

NOTICE

The undersigned D. L. Handley has purchased, as of July 1, 1950, the interest of J. H. Chandler, H. E. Chandler, B. L. McAninch and Calvin Tomme in the partnership business of "HANDLEY SHOP & PUMP COMPANY," of Lockney, Texas, and will hereafter carry on such business as sole owner at the same location as before, under such name of "HANDLEY SHOP & PUMP COMPANY." All persons having claims against "HANDLEY SHOP & PUMP COMPANY" should present them to the undersigned for payment, and all persons owing notes or accounts to "HANDLEY SHOP & PUMP COMPANY" should make payment to the undersigned.

D. L. HANDLEY,
48-49c.

Visitors in the Johns Cox home Sunday evening were Mr. and Mrs. Lloyd Catlin and boys of Floydada and Mr. and Mrs. Alvin Nichols.

★ ★ ★ ★ ★
IT'S TIME for BROOKS!
Because ...
Something must be done now about the runaway cost of our state government—a cost which has increased more than 500 percent in the period between 1935 and 1950. Aside from the cost of World War II, the cost of the Federal government did not increase that much during the same period.

With the State plunging wildly towards a financial crisis, the Lt. Governorship is a business rather than a political office. It needs a business man with a business viewpoint.

Only by the election of a business man can the people of Texas be assured of a direct and vigorous attack on this runaway cost, useless waste, and needless extravagance in our State government.

Only a business man who has not been a part of the system which spawned this era of waste and extravagance can give the problem that searching inquiry and impartial analysis needed now. Pierce Brooks is that man.

The next Lt. Governor of Texas should be above any internal friction, beyond all cross currents of politics, and completely judicial when clashes of personalities arise among members of the Senate. He must be in a position to treat them all alike, to be fair to each, and also to be true to his obligations to the people. Pierce Brooks meets these tests.

Pierce Brooks is the only candidate completely free from the entangling alliances, political obligations, cliques, clans and groups which grow up when men stay in office too long.

The Lt. Governor to be elected in 1950 should not come from the confused atmosphere of the State government, but direct from the people with a program for the people. Pierce Brooks is such a man.

In these crucial times the next Lieutenant Governor should be answerable to the people of the State and not to any group of special interests that has made millions of dollars off the taxpayers.

Pierce Brooks for Lt. Governor

Sterley News

by Mrs. M. A. Boone

A group of young people met at the school house Friday night for a party. Games were played and refreshments of punch and cookies were served. Everyone reported a good time.

Mr. and Mrs. W. E. Johnson are spending a two weeks vacation with relatives at Stephenville and Mineral Wells.

Mr. and Mrs. Hubert Melton and children of Bagdad, Arizona spent Friday night with Mr. and Mrs. Everett Rivers.

Mr. and Mrs. A. H. Smith left this week for a vacation in California.

Mr. and Mrs. Finis Weatherley of Kress spent Sunday in the A. M. Hanks home.

Mr. and Mrs. M. A. Boone and Eldora returned this week from a two weeks vacation. They visited relatives at De Leon, Eastland, Sweetwater and Odessa. They went from Odessa to Carlsbad, N. M. and went through the Cavern.

Boy Glover of Claude and Arville Glover of Abilene spent the weekend with their parents, Mr. and Mrs. A. K. Glover.

Blake Wood of Dallas visited Mr. and Mrs. M. A. Boone Sunday.

Mr. and Mrs. Rufus Rivers and children of Turkey visited Everet Rivers Sunday.

Mr. and Mrs. A. M. Hanks are the proud parents of a baby girl born Monday morning, August 21. They have named her Glenda Kay.

Mr. and Mrs. L. L. Rhodes and Janie returned this week from a vacation in Colorado Springs.

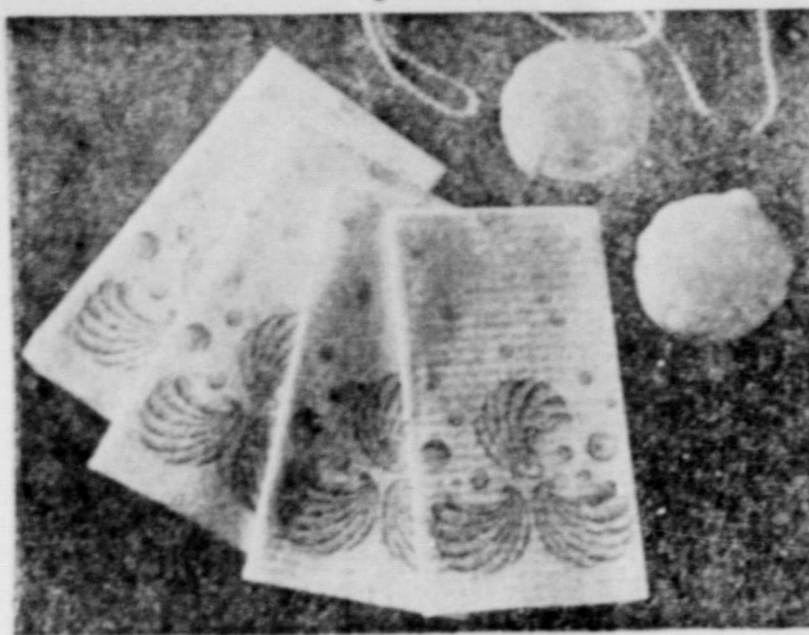

Jim Bert Bobbitt is on the sick list this week.

Carl Rhodes and Mr. and Mrs. Derwile Boswell of Pampa visited Mr. and Mrs. L. L. Rhodes Sunday.

Bert Bobbitt returned this week from a visit in Arkansas, Missouri, and Oklahoma.

Mr. and Mrs. Alfred F. Death-

New Motif in Disposable Fabric Towels

The effect of cool sea breezes is brought into the bathroom this summer by the new "Shells" design of the Masslinn disposable fabric guest hand towels. Made of non-woven rayon and cotton, they come in light and dark shrimp pink, and sapphire blue. Style-coordinated by Dorothy Draper, famed decorator, the new towels have the textured softness and absorbency of linen, and the convenience of paper. No laundry problem here!

erage and children were visitors in the W. B. Mullins home Sunday.

Miss Pauline Mullins left Thursday for a visit in Lovington, N. M.

Mr. and Mrs. Otho Sanders of near Floydada and Mr. and Mrs. Clyde Shearer of Plainview were entertained in the L. A. Claborn home Wednesday evening.

Paul Sullivan of Childress is working as brakeman for the Fort Worth and Denver this week relieving A. H. Sulter.

Rev. Ross Harmonson, pastor of the Lone Star Baptist Church was a visitor in the W. B. Mullins home Sunday.

Miss Lillian Jenkins left Friday for her home in Birmingham, Ala. after a two weeks visit with her sister, Mrs. H. N. McAda.

Mrs. Bess Matterson of Pampa visited Sunday with her sister, Mrs. L. L. Rhodes.

Mrs. A. K. Glover and children visited relatives in Hart Monday.

Lafayette Boone of Childress is visiting his parents, Mr. and Mrs. M. A. Boone for a few days.

About 1/2 inch of rain fell in Sterley Monday night.

Senator Nelson Backs Morrison In Run-off

Lubbock. — Former State Senator G. E. Nelson, of Lubbock, who ran third in the eight-man court of criminal appeals field on July 22, Thursday announced his support of W. A. Morrison, Milam County district judge, in the August Democratic run-off.

Nelson said his decision to support Morrison came after a detailed investigation of the merits of the Milam County judge and his opponent, R. L. Lattimore of Dallas.

Grasshoppers cannot jump unless the temperature is at least 62 degrees Fahrenheit.

Care Urged In Storing Grain

College Station.—Much of the bumper crop of grain sorghum being produced in Texas this year will be stored on the farm. J. A. Deer, assistant extension entomologist of Texas A. & M. College, recommends that farmers give special attention to controlling insect infestation in the stored grain.

Thorough cleaning of the bins is necessary to prevent the new crop of grain being mixed with old grain which is already infested. If the bins are constructed of wood, apply a residual spray to the walls and floor at the rate of two gallons of spray per 1000 square feet of surface area. Spray steel bins around the door frames and other places where the insects may be concealed.

Deer says that sprays consisting of two and one-half parts DDT or chlordane as emulsions or water suspensions have been found satisfactory for treating grain bins. A water suspension of DDT can be prepared by mixing ten and one-half pounds of 50 percent wettable DDT powder in 25 gallons of water.

As further precaution against insects, Deer advises removing all sources of infestation, including feed, waste grain and other materials stored or accumulated near the bins, before the new grain sorghum is moved in.

Deer warns also that the grain sorghum should be as dry as possible when stored. If the moisture content is higher than 12 percent, the insect infestation will be heavier.

Visitors in the John Hodel home last weekend were Mr. and Mrs. Jim Postlewaite and family of Lubbock and Mr. and Mrs. Otto Hodel and Dee of Eunice, N. M.

Top-Sprays May Result In Damage of. Declares

Lockney. — More harm than may result from indiscriminate use of 2-4-D weed killers might even result in damage to a Texas Technological College plant expert said today. A. W. Young, head of Tech's home department, said under laws persons who spray with power-driven machines must have a license from the state before they can begin operation. Only hand-operated sprayers are exempted from the licensing restriction. Young exhibited cotton plants which had leaves with like extensions. He said they were caused by weed-killers which had "backfired" on growers, particularly the

stronger forms like amine and ester 2-4-D. "Wind can cause droplets of 2-4-D to drift into fields where serious damage can result, although ammonium and sodium compounds are not as potent as some forms," he said. He suggested that persons planning to use the weed-killer write the commissioner of agriculture's office at Austin before they begin operation of the power-driven sprayers. **TO TEACH SCHOOL** Miss Jeanne Thomas, daughter of Mr. and Mrs. Sidney Thomas will teach the seventh grade in the Pecos schools the coming year and Miss Thala Foster, daughter of Dr. and Mrs. D. R. Foster will teach the second grade in the Marfa schools. The two Lockney young ladies have been attending Sul Ross College at Alpine this summer.

OUR DEMOCRACY — by Mat LEARNING THE HARD WAY

— AND THE ADULT WHO HAS COME THROUGH ADVERSITY TO RECOGNIZE THE ADVANTAGE OF HARD WORK AND THRIFT HAS LEARNED A LASTING LESSON IN THE SAME FASHION.

OUT OF OUR OWN EXPERIENCE AND THE EXPERIENCE OF THE GENERATIONS BEFORE US, WE AS A PEOPLE HAVE LEARNED THAT HARD WORK AND THRIFT ARE THE WAY OF ACCOMPLISHMENT. THEY TOUGHEN FIBERS AND SHAPE CHARACTER — CREATE THE KIND OF RESILIENT STRENGTH THAT BUILDS AND MAINTAINS OUR DEMOCRACY.

