was brought to its present state of shortage by the general disposition to sell calves last year, which has been repeated this year all over the range country. He believes that 75 per cent of the calves in the western range country have been shipped to market this season. In fact, he says just about all of them have gone out that could be gotten to the shipping pens. The calf crop this year has been short in the range country, and on the Robertson ranch, which is located in Crosby county, it is fully 25 per cent below the normal. Speaking of the outlook for better prices, Mr. Robertson says he expects considerable improvement in November, as the bulk of the territory still to have been marketed by that time, and shipments from the northwest range country will have ceased for the season. Next year he thinks there will be very large strikes made in the direction of general prosperity for the cattle industry, and by the following year real prosperity will materialize.

### "IN OLD KENTUCKY"

The famous American melodrama, "In Old Kentucky," with its wealth of incident and pleasing episodes, its clever little pickaninies, its breezy flavor of Kentucky blue grass and thoroughbreds, will again be a welcome visitor to this city shortly. It comes this year better and bigger than ever before, to Greenwall's opera house Monday, matinee and night, October 31. Grand street parade Sunday at 5 p. m., and sacred hand concert in front of the opera house at 7 p. m. Sunday.

### BLACK PATTI TROUBADOURS

The Black Patti Troubadours is one of the most popular and successful attractions in America. The present season opened at Asbury Park, July 29, to a \$4,000 house, and the subsequent performances indicate that it will be the most prosperous in the history of the company. The tour includes engagements at every important city in the United States, Cuba, Mexico and South America.

### "A HIDDEN CRIME"

An old farmer, when hearing for the first time, the advice, "Murder will out," indignantly replied, "No such thing. I

cattle and check any attempt at substitution. The railroads turned down this proposition, and on the first of September cut off the through privilege.

At a meeting in Waco of the freight agents interested, a plan was adopted whereby commission companies can certify that cattle being shipped at are the same as those shipped in, affixing the following form of affidavit:

of Co., being by me duly sworn, on oath says that the described in the hereto attached shipping order are, without addition or substitution, the same which arrived here on the billing indicated by said shipping order.

### MEXICAN PILGRIMS TO ROME AND HOLY LAND

Arrangements Are Now Making and the Four Parties Will Start During the Next Month From Mexico City

The itinerary for the Mexican National pilgrimage to Rome, Lourdes and the Holy Land has now been drawn up and the final arrangements for the departure are being made by the railroads and those who will have charge of the party, which will consist of several hundred pilgrims.

The travelers will start in four groups on Nov. 10 from the City of Mexico and will embark from New York Nov. 19 and are due to reach Italy Dec. 1. Some of them will pass through Rome and others will go directly to the Holy Land.

The stopping points en route will be San Antonio, St. Louis, New York, Naples, Rome, Assisi, Loretto, Brindisi, Alexandria, Cairo, Port Said, Jaffa, Jerusalem, the Dead Sea, Jericho, the Pyramids of Egypt, the river Jordan, Mount Olivet, the Garden of Gethsemane and the valley of Josephat. The pilgrimage will also visit Paris and other places in Europe.

Parties will be formed for side trips through Spain, France, Germany, Switzerland and England. The tickets are good for six months in Europe and one year in the United States.

Christmas will be spent in Rome, and the travelers will be in the Eternal City for the jubilee celebration in honor of the immaculate conception.

Arrangements are being made by several parties in Texas to go along with the Mexico pilgrims and will join them at San Antonio.

### NATIONAL GUARD INSPECTION

WACO, Texas, Oct. 25.—Major H. P. Jordan is in receipt of a letter from Adjutant General John A. Hulen to the effect that the regular inspection of the companies of the National Guard in Texas will take place between November 1 and 30. The inspecting Major Jordan to inspect a number of companies. He has written that he will inspect the ones suggested, which are: Gatesville, Hillsboro, Martin, Waco and possibly Temple, there being a new company, at the latter place. The inspection in question is made regularly by officers of the National Guard, while the spring inspection of the United States army officers is made by officers of the regular army. The November inspection covers the state, and each section will have an officer detailed to take an inventory of the situation throughout as to men, equipment, condition of armories, etc.

### WEDDINGS IN WACO

WACO, Texas, Oct. 25.—Weddings of note in the social work have occurred in Waco for several weeks past, and others are to come. Two have just been celebrated, Chapin M. Seley and Miss Edith R. Thompson having married; also Drayton H. Meade of Virginia and Miss Champ Carter Eubank, Dr. Haymond of Chattanooga and Miss Constance Walker, daughter of Judge J. C. Walker and wife, will wed next Wednesday. A larger number of marriage licenses have been issued from the office of the county clerk during September and October than for any corresponding period during the past ten years.

