BEST IN NEW ORLEANS

No New Cases During the Past Twenty-four Hours in Originally Infected Area

FEVER RECORD TO NOON

New cases 7. Total to date 2,118. Deaths 5. To date 299.

NEW ORLEANS, La., Sept. 6.—With the exception of Lake Providence and Tallulah, near each other in North Louisiana, yellow fever reports, both from the city and country, appear of favorable character. Locally there are many evidences of the success of the mosquito theory, most conspicuous of which is the fact that in the list of new cases for the preceding twenty-four hours there is not a single one from the original area of infection, forty-four squares, in which the fever first appeared, though there are 100 non-immunes in the district.

The superhuman work in the matter of disinfection and eradication of mosquitoes has been done in this section, and while the infection has not been entirely wiped out the day's freedom from new cases indicates the disease has been shorn of much of its power.

The attempt to postpone moving day for a month has had the effect of making the year from Sept. 30 to Oct. 1.

A large majority of them had been signed and endless confusion and litigation would probably follow an attempt to prevent tenants from changing their abodes. However, it has been decided all tenants shall notify the authorities of their intention to move and steps will be taken for a thorough disinfection of all premises where there is a change of occupants. The state board of health is to send further relief to Tallulah and Lake Providence, where there has been a serious recrudescence of fever.

Dr. Tichenor has advised that female nurses are needed. Tents have reached Friday, La., for Lake Providence, but though they are needed badly, there is no train to take them into that town and Health Officer Bernard has asked President Satchler for help. The death of Secretary A. L. Lane of the Fifth district levee board of Tallulah of yellow fever has added to the alarm of that town.

No Fever on Grand Island. A denial is made here that there is a fever on Grand Island. The island is situated in the Gulf in Jefferson parish and is a popular summer resort. It is said that 200 people from Louisiana took refuge there during the infection, but Dr. Englebach has written that no refugees have appeared on the island.

One hundred and forty screened cars have been collected at Chalmette to handle the cargo of the United Fruit Company's steamer Limon from Port Limon, which is on her way up the river with bananas, the largest cargo ever brought to any American port.

AUSTIN, Texas, Sept. 6.—The effort of the railroad commission to have the charter of the Houston and Texas Central railway forfeited on the grounds that the stock of the road is owned by the Southern Pacific company, a foreign corporation, also because it is in violation of the state constitution, will be stubbornly contested in the courts, according to Judge H. M. Garwood of Houston, general attorney of the Houston and Texas Central railway, who is in the city.

SCRUBWOMAN GETS \$1 BY SUING RAILROAD

Corporation Wanted to Charge Her Fare for Riding While at Work

STROUDSBURG, Pa., Sept. 6.—Pennsylvania's most-talked-about case has been settled. Angeline Williams, the scrubwoman, has received her dollar, with interest. "Mitt" Yetter, president of the Delaware Valley Railway Company, however reluctantly, has parted with \$1.02—Angeline's claim.

Incidentally, Yetter has prevented the sale of his railway property by the sheriff to satisfy the amount of the claim. Angeline had a bill of \$1 against Yetter's corporation. She had worked hard for the money, having cleaned the windows of the Yetter cars. When she sought to collect the money Yetter objected to payment.

"Didn't you ride to Bushkill and back while you were working?" asked the railway magnate, bank president, manufacturer and president of the board of trustees of the Stroudsburg Normal School, "That I did," answered Angeline, explaining that while she was working the train moved on to the Stroudsburg terminal and returned before she had time to finish removing the dirt from the car windows.

"Well," replied Yetter, in an economical way, "the fare for the round trip to Bushkill is \$1 exactly, so we don't owe you anything."

Angeline couldn't see the thing in that way, and she entered suit before Daniel Stroh, justice of the peace. She heard the case, and then gravely announced that the opinion of the court was that Yetter's railway corporation owed the dollar, and he entered judgment.

That judgment failed to draw the dollar from Yetter. In fact, it was common report in the village that Yetter had said that he wouldn't pay the dollar to Angeline if a certain territory beyond the threat to sell rolling stock.

With a judgment in her favor, the scrubwoman proceeded. By request, the sheriff, William Evans, prepared a writ threatening to sell the Yetter rolling stock if necessary to satisfy the claim. Time for the sale had been set. Then Congressman Joseph H. Shull, as counsel, petitioned the common pleas court for a stay of the sale.

