Embargo on Fruit at New Orleans Causes Poverty Among Laborers

TOWNS AFRAID MISSISSIPPI AND ALABAMA VILLAGES ENFORCE QUARANTINE ON MERCHANDISE

NEW ORLEANS, July 31.—Much distress is beginning to appear among the Italian population growing out of the practical expulsion of the fruit business from Louisiana and the relief work is one of the tasks which the Italian societies and citizens' committee now have addressed themselves to.

Have Big Families The average Italian here has a half dozen in his family and sometimes the number runs ten or more and with them many mouths to feed, the head of the family cannot long remain in idleness without having to appeal to public charity.

Health authorities are very much encouraged by the excellent work that is being done at the emergency hospital and they believe that when the results of the treatment as given there become known, families will readily consent to have patients sent there.

Weather Observer Stroter stated that the weather for the past few days has been unusually warm and that to exceedingly heavy rains which prevailed north of Kingsland, on the Llano branch of the Houston and Texas Central railway.

Little change was apparent in the fever situation here today, the number of patients in the hospital being reported to the board of health. The campaign in the interest of cistern screening continues and hundreds of gallons of oil are being placed in gutters and water receptacles.

MOBILE, Ala., July 31.—The cities of Laurel and Hattiesburg are now suffering with well-defined cases of panic as evidenced by the latest instructions from the officials of these towns to the officials of the Mobile, Jackson and Kansas City railroad.

OLD SORES ROOTED IN THE BLOOD

Old Sores are the result of a deeply polluted, foul blood supply. The blood is filled with poisons, and as it finds an outlet through the ulcer, the surrounding parts become diseased and the sore eats deeper into the tissues and flesh and becomes a permanent trouble.

Some years ago while at work, I fell over a truck and severely injured both my shins. My blood became poisoned, and as a result, the doctor told me I would have running sores for life, and that if they were not cured, I would die.

ANOTHER TRAGEDY OF MAY AND DECEMBER

Aged and Wealthy Husband Killed by Young Wife After Supposed Quarrel

SAN JOSE, Cal., July 31.—A tragedy with all the elements that go to make up the French penny dreadful has just been enacted at Alma, a village near here. An aged and wealthy husband, a young and beautiful wife, a lover and the killing of the husband are its components.

Nine years ago when old Gustav Hueter, a retired capitalist of San Francisco, tired of living alone in his splendid suburban residence at Alma, he took for his wife a beautiful young girl and showered upon her every luxury that money could obtain.

MRS. MARY HUETER.

the mating of 68 years with 22. But Hueter was satisfied and happy. The wife was the contrary. She dreamed amidst all her luxurious surroundings of a gallant young lover to whom she might give the heart which her husband had been unable to buy with all of his wealth.

Then a few days ago the country side awoke and was shocked to hear of the terrible tragedy that had come to the Hueter home during the preceding night.

Mrs. Hueter was arrested, but the coroner's jury exonerated her on her plea of self-defense. She claims that the old man had come home in a quarrelsome mood and that soon after returning he threatened to kill her.

A few days after the tragedy, Hueter's oldest son came forward and told a story which threw a new light on the tragedy.

It appears from the son's story that when his father was called to San Francisco on business shortly before the killing, Mrs. Hueter drove him to the station and waved adieu to him.

Surgeon General Walter Weyman, who has announced that he will go

to New Orleans to take charge of the fight against yellow fever, has been with the United States marine hospital corps since 1876. He is 57 years old.

General Weyman is recognized as one of the chief authorities in the world on matters connected with the public health. His special attention has always been given, however, to the condition of seamen in the merchant marine service, both inland and oceanic.

He had charge of the United States government's measures to ward off cholera in 1903, when the epidemic was raging in Hamburg and other European ports.

The administration of the national quarantine law and establishments are directly under his control; hence his decision to take charge in New Orleans.

General Weyman is the author of a number of pamphlets on medical sanitary matters and is a member of a number of societies.

Cody has lived long enough to see another of his dreams realized—the opening of his long-talked-of "Cody Trail Through Wonderland," the "trail" being a new route to the Yellowstone National Park.

Eventually it would end at the Lake Hotel, in the Yellowstone National Park, and its originating point was on the Shoshone river in the Big Horn basin, where later the colonel located his home and the town of Cody.

It is out on the "trail" that Colonel Cody has established his two hunting lodges. Wapiti Wickiup the Pahaska Tepee.

