NEW YORK NOT GO OUT

Gotham Teamsters Will Stay in and Earn Assessments for Chicagoans

NEW YORK, May 31.—Positive announcement has been made that there will be no sympathetic strike in New York to help the Chicago teamsters. Instead of quitting their jobs, the New York union drivers, who number 38,000, will be assessed 5c, or \$1,900 a day. Previously \$1,000 a day had been given to the strikers, but the local union decided to raise the assessment and continue it as long as the strike lasted.

Conferences have been held for several days in which the question of a sympathetic strike has been discussed, and finally it was decided to give the fund instead.

STRUGGLE IS RESUMED

Striking Teamsters Again Take Up War After Holiday Truce

CHICAGO, May 31.—After twenty-four hours truce, occasioned by the general closing down of business for the decoration day holiday, employers and teamsters resumed the strike struggle today with the situation as it was Monday and little prospect for any immediate change.

The Employers' Teaming Company eclipsed its previous records today, sending out between 2,500 and 2,600 teamsters. Every driver that could be spared was sent to the lumber district in order to facilitate deliveries by the lumber concerns involved in the strike, and additional police protection was asked.

Jacques Lebaudy, the "Emperor of the Sahara," has sent his check for \$200,000, dated "at our tent capital, Sahara," to his Brussels representative, authorizing him to establish a racing stable. His horses are to race under the name of Jacques I, and all colts, successively born in the stables, will receive the names of kings.

MAY IS RECORD BREAKER

Biggest Month Since 1903 in New Corporation and Capital Increase

NEW YORK, May 31.—New incorporations in the eastern states in May together with increases in capital, show the largest totals since 1903. Those involving \$1,000,000 or more aggregate \$249,250,000. This is the heaviest monthly total since May, 1903, when it stood at \$307,665,960. The April dues were \$180,111,000. New Jersey led the list of states followed by New York. An increase of \$50,000,000 each in capital of two industrial concerns accounts for a large portion of the increase.

CRUISER GROMOBOI NOT AMONG THE SUNK

Wireless Message Is Received From Vessel—Skrydloff Is in St. Petersburg

ST. PETERSBURG, May 31.—The admiralty denies the report telegraphed to the London Daily Express that the cruiser Gromoboi of the Vladivostok squadron had been sunk. Nearly 500 men are on board. A message was received from Captain Krousskoff, her commander, last night which it is believed was sent by wireless telegraph to Vladivostok.

Vice Admiral Skrydloff, who was reported to be on board the Gromoboi, is in St. Petersburg.

The Gromoboi sailed out of Vladivostok Saturday as soon as Admiral Rojestvensky was reported to have arrived in the Straits of Korea, but the admiralty declines to say whether the Gromoboi was engaged.

The admiralty has no further news to communicate this morning.

GOVERNMENT MAKES REPORT ON CROPS

Throughout Entire Belt Cotton Is Much in Need of Cultivation

WASHINGTON, May 31.—Throughout nearly the whole of the cotton belt cotton is much in need of cultivation and reports of abandoned fields are received from the Carolinas, Georgia, Alabama, Louisiana. Good stands are generally reported, but much planting remains to be done in northern Texas. Planting is unfinished in the central and eastern districts. Cultivation and sunshine, and improvement in squares in portions of the central districts.

Winter wheat has suffered slight deterioration in portions of central and western districts of belt, but Kansas promises in the eastern districts and improvement is reported from Ohio. Reports of injury from rust continue from Kentucky, Tennessee, Missouri, Oklahoma and Texas and rust and blackheads are appearing in Illinois. Generally the reports indicate that wheat is heading low. In California the crop is maturing rapidly and an average yield is indicated. In Oregon and Washington oats have been rapid.

Tennessee—Heavy rains first of week damaging in many sections, mostly middle and west; no plowing; crops getting poor, rapidly deteriorating. Cotton needs cultivation and sunshine, much injured by wet weather; much dying.

Georgia—Week wet and unfavorable; crops very grassy, needing cultivation and sunshine; cotton chopping incomplete in north, some fields being abandoned; plants generally healthy and growing fast, lousy in few districts; acreage reduced about one-fifth; labor scarce.

Texas—Weather generally warm, showers over most of state, but more frequent in north, work delayed, crops foul, damaged by washing and flooding, prospects deteriorated in central and northern counties, much to be planted, that up not generally promising, though good in localities; fields foul, cultivation and chopping delayed; crop generally good in south and southwest; good growth during week, work prevented by showers, some fields foul, chopping general; much completed; squares forming; area affected by boll weevil increased; cut worms and other pests active.

Alabama—Continued cool rainy weather first four days rainfall heavy to excessive in north; last three days warm and favorable; cotton very grassy, some fields abandoned, some dying; labor scarce; some local outlook much better in south; squares forming.

Arkansas—Cloudy weather and frequent showers, unfavorable for farm operations; cotton all planted, stand fair to good; some dying, chopping begun, not generally crop badly in grass, making slow promise.

Louisiana—Local rains on 23d and 26th in central and north portion materially retarding farm operations; cotton improved in some localities; deteriorated in other portions, planting not completed; chopping progressing slowly; bulk of crop badly in grass; some low lands reported abandoned; plant sickly in most sections; crop two to four weeks late.

Mississippi—Showers first of week hinders farm work, latter part favorable; crop grassy, cotton stands good, chopping in progress; needs cultivation and sunshine; rice reported in west, some squares in south.

Oklahoma—Rains retarded work and damaged crops; cotton made small growth, little chopped or worked, some damage by worms, rotting and overflow; poor to good stand.

AMERICANS IMPRISONED

Two American Hunters Are Held as Prisoners by Russia

VICTORIA, B. C., May 31.—News has been received here from Habarovsk telling of the imprisonment of a Victoria dealer and two American hunters in common with a score of Japanese who were captured by the Russians on the Japanese schooner Koy-oichi in the Okotsk sea.

They were sentenced to one year and four months imprisonment for hunting fur seals, though captured on the high seas.

The sentence dates from Feb. 8 and is to be served at Habarovsk.

BIG BUSINESS TO FOLLOW

Commercial Invasion of Russia to Follow War's Termination

NEW YORK, May 31.—News of the defeat of Rojestvensky's fleet and its probable termination of hostilities in the Far East has been followed by the announcement here that one of the most extensive advertising campaigns ever heard of will be put into effect by the Layman D. Morse Advertising Agency, immediately upon the termination of the war. This campaign, during which an aggregate of \$3,000,000 to \$5,000,000 will be expended, will be devoted to the publicity of American manufacturers, who will seek an outlet for their goods into Russian territory. It is believed the exportation of American goods to the country upon which rival armies have recently been battling will exceed all previous records.

HOTEL FOR SAN ANGELO

Now Looks Certain That a Modern Hostelry Will Be Built

SAN ANGELO, Texas, May 31.—The recent announcement of the San Angelo people and the San Angelo Business Club that San Angelo wanted a hotel, modern in appointments, and that the people of the town would work for such a hostelry and give a cash bonus, is producing immediate results. A mass of communications from capitalists has been received by the Business Club, but Dallas capitalists are the first on the ground to talk business and it is probable that Dallas will get the plum by her energetic action in being first. P. J. Redell of Dallas is here today, representing Dallas capital, and has held several consultations with the Business Club's director and hotel committee. He says that his people are prepared to put in a \$5,000 hotel and the Business Club informed him that a \$10,000 bonus was probable, besides which the active help of the people will do much to make the hotel pay handsome profits from its very inception. The hotel committee is today showing Mr. Redell the desirable hotel sites in the business section.

FIRST SESSION HELD

State Sunday School Convention Is in Full Blast

WACO, Texas, May 31.—The first session of the State Sunday school convention was held at 2 o'clock yesterday afternoon at the Fifth Street Methodist church.