Argument had been set for today, and because of the excitement the case had aroused in Pike county, the court room was crowded. None dreamed that the case had been settled out of court until there was a formal announcement.

Counsel for both sides declined to talk, but it became known that the railway company, through counsel, had paid the \$1 to the scrubwoman Yetter had employed. Further, the costs in the case must be paid by the Yetter corporation. Will Blow it on Fair.

Angeline received her money this afternoon. "Of course, I'm glad to get it," she said, "but it's no more than my due."

Now, she declared, she would visit the county fair with "Mitt" Yetter's dollar.

G. A. R. VETERANS PARADE IN DENVER

Many, Weakened by Years, Are Unable to Continue Until End

DENVER, Colo., Sept. 6.—The main event of the Grand Army encampment, speaking from the viewpoint of the rank and file, was the grand parade which took place today. To the veterans which the privilege of again treading step with comrades of '61 was one for which no hardship seems too great to undergo, no ordeal too severe to undertake. Many marched two miles to the end and were exhausted when the end day was reached. Many others, weakened by age, fell out of line long before the journey was completed. The ovation given marchers was unstinted. The streets were packed with people and tents along the line of march swarmed with humanity. Cheering was continuous.

The forest fires east of here are destroying hundreds of acres of timber.

Demonstrations Occur in Leading Cities

POLICE CHECK CROWDS

Resignation of the Government Ministry Demanded—Newspaper Office Damaged

TOKIO, Sept. 5 (Delayed in transmission).—The first turbulence attendant on the popular anger over the terms of peace arranged with Russia took place today. A mass meeting of protest against the action of the government was called to take place in Hibya park but the metropolitan police closed the gates and attempted to prevent the assembly of the people. The municipality protested against the action of the police and a large crowd gathered and voted in favor of resolutions declaring the nation humiliated and denouncing the terms upon which the treaty of peace was arranged. The crowd was serious in its conduct rather than angry, and the police handled it discreetly. The gathering eventually dispersed in an orderly manner.

Later on, however, the crowd attempted to hold a meeting in the Shinjomi theater and the police dispersed it. A portion of the crowd then proceeded to the office of Kokumun Shinbun, the government organ, and began looting. Three employees of the paper were injured and a number of rioters declared the nation humiliated and denouncing the terms upon which the treaty of peace was arranged. The crowd was serious in its conduct rather than angry, and the police handled it discreetly. The gathering eventually dispersed in an orderly manner.

It was thought the trouble had passed when suddenly a portion of the crowd made rush into the building, hurled stones and damaged some of the machinery. Several persons were injured during the attack but the police eventually cleared the streets of the crowd and arrested a number of rioters. The disorder was not general and the situation was not serious.

Similar meetings have been held at Osaka and Nagoya, which in round terms denounced the government and asked the ministers to resign. General sentiment throughout seems in favor of reactionary measures, but it appears clear the majority of the people eventually will accept the result of the peace conference, however disappointing it may be.

Special to The Telegram. MUSKOGEE, I. T., Sept. 6.—One hundred and sixty delegates answered roll call when the constitutional convention assembled this morning and the reading of the constitution was begun. The work is progressing slowly and there is a lively discussion of many provisions. Letters and telegrams were read from a number of business men in all parts of the Territory, pleading support to the movement. One feature of the session was the reading of the song of the "Dying Indian Nations," dedicated to the convention. The words and music are by Mrs. M. Zoe Duckworth, an Indian woman, daughter of John Bullette, the Delaware Indian lawyer. The song is entitled "Wapona." The campaign committee selected an executive committee with C. N. Haskell as chairman and James G. Bennett secretary.

MEXICAN REPUBLIC REMOVES THE DUTY

Not Believed, However, That Increased Cattle Shipments Will Follow

ST. LOUIS, Mo., Sept. 6.—That there will be any increase in the number of live stock brought into Mexico when the duty on this class of imports is taken off entirely is not believed by M. L. McCullough of St. Louis, one of the largest importers of milch cows and breeding stock doing business in Mexico. Despite the duties of the past, Mr. McCullough says that those desiring to improve the breed of their stock or secure cows of greater milk-giving capacity have purchased freely of American stock and while the taking-off of the duties may stimulate importation for a time, it will not be so marked as to excite extraordinary efforts in that direction. Mr. McCullough is thoroughly conversant with cattle conditions in Mexico. He is now in the City of Mexico with several carloads of cows and while keenly interested in anything that may aid his business, he does not think that the duty question makes very much difference.