THE RAIN CURE IN TEXAS

The rain cure is now being tried by a number of persons in that city whenever opportunity is offered for taking the treatment, says an Austin, Texas, dispatch to the Kansas City Journal.

There is nothing complicated about the rain cure. All that is required of the patient is that he shall stand in the open, with his body bare of all clothing, and let the falling rain pour on him.

The sensation is said to be very agreeable. Those who have tried the new treatment assert that the rain falling upon the bare body invigorates the whole system and is especially strengthening to the nerves.

There is no set rule for taking the treatment. Some of those who began it several months ago, at the early break of winter, have stood in the rain for several hours at a time without suffering effects of a disagreeable character afterward.

Devotees of the rain cure welcome the appearance of a black cloud which forebodes a terrific downpour of rain. It is then that they strip to the skin and get out in their back yards, which are enclosed by high board fences, and let the water come down on them in torrents.

It is declared that the rain cure is a sure remedy for rheumatism and that decided improvement has been noted in cases of persons afflicted with tuberculosis. For nervous disorders the treatment is said to be infallible. One treatment, it is said, will cure a severe cold.

The treatment is believed to have had its origin in Austin. So far as can be learned, John Durst, a young business man of that city, was the first person to give it a trial.

A few months ago he was suffering from a severe cold. A rainstorm came up, and while it was in progress he decided to strip and get out into it so that it would help his cold. There is a high board fence around his back lot. After disrobing in the barn he went into the lot and let the rain fall upon his bare body.

The experiment was a success. The one treatment cured his cold. Since then he never misses taking the rain cure when at home during a rain. He has perfect health.

He related his experience to some of his friends, and the fact, if such it can be called, has spread rapidly.

It is recommended that weak persons who take the treatment should not remain in the rain too long at a time and that a vigorous rubbing should follow the wetting.

It is the theory of those who have taken the treatment that its efficacy lies in the fact that the rain drops contain peculiar medicinal properties and that, coming through the air as they do, they are charged with electricity, which has a direct effect upon the body. Physicians who have been questioned on the subject say that the treatment may have merits in its application to certain ills.

It is out in West Texas that the rain cure is the most effective. Out in that section of the state much depends on the amount and regularity of the precipitation. When there is an abundance of rain the people are happy and progressive. But when the sluices ways of Nature become clogged and Old Sol comes up day after day and slowly and witheringly passes across a brassy sky, the hearts of the people become oppressed and sore within them. The business man stands in front of his open door and ponders on the uncertainties of human hopes as he listens to the tale of woe from the son of the soil who reports his crops burning up from the awful heat. The banker figures on the outlook for decreased business and vigorously studies astronomy in an effort to locate a rain cloud. The stockman greases his windmill and pumps water from the bowels of the earth, wishing there was a method of raising the grass he needs in his business the same way. The average citizen goes about with an elongated countenance and the look of apprehension that will not come off. The people are suffering, and looking forward to the rain cure, which is to transform the brown prairies into veritable wheat fields so far as verdure is concerned, and the long hot days passing as unbeknown as clock-work, only add to the fierceness of this general summer complaint. But a dark cloud rises in the northwest and swoops across the sandy plains with all the force of a legion of Japanese soldiers upon a masterly retreating body of the Little Father's sore-footed myrmidons. There is a rattle of windows, a cloud of rapidly moving real estate, a few big chunks of rocks and then the blessed rain.

God and the people of West Texas only know the joy of it.

Those long faces disappear as if by magic, the merchant gets busy, the banker reduces his rate of interest, the stockman buys another herd, the granger lets weeds grow in the path he has worn around his humble cabin home while studying the clouds in search of rain signs, and the fertile soil responds as only West Texas dirt can answer the

GLEANINGS FROM EXCHANGES

It begins to dawn upon the minds of some people that it was a leak in the agricultural department up at Washington and not over production that caused the downfall in the price of cotton, and now since the price is steadily climbing the average farmer wishes he had planted just a few more acres of the fleecy staple.—Boyce Blade.

The reduction in the cotton acreage in Texas made by the farmers was a big mistake, from the fact that it was a move in the wrong direction. More cotton and more cotton mills is what Texas needs at this time.

C. E. Russell has just closed in Every Body's Magazine a series of articles on the beef trust under the title of the Greatest Trust in the World. In closing the series he calls attention to the fact that in the last three years the price of cattle on the hoof has fallen \$162,000,000, while the retail price of beef has risen in all the principal cities of the country, and states that nothing but manipulation could bring about such a state of things. He does not share the opinion expressed by Commissioner Garfield as to the small profits made by the beef trust.—Dentist Messenger.

