Boedeker Talks On School Week

"May we never see the red flying over this country without the white and blue," were the closing remarks of a talk made by Charlie Boedeker at a Public School Week program held Wednesday afternoon at the C. N. Townsend Elementary school in Lockney. Mr. Boedeker's talk was on the theme that the future of the nation lies with the youth of today. It was well received by a fair crowd who attended the program.

A flag raising ceremony preceded the talk when R. C. Mitchell, president of the Lockney Lions Club presented the school with a flag on behalf of various clubs and organizations of the city.

Friday of this week has been set as "school visitation day" and patrons of the school are invited to spend that day visiting classes and school rooms. The public is also invited to eat lunch at the school but are requested to notify the school of their intention so that enough food may be prepared.

Mr. Boedeker also spoke last Friday to the Lockney Rotary club on the Public School Week subject. In this talk Mr. Boedeker warned of two menaces to this nation, those of Communism and Catholicism, and urged that citizens of the country ever be on guard against forces that would overthrow our form of government.

Lockney Lumber & Supply In New Office Building

Lockney Lumber and Supply has occupied their new office building constructed just recently on the north side of the lumber yard. The new building is of concrete tile with a brick facing on the front and affords the local firm ample room to display merchandise. Leon Wofford is the owner.

The front and south side of the new building is glass affording excellent display space and light. The building is 30 by 90 feet overall. In addition to the office, display racks for paint, builders hardware, bolts and nuts and other merchandise is provided.

The firm will, of course, retain the big oval top building to house their lumber and other building materials. The lumber yard was established soon after World War II here and has continued to grow and increase its stock of merchandise since that time. The new building is a very nice addition to the business buildings of the city.

Stray Dogs Will Be Killed Here

City officials issued another warning this week that all stray dogs within the city would be killed and urged local dog owners to keep their dogs penned in their own yards.

There are many stray dogs roaming the city at this time and many complaints are coming to city officials concerning them. A city ordinance requires all dogs to carry a dog tag issued by the city office.

Board Plans To Increase Values In School Dist.

The next step in the building program of the Lockney Rural High School district will be to increase property valuations in the district, school officials said this week. This step is necessary in order that the district may dispose of the bonds voted last Saturday.

The board of trustees expect to employ an assessor and appoint a board of equalization soon in order that the district's property may equalized in valuation and raised enough to make the bonds saleable. Amount of the proposed raise was not announced but property valuations will still be below other school districts in this area, it was said. Tentative plans being discussed by the board include the raising of the valuations and the lowering of the tax rate to \$1.00 per \$100 valuation. Whether this plan will be carried out is not known as yet but it is in the talking stage. The raise in valuation and lowering of the tax rate would result in some increase in amount of taxes paid but the increase would not be great, officials said.

Bonds Carry

In the election last Saturday the vote to authorize the board to issue bonds carried at about a 3 to 2 ratio. The vote was 157 for issuing the bond and 104 against. Some opposition to the issuing of the bonds and 104 organized causing voting to be fairly heavy for this type election.

On the No. 1 proposition which was reaffirming the tax rate at \$1.50, the vote was 180 for and 78 against. The No. 2 proposition, the assumption of bonded indebtedness on territory attached to this district carried 169 to 95.

Saunders has been stationed at Plainview 33 months and has been in the State Highway patrol three years.

Mr. Saunders helper, Thurman Keffer, has been ordered to report for duty with the armed forces and unless he can secure a deferment the district will lose both men.

Sunday will be the beginning of "Dedication Week" and will close the following Sunday. The Levelland Lobos won the regional Class AA basketball title Saturday night defeating the Canyon Eagles by the score of 56 to 55 in the tightest game of the tournament. Levelland had previously defeated Quanah 33-31 while Canyon defeated Childress 48-35.

In the Class A Dimmitt soundly whipped the Denver City Mustangs in the final game 85 to 47 to win the regional title and advance to the state meet. Previously Dimmitt had barely slipped past Clyde 49 to 48 while Denver City had eliminated the

District 3A winner, Abernathy, 64 to 56.

Both teams will enter the state meet to be played at Austin this week end.

EDITORIAL

And they have turned unto me the back, and not the face; thought I taught them, rising up early and teaching them, yet they have not hearkened to receive instruction. — Jeremiah 32:33.

The heavy vote in the school bond election last Saturday is a healthy thing. It is an indication that the general public is interested in the school and that is as it should be. If ever this nation loses its heritage of democracy it will probably be to a large degree because of the indifference of its citizens. We have two other elections coming up soon—that for city alderman and school trustee. We hope that an equal amount of interest will be shown in these elections.

The indifference of the average voter to many public issues is pathetic. At one time this writer was elected a member of the board of the old Lockney Independent School District on a total of nine votes. Our nearest competitor received six votes. Many times in city elections the

votes have been almost as scarce. We must agree with the oft-repeated expression, "If you don't care enough to vote, you don't have any room to holler about what is done."

