

SHOE FACTORY BOILER BURSTS KILLING FIFTY

Plant at Brockton, Mass., Collapses After Explosion Burying Employes in the Ruins—Many Bodies Recovered

FLAMES BREAK OUT AMONG THE RUINS

Heat So Intense Firemen Are Compelled to Abandon Injured—Employes on Three Stories Fall With Building

BROCKTON, Mass., March 20.—A boiler exploded at the R. V. Grover shoe factory here today and it is reported a large number have been killed. The report is believed to be based on the fact that seventy-five persons were unaccounted for after the explosion. It is expected after the excitement is over many of the missing ones will be accounted for.

The entire Grover plant has been destroyed by the fire, which spread to the adjoining business structures and private residences.

The boiler which exploded was located on the ground floor in the east part of the four-story wooden Grover factory. When the explosion occurred that part of the factory directly above collapsed. How many employes in this section succeeded in escaping is not known. A moment after the explosion fire broke out in the wreckage.

A canvass completed at 9:30 o'clock showed fifty employes missing. The fire was still burning fiercely and was not under control, though it had not spread within the previous fifteen minutes.

TWENTY-FIVE BODIES RECOVERED

Twenty-five bodies had been taken from the ruins up to 11:30 o'clock. Many of them were so badly mutilated and burned as to make identification difficult, if not impossible. The financial loss is estimated at \$200,000. Two of the injured from the fire have been brought to Brockton hospital. They are:

Andrew Lundell, leg fractured, burned about the face and hands.

Elmer H. Dolge, compound fracture of the leg, severely burned about the face and hands.

The boiler which exploded was located on the ground floor of the ell, which extended from the building. In three stories of the ell were work rooms. Persons living in the factory were in the ell, and saw a cloud of smoke rising and all of the factory falling to the ground. Flames burst from the ruins, spreading quickly to the main structure, which in a few minutes was a roaring furnace. Most of the employes in the ell were killed.

The plant succeeded in escaping, although in the terrible panic which followed the explosion quite a number were injured. The Grover factory was situated at the corner of Main and Calmar streets, in the Campbell district, about a mile south of the city hall. The district is within the city limits of Brockton. A series of alarms summoned all the fire departments in the city and aid was also sent from nearby places. Heat of the fire was so intense the work of the firemen and police was carried on under great difficulties. Their attention was chiefly given to the Grover building, especially that part which was nearest the boiler house, and in the early stages of the fire a number of employes were extricated from the ruins. The flames, however, soon stopped the rescue work. Tons of water were poured on to the ell, but the fire from the main structure became too hot for effective work and the entire plant, with those who failed to escape, had to be abandoned.

Meanwhile the news of the accident reached the homes of the operatives and through crowds were already near the burning factory men and women struggled wildly toward the center to get news of relatives. Cries, which were heard above the roaring of the flames, came from frantic women as they learned that there was little hope for any one caught in the ell of the building. When the flames reached the Dehburgs block even the firemen were obliged to retreat temporarily, and it was feared a large section of the city would be obliterated. The occupants of all these buildings had little time to save the effects. Some barely escaped themselves.

Reinforced by the arrival of other apparatus, however, the department made a fresh attack and after a hard struggle succeeded in checking the flames.

ELECTRIC SHOCK KILLS TRAINER

WACO, Texas, March 20.—John G. Nelson, a trainer of wild animals, was fatally killed here yesterday. 9,000 volts from electric light wire passing through his body. He belonged to a carnival company, which had been in this city several days, occupying tents on the public square. After show hours Saturday night the work of removal commenced, Nelson taking part in pulling down a high dive tower, one of the supporting wires of which came in contact with a wire conveying electricity to the lamps in the tower of the city hall. The young trainer was drawing down the guy wire when the contact occurred and he sank to the ground, groaning in agony, which was quickly relieved by death. The funeral took place Sunday, the local lodges of Eagles and Red Men attending.

John G. Nelson was known throughout the United States as a trainer, having been a specialist in educating ponies and dogs. He was 25 years of age, and leaves a wife and child. The remains were sent to Iowa for interment.

Said to be Planning Bull Campaign to Recoup Fortune Lost in Cotton

Snapshot of Daniel J. Sully, one-time cotton king, who has been declared free of his debts by the court of bankruptcy. Sully, it is said, is about to inaugurate another bull campaign in cotton in the hope of regaining his fortune.

EVERYTHING READY FOR ANNUAL FAT STOCK SHOW

Judging Will Begin Tuesday Morning—Auction Sales Wednesday Afternoon

The National Breeders' and Fort Worth Fat Stock Show, held in conjunction with the Twenty-ninth annual convention of the Texas Cattle Raisers' Association, will open at 9 o'clock Tuesday morning. At that hour the judging of single steers, both Hereford and Shorthorn, will begin. This will be followed by the judging of the registered breeds, beginning with aged bulls. The hours of the show will be from 9 until 12 in the morning and from 1 until 6 in the afternoon.

Tom Clark, a famous breeder of Beecher, Ill., will judge the Hereford entries, while the Shorthorn cattle will await the decision of Martin Flynn of Des Moines, Iowa, an equally famous breeder of that state.

AUCTION SALES WEDNESDAY

Auction sales of Shorthorn cattle will be held Wednesday afternoon, March 22. Hereford sales will take place Thursday afternoon.

At the stock yards this morning the fine cattle were arriving at all hours and being taken to their pens, where they were brushed and washed in preparation for the coming show. Shorthorn cattle are being housed in the horse and mule barns, to the east of the show building, while the Herefords are being placed in the hog sheds to the west. Northern cattle are penned in the rear of the show rings.

It is impossible to estimate the number of fine cattle registered stuff was arriving morning, as registered stuff was arriving by wagon and train at all hours. All cattle will be on the grounds by this evening. Sterling P. Clark, secretary of the Texas Hereford Breeders' Association, said this morning that this year's show would be the finest ever held in this city, surpassing all previous ones, both in the number of cattle shown and in the quality of the animals.

The Fat Stock Show committee is jubilant over the outlook and predict the auction

tion sales this year will break all previous records.

SHORTHORN BREEDERS TO MEET

The Texas Shorthorn Breeders' Association will meet in the Board of Trade rooms Tuesday evening, B. E. Paddock, secretary of the Board of Trade, will welcome the visiting stockmen and J. F. Green of Gregory, Texas, will respond. Business of the association will then be transacted and officers for the year elected.

The Texas Hereford Breeders' Association will meet at the Worth hotel Wednesday evening. Officers for the ensuing year will be elected and general business of the association transacted. Colonel B. C. Rhome of this city, president of the association, will preside at the meeting.

At the show Tuesday Hereford cattle will be shown in the east end of the ring and, Shorthorns to the west. The show building is almost opposite the Live Stock Exchange building, east of the horse and mule barns and has been specially constructed for the purpose.

To make final preparations for the show the Fat Stock Show committee will hold a meeting in the Board of Trade rooms this evening. Judges for the beef cattle, which as yet have not been selected, will be chosen at the meeting.

MAYOR MARRIES TO ESCAPE \$200 FINE

GOWRIE, Iowa, March 20.—In the early part of last year Mayor Sorber decreed that every old maid, bachelor, widow or widower refusing an offer of marriage during leap year would be fined \$5 to \$20, the money to go to the public library fund.

Mayor Sorber was himself a bachelor and within a short time propositions from marriageable females began rolling in. Each offer was refused and on one pretext or another the mayor kept postponing the fines which the public declared should be assessed again him.

On New Year's Eve a committee of citizens waited upon the mayor and informed him that for ten Gowrie women whose hands he had refused he was fined the limit, aggregating \$200. The mayor asked for a stay of thirty days and it was granted on condition that he give a bond for the amount, which he did.

Saturday Mayor Sorber married Lillian Cooper of St. Louis.

JAPS PRESSING FURTHER NORTH

Dispatch to Legation at Washington Reports Capture of Kaiyuan

RUSSIAN GUNS CAPTURED

General Linevitch Fails to Hear From First and Third Armies

WASHINGTON, March 20.—The Japanese legation today received the following telegram from Tokyo: "At 4 a. m. on March 19 our detachment occupied Kaiyuan, 20 miles north of Tie Pass. The enemy afterward attempted a counter attack but was repulsed. The enemy burned bridges on the main road south of Kaiyuan and also destroyed a part of the railway bridge. A number of Russian guns were found buried near Mukden."

Only Second Army Reports

ST. PETERSBURG, March 20.—A dispatch from General Linevitch dated March 19, 9 p. m., says: "The commander of the second army reports he has had no further fighting. No reports have been received from the first or third armies. I have inspected the troops which arrived from Russia. They are in excellent spirits and good health."

CONGRESSMAN SAYS PACKERS WROTE HIM REGARDING PROFITS

O. W. Gillespie, Back From Washington, Talks of Garfield Trust Report

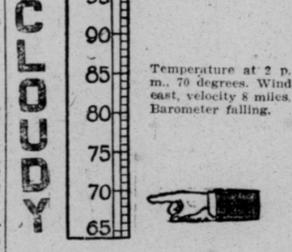

DOUBTFUL OF OUTCOME

Congressman O. W. Gillespie, who has been back from Washington two weeks, was seen today and said when asked what he thought of the Garfield report on the beef trust proposition, that it was a difficult matter to say what the outcome would be in the matter.

Congressman Gillespie said that while in Washington he had received a letter from the Swift Company with reference to the investigation, giving him data regarding the matter of their profits in the packing business. The letter, he stated, contained the statement that the profit of this company was only 2 per cent, but whether that meant 2 per cent profit on the money invested in cattle each time it was turned over or whether it indicated the profit annually on the investment, he was unable to say. He replied to the Swift letter that if this was the case he wanted to know why it was that these facts were not given to the public, so that the situation would be thoroughly comprehended by the people in general. To this no reply was received.

"The combined wealth of the United States is a menace to the country," said Congressman Gillespie, "but there is no way to prevent it. The business is legitimate and the fact that immense wealth is able to combine hurts the country and prevents the smaller concerns from succeeding. With this great combination of money the larger concerns are satisfied with very small profits, which cannot be made with the companies who have smaller capital. We give too much power to the consolidation of immense wealth, which fact is gradually ruining this country. What the outcome of the present investigation will be, I am unable to say at this time."

THE WEATHER SPOTTER

WASHINGTON, D. C., March 20.—The forecast.

East Texas (north)—Tonight, increasing cloudiness, probably showers in west portion. Tuesday, cloudy weather in east portion, showers in west portion.

East Texas (south)—Tonight and Tuesday, partly cloudy weather, light to fresh southerly winds on coast. Arkansas—Tonight and Tuesday, unsettled weather and probably showers. Oklahoma and Indian Territories—Tonight and Tuesday, showers.

CATTLEMEN COMING FOR BIG CONVENTION

Secretary J. T. Lytle in Room Where Cattle Raisers Committee is Meeting

DELAYED MESSAGES TELL HORRORS OF BATTLE WHICH KVROPATKIN LOST

Troops Engaged at Beginning of Struggle Totalled 700,000, With Russians 80 Battalions Stronger Than Enemy

ST. PETERSBURG, March 20, 1:30 p. m.—A sheaf of belated Associated Press dispatches, filed at Mukden, Tie Pass and Kaiyuan reached St. Petersburg last evening, having been discovered among other papers committed to the censor at the front, where they had lain from a week to twelve days. Writing under date of March 8 the correspondent mentions that General Kurapatkin's satisfaction with the situation had steadied and encouraged the army that after eight days the wounded, exceeding in number those of the battle of Liao Yang were crowding the station and the Russian settlement and in the settlement cemetery chaplains were conducting funeral ceremonies.

A few quotations from the correspondent's notebook indicate the gruesomeness of the scene.

