

**WITTE'S TASK PROVING HARD**

**Workmen Scoff at His Letter Offering Concessions and Expressing Sympathy**

**REPLY IS SCATHING**

**Declare Benevolence of Emperor Is Shown in Treatment of Poland**

ST. PETERSBURG, Nov. 17, 2 p. m.—The outlook for an early collapse of the strike is more gloomy today. The situation is distinctly more menacing. A council of workmen's delegates or strike committee is manifestly encouraged by the extension of the strike in St. Petersburg and various organizations, including bank clerks, telephone girls and some professional leagues, have voted to join the movement.

Moreover, it is certain that the workmen's council has received mysterious supplies and funds and consequently they present a bolder front. Practically all agitation based on economic demands has been abandoned, although the eight-hour day figures in oratory at meetings in order to hold the workmen, who have no thought except for improvement in their material conditions.

The workmen's council has returned a scornful reply to Count Witte's personal appeal to his "Brother Workmen," ridiculing the government's profession to be solicitous for the workmen, and renewing their demands for the immediate abolition of martial law in Poland.

Negotiations fail. Count Witte's attempt to negotiate directly with the strike leaders has come to naught, although he offered concessions in the case of labor disputes in the event of their being condemned. But the leaders refused all compromises.

"All or nothing" was their response. The imperial ukase on the land question is taken issue with, although it was about \$40,000,000 of peasant's arrears, a debt which under ordinary circumstances might have been received with joy, proving another disappointment. Promises of additional lands are too vague to calm the excited and starving peasant who in the valleys of Don and Volga are again marching, pillaging, burning and murdering.

**No Pretender**  
 No confirmation has been obtained yesterday's report that a false emperor is leading the peasants of Penza. Mill and factory owners at a meeting held, while offering to make concessions in the matter of hours of labor granted to ten hours, took final decision that unless the men resumed work Monday they must close down indefinitely. Should the men be locked out in the face of winter it will only make the situation more desperate.

News from the provinces shows that practically no movement has been started there in support of the general strike, but there is a deep suspicion that the main enemy of the emperor is the Social Democrats and revolutionists are keeping their plans dark. The organizations have ramifications throughout the country and at a signal they might again be able to bring the industries of the country to a standstill.

**COUNCIL MAKES REPLY**

**Workmen Declare Acts and Words do Not Harmonize**

ST. PETERSBURG, Nov. 17.—The text of the resolution adopted at the meeting of the council of workmen's delegates in reply to Count Witte's appeal to working men is as follows: "The council of workmen's delegates expresses astonishment at the emperor's favorite who permits himself to call the workmen of St. Petersburg his brothers and orphans who have been added to the ranks of the workmen since the day Count Witte assumed power. Count Witte reveals the benevolent interest of the emperor toward the working classes. The council remained a proletarian body.

"Count Witte begs us to give the government time and promises to do all possible for the workmen. The council knows Count Witte has already found time to give Poland into the hands of military executioners. The council does not doubt Count Witte will do all possible to strangle the revolutionary proletariat.

Count Witte calls himself a man who is benevolent toward us and wishes to do for us as he wishes to do for our god. The council declares the working classes have no need of benevolence of a court favorite, but demand popular government on a basis of universal, direct and secret suffrage."

**SECURITIES ACCEPTED**  
 ST. PETERSBURG, Nov. 17.—The manager of the local branch Credit Lyonnais denies the report that the bank is refusing to accept Russian securities as collateral. On account of unsettled conditions and the heavy fall of prices on the Bourse, however, the bank insists upon larger margins.

**SHIP ORDERED TO BALTIC?**  
 CHERBOURG, Nov. 17.—The United States cruiser Minneapolis arrived here today from Lisbon and exchanged salutes with the fort. It is said orders await the cruiser instructing her commander to leave for the Baltic.

**GOVERNOR ATTACKED**  
 RIGA, Russia, Nov. 17.—An attempt was made today to assassinate the governor of Riga. While he was riding in a carriage through the streets a shot was fired at him from an alley, but the bullet missed its mark. The would-be assassin escaped.

**POLISH PAPERS SUSPENDED**  
 WARSAW, Nov. 17.—The governor general has prohibited the publication of three more Polish papers and prohibited sale on the streets of all handbills printed in Polish.

**PUBLIC MEETINGS PROHIBITED**  
 KIEFF, Russia, Nov. 17.—Meetings have been prohibited by order of the minister of the interior and railroad stations and shops are under military guard.

**USE METHODIST CHURCH**

**Temple Israel to Worship in Christian House While Building**

NEW YORK, Nov. 17.—What Rev. A. W. Newark, assistant to Rabbi Harris of the Temple Israel, characterized as a remarkable instance of the broadening of church lines beyond the boundaries of creed took place recently in Harlem, when the Calvary Methodist church offered the use of the church building to the congregation of the Temple Israel, which is soon to be without a place of worship of its own. The Temple Israel is to be torn down, and it will be some time before a new temple is ready for occupancy. The congregation of Temple Israel will begin its services in the Methodist church the first Friday night in December.

"We are all trying to see the same guard," said Rabbi Newark yesterday, "and are joining to lay aside our differences to learn in better service."

**ROOT TO BEGIN NEGOTIATIONS**

**Will Try to Settle Questions Pending With Canada**

CHICAGO, Nov. 17.—A dispatch to the Tribune from Washington says: Secretary Root is preparing to begin negotiations with the British government for the settlement of the questions still pending with Canada. He has been in conference with John Foster, former member of the American-Canadian high joint commission, and with men representing the various interests which will be benefited by the removal of all friction in the relations between the United States and the dominion.

He has carefully considered the proceedings of the high joint commission which failed to reach an agreement on account of the Alaskan boundary dispute, and he is satisfied that with the Alaskan boundary matter disposed of, there is no obstacle too great to be overcome if approached in a spirit of good will on both sides.

The spirit of amicable will will not be lacking so far as the executive branch of the government here is concerned and it is believed it will not be absent from the attitude of the British negotiators. Canada will have to be consulted by the authorities in London and there is no doubt the dominion authorities will make a determined and vigorous fight for concessions to which they believe they are entitled.

The government in Washington understands that there prevails in Canada a feeling that the British cabinet sold them out in the Alaskan boundary arbitration given to the United States of the United States in order to maintain friendly relations with the powerful American republic. Undoubtedly this view has a substantial basis of correctness, and no surprise is expressed at the feeling which has been created. But it is a bar to an agreement which must be jumped or removed and the latter being impossible, is hoped the former can be done with the assistance of the British government is expected to give.

The questions to be settled with Canada and New Foundland in the order of their importance include: "Tariff relations, fisheries, armament to be maintained on the great lakes, transit of merchandise in bond, alien labor laws, mining rights, conveyance of criminals and wreckage and salvage."

**GOVERNOR HOGG LEAVES TONIGHT**

**Expresses Thanks to People of City for Kind Treatment**

Ex-Governor Hogg, accompanied by his daughter, Ima and son Will, will leave tonight at 8:15 o'clock for Austin, where he will remain a short time before going to Galveston. He will spend the winter at Galveston and on his plantation in Brazoria county, thirty miles from the gulf.

Ex-Governor Hogg has been in Fort Worth almost five weeks and during that time has recovered so fast that now he says he is better than he was before his dropsical attack. He looked better than he has in some time. He reported that he has had the water out of his system for about two weeks and ever since then he has been getting well so fast that even his physicians have been surprised.

Governor Hogg said: "I leave for Austin tonight where I shall remain for a short time, after which I will go to Galveston and my plantation in Brazoria county, which I expect to be the winter under the direction of my physicians. In leaving I wish to thank the generous people of Fort Worth for their uniform attention and courtesy. It is the statement this morning that his waist measure had been reduced fifteen inches during his treatment while here."

**Examination of Alice Roosevelt's Presents Begun at Custom House**

WASHINGTON, D. C., Nov. 17.—Examination and appraisal of the presents received by Miss Alice Roosevelt during her visit to the Georgetown custom house have elated at the twenty-seven boxes in which the presents were shipped with other souvenirs of the visit which resulted in the social conquest of the Far East by the President's daughter.

Custom officials say the task is anything but an easy one, owing to the necessity laid on them to appraise the goods on foreign commercial value. Only about one-third of the boxes have so far been opened and it is somewhat surprising, staff are said to be somewhat surprised, at the valuation of their contents exceeds scarcely a few thousand dollars.

SAN FRANCISCO, Cal., Nov. 17.—The killing of Nulda Petrie, his paramour, by the notorious criminal, Milton Franklin Andrews, and his self-destruction while officers were breaking in the door to arrest him, has caused a sensation in local police circles unequaled by anything in late years.

Andrews was one of the most famous crooks and outlaws in the country, and large rewards for his capture were offered by the police of several states.

**THIRD PARTY PLAN URGED**

**Mark Twain Suggests No Candidate Political Party**

NEW YORK, Nov. 17.—Mark Twain advocates the formation of a third party as the only remedy for killing off the political bosses. He says: "It must be composed of men who are willing to give up all affiliations with either of the great parties. No man in it can have any political aspirations. He must not have any friends whom he wishes to push forward for political preferment. The sole reason for the existence of this new third party must be to elect the candidates of either the democratic or the republican party who are believed to be the best fitted for the office for which they are nominated. It is not the idea that this independent party is to consist of another lot of non-individualists to be swung in a mass for any candidate at any one's dictation. There would be no man who could deliver that vote in a mass."

"It should be a party made up of separate individuals, each holding and prizing the privilege of voting as he chooses, the rest to voters as they choose, and therefore you have this result, that if the candidate of one of the great parties is conspicuously a better man than the candidate of the other party, it is believable that the independent party would vote as a mass for that man.

"But if both are equally conspicuous for merit, it is believable that this would split the independent vote in two, with this final result, that both of these candidates being excellent men, no one would care which was elected.

"If an independent party can obtain the nomination of excellent men on both sides, this would certainly justify the organization of a third party."

**SEWANEES VS. TEXAS**

**State University Has Hard Task in Today's Football Game**

SPECIAL TO THE TELEGRAM.  
 AUSTIN, Texas, Nov. 17.—The fifth football game between Sewanee University and the University of Texas will take place here this afternoon. In both years it has been Sewanee and not the Haskell Indians who were the hot rivals of the Texans. In the games that have been played between the two teams Sewanee has won three and Texas one.

Sewanee has played several strong teams, the last with Georgia Tech, which resulted in a tie, 18 to 18. Georgia Tech, defeated the University of Tennessee by a score of 45 to 0, which was the same score that Vanderbilt made against Tennessee. According to this it would seem to put Sewanee and Vanderbilt in the same class and Vanderbilt defeated the University of Texas this year by a score of 33 to 0. The opinion of critics, however, is that Sewanee is not as strong as Vanderbilt and besides that Sewanee will have the long trip to get to the game this time while Texas had to travel to Vanderbilt for that game. The two teams weigh about the same, 165 pounds.

**ROOSEVELT GIRL NEW BEAUTY TYPE**

**His Admiration for Southern Belle Sets Standard**

NEW YORK, Nov. 17.—When President Roosevelt was in Atlanta on his recent southern tour he shattered the traditional standard upon which the most beautiful women of the south have been gauged. The tall, slender, vivacious, pink-rose girl, with big hazel eyes and an abundance of soft brown hair, who was undisputed queen, has been dethroned. The petite blonde of the lily-of-the-valley type, with eyes of finest blue and a crown of buff-gold hair, has taken her place.

At the reception given to Mr. Roosevelt in Atlanta Miss Selma Adelaide Allen was one among hundreds of lady guests who in line awaited their opportunity to be presented to the President. After shaking hands with a large number he was interrupted by Secretary Loebe, who told him he was exceeding his time limit.

"Oh, very well," said the President, "but I can't go until I have been presented to that young lady over there," pointing to the graceful, shrinking figure of Miss Allen. She was told of the President's wish, and was led blushing and smiling to where he stood and was presented to him.

"I am honored," said Mr. Roosevelt, while holding her hand, as is his custom with those who particularly attract him, "to meet the most beautiful woman I have seen in the south."

It was a moment of supreme happiness as well as embarrassment to the young lady, who managed to say, quite modestly: "Oh, I thank you, Mr. President; but I'm afraid our southern hospitality has blinded you somewhat to our defects." Then the hand struck up "The Prettiest Girl in Georgia." Men and women gathered congratulating the recipient of the President's favor, and quicker than it can be told a new standard had been set for the most beautiful southern woman.