Children Should Have Health Check Before School

Austin. — Parents, has your child had a physical examination this summer? Next month he will be starting to school, and if he is in good health he will have a happier, more profitable year. It's up to YOU to give HIM a healthful send-off, says Dr. Geo. W. Cox, State Health Officer.

After he has his check-up by the family doctor, be sure to take him to the family dentist. Teeth are mighty important, and decayed ones often cause a heap of trouble. They may start infection in other parts of the body. Strong, healthy teeth add attractiveness to appearance and personality. Help your child to grow up with good teeth . . . see that he has a dental examination twice a year.

Sometimes children need glasses and their parents don't realize it. An examination by an eye specialist is important. A child who needs glasses, if taken to an eye physician now, will have time to get used to them before school starts.

When children are grouped together in a classroom, they expose each other to communicable diseases. Has your child been immunized against diphtheria and smallpox? Does he know he should use only his own drinking glass? Does he know he should avoid boys and girls who are victims of colds? Do you keep your child at home when he shows signs of a cold?

over the duties of Robert Rutland, Tech public information assistant, who has resigned to do work on the Ph. D. degree at Vanderbilt University. Rutland's duties as editor of college bulletins also will be turned over to Jay.

Oklahoman Named News Director At Texas Tech

Lubbock. — Rick Jay, 27, has been appointed director of public information at Texas Technological College, Pres. D. M. Wiggins announced today.

Jay, a former employee of the Daily Oklahoman, has been sports and night editor with the United Press in Oklahoma City for the past three years. He is a veteran of World War II and a graduate of the University of Oklahoma school of journalism. He is a member of Kappa Sigma and Sigma Delta Chi.

The new Tech staff member will have charge of sports news as well as the regular Tech news service. Heretofore, the sports and regular news services have been separate functions at Tech.

Jay succeeds Cecil Horne, who has been news director and head of the journalism department at Tech. Professor Horne has relinquished his administrative duties but will continue to serve on the faculty. Jay also will take

REMEMBER!

To go to the polls Saturday and re-elect a man for County Judge of Floyd County who has proved his ability and honesty. Remember these things:

1. He is capable of doing his own thinking and he works for the best interest of the entire county.
2. He is honest and efficient and is careful with the county's business. He has accomplished much for the county in the farm-to-market road program. Floyd County now has more than 100 miles of farm-to-market roads constructed, under construction and planned for the next two years. These accomplishments and others have resulted in considerable financial savings to the county.
3. His morals and character are above reproach.

—And—
He has run a clean race to be your County Judge. He has not resorted to mud slinging or smear-tactics in order to be elected.

DON'T CHANGE HORSES IN THE MIDDLE OF THE STREAM. The county now has several programs of work that should not be interrupted. The farm-to-market road program is one, the courthouse construction is another.

Check Judge Tubbs' record for yourself. Don't depend on rumors and hearsay to keep informed. You will see why G. C. Tubbs deserves a second term

Education Cost Less Back In Twenties

Lubbock. — Students who registered at Texas Tech back in 1925 when the college was opened paid \$8 for their registration fee and could get their board and room for \$25 a month.

The 914 students who matriculated during the first term in September, 1925, also paid a health fee of \$1.75 and a library fee of \$1. Tickets to the athletic contests and the artist course series cost another \$5.50, but this was optional.

Today the students pay a \$25 registration fee, and another \$15 for health and activity fees. Board and room in college dormitories costs \$60 a month.

On the other hand, the Tech faculty has increased from 38 members to a staff of over 350. From one building in 1925 the campus has mushroomed into a swarm of structures ranging from million dollar dormitories to the Jones stadium, which seats 16,500 spectators. A \$4,000,000-plus building program is now in progress.

From the 914 students in 1925 the enrollment spiraled to the post-war peak of 6,689 in 1947-48. This past year the enrollment levelled off to 6,511.

Mr. and Mrs. J. E. Copas and boys from Santa Barbara, Calif. are here visiting their daughters, Mrs. W. A. Taylor and Mrs. Anna Lou Dunavant.

Nation Will Produce More 'Green Pastures'

Prospects are evident that America's farmlands will grow greener in the second half of the 20th century.

Outstanding in farming's past 50 years and bound to play vital parts in the years to come are the new importance of grass and the mechanization of the farm.

According to experts on the subject, grass is soon to rank as a prime contributor to the health and wealth of the United States. Farmers who will turn to the use of grass as a real crop in itself, will find

Scenes like this will be more common throughout rural America as farmers turn to grass as a real crop. Here a field forage harvester, one of the newer developments in mechanized farming, chops and blows grass into a truck keeping pace with the tractor.

that it prevents erosion, builds up the soil, improves the land for crops that are to follow and provides greater profit through more economical feed.

Because they can now grow more grass with less work, farmers are planting more and more acres in green pastures. They are using more grass as rotation and cover crops and tests have proved to them that grass in rotation with corn and cotton vastly increases yields.

The making of hay and grass silage is the basis of grassland farming. This is a true product of the 20th century. Experiments started about 25 years ago are just now getting widespread acceptance as

farmers find that grass silage is second only to grazing in a good livestock program.

SMITHS TO SING IN CONVOCATION CHOIR

Rev. Oran D. Smith, pastor of the Methodist Church at Leuders, former pastor at Aiken, and Mrs. Smith will represent the Stamford District at the Methodist convocation to be held in Oklahoma City September 12-15. In addition, the Smiths have been invited to sing in the three hundred voice choir which will furnish music for the convocation.

MOVE TO LUBBOCK

Two residents lost to Lockney last week were Mr. and Mrs. Pete Newman, who have moved to Lubbock. Pete and Wanda sold their grocery store here earlier this year, and Pete will have an independent bread route in Lubbock.

Mr. and Mrs. Ruel Cook and children left Monday for their home at Los Alamos, N. M. after spending a vacation with Mr. Cook's sister and family, Mr. and Mrs. Leslie Ferguson and children.

Mrs. Joe Anderson and Mrs. Conde Davis left Sunday night for Alvarado, Texas to be with their mother who is ill.

Hay Fever Should Be Treated

Hay fever, an affliction of some 2,500,000 Americans, is caused by an allergy, or sensitivity, to pollen. Its victims are easy to spot—with their inflamed and running eyes, "stuffed up" noses, and sudden and sometimes prolonged paroxysms of sneezing.

Even victims of mild cases of hay fever are as miserable as they look. Hay fever in a mild form is not a serious illness, although it may cause great discomfort and cut down on the sufferer's sleep and his appetite. Severe hay fever, allowed to go untreated, can lead to asthma, a chronic obstruction of the bronchial tubes which produces a hard cough and difficult breathing.

Hay fever in the spring and summer is due to pollen in the air which comes from trees, grasses, and weeds. The hay fever prevalent from about the middle of August until the first frost is usually caused by ragweed pollen.

Anyone who suspects he has

or is getting hay fever should see his doctor. While there is no specific cure for hay fever, there are treatments which will make the sufferer more comfortable and help him ward off asthma and other respiratory illnesses to which hay fever might have made him susceptible.

The doctor will make a thorough study to find out what kind of pollen is causing the trouble. Once it is known, he can advise the victim on avoiding it. He may also give injections of pollen extract to help the person build up resistance to it. These injections, called "desensitization treatments," are usually most helpful if given before the attack of hay fever.

There are drugs on the market which sometimes relieve hay fever, but they should be used only with the advice and supervision of the doctor, since they can cause painful and, perhaps, harmful reactions.

The person who has hay fever should build up his resistance to all respiratory infections and consult his doctor, who will prescribe measures for his relief

and help him avoid further irritation and infection. While there is no definite proof that allergies, including hay fever, have an emotional or psychological origin, the hay fever sufferer should avoid all emotional stress, since it tends to worsen the condition.

Many communities are trying to stamp out the offending ragweed by spraying it with chemicals or cutting it down and burning it. Best results are obtained when weeds are destroyed, over a large area, before the seeds

mature and are carried about the wind.

Hens that are not now laying and poor layers. These non-producers should be removed from the flock and there is no profit in feeding non-laying hens.

Lockney, Texas

To The Citizens and Tax Payers of Floyd County:

Let us as friends and neighbors of Frank L. Moore urge you to go to the polls Saturday, August 26, and cast your vote and elect him County Judge of Floyd County.

We have known him intimately and closely for 42 years. During that time we have had many business dealings with him and those dealings have been absolutely satisfactory in every way.

Yes, he has associated and dealt with you and yours many times during the past 37 years, and in fairness to all. Just think back over the past. Have his dealings been satisfactory in every way? We know beyond a shadow of a doubt that they have.

If elected County Judge of Floyd County he will go into office un-biased and has made only one promise to anyone, and was that he would do his dead-level-best to make you a good County Judge.

He will devote his full time to the duties of the office, and that is what you as tax payers pay a man for. He will have no other business to take up his time and operate in connection with the County Judge's office.

Your vote is needed to elect a man that will be County Judge for all the people and all of Floyd County. Vote for him as the man you know him to be.

Huntin' AND Fishin'

By Harve Pennington

Regardless of the many shapes and forms, colors and patterns, there are only three types of surface lures on the market: Surface lures, wobbling underwater, and surface running plugs. Most surface lures float. Some will sink and will rise to the surface when reeled in. Wobbling underwater lures float when at rest, but as soon as a plug goes under water then the color does make a difference. The surface plugs should be used when the fish are in the shallow water next to the shore. The fisherman should study the retrieve of his lure until he can make it behave in a variety of ways. Fast reeling, slow reeling and again a jerky retrieve, all are good at times.

The idea is this: Sometimes it is desired to have a quietly moving surface bait, no spinners or collars—again, a slight ripple may be needed, spinners added or quite a little spray may appeal to the fish—a collar of wood or metal and last, you may wish a regular sputtering bait—a big collar, wings or anything to throw a spray and to keep the lure churning up the surface. In a season's fishing the careful and successful fisherman will find a time when all types of surface lures will be needed. Colors of surface lures are unimportant. The fish is below the plug and it appears as a dark patch against the brighter sky, but as soon as a plug goes under water then the color does make a difference. The surface plugs should be used when the fish are in the shallow water next to the shore. The fisherman should study the retrieve of his lure until he can make it behave in a variety of ways. Fast reeling, slow reeling and again a jerky retrieve, all are good at times.