ATTORNEY CONFINED BY JUDGE MILAM

W. P. McLean Jr. Suffers Two Days' Sentence for Talk to the Court

On a charge of contempt, W. P. McLean, a Fort Worth attorney, was fined \$25 and sentenced to two days in the county jail, by County Attorney R. F. Milam Tuesday.

McLean went to jail where he probably will remain until tonight. According to a person who was in the court room at the time McLean was fined, the attorney was defending several persons who were charged with Sunday selling.

He was arguing his case when he is said to have made a statement that there was no justice in and that the cases were a farce.

Judge Milam promptly assessed a fine of \$25 against McLean, who ordered a deputy to collect the fine at once.

McLean is then said to have started toward the reading bench when he was intercepted by a bailiff.

McLean is also said to have used profane language, directed at Judge Milam. In addition to the fine of \$25 he was ordered to go to jail for two days.

PANHANDLE CALVES SHOW BETTER QUALITY Supply Also Larger Than Ordinary and Demand Is Active

AMARILLO, Texas, Sept. 6.-"Better calves and better grass I have never seen than in the Panhandle of Texas this year," said Judge O. H. Nelson, president of the Amarillo Stock Yards Company. "A few weeks ago I traversed most of the grass country in Texas and New Mexico, above the quarantine line, and everywhere found conditions superb. The country is long on grass and short on cattle-a most desirable condition. Panhandle calves are incomparably better than last year. They are thrifty and will make much better material for feeders' purposes. Last year, owing to drought many early calves died and others were stunted. This year the whole crop has been raised and calves average about twenty-five pounds heavier than last year. At weaning time they will average 250 to 400 pounds and will be rolling fat. More Panhandle calves have been dehorned this year than ever before.

"Popularity of Panhandle calves in eastern feed lots is developing rapidly. While a goodly portion of this year's crop will go into Kansas, Missouri and Nebraska, there will be a decided increase in the number sent to Iowa. East of the Mississippi river, Illinois, Indiana and Ohio will absorb the bulk, but we are highly gratified this year at receipt of orders from New York state and New Jersey, Kentucky, Virginia and Pennsylvania will also be good customers. The eastern demand for Panhandle feeders is developing by leaps and bounds. "It is somewhat early to talk prices. I believe trade will be on a basis of steady to strong compared with last year, when the bulk of calves, mostly at tops and tail ends, sold at \$15 to \$20 per head. Last fall I was quoted as saying that the light calves then selling at bargain prices were the most profitable although feeders looked askance at them. Here is a case in point. At Fort Madison, Iowa, I sold a feeder a bunch of calves 6 1/2 months old for \$18.50 and another bunch 3 months old at \$8.50. Despite the difference in price of \$10 a head he was reluctant to buy the small ones and only did so on my personal assurance that a year hence he would not be able to tell the two lots apart. A few days ago I called on him and he said: 'Nelson, I thought you were trying to impose on me with those cheap calves, but I can't distinguish between them and the high-priced lot now.' Three months' growth makes a big difference in the calf, but in the yearling it cannot be detected. Buyers, however, prefer to buy the big thrifty calves, even paying a stiff premium for them, but it will not be long before the value of the small lot is appreciated and they will cease to be the bargain they have been. "Our yearlings and 2-year-olds are in good shape and we have no surplus. The whole Panhandle country is fairly welling in prospect. The fall cattle and bounteous crops, a combination that cannot be beat."

ELKS PLAY BALL FOR BUILDING BENEFIT
Prancing Colts Haul Victory Away From Has Beens in the Seventh

Prancing Colts and Has Beens carried on Haines park diamond Tuesday afternoon, for baseball supremacy and shiekies wherewith to erect new quarters for the Elks.

The Elks were unable to even things up until the fourth, when a combination of passes, errors and Hyman's hit to center put things on edge.

The tie was short-lived, however, the Has Beens going them one better in the sixth on an error, a two-bagger and a single.

In the seventh the colts made their killing. Four hits and three errors were thrown together for a total of three runs with this one run margin, they dared the Has Beens to come any further, putting them out with but three men up in both the eighth and ninth.