Miss Allen is a remarkably lovely young woman, one of the fairest flowers in Atlanta's rosebud garden of girls. Her blue eyes, under dark lashes, complexion of blended rose and gardenia, well poised head, crowned in vivid gold, presents what Devela would term "a glorious color scheme" extensively.

We've had the Gibson girl, with variations; now the south has the Roosevelt girl.

**FIRE STATION PLANNED**

**Amarillo to Erect Building Costing \$10,000**

SPECIAL TO THE TELEGRAM.  
 AMARILLO, Texas, Nov. 17.—At a special meeting of the city council last evening it was decided by that body to purchase two vacant lots in the central business district of the town for the erection of a fire station. Plans were submitted to the council by local architects, one set of which will be accepted at the next regular meeting of the council Friday or Saturday.

The present equipment of the fire company consists of one heavy hose cart, but upon the completion of the new hall a hook and ladder and probably a steamer will be added.

"Public opinion unanimously supports the attitude of the government in seeking reconciliation, but firmly maintaining the authority of tribunals," recognized by America, but spurned by France.

CHICAGO, Nov. 17.—The Tribune today says:

The California lines by an order, issued yesterday, have put a stop to the personally conducted tourists excursions which have been flourishing in that field for years. **BELGIAN HEIR TO THRONE DIES**

**Socialists May Oppose Transfer of His Annuity**

BRUSSELS, Nov. 17.—Count Flanders, brother of King Leopold and heir to the throne, died at 11:30 o'clock this morning, death being due to inflammation of the respiratory organs. He was born in 1857.

The new heir to the throne of Belgium is Prince Albert of Flanders, the only son of the late Count Flanders. Prince Albert was born April 8, 1855, and wedded Oct. 2, 1900, to Princess Elizabeth of Bavaria. They have two children, Prince Leopold, born Nov. 3, 1903, and Prince Charles, who was born Oct. 10, 1903.

Prince Albert is one of the most popular members of the reigning house of Belgium. He is studious in disposition and bears a striking resemblance to his uncle, King Leopold. Prince Albert has traveled extensively.

His wife, the Princess Albert, is very popular with the Belgians. It is possible that the Belgian socialists may cause trouble when it is proposed to transfer to Prince Albert the present annual grant of \$10,000 paid to Count Flanders as heir apparent. When the late count proposed some time ago to renounce the succession in favor of Prince Albert, the socialists, who have always denounced the count for accepting this grant in view of the fact that he is enormously rich, announced an intention of opposing in the strongest manner a transfer of the grant.

**Order Restored After Majority of Americans Leave the Ring in Horror**

CHICAGO, Ill., Nov. 17.—A dispatch to the Tribune from El Paso, Texas, says: At the bull fight at Ciudad Juarez yesterday, given for the American mining convention, there was a panic when Felix Robert, the French matador, who claims to be the only matador of that nationality, was tossed in the air and carried from the arena, bruised and bleeding.

Later the same bull made a run and plunged its long, sharp horns through Matador Francisco Alonzo Piquero, tossing him into the air first, then dragging him about the ring, blood streaming from the wounds in the man's body.

The spectators sickened at the sight and many fainted and screamed to be carried out. The arena was packed with Americans from every section of the United States, few of whom had ever seen a bull fight, and for a time the situation was serious. Many men rushed from the sickening sight in horror while the women in many instances were carried out unconscious.

Order was finally restored, but most of the Americans left, deciding that they had seen enough of the Mexican and Spanish national sport, although this was only the second bull fight for slaughter out of the four marked for the matador's sword.

**Rock Island Land Commissioner Investigating Resources**

AMARILLO, Texas, Nov. 16.—Colonel C. C. Gibbs, land commissioner, accompanied by Alex Jackson, general immigration agent of the Rock Island, with headquarters in Chicago; W. S. Mabry, general agent of the land department in Texas; Adam Davidson, general agent of the land department and interested in Panhandle and southwestern immigration, with offices in Chicago, and H. E. Hoover, immigration agent of the Pecos Valley lines, were in the city today in the Southern Pacific private car, "San Jacinto."

Colonel Gibbs was interviewed by the correspondent of The Telegram and stated that his visit here was ostensibly for the purpose of closely investigating the railroad lands in the Panhandle now on the market. He stated that the trip was being made largely for the benefit of Mr. Davidson, who desires to become better acquainted with conditions in the Panhandle, as he is putting forth much effort in the development and colonization of the Panhandle country.

The party were here today returning from Higgins and departed over the Santa Fe for Pecos City, where they will investigate the natural mineral resources of the Trans-Pecos country, where Colonel Gibbs has for sale hundreds of thousands of acres of prairie and broken lands.

Colonel Gibbs was well pleased with conditions here, and stated that since April last he had sold over 700,000 acres of railroad lands at prices averaging close around \$2.50 per acre. He states that there remains yet something like 1,000 acres of these lands to be marketed.

**STUDENTS ENTERTAIN**

**Polytechnic Pupils at Northwest Texas Conference**

HILLSBORO, Texas, Nov. 17.—At the second day's session of the Northwest Texas Methodist conference, on request of Dr. Nelms, the committee of investigation in the case of Rev. J. W. Rowlett, charged with heresy, was excused from attendance during the morning in order that its work might not conflict in point of time with that of other committees meeting during the recess, some of the members of which were also members of the Rowlett committee, and also expedite its work so that the witnesses who had come from a distance might be enabled to return home as soon as possible.

At the night session an educational rally was held and the congregation was addressed by Bishop Hoss.

The conference and people were also entertained by three members of the school of fine arts of Polytechnic College, who gave a recital at the conclusion of the educational rally.

Resolutions seeking to make better provision for conference claimants were introduced and adopted.

## FIRST CHURCH BACKS PASTOR

### Dr. Caldwell Case to Be Heard by the Synod

For the fourth time the charges lodged against Dr. William Caldwell, pastor of the First Presbyterian church of this city, by members of Fort Worth presbytery, alleging that Dr. Caldwell's theological beliefs are not in accord with those of the church, will be placed on trial by the Texas synod which convenes at Houston next Tuesday. The case comes up for trial on Wednesday.

The outcome of this hearing is of much interest to the membership of the First Presbyterian church of this city, and the verdict will be awaited with more than usual eagerness.

The case was first heard by the presbytery, sent to the synod and referred again to the presbytery. The officers and entire membership of the First church of this city have joined in a lengthy petition which will come up in the coming synod meeting, asking that Dr. Caldwell be permitted to remain as its pastor.

In June, 1904, the session of the First Presbyterian church engaged Dr. Caldwell as stated supply until the first of the following October. He made a favorable impression on members of the congregation and before the expiration of the time for which he was engaged he was unanimously called to the pastorate of the church.

On Nov. 22, 1904, he was received by Fort Worth Presbytery, in session at Weatherford, and a commission was appointed to install him as pastor. The installation took place Nov. 29.

The petition of the officers and congregation to the synod declares that Dr. Caldwell, through all his ministrations, has declared the whole gospel, and that his labors have not been in vain; that not only have there been numerous professions of faith and additions to the church, but the church has been especially blessed.

The petition says: "His preaching, both from the Old and New Testaments, has been of the most conservative orthodox type, and we desire to express our unbounded confidence in him in every particular, and we cannot refrain from saying that we believe that Dr. Caldwell has been greatly misunderstood. It is our sincere conviction that he is thoroughly in harmony with the teachings of our standards. If we did not so believe, we certainly would not continue to listen to his preaching, nor desire to retain him as pastor of the First church, which from its organization has been an ultra-Southern Presbyterian church. We earnestly ask you to carefully consider the foregoing facts, as the result of your action is a matter of serious import to the welfare of our church and its future activity."

There will be quite a large delegation from Fort Worth attend the coming session of the synod. Especially will there be a number of the members of the First church there.

### PROTEST IS REFERRED

Response has been received from Governor Lanham to the protest made here against closing the stocker hog division of the yards as follows:

AUSTIN, Texas, Nov. 11.—John K. Ross and W. A. Hampton, Fort Worth Stock Yards—Gentlemen: I have received your communications, dated respectively Nov. 6 and 9, in relation to the recent proclamation concerning hog cholera. As you are doubtless aware, the governor issued such proclamation upon the action and recommendation of the live stock sanitary commission. I have referred your letters to Hon. W. J. Moore, chairman of the commission, at San Antonio, Texas, with a request for his consideration. Very respectfully,

S. W. T. LANHAM.

Upon receipt of the above communication Mr. Ross wrote to the chairman of the sanitary board, advising him of the precautions being taken by the Fort Worth Stock Yards Company.

### SIX TRIBES MEET

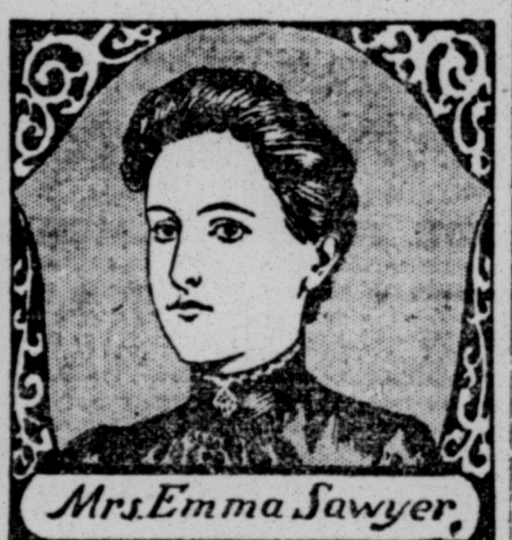

SYRACUSE, N. Y., Nov. 17.—A hundred representatives of the Six Nations of Indians yesterday concluded a meeting at the Onondaga reservation, where an effort was made to revive the pagan religion, make sacred the marriage relation and stamp out intemperance.

### KIDNEY TROUBLES

#### Increasing Among Women, But Sufferers Need Not Despair

#### THE BEST ADVICE IS FREE

Of all the diseases known, with which the female organism is afflicted, kidney disease is the most fatal, and statistics show that this disease is on the increase among women.

Unless early and correct treatment is applied the patient seldom survives when once the disease is fastened upon her. Lydia E. Pinkham's Vegetable Compound is the most efficient treatment for kidney troubles of women, and is the only medicine especially prepared for this purpose.

When a woman is troubled with pain or weight in loins, backache, frequent, painful or scalding urination, swelling of limbs or feet, swelling under the eyes, an uneasy, tired feeling in the region of the kidneys or notices a brick-dust sediment in the urine, she should lose no time in commencing treatment with Lydia E. Pinkham's Vegetable Compound, as it may be the means of saving her life.

For proof, read what Lydia E. Pinkham's Vegetable Compound did for Mrs. Sawyer.

"I cannot express the terrible suffering I had to endure. A derangement of the female organs developed nervous prostration and a serious kidney trouble. The doctor attended me for a year, but I kept getting worse until I was unable to do anything, and I made up my mind I could not live. I finally decided to try Lydia E. Pinkham's Vegetable Compound as a last resort, and I am today a well woman. I cannot praise it too highly, and I tell every suffering woman about my case."

### TO INVESTIGATE TICKET PATENT

#### Texas Passenger Agents to Study Iron-clad Coupon

Local passenger ticket men know nothing of the claim recently raised that the iron-clad coupon ticket form, which has been in use on all railroads many years, is patented, and that the railroads have no legal right to use the iron-clad ticket, which it is claimed the railroads have no legal right to use. If the contention should be made good, the railroads will be compelled to pay accrued royalties or abandon the further use of this class of tickets.

The belief is general among railroad men that the charge that the railroads have no right to use the ticket is merely an effort to defeat the roads in their struggle to put the brokers out of business.

The matter will be investigated by the next meeting of General Passenger Agents of Texas.

### ORDER MEN FIRED

#### Mexican Railway Dismisses Large Number of Employees

Railroad men here have been notified that during the past few days there has been a wholesale discharge of conductors and engineers in both freight and passenger services, on the Vera Cruz and Pacific. As a result there are few order men left in the service of this road in these two departments.

The men say that they were getting ready to send a committee to confer with the management of the road with a view to asking a material advance in wages such as has been recently given employees of other roads operating in the Republic, and that as soon as the officials learned of the movement the men were dismissed.

The men make the further statement that the Vera Cruz Company intends dismissing all order men as fast as it can find non-union men for their places. If such a movement is carried out the Vera Cruz will be the only road in either Mexico or the United States that is run without union men.