There was a meeting of the state executive committee in the afternoon, and at the general meeting Messrs. Tuller and Meredith of New York led the singing. There was a prayer and praise service and reports of county officers were made, in the form of experience meetings.

C. D. Melks of Dallas thinks this will be one of the greatest conventions ever held in Texas. Last night Rev. C. B. Wright delivered the formal welcoming address and E. H. Coulter of Dallas responded.

ROTHSCHILD'S RULES

The Maxims by Which the Great Financier Guided His Life

PARIS, May 31.—The late Baron Rothschild had a list of rules of living which he observed carefully and to the observance of which he gave credit for his success. At one time he distributed copies to the youth of France. The rules were as follows: "Shun liquor. Dare to go forward. Never be discouraged. Be polite to everybody. Employ your time well. Never let business lie. Pay your debts promptly. Be prompt in everything. Bear all troubles patiently, do not reckon upon chance. Make no useless acquaintances. Be brave in the struggle of life. Maintain your integrity as a sacred thing. Never appear to be something more than you are. Take time to consider; then decide. Carefully examine into every detail of your business."

PREACHER DEFENDS MR. ROCKEFELLER

Pastor of Calvary Baptist Church, New York, Says He Is Commercially Honest

NEW YORK, May 31.—Recent criticisms of John D. Rockefeller growing out of his gift of \$100,000 to the American board of commissioners for foreign missions, are declared in an article by Rev. Dr. Robert Stuart MacArthur, pastor of the Calvary Baptist church of this city, to be published today in the Examiner, a Baptist publication, to be "coarse, cruel and perhaps criminal, and to have marred the entire Baptist denomination."

He protests against the condemnation of our churches by these "cowardly and unjust attacks."

He declares that no one knows better than Mr. Rockefeller that he cannot by the approval of the Baptist with his millions; that the Baptists would advocate his expulsion from the church if it were proved that he had acquired his money dishonestly or by means morally or socially destructive.

He adds that he has investigated certain business transactions which have been fiercely denounced by Mr. Rockefeller, and he found them to be in accordance with the highest standards of commercial morality.

"Mr. Rockefeller," he asserts, "is worthy of the confidence, admiration and affection of all," and he appeals for "fairness of judgment for him."

THE RUSSIAN PRESS CRIES FOR REFORM

Advancing Crisis Pointed Out and Summoning of the People Demanded

ST. PETERSBURG, May 31.—The catastrophe which has overtaken the Russian fleet has given a tremendous impetus to the demand upon the emperor for an immediate conversion of the national assembly, without awaiting the action upon the report of the Bouligand expert commission. With the single exception of the fervid, the press pours out indignation and wrath upon the bureaucracy, which is held responsible for all the misfortunes of the war. Only the Noeti and the Bourse Gazette, however, declare that peace should be concluded.

The Russ, which is now the widest read paper in Russia, says: "Those guilty of Russia's disgrace should be overwhelmed with shame." The death of a half million of men, the loss of billions of money is the price of the rejection of progress and western civilization. Scarcely a day has passed since the news of the death of Port Arthur, Mukden and Tsushima should force Russia from the salver of the bureaucracy.

"Delay will be fatal," the paper adds. "All Russia's intelligence and all ability is needed to meet the advancing crisis."

The Listok says: "The war has taught us the lesson that education, good government and freedom are always victorious over ignorance, misrule and despotism."

SENATORS TAKE SWEET REVENGE

Turn Tables on Fort Worth, Winning the Game by Score of 6 to 2

Austin played Togo with Ward's Panthers Tuesday afternoon, converting Haines park into a miniature Stratts of Korea and sinking six ships to the locals' two.

More revenge for the Senators marked the fifth inning. Hartman started with a two-bagger to left center, going to third on Slater's out, on one in front of the plate.

Fort Worth began in the seventh. Slater recovered his batting eye for a time and drove a long one to center.

WACO SHUT OUT WACO, Texas, May 31.—Febban's men were shut out yesterday by Dallas, the game ending with two tallies on the visitors' side of the board and a row of goose eggs for the locals.

Both teams drew blanks until the sixth inning when Bridges made the first hit, and scoring on a wild throw by Heinz. Jutzl, in the meantime, went to third and came in when Ury sent a long fly to left.

Pitchers for both teams put up a good article of box work. Bridges for Dallas gave only four hits and passed not a man to first. Heinz pulled himself from several tight places.

CORBETT'S GOSSIP

BY JAS. J. CORBETT. (Copyright, 1935, by the Newspaper Enterprise Association.)

SULLIVAN AND MITCHELL A JOKE John L. Sullivan and Charlie Mitchell have been matched to fight fifteen rounds at Tacoma in September, according to a story going around.

AT GRAVESIDE NEW YORK, May 31.—Thirty thousand persons saw J. L. McGinnis' Buttrick, a 30 to 1 shot, capture the Parkway Handicap, one and one-sixteenth miles, at Gravesend yesterday.

AT LOUISVILLE First race—Six furlongs: Heidelberg 1, Euba 2, Lexington Leader 3. Time, 1:15 2-5.

AT UNION PARK First race—Six furlongs: Dulit 1, Troasch 2, Midnight Minstrel 3. Time, 1:15 1-5.

AT ELM RIDGE First race—Six furlongs: Louis Wagner 1, Green Gown 2, Dollie H. 3. Time, 1:14.

MITCHELL'S INFLUENCE ON BOXING

Since referring to Charlie Mitchell another story of importance, because of its after-effect on ring history, comes to mind, I have often heard discussed the body blow and why pugilists as a rule paid as much attention to its development as to the wallop that had the jaw for its destination.

THE CATTLE BUSINESS

Now that there is a decided improvement being manifested in the cattle business, and the men who have been going around with long faces for the past three years are getting some of the wrinkles out of their countenances, it may be confidently predicted that there is going to be a considerable revival of breeding throughout the range country.

It would not be safe to predict that the breeding of cattle out in the range country is going to quickly assume the proportions of a few years ago, when the physician, the lawyer, the preacher and every one else who could rustle a few dollars or strain their credit did so under the impression they would soon win fortune in the cattle business.

The state of Oregon has just established the whipping post as an antidote for wife beating, and there are a whole lot of other American states that should emulate the Oregon example.

The Texas legislative committee has gone to Mexico in an effort to obtain the release of Mac Stewart, the old Confederate veteran under sentence of death in that country.

Perhaps the census people at Washington will have an equally plausible explanation as to how their estimate of Fort Worth's population showed a big falling off in one year.

There will never again be an overproduction of cattle in west Texas. The development of these conditions insure against that point.

There will never again be an overproduction of high-grade stuff. That fact has been amply exemplified during the years of depression through which the industry has just passed.

The cattle business in this state will be a lucrative business in the future from the simple fact that it must be a lucrative business in order to continue.

land. On the same principle the Texas producer has found that he can not afford to attempt to produce a \$10 yearling on \$5 land. If he is to get value he is compelled to produce a \$20 yearling on this land, and if he can not produce the \$20 animal he must give place to the man who can.

These are the conditions as they have shaped themselves in the Texas cattle industry, and there is no method of evading them. In the future we must conform to these conditions, or we might as well make up our minds to get out of the cattle producing business.

Another declaration of independence has just been made at Philadelphia, and it promises to be far reaching in its effects. The people have declared they will no longer be preyed upon by the corporate and political corporations that have so long preyed upon them.

President Roosevelt is said to be very much dissatisfied with the Ohio republican platform, but the independence manifested by the Ohio republicans was only to be expected under the circumstances.

The postmasters of the country are starting a boom for Postmaster General George Bruce Cortelyou for the presidency, notwithstanding the postmaster general has forbidden postmasters from taking any part in the politics of the country.