"Everywhere are the pale faces of corpses sleeping among the dead horses, slaughtered animals and abandoned quarters of beef. Bloody bandages, which had fallen off, strew the roads. There is bursting shrapnel everywhere, six horses were killed a hundred feet away. A wagon train ahead has stopped and two soldiers are quarreling plaintively about horse feed. Dead and wounded are passing on the shoulders of soldiers or in mule litter, carts, wagons or Chinese vehicles. Here one Russian and one Japanese wounded, side by side, feed each other; here lie seven little Japanese wounded, to whom big Russians are kindly attentive. In the soft sunshine grave-diggers are at work on all roadways. Japanese officers, who had been taken prisoners, are seen in the streets of the settlement. Everywhere are evidences that the two great armies have come closer to hand grips than ever before."

In the concluding portion of a dispatch from Tie Pass, the first of which was published March 11, the correspondent states that according to information the Japanese strength in Mukden was eighty battalions, less than that of the Russians. The Japanese also were inferior in guns at many places. The number of men at the beginning of the battle was 700,000, manning the greatest fire works ever constructed. Not only in duration and the number of troops and guns engaged did the battle exceed all of former contests, but also in expenditure of ammunition, the accumulated stores of which were so enormous that after a continuous artillery fire of ten days both sides were still able to continue.

Describing the retreat the dispatch pictures debris distributed all along the roads, the soldiers increasing their supplies by spearing bread or fruit carried in heavy boots, Chinese garments, knapsacks and blankets. The correspondent then continues:

"After the initial excitement at Tava, where a few wagons plunged, without reason, over impassable gulches, the entire body arrived at the steep banks of the Pu river, where heavy artillery hastened down upon the water-covered ice, which slowly gave way, and tremendous exertion was required in getting the guns out and up the further bank, the men in the little gorge getting into a white heat of excitement.

"The passage of a division through the retreating column en route to the

southwest to strengthen the right flank gave confidence of short duration, for Japanese cavalry, breaking through above Tie Pass, overtook us at Santaitze. The road and fields are so formidable that it is impossible to see a hundred yards. Japanese grenades gave the initial position of shrapnel and with riflery set the jammed mass into confusion. Daybreak disclosed the plain covered with riderless horses, horseless vehicles, fragments of harness, heaps of stores and furniture. Night found the army bravely bivouacking in the bare plains swept by a cold wind with not a solitary dugout to shelter them, but preparing a new position."

Under date of Kaiyuan, March 13, the correspondent says:

"The Russian army east of the point where the Japanese pierced the line at Santaitze was entirely unaffected by the confusion during March 10. Fully two battalions of mixed troops escaped north by rail and were found at Ganshu Pass, 165 miles northward.

"The Japanese in battle employed phenomenal innovations unknown to European military practice, showing that they are not mere copyists. One Japanese detachment had the Russians beaten near the northern tombs and could have entered Mukden two days earlier, but retreated.

"When the army arrived at Tie Pass everything was inadequate to the wants of the occasion. The city was filled with troops, crowding every available space and even now there is nothing better to accommodate the army."

RUSSIANS TOO HAUGHTY

Reserve Regarding Peace Proposals Deprived Them of Loan

PARIS, March 20.—It is said that the failure of the French bankers who visited St. Petersburg to carry out the projected loans was due to the haughty refusal of the czar's ministers to make any definite statement regarding peace eventualities. Your correspondent is able to state that before the committee left St. Petersburg the czar himself had been mixed up in the affair, but he gruffly dismissed the committee when its position became clear, without a word concerning the intentions of Russia.

Baron Hottenguire, vice president of a prominent Paris bank, said:

"Supposing the present Manchurian army were disastrously defeated, our situation would be exceedingly embarrassing. On the one hand it is impossible now to loan the money with reasonable hope of success; outward appearances would indicate to the uninitiated that Russian bonds are as good as gold throughout France. There can be no doubt that if the French bankers floated this loan under present conditions they would betray the public and possibly cause a frightful panic."

"What effect this decision will have on Russian rentes remains to be seen. The determination to continue the war in the face of certain disaster which as yet has not been communicated to the public. Meanwhile Foreign Minister Del Casse is quietly working for peace in his own way."

City Already Thronged With Advance Guard of Delegates to Texas Cattle Raisers' Association's Annual Meeting

FEEL ENCOURAGED OVER GOOD PROSPECTS

Spring Rains, Light Losses and Better Prices Cause General Satisfaction—Prospect for Trading Seems Dull

- PROGRAM OF TUESDAY'S EVENTS
- Texas Cattle Raisers' Association convention called to order at Greenwall's opera house at 10 a. m.
- Prayer, Rev. William Caldwell.
- Address of welcome, Geo. Powell.
- Address of welcome, Geo. Thompson of the Board of Trade.
- Response, R. D. Gage, Pecos, Texas.
- Address of President W. W. Turney, El Paso, Texas.
- Report of executive committee.
- Fort Worth Fat Stock Show.
- Open at 9 a. m. at Fort Worth stock yards to 12 noon, and 1 p. m. to 6 p. m. Judging of single steer entries, both shorthorns and Herefords, and aged bulls.
- Night meeting Texas Shorthorn Breeders' Association, Board of Trade.
- Florence Roberts in "Marta of the Lowlands," opera house.
- Riding and roping contest, Haines park.

Cattlemen are very much in evidence in Fort Worth today. The morning trains were crowded to the very guards, and the number here a day in advance of the regular annual meeting of the Texas Cattle Raisers' Association, which opens Tuesday, would seem to indicate a record-breaking attendance. It is variously estimated that the number already in the city will aggregate from 3,000 to 5,000, and when the night and early morning trains reach the city the number will be augmented by several thousand more.

Many of the old familiar faces seen at these annual meetings of the cattlemen are still here, but some of them are missing. The ranks are being decimated annually, and new faces are appearing where the old ones were formerly seen. But they are all cowmen, and people dear to the Fort Worth heart. They are here of all ages, from the gray and grizzled veteran to the youngster who is perhaps attending his first convention, and they are all delighted to again be accorded the privilege of meeting in Fort Worth.

Cattlemen Encouraged Over Outlook for Range

There is more of a feeling of buoyancy manifest among these cowmen today than when they were with us one year ago. There is unquestionably a better feeling for among them, and this is accounted for in a great measure by the excellent range conditions that are prevailing throughout the state. Cattlemen all tell practically the same story. There has been an abundance of fall, winter and spring rains, and grass is already coming out in the range country, and this is from thirty to sixty days earlier than usual. Last year at this time dry weather was prevailing over the major portion of the range country and the outlook for grass was so poor that many ranchmen sold their stuff at regular bargain counter prices. This year it is different, for the outlook for grass is universally reported the best the country has known for twenty years.

"The cattlemen are not talking much of the losses that have occurred as a result of the February bad weather. In some portions of the state the loss was quite heavy, but it is safe to estimate that for the entire state it was not over 3 per cent. Among the large herds on the range in the Panhandle country, losses have in some instances gone as high as 5 per cent, but that was the exception and not the rule. Too many ranchmen have learned the wisdom of feeding their stuff for Texas to ever suffer from losses in the future as she has in the past.

Trading Yet Undeveloped. Supply of Steers Scarce

The matter of spring trading has not fully developed yet. There will be some trading done during the time the cattlemen are rubbing elbows, but it will probably not approach the magnitude of former dealings at these conventions. There are several reasons for this. In the first place, Texas has not the usual amount of stuff to trade on, and there is a noticeable falling off in the number of northwestern buyers who formerly attended these big Texas annual meetings. Tomb, Shy, deliques and others from the northwest are here, and will do some trading if figures are right, but there is the usual impediment of figures not being exactly right.

A. B. Robertson of Colorado City, president of the Colorado National bank, and generally conceded to be one of the best informed cattlemen in the state, arrived this morning. Mr. Robertson says he thinks there will be some trading done, but so far there is a marked divergence in the matter of prices, the northwestern men being disposed to ask too much of a price last year ranged from \$12 to

AMUSEMENTS

FLORENCE ROBERTS Florence Roberts and her company, including Melbourne MacDowell, will be the attraction at Greenwall's opera house tonight on which occasion "Zaza," a comedy-drama written by David Belasco, will be presented. Her engagement here is for four nights, with a special matinee Thursday. The plays to be presented are: Tuesday, "Martha of the Lowlands," Wednesday night "Tess of the D'Urbervilles," Thursday matinee, "Zaza," closing the engagement Thursday night with "A Doll's House." The press and public of the south all speak the highest of praise for Miss Roberts and no doubt she will be greeted in Fort Worth with the same excellent audience she has met elsewhere. Of the many excellent criticisms she has received we clip the following from the Topeka Daily-Capitol: "Those who saw Florence Roberts in 'Zaza' last night will wonder that the Pacific coast has kept this actress so long to itself. When the news that the coast people considered her the equal of Mrs. Carter and preferred her to Mrs. Flske came to Topeka certain 'guys' wise of theatrical knowledge treated it with supercilious contempt. It is pleasing therefore to say that Miss Roberts achieved last night the greatest personal triumph tendered any actress who has visited this town in years. Mrs. Flske's welcome was weak and colorless beside it. No other has approached it. "It is a pleasing task to write the kindly word. By this token any mention given Miss Roberts or her supporting company must be the merest recreation. For it was a production artistic to the most trifling detail of a great play superbly acted. We had had nothing better in three seasons and only a very few offerings that have approached it. And if one would express surprise that the Pacific coast had succeeded, so to speak, in 'booting up' Miss Roberts for so long, he must express equal surprise that the same cork has held down Lucius Henderson, William Yerance, Miss Georgia Woodthorpe and others of the supporting company. "Miss Roberts has, perhaps, no greater power of personal beauty. Nature has laid beyond the age at which youth makes its strongest appeal. In fact, she is not unlike Mrs. Carter in personal appearance—a limited de luxe edition of the actress she is following in 'Zaza.' And yet there is absolutely nothing in her work that suggests Mrs. Carter. She plays 'Zaza,' not as Mrs. Carter played it, but as Florence Roberts would have played it had Mrs. Carter never been. And she makes it so wonderfully convincing, so wonderfully true—she draws the life she pictures with such great fidelity that it is with great surprise that one awakes to find himself at the theater. "A line will suffice for the play. It was Mrs. Leslie Carter's second strong bid for fame. It is not a thing for the Sunday school class nor for people who habitually go to bed at 9 o'clock in the evening. To such as these the pace is a trifle fast, the society not especially desirable. But those who like to be present when the greatest theme in the world is dissected will find 'Zaza' a very clever and interesting surgical operation. "Some mention has been made of the excellence of the supporting company. It is twenty-five strong—too strong numerically for personal mention of all those who contribute. And yet most of them are quite worthy of mention. If there is to be a pinning on of blue ribbons, the ribbons should go to the trio mentioned in the same breath with Miss Roberts. "Miss Roberts is the wife of Lewis Morrison, whose 'Faust' is one of our American things. In the company, but not in

My Offer to Kidney Sufferers

I Will Give You a Full Dollar's Worth of My Remedy Free to Try Without Cost or Deposit or Promise to Pay

I could not make this offer—a full dollar's worth free—if mine were an ordinary kidney remedy. It is not. It treats not the kidneys themselves, but the nerves that control them. The cause of kidney trouble lies ALWAYS in these nerves. The only way to cure kidney trouble is by strengthening and vitalizing and restoring these kidney nerves. This is exactly what my remedy—Dr. Shoop's Restorative—does. Therefore I can make this offer with the certain knowledge that every kidney sufferer who makes this trial will be helped. When I say "nerves," I do not mean the ordinary nerves of feeling, thought, action. I mean the automatic nerves, which night and day, unguided and unseen, control and actuate and operate every vital process of life. These are the master nerves. The kidneys are their slaves. Your mind cannot control them. Your will cannot sway them. Yet when they are strong, you are well; when they are not, you weaken and die. I have written a book on the Kidneys which will be sent when you write. This book explains fully and clearly how these tiny, tender "inside" nerves control not only the kidneys but each of the other vital organs. I have made my offer that strangers to my remedy may know. It is not intended for or open to those who have used my remedy. They need no further evidence. But to those who have not heard, or hearing, may have delayed or doubted, I say "simply write and ask." I will send you an order for which your druggist will hand you a full dollar bottle—and he will send the bill to me. There are no conditions—no requirements—simply write me today.

