THANKSGIVING VIGIL—Scott Hunter is amazed. He can't believe the size of that turkey, and he can't wait until his mother puts it on the table. Scott, 18 months, was still on baby food this time last year, and this is his first Thanksgiving turkey. Scott is the son of Mr. and Mrs. Edmund Hunter, 1108 W. Bedford St.

Have a happy and thankful Thanksgiving!

Sheffy's chatter

Dimmitt couples fly to Hawaii, enjoy island tour

By MYRTLE SHEFFY

Hawaii was the place that several Dimmitt folks flew off to last week. Jack and Myrna Miller, Ronnie and June Parker, Dan and Hazel Nelson, Charles and Dorothy Nutt report they had a good time seeing and doing what tourists do in the paradise island, the food, shows, tours. Myrna says she tried to ride the surf board but the waves were so big she could ride by staying on her knees. And Dan saw the hula dancers. Charles got seasick riding the surfboard. All made the Pearl Harbor tour. Dan says it is unbelievable how big and impressive that is. They went by ship to see that. They saw the pineapple and sugar plantations and were properly impressed. They heard beautiful Hawaiian music such as Lara's Theme and Island songs played by the Banker, who is also a musician. Oh yes! Sid and I received one of the fresh pineapples. Thanks to the Nelsons and group.

THE SIX teenagers stayed at the Miller home with Mr. and Mrs. Dwayne Bishop doing the home parent act. Dwayne is assistant band director. Mrs. Bishop is a niece of Myrna Miller.

Bill Williams went to Kermit to visit his mother who is very ill. Also will visit a sister. Dee went as far as Lubbock with him and spent the night with their daughter Connie.

Ray Joe and Jo Eddie Riley and two sons went to her parents' ranch, the Ira Scott place northwest of Hereford for Thanksgiving dinner. Went hunting with 10 of the grandkids. Jo Eddie says they will have fun but probably "no rabbits."

I met Teresa Helen Eckert Sunday at church. She is a home economics student teacher under the leadership of Mrs. Estella Hottel. Teresa will graduate from Texas Tech in Lubbock in December. Her hometown is Mason and she knows a few of Verbie Nelson's kin.

Allan and Peggy Webb took their farm worker friends on a flying trip to Nevada last weekend. They plan several side tours in that area. These I heard were going Claudie and Juanita Welch, Steve Garcia and others.

PUNK (W. W.) and Rosalie Gilbreath were Saturday supper guests of Sam's twin brother Casey and Mrs. Gilbreath. This was steaks at Hereford. Most of Castro County had

Saturday supper with Ralph Smith's Bobcat Band bunch. Of course the moms cook the turkey and trimmings.

Irene Carpenter went to Rocky Ford, Colo., for a few days stay with her daughter Joyce and James Autry.

Mr. and Mrs. Fred Gilbert of Plainview, Mrs. Tom Carrell and her brother Tommy Condy were Sunday guests of their kinslady Margaret and Raymond Wilson.

Mrs. Ted Sheffy and her mother Rachel Graham went to Marlowe, Okla., last weekend to bring Rachel's sister Henry McMurry to Dimmitt for the Thanksgiving holiday.

Mr. and Mrs. Walter Love and Mrs. Lochie Kern all of Amarillo were Sunday guests of the Love's daughter and Mrs. Kern's granddaughter Jane and David Behrends. And last week the many Behrends kind were supper guests of David and Jane.

MR. AND MRS. Loyd Vaughn attended the funeral service for her sister Mrs. Ruth Crawford at the Methodist Church in Wellington Saturday afternoon. Going from here were Mrs. Jack Gregory, Mrs. Joe Scott and Early and Gerry Chaney.

Beral Hance spent the weekend in Dallas with her daughter Linda Compton, and Tracy and Paige.

Mr. and Mrs. Quincy Hawkins are the parents of a son who was born Nov. 19. He has been named Jeremy Lee. Maternal grandparents are Mr. and Mrs. N. B. Stokes of Dimmitt and paternal grandparents are Mr. and Mrs. Willis A. Hawkins Jr. of Des Moines, Iowa. Great grandparents are Mr. and Mrs. W. A. Hawkins Sr. of Hart, Mrs. J. G. Ford of Canyon and Mr. and Mrs. N. W. Stokes of Westbrook. Jeremy Lee has been in the hospital in Amarillo but is doing fine now and they got to bring him home so all those grandparents can start spoiling him. This was Monday.

MARK your calendar for Dec. 5, a noon buffet at the fellowship hall in the north wing of the Methodist Church. Good food will be served by the hospital ladies.

Es Noble was the 77-year-old birthday guy Saturday. His daughter-in-law Evelyn and E. B. cooked him a good dinner to celebrate. Other guests were Mrs. Kate Noble, Jan Noble from Amarillo College and Evelyn's mother Mrs. Lilly Kunetke. Saturday afternoon Kate served cake and tea to other relatives and friends, Doc and Ora Noble, Dora Johnson, Edna Cooper, Martha Rose Smith and Myrtle Williams. The sons, Jerry from Lubbock and Don Loy of Texas City called their dad.

The art exhibit in the fine new library on the north side of the courthouse in Hereford was very good. Several people from Olton brought their work. Deaf Smith County Sheriff had two dozen pictures, mostly western scenes. Mildred Sheffy had 25 on display. Other people had their crafts but I didn't get names. The people I saw from Dimmitt were Ruth Jackson, Fannie Mahan, Viola Nelson, M. L. Simpson, Sue Howell and I. We all went on to a Christmas decorations show and open house on Park Avenue. Mrs. Dennis and Mrs. Seale will have their show soon so be looking for their invitations in the paper.

MR. AND MRS. Bill Kruckenberg of Borger were Sunday guests of Rev. and Mrs. John Street and daughters Kay and Sharla.

A. H. and Mae Taylor visited in Trent near Sweetwater a while back. She has relatives there. They attended a school reunion at Eskota too.

The ladies at South Hills Manor will have a bazaar or sale of their handmade gift items Dec. 6, which is a Friday at 6 p.m. and on. The ladies keep the money they make.

"News Flash" Ray and Joannis Robertson are the grandparents of a new baby boy whose name is Jeffery Ty. The parents are Carla and Larry Mitchel of Eldorado. The other grands live at Brady. Larry is football and basketball coach there and Carla taught English till the baby came. Their other daughter Nancy is in college at San Angelo and Sandra is working at a bank in Lubbock as is Leisa Dannevik and Karen Birdwell. Maybe others for all I know.

Ren and Dorothy Sheffy and sons Scott and Brett went to Altus, Okla. last weekend to visit her dad Mr. Smotherman who is in a home there. They also visit her sister and family, the Doyle Martins.

BILL AND Tomi Poteet have their eldest son Boyd home on leave from Germany. Their other son Brian is stationed in Germany now after a 30-day leave. Boyd has served 1 year near Rockenhausen, Germany.

RUBY AND Dagwood Woods tell me they are great great aunt and uncle of a baby girl who is the granddaughter of Mary Ann and D. Stamps of O'Brien. Mary Ann is the daughter of Marvin and Melvina Witt of Littlefield. All are

former Dimmitt residents. The other greats are Mr. and Mrs. J. Stamps of Olton. Oh yes! The parents are Mr. and Mrs. Rickey Stamps of Benjamin.

Glen and Diane Hatla have been going to Lubbock for young Tracey's allergy check-ups and Glen had stitches removed from his eyelid where he had something removed.

Durward Patterson, Betty Boothe and son Lonnie were among the hundreds going to Lubbock Saturday to see the Red Raiders and Razorbacks from Arkansas play football.

Gene and Gay Lewis of McAllen are here on business. They are in the process of building a new home in the Flag settlement near the Damrons. Gene's mother is Mrs. Tom Lewis.

Stanton and Ann Calvert and two sons of Houston are here for a holiday visit with his parents Mr. and Mrs. Carlos Calvert and Greg. Stanton received his degree as Doctor of Student Administration recently.

CLETHA GEORGE was hostess to her club group Thursday afternoon with a few games of bridge. She served pickup foods, chocolate pie, hot punch to Margaret Wilson, a high score winner with me, Josie Bradford, Dee Williams, Retta Cluck, Ruth Wooten, Maggie Boren and Gladys Cleavinger.

The Friday bridge club met at the Country Club with Josie Bradford as hostess. She served the George's strawberry cake and pickups to Dorothy Elder, Ruth Wooten, Diane Hatla, Jeanne Johnson, Bernice

Jeri Butler and children. Sorry Sam, I am a week late.

Wayne Meacham of Denver, Colo. came down to see his parents Roy and Billy Meacham. Roy is recuperating from a recent heart flareup.

Mrs. Walker did a most interesting review Monday evening on the book by Mr. West on "Upstairs at the White House." Everyone should read this book about the life of the families that live in the president of the US's house. Mrs. Walker is one of the most capable speakers I have heard. She has visited with the different families in the White House and she gave little glimpses of the ladies from Mrs. Roosevelt, the Johnson, Truman, Eisenhower and Kennedy administrations. Mr. West did most of the host duties for the people. Several men and probably 75 ladies came to the review. This is something nice that Dimmitt can enjoy. All of you come in January. I will tell you when.

MRS. ROBERT Benton was hostess to the Tuesday bridge club with dinner and games at the Country Club. She had 12 ladies and I didn't get names. Sorry girls.

Mrs. Carol Dyer was hostess at an anticipation shower for Mrs. Sam Nichols one evening last week. This was a come and sit party with many guests and helping with hostess duties were Ellen Hrabal, Libby Cleveland, Sue Merritt, Connie Nelson and Lois Wales. The ladies served coffee and cookies from a pretty table. Mrs. Nichols' husband Sam is a coach at school.

Betty Dennis made a good turkey salad dinner for her bridge group Thursday. They are Maxie Horton, Louise Nelson, Brenda Andrews, Darlene Dowell, Pat Anthony, LaVon Reeve, Dalia Gregory and Sue Howell came by for coffee.

Shannon Noble, daughter of Mr. and Mrs. Don L. Noble of Texas City, was high point

winner in the Texas City Lions Queen contest. She was crowned Queen and presented a bouquet of roses by Corine Maruska. She is the granddaughter of Mr. and Mrs. Es Noble of Dimmitt. She is an AFS student to Australia and

plans to pursue a diplomatic career in college after graduation from high school.

ABOUT 77 percent of the corn and 62 percent of the sorghums have been harvested in Texas.

LAND OF PLENTY

★ THANKSGIVING FOR . . .

- PROSPEROUS NATION
- FOOD
- A STRONG NATION
- FREEDOM OF WORSHIP

Pages could be filled with ways that God has blessed us, and we should be continually thankful for God's goodness. At this time, however, we should pause from our daily workday habits and in unison, give special thanks to God, that we still have freedom of worship.

Attend church this Thanksgiving weekend

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

TERRY YOUNG of Dimmitt leaps high for a two-point layup against Muleshoe Friday night, following a steal and feed by teammate Travis Hampton Jr. Trailing Young's shot is Johnny Hampton [11]. This third-quarter score increased the Bobcats' lead to 45-22, and they went on to win the game 70-33 in the MHS gym.

Rites held for Warren Lowe, 77

Funeral services for Warren Lowe, 77, of Clovis, father of Mrs. Ramona Annen of Dimmitt were held Saturday in the

Central Baptist Church of Clovis with Dr. Carl Scott, pastor, officiating.

MR. LOWE died Thursday at Clovis Memorial Hospital following a lengthy illness.

A retired farmer, he had been a Clovis resident since 1953. He was a veteran of World War I, serving with the Army. He was a member of the Central Baptist Church of Clovis.

OTHER SURVIVORS include his wife, Eunice; five daughters, Mrs. Mickey Ezell, Mrs. Margaret Mills and Mrs. Rae Killion, all of Amarillo, Mrs. Josephine Fisher of Sudan and Mrs. Sonya Godfrey of Spearman; two sons, Roman, of Laguna Beach, Calif. and Keith of Lubbock; his sister, Mrs. Mae Frerichs of Amarillo; his half-sister, Mrs. Cordia Cunningham of Samnorwood; 27 grandchildren and eight great-grandchildren.

Burial was in Sudan Cemetery in Sudan under the direction of Steed-Todd Funeral Home in Clovis.

COTTONSEED prices over Texas ranged from \$80.30 to \$99.90 a ton during the first part of October.

CITATION BY PUBLICATION
THE STATE OF TEXAS
TO: Connie G. Flores
Defendant, Greeting:

YOU ARE HEREBY COMMANDED to appear before the Honorable District Court of Castro County at the Court-house thereof, in Dimmitt, Texas, by filing a written answer at or before 10 o'clock A.M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 16th day of December A.D. 1974, to Plaintiff's Petition filed in said court, on the 29th day of October A.D. 1974, in this cause, numbered 4016 on the docket of said court and styled IN THE MATTER OF THE MARRIAGE OF JESSE FUENTES FLORES AND CONNIE G. FLORES AND IN THE INTEREST OF JESSE FLORES, JR., JOE FLORES, AND CONNIE FRANCES FLORES, Children. A brief statement of the nature of this suit is as follows, to-wit: DIVORCE as is more fully shown by Plaintiff's Petition on file in this suit. If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved. The officer executing this writ shall promptly serve the same according to requirements of law, and the mandates hereof, and make due return as the law directs. Issued and given under my hand and the seal of said court at Dimmitt, Texas, this the 29th day of October A.D. 1974.

Attest: Zonell Maples, Clerk
District Court
Castro County, Texas
By Joy Jones, Deputy
(Seal) 15-5-4tc

TSTI offers varied training in area

The Special Projects department of Texas State Technical Institute, Mid-Continent Campus, Amarillo, offers a wide variety of training to some 1,375 students in 18 area towns.

THESE statistics are not included in the 16 programs offered to 391 full-time day students.

Special Projects programs include Adult Continuing Education, with 74 current students; Special Skills, with 853 students; Industrial Training, with 163; Special Funding, 169; and Workshops and Seminars, with 116 students.

Many of the courses are held on the State Tech campus in Amarillo. However, they are also offered in the following towns: Booker, Canadian, Clarendon, Dalhart, Dumas, Hereford, Lubbock, Memphis, Olton, Pampa, Perryton, Plainview, Shamrock, Vernon, Well-

ington, Wheeler and Wichita Falls.

Types of courses range from data processing and keypunch to nurse aide, welding, and needle trades. More than a dozen industries and institutions are cooperating with State Tech in making training available according to the needs in specific areas.

Bill Soule, director of Special Projects, and John Tyler, as-

sistant director, cover a 57-county area to assist community and industry leaders in defining training needs and placing training opportunities in the locale.

TEXAS leads all states in the production of sheep and wool, angora goats and mohair, supplying about a fifth of the United States' sheep and wool and about 97 percent of the nation's mohair.