### LEGACY RECEIVED HERE

#### Negro Woman Falls Heir to Valuable Estate

Taylor Harrison, who has been head janitor at the Federal building here for the past four months, is in receipt of a communication from his wife, Carrie Harrison, stating that an aged uncle of his wife is dead at his home at Greenwood, La., ten miles west of Shreveport. The uncle, Grammon Speed, a negro of over 80 years of age, was possessed of considerable real estate and other property, including an eighty-acre plantation near Greenwood. Two-thirds of the estate was left to Carrie's wife, the remainder being divided between her sister and half-brother.

Carrie's part of the estate amounts to \$2,988 in cash, two lots in the city of Shreveport and the little plantation at Greenwood, comprising eighty acres.

### Further Steps Taken to Secure Enlargement of Federal Building

Judge W. P. McLean Sr., Senator W. A. Hanger, Clarence D. Huey, W. E. Harris and George W. Armstrong constitute the committee that will confer with United States Senators Bailey and Culberson and Congressman Oscar W. Gibbs regarding enlargement of the federal building. The committee was named by President Sam Hunter of the Fort Worth Bar Association following a meeting of that body held Thursday at which the subject of securing adequate quarters for the United States circuit court of appeals was considered.

It has been discovered that in order to better accommodate this court it will be necessary to provide better quarters, and this move is for this purpose.

It is the opinion of the bar association that congress should be asked to make an appropriation for the erection of an addition to the present building which has been outgrown because of the large increase of business of the federal court here. Steps will be taken at once by the committee to carry out the work imposed upon it by the bar association. It is understood that an appropriation of at least \$250,000 will be asked.

### ARION CONCERT LIKED

#### Large and Enthusiastic Audience Hears Chorus and Soloist

Seldom has a larger or more enthusiastic audience heard an Arion concert than that which filled the Christy church Thursday night to hear the program given by the Arions and Oscar Seagle, baritone.

Encores were so numerous the program was greatly lengthened to the enjoyment of the audience, which was unusually generous in its applause.

Mr. Seagle's voice is rich, full and melodious, well trained and of pleas-

ing tone. He sang Thursday night, numbers varying from grand opera to Moody and Sanky hymns and his hearers liked him in all.

The Arions, under direction of L. H. Ducker, were given reception scarcely less enthusiastic than that accorded Mr. Seagle. Their voices are well blended for the chorus work in which they excel.

Mr. Seagle's program included: The prologue from "Pagliacci," "Loch Lomond," "Denny's Daughter," "McKenzie's Spring Song," Harrook's "Bird and the Rose," "A Little Irish Girl," Jules Granier's "Hosanna," "The Ninety and Nine," Tosti's "Help Me to Pray," Quilter's "Now Sleeps the Crimson Petal," Robert Louis Stevenson's "Requiem," Frederick Clay's "Gypsy John," "The Holy City," and an aria from Verdi's "The Masked Ball."

The Arions sang Horatio Parker's "My Love," Dudley Buck's arrangement of "Annie Laurie," Dressler's "Drink to Me Only With Thine Eyes," and DeKoven's "The Owl and the Pussy Cat."

### MASONS INSPECT HOME

#### Indian Territory Officers Pay Visit to Fort Worth

A committee of representative citizens from Indian Territory spent Thursday afternoon in Fort Worth, inspecting the buildings of the Masonic widows' and orphans' home and looking into the manner of its conduct with a view to assisting them in their effort to maintaining a similar institution in that territory. In the party were ten leading members of the Indian Territory Masonic grand lodge. They came from different portions of the territory.

Through the courtesy of Captain B. Paddock and William James, the visiting delegation was shown through the home. They expressed themselves very much impressed with the Texas home and if one is built in Indian Territory it will, no doubt, be modeled after it.

A member of the committee said that the Indian Territory grand lodge has a fund of approximately \$100,000 that is to be used in erecting a home for the widows and orphans of deceased members and that it was more than likely the institution will be built soon.

#### Rev. R. R. Hamlin Holds Record Breaking Service at Sherman

Word has been received here that Rev. R. R. Hamlin who has been conducting revival services at Sherman, Okla., has had the best success there that his visit will be continued another week. The interest in the meeting which have already been continued about two weeks, has been increasing rather than decreasing. The total number of additions to the church there since the beginning of the meeting is now over 130.

The riding of Danny Maher, the American jockey, has taken a big slump, and Wheatley has passed the American in winning mounts.

### DISTRICT PLAN IS SUCCESSFUL

#### San Antonio Likes Working of Improvement Idea

San Antonio has had unqualified success in the formation of improvement districts, says J. F. Onion of that city, who is here on business.

Though the homestead question, declared to prevent efficient working of the system, has been encountered in the same way in that city as here, it has not interfered with the formation of the districts.

First districts were formed in the business part of the city, preventing a conflict with the homestead rule, while in the residence districts now being taken in he declares there is such a unanimous sentiment for the improvement that no trouble is anticipated. An election for the issuance of bonds for district eleven, that city has been called to take place Dec. 12. An issue of bonds to the amount of \$120,000 and a levy of a tax to pay the interest and create a sinking fund will then be presented to the voters. Various improvements are combined in the rehabilitation of the district.

Operation of the system in San Antonio is being watched with much interest by officials and men in touch with public affairs here.

### SANTONE AFTER WATER PLANT

#### Municipal Ownership Campaign Being Made There

Municipal ownership, already made the subject of much discussion in this city, is being taken up in San Antonio, public ownership in that city being suggested even to the extent of controlling the wood and coal yards.

In an effort to forward the movement there, communication has been opened with municipal ownership headquarters in Chicago, application being made for literature and material for a thorough campaign of education.

Chief interest in the matter at San Antonio, however, centers in the desire of the people of that city to secure control of the water supply, a point already obtained in this city. Water, the citizens there declare, is one utility over which absolute practical monopoly is possible without any adequate means of relief.

A permanent organization is to be formed during the coming winter.

### PHELAN RETURNS

#### Old Resident of Fort Worth to Re-establish Home Here

John C. Phelan returned this morning from Buffalo, N. Y., with his family to make Fort Worth his home once more. He left here about two years ago for his health, intending to return as soon as possible. He has purchased the old Healy place on Summit avenue from Mrs. S. R. Burnett and as soon as the house can be remodeled will move into it.

Mr. Phelan has been a resident of Fort Worth, except for the two years just past, since 1881, and said this morning that he liked this city too well to leave it. He has extensive coal interests at Phelan, in Bastrop county, and has to be here in order to take care of them.

He said that the growth of Fort Worth had been most remarkable and that he hoped that the paving of the streets would soon take a bound in correspondence with the growth of the city. Mr. Phelan was largely instrumental in getting Main street paved and he said he intended to push the question for the remainder of the city. He also said that the business of the city was bound to go west and would take in first Throckmorton street and then perhaps Taylor and Lamar streets.

## MORE HOGS NEEDED TO HELP CATTLE BUSINESS

### Live Stock Writer Says Demand for Pork Compels Mixed Shipments

The easiest, surest and most profitable way to boost the cattle business in Texas is to boom hogs. If the farmers and stockmen would double the output of pigs in the state they would not only make a lot of money on the pigs, but would get better prices for their steers.

This may sound paradoxical, but it's no joke. It is a blunt statement of actual conditions, which will be clearly seen when we look a little further into the matter.

In Fort Worth, ten days or so ago, I spent several hours in the stock yards, and studied conditions in the best live stock market of the south. I was impressed by the activity, the completeness and the business-like methods of the stock yards. The men who organized and are operating the plant have done much for the cattle interests of the state.

But I realized that something was lacking; something that belongs to all well regulated stock yards, and presently it came to me.

"Where are the hogs?" I asked one of the officials.

"Gone to the packing houses," he replied.

"All gone before noon?" I asked.

"Yes, all gone, and they are fairly crying for more."

"Don't you get enough to work off the steers?" I persisted.

"Not this enough," he replied.

Then we talked the situation over. It's simple as two and two when you think about it; and I am writing this in the hope that the readers of the Stockman will think about it. More than that, I hope that thoughts will materialize into action. If so, they will be the richer in dollars and cents and I will have done something to help along the good cause.

The stock yards official to whom I have referred does not want his name mentioned, which is right and proper, considering his position. Neither will I quote him literally, but I will boil down his logical talk and try to show you the situation as he showed it to me.

As we all know, Fort Worth has two large packing houses, and these two houses do a great deal toward supporting the market. All the cattle and hogs they slaughter are bought on the spot and they are the two best customers of the yards.

We will not go into argument about whether they have a combine to control prices, but an entirely different story.

These packing houses are really manufacturing plants. They buy the raw material (on foot), convert it into merchandise (beef and pork), distribute it through the retailer (the butcher), and we go to the retailer for it. When we go to the butcher for pork chops, we want pork chops. If the butcher has nothing but beefsteak we say ugly things and look up another butcher.

Now it is a fact that a great many of us will have pork chops, while our neighbors will have beefsteak. The butcher knows this and wants to hold our trade, as well as our neighbor's. Therefore, when he goes to the packing house he demands pork as well as beef, and the packer that can't furnish both loses the butcher's trade. Very few butchers (even wholesalers) in Texas can handle solid car loads of beef. They almost invariably demand mixed cars—so many quarters of beef, so many chops, etc.

Now, the packer at Fort Worth has been pushed at him every hour of the

### MARRIED WHILE TRAIN WAITED

#### Cleburne Man and Fort Worth Girl Wed in Sleeping Car

Falling in their plan to be married in Dallas, so from there to Cleburne and thence to San Antonio on their wedding trip, J. Norwood of Cleburne and Miss Sadie Fay Vaughan of Fort Worth were married in Cleburne Wednesday night when the Santa Fe train from Dallas waited there before continuing its journey to San Antonio. The wedding took place in the San Antonio sleeping car, the officiating clergyman being Rev. W. K. Penrod of Cleburne. Afterward Mr. and Mrs. Norwood left for San Antonio and other South Texas cities.

Difficulty in securing a passenger train in time to take the southbound train caused a hasty change in wedding plans after Mr. Norwood and Miss Vaughan reached Dallas from Fort Worth Wednesday afternoon. They found after their arrival in that city that most of the pastors were absent from home as a result of conferences and conventions now in session.

A message was sent to Rev. W. K. Penrod in Cleburne to meet the southbound train at the passenger there, and when the train reached Cleburne he was at the station.

T. H. Eberlinger and Wood Keys witnessed the ceremony, which was quickly performed.

Mrs. Norwood is the only daughter of Mr. and Mrs. L. C. Vaughn of 704 East Belknap street. She is an accomplished musician and has a large circle of friends. Mr. Norwood is a brother of Cashier Norwood of the National Bank of Cleburne, and is in the employ of the Santa Fe railroad. After their return from San Antonio Mr. and Mrs. Norwood will live in Cleburne.

### WHITNEY MAN PARDONED

HILLSBORO, Texas, Nov. 17.—Tom De Armand of near Whitney, who was sent to the penitentiary several months ago for burglary, for two years, from this place, has been granted a full pardon by Governor Lanham. A petition was cir-

day. More cattle are offered there every week than the two big houses can slaughter. The packer therefore takes his pick of the cattle and passes the rest along to some other market. The feeder or speculator. You all know this is true. Cattlemen are continually discussing this phase of the case. But have you ever seen any desirable hogs get away from Fort Worth since the packing houses began work? Not often. In fact, the fact is the packers have to hustle all the time for enough hogs to work off the cattle that come their way without the asking.

I cannot tell you just what percentage of hogs is required to work off a season's number of steers. It varies from time to time and the packers don't tell the secrets of the trade to everybody who asks. But I do know, and all the commission men and shippers at Fort Worth know, that the market there is short on hogs and long on cattle right along.

A well-known cowman said to me: "The only thing that prevents the building of two more packing houses here right away is the scarcity of hogs." The cowman himself, he continued, "and reckon I always will be, but the fellow that will raise plenty of hogs is the fellow that will get the best of the argument for the next twenty years." I don't know whether it will take twenty years for the hog to catch up with the steer, but I am confident there is no danger of overproduction of swine in Texas for a long time.

Now the question that naturally arises is, "If hogs are so scarce, why doesn't the price go higher?"

The answer is that the packers are careful not to take on more cattle than the run of hogs will support. The packing companies have other houses further up the road where hogs are more plentiful and it pays them to let some of the cattle go on by, and pick them up after they have reached the markets. In Chicago, for instance, hogs are plentiful and of good quality. Many a car load of Texas steers goes all the way to Chicago to meet the hogs and then comes back to Texas in mixed cars of beef and pork. It is easy to see how much better it would be, even for the packers, if steers and hogs met at Fort Worth. The packer would save so much in freight, being, etc., he could afford to pay better prices for both cattle and hogs.