## Auditorium Notes

"From and after this date, the standing of the young lady contestants will not be published and no information will be given out from Auditorium headquarters," said Secretary Brown Marwood yesterday. "My lips are sealed to the world as far as the standing of the contestants are concerned. Every contestant will have an equal showing and after the contest is over the winners will be announced in the papers Sunday, Sept. 16. The contest will close promptly at 5 o'clock Saturday, Sept. 9, and no votes will be counted after that hour. Votes handed in now will be counted just the same as if held until the last minute. Several young ladies have increased their standing since yesterday's report and from now until the contest closes, votes will be received up to 6 o'clock each day. "The committee having in charge the Maccabees entertainment for Friday night of this week report splendid encouragement today, several hundred tickets have been sold and three more days remain. The program committee, composed of the ladies of the Auditorium committee, will meet Wednesday morning at the Board of Trade rooms, when the program will be arranged. It is assured that this entertainment will be one of the best yet given by any lodge or secret order, as they have splendid aid from the Auditorium committee and the services of Fort Worth's most talented musicians and vocalists. "Thursday night Miss Bessie Elmore will give a grand ball at the Imperial hall for the benefit of the Auditorium fund and this will be the last entertain-

ment for Miss Elmore before the contest closes. "Miss Myrtle Frost will entertain her friends with a ball at the Imperial hall Friday night of this week for the benefit of the Auditorium fund and all who attend may expect the usual good time that is in store when Miss Frost entertains. "Quite a pleasant surprise was bestowed upon Miss Bessie Elmore last evening when her friends showered her with a box party at her home on Josephine street. Scores of friends were there and boxes were numerous. The boxes were sold to the highest bidder, and quite a snug sum was realized. The proceeds will help to lay the foundation of the Auditorium. ## BUILDING RACE

**Brazos Valley and Central Going Neck and Neck**  
 A railroad building race is on in dead earnest between the Trinity and Brazos Valley and the Houston and Texas Central in an effort to see which will build its line first into Navasota from Mexia. The two lines are within two miles of each other and the construction forces of each are pushing matters with vim. Construction crews began work at the same time and are, according to reports, neck-and-neck, three miles out of Mexia. The Trinity and Brazos Valley is headed for Houston and the Central for Navasota. The lines will parallel each other most of the way.  
 Orders to build the extensions as rapidly as possible have been given by the management of the Houston and Texas Central men are being put to work on the construction by both lines.

## ORIENT PROGRESS

**Fifty Miles Were Added to the Service Sept. 1**  
 Some fifty miles of the Orient road on the eastern extension from Chihuahua was formally put into service Sept. 1. The dedication took the form of a barbecue, at which the governor and other officials of the state of Chihuahua and about 150 invited guests were present. Grading is going on both east and west.

## SALE DENIED

**Report that Hettie Green Owns Dallas-Sabine Line Not Believed**  
 For some days there has been an unconfirmed rumor to the effect that Hettie Green, mother of E. H. B. food, owner of the Texas Midland, had bought the Dallas-Sabine division of the Texas and New Orleans. The report lacks confirmation and it is not believed here in railroad circles that the division has been sold.

## NO DIFFERENCE

**Old People Just as Happy as Young**  
 Age cannot wither nor custom stale the infinite variety of life. It was one of the great sayings of the great English philosopher, and it is well illustrated every day there seems as much simple happiness when one is old as when young, but bounding health of the youthful and right food produces that.  
 A happy woman of 77 tells her experience:  
 "For three years," she says, "I was greatly troubled with a nervous affliction of the stomach, which at last brought me to such a condition that I could neither eat nor sleep with any sort of comfort. I grew very despondent and felt that my hold on life was very uncertain. It was difficult for me to find food that I could digest. My doctor kept me on a diet of rice for a long time, but it did not seem to give me any strength. At last I decided to try Grape-Nuts food, for it has done a wonderful work for me. Before I had used up the first package, I began to take a new interest in life and my strength returned. My stomach has regained its normal tone and in the two years that I have had a sick day. I am 77 years old and Grape-Nuts has restored to me the pleasure of living. I am sorry I did not begin sooner to use it. I cannot praise it too highly."  
 Name given by Postum Co., Battle Creek, Mich.  
 There's a reason.  
 A 10 days trial is sufficient.

