

THE DAYLIGHT STORE! FRIDAY BARGAINS!

Feather Pillows 39c

On Sale Friday Morning—See Window Display

Four weeks ago last Tuesday morning a salesman from Chicago, representing a large Feather Pillow house, called upon our buyer of that line. This salesman claimed he could furnish us a better pillow than our XX Daylight Pillow at a much lower price. To make a long story short, the pillows were ordered from him, shipped, received here, and opened. When they were opened and compared with our XX Pillow, that we have been selling for years at 98c apiece, we found that our buyer had fallen by the wayside, and there were only two things to do—either ship them back, at a big expense to this house, or close them out. That's what we have decided to do—to close them out just as soon as possible. Friday morning we will place on sale this shipment of 200 pillows at—

This morning we will place on sale 1,900 yards of Flannelette, in neat and pretty designs and patterns. This Flannelette is now on display in Houston street window and is worth 50 per cent more. Friday's price—

Friday Bargains

Women's Newest Fall Suit \$8.98

Friday morning early we will place on sale 50 new Fall Suits, made of mannish cloth, in gray and black mixtures. Some six weeks ago we had an opportunity of buying this cloth from an eastern mill at a price that we could afford to have them made up into suits under our own specifications. This we did do, and early Friday morning we will place the suits on sale. They are worth \$15.00 of anyone's money in the city. The coats of these suits are made in the latest box style coat, with full sleeve and fancy trimmed cuff. The skirt is a full plaited one, trimmed with braid to match. All sizes.

Choice Friday \$8.98

FAIR AND WARMER WEATHER PREDICTED

Fall Conditions, However, Spreading Over the Country and High Temperatures Believed Over

Frost is gradually appearing through the country, moving from the Pacific coast toward the south and east. The area of high barometer through the Gulf region would appear to be an indication that the backbone of summer was finally broken Wednesday night and that frost may be looked for as a general condition in this country in the next few weeks. Light frost has already been reported at various places in Texas, Indian and Oklahoma Territories, Arkansas, Tennessee and Southern Illinois.

The temperature at New Orleans for the 24 hours ending at 8 o'clock this morning ranged from 53 to 68 and the wind velocity was 10 miles an hour this morning. Temperatures through Louisiana have been gradually decreasing for the past fifteen days.

Phoenix, Ariz., was the sole occupant Wednesday of the 90 column in maximum temperatures as reported to the local station of the weather bureau. The range at the desert capital was from 34 to 92 degrees, weather fair.

A remarkable range in temperature was noted at Denver, the Rocky mountain metropolis showing from 30 to 70 degrees during the day and the wind there this morning having a velocity of only 10 miles an hour.

Official statement of weather conditions reported are as follows: "The high barometer area, prevailing throughout the country for the past three days, is slowly moving eastward."

FITS MANY

To Leave Off Coffee and Use Postum
Postum Coffee shows its great nourishing power in many ways. It is better in flavor than the other coffee and is far superior in nutritive qualities, supplying just what the child most needs, as no other food can do. Name given by Postum Co., Battle Creek, Mich.
There is a reason explained in the quaint little book "The Road to Wellville," in each package.

being centered over the west gulf region this morning. As a result of this high area killing frost occurred over Iowa, upper Michigan and in portions of the lower Missouri. Light frost has been general in the upper Mississippi valley, and throughout the Missouri valley, also in Northern Arkansas and Tennessee. Heavy frost occurred at Memphis, Knoxville and Chicago.

An area of low barometer is passing over the New England states, causing rains in Pennsylvania and New York yesterday and last night, accompanied by high winds.

"The cotton belt is clear, and without precipitation."
Texas reports frost of light nature at Dallas and Nacodoches.

Forecast until 7 p. m. Friday for Fort Worth and vicinity, issued at New Orleans, Thursday, is:
"Fast, Texas—Tonight, fair; warmer Friday, fair."

WORKING ON TRACK

Grading Begun at Fort Worth Driving Club Grounds

Work of grading the track of the Fort Worth Driving Club was begun Wednesday at the grounds west of the city. The work is being done under the supervision of Judge Dill of Sherman, who had charge of the building of the track at Denison and other points in Texas. He is considered an expert in racing and race track construction and no fear is expressed that his directions, if carried out as indicated, will result in the track being an ideal one by Thanksgiving, at which time it is stated the club will have matinee races, together with other features of general interest to all lovers of horse flesh.

