No Names Filed For City Offices

No names had been filed up to Wednesday of this week with Mrs. Faye Messer, city secretary, for places on the ballot in the city election to be held April 7. The terms of Aldermen F. L. Brown, Leslie Floyd and Mayor J. E. Cox expire. Brown and Floyd had announced that they will not run again. Cox hasn't announced his intentions as yet.

The trustees of the Lockney School Board will probably call an election for the first Saturday in April to elect three trustees. The terms of "Whitey" Bacus, Leslie Ferguson and Frank Brown expire this year.

Basketball Girls Continue To Win

Although they had one narrow escape against Kress, the Lockney High School Longhornettes continued their winning streak the past week, defeating Kress, Ralls and Hale Center. The girls have lost only one district game all season, dropping one to the powerful New Deal Lionsesses. They hold second place in the district.

The Longhorns won two and lost one the past week, defeating Kress and Hale Center but losing to Ralls. They are tied with Ralls for second place in the district, having won five and lost 3 district games.

The hair-raiser of the week was the Longhornettes game with the Kress girls last Thursday night. The local girls dropped behind in the early part of the game but pulled ahead in the third quarter. However the game ended all tied up 31 to 31. A 3-minute overtime period was called for and the Longhornettes eked out a 36 to 35 victory. Nancy Holland made 22 points for the local girls and June Wiley made 10. Young was high for Kress with 15 points.

The Longhorns also had some trouble with Kress boys. In fact the game, probably the roughest one played on the local court this year, was even all the way with the Longhorns usually maintaining a 2 point lead. However the Longhorns pulled away in the last three minutes of the game to win 59 to 51. Jerry Irons made 18 points and Bill Sherman made 17 for the Longhorns.

Make-up games with Ralls were played Monday night at Ralls. The girls won, edging the Ralls girls 31 to 20 easily. Nancy Holland was again high for the Lockney girls with 15 points (Continued on back page)

2265 Eligible Voters In County

There are just 2265 eligible voters in the county this year, not including those over 60 years of age. T. T. Hamilton, county tax assessor-collector reported to The Beacon this week. Mr. Hamilton said that 2247 poll taxes had been paid up to midnight Saturday, January 31 and that 18 exemptions had been issued for a total of 2265.

This number of polls is more than 1,000 less than were issued last year.

Ninety percent of current taxes have been collected. Mr. Hamilton said. Total collections to January 31 were \$251,153.99. This is also some three percent less than collections on the same date last year.

Passenger car license tags are "going like hot cakes," the tax collector said. T. M. Noland received the first passenger car tag and also the first farm truck tag while J. I. Waidling bought the first commercial vehicle license.

March Of Dimes Hits \$2300

Floyd County's March of Dimes had totaled nearly \$2400 up to Wednesday with a big portion of that amount being raised at Floydada. The Floydada drive had netted approximately \$1900, according to Rex Brown, county chairman. At Lockney the ladies March on Polio last Thursday night netted \$300.21 and an additional \$85.54 has been turned in to the First National Bank here for a total of \$385.75, according to a report from M. W. Wiley, local chairman. However the Lockney drive is not complete as yet and many people remain to be seen.

To contact rural areas, Mr. Brown has mailed out letters to every rural box holder in the county, he said Wednesday, and recipients of these letters are urged to enclose their donation and return to one of the banks in the county just as soon as possible.

The county workers hope to raise around \$4,000 this year, which would be a fair share of the state's goal, Mr. Brown said. Last year the county raised something over \$3800.

Vacancy Claim In County Won't Be Settled Soon

Austin. — A Floyd County fight over a narrow ribbon of land, 89 feet wide and a mile long, was carried Friday before Land Commissioner Bascom Giles.

For more than three hours, a delegation of 50 landowners argued before Giles, contesting the "vacancy" claim of Bob Reid of San Angelo to the strategic strip of potentially oil-rich ground.

The dispute arose when Reid filed application for the claim in the Lakeview community on May 31, 1952. A discrepancy in old land surveys has left this area legally unclaimed.

The discrepancy may mean, the land office said, that there is a "vacancy" or an "excess."

