

100 KILLED BY TORNADO IN LAREDO

Meager Reports Reaching Austin Tell of Probable Loss of Life and Much Damage as Result of Severe Storm

OLD CATHEDRAL REPORTED DAMAGED

Fifty Houses Overturned—The Greatest Damage Believed to Have Been Done in Mexican Section of City

Special to The Telegram.

AUSTIN, Texas, April 29.—Additional particulars received here of the Laredo cyclone are to the effect that over 100 persons were killed and several hundred more or less injured.

Thirty-five guests in one hotel were killed outright. Fifty railroad coaches, belonging to the International and Great Northern and the Mexican National, were blown away.

It is estimated that over 150 houses were blown down by the storm, including the two hotels of the town.

The governor is enquiring into the matter with a view of sending relief to the storm sufferers.

Special to The Telegram.

AUSTIN, Texas, April 29.—Meager details have been received here of a terrific storm that passed over Southwestern Texas last night.

It is reported that the city of Laredo located on the Rio Grande river, suffered much damage, with probable loss of life. Fifty houses are reported to have been blown down.

Loss of life and damage is also reported to have occurred in New Laredo, on the Mexican side of the boundary.

The railroad dispatcher's office in this city reports that it has information from the Mexican side of the city that part of the town was damaged by terrific winds last night. Many houses are reported overturned.

It is reported that many houses were blown down, the cathedral being among the buildings wrecked.

There are not direct telegraphic communications out of Laredo.

TEN BODIES RECOVERED

Special to The Telegram.

SAN ANTONIO, Texas, April 29.—News reached here this morning of a tornado at Laredo. The wires are down and no particulars are obtainable. It is reported that a number of houses were unroofed and demolished and that twenty people were killed and many others injured.

A string of box cars was blown off the International and Great Northern tracks.

A long distance telephone message from Cotulla says the bodies of ten dead Mexicans have been recovered.

Part of the bridge over the Rio Grande was blown away.

MOTOR CARS TO RACE ACROSS THE CONTINENT

Start Will Be Made in New York City and Goal Will Be Portland Exposition

PORTLAND, Ore., April 29.—Colonel R. W. Richardson, secretary of the National Good Roads Association, who is here to attend the National Good Roads convention in June, is in receipt of a telegram from New York stating that arrangements have been completed for a motor car race from New York to Portland. This race will start from the Waldorf-Astoria May 8, the first car to arrive at the convention of the National Good Roads Association in session at the Auditorium of the Lewis and Clarke Exposition is to receive \$1,000.

NO DEFENSE IN PATTERSON CASE

Actress' Attorneys Will Plead Theory That Prosecution Has Failed

NEW YORK, April 29.—After a day of interesting developments both the prosecution and the defense rested the case of Nan Patterson, the former actress, indicted for the alleged murder of Caesar Young, the wealthy bookmaker, almost a year ago. The prosecution finished its case just before the adjournment of the court and later Attorney O'Reilly of counsel for Miss Patterson, notified the prosecution that his side would submit no defense and would fight on the technical ground that the state had failed to make out any case against the defendant.

This plan had been under consideration for some days, but was only decided upon at a conference yesterday between the counsel for the defense and Nan Patterson and her aged father. The decision means the speedy conclusion of the young woman's third trial for the sensational tragedy. When the case is called Monday, to which date the trial was adjourned, Assistant District Attorney Rand will begin the summing up of the state's case.

HEARST WINS SUIT AGAINST C. A. TOWNE

NEW YORK, April 29.—Decision for the plaintiff has been rendered by Justice Vernon M. Davis of the supreme court in a peculiar suit brought by Congressman W. R. Hearst against his colleague in the house of representatives, Charles A. Towne. Both men represent New York districts. The action was brought by Mr. Hearst to recover \$6,000 and interest, loaned the defendant on a promissory note dated Feb. 16, 1904.

The complaint sets forth that payment on the note has been refused. The defense put in by Congressman Towne is that Mr. Hearst lent the money with an understanding that the borrower should write various articles for a publication owned by Hearst in Washington. The defendant declared he was not asked to write these articles, although he was ready to perform the services as agreed. Justice Davis, in awarding judgment against Mr. Towne, says:

"The allegations of the complaint are substantially admitted in the answer and there are no allegations of new matter that amount to a defense. Under the circumstances the plaintiff is entitled to judgment."

DR. GLADDEN MAKES REPLY

Cleveland Clergyman Reiterates Charge That Rockefeller Deliberately Conveyed Wrong Impression

COLUMBUS, Ohio, April 29.—Rev. Dr. Washington Gladden last night gave out the following statement in reply to the claim of Starr J. Murphy of the private counsel of John D. Rockefeller, that assertions made by Dr. Gladden were based on garbled reports of Mr. Rockefeller's testimony in the courts:

"Mr. Murphy charges me with garbling the testimony of Mr. Rockefeller. He says that when the testimony was given there were two companies under discussion, the Southern Improvement Company, and that Mr. Rockefeller's testimony related to the first named company and was a true answer, because with that company Mr. Rockefeller had nothing to do.

"I have searched the records to which Mr. Murphy cites me and can find but one company with a name like this upon the record of the session laws of Pennsylvania for 1870 and 1871. It is possible that such a charter may have been granted, but no such company was incorporated on the day he names, May 6, 1871. No such title is in the index of that company. The only company I can find bearing a name similar to this which was incorporated within those two years was the Southern Improvement Company.

"This, in fact, was the name of the company whose charter was purchased by Mr. Rockefeller and his friends. It appears from the records and memoranda published afterward that the Southern Improvement Company was the 'South Improvement Company.' It was often referred to by its own officials as the 'Southern Improvement Company.' It does not appear from the records of the investigation at which Mr. Rockefeller was a witness that any mention had been made of two companies with similar names.

"Mr. Pryor had been inquiring about the organization of the Standard Oil trust. Here are the questions and answers:

"Q. When was this trust formed?"
"A. In January, 1882."

"Q. Had there been previous to that a trust company called the Southern Improvement Company?"
"A. No, sir."

"Q. Was there such a company?"
"A. I have heard of such a company."

"Q. You were not in it?"
"A. I was not."

"It is certain therefore that Mr. Rockefeller must have known what company these questions referred to and that he intended, under oath, to convey and did convey the meaning that he was not a member of a company of which he was a member.

"This is the simple fact and I am greatly obliged to Mr. Murphy for the opportunity he has given me of making it entirely clear."

FLOODS BLOCK ALL RAILROAD TRAFFIC

Approximately 1,000 Passengers Are Detained at Las Vegas, N. M., As Result

LAS VEGAS, N. M., April 29.—Flood conditions on the Santa Fe railway are practically unchanged. Approximately 1,000 passengers bound east are detained. No time at which the blockade will be lifted can be fixed.