Secretary Hay is said to have entirely recovered his health, and this ought to put a stop to the off-recurring rumor that comes from Washington to the effect that he is about to retire from the cabinet.

An English physician is authority for the statement that diseased teeth are the real cause of appendicitis, and the time may soon come when the thorough going dentist will come to the front with the only specific for the disease.

GLEANINGS FROM EXCHANGES

North Texas needs something in the way of increased business and population to compensate for the tornadoes and floods and cyclones and cloudbursts that devastate and terrify up there.—San Antonio Light.

And South Texas needs such a rigid enforcement of the law as will compel her pistol-toters to leave their guns at home when they go out among decent people.

Candidates for governor are now commonly mentioned, but we know some men in Upshur county who can already name from three to a dozen candidates for every county office.—Gilmer Echo.

The greatest drawbacks to East Texas seem to be a lot of "poor" inadequate "white trash" that have nothing and want nothing, and a lot of land-owning niggers-admirers who have an awfully poor opinion of their own race.

All positions of this great empire state have their disadvantages, but they are so completely offset by the advantages they do not amount to much.

The fact that the different railroad lines are reaching for Gulf ports shows that they are preparing to "hedge" against the operations of the Panama canal.

The indictment of London, the late republican candidate for governor of Texas, is a masterpiece of embezzlement and misapplication of bank funds in connection with the recently failed Ahlberg bank.

The republican party is not responsible for London's indictment nor the conditions leading thereto.

It is true that the greatest half of the cattle have been shipped out already, but there are more being held this year than in former years.

It is just quite raining from now on for three or four weeks, we will be in pretty good shape in our section of the country.

Conditions in Howard county are better than they have ever been at this time of the spring in the scope of my memory.

Cattle are scarce, in fact, more so than for many years in the past, but I attribute this to the strong demand that has existed for practically all class of cattle.

ZIEGLER HEIR MUST SEEK NORTH POLE

NEW YORK, May 31.—William Brandt Ziegler, fourteen years old, has inherited millions and a mission.

The millions were left him by William Ziegler of Noroton, Conn., and Brooklyn, whom he believed until a few days ago to be his father.

The Herald favors paying members of the legislature a fixed salary for the term, say \$1,000, as is already proposed.

The intention of the framers of our state constitution was not that membership in the state legislature should be inspired by a desire for personal gain.

The baby boy was reared in the belief that William Ziegler was his father.

In 1896 the boy was formally adopted by Mr. and Mrs. Ziegler according to law, so that there might be no question of his right of succession to the millions of his foster father.

The wretch had treated my wardrobe as shabbily as the rest of my belongings, so I was constrained to attend the prince at the hour which was his.

"I am carving my name at present," he announced coldly. "If that does not suffice, I shall cut out your ribs, one by one."

"I would estimate that not one acre in ten that was planted has come up, or will come up. One might say that there was a reduction in acreage of 90 per cent of the northwest this year.

W. P. Anderson, special live stock agent of the Pecos Valley lines of the Santa Fe, headquarters at Amarillo, is here today.

WITH THE CATTLEMEN

GRASS GETTING GOOD: L. D. McAda of Karnes City was in Fort Worth Monday with 103 head of steers, valued at \$10,000.

HOOD COUNTY CONDITIONS: "If it just quits raining from now on for three or four weeks, we will be in pretty good shape in our section of the country."

SOUTH TEXAS STEERS: E. B. Flowers, one of the big cowmen of the state, was here from San Antonio Monday.

CATTLE ARE SCARCE: "Conditions in Howard county are better than they have ever been at this time of the spring in the scope of my memory."

REFLECTIONS OF A BACHELOR

An almost sure way not to get divorced is not to get married.

Running an amateur garden is easy compared to being chairman of a local charity.

CARNEGIE LIBRARY HAS USEFUL YEAR

Reports of Librarian, Trustees and Secretary Made at Annual Meeting of Board—Crying Need for More Books and Additional Funds

At a meeting of the Carnegie Library Association held in the library building Tuesday night the following trustees were elected: Judge Irby Dunklin, Mrs. E. C. Thome, Mrs. Noah Harding and Mrs. C. W. Conery.

Sam Davidson, second vice president of the library association, presided at the meeting. In conclusion a resolution was adopted, extending thanks to the librarian and assistants, the secretary of the association and the retiring trustees for services rendered.

Reports of the librarian, the secretary and the trustees were read.

In part the annual report of Mrs. Charles Scheuber, the librarian, is as follows:

NEEDS OF THE LIBRARY

"Another year finds us a little in advance, but the progress is not commensurate with either our opportunities or the needs of our rapidly growing city. To briefly summarize, the library has been kept open 353 days; 159 days from 9 a. m. to 9 p. m., 158 days from 9 a. m. to 6 p. m., 55 days, Sundays and holidays, from 2 to 6 p. m. We have purchased 1,119 volumes, by gift 318 volumes. We have circulated 59,136 volumes. The books have been circulated in four schools. Weekly talks have been given in the young people's room. One hundred and six periodicals have been taken in the reading room. Effective work has been done in the reference department. One thousand two hundred and seven-nine volumes were catalogued. Eight thousand one hundred and ninety books were boxed, covered and mended. In spite of the small staff, the library's standard for helpfulness has been maintained. Reading lamps have been placed on the tables. New system of lighting the stacks was installed. The beginning of an art collection has been made. Still most of the needs set forth in my report of last year remain unfulfilled. The department of books in all departments continues. Mortar and brick, furniture and equipment, intelligent and helpful service are all essential to a library, but they cannot supply the place of books. The past three years have demonstrated that with the most rigid economy the library cannot do its work on the appropriation of \$4,000. Other means must be found to supplement it.

For this reason I respectfully urge upon your committee the necessity for prompt action to secure the necessary funds to enable the library to do its work, not only to supply the demand that comes to its doors, but to reach out aggressively until the best books are carried into the homes and lives of all our people.

"We should have \$2,000 for immediate purchase of books and \$2,000 added to our annual income. An earnest effort should be made to collect the outstanding \$3 annual subscription to the book fund and to add to the list of subscribers.

"On March 1, 1904, there were in the library, classified and catalogued, 11,455 volumes and 1,305 pamphlets. There were added during the year 1,119 volumes by purchase, 372 volumes and 173 pamphlets by gift.

RIGHT TIME TO CURE CATARRH

R. A. Anderson Guarantees Hyomel Will Cure If Used Now

The early summer when the weather becomes warm and settled is the best time of the whole year to treat catarrhal troubles with the expectation of complete and lasting relief.

Everyone who has catarrh of the head and throat should know how foolish it is to try and cure it by druging the stomach.

Until recently your physician would have said that the only way to cure catarrh would be by a change of climate, but now with Hyomel you can carry a health-giving climate in your purse or vest pocket, and by breathing it a few minutes four times a day soon cure yourself.

Everyone who has catarrh, or even a tendency to catarrh, should use Hyomel now, for the benefit will be gained twice as quickly and the disease thoroughly eradicated from the system.

The complete Hyomel outfit costs but one dollar, and includes a neat pocket inhaler, a medicine dropper and sufficient Hyomel for several weeks' treatment. The inhaler lasts a lifetime, and if more Hyomel is needed, extra bottles can be obtained for 50 cents.

In Fort Worth there are scores of well known people who have been cured of catarrh by Hyomel. If it does not cure you, R. A. Anderson will return your money. This is the strongest evidence he can offer as to his faith in the remedy.

REGISTRATION

The number of borrowers registered since the opening of the library on Oct. 17, 1901, to March 1, 1905, was 11,223. The number registered during the year was 1,954. Of the entire number 3,283 record specific occupations, 2,974 are men, 3,553 women, 503 boys over 14, 535 girls under 14, 1,655 boys under 14, 1,703 girls under 14.