Mayors for local option in state utility group

Rep. Latham Boone III, of Navasota recently released the results of a survey of Texas mayors taken during October revealing that, of the mayors surveyed, 59 percent endorse a state utility commission with a local-option mechanism. The survey was conducted by the Legislative ad hoc Group on Utility Regulation.

"THE 141 mayors surveyed represent about 14 percent of Texas' 1,000 cities," Rep. Boone explained. "In conducting this survey to determine the attitudes of Texas mayors on utility regulation, the staff made a random selection of Texas mayors. The staff called mayors of towns ranging in size from Putnam, with a population of 134, to Wichita Falls which has 97,564 people."

During 1974, the 141 cities polled faced 244 utility rate requests, almost two per year. In those 244 cases, only 23 percent of the cities made an attempt to determine independently rate base, rate of return, investment and revenue. Fifty-two percent of cases were decided when the city accepted the recommendation of the utility company and allowed the full amount requested.

THE GOVERNING body of 47 percent of the cities bar-

Anthrax may spring from saddle pads

In September, 1974, an outbreak of anthrax occurred in lions and tigers at a Washington zoo. Source of the infection was traced to infected horse meat. The horse had died suddenly from anthrax that came from a contaminated saddle pad. The saddle pad contained anthrax germs from imported goat hair. Thousands of the infectious pads were sold throughout the United States and remain a possible source of infection to the animal industry. The implicated pads were manufactured by the Perforated Pad Company, Woonsocket, R.I., and are called Alaskan Hair Pads. Anyone having a saddle pad with this description should contact the Texas State Department of Health for instructions for disposal. The spores from anthrax can live for decades and remain a threat to both humans and animals on infected premises.

gained with the utility company for a lower rate and seven percent of the cities allowed another city to decide the utility rate request.

The outcome of the rate cases was satisfactory to 58 percent but dissatisfied 33 percent of the mayors.

"The mayors polled indicated overwhelmingly that utility regulatory laws should be reformed," Rep. Boone said. "While 26 percent had no opinion as to whether those regulatory laws should be changed, 55 percent favored changes that would clarify how rate cases would be conducted and 18 percent opposed such revision."

When asked if the company should be required by law to provide all pertinent operating data, 77 percent of the mayors favored such a law and 12 percent were opposed.

While state law and many city charters allow cities to set standards for quality of service, safety and customer relations, 88 percent of the mayors questioned said their cities had no such laws or ordinances.

CORNELL & COMPANY

TEXANS sent 374,000 head of cattle to slaughter during September, an increase of 40 percent from a year ago.

State fishermen must learn new methods for new species

For years Texans have developed fishing in their state to a fine art, and most persons who buy a fishing license know at least the rudiments for finding and catching black bass, catfish, crappie and sunfish.

BUT THE past few years have changed things on the Texas fishing scene and, due to efforts of the Parks and Wildlife Department, fishermen are going to have to learn some new fishing methods.

This is a result of the department's program of introducing species which are not native to the State of Texas.

Fishermen now have a wider variety of fish including walleye, northern pike, rainbow trout and striped bass.

PARKS and Wildlife Department officials say there are two reasons for the introduction of new species. One is the change of fish habitat from streams and rivers to lakes and reservoirs. Most Texas fish, including the largemouth bass, are not particularly suited to the open-water habitat found in Texas' large reservoirs.

When a reservoir is built and stocked, it experiences a period of excellent fishing before the balance of rough fish and game fish becomes disproportionate in favor of rough fish.

The new species introduced in these lakes are better suited to a big lake environment, and they give anglers an added variety of fishing.

The new species also prey on the rough fish, and this is the second reason for stocking them. Northern pike and striped bass have the potential of much greater size than most native fish, so they are able to take on more and bigger rough fish.

STRIPED bass are especially attractive to biologists because they are more likely to go after the schools of gizzard shad which are largely ignored by

largemouth bass. As experienced fishermen know, different species of fish require different angling methods, although some of the techniques used are common for catching more familiar species.

The following techniques could help anglers develop the necessary skills for catching the new species.

Walleye — Northern fishermen have found that some locations pay off better than others when they are searching for walleye. These best spots include gravel banks, brush piles, weed beds and rock riprap on dams and embankments.

Jugging seems to be one of the most productive methods for catching walleye but experts say the retrieve is important and no one method is consistent. So they recommend that if one retrieve isn't producing, such as a steady retrieve, another be used, like bumping the bait off the bottom.

Small, fluorescent jugs baited with nightcrawlers, leeches or lip-hooked minnows are productive baits. Small spinners also pay off.

NORTHERN Pike — This is a voracious fish and a vicious striker. Large red-and-white spoons are effective on pike, and many are taken with live bait. They like to hug the shoreline or stay near weeds and flash out suddenly to seize their prey. Be careful how you handle this fish because it can inflict a painful bite.

Striper — This is an open-

water fish and can be stalked in the same manner as its close relative, the white bass. One method is to find them attacking schools of shad and cast into the action. However, the most effective way to catch striped bass, according to experts, is to troll with deep-running artificial baits.

TROLLING speeds for striped bass should be one-and-a-half to two times as fast as those used for other fish. Strippers can be found in about 15 feet of water during the winter but, as the water warms, the fish go deeper.

Rainbow Trout — Two rivers in Texas have been stocked with rainbows — the Guadalupe River just below Canyon Dam and the Brazos River directly below Possum Kingdom Reservoir.

Because the tailrace water comes from the bottom of these lakes instead of the top, it is cold enough for the trout and provides the needed oxygen.

Trout are stocked once or twice a year by the department in a put-and-take program. The sooner the angler goes fishing after a stocking, the better his chances of catching these fish. After they have been in the water for a while, trout become quite wily.

According to trout fishermen, a number of baits can be used to catch the fish including whole kernel cooked corn, cheese and worms. The bait is cast out into the riffles and allowed to drift. Sooner or later there should be a strike.

Small spinners and flies also take trout.

Spending plans aids in accounting for money

How often have you wished you had a record of where all your money goes? You don't have to keep track of every penny spent, but to get the most for your money, it's wise to have a plan, one expert advised this week.

SHE'S MRS. Lillian Chenoweth, family resource management specialist with the Texas Agricultural Extension Service. "The first step in making a spending plan is to figure exactly how much income you have—from job, pension, investments, or other sources. Be

sure to consider your take-home pay after deductions, not your total salary," she advised.

—Start listing your regular expenses such as mortgage or rent, regular medical expenses, insurance and installment payments.

—Then figure how much you usually spend for groceries, including cleaning products and other non-food items.

"The food budget for a family of four usually averages 20-25 percent of the total budget. But what your family spends may be quite different, so don't accept that figure as a rigid rule," she suggested.

—Decide how much you usually spend for clothing during the year. Averages are usually about 15 percent of a family's budget for this.

—Add gasoline bills, car repair bills and related expenses such as insurance or license fees.

"This will give you an idea of how much to allot for transportation."

—ALLOW some money for recreation, including magazine or newspaper subscriptions, club dues, movies or entertaining.

"Some expenses on your spending plan can be estimated from last year's figures. These would be taxes (income, property and local) and household maintenance (repairs and upkeep)," she noted.

The specialist pointed out that one of the most important parts of a plan is to allow some money to meet emergencies.

"Have some amount that you save regularly. Treat this savings as a regular bill and always pay yourself," she said.

"AFTER getting all your figures together, add the expenses and subtract that total from your income—making sure everything was considered on an annual basis.

"You may have to make adjustments, but this plan should help you see where your money is going," she said.

On Wall Street
By Bob Hill
Lentz, Newton & Co.

Well, it has finally arrived. That point in our society for which the bankers have yearned for many years is now at hand. Starting this month the government begins a pilot project for handling Social Security retirement checks in Georgia to 700,000 old-age pensioners, by asking them to permit the government to send their checks directly to their banks instead of mailing them to the recipient. More than 1,500 of the Georgia pensioners have said "yes" to the direct deposit program.

THE TREASURY Dept. mails out millions of checks regularly and is almost choking on the huge volume of paperwork. Making payments through the banking system eliminates a tremendous work load, both for the Treasury Dept. and the US Postal System. By 1979 the Treasury plans to have over 16-million regular federal payments transferred directly to the recipient's bank account. To do this, the deposit instructions would not be sent by mail, but by the computerized tape over the direct wires of the Federal Reserve which cover all parts of the country.

Banks are so enthusiastic over the potential that the Treasury has had to warn certain ones not to jump the gun and talk old-age pensioners into the new procedure before the Treasury forms and promotional materials are ready. The Air Force is asking its personnel to agree to direct deposits of payroll checks under a separate program while the state of Pennsylvania is

getting a similar program underway by having banks disburse state welfare checks instead of the state mailing them out as in the past. One Amarillo business has been depositing payroll checks for employees in a local bank, handing the employee a deposit slip instead of a check.

ACCEPTANCE of the direct deposit program will be slow at first. There's just something nice about being able to hold that check in your hand before cashing it or depositing it.

INDUSTRY sources anticipate that by 1979 most, if not all, wearing apparel will be required by governmental standards to be flame retardant, according to Mrs. Becky Culp, area clothing specialist with the Texas Agricultural Extension Service.

Individuals Hold Most Farm Mortgages

Farming is still a business where individuals hold the biggest share of the mortgages. Latest statistics released by the USDA's Economic Research Service show that individuals hold 43 percent of the total farm mortgage debt; federal land banks, 26 percent; life insurance companies, 15 percent; and banks, 13 percent.

**Holiday recipes are available
at county extension offices**

By IRENE KEATING

Many of our homemakers are enrolling in the TV home repair series. This is one way we can learn to make our own minor repairs and save lots of money too. This week's program is at 1 p.m. on Channel 4 and is "Cleaning on a Shoestring."

ISN'T IT HARD to realize that it is already so close to Christmas? I hope that you're ready for it. Our holiday recipes are available - just come

by or call 647-3455 and we'll mail you one. Remember if you need a nice inexpensive gift that we do have the Home Demonstration Club cookbooks for sale. Over 350 copies are already in homes locally and in distant places.

Oh yes, have any of you borrowed our quantity food cookery booklets? We haven't been able to locate them.

Here's a good way to use that left-over turkey and make it a good nourishing dish.

HOT TURKEY SALAD
4 medium size potatoes
3 cups turkey, cooked and diced
3 slices bacon
3/4 cup onion sliced
2 tablespoons flour
1 1/2 teaspoon salt
1 tablespoon sugar
1 teaspoon prepared mustard

1/2 teaspoon celery seed
1/2 teaspoon paprika
one-eighth teaspoon pepper
3/4 cup water
1/2 cup vinegar
4 stuffed, sliced olives

Boil potatoes in their skins until tender. Peel potatoes and thinly slice into a bowl. Add turkey. Fry bacon until crisp. Drain, saving 2 tablespoons drippings. Cook onion until tender in bacon drippings. Add flour, sugar and seasoning. Stir to blend. Stir water and vinegar slowly into the onion mixture over low heat and boil for 1 minute. Pour slowly over the turkey-potato mixture and mix lightly. Chill in the refrigerator for 1 hour to blend flavors. Reheat over low heat. Garnish with crumbled bacon and sliced olives. Serves 6.

Sounds good, doesn't it?

[Compiled from the Birthday Calendars of the Home Demonstration Council and the Nazareth American Legion Auxiliary.]

SHARON ANN HART

**Miss Hart, Annen
to marry Nov. 29**

Mr. and Mrs. Lee Roy Hart of Lewisville announce the engagement and approaching marriage of their daughter, Sharon Ann, to Hollis E. Annen, son of Mr. and Mrs. Fred A. Annen of Dimmitt.

THE COUPLE will exchange vows Nov. 29 in Camy Baptist Church.

**Bazaar preparation
set by auxiliary**

The Plains Memorial Hospital Auxiliary will hold its annual bazaar and holiday buffet Dec. 6 in the Lamar Fellowship Hall of the First United Methodist Church.

AUXILIARY members are requested to assist with set-up Dec. 5. Items and gifts will be accepted anytime after 2:30 p.m. at the fellowship hall.

Each member is requested to bring two gift items to sell in the bazaar and two food dishes large enough to serve 12 or more between 10 and 11 a.m. Dec. 6. Serving will begin at 11:30 a.m.

All members should wear their smocks Dec. 6 at the meal and bazaar. They are requested to sign in and out at work and record the time they spent on bazaar items and preparing food.

We wish you a "Happy Thanksgiving!" We would like to share some poems with you.

THANKSGIVING

By Ivy O. Eastwick

Thank you for all my hands can hold -
Apples red, and melons gold
Yellow corn both ripe and sweet,
Peas and beans so good to eat!

Thank you for all my eyes can see -
Lovely sunlight, field and tree,
White cloud-boats in sea-deep sky,
Soaring bird and butterfly.

Thank you for all my ears can hear -

On the go

Sharon Maynard of Dallas visited last week with her mother Alene Maynard and brother Wade, Walter and son.

Birds' song echoing far and near,
Songs of little stream, big sea,
Cricket, bullfrog, duck and bee!

PRAYER FOR THE NATION

By Thomas Jefferson

Almighty God, who has given us this good land for our heritage, we beseech Thee that we may always prove ourselves a people mindful of Thy favor and glad to do Thy will. Bless our land with honorable industry, sound learning and pure manners.

Save us from violence, discord and confusion; from pride and arrogance and from every evil way. Defend our liberties and fashion into one united people the multitudes brought hither out of many kindreds and tongues.

Endow with the spirit of wisdom those to whom in Thy

name we entrust the authority of the government, that there may be justice and peace at home, and that through obedience to Thy law, we may show forth Thy praise among the nations of the earth.

In the time of prosperity, fill our hearts with thankfulness and in days of trouble, suffer not our trust in Thee to fail.

SEVERAL of the Civic Clubs are sponsoring a series of book reviews by Mrs. J. W. Walker of Plainview. The first of this series, "Upstairs at the White House" by J. B. West, head usher at the White House for 28 years, was presented Monday night, Nov. 18. Since Mrs. Walker had been invited to the White House on eight different occasions, during the terms of 3 or 4 presidents, she added some extra interest to the book.

Wednesday, Nov. 20, was Marie Howell's birthday, so we served Cokes and cookies at the library and Janice Bell brought her a beautiful terrarium that she had made.