But the property owners won't know for "at least a month" whether the land they have considered their own is actually theirs. John T. Simmons Jr., conflicting titles attorney for the land office, said.

"If it is decided that the claim is an 'excess,' Simmons said, 'it means the boundary lines won't have to be stretched.'"

The Lakeview residents said that if it is declared a "vacancy" it will mean a shifting of the whole system of boundary lines.

However, Simmons said there is a possibility a declared "vacancy" won't mean boundary alterations.

A "vacancy" would mean there was a strip of land between two surveys—an "excess" implies there are more acres in a survey than was patented.

The "vacancy" shift, the landowners said, would mean a loss of 39 water wells used for irrigation.

However, if Giles upheld the "vacancy" claim, the land would be put up for sale and adjoining landowners would have preferential right to purchase the property within 90 days after the decision has been handed down.

Murdered Girl Was Sister Of Aiken Lady

Joyce Fern White, 18-year-old Lubbock girl, murdered early in January by a soldier from Reese Air Force base, was a sister of Mrs. Joel Moore of the Aiken community, five miles west of Lockney. The Moore family was preparing to move to Redding, Calif., when the girl was first missed but delayed their move until this week. They left Wednesday.

Mr. Moore has been employed by I. J. Thompson of Aiken. The Plainview Church of the Nazarene, of which Mrs. Moore was a member, made up a cash offering for the family and people of the Aiken community donated a considerable amount of food to the Lubbock family. Lubbock news reports say that the kitchen of the White home there was overflowing with food. The food shower was instigated by Mrs. Thompson. Other families in the community which gave were C. J. Roach, Bill Thompson, Jack Jackson, A. P. Langfeldt, Clyde Beebe, Oscar Golden, Henry Glenn, Price Webb, J. C. Danford, Archie McGowen, L. L. Scott.

Several people from the Aiken community attended funeral services for the girl, which were held at Lubbock last week.

Baptist Notes

WHY I DON'T DRINK — I know alcohol is a habit-forming drug. I'm trying to develop a strong personality without props. I can't afford either the time or money. I've seen its injurious effects upon persons and family and community life. Scientists say you can't tell which social drinkers may become alcoholics. I won't encourage the liquor traffic. I have an influence on others;

I won't use it for ill. In Short Drinking is against my Christian principles. It tears down personality. It harms the body. It dulls consciousness of God. It ruins my witness to others. It hinders a Christian social order." J. R. NAYLOR, Pastor.

The Board of Directors of the Texas A. & M. College System, by resolution, recently called attention to the 50th anniversary of the beginning of farm demonstration work in Texas.

Sterley Train Is Derailed At Turkey

Twenty-one cars of a double-header freight train left the tracks and piled up early Friday afternoon near Quitaque Gravel Switch, about 22 miles southwest of Turkey.

All members of the crew escaped injury. Cause of the accident has not been determined.

The derailment occurred on the South Plains branch of the Fort Worth & Denver City Railway. The doubleheader freight loaded with cotton had left Sterley at 12:45 p. m. and was en route to Childress. The cars left the tracks about 1:30 p. m.

Trainmen said the wreck damaged the road bed for approximately 1,000 feet and scattered cars over an interval of "six telephone polls."

Service on the line was restored sometime Saturday. The line is used exclusively for freight service.

The four precious stones are the diamond, emerald, sapphire and ruby.

EDITORIAL

Surely God will not hear vanity, neither will the Almighty regard it.—Job. 35:13.

February 8th is the 43rd birthday of the organization known as Boy Scouts of America. Membership in the Scouts now stands at an all-time high of three and a quarter million and more than twenty million American boys have benefitted from the Scout movement since its beginning in 1910. Now including boys from 8 through 16 years of age in all its phases, Scouting has helped many a boy morally, physically and mentally in addition to furnishing entertainment and something to do for busy hands that might otherwise be doing something they shouldn't. Scouting is a great program and deserves the backing of all citizens of this country.

