

about dimmitt and castro county by b. m. n.

The thing about Castro County right now is the prospects for the finest crops in the county's history. Apparently the farmers hereabouts are catching on how to cultivate.

Barring an unforeseen disaster, and provided the spray boys can keep the insects under control, there will be an abundance of milo, corn, cotton, vegetables and other assorted crops harvested from here on in. Despite the price situation on agricultural products, there undoubtedly will be a considerable quantity of money floating around the environs, from the sale of same, during and throughout the coming months. It's approximately 15 miles from here to the county line, in any direction, and that little old area is claimed by Dimmitt, Hart, and Nazareth as their trade territory and due to deep-rooted selfish motives they expect all of the money generated from agriculture, industry or whatever, in that area to be spent in the hamlets mentioned.

Castro County merchants have two main ambitions, they are to be of service and to show a slight profit, and, by George, these are worthy intentions. When they lay claim to the retail business in the county they are not being unreasonable, seeing as how they never let out a gripe when they are called on to finance the many civic projects that are required to make the county a fit place in which to live. An effort here to list the many civic efforts made by the business people of the county would require considerable thinking, and due to the hot weather I hate to try to think.

To mention a few of the projects that Castro County merchants sponsor and finance to a large extent, is of course, the annual Round-Up Weep activities, the Miss Grain Sorghum of the Na- (See ABOUT DIMMITT, Page 12)

### Marine gets night on town for good turn

A Dimmitt Marine helped foil a robbery in a Las Vegas restaurant last weekend, and as a result got the royal treatment at the Mint Club from the grateful owner.

GRAHAM SHEFFY of Dimmitt, who is stationed at the US Marine Base at Yuma, Ariz., was on a weekend pass in Las Vegas with two Marine buddies when the incident occurred.

They were in the Mint Club's restaurant when a young man asked the cashier to make change, then grabbed more than \$600 and fled.

Sheffy and the two other Marines chased the robber down the street, caught him and held him until police arrived.

AS A result, the owner of the Mint Club took the three Marines under his wing for the rest of the weekend, giving them the club's \$40 supper and stage show.

Sheffy reported to his parents, Mr. and Mrs. Ted Sheffy, that he and his two friends met Carol Burnett and Nancy Sinatra, along with other show business personalities at the Mint Club.

The poor robber — who perhaps had lost his shirt in the city's casinos before he lost his freedom in the attempted heist — is reported to have told Las Vegas police, "If I had noticed those Marines, I would not have tried robbing that place."

### Search underway for two burglars

Sheriff's officers are still investigating a double burglary in Hart Aug. 10 in which \$280 in cash was taken from the Green Frog Cafe and the G&M Shamrock Station.

"WE KNOW from the footprints that two men committed the burglaries," Deputy Sheriff Granville Martin said. "They used a lug wrench to break into the rear window of the cafe and Shamrock station."

The break-ins were the first in Hart in 2½ years, Martin said. Mrs. Gilbert Guzman, manager of the Green Frog Cafe, reported to officers that the burglars had taken \$268.84 in bills and coins, plus two checks that were in the cash register. The burglars apparently got only \$11 at the service station.

# School rooms bulging

**THEIR FIRST DAY**—Mrs. Frances Ortega, teacher aid in Mrs. Monte White's pre-first grade class in South Elementary School, helps calm Jesse Soto Ortiz's first-day jitters Wednesday morning by showing him how to use the toy "work bench," while

Noe Dominguez (left) and Rolando Bueno watch. Not knowing what to expect when they stepped into their first classroom, the boys found a gaily decorated room with pretty tables and chairs, lots of pictures and educational toys.

More than 1,800 students streamed into Dimmitt's four public school buildings Wednesday morning to start the 1970-71 school year.

SCHOOL officials won't have a firm enrollment figure until Monday, but they're fairly sure it will top last year's record enrollment of 1,833.

"We expect our enrollment to be up from last year," Supt. Charlie White said, "because of the new corn mill and the town's natural growth."

The faculty will be the same size as last year, but 17 new teacher aids have been added to the school staffs — 14 at South Elementary School and one at each of the other three buildings.

THE SCHOOLS have a total of 227 personnel — 123 professional teachers and administrators and 104 aids, secretaries, drivers, custodians, maintenance people and cafeteria workers.

New program this year include three new sections for kindergarten-age children and a vocational education program for the handicapped.

The "kindergarten" sections include students attending under the pre-school migrant program, the Title I program and Head Start. Pre-school children who don't fit into these categories go into a regular kindergarten program, White said.

"ON THE vocational education program for the handicapped, we're still waiting for final approval," White said. "We'll go ahead and start classes, but we won't have any equipment until the approval and funding come through."

In addition to these new programs, the bi-lingual program — in which South Elementary is one of the few pilot schools in the country — will be extended to the third grade. The third graders in this program started learning together in two languages as first graders, and are progressing through the ranks with the same teams of teachers. Most can now comprehend both Spanish and English.

"This had been a very popular program," White said. "Many parents want to get their children into it, but we're limited to two classes per grade level because we are a pilot school in this program."

ALSO, the Follow Through Program for former Head Start students has been extended from the first to the second grade level this year.

## Rodeo winners named

The 1970 Dimmitt Rodeo attracted riders and ropers from throughout the Panhandle-Plains area and eastern New Mexico, with Lubbock and Hereford cowboys taking a big share of the individual honors.

### Watch for kids in school zone

Dimmitt motorists should be especially alert for children crossing the streets during the first weeks of school, Police Chief W. W. Jones said this week.

"PLEASE observe the flasher lights and warning signs around the schools and keep an eye out for kids," he urged. "Some of the younger ones haven't had much experience yet at crossing the street."

Jones said that George Behrends will be on duty on West Bedford Street at the beginning and end of every school day to make sure motorists observe the 20-mph speed limit and that children get across the highway safely.

### SOS Tops Club, Behrends Agency have top floats

With a theme of "Keep America Beautiful — Stay Slim," the Dimmitt SOS Tops Club captured first place in the organizational floats division of the 1970 Round-up Parade last Thursday.

THE TOPS Club's float, adorned by six members of the ladies' weight-watching club, featured an American flag of crepe and napkins, and was skirted with crepe.

Behrends Insurance Agency won first place in the commercial floats division with a beautiful purple and white float heralding the forthcoming football season.

The float was skirted with blankets of white paper flowers and topped by a huge purple-flower football with white laces. Dimmitt High School's cheerleaders and several football players in Bobcat game uniforms rode the float.

Second place in the organizational division of the parade went to the Castro County 4-H Council float, Nazareth Gin & Grain captured second place in the commercial float division.

WINNING third place in the organizational floats was the Castro County Memorial Post, Veterans of Foreign Wars.

LAST Thursday's Roundup Parade was the shortest in years, with no floats entered in the communities or youth group divisions. No awards were given in the riding clubs division, either.

Winners in the "Best Dressed Cowgirl" division for riders were Becky Harris, first; Ann Welch, second; and Julie Hrabal, third.

IN THE "Best Dressed Cowboy" division, Ranky Lunsford was named the second-place winner and Rev. E. Lee Stanford was awarded third place. Parade officials did not have the name of the first-place male rider, only his entry number — 8.