For a free order for a full dollar bottle, address Dr. Shoop, Box 5863, Racine, Wis. State which book you want. Book 1 on Dyspepsia. Book 2 on the Heart. Book 3 on the Kidneys. Book 4 for Women. Book 5 for Men. Book 6 on Rheumatism.

Mild cases are often cured by a single bottle. For sale at forty thousand drug stores.

Dr. Shoop's Restorative

the cast last night, is Melbourne MacDowell, whose name recalls Fanny Davenport and Cleopatra and 'La Tosca.' MacDowell will play tonight when 'Tess of the D'Urbervilles' will be the bill. Why the company jumped 900 miles to play a two night's engagement in Topeka is a mystery, but not one with which we need concern ourselves. The important thing is that it came and gave the town something really worth while. The attendance last night was not especially encouraging to the man in the box office, unless he can cash in the five curtain calls after the fourth act. "SLEEPING BEAUTY AND THE BEAST" The most stupendous production of its

kind in America, 'The Sleeping Beauty and the Beast,' presented at Greenwall's opera house Friday and Saturday nights and matinee Saturday, March 24 and 25, and from the outlook large business is assured. This piece hit the popular fancy from the start and its success has more than fulfilled expectations. Its many beautiful scenes, presented with a wealth of gorgeous costumes, novel electrical and calcium effects, unique mechanical surprises, have proven a revelation in stage triumph. From the time the curtain rises until its final fall the audience is given a glimpse of fairyland, while the everchanging and varied scenes make a panorama of indescribable beauty and great scene of the piece, and which has created a sensation is the fourth scene in the second act, entitled "Beauty's Awakening," a "Dream of the Year," in which the ballet of the "Four Seasons" are presented. The flight of these beautiful young girls is bewildering and mystifying and makes a novel finale to this great scene in which are also introduced the corps de ballet and the entire company, numbering over two hundred people. Aside from the spectacular phases, "The Sleeping Beauty and the Beast" is a bright, novel and pleasing entertainment, full of surprises, laughable situations, good comedy, sweet and catchy music and excellent specialties. The comedy roles are in the hands of well known artists, who are supported by a host of pretty girls.

White Whittlesey, the young romantic actor, who will be seen here in the "Soldier of Fortune," is playing under the management of Belasco, Mayer & Price. The repertoire of White Whittlesey for the tour consists of "Soldier of Fortune," "The Second in Command." Two special cars are required to transport the scenery and stage accessories of the company, which numbers twenty-five well known people.

THE MAN ABOUT TOWN

"A traveling man far away from home and with nothing to do on Sunday is not the happiest man in the world," said R. P. Keyes, who represents an eastern firm, at the Metropolitan hotel Sunday evening, "so between reading and walking around we have a hard time to spend the day. I have just returned from a walk with a chance acquaintance who travels for the Chicago house. We have spent several hours on the two principal business streets and most of that time we put in looking in windows. "The windows of the stores in this city," continued the speaker, "are away ahead of any seen in Lower many times as large as this. Merchants here seem to take a particular pride in their decorations. Both my friend and myself were surprised to see such fine displays. Undoubtedly many of the windows are special efforts for the cattlemen, but whether they are or not they were so excellent in appearance that I am afraid that if it had not been Sunday I should have been tempted to spend a month's salary in buying some of the many nice things shown. Those windows are simply superb and show as much as anything that your merchants are up and coming."

Carlton King of Denver is in the city to attend the Cattlemen's convention. King has had an opportunity to visit the southwest for a number of years and in speaking of the many changes seen since his last visit to this city at the Worth Sunday evening he said: "I have liked more here anything like the way this state and your city have grown. Where a few years ago there were no buildings on your main streets or just little shacks today there are handsome and modern buildings, which attract the attention of one coming to your city and impress upon them at once the metropolitan air the city has. Fort Worth is assuredly up and coming."

"I have not attended the convention in this state for a number of years and now I really begin to realize what I have missed. There is always a fine class of people attending the conventions and as good and hearty a lot as one can find. To come to Fort Worth has in the past always been a pleasure and as long here as there is a cattlemen's convention held in this city I shall certainly get here if there is a possible way of doing so."

COLDS LEAD TO PNEUMONIA Laxative Bromo Quinine, the world wide Cold and Grip remedy, removes the cause. Call for the full name and look for signature of E. W. Grove. 25c.

ELECTION PROCLAMATION By virtue of the power vested in me by the charter of the city of Fort Worth, Texas, I hereby call a general election to be held in the city of Fort Worth, Texas, on the 4th day of April, 1905, for the purpose of electing a city marshal for the city at large, and an assessor and collector for the city at large.

Polls will be open during the legal hours for holding elections. First Ward—Joe Lahey, presiding judge; polls at Manson hotel. Second Ward—B. M. Harding, presiding judge; polls at court house. Third Ward—R. Chambers, presiding judge; polls at Huffman's stable. Fourth Ward—S. T. Bibb, presiding judge; polls at city hall. Fifth Ward—Joe Poythress, presiding judge; polls at fire hall. Sixth Ward—W. P. McLean Jr., presiding judge; polls at fire hall. Seventh Ward—H. L. Calhoun, presiding judge; polls at Magnolia and South Main streets. Eighth Ward—R. M. Erwin, presiding judge; polls at Magnolia and Hemphill streets. Ninth Ward—C. T. Prewett, presiding judge; polls at court house.

MOORE-BENNETT J. C. Moore and Mrs. M. E. Bennett, both of this city, were married Sunday evening in the parlors of the First Baptist church by Dr. Luther Little, the pastor. Mr. and Mrs. Moore will be at home to their friends, at 611 Grove street.

"IS GOING TO CHURCH A DUTY?"

Rev. Limbaugh Discusses the Question From Unitarian Standpoint

CHURCH IS FOR CHARACTER

Those Who Would Give Help to the World Must Help the Church

At the Fort Worth Unitarian church Sunday morning at 11 o'clock Rev. D. C. Limbaugh, the pastor, spoke on the theme, "Is Going to Church a Duty?" Mr. Limbaugh said:

"The text is, 'None of us liveth to himself and no man dieth unto himself.' Romans, 14:7. "Duty means that which is owed. It implies an obligation which must be met. It is that which ought to be done. It is that which is due and ought, so far as possible, to be paid. The nature and extent of our obligations to our fellow men are too little and too inadequately considered, too lightly thought of and too imperfectly observed. Men and women live to find pleasure, to acquire and enjoy happiness, rather than to perform duty by means of which character is developed in themselves and inspiration given for the development of the same in other people. THE DEBT TO HUMANITY

"How much and what do I owe to humanity? Literally, everything that I am and everything that I have. So true is this that a man has a right to say he will do what he pleases with his possessions, his time or his powers. I have come into the possession of what I have and what I am by inheritance. Whatever strength and beauty of body I may possess has come to me because of the obedience and conformity to natural law by my ancestors. Whatever unusual brain power may be possessed by you and me has come to us also by inheritance. Brain cells have been built up by the intellectual effort of our ancestors just as truly as the cells of the lungs have been increased and strengthened by physical effort. Our consciences, our moral natures, our religious impulses and aspirations, have all come to us as a result of the struggle of our ancestors with the ethical, political and moral questions. Religion, political, intellectual and scientific freedom and liberty has each come to us as inheritance, as the result of our father's efforts. Whatever business capacity and shrewdness we may manifest in accepting opportunities came to us by inheritance and so have all the modern equipments for the transaction of business. So our conclusion is that there is nothing that we are or have that we do not literally owe. We cannot say we can and will do as we please with what we have and with what we are. "Now, let me ask, what is the highest service we can render a person? We may make such provisions for a child as to that way do him a service, but the highest service rendered in such relation would be to so awake the intellectual and spiritual consciousness of the child that he will rely on himself in providing for his material wants and develop his own moral and religious aspirations. A beggar may have bestowed upon him a curse instead of a blessing by indiscriminate charity."

MAN'S HIGHEST OBLIGATION "Let me ask in this connection, what is the highest obligation resting upon man? In a word, the answer is, to be a man is to be what he was intended to be. Man is more than animal, he is more than intelligent, he is more than esthetic and artistic. Herbert Spencer says in his last published work that moral character does not necessarily follow intellectual culture; that intellectual development is not enough. Every creature ought to be what it can be. A song bird was made to sing, a race horse to run, a dray horse to draw, a pointer dog to point and a setter dog to set. Man is not merely animal, intellectual and esthetic. He is first and last and all the time characterized as a soul, as a spiritual being, and the highest and grandest qualities of soul-life are love, sympathy, tenderness, pity and helpfulness. At last the standard of measurement of the manhood of a man is human sympathy and human helpfulness. A man ought then to come up to and live in the spiritual ranges of his being. "Man cannot find a field for the exercise and display of these grand spiritual qualities except in relation to his fellow man. He must stand in vital relation to his fellow men that he may find a field for the highest spiritual faculties of himself—love, sympathy, tenderness, pity and helpfulness. "Now let me remark that the church in its highest and noblest conception is the only institution that stands exclusively for the cultivation and unfolding of these divine powers. I do not say they may not be cultivated outside of the church, but let it be understood once for all that if a man does seek the cultivation of these divine qualities he will find the field for doing so in the same department of life for which the church stands."

CHURCH FOR HELPFULNESS "I wish it distinctly understood that the church does not exist to save souls from the wrath of God in another life. The church stands as an association of men and women who have agreed to help one another to live the divine life, to unfold the divine powers within them. The Unitarian church does not exist for the purpose of saving people from everlasting punishment and getting them into a selfish Heaven. We do not believe in rewards and punishments. We believe in the great law of cause and effect. We believe that no one can do wrong and escape the consequences of the province of the church is different from that of the churches by which we are surrounded, we nevertheless contend for the great need of preparation for the other stage of life. We believe that when we go into an unknown country we should take into that country with faculties keenly alive, highly and profoundly unfolded, that we may take hold of the problems and activities of that country. We believe that the spiritual faculties need to be cultivated here that these faculties may be enabled to come into full play. In this stage of life we find our training school, our place of education and graduation, our school of preparation, where we are prepared for an angelic career. The church is composed of such people as are in the community. It is just as good and no better than the people of whom it is composed. "This spiritual development of which I have been speaking trains us to meet the

Swift's Silver Leaf Lard

is the popular household lard among all families desiring good, wholesome cooking. It is the standard lard in American homes and a kitchen necessity. Put up in attractively lithographed air tight tin pails—3, 5 and 10 pounds. Sold by all dealers. SWIFT & COMPANY, U. S. A.

