

ROOSEVELT WILL MAKE AN ADDRESS

Has Agreed to Speak in Fort Worth—Arrangements Will Be Made Today

CLUB ELECTS OFFICERS

J. N. Winters Made Head of Republican Club at Annual Meeting and Banquet

An enthusiastic meeting of the Central Roosevelt Republican Club was held at the court house Monday night...

There were present about fifty members of the club. The meeting was presided over by W. C. Forbess, president...

Before the election of officers J. N. Winters, a member of the executive committee, made a few remarks on the work before the club...

President Forbess outlined the work of the evening and called on Mr. Winters to read the report of the executive committee...

Reference was made to the resolution passed by the club at a previous meeting on the coming of President Roosevelt...

The report of Secretary Moore was then called for by President Forbess. The document covered the entire work done since the organization August 20, 1904...

It was an exciting day for Mrs. Chadwick and she took the keenest interest in the proceedings. The jury was accepted within two hours and the opposing counsel outlined their cases...

The jury is by lawyers considered a good one for Mrs. Chadwick, as the evidence against her will relate largely to banks and banking procedure...

When the election of officers was concluded the club and a few invited guests partook of a banquet, at which several brief toasts were responded to by members of the club...

Just what the reception to be given the president on his coming visit to Fort Worth will be, has not been determined by the club...

Very little is known here as to definite plans of the presidential party while in Texas and Colorado...

Mr. Sperry is now head clerk of that order for Texas in his home camp at Paris and friends over the state are pushing his claims with encouraging prospects of success for head consul of this order...

TO BE HEAD CONSUL

ATSTIN, Texas, March 7.—Clarence Sperry, member of the house from Lamar county, will leave in a few days for Waco, to attend the head camp, W. O. W., which convenes in that city March 12.

MRS. CHADWICK FAINTS AT TRIAL

Unable to Stand Strain of the First Day's Proceedings in Court

HEARING RESUMED TODAY

Andrew Carnegie Displays Keen Interest in Cleveland Woman

CLEVELAND, Ohio, March 7.—Mrs. Chadwick came into court this morning apparently none the worse for the illness which caused the adjournment yesterday afternoon...

A complete nervous collapse by Mrs. Cassie L. Chadwick brought the first day of her trial to an abrupt close at 3:45 o'clock yesterday afternoon.

W. H. Halter of Oberlin, the second witness called by the state, was on the stand and he had answered but two questions when Mrs. Chadwick, who was very pale, whispered to her attorneys that she would be compelled to leave the room...

MRS. CASSIE L. CHADWICK.

Two trained nurses who were in the court room were hastily summoned and in a few moments Mrs. Chadwick was revived. She was in no condition to enter the court room, however, and Judge Taylor adjourned the trial until today.

It was an exciting day for Mrs. Chadwick and she took the keenest interest in the proceedings. The jury was accepted within two hours and the opposing counsel outlined their cases...

The jury is by lawyers considered a good one for Mrs. Chadwick, as the evidence against her will relate largely to banks and banking procedure...

When the election of officers was concluded the club and a few invited guests partook of a banquet, at which several brief toasts were responded to by members of the club...

Just what the reception to be given the president on his coming visit to Fort Worth will be, has not been determined by the club...

Very little is known here as to definite plans of the presidential party while in Texas and Colorado...

Mr. Sperry is now head clerk of that order for Texas in his home camp at Paris and friends over the state are pushing his claims with encouraging prospects of success for head consul of this order...

While the jury was being examined the door opened and Andrew Carnegie, followed by S. T. Everett, with whom he is staying, entered the room. Mr. Carnegie gave one quick glance at the woman sitting by the table and then walked quietly past her to a seat on the east side of the court room.

Mrs. Chadwick was ignorant of his arrival and made no sign as he passed her. Later the information was whispered to her that Mr. Carnegie was in the room, but she did not turn her head nor glance in his direction.

CORTELYOU TO SUCCEED WYNNE

Postmaster Generalship Only Change in Roosevelt's New Cabinet

NEW PLACE FOR COCKRELL

Former Missouri Senator Is Named for Interstate Commerce Commissioner

WASHINGTON, D. C., March 7.—The president sent a large number of nominations to the senate yesterday, including all the members of the present cabinet except Postmaster General Wynne...

The nominations include the names heretofore announced as ambassadors and Senator Cockrell as interstate commerce commissioner. The nominations follow:

John Hay, District of Columbia, secretary of state. Leslie M. Shaw, Iowa, secretary of the treasury. William H. Taft, Ohio, secretary of war.

William H. Moody, Massachusetts, attorney general. George B. Cortelyou, New York, postmaster general. Paul Morton, Illinois, secretary of the navy.

Ethan S. Hitchcock, Missouri, secretary of the interior. James Wilson, Iowa, secretary of agriculture. Victor H. Metcalf, California, secretary of commerce and labor.

Ambassadors Extraordinary and Ministers Plenipotentiary—Whitehall Reid, New York, to Great Britain; Robert S. McCormick, Illinois, to France; George W. L. Meyer, Massachusetts, to Russia; Edwin H. Conger, Iowa, to Mexico; Henry White, Rhode Island, to Italy.

Envoys Extraordinary and Ministers Plenipotentiary—William Woodville Rockhill, District of Columbia, to China; David J. Hill, New York, to the Netherlands; Henry Lane Wilson, Washington, to Belgium; William Miller Collier, New York, to Spain; Brutus J. Clay, Kentucky, to Switzerland; Thomas J. O'Brien, Michigan, to Denmark; Charles H. Graves, Minnesota, to Sweden and Norway; Edward C. O'Brien, New York, to Paraguay and Uruguay; John E. Jackson, New Jersey, to Greece and Montenegro and diplomatic agent in Bulgaria; John W. Diddle, Minnesota, to Rumania and Serbia; Samuel R. Gummer, New Jersey, to Morocco.

Interstate Commerce Commissioner—Francis M. Cockrell, Missouri. Solicitor of the Department of Commerce and Labor—Edward Walter Simms, Illinois.

District Judge—Joseph V. Quarles, Eastern district of Wisconsin. Consuls General—Robert J. Wynne, at London; Frank H. Mason, Ohio, at Paris; Alexander H. Thacker, Pennsylvania, at Berlin; Hoffman Phillips, New York, at Tangier; Thomas Sammons, Washington, at Nuchwang, China; Stanley Stoner, Missouri, at Calcutta, India; Henry B. Miller, Oregon, at Yokohama; J. Linn Rogers, Ohio, at Shanghai, China; George W. Roosevelt, Pennsylvania, at Brussels, Belgium.

Consuls—Robert E. Thompson, Illinois, at Cienfuegos, Cuba; William W. Wedemier, Michigan, Georgetown Demarere, Guinea; Thomas H. Marton, Ohio, at Smyrna, Turkey; John W. O'Hara, Indiana, at Montevideo, Uruguay; John B. Richardson, Kansas, at Port Detroit, Nicaragua; Oscar Malmre, Minnesota, at Rouen, France; George L. Dodson, Iowa, at Nottingham, England; Edwin N. Gunsaulus, Ohio, at Cork, Ireland; John L. Griffiths, Indiana, at Liverpool, William R. Estes, Minnesota, at Seltingen, Germany; Francis B. Keene, Wisconsin, at Milan, Italy.

MARDI GRAS OPENS IN CRESCENT CITY

Cloudy Skies Fail to Decrease Size of Crowds Thronging the Streets

NEW ORLEANS, La., March 7.—The carnival day opened with skies overcast. Rain threatened, but this condition had no appreciable effect on the streets, which were congested with sightseers, many having come from surrounding states on the morning train. Before the parade started the sun broke through the clouds and there was promise of an ideal day.

There were the usual promiscuous masqueraders, and many quaint and picturesque costumes entertained the throngs. The pageant of Rex appeared on St. Charles avenue this forenoon and required four hours in traversing its route. His majesty chose for his subject idealistic queens and treated it with twenty highly decorated cars.

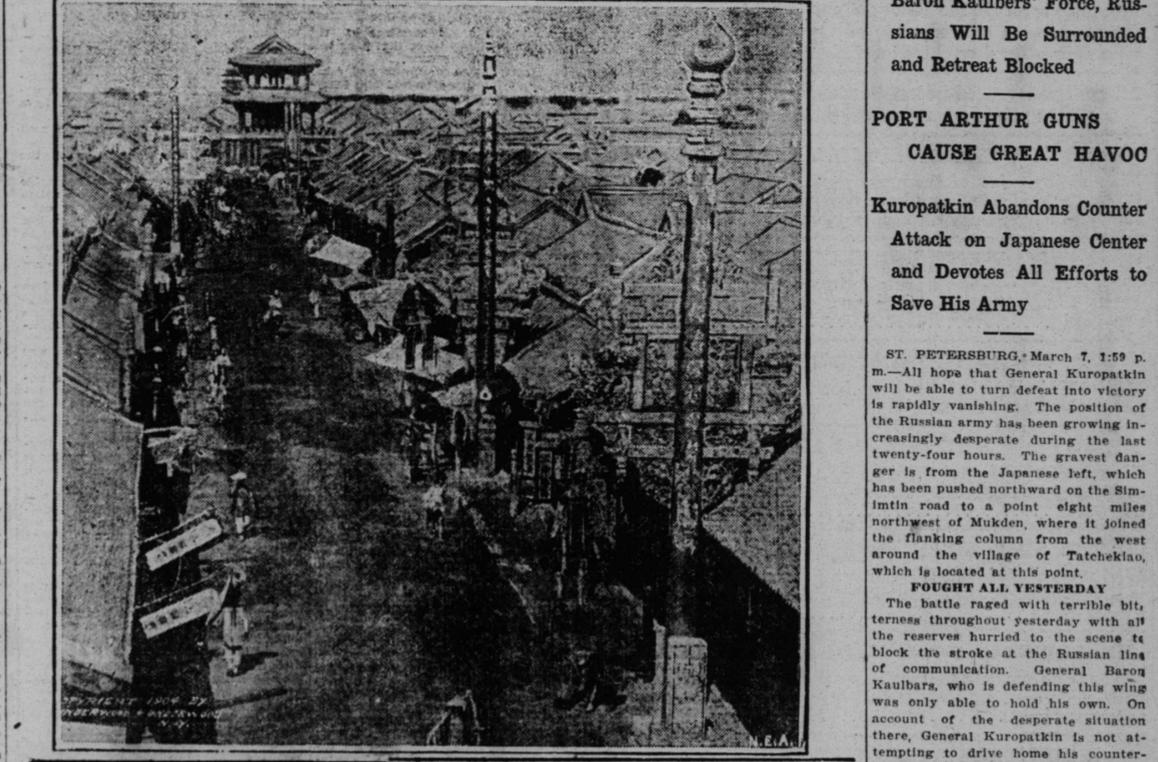

BATTLE RESUMED TODAY

Dispatch from Mukden Reports Heavy Artillery Fire

MUKDEN, March 7, 4 a. m.—The battle around Mukden was renewed at the break of day, the artillery fire becoming very heavy.