### CHARGED WITH STEALING

WACO, Texas, Oct. 25.—Presumably by carrying goods off under his clothing, a young clerk at Sargent Bros. has been arrested, charged with pilfering and carrying away a thing for some time past. The police department investigated the

### RESTORE THE PRIVILEGE

Through the action of the Fort Worth Live Stock Exchange the through billing privilege which was cut off from this market the first of September, has been restored.

Complaint was made by the Texas roads that substitution had been made at these yards for cattle unloaded with through privilege, which were sold on this market and other cattle loaded and shipped on through billings. To prevent the abuse of the privilege, the railroads demanded of the stock yards company that it should certify that the cattle offered for shipment out had been unloaded here. This the stock yards company declined to do, as it could not undertake to keep up with the cattle after they were unloaded, but the railroads were told that the books of the stock yards were open to them, and they could station a man here, who could keep up with through

Miss Rose Peterson, Secretary Parkdale Tennis Club, Chicago, from experience advises all young girls who have pains and sickness peculiar to their sex, to use Lydia E. Pinkham's Vegetable Compound.

How many beautiful young girls develop into worn, listless and hopeless women, simply because sufficient attention has not been paid to their physical development. No woman is exempt from physical weakness and periodic pain, and young girls just budding into womanhood should be carefully guided physically as well as morally.

If you know of any young lady who is sick, and needs motherly advice, ask her to write to Mrs. Pinkham at Lynn, Mass., who will give her advice free, from a source of knowledge which is unequalled in the country. Do not hesitate about stating details which one may not like to talk about, and which are essential for a full understanding of the case.

Miss Hannah E. Mershon, Collingswood, N. J., says:

"I thought I would write and tell you that, by following your kind advice, I feel like a new person. I was always thin and delicate, and so weak that I could hardly do anything. Menstruation was irregular. I tried a bottle of your Vegetable Compound and began to feel better right away. I continued its use, and am now well and strong, and menstruate regularly. I cannot say enough for what your medicine did for me."

How Mrs. Pinkham Helped Fannie Kumpfe.

"DEAR MRS. PINKHAM:—I feel it is my duty to write and tell you of the benefit I have derived from your advice and the use of Lydia E. Pinkham's Vegetable Compound. The pains in my back and womb have all left me, and my menstrual trouble is corrected. I am very thankful for the good advice you gave me, and I shall recommend your medicine to all who suffer from female weakness."—MISS FANNIE KUMPF, 1923 Chester St., Little Rock, Ark. (Dec. 16, 1900.)

Lydia E. Pinkham's Vegetable Compound will cure any woman in the land who suffers from womb troubles, inflammation of the ovaries, kidney troubles, nervous excitability, nervous prostration, and all forms of woman's special ills.

## IN A SPECIAL TRAIN COMPANY COMES FOR MATINEE

### "The Burgomaster" Makes a Trip Across Texas to Reach Here in Time for Afternoon Performance Tomorrow

Speeding across the western part of the state in the longest special train ever called into use in an emergency by a theatrical company in the west, players and scenery en route to Fort Worth to play a matinee tomorrow, the special train being necessary to make the jump from El Paso.

"The Burgomaster," that delightful musical production which has never failed to please theater goers, partly because a

ried trip across Texas plains, and having aboard the train every comfort of life, they will be ready to give the show with a snap and a voice which will be truly entertaining.

**"CUMBERLAND '61"**  
A highly creditable performance of the old war play, "Cumberland '61," was given last night by the Huntley Savoy Theater Company. Louise Carter as Alice Ainsley, the mountaineer's daughter, made that usually weak part one of great fidelity and feeling. The scene where she accomplishes the escape of her lover under sentence of death by means of the old faithful mammy, by whom so many of them had been raised and shared the honors of the evening.

Marie Van Tassel as Mammy Hannah scored a real victory in pleasing her southern audience with a portrayal of the old faithful mammy, by whom so many of them had been raised and shared the honors of the evening.

As Gordon Grayne, William Jossy had little chance to display his abilities; the men's chorus going to Harry Castle as Bener Ainslee, the father of Alice. Alfred Rowland as Leslie Murdock also pleased the audience. All the minor parts were well taken.

**"THE BURGOMASTER"**  
Pixley and Luders' greatest musical comedy success, "The Burgomaster," will be the strong attraction at Greenwall's opera house Saturday, October 29, matinee and night.

These authors are also responsible for

Sheldon, Dorothy Rae, Mae Franklin and the Sisters Lockhart.

The sale of seats for this important musical offering is now on.