## JONES CONFIRMS WICHITA REPORTS

### Extension of Texas Line as Officially Outlined

As has been repeatedly stated in The Telegram, the Wichita Valley railroad, in which Morgan Jones, Colonel Dodge and several Fort Worth persons are interested, and which now runs from Seymour to Wichita Falls, is to be extended. The extension will be north from Wichita Falls and south from Seymour to Stamford and thence in connection with the Texas and Pacific at Abilene. This fact is at last confirmed by Colonel Jones, who has just returned to the city from Stamford.

Accompanied by D. T. Bomar of this city, Colonel Jones conferred with citizens of Stamford in regard to the extension to that place this week, and the announcement is made that a contract is closed to build the line from Seymour to Stamford.

When the road has reached Stamford steps will be taken to push it on to Abilene. Beyond this place the destination cannot be learned.

Colonel Jones some months ago began an extension of his road north from Wichita Falls into the Oklahoma country. The extension was completed to a point near Red River and stopped temporarily. It is understood here, however, that the line will eventually be pushed on to a possible connection with the Missouri Pacific system in Oklahoma. The main object of reaching Northern Oklahoma is that the Wichita Valley may get cheap coal for fuel, not only for its own line, but for the Fort Worth and Denver City, for which it is a feeder.

Very little of the plans of these extensions north and south are given out by Colonel Jones.

## ARE SHIPPERS SATISFIED?

**Santa Fe Reports Show Them Against Increased Regulation**  
 Texas shippers do not want increased interstate commission powers if the report given out by railroad men is correct. Vice President E. A. Kenna of the Santa Fe system, at a caucus of states and territories with a view to ascertaining the sentiment of shippers and principal business men toward the proposed legislation giving to the interstate commerce commission the power to regulate rates, the canvass has not yet been completed, but the letters already received show some surprising results.

It is announced fully 70 per cent of the replies are not in favor of extending the commission's powers over freight rates. "The question put to the shipper in every county is: Do you favor giving the interstate commerce commission the absolute power to fix all interstate rates, and to establish the relation of rates between all localities?"

The circulars were sent to the Santa Fe agents in every town and city with instructions to make a thorough canvass. Results of the canvass thus far are shown in the following list: Arizona, 55 per cent for and 45 against; California, 39 for and 61 against; Colorado, 27 for and 73 against; Illinois, 45 for and 55 against; Indian Territory, 31 for and 69 against; Iowa, 56 for and 44 against; Kansas, 27 for and 73 against; Missouri, 23 for and 67 against; New Mexico, 46 for and 54 against; Oklahoma, 29 for and 71 against; Texas, 29 for and 71 against.

In the states where the greater number of shippers have been interviewed the percentage against legislation of the character proposed is great. Texas and Kansas are striking examples of this.

## SINGLE PASS LINES

Two Companies to Unite in Crossing the Mountains  
 It is believed by railroad men that Colonel W. C. Greene of the Sierra Madre and C. L. Greaves, general manager of the Chihuahua and Pacific, will join interests and build a road through the Sierra Madre mountains. These two are now holding a conference in Mexico regarding the matter. It is well known that both roads contemplate building through these mountains and the two managements have come to the conclusion that co-operation would be the better plan. This idea has been recently suggested by Governor E. C. Creel, who is vice president of the Chihuahua and Pacific.

## CITY HALL CHANGES

**Plans for Transfer of Calaboose Begun This Morning**  
 City Engineer Hawley, Chairman J. F. Iden, and a committee of police and city works, made an inspection of city hall this morning preparatory to beginning work upon the changes authorized at the last meeting of council. Work will be begun within a few days.  
 Under the resolution it is proposed to move permanent calaboose quarters to some place without the business limits of the city. Suggestion that this be at the old waterworks is meeting with opposition on the ground that it would be an unhealthy part of the city in which to place long time prisoners.  
 Changes are expected to cost between \$3,000 and \$4,000.  
 Hollister's Rocky Mountain Tea never fails to tone the stomach, regulate the kidneys, stimulate the liver and cleanse the blood. A great tonic and muscle producing remedy. 25 cents, Tea or Tablets, J. P. Brashear.

## OLD PEOPLE AND THEIR TROUBLES

Old People have more of the pains, aches and discomforts of life than do the young. This is perfectly natural, because their blood is not so vigorous, nor their powers of resistance so great, and troubles that a younger, healthy constitution could resist often afflict them.