REFERENCE DEPARTMENT

"The number of volumes in the reference department on March 1, 1905, was 1,219, of which 184 volumes were added during the year.

PHOTOGRAPH COLLECTION

"The valuable collection of photographs owned by the library has been of inestimable value to the schools, classes and clubs studying art. I regret that not any provision has been made for the systematic enlargement of the collection. Fifty dollars a year would amply provide for it. I trust some public-spirited citizen or association can be induced to make the enlargement of the collection his or its special care.

READING ROOM

"During the past year there have been 590 in this room fifty-four months, thirty-seven weeks and three days. Of these eight months, eight weeks and three days have been gifts. Not any record is kept of the number of readers, but the room is always well filled, and often in the afternoons and evenings its capacity is taxed to its utmost. Several of the best technical periodicals were added to the list taken this year.

DUPLICATE COLLECTION

"Last year the book committee decided to try in a small way the plan pursued successfully by so many libraries of adding extra copies of the popular recent fiction and issuing them as extra volumes. The plan has proved entirely satisfactory, and is not only self-supporting, but has netted a profit to the library of \$43.19.

COVER ADVERTISING

"The pressing question of how to secure money for books led to the plan of trying to sell the back covers of the fiction in the library for advertising purposes. The book committee, after due deliberation, decided that since the highest priced magazines use their back covers for advertising purposes there could not be any legitimate objection to the use of the back covers of our fiction for the same purpose, especially as it promised to net the book fund \$400 a year. The plan was tried with some hesitation, for fear that it would greatly mar the appearance of the book, but it has not done so.

"The managements of The Fair and The Telegram, with their usual enterprise, took the space for three months. They are so well pleased with the plan that they have decided to continue the advertisement for another three months.

"There were presented to the library during the year by sixty-nine persons, firms and institutions 372 volumes, 173 pamphlets and forty-six unbound periodicals.

EARLY PAPERS

Twenty-three volumes of the Fort Worth Gazette, 1887 to 1892, inclusive, have been placed with us for safe keeping. They cover an interesting period of the city's development, and under the conditions of the trust are accessible to the people for reference.

YOUNG PEOPLE'S ROOM

The number of books circulated in the young people's room during the year was 15,956, or 286 per cent of the whole issue. There are 2,225 volumes in this department; therefore, our lending stock was turned over 7.6 times in the twelve months. The circulation for the year shows 43 per cent fiction and 57 non-fiction, a decrease of 2.73 per cent in the amount of fiction.

WORK WITH THE SCHOOLS

"It is with extreme regret that we have to report that owing to the lack of children's books it has been impossible to extend the work of circulating the books through the schools to any of the other ward schools of the city. The books are sent to the Second, Third, Fourth and fifth ward schools with the best results.

BOOKS BURNED

"On March 4 of last year the Fifth ward school building burned. We were unfortunately enough to lose thirty-six volumes in the fire. We had sent 144

RAILROAD NEWS

volumes to the building. It goes to show how large is the circulation of the books sent to the schools, as 75 per cent of the 144 were in actual use on the day of the fire."

"The report of the board of trustees is in part: 'Clarence Ousley has resigned from the board and no one has been elected to fill the vacancy.

"Pursuant to the constitution the following committees for 1904-1905 were appointed by the president:

Finance—Mrs. Winfield Scott, Sam Davidson, Mrs. Ben O. Smith.

Library—Mrs. J. C. Harrison, Mrs. Willard Burton, Mrs. Ben O. Smith, Clarence Ousley.

Administration—J. P. Henderson, Mrs. Emma Fakes, W. W. Heathcote, Mrs. D. B. Koeler.

Building and Grounds—Mrs. Willard Burton, J. F. Henderson, Mrs. Emma Fakes, Mrs. Agnes Geer and Sam Davidson."

"The librarian's report is then summarized. The annual report of George Steere, secretary, was also adopted.

SETTLERS COMING

Gould Agent to Place Colonies in Texas and Colorado

J. P. Spanier of Naples, Italy, who is European agent for the Gould system and who was in Texas several months recently, is now prosecuting his investigations in Colorado.

His mission in this country is to find suitable districts for Italian and German emigrants to settle. These immigrants are all of the better class, and Mr. Spanier, who leaves in a few days for Italy, will carry back with him glowing reports of what he saw in Texas and other states in this country.

He expects to locate a colony of Italians in Colorado, where they will engage in the best industry, which proves so successful fruit-raising.

Mr. Spanier does not now know just how large will be the colony he will bring to this country. Some of them, he says, will be settled in Texas, while the rest will go to the state of Colorado.

DENVER CHANGE

John Vick, stock clerk in the general passenger department of the Fort Worth and Denver City railroad, has resigned to go with the Cassidy Southwestern Commission Company. He will be succeeded by George T. Trachout, who has been on the claim desk in the office of General Freight Agent W. F. Sterley.

NORTHWEST TRAVEL

Traveling Passenger Agent Dooley of the Denver Road has returned from a trip over the state in the interest of summer travel from Texas to the northwest. He discovered that there will be an exceptionally large movement, far in advance of previous years. This he says is due to the fact that people are taking advantage of the extremely low round trip rate that has been put on by the roads to the northwest on account of the Lewis and Clark exposition now under way at Portland.

SANTA FE SHOPS

John Bardon, who has the contract for the construction of the new shops of the Santa Fe at Cleburne, said today that the work was progressing, but that the rains have retarded the work considerably, and that instead of completing the improvements by July 10 it will be August 1 before the work will be completed. The new shops will cost \$50,000.

REUNION SPECIAL

General Passenger Agent Strain of the Frisco has received information that the ten camps of Confederate veterans in Hunt county have selected that road as their official route and ask for a train of eight cars. The party will be made from Greenville and Commerce on the Texas Midland. The party will be turned over to the Frisco at Paris, from which point the trip will be made to Louisville and return as a special train. According to present plans General Passenger Agent Strain will accompany the party. There will be between 450 and 500 veterans, sons and daughters on this Frisco special. General Passenger Agent Strain expects to have the train decorated appropriately for the trip.

NOTES AND PERSONALS

Live Stock Agent W. H. Weeks of the Frisco has returned from a trip to south Texas.

J. W. Cunningham, land and tax commissioner of the International and Great Northern, is in the city from Palestine.

RAILROAD NEWS

Naturally the great systems are looking for outlets that can be obtained at prices within reasonable bounds, and just as naturally they are turning toward the Gulf coast for this purpose.

The digging of the Panama canal is also in part responsible for the trend toward terminals, and all of the railroads want to be in position to handle the increased business as soon as the canal is finished.

"Another great incentive to early building is the fact that under government control of the Panama railroad the monopoly formerly enjoyed by certain railroad and steamship systems is abolished. Major Harrod of the commission told me yesterday that all reports to the contrary were false, and that every road and every shipper would enjoy the same rates for the transfer of freight over the Panama line. Under government control it is common carrier for the world and all discrimination in rates is at an end. For practical purposes, this gives the railroads an immediate gateway across the isthmus at rates that are about one-half what they formerly were. Isn't it reasonable to suppose that they will grasp the advantage afforded them as quickly as possible?"

"Taking all these points into consideration, the railroad activity in Louisiana and the desire of the great trunk lines to secure terminals in New Orleans is readily understood. The development of the state will correspond to the rapid increase of transportation facilities. Other lines will probably come to New Orleans, but the Colorado Southern, New Orleans and Pacific will, it is safe to say, be one of the largest and most important since the coming of the Frisco—and just here permit me to say that in my opinion the granting of terminal facilities to the Frisco was one of the wisest things New Orleans has ever done."