FORMAL ACCEPTANCE FROM DR. FIELDER

Board of Trustees of Fort Worth University Receives Letter From Newly Elected President

Formal letter of acceptance of the presidency of Fort Worth University by Rev. Dr. William Fielder, presiding elder of the Minneapolis district of the Northern Minnesota conference of the Methodist Episcopal church, has reached this city.

It is learned that Dr. Fielder, after accepting the presidency of the university, had an offer of \$2,000 per annum and all expenses in connection with an undertaking that is fostered by his home conference, which is said to have for its object the establishment of an endowment fund for superannuated ministers of the church in the amount of \$100,000, to be used toward the support of the superannuated, their families, widows and orphans.

WEDDINGS

McLEAN-COGDELL
The wedding of Jefferson Davis McLean of Fort Worth and Miss Lena Cogdell of Granbury was celebrated at Granbury Wednesday night at 6:30 o'clock at the residence of Dan Cogdell, father of the bride. Miss House of St. Louis and Miss Shukert of Kansas City attended the bride. Attendants of the bridegroom were Dr. John

H. McLean, Charles Pain and W. H. Slay.
Among those who went down from Fort Worth were R. L. Rogers, Walter R. Scott and Mrs. Walter R. Scott, Captain M. B. Loyd, U. M. Simon, James W. Swaine, Judge R. F. Millam, John L. Terrell and Mrs. John L. Terrell, Judge Connor of the court of civil appeals, Colonel E. W. Taylor, Max K. Mayer, American Johnson, Marshall Spoons, Mrs. Cook, Miss Margaret McLean, Mrs. Hunter P. Wilson, Mrs. W. T. Scott, Mrs. Loyd Pollock, Miss Cotter, W. P. McLean Jr. and Mrs. W. P. McLean Jr., Mr. McCollum and Mrs. McCollum.

They returned on a special car, but came a few minutes too late for the Denver train.

Mr. and Mrs. McLean went to Dallas Wednesday night, and came to Fort Worth this morning, catching a Denver train for the north. The bride wore a traveling suit of green with hat of same color, trimmed in ermine, following the ceremony.

Numerous marriage licenses were a feature of the occasion, the clerks from all surrounding counties sending one each.

PAVING CLUBS TO SECURE SIDEWALKS

Plan Suggested to Secure the Paving of Suitable Sidewalks in City

Paving clubs have been suggested as a means of securing suitable sidewalks throughout the city.

The movement for an increased number of sidewalks in all parts of the city is being taken up with great vigor by the citizens. It being the general impression that nothing is needed but an active campaign by the citizens in each block to secure the co-operation of their neighbors in having their squares suitably paved.

COMMUNICATION FROM R. A. ANDERSON

Offer to Refund Money if Hyomel Does Not Cure Catarrh

I have been asked recently if the advertisements printed in your columns regarding Hyomel were true, where I offer to refund the money if this treatment does not cure catarrh. I wish you would please print this letter in as conspicuous a place as possible in your paper, saying that we absolutely agree to refund the money to any purchaser of a Hyomel outfit if it does not cure catarrh.

This outfit consists of an inhaler of a convenient size to be carried in the best pocket so that the user can breathe Hyomel four or five times daily. With this is included a medicine dropper and a bottle of Hyomel. The outfit sells for \$1.00 and is a most economical treatment for the inhaler lasts a lifetime and there is enough Hyomel for several weeks' use, while extra bottles can be obtained for 50 cents.

WOULD STOP SALE OF SECOND HAND BOOKS

Fort Worth Dealers Handling School Supplies Asked to Sign Unusual Contract

Development of the fact that a publishing company furnishing certain of the textbooks used in the city schools has a contract form sent to dealers for their signatures, prohibiting the handling of the books at second-hand has led to an investigation of the matter by school authorities.

Professor Alex Herz, superintendent of the city schools this morning made an investigation of the matter among local dealers and later announced that he would take the book to the publisher, the agency of the company in Dallas.

One dealer in town handling both new and second-hand copies of the book admitted today that he was doing it as a matter of course.

Articles of the contract, furnished by the publishing company, which refer to the sale of second-hand books, are as follows:

"The merchant further covenants and agrees that he will not buy, sell, or offer for sale any person except the Publishing Company, without special permission from the Publishing Company, and that he will not sell, supply and furnish the book to any other person, firm or company outside the state of Texas, under any circumstances, and that he will not sell said book to any person, firm or company within the state except at the retail contract price herein specified.