KUROPATKIN CUT OFF

Scene In Mukden, Objective Point of Japs Attack

FIELD MARSHAL MARQUIS OYAMA AND HIS FAMILY

Oyama's campaign against Kuropatkin thus far is characterized by military experts as one of the most brilliant examples of military genius in history.

WOMEN TO BUILD AN ORPHANS' HOME

Association Decides Today to Erect Building at Cost of Fifteen Thousand

In order to erect a \$15,000 building to replace the present orphan's home, which is considered inadequate, prominent women of the city, comprising the Benevolent Home Association have decided to adopt a plan of selling buttons at one dollar each to raise the necessary fund.

The fifteen women comprising the association have pledged themselves to make every effort to distribute the buttons among men, women and children of the city.

The foregoing plan was adopted at a meeting which was held at the residence of Mrs. E. H. Carter, president of the Benevolent Home Association, this morning. The members of the association discussed the situation and decided that the present building situated east of the city was but a poor refuge for the fifty children there.

The county has donated for the purpose thirty-six acres of land near stop 3 on the interurban, on which site the new home will be erected.

The cotton factories in Lancaster, Eng., spin enough thread in six seconds to go around the world.

Danville, Sunday night, the victims being the wife and three children of James Ince, a farmer in that locality. Ince is suspected of the crime and is in jail.

The bodies of the woman and children were found this morning by neighbors. An ax had been used by the murderer.

If the Japanese Can Overcome Baron Kaulbers' Force, Russians Will Be Surrounded and Retreat Blocked

PORT ARTHUR GUNS CAUSE GREAT HAVOC

Kuropatkin Abandons Counter Attack on Japanese Center and Devotes All Efforts to Save His Army

ST. PETERSBURG, March 7, 1:59 p. m.—All hope that General Kuropatkin will be able to turn defeat into victory is rapidly vanishing.

The battle raged with terrible bitterness throughout yesterday with all the reserves hurried to the scene to block the stroke at the Russian line of communication. General Barok Kaulbars, who is defending this wing was only able to hold his own.

FOUGHT ALL YESTERDAY

The battle raged with terrible bitterness throughout yesterday with all the reserves hurried to the scene to block the stroke at the Russian line of communication.

General Kuropatkin is not attempting to drive home his counterstroke at the Japanese center and his offensive, which was abortive, has been abandoned.

At the same time encouraged by the progress of the main turning movement to the west, General Kuroki again pressed forward from the east yesterday against General Linevitch, forcing the Russians to give ground.

It is rumored that Kuropatkin already has given orders to retreat and that he is gradually withdrawing his forces from the center, but experts are inclined to believe he has waited too long, that he must fight it out in the present position and that it will be impossible to extricate more than the remnant of his army.

At the war office it is said the Japanese siege guns from Port Arthur, with a range of eight miles, are causing terrible punishment. Nothing can stand up against them.

The only news received at the war office up to this hour is that the battle was resumed at daylight at Tatchekiao. During the night both sides brought up additional guns and at daybreak a perfect hail of artillery projectiles filled the air.

MAY SURROUND WHOLE ARMY

If the Japanese crush General Kaulbars' force today the Russian retreat will be cut off and Kuropatkin's army may be almost surrounded.

There is great fear that telegraphic communication will be cut any moment. The public is pessimistic as usual. The generals especially look forward to the complete defeat of Kuropatkin's army, with equanimity on the theory that Russian victory would stiffen the backbone of the reactionaries.

According to the liberal view the more the government is embarrassed the more it will be obliged to yield.

CZAR ADDRESSES YOUNG OFFICERS

ST. PETERSBURG, March 7.—One hundred and eighteen naval cadets and thirty-two pupils of the National Engineering school, who had been promoted to be officers, were presented to the emperor yesterday at Tsarskoosalo.

The emperor in an address exhorted the young officers, particularly at the present time, to defend the honor and glory of Russia with all their might, not heeding and not discouraged by the strokes of fate, but always laboring faithfully in the service of the fatherland and the emperor to achieve success.

He expressed the hope they might emulate their older comrades, who had done all possible and set forth every effort to maintain the glory of the faith.

RUSSIANS REPORTED READY TO RETREAT

TOKIO, March 7—Noon—It is reported the Russians are preparing to abandon Mukden and Fushan and to retreat to Tie Pass.

TO APPOINT A NEGRO

WASHINGTON, March 7.—There is authority for the positive statement that the president has fully decided upon the appointment of Charles W. Anderson, the negro lawyer of New York, to be internal revenue collector for the district of New York to succeed Charles H. Treat, who will be appointed to succeed Ellis H. Roberts, treasurer of the United States at Washington. These changes, however, will not be made until next June, when Mr. Roberts will have completed an eight-year term.

MOTHER AND THREE CHILDREN MURDERED

LITTLE ROCK, Ark., March 7.—A special to the Arkansas Gazette from Danville says: A quadruple murder was committed at Whitley, about twelve miles from

Danville, Sunday night, the victims being the wife and three children of James Ince, a farmer in that locality. Ince is suspected of the crime and is in jail.

The bodies of the woman and children were found this morning by neighbors. An ax had been used by the murderer.

RUSSIANS ADMIT LOSSES

GENERAL RENNENKAMPF'S HEADQUARTERS, OUBENEFUZA, Monday, March 6, Midnight.—Events took an unfavorable turn for the Russians this evening. After a day marked by a succession of determined attacks the Japanese ousted the Russians from an important position on the left center of the eastern army. The Japanese are also pressing the right center hard. The Russians have been ordered to retake the position at any cost. There were heavy losses today on both sides.

WASHINGTON FORECAST

WASHINGTON, March 7.—The forecast for the southwest is as follows: East Texas (north)—Tonight rain; Wednesday showers and colder. East Texas (south)—Tonight and Wednesday showers; light to fresh easterly winds on the coast. Arkansas, Oklahoma and Indian Territory—Tonight and Wednesday rain and colder.

EMBROIDERY AT 65c ON THE DOLLAR

We had a large trade on those fine Embroideries yesterday. You have never seen such bargains on fine goods in the embroidery line. Fine Swiss Embroidery worth anywhere 25c, is being sold this week at 15c Fine Swiss Embroidery that you would pay 50c a yard for anywhere, we are selling this week at 29c 40c Swiss Embroidery in all the new patterns we are selling during this White Sale week at only 25c

TO LET CHILDREN SEE FINE STOCK

School Board to Take Up Question of Holiday During Cattlemen's Convention

Though no definite announcement has been made, it is understood that a special meeting of the school board will be held in order to consider granting the public school children an holiday during the cattlemen's convention, that they may attend the Fat Stock Show. This action comes as a result of the suggestion of Stuart Harrison, who proposed a children's day at the show, the children all to be provided with free tickets.

Your Life Current.

The power that gives you life and motion is the nerve force, or nerve fluid, located in the nerve cells of the brain, and sent out through the nerves to the various organs. If you are tired, nervous, irritable, cannot sleep; have headache, feel stuffy, dull and melancholy, or have neuralgia, rheumatism, backache, periodical pains, indigestion, dyspepsia, stomach trouble, or the kidneys and liver are inactive, your life-current is weak.

Power-producing fuel is needed; something to increase nerve energy—strengthen the nerves. Dr. Miles' Restorative Nerve is the fuel you need. It feeds the nerves, produces nerve force, and restores vitality.

"When I began taking Dr. Miles' Restorative Nerve and Anti-Pain Pills I was confined to my bed. I had severe nervous spells, the result of two years illness with malaria. I gradually grew so weak that I was unable to sit up. The spells would commence with cold chills, and I would become weak and almost helpless. My circulation was poor. I had doctored right along but grew weaker and weaker. The Nerve seemed to strengthen me right away and my circulation was better. I have taken in all seven bottles of the Nerve, and I am entirely well."

Dr. Miles' Restorative Nerve is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money. Miles Medical Co., Elkhart, Ind.

STRIKES UP ELEVATED AND SUBWAY LINES ACTION OF COUNCIL IN ELIMINATING REFERENDUM DOES NOT RECEIVE SIGNATURE

NEW YORK, March 7, 4 a. m.—At five minutes to 4 o'clock the strike on the elevated and subway lines of the Interborough Rapid Transit Company began. A train which reached the One Hundred and Fifty-fifth street terminal of the West Side elevated line at that hour was deserted by its entire crew.

The ticket choppers, agents and other employees at the One Hundred and Fifty-fifth street station walked out. As 4 a. m. was the hour set for officially beginning the strike, word was passed to the men that work was to be suspended as near that hour as possible. It was planned by the union leaders that the men should work as fast as they reached the terminals and no runs were to be started after 4 o'clock.

Traffic on the downtown tracks of the subway and elevated lines came to a halt, therefore, at the hour set. In the subway the first crew to strike was one which arrived at the One Hundred and Fifty-seventh street station of the Broadway branch at 3:46. The train was run over to the downtown track and it came to a stop. Walking to the dispatcher's office the motorman handed in his controller and said: "It's all up; hate to leave the job, but I guess we will have to strike in this line."

Under the council regulations a two-thirds vote is required to pass measures over the mayor's veto. Alderman Ward, Wagonman and Newby voted on the mayor's side and as the referendum was contained in the report as originally presented by them it will be necessary for the opponents of the measure to secure the votes of both members absent at the last meeting—Aldermen Zurn and Lydon—to overcome Mayor Powell.

Even in the event that the referendum should be in the city charter, as I have more fully shown by argument before your honorable body at your last meeting. Because said recommendation was struck out by a vote of only four members of the city council, which is a minority of your board; and, further, because I think that the vote of the full board should be taken upon such an important measure.

Under the council regulations a two-thirds vote is required to pass measures over the mayor's veto. Alderman Ward, Wagonman and Newby voted on the mayor's side and as the referendum was contained in the report as originally presented by them it will be necessary for the opponents of the measure to secure the votes of both members absent at the last meeting—Aldermen Zurn and Lydon—to overcome Mayor Powell.

Galveston Bonds Approved
AUSTIN, Texas, March 7.—Assistant Attorney General Lovenberg examined and approved yesterday bonds of the city of Galveston to the amount of \$730,000. These bonds bear five per cent interest, mature in forty years, with an option reserved to redeem at pleasure by lot, and were issued to meet the expenses of raising the grade of that city.

CITY RAILWAY RUSHED
There were busy scenes early this morning about the stables and storage houses of the New York City Railway, whose officials said they were preparing at that time of their lives when the rush of workers set in for the downtown district. Even the open summer cars were drawn out and prepared for operation.

Quarters for strike breakers on the West Side line were arranged during the night in the car barn at One Hundred and Forty-fifth street and Seventh avenue. The first mentioned is surrounded by a high board fence and covered by a high roof. Nearly 200 men were passed into the inclosure and large vans of furniture were filled by others with provisions. That many of the men were hungry was evidenced by the noise of their eating.