Nobody gains anything by a condition that forces Texas cattle to northern markets and back again, yet that condition exists and we all know it. The best way to put a stop to it is to give Texas packers all the hogs they need. This means to put millions of dollars into the pockets of Texas stockmen and farmers.

Another point worth considering in this connection is the fact that hogs can be produced cheaper in Texas than anywhere else. There are hundreds of thousands of acres of good hog pasture which are not utilized. Pigs will thrive on the waste of many farms and ranches. They are not subject to the fatal diseases of the northern states—cholera, etc.

It has been proven that alfalfa is adapted to nearly all the lands of the state, and also that there is no better feed for hogs than alfalfa. Some of the shrewdest stockmen in the state have seen the possibilities in the combination and are growing rich fast on alfalfa and hogs. Especially in sections where labor is scarce or where the hay market is limited, it has been found that the best possible way to dispose of alfalfa is to convert it into pork.

Look around your own neighborhood. Aren't the hog men making money faster than almost any other class of stockmen? Think the situation over, and if you are fixed so that you can raise hogs, don't worry about the possibility of overstocking the market. There is no danger of overdoing it. R. M. Curtis, in San Antonio Stockman.

### PARALYSIS CURED

#### MR. JOHN KENNEY'S CONDITION WAS THOUGHT HOPELESS.

But the Disease Yielded to Dr. Williams' Pink Pills—Some Details Given by Himself.

Mr. Kenney has actually escaped from the paralytic's fate to which he seemed a short time ago hopelessly doomed. The surprising report has been fully verified and some important details secured in a personal interview with the recent sufferer.

"The doctor," said Mr. Kenney, "told me that if I wanted to live any length of time I would have to give up work altogether, and he told my friends that the paralysis which had begun would in time involve my whole body."

"Just how were you afflicted at this time?" Mr. Kenney was asked.

"Well, I had first hot, and then cold and clammy feelings, and at times my body felt as if needles were being stuck into it. These sensations were followed by terrible pains, and again I would have no feeling at all, but a numbness would come over me, and I would not be able to move. The most agonizing tortures came from headaches and a pain in the region of my spine."

"Night after night I could not get my natural sleep and my system was wrecked by the strain of torturing pains and the effect of the opiates I was forced to take to induce sleep. As I look back on the terrible suffering I endured during this period I often wonder how I retained my reason through it all."

"But relief came quickly when I was induced to try Dr. Williams' Pink Pills for Pale People. The very first box seemed to help me, and seven boxes made me entirely well. There can be no doubt about the thoroughness of my cure, for I have worked steadily ever since and that is nearly four years."

Mr. Kenney is at present employed by the Merrimac Hat Company and resides at 101 Anbia street, Amesbury, Mass. The remedy which he used with such satisfactory results, is sold by all druggists, or by the Dr. Williams' Medicine Company, Schenectady, N. Y.

Dr. Williams' Pink Pills have a double effect on the blood, and have cured such diseases as prostration, St. Vitus' dance, locomotor ataxia, anemia and rheumatism, as well as simpler ailments such as headaches, insomnia and debility.

### PASTOR SERVES FIFTEEN YEARS

#### Dr. J. B. French Has Had Successful Pastorate Here

A reception will be held from 8 to 11 o'clock tonight at Broadway Presbyterian church in honor of the fifteenth anniversary of the pastorate of Rev. J. B. French, who assumed charge of the work here Nov. 16, 1890.

The reception tonight will be under the direction of the Aid Society and Missionary Society of the church and will be attended by both members and friends of the church.

Dr. French is a native Texan, having been born at San Antonio. He attended Roanoke College, Salem, Va., taking the A. B. degree. He was then graduated from Union Theological Seminary at Richmond, Va., and had his first charge at San Marcos, Texas. While there he married Miss Annie L. Dial. They moved later to Southern California, where Dr. French became pastor of a church in Los Angeles county. After remaining there two years they came to this city.

At that time the Broadway Presbyterian congregation had less than fifty members and was occupying a small building with a heavy debt. Twenty-four of the members then connected with the church are still in this city. At present the congregation numbers over 700 and occupies one of the finest church buildings in the city, having cost \$35,000, complete. A manse has also been purchased recently at 405 Henderson street.

Sunday morning Dr. French will preach his anniversary sermon. Another feature of the service will be the chorus choir of forty voices that has been organized by W. J. Estes. The choir loft has been enlarged during the past week and the choir will be heard for the first time Sunday.

### UNION SERVICE WILL BE HELD

#### Thanksgiving Sermon to Be by New Pastor

Christian churches of all denominations will join in union Thanksgiving services at Mulkey Memorial Methodist Episcopal church, South, at 10:30 o'clock the morning of Thanksgiving day.

The sermon will be delivered by Rev. Charles A. Stewart, pastor of Broadway Baptist church.

### SCHOOL HOUSE AT OMAHA, TEX., SWELLS FIRE RECORD

Miss Lucy Leeman has returned to her home at Polytechnic Heights, following the burning of the school building at Omaha, Texas, last Thursday.

Although there were about 200 pupils in the building when it caught fire from an overheated stove, Miss Leeman, who is an over-theater fine, Miss Noblett and Professor Hibbert, the instructors in charge, had no trouble in getting all safely from the building. A large part of the furniture was also saved. The building is one-story frame structure, was a total loss.

A \$9,000 brick building will be erected in its place, and is expected to be completed in several months. An unusual number of destructive fires has visited Omaha in the past few weeks, the burning of the school house being preceded by a night fire originating in Robinson's grocery store at that place and by the burning of the building together with Coffey's drug store and two new brick buildings, not yet occupied. Several residences were also burned during the preceding week. All fires appeared to be from natural causes.

Mr. Kenney was afflicted at this time with a paralytic stroke, which he thought would result in his death. He had been suffering from this disease for some time, and had been advised to give up work altogether. He had also been advised to move to a warmer climate, but he had no money to do so.

### SALVATION ARMY NOT SHOE SHINING

#### Capt. Waters Declares Use of Name Was Unauthorized

Use of the Salvation Army's Christmas dinner plan as an aid in an advertising project for the purpose of pushing the sale of a shoe polish is declared unauthorized by Captain Waters, local head of the army forces in Fort Worth.

Captain Waters says the use of his name on tickets calling for shiners at a Main street shining establishment was made without his consent and that the Salvation Army has received no benefit from their sale, which apparently was made for helping raise funds for the dinner.

Last week many downtown business men received calls from young women solicitors, who were offering coupons reading as follows:

"Get for one first-class shine or polish, 10c. Benefit of Salvation Army's big Christmas dinner and tree for the poor. Captain R. Walters, Manager."

On the reverse side of the ticket reading: "This ticket is good for one first-class shine and brush-down at White Elephant parlor, 606 Main. Kindly use this ticket before Nov. 15."

Merchants Were Generous

Many business men purchased the tickets and some are said to have made liberal donations to the fund for the dinner in addition to their purchases.

It was when informed of these donations, Captain Waters says, he became curious to know what disposition of them was being made.

Regarding his dealings with the man, who he says he is now unable to find, Captain Waters said to The Telegram:

"The army has received not a cent from this man. He came to us with the proceeds of which would be thankful received for our dinner. I was told at the Texas Brewing Company and by several other business firms in the city that the man who had been giving out the tickets was one of the young women who were selling the tickets. We were supposed to get our part of the proceeds Saturday night, but the large amount of work we had on hand prevented being there, and when we looked for him he was gone and the lady solicitors were looking for him and for us to try to find him. I did not give him permission to use my name on the tickets. In fact he did not use my real name, but one which sounds like it."

Came Here Last Friday

Captain Waters says the man reached Fort Worth last Friday, when he made his proposition to the Salvation Army, the understanding being that the army members were not to participate in the canvass of the city.

He says he received the impression from the agent that the tickets were to be sold at 10 cents each in order to draw attention to the merit of the shoe polish, while helping a benevolent cause.

Stops Accepting Tickets

The White Elephant shining establishment says that some of the tickets were presented there, accepted, and later returned by the man who represented himself as agent for an Oklahoma shoe polishing company. Acceptance of the tickets ended when Captain Waters told the manager of the establishment that the Salvation Army was receiving no benefit from the sale of the tickets.

Mrs. R. A. Fowler, formerly of 112 Cabell street, Dallas, is one of the women who solicited for the shoe polish agent in Fort Worth.

Fowler says that the agent had not been seen by her since Monday night and that her wages for last week are still due.

Mrs. Fowler says that she worked in good faith.

The description of the agent as given by Mrs. Fowler is as follows:

"Thirty years old and about five feet seven or eight inches high, smooth shaven, dark brown hair and bluish-gray almond-shaped eyes, teeth somewhat irregular, eyes snap during laughter, bends

### UNION THROWN OUT

#### Board Declares Housemiths Out of Arbitration Association

NEW YORK, Nov. 17.—The housemiths' union was officially declared out of the general arbitration board of the Building Trades Employers' Association yesterday for refusing to obey the order to declare off the strike against Post & McCord pending arbitration.

It was stated that before Post & McCord proceeded to fill the places of the strikers they will wait until the board of arbitrators act. It may either affirm the decision of the arbitration board, which would mean the open shop or lock out the union. Secretary Farrell of the union said yesterday that if a lockout is declared or non-union men put to work a national strike will be ordered against the Iron League to take effect in all cities where its members have contracts."

### WEATHER WARMER

And there is snow around Lakes Superior and Michigan.

Temperature at Fort Worth was anywhere from 46 to 78 degrees, 8 degrees warmer than Amarillo, 4 degrees warmer than Abilene, 2 warmer than Galveston, of even maximum with New Orleans and 2 degrees warmer than Palestine.

This in November of this year and most any year may be taken as an example of the mild climate of Fort Worth and vicinity.

The entire country was practically free from rainfall for the day and the wind was only four miles an hour here this morning.

Official statement of the weather conditions as reported is as follows:

"Snow is falling over the upper lakes as a result of the low barometer conditions prevailing throughout the northeast quarter of the country. Cloudy and somewhat warmer weather prevails in the extreme northwest owing to a low barometer area appearing over the state of Washington. The upper Missouri, and the southeast angle of the country have high barometer conditions causing clear weather both sections.

Forecast until 7 p. m. Saturday for Fort Worth and vicinity, issued at New Orleans, la.:

"East Texas (north)—Tonight, fair; some warmer except in extreme west portion. Saturday, partly cloudy weather."

"East Texas (south)—Tonight, fair; some warmer. Saturday, partly cloudy weather."

### THE PRESIDENT'S MESSAGE.

President Roosevelt has been putting in a great deal of time on the preparation of his message to congress, which is to convene in regular session next month, and in view of the issues that now confront the country, the message is looked for with much interest by the people generally, as it is expected to fully outline the presidential policy. That the President is at variance with a very large per cent of his party is a well known fact, and the opinion is rife that the coming session of the nation's lawmakers will mark a still wider variance. In fact, there are many who think there will be such a rupture between the President and the republican party leaders that the breach will never be healed, and there is pretty safe ground for the assertion that the strained conditions known to be existing threaten very serious results to the party organization.

The message the President is now engaged in finally revising will be the longest from the standpoint of words that the present executive has ever written, and it is expected to be the most interesting. In it he will discuss the all-absorbing question of rate regulation, federal control of insurance, our relations with Santo Domingo, which were provocative of unpleasant friction with the senate last winter; the Philippine tariff, South American politics, with especial reference to the behavior of Castro, and numerous other topics that are likely to engage more or less the serious attention of congress. The President probably will take occasion to refer to the continued hostility of the republic of Cuba to American interests, and incidentally direct attention to the secret effort of President Palma and his advisers to enter upon a treaty alliance with Great Britain which would be exceedingly harmful to the commercial interests of the United States. He will reiterate much of what he said a year ago concerning the necessity for the upbuilding of the American merchant marine, leaving to congress the responsibility of working out this problem to a successful issue.

The portion of the message devoted to the Panama canal will be exceedingly illuminating because its underlying tone will be confidence in the successful culmination of the big enterprise. The President believes that he has at last surrounded himself with men who not only possess the ability to do big things, but who have a keen appreciation of the responsibilities which they have undertaken. He believes that they have made a good beginning and that the future will demonstrate that no mistake was made in trusting them.