Brett Gray won first place for best-decorated bicycle among the parade's "bike corps."

The parade was coordinated by the Dimmitt Lions Club, and Maurice Campbell served as announcer.

THE RODEO drew big crowds all three nights, and the bucking stock — provided by Cordell & Campbell of Childress — was more than most of the competitors could handle.

Here are the final rodeo results: Bareback bronc riding — John Sloan of Lubbock, first; Red Doyle of Tulia, second; Ronald Hill of Hereford, third; Dave Koonz of Lubbock, fourth.

### Schools receive migrant program go-ahead funds

Dimmitt and Hart schools have received funds for educating the children of migrant farm workers during the 1970-71 school year.

CONGRESSMAN Bob Price announced Monday that the funds had been authorized in nine school districts of the 18th Congressional District.

The schools had requested a grant totaling \$11,420,214 for the special program, but amount granted was only \$3,172,282.

Although the program is approved for the total amount requested, funding cannot be granted until Congress passes the Education Appropriations Bill for the fiscal year ending June 30, 1971, Congressman Price explained.

### Winners listed in pony show

Bill Pearson, Terry Hamilton, Neal Weatherford and Tara Moore were the age-group champions in last Thursday's Roundup Pony Show.

TWENTY youngsters gathered at the Dimmitt Rodeo Arena after the parade to display their horsemanship and their ponies' training.

Placings by age group were: Ages 6-7 — Tara Moore, first; Connie Dennis, second; Kenny Hargrove, third; Debbie Hrabal, fourth.

AGES 8-10 — Neal Weatherford, first; Debra Dennis, second; Rondell Backus, third; Julie Hrabal, fourth; and Sabra Hargrove, fifth.

AGES 11-12 — Terry Hamilton, first; Eddie Joe Pearson, second; Jan Weatherford, third; Billy Rcland, fourth; and Denette Davis, fifth.

AGES 14-16 — Bill Pearson, first; Denise Davis, second; and Chris Pearson, third.

### Season tickets going on sale

Reserved seat season tickets to Dimmitt High School's five home football games will go on sale Monday, Supt. Charlie White announced this week.

THOSE who bought season tickets last year will have priority in renewing their reserved seats through Sept. 4, White said. Then, during the week of Sept. 7, the remaining reserved seats for the season will be sold on a first-come, first-served basis.

Dimmitt's first home football game will be against Muleshoe Sept. 11.

The season ticket price is \$8.75.

130 Old Settlers attend annual reunion in city park

By MYRTLE SHEFFY

Old friends got together for a big dinner and visit in the city park Thursday. Allan and Peggy Webb, chairmen of the Old Settlers' reunion worked long and hard to make it a success.

NEW OFFICERS were elected for next year. They are Jack Cowser, president; Raymond Anen, vice-president; and Myrna Clwert, secretary.

Clint and Mae Cox of Purdy, Mo., were here for Castro County Roundup Week. They visited with friends Juanita and Brad Fuller and all, then they went on to Colorado for a visit. Cleo and Maxine Burch of Denton were here and also visited his aunt Mattie Burch Turner. They went on to Lubbock.

Several of the visitors went to Palo Duro Canyon to see the musical pageant "Texas."

Homer and Frankie Norwood of Santa Rosa were here. They also visited her brother James and Mildred Burnam.

Mrs. Jim Givens from Dallas was greeting friends. She stays with Mrs. Kay Roberts and has farm interests west of town. Mr. and Mrs. Jay Hastings and his sister Tinnie Harmon of Lubbock were visiting relatives and friends.

An interesting note was the three members of the graduating class of Dimmitt High School in 1922 were here. They are Joe Gollehon of Portales, Tinnie Harmon of Lubbock and Myrtle Behrens. Myrna Montgomery Cowser was just behind that class.

Joe and Mary Gollehon of Portales were visiting. Joe is the big brother of Noel.

The busiest people there were Bill Waldrip, Alvis Jolly and D. L. Thomason, all of the Easter Lions Club. They brought iced soft drinks and helped put up the tables and chairs with Bert Andrews and Steve Bull. I think Tom-Davis and Melvin Barton call themselves Easterites, but I call them Dimmittites.

130 people were here from Hart, Nazareth, Sunnyside and far away places. The biggest crowd

was at the rodeo.

ROY AND Suzie Ellis spent four days at Conchas Lake. They lived, cooked and slept on the houseboat belonging to Tom Davis. They caught enough fish to eat while there. Dr. Keitha and Dr. Jay Scott of Los Angeles came by to visit her mother, Aural Davis.

Sybil Arnold of Arlington has been visiting Dimmitt people for several days — the Bob Dulacys, who farm her land, Louise Kemp and Oleta Goldert and she stays with her niece Mrs. James Sims and husband Dr. Sims, who is a dentist. I went with Sybil to the Robertson's corn patch for that good food. Thanks Ray.

Billye Wesson has been hostess the past week to her children, Billye Norris Morgan, David and Carol of Houston and Jerry and Janice Andrews, Gobb, Gary, Kent and Brad of Houston. Billye is now working at Dimmitt Super Market.

Judy White will be in school at WTSU in Canyon this fall. She will go over next Sunday. She plans to study psychology and English. She is the pretty dark-haired girl who works at Super Mkt.

Jerry Killingsworth will be in South Plains Junior College at Levelland this fall. He is the son of Woodrow and Alvee.

I met Kenny Ringo. He tells me he will be playing football here.

KATE FREEMAN of Roscoe and her daughter Novaline Gilbert of Plainview visited Mrs. Mae Bright last week. Kate and Mae are sisters, and Mrs. Bright's friend Mrs. L. M. Roberts of Big Spring has been her guest and also a guest of her daughter Mrs. Cecil Shockley and Cecil. She plans to stay in Dimmitt for a few months.

Bo Jackson and son Bruce and daughter Brenda of Kansas City are here for a few days visit with his dad Francis Jackson and Mrs. Jackson and brother Kenneth and family.

Lola Griffin of Lubbock, Karla and Kristi Shelly of Canyon were weekend guests of Polly Bell. They were canning beans, peas and corn.

RECENT guests in the home of L. V. and Betty Durham and

daughter Vicki were Wayne Carriker and his mother Mrs. Warren Foust of San Antonio. You remember Wayne was here with KDHN and is now in the US Navy. He was stationed at San Diego but is en route to a base near Washington D.C. Betty works at Sears.

Walt and Virginia Hansen and children Barbara, Debbie and Kirk joined the Hansen family, including Walt's mother, Mrs. Anton Hansen at Lake Stanford last week. Barbara tells me they did much visiting, skiing, boating and eating.

GUESTS IN THE home of Mr. and Mrs. Cecil Dennis have been Mrs. E. Joe (Junior) Wallis and daughter Sherri from Seattle, Wash., Leisa Black of Odessa, and their son Mr. and Mrs. Don Dennis and David. They all went to see "Texas" in Palo Duro Canyon Monday night.

Mr. and Mrs. Floyd Stanford, their daughter Nelda and Richard Lillie and two girls of Austin spent 10 days in the Colorado and New Mexico Mountains, most of the time at Estes Park.

Ruby Cushmanberry of Quitaque has been visiting her sister Neva Hickey and Claude.