More of the strike breakers were housed in the Lenox avenue barn, which was stocked in a similar manner with food and beds. These men were landed from the steamer Northam, which had been sighted in the Harlem river after an eventful voyage from Jersey City, during which the boat ran aground several times and was rescued by tug. A German baker who was ordered to supply the boat with 500 loaves of bread, had an all-day chase from his shop in Jersey City to Harlem.

On the Third avenue elevated line the strike order was obeyed and the departure from Bronx Park of a train that left at 3:56 for downtown. It was manned by a full crew and was due to make the round trip to the city hall and back, reaching Bronx Park at sixteen minutes after 5 o'clock, when it was to be taken to the yards. The switchmen left their posts in the Bronx after the train pulled out.

M. P. Buel Here
M. P. Buel, president of the Evans-Snyder-Buel Commission Company with offices in this city, St. Louis, Chicago, Omaha and Kansas City, was in Fort Worth Monday on route to San Antonio. Mr. Buel is in Texas for the purpose of attending the Cattle Raisers' convention to be held in this city.

LINE-UP FOR BALL GAME
Patty Mauch Will Be Behind the Bat This Week
Manager Feagles of the Fort Worth baseball team announced that the line-up for the Fort Worth team for next Saturday's and Sunday's games with the St. Louis Browns will be the same as that of last Sunday, with the exception of Robinson, whose place behind the bat will be taken by Patty Mauch, the regular catcher. Mauch has been sent transportation and will arrive in Fort Worth Thursday from Milwaukee.

Lord Douglas Photographed
During his stay in this city, "Lord Douglas" or G. F. Ross, was taken before a local photographer, where his picture was taken for the police records. Assistant Chief of Police Allen said this morning that this likeness of "Lord Douglas" has been sent to Chicago officers and detectives. Douglas is at present in Columbus, Colorado county, Texas, to answer to a charge of swindling. He was confined in jail in this county on a vagrancy charge.

TRIBUTES TO JUDGE J. H. REAGAN

BY GOVERNOR S. W. T. LANHAM
Judge Reagan's death is a great deprivation to Texas and to the entire country. With his passing falls the last leaf on the tree of Confederate government; indeed, he outlived all other members of the two American governments of the war time. No greater man has died in the south in many years, and none who will be mourned more universally. No other man had such a fund of valuable information concerning the men and affairs of mid-bellum times, and it is to be hoped that his memoirs, if processed with his memoirs that something of this store may be preserved.

BURIAL ARRANGEMENTS

Announcement Made by Committee in Charge of Reagan Funeral
PALESTINE, Texas, March 7.—The following announcement has been made by the committee having in charge the funeral of Judge John H. Reagan:
The funeral of our beloved citizen and statesman, Hon. John H. Reagan, will take place at the family residence, Fort Houston, two miles from Palestine, on Wednesday, March 8, 3 o'clock p. m., and the remains will be taken from the residence after the services to the Palestine Memorial Cemetery for Interment. The services at the residence will be conducted by Revs. Willis and Anderson, pastors of the Methodist and Christian churches, assisted by other ministers, and at the cemetery by his brother, Mason.

LEAPED TO HIS DEATH

Californian in Chicago Thought He Was Being Hypnotized
CHICAGO, Ill., March 7.—Under the impression he was being hypnotized, James McK. Gordon has leaped from the fourth floor of McCoy's hotel, landing on a sidewalk and receiving injuries that caused his death. Earlier in the day Gordon cut himself in the head and chest while seated at a table in the hotel dining room. He had shown signs of insanity several days and a train with his wife coming from California.

THE MAN ABOUT TOWN

The new patrol wagon for the local police department, respicient in shining varnish and running noiselessly on rubber tires, will make its appearance Monday morning. It is at present in the hands of the manufacturer, who announces that it will be ready for its maiden trip the first of next week.

Heavy Colonist Movement

Travel is picking up quite rapidly since the cholera rates went into effect about a week since, and the western roads are doing a very fine business from this city. The Rock Island was compelled to run in two sections from Amarillo to El Paso Saturday in order to accommodate the heavy movement. One of these sections there was nearly 200 pieces of baggage, which is a fair index of the volume of business being done.

TWO SERVANTS EXAMINED

San Francisco Police Still Busy in Efforts to Find Murderer of Mrs. Leland Stanford
SAN FRANCISCO, Cal., March 7.—Albert Beverly, formerly butler, and Miss M. P. Richmond, formerly maid in the Stanford household, have been closely examined by Captain of Detectives Burnett, District Attorney Boynton and Attorney Mountford Wilson were also present, the latter representing the Stanford estate.

A Dear Old soul Active and Happy at 106

Mrs. Nancy Tigie, of Lafayette, Ind., Although in Her 106th Year, Says:

"I Really Don't Feel Like I'm a Day Over 60, Thanks to Duffy's Pure Malt Whiskey, Which Is the Real Secret of My Great Age, Health, Vigor and Content."

Mrs. Tigie Is Blessed With All Her Faculties and Does Exquisite Fancy Work Without Glasses. She Is as Spry as Many Women Half Her Age

With the Help of the Invigorating and Life-Giving Powers of This Wonderful Medicine Mrs. Tigie Says She Expects to Live Twenty-five Years Longer

"I will be one hundred and six years old," writes Mrs. Tigie. "On the fifteenth of March, and really I don't feel like I am a day over sixty, thanks to Duffy's Pure Malt Whiskey. Friends say I look younger and stronger than I did 30 years ago. I have always enjoyed health and been able to eat and sleep well, though I have been a hard worker. Even now I wait on myself and am busy on a pretty piece of fancy work. My sight is so good I don't even use glasses. Am still blest with all my faculties. The real secret of my great age, health, vigor and content is the fact that for many years I have taken regularly a little Duffy's Pure Malt Whiskey, and it has been my only medicine. It's wonderful how quickly it revives and keeps up one's strength and spirits. I am certain I'd have died long ago had it not been for my faithful old friend "Duffy's." August 10, 1904.

Duffy's Pure Malt Whiskey

IS THE COMFORT AND SUPPORT OF OLD AGE.

The sincere and grateful tribute of Mrs. Tigie to the invigorating and life-prolonging powers of Duffy's Pure Malt Whiskey is one of the most remarkable and convincing on record. She sews, reads and is dependent upon no one for the little services and attentions of old age. Mrs. Tigie's memory is perfect, and her eyes sparkle with interest as she quaintly recalls events that have gone down into history of the past hundred years. Instead of pining, as many women half her age, she is firm in the belief that with the comforting and strengthening assistance of Duffy's Pure Malt Whiskey she will live another quarter of a century.

If you wish to keep young, active and vigorous, and have on your cheeks the rose of health, and retain full possession of your mental powers, you must take Duffy's Pure Malt Whiskey regularly as directed and avoid drugs of all kinds. It nourishes the vitality no matter how weak or feeble it may have become; feeds and enriches the blood, and stimulates the circulation, giving health and power to body, brain, nerve and muscle.

The absolute purity of Duffy's Pure Malt Whiskey is attested by the fact that thousands of doctors and hospitals use it exclusively, and that it's the only whiskey recognized by the government as a medicine. It contains no fusel oil.

CAUTION.—When you ask for Duffy's Pure Malt Whiskey be sure you get the genuine. Sold by reliable druggists and grocers everywhere in sealed bottles only, never in flask or bulk. Look for the trade-mark, the "Old Chemist," on the label, and be sure the seal over the cork is not broken. \$1.00 a bottle.

Medical booklet with testimonials and doctor's advice free. Duffy Malt Whiskey Company, Rochester, N. Y.

ELKS' MINSTREL DECIDED SUCCESS

Clever Jokes Tickle Audience and Musical Numbers Would make Professionals Envious—Repeated Tonight

"No wonder the men don't want knee breeches to come into style again," said a sweet young thing at Greenwald's opera house last night as the golf girl chewing gum followed the asbestos and the Elks' Minstrel minstrels, resplendent in solemn black costumes, fluffy shirts, and nicely powdered locks—except a few who didn't have locks—filed on the stage and began a performance which was a success from start to finish. The churchy appearance of the white-robed orchestra in a little loft was dispelled the moment Clint Draper started things going with "I feel so nervous," and the rest of the evening was spent in applause or laughter. Thin skins had no place in the audience last night. To be a friend of the black face men was only to be subjected to double ridicule. A few samples: "You know Billy Fisher?" McKenna—"Of course I know Mr. Fisher. He is a most estimable gentleman and a distinguished citizen." Bones—"A which?" Mr. McKenna repeats with fatherly and kindly explanation. Bones—"Well, he's a blackmaller." McKenna (amazed)—"A blackmaller?" Bones—"He takes hush money." McKenna—"Why, who do you mean by making such a charge against a man who is above reproach?" Bones—"I saw him sell a bottle of soothing syrup." Sambo relates his experience in seeking to buy typewriter. He asks advice of his friends.

SCOTT'S EMULSION

We don't put Scott's Emulsion in the class of advertised cure-alls; it doesn't belong there. We hardly like to use the word "cure" at all, but we are bound to say that it can be used for a great many troubles with great satisfaction. Its special function is to repair the waste of the body when the ordinary food does not nourish, and this means that it is useful in many cases which are indicated by wasting. We'll send you a sample free. SCOTT & BOWNE, 409 Pearl Street, New York.

MRS. NANCY TIGIE, 106 ON MARCH 15.

ONE DIPPING AFTER MARCH 15 From That Time Until May 15 Regular Osage Nation Rules Suspended

Regarding the situation as to the entry of cattle from below the line into the Osage county, a leading live stock agent said this morning:

"The facts are about these: The department of interior asked for the recommendation of the secretary of agriculture as to what quarantine regulations should apply in the Osage Nation. It was the recommendation of the department of agriculture that cattle be allowed to go into that country with one dipping between March 15 and May 15. After that the usual department regulations will apply.

"The department of agriculture's recommendations were probably based on the fact that it was only a question of a year or so until that country would be opened up and the importation of southern cattle would have to be prohibited, except under safe conditions.

"The department was influenced by reason of the fact that the past winter was very severe and undoubtedly all the ticks in that country were killed, and that it might be many years before favorable weather conditions would again exist. Such being the case, it rendered it very easy for the agricultural department to free that country of ticks and the danger of their communicating fever."

"The ruling of the department further prevents cattle being moved from the infected area through any part of the Oklahoma territory, outside of the quarantine district, except after having been inspected and found free from infection.

In order to comply with the ruling of the department, the Santa Fe and the Santa Fe will locate dipping vats in the territory.

SO. PACIFIC BACK OF SIERRA MADRE LINE

Harriman Line Engineers Known to Be in Charge of Locating Work on El Paso Guaymas

For some time there have been persistent rumors here that the Southern Pacific is backing the extension of the Sierra Madre railroad, now owned by Colonel C. W. Greene, the copper king, extending from El Paso to Guaymas on the Mexican coast. In the face of recent fact it is almost conclusive that the rumors are unfounded. It is known authoritatively here that the Southern Pacific company engineers are in charge of the locating work now being done on either end of the line.