The trouble with Commissioner Garfield is that he accepted the profit made on one animal as the annual amount made in the clear by the packers. As the money invested is turned over three weeks, it can readily be seen how far wrong he was in his calculations.

Fruit shippers at Denison are about to make the first resistance to the ruling charges of the Armour Packing Company, on shipments of fruit. The shippers will see their cars at Denison at a cost of \$25, whereas the Armour charge \$30, thus cutting into the profit of the fruit shippers from Texas. They believe if the Armour try to compel them to pay \$30 being charges they can take the case into the courts.—Greenville Banner.

The railroad commission of Texas is behind the fruit shippers in the fight they are going to make, and it is going to be a warm one from start to finish.

The farmers around Cisco are deeply interested in a canning factory at this point, and there is plenty of fruit and truck raised near at hand to keep it going. It is hoped that by next season this need will be filled and a market established thereby for our fruit and truck growers.—Cisco Roundup.

There are splendid opportunities existing all over Texas for canning plants, but it seems the majority of our people prefer to get their canned goods from outside sources.

The Texas State Local Option Committee has decided upon a vigorous campaign for Dallas and Tarrant counties and will probably erect large tabernacles in Dallas and Fort Worth.—Glimmer Echo.

Tarrant county is under lasting obligations for the intended kindness, but a great injustice. Fort Worth does not do things reluctantly. If there are reasons why reluctance should be manifest, Fort Worth passes up the proposition.

Reports from Washington are to the effect that more resignations are to be expected from the agricultural department, but resignations are not the only things demanded by the exigencies of the situation. Some very determined prosecutions would apparently be very much in order.

The governor of Mississippi and the governor of Louisiana in talking over quarantine matters are not as amiable as the governor of North Carolina once was to the governor of South Carolina. They are charging each other with dissemination and not one word has been said concerning the process of litigation.

Johann Hoch, the celebrated wife murderer, has again been replevied, and his case will be passed upon by the Illinois supreme court. It seems almost as easy for Hoch to secure a reprieve as it was to find him a wife.

The friends of Hon. W. D. Williams throughout Texas are pleased to learn of his determination to become a candidate for railroad commissioner, for it is universally conceded that the gentleman from Tarrant has special abilities in that particular line.

In the bribery investigations being conducted in Arkansas in connection with legislative matters, a grand juror has himself been indicted for trying to bribe two other members of the grand jury into returning an indictment against a certain member of the state legislature. They seem to have the bribery business down very pat over in Arkansas.

If the yellow fever scare will only affect Texas sufficiently to cause a general cleaning up of premises, it will not be without its reward. In Fort Worth there are many places that are alleged to be badly in need of attention.

Fort Worth friends of Dan Lively will regret very much to learn he has been stricken with yellow fever in Panama, and the hope is quite general that his extreme versatility will be sufficient to pull him through.

More than 1,500 new residences have been built in Fort Worth during the past six months, and it is such circumstances as this which points the moral of our rapid growth and development.

If Attorney General Davidson gets out on that threatened trust hunt he is going to be the center of some very interesting developments in the state of Texas.

Cases of yellow fever have developed in Florida and Mississippi and in every instance the disease can be traced directly to refugees from the city of New Orleans.

When Emperor William met the czar of Russia on the high seas a few days ago, President Roosevelt was thus notified directly that he is not the only duck in the peace puddle.

Winfield Scott says Fort Worth has \$100,000 to give for another packing house, and that sum certainly ought to land it.

THE WESTERN GIRL

O the western girl is pretty, She is sassy, sly and witty— Even down in Kansas City; She is far from being dumb; She is tasty in her tresses, Neatly curlycombs her tresses, And takes kindly to caresses, But she will chew gum.

She is up to snuff—I reckon— On the watch for the gentle beckon, Off in need of mamma's checkin' And the weight of papa's thumb; She is slinky to the limit, Buys a novel just to skim it, O her glory, naught can dim it, But she will chew gum.

O the western maid's a dandy With a wondrous tooth for candy, She can give you Kansas City; When the drummer beats the drum! She's a dashing peacharina, She's a genuine verberna— You're a dead one till you've seen her, But she will chew gum.