"The merchant further agrees that he will not keep in stock, sell or offer for sale any edition whatever of the above-named book except the Texas state contract edition, to be supplied to him by the Publishing Company exclusively, and that he will not keep in stock, sell or offer for sale second-hand copies of the above-named book.

"It is mutually covenanted and agreed that this contract shall continue for the term of five years, for which the addition is made, provided the merchant shall continue and remain in business for that length of time."

Auditorium Notes

A meeting of the auditorium building committee was held in the Board of Trade rooms this morning, being presided over by W. G. Turner. The meeting was the most lively and successful one that has any held since the beginning of the movement.

Routine matters were taken up and reports of committees heard.

The auditing committee suggests that a graceful way in which merchants, professional men and citizens generally can return courtesies and show their appreciation to their friends is to send them complimentary tickets to the auditorium circus.

GOOD FOREIGN TRADE FOR TEXAS MILLERS

Additional Shipments to Be Made to Cuba by Fort Worth Firm

Foreign demand for Texas flour is increasing and during the past few months several large consignments have been made by Texas millers to Cuban ports, the latest being that of the Burrus Mill and Elevator Company of Fort Worth. This company two weeks ago shipped out of this city a trailload of nine cars of "Upper Crust" flour to Havana, Cuba, via the international and Great Northern. The flour went to Galveston and from that port was loaded on a steamer of the Commercial Union Navigation Company. This consignment is due to reach Havana today. There were over 3,000 barrels of flour in the shipment.

MAGAZINES

FASHIONS IN PARIS
"While there are no radical changes in the general aspect of the newest model gowns, certain minor points appear to be strongly emphasized," writes Edmond La Fontaine in the November Delmonaco.

"The sleeves, both in gowns and in coats, continue full at the top, but are considerably less conspicuous than they have been. They now taper gracefully downward and show a closely fitting lower arm, snug at the wrist-line. Long gloves remain correct, and meet cuffs flaring upward from the elbow. The sleeves of the new coats, which are necessarily larger than those of coats and waists, in order to accommodate the elaborate sleeves worn beneath, are finished by a cuff smaller than the sleeve itself.

"A new velvet has appeared, thin and supple, and furrowed in different widths, after the manner of corduroy. The dressmaker garments show masses of this material, also fine lace and hand-embroidered. The skirts are wider than ever. Another old-time effect is seen in the skirts in which lines of trimming are arranged to simulate an overskirt.

"The bolero shows no sign of waning, so great is its popularity. The correct thing in fur is to have them as near as possible to their natural color."

WHERE DIRT MEANS DISASTER

Some of the preparations are necessary to the perfect completion of a great lens may be gained from the following statement made by John L. Gowenlock in his article "Four Years Work on One Lens" in the November Technical World Magazine.

"For the larger lenses, the polishing and correcting are done on massive machinery, in an apartment where the temperature is kept absolutely constant. The windows are never opened here, which a lens is in process of manufacture, as a stray particle of dirt from the outside world might work irreparable havoc, and the workman and the precious piece of glass in his hands are protected by a huge umbrella of other non-porous cover, free from dust particles that might fall from the ceiling. This extreme caution is none too great, as the optician must now deal with errors not greater than the hundred thousandth part of an inch.

"The November Anshel's contains some very striking short stories. "In the Garage," by Robert E. MacAlarney, is an automobile story distinctly novel in both theme and treatment. "The Journalist," by Joseph Blodden, deals with the noble red man as he is today, and is also very original. "The Second Best," Eleanor A. Hollowell handles a cliff out subject very ably. Joseph C. Lincoln, who is doing for Cape Cod folk what W. W. Jacobs is doing for the English peasantry, has a delightful story, entitled "The Native Healer." There are half a dozen other short stories, a fascinating complete novel, two brilliant essays and some excellent poetry in this splendid number. The cover design is by C. Allan Gilbert.

"The Popular Magazine for November contains two novelettes, both of which are uncommonly good stories, though they

BUT FEW ARRESTS MADE CIRCUS DAY

Chief of Police Declares New Record Was Established in Orderliness and Absence of Clatters

What is declared to be the record for the largest cities of Texas was completed

by the Fort Worth police department at 3:50 o'clock this morning with an arrest for some minor charge of a white man.