**"A HIDDEN CRIME"**  
The famous American melodrama, "In Old Kentucky," with its wealth of incident and pleasing episodes, its clever little pickaninies, its breezy flavor of Kentucky blue grass and thoroughbreds, will again be a welcome visitor to this city shortly. It comes this year better and bigger than ever before, to Greenwall's opera house Monday, matinee and night, October 31. Grand street parade Sunday at 5 p. m., and sacred hand concert in front of the opera house at 7 p. m. Sunday.

**"THE JOLLY EIGHT," WITH THE BURGOMASTER SATURDAY MATINEE AND NIGHT.**

THE "JOLLY EIGHT," WITH THE BURGOMASTER SATURDAY MATINEE AND NIGHT.

feature of it is the pretty song, "The Tale of the Kangaroo," and partly because it is such a tuneful production, and again because of its scenic effects, wants to play a matinee in Fort Worth Saturday. To depend upon the regular train service from the west to this city would make it impossible to reach her for a matinee, and the manager decided that a special train expense was better, rather than to miss the matinee production. Therefore he has ordered it and Treasurer Mitchell W. Greenwall this morning received a telegram advising that the company is coming, the train being composed of a coach and two sleepers, a diner and a baggage car. The company will arrive here tomorrow. The members of the combination will have been refreshed by the hur-

the "Prince of Pilsen," "King Dodo," "Woodland," and other successes. Never have author and composer collaborated to better advantage than in "The Burgomaster." The music is the most tuneful of any of the light operas that have been brought out in this country for the past ten years. The pleasant, easy philosophy of the old Burgomaster always appeals. The company this season is a notable one. It is headed by that untouchable comedian, Oscar L. Figman, whose work in the character of "The Burgomaster" has made him the most talked about of the younger comedians of the day. Others in the large cast are Charles Sharp, Oscar B. Ragland, Fred Ballou, George McKissock, A. W. Hutchins, Olga Von Hazfeldt, Louise Brackett, Harriet

killed a peddler fourteen years ago and no one ever found it out."

It is a well known fact that no matter how clever the criminal, or how scientific his crime, ultimately the murderer is apprehended and brought to justice. This is the central theme of the big melodramatic production, "A Hidden Crime," which opens a one-night engagement at Greenwall's opera house Wednesday, matinee and night, November 2. Matinee prices, 25c to any part of the house, and night prices, 25, 35 and 50 cents

Spirits of camphor will sometimes remove, from a polished table, the white spots made by hot dishes.

**COMPLIMENTARY TO DALLAS.**

Walden's Stationery and Printing, New York, June issue, contains an illustrated write-up occupying a couple of pages, of the Dorsey Printing Co. plant in Dallas. A paragraph from the article reads: "In Dallas, Texas, one of the most bustling printing plants in the Southwest, is located the immense manufacturing stationery plant of the Dorsey Printing Co., a firm that has helped make Dallas the trade center that it is. Starting in 1884 the firm has, by the excellence of its product, attained an enviable reputation, and its equipment stands practically unequalled in that section of the country. Their trade has grown until it extends through Texas, Louisiana, Mississippi, Arkansas, Colorado, Indian Territory, Oklahoma, New Mexico and Arizona."

**CRIMINAL COURT  
 BILL READY FOR  
 PASSAGE**

Committee of Tarrant County  
 Bar Has Drawn Up a Meas-  
 ure Creating a New Court in  
 This County

Members of the Fort Worth Bar Asso-  
 ciation are again reviving interest in the  
 movement inaugurated last year to have  
 established in this county a criminal  
 court which attorneys and judges declare  
 is imperative in view of the very heavy  
 and continuous increase of litigation, both  
 criminal and civil.

It will be recalled that a bill was re-  
 commended drafted by the Fort Worth  
 Bar Association last year, to be passed  
 by the state legislature, creating this  
 court. The measure was prepared, but on  
 account of the lateness of the time the  
 bill was not presented to the legislature.  
 However, it will be introduced at the  
 coming session by Senator Hanger and  
 Representative Williams and those who  
 claim to be posted on the proposition say  
 that it will certainly pass.