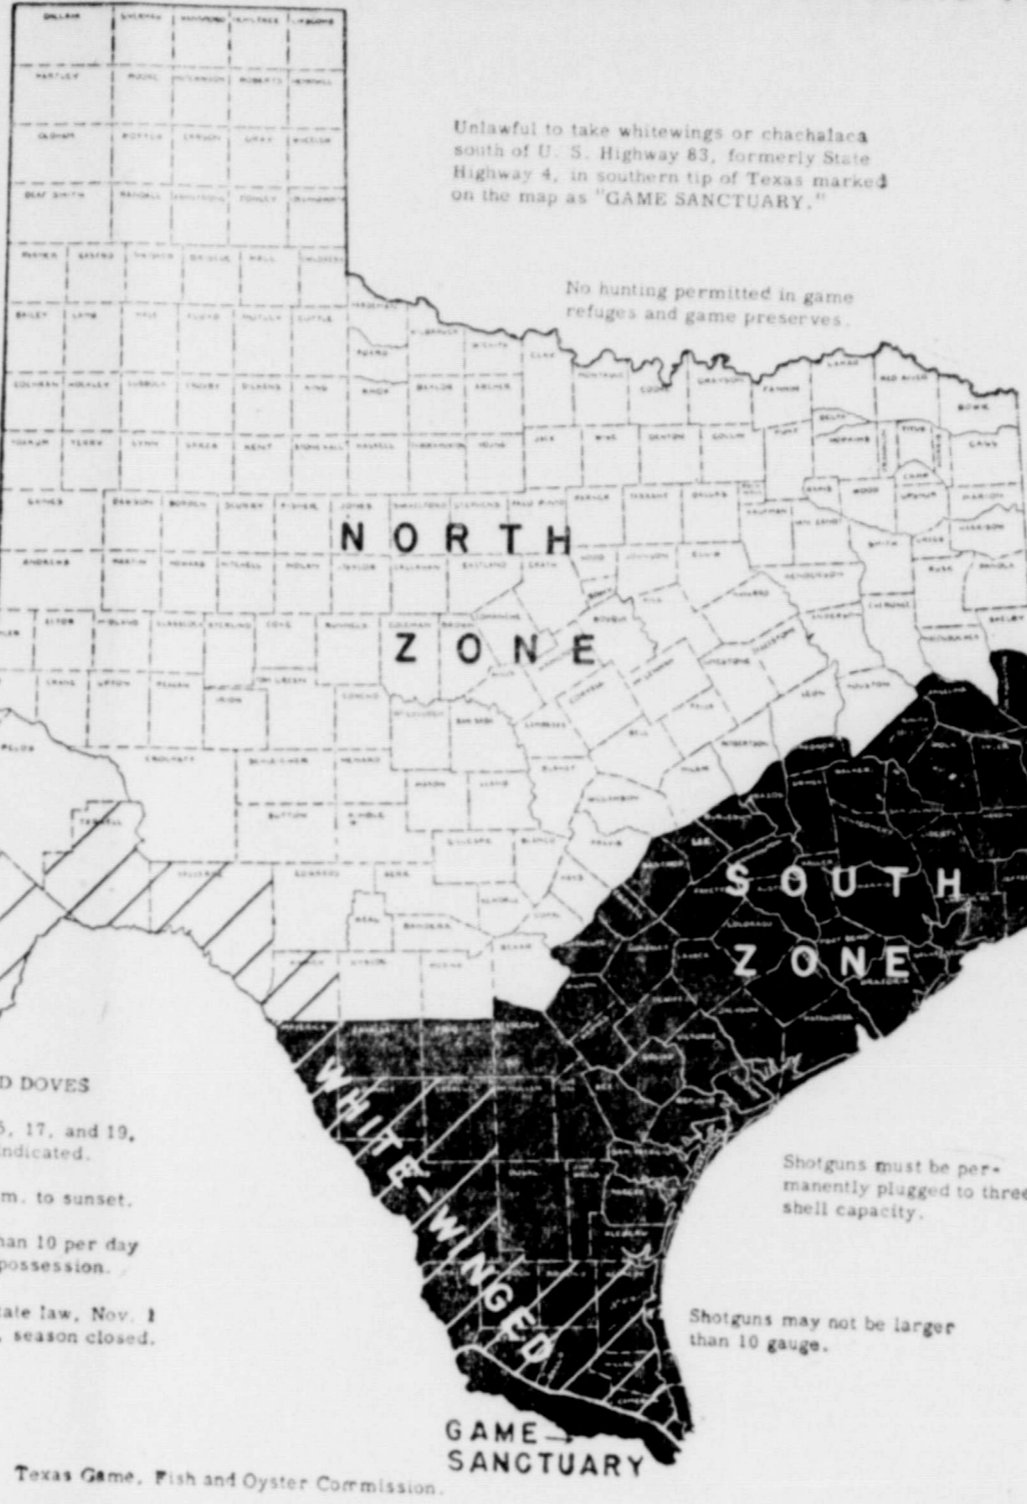

Well its time to get the old scatter gun out and wipe the rust and dirt off. The dove season opens the first of September. Be sure to plug the magazine so it will hold only two shells, if you

Business Leader With Great War Record Tells How Hadacol Has Rebuilt Him Physically

Was run-down, weak, after service in South Pacific due to deficiencies of Vitamins B₁, B₂, Iron and Niacin

Mr. Donald Hedburg, who resides at 1812 Parker in the fashionable Riverside District of Wichita, Kansas, has been an up-and-coming executive member of the staff of the great Wichita Eagle newspaper for over four years.

Mr. Hedburg has an enviable record of combat with the U. S. Army in the South Pacific in World War II. He is very active in civic affairs. And just as he was anxious to pitch in and do his job during the war—he now wants to help his fellow citizens who (like he was once), are physically run-down and weak due to lack of Vitamins B₁, B₂, Iron, and Niacin in their systems.

Here is Donald W. Hedburg's honest statement: "When I returned from service, I faced the problem of rebuilding myself physically. I was in a general run-down condition. In my present capacity of advertising salesman for Kansas' greatest newspaper, The Wichita Eagle, it's absolutely necessary that I have plenty of vitality—'get up and go.' I had real cause for worry. Nothing seemed to rebuild me constitutionally. Then a friend of mine on the national staff told me about HADACOL. He asked me to try at least five bottles. I'm on my fourth bottle and already I feel like my old self. I look forward to a day's work and go home—play with the children—work in the yard—fish all night! Thanks again to HADACOL, energy and vitality were again course through every fiber of my body. You bet, I too, now have a missionary for this new HADACOL.

That Wonderful HADACOL Feeling Everyone is Talking About

HADACOL gives such wonderful results because it not only supplies deficient weak run-down systems with more than their daily needs of important

have a pump or automatic, and with one in the chamber you will have three shots to comply with the law.

Your hunting and fishing license both expire on the 31st of August, so get them before you start. Get your duck stamp too and you will be all set.

Don't put away your fishing tackle. The best part of the fishing season is yet to come, as the water cools the fish get more active and when you have one hooked he will give you a better fight. And, too, most vacations are over and you will have the best places to yourself and if you are fishing for bass with plugs you can use those large plugs that you have been looking at in your tackle box, and get larger bass. They will hit about anything that you throw at them. They need to put on the fat to take them through the winter.

The fall of the year, when the water cools, is the time when your surface plugs are at their best. But you must be on your toes to hook them when they hit a surface lure. I find I have better results by changing the larger hooks for smaller ones, on the surface lures. The smaller hooks penetrate the tough part

of the fishes mouth better than the larger hooks.

I wouldn't recommend that you change the hooks on a plug that runs under the water because it would change the balance of the plug and also change the action. The boys that make the plugs have spent a lot of time and money to put the right action into their plugs to attract fish.

If you fish with minnows, get the larger minnows, about 4 to 4 1/2 inches is about right. Most places that sell minnows will give you the small ones unless

you tell them what size you like. The small minnows are all right for Crappie or brim.

CARD OF THANKS
We wish to thank each and everyone who had any part in helping work out our crops. May God bless each of you.
Mr. and Mrs. Floyd Compton.

Jimmy Whitfill spent last week in Panhandle visiting relatives, Mrs. J. Floyd Howe and family.

Women should believe in free speech; they are free enough with theirs.

Mr. and Mrs. Ray Barber of Arlington spent Friday night of last week here visiting with his brother, Mr. and Mrs. Floyd Barber Sr.

Mr. and Mrs. Pepper Martin and Mrs. Baxter Pierce of Hart were guests of Mr. and Mrs. Johns Cox Monday.

Lena Sue Pylant And Edward Babitzke Exchange Vows

Miss Lena Sue Pylant and Edward B. Babitzke were united in marriage at 6:40 p. m. Saturday, August 19, in the home of Gilbert M. Eastman in Tucumcari, N. M.

The bride is the daughter of Mr. and Mrs. O. V. Pylant. The groom is the son of Mr. and Mrs. Bert Babitzke of Canadian, Texas.

Attending the couple during the reading of the wedding vows were Mr. and Mrs. George Kammer of Amarillo.

The bride chose a navy blue and white suit with navy and white accessories.

For something new and blue was her wedding dress, for something old a diamond ring given to her by her mother and father for her eighteenth birthday, and for something borrowed she wore a watch belonging to her mother. She wore the traditional penny in her shoe.

The bride was a popular graduate of the 1949 class of Lockney High School. Mr. and Mrs. Babitzke both are attending West Texas State College at Canyon, where she is a sophomore and he a senior.

The couple will be at home in Canyon where they will continue in school.

MRS. PAUL COOPER LEADER AT WSCS MEETING MONDAY

Mrs. Paul Cooper was leader for the program of the meeting of the Woman's Society of Christian Service Monday, August 21. The Society met at the Methodist Church.

The program concerned "Pillars of Our Church." Mrs. Frank Dodson, Mrs. M. S. Johnson, and Mrs. Jack Taylor each gave an interesting talk.

The Society urges that all the members be regular in attendance and enjoy the meetings with them.

Dillard And Love Reunion Held Aug. 16

The annual Dillard and Love reunion met at Childress, Texas in the City Park, August 16. There were 217 people registered including the visitors. There was six ministers present.

There was a full day of interesting activities planned and carried out. The morning was devoted to a religious service and business meeting. The congregational singing was directed by Rev. C. A. Strickland of Crosbyton. Rev. Davis of Childress and Rev. Bert Lane of Vernon each expressed words of appreciation for the occasion. The Reeves sisters of Littlefield and Elizabeth (Granny) Hammonds rendered special songs. Rev. and Mrs. V. F. Love of Colorado City, Texas, sang a special song after which Rev. Love brought the closing message. After the devotion a short business session was conducted by Rev. H. M. Reeves, the president. All the former officers of the past year were re-elected. H. M. Reeves of Littlefield, president; Mr. and Mrs. Charlie Dillard of Lockney, Secretary and Treasurer.

At noon a basket lunch was spread and everyone enjoyed the delicious food. The afternoon was given over to visiting and real enjoyment.

Everyone returned to their homes looking forward to another grand reunion which will be held the third Wednesday in August, 1951, in the Childress City Park.

Mr. and Mrs. J. E. Rainey of Dallas and J. H. Boatwright of Mangum, Okla., arrived Tuesday for a visit with Mr. and Mrs. W. S. Rexrode of Lockney.

Mrs. A. N. Waldroupe and Derrell have gone to Denver, Colo., where they will visit relatives for a few days.

Rev. and Mrs. E. C. Armstrong of Pampa were guests in the Lewis Busby home last weekend.