A woman never gets over the idea that if she had lived abroad she would have had a great romance with a royal prince. We educate our children so that they will think they know so much more than we do that they are only fit to go on supporting them.

There is a good deal of consolation in thinking you would amount to a great deal more than you are, people who amount to less weren't holding you down.—New York Press.

REFLECTIONS OF A BACHELOR A girl has to be mighty pretty not to be as ugly as her rival says she is. The way things are kept in a girl's bureau drawer reminds one of the way ideas are mixed up in her head.

EAGLES ARRANGE NESTS IN DENVER Committee Representing Texas Delegation to National Gathering Now Completing Plans

To arrange for the reception and hotel accommodations of 1,000 Texas Eagles, a delegation consisting of Fred Keeler, T. D. Clark, J. H. Bakewell and C. M. Bullock, all of Houston, passed through this city last Friday on their way to Denver.

The party will spend several days in the Colorado sight-seeing before returning to their homes. The delegation went to Colorado to participate in the arrangements for delegates and their friends from Fort Worth, Dallas and other Texas cities that are to send representatives to the big national gathering of Eagles at Denver, beginning Aug. 14.

It is said here that none of the Texas cities will make a bid for the 1896 convention in view of the fact that Atlanta is in the race. Texas Eagles have announced that they are for Atlanta and are pledged to support that city. However, Fort Worth, Dallas and Houston, it is said here, will enter the competition for the prize banner to be awarded the best looking marching delegation in the big parade.

One of the most interesting features arranged by the Denver Eagles for the entertainment of visitors will be the fireworks display at city park, Aug. 18. A number of set pieces representing the several grand divisions, will be displayed besides the usual show of rockets, etc. Fort Worth intends to send a large delegation to Denver, and in the party will be the Eagles degree team, which stood high at the last national convention for its excellent work. A brass band will also be taken along with the Texas delegation.

THE COLORADO COUNTRY "One would expect to find cattle conditions better in the Colorado country than they are at present," said M. P. Esline of Colorado, who was in Fort Worth Tuesday. "We could have better marketing conditions," continued Mr. Esline, "yet as a rule cowmen are rather hardy, and they do not expect too many good things in one time; rather, they have been bred to the extremity of expecting all the best things in a bunch. "The rains this season have furnished an ample moisture and not only cool men but farmers have fared better than for many seasons past."

LEE CAMP ADMITS SOLDIERS' CHILDREN

Sons and Daughters May Become Honorary Members of the Organization

Sunday's session of Lee camp, United Confederate Veterans, was well attended, but there was little business transacted. The most important was the admission of Sons and Daughters of Confederate as honorary members of the camp. This action was taken on motion of Adjutant W. M. McConnell, who made a forceful address on the question. One of the provisions is, however, that such parties desiring to be honorarily connected with the camp must first register their names with the adjutant. This movement was taken up some years ago, but from some cause was not favorably acted upon. Several contributions for the indigent funds were announced by the adjutant, among them being one from Mrs. C. H. Hight of Fort Worth, who is temporarily at Alamo. A dollar each was sent in by W. E. Jones and J. L. Snodgrass. The latter donations are for women of the Confederacy.

STAMFORD LINE BONUS DECLINED

Major Beardsley Fails to Approve Counter Bonus Proposition of West Texas Cities

Word has been received in this city that Major J. D. Beardsley, with whom negotiations are under way for the construction of an interurban line from this city to Mineral Wells, has declined the proposition made by citizens for the construction of a road from Alamo north. According to the information received here, a meeting was held last Thursday at Stamford, with representatives from cities along the proposed route, at which time a total bonus of \$150,000 was arranged, agreement being for each city to subscribe certain amounts and the city securing the round house to add \$10,000 to its subscription.

MEDICAL COLLEGE TO HAVE NEW SITE

Property at Seventh and Rusk Street to Be Sold—University Changes

A movement to secure the removal of the Fort Worth Medical College, a school of Fort Worth University, to a site adjoining the other buildings of the university is under consideration, with every prospect of accomplishment within a few years.

Disposition of the present medical college building at Seventh and Rusk streets will be a prerequisite to the removal of the institution, and an effort to do so at a favorable price is being made.