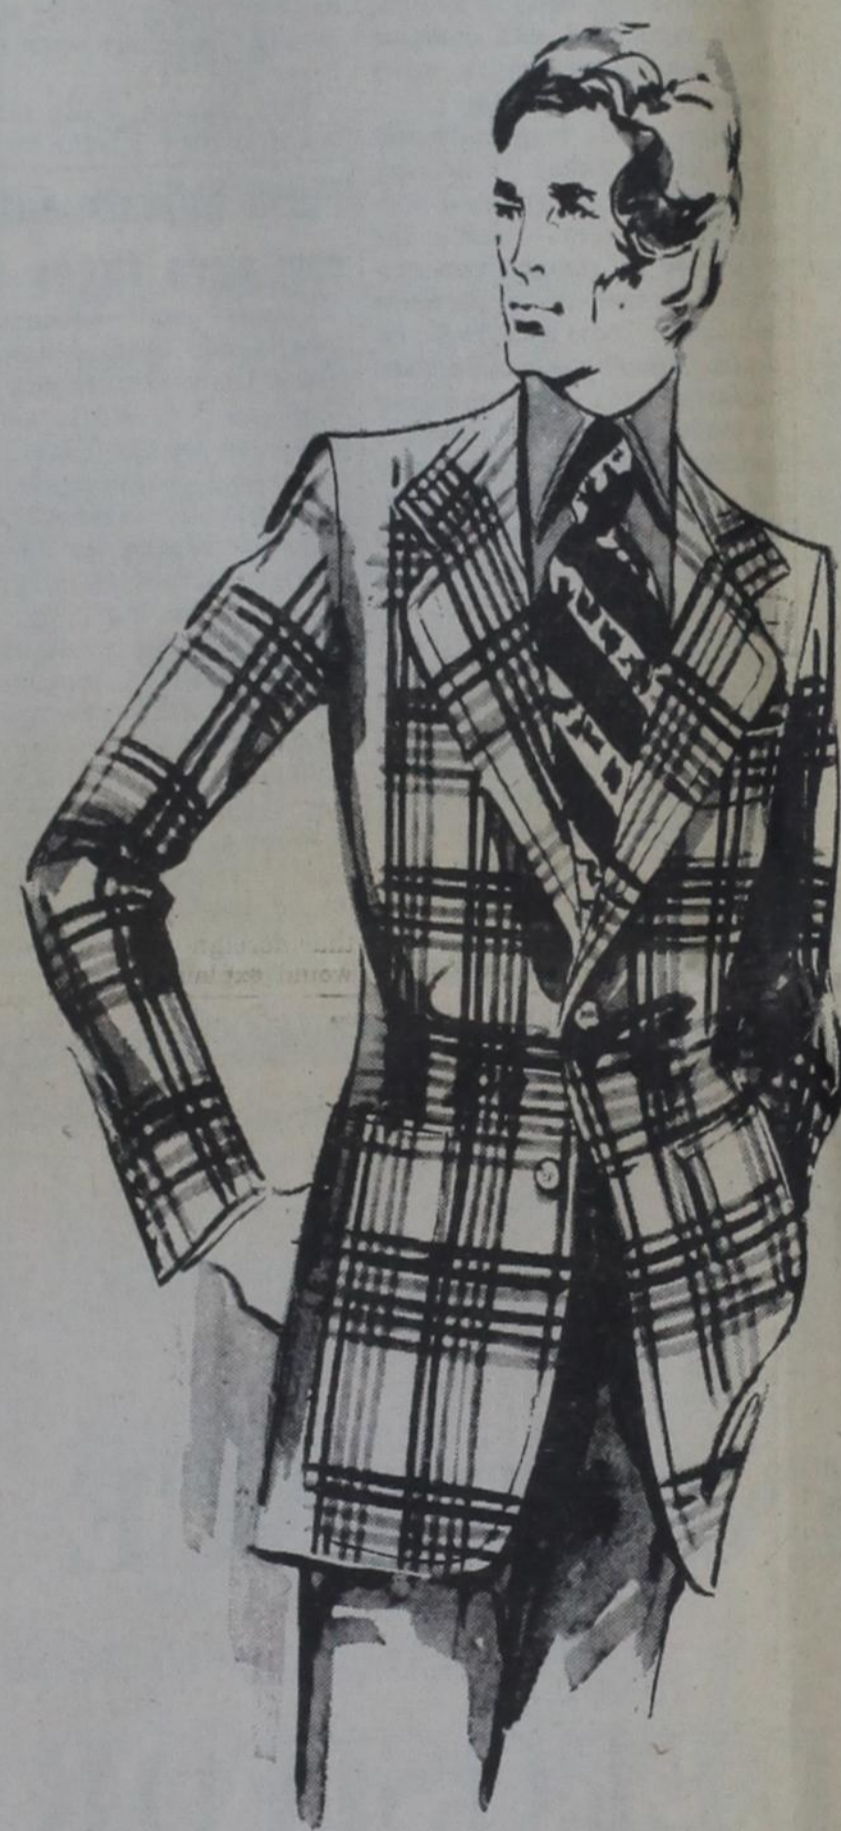

We will not have Children's Story Hour on Friday, Nov. 29, due to the Thanksgiving Holi-

days. SHIRLEY Goolsby read stories to 27 boys and girls at Children's Story Hour last Friday. Darla Stewart helped with the children and Lynette Rials brought her tape recorder with several stories on it. Scott Sava brought cookies and Denise and Karen Schulte brought candy.

Jo Behrends brought some May 1970 Lubbock Avalanche-Journal papers with the news concerning the tornado in Lubbock for us to use here in the library. Jo's sister, Joyce Taylor of Lubbock, had given these papers to her so she brought them in to us.

concrete slab is poured around them. Universal Maintenance & Construction of Houston is in charge of constructing the new plant.

All-American bird is looking its best now

This just may be the year of the turkey.

ALTHOUGH the turkey roamed over Texas and Mexico long before Columbus came to our shores, the All-American bird is looking its best this year. Turkeys are plentiful, and, to top it off the price is

right. Of course, at any price, turkey is an excellent value, nutrition-wise. But now turkeys are a double value, according to two poultry specialists with the Texas Agricultural Extension Service.

"Nutrition is presently the name of the game and turkey wins this game hands down," contend Dr. David B. Mellor and Dr. William O. Cawley. "Turkey is highest in protein and lowest in fats of all our common meats. It is also a meat that is high in riboflavin and niacin—two of the more important B vitamins."

Turkey is a common fare for holiday meals but really deserves more use by most families on a year-round basis, say the two poultry specialists. Size should not be a deterrent, as the raw frozen turkey may be divided, wrapped and refrozen for delicious meals. A publication, "Freezing Poultry for Home Use," provides helpful hints and is available from any county Extension office.

"TURKEY also works well when the cooked meat is refrozen for later use," note the specialists. "Some families serve turkey for an evening or Sunday dinner and then debone and freeze the remaining turkey for later use—saving just enough for cold turkey a day or so later."

No matter how you cut it, turkey is usually one of the better protein values. Have you ever compared the foods you buy on the cost of the protein they are supplying to your menu? Just use the protein content and price per pound for any food. Your county Extension agent has this information for several foods and can assist you in calculating your own cost of protein in foods.

TURKEY meat is naturally low in fat. One would expect to find 125-150 calories in a serving. Of course, if the serving were just white meat, it would be less. Self-basting turkeys are a little higher in calories due to the added basting sauce.

But the calorie count is still low when compared with chestnut and sausage stuffing or gravy made from pan drippings.

"One of the biggest secrets in roasting turkey is keeping the meat moist," contend Mellor and Cawley. "Since the birds are so young when processed for market, the naturally low-calorie meat has really little fat. Keeping this meat moist requires more care than for meats having more fat. You can conserve moisture by covering the bird in a roasting pan, placing it in a special plastic bag, or 'tenting' it with foil and cooking at 325 degrees F. The turkey is cooked when a meat thermometer placed in the center of the thickest portion of meat registers 180 degrees F."

Any time is turkey time. Plan now to make this double-value meat a part of your menu each week.

Boat storage measures save grief in spring

If you've decided to give your boat a winter vacation, Texas Parks and Wildlife Department water safety experts have some suggestions which may make the beginning of next season less of a headache.

SAILBOAT owners will want to make sure the sails are dry before storing them all winter. They should inspect their sails and repair any tears or snags. Then the sails should be folded carefully and stored in a dry place.

While you're still in the mood for maintenance, the well of your sailboat should be cleaned, dried thoroughly and waxed.

INBOARD-outboard watercraft owners should drain the oil from their engine block if they aren't going to use their boat for some time. For safety's sake, secure a big red tag on your ignition reminding you there is "No Oil In Engine!" and be sure to fill the crankcase before you go out again.

If there is gas in the tank, leave it. This will help protect the tank against rust spots which could contaminate later tanks of gasoline. But be sure to drain the old gasoline and replace it just prior to your next trip, particularly if your boat has been sitting idle for several months. Drain any water in the lower unit.

The cylinder walls of outboard motors should be lub-

ricated before storage to protect them from rusting. Drain any water in the transmission.

BATTERIES should be removed from all boats and stored in a dry place.

Wheel bearings on trailers should be inspected and greased frequently since, by its nature, a boat trailer is dunked in water fairly often. Lubricate all other movable parts on the trailer such as the tilting mechanism and the crank.

If possible, set your trailer on blocks and store the tires out of the cold.

Pay particular attention to maintaining safety equipment. For example, life jackets will last longer if they are stored in a dry place away from the cold.

Finally, if you have a boat cover, use it. The elements are your enemy and you have to put forth some effort to protect your boat's value and safety.

Department water safety experts say these precautions shouldn't take long, and they could save the boat owner a lot of grief come springtime.

AERIAL COLLISION—Dimmitt's Craig Williams [31] runs into a high-altitude block by a Muleshoe player as he attempts a shot after stealing the ball in the second quarter of Friday night's Dimmitt-Muleshoe bout. Williams was awarded two free throws on the foul. The Bobcats blitzed the Mules, 70-33, in their second outing of the season.

Swiftettes get great start with 5 victories

The Nazareth Swiftettes, defending champions of District 5-B, are off to a great start on the 1974-75 roundball season, posting five straight wins.

THE Swiftettes have taken big wins over Adrian, Springlake, the Canyon sophomores, New Home and Alamo Catholic, averaging 75 points per game and allowing their opponents only 28 per game.

In the Adrian game played Friday, Nazareth took an 88-25 win with Elaine Schulte pacing the scoring with 44 points, 21 of them coming in the first quarter. Mary Jo Schacher

dumped in 18 points, Ka Blair had 14 and Delphine Wethington had 10.

Against Springlake Nazareth posted a 58-29 win with Miss Schulte gunning the nets for 25, Miss Wethington bucketing 17 and Miss Blair 13.

IN A game against the Canyon sophomores, Miss Schulte had 39 of Nazareth's points in the Swiftettes' 70-23 victory. Delphine Wethington and Mary Jo Schacher both had eight points and Beverly Heck had seven.

New Home fell to the powerful Swiftettes by the tune of 76-37 with Miss Schulte bucketing 35 of Nazareth's points. Miss Wethington added 18 more.

Nazareth overwhelmed Alamo Catholic, Cheryl Hartman bucketed 17 points for Nazareth, and in a 60-16 win over Springlake Miss Hartman had 18 points. In the Springlake game Rachelle Pohlmeier had 17 points and Karen Schulte had 14.

Nazareth defeated Adrian 80-40 with Miss Hartman gunning the nets for 26 points. Karen Schulte had 16 and Rachelle Pohlmeier had 14.

'B' Swiftettes win 5 straight

Nazareth's "B" Swiftettes are off to a fast start in roundball competition, undefeated in five games.

NAZARETH took a 69-14 win over Grace Christian with Lenore Huseman dumping in 25 points.

Current food situation termed 'extraordinary'

Except in extraordinary times, shopping habits change slowly. With the current increase in food prices, these are extraordinary times, one authority contended this week. "FIGURES for family food expenditures last year show that consumers are changing their shopping habits and food use to meet the times," Mrs. Gwendolyn Clyatt, consumer marketing information specialist with the Texas Agricultural Extension Service, reported. "Consumers increased the amount of money they spent on food last year by only 11-12 percent—but food prices rose 21 percent for the year." Mrs. Clyatt said that a Progressive Grocer-Home Testing Institute survey indicated some of the reasons for the slower increase in spending. "Shoppers prepare better now for food buying with lists, planned menus, and consultation with other family members. This shows the importance of supermarket shopping

among family financial expenditures." **HOMEMAKERS** have met higher meat prices more often by cutting down on total meat purchases rather than by switching to cheaper cuts. "Consumers are also buying more meat alternates such as beans, eggs, cheese and soy products. In fact, the increase in the price of beans is a direct reflection of greater consumer demand," Mrs. Clyatt explained. The survey also showed that people are eating less food—an average of 1.5 percent less per person last year, she said. Another factor in lower food expenditures is the homemaker's reluctance to "shop around" which uses more gasoline. Shoppers now tend to concentrate their food buying in one area—often in only one market, she reported. **THE AVERAGE** number of

supermarket trips per household has dropped 25 percent. Fewer shopping trips usually means less temptation to impulse buying." She reported that the survey showed consumer interest in "specials" surged last year. Newspaper ads are a favorite source to learn about store specials. Those who "almost always" read newspaper ads rose from 60 to 68 percent, Mrs. Clyatt said. "Both supermarket managers and consumers agree that the single most important trend in the effort to keep the family food budget from crashing through the ceiling has been increased attention to 'specials.'" Another money saver is cents-off coupons, and their popularity soared by one-third last year. Favorite sources for this savings are pull-off box tops, mail, magazines, store circulars, and newspaper ads.

VETERANS' SERVICES

By BEDFORD SMITH Veterans Service Officer

ATTENTION ARMY RESERVISTS AND NATIONAL GUARDSMEN:

More than one million dollars in back pay is awaiting nearly 60,000 Army reservists and National Guardsmen who cannot be reached by the Department of the Army. This back pay is the result of an increase in military pay which was to be effective Oct. 1, 1972. The increase was not paid because of the President's wage and price freeze which went into force on Aug. 5, 1972. A recent court decision ruled that the withheld pay increase be paid to each reservist and guardsman who was a member and entitled to pay during the months of October, November and December, 1972.

US ARMY officials report that the former reservists and guardsmen earned the money for drills and training attended during the Oct. 1 through Dec. 31, 1972 period. The records show that only about 1,000 of those eligible have applied for their back pay.

The payments range from \$16 to \$240, depending upon rank and pay grade, and Army officials want to mail the checks for back pay before Christmas. Former reservists and guardsmen who trained during that 1972 period can write to the Army area in which their old unit is located:

- Commander, First US Army, attn: AFKA-PA-R, Meade, Md. 29755
Commander, Fifth US Army, attn: AFKA-PA-R, Ft. Sam Houston, Tx. 78234
Commander, Sixth US Army, attn: AFKA-PA-R, Presidio of San Francisco, Ca. 94152
If a reservist or guardsman has retired, been discharged, or has died since the 1972 period, claims from the former member or his survivors should be addressed to:
Commander, US Army Reserve Components Personnel and Administration Center

attn: AGUZ-TAD-DP, 9700 Page Blvd., St. Louis, Mo. 63132

Few of the 727,000 veterans and servicemen enrolled in GI Bill college courses this fall will need tutorial help, but the Veterans Administration will pay for it if needed, Jack Coker, VA Regional Office Director, said this week.

UNDER A program not available under the World War II and Korean GI Bills, VA pays costs of tutoring, not to exceed \$50 in any month, up to a maximum of \$450. The benefit is not charged against the veteran's or serviceman's basic educational entitlement.