GO TO CHURCH SUNDAY.

Surprise Celebration Honors Watsons On Anniversary

Mr. and Mrs. W. C. Watson were honored with a surprise dinner in their home Monday, August 21, to celebrate their 55th wedding anniversary. A three tiered cake topped with a miniature bride and groom adorned the table from which the buffet dinner was served.

Mr. and Mrs. Watson were married August 21, 1892 in Van Alstyne, Texas. They moved here from Grayson county in the summer of 1908.

Twenty-six of the children, grandchildren, and great-grandchildren were present. Two grandchildren by marriage, Mrs. Olin Huff and George Turner, and two great-grandchildren, Patricia and Charlotte Huff, were unable to attend.

Members of the immediate family present were: Messrs and Mmes. France Baker, Lennis Baker, Carol and Beverly from Lubbock; Douglas Watson, Vernon Watson and Keith from Tullia; Glen Watson and Roland, Floyd Huff, Douglas Degge and Olin Douglas, Mrs. George Turner and Cynthia all of Lockney; Bill Watson and Oran of Abilene; Olin Huff, Wichita Falls.

Relatives who called in the afternoon were Mr. and Mrs. H. P. Coleman, Mrs. Laura Stinebaugh, Mrs. Ralph Darnell and granddaughter, Gayle, Mrs. Paul Kropp and children, Mrs. Jack Blair of Tullia, Mrs. Preston Greenhaw of Hale Center.

Mrs. Sarah Biller and Ruby, Mrs. Trece Collins, Mrs. Arthur Cox all of Amarillo. Friends calling were Ray Smith of Abilene and David Huff, nephew of Floyd Huff of Austin.

ATTEND REUNION
Mr. and Mrs. Jesse Harris and children and Mrs. Bill Ballard and children attended the Ballard reunion at the Cisco lake and park last weekend. J. J. Harris accompanied them and visited his brother and family. Mrs. Harris' father, Henry Ballard, of Hamilton, returned to Lockney with them for a few weeks visit.

GO TO CHURCH SUNDAY.

Widener Reunion Held August 19

The brothers, sisters, children and grandchildren of J. H. Widener met in family picnic at the Shelter House in the Plainview Park, Saturday, August 19th. This has become an established custom and will be held each year, at some place to be selected on the third Saturday in August.

Those attending were: Oscar Widener and daughters, Miss Celia and Miss Ima of Floyd, New Mexico; Mr. and Mrs. Geo. Widener and daughter, Shirley of Floyd; Mrs. Stella Wheeler of Childress; Mrs. Orville Wheeler and children, Memphis, Tex.; Mr. and Mrs. L. R. Morris and children, Plainview; J. M. Armstrong, McAllister, Okla.; Mr. and Mrs. Dale Widener, Jeanette, Nelda and Ernie of Dimmitt, Tex.; Mr. and Mrs. N. T. James and family, Childress, Tex.; Mr. and Mrs. Jim Widener, baby daughter, Ginger and Dale of Dumas; Mr. and Mrs. Lee Whitworth and Sharon Ann of El Paso; Mrs. Jay Williams, El Paso; Mr. and Mrs. Roy Widener, Thurman, Lynda, Donald, and Mike of Memphis, Tex.; Marvin Widener, Wilmer and Jerry of Portales; Mr. and Mrs. Roy Widener, Lois Ray and Stephen, Portales; Mr. and Mrs. Glen Widener, Dennis and Eddie, Portales; Mr. and Mrs. Travis Gossett, Portales; Mrs. D. S. Bruton, Dimmitt; Mr. and Mrs. Olen King, Cee Bee, Tex.; Mr. and Mrs. Loyd Widener, Loyd Lee and Janis, Lockney; Miss Joy Phillips, Memphis; Kirby Widener, Portales; Mrs. Stella Ozment, Childress; Mr. and Mrs. Lonnie Widener, Glenna, Wanda, Barbara, Joan, Junior, Jimmie and Gayle of Memphis; Mr. and Mrs. Alvin Yarborough, Larry and Sandra, Sterley; Mr. and Mrs. Ernest Widener, Portales; Mr. and Mrs. J. H. Widener, Lockney; Mr. and Mrs. Earl Widener, Portales; Mrs. Fay Jones, Floyd, N. M.; Oscar, Ernest and James H. Widener were the brothers and Mrs. Stella Wheeler the sister present. One sister in California, one brother in Kansas City and a sister-in-law in Denver, Colo. were unable to make the trip this year.

McAda Sells Interest In City Bakery

G. A. McAda has sold his interest in the City Bakery to H. B. Foster Jr. it was announced this week. The younger Mr. Foster is moving here and will join his father in the operation of the bakery. He and his wife have a year-old son, Sammy Derrell.

Young Foster is an experienced bakery man and will handle the outside work, contacting retail stores, etc., his father said.

Mr. McAda will continue to live here and will probably drive one of the local school buses as he has done for years, he said this week.

Garden Club Has Meeting Friday In Griffith Home

The home of Mrs. W. J. Griffith was the place of meeting for the Lockney Garden Club Friday afternoon, August 18. Lovely flower arrangements decorated the entertaining rooms.

Mrs. A. P. Barker was program leader for the meeting. Mrs. Herman King and Mrs. T. V. Rankin gave articles of interest to the group.

After the program, members were entertained with motion pictures made by the Griffiths on their summer vacation at Yellowstone Park.

Refreshments were served by the hostess, Mrs. Griffith, to the following guests and members: Guests, Mrs. Lena Pratt and granddaughter, Katherine, Mrs. Lewis Busby and Mrs. Mattie Griffith; members, Mesdames Alex Norris, T. V. Rankin, T. E. Cowart, L. M. Honea, A. P. Barker, Henry Ford, L. A. Cooper, T. B. Mitchell, Frank Roberson, Watt Griffith, R. E. Patterson, Herman King.

Two Floyd Co. Men Die In Crash

Elvis Truman Dillard, 31, and Billie Joe McPeak, 28, died as the result of an automobile accident Sunday, August 13 on the Matador-Roaring Springs road.

Both men were natives of Floyd County but lived at Matador at the time of the accident.

It was reported that the men were in a 1950 model Chevrolet sedan and apparently the driver lost control of the car and it turned over four or five times. Dillard died instantly but McPeak lived until Tuesday night. A third man in the car, W. R. Smelcher, was only slightly injured.

Funeral services for Dillard were held at Roaring Springs Assembly of God Church, Monday, August 14. Burial was in the Lockney cemetery. He is survived by his wife, two small children, his parents, Mr. and Mrs. Ben Dillard of Roaring Springs, three sisters and three brothers.

Funeral services for McPeak were held Thursday, August 18 at the Floydada Methodist Church. He is survived by his parents, Mr. and Mrs. George McPeak of Floydada, two sisters and two brothers.

For County Judges: G. C. TUBBS FRANK L. MOORE

Grass Planting Time Is Here

The planting time for improved pasture mixtures or irrigated pasture grasses is here. Normally, Fall plantings are more desirable than Spring plantings, according to Ralph R. Cogdell, Work Unit Conservationist, Floyd County Soil Conservation District.

Usually, several grasses with one or more legumes are planted in mixture. This prolongs the growing season and a green plant is available for grazing for longer periods of time. Smooth brome, perennial rye, orchard grass, alta meadow, and meadow fescue are the best grasses to plant. Crested wheat grass is good for limited irrigation. However, if plenty of water is available, the other grasses produce more volume.

A legume in the mixture makes a better pasture. Alfalfa is the best legume, but it may cause bloat if not managed properly. Birdsfoot trefoil will not cause bloat. Other legumes used are Madrid sweet clover, sweet clover, Ladino clover, vetch and Hubam clover. It is better to plant a legume that is not an annual. In some cases, a mixture of grasses without a legume is used.

The rate of seeding is usually 15 to 20 pounds of grass seed, plus 1 to 3 pounds of a legume.

Around one-half inch is the best depth to sow. Several cooperators of the District have had some bench leveling done, which will be planted to the pasture grass mixture. The benched area will hold all the rainfall and there will be no tail water loss. To get the most out of the pasture mixture, it should be irrigated as often as alfalfa.

Management of improved pasture grass mixture is essential. The area should be divided into three plots for grazing rotation. One area is grazed while another is watered and the third one gets new growth. As soon as a plot is eaten down, the livestock should be moved to fresh pasture and that plot irrigated. By this means, uniform grazing is accomplished and the grass can recover.

If you are not going to manage the irrigated pasture, plant a straight seeding of perennial rye.

Mr. and Mrs. Valca Thomas attended a reunion of the Oliver and Ferguson families Sunday at the W. E. Ferguson home in Plainview. Their daughter and husband of Canyon, Mr. and Mrs. Billy Roach and Mr. and Mrs. Stinebaugh also attended.

Mr. and Mrs. Bill Watson and son, Oran, were here from Abilene last weekend visiting Mr. and Mrs. Glen Watson.

Indians in the United States were given citizenship on June 2, 1921.

HEALTH HINTS FOR LIVESTOCK PREPARED BY AMERICAN FOUNDATION FOR ANIMAL HEALTH

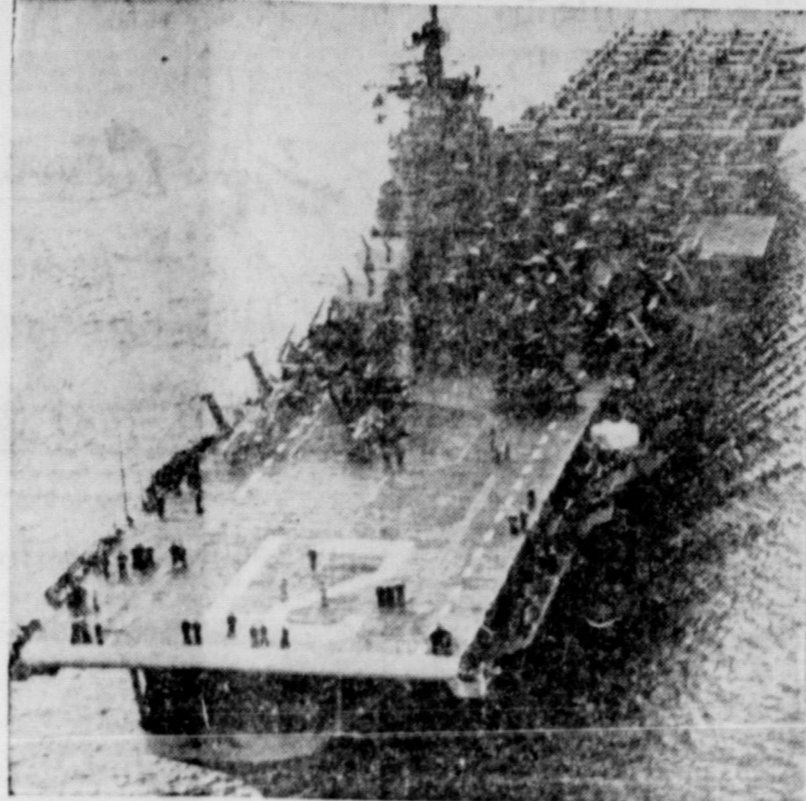

CALF DEATHS HIGH: ONE OF FIVE LOST About one calf out of every five that is born never lives to produce milk or beef.