The fact has been developed, according to statements that reach here from Mexico, that the Standard Oil people are behind the Chihuahua and Pacific, whose ultimate destination from Chihuahua is on the Pacific coast, supposedly at Guaymas, the same point the Greene road is aiming to reach, and the situation remains itself into a fight between the two companies which is to reach the Mexican coast first.

Richardson Bros. of Los Angeles, who have a concession from the Mexican government to construct a road up the Yaqui valley, are said to be backed by the Southern Pacific Company, and when completed is to become a part of the through line to the Pacific, and is to connect with the Greene road. Chief Engineer E. A. McFarland of the Southern Pacific has charge of work on the northern end of the Sierra Madre, while William Gresham, is superintendent with the Southern Pacific, in supervising the construction north from Guaymas in the direction of the Greene forces, who are working from Chihuahua.

The Richardson's have already secured terminal facilities at Guaymas and grading work is soon to be commenced. Grading has already begun on the north end of the extension.

Rock Island Getting Cars

The Rock Island is receiving twenty new passenger cars from Pullman shops, including ten chair cars and ten coaches, with an improved draft-gear operating to prevent sudden jars in starting and stopping and taking on extra cars. An order has also been placed for 4,000 freight cars and fifty locomotives, both Atlantic and Pacific type.

After Oriental Trade

Both E. H. Harriman and James J. Hill, on behalf of their respective roads, are sending experts to the far east to make reports on how to enlarge the markets in that part of the world, especially in China for American cotton products. It is said that the reports to be made by the Hill and Harriman experts will be given to the cotton men of the world, and also to the general government, should it appoint, as it has been requested to do, a commission to take steps for the extension of the exports of American cotton goods.

PAINT YOUR BUGGY FOR 75c to \$1 with Devoe's Gloss Carriage Paint. It weighs 3 to 8 lbs. more to the pint than others, wears longer and gives a gloss equal to new work. Sold by Brown & Vera.

BEN HUR BALL

Don't forget the Ben Hur anniversary ball Thursday, March 9, at the Imperial hall. The Tribe of Ben Hur has given many very enjoyable dances in the past year and the entertainment committee is making every effort to make this one, the eleventh birthday ball, eclipse them all and to make it such an enjoyable event that it will remain a pleasant memory until March, 1906, when they will give their twelfth anniversary ball, and then, of course, the eleventh will be eclipsed, for the Tribe of Ben Hur takes no backward step. Its watch words are "progress" and "improvement." All members and friends of the order most cordially invited to be present on Thursday night. Refreshments will be served. Tickets are only 75c and may be obtained from members.

CANDIDATE FOR CITY MARSHAL

The Telegram is authorized to announce Andrew McCampbell Jr., as candidate for city marshal, subject to the will of the qualified voters, April election.

If you wish your house raised and another story built under it, see Donaldson, 207 1/2 Main street.

Argentina reaches into the equatorial belt on the north and through the temperate zone on the south, having thus wide ranges of temperature. Two-thirds of its people are native, Italians to the number of almost half a million lead the foreigners.

High Art in Millinery Informal Opening Tomorrow, March 8th

Wednesday we show for the first time all the new ideas in Spring Street Hats of the smart Polo Turban, Georgette, Sailor and Continental shapes. This showing includes every color and combination of the season, most suited for early spring wear. You are cordially invited to see this beautiful and instructive display of popular price Street Hats. Remember the date—Tomorrow, Wednesday, March 8.

OUR UNRIVALED DEPARTMENT High-Class Dress Making

We wish to emphasize the word High-Class and explain why; first, we have secured the services of Madam Backer, the most competent, up-to-date dressmaker we could secure; second, a guarantee of satisfaction, combined with moderate prices. We would advise an early consultation that you may order your spring gowns before the work-room is filled to overflowing.

FOR YOU

You are vitally interested, as a good citizen, in certain reforms in government. What are you going to do about it? Stew and complain and abuse congress and let it go at that? Do you simply applaud the president when he sends a message asking for a "square deal"?

Your applause or your criticism avails little. What you need to do is to go after your congressman—your hired man in Washington.

The way to make your influence felt where it will do the most good is to send a letter to your congressman and to the senators of your state telling them what's what. Do not fear to intrude on their time or patience. They are there to represent you. For that are they in congress. They are not slow to ask you to help them at the primaries and at the polls.

Senators and congressmen are very amenable to public opinion. They want to hold their jobs.

If you think, for instance, that freight rates should be controlled by the government and that the giving of rebates should be stopped write a letter to your representative at Washington and say so. Make the thing plain. Your congressman is anxious to know how you and your neighbor feel about these matters. If he concludes to do what is right he wants to feel that you and your neighbors are back of him.

Write the letter now! It will be a long time doubtless before the initiative and referendum are adopted in this country. The next best thing is a letter-writing constituency that will not consider its duty done when it leaves the ballot box.

Write to your congressman now and tell your neighbor to write. Give your servant his orders. If he does not carry them out turn him off election day.

TRIBUTE TO A WIFE

"Had it not been for Jane the Central Pacific would never have been built." That is the tribute of the late Governor Stanford to the noble woman who died at Honolulu last week.

Few women in the world's history had as much to their credit as Mrs. Jane Stanford.

When Governor Stanford drove the golden spike that completed the line of rails across the land the woman whose counsels and courage made the railroad possible stood by his side. Afterward, moved by the death of her son, she and her husband founded, by her wish, Leland Stanford, Jr., university. And when the school and her fortune were jeopardized she sacrificed her stately home and her jewels and lived in semi-poverty until the financial storm passed.

"Had it not been for Jane" two of America's greatest gifts would not have been made.

And there are other Janes and Marys whose husbands can say, "If it had not been for her."

Many a man had failed but for his wife. That good old Anglo-Saxon word "helpmeet" or help mate, explains many a successful man and his enterprise.

Few men are strong enough to stand alone and win their way. The strongest has some weakness. That weakness must be supplemented by the strength of another self.

Give the Janes their due.

There are many whispers of scandal in connection with the Panama canal enterprise, and if such is the case during the preliminary preparations it may be confidently expected that by the time the great enterprise is fully under way the experience of the old French company will not be a circumstance to the American developments. In the meantime, the people look to the president to hold the situation well in hand.

It is now alleged that the beef trust had a quiet tip from Washington in advance of the examination of the books in the recent investigation and took advantage of the opportunity to put incriminating books and documents where they could not be inspected. Whether this is true or not, Commissioner Garfield has not yet convinced either the producer or consumer that we have no beef trust operating in this country.

It is reported that C. E. Gilbert of Austin, the superintendent of public buildings and grounds, will be a candidate for state land commissioner next year.

Mr. Gilbert was formerly a prominent newspaper man of West Texas, was the founder of the Dallas Times Herald, and is a man well qualified for the position he is said to covet.

As the time draws near for the 22 per day legislative period at Austin, the prospects for the passage of many important measures now pending seems to grow brighter. When the state falls to pay above \$2 per day the private business of the members speedily begins to need and demand attention.

Papers all over the state are asking the legislature to do something for the relief of the unfortunate insane who are confined in the various county jails. Humanity itself would seem to dictate that there be an amelioration in these conditions just as soon as possible.

Report comes from Sweetwater that work has again been suspended on the construction of the Orient railway out of that city. The celerity with which work is suspended on this enterprise is only equaled by the number of times it is announced to begin.

That Pennsylvania girl who refused to pay the debts of an impecunious Italian count and married an honest American citizen, is made out of the right kind of material. "A title does not amount to much when it has to be plated with good American gold."

The appeal made by the czar of Russia to his people to stand by the throne is pitiful in its display of weakness. It is just about as plaintive as the public explanation made by a man in this country who has been defeated for the office of justice of the peace.

The Texas delegation in congress has returned to this state, except Senators Culberson and Bailey, who will remain in Washington a few days for the purpose of attending the extra session of the senate called to confirm the president's various appointments.

Texas is still talking about the reduction of the cotton acreage and fighting the boll weevil in the same breath. There is a lack of consistency in this that is quite suggestive of an unusually large cotton crop.

The first game of baseball this season in this city attracted a crowd of nearly 2,000 people, and it is a good beginning. By the time the season is in full swing the fans ought to all be in good working order.

El Paso merchants have made a very successful business trip down into Mexico, where they were most graciously received. Here is a hint for Fort Worth merchants.

WORK BEYOND

BY ELLA WHEELER WILCOX.

How frequently we express pity and sorrow for the man who dies with some work undone, some hope unfulfilled, some dream unrealized. How seldom do we hear the most religious person speak of the possibility of finishing our labors after we pass out of the body. Broad as religious creeds have become, there still lingers in the average mind the old idea of eternal rest or eternal sleep in a room wholly away from this sphere as the reward for earth's toilers. Yet it is the belief of many that a worthy, unselfish ambition or a great undertaking for universal good, is almost always carried on after the spirit leaves earth, and that by its unfulfilled conditions it is able to aid humanity as it was not permitted to do in the body.

There was a man who lived in New York city nearly all his life of forty-five years, and who died scarcely two years since. This man had the world's good and the world's need at heart, and was forever seeing the things which need amending, and forever lifting his voice to friend and acquaintance, calling attention to the worth great principles and the necessity of great reforms.

Unfortunately the man was aggressive and devoid of tact in his methods, and as a rule he succeeded only in antagonizing his listeners instead of converting them to his ideas.

He was a man unknown to fame, living

MUST BELIEVE IT

When Well-Known Fort Worth People Tell it so Plainly

When public indorsement is made by a representative citizen of Fort Worth the result is positive. You must believe it. Read this testimony. Every backache sufferer, every man, woman or child with any kidney trouble will find profit in the reading: J. A. Thornton the well-known real estate dealer, with headquarters at Fourth and Rusk streets, and who lives at 302 Adams street, says: "Some time last spring, I believe it was in the month of April, a gentleman called me and asked me to state my opinion of Doan's Kidney Pills. At that time I told him that they had proved of incalculable benefit to me. Some time previous to his visit I had purchased a box at Weaver's Pharmacy, on Main street, and had continued using the Pills until cured of a very aggravated attack of backache and kidney complaint. It is fully a year since I made this statement and told the people of Fort Worth thereof that Doan's Kidney Pills could be depended upon to act exactly as claimed. Now all that I can add to my original statement is that when threatened some time ago with a recurrence, a few doses of the pills warded off the attack before it got any further than an incipient stage and I have always found this to be the case. If I have been asked by one person during the past year I have been asked by a hundred, to state my opinion of Doan's Kidney Pills in private. I always have the same story to tell and reply that it is the best kidney remedy in the world today. Only last week three different persons drove up to my office and asked me about them. I will always speak in the strongest terms possible of them, for I have given them a thorough trial and I know what I am talking about."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name, Doan's, and take no other.

a quiet life and pursuing a modest business career. But his heart was as large as the world and his mind was keyed to justice.