Any post-secondary trainee is eligible if he trains half-time or more and has a deficiency in a subject required in an approved program of education.

In order to receive payment for tutorial assistance, the agency advises eligible GI Bill trainees to complete a VA application and have it certified by the school. Applications should be sent within a year of the tutoring to the VA regional office which has the veteran's claim folder.

TOTAL GI Bill enrollments, including other schools, flight, apprenticeship and on-job training, stood at 1.3 million in September.

Only the 727,000 college trainees are eligible for tutorial assistance however. Since it became available in March 1970, 48,000 trainees have received tutorial assistance at a cost of \$4.7 million.

ABOUT THE AIQ CARDS:

This is to remind VA pensioners again that the Annual Income Questionnaire Cards received with the November checks must be filled out and returned before Jan. 1, 1975 or the January pension check received Feb. 1, will not be mailed until the required information reaches Waco.

We are prepared to assist any needing help with the cards. When coming to our office try to remember to bring a full account for unremitted medical expenses paid by the pensioner for self and dependents in the home as all over 5% of your 1974 accountable income is rated excessive medical

IT'S A TURNIP—How many servings will an eight-pound turnip make? Mrs. Joe Lynn Birkenfeld of Nazareth is finding out with this whopper grown in the family garden at the Birkenfeld farm three miles north of Nazareth. The turnip grew from a seed that washed away from the rest of the garden. However, several other turnips in the Birkenfeld garden were almost this large. Planted in August, the turnip got the benefit of the autumn rains.

'Sonic sewing' due for future

"Sonic sewing" is one of many new techniques being used by the textile and apparel industry, according to one clothing specialist.

SHE'S Margret Ann Vanderpoorten, with the Texas Agricultural Extension Service. "This new method, already in use by several manufacturers, uses high frequency vibrations to melt synthetic fibers and fuse them together. No needle or thread is needed,"

the specialist said.

This method works well for fusing seams in wearing apparel, adding decorative patterns and quilting several layers of synthetic fabrics and fibers together, she noted.

"Quilted fabrics produced by this method are becoming popular for making ski wear and home furnishings—because the 'stitches' never break under stress the way traditional thread stitches do," Miss Vanderpoorten explained.

expenses and may well increase pensions. Please also bring information on Social Security income for the year and the correct amount deducted for Medicare, if any. Health and hospital premiums, amounts paid for doctors, dentists, hospitals, prescriptions, eye glasses, hearing aids, braces, etc., are a part of medical expenses to be reported on the AIQ cards.

Another advantage is that design and color can be added as the fabrics are welded together. The color becomes part of the fabric by melting into the liquefied synthetic fibers, she said.

"This technique is suitable for most synthetics and for blends containing less than 35 percent natural fibers," she said.

Dimmitt students join radio staff

Two Dimmitt area students have been named to the 68-member staff of KACC for the fall semester. KACC is Abilene Christian College's student radio station, operated by the students who receive college credit.

BRENT MILLER, a 1972 graduate of Dimmitt High School, is a junior mass communications major. He is the son of Mr. and Mrs. Jack R. Miller.

Gary Webb, son of Mr. and Mrs. Carroll Webb is a junior mass communications major at ACC. He is a 1972 graduate of Dimmitt High.

Jeff Warr, assistant instructor of communications, is station manager and Dr. Lowell Perry, professor of communications, is faculty advisor.

Modules simplify cotton movement

HYDRAULIC COMPRESSOR ARM
... Packs cotton on modules

MODULE IS LEFT IN FIELD
... Ready for movement at Rob DuLaney farm

COTTON IS SUCTIONED FROM TRUCK BED AT GIN
... After loading palletted module in field

TREATING a child as if he were a special person helps him feel good about himself, Ilene Carrington, family life education specialist with the Texas Agricultural Extension Service, points out.

COTTON harvest was almost stopped the first week of October by bad weather, but harvest was estimated from 20 to 25 percent complete, compared to about 15 percent complete at the same time last

year. COOL, wet weather set back cotton on the High Plains in September and October's weather did not give it a chance to recover. SOYBEAN harvest is reported about 37 percent complete, peanut harvest about 59 percent, second crop rice about 74 percent, and over 90 percent of wheat and oat seeding is complete.

Good Wishes at THANKSGIVING

Hear Ye,
Fellow
Americans!
God Speed

Success in every venture. Big or small. Personal or civic. Worldly or spiritual. What better source of inspiration is there . . . than our country's forefathers? Remember them in prayer on Thanksgiving . . . their accomplishments have helped make this nation great.

**Webb-Mears
Engine Co.**

THANKSGIVING

For A Legacy That Makes Us Americans

There's a lot to be remembered on this holiday. A glance at American history proves that it's so.

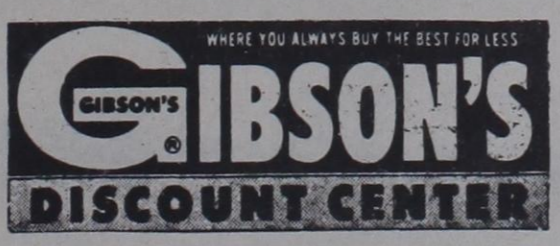

Hardships overcome by men who sought freedom. A new nation founded through vision and dedication. For then and for now . . . let us join and be thankful.

Thanksgiving GREETINGS

Thanksgiving Affects Us All

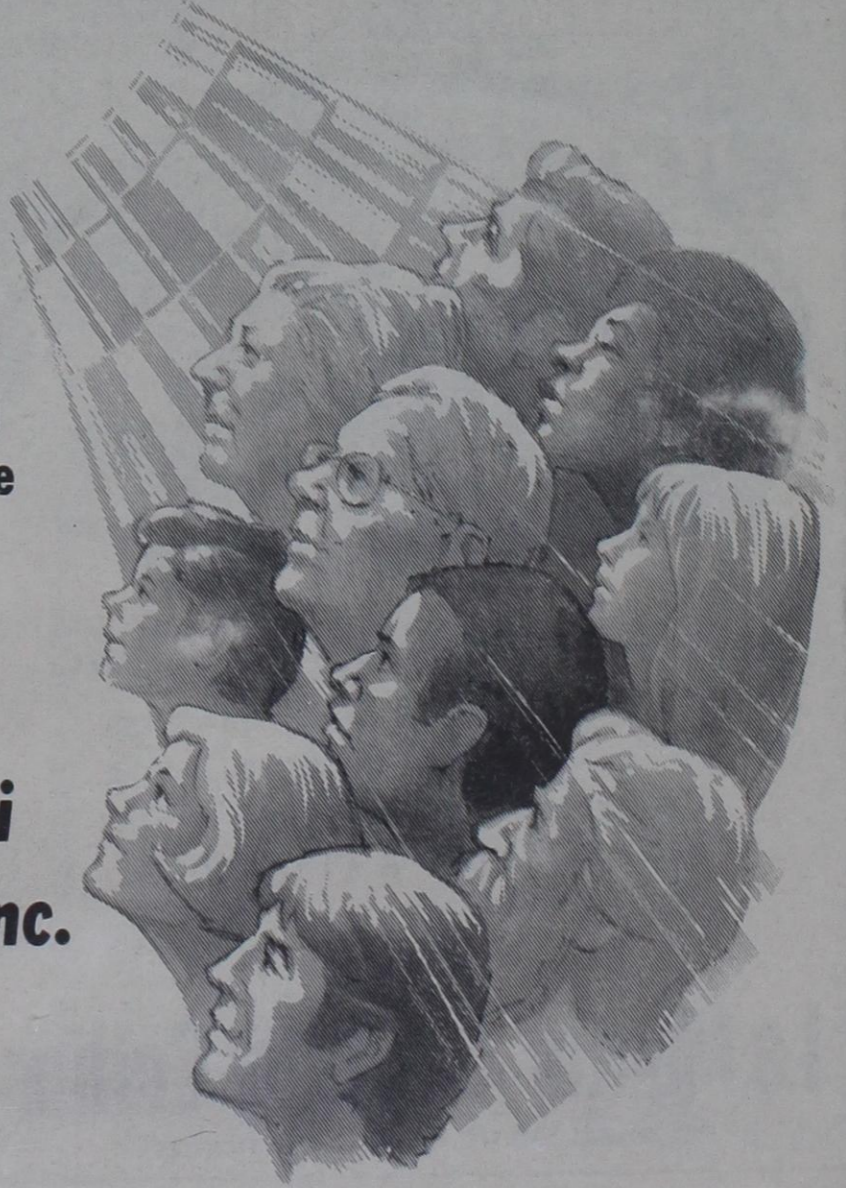

Sometimes we forget the true meaning
Of
Ideas and purposes.
We forget
Reasons and people.
We forget
Why and who.
IDEAS are why we have America.
PURPOSES are the prosperity we work for.
REASON is the freedom we enjoy.
PEOPLE are Americans, you and I.
WHY is love for Fellow Man.
WHO is God.
We need Thanksgiving to
Thank God for all of this—
Sometimes forgotten and
Taken for granted.

LET US GIVE THANKS

"We've had another boundiful harvest and we're thankful for it."

**Dimmitt Agri
Industries, Inc.**

4-H congress set Dec. 1 in Chicago

Texas will be well represented when the 53rd National 4-H Congress kicks off in Chicago Dec. 1. Forty of the state's top 4-H members will be in the delegation of more than 1,600 4-H youth from all 50 states, Puerto Rico and Canada.

DELEGATES FROM the Panhandle area will include Norman Acker, citizenship, Castro County; Deana Finck, clothing, and Aaron Parker, rabbit, both of Swisher County; Ramona Skinner, dress revue, Childress County; and Van Miller, horticulture, Floyd County.

"4-H—We Can Make It Happen" is the theme of this year's Congress. The national event is the highlight of the 4-H year and honors those 4-H boys and girls who have outstanding records of achievement, points out George McArthur, 4-H and youth specialist for the Texas

Agricultural Extension Service, the parent organization of the state 4-H program.

THOSE attending have earned the trip through their 4-H accomplishments as evidenced by record books completed in a wide range of subjects.

Texas delegates will leave from Dallas Nov. 30 following an orientation meeting.

Accompanying the Texas delegation will be C. R. Salmon, area 4-H and youth specialist, College Station; Edwin T. Garnett, district Extension agent, Vernon; Kathy Hufnagle, Potter County Extension agent; and Bill McCutchen, Milam County Extension agent.

Hogs slaughtered in September in Texas totaled 109,000, a two percent increase over the same month last year.

KENNETH HARDING
Harding graduates from Navy Center

Navy Fireman Kenneth N. Harding, son of B. B. Harding of Hart, recently graduated from recruit training at the Naval Training Center, Orlando, Fla.

HE IS scheduled to report to Machinist's Mate A School, Great Lakes, Ill.

The training included instruction in seamanship, military regulations, fire fighting, close order drill, first aid and Navy history.

TFU policy drafted at Waco meeting

Fifteen farmers and ranchers from across Texas met in Waco last week to draft the 1975 policy statement of the Texas Farmers Union. The members of the policy committee wrote the draft of the general farm organization's guiding document by incorporating recommendations and resolutions submitted by the county Farmers Union locals. The delegates to the Texas Farmers Union annual convention in Houston, December 13-14 will debate the proposed statement and adopt the final version.

ADEQUATE income protection for farmers and ranchers was one of the key issues before the farmer/rancher panel. Many of the recommendations passed by the committee deal with proposed changes to the 1973 Farm Act. Other issues which will spur debate in Houston concern the farm organization's position on the subjects of land-use planning, the administration of the disaster program, proposed changes in the peanut and rice programs, the creation of a state utilities commission, property taxes and fuel allocation to agricultural producers. The agricultural producer-delegates will also debate questions of school financing, brand inspection, water priorities and the commodity check-off programs.

Christmas stamps available locally

Two 10-cent traditional Christmas postage stamps are presently on sale at the Dimmitt post office.

THIS YEAR'S Christmas Masterpiece stamp is based upon a detail from "The Perseus Altarpiece," a large oil painting which hangs in the Metropolitan Museum of Art in New York. Designer of the stamp is Bradbury Thompson of Riverside, Connecticut.

The stamp features an angel taken from the central of the five panels making up the large altarpiece painting. The angel is one of two in the central panel — one is depicted in flight on either side of the upright portion of the cross that dominates the panel.

The identity of the artist who painted the altarpiece is unknown. The painting is known to have been done in 1480,

although it is not known where it was hung upon completion.

The second Christmas stamp is taken from an 1853 lithographic print, "The Road, — Winter," by the firm Currier and Ives. The drawing was done on the lithography stone by Otto Knirsch, one of the celebrated American artists Nathaniel Currier employed to produce drawings that were to be colored on an assembly line of girls, each of whom applied a single color.

THE STAMP was designed by Stevan Dohanos of Westport, Connecticut. The design shows a man and a woman in a horse-drawn sleigh moving through a wintry landscape.

COTTON picking is expected to pick up in West and North Texas now that frost is causing defoliation.

Our American Day

The great bounty of the harvest...

The beauty of grateful hearts...

The sights of home, the thoughts of home,

All of these are as American as today...

Thanksgiving Day. We pause to give thanks.

FIRST STATE BANK

OF DIMMITT

BILL SAVA
New Dimmitt postmaster

Bill Sava appointed Dimmitt postmaster

Bill Sava, 35, is Dimmitt's new postmaster. SAVA RECEIVED word of his appointment to the position last Friday from Joel Bruner of the Oklahoma City district office of the US Postal Service. He is the first postmaster appointed in Dimmitt under the US Postal Service. All others here have been appointed under the old US Post Office Department. A native of Texarkana, Sava came to Dimmitt in 1965, beginning his duties with the local post office as a clerk. He first began work in the postal system in Texarkana in 1961. In 1967 he was promoted to assistant to the postmaster in the local office. Prior to his appointment as postmaster, Sava made a trip to Memphis to be interviewed. "THE POSTAL Service officials told me that the Dimmitt post office is a good running office and a credit to the people working in it," said Sava. "I feel the quality of the people working here and their efforts along with those of retired

Christmas greeting deadline Dec. 12

The Plains Memorial Hospital Auxiliary's Christmas greeting project will be held again this year.

ENTITLED "Operation Christmas Greeting," the project benefits the entire community by sending a Christmas greeting to all Castro County friends and relatives while saving time and money for those who donate to the project.

Those who wish to participate in the project should figure the amount they normally spend on Christmas cards and postage for local friends and donate that amount to OCG.

Contributions may be made at the First State Bank of Dimmitt in person or by mail. All contributions must be turned in by noon Dec. 12.

Money received from the project will be used to purchase equipment for Plains Memorial Hospital.

NAMES of those who donate to OCG will appear on a cover page of the Christmas edition of the News, along with an appropriate Christmas greeting to local friends.

Rites held Sunday for H. H. Sullivan

Funeral services for Houston Harvey Sullivan, 64, a Hart resident for 43 years were held Sunday in the First United Methodist Church of Hart. Rev. Elra Phillips, pastor, officiated.