sorrow of life from which no one escapes. This is a strange voyage on which we are sailing, but when death comes to our nearest and dearest, in asking its meaning shall we say that it indicates pessimism, despondency, hopelessness? What shall we do when these experiences come? The church stands as a witness to the fatherhood of God, his paternal love and care, and whatever may come, and however many of these ships on this great voyage may sink, I believe that they shall rise again and that we shall sail into the harbor where we shall receive the love and care and provision of the Father of mankind. "Now we come to what may be regarded by many of you as the more practical side of our question. Things are found out of joint, in business, society, politics. It is found that injustice, selfishness, cruelty, wrong, suffering, such things as do not need to exist, are too frequently triumphant in the world. We ask ourselves how the great evils of the world are caused, and the answer is that they are caused by human ignorance, selfishness, greed, cruelty, the determination of particular people to have their own way without any regard to the consequences of any one else. And now we ask ourselves, how shall we remedy the matter? It has been contended by some that the newspapers, by the dissemination of news, facts and information, will bring relief from the evils of society. Most of the newspapers, however, are devoted to the publication of crimes, scandals, sensational and corrupt news, and the news spread out on our breakfast tables for the inspection of our families, and their influence in this regard can be corrupt and only corrupt. Some have said that public schools and education, scientific institutions and libraries will be the medium through which we shall be relieved from these evils. Some have said that if we had kings dethroned and royal houses destroyed and liberty should be given to man, that these would be our relief. But the French revolution has come and gone, the French republic has been established and liberty, equality and fraternity have been written over the portals of their temples, and the American republic has been established; yet greed, selfishness and cruelty remain. The socialist propose by the reorganization of society a method of relief, but whatever may be their mechanical arrangement the arrangements and laws will have to be carried out by such men and women as we have to take charge of such a system. I do not wish to be misunderstood. I believe that the world upon the whole is growing better and that intelligence is more general and the human heart more tender and that there is more love and sympathy abroad among men and women than has ever existed at any time in the history of the human race. The heart of the trouble in the coal strike in Pennsylvania was the uncompromising selfishness existing in the minds and hearts both of the 150,000 laborers and of the capitalists. A little understanding and a little love, tenderness and sympathy would have settled the whole matter in less than twenty-four hours. We need to learn that we must deal with men and women as men and women, as having one God as their Father and that all are brethren. We need to learn what straight-out, downright, outright manhood is and to act accordingly. You and I need to become right and then there will be no trouble. We need to learn that laws at best are very clumsy things and that they are no better in effect than the men and women who make them and obey them."

THE CHURCH FOR CHARACTER "So it comes back at last to that which we started, to a matter of personal, individual character. Let me remark, again, and emphasize the fact, that the church is the only institution that exists exclusively and solely for the creation of character, and let me appeal to you that since this is the one crying need of the world you do not withhold the world must help the church. "And now, let me ask what church will you help? Let me help you to answer this question by suggesting that you first possess yourselves of convictions, that you give your allegiance to the church that reflects your convictions and do not let small things stand in the way. I am amazed at the silly childishness of some people in this connection. They will not attend a church because the preacher is not always brilliant or because the music is not always entertaining. Allow me to remark that the church is not a social association nor an entertainment society, but an association of men and women who have agreed to live the divine life and to help others do the same—to unfold the divine principle within man."

GATTELMEN COMING

(Continued from Page One.)

\$14 for yearlings and from \$16 to \$18 for two," said Mr. Robertson, "and I understand the northwestern buyers are insisting on the same scale for this spring."

"As a matter of fact, both yearlings and two are much scarcer than ever before known in Texas, and this fact is known and conceded by the buyers. The range country was never in better condition than it is now at this season of the year, and these conditions not only obtain in Texas, but they prevail throughout New Mexico and Arizona. Some of our cattle are thin, but early grass and abundant grass is absolutely sure. This is quite different from last year, when many cattle were sold at a sacrifice on account of the apprehension of drought. This spring no man is compelled to sell his stuff on account of a lack of grass."

"Texas has some young steers to sell this spring, and expects to sell them, but it may be safely and positively asserted that she will demand and receive more money than was paid for the same class of stuff last year."

think our cattlemen ought to have from \$14 to \$16 for their yearling steers, and from \$18 to \$20 for their two.

"This same class of cattle on the fat stock markets is bringing from \$2 to \$5 more per head than they sold for at this time last year, and our friends who come down here to buy must concede this point, which in itself justifies the advanced price demanded by the Texas producer."

"I think some of the estimates given out as to the number of steers that will be offered for sale above the quarantine line this spring is quite excessive, some of the figures I have seen placing the number of two as high as 150,000. In my judgment there will not be exceeding 75,000 head of two offered for sale above the quarantine line, and the number of yearlings in the same territory will not exceed 125,000, and many of the latter will not be offered for sale at any price."

Calf Crop Short And Much of It Sold

"The calf crop for the past year has been very short out in the range country, and much of it has been shipped to market. There can be no doubt of the fact that Texas is very short on all classes of cattle this spring, and prices

at which our stuff is sold must be better than those prevailing last year at this time."

Other leading cattlemen interviewed expressed about the same opinion as Mr. Robertson. The northwestern buyers are proceeding very cautiously, for they have been up against the same kind of a proposition before, and know the Texas temper too well to try to force issues. They have arguments to the effect that conditions in their section of country will not warrant higher figures, but the Texas idea seems to be "if you want the stuff you will have to pay the price."

Fight Under Way for Convention in 1906

The Board of Trade rooms have been established as headquarters for the 1906 convention fight. Members of the committee appointed for this purpose met at the Board of Trade this morning and then started out armed with badges, welcome and persuasion to land the convention.

With a truly military genius, Brigadier General Paddock declines to admit war correspondents into the secrets of his campaign; the activity displayed about headquarters, however, making it apparent that a general assault all along the line will be made, with practically no maneuvering.

Proper treatment of the convention of 1905 will be the main weapon depended upon in the fight, a policy of giving the "enemy" no chance to recuperate being followed throughout.

Effects of the work being done were apparent this morning when the Fort Worth badges were to be seen on all sides. Ribbon badges in red and blue with "For Fort Worth, 1906," have been adopted and are being used in an effective way.

Thirty-five Delegates Here From Kansas City

One of the largest delegations to the cattle convention to reach Fort Worth is that from Kansas City, numbering something like thirty-five people, representing the live stock and railroad interests of that city. In the party are E. B. Carver, commission man; T. S. Hutton of the Hutton-Kirk Commission Company; Frank Cooper of the L. M. Cooper Commission Company; N. E. Geer, vice president of the National Commission Company; J. S. Lee, vice president of the Lee Commission Company; Major Lynn and W. B. Stickey, of the Drumm Commission Company; William Keyes of the C. M. Keyes Commission Company; L. A. Allen, of the Allen-Robertson Commission Company; Harry Clark and Frank McCoy, of the Drovers' Telegram; George R. Barse, of the Barse Commission Company; John Fox, live stock agent for the Rock Island; Eli Titus, general live stock agent for the Santa Fe; John Wait, of the agent for the Santa Fe; J. G. Foster, of the Clay-Robertson Commission Company; T. J. Eaman, of the Kansas City Live Stock Commission Company; Joe Inman, of the Peters Commission

Company; Colonel Dean, of the federal bureau of animal industry; Woodie Downs, president of the Traders' Exchange; Thomas Timmons, of the Timmons Commission Company; Frank Robinson, of the Ryan-Robinson Commission Company; W. A. Sanson, of the Fort Worth Live Stock Commission Company; John Shy, a commission man; George Addison, W. H. Weeks and E. Richardson, of the Kansas City Stock Yards Company; C. R. Thomas, secretary of the Hereford Breeders' Association, the company that took most of the prizes of this class of high-bred stuff at the World's Fair; Colonel R. E. Edmonson, auctioneer; W. A. Dunlap, of the Twentieth Century Farmer; Walter Neff and Hayes Walker, of the Drovers' Telegram, and O. V. Harris, of Harris, Mo., who also had a fine display of Herefords at the World's Fair.

Mr. Weeks, in discussing the situation in cattle circles, said today that the outlook in Kansas City was the brightest in many years and that the business was growing rapidly in the city at the mouth of the Kaw. The operations of the Nelson-Morris Company, which began several months ago, has increased the demand for cattle materially. This plant cost in the neighborhood of \$2,500,000. The Ruddy Bros. packing plant, which will cost \$1,000,000, will be completed and ready for operation about July 1, and will be another adjunct which will make of Kansas City one of the greatest packing centers in this country.

"Kansas City has built on an average every two years one plant for the past six years," said Mr. Weeks. He says this fact alone has caused the packers to recognize Kansas City as the coming packing center of the United States.

Mr. Weeks is a former Texan, and always rejoices when he reaches the state. He says the present delegation from Kansas City is the largest that has ever been here before.

Amarillo Stock Yards To Be Ready April 1

O. H. Nelson, president and general manager of the new stock yards company, which was recently organized at Amarillo, is in the city to attend the convention.

Spears says that the yard when complete will cost about \$35,000, work on which is now well under way. The company is known as the Western Stock Yards Company and besides the yards at Amarillo owns yards at Fort Madison, Iowa. The Amarillo yards will be ready in a moderate way, to handle cattle April 1. The capacity of which will be between 200 and 250 cars daily.

Speaking of conditions in the Panhandle, Mr. Nelson said that there had been rain all over the country; that grass was coming in good shape, and as a whole, the country is in better shape than it has been in twenty-five years.

He reports that a good sized sale of ranch property and cattle was made a few days ago in the Panhandle by the L. S. party. The sale includes twenty-eight sections of land and 700 or 800 2-year-old heifers, and the consideration is about \$75,000. The heifers brought \$20. Speaking of cattle prices, Mr. Nelson believes that there will be an increase of prevailing prices in the near future.

Believes S. and S. Company Is Coming Into Texas

Arthur L. Smith, traveling auditor of the Schwarzschild & Sulzberger Packing Company of New York, Chicago and Kansas City, is in the city for a few days, and will attend the cattle convention. He was asked: "What do you think of the chances of your company coming to Texas and competing with the other large packing companies for business from this state?" Mr. Smith said that while his company had made no declaration lately as to its intention in the premises, it was well known that it had such a move under consideration and he believed that the company would build a plant in this state in the near future. He said that he was not authorized to make such a statement, but felt assured that his people would eventually be in the Texas field with a packing plant.

Mr. Smith was formerly with the Fort Worth Record as bookkeeper, but has

been connected with the S. & S. company several years.

EXECUTIVE COMMITTEE REPORT BEING FINISHED

Secretary J. T. Lytle of the Texas Cattle Raisers' Association said today that the report of the executive committee will be completed and ready to be read before the convention when it opens at the opera house Tuesday morning. It will be one of the most satisfactory reports made in many years and will show that the increase in membership has been fully 400, the total cattle represented, directly and indirectly, by the present membership of the association, being approximately 4,000,000 head. The membership of the association, as will be reported to the convention, will be about 1,600, the largest in the history of the association the past twenty-nine years.

Discussing the valuation of the holdings of the cattlemen in Texas, that is, those belonging to the association, Secretary Lytle believes that it is close to \$100,000,000.

POLICE ON LOOKOUT FOR GRAPTERS AND THIEVES

For service during the convention Chief of Police Rea has engaged additional detectives from other cities to work on the crowd and to arrest pickpockets, grafters and the like who are always seen in cities at convention times.

The following detectives are in the city on duty: George Smith of Dallas, Detective Miller of Temple, T. J. Corbins, special officer for the Santa Fe at Galveston, and City Detective Johnson of Galveston.

Several grafters and lights of the underworld have already been brought to grief. Officer Temes arrested two men suspected of working the short change game at the Texas and Pacific station. They are now confined in the county jail.

On a charge of theft from person a man giving the name of Ernest Thompson was placed in the county jail. He was arrested at the Texas and Pacific passenger station Sunday morning as he alighted from a train from Dallas. During the trip to this city, it is charged, he took \$20 from a passenger. The conductor of the train and W. W. Duncan of Dallas informed Officer Snow of the affair on arriving here. The man was then put under arrest. Bills to the amount of \$15 were found concealed in his shoe.