The Barnum & Bailey circus arrived between midnight Tuesday and 5 o'clock Wednesday morning, the first arrest made shortly after the arrival of the show, being at 9 o'clock Wednesday morning and followed by six arrests on minor charges for the entire twenty-four hours that the circus remained in the city.

"The crowds of yesterday were the most orderly I have seen in Fort Worth for years," said J. H. Maddox, chief of police, this morning. "Of the thousands of people that visited the show at the different performances there was not even an outbreak to disturb the large attendance of women and children present.

"In addition to the six extra plain clothes men used both at the circus grounds and about the city, there were at the circus grounds four policemen in uniform, whose duty was to watch every person whose actions were in the least suspicious, and I am glad to say that not an arrest was made at the grounds.

"In former years there have been more or less complaints of grafters around shows, but the Barnum & Bailey management has solved that problem by placing honest and efficient men in all positions, the result being that not a person complained yesterday of 'short change' or 'sudden disappearance.' I am glad that the show was conducted on a straight-forward basis and that the people who came to be amused and instructed behaved themselves in a manner that is a credit to Fort Worth and the state of Texas."

Come Up Where You Belong

Perhaps you know why you fail in the plans for money, fame and position. Some don't.

Just why the brain does not produce practical money making results is a puzzle to many men.

Strong, healthy, natural brains cannot be made from the food most men eat, and good brains can't work sharp when sluggish by coffee.

Unsuccessful brains come from improperly selected food and from coffee drinking.

Coffee affects the stomach and nerves, thence the brain and prevents proper digestion of even good food.

A distinct improvement in mental power will follow in a week or ten days after coffee is left off and Postum taken on.

The results are multiplied when the brain-building food, Grape-Nuts, is used twice a day.

There are well established and very clearly understood reasons for these sure results from the change in food and drink. You can make Money, Position, Fame if you have the kind of Brain that works that way.

Postum well boiled produces a delicious beverage, satisfying and nourishing.

Quit drugging and poor food and Come Up Where You Belong.

QUAINT ROMANCE OF BEEF BARONY

Of all the beef barons the Armour's have been most continuously before the public, partly because of P. D. Armour's personality and his tendency to epigram, but mainly because of his tremendously daring operations.

Now, Gustavus Swift was a quiet man, outside his business, austere, almost painfully so, in his practice of religion according to the Methodist way, and his accession of wealth made no appreciable difference in his ways of living nor in his social ambition.

There never was a good reason why the Swifts shouldn't be taken in. They had the money to support the social state, and while the family of Swift, the father of E. C., had never been in society, its lineage dated away back to colonial times.

After Miss Swift's education had been finished it was in order for her to spend some time abroad, which she did in the company of her mother.

Miss Reed is a person of some note in her own way. It was she who made Anna Gould and the Count Boni de Castellane known to each other.

Exactly what passed between E. C. Swift and the man who wanted to be his son-in-law the outside world does not know and has no means of finding out, but Alexis came to America the next summer and was lavishly entertained at the Swift summer home near Boston.

SAVED HIS LIFE

J. W. Davenport, Wingo, Ky., writes June 14, 1902: "I want to tell you I believe Ballard's Snow Liniment saved my life. I was under the treatment of two doctors, and they told me one of my lungs was entirely gone, and the other badly affected. I also had a lump on my side. I don't think that I could have lived over two months longer. I was induced by a friend to try Ballard's Snow Liniment. The first application gave me great relief; two fifty-cent bottles cured me sound and well."

It is a wonderful medicine and I recommend it to suffering humanity. Sold by Covey & Martin, 519 Main street, opposite Hotel Worth.

An Old and Well-tried Remedy

COLLAPSE OF FEVER NOT FAR DISTANT

Visit of Frost Heralded with Joy in States Endangered by Disease

NEW ORLEANS, Oct. 12.—Still colder weather, the mercury going to 58 at New Orleans and under forty in many other parts of the state, with frost in the middle section of the state today, increased the probability of the early extinction of yellow fever throughout Louisiana and Mississippi, the two states which have been infected since August last. In both states the conditions are considered to be bright and with fear practically past and the people generally ardently hied of the restrictions put upon travel. It is anticipated that the era of the quarantine will soon be over.