MR. SULLIVAN died last Thursday at the Veterans Administration Hospital in Amarillo, following a lengthy illness. A veteran of World War II, he was a retired farmer.

Survivors include his wife, Johnnie; two daughters, Mrs. Betty Seago of Deming, N.M. and Mrs. Jerri Cook of Angleton; a son, Harvey of Texhoma, Okla.; two sisters, Mrs. Lola Tugman of Cache, Okla. and Mrs. Hazel Hamilton of Sterling, Okla.; two brothers, Donald of Duncan, Okla. and Dranon of Sterling, Okla.; six grandchildren and two great-grandchildren.

Burial was in Hart Cemetery under the direction of Parsons Funeral Home of Olton, with American Legion graveside rites.

PMH Auxiliary to hold bazaar

The Plains Memorial Hospital Auxiliary will hold its annual holiday bazaar Dec. 6.

GIFT AND food items will be on sale in the fellowship hall of the First United Methodist Church from 10 a.m. to 3 p.m.

A luncheon will be held at the fellowship hall from 11:30 a.m. to 1:30 p.m. Admission will be \$2.50 for adults and 75 cents for children under 12.

Bobcats win, Bobbies lose at Muleshoe

Dimmitt's Bobcats chalked up their first basketball victory of the season and the Bobbies suffered their first loss in games at Muleshoe Friday night.

THE BOBCATS, rebounding from an 86-84 opening-game loss to Class AAA powerhouse Levelland, routed the Mules by a 70-33 count.

Paced by seniors Craig Williams (18 points, 10 rebounds) and Wayne McKee (six credits), the Bobcats were in command from the opening buzzer. Coach Kenneth Cleveland started substituting when the game was only two minutes old, and continued to rotate his bench throughout the contest. Thirteen of Dimmitt's 14 varsity players scored.

The Bobcats led 14-4 at the end of the first period, 32-16 at halftime, and 51-25 after the third.

THE BOBBIES held the talented Mulettes to a 19-19 tie in the first half of the varsity girls' game, but the hostesses gained a seven-point advantage in the third quarter, 35-28, then connected for 16 points in the final frame to take a 51-35 victory.

Although Dimmitt's forwards had trouble working the ball in against Muleshoe's tall guards, senior sharpshooter Cindy Dyer connected for 18 points to lead the Bobbies' scoring.

IT WAS the third straight victory against no defeats for the Mulettes of District 1-AAA. The loss left the Bobbies with a 1-1 record.

'Manor' sets Yule bazaar

South Hills Manor residents will hold their annual Christmas Bazaar next Thursday, starting at 6:30 p.m.

ORIGINAL gift items and holiday decorations made by the residents themselves will be displayed and sold, according to Hazel Dunn, administrator.

JESSE LOPEZ of Dimmitt Boy Scout Troop 275 sells a packet of safety flares to Pete Garza, scoutmaster, to kick off the scouts' safety project. Scouts will be calling at Dimmitt homes through Dec. 15, selling packets of 20 minute safety flares for \$1 per packet.

Commemorative coins to 'go public' Monday

The Dimmitt Chamber of Commerce will put the original issue of Castro County commemorative coins on public sale Monday.

UNTIL THEN, sales are restricted to Chamber of Commerce members. Chamber President Bob Caddell urged all chamber members who want to buy sets or individual coins to turn in their orders by Friday.

Serial numbers of chamber members' reserved sets will be assigned by drawing at the next CofC board meeting Dec. 5, Caddell said.

The top collector's item in the original issue is the four-coin set, consisting of one coin each of solid gold, pure silver, brushed silver and bronze—all with matching serial numbers. The set, enclosed in an acrylic display mounting, sells for \$100. Only 100 four-coin sets are being issued.

"PEOPLE buying this original issue of numbered coins will have first choice of buying next year's issue with the same serial numbers, to build up matching sets through the years to enhance their value," Caddell said.

The solid gold coins are available only in the four-coin sets. Three-coin numbered sets (pure silver, brushed silver and bronze) are available at \$35, and two-coin numbered sets in brushed silver and bronze may be purchased for \$10.

PRICES OF individual coins are: Pure silver, numbered: \$20. Brushed silver, numbered: \$5. Brushed silver, unnumbered: \$4. Bronze, numbered: \$3.50. Bronze, unnumbered: \$2.50.

THE commemorative coins were designed by Ike and Joan Moore of Dimmitt. One side shows a full-relief engraving of Henry Castro, after whom the county was named. The other side is a dimensional composite of the county's agriculture, showing a grain elevator, irrigation well, a head of milo, an ear of corn and a boll of cotton.

Coins may be ordered by phoning the Chamber of Commerce office, 647-2524.

Fun After 50 Club to meet Tuesday

The Fun After 50 Club will meet Tuesday at 7:00 p.m. in the community room at City Hall.

All interested persons are welcome to come play '42'.

Bearden rites held Monday

Funeral services for Vernon Eunice Bearden, 80, a Hart resident since 1926, were held Monday in the First Baptist Church of Hart. Rev. Elra Phillips officiated.

MR. BEARDEN died Friday in Central Plains General Hospital in Plainview.

A retired farmer, he married Ola Mae Walker in Red River County in 1920.

Survivors include his wife; four daughters, Mrs. D. N. Gamblin of Sunray, Mrs. Noah Spencer of Sunnyside, Mrs. Dewayne Brandt of Toledo, Ore., and Mrs. Neal Wall of Burlington, Colo.; one sister, Mrs. Ruby Moore of Abery; 17 grandchildren and eight great-grandchildren.

Burial was in Castro Memorial Gardens under the direction of Parsons Funeral Home of Olton.

By DON NELSON

Although America's first Thanksgiving was held 353 years ago (the fare consisted of deer and wild turkey, with games of quoits afterward between the Indians and Pilgrims), Thanksgiving as a legal US holiday is only 111 years old.

THANKSGIVING observances were sporadic for almost two centuries, although it was an annual regional event in New England.

But it was not until 1863 that Thanksgiving became a national legal holiday, by President Lincoln's proclamation.

Thanksgiving has since become one of our most popular and meaningful holidays.

What we need to do now is export some of our reasons for Thanksgiving—our abundance, technology, distribution systems—to other parts of the world where a single baked potato is still considered a feast.

THE DEMOCRATIC Party gained a prime candidate when Congressman Morris Udall of Arizona announced he would seek the 1976 presidential nomination.

In my opinion, Mo Udall could become another Lincoln. There's even a slight physical resemblance.

The name Udall has been politically magic for two generations in Arizona. Mo's brother, Stuart, served in Congress and later as Secretary of the Interior in President Kennedy's cabinet. And a kinsman—an uncle, I believe—distinguished himself as a judge in the Grand Canyon State.

MO UDALL was a man of high individual achievement before he ran for Congress more than a decade ago. He was an all-conference basketball player at the University of Arizona. Later, as a practicing attorney, he wrote the lawyer's textbook on evidence.

He rose in Congress as rapidly as any fledgling congressman in that large, stratified club can do. He's considered liberal (although the tag probably isn't fair), and has the native-born Arizona's love for ecology and conservation.

His main problem will be to make himself well-known throughout the country. He has given himself almost two years to do it. I think—and hope—that he'll be a major contender.

Tonya Clark is elected district FFA sweetheart

Tonya Clark, 17-year-old DHS senior, was elected Plainview District FFA Sweetheart Monday night at the district awards banquet in Tulia.

MISS CLARK, daughter of Mr. and Mrs. Bill Clark, is the 1974-75 Chapter Sweetheart of the Dimmitt Future Farmers. She won the district honor over 15 other chapter sweethearts in the Plainview district. She was elected by voting delegates from the district's 19 chapters during the district awards banquet.

Miss Clark will represent the Plainview district in the Area I Sweetheart Contest in Amarillo in May.

DIMMITT'S senior chapter conducting team placed second in district competition during the convention, and the Greenhand chapter conducting team placed third.

Hart sorority sponsors drive for Girlstown

Hart's Xi Mu Iota sorority recently sponsored a drive for Girlstown at Whiteface.

SEVERAL Dimmitt and Hart businesses donated to the drive including Anthony's, Parsons Drug, Kittrell Electronics, Harman's, TG&Y, Dimmitt Supermarket, Gibsons, H&S Produce, Bob's Farm Supply, Hart Oil, Smith Potato Co. and Bill Weaver of Olton.

Members of the Hart club would like to thank the merchants on behalf of Girlstown. Tom McLain of Hart furnished a truck to carry donated items to Girlstown.

VAST IMPROVEMENT—This area near the Immaculate Conception Church at the intersection of NW 10th and Halsell shows how preparations for paving have already helped solve a big mud problem. The area in the foreground has been a problem for churchgoers for some time, turning into a

quagmire with every rain. Installation of curb and gutters and preparation of the roadbed has solved the problem, and paving will eliminate it. McMorries & Associates of Amarillo is contractor for the city's current paving project.

Save on taxes with farm adjustments

When making decisions relating to any farm business, always consider the tax consequences of your decision, says Dr. Wayne Hayenga, economist for the Texas Agricultural Extension Service.

"NOW IS a good time to estimate your expected income for 1974," says the economist. "To do this, obtain information from your 1974 records, make estimates of your income and expenses for the rest of the year, and compare this year's estimated income with last year's income." Hayenga says there are several things an individual can do to reduce the potential tax for 1974.

"By purchasing some capital items such as machinery, equipment and breeding stock before the end of the year, you can get more investment credit and additional first-year depreciation," says the economist. "Other capital items purchased during the year can be put on a faster rate of depreciation."

"You may also want to purchase such items as feed and fertilizer for the coming year." ANOTHER way to reduce potential tax is to delay sales of some farm items such as grain, cotton and livestock until after the first of the year.

"Unless your taxable income appears to be lower than usual this year, you should pay any large bills before Jan. 1 and

make needed repairs to machinery, buildings and fences before the end of the year," suggests Hayenga.

He also advises taking advantage of the "net operating loss" provision of the tax law if it seems there will be a loss in your year's business. "This provision may enable you to recover taxes paid in past years and establish the amount of loss that can be used to offset income in future years."

Putting money into a "tax-sheltered" retirement program can also reduce overall taxes, adds the economist. A banker or insurance agent can provide details.

Four games on tap Friday

A four-game basketball session is on tap at North Elementary Gym Friday night when Abernathy comes to call.

THE B-TEAM girls will start things off at 4 p.m., followed by the B-team boys' game at 5:30. The Bobbies and the Does will tip off at 7, and the Bobcats and Antelopes will play at 8:30.

Tuesday night, the Bobcats and Bobbies will host Tulia before going into their first tournaments of the season at Plainview (boys) and Tulia (girls) Dec. 5-7.

SENIOR centers are on the increase. In 1970, the second directory of senior centers in the United States listed more than 1,200—compared with 340 in 1966, according to Mrs. Vivian H. Blair, family life education specialist - aging - with the Texas Agricultural Extension Service.

Arcade will open Dec. 6

Chuck Lay announced this week that he will open an arcade in the American Legion Building the first week of December.

AS A result, Dimmitt teenagers have relaxed their efforts to start a youth center here.

To be named "The Hut," Lay's arcade will feature coin-operated games—pool, foosball, shuffleboard, miniature bowling, pinball and air hockey—plus a jukebox and soft-drink machine.

Lay and his wife, Ann, who have operated a Dairy Queen franchise, plan to run the arcade themselves. Saturday, Dec. 6, is the planned opening date.

"WE PLAN to open at 4 o'clock in the afternoons and close at 10 o'clock Tuesdays through Thursdays," Lay said. "We'll be closed Mondays, will open earlier on Sunday afternoons, and will stay open later on Friday and Saturday nights."

He added, "We already were completing arrangements for the arcade when the kids started working on their youth-

center idea. We'll have the same rules the kids were planning to have—we won't allow any alcohol or anything around the place.

"We're planning a place that can be used by the whole family," Lay continued. "I imagine most of our customers will be teenagers, but I've found that many adults are interested in a center like this, too, so we're designing it to be used by all ages."

OPEN dating of perishable foods doesn't guarantee quality or wholesomeness—only proper handling and storage from the processor to the dinner table will do that, Mrs. Gwendolyn Clyatt, consumer marketing information specialist with the Texas Agricultural Extension Service, reminds.

WHEN a cancer patient goes home the American Cancer Society stands ready to help with the loan of sickroom supplies. The motto of the ACS is "please Call Us."

We wish...

... that everyone in the world could have as much to be thankful for as we in Castro County have this Thanksgiving.

SOFT, TOUCH—Dimmitt's Beth Cleveland is barely visible beyond the outstretched arms of a Muleshoe guard as she jumps high and lofts a two-pointer in the third quarter of Friday night's game at Muleshoe. This shot gave the Bobbies a 23-21 lead, but the Mullettes later caught fire and surged to a 51-35 victory to remain undefeated in three games. The loss left the Bobbies with a 1-1 mark.

IMPROVED performance and varied esthetic characteristics summarize trends in 1974 textile fiber developments.

Fertilizer helps up peanut yields

Studies at the Texas Agricultural Experiment Station at Stephenville have shown that peanut yields can be increased with the use of fertilizer. Yield increases ranged from 115 to 980 pounds per acre with 25 pounds of nitrogen per acre

applied alone or in combination with phosphorus and potassium. Increased gross returns per acre ranged from \$19.75 to \$167.75 compared to untreated peanuts. However, nitrogen applications of 50 pounds per acre generally depressed crop output.

BRICKING IT UP—Workmen lay bricks for a wall at the new Dimmitt Middle School complex. Work on the new school facility is progressing rapidly and several rooms of the new complex are already taking form. Contractor for the project is Durbin Construction Co. of Lubbock.

Water importation plan feasible, says Ellison

Water, Inc., officials have taken a positive stance on the Bureau of Reclamation-Corps of Engineers study of an importation plan for West Texas and Eastern New Mexico. They have viewed the study as a giant step forward, a "poor press" notwithstanding.

that from an engineering standpoint, facilities could be built to transport the water.

The single disconcerting finding was "the importation alternative cannot be economically or financially justified using present procedures."

The key to this finding, however, is "using present procedures". This phrase refers to procedures no longer in use which tabulated benefits only to the primary water user. Already, since the study was completed, procedures have

changed which take into consideration some secondary benefits, and further procedural changes are anticipated within the coming year.

"All indications point to criteria revision by mid-1975 that will justify the feasibility of the import project," said Duncan Ellison, Water, Inc., executive director. "We continue to work closely with federal authorities for criteria that will fairly reflect total project benefits," he said.