Proper care will save more calves. Apply proved preventive and treatment methods, at least half of the total loss could be avoided.

Some calf deaths related to poor feeding and care of pregnant cows. Poorly ventilated, unsanitary calf barns are also linked with sick calves. Scours and pneumonia likewise rank as top calf killers, while parasites come as a close second.

USS Boxer Sails for Far East

SAN FRANCISCO — The Essex-class carrier, USS Boxer is shown here as she sailed for the Far East. Loaded with jets, Mustangs and F4U's, the Boxer is anxiously awaited by the Far Eastern Command.

Fire Department Benefit Show Is Big Success

Buddy Brown was the first place winner of the variety acts in the two performances of the Hayloft Jamboree presented Monday and Tuesday nights at the City Auditorium for the benefit of the Fire Department. Buddy sang and was accompanied on the guitar by his father, J. B. Brown.

The Jamboree was well attended and provided plenty of entertainment for all groups. The Volunteer Fire Department will buy needed fire fighting equipment with the benefit money.

A song team composed of Deanna Arterburn and Oddie Mae Rogers won second place in the variety acts. Evelyn Hooten captured third place by singing "Buttons and Beaux."

Sue McClure was chosen queen of the Tiny Tot contest. She is the daughter of Mr. and Mrs. F. R. McClure. Benny Reecer, son of Mr. and Mrs. L. L. Reecer was crowned king. They were presented with loving cups. The prince was Lynn Murphy and the Duke, Robert Steele.

The Fire Department wishes to thank everyone that had a part in the entertainment and helped to make it a success. Especially do they thank the Floydada people that were in the Jamboree.

Brunner Occupies New Building

Brunner Lumber Company is now occupying the new addition to their building at the south end of Main Street. The company has added a large line of builders hardware and home appliances.

The new show room and office is very attractively finished, has modern fluorescent lighting and several display islands. A number of Hot Point home appliances are on display along with the hardware and building items.

She said that if he was her husband she'd give him poison; and he said that if she was his wife he'd take it.

HEALTH HINTS FOR LIVESTOCK PREPARED BY AMERICAN FOUNDATION FOR ANIMAL HEALTH

saving calves. Even on farms having a long history of high calf mortality, veterinarians and herdsmen have worked out housing systems which have brought a marked decline in the number of calf deaths.

In avoiding sick and dead calves a little prevention is ever so much better than attempts at salvaging animals already sick. Before the next calf crop is due, the farmer should survey his calf nursery. He should be sure that the calf quarters are sanitary, well ventilated and with access to sunlight.

All new-born calves should get the colostrum, or "first milk", but should not be overfed. Colostrum is highly fortified with vitamins and minerals. It was designed by nature to give young animals the best possible start in life. Ordinary milk cannot take its place.

If previous losses from scours or pneumonia have occurred, it may be a wise caution to have serum given to each new-born calf. If any calves scour or breathe heavily, a veterinarian should be called promptly, as these are signs that denote real danger.

The S. S. Savannah was the first steamship to cross the Atlantic.

Uncle Sam Says

It usually takes a substantial bundle of money to start your own business. So, if you're looking forward to the great day when your name will be up there on a store front or on a shingle, now is the time to think about the cash you'll need. There is one sure way to be ready for that time, to take the plunge if you want to, and that is by investing regularly in U. S. Savings Bonds. Then at the end of ten years you'll get back \$4 for every \$3 you invest today.

TEXAS LARGE CITIES

Texas are always figuring out some new angles to brag on this wonderful state of ours, so we decided to pick out one of the 100 largest cities in the United States. Texas has among that list none other than six. Houston with a population of 593,600 ranks 14th; Dallas with 532,805 is 22nd; San Antonio ranks 25th, with 405,973; Fort Worth is 38th, with 277,049; Austin is in 72nd place with 131,964; El Paso 75th, with 130,003. EDITORIAL

For the earth which drinketh in the rain that cometh off upon it, and bringeth forth herbs meet for them by whom it is dressed, receiveth blessings from God. — Hebrews 6:7.

SATURDAY is election day. The Korean war and the world situation makes it all the more imperative that every citizen fulfill his obligation as well as privilege by voting. We have and rant a lot about our great American heritage of freedom and our Democratic government and yet many of us are too lazy, indifferent and neglectful to take the trouble to cast a vote.

SATURDAY is election day. If you don't cast your vote for the man of your choice then you have no right to criticize or complain about what happens after they get in office. If you are willing to leave the selection of public officials to your neighbors or friends, then you should also be willing to let them do the

criticizing, if there is any done. —oO—
SATURDAY is election day. Go to the polls and vote. —oO—
Although there are some state races in which we don't believe it makes a great deal of difference, there are three that the voters ought to be careful about. The first is the office of Lieutenant Governor. Reports from almost every reliable source say that Ben Ramsey is by far the best qualified man for the job. Vote FOR Ben Ramsey. —oO—
In the race for Associate Judge of the Supreme Court, Plainview 3, Meade F. Griffin of Plainview deserves the support of every West Texan. He is an able, well qualified jurist. Vote FOR Meade Griffin. —oO—
In the race for Judge of the Court of Criminal Appeals, those who know are recommending W. A. Morrison of Milam County. He is by far the best qualified man. His opponent, Bob Lattimore, got into the run-off simply because he happened to have the same name of a noted and able judge of the past. DON'T vote for Lattimore, vote for MORRISON. —oO—
Too long people of Texas have voted for the men because of a name and not because of qualifications. Be careful how you vote. Some of our state courts have lost prestige because of the lack of ability of those who sat on the bench. —oO—
SATURDAY is election day. Go to the polls and vote! —oO—
Not an optimist, but a realistic view held by many is that a little war eventually leads to a big war. That, it is pointed out, might be the case in Korea. This is the pattern that other recent wars have taken. We might see it repeated. —oO—
So far no government controls on materials have been imposed, but the federal agencies are busy on the ground work for all the controls that were imposed in the last war. It is even reported that steps have been taken to locate the paper that would be needed to print ration books should the necessity for such arise. The printing of the ration books during World War II was said to have been the biggest single printing contract ever let by this government. —oO—
Prices are on the way up. At the moment the only thing that

contributes to the rise in food prices is the rush of buying by so called hoarders. A hoarder is one who buys more than enough for his immediate needs, and more than he has been normally accustomed to buy. This drain on the visible supply tends to create a scarcity and anything like a scarcity results in a price increase. —oO—
An exchange tells of an elderly man who sought the Fountain of Youth, was given six pills which he was directed to take "one each day for six days." "I'll take them all at once and have it over with," the patient said to himself, and accordingly did so. The next morning he overslept until members of the family became uneasy and decided to awaken him. This they accomplished after much difficulty. The old man rubbed his eyes sleepily and finally said, "Well, I'll get up but I won't go to school." —oO—
The pictures in the life insurance advertisements showing the business man retired on an ample annuity while he is yet in the prime of life and is able to go places and see things, while he junks all business cares and responsibility, makes a striking appeal to the tired and harassed average man and is good advertising copy, but it is not what most active business men would really desire. A few days or a few weeks vacation is desirable, but a life which consists of a continual round of golfing, skiing, racing and mountain climbing would soon become monotonous to any man of energy and industry. By the time a man is able to secure a competence through saving, the habit of thrift and industry has become so thoroughly grounded in his being that idleness and the life of a playboy appeals to him as a disgraceful waste of valuable time. —oO—
Of one thing we are satisfied, and that is the flying saucers are not originating in this country. We base our assumption on the fact that a complete write up of how and where they are made has not appeared in our favorite magazine which is the system customarily followed by those whose duty it is to keep secret on our military secrets.

My Neighbors

"Too much government is like farm in a gravel-pit. A fellow sure loses his enthusiasm for it in a hurry!"

With Our EXCHANGES

SLUGGARDS IN BRASS HATS

We wonder at times what is in the military setup which seems to breed mental stagnation. It is almost a maximum that our Army visualizes the next war in terms of the last.

For example, many will recall from personal experience how our ROTC units were indoctrinated in World War I tactics right up until the time the bombs fell on Pearl Harbor. Undoubtedly the ROTC boys in 1916 were solemnly studying the lessons of San Juan Hill, or perhaps Gettysburg.

In the area of weapons of war, this lack of imagination among military men is even more clearly evidenced. At the onset of World War II our tanks, while improved over their 1918 predecessors, were no match for their German counterparts.

With all the hoopla about push-button warfare, our Army is presently fighting in Korea with World War II equipment, with few improvements so far as we can see. A refreshing departure from the mossback tradition is our new super-bazooka, which we hear is knocking off the Russian tanks with considerable success. If the lad who deserves the credit for that isn't a general, he's our favorite candidate for shoulder stars. However, you will note, our brass-trimmed sluggards played their little role too, for we didn't have any of these the fighting began, and our super-bazookas over there in the war area for a few weeks after

World War II peashooters were bouncing shells off the Russian tanks like ping pong balls.

The most graphic illustration of the mental inertia of the top brass again is in our tanks. Although we are the greatest industrial nation on earth, and although we have known for some time that the Russians have had 60-ton tanks, and plenty of them and although every American past kindergarden has known that Russia is our most likely foe, we don't have anything to match the Russian behemoths. We have some big ones in the test model stages (ready for production next year), but the largest type available is the Patton tank, which is considerably lighter than the 60-ton jobs the Russians possess. The Pattons are now being sent to Korea, and we should know before long how well they perform in combat. An American tank expert assures us that, though lighter than the 60-ton Stalin tanks the Pattons can slug it out with them.

Brother, they had better. They are going to have to. — Jayton Chronicle.

IMPORTANT CAMPAIGN

Panhandle supporters of Ben Ramsey, a runoff candidate for lieutenant governor of Texas, are working up an intense campaign in the plains country. Mr. Ramsey, a resident of San Augustine, is not familiarly known by the majority of Panhandle voters, but those who know him are campaigning for him.

Mr. Ramsey is an able, experienced man. He has served long in the Texas Legislature and as Secretary of State. He has the kind of experience a lieutenant-governor should have.

Perhaps the most significant thing about the campaign for lieutenant-governor is the fact that the vast majority of the state senators are working in the interest of Ben Ramsey. The lieutenant-governor presides over the senate and is the key man in all legislation. The senators know what kind of experience they want in a presiding officer; they know the importance of experience in that office. It might be wise for us to heed their recommendation, especially in view of the fact that Ben Ramsey has a record of distinguished service in Texas.—Amarillo Daily News.

Long Ago In Lockney

Items of interest from the files of The Lockney Beacon.