Except from Cheniere Caminada on the gulf coast in Jefferson parish, where because there has been an actual fight against it, the fever continues to spread, all reports today from the state are of the most hopeful character. There has not been a case at Mobile for several weeks.

Reports are returning to town and for the opening of business. Only fifteen cases remain at Kennon hospital which serves a wide territory. Boston Ingle announces that it is free of the fever. Only a few cases are left in Terrebonne parish, which declares that the quarantine will be raised on the 15th. Patterson's record is only two cases and no deaths, and is the best for several weeks.

In New Orleans the report for the preceding 24 hours is considered by the marine hospital authorities to be the best since July. There is but a single new focus developed, while new cases are fewer than for any time in two months and a half and deaths are low. The number under treatment, 173, was the lowest to date. A complete collapse of the fever is not far distant.

The announcement coming from Washington that because of the fear of trouble over the quarantine, the armored cruiser West Virginia may not come to New Orleans, but the President will be taken to the vessel in the Gulf on a light-house tender, created some surprise here.

The fact that Virginian ports are raising quarantines and no longer require health certificates, removes any difficulty the cruiser might have in returning north from New Orleans.

LOUISVILLE RAISING FUNDS

LOUISVILLE, Ky., Oct. 12.—In response to a telegram from President Miller of the Natchez Miss., relief committee of the Louisville board of trade, began a canvass of the business district of this city for funds to aid the yellow fever sufferers at Natchez.

President Miller's telegram read: "The poor people of Natchez, who could not get away and are without work, are in dire distress. We appealed for assistance. Can your exchange help us?"

Don't let the children suffer. If they are fretful, peevish and cross, give them Hollister's Rocky Mountain Tea. The best baby tonic known. Strength and health follow its use. 25 cents. J. P. Brashers.

NEWS OF CURE CAUSES SENSATION

Dispatch Confirms Story of Collin County Banker's Case

J. Austin Larson, whose claim to greatness lies in a remarkable pair of hands, came in this morning from Waco, where he has been having offices. Newspapers all over Texas have been full of his work for the past four months, and many remarkable incidents are told relating to his healing power.

He will make offices at the Delaware hotel on Thursdays, Fridays and Saturdays of each week.

The following dispatch to The Telegram is a fair sample of what the paper over the state are saying about him:

Special to The Telegram.

WACO, Texas, Oct. 11.—The confirmatory telegram in The Times-Herald received and printed in last night's paper relative to the cure of Judge T. C. Goodner, vice president of the Collin County National bank, created quite a sensation in the city.

J. Austin Larson's work has been the subject of much comment today on the streets, in the business houses and in the homes.

The Times-Herald has no hesitancy in recommending the doctor and his work. We made an investigation which was entirely satisfactory before accepting advertising matter from his business manager.

We are thoroughly convinced that his work can be confirmed and his reputation for reliability established in any city he has practiced.

Talk to the man and you can't help being convinced that there is something extraordinary in his make-up. What it is we cannot explain, but it's there. It permeates his whole being, manifests itself in his hands and sparkles from his kindly blue eyes.

This is an interesting personality which will win him his way wherever he goes. The Hotel Royal was crowded with people today seeking his aid, but tomorrow will be taken to the vessel in the Gulf on a light-house tender, created some surprise here.

The fact that Virginian ports are raising quarantines and no longer require health certificates, removes any difficulty the cruiser might have in returning north from New Orleans.

State Convention in Turkey State Finds Democratic State Chinked Up to Minute

PROVIDENCE, R. I., Oct. 12.—With no important contests for nominations and little difference of opinion as to the platform to be adopted, the democratic state convention of this city opened today with every promise of harmony. The plank in the platform upon which the chief emphasis is to be laid is expected to be the declaration in favor of the reappointment of legislative representation. It is anticipated that Lucius F. C. Garvin, governor for two terms up to last January, will be nominated for that office again today by acclamation. For lieutenant governor the nominee seems likely to either be J. Clark Tucker of Narragansett or Colonel Patrick Hayes of Pawtucket. Other nominations are expected to be: For secretary of state, Frank E. Fitzsimmons of Lincoln; for general treasurer, Albert H. Olne of Providence; for attorney general, Thomas A. Carroll of Providence.

Building Permits

Building permits have been issued from the office of the city engineer as follows: George C. Clark, one-story, six-room frame dwelling, lots 6 and 7, block J, Bellevue Hill addition, \$2,000.