The President will call attention to the depleted finances of the committee, and urge congress to provide, in any matter which it may deem necessary, money in sufficient amount to carry on the work for several years. He will call the attention of congress to the provision of the act creating the Panama commission, which authorizes the secretary of the treasury to issue bonds to the amount of \$130,000,000, and will suggest that if congress deems it wise and prudent to do so, the bonds will be issued immediately, the proceeds to be used in lieu of direct appropriations.

What the President will have to say in regard to rate legislation will be in part a reiteration of what he said upon the same subject a year ago, and partly suggestions embodying new ideas which he has assimilated in the meantime. The tone of the President's utterances upon this important subject will be extremely conservative. He appreciates the necessity for dealing with it from a business standpoint, and will do everything in his power to prevent self-seekers and mere sensationalists from winning advantages that may have grave consequences to the country at large.

While the general tone of the message will be conservative, it is expected that there will be enough of the shadow of the Big Stick attached to duly impress the members of congress with the idea that the executive realizes he has the country behind him in what he recommends as the basis for legislation, and he is not disposed to temporize in these matters at all. He wants laws enacted that will answer popular demand that has been coming up to the white house in a never ending stream, and is not disposed to shirk any of the responsibility himself.

President Roosevelt is an honest man. He has gone outside his party lines to take up matters that are of much moment to the people of the country as a whole. He is trying to be President of the whole United States instead of President of the republican party, and in his efforts in that direction he is en-

abled to the support of the democratic congressmen. It is believed that he will have this support ungrudgingly, and the coming session of congress will witness the unusual spectacle of a republican President solidly backed up by democratic votes and influence.

### EQUALIZE ASSESSMENTS AND TAXATION.

The taxable values of the state show an increase of \$56,243,547 over last year, and that ought to convince even the esteemed San Antonio Express that all North Texans are not tax dodgers.—Fort Worth Telegram.

According to the tax assessors, Texas is \$56,000,000 richer than she was in 1905. As a matter of fact the state is at least \$250,000,000 richer.—Houston Post.

The Express has never contended that all North Texans are tax dodgers, nor that they are all of the tax dodgers. A few of them live down this way; not so many, however, succeeded in dodging taxes on land as in North Texas, but that may be only incidental. What the Express does maintain is that the present system of assessment is unjust and inequitable, and should be corrected. What it deprecates is that members of the last legislature from North Texas were chiefly instrumental in defeating a measure designed to correct the inequality. The Express hopes that the people of North Texas will join in the crusade to revise and equalize assessments as well as the whole scheme of taxation. At present the burden falls chiefly on the small homesteader and this is a hindrance to the development of the state.—San Antonio Express.

The Telegram agrees to the proposition that there exists a great public necessity for the equalizing of both assessments for taxes and taxes themselves. It is a well known fact that grave necessity has existed in this direction for a number of years. But when the lawmakers approach this subject it is with the keen realization that every action is being looked upon with suspicion by the body politic. We are willing for taxes to be equalized, provided no additional burdens are placed upon us. And that is the attitude of every single interest in the state. It is a part of human nature to rebel over the idea of paying taxes. It looks like an imposition to nearly every taxpayer in the land, and there are thousands of good honest citizens in Texas who annually pay their state and county taxes both under protest and compulsion.

When the tax measures referred to by the esteemed Express were before the legislature great stress was laid upon the allegation that the people of North Texas were a people of tax dodgers. Our black land owners were held up to public gaze as the greatest sinners in the state, and the North Texas representatives would have been false to the people they were sent there to represent if they had not fought this idea in every manner possible. They indignantly repelled the idea, which, if we mistake not, was vigorously advanced by a member who hailed from the immediate vicinity of San Antonio, and it is to be hoped that when these matters again come up for consideration, as they must, the South Texas representatives will not be so quick to cast aspersions upon North Texas. The situation can be remedied if it is undertaken in the proper manner. But South Texas must remember that North Texas will insist that she polish her own kettles before attempting to portray the hideous blackness of the North Texas pot.

What the entire state needs is the proper equalization of the tax question. We have plenty of taxable values to give us all the revenue we need. The idea is to properly distribute the burden.

### RAILWAY DAMAGE SUITS

The railways of Texas have been engaged in a campaign of education for the past year, in an effort to in a measure at least overcome the tendency so manifest all over the state to stick them good and hard in the matter of damage suits. This campaign of education or some other cause has led to a very material reduction in the amount of money paid out during the past year in comparison with its predecessor. In discussing the matter the Waco Times-Herald says:

While there was a decrease of about \$500,000 in the amounts paid by the railways of Texas on account of damage suits in the fiscal year 1905 as compared with the previous, the amount was still very large, being \$1,368,583. This is, perhaps, the largest sum paid for personal damages in proportion to the mileage and train service, of any state in the union. For six years past the Texas railway companies have paid annually more than \$1,000,000 in settlement of damage claims, and this is no doubt one of the reasons for the unfavorable financial standing of many of them. The average payment of the roads for ten years past has been \$1,182,487. From 1889 to 1903 the "damage suit industry," as the activity of lawyers pushing claims of this kind came to be called, flourished to such an extent in Texas that the amount paid in damages increased from \$655,739 in 1889 to \$1,940,551 in 1903. Since the latter year there has been a gradual decline. The total payments in 1904 were \$1,873,793. In 1903 some of the largest payments were those of the Galveston, Houston and San Antonio, \$188,515; Gulf, Colorado and Santa Fe, \$164,908; Houston and Texas Central, \$83,389; International and Great Northern, \$175,058; Missouri, Kansas and Texas, \$208,718; San Antonio and Aransas Pass, \$78,908; Texas and New Orleans, \$82,745, and the Texas and Pacific, \$106,948.

The Telegram has always believed there was a method by which the damage suit industry could be greatly minimized in Texas, and would suggest that this result can be easiest obtained through the cultivation and development of a greater spirit of toleration on both sides of the question. The railways of Texas should learn that all the people of Texas are not thoroughly dishonest and looking for opportunities to mulet them. That there are many meritorious claims for damages that should be considered promptly and given precedence over some that are, not so meritorious; that the man who has an honest claim should not be compelled to invoke the machinery of the law to collect his claim, and that when the idea becomes dominant that such claims can only be collected through legal procedure, such a conception is but a constant and additional incentive to all claim holders to cumber the court dockets of the country with their pleas.

And the people can also learn something by a calm and dispassionate consideration of the situation. They should bear in mind that the multitude of such claims impresses railway managers with the belief that the hand of every shipper in the land is constantly raised against the railway interests, and there is nothing to do but stand and deliver the goods or delay the procedure as much as possible in the courts; that the railways believe pretenses are continually sought for filing claims for damages, and that more than half of those filed are absolutely without merit.

If the railways and the people would cultivate the habit of trying to adjust these matters outside the court room, both interests would be very agreeably surprised at the result.

The present fall has been a very favorable one

The first gasoline motor car has arrived in Texas, and will be used on the Houston and Texas Central. It has attracted as much attention as a circus at many points in the state, and it is believed this is the popular method of passenger travel for the future.

President Harvie Jordan is at the head of a new movement having in view the obtaining of 15 cents per pound for cotton, and this seems to indicate that Colonel Jordan does not belong to that small list of people who are always satisfied to let well enough alone.

Governor Hogg will soon be able to leave Fort Worth, and will spend some time in Austin. His many friends throughout Texas unite in the hope that the improvement in his condition may continue until he is entirely restored to health.

The Bell boom is constantly growing, and he is a very safe man for the people of Texas to tie to.

Fannin county sandy land that is not worth \$5 per acre as cotton land may be worth \$50 as fruit land. Just figure out what kind of a crop you want to raise, and then use judgment in selecting the soil. You can get your choice in Fannin.—Bonham Favorite.

The time is not far distant when \$5 land will be a very scarce proposition all over Texas. Real estate values in Texas are rapidly enhancing, and the era of cheap homes will soon pass, never to return.

It is the deliberate judgment of the Post that most of the public dissatisfaction with the present state administration has been due to the prevalence in a most disgusting form of the curse of nepotism. Furthermore, the circumstances fully warrant the indignation which the people feel.—Houston Post.

There seems to be a bunch of office holders at Austin who care but little how the people feel over the practice of nepotism. Additional fat salaries in the family is a sovereign panacea for popular resentment.

State Treasurer Robbins appoints his son, Brown Robbins, to succeed Major Roberdeau as chief clerk. The democrats of the state next year should elect officers who will carry out the platform demands with reference to nepotism and to other evils, instead of running counter to them.—Terrell Transcript.

Treasurer Robbins has declared that he interprets his election as a vindication of the practice of nepotism, and so long as he is a member of the official family he can be depended upon to prove himself a good father by making proper provision for members of his family.

The price at which cotton may be sold cannot be arbitrarily fixed by proclamation, unless the cotton producers could be combined in such a compact

organization as one mind could absolutely control without reference to the individual needs or individual interest of the members. Then there would be such a trust as would make all other trusts sink into insignificance by comparison.—San Antonio Express.

President Harvie Jordan seems disposed to lead the cotton producers of the country directly into the same kind of an organization that he is engaged in so bitterly denouncing.

The Fort Worth papers are saying kind things about the late Dallas fair. This would indicate that the former jealousy existing between Dallas and Fort Worth has about subsided.—McKinney Gazette.

And the Dallas papers are saying some nice things about Fort Worth. The two great North Texas cities have awakened to a realization of the fact that their surplus energies can be devoted to better purposes than knocking each other.

If James J. Hill has really purchased the Katy railway he has come into possession of a mighty fine piece of railway property. The Katy is one of the most popular lines in the Southwest.—Fort Worth Telegram.

The Katy is one of the best railroad systems in the country. If its bonds and stock were on anything like a legitimate basis it would be a gold mine for its owners. Handicapped as it has been in this respect, it has been able to make a most excellent showing. If Mr. Hill has secured control he has a fine railroad property and one that will suit his purposes admirably.—Denison Herald.

The Katy may be loaded with something of an excess of wind and water in its stocks and bonds, but it is one of the best managed pieces of railroad property in the Southwest. And it is one of the most popular lines in Texas.

Texas is leading all the states in the matter of development, but the trouble with Texas is that we have so much country to develop that it will take several more years to make a very appreciable showing.—Fort Worth Telegram.

What's the reason we can't make more pointed our invitation to neighbors in other states to come and help us develop?—McKinney Gazette.

That is just exactly what we should be doing every day in the year. The advantages of Texas should be continually held out in open view of the people of all our neighboring states.

Fort Worth must cultivate yet closer relations with West Texas. That section of the state is the most rapidly developing portion of Texas and it has always been very rightfully designated as Fort Worth territory. Fort Worth and West Texas hooked together will constitute an invincible team.—Fort Worth Telegram.

Yes, it will pay the packing house center to absorb all the western business it can. There will be a city somewhere in the Panhandle some day, just like Oklahoma City, and it will grow rapidly. Try and get ready for it.—Sherman Democrat.

Fort Worth is the business center for all the Panhandle and West Texas. Those sections of the state are contributing much to the rapid growth and development of this city.

The soap man was around last week giving away samples of soap just to advertise it, but I noticed that after giving away a package, failing to make a sale, he invariably took back the sample.—Zanesfield Correspondence, Bellefontaine (Ohio) Examiner.

### LOOKING OUT FOR THE BOYS

There is a strong sentiment in Frankfort for new concrete sidewalks and improved streets. The square in the center of the town should be paved so the boys would have a better place to play marbles at night.—Chillicothe (Ohio) News.

"I do wish Mrs. Russell Sage hadn't said that the women of today smoke too many cigarettes." "What difference does it make to you?" "I heard John tell Willie last night that he ought not to smoke cigarettes because it was effeminate."

Edna Wallace Hopper certainly is a lucky actress. She lost a suit for a fortune week before last, was sued for breach of promise last week, and now her appendix has been cut out.

### MATHEMATICALLY SPEAKING

In company with our better one-half and Mr. and Mrs. John Hatfield we were very pleasantly entertained at a dinner party given at the beautiful home in Maumee-top by Mr. and Mrs. Frank Butt in honor of Mrs. Butt's uncle, Benjamin Pearson, of Brighton, Ala. Mr. and Mrs. Butt, as they so well know how, made this a most delightful entertainment and the occasion will never be forgotten.

Lucky thing for some of the Russians that the Cossacks never took a course at Gambier.

### HE WAS ON HIS ROUNDS.

It's hard to believe the rumor that Sir Thomas Lipton was secretly married some time ago. So good an advertiser as Sir Tom would have made it an elopement.