If you haven't contributed to the March of Dimes drive in this county we urge that you look up a committeeman or woman, leave your contribution at the bank or mail it to March of Dimes and the postoffice will

deliver it to the proper authorities. Texas, above all other states should contribute its share to this drive. This state has been hard hit by polio and has received considerably more aid from the national chapter than it has given in the past few years. Let's do our part in the March of Dimes.

Our state representative and state senator want to hear from folks back home on controversial bills. At least they have said so several times. Perhaps it would be well for local citizens to let Senator Andy Rogers and Representative Leroy Saul know how they feel about the bill recently introduced which would legalize parimutuel betting on horse races in this state. We have no reason to think that either man would vote for the bill but they would probably appreciate hearing from you on the matter.

It seems to us that church people generally should be pleased with the beginning of President Eisenhower's handling of his office. This country was founded on religious faith and a trust in the Almighty. Most people will credit its tremendous growth and development to the same High Power. Have we then grown to the place we no longer need the help of the Lord or are we still dependent upon Him for wisdom and judgment? Apparently the President has chosen the course of looking to God for help and depending upon his guidance for wisdom. Such a course by the leaders of this so-called Christian nation is long past due.

This city, along with other cities, will have a city election soon—the first Tuesday in April. The rules say that the deadline for filing is 30 days previous to election day which will be near the first of March which is now less than 30 days away. We say all this to say that two men now serving as aldermen have refused to run again. Someone must file for these two vacancies. The mayor's term also expires this year. If he doesn't run again another name or names must be filed for this office. Public spirited citizens should select men whom they feel are qualified and urge them to accept one of these offices. Very seldom will a man volunteer unless he is urged by his friends. It's time to start thinking now about who can fill these vacancies. Who would you like to have on the City Council? Get busy and get them on the dotted line. Time is growing short.

OUR DEMOCRACY—by Mat

NOSE TO THE GRINDSTONE—

IT MAKES A BIG DIFFERENCE WHETHER YOUR NOSE IS HELD TO THE GRINDSTONE BY THE IRON HAND OF DESPOTISM OR BY YOUR INDIVIDUAL AMBITION AND WILL TO WORK... THE DIFFERENCE IS FREEDOM.

BUT EVEN A FREE PEOPLE CAN'T ESCAPE NOSE-TO-THE-GRINDSTONE TASKS, THE PIONEERS WHO BUILT OUR DEMOCRACY KNEW THAT THE JOB MEANT PLENTY OF GRINDING LABOR—AND DID IT WILLINGLY, BECAUSE THEY HAD A VISION OF THE REWARDS.

AND THOUGH IDEAS, INITIATIVE AND IMAGINATION ARE QUALITIES IN WHICH A FREE ECONOMY EXCELS, IT IS STILL NOSE-TO-THE-GRINDSTONE TOIL THAT TRANSLATES THESE QUALITIES INTO AMERICA'S PRODUCTIVE POWER—AND NOSE-TO-THE-GRINDSTONE THRIFT THAT BULWARKS NATIONAL AND FAMILY SECURITY THROUGH LIFE INSURANCE AND SAVINGS.

RACE TRACK BETTING

Dr. W. R. White, the first of the State's church leaders to voice opposition to the proposal for a local option law allowing the return of legalized horse-racing — and betting — will find support in other and perhaps, unexpected places. Business men generally are hard hit during the racing season. Sales drop sharply, and collections suffer for weeks, or in some cases, months after a prolonged session with the "ponies." It seems that people never learn that horses are the only "critters" that ever win a "hoss" race, and they not often enough to carry-off any sizeable amounts over a lifetime.

The concern of business people over the losses at the track is not wholly mercenary, however. Most of them, especially the corner grocer, know a lot

more about their troubles than most people think. They know the distress that even "little losses," accumulated over a two or three weeks' racing season can bring.

They know that the great majority of families live on very close budgets and that it can take months for many of them to catch up after an unforeseen — or voluntary — loss hits.

Dr. White makes another point, and this will get attention from law enforcement officers. He says flatly that the advantage in attracting "tourists" to the state will be more than offset by the fact that many of the "tourists" will be racketeers, professional gamblers, and others who live outside the law.