During the civil war I contracted Gastritis and suffered with its effects for many years. I tried various remedies and doctors. It is made entirely from roots, herbs and barks, and does not injure the system in the least as do those medicines containing mineral ingredients. S. S. S. is gentle in its action, purifying the blood of all poisons and relieving old age of its discomforts by supplying a robust, healthy constitution. It is the greatest of all tonics for increasing the appetite, toning up the stomach, promoting the digestion and building up the entire system.

Correspondence Received Here Upholds Telegram Reports

Replies received by A. P. Foute of this city to inquiries sent to a hundred correspondents confirm the reports of cotton deterioration as given in The Telegram.

Questions sent out by Mr. Foute were: "What is the acreage of the cotton crop as compared with last year? What is the condition of the crop at this time as compared with the same time last year? Has there been any damage to the crop in the past thirty days? If so, from what cause? What is the extent of the damage? How do you estimate the yield per acre in your section? What is the outlook for trade and collections this fall?"

The replies received indicate that the acreage was reduced fully 15 per cent. The condition of the crop as compared with this time last year was 21.102 per cent less favorable. The damage to the crop within the last thirty days was 28.3-4 per cent. The average yield is one-fourth bale to the acre.

Territory covered by the correspondence extended from this city to Big Springs, northwest to Amarillo, north into Oklahoma and Indian Territory and south to Waco.

**OYSTERS BEGIN WINTER REIGN**

With the advent of the R in the calendar, the succulent oyster, which bashfully retires from menus until the eighteenth letter appears in the spelling of the month, has resumed its culinary domination in the daily life of hundreds of restaurant boarders.

Since May the docile bivalve has been in semi-repose. Stew, fry and pate have been foregone by epicures in favor of watermelon and green corn. In only a few haunts was demanded the delectable dish of golden-brown fries that will now abound into popularity.

In this process of the "midday quick" the cry of a "half fried," punctuated with a few "small fets" and "dry boxes," will once more resound. In the more dignified restaurants, chefs are already consulting their Amblyone Bellat, searching for new and wondrous ways of serving the Berkeley Bay and Galveston product.

Dealers report the supply this fall to be unusually good, large, fine oysters being the rule. They are selling at ten cent a dozen with a good demand reported since the beginning of the month.

**MAN ABOUT TOWN**

"It is a strange, but not a new thing," said L. M. Mitchell at the Union Station cigar stand Tuesday night, "that people coming from year to year to call at my stand and request me to 'take care' of their personal property for some indefinite length of time.

"If you'll stay here and watch them, you will see that there is at least a half dozen every fifteen minutes, all with bundles of clothing, grips, packages of confectioneries, ladies hat boxes and in fact, once in every great while there will appear a female traveler who has the nerve to want me to 'look after' the little boy for a few minutes." I invariably direct the ones with bundles to go to the baggage room. It costs ten cents to check a package in there and I wouldn't be bothered with handling the stuff for the worry there is in it, and, besides, I haven't space here.

"What about caring for a baby?"

"I tell them with a friendly, knowing smile to telephone 382. I have troubles of my own and don't care to start an orphan's home."

**TREASURER ROBBINS ISSUES STATEMENT**

Special to The Telegram.

AUSTIN, Texas, Sept. 6.—State Treasurer Robbins today gave out a lengthy statement regarding the letter of Land Commissioner Terrell, in which Terrell claims that there has been some wrongdoing in the treasury department on re-bates of land leases. Treasurer Robbins goes over the ground thoroughly and exhaustively and reproduces the letters of the clerk who is charged with having collected a commission from a land owner for collecting rebates, due him by the state. The record shows that the offending clerk had collected \$159.93 and remitted \$106.15, and kept \$53.93 as his commission, according to Robbins' statement. This is what caused the trouble. An attorney in this city took the matter up with the result that the clerk remitted the balance of \$53.93 and regretted that the matter had come up. State Treasurer Robbins says as soon as his attention was called to the matter, he dismissed the offending clerk. Robbins then proceeds to pay his respects to the land commissioner. Robbins continues: "This is the first time of this kind within my knowledge that has ever occurred within the treasury department since I took charge of the same, and I will further add that there has never been a complaint made to me by an owner of a single rebate claim since I have been your state treasurer."