HEAVIEST INSURANCE

The most heavily insured man in the whole world is Rodman Wanamaker of Philadelphia, son of John Wanamaker, the merchant and former postmaster general. His death, it is admitted, will cost the insurance companies \$1,200,000, earlier policies having been recently swelled by additional insurance to the amount of \$1,200,000. The largest single policy is held by James C. Colgate of New York, one certificate calling for the payment of an even million and a half.

LARGE POLICIES

Persons whose insurance is counted in the hundred thousands are numbered by the score, while million dollar or over insurance is credited to John Wanamaker, Helen Gould, George Vanderbilt, Thomas Lawson, John Mack of Philadelphia, W. K. Bixby of St. Louis, F. T. Howard of New Orleans, H. M. Atkinson of Atlanta and H. H. Kohlsaat of Chicago.

RISKS CONSIDERED

While enormous risks are thus carried and it has been estimated that the payment at once of all outstanding policies would consume many times the actual currency of the world, the companies play to win in the big lotteries of life. Large individual policies are granted only after thorough investigations. The late Frank Croker, who was killed on Ormond Beach, Fla., was refused insurance to the amount of \$100,000 by a leading company for his very motor racing tendencies.

EXTRA RATES

In other cases advanced rates are charged for carrying of risks. The car's insurance rate fluctuates almost daily at the present time, becoming a regular market quotation and factor in the transfer of foreign securities. Even in this country advanced rates are in force on many important items with foreign companies, the million or million and a half placed on an American's chance to live sinking into significance beside the amounts depending upon their lives or jobs. This insurance is not carried individually, however, being in the names of many subjects or companies whose business will feel direct the sudden change of regime or rulers.

Are you lacking in strength and vigor? Are you weak? Are you in pain? Do you feel all run down? The blessing of health and strength come to all who use Hollister's Rocky Mountain Tea. 35 cents. J. P. Brashear.

LIFE INSURANCE PAYMENT FIGURES

Insurance Press Issues Statement of Distribution—Big Policies Carried

According to the compilations of the Insurance Press issued today, life insurance companies distributed in this country and Canada during 1904 \$371,643,957. New York city alone receiving \$25,000,000.

Of the vast sums paid out Texas received \$5,559,575, of which the following amounts were distributed among the larger cities: Fort Worth \$228,466, Dallas \$490,942, Galveston \$716,150, Houston \$579,382, Austin \$180,704 and Waco \$150,513.

Payment of over \$10,000 is reported in over 300 Texas cities appearing in alphabetical form. Single payment of policies of \$10,000 or over is also contained in the tables, showing but one such payment in this city—to Avery L. Matlock. Galveston is reported to have the largest amount of life insurance in force in the state, the figures being placed at \$62,900,000.

Other interesting life insurance statistics compiled at various times declare the human family is today insured for the immense sum of \$17,277,409,640 of which \$19,273,675,290 is carried in the United States.

CITIZENS BUSY CUTTING WEEDS

Orders Issued by Health Department Reported Being Complied With

A crusade against weeds is being conducted by City Physician Barber and his assistants. Property owners all over the city have been notified and given five days in which to clear their property of this heiter scelerer form of vegetation.
Several citizens have had narrow escapes from the clutches of the law as a result of delay in obeying instructions. The specified time having elapsed, health officers today visited several persons who had been instructed to cut weeds. The officers went prepared to serve notices of arrest but found property owners busy cleaning up.
Dr. Barber said this morning that owners of the vacant lot corner Fifth and Throckmorton streets have been instructed to cut the weed growth there, which has reached a height of several feet.
"It is not the intention to be unduly hard on any one," said Dr. Barber this morning, "but the health ordinances must be enforced."
"All persons will be given ample time to carry out the orders, then if they fail to comply they will be arrested."
Weed cutting is popular throughout the city today.

BEAT OFF OUTLAWS

A Fierce Battle With Outlaws Who Attack an Ore Train While in Motion

EL PASO, Texas, May 31.—A fierce battle between robbers and a train crew occurred on the Mexican Central road five miles south of Ciudad Juarez. The train was a freight which was supposed to carry a heavy shipment of bullion consigned to Chihuahua, and the robbers evidently concealed themselves somewhere about the train before it pulled out of El Paso, which is the northern terminal of the Mexican Central.
Shortly after midnight Antonio Torrez of the train crew discovered two masked men hurling packages of merchandise out of the side door of a boxcar. It happened that a preceding train had carried the shipment of bullion in question, yet when Torrez discovered the robbers, the train crew put up a fight none the less strenuous. The bandits returned the fire, and a fusillade followed. J. M. Barclay, an American brakeman, was seriously injured. As the robbers retreated one of them cried as if he had been shot, but if so the wound was not sufficient to impede his progress in getting away. The train was stopped and the trainmen pursued, but they failed to effect a capture. The Juarez Police Eneco dispatched mounted officers on the trail.

RETURNS FROM ISLANDS

George H. Wright, Teacher in Philippines, Returns to Visit Austin

AUSTIN, Texas, May 31.—George H. Wright, who was appointed on the force of American teachers in the Philippines by Professor J. B. Kendall in 1901, at that time superintendent of public instruction in Texas, was a visitor in the state house yesterday.
Mr. Wright is an Austin man and is spending his vacation with his family in Hyde Park and will return to his post of duty in September. During his residence in the archipelago he has conducted the public school in Dulag, in the Province of Leyte. This school, Mr. Wright said, was conducted altogether in the English language for the acquirement of which the children displayed aptness really remarkable.
Mr. Wright is now a school supervisor and his duty as such is to visit the various schools in the province and teach the natives how to teach, and to see that this instruction is properly and accurately carried out effect.
Mr. Wright was pleased with the country in many respects, and thinks the future of the archipelago depends largely upon the success of the American schools, and the policy of the great republic. The influence of these schools will be to cause the English language to be used on the islands almost altogether within the next few years.
Mr. Wright said for the first three years the schools were confined to the towns, but now they are extended to the rural precincts, which were equally successful.
The Filipinos, he said, were now convinced that American occupation was for their good, and they held the American officers in high esteem. In the towns and provinces nearly all the officers are natives, and all the islands, practically, now have independence.

RAILROADS WILL THWART ROOSEVELT

Bureaus Being Organized to Defeat President's Plan for Board to Control Rates

DENVER, Colo., May 31.—The railroads of the United States have entered into an agreement whereby no stone will be left unturned to defeat the effort of President Roosevelt to have established by congress a board to control freight and express rates.
Two weeks ago the first of a chain of offices was opened from which literature will be distributed over the country, the idea being to conduct a widespread editorial campaign against the measure, just as Mark Hanna deluged the country with anti-bimetallism literature in his successful campaign in 1896.
Branch offices of this bureau of publicity of the railroads have now been opened in Washington, New York, Chicago, St. Paul and Minneapolis.
A similar office, it is understood, will be opened in Denver, the territory to be covered from this point being Colorado, Wyoming, Idaho and Utah.
The bureau is in charge of J. M. Maddy of the Erie road in New York, and Sisson Thompson, secretary of the General Managers' Association of the twenty-two railroads having terminals in Chicago. These men are acting under the firm name of Michaels & Edsworth, two newspaper men. Edsworth, one of the men thus ac-

ters the loss of the jewelry is considered insignificant.
Every effort has been made to keep the affair secret.
Some time between March 31 and a few days ago an old-fashioned mahogany treasure box was stolen from a safe where it had for many years held the most valuable of the possessions of the women members of the family. A scandal in the form of a family skeleton hidden for fifteen years from the head of the household is said to have formed the basis of the theft, which is believed to have grown out of a new romance in the case say the detectives at work on the case say they confidently believe that the son of the household is the thief for whom they are seeking. He is only about 23 years old, a graduate of one of the leading universities and a well-known figure at the social functions of the younger set.
His motive is believed to be the necessity of maintaining the appearance of having a large income during his engagement to a wealthy young woman. His own family are opposed to the match and have limited his allowance; hence his desire to acquire funds.
The suspected man left town some time ago, but he is under close surveillance, and the detectives believe that the offer of the rich reward just made will procure the return of the letters. The contents of these missives is unknown even to the detectives in the case.
God advice to women. If you want a beautiful complexion, clear skin, bright eyes, red lips, good health, take Hollister's Rocky Mountain Tea. There is nothing like it. 35 cents, Tea or Tablets. J. P. Brashear.