Church Parlors Open To the Cattlemen

Rev. S. G. Inman, pastor of the Christian Tabernacle at Fifth and Throckmorton streets, announces that the parlors of the church will be kept open during the week for the use of the cattlemen and their wives, as resting and correspondence rooms. On Wednesday night Rev. Mr. Inman will preach at the Tabernacle. On Thursday the Arion concert for the cattlemen will be held, and on Friday night Rev. R. R. Hamlin will preach.

If you are thinking of building, see Donaldson, 207½ Main street.

If you wish your house raised and another story built under it, see Donaldson, 207½ Main street.

A HOPELESS FIGHT

It is as impossible to conquer the king of diseases—Contagious Blood Poison—with Mercury and Potash as it would be to conquer the king of the forest in a hand-to-hand encounter, as thousands who have had their health ruined and lives blighted through the use of these minerals will testify. They took the treatment faithfully, only to find when it was left off, the disease returned with more power, combined with the awful effects of these minerals, such as mercurial rheumatism, necrosis of the bones, salivation, inflammation of the stomach and bowels, etc. When the virus of Contagious Blood Poison enters the blood it quickly contaminates every drop of that vital fluid, and every muscle, nerve, tissue and bone become affected, and soon the foul symptoms of sore mouth and throat, copper-colored blotches, falling hair and eyebrows, swollen glands, sores, etc., make their appearance. Mercury and Potash can only cover up these evidences for awhile; they cannot cure the disease. S. S. S. has for many years been recognized as a specific for Contagious Blood Poison—a perfect antidote for the deadly virus that is so far-reaching in its effects on the system. S. S. S. does not hide or mask the disease, but so thoroughly and completely cures it that no signs are ever seen again.

SSS

kind. Treatise with instructions for home treatment and any advice wished, without charge.

WANTED

Every Man, Woman and Child in Fort Worth

To call at our store for the greatest strength creator and health restorer which we have ever sold—Vinol. It is not a patent medicine, but the most valuable and delicious preparation of cod liver oil of the Kaw. The operations of the Nelson-Morris Company, which began several months ago, has increased the demand for cattle materially. This plant cost in the neighborhood of \$2,500,000. The Ruddy Bros. packing plant, which will cost \$1,000,000, will be completed and ready for operation about July 1, and will be another adjunct which will make of Kansas City one of the greatest packing centers in this country.

Mr. Weeks, in discussing the situation in cattle circles, said today that the outlook in Kansas City was the brightest in many years and that the business was growing rapidly in the city at the mouth of the Kaw. The operations of the Nelson-Morris Company, which began several months ago, has increased the demand for cattle materially. This plant cost in the neighborhood of \$2,500,000. The Ruddy Bros. packing plant, which will cost \$1,000,000, will be completed and ready for operation about July 1, and will be another adjunct which will make of Kansas City one of the greatest packing centers in this country.

Mr. Weeks is a former Texan, and always rejoices when he reaches the state. He says the present delegation from Kansas City is the largest that has ever been here before.

Amarillo Stock Yards To Be Ready April 1

O. H. Nelson, president and general manager of the new stock yards company, which was recently organized at Amarillo, is in the city to attend the convention.

TEXAS CATTLE RAISERS

The Cattle Raisers' Association of Texas is with us this week in the twenty-ninth annual convention of that great organization, and it is with sincere pleasure and gratification that Fort Worth extends the glad hand and again welcomes the coming of these people who have been for friends and allies since the days when both were smaller and of less importance than they are today. There is a sincerity about this welcome that must be fully appreciated by our visitors, for they have had ample opportunity to judge of Fort Worth hospitality in the past, when they have found that it fully measured up to every requirement.

Already the city is full of cattlemen. Where they came from we will not undertake to say, but the streets and hotels are full of them, and they have taken possession of the city just as if it belonged to them—and it does. There are none to dispute their possession so long as they may choose to remain with us, for they are here as our invited guests and our honored and welcome allies and confidants. These cowmen are a fine looking body of men, far above the average in point of ability and intelligence, and a visit to their convention hall will disclose the fact that they are keen business men. They know just exactly what they are here for, and the way they dispatch business is a holy caution. The visitor attracted to the city by the novelty of a cattlemen's convention and who expects to see the participants in that convention with horns a yard long will be sadly disappointed. On the contrary, he will see a body of representative business men at work in perfect harmony for what is believed to be the best interests of the cattle industry as a whole. There is nothing selfish about these genial hearted cattlemen. They are not up to any kind of tricks, but are as honest as the day is long and as genial as the warm rays of the spring time sun. They comprise a class of citizenship of which the great state of Texas may well be proud, for there are none better.

The Cattle Raisers' Association of Texas was organized down in the brush of Palo Pinto county about twenty-nine years ago, and at the time of its organization it was not suspected that the humble beginning made at that time would grow into the magnificent organization of the present day. At the time it was formed it was a local organization entirely, and was shaped up for local protection more than anything else. Only a few members were present when the first meeting was held, but there was enough of them to hold the organization together and it began to grow. Conditions existed at that time as they will always exist necessitating the standing together of the men who are engaged in the cattle industry. And during all of the intervening years the organization has grown and prospered until it has become the greatest organization of the kind in existence and does an annual work of surprising magnitude.

The purposes of the Cattle Raisers' Association of Texas are protective and defensive. It undertakes to protect its membership in the enjoyment of rights and privileges and to detect and punish those who may be engaged in foraging upon its legitimate preserves. It has done a great work in both directions that must ever stand to its credit, and this accounts for the steady growth that has attended the organization. During the past year the association has been specially engaged in an effort to mitigate and ameliorate some of the evils that have been resting upon the live stock industry and a most gratifying success has attended its every effort. The railroads have been compelled to come to time with better service to shippers, and also to grant many other needed reforms. The work in behalf of amending the interstate commerce law is in good shape and progressing favorably. The war with the packers is now in full swing, and the strong arm of the government, both state and federal has been successfully invoked. Other matters are being looked into and attended to, and it is believed the passage of the present year will witness the restoration of many of the favorable conditions so generally desired.

W. W. Turney of El Paso is the president of the association, and he is a tireless worker. A man of much brilliance, polished, talented and an able lawyer, President Turney has made an ideal head for the great organization, and it is believed the constitution of the association will be so amended at this meeting as to permit him to serve for another term. He is averse to such action personally, but

members of the organization say that the great work which he is now promoting must be finished before he will be permitted to surrender the leadership. Ike T. Pryor of San Antonio and Richard Walsh of Paloduro are the vice presidents, both of whom are thoroughly representative cattlemen. Captain John T. Lytle, who does not know a heel fly when it stings him, but who is otherwise one of the best posted cattlemen in the state, is secretary, and S. B. Burnett, also of this city, who is one of the cattle kings of the southwest, is its treasurer. The executive committee is composed of representative cattlemen from every portion of the state, and they are all strong men and fully capable of handling the affairs of this great organization.

Texas is the greatest producer of beef cattle of any state in the union. It is estimated from the tax rolls of the state that there are now about 7,000,000 head of cattle in the state. This is less than the federal census estimate, but when it comes to the federal cattle figures in Texas not much importance or credence is attached to them. It is known that the state is today shorter on all classes of cattle than it has been before in twenty-five years, a condition of affairs brought about through a variety of causes. But while this is a fact, it is gratifying to note that the spring outlook is the best that has presented itself for a number of years. There has been an abundance of fall, winter and spring moisture, insuring good range at least one month earlier than usual. While some losses have occurred in various portions of the state in consequence of the bad spell of February weather, it is morally certain that such losses have been grossly exaggerated, and the total for the entire state will hardly equal 3 per cent.

The outlook for spring trading is not considered exceptionally bright during this convention, although it is certain that a considerable amount of stuff will change hands. The northwestern demand has been steadily decreasing for several years, and while there will be a fair inquiry from that section this spring, the actual movement is not expected to be near so large as last year, when it possibly reached 190,000 head. Some of the northwestern men are already beginning to nibble, but appear to have brought with them this trip the same old stories they have made use of for the past three years concerning the necessity for reducing prices. No doubt they will be greatly surprised at the paucity of the Texas steer offerings this spring. While the northwestern demand will be shorter than usual, it is equally as certain that the Texas offerings will be much less than was ever known before, from the simple fact that Texas is very short on all classes of cattle. Panhandle figures of \$22 to \$24 for twos, is particularly distressing to our northwestern friends, and they are insisting that they had rather have yearlings at half the price.

The chief topic of discussion among almost any group of cattlemen seen on the street corners and about the hotel lobbies is the beef trust investigation and the Garfield report. There seems to be a quite general hope that the state and federal investigation will result in the development of some evidence that will result in knocking out what is believed to be continued market manipulation. The cattlemen, as a rule, seem to be of the firm opinion that the alleged combination existing among the packers is just about all that stands between themselves and the return of former prosperity, but many of them seem chary about giving any evidence. This is predicated upon natural aversion to mixing in the courts of the country, coupled with apprehension to some extent that every man who testifies may be made a target for further displeasure at the instance of the packers. On the subject of the Garfield report, they express the opinion that it will result in good, notwithstanding it proved a great disappointment. The idea appears to be that horns' nest stirred up in consequence of the apparent attempt to whitewash will result in a closer and more searching investigation, and the indignation of the cattlemen generally will be aroused to such a high pitch that the real facts in the situation will be probed for until they are definitely located.

The cattlemen of Texas and the southwest have had much to contend with for the past three years. There has been much that was calculated to discourage them and drive many of them out of business, but as a class they have stood manfully to the rack and took their medicine without making a grimace. It is only during the past year that they have gotten on their fighting clothes and determined to make a stand for their rights. But during that time they have accomplished much. It is true there yet remains many problems to be solved, but the work of solving them is in competent hands and the outlook is constantly growing brighter. Gentlemen of the Cattle Raisers' Association of Texas, may you safely accomplish all that you have undertaken to do. May your great organization continue to grow in resources and power, and may you return to Fort Worth in 1906 enjoying the fullest measure of prosperity.

Now that the cattlemen are with us again, and the Fat Stock Show is showing up bigger and better than was hoped for, Fort Worth's cup of happiness is full to overflowing.

The Japanese may not equal the Russians in point of sprinting ability, but they appear to know just exactly how to take a Tie Pass.

If the visiting cattlemen do not see what they want, all they have to do is to ask for it. It is here.

The cattlemen all say it is just like paying a visit to the old home to again find themselves in Fort Worth.

Martin Baldwin.

Paine's Celery Compound Makes Nerve Force

Nerve Force rules the world. Health—the satisfaction of living,—is the right of every man and woman born into the world. Health is a question of keeping all the organs of the body working together in fine, smooth, harmony. The force that rules them all—that makes them work as nature meant and makes them keep in harmony—is Nerve Force.

Without Nerve Force there can be no health at all—no success—no joy in living. The center of life is in the nerves. The real root of health or sickness is found in the condition of the nerves.

Neglect the nerves and they will make you feel this neglect in many ways, they control all of the organs of the body and must be kept healthy and strong to do their work properly,—tired nerves cannot keep the organs of the body working in that harmony which is essential to real health.

This is why Paine's Celery Compound is able to bring health in so many different forms. Paine's Celery Compound feeds and nourishes the nerves. It makes new Nerve Force. It makes pure, rich blood, a clean active liver, a stomach that acts quietly and strongly upon all the food that is given to it, bowels that throw away promptly and surely all the ashes from life's engine room.

It makes the heart beat true and evenly, it makes the brain clear and vigorous.

The Nerve Force does this all, and Paine's Celery Compound makes the Nerve Force. Best of all it makes that buoyant life-spirit, the thrill of health, that is the secret of happiness and the keynote of individual success.