Since the great excitement caused by the certain magazine articles exposing the very evils which he attacked, the thought has often come to mind that perhaps the life-long desire of a man who passed away full of sorrow and indignation over these wrongs, had been utilized from the other shore, and that he had been one of the instruments in the hands of Divine Justice in bringing the minds of others to know what he had so long known. The transition to the realm beyond had been needed that he might cast off his unpleasant and aggressive habits and focus the full power of his spirit upon this cause.

Just so, it seems to me, the Spirit of that great and immortal teacher, Henry George, has gone on working for the cause so dear to his heart. "How said," I have heard it said, "that Henry George died without knowing the wonderful success of his theories in the single tax colony at Fair Hope, Ala., where they have been put to practical use, and of the steady progress that is being made in the same line."

But to me it is far more reasonable to think that magnificent mind has been actively at work, though on another plane, producing the results he desired.

Since winter suddenly on a secret mission to Naples, followed by Holden, one of Brett's men. Mr. Jiro, a Japanese, who knows more than he tells, is asked to translate an inscription on the weapon used by Sir Alan's slayer.

CHAPTER XXII. MARGARET'S SECRET. The sick Brett rescued from the gutter proved, when cleaned, to be a light, tough asplant, with a silver band around the handle. He examined it closely, then handed it to Winter.

"Do you recognize those scratches?" he said, with a smile, pointing out a rough design bitten into the silver by the application of aqua regia and beeswax.

"The very thing!" Winter cried. "The same Japanese motto as that on the Ko-Katana!"

Hume now drew near. "So," he growled savagely, "the hand that struck down Alan was the same that sought my life an hour ago!"

"And your cousin's this morning," said Brett.

"The cowardly brute! If he has a grudge against my family, why doesn't he come out into the open? I have never yet run away from trouble or danger."

"You are slightly in error regarding him," observed Brett. "This man may be a fiend incarnate, but he is no coward. He means to kill, to work some terrible purpose. Think of the nerve required to commit robbery and murder under the conditions that obtained at Beechcroft on New Year eve. Think of the skill, the ready resource, which made so promptly available the conditions of the two as-

PROGRESS OF A NATIONAL INSTITUTION

Enormous Figures Debit in by the Prudential of Newark—Long List of High-grade Assets

The twenty-ninth annual statement of The Prudential of Newark, N. J., which is published on another page, shows the Company to be stronger financially and in public confidence than ever before. The year 1904 is reported to have been one of unusual gains in every department of the Company's business. The Company issued and paid for in new insurance during the year over 312 million dollars, which is the largest of any single year's results in the Company's history. The number of policies in force has been increased by over 500 thousand, bringing the total number of policies in force up to nearly six millions. The total amount of insurance at risk is over one billion dollars. Payments to policyholders The Prudential has maintained and surpassed its records for liberality. During the year The Prudential paid to policyholders over 13 million dollars, while since the organization of the Company the total payment to its policyholders has been over 92 million dollars. One interesting feature brought out in the statement is the fact that in cash dividends and other concessions not stipulated in original contracts The Prudential has paid to holders of old policies over 5 million dollars. When changes are made in policy contracts or rates which result in increased liberality to the insured, The Prudential always makes such changes retroactive, wherever it is practicable to do so, and the above payment is the result of this well-defined policy on the part of the Company.

The financial statement itself is unusually clear and convincing. The Company's assets, have increased over 15 million dollars, making total amount of assets over 88 million dollars. The analysis given in the statement shows these assets to be of the highest grade; for instance, \$15,000,000 has been loaned on 2,200 first liens on property valued at over 49 million dollars. The Company owns over 12 million dollars of real estate; over 27 million dollars of railroad bonds; over 19 million dollars of municipal and miscellaneous bonds; and over 4 million dollars of national bank and trust company stocks. The total cost of all the bonds and stocks was \$10,975,570.44, and as these now have a market value of \$12,128,567.87, it is shown that they have increased in value since their purchase by more than \$1,153,000. Over \$6,800,000 cash was held on January 1st in 259 banks and trust companies throughout the United States and in the office, of which \$6,154,000 is drawing interest and so actually constituted an investment. There was loaned collateral securities \$5,965,100; these are approved bonds and stocks which have a market value of \$7,849,321, so that the margin of security here afforded is over \$1,884,000.

One of the safest and most profitable investments to a life insurance company consists of loans to its own policyholders, on the security of their policies. The statement shows \$2,427,950 loaned in this way, protected by a reserve value of \$4,427,268, thus affording ample security. Nearly 74 million dollars is held as reserve by the Company to protect policy contracts, and the assets include a surplus to policyholders of \$13,325,866.33. The complete schedule of bonds owned by The Prudential shows the securities to be of the highest grade. The statement is an unusually satisfactory one to the Company and its policyholders.

Lodge Members to Dance

The annual dance of the local lodge of the Tribe of Ben Hur will be held at Imperial hall on Thursday evening, March 9. Excellent music has been engaged for the occasion and the dance promises to be a great success.

Can't you eat, sleep or work? Bad liver? Hollister's Rocky Mountain Tea makes rich, red blood, gives strength and health. Cures all other ailments. No cure no pay. 25 cents, Tea or Tablets. Ask your Druggist.

A LEGACY of HATE

By LOUIS TRACY

Copyright, 1904, by the Newspaper Enterprise Association.

SYNOPSIS. After a quarrel with his cousin David, Sir Alan Hume-Frazer is found murdered at Beechcroft Hall, near Stowmarket. Acquitted of the charge of murder, David requests Reginald Brett, lawyer-detective, to find the real murderer. They visit Beechcroft, now occupied by the late baronet's sister, Margaret, and her Italian husband, Signor Capella. Capella secretly loves Helen Layton, David's fiancée. He quarrels with David, leaves the house and later meets Helen, declares his love and attempts to kiss her. David appears and soundly thrashes him. Brett learns that Capella is familiar with Japanese weapons, like the one used to kill Sir Alan.

Winter, a Scotland Yard detective, finds a man who saw the real murderer of Sir Alan and shows Brett a typewritten note supposed to have been written by the guilty person. Capella leaves suddenly on a secret mission to Naples, followed by Holden, one of Brett's men. Mr. Jiro, a Japanese, who knows more than he tells, is asked to translate an inscription on the weapon used by Sir Alan's slayer.

CHAPTER XXII. MARGARET'S SECRET. The sick Brett rescued from the gutter proved, when cleaned, to be a light, tough asplant, with a silver band around the handle. He examined it closely, then handed it to Winter.

"Do you recognize those scratches?" he said, with a smile, pointing out a rough design bitten into the silver by the application of aqua regia and beeswax.

"The very thing!" Winter cried. "The same Japanese motto as that on the Ko-Katana!"

Hume now drew near. "So," he growled savagely, "the hand that struck down Alan was the same that sought my life an hour ago!"

"And your cousin's this morning," said Brett.

"The cowardly brute! If he has a grudge against my family, why doesn't he come out into the open? I have never yet run away from trouble or danger."

"You are slightly in error regarding him," observed Brett. "This man may be a fiend incarnate, but he is no coward. He means to kill, to work some terrible purpose. Think of the nerve required to commit robbery and murder under the conditions that obtained at Beechcroft on New Year eve. Think of the skill, the ready resource, which made so promptly available the conditions of the two as-

"WHY DO YOU SUSPECT ME?" SHE EXCLAIMED BROKENLY.

suits today. Our quarry is a genius, a Poe among criminals. Look to it, Winter, that your handcuffs are well fixed when you arrest him, or he will slip from your grasp at the very gates of Scotland Yard."

"If I had my fingers round his windpipe—" began David.

"You would be a dead man a few seconds later," said the lawyer. "Let us return to the hotel."

There, whilst Hume went to summon the others, Brett seated himself at a table and wrote:

"A curious chapter of accidents happened in Northumberland avenue yesterday. Early in the morning, Mr. Robert Hume-Frazer quitted his hotel for a stroll in the West End, and narrowly escaped being run over in Whitehall. About 8 p. m. his cousin, Mr. David Hume-Frazer, was driving through the avenue in a hansom, when the vehicle upset, and the young gentleman was thrown out. He was picked up in a terrible condition, and is reported to be in danger of his life."

Brett read the paragraph aloud. "It is casuistic," he commented, "but that defect is pardonable. Winter, go and bring joy to the heart of some penny-a-liner by giving him that item. The 'coincidence' will insure its acceptance by every morning paper in London."

Margaret entered with Helen and the two men. Robert limped somewhat. "How d'ye do, Brett?" he cried cheerily. "That beggar hurt me more than I imagined at the time. He struck a tendon in my left leg so hard that it is quite painful now."

Chamberlain's Cough Remedy

A Safe Medicine for Children.

In buying a cough medicine for children never be afraid to buy Chamberlain's Cough Remedy. There is no danger from it, and relief is always sure to follow. It is intended especially for coughs, colds, croup and whooping cough, and is the best medicine in the world for these diseases. It is not only a certain cure for croup, but, when given as soon as the croupy cough appears, will prevent the attack. Whooping cough is not dangerous when this remedy is given as directed. It contains no opium or other harmful drugs, and may be given as confidently to a baby as to an adult.

little secret, some childish love affair, and deem its preservation more important than their own happiness, or the lives of their best friends. They are all alike—duchess or scullery-maid. Their fluttering hearts are all the world to them, and everything else chaos. If that woman only chose—"Mr. Brett!" came a clear voice along the corridor.

It was Margaret. She came to him hastily.

"Why do you suspect me?" she exclaimed brokenly. "I am the most miserable woman on earth. Suffering and death environ me, and overwhelm those nearest and dearest. Yet what have I done that you should think me capable of concealing from you material facts which would be of use to you?"

The barrister was tempted to retort that what she believed to be "material" might indeed be of very slight service to him, but the contrary proposition held good, too.

Then he saw the anguish in her face, and it moved him to say gently:

"Go back to your friends, Mrs. Capella. I am not the keeper of your conscience. I am almost sure you are worrying yourself about trifles. Whatever they may be, you are not responsible. Rest assured of this, in a few days much that is now dim and troublesome will be cleared up. I ask you nothing further. I would prefer not to hear anything you wish to say to me. It might fetter my hands. Good-bye."

CHAPTER XXIII. THE MEETING. "There!" he said to himself, as he passed down stairs. "I am just as big a fool as she is. She followed me to make a clean breast of everything, and I send her back with a request to keep her lips sealed. Yet I am angry with her for the risk she is taking!"

He reached the hall and was about to cross the foyer when he caught the words: "Gentleman thrown out of a cab," uttered by a handsome girl, cheaply but gaudily attired, who was making some inquiry at the bureau.

He stopped and searched for a match. Then he became interested in the latest news, pinned in strips on the balize-covered board of a "ticker."

The girl explained to an official that she had witnessed an accident that evening. She was told that a gentleman who lived in the hotel was hurt. Was he seriously injured?