Speaking today about the measure  
 Judge W. R. Parker expressed himself  
 favorable to the creation of the court and  
 said that it had the indorsement of the  
 Fort Worth Bar Association, almost to a  
 man. "The court is absolutely necessary  
 on account of the increase in this county  
 of criminal and felony cases," said Judge  
 Parker, who added: "It is beyond the  
 ability of the district courts during the  
 time at their disposal for the trial of  
 these cases to dispose of all of them, and  
 the only objection that could possibly be  
 urged is the increased expenditure as to  
 the salary of the judge, which is small in  
 comparison to the expense incurred by  
 the county in caring for hundreds of  
 prisoners whose cases are being con-  
 tinued from term to term because of in-  
 sufficient time to try them. The salary  
 for such a judge is \$2,500 annually, which  
 is a pittance in comparison to the ex-  
 pense to the county of the litigation where  
 so many cases are passed from one docket  
 to another. There is now on the crim-  
 inal dockets of the two district courts  
 enough capital cases to consume all the  
 time devoted to the next two terms of  
 court. The bill ought to be passed as an  
 economic measure, as it will result in a  
 great saving to the state."

Assistant County Attorney J. Y. Cum-  
 mings favors the new court and expresses  
 himself in this manner: "The way the  
 criminal docket is now arranged—only  
 three weeks are devoted to it out of the  
 two months' term in the county court.  
 About the largest number of trials that  
 can be had in a day is seven, while the  
 average is three, and there is always on  
 the docket from 500 to 1,200 cases, so  
 with the present courts it is impossible  
 to relieve the congested dockets and many  
 of the cases are of necessity bound to go  
 over for another term. Take it in the  
 trial of cases is entirely too limited to  
 make much headway and as a result each  
 term always leaves a large number of  
 capital cases as well as civil cases un-  
 disposed of. Every lawyer recognizes that  
 a speedy trial is best for the state and  
 the defendant, as far as justice is con-  
 cerned, and for these reasons I favor the  
 establishment of a new criminal court in  
 this county. If we had a criminal court  
 these cases could be taken up when filed  
 here at any time, but under the present  
 circumstances this will have to be stored  
 in town until a building is completed there  
 to store the machinery.

**NEW BUILDINGS  
 IN THIS CITY  
 GOING UP**

One Is to Be at the Corner of  
 First and Throckmorton and  
 Another at Thirteenth and  
 Houston

The erection of a new two-story busi-  
 ness building is to commence early next  
 week at the corner of First and Throck-  
 morton streets. The building will cost  
 in the neighborhood of \$11,000, and will  
 have a seventy-five-foot front. Messrs.  
 Lusher and Rockett are the owners.

Ground will be broken on next Wednes-  
 day for the erection of a business build-  
 ing at the corner of Thirteenth and Hous-  
 ton streets for Goldstein. The build-  
 ing is to be 100 feet deep and have a front  
 of fifty feet. In the building is to be  
 placed an ice box, which will have a  
 capacity of two carloads of fruit at one  
 time. The building will be two stories  
 high and have all modern improvements  
 for the handling of a wholesale and re-  
 tail fruit business.

Rain the past several days has delayed  
 to a considerable extent the continuation  
 of the work on one of the main buildings  
 of the new iron plant south of Fort  
 Worth. This morning a large force of  
 men was put to work again and the work  
 is now being rushed as speedily as pos-  
 sible. The foundation of the main build-  
 ing, which is to be of concrete, has been  
 completed. Teams can be seen about the  
 grounds grading and getting the place in  
 proper shape for the other buildings  
 which are to be started at once. Con-  
 siderable machinery has already been  
 shipped from the east and is expected  
 here at any time, but under the present  
 circumstances this will have to be stored  
 in town until a building is completed there  
 to store the machinery.

**VINOL FOR THE AGED**

R. A. Anderson, Our Well-Known Drug-  
 gist, Prepared to Show That  
 Nothing Equals Vinol for  
 Old People.

Said Mr. Anderson: "It is a pleasure  
 to receive letters like the following in  
 regard to our Vinol, as they fully sub-  
 stantiate our claims as to what it will  
 do."

Mr. Joseph Bankson of Decatur, Ill.,  
 writes: "I am in my 75th year, and for  
 some time I have been losing strength  
 and suffered with a chronic cold and

lung trouble, until I was seriously ill  
 and could not go out of doors. My son  
 sent me some Vinol. I commenced to  
 use it and it has simply worked won-  
 der for me. I feel better and stronger  
 than I have for years, and my cough  
 is all gone."

"You see," said Mr. Anderson, "Vinol  
 contains in a concentrated form all the  
 strengthening, healing properties of cod  
 liver oil, but without a drop of oil or  
 greasy to upset the stomach, and no  
 sickening drugs, and for this reason  
 it has remarkable power to cure chronic  
 coughs and colds, build up and invig-  
 orate the weak and aged, make rich,  
 red blood, cure stomach troubles and  
 restore the convalescent to perfect  
 health."

"I just wish every aged, run down or  
 debilitated person in Fort Worth would  
 try Vinol on our guarantee to return  
 the money paid for it every time it  
 fails."—R. A. Anderson, Druggist.