Speaking of the matter this morning, President MacAdam said: "The university has determined to change the department of music into a conservatory of music and has secured Professor Eugene E. Davis of the Lombard Conservatory, who will assume charge at the opening of the session in September. Professor Davis is a graduate of the Imperial Conservatory at Vienna, Austria, and has finished his musical education under leading American and European masters. He acted as conductor for two weeks at the St. Louis World's Fair, giving two concerts daily, and has made tours of this country with Mustin and Remenyi. He is a wonderful performer himself on both the piano and organ. He thoroughly understands the culture and has had much experience in conducting chorus work. He will bring with him his faculty of music. Arrangements have been made to devote six rooms of the college building to the conservatory and needed quarters in the center of the city will also be obtained."

The pharmaceutical school which will also be opened at the beginning of the term will have Dr. M. E. Gilmore of North Fort Worth as dean.

Pantas and their educated pig, Mike, who appeared for the last time. An overture by the Lake Erie orchestra, after which Lynde and Kennedy, the dancing Nabobs, danced for twenty minutes and set the audience wild with their wonderful dancing. This is beyond a doubt one of the best dancing acts ever seen here. Next came the juggling jugglers, Huston and Dallas, who juggled anything and everything from a feather to a kitchen table. The stage setting is unique and the juggling fine. The lady does some difficult juggling of parasols, plates and other objects. Mr. Huston is quite a comedian.

NORTH FORT WORTH AND ROSEN HEIGHTS

School trustees of North Fort Worth are now preparing an official manual of the schools of that city under the eleven-year course adopted by the board. The pamphlet, which will be the first one issued since the formation of the North Fort Worth Independent school system, will contain full information as to the courses of study, school faculty, school regulations and school accommodations. A picture of the new school building now in course of construction will be the frontispiece of the manual.

It is understood a large number of the manuals will be printed and given wide distribution in the city. It also contains advantages in North Fort Worth, which has a course far in advance of any other city of the same size in the state.

WEDDING

Robert H. Cunningham and Miss Alice A. Norton were married Sunday afternoon at the home of the bride's father in Ellis avenue, North Fort Worth, by Rev. J. P. Mussett. Mr. Cunningham will reside at 602 Fourteenth street, North Fort Worth.

NOTES

Dr. M. E. Gilmore has been appointed dean of the pharmaceutical department to be added to Fort Worth University. Services were held at Rose Holists M. E. church Sunday by Rev. George Nies. At a congregational meeting of the North Fort Worth Presbyterian church, Sunday, the resignation of Dr. A. M. McLaughlin, who has accepted a call of the Hillsboro, Texas, congregation, was received. Steps are already being taken to secure a new pastor.

TEAMSTERS MAY MOVE HEADQUARTERS

Local Delegate Leaves Tuesday Morning to Attend National Gathering in Philadelphia

Jack Thompson of this city will leave Tuesday morning for Philadelphia, where he will attend the national convention of Teamsters, an affiliate of the university. He will be accompanied on the trip by his family, who will visit his old home in Virginia, from which he moved to this state some years ago. They will be absent about three weeks.

At the coming convention, Mr. Thompson says, the question of a constitutional change so as to provide pro rata death benefits will be discussed. It also considered likely action will be taken re-establishing the general headquarters at Indianapolis. Delegate Thompson confidently predicts the re-election of President Shea.

Auditorium Notes

There has been a thunderclap in a clear sky in the Auditorium contest today and it is expected that there is going to be some very lively and interesting voting tonight. Miss Elmore, the local nominee, North Fort Worth's loyal nominee, makes a very surprising gain today of 4,000 votes and at 12 o'clock noon today she had 5,500 votes to her credit. The first relay in this great contest closes tonight at 6 o'clock. After that hour only five votes will be counted. As stated in yesterday's Telegram, Miss Elmore was the lucky nominee to win the tallyho party. She has invited quite a number of her friends and the party will leave on the ride tonight at 5 o'clock, starting from Covey & Martin's drug store. Miss Elmore worked very hard last week to secure this special prize and says that she is going to go after each one of the special prizes that are to be given away during this contest.

The Lake Erie Amusement Company has extended to the Auditorium committee the courtesy of its matinee on Tuesday, Thursdays and Saturdays and will donate the entire receipts to the Auditorium. Arrangements have been made with several ladies throughout the city to take charge on these days and tomorrow afternoon Mrs. H. Brain will be in charge. On Thursday afternoon the ladies from the Current Literature Club, Mrs. Sterling Clark, Mrs. Ray and Mrs. Campbell, on Saturday the Ladies' Wagoners' Council, Mrs. D. Brown, Mrs. L. Schultz and Mrs. L. Weltman. All these ladies trust that their friends will come out and see an excellent performance and by so doing contribute toward the building of this grand Auditorium for Fort Worth. The special prize to be given away this week will be a handsome leather-bound Bible, the largest and best of its kind, which she sells the largest number of coupons between now and 6 o'clock Saturday night.