"Henry," said Mrs. Smitners, "I don't think very much of that young Mr. Gayly. He said Miss Nuttly was a bird." "That's all right," replied Smitners. "There's nothing wrong about that." "What did he mean?" "Oh, nothing. It was just a roundabout way of saying she was pigeon-toed."

"Is the trouble over in Russia?" "Sure. Don't you read the papers? Nearly all of it's over in Russia."

"Good evening, have you claimed you are a descendant of George IV?"

### THOUGHT OF THE HORSE

Pictures of Secretary of War Taft taken today resemble those of Grover Cleveland when he was serving the second time as President, remarks a contributor to the Detroit Journal. Mentally and bodily the two men are built upon the same lines. They are broad, solid, aggressive and fearless representatives of American citizenship.

Both are heavyweights. Cleveland was at his favorite pastime on the stream running down to the ocean. A stranger approached the old guide and boatman sitting on the bank.

"Queer," said the stranger, "it is the wrong time of day, but isn't the tide coming in?" "Now, it's just Cleveland out there in a boat fishin'."

General Taft got his huge bulk on top of a horse for a long ride to a place he was anxious to reach. He saw an anxious look on the owner's face and said:

"I suppose you think that this trip will wear me out?" "No, sir, I was thinkin' of the horse."

## VERSES THAT RING

### THE GOOD OLD TIME THAT IS COMING

When directors direct, we shall cease to behold Any woe in his look who must shiver with cold; The racket and jangle we hear in the street Instead of distressing will seem to be sweet; The germs we are fighting will leave us in peace, Our foes will forgive and warring will cease; We will have all the blessing that men may expect This side of the grave when directors direct.

The orphans will laugh and the widow will smile, The things that disgust us will cease to be vile, The cows will give butter, the goats will give cheese, And money, in bunches, will grow on the trees; The smoke from tall chimneys will cheer as it spreads,

All fragrant and beautiful, over our heads; Trustees will bring trust and detectives detect— It will be a grand world when directors direct.

The pigs will soar, gracefully spreading their wings, No girl will think titles are wonderful things; The question of rates will disturb us no more, And no father will grumble while walking the floor, No sharper will sneer at the victim he conned, And the trusted cashier will decline to abscond; We will banish the bosses and bravely elect, Only men who are good—when directors direct. —Chicago Times-Herald.

### LITTLE TALES WELL TOLD

#### CARNEGIE AS A BOY.

A broker told to a Buffalo Enquirer man this story:

"I once visited Dufferline, Mr. Carnegie's birthplace. They told me there a story about him that illustrated the tenacity and perseverance of his childhood—his bulldog determination to ride down every obstacle and reach his end.

"It seems that at the little Dufferline school the master called Andrew up one day, and asked him how much seven times nine was.

"The boy, unable to hit upon the answer immediately, began to go over the entire table.

"'Twice nine is eighteen, thrice nine is twenty-seven, four times nine is thirty-six, five—"

"But the master interrupted impatiently.

"'No, no,' he said, 'Give me the answer straight off.'"

"After some thought the boy began again: "'Twice nine is eighteen, thrice nine is twenty-seven, four times—"

"'No. Straight off,' repeated the master.

"'Haud yer gob, mon,' the boy cried, passionately. 'Ye've spollt me twice, and do ye want to spoll me a third time?'"

#### WOULD BE A SYNDICATE

A New York Sun reporter interviewed William Jennings Bryan a few days before he set out on his year's tour of the world.

Mr. Bryan said that he was taking his family with him—that if he had children of only 7 or 8 years he would take them, too, because he found that little children were often more observant than older people.

"Why," said Mr. Bryan, "I was talking to a little chap of only 8 the other day, and when I asked him what he was going to be when he grew up he showed a fairly intimate acquaintance with the insurance situation in New York.

"What are you going to be, Jim," said I.

And the youngster answered:

"I am going to be a syndicate. They make all the money nowadays."

## MANY EYES ON LEGISLATURE

### Race in County Promises to Be an Exciting One

As the city and congressional campaign begin to assume a definite shape, interest is being aroused in the legislative race. This race promises to be a warm one in Tarrant county with probably a half dozen candidates in the field. In the first place, the congressional race in this year, three representatives in the state legislature. Two representatives are assumed regularly while the position taken last year in standing aside for Denton in the electoral race, now being taken by Representative Williams by his candidacy for railroad commissioner, makes the coming contest an unusually interesting one.

A number of names have already been mentioned for the place. A strong movement is on in the electoral race of "The Old Guard," to bring out the name of E. M. Wingo. Acceptance by him is deemed to be alone necessary to win one of the three places available. Two places then would be held by the old guard, W. P. Lane, as yet unopposed.

A movement has developed in the past week however, among the friends of Charles Stewart of Grapevine to secure his candidacy and they profess the belief that his name will carry over the old guard. Representative Fitzhugh of Arlington may also be counted upon as another candidate. James Hays Quarles, who was elected in the electoral race last year, it is believed will not enter the race this year. Another newspaper man, however, it is declared will be found in the lists.

Concerning the electoral race, it is declared by the friends of the old guard, that will be in the race for state legislature, but in the regular representative of Denton and not as electoral candidate. Tarrant county is practically assured of the electoral race in California. The contest will be one of the most interesting ever held in this part of the state.

## SPORTING SALAD

Tom O'Rourke, well known New York sporting man, has sold his leasehold on the Hotel Delavan for \$40,000 and will tour Europe on his profits. Old-Man-Afraid-of-Nothing of Tarrant county is being picked as a loser by two-thirds of the sporting writers of the country in his coming fight with Philadelphia Jack O'Brien. Corbett was picked as a loser when he fought with Sullivan; Fitzsimmons was stated to lose when he fought with Corbett; Nelson was pre-doomed to defeat when he fought with Brit. The hat could not be over an injury to the head, the use. There is one faithful backer to Fitz, who has faith in his ability to take O'Brien's measure, and that hopeful individual is no other than the famous "Cincinnati" himself and he's something of a "wise old owl."

Barney Dreyfuss of Pittsburgh denies the suit impeachment that he is trying to lure Dick Mike Grady from St. Louis to the Pirates catching staff is strong enough as it is. From Pittsburgh comes the story that Grady may be secured by Cincinnati.

The next Mike ball of any consequence is the meeting in California on Nov. 21 of Mike Sullivan and George Gardner. The men are to fight at catch weights, in the welter division, and an attempt is being made to show that they will have for the welterweight championship.

Tommy Ryan is accusing Fitzsimmons of dodging a fight with Marvin Hart. "It is the worst case of cowardly behavior in the history of prize fighting," says Ryan. "If he never heard of a worse case. As a dodger Hart is a near-champion in the artful class."

According to a dispatch, Jimmy Sebring has signed to play with the Chicago Nationals next season. According to a dispatch from Williamsport, Pa., Jimmy Sebring is to play next season with the Triple League. Take your choice.

Beef is rapidly nearing its finish as the best football requirement. The brawny men of Harvard were outplayed by the long horned Texas steer in Pennsylvania. The old-time theory that mountains of flesh, lumbering down the field, presented the strongest line of offense or defense has been exploded and replaced. The light heavy-weight player, fleet of foot, wiry, active, alive and alert, makes the ideal player under present rules.

The retirement of Joe Walcott leaves these six boys to fight it out for the welterweight title: Willie Lewis, Jack O'Keefe, Jimmy Gardner, "Buddy" Ryan, "Young Peter" Jackson and Honey Mellory.

The signing of Nelson to play first base for the Pirates laid to mean the retirement from baseball of Claude Ritzey, the clever second baseman of the team. Brain will go to second, and Ritzey and each will fight it out for third base.

Columbia and Pennsylvania will next week debate the question whether professionals should be allowed to participate in athletic events in the colleges. The negative side will probably win, but the true answer is, "Yes, but he must not be found out."

Joseph McCracken, the well known football player, will be sent to Canton, Ohio, by the Pennsylvania university to establish a branch medical school there.

Barney Oldfield has announced his intention of trying to break the five mile track record of Ponty Breese, who is now practicing on that track at Philadelphia. Montague Roberts, with the Thomas flyer, lately lowered Oldfield's record for that track from 3:24 to 3:14.

## FOOD

If Your Food Fails to Sustain You, Change.

One sort of diet may make a person despondent, depressed and blue and a change to the kind of food the body demands will change the whole thing.

"For several years I kept in a run-down, miserable sort of condition; I was depressed and apprehensive of trouble. I lost flesh in a distressing way and secured in a perpetual sort of dreamy night mare. No one serious disease showed, but the "ill-cop" sickness was enough.

"Finally between the doctor and Father I was put on Grape-Nuts and cream as if I was a child. I must have nourishing food to eat. The wonderful change that came over me was not, like Jonah's, a gourd, but a grape of a single night, and yet it came with a rapidity that astonished me. During the first week I gained several pounds in weight, my spirits improved, and the world began to look brighter and more worth while. And this has continued steadily, till now, after the use of Grape-Nuts for only a few weeks, I am perfectly well, feel splendidly, take a lively interest in everything, and am a changed person in every way." Name given by Postum Co., Battle Creek, Mich.

There's a reason.

## PANHANDLE RICH IN OPPORTUNITY

Vast Section Rapidly Changing Into Farming Country

QUANAH, Texas, Nov. 12.—The northwestern section of Texas, commonly known as the Panhandle and the Plains, has in the long history of 12,000,000 acres, has more surprises in store for a tenderfoot than any other section of this great state. The prevailing impression of this section among people of the North and East is that it is a barren waste. The writer's impression of this part of the world before the present trip, gathered several years ago on an overland journey, was that of a vast desert waste, uninhabitable by man or beast. Others again have thought it a section given up to cattle and the cowboy, and the mental picture of the latter was gathered from stories and reports about his dare-devilry and his mistreatment of the settlers who dared to encroach upon his domain. Many of these reports emanated from the cattlemen themselves, who wished to retain control of this vast range, and, therefore, purposely spread these tales abroad.

The daredevil cowboy and cattlemen, if he ever were a reality, is now of the past. It is the long horned Texas steer, in the range of the present day, while en route to Portales, N. M. I had the pleasure of meeting and conversing with a gentleman of the present day, W. H. Morris of Portales, who has a 1,000-acre tract in the range some miles west of Portales. If all the cattlemen are of the same type there is not a more gentlemanly body of men anywhere. One of the gentlemen of this range brought forth a bottle of the beverage for which Kentucky is noted, and asked us to join him, but our friend the cattlemen would have none of it. This refusal shattered the last remnants of a long-entertained mental picture of a cattlemen, of the long hair, debearded appearance, pistols, and penchant for whisky type.

**Cattle Grades Improved**

My conception of the cattle raised on the western plains also proved to be untrue. Instead of raw-boned, long-horned, ill-kept cattle, I was shown herds of high-bred Herefords in the pink of condition.

Whatever the Panhandle of days gone by may have been, and it is needless to enter into the details of its past history, it is today one of the most promising sections of the southwest. There are millions of acres of splendid land adapted to a long-entertained mental picture of a cattlemen, of the long hair, debearded appearance, pistols, and penchant for whisky type.

The cotton crop is a marked success in many sections of the lower plains. In the sections around Quanah and Memphis, Texas, about 250 miles northwest from Fort Worth, this year's cotton crop will average half a bale, or 250 pounds, to the acre, which is being marketed at 19 cents a pound. This cotton crop, coupled with a most luxuriant yield of the fodder crops.

## PEACOCK LIKES DIAMOND RINGS

City Park Bird Has Fine Eye for Good Sparklers

Visitors to the City Park wearing diamond rings will do well to avoid too close inspection of the handsome peacock that struts about the wired inclosure near the entrance.

A woman Friday, in attempting to feed the bird a bit of apple with her ringed hand, nearly lost the setting from a dazzling glint of the bird's eye and resulting in a grab for it rather than the bit of fruit.

The woman jerked her hand away, releasing but a slight scratch from the peacock's bill and saving her ring. She is now warning her friends to beware the peacock while wearing diamonds.

## FORFEITURE OF LINE ATTACKED

Judge Harris Would Grant No Time in the Matter

Judge W. D. Harris, candidate for majority nomination, spoke Thursday night before the Eighth Ward Civic Club, Colonel E. W. Taylor was also to have addressed the club, but a telephone message was received from him that he was unable to be present.

Judge Harris expressed his pleasure at the fact that he had been invited to speak before his friends, among whom he had lived for twenty-two years. He referred to finances of the city and stated that this city is being run on what was called a cash basis. He declared that this basis meant an execution of notes at a higher rate of interest than bonds would draw.