PLAN APPEAL TO THE PRESIDENT

Chicago Federation of Labor May Ask Roosevelt to End Teamsters' Strike

DISTURBANCES CONTINUE

Plumber Attacked by Non-Union Teamster, and Is Seriously Wounded

CHICAGO, Ill., April 29.—President Roosevelt may be formally asked to end the teamsters' strike here as he did the strike of the anthracite coal miners. A resolution requesting the president to try to induce the employers of Chicago to arbitrate the issues which are now being fought out and so avert bringing troops to Chicago is expected to be introduced in the Chicago Federation of Labor at a special meeting today. The petition to the president may be presented to him on his arrival in Chicago shortly.

DISTURBANCES BEGIN EARLY
Disturbances today in the teamsters' strike began promptly. The trouble started near the Eighteenth street barns of the Employers' Teaming Company. Inor Mulcahy, a plumber, was attacked by a non-union colored teamster and cut with a razor about the face and neck. Mulcahy was taken to the People's hospital. His assailant escaped.

Mulcahy was walking by the barns on his way to his place of business when he was in the crowd about the barns. He is declared, began to jeer the non-union colored teamsters. The non-unionists resentfully rushed into the crowd. Before the police interfered Mulcahy, who declared he was nearest the negroes, had been fearfully slashed. His assailant was followed by a crowd throwing sticks, stones and other missiles, many of which struck the fugitive. The negro finally managed to run through a livery stable and escaped.

Following the outbreak 100 negroes employed as non-union teamsters left the stables to begin service for the J. V. Farrell Company. Two police patrol wagons and 100 policemen guarded the negroes.

STRIKERS ARE ENJOINED

Federal Government Takes Hand in Chicago Labor Difficulty for First Time Since 1894

CHICAGO, Ill., April 29.—For the first time since the strike of the American Railway Union, in 1894, the government of the United States has been made a party to the labor troubles in this city. The government was brought into the teamsters' strike yesterday by the issuance of an injunction by Judge C. C. Kohlman of the United States circuit court. The injunction was asked for in behalf of the Employers' Teaming Association on the grounds that the organization is incorporated under the laws of West Virginia, and is therefore under the protection of the Federal court. The order commands that all defendants refrain from any interference with the business of the Employers' Teaming Association, and commands the strikers to refrain from picketing, massing on the streets with intent to obstruct the business of the complainant and from interfering in any manner with the men in its employ.

As soon as issued copies of the injunction were printed on large cards and two of these were carried to every wagon of the Employers' Teaming Association which went upon the streets. The injunction exerted a pacifying influence and there was less rioting on the streets than Thursday. A heavy thundershower, which continued during the latter part of the afternoon and through the evening, also lent material assistance in keeping the streets clear.

Twelve arrests were made for interference with the injunction, all of them being at one time and place. At 1:30 o'clock two wagons, with coal, approached the Union League Club on Jackson Boulevard, and when they attempted to drive into the narrow alley east of the club house to unload the coal, they were surrounded by a crowd of strike sympathizers and a lively fight resulted. The police, in charging the mob, arrested twelve men.

The strike spread steadily throughout the day, most of the teamsters going out however, being employed by small concerns. There are now about 3,500 teamsters on strike and their inaction has deprived about 15,000 other men from work.

TULANE DEFEATS TEXAS IN DEBATE

NEW ORLEANS, La., April 29.—Tulane University won the unanimous decision over Texas University in the fifth annual debate last night on the subject, "Resolved, that independent political action is more effective than efforts to reform within previously existing parties for securing good city government in the United States."

Texas had chosen the affirmative, while Tulane had the negative. Texas speakers were J. P. Simpson and Charles Mayes. Tulane was represented by A. G. Levy and Sci Weiss. The debate took place at Newcomb hall. The judges were Rev. Henry Wilder Foote, F. S. Shields and Victor Levy. Alex Ficklen presided.

FIRE IN WHITE HOUSE

WASHINGTON, April 29.—One of the chimneys in the executive office of the White House caught fire today but practically no damage was done. One engine responded and the blaze was soon extinguished. An open grate in the offices caused the blaze in the chimney.

Nan Patterson as She Appears in Court, The Man Standing beside Her is Prosecutor Rand

The above cut, sketched in the courtroom at the trial of Nan Patterson, whose third trial on the charge of killing Bookmaker Caesar Young is nearly ended, shows her most relentless enemy, Prosecutor Rand, standing beside her. Interest in Rand has grown with the trial, until his name figures as prominently in New York newspapers as that of the actress whose conviction he is trying to secure. A tall, athletic young man, college bred, manifestly a gentleman and the possessor of civility to a high degree, Rand nevertheless has a Puritanic sense of justice and his belief that Nan Patterson killed Caesar Young has caused him to exert himself to the utmost in order to secure her conviction. Under the terrible fire of his bitter invective, his merciless arraignment of her mode of life and her relations with the dead bookmaker, the actress cringes and shudders as if stung by physical pain.

MINISTER BOWEN MUST COME HOME

President Directs Secretary Taft to Recall Minister to Venezuela

WASHINGTON, D. C., April 29.—Secretary Taft has received instructions from the president to call Minister Bowen, now at Caracas, to Washington, and has also sent Mr. Russell, now minister to Colombia, to Caracas, and Mr. Barrett, now minister at Panama, to Colombia. It is stated if Mr. Bowen's action relative to the charges affecting Assistant Secretary Loomis are not subject to criticism it is the president's purpose to send him as minister to Chile and then probably as ambassador to Brazil.

AMATEUR ATHLETES IN CONTEST TODAY

PHILADELPHIA, April 29.—The eleventh carnival of relay races and field sports will be held on Franklin Field this afternoon. In point of numbers and territory represented it will eclipse any other athletic meet scheduled for this year. More than 12 hundred contestants, among whom are leading amateurs of the country will strive for prizes. This army of athletes represents upwards of 175 educational institutions. The meet furnishes a comparison between athletes of the east and west as the champions of the two sections meet in many of the events. It is the only meet of the year in which the best athletes of the two sections come together. There are five championships on the program, one, two and four mile college relay races and preparatory and high school one mile relays.

FITZHUGH LEE FOUGHT INDIANS IN TEXAS

WASHINGTON, April 29.—General Fitzhugh Lee's illness and death are attributed largely to his activity in the military and naval review, which is to be held in the vicinity of Jamestown, Va. His heart and soul were in the work and he labored zealously to make it a success.

