The distribution of cotton to the farms in the county is in most part by a mathematical formula written into the law. This is in accordance with the cotton grower's wishes. There is, however, a limited reserve to be held out and distributed by county and community committees. This, too, must be on an equitable basis.

Santa Fe Puts On "Cotton Special"

Amarillo, Nov. 23.-The Santa Fe will inaugurate today a "Cotton Special," daily Diesel-powered expedited freight train from Lubbock to the Gulf Coast.

H. C. Vincent, Traffic Manager at Amarillo, revealed that plans have been worked out with the cotton interests in the vast Plains area to operate a daily cotton special leaving Lubbock at midnight for Houston and Galveston ports. Compresses and warehouses are stepping up their operations to feed into the special train service, thereby speeding

the Plains crop to market. The train will run during the cotton shipping season as long as the traffic justifies. It is designed to alleviate the congestion at compresses and interior storage points that is anticipated as a result of this year's record

crop, Vincent pointed out. Mr. Vincent said the Santa Fe had accumulated a good supply of cotton shipping cars in readiness for the expected move-

SET YOUR SON UP IN FARMING

and make his fondest dreams come true!

Give your youngster the thrill of being a farmer "like Dad." Set him up with toy John Deere Farm Implements that look real . . .

He'll get a big thrill out of the plow that can be raised or lowered for transporting or plowing, and the husky, rubber-tired wagon that will haul big loads of "play-grain" to his soap-box barn. He'll spend hours with the toy manure spreader, with its lever-controlled revolving beater that actually spreads sawdust or other light material.

Of course, the sturdy toy John Deere Tractor, with a steering wheel he can turn, will be one of his most prized possessions all through child-hood.

Plan now to see all these realistic, built-to-scale toys at our store soon. (If all your boys are girls, they'll like them