This is the work of Paine's Celery Compound. It is the most celebrated nerve vitalizer and tonic in the world.

We give the testimony of many individual cases, simply that you may know their experience in their own words.

"I am a man of more than 60 years, and for the past 20 years I was a great sufferer with acute stomach trouble and rheumatism. I tried a number of specialists, but their efforts were unavailing and I felt as though life was not worth living, and I had given up all hope of being a well man again. My wife, who also had stomach trouble, at the suggestion of a friend, tried two bottles of Paine's Celery Compound and was fully restored to health. She then encouraged me to try the same medicine; I did so, and now I am a sound and well man, able to work every day. I bless my good wife every day for my good health, as she got me to take Paine's Celery Compound, in my opinion the greatest medicine ever given to the world for nervousness, stomach trouble, rheumatism and kindred ailments. Yours very truly,—Martin Baldwin, 610 North 10th St., St. Joseph, Mo. Feb. 25, 1904.

Doctors know and value this prescription and make constant use of it in their practice. Its effect is almost instantaneous—the nourishment and vigor given to the nerve system by Paine's Celery Compound is felt at once.

The patient feels this at once and gains confidence by it. The Nerve Force begins at once to make each organ of the body do the work that nature expects of it.

Two days' treatment with Paine's Celery Compound will prove its marvelous power. Remember this,—Paine's Celery Compound is the prescription of one of the most famous physicians this country has ever known, Prof. E. E. Phelps, of Dartmouth University, and all reputable druggists sell and recommend it.

WELLS, RICHARDSON & CO. BURLINGTON, VERMONT.

Cleanings From the Exchanges

The introduction of a state dispensary bill into the Texas legislature at this late day has led some of the members to charge that it is the workings of the prohibitionists. The bill in question is drafted along the same lines as the South Carolina dispensary law, the only changes being that where the South Carolina law gives the surplus to the school fund that the proposed Texas law will divide all the surplus among the counties for road and bridge funds and provides a state local

option provision to the extent that each county shall decide for itself by a popular vote of the people as to whether or not it desires a county dispensary. It is urged that by adding this feature to the bill and appointing a state board of supervisors that each county can provide as it sees fit by a popular vote of the people as to whether they want a dispensary or not.—Austin Statesman.

It would seem that there exists no real necessity for any great amount of activity among the Texas prohibitionists at this time, for in local option they have a measure that seems amply able to sweep all opposition before it. It is probable that the dispensary system is being gradually brought to the front as a method of effectually settling the question and reaching the localities that cannot now be

For that tight feeling in your chest

There is a remedy over 60 years old—Ayer's Cherry Pectoral. Of course you have heard of it, probably have used it. Once in the family, it stays; the one household remedy for coughs and hard colds on the chest. Ask your doctor about it. J. C. Ayer & Co., Lowell, Mass.

brought under the influence of local opinion.

At a meeting of the city council of Greenville an ordinance to prohibit spitting on the sidewalks was adopted. This is another infringement on our personal rights that is making headway. At this pace it will be only a matter of time until a man will be prohibited by statute from making love to his neighbor's wife, or from blowing his nose in public louder than a conversational tone. But the anti-spitting law is a good one if the germ theory is true.—Comanche Chief.

Still, it looks like a pretty tough proposition to tell a man he cannot spit when his spitter is in full operation. What are we going to do when there is no place left on the whole face of the earth where we can go and spit?

The afternoon papers again landed on their morning contemporaries in giving first the news of the battle at Tle Pass and that stronghold's capture by the Japs. The twilight twinklers are landing on the main monitors almost as regularly now as Oyama has on Kuropatkin.—Cleburne Enterprise.

The afternoon papers are continually keeping to the front in the matter of furnishing news in advance of their morning contemporaries, and for that reason they are relegating the morning papers to the role of luxuries. The live afternoon paper is a necessity in every home, and the people have already found that fact out.

By recent decision of the state court of supreme authority the scaplers have their business, as this is a matter for the state and not for the municipality. Now the question arises has the city a right to levy an occupation tax other than that authorized by the state. In any event the state must be a uniform law and the state legislature alone can do that. Unfortunately there is not so good a prospect for the passage of such a measure as this city would like, and to add to that disappointment the representatives from Bexar county are divided on the question.—San Antonio Light.

Unless the present session of the state legislature shall pass a law for the proper regulation of the ticket scalping business the state as a whole will suffer in consequence. Railway managers have already announced that low rates and excursion privileges will have to be withdrawn unless they are accorded the proper protection, and it is nothing but right and just that they should have what they ask for.

The president will find a warm welcome when he reaches the southwest and the Herald has no doubt that his trip through the Indian Territory and Texas will be a continuous ovation. The people have a warm spot in their hearts for Theodore Roosevelt, even if they do not always agree with him in his positions. They feel that he is honest, that he is American and that he is actuated by what he believes to be the best interests of all the people all the time. That is a great deal more than can be said for a great many of our public men.—Denison Herald.

The people of Texas will unite in giving President Roosevelt such a welcome as becomes the president of the United States and the man. The fact that he is a republican will not figure in the situation one particle. The sturdy honesty of Theodore Roosevelt and the manner in which he does things appeals to the Texas heart with much force and effect, and we all honor him for his true Americanism. President Roosevelt has repeatedly shown that he is above partisanship, and truly desires to give the country a square deal. And a square deal is just exactly what he will get on the occasion of his visit to Texas.

A Kansas City editor, an expert in matters pertaining to the meat packing industry, has proved by facts and figures that Commissioner Garfield did not know what he was talking about when he said the packers made only 99 cents on each cow brute slaughtered. He shows that their profits are \$7.41 on each animal and that this profit is turned every two to four weeks, or from twelve to twenty-four times a year. Figuring their total capitalization at \$110,000,000, much of which is no doubt water, he shows that their annual profit are 43 per cent of this capital. Not a bad poor paying business after all.—Decatur Messenger.

The Kansas City man gave facts and figures in a very readable shape, and his articles have attracted much attention from the fact that they appear much more reasonable than the report made by Commissioner Garfield.

The resignation of W. A. Tuley as general passenger agent of the Frisco system in Texas is a matter of regret to the editor of the Herald, as we had known him personally and often rode on passes on his good grace. He was a big man both in body and mind and was the friend of the press of Texas. Whatever the newspapers wanted was not too good or too great as long as it was in his power to grant. His falling health was the reason given for his resignation, and we hope he may soon fully regain his usual robust condition and climb on up to the very top of traffic managers in the railroad world.—Memphis Herald.

Mr. Tuley was always very liberal in his dealings with the newspaper men of Texas, and his retirement from the railway business is very generally regretted. The railway man who pursues a liberal policy toward the Texas press never lacks for friends.

The Russian ambassador at Paris is probably the greatest of all living humorists. This remarkable gentleman explained the other day that the recent Russian military maneuvers around Mukden and the heading retreat which followed were parts of a prearranged plan, looking toward the luring on of the Japanese to Harbin and their overwhelming defeat there. A year ago the world was prone to take the "luring on" explanation seriously—but times have changed.—Austin Tribune.

The "luring on" business was made to serve its purpose earlier in the war between Japan and Russia, but it is an explanation that no longer seems to explain. The use of the term now only serves to evidence the pitiful weakness of its former employment and brings ridicule upon those who again essay to call it into requisition.

Business Man Dies

SAN ANTONIO, Texas, March 20.—Nathan H. Humberger, a well-known business man and secretary of the Wolff & Marx Company, died here Saturday after a brief illness. He formerly was in business in New York and was connected with the largest eastern department store. The body will be sent to New York.

A TRAINED NURSE

After Years of Experience, Advises Women to Regard to Their Health.

Mrs. Martha Pohlman of 55 Chester Avenue, Newark, N. J., who is a graduate nurse from the Blockley Training School, at Philadelphia, and for six years Chief Clinic Nurse at the Philadelphia Hospital, writes the letter printed below. She has the advantage of personal experience, besides her professional education, and what she has to say may be absolutely relied upon.

Many other women are afflicted as she was. They can regain health in the same way. It is prudent to heed such advice from such a source.

Mrs. Pohlman writes: "I am firmly persuaded, after eight years of experience with Lydia E. Pinkham's Vegetable Compound, that it is the safest and best medicine for any suffering woman to use."

"Immediately after my marriage I found that my health began to fail me. I became weak and pale, with severe bearing-down pains, fearful backaches and frequent dizzy spells. The doctors prescribed for me, yet I did not improve. I would blot after eating and frequently become nauseated. I had an acid discharge and pains down through my limbs so I could hardly walk. It was as bad a case of female trouble as I have ever known. Lydia E. Pinkham's Vegetable Compound, however, cured me within four months. Since that time I have had occasion to recommend it to a number of patients suffering from all forms of female difficulties, and I find that while it is considered unprofessional to recommend a patent medicine, I can honestly recommend Lydia E. Pinkham's Vegetable Compound, for I have found that it cures female ills, where all other medicine fails. It is a grand medicine for sick women."

Money cannot buy such testimony as this—merit alone can produce such results, and the ablest specialists now agree that Lydia E. Pinkham's Vegetable Compound is the most universally successful remedy for all female diseases known to medicine.

When women are troubled with irregular, suppressed or painful menstruation, weakness, leucorrhoea, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, bloating (or flatulence), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness,

Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail.

Mrs. Martha Pohlman

ness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, blue and hopelessness, they should remember there is one tried and true remedy. Lydia E. Pinkham's Vegetable Compound at once removes such troubles.

No other female medicine in the world has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female troubles.

The needless suffering of women from diseases peculiar to their sex is terrible to see. The money which they pay to doctors who do not help them is an enormous waste. The pain is cured and the money is saved by Lydia E. Pinkham's Vegetable Compound. Experience has proved this.

It is well for women who are ill to write Mrs. Pinkham, at Lynn, Mass. Her great experience, which covers many years, has probably had to deal with dozens of cases just like yours. Her advice is free and confidential.

Opening Days

Monday, Tuesday, Wednesday,
March 20, March 21, March 22

A STYLE SHOW opened this morning with a complete display of the world's chosen "Millinery" styles, "Fabrics" and "Ready-to-wear."

It is with a large degree of satisfaction in the knowledge that plans for the best showing in the store's history have been carefully made that we invite you to see the results of our labors. We are sure you will share with us the feeling that upon the basis of merit alone no store in the South is better fitted to care for its patrons in those matters of dress, in which style, variety, quality and low price are important factors. Upon our work and your judgment our success depends. The daily growth of this business is evidence that our aims are right, and the opening days will be unquestionable proof of our efforts to still further deserve your patronage. The displays of the higher grades of merchandise are the chief features of the opening. We again invite all visitors and home folks to our spring opening.

who died Feb. 28, last, were reported by a committee composed of Dan Parker, W. M. McConnell and William Barr. The camp was notified that Bedford Forest camp of Arlington will hold memorial services next Sunday in memory of the late Hon. John H. Reagan. Adjutant T. B. Collins requested Lee camp members to attend. It is understood that a number will attend the services from Fort Worth.

Captain B. B. Paddock moved that a committee be appointed to arrange with the Northern Texas Traction Company for transportation to Arlington next Sunday.

B. F. Frimier, treasurer of the Masonic grand lodge of Texas, and Dr. Rainey of the Masonic widows' and orphans' home, were escorted to the platform by B. B. Paddock. These gentlemen were greeted by the camp by a rising vote.