August 6, 1908

The enrollment was begun Monday morning for the summer normal held at the college by Prof. Acuff and about 95 persons were enrolled.

Tab Meriwether (otherwise Albert), E. L. Ayres, and Mrs. Trintie Brewster left Friday last for the St. Louis markets to buy fall stock.

R. C. Bennett is building a neat little cottage on Locust street and will start another as soon as that is finished. There are eight new houses being built in Lockney.

Last Monday as Mrs. R. F. Frye and sister were returning from the farm, old "Polly's" "anti-automobilist" sentiments suddenly aroused and she cut loose and came home, leaving the ladies for Mr. Wofford to bring home in his "merry automobile."

Bed Rigdon, Luther Cooper, Walter Wilson, and Rod Rigdon were in Plainview Wednesday night.

Messrs. Wilkinson and McPeak had the pleasure of visiting here last Monday from Floydada, for their health they say.

Friday about 30 Knights of Pythias from Plainview and Floydada met at the W. O. W. Hall and from 8 p. m. until 5 a.

m. engaged in the initiation eleven of the unknown.

October 25, 1918

R. M. Broyles returned last week from a business trip to Louis.

George Applewhite, now training at San Diego, came Sunday on a visit to his parents Mr. and Mrs. C. Applewhite.

Mr. and Mrs. Buck Sams and children have all been suffering with the popular epidemic, "flu."

Judge Thompson and S. Henry spent Thursday at Ft. and Quitaque.

IMPERIAL... is the word for it!

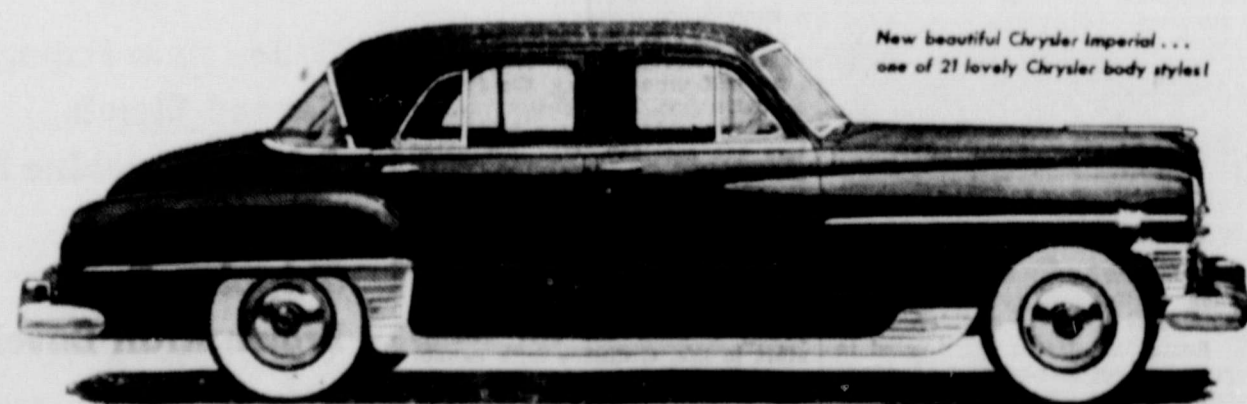

"Imperial," says Webster, means "superior excellence." IMPERIAL, says Chrysler, is this luxurious new car that excels anything on wheels in the sheer exquisiteness of its styling. Come look inside this reigning beauty... look at the lavish wool broadcloth fabrics, tastefully combined with topgrain leathers. Look at the lovely color harmonies, the soft sheen of the butter-finished chrome. Consider the advantages of Fluid Drive... exclusive new automatic transmission... Waterproof Ignition... Full Flow Oil Filter... High Compression Spitfire Engine... electric window lifts... the CLEARBAC rear window for exceptional driver vision... and dozens more. Surely, of all the world's fine automobiles, only the Chrysler CROWN IMPERIAL, this car's running mate, achieves the same aristocratic distinction. Come see the flawless workmanship, the fine materials, the superb Chrysler engineering... and you'll agree that no other car, at any price, compares with the Chrysler IMPERIAL. Inside or out, there is no finer car in America!

ONLY THE CHRYSLER IMPERIAL offers you this absolutely unique system of window control! Each window has its own separate electric motor... each one can be raised and lowered independently from the driver's seat or at the window itself. And that's not all! So many other de luxe features... the kind you think of as being in the "special order, extra cost" category... are STANDARD EQUIPMENT on the Chrysler

Imperial. For example: armrests on all four doors... foam rubber seat cushions and seat backs... double width center armrests in front as well as rear seats... stainless steel wheel covers... white sidewall tires... carpeted luggage compartment Full flow oil filter and many other engine features! Yes, you get all these extras as standard equipment with your beautiful new Chrysler Imperial.

New beautiful Chrysler Imperial... one of 21 lovely Chrysler body styles!

Inside and out... it has no equal at any price...

Bands Invited To State Fair Oct. 18

Fifty of the best high school musical organizations in Texas will take part Oct. 18 in the mammoth Mid-Century Music Festival of the 1950 State Fair of Texas, James H. Stewart, executive vice president and general manager, has announced.

The most colorful and tuneful event of its kind ever presented in the Southwest, the festival is sponsored jointly by the State Fair and the Texas Music Educators Association. About 4000 young musicians will be on hand.

Twenty choral groups, 20 bands and ten orchestras selected from the ten regions of the TMEA will participate. In addition, three outstanding marching bands from Oklahoma, Louisiana and Arkansas have been invited.

Each individual unit will play or sing a 20-minute concert some time during the day. Concerts will be under way simultaneously at three different places on the 187-acre, \$35,000,000 show.

Band members will "do the fair" when not performing and will be guests of the State Fair for the evening meal.

A huge massed orchestra concert will be given at 5:30 p. m. in front of the Hall of State and all bands will march and play in the gigantic Parade of the Decades, which will be a nightly feature of the 1950 Fair. The mile-long parade will begin at 7:30 p. m. on Oct. 18.

In the Cotton Bowl at 8 p. m., the combined choruses, bands

Lubbock visited in the Griffith home from Monday night until Wednesday.

Baker Hardware Co.

New Chrysler Parking Brake Works Easily

The pull of one finger can hold the heaviest passenger car on the steepest of grades through a powerful new parking brake now being installed on Chrysler cars, according to Joseph A. O'Malley, general sales manager of the Chrysler Division.

The new "Easi-Lock" parking brake is designed to hold the mammoth Chrysler Crown Imperial, loaded to a gross weight of 6,200 pounds, from rolling backward on a 32% grade. Should the need arise, it can bring the car to a complete stop from any speed.

Mounted on the propeller shaft, the new hand brake is completely independent of the wheel brakes. It is of the internal-expanding type and provides more than three times the maximum effect of the external-contracting hand brake which it replaces.

When the brake is engaged, both brake shoes become self-energized to utilize the motion of the car in multiplying the brake action.

Besides increasing the braking effect, this self-energizing action also greatly reduces the amount of pull necessary to set the brake. A woman driver's average pull in setting the new brake is sufficient to make it impossible for the car to be driven off with the brake engaged.

The brake unit is fully enclosed to keep out dirt and oil, so that a minimum of servicing is required. Longer lining life is assured by this added protection and by the use of Cyclobond brake linings.

The new brake is now being installed on all Chryslers that have Prestomatic Transmission with Fluid Drive.

Cream Peas Are Best To Freeze

College Station.—Varieties and selections of peas in the cream group produced the more attractive packs when experimental freezing trials were conducted with varieties and selections of Southern peas grown at College Station.

These freezing trials were conducted by Thomas S. Stephens and W. H. Brittingham of the department of horticulture, Texas A. & M. College.

The group of cream selections and varieties were of excellent appearance when they were removed from the freezer at the end of three months and allowed to thaw at room temperature prior to opening the container. One cream selection was slightly chalky in appearance.

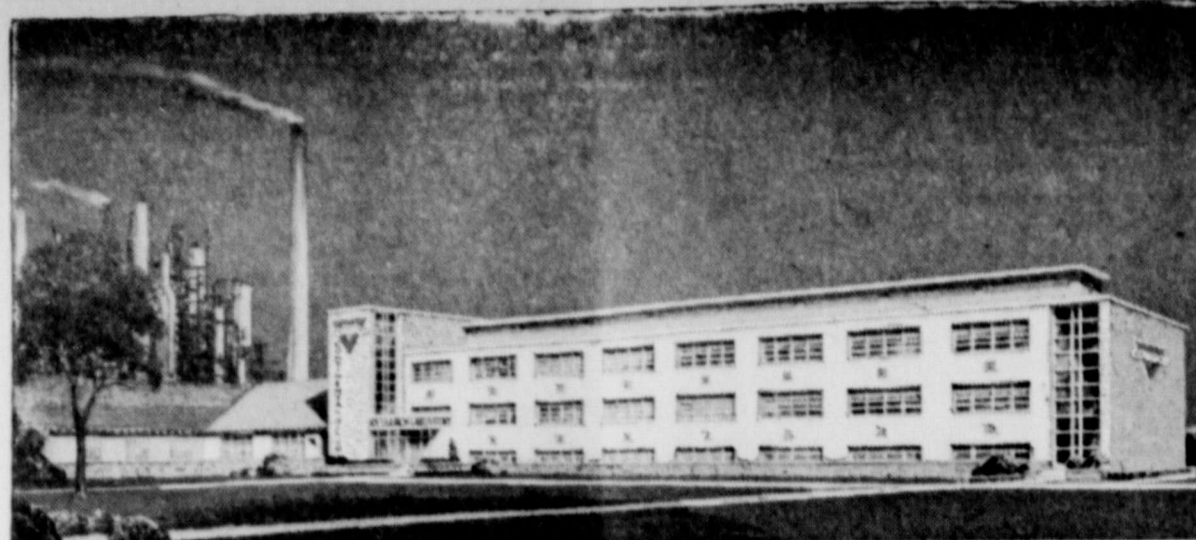

The researchers say that the brightness along with a light color which the cream group possessed could give them the advantage of "eye appeal" and consumer acceptance.

They found that the most attractive pack in the pigmented "eye" group was obtained by using varieties or selections with light (buff) eye color because the dark (maroon and black) eye colors diffuse into the body of the pea when frozen.

The peas were examined for splits and defects after thawing and after cooking, but there was no indication, except in case of one of the cream selections, that a variety or selection which had a low split and defect percentage after thawing would exhibit the same, low split and defect percentage after cooking.

After being cooked, nearly half of the California No. 5 Blackeye peas were split, while one of the cream selections had a split percentage of only about 10 percent after cooking. The Jackson Purple Hull packages had the highest percentage of defective peas both after thawing and after cooking.

Stephens and Brittingham say that they consider Jackson Purple Hull the least attractive of the varieties tested for freezing preservation because of the tendency for this variety to mush, as evidenced by the highest percentage of defective peas before and after cooking, and because of the deep maroon color which diffuses into the body of the pea.

