

ST. LOUIS WINS CLOSING GAME

Browns End Their Preliminary Training in Texas by Defeating the Panthers

Fort Worth again went down an easy victim to St. Louis at Haines Park Sunday afternoon. The score of 8 to 0 tells without further explanation other than that Fort Worth did its best, that the leaguers are simply better ball players than are to be found in one collection in the Texas league.

ble to do anything with Morgan or to get one past Wallace at short. In the last of the sixth Johnson entered the box for Fort Worth and for awhile was as wild as a March hare, giving four passes to first.

TEXAS BASEBALL LEAGUE SCHEDULE FOR 1905

The official schedule of games for the 1905 season in the Texas League was approved Sunday by Corsicana, for whose consideration it was held open and has now been issued as follows:

Table with columns for teams (AT DALLAS, AT FT. WORTH, AT CORSICANA, AT WACO, AT TEMPLE, AT AUSTIN) and dates for games.

Will Not Freeze, Lump or Spoil

"We take pleasure in advising you of the satisfactory use of one of your extinguishers today. We had quite a hot fire in one of our pickers, smoke was issuing fiercely from the dust room when first noticed. The contents of one tube was thrown into the machine while running, though about half of it was spilled, never reaching the fire. The fire in the machine and dust room was quickly extinguished without the use of water or other extinguishers. A few minutes' stop was necessary only to take out the cotton damaged by fire."

COACH MILLS BECOMES A COLORADO GUIDE

Captain of 1904 University Football Team Climbing Mountains to Keep in Good Condition

Coach Mills, the doughty little coach and captain of the Fort Worth university 1904 football team, has written to friends in this city that he has gone from Denver, where he has been the past several months, to Estes Park in Colorado, where he will act as a guide for the summer tourists.

There is no evidence of his having done so.

Miss Ohlsen's father is a Swedish clergyman, the author of several religious works. The family arrived in Corona a year ago from Chicago. Young Smith fell in love with Alice at their first meeting, and although he had just left grammar school to work in a New York store, began a vigorous courtship.

THE EVOLUTION OF TEXAS

The great state of Texas has emerged to the gaze of an inquiring and insistent public. It has cast off the cowman and the cotton baron and gone to doing things that pay better.

The rice and fruit crop of Texas is soon going to be worth more money than the combined cattle and cotton crop. The small farm is taking the place of the hacienda, and the intelligent farmer is making money where the cowboy made a living.

No other section of the continent is today attracting so much attention as the southwest. And no other section can offer the combination of inducements to the investor and homeseeker.

The homeseeker at the Kansas City and St. Louis union depots is always going to the southwest. His ticket reads to Oklahoma or Indian Territory or New Mexico or Texas or Arkansas.

The southwest is the mecca for the homeseeker of this decade just as the middle states of now was the objective section to which the homeseeker of fifty years ago directed his ox team.

Work has begun on the new Union stock yards that are to be constructed in Amarillo at a cost of \$25,000, and it is hoped to have the yards in shape by the time the Panhandle Cattle Raisers' association holds its annual meeting in that city, which will be April 18.

Nebraska has abolished capital punishment, in deference to the popular sentiment that the state is not justified in taking human life.

Mrs. Chadwick has been talking a little during the past few days, but the threatened sensational disclosures have not yet materialized.

The people of this country are getting tired of the very name of investigation. What they want is a practical enforcement of the laws of the country by the men who are sworn to enforce them.

Miss Ida M. Tarbell is in Kansas and Oklahoma investigating the Standard oil company, while sister Carry Nation yet lingers in Texas and talks on the miseries that arise from the use of intoxicants and the ruin that is wrought by tobacco.

Whenever the big packers and their emissaries are cornered on the condition of the cattle markets in this country, they immediately begin to look sorrowful and talk about the development of our foreign trade.

According to report, President Roosevelt is to be in Fort Worth on the morning of April 8, and will only spend about one hour in this city. It is said he will deliver an address in deference to the desire of the people that he should do so.

Having found out that Grover Cleveland and William J. Bryan would not be present, Judge Alton B. Parker has reconsidered his former declination, and will address the New York Democratic club on the occasion of its Jefferson Day dinner.

strates the cattle business of the country is settling down upon a permanent basis. That it is falling into the hands of men who are capable of dealing with the new problems that have presented themselves, and will move onward with the spirit of progress and continued development ever uppermost in their minds.

Beaver county, Oklahoma, is on the verge of another outbreak of hostilities between the cattlemen and agricultural interests, over the defeat of the proposed herd law.