Captain Paddock offered a resolution accepting the invitation of the general committee to take part in the reception to be given President Roosevelt on the occasion of his visit to Fort Worth, April 8, 1905. The resolution of Captain Paddock is as follows:

"Whereas, This camp is in receipt of a copy of resolutions adopted by Fidelity Post, G. A. R., of this city, on March 15, 1905, inviting this camp to join with that post and other organizations of this city in doing honor to the president of the United States on the occasion of his visit to this city and to join hands with Fidelity Post, G. A. R., as American soldiers; and

"Whereas, This camp has also an invitation from the general committee which has in charge the arrangements of the reception and entertainment of the president of the United States on the occasion of his visit to this city; therefore, be it

"Resolved, That the flags of this camp be extended to Fidelity Post, G. A. R., for its kind invitation, and be it further

"Resolved, That this camp accept the invitation to make arrangements for the reception and entertainment of President Roosevelt, and that the camp turn out in a body and participate in whatever exercises are decided on by said general committee."

Mrs. Lane made a statement of the work being done for the old fiddlers' contest. It was announced that nine carriages have been secured for the fiddlers parade Wednesday morning next, at 9 o'clock.

An unknown donor presented to the camp the sum of \$5.

When the business of the camp was concluded, Dr. Alexander was introduced and delivered a short address among other things he said he did not believe it was a desecration of the Sabbath for the old Confederate veterans to meet on Sunday. The old soldiers, he said, have made the citizenship of the southland, as sons, owe it to the south to give a correct history of the struggle between

We states, said the speaker, who added that he didn't take much stock in the matter of the "New South," but wanted the "Old South" to be potentiated.

The negro question is not a question to be scared at, but it is the white man question, said the speaker. If the negro question is to be settled, it must be done along industrial training lines, and that under the direction of southern people and not by people in other sections of the country, who know nothing of the negro. The speaker said the negro will be used in the evangelization of the colored men in their native countries. His remarks, though rambling, was well received.

Messrs. Beckham, Terrell and Cummings were named a legislative committee.

SONS ALSO ACCEPT INVITATION
Commander A. B. Curtis presided over a meeting of the Sons Sunday afternoon. The invitation extended by Fidelity Post, G. A. R., to take part in the reception to President Roosevelt, was accepted.

Resolutions on the death of Hon. John H. Reagan were read and adopted.

The camp discussed the question of what action should be taken to collect dues from members who have not settled for the same. Dues amount to 50 cents annually, and there are between 1,400 and 1,500 names on the camp roster. A committee composed of Commander A. B. Curtis, Miss Alice Eve Robinson, adjutant, and W. A. Terrell, quartermaster, was appointed to devise means for the collection of outstanding dues, and was given power to act.

An invitation to attend the memorial services at Arlington next Sunday was accepted. Commander Curtis urged all members of the camp to be at Third and Main streets Sunday at 1 o'clock so that the Sons may go with the Veterans.

If you want your little ones strong, healthy and robust, give them Hollister's Rocky Mountain Tea this month. A tonic for the whole family. The children's friend. 35 cents, Tea or Tablets. Ask your druggist.

Dr. Blanche A. Duncan, diseases of women. Sanitarium for women only. Corner Fifth and Main.

CHURCHES PLAN NEW STRUCTURES

Broadway Baptist and Mulkey Memorial Congregations
Take Definite Action

Steps toward the building of new churches in Fort Worth were taken Sunday morning by the congregations of the Mulkey Memorial and the Broadway Baptist churches.

At the Mulkey church subscriptions were taken to carry out the plans for a new building in the Eighth ward, and the improvement of the present building under plans already made public. Following a sermon by the pastor, Rev. J. A. Whithurst, contributions amounting to \$12,400 were made.

A subscription by George Mulkey and wife of \$2,000, two of \$1,000 by J. P. Fielder and Mrs. Jennie Browning, and one of \$750 by H. W. Lusher and family were made. W. E. Williams, Rev. R. C. Armstrong and L. E. Runnels contributed \$500 each, other subscriptions ranging from \$25 to \$300.

BROADWAY BAPTIST CHURCH
At the Broadway Baptist church site at the corner of Leuda street and College avenue was chosen for the new building. A vote regarding the site was made unanimous by the congregation.

Rev. J. W. Gillon, pastor, announces that plans will at once be begun by an architect and the erection of the building be begun.

A structure to cost \$25,000 or more will be erected by the congregation, about half that amount having been subscribed already.

I treat women only. Dr. Blanche A. Duncan, old phone, corner Fifth and Main.

Range Exhibit
The range exhibit announced by The William Henry & R. E. Bell Hardware Company is being held today, starting this morning and from the number of visitors and the interest they are manifesting it promises to be a phenomenal success.

They have just closed an exhibit at Weatherford, at which they report to have sold seventeen Ranges. When a person examines the Range and sees it in operation it shows conclusive evidence of its qualities.

WEATHER

FORECAST
The forecast for Texas east of the one hundredth meridian, issued at New Orleans, La., (north)—Tonight, increasing cloudiness, probably showers in west portion; Tuesday, cloudy weather in east portion, showers in west portion.

East Texas (south)—Tonight and Tuesday, partly cloudy weather.

WEATHER CONDITIONS
D. S. Landis issued the following statement of the weather conditions this morning:

A low pressure area of somewhat limited dimensions is centered over New Orleans, accompanied by rain extending over Louisiana, Alabama and Tennessee. Rain is falling in Tennessee, Alabama and Louisiana this morning. New Orleans reporting 6.48 inches up to 7 o'clock this morning.

Thunder storms occurred at Montgomery, Nashville and Knoxville. Another "low" is central over the Texas Panhandle with rain falling on its north-west reaching from Salt Lake and over the southern portion of Colorado.

High pressure conditions with clear cold weather prevail in the north lake regions.

Snow is falling at Bismarck and rain at North Platte, Neb.

Texas is partly cloudy. Heavy rain occurring on the west gulf coast last night.

WEATHER RECORD
Following is the weather record for the last twenty-four hours—Minimum an maximum temperature, wind in miles per hour at 8 a. m., and rain in inches:

Free to Weak Men

Send your Name and Address Today. You Can Have a Trial Treatment Absolutely Free

We will gladly send to anyone, free of charge, a trial treatment of our wonderful treatments for the cure of men who are suffering from nervous debility, loss of vitality, vital weakness, unnatural drains at night, varicocele, and all the evil results of early indiscretions; also stricture, blood poison in the first, second or third stage, and all other venereal or private diseases of men.

We feel it a waste of time and space to go into details to tell you what these wonderful remedies have done for others. The quickest way to convince you that the remedies will do all that we claim for them is to have you give them a trial. As the old saying is, "the proof of the pudding is in the eating."

We earnestly and sincerely ask you to write to us at once, and on receipt of your letter we will immediately mail you a trial of the remedies, and a sufficient quantity to convince you that this treatment is what you have so long looked for in vain, and a treatment that will quickly restore you to your full manly strength and vigor. Simply send your name and address to the Interstate Remedy Co., 178 Luck Building, Detroit, Mich., and we will gladly send you, absolutely free, a trial treatment, with full directions as to its use.

NOTE! THE above is indeed a fair and liberal offer and the doctors connected with the Interstate Remedy Co. are all skilled and experienced specialists.

JUDGE D. A. McFALL DEAD
Relapse Follows Apparent Rally—Was Prominent in Connection With Anti-Trust Suits at Austin

AUSTIN, Texas, March 20.—David A. McFall died at noon yesterday, after an illness lasting twenty-one days. Not of robust constitution, an attack of grip settled in his heart, and for days he hovered between life and death. During the past week his condition improved and hopes were entertained that he would recover.

Saturday he relapsed and became unconscious. Judge McFall was 36 years of age. He came to Austin from Tennessee with his father at the age of 6, and resided here continuously from that time forward. He attended the graded schools of Austin, graduated in the high school and took his law degrees in the University of Texas. He was a member of the Twenty-third and the Twenty-seventh legislatures. In the legislature last mentioned he created somewhat of a sensation by offering a resolution calling for the investigation of the readmission of the Waters-Pierce Oil Company into Texas. He also served one term as county judge of Travis county.

About three years ago he joined the district attorney in filing a number of anti-trust suits, among them a suit against the Kirby Lumber Company, the dismissal of which last mentioned suit was the basis for the bribery indictments presented by the grand jury about a month ago. Judge McFall acted as assistant county attorney in representing the state before the grand jury upon that occasion and in the preparation of the indictments. Very shortly thereafter he was taken ill and was unable to attend court during the recent trial.

The fact that County Attorney Brady was permitted to read anything about the trial, and that he was unconscious for twenty-four hours before death.

The time of the funeral has not been fixed, but it probably will take place on Tuesday or Wednesday. Mrs. Mc-

MEN—WOMEN—CHILDREN

Weak Kidneys Cured Forever.

If you have a pain or dull ache in the back it is unmistakable evidence of kidney trouble. It is a warning to tell you trouble is ahead unless you remedy the cause immediately.

Backache is only one symptom of kidney trouble. Other symptoms are, being obliged to pass water often during the day and to get up many times during the night, inability to hold your urine, smarting or irritation, passing brick-dust or sediment in the urine, catarrh of the bladder, uric acid, constant headache, dizziness, sleeplessness, nervousness, irregular heart beating, rheumatism, bloating, irritability, worn-out feeling, lack of ambition and sallow complexion.

Hooper's Parsley Kidney Pills are proving to be the most wonderful cure ever gotten out for weak and diseased kidneys.

Keelers 7, Rosen Heights 5

In a game of baseball played Sunday at the Rosen Heights ball park the Keelers' carriage team defeated a team from Rosen Heights by a score of 7 to 5.

Batteries—Keelers, Rogers and Leonard; Rosen Heights, Smith and Hornesby.

SOCIETY GIRLS OPEN CAR LINE

Receipts Donated to Benevolent Home Association Expected to Be Large

Society girls acted as conductors at the official opening of the Rosen Heights street car line this morning. The girls, with their chaperons, took charge of the cars at 9 o'clock and collected fares until noon. Miss Ray Saunders made the first trip, while Misses Ted Edgington and Bernie Newlin had charge of the car which made the noon trip.

It was impossible to estimate the amount taken in for the Benevolent Home Association as a result of the plan, but inasmuch as the "conductors" refused to give any change it is probable that the receipts from all the cars will aggregate a large sum.

Each girl wore a silk badge with the word "conductor" on it, and while her chaperon remained seated in the car, went among the passengers taking up the money. Regular conductors to start and stop the cars were provided by the car company.

The girl conductors proved quite a drawing card to the crowd of the city, many of whom on this account took several trips to Rosen Heights and back.

Visiting gentlemen looked with wonder on the pretty girls who collected the fares and were desirous to know when Fort Worth adopted the unique custom. They learned that it was for the building of an orphans' home, they donated with usual cowman's generosity.

The girls who acted as conductors are: Misses Kittle Belle Jenkins, Hortense Martin, Andre Anderson, Helen Waples, Ray Saunders, Katherine Stripling, Martha Jennings, Bernie Newlin, Ted Edgington, Mabel Horsley, May Larimer, Bessie White, Lucile White, Mary Harrison and Grace Hollingsworth.

The chaperons were Mesdames F. D. Thompson, A. B. Wharton, E. W. Tempel, I. H. Burney, George Monning, R. H. McWatt, J. B. Craddock, Sam Henderson, Capera and Willard Burton.

Mrs. E. H. Carter, president of the Benevolent Home Association, and Mrs. Irby Dunklin superintended the runs this morning, placing each girl and her chaperon on their proper car.

STONE CUTTERS HOLD CONFERENCE

Lone Star Conference Having Jurisdiction of Texas Elects Officers at Meeting

The Lone Star conference of Journeyman Stonecutters' Association of North America held its annual convention in Dallas Sunday.

The following officers were elected for the ensuing year: President, Alex Frazer of Dallas; first vice president, J. H. Brookshire of Waco; second vice president, George McAulay of Amarillo; state secretary, George McKenzie of Dallas, and assistant secretary, H. H. McFarland of Fort Worth.