NEW FACTS IN VAN TRIAL

Testimony Is Offered That Officer Andrew Grimes Fired the First Shot

The Forty-eighth district court is the only tribunal in session today, the case of the state of Texas against Jeff Van, alias Jeff Vance, who is charged with the killing of Police Officer Andrew J. Grimes in 1902, being still on trial.

The state has concluded its testimony and late Tuesday afternoon witnesses for the defense were placed on the stand. Taking of this testimony is being resumed today before Judge Dunklin and will probably all be in by adjournment this afternoon. Up to noon but two witnesses had testified. They were City Secretary John T. Montgomery and Patrick Libby, who

was at the time of the killing, an engineer for the Frisco, with headquarters at Denison, and happened to be crossing the street when the difficulty began. He testified this morning that he saw Officer Grimes fire the first shot. This fact has until now been a mooted question, and may be material in favor of the defendant.

Witness Libby is now a resident of Cape Girardeau, Mo.

It is more than likely that the case will be concluded Thursday. At the previous trial Van was found guilty and given a death penalty, but the court of criminal appeals reversed and remanded the cause on the grounds that certain evidence was not properly before the court.

HELD AS DESERTER

Young Man Is Held in Austin Awaiting Information

AUSTIN, Texas, May 31.—William R. Butler is being held by the county officer to answer a charge of desertion from the army.

The Austin recruiting station has notified the government officials, and the government has written Troop E, Eighth United States cavalry, which troop he is said to have deserted from and which has recently left for the Philippines.

It will be necessary to hold Butler for at least three months, the time required for exchange of communications between Washington and the islands.

FARMER COMMITS SUICIDE IN JAIL

HILLSBORO, Texas, May 31.—Dave Holliday, a well known farmer who lived about six miles north of Hillsboro, committed suicide in the calaboose at Iasca this morning by cutting his throat with a pocket handkerchief about 2 o'clock this morning.

His daughter, about 17 years of age filed a complaint against him before the justice of the peace at Iasca, charging him with an assault, having walked from her home, a distance of seven or eight miles, to make the complaint.

Constable Martin went to the residence and arrested Holliday and taking him to Iasca placed him in the calaboose for safe keeping until he could be brought to Hillsboro.

On going to the prison between 7 and 8 o'clock this morning the officers found Holliday dead with a handkerchief around his neck and fastened to one of the iron bars which extend across the prison window.

The man was in a sitting posture, but the lower portion of his body did not quite reach the floor.

Deceased had stood well in financial circles and until about two years ago was one of the most prosperous farmers in the country. For a number of months past he had been drinking to excess.

SERVICES WERE HELD

Threatening Skies Did Not Prevent Continuation of Tent Meeting

Notwithstanding a threatening shower and wind the tent was put up again last night and services were held as usual at the corner of Illinois and East Leuda streets.

Rev. R. R. Hamlin preached on "What Must I Do to Be Saved?" He began by saying "This is the most important question of the ages. Most people are confused in their minds as to an answer to the question. Some will furnish their own answer and some will take the church as authority, some the religion of their mother and some the teaching of the Scriptures. While those who take the Scriptures strain them to prove a preconceived notion. It is claimed by some that faith alone will save, by others that the good they do will save them.

"Some will contend that a certain text will prove faith alone saves, or that repentance or confession or even baptism, but none of these things are to be relied upon, but all that the bible teaches must be considered.

"Not a single thing, but all that is commanded must be done.

At the conclusion of his sermon seven persons in answer to the invitation came forward to unite with the church. This makes in all sixteen persons that have united with these meetings. Each night Mrs. Kendall drills the children from 7:30 to 8 and Mr. Kendall sings an illustrated song.

HAD NO DISCIPLINE

Germans Say That Russian Ships Were Poorly Disciplined

VICTORIA, B. C., May 31.—Advices received by the steamer Empress of Japan include interviews with German masters of colliers which supplied Rojstvensky's fleet with coal when at Hongkobe Bay.

The Germans said only one or two Russian ships there observed such discipline as one would expect on a warship. The officers seemed to be fine men, but were disinclined for the work.

CARD OF APPRECIATION

"In behalf of the Broadway Presbyterian church, we take this means of expressing our thanks and grateful appreciation to all who so kindly and liberally assisted in the entertainment of the general assembly while in our city. Especially do we acknowledge our thanks to the committee of the First and College Avenue Presbyterian churches for their valuable assistance; to the members also of other churches who so generously opened their homes and churches to the commissioners; to the Western Union for establishing a local office in the church; to the Country Club; to the Fort Worth Telegram and to the many friends who tendered their carriages for the drive to the Country Club and A. A. Hunt and W. G. Turner who assisted so much in making the club reception and barbecue such a delight to all our guests.

SCHOOL CENSUS SHOWING GROWTH

County Superintendent Has Received Reports From All But Four Districts

County Superintendent of Public Instruction has received scholastic census reports from four of seven independent districts in the county, and reports for the previous year. These precincts are Arlington Heights, Rosen Heights, North Fort Worth and Arlington.

Of eighty-seven districts in the county eighty-six are in showing a very healthy increase in scholastic population. In nearly every district there has been considerable increase. The increase at Arlington is seventy-six. What now constitutes the independent districts of North Fort Worth, Rosen Heights and Diamond Hill, were last year known as Marine No. 21 with a scholastic population of 932. The combined scholastic population of these three districts is now 1,484, showing an increase of about 552, apportioned as follows: North Fort Worth, 235; Rosen Heights, 288; Diamond Hill, 270.

An effort is now being made to incorporate Crowley as an independent district.

Superintendent Ramsey says that the voting of special school tax and the consolidation of several of the smaller districts is a certain indication of a healthy sentiment in educational matters throughout the county.

LOOKING FOR PEACE

Strong Hope Exists That Peace Efforts May Succeed

PARIS, May 31.—The government quarters here for the first time entertain a distinct hope of peace.

This hope is not strong, but it is something more than a mere deduction from the result of the recent naval battle, what it is based upon is not known outside of those intimately conversant with Russia's intentions.

It is significant that as hope now prevails in high quarters peace efforts may not be futile.

DISMISS APPLICATION

Railroad Commission Refuses to Compel Railroads to Grant Transportation Special to The Telegram

AUSTIN, Texas, May 31.—The railroad commission today dismissed the application of the Robertson county Fruit and Truck Growers' association for an order compelling the railroads of Texas to give free transportation for each car load shipment from point of origin to destination and return.

Commissioners Storey and Mayfield voted to dismiss, and Commissioner Colquitt dissented. In dissenting Mr. Colquitt stated that this was nothing more than many of the railroads were now doing, and hence he saw no objection to the commission issuing an order to this effect. A hearing of this case on May 16 attracted considerable attention among the fruit growers of the state.

BANK CLEARINGS SHOW BIG GAIN

Monthly bank clearings in this city for the month of May show an almost unprecedented gain of nearly 100 per cent.

For the month the clearing were \$20,552,138.36, while for the same month in 1904 the clearing were but \$11,328,848.90.

The figures are taken by bankers and business men to confirm the healthy conditions forecast by the increase of weekly clearings as shown this year.

ATLANTIC ARRIVES AT SOUTHAMPTON

SOUTHAMPTON, May 31.—The American three-masted auxiliary schooner Atlantic, the winner of Emperor William's cup, arrived here early this morning, flying the stars and stripes. She soon attracted a large crowd of admirers to the quay side.