He declared in favor of street improvements and school buildings. Among other things he declared that the streets of this city are as much assets of the city as the taxes are. He brought up the fact that at the meeting of the city council on Nov. 6 an ordinance had been passed giving the Northern Texas Traction Company sixty days in which to build over six blocks of Jones street—granted to the Arlington Heights Street Car Company two days before by the people. He then declared that the right of the Traction Company to this street should have been forfeited three years before, as the Traction Company had never done a lick of work there.

He next took up the matter of the fire protection of the Eighth ward, in which a committee to visit Washington during the coming session of congress and work for the repeal of the twenty-eight hour law and requesting shippers of cattle to send him letters giving their views upon the matter.

In the letter he says an effort will be made to have the time extended to forty hours, except during the hot months, at which time it shall be fixed at thirty-six hours.

He calls attention to the cost of loading and unloading and that a range steer does not require the water that a fed steer would require. He has been appointed a committee to visit Washington during the coming session of congress and work for the repeal of the twenty-eight hour law and requesting shippers of cattle to send him letters giving their views upon the matter.

Opposition to Twenty-Eight Hour Law Taking Shape

A letter has been issued by John K. Rosen, saying that he, with T. L. Your 5 cents buys 3 full-sized, perfect cheroots.—"Five-cent cigars with the heads cut off." It's the little useless head that takes more time to make than the cigar itself,—and that's what makes 3 cigars cost you 15 cents instead of 5 cents.

You can pay 15 cents for three cigars with the heads on,—but why should you when 5 cents will buy three cigars of substantially as good quality with the heads cut off? First thing you do is to clip the head off, anyway.

# OLD VIRGINIA CHEROOTS

Package of 3 for 5c.

(A cheroot is a cigar made without the head)

The fragrant filler of the Old Virginia Cheroot is blended from short leaves and selected clippings, of fine domestic leaf,—developed and refined by a long process before they reach the factory.

There is only one way that such tobacco can be worked up into cheroots at the price of 5 cents for 3.

—And that one way is the modern systematic method which produces Old Virginia Cheroots—a million of them every day—under the perfect system of the biggest, best-equipped, cleanest cigar-factory in the world.

## WAIST FOR YOUNG LADY

NEW YORK, Nov. 17.—This dainty waist, which, by the way, came from one of the most exclusive New York Importers, is made in a style particularly becoming to young girls.

The waist was of pale green chiffon tulle. The body of it was composed entirely of small tucks, closely overlapping one another. The vest piece was of Irish crocheted lace over the green silk, and bordered with an inch-wide plaiting of the same silk. This piece was made separately from the waist and tucked down upon it.

The yoke and the fall in the elbow sleeves were of an embroidered net, of a diameter mesh than the Irish crocheted.

An appropriate skirt to wear with this waist would have the fallow of the skirt tucked a short distance below the waist, and a narrow tucked panel in the front. Larger tucks should finish the bottom.

## OF INTEREST TO THE CATTLEMEN

### RANGE CATTLE BUSINESS

"The range cattle business is not what it used to be," remarked Pierre Wibaux, the well-known Montana ranchman, to a Live Stock World man. "It is decidedly more expensive to run a herd of cattle than it was a few years ago, and getting more so every year. In the first place the young cattle are harder to get and cost more. It is more expensive to maintain the cattle, for grass is not as certain as it once was. The encroachment of settlers with an army of dogs is a constant annoyance to cattle. Railroads have advanced rates and do not treat the shipper with decent consideration. All things considered, the range cattle business is no longer profitable, and I, for one, have about decided to abandon it. I have been liquidating my cattle for some time and in a few years may be out of the business entirely. I expected more of my cattle to come this year, but there was some difficulty in getting cars which probably accounted for it." Mr. Wibaux has been in the ranching business for twenty-three years and has spent a great deal of his time in the west. He usually spends his winters in Paris, which is his home. He has one of the largest ranches in the country, located in Eastern Montana. He recently bought 38,000 acres, which he considers a good property investment, for he saves the man with the hoe is coming in to droves and that agriculture is soon sure to supplant the herd. Mr. Wibaux declares that the ranchman cannot successfully stand against the pressure of civilization.—Chicago Live Stock World.

### BETTER TIMES COMING

"Cattle are cheap, the cheapest they have been in years. But did it ever occur to you that for the past few years there has been an enormous marketing of calves and that heifers and cows have been sacrificed as rapidly as they could be gotten ready for the meat block?" said Colonel Lefe Burgess of Wellington, Kan. In opening the auction sale of Herefords in the sale pavilion at the stock yards yesterday afternoon.

Continuing he said: "This enormous marketing of calves and she stock has been going on for a number of years and it must have an effect in the fat cattle supply of the near future. Shrewd breeders and cattle raisers are beginning to realize this and it is noted in the sales of breeding stock this fall the prices for the popular beef breeds of cattle have averaged 25 per cent higher than they were a year ago. Better times are coming to cattle raisers, they are in sight and there has not been a more auspicious time in years to get into the cattle game than right now."

Promptly at 1 o'clock the first of the handsome white-faced, Lady Sensation II, was led into the ring and the sale quickly penetrated an activity that was continued until the last animal was sold. Prices were generally higher than were made in the Angus sale of the previous day, and when Mr. Mills was seen at the conclusion of the day he said: "Of course in a sale of this kind more or less animals are offered that are full of holes. This cannot well be avoided, but many of the animals offered were all that was claimed for them and on the whole it was a really good lot of Herefords and prices, where

## WEST FAVORS MELVIN

A strong effort is being made by the American Veterinary Medical Association to have an eastern veterinary surgeon appointed to the position of chief of the bureau of animal industry. The stockmen, however, will insist that the man appointed to this position must be one thoroughly acquainted with western conditions, not only from a scientific, but also from a practical standpoint, remarks the Denver Record-Stockman.

The objection to Dr. Saloon was that he did not understand western conditions, and unless the stockmen of the west make their wants known in Washington in this matter, and make them known with emphasis, there is grave danger that the man selected to take his place will be no one qualified to give satisfaction.

Dr. Melvin, the present acting chief, has been suggested for the place, and his appointment has been earnestly advocated by the stockmen of the west. Inasmuch as this office must, according to law, be filled by a veterinarian, it is generally believed that no one better acquainted with the conditions all over the country could be selected. Dr. Melvin has been in the bureau for over twenty years and has acted in almost every capacity. He has worked in all parts of the country from the east to the west and thoroughly understands western conditions.

## IOWA FEEDING SHEEP

A Rock Rapids, Iowa, dispatch says: "There are those who object to feeding in the territory adjacent to Rock Rapids, according to an estimate furnished by a gentleman who has engaged extensively in the business this year, and if the prices remain good until the end of the year for market it will bring a nice bunch of money into the county in the course of a few months. The largest flock owned by an individual feeder is that on the farm of H. Bostrom, three miles west of town, where some six thousand yearlings are taking on fat at a good rate. Most of the sheep will be fed ninety days, and in that time will convert a lot of coarse feed that would ordinarily go to waste on the farm into high-priced mutton.

A Schaller, Iowa, dispatch says: James Hamann returned from Omaha yesterday with six car loads of sheep, about 1,500, which he will feed for market. The market about 2.50 which he has on hand, and we understand he expects another shipment. It is quite a sight to go out to his place and see nearly four thousand sheep in a flock.

## FAVORS SAM COWAN

"Sam" Cowan of Texas is mentioned in connection with the Interstate Commerce Commission. Cowan is a good man and would fill the bill.

The Live Stock World knows of no one better qualified for the job than this man. He has been in the business for a long time and is well known to all the men in the business. The movement to put him where he can do the most good to the greatest number ought to be pushed along.—Chicago Live Stock World.

## CATARRH FIRST A COLD THEN CATARRH THEN CONSUMPTION

A cold in the head is a common ailment, but it rarely ever stops there. It often grows stubborn and protracted, the mucous membranes, or inner lining of the body, become inflamed and secrete a filthy, unhealthy matter which is absorbed by the blood and soon produces that disgusting disease, Catarrh. Then follow the unpleasant symptoms of "hawking and spitting," ringing noises in the ears, headache, poor appetite, mucus dropping back into the throat, and a feeling of general debility. Every day the blood becomes more heavily loaded with these poisonous secretions, and if the trouble is allowed to run on, the lungs become diseased from the constant passage of poisoned blood through them, and then Catarrh terminates in the most dreaded and fatal of all diseases, Consumption. The only way to get rid of Catarrh permanently is to cleanse the blood, and S. S. S. is the ideal remedy for this purpose. It soon clears the system of all impurities, purges the blood of all Catarrhal matter and poisons, and effectually checks the progress of this dangerous and far-reaching disease. S. S. S. keeps the blood in perfect order so that Catarrh cannot remain; and as this pure, healthy blood goes to every nook and corner of the body, the entire system is strengthened and invigorated, and the symptoms all pass away. Book with information about Catarrh and medical advice free.

I had Catarrh for twelve years and suffered agony with headache, nose stopped up, appetite gone, felt tired and run-down and unfit for work. I read of S. S. S. and commenced its use, and after taking eleven bottles I found myself a well man. I have never had any return of the disease and I consider S. S. S. the best treatment in the world for Catarrh.

## AMUSEMENTS

### "THE COLLEGE WIDOW"

George Ade, who caused the country at large to smile over his "Fables in Slacks," later kept theater patrons on a broad grin over his musical comedy, "The Sultan of Sulu," and kept them laughing heartily with his clever rural sketches in "The County Chairman" is still to the fore with his latest effort. It is a comedy satire on the craze for college football, entitled, "The College Widow," coming to Greenwald's Opera House tonight only. Henry W. Savage, engineer-in-chief of Mr. Ade's stage work, offered this delicious satire at the Garden Theater, New York last season. It created a future in the same metropolis, and there was not a vacant seat in that large playhouse for upward of eight months. It began the present season at the Studbaker Theater, Chicago, and owing to contracts which were impossible to cancel, the engagement was limited to less than three weeks. It left the Lake City while at the zenith of its popularity, and if the demand for seats could be taken as a criterion, it might have duplicated its New York run in Chicago. A series of extra matinees were given in Chicago to relieve the craze, but nothing short of an unheated return engagement will satisfy Chicagoans.

## "HOOGLIGAN IN NEW YORK"

"Hooligan in New York," which comes to Greenwald's Opera House Monday night, Nov. 21, has naturally been termed the very quintessence of fun. Unlike most comedies it has a plot, and this plot is in the main responsible for the many ludicrous incidents and complications that round out a solid three hours of fun. The company that will present "Hooligan in New York" has been carefully selected. The audience has yet to be met which has not been captivated by this mirthful comedy and its many novel features. Not a little of the fun is furnished by Flip, Hooligan's dog, which has been trained and drilled by one of the best animal trainers in America.

## "WOODLAND"

Henry W. Savage's latest musical offering, "Woodland" comes to Greenwald's Opera House Wednesday night, Nov. 22. This comic opera production, which is called a forest fantasy, is by Messrs. Fiske and Luder, the authors of "King of the Woods," "The Burgoon" and "The Prince of Pilsen," and it is a distinct novelty among modern stage presentations. In "Woodland" Mr. Fiske has hit upon an entirely original idea for the expansion of his book. He has introduced the leafy bosoms of the forest and written a story of life in the bird kingdom from which man and womankind have been entirely excluded, the result being an idyllic story, with an opportunity, however, for a bit of clever satire. In dressing the characters he has not undertaken to reproduce bird figures exactly, but instead the costumes are merely suggestive of the many kinds of birds mentioned. In nearly every case the birds have a direct connection with the position in life occupied by the character in the forest kingdom. There is the Owl with his assumption of wisdom; the comely Jaybird, always in trouble and assuming an importance he does not possess; the pugnacious Rooster, the talkative Parrot, the funeral Raven, the meek Dove, the loud-throated Nightingale, the haughty Peacock, the Robin and the Curlew, Blackbird and other denizens of the trees. The idea is clever and the book entertaining. The lines are bright and the lyrics entirely above the plane which distinguishes too many of the latter-day musical productions. The piece has been staged with a lavish hand and the costumes are brilliant and effective. The music of "Woodland" possesses a dash and brilliancy which always pleases the popular ear and in this instance much of it commands the admiration of the most musically inclined audiences. The production is the one which made the opera such a solid success in Boston, Chicago, New York and Philadelphia and contains a number of the best-known songs and comedians associated with light operas in this country.