The object of the conference is to advance the interests of stonecutters and to advertise the stone industry throughout the state of Texas.

Seventy-five delegates were represented from the cities of the state. The conference was organized in Waco July 4, 1902.

The officers elected comprise the executive committee. Owing to a change in the constitution the next conference will not be held until 1907.

A spring tonic that makes sick people well. Drives out all impurities that collect in your system. A family tonic for the sick and afflicted. Hollister's Rocky Mountain Tea. 35 cents, Tea or Tablets. Ask your druggist.

Dr. Blanche A. Duncan, diseases of women. Call or write. Corner Fifth and Main. Old phone.

SIXTY-ONE CHINESE HERE

Census of Celestial Citizens Compiled by W. H. Robb, U. S. Immigration Inspector in Fort Worth

A census of the Chinese inhabitants of Fort Worth has just been completed. The census was taken by Immigration Inspector W. H. Robb, who found that this city has a Mongolian population of sixty-one. Of this number fifty-seven are full-grown men, two boys, one a woman and the sixty-first of the race is a mite of a baby not yet two months of age, born in this city.

Inspector Robb was instructed to take the census from departmental headquarters Saturday and proceeded to do so at once, with the result given. The Chinese population of Fort Worth has increased seven since the census of last year, which was taken on June 11.

You will need to prepare your system for the coming hot weather, get your organs to work like clock work. Hollister's Rocky Mountain Tea taken this month will do the business. 35 cents, Tea or Tablets. Ask your druggist.

VETERANS WILL GREET PRESIDENT

Members of Lee Camp Vote to March in Parade in Honor of Roosevelt

The hall of Lee camp, United Confederate Veterans, was crowded Sunday with members. There was not a single vacant chair when Commander Taylor called the camp to order, and Rev. C. T. Alexander of Cleburne offered prayer.

The application of J. T. Castleberry for membership was received and referred to the committee. He was a private in company K, Ninth Georgia, and enlisted at Atlanta, Ga., in 1864.

Resolutions on the death of W. D. Hall.

The Pills That Cure LOCOMOTOR ATAXIA

Miss Phebe Ett Enos, Oneonta, N.Y., says "My trouble began with numbness in my feet and spread through both limbs. The pain was intense. I couldn't walk without a cane. Couldn't walk at all in the dark. Finally I became entirely helpless. Now I am well, do my own work, can even run up and down stairs. I owe my cure entirely to

Dr. Williams' Pink Pills for Pale People

This specific for nervous disorders has also cured stubborn cases of sciatica, partial paralysis and St. Vitus' dance, and is highly recommended for minor troubles, such as neuralgia, prostration, debility, fainting spells, dizziness and the like.

FOR SALE BY ALL DRUGGISTS.

We Will Buy

A 50c Bottle of Liquozone and Give it to You to Try

We want you to know about Liquozone, and the product itself can tell you more than we. So we ask you to tell us buy you a bottle—a full-size bottle—to try. Let it prove that it does what medicine cannot do. See what a tonic it is. Learn that it does kill germs. Then, you will use it always, as we do, and as millions of others do.

This offer itself should convince you that Liquozone does as we claim. We give you certainly not buy a bottle and give it to you if there was any doubt of results. You want those results; you want to be well and to keep well. And you can't do that—nobody can—without Liquozone.

We Paid \$100,000

For the American rights to Liquozone. We did this after testing the product for two years, through physicians and hospitals, after proving, in thousands of different cases, that Liquozone destroys the cause of any germ disease.

Liquozone has, for more than 20 years, been the constant subject of scientific and chemical research. It is not made by compounding drugs, nor with alcohol. Its virtues are derived solely from germs—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. The result is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you. Its effects are exhilarating, vitalizing, purifying. Yet it is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill. The reason is that germs are vegetables; and

Liquozone—like an excess of oxygen—is deadly to vegetable matter. There lies the great value of Liquozone. It is the only way known to kill germs in the body without killing the tissues, too. Any drug that kills germs is a poison, and it cannot be taken internally. Every physician knows that medicine is almost helpless in any germ disease.

Inflammation—all catarrh—all contagious diseases—all the results of impure or poisoned blood.

In nervous debility Liquozone acts as a vitalizer, accomplishing what no drugs can do.

50c Bottle Free

If you need Liquozone, and have never tried it, please send us this coupon. We will then mail you an order on a local druggist for a full-size bottle, and we will pay the druggist ourselves for it. This is our free gift, made to convince you to show you what Liquozone is, and what it can do. In justice to yourself, please, accept it today, for it places you under no obligation whatever. Liquozone costs 50c. and \$1.

CUT OUT THIS COUPON

for this offer may not appear again. Fill out the blanks and mail it to The Liquozone Company, 454-456 Wabash Avenue, Chicago.

My disease is.....

I have never tried Liquozone, but if you will supply me a 50c bottle free, I will take it.

.....

Give full address—write plainly.

Any physician or hospital not yet using Liquozone will be gladly supplied for a test.

THE TELEGRAM'S DAILY FINANCIAL AND COMMERCIAL REPORT

WALL STREET STRONGER

Canadian Pacific Leads Railroad Stocks. Union Pacific Also Shows Strength

Special to The Telegram.

NEW YORK, March 21.—The stock market opened strong with Canadian Pacific in the lead, London being a heavy buyer of the stock in this market at the start.

Dullness prevailed during the first part of the afternoon trading with price changes very narrow. The selling pressure was entirely taken off the market and values ruled firm.

In the railroad department New York Central continued the strong feature, with Union Pacific, St. Paul and Pennsylvania all showing considerable strength.

NEW YORK STOCK QUOTATIONS. Open. Close. Missouri Pacific 107 1/2 107 1/2 Union Pacific 131 3/4 131 3/4

WHEAT OPENING WEAKER

Large Supply Thrown on Market at Opening—May Closes With 3-4c Loss From Saturday

Special to The Telegram.

CHICAGO, March 20.—Wheat opened rather weak with May unchanged to 3-8c lower during the early trading.

CHICAGO GRAIN AND PROVISIONS. (By Private Wire to M. H. Thomas & Co.) CHICAGO, Ill., March 20.—The grain and provision markets ranged in prices today as follows:

CHICAGO CASH GRAIN. (By Private Wire to M. H. Thomas & Co.) CHICAGO, Ill., March 20.—Cash grain was quoted today as follows:

NEW YORK STOCK QUOTATIONS. Open. Close. Missouri Pacific 107 1/2 107 1/2 Union Pacific 131 3/4 131 3/4

COTTON CLOSES HIGHER

Market Shows Much Activity, Bulls Scoring Net Gain of 12 to 13 Points

Special to The Telegram.

NEW YORK, March 20.—This has been a day of much interest in cotton trading was brisk after the opening.

LIVERPOOL COTTON. (By Private Wire to M. H. Thomas & Co.) LIVERPOOL, March 20.—The spot cotton market was easier in tone, with a fair demand.

PORT RECEIPTS. (By Private Wire to M. H. Thomas & Co.) Receipts of cotton at the leading accumulative centers, compared with the receipts of the same time last year:

ESTIMATED TOMORROW. Tomorrow, Last year. New Orleans 7,500 to 9,000 6,950 Galveston 8,000 to 8,500 4,781

THE LIVE STOCK MARKET

Cattle Prices Take Upward Turn—Good Run of Hogs With Market Higher

Special to The Telegram.

NORTH FORT WORTH, March 20.—With around 1,500 cattle on the market, prices took an upward turn on an active demand.

TODAY'S RECEIPTS. Cattle 2,600 Hogs 1,500 Sheep 1182 Horses and mules 91

PANTHERS WIN IN GARRISON FINISH. Patty Mauch, Fort Worth's new catcher, won the game from the St. Louis Browns Sunday by smashing a two-bagger to left, bringing in Boles and Poindexter, making the score 3 to 8 in favor of Fort Worth.

For the Little Ones

Egg-O-See is an invaluable food for grown up folks, but it is also peculiarly beneficial to the " tots."

There are no cheap toys packed in Egg-O-See. Is not the health of your little ones more important to you than penny trinkets?

TOO LATE TO CLASSIFY. WANTED TO HIRE good horse and light wagon; will be well cared for. Apply Jones Bakery, 704 East Seventeenth, new phone 1450-green.

Children abuse their Eyes
 Children can't realize what delicate organs the eyes are, and how easily they are injured.
 It's impossible to watch them all the time. They read or study by poor light or too long at a time, and
Strained Eyes Result.
 Don't for a minute neglect any irregularity in children's vision—"rest glasses" used for a little while may be all that is needed. If their eyes are inflamed or aching, let us examine them before real disease sets in.
LORD, 713 Main

WHY POLYTECHNIC HEIGHTS offers advantages to homeseekers over any other suburb of Fort Worth: First, the college, public schools, thirty-minute car service, telephone, good water, pure air and no city taxes. WELCOME

THE HOME OF GOOD FURNITURE

TO THE Cattlemen!

YOU ARE INVITED to visit this institution and stroll through, viewing our methods of handling great quantities, and artistically displayed Modern Furniture. The Carpet Department alone, on the second floor, will furnish many interesting ideas and things well worth your time to see.

You will find our office very convenient for leaving baggage, writing letters, meeting friends, etc., all of which you are welcome to do.

LIBRARY FURNITURE

Large lots of specially designed Library Pieces, odd and in suits, plain and upholstered, in golden oak, weathered oak, wicker and mahogany.

CARPET SELECTING

Some two hundred patterns afford a wide range for selecting good Carpets of modern weave. New designs as they leave the looms are forwarded to us, replacing those sold with the new.

LETTER TO J. C. HARRISON

Dear Sir: We know what the paints are all made-of, you know; we have to. In Wilson, N. C., are two dealers. One of 'em thinks he can't sell paint for more than \$1 a gallon; the other won't have such stuff in his store—sells Devoe lead-and-zinc, of course.

The \$1 paint is adulterated 75 per cent; Devoe is all lead and zinc and linseed oil, with as little good drier as possible. A gallon Devoe has in it a little more paint than four gallons of the other. A gallon Devoe will cover as much as four of the other. Who wants to pay wages for painting four gallons for one?

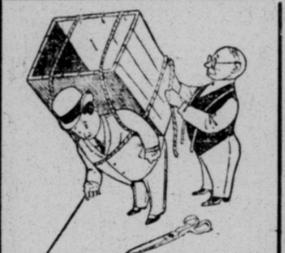

How much is Devoe lead-and-zinc worth in that town? Yours truly,
F. W. DEVOE & CO.
P. S.—Brown & Vera sell our paint.

What Shall We Have for Dessert?

This is an important daily question. Let us answer it to-day. Try

Jell-O,

America's most popular dessert. Received Highest Award, Gold Medal, World's Fair, St. Louis, 1904. Everything in the package; add boiling water and set to cool. Flavors: Lemon, Orange, Raspberry, Strawberry, Chocolate and Cherry. Order a package of each flavor from your grocer to-day. 10c.

The New Box Back

Where we are allowed to exercise our own discretion we are putting on our customers the new box back.

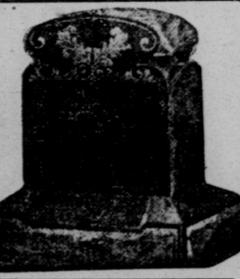

It doesn't lay in folds nor plaits, but hangs straight from the shoulders with only a slight shaping to the form.

We are heavy creasing the side and center seams, adding something to the length, throwing in a vent or two, and there you are—a really stylish up-to-date suit.

Get inside. Spring stock complete.

Suits and Top Coats Tailored to Taste \$20 to \$40