On the other hand, it might be wise to submit the issue to the people. A good warm election on moral issues is always helpful in focusing attention on the fundamentals in American life. It affords an opportunity for people to get the facts on the various forms of entertainment or other pursuits, which may contain an element of evil, or temptation.

The discussion which would attend a red hot election, even if the doctor and his followers lost, would possibly be of benefit to some potential players. They might see themselves as Dr. White sees them, as "suckers." — Amarillo Daily News.

ANSWERS YOUR QUESTIONS

Q. I'm losing eggs to flock colds? How can I stop this?

A. I recommend using Dr. Salsbury's Ar-Sulfa in the drinking water. Ar-Sulfa controls infectious coryza (commonly called "colds") within 48 hours. It's easy to use. Saves you egg loss. When birds start to snifle or sneeze, use Ar-Sulfa. And use Dr. Salsbury's Can-Pho-Sal to aid breathing. Knock out flock colds with a one-two punch: Ar-Sulfa -- Can-Pho-Sal!

OBJECTION!

A dissenting voice on President Eisenhower's inauguration ceremony has made some headlines in this country — and no doubt in Russia. It comes from the President Joseph Lewis, of the "Freethinkers of America." And the objection raised is to that impromptu prayer which the new chief interjected into the rites.

Called by at least one observer—a neighbor who was in Dallas and saw the inauguration on TV—the most impressive thing in the whole show, the prayer came straight from Ike's heart.

Eisenhower wrote the prayer in the morning, after attending church and before the inaugural. He interrupted the ceremony to say that he wanted to put a little prayer into that service. Bowing his head he offered this: "Give us, we pray, the power to discern clearly right from wrong, and allow all our works and actions to be governed thereby and by the laws of this land." —Amarillo Daily News.

GENERAL RED TAPE

Here's that General "Red Tape" again. The Chamber of Commerce of the United States has published a 61-page booklet on workmen's compensation laws. Anyone can get a copy by sending in a request and one dollar. It's that simple.

At least the Chamber thought so until it got an order the other day from the Air Force—for just one copy. That wasn't simple at all. In fact, heads are still spinning at the Chamber from trying to figure out all the paper-work necessary to transact that order. Besides the purchase order, the Air Force sent along the following:

A four-page contract in fine print saying that its copy of the booklet must not be manufactured by convict labor; a four-page set of additional contract provisions in even fine print providing for termination of the contract at the convenience of the government, and telling how to ship the booklet by freight car; a page of special provisions which included the reminder that the \$1 purchase was subject to renegotiation; two more sheets with additional clauses and two copies of a mimeographed acknowledgment of the contract form. — Crosbyton Review.

Do right and you'll fear no man; don't write and you'll fear no woman.

Soil Conservation News

Frank Probasco, just west of Floydada on the Sand Hill road, has a nice field of Vetch which may be easily observed from the road. This field of Vetch lays just west of his new brick home.

One reason I call this to your attention now is—I would like for those of you who are interested to notice the remarkable growth which it will make as soon as the weather starts warming up in the spring. This field of Vetch will be turned under in time to seed to a crop in the spring.

Franks son, Kenneth, and Lloyd Collis, a neighbor of Kenneths, both have a fairly large acreage of Vetch. These men are all cooperating with their local Soil Conservation Districts. Kenneth and Lloyd both live in between Alken and Barwise. Kenneth sees his with rye and plans to harvest the seed as a cash crop.

There are several acres of Vetch which have been seeded by special legume seeders, which belong to the Floyd County Soil Conservation District. This seeder puts two drills—one foot apart—in the middle of a row crop at the time you get ready to water the row crop the last time in the fall.

In those cases where there was enough moisture in the soil to maintain the Vetch from the time it was seeded until now the Vetch is looking fairly good, however, little growth can be expected up to this time. The Vetch has a good root system established and should make good growth in February, March, and April.

You can see some of these seedings on Lee Roy Durham's farm at Sand Hill or Don Bennett's farm south of Alken.

Another legume which may be used similar to Vetch as a winter legume and as a soil improving crop is Madrid Sweet-clover. This plant has a root system similar to alfalfa, therefore it has the ability to open the soil where it can take more of the natural rainfall as well as improving intake of irrigation water. This legume can be found growing on Aubrey Holt's farm at Irick.