General Lee was long a prominent figure in Washington and he always was given a hearty reception wherever he went. Before the civil war, at the beginning of which he resigned his commission in the United States army, General Lee saw considerable frontier duty in movements against the Indians. He was an expert cavalry officer and on one occasion, June 15, 1860, he was engaged in a hard-fought encounter with Comanche Indians near Camp Colorado, Texas. His services in the Confederate army as major general are well known, and during the interval between this work and his active work in the Spanish-American war, General Lee filled a number of important positions, including the governorship of Virginia, the presidency of the Pittsburg and Virginia railroad, the collectorship of internal revenue for the Lynchburg district and the consul generalship of Havana. Following his honorable discharge from the volunteer army, General Lee was appointed to a regular army, with the rank of brigadier general, and with this rank he was retired.

OFFICIALS THINK LOOMIS INNOCENT

Minister Bowen Will Be Called to Washington to Explain His Charges

WASHINGTON, D. C., April 29.—Secretary Taft, it is understood, heard from President Roosevelt, approving his proposition to direct Minister Bowen at Caracas to report to Washington to explain the charges against Assistant Secretary Loomis of the state department, which were communicated to Secretary Taft by the minister. Secretary Taft accordingly will act in the matter.

This proceeding is to determine precisely the extent of Mr. Bowen's responsibility for the circulation of these charges. The official mind here is made up so far as Mr. Loomis is concerned. It is absolutely convinced of his innocence of any wrong doing while he was minister to Venezuela, and has reached this conviction after a thorough sifting of the allegations. That being the case, it is felt here that Minister Bowen in order to escape blame himself, must show that he did one of two things—either by private inquiry in Caracas he arrived at another conclusion as to the truthfulness of the charges, or that he did what he could to denounce them and to discourage their circulation in Venezuela.

When Mr. Loomis was minister to Venezuela Mr. Bowen was minister to Persia. Mr. Bowen visited Paris, Mr. Loomis, at that time in Switzerland, previous to taking a new post at Lisbon, is said to have been displeased by an interview given by Mr. Bowen, saying the United States would enjoy good relations with Venezuela and that all that was needed at Caracas was a man of discretion.

When the allied powers, England, Germany and Italy, undertook two years ago the blockade of the Venezuelan coast to force the payment of their claims against that country, Bowen was high in President Castro's favor. He was commissioned by Castro, with the permission of the United States, to come to Washington to represent Venezuela in treating with the powers.

Mr. Loomis, who was then home on leave from Lisbon, was appointed assistant secretary of state by President Roosevelt. Loomis and Bowen met here for the first time in the course of the negotiations which followed. They did not get along well together.

Mr. Bowen published on his own responsibility just after the negotiations in Washington a blue book of the correspondence in connection therewith. This publication revealed exchanges which aroused the representatives of the powers. The state department did not like it. To Loomis was delegated the responsibility in restraining its circulation or further publication. Mr. Bowen is reported to have resisted this and to have considered certain instructions which he received at Caracas as somewhat in the nature of petty persecution.

OGDEN PARTY IN RAILROAD WRECK

Guests of New York Philanthropist Are Injured at Greenville, S. C.

GREENVILLE, S. C., April 29.—A special train bearing Robert C. Ogden's educational party ran into a freight train today just outside of Greenville. The engine, the baggage car, the library car and two dining cars were badly damaged.

Nearly all of the party were asleep when the accident occurred. The only passengers injured were in the dining car. A fireman on the special train was killed, and Professor Henry W. B. Farnum of Yale University had his right arm broken and was severely cut and bruised. Mrs. Farnum was also cut and bruised.

Others hurt were: St. Clair McKelway, editor of the Brooklyn Eagle, bruised about the shoulders by being thrown through the window of the dining car while breakfasting.

R. M. Ogden, secretary to R. C. Ogden, cuts and bruises.

Mrs. J. G. Thorpe, Cambridge, Mass., cut about the face and shoulders and badly bruised.

Several colored servants were cut and bruised.

After the collision the wreck caught fire and it is feared that one of the cooks in the dining car burned to death.

CITIZENS' ALLIANCE FAVORS OPEN SHOP

Union Men at Muskogee Stirred by Action of Business Men's Association

MUSKOGEE, I. T., April 29.—The Citizens' Alliance of this city, composed of the largest property owners and business men, have declared for open shop plan and have published a resolution to that effect. Union men here are wrought up over the matter. It is believed this declaration is the ultimate result of the strike and lockout trouble of the past three weeks. There are about 2,000 union men in this city.

PEONAGE TRIAL AT TYLER IS ENDED

Hiram Jones Acquitted on Charge of Holding Negroes in Involuntary Servitude

TYLER, Texas, April 29.—In the federal court the jury after a few minutes' deliberation returned a verdict of not guilty in the case of the United States against Hiram Jones, who was under indictment for the alleged holding of several negroes in involuntary servitude. The case was a hard fought legal battle, and has been on trial since last Tuesday. The trial attracted a great deal of attention during that time.

FATHER OF STOCK YARDS DIES HERE

Death of Henry C. Holloway Occurs Suddenly Friday Night of Heart Failure

AIDED CITY'S PROGRESS

Remained Active to the Last, Superintending Farm Work on Day of Death

The sudden death Friday night at his home, 613 West Fifth street, of Colonel Henry C. Holloway, at the age of 67 years, marks the passing of one of the pioneers of Fort Worth.

Colonel Holloway's death was the result of heart failure. The end came at 8 o'clock, after partaking of the evening meal. He had just left the table and was in the act of walking from the dining room when he became suddenly ill and asked that a physician be sent for at once. He took a seat in an adjoining room and within a few minutes expired.

Colonel Holloway was born near Edgfield, S. C., March 25, 1838. He came to Texas in 1858, and since that time, with the exception of a brief service in the Confederate army, has lived here continuously. He was a member of General Gano's brigade.

Colonel Holloway had always been active in promoting the best interests of Fort Worth, and like the late John Peter Smith, took deep interest in aiding the city in all public enterprises, and to his efforts, possibly more than to those of any other one man, is due the fact that Fort Worth is now the leading railroad center of the state. He always gave liberally to induce new lines to build into this city, and at the time of his death was a director in both the Rock Island and the Frisco Railroad Companies.

Colonel Holloway was very much interested in locating the packing houses in Fort Worth and was one of the active promoters in the establishment of the old stock yards company, as well as the old packing house.

FATHER OF STOCK YARDS
On account of his activity in this work he won the name of "Father of the Fort Worth Stock Yards," an industry which has now attained proportions larger than anything of its nature in the southwest.

Until the time of his death he directed the work on his farm near Fort Worth. He has always been deeply interested in the growing of alfalfa and at the time of his death was probably the most extensive grower of this product in the county. Friday he spent the day on his farm.

During the early period of Fort Worth he was engaged in the mercantile business and was associated with W. W. Trippett in the grocery and hardware business. He retired from this firm many years ago.

For several years he was an influential member of the county commissioners' court of Tarrant county, and his execution he never held office, caring more to look after his private interests, which have always been extensive.

