Sick Headache

When your head aches, there is a storm in the nervous system, centering in the brain.

This irritation produces pain in the head, and the turbulent nerve current sent to the stomach causes nausea, vomiting.

This is sick headache, and is dangerous, as frequent and prolonged attacks weaken the brain, resulting in loss of memory, inflammation, epi-

They stop the pain by sooth-ing, strengthening and relieving the tension upon the nerves -not by paralyzing them, as do most headache remedies.

Dr. Miles' Anti-Pain Pills do not contain opium, morphine, chloral, cocaine or similar drugs. "Sick headache is hereditary in my family. OF REVIVAL SERVICE FULL

Union Depot Addition Congregation to Build Perma-

nent Structure

A direct result of the mission revival services held by Rev. R. R. Hamlin of the First Christian church, which closed last night, will be the building of a handsome edifice at East Lueda street and Illinois avenue for the new congregation organized in that vicinity. During the meeting the congregation secured enough money to pay for the site, consisting of two lots, 50x100 feet each, making a space 100 feet square. Mr. Hamlin says peratures are high in all portions of that plans for the building will be made in the near future and within a very short time the congregation will have a modern house of worship.

In the meantime the members of the church will attend service in the temporary building standing on the site.

The meeting closing last night was a very successful one. During its four weeks' tenure fifty-two new members were added to the church. Last night Mr. and Mrs. B. M. Kendall delivered an illustrated lecture on "A Trip to the Holy Land." The Kendalls made the trip some time ago and in the lecture used stereopticon pictures taken by them-