Continental Oil Company has awarded a contract for construction of a \$2,250,000 research laboratories building in Ponca City, Okla., that will provide the Company with one of the most advanced development and research programs in the American oil industry. It has been announced by President L. F. McCollum. The new structure, as shown in the architect's sketch above, will be three stories and is expected to be completed in the fall of 1951. Approximately half of the building will be occupied by the Company's central research laboratories, which will include an organic chemical laboratory, comprised of a petroleum chemical division and a lubricating oil division; a physics research laboratory, for research in electronics, X-ray diffraction and mass spectrometry; an analytical laboratory, consisting of both chemical and physical methods units; and a colloid laboratory, for carrying on fundamental work on greases and allied materials.

POISONOUS PLANTS THREAT TO STOCK

Poisonous plants cause American livestock raisers many million dollars in death losses and sickness each year.

Trouble of this type is more apt to occur among young animals—

Plants cause many livestock losses.

among those subjected to poor pastures, or livestock that has been moved to new pastures.

Most state colleges supply good bulletins which help owners identify the common poisonous plants of their region. Or, any veterinarian will give information on seasonal poison plant hazards.

Many of the noxious plants such

as young cockleburs, junco weeds, nightshade, harkness or young hemp contain specific poisons. Another large group of growing forage of the sorghum family such as Sudan or arrow grass and cane may contain prussic acid, especially if frozen, stunted or wilted. Other plants sensitize animals to the rays of sunlight, causing serious skin trouble or swollen heads.

One great danger is that spotty animal losses may be ascribed to poison plants when the true cause is some contagion like blackleg or anthrax. When doubt as to cause exists, skilled consultation should be sought at once.

If a livestock owner suspects that a pasture may contain poisonous forage, he can cut down his risk by allowing one of his least valuable animals to graze there.

If the animal is unaffected after 10 days or two weeks, the pasture probably is safe. But as a double check, the owner should keep close watch on the animals. He should also keep antidotes on hand which he can give as first aid before the veterinarian arrives.

CARD OF THANKS

We wish to express our deep appreciation for the beautiful floral offerings, and the many kind words of the friends and neighbors in the death of our son and brother.

The McPeak Family.

Miss Merlene Miller and Johnny Ed Howe of Panhandle visited Sunday in the Ed Whitfill home.

Mrs. Johnny Moody accompanied her grandmother, Mrs. Ella Cumble to Vernon Sunday where they visited relatives.

Children of Mrs. Laura Stapleton at her home Sunday were Mr. and Mrs. Ralph Stapleton of Flomot, Mr. and Mrs. Pace Cramer of Fort Worth, Mr. and Mrs. John Stapleton and children of Floydada, Mrs. Clyde Dunn of Goldsmith, Mrs. E. L. Woodburn, and Mr. and Mrs. Pat Woodburn and children of Van.

Mr. and Mrs. M. C. Wisdom and three small sons of Amarillo and Mr. and Mrs. Ted Tomlinson of Lubbock were weekend visitors in the W. C. Wisdom home.

Adding Fluoride Salts To Water Slows Tooth Decay

Austin.—City fathers in three Texas cities, by artificially adding fluoride salts to their municipal water supplies, are making the dream of fewer tooth cavities come true.

Corpus Christi and Marshall have fluoridation systems working now. Austin has one in the installation process.

If things go according to plan, children in these towns will be spared easily half the visits they now have to make to their family dentists, because they'll have fewer cavities.

State Health Officer Geo. W. Cox describes the fluoridation process as a "tremendous step forward in the fight against dental diseases. It's simple and inexpensive, as well as effective."

"It won't be a cure-all," cautions Dr. Edward Taylor, director of dental health in the State Health Department. "It won't give children complete protection against tooth decay, but it will reduce decay from 23 to 47 percent."

He said that range of reduction percentage had been established in departmental experiments with artificial fluoridation in Marshall.

The addition of the chemical to drinking water in the ratio of 1 to 1.5 parts per million parts of water now has been recommended as a decay control measure by the United States Public Health Service, the American Water Works Association, and the Association of State and Territorial Dental Health Directors.

Recommendations are subject to approval of state and local

health departments, which has been granted in the case of the three Texas cities.

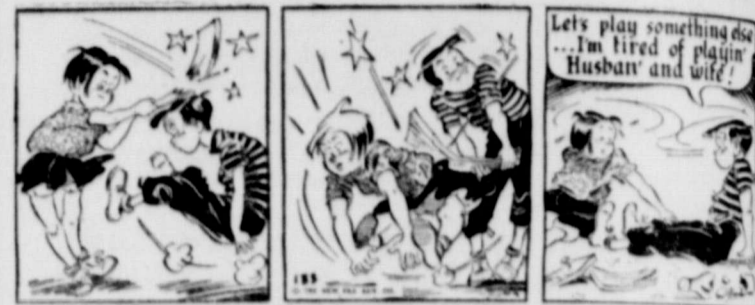

Marshall began artificial fluoridation in 1946 in a controlled experiment, and was a leader in the field both nationally and locally. Corpus Christi began the water treatment in October last year.

Austin City Manager Walter Seaholm has indicated that orders for equipment have been placed, and treatment will begin as soon as delivery and installation are complete.

TO THE VOTERS OF FLOYD COUNTY:

The race for County Judge of Floyd County is drawing to a close. I have enjoyed meeting the folks and asking for your vote and influence in the nicest way that I know how. This is the sixth campaign for public office that I have made in the County, all of which were conducted on the same high plane, no one has ever heard me abuse or defame the good name of any opponent that I have ever had. I realize that we are all neighbors and friends and I am glad that it is that way.

With the experience that I have had during the past 37 years, I sincerely believe that I can make you a good County Judge, a Judge for all the people in all of Floyd County, capable of handling the County's affairs and finishing any building or building program that has already been started in the County. I will work at all times to keep the expenses of the County down.

My opponent is now serving his eighth year as County Judge. Don't you think it is time to give someone else the job? If elected I will do my dead-level-best to make Floyd County a good County Judge, and will have no other business of any kind operating out of the County Judge's Office, but will devote my entire time to the affairs of Floyd County. Don't you think that you as Tax Payers of Floyd County deserve a full time County Judge?

Your vote and influence will certainly be appreciated, and thanks for the nice vote that you gave me in the July Primary Election.

FRANK L. MOORE

Candidate for County Judge.

Floyd County, Texas.

and Mrs. Pat Woodburn daughters of Van, Texas visited Saturday until Tuesday his mother, Mrs. E. L. Woodburn.

and Mrs. J. D. Morgan of Aquerque, N. M. are visiting week with her parents, Mr. Mrs. E. A. Roberts.

George Newman of Lubbock visited Sunday and Monday with her son and his wife, and Mrs. Wendell Newman.

THDA Worker To Attend World Conference

College Station. — Mrs. R. M. Almanrode, an outstanding Knox county home demonstration club member of Munday, Texas, has been selected as a delegate to the 6th Triennial Conference of the Associated Country Women of the World in Copenhagen, Denmark, September 10 to 16. The trip is sponsored by the Country Gentleman League, and Mrs. Almanrode is the only delegate from Texas.

Prior to leaving for Europe, the group of delegates will meet in New York and attend a session of some branch of the United Nations. The delegation will leave the United States aboard the S. S. Washington on August 23. They will stop in England for a two or three day tour and then proceed to Belgium and Holland and on to Denmark for the conference.

After the conference ends, the group will go by motor coach on a tour of Western Germany, Switzerland, and France, and will leave France to return to the United States on October 6.

Mrs. Almanrode will serve on the Policy committee at the conference.

For the last two years Mrs. Almanrode has served as state secretary of the Texas Home Demonstration Association. Previously she had served as vice president of the Texas Home Demonstration Association from District 3.

Mrs. Almanrode has been an active member in home demonstration club work since 1925. During the last 25 years, she has held every office in the Sunset Home Demonstration Club of Knox County and has participated in every phase of the program. She has recently been nominated by her local club for president of the Texas Home Demonstration Association. The election will be held at Big Spring August 23-25 during the 1950 annual meeting.

Plywood Economical In Many Farm Uses

Brooder Houses Prove Utility of Material

Farmers are finding that the high strength and light weight of plywood makes it an economical and efficient material to use in portable farm buildings such as brooder houses, hog shelters, and range sheds.

A brooder house, a building magazine reports, should be of adequate size, warm and dry, and properly lighted and ventilated. To

Here is a "turkey feeder" that is easily and economically made from exterior plywood—weather can't harm it and it's easy portability appeals to farmers.

be economical, it should be relatively low in first cost, and yet be strongly built to give long life without expensive and troublesome upkeep. For convenience, it must be easy to clean and move.

Portability, of course, is of prime importance. Some portable buildings, built by conventional methods, weigh as much as 2 to 3 thousand pounds. Farmers naturally hesitate to move a heavy structure frequently, and so invite exposure to disease. If moved often, particularly over rough ground, heavy buildings soon are loosened at the joints.

CITATION BY PUBLICATION THE STATE OF TEXAS

TO: Henry L. Lloyd; all of the heirs of the said Henry L. Lloyd, if he be deceased; their heirs and/or legal representatives; and all of the heirs, spouse or spouses, legal representatives, devisees and legatees of the above named and/or described persons and each of them, and any person claiming title or any interest in the hereafter described property. Defendants Greeting:

You are hereby commanded to appear before the Honorable District Court of Floyd County at the Court House thereof, in Floydada, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 18th day of September, A. D. 1950, then and there to answer Plaintiff's Petition filed in said Court, on the 31st day of July, A. D. 1950, in this cause, numbered 3894 on the docket of said court and styled J. Ray (J. R.) Lloyd, Plaintiff, vs. Henry L. Lloyd, et al, Defendants.

A brief statement of the nature of this suit is as follows, to wit:

A suit for title and possession of the following real property, situated in Floyd County, Texas, described as follows: FIRST TRACT: 124 acres out of the Southwest part of Survey No. 1, Certificate No. 423, T. T. Ry. Co., Abstract No. 279, Patent No. 258, Vol. 35, dated May 9, 1878, recorded Vol. 1-F, page 315, Deed Records, Floyd County, Texas, and being the same tract as that described in a deed dated March 10, 1937, recorded in Vol. 68, page 396, Deed Records of Floyd County, Texas; and a SECOND TRACT: 156 acres out of the Southwest part of Survey No. 1, Certificate No. 423, T. T. Ry. Co., Abstract No. 279, Patent No. 258, Vol. 35, dated May 9, 1878, recorded Vol. 1-F, page 315, Deed Records of Floyd County, Texas, and being the same tract conveyed by deed dated March 8, 1939, recorded in Vol. 75, page 472, Deed Records of Floyd County, Texas; and a THIRD TRACT: 32.5 acres, being the Northeast part of Survey No. 20, Certificate No. 45, S. & M., Abstract No. 2640, patented to L. H. Newell and Mrs. E. J. Block, Assignees, by Patent No. 140, Vol. 90-A, dated July 6, 1943, recorded Vol. 4, page 196, Patent Records of Floyd County, Texas; to which reference is here made for all purposes; all further described

in plaintiff's petition on file herein; and said suit being in the usual form of trespass to try title and containing further allegations to the effect that plaintiff owns the record title to said property and further owns title to said property under the three, five and ten year statutes of limitation, and that title is in the plaintiff, all as a result of peaceable and adverse possession under duly recorded deeds and claim of right, and payment of taxes on said property. If citation is not served within 90 days after the date of its issuance, it shall be returned unserved. The suit is brought as well as to try title as for damages, as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Floydada, Texas, this 1st day of August A. D. 1950.