They took the band drum majors and twirlers Ann Lust, LeeAnn Merritt, Leisa Dannevik, Vicki Carpenter, Jeanne Petty, Sarita White and Beverly Hill. Flo Lust also went as did Mark Wohlgemuth and Max Newman. The boys going to Ruidoso that weekend were Rex Lust, Harold Bob Bennett and Mike Armstrong of Hart.

Mr. and Mrs. Jim Bagwell and daughters Christine Bell of Perry-

W. Scheid of Tulia went down to Possum Kingdom Lake to fish. "Maybe they got the big one!"

Goldman Dyer attended a business meeting of the John Deere dealers in Iowa Thursday and Friday. He flew up.

Darrell is the son of Mr. and Mrs. John Walker and Toni is the daughter of Mr. and Mrs. A. L. Teague of Abilene. She has lived with her aunt Mrs. Al Lytle and attended Dimmitt High School. Out of town guests at the wedding were Mrs. Walker's sister Mrs. W. J. Childers and her daughter Mrs. Gene Roberts of Farmington.

ton and her daughter Devonna of LaGrange, Wyo., and Grace Marie Holland and daughters Donna Kay and Marianne of Midland are home from a trip to Hazelhurst, Miss. They visited the Bagwells' son Robert and his wife Billie Faye. The girls made a tour of Natchez. The Robert Bagwells have a new daughter and a new house. Christine and daughter stayed here for a few days before going home.

Janet Wylie flew from here to Dallas and on to New Orleans where her aunt Mrs. Nadine Allen met her and they went to her home in Biloxi, Miss. Janet worked in the Allen's store while there. She came home Wednesday. Her parents, the Oscar Wylies, met her in Lubbock at the airport. School starts this week you know.

MR. AND MRS. Ike Braden went to Red River Valley for a few days vacation.

Howard and Mary Hershey went to Cimarron in the Valley for a fishing and rest period of 10 days. They took the camper. Mary says they caught many fish. One day David and Linda Springer came by and had fish dinner with the Hersheys. The Springers had been night-seeing in the mountain country.

Leola Haberer visited her brother Clyde Shuford in El Paso for a few days.

We, the Shellys, are sorry to have missed the Air Show Sunday, just can't do everything. "Didn't go dancing, either." What do we say? The spirit is willing, but the flesh is weak.

John and Carol Lantz were host Friday evening with a spaghetti and meatball supper. Bridge was the game played by the Kenneth Cleavelands, the Bob As-

keys, the Goldman Dyers, the Stanley Schaeffers, the Gene Kings, the Ike Moores and the Charlie Whites.

MYRTLE WILLIAMS is improving from a recent illness. Her son Vernon (we used to call him Cotton), and his daughter Cecelia of Vinita, Okla., have been here for a visit.

I have just heard that Carolyn Copeland fell and broke her leg and ankle while visiting her sister, Nancy Upton in Oklahoma. They are the daughters of the Lealand Lees. We are sorry about that accident.

Graham Shelly, a Marine at Yuma, Ariz., writes that he and two other young Marines had a weekend pass to Las Vegas. They were in the restaurant of the Mint Club when a young man asked the cashier to make change. He then grabbed the money, more than \$600. The Marines chased him down the street, caught him and called the police. The owner of the Mint game then the \$40 super and show. They sat with Carol Burnett and saw the Nancy Sinatra Show. They met several other show people. The thief said "If I had noticed the Marines, I would not have tried robbing that place."

At the same school Brice McRee and Craig Fuller received their BBA. Robbie Shelly her BS, Clayton Neal BS, Gene Gerber his masters and Lilly Patterson her BS.

Elmer Six of Hart also received his masters degree from WTSU. He teaches school at Hart.

Mr. and Mrs. Paul Harper went to Waco last week where

Mrs. Harper stayed with her mother who had surgery. Paul came home to help with the parade, rodeo and Roundup activities.

Mary and Herb Burnham and sons Mike, Rex and Jay of Albuquerque were here for a visit with her parents B. M. and Viola Nelson and brother Don and family.

different bases, the last one was near San Francisco. He leaves for Vietnam this week. His sister Leta Tubbs, Donnie and Kerry of Euless, near Dallas, came up for a visit with Glen and her parents. Gay Arvizu of Roswell has been visiting the Mundells also.

JOE MIKE MEYERS will be a student at Levelland this fall. He (Continued on Page 3)

THE MESSAGE OF CHRIST FOR MEN  
By RONNIE PARKER

Because Jesus came into the world to deliver men from sin, and because he possessed the authority to give the terms of salvation—our Lord instructed His apostles to go forth into all the world, proclaiming to men everywhere His message of salvation.

According to Matthew's account of the Commission (Matt. 28:19-20), the apostles were charged to go forth and "make disciples of all the nations." This was to be done by "baptizing them into the name of the Father and of the Son and of the Holy Spirit." According to Mark's account of the Lord's great commission the apostles were commanded to preach the gospel to every creature in all the world. Salvation was promised to persons who would believe and be baptized. Luke's account says (24:47) "repentance and remission of sins were to be preached in his name unto all the nations."

That is the message . . . the soul-saving message. The Lord was anxious that it be preached to every accountable person in the whole world and to every generation. Man's salvation will come upon his obedience to the instructions in the Great Commission. May God help us to see to it that our own lives are in harmony with it, and to teach it to others as best we can.

Salt air, the beating of heavy waves, and rains . . . these are just a few of the elements that a ship must face constantly. With all of these things, it is little wonder that the crew must be alert, looking for rust and other damage. New paint to protect the ship must be applied regularly.

An individual faces many things in this world, that would rust and corrupt his life, therefore it is good to begin each week with a renewing of spirit, that can be obtained only through worship in the Lord's house.

**EVERYONE IN THE CHURCH  
THE CHURCH IN EVERYONE**

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

'MISS DIMMITT,' SUSAN PARISH, PASSES IN REVIEW ... Chauffered by Brooke Alexander of Dimmitt Lions Club

More About

SHEFFY'S

(Continued from Page 2)

is the son of Mrs. Cliff Cook. Fred Langford, son of the Troy Langfords, is headed for NTSU at Denton and Suzan Benson will go to Denton at TWU where she will be a nursing major. Fred will study physics.

Gary Fennimore and Perry Graham will be going to WTSU in Canyon.

Marilyn McLeroy, Steve Buckley and David Noble will be attending Texas Tech.

I talked to these girls downtown — Karen Lytle, Keri Kirkpatrick and Jackie Schaeffer — and they will be staying at Chitwood Hall at Texas Tech in Lubbock. They said "You all come to see them."

These girls told me that Jerry Cartwright would be going to Stepen F. Austin at Nacogdoches, Barbara Hansen and Ruth Dyer would go to Texas Tech, Suzanne Merritt to WTSU, Skip Skinner to South Plains Junior College at Levelland and that Nancy Jackson and Kathy Mark-

ley would be attending WTSU.

Mr. and Mrs. J. W. Smith and son Mike are home from a trip to Southeast Texas. They stopped in Rotan and picked up her mother, Mrs. Warren. They visited a sister and family Mrs. Byford Wagner and son Jace in Hitchcock, went to Galveston, saw Marine Land, the Gulf, back to Houston, went to the Astrodome to see a big football game and saw the other sights there.