WAS UNCHANGING FRIEND
Colonel Holloway was a man who regarded with deep sincerity the friendship of his friends and never once gave them cause to regret the confidence reposed in him. His business judgment was always sought by his friends and was always cheerfully given, and the thousands who knew him in life will regret his untimely death.

The funeral services will be conducted from his late home by Rev. D. C. Limbaugh. Interment will be in the old cemetery. The funeral will be held at 2 o'clock Sunday afternoon, as has been announced.

Mr. Holloway is survived by his widow, a daughter, Mrs. A. S. Dinges of this city, and several grandchildren.

SUCCEEDS STRAIN

F. E. Clark Becomes Division Passenger Agent of Frisco. Information has been received here of the appointment of F. E. Clark as successor to C. W. Strain as division passenger agent of the Frisco, headquarters at Wichita, Kan. Mr. Strain was some weeks ago promoted to general passenger agent of Frisco lines in Texas, with headquarters in this city.

GODLEY AFTER TRINITY

Wants Line from Cleburne to Pass Through It. The people of the little town of Godley, twelve miles from Cleburne, are endeavoring to have the Trinity and Brazos Valley built through that place when the extension from Cleburne to Fort Worth is built.

Surveyors will be in the field next week to run the preliminary survey from Cleburne to either Fort Worth or Primrose, a point about twelve miles southwest of this city on the Rio Grande road. It is the general impression here that the extension of the Trinity will be from Cleburne to Primrose, and thence to Fort Worth over the Rio Grande, as has been heretofore noted in The Telegram.

BEAUTIFYING SHOPS

Santa Fe Making Improvements at Cleburne. The Santa Fe Company is expending considerable money in enlarging and improving the yards and shops at Cleburne. The grounds around the depots are being laid off into parks and planted in flowers and grass, following out a system that is to prevail at all the important towns on the line in Texas.

It is also said that the Santa Fe will double the capacity of the round house at Cleburne. The business of the road has increased so rapidly that more room is needed to house the engines which run over the Cleburne-Fort Worth division.

FATHER WITNESSES SECRET MARRIAGE

Learns of Contemplated Match and Surprises the Bride and Groom. Participation of the father of the bride in the celebration of a runaway marriage added a keen interest to the wedding of Linnie Fields of Wynnewood, L. T., and James Emerson of Caddo Mills, Texas, which took place at the residence of C. C. MacGregor in the Highland addition Sunday last.

Emerson, who is about 22 years of age, was formerly employed by his bride's father at Wynnewood, at that time forming an attachment for the girl, who is now but a little over 17 years of age.

A short time ago he moved to Caddo Mills, a courtship between them being kept up despite objections of the girl's parents because of her youth. A marriage in this city was finally planned. Thomas C. Fields, father of the bride, learned of the plans, and seeing the determination of his daughter and her sweetheart could not be baffled, he decided to permit the match and himself attended the ceremony.

Accordingly, when the bridegroom stepped on the train in this city, he met not only by his intended bride, but her father as well. All fears of a separation, however, were set at rest by the outstretched hand of the father and his consent given to the match.

The wedding was accordingly celebrated at the home of Mr. MacGregor, a former resident of Wynnewood and a close friend of the family. Rev. J. D. Young performing the ceremony.

ENGLISH ADMIRAL A CATTLE RAISER

Lord Beresford Is Interested With Brother in Mexican and Canadian Ranches. E. H. Anthony of El Paso has returned to his home, after visiting his sister, Mrs. Frances Ehrenstein, 113 Vickery Boulevard, Glenwood, on his return from Kansas City, where he has been purchasing cattle for the Beresford ranch in Mexico.

Lord Charles Beresford, admiral of the English navy, who was recently on a visit to Mexico, is said to be largely interested with his younger brother, owner and director of the ranch.

A ranch in Canada is also conducted by the Beresfords, the Mexican holding being used as a breeding ranch from which yearlings are shipped to the Canadian ranch.

Purchases of several thousand head of blooded stock have just been made at Kansas City and will be sent at once to the Mexican pastures.

REDUCTION OF COTTON DOUBTED

Reports as to Acreage Being Planted in Texas, Are Conflicting. A buyer for a local cotton firm discussing the cotton situation today said that in his opinion it would be impossible to tell just what would be the cotton acreage this season until the report of the government was issued, which he thought would be the latter part of May.

"The supposition has prevailed that the acreage this year will be reduced 25 per cent, but it is my opinion that it will not be as large a decrease as this," he said, adding that he believed it will not be greater than 10 per cent.

"The acreage last year was 20,000,000. It is not believed now that there will be any great reduction in many of the cotton sections, not only in Texas, but in other southern states. However, the farmers in a great many sections will not plant as much cotton this year as last, but on the whole I do not think the reduction will reach anywhere near the acreage that it is being claimed by those who have been investigating the matter the past few months."

"There is a great deal of last year's cotton being held in Eastland county, many thousand bales. The cold wet weather," he said, "has retarded the planting of cotton in most places at least three weeks, which, of course, will delay the maturing of the same."

Reports received here from different Farmers' Unions is to the effect that the reduction of cotton will not fall below 25 per cent.

F. V. Evans, county lecturer of the organization returned from a trip through the cotton sections and declares the acreage will be fully 25 per cent.

DEATH COMES TO FAMOUS SOLDIER

Fitzhugh Lee, a Veteran of Three Wars, Dies in Washington Hospital. WASHINGTON, April 29.—General Fitzhugh Lee, U. S. A., retired, and one of Virginia's foremost sons, died at the Providence hospital here last night from an attack of apoplexy, which he suffered early yesterday morning on a train while en route from Boston to Washington.

After General Lee had been removed to the hospital it was evident to the attending physicians that his case was a very serious one, but they believed that his strong vitality and will power would assist materially in at least a partial recovery from the attack.

His condition remained fair, considering the severity of the attack during the day, but shortly after 9 o'clock he began to grow weaker, his breathing became more rapid and his pulse lower, terminating in less than two hours in death. The end was peaceful and without pain, the general remaining conscious until within five minutes of the end.

Half an hour before death General Lee recognized his brother, Daniel Lee, who came into the room for a moment. In the room when he died were Dr. Montgomery, one of the physicians at the hospital; Miss Demsey, a relative and a nurse; two of the attending physicians, Drs. Edie and Kean, having retired temporarily.

A pathetic feature of the case is, although General Lee had a family consisting of a wife and five children, not one of them was with him at the time of his death. The general was 68 years of age.

General Lee was a nephew of the famous Confederate general, Robert E. Lee, and like him, saw active service in the Confederacy. In Washington he was well and popularly known, and his appearance on public occasions was the signal for outbursts of applause from hosts of admiring friends.