Wilson Marshall, owner of the yacht, is full of praise for Captain Barr's splendid handling of the schooner and attributed her victory to Captain Barr's remarkable seamanship. Barr himself is especially pleased and announced that the Atlantic had beaten Endymion's record to the needles by 13 days 20 hours and 35 minutes from Sandy Hook. He paid a high tribute to the crew of the Atlantic and its smart work throughout.

WILL RESIST THE TAX

Business Men of Creek Nation Will Fight the Law

MUSKOGEE, I. T., May 31.—Notwithstanding the protest of the business men of the Creek Nation, the Indian inspector is sending out notices today that the tribal tax must be paid on penalty of closing them up tomorrow.

The case is now in the United States supreme court, and a committee of five business men with W. T. Hutchings, attorney in the case, leaves for Washington Monday to make a personal appeal to Secretary Hitchcock to suspend the collections of the tax.

Meetings have been held in every town in the Creek Nation and resolutions passed to resist the payment of the tax.

Unless it is paid or the secretary rescinds a former order, there is no alternative but for Indian Inspector Wright to close up every place of business refusing to pay.

This order applies to every bank in the nation, as well as merchants and other business men, and while no penalty is attached for the opening there is more or less suppressed excitement in anticipation of the action taken by the inspector.

Funds have been liberally subscribed to resist by legal methods, but it is believed that the people will never pay this tax regardless of the decision of the supreme court, as a merchant can again open after his store has been closed by the Indian police without fear of punishment.

The courts are prohibited from enforcing a tribal law, and those refusing to pay can not be expelled from the nation, subsequently the secretary has no redress.

ARRIVES AT VLADIVOSTOK

VLADIVOSTOK, May 31.—The torpedo boat destroyer Bravi arrived here today and brought four officers and 197 men of the crew of the battleship Oslabya.

Coffee Hurt You?

No need to get mad now, tear up the paper, or shout "nonsense, good coffee never hurt anyone."

You know better than that for you can point out all around you folks who are the worse for coffee's slugging. Think over a few coffee-drinking friends and casually enquire if they are entirely and perfectly well and just how coffee treats them.

If it hurts others isn't it just possible? Catch the drift, don't you?

In fact after you have studied the matter a bit it will come plain that if you are a coffee drinker the chances are you already have some form of incipient or perhaps fixed organic disease due entirely to the coffee—constipation, rheumatism, eye trouble, nervous headaches, nervous prostration or others of the well proven coffee ails. You can decline to look the thing squarely in the face and peg along with the coffee.

Some day nature will haul you up SHORT!

IT'S A POOR BARGAIN

to swap health and a clear, business-like head, for a few cups of coffee each day.

Every coffee toper tries to wiggle round and charge his aches and ails to weather, overwork, too much or too little food, this, that or the other thing, so it isn't his Master, coffee.

A Sure Personal Test

will locate the exact cause of your steady destruction of health, if that cause be coffee. It's worth knowing the plain, sober fact before fixed organic, heart or other disease sets in, which perhaps cannot be cured.

The test is pleasant, accurate and satisfying. Quit coffee absolutely for 10 days and in its place use Postum.

BE SURE the Postum is properly boiled as per directions on pkg. (and that's easy) then you have the famous Food Coffee, with the deep seal brown which turns to rich golden brown when rich cream is added and the flavor is crisp, snappy and soft like the high grades of Old Gov't Java.

If in two or three days you begin to sleep soundly at night, digest your food better, stomach and bowels show signs of recovery, or the old feeling of weakness at the heart leaves, or eyes get stronger and works clearer, (the ails of coffee drugging are multitudinous) the facts will be before you and

YOU HAVE THE ANSWER,

POSTUM

COFFEE

10 days. "There's a Reason"

Get the little book, "The Road to Wellville," in each pkg.

SCROFULA A Disease We Inherit

The tainted blood of ancestors lays upon the shoulders of innocent offspring untold suffering by transmitting to them, through the blood, that blighting disease, Scrofula; in nearly every instance the disease can be traced to some family blood trouble, or blood-kin marriage which is contrary to the laws of nature. Swelling, ulcerating glands of the neck, catarrh, weak eyes, sores, abscesses, skin eruptions, white swelling, hip disease and other deformities, with a wasting of the natural strength and vitality, are some of the ways this miserable disease manifests itself. The poison transmitted through the blood pollutes and weakens that health-sustaining fluid and in place of its nutritive qualities fills the circulation with scrofulous matter and tubercular deposits, often resulting in consumption. A disease which has been in the family blood for generations, perhaps, or at least since the birth of the sufferer, requires constitutional treatment. S. S. S. is the remedy best fitted for this. It cleanses the blood of all scrofulous and tubercular poisons, makes it rich and pure and under the tonic effects of this great blood medicine the general health improves, the symptoms all pass away, there is a sure return to health, the disease is cured permanently while posterity is protected. Book on the blood and any advice wished, furnished by our physicians, without charge.

Scrofula appeared on the head of my little grandchild when only 18 months old, and spread rapidly over her body. The disease next attacked the eyes and we feared she would lose her sight. It was then that we decided to try S. S. S. That medicine at once made a speedy and complete cure. She is now a young lady, and has never had a sign of the disease to return.

THE LIVESTOCK MARKET

NORTH FORT WORTH, May 31.—Reasonably liberal receipts greeted buyers this morning in the cattle pens.

The market opened steady on fed steers with sales at \$4.35. Early sales of the best of the grassers were steady, but soon a weakness developed that dropped into a positive loss.

Another delights in horned toads as tommey pets."

Intense interest is manifested by German bankers and business men in the discovery of productive oil fields in the Laneburger Heide. Two days before Christmas oil was reached at a depth of 4,469 feet at Eickeloh, a small town on the Lelne river, just above the point where this river joins the Aller. Great excitement prevailed and extensive speculation was indulged in by the people of the town. The well produces daily 4,372 gallons of oil, which the experts say is very good.

The "stenophile" is a very shorthand typewriter, which prints in ordinary letters. It is the invention of M. Bozard of Paris. It can write at the rate of 200 words a minute, but the ordinary speed is 125 to 150 words a minute. A pupil, after some days' practice, can do 50 words a minute. The invention is unlike ordinary typewriters and consists of two instruments—one for punching holes in a band of paper, the other for mechanically printing in type from the band.

COLORED SCHOOL PUPILS GRADUATE

Certificates Given Seventh Grade Students at Closing Exercises Held in City Hall

Seventh grade pupils of the colored schools held closing exercises for the year at city hall Tuesday afternoon, an interesting program, as announced in The Telegram, being presented.

Ten Seventh grade pupils received certificates, all taking part in the program. A number of Sixth grade pupils also assisted.

A short address was delivered by Superintendent of City Schools Alex. Hogz, who presented the certificates.

Graduation exercises of the colored high school will be held tonight in the city hall auditorium. A class of nine pupils will be graduated.

STEPS NEEDED TO ADVANCE FT. WORTH

The Telegram Monday printed the first of a series of articles by leading citizens on "Steps Needed to Advance Fort Worth." These will be continued from time to time. Today's article is contributed by Otho S. Houston, president of the Hunter-Phelan Savings Bank and Trust Company.

"The territory which belongs to Fort Worth is the southwest, northwest, north and west, and it is in this field that I think Fort Worth should spend her greatest efforts.

"It is of the opinion that a great deal of the country west of us is going to develop into a farming country and is going to be a good cotton raising section, and that people will go out of the boll weevil section into that section where there are no boll weevils for the raising of cotton within the next few years; Fort Worth is the natural market for all of these people.