ON THE positive side, the study found that supplemental water supply is needed on the High Plains of West Texas and Eastern New Mexico, that surplus water is available in the Mississippi River system and

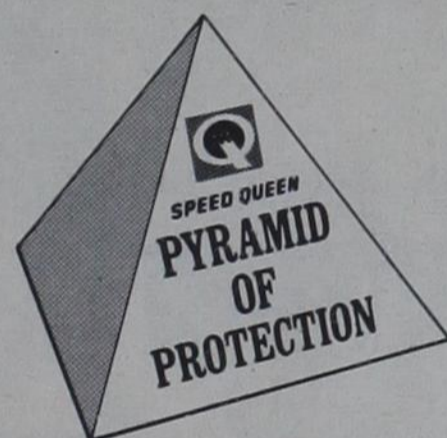

Foreign trade and livestock prices

Foreign trade can't shoulder the blame for current low cattle prices, contends a livestock marketing specialist for the Texas Agricultural Extension Service. During the first six months of this year, imports of beef, veal and pork were down three percent from last year's level while cattle imports were down 21 percent for the same period. However, hog imports were up 184 percent. On the export side, beef and veal were down eight percent and pork was down 77 percent but cattle exports were up 87 percent.

THOUGHTS FOR
Thanksgiving

... a Time for Togetherness, with Prayer and Gratitude

Family, neighbors, friends . . . everyone joins together in a community spirit of Thanksgiving as glad voices show gratitude through prayer. We share in this joy of Thanksgiving, with special thanks for the opportunity and obligation of serving our friends and neighbors, and working with them for the betterment of our community, that we may fully deserve the many blessings for which we are always grateful. To all, a happy Thanksgiving.

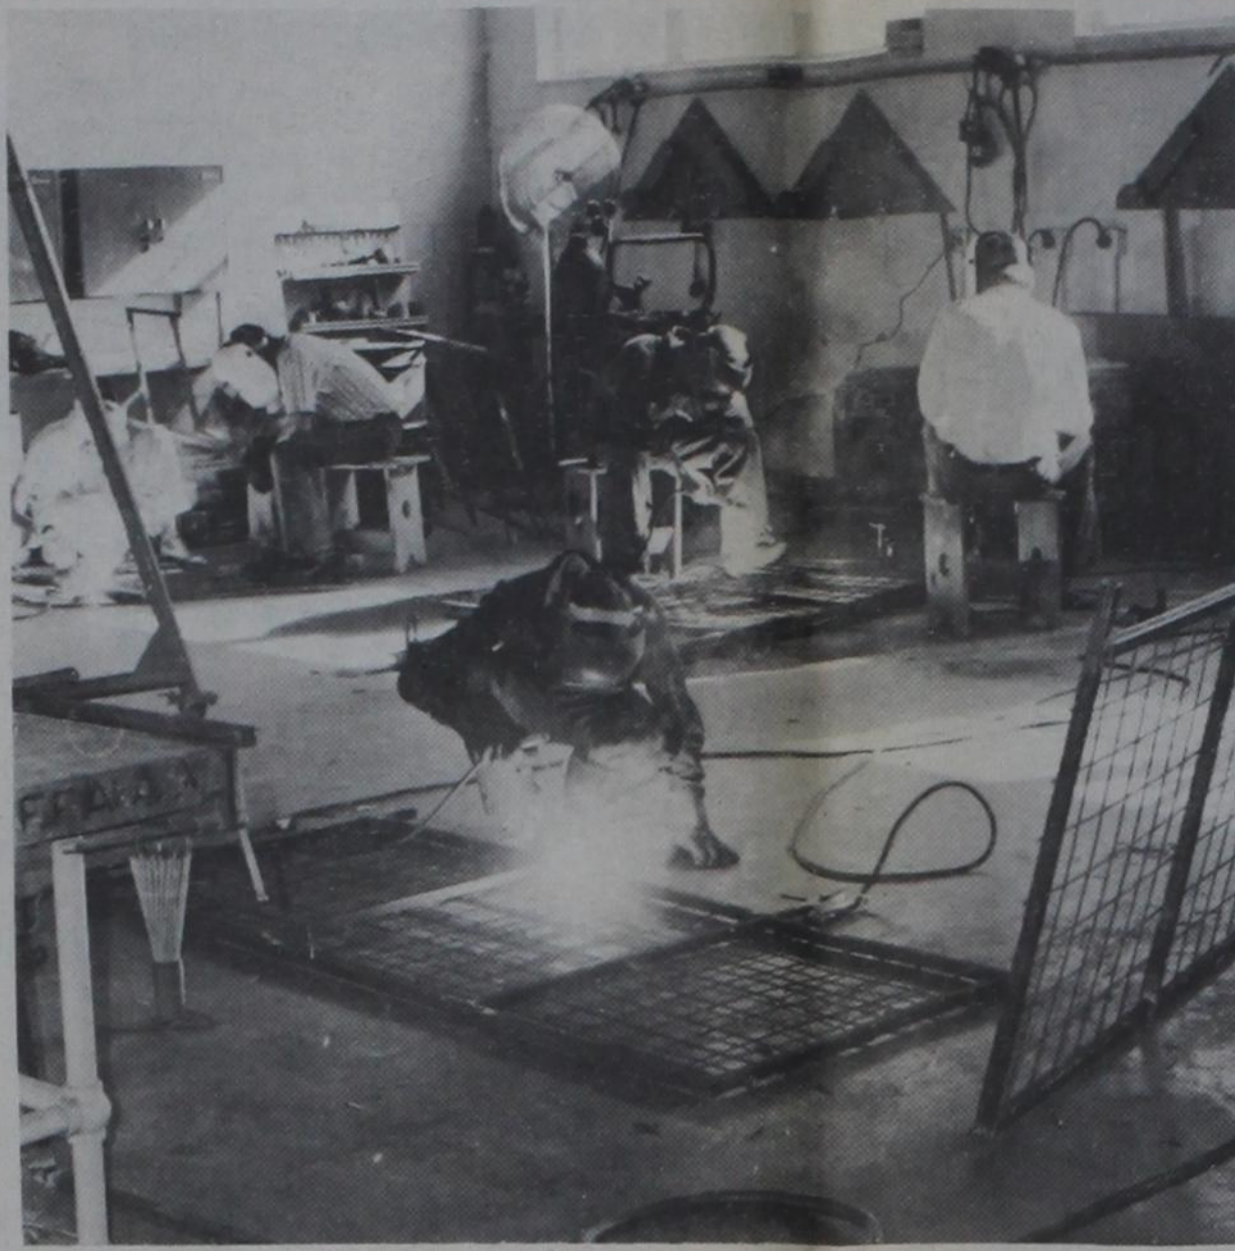

THANKSGIVING GREETINGS... to all

CASTRO COUNTY GRAIN CO.

Artificial light aids landscaping

Artificial lights can help you grow attractive plants indoors, says a landscape horticulturist for the Texas Agricultural Extension Service. Fluorescent lamps are excellent and should be suspended about a foot above the plants. Two lamp fixtures, each with two 40-watt tubes, will provide light for a four-foot square area. Temperature in the growing area should range from 60 to 75 degrees F.

647-3123 For Printing

WELDING PANELS—Members of Dimmitt High School's agriculture mechanics class weld panels for new metal pens to be used in the swine barn for the county's junior livestock show. Dimmitt's FFA chapter is making the pens for swine while the Nazareth FFA is making holding pens for the show ring in the new county exposition center, wash

rack pens and alleys from the old barns to the exposition center. The Hart FFA is building pens for the lamb barn. The county commission voted funds for the project and the schools are providing the labor. The new pens and other items will make the handling and showing of livestock much simpler for county youths.

Carver Pharmacy

DUMPING 'ER IN—A stripper basket full of cotton is dumped in the top of a cotton module builder on the Bob DuLaney farm west of Dimmitt. The module builder, owned by DuLaney and his brother Jack of Shallowater, is the latest thing in cotton handling

equipment, and is the only one of its kind in use in Castro County. The module builder compresses cotton in compact modules which are carried to the gin by truck, eliminating the need for cotton trailers. [More photos on page 11]

Module builder newest thing in modern cotton harvesting

Bob DuLaney of Dimmitt and his brother Jack of Shallowater have brought something new in cotton harvesting to Castro County.

THE BROTHERS were busy

Here are week's best food buys

Citrus fruit quality is nearing its peak as more grapefruit and oranges come to market, one consumer expert reported this week.

"DON'T pass up oranges with a greenish tinge," Mrs. Gwendolyn Clyatt, consumer marketing information specialist with the Texas Agricultural Extension Service, advised.

"Greenish-looking oranges are the ripest fruit of all, and they're green because of a phenomenon known as 're-greening'—due to a return of chlorophyll to the skin during warm weather," she added.

Apples and fresh cranberries are other good seasonal choices this week, the specialist said. Moderately priced fruits are grapes, bananas, tangerines and tangelos.

Vegetable bargains focus on cabbage, carrots, potatoes and rutabagas.

ALSO HARD shell squash,

bringing neat stacks of cotton to Dimmitt last week with the aid of a "cotton module builder."

The module builder presses eight to ten bales of cotton into

cooking greens, sweet potatoes and dry yellow onions.

At meat counters, turkey is plentiful, but chicken prices have advanced, Mrs. Clyatt noted.

"Pork values include Boston butt, end chops, liver and quarter-joins cut into chops. Smoked items worth checking are semi-boneless hams, picnic, bacon, frankfurters and roll sausage.

Beef prices are down in general with bargains on chuck cuts, ground beef, sirloin steak, beef liver and stew meat.

CONSUMER WATCH-WORDS: Nuts are half shell—and half nut meat, with few exceptions. It takes about two pounds of nuts in the shell to make one pound of nut meats.

So, if already-shelled nuts cost more than twice the price of unshelled nuts, the unshelled nuts are less expensive.

a neat module which is then loaded onto a truck and hauled to the gin, eliminating the need for cotton trailers.

Cotton is dumped in the top of the module builder and is compressed by a hydraulically driven arm. When the module builder is full a trap door on the rear of the machine is opened to release the module, which rests on an aluminum pallet.

Modules can be covered and left in the field for long periods of time, speeding up harvesting and reducing the fire hazard at cotton gins.

THE MODULE builder is operated by tractor PTO, which runs the hydraulic pump for the compressor arm.

According to Bob DuLaney, the modules are loaded on a tilting truck bed with the aid of a hydraulic hoist, and the pallets are returned to the field when the cotton has been suctioned off.

The DuLaney brothers have a quantity of cotton in the Shallowater area and they believe that this is where the module builder will really pay off. The module was brought here for early harvesting.

"It's kind of a problem to

operate one here in Castro County, but in the big cotton country near Shallowater the module builder will take the place of 30 or 40 cotton trailers," said DuLaney. "Two strippers can get as much cotton harvested with conventional trailers. Our first modules were a little swaybacked, but they got better with experience," he said.

DuLaney reported that the total cost of a module builder is in the neighborhood of \$40,000.

The DuLaney brothers also operate their own module hauling truck and have their own pallets.

ALTHOUGH the module builder may not be practical for the average cotton grower in Castro County, the DuLanays have presented the county with a look at the latest thing from the "big cotton country."

ZINC IS a mineral essential to good health. Meats, eggs, seafoods, whole wheat breads, oatmeal and corn are good sources of zinc, according to Sally Springer, foods and nutrition specialist with the Texas Agricultural Extension Service.

ATTENTION!

You are invited to attend a trunk showing of Turquoise and other precious and semi-precious gems, such as opal and jade, and other Indianmade jewelry. Will be presented by Lillian Carson and Bruce Campbell of Lubbock, representing the Gem Lapidary Co. Just in time for your Christmas shopping. ALL DAY FRI., DEC. 6, starting at 9 a.m.

Blue Room Coiffures

210 West Bedford, in Bruegel Shopping Center. For further information call 846-2245 or 647-3557.

So Many Reasons for

Thanksgiving

Neighbors, friends, a bright future . . . there's so much to be proud of as citizens of this community. We are grateful to all our patrons and wish you a "rich-in-togetherness" holiday.

Cats finish tops in 3-AA in all offense categories

[Editor's Note: Final season football statistics for District 3-AA's five teams were compiled by Bill Ellis of the Friona Star, with the cooperation of district coaches and sportswriters.]

Dimmitt's Bobcats led District 3-AA in team rushing, passing, total offense, scoring and individual rushing during 1974, according to final season statistics.

FOUR Dimmitt backs finished 1-2-3-4 in the district in average yardage gained per carry. Senior halfback Robert Mayberry was tops in the district with an average of 9.3 yards per carry, followed by freshman halfback Thompson Mayberry (8.0), junior quarterback Ronnie Lawson (7.0) and senior halfback Gene Veals (6.5).

Playing in only nine games, Robert Mayberry gained 1,086 yards on 117 carries. Two other 3-AA backs—Olton's Glenn Johnson and Littlefield's Bill Turner—gained more total yards than Mayberry during the season, but each carried the ball more than twice as many times. Johnson finished the regular season with 1,483 yards on 236 carries, while Turner amassed 1,125 yards on 265 carries.

Veals finished the season with 537 yards on 82 carries, Lawson gained 328 yards on 47 carries, and Thompson Mayberry raced for 247 yards on 31 carries.

ALL OF Dimmitt's backs averaged at least three yards per carry for the season. Senior fullback Robert Horton gained 212 yards on 58 carries for a 3.6 average; senior quarterback Brad Sanders ran for 144 yards on 44 carries for a 3.3 average; and junior fullback Leon Sandoval earned 113 yards on 26 carries for a 4.3 mark.

In team offense, the Bobcats ran 524 plays during the season

and amassed 3,743 yards for an average of 374.3 yards per game, the best record in the district.

By comparison, district champion Olton ran two more plays than Dimmitt during the season—526—and gained a total of 3,059 yards for an average of 305.9 yards per game.

Other team offense totals were Friona, 441 plays for 2,081 yards (208.1 per-game average); Littlefield, 512 plays for 1,908 yards (190.8); and Morton, 500 plays for 1,656 yards (165.6).

THE BOBCATS also had the best passing record in the district, averaging almost 50 percent completions. During the season the Cats threw 90 passes and completed 41 of them for 932 yards. Friona completed 42 of 98 for 620; Olton finished with 31 of 98 for 544; Littlefield was 44 of 112 for 520; and Morton completed 30 of 67 for 404 yards.

In their passing attack, the Bobcats averaged 22.7 yards per completion.

And in their ground game, the Bobcats averaged 6.8 yards per run. They ran 434 ground plays during the season, amassing 2,811 yards. Olton gained 2,515 yards rushing on 428 plays for an average of 5.9 yards per carry; Friona earned 1,461 yards on 399 running plays for a 3.6 average; Littlefield gained 1,388 yards on 400 runs for an average of 3.5 yards per rush; and Morton tried 433 running plays for 1,252 yards and a 2.9 average.

OF THE district's five teams, Dimmitt scored the most points during the season (288), followed by Olton with 242. But in district play, the Mustangs were the top scorers with 101 points, compared with Dimmitt's 97.

Olton also allowed the fewest points to their four district opponents—29—followed by

Friona with 30 and Dimmitt with 48. The Chieftains, however, gave up the fewest points for the season, 51, followed by Dimmitt with 78 and Olton with 82.