J. C. AND Loretta Henderson and boys of Stratford were weekend guests of his mother Maurine Henderson. They all attended the wedding of Nancy Smith in Hereford Saturday. On Sunday there was a family dinner at the cafe where a birthday cake and song was for six-year-old David.

Mr. and Mrs. J. M. Wright attended the wedding of Joe Bill Butler and Janet Lee Benedict at Oklahoma City recently.

BEWARE TEMPERATURES

Picnics and cookouts are delightful ways to eat summer meals. But summertime calls for extra attention to keep foods safe to eat. Poor food-handling practices in the home any time of the year can often cause illness in the family. Higher temperatures in summertime should be taken into account when storing, preparing, cooking and serving all foods.

## Nazareth news Little Leaguers treated to ballgame in Amarillo

By Mrs. Florence Albracht

About 30 Little League ball players and their sponsors Hubert Backus, Carl Dean Kleman, Cecil Hoelting and Fred Acker went to Amarillo Tuesday evening to enjoy a ball game of the Amarillo Giants at the ball park. The wives of the sponsors visited Mrs. Ronnie Hoelting and family during the game.

**Film, 'His Land' booked in Hart Saturday night**

Across a barren land, scarred by centuries of war and neglect, the spectres of ancient Israel appear, hover and fade away. Suddenly there is movement of a different sort, and slowly, steadily, a startling transformation begins to take place.

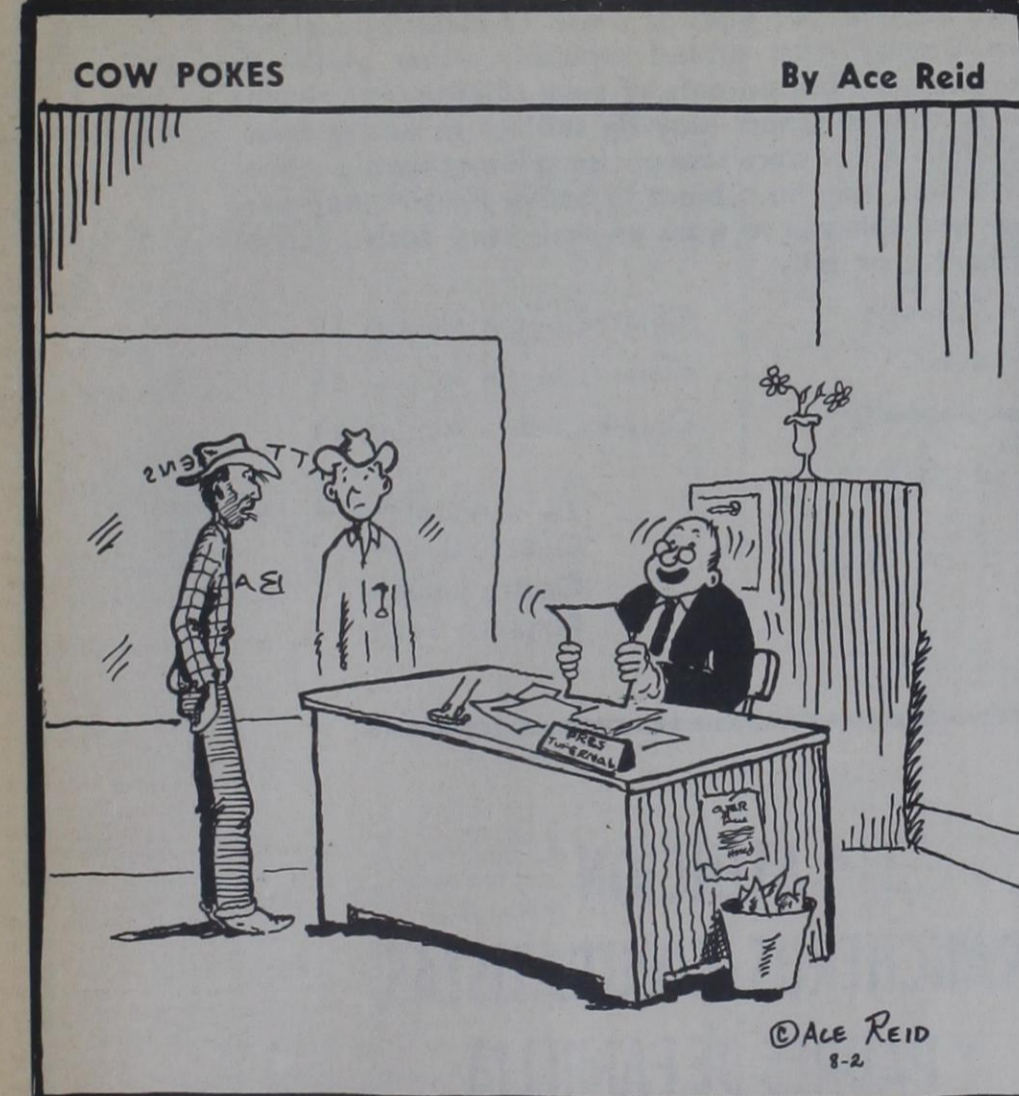

THIS BEGINS the movie, "His Land," the story of Israel from ancient to modern times. The one-hour color movie will be shown at 8 p.m. Saturday in the First Baptist Church of Hart. The showing is open to anyone interested, according to Rev. C. T. Cunningham, pastor.

"His Land" takes you on a journey through space, time and current events. You see graphically the fact that Israel today is a living testimony to the words of the prophets when they proclaimed that Israel would again take her place among the nations of the world.

IN THE company of Cliff Barrows and English singing star Cliff Richard — who sings a number of new Ralph Carmichael songs, several of which were actually written on location — you travel the streets and lonely paths of the nation of Israel, whose destiny is discussed daily in the councils of government all over the world.

The documentary type movie takes you along the same paths taken by Jesus and the prophets — Galilee, the wilderness, Jerusalem, the Mount of Olives — which are shown in their present state, with the people of modern Israel working, playing and building a nation around the historic sites.

Words of the Scripture come to life as Barrows and Richard reflect upon the events which in recent years have confirmed many of the ancient prophecies.

Enjoy this Guaranteed Dryness

-even if you perspire freely.

Why does Nina stress guaranteed dryness? Because millions of women have failed to find anything that keeps them really dry. Because they have found promises of "extra dryness" and such phrases to fall disappointingly short of real dryness.

Especially, women who perspire freely. So Nina Anti-Perspirant is guaranteed. Because it really works. It contains far more anti-wetness agent than it is possible—chemically possible—to put in an aerosol spray can. Any aerosol can!

And for women who perspire moderately, Nina Anti-Perspirant is so effective, many find they need use it only every third or fourth day, regardless of bathing, and still enjoy luxurious, confident dryness.

With all this, Nina Anti-Perspirant is entirely safe for normal skin and clothing. It is certified safe for fabrics by The American Institute of Laundering. And fully effective as a deodorant, too.

And for good measure, Nina Anti-Perspirant—liquid or cream—is guaranteed. If you are not entirely satisfied, return the unused portion to your retailer. He is authorized to refund full cash price.

### H&R Block plans Dimmitt office

Virgil Belcher, area manager for H&R Block in Amarillo, indicated that there are plans to open an office in Dimmitt for the 1971 tax season, through a "satellite" franchise program.

