About forty of the members of the spe cial committee of seventy-two appointed at the meeting of general agents recently held in New York were present at the conference held at noon in Superintendent Hendricks office at the State Bank of Syracuse, of which he is the president. In his reply Mr. Hendricks said:

"As far as the mutualization of the company is concerned, I have already expressed myself very closely. I am very much in favor of that outcome. I am not sure, however, that you can obtain the relief desired by legislation. Of course I speak to you as superintendent of insurance. You know I have no control over the legislature and can not say what that body would do. The question has got to be determined by the courts. If Judge Mattox decides that I have no power to put in force the amended charter, an appea! will be made either to the court of appeals or the United States court."

Until the drain on your system produces permanent disability. The human breathing machinery is a wonderful system of tubes and cells. To have good health it must be kept in good order. A COLD is considered of no importance, yet if it was known by it's proper name of "throat inflammation," or "congestion of the lungs," its dangerous character would be appreciated. When a cold makes its appearance use at once Ballard's Hore-

Let us lift for a moment the building well if within this political struccurtains that hide the shadowy past and ture thou alone art to be housed; thy look back as Hawthorne says to "our old home." It is the eleventh century. The isle of England is in danger, for the pages of history, were it possible for upon her southern rock bound coasts a these two peoples, forgetting their old stalwart and fearless foe, led by the brave William, is in deadly conflict with the oft enmities and social distinctions, to units in the brotherhood of citizenship as their uccessful and battle hungry Saxon, whom Thirteen Colonies unite in an American Haroid marshalls for the defense of his republic. But sad the legacy they inherit, life and his land. English bowmen meet Norman arches, and Norman lancers meet for the same impulses of hatred that bade English axmen. They hew and hack until Haroid falls and with him England's kingdom and the Saxon's crown. The English are captives in their own homes and William the Conqueror is monarch over two peoples.

Gleanings From the Exchanges

Neither Senator Bailey nor Senator Culperson was on deck to welcome the prestdent at any point on his Texas itinerary. They were fearfully busy elsewhere. Well, the Texans demonstrated to the two distinguished gentlemen that Texas could do without them as hosts, which might be a prelude to what may become another fact, that Texas can do without them as United States senators.-Texarkana

The president did not visit Senator Bailey's home town, and Senator Culberson was detained in Washington by business. Neither of the distinguished gentlemen will suffer any evil effect from the fact that they did not assist in the Texas welcome to President Roosevelt.

A great many of the papers are censuring the legislature for adjourning and forcing the governor to call them in extra session at a salary of \$5 a day instead of the paltry \$2 they are receiving. When a legislator just can't live in a place on the salary he is receiving, and he has it in his power to at least make his expenses can he be much blamed for doing so? It is true that the body should have finished its work before now, but its very size has kept it from doing that. The legislator who is not worth \$5 a day is not worth anything to the state .-

the time that belonged to the people of Texas that has been wasted at Austin.

Colonel Henry Watterson draws an nteresting parallel and contrast between Andrew Jackson and Theodore Roosevelt. Like Jackson he swept the into his own hands; but Jackson opposed the encroachment of wealth esbank, while Roosevelt is the candidate of a party that is in alliance with corporate power; Jackson had powerful opposition in the persons of Webster, Clay and Calhoun; Roosevelt meets more obstruction in his own party than from the democrats, who are at the fag end of nowhere; Jackson had an unfaltering Ajax in Benton, Roosevelt has lost even Lodge; Jackson always went clear to the dead line. Will Roosevelt do likewise? It is to be doubted. He has been shifting throughout his career. Will he regulate the railroads and control the trusts? Hard-

LIVES DEARER THAN OUR VERY OWN

How many lives dearer to us than our very own have been placed in needless eopardy by failure to provide against and forestall the great suffering which too frequently accompanies and follows the bearing of children? That we would do anything within our power to obviate the possibility of such an happening is too patent to admit of question; therefore — mark well this fact — a liniment,

by name, has been devised, whose function it is to prepare in advance the muscles and tissues intimately associated with parturition. This liniment is for external application. By its use the parts are relaxed and enabled to withstand not only the actual strain brought to bear on them during accouchement, but also to rally from this ordeal and speedily regain their normal proportions and tonicity. Thursday's closing figures, and \$1.13½, the high point on Thursday. The chief apparent reason for the extraordinary decline was the absence of support. In addition there was an unconfirmed but explicit dispatch from Minneapolls to the effect that the May deal had been settled. Aside from this, the increase of receipts here was a decided bearish factor, arrivals of wheat here for the week making a total of 740, 200 bushels, against 310,000 bushels last 266... 86 week and 203,000 bushels the corresponding week a year ago. Sick Headache

When your head aches, there is a storm in the nervous system, centering in the brain.

This irritation produces pain in the head, and the turbulent nerve current sent to the stomach causes nausea, vomiting.

This is sick headache, and is dangerous, as frequent and prolonged attacks weaken the brain, resulting in loss of memory, inflammation, epi-

lepsy, fits, dizziness, etc. Allay this stormy, irritated, aching condition by taking Dr. Miles' Anti-Pain Pills.

They stop the pain by soothing, strengthening and relieving the tension upon the nerves -not by paralyzing them, as do most headache remedies.

Dr. Miles' Anti-Pain Pills do not contain opium, morphine, chloral, cocaine or similar drugs. "Sick headache is hereditary in my "Sick headache is hereditary in my family. My father suffered a great deal, and for many years I have had spells that were so severe that I was unable to attend to my business affairs for a day or so at a time. During a very severe attack of headache, I took Dr. Miles' Anti-Pain Pills and they relieved me almost immediately. Since then I take them when I feel the spell coming on and it stops it at once."

SENATOR O. H. PLATT DEAD

Connecticut Statesman Was Representative of New England Ideas and Puritan Conscience

WASHINGTON, Conn., April 22 .inited States Senator Orville Hitchcock Platt of Connecticut died at his summer home in this, his native town, at 8:53 o'clock last night from pneumonia. The end came almost unexpectedly, the

immediate cause being the breaking of the abscess which had formed in the right lung and which produced strangulation. The funeral probably will be held next Tuesday. The services will be held in the Congregational church.

Senator Platt contracted a severe cold while the Swayne impeachment trial at the national capitol was in progress. He had not fully recovered from it at the time of Senator Hawley's funeral. He stood in the railway station at Hartford for some time, awaiting the arrival of the train on which Senator Hawley's body was brought from Washington. During the wait he complained of a slight chill in consequence of which, after the exer- fer.