Mrs. John G. Harris, two-story, six-room frame dwelling, lot 29, block 3, Fields-Wech addition, \$1,500.

Circulars Attacking Revival Leader Striven Over Beaumont

BEAUMONT, Texas, Oct. 12.—Anonymous circulars attacking Rev. R. Ham of Bowling Green, Ky., were strewn over the city last night. The Rev. Ham is conducting revival services in the Baptist church of this city. He says the circulars are distributed wherever he goes and the responsibility is placed upon the liquor dealers' league of Kentucky. The circulars have caused a small sensation here.

MEETS BAD ACCIDENT

Jumps From Motor Car on Approach of Engine

BEAUMONT, Texas, Oct. 12.—While driving on a motor car near Ford's bluff yesterday S. A. McNeely, manager of the tie department of the Kirby Lumber Company, met with an accident in which it is reported that his arm was broken and his ankle dislocated. Mr. McNeely jumped from the moving car to escape a collision with a locomotive. He is at the hospital at Silsbee.

STATE COMPROMISES

Suit Against Land Companies is Dismissed

AUSTIN, Texas, Oct. 12.—A compromise was reached today between the state and the American Bonding Company and several other surety companies in the suits filed by the state three years ago for taxes and damages claimed to be due the state, by which the suits are dismissed.

Texas Governor Gives Prisoner to Oklahoma

AUSTIN, Texas, Oct. 12.—Sheriff John L. McGhee of Noble county, O. T., today obtained a requisition from the governor for the extradition of John Tincate, white, now under arrest at Edna, Jackson county, Texas, on a charge of adultery. The prisoner was arrested three days ago. The crime is alleged to have been committed three years ago, when it is charged Tincate deserted his wife and one child.

CARD OF THANKS

We wish to return our sincere thanks to our friends for the many deeds of kindness, words of sympathy and love in the loss of our darling little William, and for the many beautiful floral tributes to Rev. INDUSTRIAL AGENTS IN SESSION HERE

Industrial agents representing Texas railroads are here today to hold a meeting for the discussion of matters relative to the location of industries of different kind in this state in cities along the various railroads. The attendance is moderately large.

Among some of the more prominent members are Stanley H. Watson of the Houston and Texas Central, Industrial Agent Hill of the Santa Fe, D. F. Houston, president of the University of Texas at Austin; H. H. Harrington of the Agricultural and Mechanical College at College Station, and O. P. Bowser of Dallas. The three latter are real members of the association, but are present as guests.

The meeting had not been held up to 1 o'clock this afternoon, but will probably be called to order later in the day.

Mr. Watson said that matters directly connected with the work of inducing the location of industrial factories, etc., will be taken up and plans adopted for carrying out this work. Just what would be done he was not able to say prior to the assembling of the association.

Mr. Watson added that the association has already done much in the line of work devoted upon the members and expected to push the matter in the future. It is likely that the association may continue its session today, at which time something definite will be known.

Agricultural courses in state schools will be discussed.

Most of the Texas railroads are represented here, the attendance being about twenty-five.

BIG BANKERS BUSY

"Business Before Pleasure" Is Motto of Meeting at Washington

WASHINGTON, D. C., Oct. 12.—Junkets from all directions around Washington and a program of oratory and business confront the thousands of members of the American Bankers' Association convention here today. Work will be done first and the bright sunshine and crisp fall air are to be enjoyed later.

After a session in the Columbia Theater, which opened this morning, the bankers divided according to regional inclination. Some went to Mount Vernon and points down the Potomac, some witnessed the exhibition drill of cavalry at Fort Meyer, while others avoided the masses of many excursions about the city. The program of the convention today included, first, the discussion of practical banking questions by the convention. Discussion is limited to thirty minutes and speeches to five minutes.

Fathers of Catholic Church Plan Revival of Cotton Manufacturing in Emerald Isle

DALLAS, Texas, Oct. 12.—Rev. James Phelan, a prominent Catholic priest of Kansas City Mo., and Rev. John Phelan, who is in charge of the Catholic church at Marens, Iowa, are in Dallas today in the interest of a big land deal. It is the purpose of the fathers to purchase about 5,500 acres of land in San Patricio county to be devoted to the cotton raising industry, the object in view being to revive the manufacturing in dusty in Ireland.