BELCHER explained that the satellite franchise program was developed to make available to every community a qualified tax preparation service. "Every citizen today needs competent help in the preparation of his tax return," Belcher said. "A person just cannot afford to be a once-a-year expert in this field." "The Block satellite franchise is designed to be compatible with existing service businesses such as insurance agencies, real estate brokers or bookkeeping services," Belcher said. "The franchisee is provided with necessary training and supplies, along with direct supervision of the company."

H&R BLOCK was founded in Kansas City in 1955 and is projecting to grow to over 5,000 offices for the 1971 filing season. This will include more than 2,000 franchised outlets of the type planned in Dimmitt. "The goal of H&R Block is to provide the taxpaying public with a convenient service when it is most needed," Belcher said. "To accomplish this goal in communities under 15,000 population, the company selects a responsible member of the community for the franchise program."

### Hull elected to TEC board

James T. Hull, manager of Deaf Smith County Electric Cooperative, was elected to the board of directors of Texas Electric Cooperatives, Inc., during the statewide association's annual meeting in Houston last week. HULL HAS been in rural electrification since 1957, when he became electrification advisor for Lone Wolf Electric Cooperative at Colorado City. He later became manager of this system, where he remained until he was named manager of the Hereford-based system last year. The Deaf Smith REC serves many rural homes and businesses in northern and western Castro County.

Hull is a native of Dawson (Navarro County), and a graduate of Sam Houston State University, Huntsville. He served in the US Air Force, including 12 months overseas, during the Korean War. Hull and his wife, Mary Sue have one son, Mike.

### Dr. Bechtol attends seminar

Dr. David T. Bechtol of Dimmitt attended a seminar on animal nutrition conducted at Bellevue, Ill., recently. DR. BECHTOL was one of 20 veterinary practitioners from across the nation who attended this meeting, outlining the application of nutritional fundamentals to improve animal productivity. The scientific strides made in animal nutrition were detailed by speakers at this seminar.

JOE H. JONES, special research associate with the UT Bureau of Business Research, reports that a recession in the Texas economy was clearly in evidence through the first half of 1970, with prospects for a significant economic recovery within the next six months appearing unlikely.

TOP COMMERCIAL FLOAT in the 1970 Roundup Parade last Thursday was this purple-and-white entry by Behrends Insurance Agency. Made of thousands of paper

napkins, the float heralded the forthcoming football season and was ridden by Dimmitt High School's cheerleaders and members of the local school's various football teams.

### Dairy men urged to consider 'net energy' when buying feed

Consider the relation of cost to digestible protein and net energy when buying dairy concentrate ingredients. THIS ADVICE comes from A. M. Meekma, Texas A&M University Extension dairy specialist, who says that since many dairy herds in Texas have averages of 15,000 to 17,000 pounds of milk per cow per year, close attention must be given to the feeding program. "Often dairymen will buy concentrate rations on the percent of crude protein without giving any consideration to the digestible portion of the ration," Meekma said. "The ingredients that make up a concentrate ration differ widely in percent digestibility and in net energy; therefore, two rations can have the same crude protein content but differ in digestible protein and net energy."

For example, using Morrison's Standards, 1,425 pounds of No. 2 shelled corn and 575 pounds of 41 percent cottonseed meal will make a ton of 18 percent crude protein feed, Meekma said. A ton of 18 percent crude protein feed can also be made with 1,500 pounds of shelled corn and 500 pounds of 44 percent soybean oil meal, he continued. "THE FIRST ration will have 14.1 percent digestible protein and 17.9 therms of estimated net energy per 100 pounds, compared with 15.5 percent digestible protein and 80.0 therms of estimated net energy for the second ration," Meekma said.

one pound of digestible protein can be furnished for approximately 3 1/2 cents less by the use of soybean oil meal than by the use of cottonseed meal when the two supplements are about the same price," Meekma said. "Assuming that a cow requires two pounds of digestible protein per day through concentrate, this could mean a saving of seven cents on the cow's ration per day, or for a 100-cow herd, a saving of \$7 per day. On a 305-day lactation basis for a 100-cow herd, this could mean a saving of \$2,135." IT IS obvious that when soybean oil meal and soybean oil equal in price, the more economical supplement to buy would be soybean oil meal, Meekma said.

### PUBLIC NOTICE Proposed CONSTITUTIONAL AMENDMENT NUMBER ONE ON THE BALLOT (HJR30) General Election Nov. 3, 1970

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Subsections (5), (6), (7), (8), (9), (11), (12), and (13), Section 1-a, Article V, Constitution of the State of Texas, be amended to read as follows: "(5) The Commission may hold its meetings, hearings and other proceedings at such times and places as it shall determine but shall meet at Austin at least once each year. It shall annually select one of its members as Chairman. A quorum shall consist of five (5) members. Proceedings shall be by majority vote of those present, except that recommendations for retirement, censure, or removal of any person holding an office named in Paragraph A of Subsection (6) of this Section, shall be by affirmative vote of at least five (5) members. (6) A. Any Justice or Judge of the Appellate Courts and District and Criminal District Courts, any County Judge, and any Judge of a County Court at Law, a Court of Domestic Relations, a Juvenile Court, a Probate Court, or a Corporation or Municipal Court, and any Justice of the Peace, and any Judge or presiding officer of any special court created by the Legislature as provided in Section 1, Article V, of this Constitution, may, subject to the other provisions hereof, be removed from office for willful or persistent conduct, which is clearly inconsistent with the proper performance of his said duties or casts public discredit upon the judiciary or administration of justice; or any person holding such office may be censured, in lieu of removal from office, under procedures provided for by the Legislature. B. Any person holding an office named in Paragraph A of this subsection who is eligible for retirement benefits under the laws of this state providing for judicial retirement may be involuntarily retired, and any person holding an office named in that paragraph who is not eligible for retirement benefits under such laws may be removed from office, for disability seriously interfering with the performance of his duties, which is, or is likely to become, permanent in nature. (7) The Commission shall keep itself informed as fully as may be of circumstances relating to the misconduct or disability of particular persons holding an office named in Paragraph A of Subsection (6) of this Section, receive complaints or reports, formal or informal, from any source in this behalf and make such preliminary investigations as it may determine. Its orders for the attendance or testimony of witnesses or for the production of documents at any hearing or investigation shall be enforceable by contempt proceedings in the District Court. (8) After such investigation as it deems necessary, the Commission may in its discretion issue a private reprimand, or if the Commission determines that the situation merits such action, it may order a hearing to be held before it concerning the removal, or retirement of a person holding an office named in Paragraph A of Subsection (6) of this Section, or it may in its discretion request the Supreme Court to appoint an active or retired District Judge or Justice of a Court of Civil Appeals as a Master to hear and take evidence in any such matter, and to report thereon to the Commission. If, after hearing, or after considering the record and report of a Master, the Commission finds good cause therefor, it shall issue an order of public censure or it shall recommend to the Supreme Court the removal, or retirement, as the case may be, of the person in question holding an office named in Paragraph A of Subsection (6) of this Section and shall thereupon file with the Clerk of the Supreme Court the entire record before the Commission. (9) The Supreme Court shall review the record of the proceedings on the law and facts and in its discretion may, for good cause shown, permit the introduction of additional evidence and shall order public censure, retirement or removal, as it finds just and proper, or wholly reject the recommendation. Upon an order for involuntary retirement for disability or an order for removal, the office in question shall become vacant. The rights of an incumbent so retired to retirement benefits shall be the same as if his retirement had been voluntary." (11) The Supreme Court shall by rule provide for the procedure before the Commission, Masters and the Supreme Court. Such rule shall afford to any person holding an office named in Paragraph A of Subsection (6) of this Section, against whom a proceeding is instituted to cause his retirement or removal, due process of law for the procedure before the Commission, Masters and the Supreme Court in the same manner that a person whose property rights are in jeopardy in an adjudicatory proceeding is entitled to due process of law, regardless of whether or not the interest of the person holding an office named in Paragraph A of Subsection (6) of this Section in remaining in active status is considered to be a right or a privilege. Due process shall include the right to notice, counsel, hearing, confrontation of his accusers, and all such other incidents of due process as are ordinarily available in proceedings whether or not infeasible is charged, upon proof of which a penalty may be imposed. (12) No person holding an office named in Paragraph A of Subsection (6) of this Section shall sit as a member of the Commission or Supreme Court in any proceeding involving his own retirement or removal. (13) This Section 1-a is alternative to and cumulative of the methods of removal of persons holding an office named in Paragraph A of Subsection (6) of this Section provided elsewhere in this Constitution." Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday in November, 1970, at which election the ballots shall be printed to provide for voting for or against the proposition: "The constitutional amendment relating to the removal, retirement, or censure of Justices, Judges, and Justices of Peace under prescribed circumstances."

