## Painless, Natural Childbirth.

Baby's coming into the world should be preceded by a certain preparation on the part of every woman who expects to become a mother. She owes it as a duty to her unborn babe, and to herself; her duty to her unborn babe is to use every means within her power to aid his entrance into the world. Baby cannot help himself in this ordeal, therefore mother must. He has a hard enough time after his arrival, so let us make his coming easy. His health in after life depends greatly upon the manner of his coming: would you have your child a cripple, or would you have him a tower of strength? Strong men are but grown-up children; a famous surgeon in Vienna is devoting his life-work to the cure of little helpless cripples, deformed by birth; do not allow your child to become a cripple.

### NOVEL PICTURES OF ORIENT ARE TRUE

Mrs. W. A. Huffman in a lecture upon India and Siam at the Christian Tabernacle Friday afternoon paid a high tribute to the accuracy of modern novelists in describing those countries, their habits and atmosphere, declaring that one could readily recognize them in an instant from the reading of Kipling and John Luther Mrs. Huffman said: "I have lived four

years, where more elephants passed my place daily than I have seen horses here; where the blue buffalo roams at large; the primitive plow is still used; where monkeys gambol overhead and parrots Beeville ..... 90 72 18 Cloudy go to this country with the arrogant idea that we can teach the Orient. its habits and customs, but it is from the romanticists that we get a true conception of the atmosphere and environment of any country. It was through John Luther Long's short stories that ! recognized the real Japan the moment l anded in Yokahoma. I had read much of India, but through Kipling I recognized India, when I sailed into the harbor at Singapore.' Numerous articles brought back from Irdia and Siam by Mrs. Huffman were

exhibited. There were dresses, embroidery, and in fact everything that was in eresting, but perhaps the most interestng was shown in a magnificent embroidered curtain, which had been draped across the platform. This piece of tapestry was made more than one hundred years ago, but was as bright and beautiful as if made but this year. The embroider, was all done in silver and gold by the 500 wives of a king. The display of rare old tapestry was without doubt the finest ever shown in Fort Worth and was fully appreciated by those present.