PIKE EXTENSIONS BEING ARRANGED

New Water Lines to Be Run as Rapidly as Possible Where Feasible

J. F. Lehane, chairman of the water works committee of the city council, is today in conference with H. L. Calhoun, secretary of the water works, approving pipe extensions in different parts of the city, as passed by the council. Six extensions approved at the last meeting of the council will go on over this morning and work ordered. In regard to pipe extensions, Mr. Lehane said: "Now that the experimental wells and the conduit line are completed, the water works department will consider more promptly the matter of extending pipe to residents. Heretofore we have been too busy and at too great an expense to take much action in extending the system. From now on petitions of residents for water will be promptly acted upon. In all cases where the number of houses asking for water warrants the expense, we will take immediate action. We have the water and we want to sell it. Of course, where one lone resident asks the pipe extended for any great distance we find it too expensive and must wait until increase of houses in that vicinity warrants the expense."

EIGHT HOUR FIGHT IS PRECIPITATED

San Antonio Employers Serve Notice That Struggle Will Commence August 15

Word received in this city today from San Antonio shows that the eight-hour day campaign, as planned by the Typographical Union to be put in force all over the country Jan. 1, will be precipitated in San Antonio before that time, notice having been served upon the Typographical Union in that city by five shops that they will terminate the services of the union men Aug. 15. The movement is thought in labor circles in this city to be one with a view of crippling the union forces before the opening of the year, when the eight-hour campaign has been announced to begin. C. W. Woodman, organizer of the American Federation of Labor, and for many years a prominent worker in the Typographical Union of San Antonio. All city and county printing, he says, is required to bear the union label, while the support of the shops serving the notice has come largely from union sources. For this reason in all of a total of 100 men in the Typographical Union in that city will be affected. A nine-hour day is new in force in San Antonio.

MOTHER'S LETTER SECURES PAROLE

Fort Worth Boy Imprisoned During Colorado Strike Is Released by Governor

An echo of the bull pen days in Colorado during the strike in that state has been heard in this city, through the return here on parole of J. F. Helmer, an inmate of the Colorado State Penitentiary. Young Helmer, who was arrested with a large party of railroad men during those excited times, has returned to Colorado, but may come back to this city at the end of this month to remain permanently. Helmer was paroled June 1 and up to his departure for Fort Worth on the extended parole, lived in Denver, where he was at work. Julius F. Helmer, father of the boy, recently died in this city. After his death the mother appealed to Governor McDonald to release her son and wrote him several letters asking that the boy be permitted to come home to her assistance. In answer to Mrs. Helmer's letter, a parole was granted the boy.

BENNINGTON EXPLOSION SCENES

VIEW ON THE FORWARD DECK OF THE BENNINGTON.

James Curtis, the negro sailor, who went through the Maine horror unscathed, and whose good luck remained with him when the Bennington blew up. Curtis escaped without injury of any nature.

sition with headquarters at Trinidad, Col. He has held that place up to the present time. The advancement of his brother, Stephen, to the post of general superintendent of the Washash on the same date as his own promotion was announced, made an interesting coincidence. The fact that four brothers, William being at the head of the Pere Marquette system, and John a superintendent of the Southern, should all be given such responsible positions in the railway world, is unique. So far as is known, no similar case is on record. The coming of Mr. Carter to the Denver road will not likely be followed by any changes under him, according to the report made by Vice President and Traffic Manager Keeler.

NEW CONSTRUCTION PLAN

Orient Road Building Without Aid of Banks. A peculiar situation has developed in connection with the construction of the Kansas City, Mexico and Orient railroad from Kansas City through to the Mexican gulf. The road is being built through construction firms, and not by financial aid of banks, as is the usual method for such railroad construction. The line is being built in sections and is already in operation several hundred miles. Ralls has been bid from Topolobampo, on the gulf, eastward for about 150 miles, and westward from Chihuahua about 250 miles of road is in operation. Shortly after the line leaves the western coast of Mexico it stretches over one of the most fertile sections of the republic, then enters a very rich mining section. Progress is being made on all sections of the road, especially in this case in Texas, where many construction forces are now at work. Track laying is being pushed as fast as possible all along the line, and the belief is now that the road will be running through from Texas to Kansas City within the present year.