**RESCUE RELAY**—Harley Wilke (fore) and Chuck Braafladt (aft), riding for the Castro County Jaycees, race past the finish line half a length ahead of the Dimmitt Young Farmers team in the "rescue relay" feature race at Thursday night's rodeo performance. In the race, riders had to pull their team's horse up to a barrel in the middle of the arena, where a teammate was stranded, and wait for the teammate

to jump on behind the saddle, then race back to the chutes. The procedure often led to both riders going overboard. The Jaycees topped the Young Farmers the first two nights, but Saturday night—after the Jaycees had knocked a Young Farmer off the first barrel—the Young Farmers made off with the Jaycees' bridle and won the race.

**Field day set at Knox City**

A public field day will be held Sept. 30 at the Soil Conservation Service plant materials center at Knox City. State Conservationist Clyde W. Graham announced this week.

NEW GRASSES, forbs, legumes and other plants under evaluation at the center will be discussed during the day, Graham said. The center, known officially as the James E. "Bud" Smith Plant Materials Center, serves both Texas and Oklahoma.

Some 675 strains of 164 different plants are being grown at Knox City to try to find superior strains that will solve specific soil and water conservation problems. The more promising ones are then grown and evaluated under field conditions on farms of soil and water conservation district cooperators under a wide variety of conditions.

Selections that prove superior to other strains available are then released by conservation districts to commercial seed growers. These producers then grow seed and sell it to the public.