Attest: Mary L. McPherson, Clerk, District Court, Floyd County, Texas. (SEAL) 48-4tc.

Watch your expiration date.

FLASH-O-GAS CO. PLAINVIEW

TO THE PEOPLE OF FLOYD COUNTY:

This is a partial report on the activities of your County Judge for the past eighteen months that I have been your County Judge. When I took over the office on January 1, 1949 one of the first things I did was check up on the amount of insurance on the different properties of the county. I found there was only \$70,000.00 insurance on the courthouse building. I recommended to the Commissioners Court that the insurance be increased to \$200,000.00, which the Court readily agreed to, and the policies then in force written with Frank Perkins and E. P. Nelson were endorsed to that amount. The Courthouse burned on March 11, 1949. As a result of the increase in the insurance the county recovered \$105,000.00 for the loss. We recovered approximately \$70,000.00 in insurance money more than we would have as it was originally written.

We have constructed 37 miles of paved farm-to-market roads. We now have under construction 10 1/2 miles of paved road. Plans are approved and now in the making, and contracts will be let soon for 24 more miles of farm-to-market roads. Other roads designated for improvement during the next two years amount to about 40 miles.

We have disposed of 111 misdemeanor cases, 11 civil cases, 4 mental illness cases, 63 probate cases, besides numerous probate orders, and juvenile matters, and innumerable minor matters constantly coming before the County Judge to be disposed of.

The Courthouse construction job requires considerable attention from the Commissioners Court and County Judge. The Commissioners Court has charge of all the business matters of the County, the County Judge presides over their deliberations and has no vote except in case of a tie. The County Judge hasn't had to untie a single vote during this eighteen months.

In view of the above record, I feel that I have earned a second term in this office, it being a custom of the Democratic Party to elect a man to a second term in any office unless he has been dishonest or incompetent in his first term and I have not been guilty of either. I solicit your vote on August 26, on my record which I am proud of.

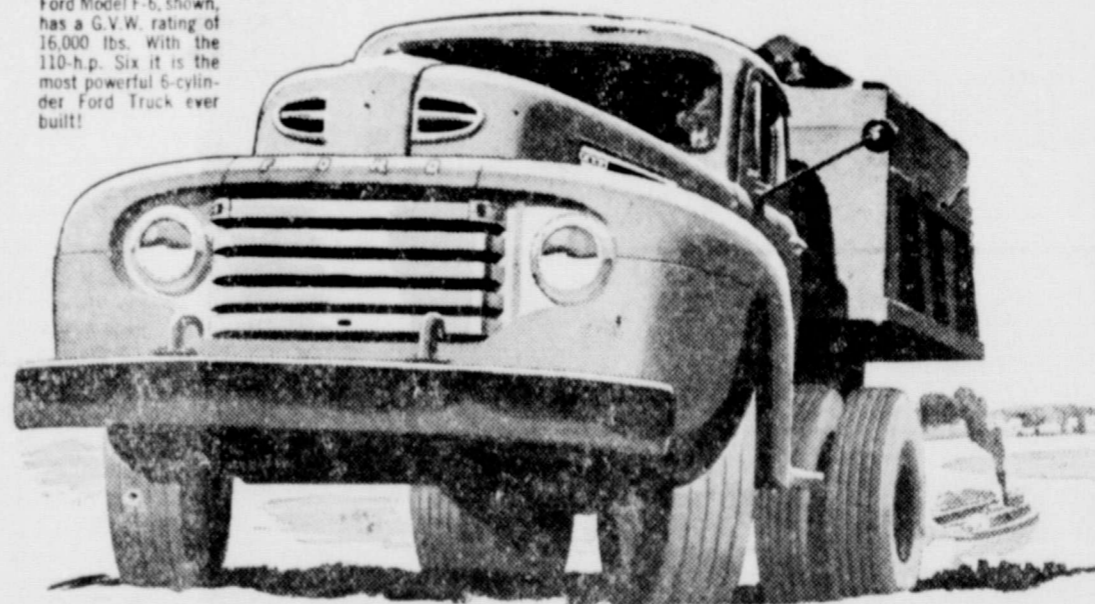

Respectfully submitted, G. C. TUBBS.

New Students Only Required To Pre-Register For School

Only new students, who are attending the Lockney schools for the first time this year will be required to register for high school classes previous to the opening day of school. Superintendent Sidney Reeves said this week.

Students who are attending Lockney schools for the first time and who are in high school are requested to come to the high school building on Friday afternoon, September 1 and register he said. Pre-registration last spring took care of most high school students.

Grade school students will all be registered on the opening day of school, Sept. 4, Mr. Reeves said.

Mr. and Mrs. E. L. Reece, Mrs. Sell Watson, all of Howe, Texas, Mrs. Mattie Coffey of Sherman, spent the week end here visiting their brother, Uncle Ben Reece and other relatives.

Mrs. Jack Taylor and daughter, Charlotte Ann visited Mrs. Taylor's mother, Mrs. A. H. Martin at Vernon last week.

David Catlin In Japan With Infantry

With the 7th Infantry Division in Japan—Private David L. Catlin, son of Mr. and Mrs. L. A. Catlin, Lockney, recently arrived in Japan to fulfill his assignment with the 7th Infantry Division. He was received enthusiastically by personnel of the veteran combat Division now busy with occupation duty in Japan.

Catlin entered the service in November of 1949 at Amarillo, Texas. Before being sent to Japan, he was stationed at Camp Stoneman, Calif.

Army authorities gave no hint of Catlin's future assignment but stated that he may well be expected to fill many critical positions in the 7th Division as it fulfills its mission in the Far East Command.

Dorsey Baker and R. E. Patterson were in College Station on business the first part of the week.

Mr. and Mrs. Floyd Huff and Mr. and Mrs. Douglas Degge and son attended a Huff family reunion at the Cisco Lake last Sunday.

HD Dress Revue Set August 31

A Dress Revue will climax this year's study of clothing and textiles in Home Demonstration Clubs. The revue will be held in the American Legion Hall in Floydada at 2:30 on Thursday afternoon, August 31. The dresses should be worn to Revue on afternoon of August 31st. Club members will model dresses they have made, and the public is invited to attend this demonstration.

A revue of past styles in clothing is expected to add to the afternoon's program. Each club will furnish two or three dresses that will be modeled in the show.

Mrs. Everett Miller of Harmony is chairman of the program committee. Other members of her committee are Mrs. O. G. Mayfield of Homebuilders, Mrs. Joe Reeves of Sterley, Mrs. W. E. Grimes of Friendship, and Mrs. W. F. Ferguson of Starkey.

The Exhibit Committee of the Home Demonstration Council will be in charge of receiving and classifying the garments. Mrs. Clyde Henderson of Center is chairman, aided by Mrs. Lee Pope of Pleasant Valley and Mrs. Sam Lide of Dougherty.

The Recreation Committee will be in charge of refreshments and stage decorations. They are Mrs. O. G. Shearer of Lakeview, Mrs. B. H. Quebe of Providence, and Mrs. Paul Sparkman of Starkey.

Gayle Sherman At Music Camp

Abilene. — Gayle Sherman of Lockney is among the members of the Eleventh Annual Hardin-Simmons University music recreation camp being held at the Lueders encampment grounds Aug. 14-26.

Miss Sherman will attend classes in twirling and drum majoring.

Six musicians, who are directing bands or teaching music, are teaching the courses. They are Pat Arsers, San Antonio; George Gates, Midland; J. D. Schoonover, Bryce Jordan, Macon Sumerlin, and Marion B. McClure of Hardin-Simmons.

Arsers, director of Alamo Heights high school band and director in San Antonio city bands, is chief clinician of the school. General director and percussion instructor is Marion B. McClure, director of the internationally known Hardin-Simmons Cowboy band.

Schoonover is instructor in brass; Jordan is head of the brass section, while Sumerlin is instructor in harmony and theory.

Gates, director of elementary music and of miramba, Daily ensembles, solos, coaching, and classes in conducting, harmony, and musicianship are conducted for students. Baton twirler Norma Kniffen offers instructions in twirling and drum majoring. Classes in roping and section drill also are given.

Old Registrants Should Quit Pestering Board

Austin, Texas.—Some men registered under the World War II draft act, now past 40 and 50 years of age, are attempting to advise old local boards of changes of address and status, although these draft boards have been out of existence for years.

As a result, these cards and letters are flooding present local boards and Selective Service headquarters here.

Brigadier General Paul L. Wakefield, state director of Selective Service, advised today that "these men no longer have to advise of any change of address or status, as the law under which they registered was terminated by Congress in 1947."

The only men who are obligated to keep local boards advised are those registered under the Selective Service Act of 1948, which became law on June 24, 1948, the state director pointed out.

"Any man who has registered with Selective Service in 1948, 1949, or 1950 is obligated to advise his local board of address and status changes," General Wakefield said. "Any man who registered with any local board prior to those years is not required by law to do so."

The state director said that every man should ask himself the question: "Should I be registered under the Selective Service Act of 1948?"

The answer, says General Wakefield, is simple. If the man was born on August 30, 1922, or after, he is required to be registered, provided he is not under 18. If he was born prior to August 30, 1922, he is not required by law to be registered under the Selective Service Act of 1948.

Males are required to register on their 18th birthdays or within five days thereafter.

TWO VACCINES CUT FEEDER LAMB LOSS

Ever since modern transportation made possible our huge feeder lamb industry, two diseases in losses that cut sharply into the feeders' profits. One is called enterotoxemia — or "overeating disease" — and the other, ethyemia — or "contagious sore mouth."

So research veterinarians set out to find something which would put an end to this costly condition. Responsible for enterotoxemia, they found, incidentally, was much like one which is used to make a vaccine for protecting human beings against small pox.

The cause of "sore mouth," a virus, was discovered by a Texas veterinary scientist. He perfected an efficient method for making a vaccine which would immunize sheep against this disease. His method, incidentally, was much like one which is used to make a vaccine for protecting human beings against small pox.

These two contributions to science are now being used in all countries where sheep are raised, and are contributing much to lamb feeding profits.

A case of "contagious sore mouth." particular have plagued it. Both have caused heavy death