LOCAL PACKERS GET NEW RATE

Abolition of Discriminating Rates Benefits Industry in This City. Important action was taken by the general freight agents at the meeting held in Chicago last week, that will be of great interest to the Swift and Armour packing houses in Fort Worth. It was the adoption of a rate on soap shipments from this city to Utah common territory, a thing that has been prohibited heretofore because of the rates that have been effective to Missouri river points.

GEORGE GOULD'S PLAN

Transcontinental Line Arrangements Reported in Shape. From Denver comes a rumor to the effect that George J. Gould intends to build a new road that will give him a transcontinental line. This report is based on the fact that Mr. Gould has said that he will personally attend the coming meeting of the Denver and Rio Grande stockholders to be held in Denver in October.

IN THE COURTS

TRIED UNDER NEW LAW. Henry Cash pleaded guilty to a charge of carrying a pistol and was given a fine of \$100 and thirty days in the county jail. One hundred dollars is the lowest fine and thirty days the smallest jail penalty in pistol cases under the new law. This is the first case to come before the county court since the new law has been in force.

JULY DEATHS, MARRIAGES AND BIRTHS

The records of the county clerk show the following statistics: In July there were 45 marriages, 124 births and 32 deaths in Tarrant county that were reported. In June the figures are as follows: Marriages, 118; deaths, 40, and births, 90.

SUBSCRIPTIONS TO INTERURBAN MADE

Fund Has Now Reached \$9450. Meeting Held at Board of Trade Rooms

Up to date \$9,450 has been subscribed toward the Fort Worth-Mineral Wells interurban bonus, \$2,450 being received at a meeting of officers held at the rooms of the Board of Trade this morning. Among those who have contributed thus far are: Winfield Scott, \$1,000; Ed D. Farmer, \$1,000; Capps Land Company, \$1,000; George Reynolds, \$1,000; McComb Collins Company, \$1,000; Fakes & Co., \$1,000.

At the meeting were D. T. Bomar, Sam Davidson, J. E. Mitchell, Marion Sanson, Paul Waples, O. S. Kennedy, W. G. Newby, W. G. Turner, J. M. Burnside, John T. Honea, S. P. Clark, N. B. Yare, L. D. Cobb, George Reynolds, J. W. Spencer, Mr. McPadden, Mack Bergman, Noah Harding, Thorpe Andrews, Clarence Ousley and several others.

Addresses delivered. Speeches were made by several, among them Messrs. Padlock, Sanson, Clark, Ousley, Bailey and Kennedy, but the keynote was struck by Captain Padlock, who gave some facts with the bark on. He said that there should be more interest in this matter and unless Fort Worth people got a hustle on and keep Fort Worth growing as it is at the present time someone was going to lose money and big money on their investments. He said Fort Worth in 1931 had a population of 25,000. Now it is nearly 60,000. He said that for every \$1 put into the enterprise there would be returns of more than \$10. If Fort Worth would keep on growing something must be done to secure the Santa Fe railroad a considerably less time than it has taken to secure the small interurban bonus already pledged. At that time, he said, the population was only 6,000. Now it is nearly 60,000. He said that for every \$1 put into the enterprise there would be returns of more than \$10. If Fort Worth would keep on growing something must be done to secure the Santa Fe railroad a considerably less time than it has taken to secure the small interurban bonus already pledged.

Work in country. Captain Padlock stated that the outside country towns through which the line will pass have promised \$27,000, and says that this sum will eventually be augmented whenever it becomes necessary. Mineral Wells is expected to give from \$25,000 to \$25,000, and the remainder of the \$100,000 must be secured on the part of Fort Worth and contiguous territory. The amounts that will be contributed by persons outside of Fort Worth seem to be about the route chosen for the road will give \$1,000 if the line goes their way and \$100 if it does not. It was stated at the meeting by Marion Sanson, D. T. Bomar, J. E. Mitchell and Captain Padlock that the road would be built via North Fort Worth and Rose Heights that \$10,000, or possibly \$15,000, can be raised, but that it depends entirely on the route chosen for the road.

Similar statements were made by Mr. Kennedy and others, who say that they will donate to the bonus, but in limited sums unless the line passes through or near the property. The fact seems to be the trouble in securing subscriptions from the country sections. Whenever it has been announced where the road will be built there has been little trouble in getting the required bonus.