Madrid has great possibilities as a soil improving crop on our dryland, because it can be seeded in either spring or fall. When seeded in the fall it acts as an annual, makes seed the following summer. If seeded in the spring it will grow all the first year and make seed the following summer, thus acting as a Biennial. Mr. R. G. Dunlap is planning to try about eighteen or twenty acres of Madrid this summer.

Alfalfa is not to be overlooked as a soil improving crop, because it is probably the best one known. However, alfalfa uses considerable more water than the above mentioned soil improving crops. So! It might not be possible for you to have as much alfalfa on your land as you would like to maintain a good physical condition of your soil. This is where you can use the Vetch and Madrid to help keep your soil in good physical condition and to maintain your soil in a highly productive stage.

Each morning when we wake up there are 6,000 more people to feed in the United States. If we are to maintain our standard of living, we will have to take care of our soil.

Andy Rogers Sez!

(By Andy Rogers, State Senator, District 30.)

Four years in the rough and tumble, loud and brawling State House of Representatives — and now we find ourselves in the quiet but explosive dignity of the State Senate; by contrast, from a three-ring circus to a funeral parlor.

These two bodies combine their efforts and make laws that greatly affect every citizen, from birth to death — and afterward, his or her remains.

A story in the current issue of the Readers' Digest leaves the impression that your State Government is rotten. It is. It is also good, clean and devoted.

It is all the things we encounter in this world! The inspired men who founded our nation did not believe their government would make men perfect. They did believe it would enable men to live peace-

ably together and prosper—each in his own way and to his own choosing. They were correct.

We here in the Legislature see both the good and bad magnified. We know some are honest. We know some are liars. We know some are control some men.

But honest or otherwise, all know that the voice of the people will be heard and honored — when that voice chooses to make itself heard and known.

Many writers have practically ignored one of the most important things that has happened in Austin. Governor Allan Shivers has for the first time lent his open word and support to ideas and programs for which all rural areas and particularly West Texas have fought for many years.

These are (1), continuation of our entire Rural Road Programs (including the natural gas tax plan of two years ago); (2), refund of gasoline tax to farmers; and (3), retention by the counties of their present share of motor vehicle registration fees. These things are vital to our district. Two years ago we nearly lost all of them. Now it is good to know that Gov. Shivers will stand with us on these issues.

Also new and of much importance is Gov. Shivers' encouragement to your Legislature to seek any new tax money, IF NEEDED, from levies on natural gas lines carrying our resources away. Stealing them away would be more accurate. RESIDENTS OF OTHER STATES OFTEN BUY TEXAS GAS FOR THEIR HOMES AND FACTORIES CHEAPER THAN YOU CAN BUY IT HERE AT ITS OWN SOURCE.

Legalized pari-mutual betting on horse races has been proposed again. Few have hopes of its success. The poll taken by your Senator's office shows 24 Senators against, seven for this proposal.

In support of legalizing horse race gambling, members of the San Antonio delegation sponsored a big feed with plenty of

liquor for members of the House of Representatives the night of January 28. We can guess who paid for this party.

This is one of those things often used to excite new members and get their minds off other things of vital importance. That seems to be the situation now.

Texas state government cost three times as much in 1952 as in 1942—from \$205,741,882 in '42 to \$617,210,761 in '52. Yet the cost of living rose only 69.8 per cent and our state population only 24 per cent.

Legislation already introduced and promised to be introduced would nearly double the present rate of spending and taxing, and would be nearly six times the 1942 cost.

What is your answer? The man or woman who merely votes has done little to deserve the blessings of freedom. Let us hear your opinion.

In the long run, the only thing that will keep the Federal Government from becoming more powerful is strong State Governments. Use your Senator and Representatives — they will welcome your advice, support, and interest as your servants. Without this they are weak, but you

are the one who has to pay.

Of nine new Senators, yours was one of two to draw an unlucky number and get only one-half of a full regular term.