The hotel man, from long practice, was enabled to sum up such inquiries rapidly.

"Do you know the gentleman?" he inquired.

"No—that is, slightly. "Well, madam, if you give me your card I will send it to his friends. They will give you all necessary information."

"I don't see why there should be such a fuss about nothing," she said. "I don't know his people. I saw the gentleman pitched out of a cab and was sorry for him, so I just called to ask how he was."

"Well, miss you must either send a personal message or see the manager." The young woman bounced out in a fury, and Brett followed her. (To be Continued.)

Millinery Department

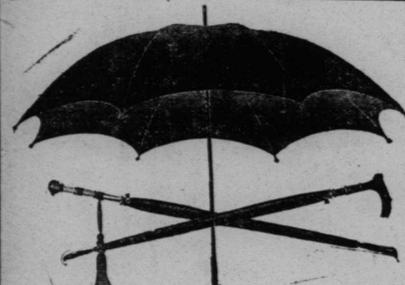

Will Display a Line of Street Hats Tomorrow

While this is an unpretentious show of the knock-about Hats, it is sufficiently strong to give you an idea of what is good style for this sort of a hat. We deem it entirely too early to pretend to exhibit the latest pattern hats—the formal opening will occur later. Tomorrow we will show the hats that are wanted for the present—"the Street Hats." We ask you to see them. We are confident that you will be pleased with the styles and the low prices asked for same.

Art Department

This department has been receiving many new things the past week. Something novel to see almost every time you come. New Pillow Tops, Covers and Splashes, Doyles, Mats, Scarfs and Covers of Linen Battenburg, English cutout work, drawn-work and embroidered. Great line of new stamped linen pieces. Every shade thread in silk and linen, spangles and beads, cords and fringe—a few specials for tomorrow:

- One big lot of Pillow Top Cord, in all the leading shades, regular 25c and 35c values; extra special price, choice tomorrow **19c**
- A big lot of Linen Covers, round, outlined with heavy braid, regular 50c values—just for a day's sale, choice **39c**
- Ready-made Pillow Tops, scholl designs of white braid—a most charming line go on sale tomorrow at **25c**
- A superior line of Pillow Tops—many of them ready made, others unfinished; special lot of Persian borders, price only **49c**

Umbrellas For Rain or Shine

We shall place on sale tomorrow a special buy of several hundred Umbrellas, for men and women. The lot consists of fine pearl, ivory, natural wood, gold and silver mounted Paragon frames. If you want a first-class handle; best makers' goods, steel rods and bargain, call tomorrow and save from 25 to 40 per cent. Extra values at \$4.98, \$3.98 and \$2.75. Three extra specials quoted below—

- At **35c** We will sell 200 Umbrellas, natural wood handles, steel rods, Paragon frames, sateen covers, that will not crack; special price 35c.
- At **\$1.00** We will sell a big lot of Umbrellas, natural crooks, for men and women, steel rods, Paragon frames, new gloria covers, fast black, worth \$1.50; extra special, each, \$1.00.
- At **\$1.98** We shall sell 100 Umbrellas, pearl, ivory, natural, gold and silver mounted, elegant handles, steel rods, silk covers and silk case and tassels, worth \$2.50; special, \$1.98.

STAMPED ON AN ARTICLE GUARANTEES STANDARD OF MERIT

How to Help Your Girls

The anxious mother of the family often-times carries the whole burden of responsibility so far as the home medication of common ailments of the girls or boys is concerned. The cost of the doctor's visits are very often too great for consideration. At such times the mother is invited to write to Dr. R. V. Pierce of Buffalo, N. Y., for medical advice, which is given free. Correspondence is held strictly confidential.

\$500 REWARD FOR WOMEN WHO CANNOT BE CURED

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors and makers of Dr. Pierce's Female Prescription boys feel fully warranted in offering to pay \$500 in legal money of the United States, for any case of Leucorrhoea, Female Weakness, Proflapsus, or Falling of the Womb, which they cannot cure. All they ask is a fair and reasonable trial of their means of cure. WORLD'S DISPENSARY MEDICAL ASSOCIATION, Proprietors, Buffalo, N. Y. Take Dr. Pierce's Pleasant Pellets instead of any other laxative.

WEATHER

FORECAST
The forecast for Texas east of the one hundredth meridian, issued at New Orleans, is as follows: Tonight, rain; Wednesday, showers colder. East Texas (south)—Tonight and Wednesday, showers.

WEATHER CONDITIONS
D. S. Landis issued the following statement of the weather conditions this morning:
Rain is falling throughout the middle valleys of the Missouri and the Mississippi, also over the Ohio valley and eastward into Virginia. The rain area extends through West Kansas, Oklahoma and West and Southwest Texas. Snow is falling in Minnesota and South Dakota, and over east Colorado.
Denver reports 32 miles of wind, Cairo reports a thunder storm, and foggy conditions prevail in Southern Kansas.

High pressure condition, accompanied by cold weather is pushing south-eastward from the northwest. Generally clear weather prevails west of the Rocky mountains, and storm conditions exist, in general, east of the Rocky mountains.
Texas is cloudy, and rain is falling at El Paso and Corpus Christi. Temperatures continue high throughout the state.
D. S. LANDIS, Official in Charge.

High temperatures with frequent showers and general high temperatures was the condition of the weather throughout Texas Monday. A drizzling shower fell in this city yesterday afternoon and evening, the precipitation up to 8 o'clock this morning being .06 inches. Twelve hundredths inches fell at El Paso and a very light shower at Abilene. Rain was falling at El Paso and Corpus Christi this morning, showing the showers to be general through the state.
Continued showers is the forecast for tonight with a lowering of temperatures for Wednesday.

Hollister's Rocky Mountain Tea never fails to tone the stomach, regulate the kidneys, stimulate the liver and cleanse the blood. A great tonic and muscle producing remedy. 25 cents, Tea or Tablets. Ask your Druggist.

ATTEMPT TO BURN SCHOOL AT BARTLETT

Work of Incendary Discovered in Time to Prevent Destruction of Building
BARTLETT, Texas, March 6.—Much excitement prevails here over an attempt last night between 8 and 9 o'clock to burn the Bartlett public school building. The incendiary tried to burn the building by setting up one of the metal screens over one of the windows, raised the sash and thus effected an entrance to the building. He placed some kindling, saturated with oil, in a closet under the stairs in the hall, lighting it and closing the closet door, which shut off the draft and undoubtedly saved the building by causing it to burn through the floor and side of the closet before going through top of the stairs and spreading all over the building before it was discovered. Mr. Tuttle, who lives just across the street, saw the fire and gave the alarm and taking some hose, he broke in the door, attached his hose to the hydrant and before the firemen arrived had the fire out.

Marshal Belk phoned to Austin for blood hounds and Deputy Booth of Austin and Sheriff Sampson Council of Georgetown were on the ground by shortly after 1 o'clock, but so many people had passed near the entrance that the dogs failed to track the trail. The officers are investigating the matter.

WISER CO. FARMERS TO REDUCE ACREAGE

Reports at Meeting Held in Decatur Show Decrease for Coming Season Will Be 25.5 Per Cent
DECATUR, Texas, March 7.—A mass meeting of the farmers of Wise county, held for the purpose of receiving reports from the different school districts of the county on the proposed reduction of the cotton acreage was held at the court house this evening.
Twenty-six reports were received, twenty of which gave statistics gathered from 422 farmers who last year planted an average of 18,255 acres, which they propose this year to reduce to 13,414 acres, a reduction of 25.5 per cent. These reports cover twenty out of over 200 school districts in Wise county. Only a comparatively small number of farmers were present. The mass meeting was immediately succeeded by a meeting of the Wise County Farmers' Institute. Vice President Gilliland presiding. The institute was addressed by Professor A. W. Carson, director of farmers' institute, Mr. Singleton, the hog raiser of McKinney and W. D. Bentley of Wichita Falls, in charge of demonstration work, under Dr. Knapp. Each recommended reduction of cotton acreage. Mr. Singleton advocated an increase in hog raising. Professor Carson preached diversification and upon request described the planting and culture of alfalfa. Mr. Bentley advocated extensive farming and state that quite a number of Wise county farmers had agreed to co-operate by planting and cultivating crops under the direction of Dr. Knapp, which work he will supervise.

It is stated by a London newspaper that a company has been formed to do up earth from Palestine in packets and to import them into the United States, labeled with an affidavit to the effect that the contents are guaranteed to be from the Holy Land.

LOOK GOOD FOR FARMERS

Americus Johnson Returns From Erath County With Encouraging Report

Americus Johnson has just returned from a trip to Hood and Erath counties and reports these counties in fine condition, with cattle and crop prospects never looking better than now.
Mr. Johnson says that the Farmers' Union members in these counties have agreed to reduce the cotton acreage 33 1-3 per cent and will devote more attention to planting small grain crops, such as wheat, oats, corn and milo maize.

Farmers, he says, began planting corn Monday. Wheat and oats are coming up and looking well. Grass is also coming fast.
Discussing the cattle losses during the bad winter weather, Mr. Johnson said that the farmers place their losses at not to exceed 2 per cent.

"The farmers in Hood and Erath counties are holding quite large amounts of cotton and in the towns of Granbury, Tolar and Bluffdale," said Mr. Johnson, "and have no disposition to sell until the price justifies such steps. Cotton seed is now selling in that part of the state for 19 cents per bushel."

A new bank is to be established at Granbury with a capital of \$100,000. The president is R. V. Brown of Cleburne, who is one of the heaviest stockholders. The subscriptions have all been taken and a fine new stone building to be used by the bank is to be constructed soon.
Mr. Johnson says that it has been years since that part of the state looked better.

RESCUE LEAGUE FORMED

Women of Cumberland Presbyterian Church Form Organization
Women of the Cumberland Presbyterian church of this city have formed an organization to be known as the Fort Worth Rescue League in order to extend a hand to fallen women. A preliminary meeting was held at the Cumberland Presbyterian church Monday afternoon at which Mrs. Eunice Caster presided. Mrs. John E. Lydick was appointed temporary secretary.
Committees on by-laws and nomination of officers were appointed and it was decided to meet again in the church at 3:30 o'clock next Monday afternoon. The meeting Monday was largely attended.

CINCINNATI BANK FUNDS \$55,000 SHORT

Currency Apparently Has Been Stolen From Vaults Since Dec. 13, 1904
CINCINNATI, March 7.—The German National bank in this city is \$55,000 short in government reserve funds, according to a story published here today. While this fund still contains much more money than the national banking laws prescribe, that amount apparently has been stolen from the special vaults, \$50,000 in bills and \$5,000 in gold.

On Dec. 13 the reserve fund was counted and found to be intact. Four weeks ago the shortage was discovered, and the most thorough investigation has been carried on ever since without result.
The German National is one of the strongest banks in this section, with a capital of \$500,000, a surplus of \$500,000, and undivided profits of \$157,196, and total reserves of nearly \$7,000,000.