Senator J. W. Bailey urged that the committee go to work at once and raise the money. He was certain that it could be done by a little effort on the part of the committeemen. He said that he believed the pro rata could be secured in a canvass of not more than seven or eight hours.

Mr. Clark said that he would be willing to give \$1,000 if the road went through his property, as it was purely a business proposition with him. He said he would be willing to give the full amount if it did not pass his way, but of course the amount would not be as large.

Mr. Kennedy said that the people living on the south side of the river would possibly be just as liberal as those on the north side, but he was not in position to make a definite offer to the committee at this time. However, he said that at the right time he would be able to say just what would be done by his contingent on the south side of Trinity river.

The preamble at the head of the subscription sheets provides that the donations be paid as follows: One-quarter upon the completion of the grade, one-half the way to Mineral Wells, one-quarter upon the completion of the grade; one-quarter when the steel has been laid, and one-quarter when trains are in operation between Fort Worth and Mineral Wells.

BEAUTIFUL ARLINGTON HEIGHTS

Special to The Telegram. HOUSTON, Texas, July 31.—Ed Governor Hogg in an interview yesterday said he is not on his last legs by any means. He is going to Colorado to rest two months and then return to re-engage in the practice of law here.

CONSTIPATION is caused primarily by lack of certain elements in the food which tend to more or less imperfect digestion, and to make the liver sluggish and torpid. The bowels carry away and discharge the fecal matter—that is the refuse matter of the system. If the bowels are constipated, the fecal matter clogs and congests the natural passages, the poisonous excretions are retained in the body. They set back like into the system and carried all over the body in the blood. That's the reason your head aches, your tongue is coated, your mouth tastes like a garbage can, black specks float before your eyes, and you are generally unhappy. It's constipation poisoning.

CALIFORNIA PRUNE WAFERS are positively guaranteed to cure the most obstinate case of Constipation, Biliousness, Torpid Liver or Indigestion. 100 Wafers, 25 cents. H. T. Pangburn & Co., corner Ninth and Houston streets.

CARRIAGE SHOP IS ORGANIZED

Factory Club Secures Establishment of New Industry—Other Industries Being Sought. The Factory Club today reports that it has succeeded in landing another enterprise—an up-to-date repair and overhauling shop, which will do upholstering and repairing of carriages. The place is to be located on the court house square, and will give employment to ten or fifteen men at once.

The capital stock of the company will probably be about \$10,000. Those interested in the new company are principally local men. Thomas Meserole is at the head of the company. Secretary Hard Butler said today that he is in correspondence with several concerns, among them important factories, that desire to locate in Fort Worth. Among them are these: Two saddlery and harness firms, with capital stocks valued at \$10,000 and \$15,000.

A factory for the manufacture of machinery for boring lugs. A patent taker factory from South Carolina wants to locate here, where better railroad facilities can be secured. A factory for the making of lawn swings and step ladders, now located in Georgia, employing fifty hands. A Louisiana piano company asks for information regarding Fort Worth. A branch powder factory of Delaware wants to move to Fort Worth.

Special to The Telegram. AUSTIN, Texas, July 31.—Petitions for writs of injunction were filed today in the Twenty-sixth district court by five of the big oil companies operating in Texas against Comptroller Stephens, State Treasurer Robbins and Attorney General Davidson, to enjoin them from enforcing the collection of taxes under the Kennedy tax bill.

OIL COMPANIES TO FIGHT TAXES

Five Firms Secure Temporary Injunction Against Officials Enforcing the Law. The application for a temporary writ of injunction was made to Judge Brooks of the Twenty-sixth district court at a late hour Saturday night and was granted, but the petition was not filed until today. District Clerk Hart served writs of injunction today on the three state officials named, restraining them from enforcing the act. The petitions of the five companies are the same and allege that the law is unconstitutional. The five companies are the J. M. Guffy Petroleum Company, the Gulf Refining Company, the Sun Company, the Higgins Oil and Fuel Company, and the Sun Pipe Line Company.

OFF THEIR HIGH HORSE

Good tailoring is worth its reasonable cost. There must be no unnecessary waste on account of loss of time, extravagant purchase—loose credits—bad management and the like. When such tailoring as ours can be produced at the prices we name, the old line tailor must come down off his high horse and cut out either unfair profits or unwise expenses. We make no appeal for trade on account of CHEAPNESS—We earn business by our work and the fairness of our prices. Lots of summer weights on display.