General Lee's record includes an honorable service in the cavalry branch of the army with the United States during the Mexican war and up to the time of the civil war; years of active service in the Confederate army, and the filling of important federal and state positions since that time, and finally a commission as brigadier general in the regular army and his retirement and death in that official rank.

A widow and five children survive General Lee. Two of the sons are army officers and two of the daughters are wives of army officers, while the remaining child is a young woman still in her teens. The widow is Mrs. J. C. Rhea, wife of Lieutenant Rhea, now at Fort Iglethorpe, Ga.; Lieutenant Fitzhugh Lee of the cavalry branch, now in Manila; Lieutenant George Mason Lee of the Seventh cavalry, who is now in San Francisco; Mrs. Annie Brown, wife of Lieutenant Brown of the Seventh cavalry, who is now at San Francisco, and Miss Virginia Lee.

At the time of his death General Lee was president of the exposition company engaged in commemorating the settlement at Jamestown by means of land and sea display of military and naval exhibits at Hampton Roads, and it was in its interest he went to Boston.

RETURN OF PROSPERITY

Already the Texas cattlemen are enjoying a return of that prosperity for which they have been looking with longing eyes for the past three years. The weekly papers that are printed out in the range districts contain columns of cattle sales, and the prices being paid carries the mind back to the time when the average cowman was living comfortably back on Easy Street and taking life much easier than has been the case during the strenuous times that have attended the cattle industry recently.

It is all a mistake concerning the exigencies of the situation justifying the carrying of a gun by any man in the whole state of Texas. The day of the desperado is gone never to return, and the really brave man never feels the need of such protection. Nineteenth of the individuals who are swinging artillery under their coats-tails in Texas today are arrant cowards and would make a break for cover at the first appearance of real danger.

There seems to be some probability of trouble yet to come between France and Germany over the Morocco question, as neither country seems to be at all pleased over the situation as it now exists. Some of the leading papers go so far as to predict war between the two countries, but they are the same papers that have professed to believe that Emperor William has only been biding his time to precipitate the nations of Europe into a general war.

Admiral Dewey predicts that the Russians will whip Tozo when the big naval engagement occurs, but there is such a thing as Admiral Dewey being disappointed in his expectations. The Japanese fleet is not quite so strong as the Russian, but there is a great deal of difference in the men who are to do the fighting.

The sheriff of Waller county, who is an anti-prohibitionist, has been invited to resign as one of the results of the recent Hemstead tragedy, but has declined to accept the invitation. Thus another firebrand has been added to the conflagration, which may in time produce other direful results.

Bigelow, the defaulting Milwaukee banker, who confessed to speculation reaching more than \$1,000,000, did not get his figures near high enough. In the bankruptcy proceedings just instituted it has developed that his shortage will exceed \$3,000,000, and these figures serve to demonstrate that Bigelow was an artist in his particular line.

The Milwaukee banker who confessed that he stole over a million dollars and said he had no explanation to offer, is a Napoleon of finance of the first water.

hand. They have to learn a whole lot of things over again, and during the learning process they are sacrificing a lot of stuff that is wholly unnecessary. And in the meantime, there is finer and better Texas range than there has been for years.

Chicago is threatened with another big strike, as it is said that all union employes in that city, numbering about 250,000 are scheduled to go out in consequence of the disaffection of the teamsters, who have already been on a strike for several days. It looks like Chicago has more labor troubles than any other city in America, and the disastrous results that have already accrued in consequence of former troubles of this kind seem to have failed to teach either side any of the principles of moderation and toleration.

The railroads have prepared a petition which will be used in an effort to enjoin the state railroad commission in enforcing the published reduction in the cotton rate. The railroads are making a mistake in the hour of their greatest prosperity in their continued antagonism of the people. It is customary to advance cotton rates and all other rates without consulting the shipper, who has to take his medicine without recourse except such as he is ultimately able to get at the hands of the commission.

A PESSIMISTIC PREACHER

The Rev. Charles A. Eaton of Cleveland who is the pastor of John Rockefeller, sends up a pessimistic wall.

He says the most hopeless people in Cleveland are the millionaires. They are sending their sons and daughters to perdition. The son of modern wealthy parents is a fool. You may give a man a million and an automobile and he is a fool still.

Describing other persons of ordinary means this preacher says "the mother goes to the card party in the afternoon, the mother and father to the theater at night and in the morning the father wakes up with a new scheme to skin his neighbor. The nurse takes care of the children."

The Cleveland preacher is a word painter of ability. Continuing, he says: "Years ago mothers prayed that they might be boys and that they might be preachers of the gospel. Can you conceive of a modern mother making that prayer?"

What he says about a certain sort of people in cities who go the pace and leave their children to the tender mercies of the nurse is also true. There are others. The great mass of the people are uneducated. The plain people who make the wheels of the world go around have no touch of degeneracy.

Who will do the work? The millions, not the millionaires or their sons or daughters. Who will preach the sermons? The sons of the millions—splendid, clean, upright, diligent boys. In every college that dots the land you will find these boys preparing for the ministry, for the law, for all the professions.

Cleanings From the Exchanges

If the law against carrying concealed deadly weapons were enforced with vigorous impartiality in Texas there would be fewer deplorable tragedies to blot the fair name of the state. It is the converse of the weapon that leads to its employment in the heat of passion and that causes crimes to be committed in haste to be repented after reason has resumed sway.

There is no occasion for any man going around armed to the teeth in any part of Texas. There was a time when the state was infested with Indians and other desperate characters and it was considered perfectly legitimate for all men to bear arms who desired to do so. But that time has passed, Texas has become civilized and there is absolutely no justification for carrying a gun.

The improvement of Texas will follow the building of factories. This state produces about one-fourth of the cotton crop of the world, and should manufacture every ounce of cotton that it produces. With new conditions, and fuel oil in plenty in the state, where freight rates are regulated by the railroad commission, and with improved engines to use the oil at the smallest possible expense, there is no reason why Texas should not have factories. With fuel oil and improved machinery she can get her power cheaper than northern towns that are located at coal mines.—Sherman Register.

Fort Worth is leading the state in the matter of the factory proposition, an organization having just been perfected here for the object of promoting enterprises of that kind. There is every reason why factories should be promoted and encouraged all over the state, for Texas has opportunities in that direction enjoyed by no other state in the union.

Most men have a very mistaken idea about girls, in that they imagine every well dressed girl they meet is a husband seeker, and that is the reason they give for her being neat and particular about her appearance. Texas should not have her reputation for sensible girls that very same opinion, for they know it is not true. And they are right in resenting it. Our men folks are "away off" to use the slang phrase, when they think that we are all unanimously on the lookout for husbands, and that is the reason we dress well. Do girls give up dressing nicely and doing themselves up with care when they marry and settle down? Do they not take as much pains with their toilette when going out only with women as when they expect to meet members of the other sex? Of course they do. And the real fact of the matter is that girls are a thousand times nicer and sweeter in their thoughts than the great majority of men imagine them to be.—Southern Messenger.