OLTON'S Mustangs were the district leaders in team defense, allowing their opponents an average of only 110.4 yards per game. Friona's defense gave up an average of 160.6 yards per game; Dimmitt allowed an average of 200.7; Littlefield 261.5; and Morton, 325.2.

Olton was especially tough in the line, allowing their 10 opponents only 660 rushing yards, vs. 1,297 by Friona, 1,522 by Dimmitt, 2,009 by Littlefield and 2,605 by Morton.

Friona led in pass defense, yielding only 309 passing yards to their 10 opponents, vs. 454 allowed by Olton, 485 by Dimmitt, 606 by Littlefield and 647 by Morton.

INDIVIDUAL scoring leaders for the season were Olton's Glenn Johnson with 116 points and Dimmitt's Robert Mayberry with 104. These were the only two players in the district to top the 100-point mark. Bill Turner of Littlefield was third with 51 points, followed by Gene Veals of Dimmitt and Joe Alcorn of Olton with 48 each.

Rick Wright, Dimmitt's place kicker, finished sixth in District 3-AA in overall scoring, ahead of 18 backs and one other place-kicker who finished in double figures. Wright chalked up 44 points during the season, all on field goals and extra-point kicks.

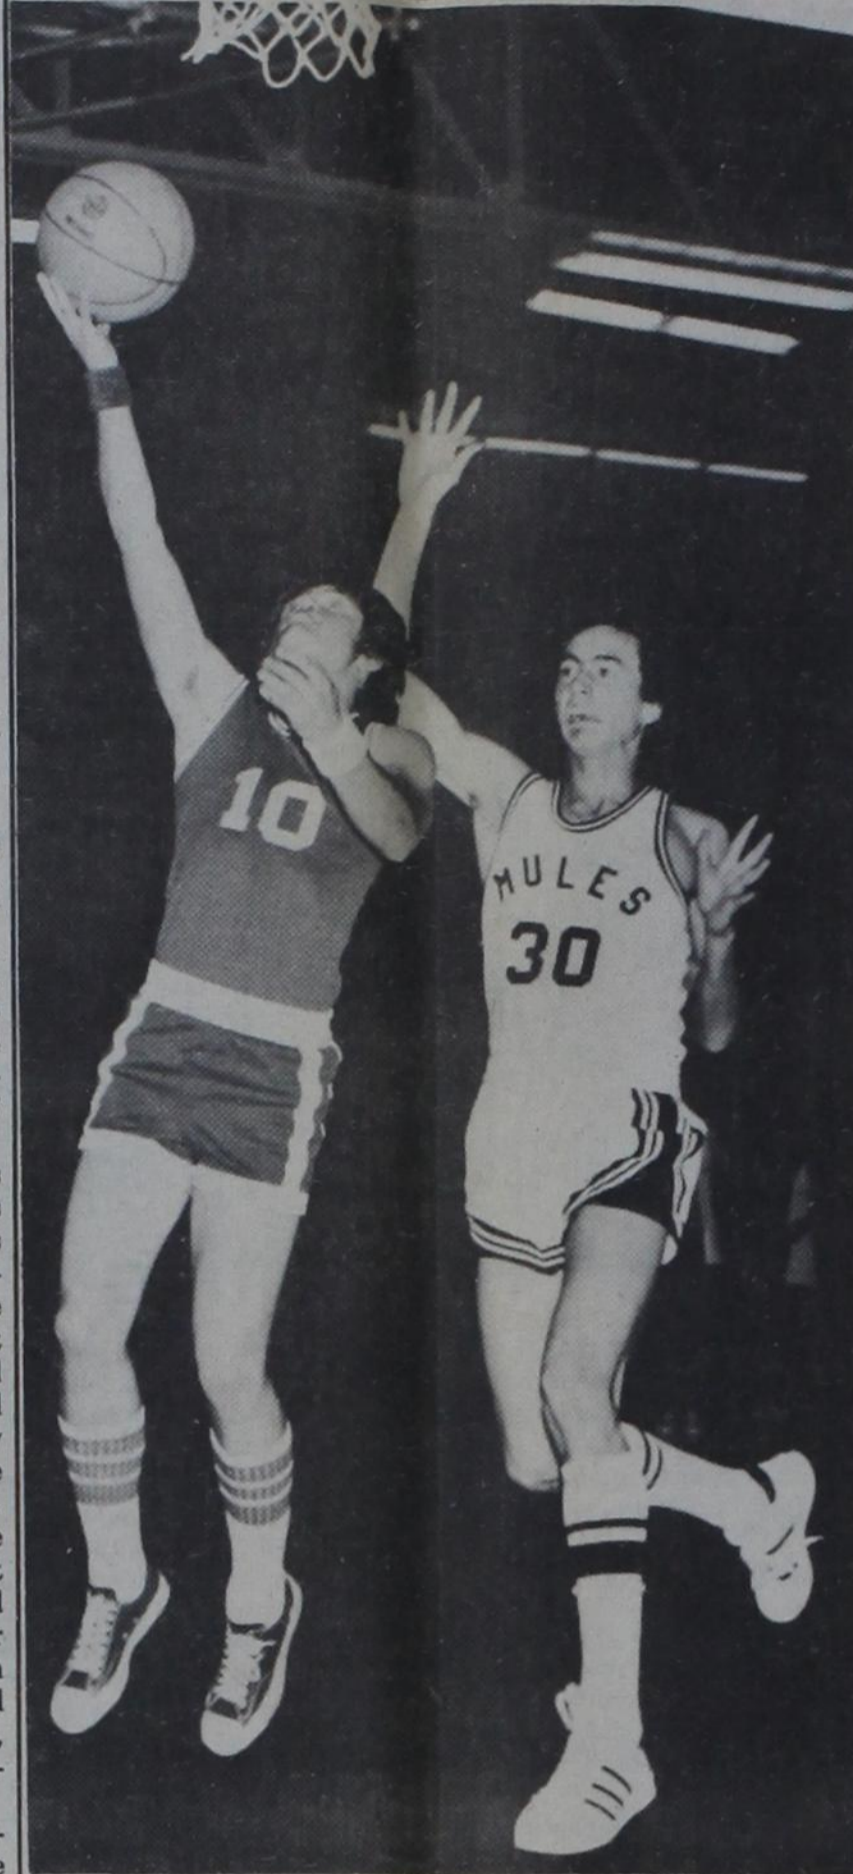

Other Dimmitt players' rankings in district scoring were quarterback Ronnie Lawson, 11th with 24 points; split end Travis Hampton Jr., tied for 13th with 18 points; fullback Robert Horton, 17th with 14 points; and quarterback Brad Sanders, tied for 18th with 12 points.

FINAL SEASON STANDINGS

Team	W-L-T	Pts.-Opp.
Olton	9-1-0	242-82
Dimmitt	9-1-0	288-78
Friona	8-2-0	182-51
Littlefield	3-6-1	89-157
Morton	2-8-0	71-218

Team	W-L-T	Pts.-Opp.
Olton	4-0	101-29
Dimmitt	3-1	97-48
Friona	2-2	58-30
Littlefield	1-3	31-78
Morton	0-4	13-115

TEXAS corn production is estimated at 69.7 million bushels; sorghum, 295 million bushels; and soybeans, 6.5 million bushels.

FOUR-POINT PLAY—Dimmitt's Travis Hampton Jr., after stealing the ball from a Muleshoe guard and driving goalward, is fouled as he sinks a first-quarter basket Friday night. Hampton made both free throws for a four-point play to give Dimmitt an early 12-4 lead. The Bobcats went on to post a 70-33 victory in their second outing.

Nazareth

Harvesting completed, wheat is growing well

By AGNES BROCKMAN

We've been having very nice drying weather for harvesting here lately, most of the corn and milo is harvested, except for some of the late milo. And there's lots of wonderful wheat, that is being grazed. There's been several fairly good frosts so far.

THE CHRISTIAN Mothers Society had their annual Thanksgiving dinner Sunday in the community hall. Several hundred people were served. And we noticed there were folks from a number of our neighboring towns present. We were so happy to have you and it was good seeing you all again.

Johnnie and Linda Smith are spending several days with Linda's mother Mrs. Rose Hindman.

The Greg Pohlmeiers from Phoenix, Ariz., are here also visiting relatives.

Agnes Brockman spent last week Tuesday and Wednesday in Friona with the Tom Brockmans.

Helen Burt left by bus for Fort Worth Wednesday to spend Thanksgiving with her daughter, Sue, who is going to school there.

GERRIE AND Ronnie Russell are spending some time in Canyon with Ronnie's folks, and in Nazareth with Gerrie's parents, the Jerome Brockmans. They will leave this weekend for Kentucky where they will make their home for some time. Ronnie is in the service, is a second lieutenant and a platoon leader.

Mr. and Mrs. Dennis Hoelting of Colorado are spending a few days with the Greg Hoeltings and other relatives.

Mrs. Paul Venhaus returned home Thursday evening from Guyton, Okla., where she spent several days with the Terry Hutsons, helping take care of their little baby boy.

The Florence Schachers, Alfred Schachers and Louie Schacher went to Petersburg, Neb., last week to attend the funeral of their cousin Alphonse Ricks.

The children of the A. P. Hoeltings spent Sunday at their home, after having dinner at the community hall.

Mr. and Mrs. Frank Annen of Hereford and Sophia Braddock of Amarillo, visited Mrs.

Jack Litsch Sunday, who came home from the hospital recently.

Tasting tea set by Nazareth FHA

The Nazareth FHA will sponsor a tasting tea Dec. 15 in the homemaking department at Nazareth High School.

THE TEA will be held from 4-6 p.m. Admission will be 75 cents per person.

COTTON harvest is about 30 percent complete in the State which is about on a par with last year.

THE UNITED States and Mexico are conducting an effort to eradicate screwworms from Texas livestock.

On Dec. 6,
Chuck and Ann Lay will open

TOTAL rehabilitation or the return to normal life is the goal of the American Cancer Society's Service to the Cancer Patient Program.

Bufs dump Longhorns 24-0 in bi-district tilt Friday

By PAT STEIERT

The football season came to a sudden halt for the Hart Longhorns Friday night in their bi-district game with the Petersburg Buffaloes at Plainview. The Buffs shut out the Horns 24-0.

IT WAS in the trenches that the battle was won as the Petersburg line overpowered Hart to clear the way for runs and give excellent pass protection.

Petersburg's fine quarterback Keith Biggers played a key role in the win as he passed to Russ Shurbet for one touchdown and ran on an option for another.

Clay Zachary ran for one touchdown and rambled through the Hart defense almost at will all night and Felix Martinez booted a 28-yard field goal to close out the scoring.

Hart took the opening kickoff for a touchback and went to

work from its 20. With the aid of a facemasking call against the Buffs the Horns drove to the Petersburg 42 and on fourth down Kerry George scrambled for the first down yardage after mishandling the snap on a punt attempt. He came up inches short.

Petersburg drove to its own 49 and a fine punt by Martinez set the Horns back to their 8. The Horns could drive only to their 13 and Kerry George's punt against a strong wind carried only to the Hart 40.

CLAY Zachary moved to the Hart 37 on first down and Keith Biggers then dropped back and fired a pass to Shurbet near the sideline for a touchdown. Martinez hooked the PAT and with 4:30 left in the first period Petersburg led 6-0.

Hart was forced to punt again on its next possession and following a clipping penalty on the return by Petersburg

the Buffs had the ball at their 43.

Biggers went for it all on first down as he tossed the bomb to Mark Hughes at the Hart 20. Hughes fell as he caught the pass, but he would have scored if he had kept his feet, as the Hart defender had fallen while the ball was in the air.

Zachary rambled in from the 16 for the second TD for the Buffs and Biggers ran for two to make the score 14-0 with 1:02 remaining in the first period.

The Longhorns drove to the Petersburg 46 following the kickoff on runs by Jimmy Smith and Gilbert Rodriguez, but were forced to punt and the ball was returned by Martinez to the Buffalo 18.

THE REMAINDER of the half was a punting contest with Petersburg's Felix Martinez keeping the Horns in the hole with his booming aerials.

Petersburg was forced to punt following the second half kickoff when Kent Irons dropped Zachary at the Buffalo 35 for a loss.

HART TOOK over at its 34, and Hill, Rodriguez and Smith toted the ball to the Hart 41 before Hart was forced to punt.

Petersburg's Fernando Martinez mishandled the punt and Irons recovered at the Buffalo 27.

Smith was dropped for a loss at the Buff 31 and on third and 15 Randy Finch's halfback pass attempt to Danny Carson was picked off by Petersburg's

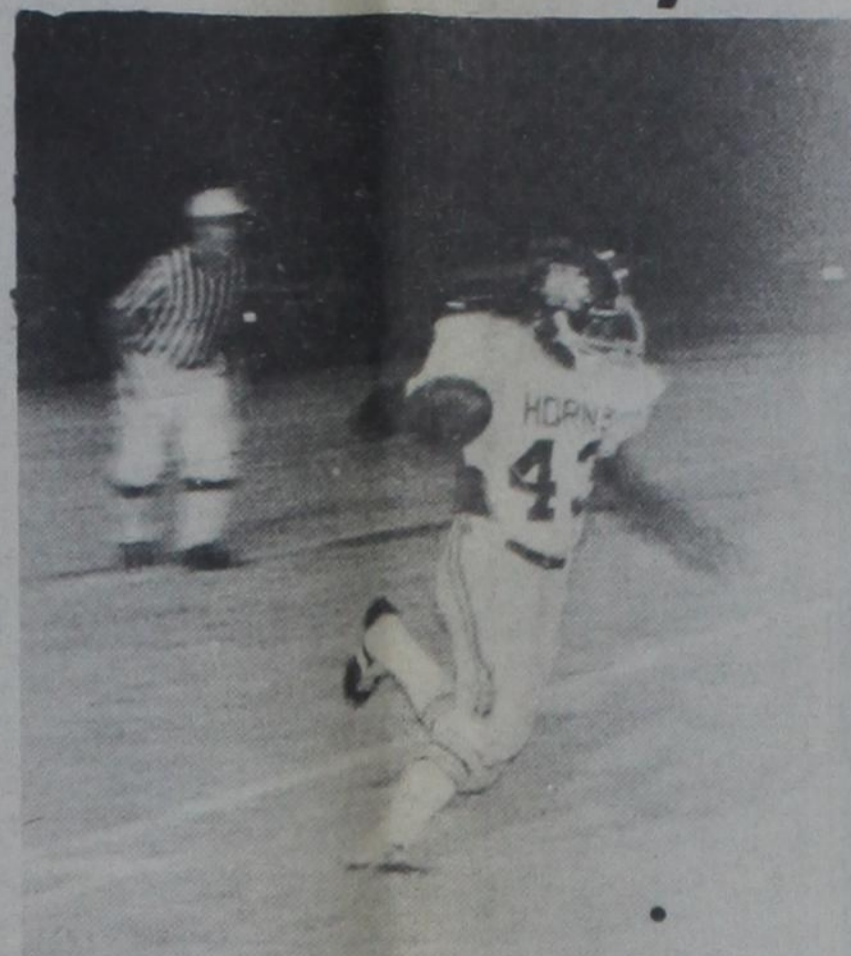

NJHS girls win at Cotton Center

Nazareth's junior high girls won the Cotton Center Lions Club tournament over the weekend.