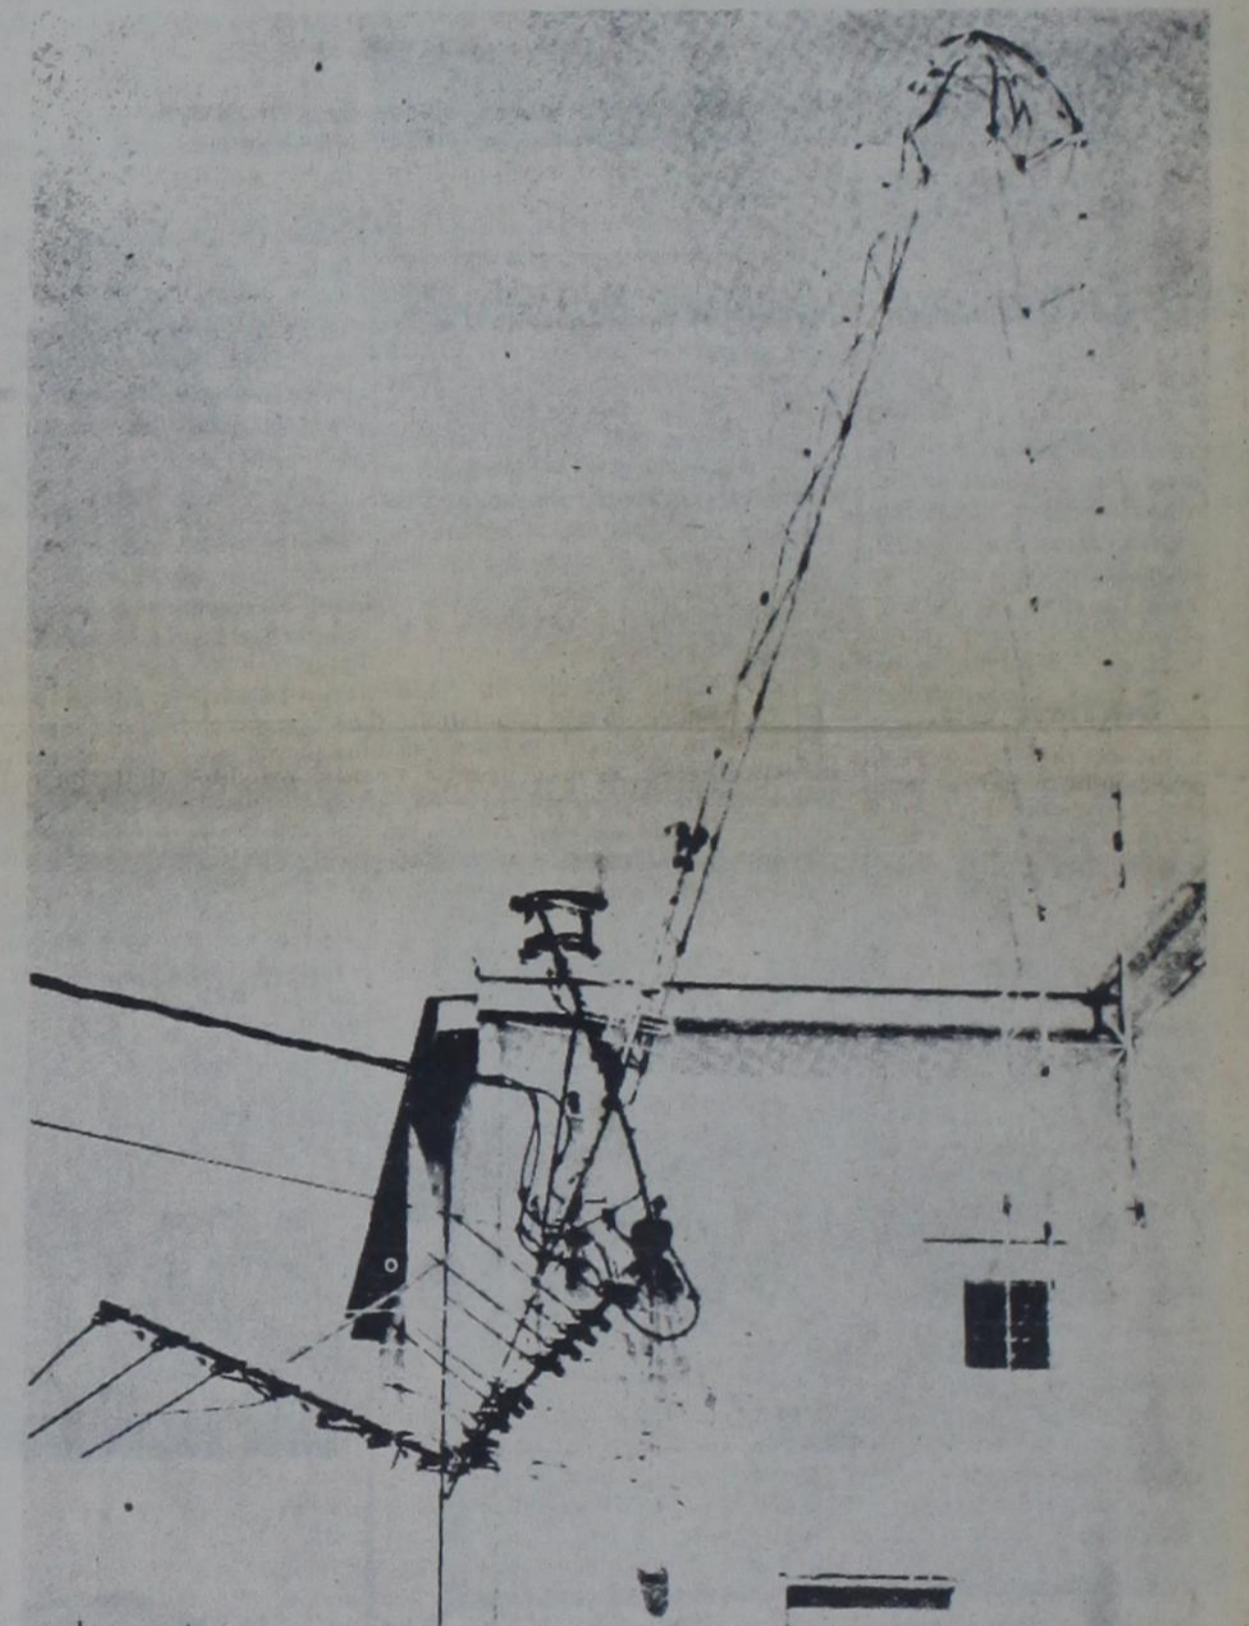

A NEW grass variety, Selection 75 Kleingrass, was certified and released last year as a result of work done at the center in cooperation with the Texas Agricultural Experiment Station. Other grass strains proven and put into use by SCS include El Reno, Uvalde and Vaughn side-oats grama; King Ranch bluestem; green sprangletop; and Grenville switchgrass.

Some of the groups that cooperate with SCS in its plant materials work in Texas include Agricultural Research Service, Texas Agricultural Experiment Station, Texas A&M University, Texas Tech University, Prairie View A&M, Abilene Christian College, US Air Force, US Corps of Engineers, Texas Parks and Wildlife Department, and soil and water conservation districts.

**THE BRIDE'S attendants** wore gowns of lilac satin with Nylon chiffon overlay and purple velvet bows with floor length streamers. Each carried a fan of purple streamers and white carnations.

# Clubs plan garage sale

**By IRENE KEATING**  
The Castro County Home Demonstration Council will have a garage sale Saturday, Aug. 22, on the courthouse square. They are raising money to send their delegates to the state THDA meeting at Galveston in September.

**EVERYONE** is busy canning and freezing now. If you all need any help please call. I am sorry that part of our pressure cooker gauge tester is lost so we don't have any way to test your gauge. We'll get a new one but it won't get here in time to do us

any good this year.  
**I'D LIKE TO** thank Marilyn Smith for helping the 4-H Council and Junior Leaders' Clubs get their float ready for the parade last week.

**OUR BIENNIAL** state staff conference was very nice. Our theme was "Shaping Our Environment in the Seventies." We heard talks on our physical, social, and economic environments. Our speaker at the annual banquet was Jack Linkletter. He gave an interesting talk — mostly his predictions about the livestock fu-

ture.  
One of our speakers in a special group session I attended told us that the personal bankruptcy rate is rapidly increasing. The primary cause is the over-indebtedness that comes with too much credit buying. Another economist told us that he foresees a leveling off in the desire for many material goods. He said we need more saving, hard work, self-reliance, and independence. We were also told that one of our greatest problems today is that too many people are afraid of social change. Change is creative even though it is disruptive.

**Three Hart ladies named Outstanding Young Women**

Three Hart ladies are being listed among the "Outstanding Young Women of America."

**THEIR names will appear in the 1970-71 biographical book** designed to recognize the abilities of outstanding young women between the ages of 21 and 35 throughout the country.

The three Hart ladies are Mrs. Glenda Kay Evans Verry, Mrs. Carole Hunt Cowser Farris, and Mrs. Sarah Alice Garrison Hart. Now in the sixth year, the Outstanding Young Women of America program was conceived by the leaders of the nation's major women's organizations. The program recognizes those young women who contribute to the betterment of their communities, professions and country.

**EACH YEAR more than 6,000 young women** are nominated as Outstanding Young Women of America by women's organizations, college alumni associations and churches.

From these 6,000 are selected 50 young women — one from each state — for their state's "Outstanding Young Woman of the Year" award. The three Hart nominees will be considered in

the Texas eliminations. Guidelines for selection include unselfish service to others, char-

itable activities, community service, and civic or professional recognition.

### Satellite School year ends; new classes to start Aug. 27

Dimmitt's Satellite Day Care School will end its 1969-70 school year today (Thursday), and will resume classes next Thursday for the 1970-71 year. Mrs. NORMA CONARD, teacher of the school, said re-enrollment days will be next Monday through Wednesday. Medical forms will be filled out during this time. Mrs. Conard will make home visits next week, during which the individual student's progress will be evaluated from both the parents' and teacher's point of view. She will explain to parents what was accomplished or tried during the past year, and what is being planned for the coming year. "Dimmitt's Satellite School is interested in your child," she

said. "If you feel you might need a helping hand, call 647-4270 or 647-4425. Our school has a home-like atmosphere which gives the retarded student a feeling of being a member of a happy group." THE SCHOOL, located in two apartments of the Migrant Housing Project, is one of 12 "satellite" schools in the Panhandle operated under the supervision of the Amarillo State Center for Human Development. "When we need special help or advice for the children, we can call the Amarillo office any time and get the services of some of the best-trained and most dedicated people in this specialized field," Mrs. Conard said.

### City completes two new wells

With the completion of two new wells in Southeast Dimmitt, the city is increasing its water-pumping capability by one-third. ONE OF the new wells is located at the old fairgrounds and the other is near Dimmitt Wheat Growers' south elevator. The first well is now in service and the other will be put into service within two weeks, giving the city six municipal water wells, City Manager E. B. Noble said. The two new wells cost \$15,000 each and the city spent \$20,000 on line materials, bringing the total expansion project cost to \$50,000. Noble said city crews did all the line work themselves, under the supervision of Public Works \$7,000 to \$8,000 in labor costs. CITY CREWS have laid 5,000 feet of 8 and 10-inch pipe between the new wells and the city's central reservoir. When the second new well goes into service, the city will have a pumping capability of 2,400 gallons of water per minute, and will be able to completely refill the city's 950,000-gallon reservoir capacity in 6 1/2 hours. Four wells now pump water to the old reservoir downtown and two to the newer reservoir in West Dimmitt.