Because a woman always tries to present an attractive appearance is no indication that she is on the matrimonial market. Women are of a more dainty creation than men, and their daintiness is one of their greatest charms. Many of them are wise enough to practice daintiness more after marriage than in their girlhood days, and where this is the rule the woman never loses her charm for the masculine heart she won through her girlish freshness and daintiness.

"A depleted treasury is a disgrace to Texas," says the Waco Times-Herald. That is the truth, very likely. The depleted pocketbook of a man should not be disgraceful. His poverty, or lack of money, may be caused by a lack of judgment or by misfortunes of various kinds. But his affairs are his personal concerns. The officers of the state are elected and paid to attend to the affairs of the state, the people—other people. If they are extravagant, or lack capacity for managing the state's finances, deficits will occur. We can hardly think of anything else that would cause deficiencies in the treasury of a great and wealthy state, like Texas, and that, too, in the time of "profound peace," as the orators say.—Tyler Courier.

The depleted condition of the state treasury is no disgrace to the great state of Texas, for the state is not responsible therefor. The disgrace of the situation must be shared by the state legislature of two years ago, which failed to provide for an emergency it knew was bound to occur, and those tax payers who have studiously avoided the tax assessor. Texas is not to blame for this, and the disgrace, if disgrace there be, should be fastened where it legitimately belongs.

It is now thought that the acreage of cotton will not be cut more than 7 per cent. We have pointed out from time to time that another big crop of cotton would cause a low price this fall. The farmers had better plant onions, Irish potatoes, and things of that kind, than to swap dollars by planting a large crop of cotton. Of course, if a big acreage is planted and some disaster occurs to cut the yield, then the price will not be so low, but even the boll weevil does not like cheap cotton. Some are advocating the marketing of cotton slowly and also in keeping what cotton they expect to hold in the seed, ginning it as they expect to market it. This looks like it would keep the cotton in a healthy state while it was being held.—Cleburne Review.

The acreage devoted to cotton in Texas this year will show but a very slight reduction over last season, according to reports from different portions of the state now in circulation. The intention was quite general early in the season to reduce the acreage about 25 per cent.

Periodic Pains.

Dr. Miles' Anti-Pain Pills are a most remarkable remedy for the relief of periodic pains, backache, nervous or sick headache, or any of the distressing aches and pains that cause women so much suffering.

As pain is weakening, and leaves the system in an exhausted condition, it is wrong to suffer a moment longer than necessary, and you should take the Anti-Pain Pills on first indication of an attack.

If taken as directed you may have entire confidence in their effectiveness, as well as in the fact that they will leave no disagreeable after-effects.

They contain no morphine, opium, chloral, cocaine or other dangerous drugs.

"For a long time I have suffered greatly with spells of backache, that seem almost more than I can endure. These attacks come on every month, and last two or three days. I have never been able to get anything that would give me much relief until I began the use of Dr. Miles' Anti-Pain Pills, and they always relieve me in a short time. My sister, who suffers the same way, has used them with the same results." MRS. PARK, 721 S. Michigan St., South Bend, Ind.

Dr. Miles' Anti-Pain Pills are sold by your druggist, who will guarantee that the first package will benefit. If it fails he will return your money. 25 doses, 25 cents. Never sold in bulk. Miles Medical Co., Elkhart, Ind.

NEW SUBURBAN CHURCH PLANNED

Glenwood and Union Depot Addition Christians Organizing Congregation

A congregation of the Christian church, including members in Glenwood and the Union Depot addition, is now in formation under the direction of Rev. R. R. Hamlin, pastor of the First Christian church of Fort Worth.

Membership of over a hundred, it is said, can readily be secured in the districts being canvassed, and the formation of the church is assured.

An offer of a lot for the church building, to be erected, has been made by R. Vickery. It is learned, in case a decision is reached to build in Glenwood, the lot is considered. Following the organization and selection of a church site a building costing approximately \$1,000 will be constructed. A site in the Union Depot addition is also under consideration.

A meeting will be held Sunday afternoon at the home of Mrs. Ash, 925 Leuda street, at which time a definite decision will be made. A church building will then be erected in time to hold the first service on the succeeding Sunday.

WITH THE CATTLEMEN

STATE REPRESENTATION WANTED DENVER, April 29.—When the American Stock Growers' Association meets in Denver next month, one of the first things to be taken up will be the plans of the organization. The new association is based upon individual membership and local and state organizations can be represented only by individuals. In other words, the new organization will represent only individuals, if the temporary plan adopted in Denver is adhered to.

There is a general desire among state and other organizations, however, that some plan may be devised whereby they can work in conjunction with the new organization. The Colorado State Cattle Growers' Association has appointed a committee of seventy-five to attend the Denver meeting and ask that the constitution be adopted make some provision for representation of state organizations. Opinion is greatly divided on the subject, however, many being in favor of maintaining the individual membership alone, and others urging that the state organizations be given representation in some way. Each plan of organization has strong arguments on its side, and it is probable that a compromise will be affected so as to provide for representation of state organizations on the executive committee, making that body a working organization similar to the organization of the executive committee. If this is done, the Interstate committee will be merged into the new organization. It has been suggested also that the National Wool Growers' Association be invited to have a representative on this committee.

There seems to be a general desire, however, to make the new organization as representative as possible of the producing interests, and while there may be some lively discussion over the plan of organization, they will only reflect the strong interest, and there is no question now but that the new organization is destined to become an important factor in the future of the industry.

LAND AND CATTLE Sterling P. Clark, ex-sheriff of Tarrant county, was here from Fort Worth last Saturday en route to S. L. McNay's ranch and it is reported that he closed a deal with Mr. McNay whereby Mr. McNay gets 100 acres of land six miles north of Fort Worth, valued at about \$30 per acre, and Mr. Clark gets from McNay a five years' lease on 8,000 acres of land near Wingate, which amounts to \$2,500, 675 head of cattle, 125 head of horses, twenty-five mules, two jacks and two stallions. About 100 head of the cattle are four and five-year-old steers, and 900 acres of the McNay land is in cultivation. The change will take place on May 1.—Hallinger Ledger.

REPORT BIG CATTLE LOSS LAMAR, Col., April 29.—The total precipitation of rain since Saturday afternoon amounts to more than two and a half inches, and it is still raining steadily. The cattlemen are the severest sufferers by the storm, as they have lost hundreds by the storm. Leading stockmen estimate that the losses will be fully 10 per cent, on account of the storm. The river is rising rapidly, but there has been no danger of high water as yet. The rain is of incalculable benefit to all kinds of crops as well as to the range.

SOME STOCK NOTES J. J. Weider of Victoria, has recently made a deal whereby he takes in a similar way and their evil effects portrayed.