The United States Senate race in Texas is going to be a hot affair this year. Attorney General Price Daniel is going to give that veteran senator, Tom Connally, something to worry about. To the average voter, Mr. Connally typifies Washington, even though he is a Texan and represents his state at the nation's capitol. Seeing as how most of us don't admire Washington very much and some are of the opinion that Mr. Connally has lost his touch with his constituents, there may be a change in this important office this year.

There will be many moans and groans within the next few days as the average tax payer completes his income tax return and sends it in to Uncle Sam. Adding to the misery will be the fact that now most self-employed persons must file a social security report for the year paying 2 1/2% of the money they earned up to \$3600 during the past year. That means that most of us will pay \$90 in social security tax in addition to our income tax.

We don't know what the result of the presidential campaign will be this year but most of us sincerely hope that it will result in an administration who is conservative enough to stop adding political jobs and start to try to save money. From this viewpoint it appears that the present administration is interested only in providing political plums for those who would favor it and cares nothing for the national economy. Of course, the policy of spending money wildly and freely started during the Roosevelt administration, even before the war, and has been continued on an even larger scale during the present administration. We all realize that we must spend considerable money to build up our national defense and we favor that, but to keep thousands of civilian employees on the payroll at that same time, many of them in useless jobs, seems rather foolish.

"I feel accepting things we didn't earn is one of the things wrong with this country." — Catherine Perry, Chattanooga, Tenn. refusing \$100 prize in grocery lottery.

OUR DEMOCRACY — by Mat

"IT'S A FREE COUNTRY!"

— A TRUE PHRASE, BUT ONE USED TOO OFTEN IN DEFENSE OF AN UNFAIR OR UNSOCIAL ACT OR SPEECH.

THIS IS A FREE COUNTRY— BUT THAT FREEDOM CARRIES WITH IT THE RESPONSIBILITY OF RESPECT FOR THE RIGHTS OF OTHERS, AND OF OBSERVING THE LAWS MADE BY THE ELECTED REPRESENTATIVES OF A FREE PEOPLE. FOR THE CITIZENS OF OUR DEMOCRACY, THE VITAL TASK IS TO MAINTAIN THE PRINCIPLE THAT PERSONAL LIBERTY MEANS PERSONAL RESPONSIBILITY— SO WE CAN KEEP OURS A FREE COUNTRY.

RED CROSS DRIVE MERITS OUR FULLEST COOPERATION

Residents of Deaf Smith county will be given the opportunity during the coming week to enroll in the American Red Cross for the year 1952.

Quota for the county is \$6677, which is only a \$410 increase over last year's goal.

This Red Cross appeal comes on the heels of yeoman service performed in last year's disastrous Kansas floods. The Red Cross disaster fund is depleted as a result of the unstinting work carried on by the volunteers to alleviate suffering from the ravages of nature's unbridled fury. Red Cross is such a force for good in the world today that its banner flies side by side with those of the free nations on this planet.

The Red Cross and humanitarianism walk hand in hand across the face of the globe.

The American Red Cross, the International Red Cross is a symbol of unselfishness and of man's love for his fellow man.

The part each of us is asked to play in this campaign is small indeed. The benefits we will reap are huge.

NOT A BAD IDEA!

PRAVDA, the Communist party organ in Moscow, charges that the U. S. is trying to ship Chinese and North Korean prisoners now in American hands in Korea to Formosa, where they can be absorbed into the army of Chiang Kai-shek.

We doubt very much that Pravda is telling the truth in this instance, because Pravda never yet has been caught telling the truth about anything. But since Pravda has brought it all

out into the open, come to think of it, the idea isn't a bad one, at all.

Maybe there are thousands of North Koreans and Chinese in Korean war prisoner camps who would like to join Chiang and fight against the Reds at some later date when the opportunity presents itself.

Maybe they have learned their lesson; that they have found out, the hard way, just how false is the whole fabric of Communism—in China, in Korea and everywhere else it raises its dirty head.

Maybe they'd like to do their individual bits to help out a screeching halt someday to the Kremlin-directed machine aimed at rolling over the rights and freedoms of all men, everywhere.

If so, they should be given the opportunity to do it.

Pravda, for once, may have furnished decent humanity with a good suggestion! — Lubbock Avalanche.

HIGH SCHOOL STUDENTS

Today, we, as American high school students, are in a spot. We will soon be in the place of our fathers and mothers who now elect our officials and administer our government. Although we feel extremely incapable, there remains one way that we may prepare ourselves for our future responsibility; that is we may educate ourselves politically.

This country was founded on the belief that common people are intelligent enough to elect their own officials and negotiate their own business, but it is easy for us, as youths, to let governmental processes go and think entirely of our present-day enjoyment.

An ignorance of daily news is an ignorance of life and in order to become capable of civic responsibility we have to expand our knowledge.

We, as citizens of this great U. S. body, have a responsibility of educating ourselves in order that we may do as much in our era as has been done before us and may prove worthy of the democracy, handed down by former generations. Democracy, unlike dictatorship, thrives among an informed people. — Dimmitt High School Bobcat.