The death of Ambassador Azpiroz of Mexico in Washington, is announced, and this death, like that of Senator Bate of Tennessee, is said to be directly attributable to exposure during the inauguration of President Roosevelt.

The Chicago Federation of Music has come to the conclusion that there is an over-production of music, and is going to work to restrict the monthly output.

The United States Marine Hospital service is to establish a hospital in Hawaii for the purpose of studying that loathsome disease, leprosy, the last session of congress having made an appropriation of \$100,000 for that purpose.

It is now freely predicted that the Santa Fe railway will have a north and south line of railway in operation through West Texas long before the Orient is completed.

President Castro of Venezuela flatly refuses to arbitrate the differences with this country. Minister Bowen characterizes his answer as an insult, but the Washington authorities are disposed to regard the situation lightly.

Do You Need Bracing Up?

No other tonic in the world is like Paine's Celery Compound; no other remedy takes so simple and scientific a way to perform its wonders.

Paine's Celery Compound acts directly upon the nerves, feeding them Nature's nerve food—celery—filling them with new vitality.

Through the nerves it acts upon the blood, purifying it, strengthening it, making it pure and strong and red and healthy.

Learn the full luxury and delight of being always at your best, able to live your life for all that is in it.

Feel the exultant thrill of pure, rich blood and abundant Nerve Force, made by Paine's Celery Compound.

Paine's Celery Compound gives real Nerve Force, instead of the false activity imparted by mere stimulants. It is the best and quickest nerve tonic.

Tired, weak-nerved, thin-blooded, unhappy men and women get quick, sure, hearty health from this celebrated Nerve Vitalizer and Tonic. It drives away lassitude, gives courage and strength.

Miss Mary Stone, Secretary of the Young People's Christian Temperance Society of Milwaukee, tells her experience after feeling "run down" for months.

"We have used Paine's Celery Compound in our family for a number of years and a few months ago when I felt so worn out and run down that I thought I would have to give up my work and take a vacation earlier, mother suggested that I try a couple of bottles of Celery Compound. A few doses made me feel quite different, my appetite increased, I began to sleep well at night and felt rested in the morning.

Try Paine's Celery Compound YOURSELF when you feel exhausted—when you grow tired sooner than you should—when you lose patience with the irritating cares of daily life—when you feel that your hopes and ambitions are not as high as they used to be—when you spend a sleepless night—when you get up almost as weary as when you went to bed—when you are worried—when the tired feeling puts its heavy touch upon you.

That is when you need the new Nerve Force, the good blood and fresh vitality that is given by PAINE'S CELERY COMPOUND.

Don't wait. Try Paine's Celery Compound today.

Take just one dose when you go to face the hard part of the day's trials. See how much better you feel.

See how much more easily the trials roll away. Two days' treatment with Paine's Celery Compound will give proof of its marvelous powers.

For 18 years this famous prescription has been the most universally used tonic in the world. It has stood the test of time. Physicians constantly use and prescribe it. No prescription has ever been formulated that equaled it in curative power.

Remember this—Paine's Celery Compound is the prescription of one of the most famous physicians this country has ever known, and all reputable Druggists sell and recommend it.

Gleanings From the Exchanges

Some time ago the Bulletin published an interview with Colonel G. L. Goodwin relating to the reduction of the number of representatives in the senate and house as a means of securing better legislation.

The state legislature as it is now constituted is cumbersome and a very unwieldy body is clear to all who have made any attempt to keep up with its deliberations, and any change that would result in any kind of improvement would be welcomed by the people of this state.

Somebody said a late Easter means this year a late spring; somebody else is waiting for Easter to plant cotton. A lady that you all know refuses to cut out a dress on Friday or start on a trip that day.

There is a whole lot about the weather we do not understand, and doubtless there is much we will never comprehend. A late Easter is always accepted as an indication of a late and backward spring, but the present season has seemed to give the theory something of a black eye.

Terrill set the maximum advertising price that Texas newspapers may charge the Texas office seekers. Now the judge should fix the maximum subscription price of these very same papers.

The legislature is passing all kinds of laws to increase the revenues of the state, the object seemingly being to find something for the benefit of the tax eaters that has no vote.

The trouble with the state legislature is that it is not passing the measures necessary for tax reform in Texas. There are many such measures pending, but they are not being enacted into law.

Strange, isn't it, that in a country like ours manufacturers are permitted to place on the market impure foods. Many thousands of unsuspecting citizens are slowly destroying their health by consuming foods that are poisonous and which are manufactured by men who place the dollar above the life of their customers.