After the services it was announced that there will be no day service today, but preaching at the tabernacle at 8 o'clock tonight. Sunday there will be services at the tabernacle in the afternoon at 3:30 o'clock and again at 8 o'clock, all the pastors of the city filling their own pulpits at the 11 o'clock service.

neighborhood of 20,000 steers from the King ranch in Nueces county and will ship them to his pasture in San Patricio county, to be rounded off before being marketed. The movement of these cattle will make business good for the Brownsville road.

There are few cattle fed in the vicinity of San Marcos, Texas, the heaviest feeder being Horace Story, who has on feed at the present time 550 head of steers that he intends to make good before marketing them. He expects to hold them till the price is right and the cattle are well finished.

Up to the present time the largest number of Texas cattle to reach Kansas for summer pasturing has arrived at Elgin. But the number that has reached that place has fallen short of the number brought in last spring. The shortage in Butler, Chase, Greenwood and other counties, in which heretofore thousands of Texas cattle have been pastured each summer, is still greater. This indicates that a great many pastures will not be filled this season.

Cattle buyers are numerous in Texas these days, says the San Antonio Stockman, and growers are feeling pretty good. As grass is splendid in most sections of the state, and marketable cattle are getting better and better all the time, owners do not appear to be in great haste to sell. It looks reasonably safe to predict further advance in cattle values inside of the next few weeks.

The Uvalde, Texas, News notes the sale a few days ago of a string of fifteen carloads of grass steers from the ranch in the West which sold at a high price. The News points to two things as being responsible for this sale and high price, one being the good grass that is to be had there, and the other the good quality of the cattle. These steers sold at \$4.70. A dispatch from Snyder, Okla., states that the largest shipment of cattle of recent years is being made by Burnett & Waggoner into the 480,000 acre Indian pasture reserve. There are 10,000 head being brought from the ranches of this firm in southern Texas. These men Indian affairs for the leasing of the entire tract for the rest of the term of two years from July 1, 1905. The Texas Swine Breeders' Association has appointed a committee with H. E. Singleton of McKinney as chairman, to make an investigation of the facts concerning the feeding of cotton seed meal to hogs in that state. This committee is making investigations in all parts where hogs are fed, and has sent out letters and inquiries for replies from any one who has had any experience along that line.

PASTOR OUTLINES LITTLE FAILINGS

Dr. J. W. Caldwell Addresses Union Tabernacle Service on Christian Shortcomings

Dr. J. W. Caldwell, pastor of the Taylor Street Cumberland Presbyterian church and president of the Pastors' Association, addressed the union evangelical meeting at the tabernacle Friday night, describing the small things that hurt Christianity as the little foxes attacking the vines. Calling attention to the importance of small things he outlined the "little foxes" as those of faultfinding, irritability, repression, persistence and stubbornness, intolerance and exactness.

In connection with the first fault, Dr. Caldwell said: "There are only two reasons why you or I should ever mention the faults of others. One of these would be to warn someone against the person committing the fault and the other would be to help the one at fault. Unless we speak with one or the other of the reasons urging us on we should keep our lips sealed. Help your friends to see their faults and to correct them, but do this in a spirit of love. Mothers and fathers too often make the mistake of forever finding fault with their children without ever saying a word in commendation."

Of irritability, he said: "This will ruin anyone's life and drive away their friends. It is not only destructive in character, but also of life, and those who allow this irritability to get loose in their hearts disgrace their professions, no matter what walk of life they occupy."

Stubbornness was also condemned in the following terms: "I had almost as leave be called a thief as to be called stubborn. To be determined is all right, but to be stubborn is another matter. The one has regard to principle, the other to methods. The one shows good sense, the other shows a lightness over the eyes and if you have it your children know it and your neighbors know it. Such a fox makes him who has him loose in the heart say, and probably feel, that all wisdom will die with him. If I had this fox I would certainly hide him if I couldn't catch him, for it shows such a littleness about the eyes."

The other faults were taken up in a similar way and their evil effects portrayed.

After the services it was announced that there will be no day service today, but preaching at the tabernacle at 8 o'clock tonight. Sunday there will be services at the tabernacle in the afternoon at 3:30 o'clock and again at 8 o'clock, all the pastors of the city filling their own pulpits at the 11 o'clock service.

SENATE IS UNDER \$7,000,000 LIMIT

General Appropriation Bill Shows Close Figuring on State's Expense

AUSTIN, Texas, April 29.—The senate committee on finance has reported the general appropriation bill. The bill provides for the expenditure of \$6,623,297. Confederate pensions are raised to \$500,000 a year, the full limit permitted by the recently adopted amendment to the constitution.

Very limited allowances are made for new buildings. An appropriation of \$7,000 is allowed for building and equipping at the North Texas Insane Asylum as not more than \$40,000 is allowed in the second year for attendants and maintenance of these patients.

Other allowances for new buildings aggregate but \$49,000 and are distributed to several institutions.

The bill contains provisions prohibiting the diversion of funds, requiring money to be kept in the treasury until it is actually expended and defining "maintenance" as not more than the cost of construction or repairs.

Following is the recapitulation of the senate general appropriation bill:

WHEAT IS AGAIN LOWER

Large World's Shipments, Unsettled Stock Market and Prospect of Early Harvest, the Cause

(By Special Wire to M. H. Thomas & Co.) (CHICAGO, April 29.—Wheat—This cereal opened 1/2 point lower for May, 1 1/2 cents lower for July. Month's estimates for the world's shipments at about 6,600,000 bushels, and he predicts that there will be some decrease of passage.

The outside markets were as relatively weak as Chicago, which helped along the trade position. This market is in a bearish position. Bears are confident, and everything at the moment seems to favor this element.

Wheat has been advanced in the past to a point all out of reason with its true value. The pendulum works both ways, and we may be running into a period where prices will be forced to advance below their true merit as they have been in the recent past above a merchantable basis.

Corn—This section opened 3/4c lower today. Primary shipments were about 200,000 bushels larger than a year ago.

Usual Saturday Dulness Prevails in Cattle Trade—Receipts Light—Hog Trade Also Slack

(NORTH FORT WORTH, April 29.—The usual Saturday dulness prevailed in the cattle trade. Some thing like 1,939 head were in the pens, but the bulk of the best went through to northern points and to Kansas pastures.

Very few steers were in the pens for sale, shippers being of the opinion that better returns awaited them further up the line. Those sold here today were about steady with the recent decline.

With less than ten loads in the pens and only one buyer getting busy, the hog trade was slack, though all the supply went over the scales before noon.

Prices were considered to be about steady on all sorts of hogs. Lights were very scarce, the run consisting of packers and pigs.