GOOD HEALTH

1. DOES HELPING THE HANDICAPPED PAY?
 2. WHAT IS A BIOPSY?
 3. IS RABIES ALWAYS CAUSED BY DOGS?

Answer to Question No. 1:
 1. In the United States there are about 23,000,000 persons who are either blind, deaf, dumb, paralyzed, crippled or otherwise handicapped. Some authorities believe 95 per cent of them can be helped to happy, useful lives. In one study of 43,000 handicapped persons it was found that their total annual earnings, which were \$6,510,556 before rehabilitation, increased to \$77,786,696 afterward, relieving a great drain on both public and family funds.

Answer to Question No. 2:
 2. A small piece of tissue is removed painlessly and studied under a microscope to reveal significant information about what is going on in the body. The tissue sample is taken from any part of the body in which irregularity, discoloration, or unusual change is noticed. The tissue may contain cancer cells, and early detection of cancer saves many lives.

Answer to Question No. 3:
 3. Rabies can be spread by the bite of any infected animal, such as squirrels and foxes. Recently it was found that a rabies epidemic in Puerto Rico was being spread by mongooses. (Copyright 1951 by Health Information Foundation)

Jack Cole On Koje Island

(Editor's note: The following letter from Jack Cole of Lockney is of special interest since Jack says that he is a guard on the Island of Ko-Je-Do, which we presume to be the same island on which the riot of Communist prisoners occurred last week. Newspaper reports say that the main U. S. prison camp on Koje has about 170,000 prisoners, which is the same figure Jack quotes. The newspapers say it is about 27 miles southwest of Pusan and Jack says about 40 miles off the coast which very easily could be the same island. Jack's wife, the former Lela Fern Huddleston, and his baby son, live here. His mother, Mrs. Opal Ray, lives in Oklahoma City. A letter to his wife since this letter was written, says that he is scheduled to go to the front in Korea sometime this week. He is an ammunition bearer with a mortar crew.)

14 Feb. 52
 Ko-Je-Do

Dear Mr. Hays:
 For the last three weeks I have been on the Island of Ko-Je-Do where about one hundred and seventy-five thousand North Korean and Chinese prisoners of war are being held.

Out of this number only about seventy thousand are confessed communists. The rest claim to be Christians.

There is one compound here that is composed of Communist officers. They have tried numerous escapes but the most perfect escape was pulled off Dec. 28th when a group of men tunneled out of the compound and eleven in number escaped.

These people that are interned here are being treated as if they were guests of the U. N. forces. Most of them have had the Communist indoctrination and it takes a long time to change them in their way of thinking.

This island is about 30 miles off the coast of Korea and about 50 miles from Japan.

The people are the same and their ways of living are the same.

Sincerely yours,
 Jack Cole.

GO TO CHURCH SUNDAY.

enjoy the little Ford. I'm glad you all put up with me and let me have that year. Seems as though that was the only time when I was really young and silly. By the time I get out, I don't think I'll care too much for running around so much and I know I'll be a lot more satisfied and settled down. We ought to take off for about a month and travel around first. It won't cost anything much except for gas and it would do all three of you more good than anything. None of you have seen any country to speak of and I think you'd really enjoy just closing up and taking off Scot-free for a change. We'll have to go see Joe and Lloyd both right off the reel, so I think we ought to just plan on that for us all one big vacation. That's a long time off yet, about 12 1/2 months to be exact.

I've run down so I'll close. I had started to go to the show but changed my mind. I'll write Floyd and Dill this week end.

Love,
 Sam.

Leroy Saul Is Seeking Office Of Representative

In asking the people of Hale, Swisher, Briscoe and Floyd Counties to elect me to the office as their representative of the newly created 89th District, I realize the full responsibilities of the office. I am thirty-seven years old, married and have three children. I take an active part in my church, the Lion's Club, and the activities of my community. I have been a resident of Hale and Swisher Counties for the past twenty-seven years. I am a graduate of Plainview High School and Wayland College; I also attended West Texas State at Canyon, Texas. I taught at Running Water and Prairieview, two rural schools in Hale County. I was Principal of the Petersburg High School at Petersburg, Texas for two years and was Superintendent of the Kress Schools for two years until 1948; since then I have been farming in Swisher County and have been in business in Kress, Texas.

I feel the above experience has qualified me for the office to which I am asking to be elected. It is with humbleness that I am asking the people of this district to elect me to office. Realizing that the next two years the representative you elect will have a great deal to do with the education of all the youth of this district, I feel duly qualified to meet the challenges that are sure to come to that representative. I also realize that the farmers of this great irrigation belt are going to have their rights to the underground water supply challenged. As I have lived in this area and watched it develop into one of the greatest farming areas of our Nation, I realize the responsibility to the entire area as it's life blood depends on this underground supply of water.

It is with these purposes and thoughts that I sincerely ask for your support in the coming Democratic Primary.

Leroy Saul.