The president said that it might be found later to be a mistake in bookkeeping.

To Be Engineer on Isthmus

AUSTIN, Texas, March 7.—Reaville Brown, son of Mr. and Mrs. J. A. Brown, well known and prominent people in Austin, has been appointed to a position in the engineering department of the Isthmian canal commission, and left last night for Colon, Panama, to take charge of his position.
Mr. Brown is a young man raised in Austin and a civil engineer of much prominence. He is a graduate of the engineering department of the Agricultural and Mechanical College. For one year he was city engineer of the city of Shreveport, La., and for three years has been in the engineering service of the Texas and Pacific railway.

YOUTH HURT AT PLAY

Thrown from Push Car on Street Car Line
Eugene May, an employe of the Luther Grocery Company, in West Weatherford street, was quite severely injured Sunday by being thrown violently from a push car on the Rosen Heights street car line. Young May, with several boys, was riding the car down a steep grade, when he lost control of it. The car rushed down the decline and finally jumped the track and threw May a distance of twenty feet. He struck on his face, which was badly lacerated, requiring the attention of a physician to sew up the gashes.
May is still confined to his room, but will be able to be out in a few days.

TO REBUILD DAM ACROSS COLORADO
Austin City Treasurer in Correspondence With Boston Men Concerning Plan
AUSTIN, Texas, March 7.—The meeting of the city council held last night disclosed the fact that for the past two months H. A. Wroe, city treasurer and vice president of the American National Bank of Austin, has been in correspondence with certain Boston bankers relative to the rebuilding of the great dam across the Colorado river which was washed away in 1906. The matter has been kept quiet and Mr. Wroe has been working on the matter himself with the result that it is more likely that it will result in the reconstruction of the dam.
Mr. Wroe appeared before the council last night and read several communications which he had written and received from the Boston bankers, who represent ample means to carry out any project they may undertake, and the trend of them show that the Boston people are in dead earnest and willing to place their money in any scheme which would guarantee them on the investment. The Boston people declare that if a united effort could be made with the citizens of Austin, it would result in a consummation of the plan. Mr. Wroe has advised them of the probable cost for rebuilding the dam, also a vast amount of data bearing on the resources, taxable values and other information relative to the city of Austin. It is figured out by Mr. Wroe that it would cost about \$400,000 to build the dam.

Have the Home Beer Pure

Whatever you drink outside, let your home beer be Schlitz. That is pure beer. No bacilli in it --- nothing to make you bilious.

Beer is a saccharine product, and germs multiply rapidly in it. The slightest taint of impurity quickly ruins its healthfulness.

We go to the utmost extremes to prevent that. Cleanliness is a science where Schlitz beer is brewed.

We even cool the beer in plate glass rooms, in nothing but filtered air.

Then we filter the beer. Then we sterilize every bottle.

And Schlitz beer is aged. The beer that makes you bilious is green beer.

When you order beer for your home, get the healthfulness without the harm. Get a pure beer - get an old beer - get Schlitz.

Schlitz logo and address: Phone 13, The Casey-Swasey Co., 1001 Jones St., Fort Worth. Includes a small graphic of a beer bottle.

Notice! To All Painters in Fort Worth...

In order that we might meet you personally, and tell you more about "PALACE CAR" HOUSE PAINT, we have bought 500 Putty Knives and will give them away FREE for one week only—Monday, Feb. 27 to Saturday, March 4—to all who will call and register his name and address—nothing more required.

WORLD-FAMOUS INSTITUTION.

A Center From Which Has Radiated Unmeasured Good Throughout The Wide World.

THE ELECTRIC CENTER.

Conducted on the most Modern and Scientific Principles. One of the Points of Interest on the Niagara Frontier.

In this age of wonderful discoveries and equally wonderful applications of those discoveries, the eyes of the world are directed to the Niagara Frontier. Here is the great center of operations in electrical science. Here the first attempt was made to apply to man's use the knowledge of one of nature's properties and powers, a knowledge that was wrested from nature by the brilliant minds and the studious thought of the world's leading scientists. The development of electric power at Niagara Falls is now something of an old story, and yet it is a story which is seemingly to have no end.

It is now perhaps fifteen years since operations were first begun by a corporation to develop on a large scale electric power for commercial use at Niagara Falls. The initial effort was to produce 50,000 horse-power. By the time that was successfully done it was found necessary to double the capacity of the first plant. This plant is located on the American side of the falls. On the Canadian side there are now under way the erection of three separate plants which will develop something like 350,000 horse-power. This product is being used and will be used in various ways. Great industries have been established at the falls as the result of this wonderful power, industries—some of them—that were unknown to man before it was possible to obtain electric power in practically unlimited quantities and at reasonable prices. Furthermore, this power is now transmitted successfully long distances, and the City of Buffalo uses it in many ways. It runs its street cars, it lights its streets, it runs thousands of its manufacturing plants. The day is coming when it will do more. Tesla, who made possible the transmission of electric power under high voltage for long distances, has made still further discoveries in this line, and he now promises that ere long he will be able to send practically unlimited power from Niagara to almost any part of the world for whatever use is desired. He is now talking about a \$2,000,000 plant at Niagara for this purpose.

All these things have made the Niagara Frontier the cynosure of the world's eyes, and Buffalo as the commercial center of that Frontier in receiving the attention due to it. Buffalo, however, is known to the world for other reasons. It is the second city in size in the Empire State. It is among the leading commercial cities of the world. It is the eighth in point of population in the United States. It is here that the most modern steel making plant in the world has been built. It is known far and wide as the city which held the most beautiful exposition that was ever conceived by man. It is known throughout this country, and in foreign lands as well, as the city in which is located an institution that is a household word throughout the land and as the point of manufacture of household remedies that have brought health and strength to thousands upon thousands of sufferers. This institution is the Invalids' Hotel and these remedies are collectively known as the "Favorite Prescription" and the "Golden Medical Discovery." Dr. Ray V. Pierce is the founder of this institution and he is entitled to rank as one of the world's great benefactors. Associated with him

A TRIBUTE Marion Frances Mitchell, Born April 8, 1891. Died March 5, 1905.

"There is a reaper whose name is Death, And with his sickle keen He reaps the hoarded grain at a breath, And the flowers that grow between."

Death never seems so malevolent as when he smites those "flowers that grow between." And when he chose little Marion he took one of the finest and sweetest buds.

How like a lily she was! The intuitions of her childhood ripening into the pulses of sweet maidenhood challenged the purity of the lily's white. Her simple, loving manner and her tender ways created an atmosphere to be likened to nothing so much as the fragrance of a flower.

"Consider the lily, how it grows." All her impulses were heavenly, her aspirations upward and as the lily transmutes the earth into its chalice of white, so she seemed to lift the common and material into the spiritual.

Her mind gave promise of rare brightness and the mastery of the accomplishments and graces of life would have yielded to that faithful persistency and capacity for patient endeavor which characterized her. She was indeed the promise of a noble character, the prophecy of a sweet, true womanhood, is it any wonder that her vacant desk at school caused the tears to flood again, and that with her away school association for many seemed incomplete?

We believe that she is only transplanted to that more felicitous clime where she ministers to and serves Him who said: "For of such is the kingdom of Heaven;" and whose image she so sweetly bore, And we—we count her very memory a blessing, a bit of exquisite harmony thrown into earth's discord to linger with us a sweet living inspiration to better and purer living.

SANTA FE GETS EXTENSION RIGHT

J. J. Roche Announces Completion of Arrangements for Louisiana Line

WILL REACH PINE COUNTRY

To Run From Kirbyville, Tex., to Alexandria, La., Through a Rich Section

J. J. Roche of this city, who has been absent from the city four months in the employ of the Santa Fe railroad company, has returned. He was seen today and states that he has been securing the right of way for an extension of the above road from Kirbyville, Texas, to Alexandria, La., a distance of 140 miles.

The right of way has been secured, said Mr. Roche, for the entire extension and the grade work completed from Kirbyville to the Sabine river, a distance of eighteen miles. Mr. Roche states that the laying of rails will commence at Kirbyville during the present month.

"The completion of this extension will prove a very valuable one for the Santa Fe," said Mr. Roche, "because it will penetrate one of the very best long leaf yellow pine sections of the state. Besides, geological investigation has shown that oil undoubtedly exists there. Thus far, however, no development of oil properties has been made, though they undoubtedly will be when the railroad has been completed through the district. The Santa Fe extension will connect with the Red river valley road."

CONDITIONS GOOD AMONG CATTLEMEN

W. P. Anderson Says Abundance of Feed Was Found During Storms

W. P. Anderson, live stock agent of the Pecos Valley lines of the Santa Fe, is here today from Amarillo headquarters. Regarding the cattle situation, Mr. Anderson said: "The general situation throughout the range cattle country from British Columbia to the Rio Grande, with the exception of a few localities in the southwest, have been every thing that could be expected. In the upper range country winter forage is plentiful, never light and dry, which therefore has invariably blown out and left the feed uncovered and generally accessible. Under these conditions, no matter how low the mercury gets in the thermometer, when the feed is plentiful, cattle come through all right."

"In the southwest, especially in the Panhandle of Texas, the weather was unusually severe, commencing on Jan. 9, for forty days. Three separate storms kept the ground pretty well covered nearly all the time; but fortunately there was but little wind and no drifting of either snow or cattle. In the brakes there was an abundance of natural feed, and up to the date mentioned cattle were never in better condition at the same time of year on the plains."

"The immense immigration to the forty-five counties above the quarantine line during the past few years has resulted in the growing of cattle feed in such abundant proportion as to make 70 per cent of cattle in the district mentioned accessible to feed. There is no country on earth where as much Kaffir corn, sorghum, etc., can be produced with the same amount of labor and with as much profit, from the fact that the home market consisting of the best stocked, best bred beef cattle in the country, demands feed for from three to five months every year."

In reference to the action of the Kansas legislature condemning by resolution Commissioner Garfield's report on the alleged 'dressed beef' trust, Mr. Anderson says that "whom the gods destroy, they first make mad," and that the action of the Kansas legislature, unless fortified with inside information, which is doubtful, makes them seem to act little like sane statesmen."

While Mr. Garfield's report might be elucidated, he says his report is as full and consistent as that reported by a United States Senatorial commission on a former occasion.

When Mr. Garfield says in his report that the profit on sales is 3 per cent, he says he "failed to state how often the value of money changed in the meat business, and how it has been made."

When Mr. Garfield says in his report that the profit on sales is 3 per cent, he says he "failed to state how often the value of money changed in the meat business, and how it has been made."

I was the recognized spokesman for the Chicago live stock market, one of the in-

State of Ohio, City of Toledo, Lucas County, ss.

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

Dr. BURKHART'S VEGETABLE COMPOUND WILL POSITIVELY CURE

Kidney and Liver Disease, Rheumatism, Sick Headache, Erysipelas, Scrofula, Catarrh, Indigestion, Neuralgia, Nervousness, Dyspepsia, Syphilitic Diseases, Constipation. 12,285,050 people were treated in 1903. 25c. All druggists.