The cast engaged to present "Sowing the Wind" by Manager A. S. Roth embraces names of artists who are well known and should render adequate support to Suzanne Santje, the star of the attraction, on the occasion of her appearance in this city on Thursday, Nov. 23, at Greenwald's Opera House, opening with a matinee.

## ALCOHOL TRIAL WELL ATTENDED

Mock Arraignment at the City Hall Causes Amusement

Notwithstanding a rumor that a change of venue would be asked, the trial of Alcohol at the city hall Thursday night took place as arranged, the prisoner being tried by jury, found guilty, convicted, sentenced and the neck of a bottle of beer chopped off into a water bucket.

One jurymen and one witness attempted to make aggravated assaults on the prisoner at the bar, but were prevented by prompt action on the part of the custodian of the peace.

Impaneling of the jury took but a short time, only one man being absolutely refused, Frank Jensen. Objection was made to him by Attorney O. S. Lattimore for the defense, on the ground that Jensen works for a corporation. Mr. Lattimore also objected on the ground that the man was prejudiced against alcohol, having been reported to have tried to kill him on occasions. Mr. Jensen denied that he had ever made an assault against the prisoner, but admitted that he had no good-will toward him. At this point he made a grab for the prisoner, but was collared by the officers of the court and carried out of court, shouting, "He killed my friend."

C. C. McKinney was accepted after satisfactorily answering the question, "Are You a Mormon?"

Indictment was read charging the prisoner with the robbery of A. B. and C. and with the murder of X, Y and Z. Witnesses were examined and the jury was charged by George W. Steere, who wore the ermine of the bench with becoming demeanor.

Attorney for the Prosecution E. Tennyson Smith submitted thirty-six yards of one-column clippings from English newspapers showing crimes committed by Alcohol within two weeks; but the jury objected to the ground that United States courts have no jurisdiction over crimes committed in the British kingdom, the objection was sustained and the jury instructed to ignore any impression had from the remarks about the previous reputation of the prisoner.

One witness, being asked if he had any except kindly feelings for the prisoner, rushed at the defendant as he rose to his bodily harm, but was prevented by the officer of the court.

Alcohol was represented by a 15-cent bottle of beer. No testimony was introduced on the part of the defense to prove an alibi, and following the verdict of guilty by the jury, a unanimous vote of thanks was tendered them, every person present putting up his right hand in token of the fact that he believed the prisoner guilty as per the verdict.

E. Tennyson Smith, for the prosecution, explained that counsel for the defense, O. S. Lattimore, defended the prisoner admirably in view of the fact that Mr. Lattimore is known to believe the prisoner guilty.

## NORTH FORT WORTH and ROSEN HEIGHTS

J. T. Pritchard and wife of 1317 Lake avenue celebrated their golden wedding at their home Wednesday night. A large number of guests were present. Their children who were present were: Mrs. Marguerite St. Louis, Mrs. W. W. O'Daniel of Staffordville, Kan.; Mrs. Oscar B. Milner of Fort Worth; their grandchildren, Mrs. Maude Boone, Mrs. Boyd O'Daniel, Little Misses May and Eva O'Daniel and Master; their great-grandchildren, Little Miss Marguerite and Maude Boone. Other guests were Mr. and Mrs. L. G. Pritchard, Misses Bertie Milner, Cora Mann and Emma Clark, Messrs. Will McNeill, J. K. Boone, Ed Andrews and G. B. Milner.

A joint meeting of the Woodmen Lodges of Fort Worth, North Fort Worth and Rosen Heights was held Thursday night in the hall of Marine Lodge in North Fort Worth. The Fort Worth degree team gave a fine exhibition.

A special meeting of the North Fort Worth school board was held Thursday night and another estimate on the new school building was allowed. The total amount to date is \$12,609.65. A special meeting for considering insurance will be called soon by the president.

## RULERS OF THE WORLD

Meat Eating Nations Are the Leaders in Every Branch of Human Achievements

The ruling nations of the world are meat eaters and history records that they always have been. Vegetarians and food cranks may explain this in any way they choose, but the facts remain that the Americans, English, French, Russians and Germans are meat-eating nations, and they are also the most energetic and most progressive.

The principal food of the heroic Boer soldier, known as "biltong," is a sort of dried beef, affording a great deal of nourishment in a highly concentrated form. The weak races of people are the rice-eating Chinese, Hindus and Siamese, regarded since the dawn of history as non-progressive, superstitious and inferior physically and mentally to the meat-eating nations who dominate them.

The structure of the teeth plainly indicates that human beings should subsist upon a variety of food, meat, fruit and grains, and it is unhygienic to confine one's diet to any one of those classes to the exclusion of another.

Meat is the most concentrated and most easily digested of foods, but our manner of living is often so unnatural that the digestive organs refuse to properly digest meat, eggs and similar nutritious and wholesome food, but it is not because such food is unwholesome, but the real reason is that the stomach lacks, from disease or weakness, some necessary digestive element; hence arising indigestion and, later on, chronic dyspepsia. Nervous people should eat plenty of meat, convalescents should make meat the principal food, hard-working people have to do so, and brain-workers and office men should eat not so much meat, but at least once a day, and to insure its perfect digestion one or two of Stuart's Dyspepsia Tablets should be taken after each meal, because they upset the peptones, diastase and fruit acids, lacking in every case of stomach trouble.

Nervous dyspepsia, catarrh of stomach, gastritis, sour stomach, gas and acidity are only different names for indigestion; the failure to digest wholesome food, and the use of Stuart's Dyspepsia Tablets cures them all because, by affording perfect digestion, the stomach has a chance to rest and recover its natural tone and vigor.

Stuart's Dyspepsia Tablets is the real household medicine; it is as safe and pleasant for the stomach ache of the baby as it is for the imperfect digestion of its grand sire.

They are not a cathartic, but a digestive, and no pill habit can ever follow their use; the only habit Stuart's Tablets induce is the habit of good digestion and consequently good health.

# Men's high class clothing Overcoats

Saturday  
Priced away below the ordinary

You can't go amiss when you enter this store to select your fall suit, for you'll select from the best that's been produced by high-class clothing makers; only this season's goods shown—the best in style, the best in quality, in workmanship and in fit. And another thing, you'll know positively that you're paying the least for superior values when you pay our little prices. You can prove that by comparison.

- Suits worth \$15.00 for \$10.00
- Suits worth \$18.00 for \$12.50
- Suits worth \$20.00 for \$15.00
- Suits worth \$25.00 for \$20.00

That voice quality and style

A line of Overcoats that simply stands without a peer at the prices or at anything near like the price. All the snappy styles are shown in coats, built by master workmen, shaped to fit and hang properly; all good, leading overcoat fabrics, in plain and fancy; also Rain Coats, made of Priestley's cravanette coverts, which is the best made. All are here for your choosing at a saving.

Men's Black Unfinished Worsteds Overcoats, \$12 value ..... **\$9.00**  
Men's Overcoats, including Rain Coats, values from \$15 on up to \$30, at a positive saving of one-third.

## Superior underwear At bargain prices

We wish to state to the particular man—the man that wants his underwear to fit with as precise perfection as do the top wear—we have made a decided "hit" by securing a German maker's line of all-wool Underwear. The garments are sure to fit if you give your size correctly; non-shrinking, in plain and fancies; **\$1.50** price from \$5.00 per garment on down to.....

- Special—Men's all-wool ribbed Shirts and Drawers, regular \$2.50 grade; garment..... **\$1.50**

- Men's cotton ribbed Undershirts and Drawers, well made, regular \$1.00 value..... **50c**

## Nettleton shoes

Are beyond a doubt the best shoes to buy for comfort, durability and style. There is no better. Every style leather; price, \$7.00, \$6.00 and \$5.00.

## The boys' clothing At a great saving

We've decided to do the business of Fort Worth in Boys' Clothing, and of course that means that we must at all times and under all circumstances, in season and out of season, give more and better values for the money than could possibly be had elsewhere. The parents of Fort Worth, those who have boys to buy for—must be the judge. We submit a most worthy line of juvenile clothing—we believe unequaled in the city. Specials are—

- 50 Juvenile Suits, size 2 1/2 to 7, Russian blouse, with white linen collars, \$5.00 values for..... **\$3.50**
- 100 Boys' Suits, all sizes, 15 different patterns, a regular \$5.00 suit; special, but..... **\$3.50**
- Just 24 Juvenile Overcoats, nicely made, best fall styles, regular \$6.00 coats; special..... **\$3.50**
- 25 young men's all worsteds Suits, never sold for less than \$15; Saturday special price but..... **\$9.00**

## Bostonian shoes

Is a business man's shoe, made in all the new lasts; will wear and give comfort. Once you buy a Bostonian, you'll buy no other; \$4.00 and \$3.50.

## PRAISE OF CITY IS COMMENDED

### Alderman Comments on Republican Banquet Speech

"I notice there is at least one citizen in Fort Worth just now who is able to refer to this city without indulging in desert of criticism and faultfinding, and the president of that club is entitled to a vote of thanks, for those kindly expressions at a time when it is almost vainly trying to say anything good about Fort Worth."

"Some man will give the city unmitigated abuse because, as he says, there are no good sidewalks and yet you can't get into his front yard because of the mud and slush in front of his gate."

"Another fellow will cry wolf, wolf, wolf, look yonder, they're stealing, and you run him down and you find he has not even a poll tax."

"Another will complain of the filthy condition of the streets, and yet if the sanitary officers would do their duty he would be arrested for maintaining a nuisance in his back yard."

"So, it is very pleasant to see that there is somebody living in the city, even if he is a little off color in politics, who can speak of Fort Worth without running it down."

"I saw where some fellow at a meeting declared that he was disgusted with Fort Worth and Tarrant county. It would naturally occur to anybody, though it seems not to have occurred to this fellow, that he might relieve himself of his disgust by pulling his freight and unloading it in Dallas, or some other suburban villa."

"In the next few weeks you will hear a great deal said about what Fort Worth ought to be, but isn't. And about what it would have been if something else had been done, but wasn't. And about what is going to be done, if you will vote for 'me,' and that ought to be taken to show the past and present for the sake of the future, and in one way and another, muddy the water and paw up the earth, and hook the bushes and create a regular whirlwind of dust which can only be settled by 'electing' me."

"So I say that the president of the Roosevelt Club is entitled to special commendation for making bold to say some-thing good of Fort Worth when it has been so common to berate the poor old lady."

He did say that the good things mentioned about Fort Worth were all re-

STOCKS

Special to The Telegram. NEW YORK, Nov. 17.—The weaker tone which was developed in yesterday's late trading was entirely absent in the early session today, London cables showed an advance on Americans and the local opening was strong, with the industrials again in the lead.

GRAN

Special to The Telegram. CHICAGO, Nov. 17.—The market opened today, opening practically unchanged for the May option. The market showed firmness on good buying during the early trading. At one time prices advanced 5-8c, but profit-taking by scalpers was general in the last hour and there was also plenty of selling pressure, which had a depressing effect, bringing about a break of 1 1/2c from the previous high point.

COTTON

Special to The Telegram. NEW YORK, Nov. 17.—The near approach of the date upon which the census bureau report will be issued tended to restrict active speculation in the cotton market today, and irregular, with trading confined to scalping operations by the local professionals and some realizing from yesterday's advance by timid longs.

### TO ELECT DIRECTORS

University Club Appoints Nominating Committee—Meeting Nov. 23

The second meeting of college men interested in the formation of the new university club was held Thursday night at the Board of Trade rooms with about thirty present. The charter committee reported and was continued until the next meeting, until the directors can be elected. Clarence Ousley, chairman, A. L. Matlock and B. B. Rambo were appointed a nominating committee for the purpose of nominating directors for one year. The committee has instructions to report at the next meeting.

The committee on location reported that several places had been looked at but that nothing had yet been done.

Another meeting will be held on next Thursday night at 7:30 o'clock in the Board of Trade rooms for the purpose of electing director for the first year. All university men not now in the organization are requested to send their names to the membership committee, of which J. E. Weeden is chairman.

### ASSAULT ON OFFICER CHARGED

### FOUNDATIONS OF FORTUNES

Are being laid every day by men with surplus funds. These men can take no chances—in the main, content for a fair return with the flight of years. But many of these investments, if judiciously made, will return handsome fortunes to their owners. In buying real estate it is well to wait until the right opportunity comes along—may be today, tomorrow, next week or month. Unexcelled real estate offerings and opportunities for investment appear every day in The Telegram.