ADAMS LEAVES COTTON BELT

City Ticket and Passenger Agent Tenders Resignation Effective May 1

It is announced today that John M. Adams, who has been for the past four or five years city ticket and passenger agent for the Cotton Belt in Fort Worth, has tendered his resignation to become effective May 1.

Mr. Adams is to be succeeded by J. Rounsaville of Greenville, who is now ticket agent for the company at that place. Mr. Rounsaville will arrive in Fort Worth Sunday to begin his new service Monday morning.

Mr. Adams has been with the Cotton Belt for ten or twelve years and began his service with the company at Tyler. From that place he was sent to Greenville where he acted as city ticket agent until his promotion to Fort Worth. He is popular not only in railroad circles, but with the public who will regret his resignation.

Mr. Adams will probably again enter railroad work, but for the present will take a much needed rest.

John W. King, who has been Mr. Adams' assistant, will continue in the same position under Mr. Rounsaville.

EAGLES PLAN STREET CARNIVAL

Proceeds Will Be Used to Send Degree Team to National Convention at Denver

A street carnival will be held in the city from May 8 to 13, inclusive, under the auspices of the degree team of the local lodge of Eagles. The attractions will be furnished by the Parker Amusement Company of Abilene, Kan.

Funds secured during the carnival will be used to send the degree team to attend the national convention of Eagles in Denver, August next. The local degree team holds the championship of the United States, having won over all contestants in New York during the fall of 1903.

During the convention in Denver the team will exemplify the initiatory work of the order before the grand lodge.

Len Day, assistant chief of police, will superintend the holding of the carnival here.

At a meeting of general passenger agents held in the offices of the Denver road Friday afternoon the following rates were adopted, to be in effect during the carnival:

Class A—For trains arriving at Fort Worth on the morning of May 9, tickets will be sold on the convention plan, being limited to May 12.

Class B—Tickets on sale from May 10 to 13, with a return limit of May 14, at a rate of one and one-third fare for the round trip.

Class C—Tickets for trains arriving in Fort Worth on the morning of May 9, with a limit to May 10, will be sold at a rate of two-thirds of one regular fare for the round trip.

The minimum rate in all three of the classes will be 50 cents.

From all points in Texas tickets will be sold subject to the conditions of class A; from all points within 150 miles of Fort Worth tickets will be sold subject to the conditions of class B and from all points in Texas, with the exception of stations west of Big Springs on the Texas and Pacific, tickets will be sold subject to the conditions as set forth in class C.

SUNDAY SCHOOL AT PICNIC

First Congregational Church of This City and Central Church of Dallas Meet at Lake Erie

Members of the First Congregational Sunday school of this city, accompanied by Rev. G. W. Ray, pastor, and Herbert Post, chairman of the committee on arrangements, left Third and Main streets at 9 o'clock this morning for Lake Erie, where they were joined by the Sunday school of the Central Congregational church of Dallas, several hundred strong.

Heaping baskets for the open air dinner were carried by those leaving this morning. Sports and games are being held informally this afternoon.

LEGAL SEASON OPENED TODAY

Good Attendance Marks First Game at Haines Park—Panthers vs. Oilers

The first home game of the Texas League season of 1905 was scheduled to be played at Haines park this afternoon between Corsicana and the Panthers.

It was at first intended that a parade be given before the game, but the Corsicana players missed the early train from the Oil City and did not arrive here until late this afternoon.

Christman is in the box for Fort Worth today. Sunday's game promises to be a great event. Fans who are busy on Saturday will have opportunity to see the second game between the Oilers and the locals, and in order that the country folk and others may witness the game, excursions will be run over the Cotton Belt, the Santa Fe, the Central, the Rio Grande, the Rock Island and the Denver railways.

CATTLE SHIPMENTS PRACTICALLY ENDED
Estimated That 50,000 Head Have Been Moved From San Angelo This Season

SAN ANGELO, Texas, April 29.—The stock shipping season is practically over here and the switch engine, extra crews and the trainmaster, A. E. Hutchison, have returned to Temple. There will be no more heavy shipments to speak of until the mutton shipping season begins. The season has been something like 50,000 head of cattle shipped out of this western section this season, nothing like the number usually shipped for the reason that the stockmen have plenty of fine grass and many of them will finish their cattle at home instead of shipping them to the territory. The service to the territory this year has been excellent and the stockmen have nothing but praise for the way the Santa Fe, who they were joined by the Sunday school of the Central Congregational church of Dallas, several hundred strong.

Members of the First Congregational Sunday school of this city, accompanied by Rev. G. W. Ray, pastor, and Herbert Post, chairman of the committee on arrangements, left Third and Main streets at 9 o'clock this morning for Lake Erie, where they were joined by the Sunday school of the Central Congregational church of Dallas, several hundred strong.

GREEN'S CAR GOES MILE IN :56 FLAT
First Test of Galveston Beach for Auto Speeding Proves Successful

GALVESTON, Texas, April 29.—E. H. R. Green, Texas leading automobile enthusiast, has arrived here to make a test of Galveston beach, a thirty-mile course, as it qualifies as a racing track for automobiles. The tides are at the present time too high for practical tryouts, but yesterday he demonstrated its qualities by a run of one mile in 56 seconds flat. The course until yesterday was untried and within two hours the fastest run was made by Green in a car of thirty-horsepower, middle-weight class, Olie Savin driver, who, with the same car, won the world's 200-mile record at Dallas on Jan. 2, making it in 2 hours 6 minutes 45 seconds.

Mr. Green is enthusiastic as to the possibilities of the Galveston course and says that in the winter months there will be a great opportunity for holding world meets on it.

Mr. Green has in his traveling garage, besides the Yellow Wasp and the Gray Wolf, a car which made the fastest world record at Ormond Beach last winter for a middle weight in 46-2-5. Jesse Illingworth is driver. Mr. Green has a twenty-four-horsepower touring car and a twelve-horsepower touring car in his private car garage, as well as all necessary timing apparatus, etc. He will remain here for more than a week, solely for the purpose of practice for the Brighton Beach and Vanderbilt cup races this summer. He has under construction two 100-horsepower and one twenty-four-horsepower car for the foregoing races.

EARTHQUAKE FELT IN SWITZERLAND
Houses Slightly Damaged in Canton of Devalois and Ghruch is Partially Wrecked

GENEVA, Switzerland, April 29.—Earthquake shocks were felt here at 2:45 o'clock this morning. The inhabitants were somewhat alarmed and many of them rushed into the streets, but the damage done in this city was very slight. The shocks were felt throughout the canton of Devalois and elsewhere. They were accompanied by subterranean rumblings. Some houses were damaged in the canton of Devalois.

The shocks apparently were more severe at Chamoux and in the neighborhood than elsewhere. Houses cracked and some old monuments were badly damaged. The church at Argentieres was so shaken its condition is dangerous.