NAZARETH defeated the Littlefield 7th grade 24-9, won over Spade 21-7, and downed Cotton Center for the tourney championship 26-17.

Leading scorer for Nazareth in the tourney was Glenda Gerber with 35. Marlene Huseman had 18.

Colleen Gerber pulled down 29 rebounds for Nazareth and Germaine Pohlmeier grabbed 22.

LOOKING FOR DAYLIGHT—Hart's Jimmy Smith goes outside and looks upfield for running room in the bi-district game against Petersburg Friday night at Plainview. Smith was one of the few Hart ball carriers who found any daylight to run to as the fired up Petersburg Buffaloes throttled the Longhorn attack to humble Hart 24-0 and avenge a 12-7 loss at the hands of the Longhorns earlier this season.

★ Mark Hughes at the Buff 12.

The Buffs were forced to punt and Kerry George returned the ball to the Hart 44. Finch was dropped for a loss at the Hart 39 and the Horns were forced to punt again.

Fernando Martinez returned the kick to the Buff 31 before Zachary was dropped for a loss at the 30. A face masking penalty against the Horns on the play gave the Buffs the ball at their 45.

Zachary, Biggers, Kyle Thompson and Kent Robertson shared carrying duties in moving the ball to the Hart 5 and Biggers went in for the score on a quarterback sweep. Martinez's PAT was good and the Buffs led 21-0 with 11:18 remaining in the fourth period.

The Horns couldn't buy a first down and were forced to punt again following the kickoff.

Zachary and Biggers gained good yardage on the ground for the Buffs and Biggers hit Shurbet at the Hart 13 for a first down.

Julio Campos moved to the Hart 8 on third down and Felix

★ Martinez came in to boot a field goal on fourth down to up the Buffs' lead to 24-0 with 4:45 remaining in the game.

Hart set up at its 5 following the kickoff. Rodriguez moved to the 7 and Hill then broke through the Buff line and made his way to the Hart 28.

Hill then carried to the 33 and Danny George hit brother Kerry with a sideline pass at the Hart 43.

George then completed passes to Danny Carson at the Petersburg 46 and Kerry George at the Buff 31.

Randy Finch nabbed a George pass and made his way to the Buff 10 but it was the closest the Horns got to a score all night as Andy Nave intercepted a George pass two plays later and returned it to the Petersburg 39.

The Buffaloes then ran out the clock to sew up the bi-district championship.

IT WAS the last football game for 12 Hart seniors. They include Gilbert Rodriguez, Danny George, Randy Finch, Jimmy Smith, Mario Martinez, Kent Irons, Freddy Mancias,

George Hernandez, Jesse Perez, Danny Carson, Jimmy Kennedy and Pat Steiert.

The Longhorns finished the regular season with an 8-2 record, and a 4-1 mark in

District 3-A play. Their overall record for the year including the bi-district game was 8-3.

THANKSGIVING

A Day for Thoughtful Joy

350th Anniversary of Pilgrims' Landing

Plymouth Rock. December 1690. A brave group of voyagers stepped ashore to begin a life of freedom. We give thanks for their undaunted courage.

BIG T PUMP CO.

Thanksgiving

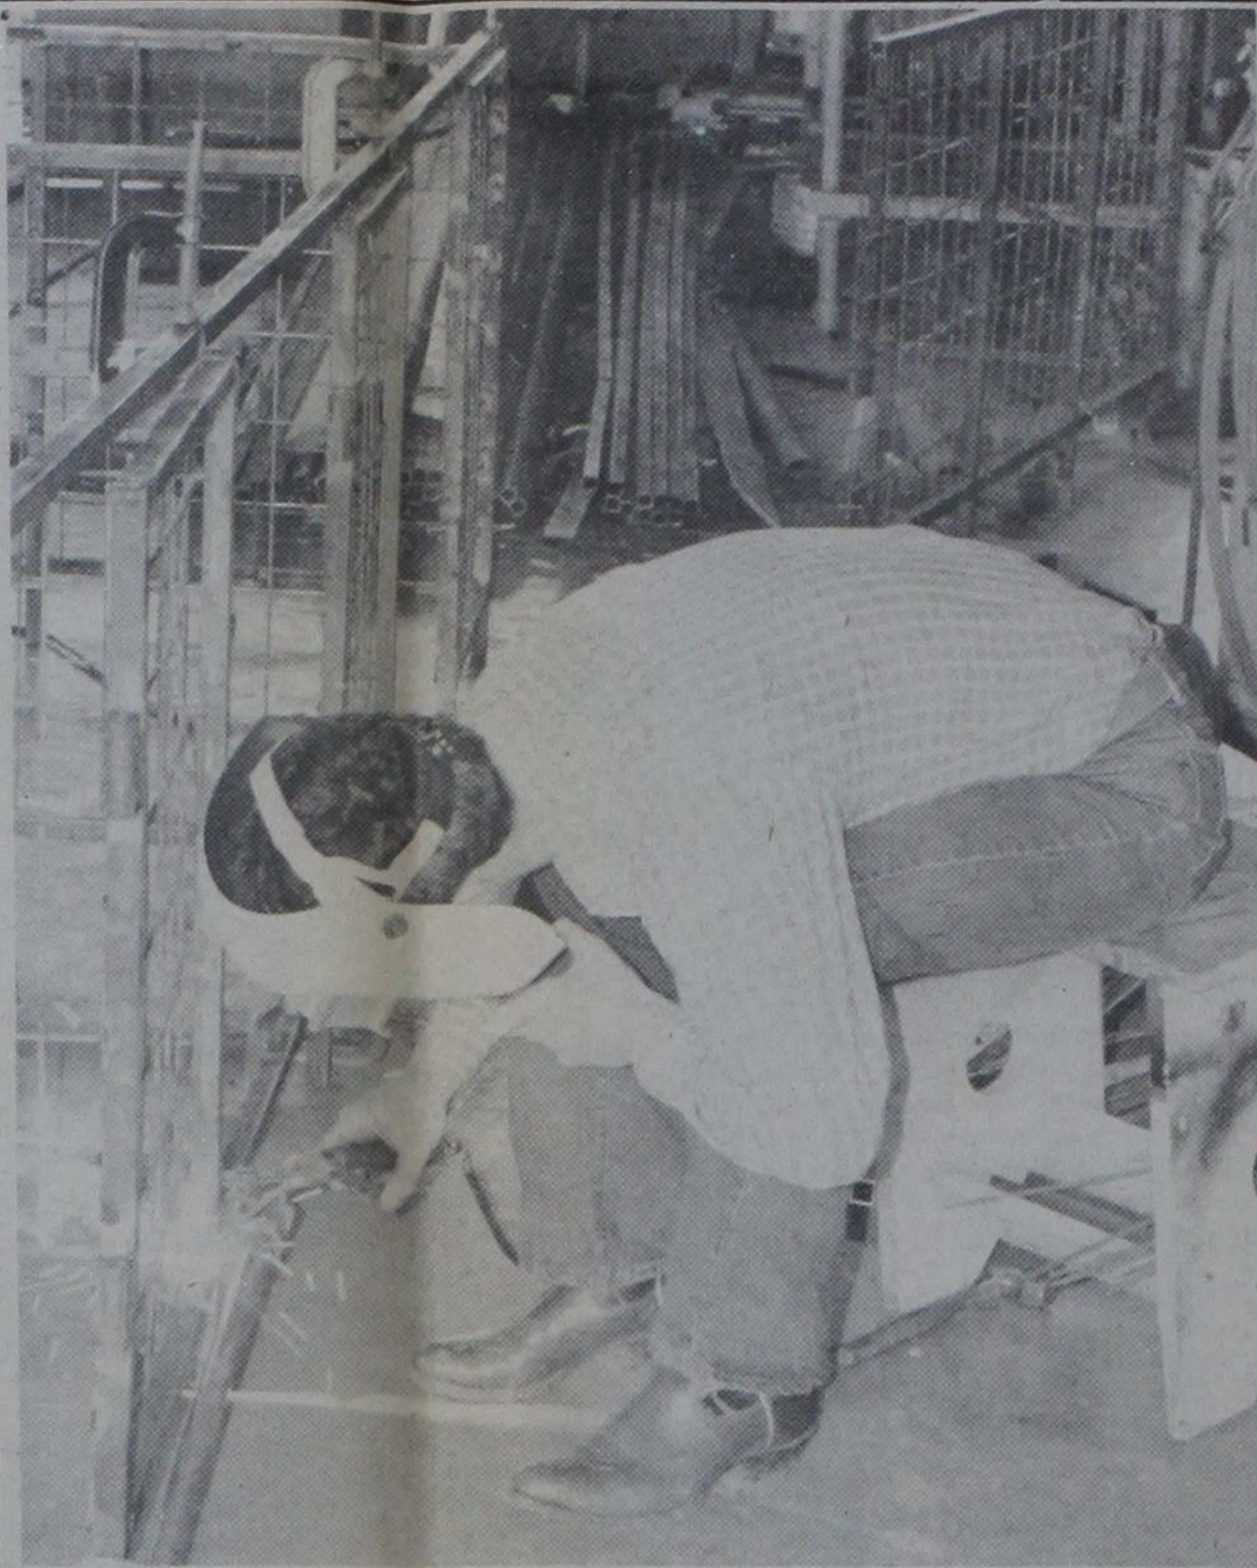

Each Year Seems To Bring New Meaning...

But it really goes right back to that first celebration. Thanks — for living in a land of plenty. Gratitude — for our freedom. Hope — for the future. Thanksgiving? It's an American heritage.

DIMMITT CONSUMERS, INC.

WELDING A CORNER—Lon Keel of the Dimmitt FFA welds a corner joint on one of the swine pens being constructed for use in the swine barn at the county's junior fat livestock show. The new metal pens will eliminate many of the problems which came

with the use of wood panels in the swine barn, such as pigs "rooting out" of their pens. Sophomore, junior and senior agriculture students at DHS have been working on the pens for some time now.

Crop and livestock reports are needed

By CHARLEY E. HILL, Executive Secretary. During the last half of November and in December, some 75,000 farmers and ranchers will receive either a crop or livestock questionnaire from the Texas Crop and Livestock Reporting Service. Accurate estimates have always been of great importance to producers and are even more important in light of the supply-demand situation facing agriculture today. Data collected in this survey will provide an accurate picture of agriculture for each county and for the state of Texas. Each farmer receiving a questionnaire is urged to fill it out carefully and return it promptly to the Agricultural Statistician in Austin. Individual reports are confidential and used only for state and county estimates.

If you decide that you will not harvest your cotton acreage for lint or have a feed grain that will not be harvested for grain you must have the crop appraised before making other use of the acreage or disposing of the crop in any way.

An appraisal is not needed if you are going to harvest all the acreage previously reported. Production must be kept separately for each farm if you plan to file for a disaster payment. ASCS 503 cards will be mailed to you this month for reporting your cotton production in 1974.

You are urged to mark your ballot voting for three persons in the community committee election and return to the ASCS Office no later than Dec. 2, 1974. If you have any questions, please contact the Castro County ASCS Office.

IF YOU have marketed wool, unshorn lambs or mohair, you must file for your Incentive Payment during the 1974 Marketing Year, which ends Dec. 31, 1974, to be eligible for payment.

If you are a member of a partnership and the partnership has not filed for a prior year wool, unshorn lamb or mohair Incentive Payment, then you will need to obtain an identifying number for the partnership and report it to the ASCS Office before the partnership can file for an Incentive Payment for the 1974 Marketing Year.

HOLIDAY: The ASCS Office will be closed on Nov. 28 in observance of Thanksgiving Day.

Good lease agreement averts farm problems

A good, well-thought-out written agreement when leasing a farm can often eliminate problems and disagreements between landlords and tenants, believes Dr. Wayne Hayenga, economist for the Texas Agricultural Extension Service.

"A LEASE should be tailored to fit the farm, the landlord and the tenant," points out the economist.

Hayenga says the lease should cover such area as property rights, land use, and livestock production and restrictions, and should have provisions for conserving and maintaining farm resources, sharing of costs and returns,

and length of the agreement.

"The agreement should clearly state the rights, duties and responsibilities of each party and should provide for change and adaptability."

The goal of the agreement should be to provide reasonable returns to both landlord and tenant for the resources provided.

"A good lease provides for the development, improvement and maintenance of the land, buildings, fences and other improvements," notes Hayenga. "It should assure the tenant a reasonable reimbursement for the investments he leaves in the farm when his period of occupancy ends."

HAYENGA contends that a rental agreement should have a provision for equitable sharing.

"This does not always mean equal sharing. The landlord and tenant should receive an income from the farm in proportion to the amount of total operating expenses each pays."

The economist favors a whole farm income sharing plan rather than one for each crop or livestock enterprise.

Lung association gives scholarship

Stating that chest specialists and respiratory therapists are in short supply for the treatment of such lung ailments as emphysema, asthma, and blood clot of the lung, Dr. Ted Nicklaus of the American Lung Association of Texas presented Mrs. Geneva Ray of Amarillo a \$200 Christmas Seal scholarship last week to assist in her training at Amarillo College. Mrs. Ray is a second-year student in the college's Respiratory Therapy Department.

THE AWARD, presented at a luncheon held at High Plains Baptist Hospital, marked the kick-off of the 1974 Christmas Seal Campaign, which finances the Lung Association's program of community education, medical research, training of chest specialists and counseling of tuberculosis patients.

Dr. Nicklaus stated that reported cases of emphysema are rising at a rapid rate in the US, especially among the smoking population, and he urged public contributions to the Christmas Seal fight against lung disease.

Castro County representative of the American Lung Association is Jim Petra of Dimmitt.

Let Us Unite And Give Thanks

All of us have something in common. This is our country. Let us remember its noble heritage, and our forefathers on Thanksgiving.

WHEN A child is comfortable and secure in his home and in his surroundings and he knows that others respect him, he develops self-esteem and confidence, Dorthy Taylor, family life education specialist with the Texas Agricultural Extension Service, points out.

Thanksgiving
A DAY FOR GRATITUDE

...and **GIVE** let us **THANKS**

For Our Still Priceless Blessings and Freedoms

We are proud indeed to be a part of this thriving community... and to live among our wonderful friends and neighbors. So on Thanksgiving we pause with heartfelt thanks for our priceless blessings and the privilege of serving you.

FREEDOM OF RELIGION WEEK

We are thankful for the freedom to worship in the church of our choice and for the preservation of peace.

Western Ammonia Corporation