Tonight Hood's Pills

Just before retiring, if your liver is sluggish, out of tune and you feel dull, bilious, constipated, take a dose of Hood's Pills. And you'll be all right in the morning.

Investments we argued favoring investments in the live stock industry was that the money was turned over every week, as against the grain market every thirty days, merchandise ninety days and the lumber business from six months to a year, the four principal branches of commerce which particularly distinguished Chicago while upholding the live stock market.

"When these comparisons obtained the money was turned over every week. Pork as soon as it went to the barrel was marketed and the increased weight by alkaline absorption paid insurance and storage. Now, it is estimated that the entire volume of the dressed meat money is turned over every ten days. On this basis the Garfield figures of 2 per cent profit would amount to 6 per cent per month or 72 per cent per year.

"But my experience has been that when every day writers begin to juggle figures, the figures they come up with, guess work seems to be the basis of the per centum references in the Russell articles in the Everybody Magazine, while to my knowledge the department of commerce has been more practical and thorough in acquiring information than any former investigation I have ever known of and good must come out of it."

No torture to that of a rheumatic. Prescription No. 2851, by Elmer & Amend, quickest relief of all. For sale by all druggists.

IN THE COURTS

W. L. Wood has filed a damage suit for \$1,600 against Jim Griffin and the Fidelity and Deposit Company, alleging in petition that agents for the defendants had on several occasions sold beer to the plaintiffs 14-year-old son. The surety company answered as guarantee on Griffin's license bond.

In the petition for damages it is alleged that beer was sold to Woods' son at a resort known as Russian park situated west of the city on the Henderson road.

Jim Griffin said this morning that he knew nothing of the case other than that Wood, the father of the boy, had been in company with him when he was the alleged sale of the beer last January.

"I cannot say whether the beer was sold or not," said Griffin, "as I rent the place at Russian park to other persons. The boy in question I have seen only in the lawyer's office, where I went with my father, who was endeavoring to get me to compromise."

COUNTY COURT The will of W. W. Flood was admitted to probate today and S. B. Bennett was appointed independent executor. The appraisers are Theo Mack, H. M. Chapman and Dell Modlin.

The application for guardianship in the estate of Mary E. Edwards was granted and the Independent Order of Oddfellows' lodge 251 was appointed guardian of the persons and estate. The bond was fixed at \$500.

Application for administration on the estate of Mary E. Edwards was granted and G. N. Thomas was named as administrator, his bond being set at \$1,000 by County Judge Milam. The appraisers are D. B. Buttrell, J. H. Board and E. D. Z. Thomas.

A motion to quash citation in the case of G. V. Wilson against the Houston and Texas Central Railway Company was sustained.

Similar action was taken in the case of E. W. Labor against the Houston and Texas Central Railway Company.

DISTRICT COURT On application of the attorneys for Nora Ferrell her bond of \$1,000 was reduced to \$750 by Judge M. E. Smith of the Seventeenth district court. The bond was given and the defendant released.

The bond of Lone Frank, charged with burglary, was fixed at \$750 by Judge M. E. Smith of the Forty-eighth district court.

IN JUSTICE COURT Dan Blier, who was charged with Sunday opening, was arraigned today in Justice Rowland's court.

Seven similar cases are to be tried in this court during the present week. Eight other Sunday selling cases are to be tried this week in the county court.

The state's attorneys claim that it is difficult to hold witnesses, as they leave the county. It is understood attachments are to be issued for several witnesses this week.

VITAL STATISTICS Births—To Mr. and Mrs. Cullen Grimes of 1309 East Eighteenth street, Fort Worth, a boy; to Mr. and Mrs. D. W. Bess of 114 Hemmet street, Fort Worth, a boy; to Mr. and Mrs. E. W. MRS. GLOVER ON WITNESS STAND

Wife of State's Witness in Warren Moore Case Testifies at Austin

Special to The Telegram. AUSTIN, Texas, March 7.—The star witness today in the Warren Moore bribery case, which is being tried before Judge Calhoun in the Fifty-third district court, was Mrs. Frank Glover, wife of Frank Glover, who has been on the stand for two days.

She testified that at one time Warren Moore called up over the telephone at her house, and supposing he was talking to Mr. Glover, said: "Calhoun tells me that McFall says that you are going before the grand jury. If that is so I don't want to be seen with you any more." She also testified about the trip taken by her husband to Waco, when he was pressing Moore to have the suits dismissed.

JUDGE MORRIS TESTIFIES Judge F. G. Morris, who was presiding judge of the Fifty-third district court when the Kirby cases were dismissed, gave testimony about the disposition of the cases. He told of pressure being brought to bear on him to dispose of the questions raised by motions filed in other anti-trust cases; that the Kirby cases had been dismissed because the court had no jurisdiction. He also stated that Wortham had talked to him about hurrying up the disposal of the Kirby lumber cases.

PAPERS MISSING NEW YEAR'S District Clerk Hart was called and identified certain records. His testimony disclosed that McFall got the papers in the Kirby Lumber Company case shortly after it was disposed of and that they had been out of the office for more than two years. McFall had sent them to an attorney at Dallas and having them returned when the grand jury met.

S. B. Kemp, a lawyer, testified that he heard Warren Moore say, speaking of McFall: "The buzzard... I reckon I ought to have divided with him." When asked, returned Judge Morris was still on the stand.

Yesterday's Testimony AUSTIN, Texas, March 7.—When hearing of the Warren Moore bribery case was resumed yesterday afternoon, Frank Glover was still being cross-examined by Judge Batts.

"When did you first come to an agreement with McFall and Wortham about giving testimony in this case?" asked Judge Batts.

"It was in one of the conversations with Mr. McFall after Mr. Moore had told me to go to see him. McFall told me the thing was to be brought before the grand jury and that he had nothing against the Austin people at all."

"Mr. McFall was going after Mr. Kirby?"

"He stated that the people who should be held for this wrong that had been done were ones who were at the head of it, who had held up the glitter of gold."

"He exonerated you and Mr. Wortham from that?"

"He said that he wasn't after any Austin people whatever."

"Were you down there when he undertook to hold up Mr. Kirby?"

"I never knew that he undertook to hold up Mr. Kirby."

"Were you with McFall in Houston at any time during December?"

"No, sir. He didn't tell me that he had had any talk with Mr. Kirby or that Kirby had ordered him out of his office. I heard something about this during the last few days. Now, really, I couldn't say from whom I heard it."

"Who was Mr. McFall purporting to represent at that time; he stated who the law was after and who else he was after; that he purported to be the representative of the law at that time?"

"He stated that he was going to have these suits reinstated and an investigation of the dismissal of them made by the grand jury. That conversation was in his office."

"Did you tell him all about this matter as you have to this jury?"

"I talked to him and found that he knew as much about this matter as anybody else. He stated that he wasn't after any one at Austin; no one at all."

"The purpose was to get everybody out of Austin out of it and to catch Mr. Kirby. That, I have already made clear. Now what I wanted to make clear was, did you ever tell him at any time about the facts of this case?"

"I don't remember that I went over it with him. I know I didn't fully. He told me that Governor Sayers had first brought the matter to light and had told it up in Gregory & Batts' office."

"What story did you tell him at that time?"

"I don't remember what I have told you. I virtually acknowledged these facts. There was no use denying the truth when it was held up against you. He stated that these things were going to be brought before the grand jury; that the information had been current talk on the streets for a long time; that Governor Sayers had found the charge in the books with this item in them; he had talked it over; he mentioned this charge in Gregory & Batts' office and Mr. George Allen had some reference to it on the streets, and he took hold of it and followed it up, and that he always thought there was something wrong about the dismissal of these suits and that he was going to have it investigated by the grand jury to reinstate the suits. He went on and told me about the check going through the bank, or something of that kind. He stated, as I have said before, that the Austin people he wasn't after; that the glitter of gold had been held up and that they had been tempted and that he didn't think that they were the proper people to suffer, and that he would see there wasn't any punished, provided they would tell the truth in reference to it. Realizing that he knew as much about the case as I did, I virtually acknowledged it to be facts, and that, so far as I knew, if it was brought up, that I would certainly tell the truth about it. He says: 'You tell the truth as you know it and you will not be harmed, nor none of the other Austin people.' We had a conversation there of some minutes. Possibly I told him more. I am sure that I did not go fully into a statement of the facts. I couldn't say how far I went. I couldn't tell you what McFall's official position was at the time. I didn't investigate to find out what right he had to make this promise. I think it was after this that Mr. Moore wanted me to see McFall. Prior to that time I had had no detailed talk with McFall about this matter."

Spring Attire For the LITTLE MEN

PARENTS' love for their children finds expression in what the little ones wear. Every fond parent delights in seeing the child ren dressed in a charming manner.

With this idea in view, we have given special attention to the selection of pretty and cute garments for the little chaps and many suits for the larger boys.

Two-piece Suits, single and double-breasted, \$3.00 to \$9.00

REAGAN BURIAL TO BE AT PALESTINE

Wish of the Widow Communicated to Members of Legislature at Austin

Special to The Telegram. AUSTIN, Texas, March 7.—A telegram was read today in the legislature from T. D. Reagan of Palestine thanking the legislature for its expression of sympathy in the death of Judge Reagan, and stating that it was the wish of Mrs. Reagan to have the interment in the family lot at Palestine. This settles the question as to where Judge Reagan's remains will be buried.

The house of representatives late yesterday adopted the following resolution by Messrs. McKinney, Terry, Kyle and Bowers:

"Whereas, The long public service to the state of Texas of Hon. John H. Reagan has endeared him to the whole people of the state, therefore, be it

"Resolved, By the house of representatives, that we respectfully request Mrs. Reagan and other members of his family to consent to the burial of his remains in the state cemetery in the city of Austin; that the legislature and the state of Texas may give him a state funeral and pay proper tribute to the distinguished dead."

"Resolved, That the speaker of the house forward this resolution by wire at once to Mrs. Reagan and request an early reply."

A concurrent resolution was adopted by the legislature today providing for the appointment of a joint committee, three from the senate and five from the house to attend the funeral of Judge Reagan, which will take place tomorrow afternoon at Palestine. The senate adopted a resolution providing that the senate attend the funeral in a body, and when the senate adjourns today it will be until Thursday morning. A resolution was adopted in the house

COMMISSION DISSOLVED

ST. PETERSBURG, March 7.—The Shilovski commission, appointed to ascertain the causes of discontent among the working people of St. Petersburg, has been dissolved by an order of the emperor.

The official communication explains this action is due to the impossibility of proceeding with the proposed plan in consequence of the refusal of the workmen to elect representatives to the commission.

The minister of ways and communications directs the employes in the workshops of the state railways to elect representatives to present their needs to the manager of the shops.

LODZ, March 7.—The police have arrested a dozen prominent lawyers and doctors on the charge that they have been stirring up the Polish language agitation at the schools.

WARSAW, March 7.—The strike of the house servants here