### Final rites held for W. L. Braly, former resident

Word was received this week of the death Saturday of W. L. Braly of East Wrenatchee, Wash., former Castro County resident. FUNERAL services were held at 3 p.m. Wednesday in the Chapel of the Valley Mortuary in East Wrenatchee. Mr. Braly farmed in the Eastern community until 1940, when he moved to Oregon. He later moved to Hereford and was engaged in both farming and real estate there until the mid-1950s, when he moved to Rock Island, Wash. He is survived by a daughter, granddaughters, a brother and a sister.

### Bull rider hurt Saturday night

Jack Gray, 20-year-old bull rider from Amarillo, received multiple facial lacerations Saturday night when a bull turned on him. GRAY had completed a successful ride of the bull and had jumped off when the bull wheeled and attacked him. Gray was taken by ambulance to Plains Memorial Hospital, where stitches were required to close the cuts on his chin and cheek. He was released to the care of his Amarillo physician Sunday morning.

### Sunnyside Lions to host barbecue

THE LIONS will start serving at 6 p.m. Saturday in the Sunnyside Community Building. Tickets are \$2 for adults and \$1 for children under 12. Door prizes will be given during the evening to those attending. Gene Templeton, well-known barbecue chef from Earth, will put the meat in the barbecue pit at 5 a.m. Saturday. Proceeds of the barbecue will be used by the Lions in their community improvement projects.

### Gfeller says stubble control best anti-corn borer method

The farmers whose corn crops are suffering the most from the Southwest corn borer are those who didn't plow their corn stubble before mid-February, the entomologist for Dimmitt Wheat Growers, Inc., told the Dimmitt Rotary Club Friday. RONALD GFELLER, who has been conducting daily checks of corn borer infestation in local corn fields, told the Rotarians at their Friday noon meeting, "I've noticed that many farmers left stubble up into the spring, giving the corn borer moths a chance to come out and get a good start on the first generation. You can tell which fields these were because they're eaten up with first generation borers." The second generation of corn borer is the one that does the most damage to corn crops here, Gfeller said, because it brings a "population explosion" in late July, when the stalk is most susceptible to damage. The larva, he explained, "girdles" the stalk as it migrates from its hatching spot on the leaf to toward the base of the plant, where it holes up inside the young stalk to go into the pupa stage. This girdling and hatching up is what causes the weakened stalk to blow over or lodge at harvest time. "SO FAR, our present generation is in the small worm stage

and many farmers are beginning to feel that we won't have much of a problem," Gfeller said. "It's probably true that the larva at this time of year won't cause much lodging. But those larvae coming along now are going to go right to the ear shank, and we may have some ear droppage." To point up the size of the current generation's hatch, Gfeller said he recently took an egg count and found 90 corn borer moth eggs on just 10 plants, and noted that 47 of the eggs had hatched. Research being done now on the southwestern corn borer is the first since the late 1940s, Gfeller said, so it's a new game as far as modern control methods are concerned. "I THINK that stubble control can be the best way to control the corn borer," he said. "Plow up the stubble by Feb. 15 or so and get it out on top of the ground where it's susceptible to a freeze, and it should cut down on the corn borer problem effectively." Discussing the various chemicals being used to fight the corn borer invasion, Gfeller said, "My guess is that the granular insecticides which lodge in the whorl of the stalk are going to prove to be the most effective insecticides for controlling the corn borer."

### Most farm program payments completed here, Elder reports

Most of the farmers who participated in the 1970 wheat, feed grain, and cotton programs in Castro County have now received their program payments, according to Jim Elder, chairman of the County Agricultural Stabilization and Conservation (ASC) Committee. FARMERS can program payments by diverting portions of their cropland to conservation uses and complying with other program requirements, Elder explained. Diverting unneeded cropland helps maintain a balance between supply and demand, preserves the excess acres for future use when they will be needed, provides a more orderly supply of farm products to consumers, and helps to assure equitable prices to farmers. Throughout the nation, more than three million farmers earned the farm program payments, Elder said. Payments were disbursed during a six-week period beginning July 1. In past years, the payment period has extended over a three-month period from July through

September, Elder said. Compressing the payment period into half the normal time required close cooperation between farmers and ASCS personnel, Elder said, adding: "Speaking for the entire farmer-elected committee, I am proud of the way everyone has cooperated to get the payments out early as we had promised farmers that we would do." Because of budget restraints, partial payments could not be made this year during the spring sigrup period for the feed grain program, Elder explained. "When this decision was made, the Department of Agriculture told farmers that full payments would be made as early as possible. That commitment has now been largely fulfilled," Elder said.

### More About About Dimmitt

(Continued from Page One) tion pageant, the foreign exchange student, the Junior Fat Stock Show, the various baseball programs for the kids of the communities, and dozens of other projects that are calculated to make the people of the county happy and contented. All of these side benefits are a result of having prosperous merchants in the county. If they don't sell the merchandise they just won't make a profit and if they don't make a profit they just won't be in a position to finance the many projects necessary for a well-rounded community. Supporting local merchants is not required, not is it a responsibility, but it is sure an indication of good judgment and the proper thing to do. So do it, or there may be some laws passed. ★ The get-together of the Texas big-wigs of the Democratic party in Austin the other day or night, or both, was a howling success from the point of view of the big Republican press of the state. The claim was made that the youth of the state was taking over the party's responsibilities, and of course the youth of the state is the young lieutenant governor, Ben Barnes. From here it looked like Ben Barnes was just a smoke screen hiding the political ambitions of Lyndon Johnson, John Connally, Alan Shivers and many other sometime democrats. Anytime Alan Shivers shows up at a democratic party meeting you can be sure that the real democrats will take a back seat of preferably stay at home. How Lyndon Johnson, who has always been a democrat, can associate with that bunch is more than a lot of us can see.

### Ditching begins on sewer project

Deep ditching work, the first phase of the city's \$200,000 sewage service expansion program, started this week in northeast Dimmitt. NOVAK CONSTRUCTION Co. of Amarillo, which is the subcontractor for the \$30,000 ditching phase of the project, is cutting trenches 18 feet deep along Northeast Eighth Street, City Manager E. B. Noble reported. These new deep ditches will extend southward and will hold the new mains that will extend or expand sewage service to the Migrant Housing Complex and to the Parkway and Kirkum Heights additions, as well as other parts of East Dimmitt. Novak's big ditching machines will be cutting trenches as deep as 22 feet in places before they reach Parkway and Kirkum Heights, Noble said. MEANWHILE, Westex Construction Co. of Berger, the prime contractor, has started moving equipment in to begin construction on the new "race track" type of sewage treatment plant. When completed, the new plant will accommodate a city of 10,000. The contract price for construction of the plant and the "outfall line" is \$169,037. Target date for completion is late February or early March.

ONE OF the most successful and beneficial 4-H activities is junior leadership development. This program is for the older teen member and now some 150,000 teen volunteers serve in a 4-H leadership capacity.