MILITIA AT EDNA DESIRES TO LEAVE

Members Fearful of Losing Their Jobs Unless Allowed to Return Home Soon

HOUSTON, Texas, Oct. 12.—Many anonymous letters are being received by Sheriff Egan declaring that a white man murdered Mrs. Condit and children and that Gibson is not guilty. These letters are from St. Louis, Dallas, Austin and other points.

No indictment has yet been returned against Gibson. He is being held on a charge of murder. The military are making arrests at being held at Edna, many members claiming they will lose their jobs unless allowed to return home.

Rumors from over the state are being gathered there and it is believed Company S will depart today.

CALVES SHIPPED OUT

The big end of the calves have been marketed from the Midland country," said Thomas Voliva, who was at the yards in advance of a shipment made by Garrett & Voliva, large Midland county cattlemen, who have been heavy contributors to the local market recently. "Shipments of good cows will be small," he continued, "grass being fine and owners figuring it good policy to hold such stock as they can raise calves from, rather than dispose of it at prevailing market prices. There will, however, be a good many old shelly cows shipped from there. We have very few steers other than yearlings and 2s, and they will practically all be held for the northern demand next spring. Our steers will be first than ever next spring, and we are anticipating a big demand. Quality is being improved every year, and with the abundance of grass we have this fall, our steers cannot help but winter well and be in excellent condition next spring. I have been in Midland county for twenty odd years and conditions there are better now than I ever before saw them. Cattle are about as numerous as in former years, but because of the fine grass we could handle about twice the usual number to better advantage."

Good servants are much in demand in Washington as well as in other cities.

Washington, as well as in other cities, Mrs. R. had searched long and vainly for a fairly good general servant, a colored one, and at last in despair she stopped an elderly colored woman who looked as if she might have been one of the "crabs" of the house servants, and therefore a reliable one, and made known her wants.

"I want a girl who is trusty and a good cook. I am willing to put out most of our laundry work and to give fair wages, but so far I haven't been able to engage one," said Mrs. R. "Don't you know of someone whom I can get?"

"Dead, no, lady, I don't," was the answer.

"Oh, dear," sighed Mrs. R., "what shall I do?"

"I dunno fuh shaw, lady, less'n you does as I has to—hire a white woman."—Lippincott's.

LEGAL NOTICES

ORDINANCE No. 284. An ordinance providing for the separation of white and negro passengers on the street cars of the city of Fort Worth. Be it ordained by the City Council of the city of Fort Worth...

Section 1. That whereas the indiscriminate seating and commingling of white and negro passengers on street cars causes affrays, disturbances of the peace and makes travel thereon unsafe and insecure...

Section 2. The term "negro" as defined herein includes every person of African descent as the same is defined by the laws of the State of Texas, and all persons not included in the definition of negro as above defined shall be deemed white persons within the meaning of this ordinance.

Section 3. Any street railway company, lessee, manager, receiver or owner thereof operating street cars in the city of Fort Worth as carriers of passengers for hire, shall provide and require that all white passengers boarding their cars for transportation or passage shall take seats in the forward part of the car filling the car from the front end, and that all negro passengers boarding their cars for transportation or passage shall take seats in the back or rear end of the car, filling the car from the back or rear end.

Section 4. The conductors on all street cars in the city of Fort Worth, shall have authority to refuse any passenger or person the right to sit or stand in any street car in the city of Fort Worth unless such passenger or person shall comply with the provisions of this ordinance, and such conductors shall have the right also to remove from any street car any passenger who does not comply with the provisions of this ordinance.

Section 5. If any passenger upon any street car in the city of Fort Worth, after having been forbidden to do so by the conductor in charge of said car, shall attempt to ride on the said street car in any place other than the place pointed out to such passenger and other than a proper place for him to ride, and the provisions of this ordinance, he shall be guilty of a misdemeanor and shall be fined upon conviction not less than five dollars nor more than twenty-five dollars.

Section 6. The provisions of this ordinance shall not be construed as to prohibit nurses from riding in the same end of the car with their employers, even though of different race, and shall not prohibit officers from riding with prisoners in the same end of the car, even though they be of different race.

Section 7. The provisions of this ordinance shall not apply to any excursion car or special car of the city of Fort Worth, or to any car used as such for the exclusive benefit of either race, but in all such cases said cars shall be plainly marked "Excursion Car" or "Special Car."

Section 8. This ordinance shall take effect and be in force immediately after its passage and publication as required by law.