"What built up Dallas and her large stockery manufacturing concerns and other concerns is farming country which has been tributary to Dallas, which has

been thickly settled, and very naturally Dallas has paid more attention to this thickly settled farming country than it has to this country west of Fort Worth, which gives Fort Worth the prestige and it is my opinion when all of this mixed farming and stock raising country goes with full force to Fort Worth that it will make Fort Worth a very much larger city than Dallas, and therefore, Fort Worth should take steps at all times and show the keenest interest in everything west, northwest and southwest of us, and the continuance of her efforts to get the these people to come into the metropolis once in a while is about the best advertising Fort Worth can do. My idea is not to waste any of her efforts on territory belonging to Dallas, because we have that to the west of us and it is as great a country as is needed to build a large city.

"The auditorium is a good thing but I am afraid to say too much about it for fear that Captain Paddock will be at my house early in the morning for too large a subscription.

"OTHO S. HOUSTON."

NORTH SIDE NEWS

All of the new cars of the Fort Worth and Rosen Heights car line will be placed in service in a few days. It was the intention to have done this before, but it was found the current was insufficient to operate all the large cars. It is thought some defect in the underground connections prevents the current from reaching the downtown rails in volume adequate to supply sufficient amount of current to the larger cars. "It may be necessary to run an independent feed wire direct from the power house to the incline just south of the river," said Sam Rosen in discussing the matter today. "We have plenty of power, but cannot get it equal distributed. We have found the defect in underground connections, which I think will be done in a few days, as we have a force of men at work now. "Our switch board was burned out last Sunday, but we have since replaced it in a manner that will prevent a similar occurrence. It is our intention to maintain a twelve-minute schedule throughout the day, with extra service in the mornings, evenings and on Sunday. Miss Josephine Nichol has gone to Denison to attend normal school. Miss Mattie Dunlap from Comanche is visiting her aunt, Mrs. J. M. Hensley, 2210 Pearl avenue, Rosen Heights.

HEAVY DAMAGE TO CITY STREETS

Street Commissioner Estimates Total Cost to Repair Will Be \$10,000

Ten thousand dollars is the amount of damage done to the streets and thoroughfares by the past spring rains, according to an estimate of Street Commissioner Renfro this morning.

Fifteen storm sewers and drains have been stopped up by mud and debris while great ditches and holes have been washed in the streets in every ward in the city. Hundreds of gutters have been filled with mud and the grading and macadam has been washed from streets in all parts of the city.

The street force of twenty-five men is working daily repairing the damage. By next fall Mr. Renfro estimates the work of repairing will be completed and the thoroughfares placed in a normal condition.

PLANTING DELAYED BY WEEK OF RAIN

Government Crop Bulletin Shows All Staple Products Late by Reason of Showers

Summary of the weekly crop bulletin for Texas, issued at Galveston by M. E. Blyston, section director, is as follows:

The weather was generally warm during the week. Showers occurred over most of the state, except in the extreme west portion. In the northern and central counties were more frequent than over the south. Over the south and in some sections which had escaped earlier heavy rains the showers were beneficial, but generally over the north damage resulted. The soil is wet and work has been delayed. Fields are generally very foul and badly in need of cultivation. Many of the river bottoms are covered with water, and it is feared that no crops whatever will be produced therein during the present season.

Cotton—the cotton prospects have deteriorated in the central and northern counties during the week. Much cotton remains to be planted in these counties and the work has been greatly delayed.

That which is up is generally not in promising condition, though in some localities, which escaped the excessive rains the crop is in good condition. The fields are generally very foul, as cultivation has been delayed by the wet weather. Chopping has also been delayed. In the south and southwest the corn is forming in good condition, and good growth has been made during the week. Cultivation was prevented to some extent by showers, and some fields are foul. Chopping has been general, and much of this work is completed. Squares are forming in most southern counties. The area affected by the boll weevil has increased, though no serious damage has yet been reported. Cut worms and other pests are working on cotton in various parts of the state.

Corn—in some northern counties the prospects are good, but generally they have deteriorated. The wet weather has been injurious, and the crop does not have a healthy appearance. Fields are very foul and badly in need of cultivation. Much late corn will be planted. In the south the corn crop is in better condition, and promises a good yield. Most of the crops in that section is in silk and tassel, and some of it is in roasting ears.

Wheat, Oats, Rye and Barley—These crops have generally deteriorated in the northern and central counties, because of rust and lodging. Wheat has been affected by rust more largely than other crops. There is much smut in oats in northern counties. Harvesting is in progress in the south, and grain is heading and ripening in the north.

Rice and Sugar Cane—Rice planting has been delayed to some extent. Some rice is up and doing well. Sugar cane has generally done well during the week.

Miscellaneous—Though gardens have done well in some localities, they have generally deteriorated in northern counties. In many northern and eastern counties potatoes are rotting in the ground, while in some counties a good crop is being produced. Grass in meadows and pastures continues to do well, and the ranges are fine. There was some damage to alfalfa during harvest. The second crop is doing well. Forage crops have made good growth. Stock is generally in fine condition. The fruit crop is generally promising, though there has been damage by high wind in some sections.

The report from Euless, this county, is: Too wet for all crops; 75 per cent of the cotton planted; none shipped; and crop looking badly; corn looking badly and in need of work; wheat short owing to rain; oats looking very well; fruit good; berries looking well; pastures fine.

STATE ORGANIZERS FOR UNIFORM RANK

J. H. Tiller to Make Important Knights of Pythias Appointment for Texas Brigade

John H. Tiller, brigadier general, Texas brigade, Uniform Rank, Knights of Pythias, has returned from attending the convention of the supreme assembly of the order held May 25 and 26 in Indianapolis, Ind. He reports that the session was one of the largest ever held, every state in the union but one being represented and the exposition was Oregon.

Supreme Chancellor Shively, commander in chief, presided over the deliberations of the assembly, as Major General Carmichael is ill and not able to attend to the duties of the presiding officer.

Mr. Tiller says that there were two matters of special interest to the membership in Texas, one being that while there was strong opposition from the east and north the advocates in favor of bringing Dallas to the rank of the southern cities and New Orleans got the convention, which will meet in September, 1906. This fact will be appreciated by all members in the south, enabling them to attend generally, an extremely low railroad rates will prevail.

The other question was an appropriation which permits of an organizer being put into every state of the union. Mr. Tiller will make the appointment of the organizer in Texas. This feature, he says, will result in building up the Uniform Rank in the states. Texas stands seventh in the number of companies, twenty-eight, while Ohio leads with 107, in good standing. Indiana is second with ninety. Membership considered, Texas is close to the front.

Mr. Tiller says delegates to the Indianapolis assembly were royally entertained.

CARRIAGES OFFERED FOR REUNION MARCH

Veterans Desiring to Ride in Louisville Parade to Be Furnished with Conveyances

The following general order was issued Tuesday by Major General K. M. Van Zandt of the Texas division, United Confederate Veterans:

"The major general commanding Texas division, U. C. V., hereby requests the following parts of letter to these headquarters from Major General Bennett H. Young, commander of Kentucky division, U. C. V., and chairman committee of music, parade and review, be read in open camps, that the comrades having due and timely notice may govern themselves accordingly: I am authorized by the reunion committee to say that ample provision will be made for all Confederates who prefer to ride in conveyances rather than walk in line of march during the parade of the Confederate Veterans at reunion on June 16. All desiring to avail themselves of this offer will address Major General Bennett H. Young, Kentucky division, Louisville, Ky."

SEWER LINES BEING RUN

Work Begun on Extension of South Side System

First work on sewer extension in the Fifth, Sixth, Seventh and Eighth wards is being done this afternoon by City Engineer Hawley and Assistant Engineer Cunningham. The main line of the sewer is being located in the Seventh and Eighth wards. At the city engineer's office men are working on the drawings and specifications for the extension of the system.