There have been no attempts so far this session for the state to seize control and regulation of our underground water—this has been proposed in many circles. Any such move now would cause one of the biggest fights ever seen in the Legislature.

Mr. and Mrs. Harold Jeffcoat and children moved last Saturday to Dallas where Harold will be employed with Proctor & Gamble Co. Harold has been connected with Lockney Dry Goods Co. here for several years.

Scouts Observe 43rd Anniversary February 7 to 13

The Boy Scouts of America, with its membership at an all-time high in excess of 3,250,000 Cub Scouts, Boy Scouts, Explorers and adult leaders, will observe the 43rd birthday of the organization during Boy Scout Week, Feb. 7 to 13.

The theme of the celebration which will be observed by 84,300 Cub Packs, Boy Scout Troops and Explorer Units throughout the United States, its territories and wherever American families live abroad, is "Forward on Liberty's Team." This is the name of the Scouts' Three Year Program which seeks to produce a greater functioning manpower and provide a higher quality program for its ever-increasing boy membership.

Boy Scout Week celebrations this year will stress "The Scout Family" depicting how parents and others of the family often have a relationship to the Scout Program. At "Open House" evening meetings Scouts will introduce members of their family to their fellow Scouts. At these meetings tribute will be paid to the American home, and its influence on the lives of boys and its place in a free society.

The actual birthday, Feb. 8, will be observed in countless churches of all faiths as "Boy Scout Sunday." Scouts and leaders will attend services in uniform. Members of many Scout Units will have their parents and other members of their families sit with them during the services.

Since its inception in this country in 1910, the Boy Scouts of America, and its individual members have always taken a strong position in respect to the place of organized religion in the nation's life.

The 12th point of the Scout Law to which more than 20,000,000 boys and men have subscribed since 1910, reads:

A Scout is Reverent. He is reverent toward God. He is faithful in his religious duties and respects the convictions of others in matters of custom and religion."

During Boy Scout Week, Scouts and leaders will express their appreciation to the organizations and institutions whose sponsorship makes possible their Units' existence. These include the religious bodies which account for almost half of the nation's Scouting Units, the national or state civic groups, school organizations and local civic groups.

In its latest report to Congress the Boy Scouts of America said

Boy Scout Week, Feb. 7 to 13, marking the 43rd anniversary of the Boy Scouts of America, will be observed throughout the nation by more than 3,250,000 boys and adult leaders. Since 1910, more than 20,000,000 boys and men have been members.

"Forward on Liberty's Team" is the birthday theme and the emphasis is on "The Scout Family" of programs meeting the

interests of boys in three age groups: Cub Scouting for boys 8, 9 and 10; Boy Scouting for those 11, 12 and 13 and Exploring for boys 14 and up.

The high point of Scouting in 1953 will be the third National Jamboree. More than 50,000 Boy Scouts will camp at a 3,000-acre tent city on the Irvine Ranch in the Newport Harbor area of southern California next July 17 to 23.

that 58,934 institutions are sponsors for the nation's Scouting Units. Of this number 18,739 operate two or more Scout programs such as Cub Scouting for boys 8, 9 and 10 years of age, Boy Scouting for boys 11 through 13 and Exploring for those 14 years old and upward.

The Whole Scout Family, all three programs, are sponsored by

3,446 institutions, making it possible for a boy to enjoy the three Scouting programs under the same sponsorship for a ten year span, from age eight to eighteen.

Petersburg Man Is Killed In Tractor-Auto Collision

Roy L. Thorpe, 57 years old, long-time resident of Petersburg, was fatally injured Thursday afternoon when pinned beneath a tractor that overturned in a collision with an automobile.

Thorpe, driver of the tractor, and A. B. Costello, driver of the automobile were both employed on the B. P. Jennings farm near Petersburg. Costello's wife was riding with him.

W. J. Lewis, Plainview, justice of the peace who conducted an inquest at the scene of the accident on a country road a mile and a half northwest of Petersburg, said the front left wheels of the two vehicles collided and the tractor wheel apparently rolled upon the cowl of the car, causing the tractor to upset. No verdict had been returned this afternoon.

The car Costello was driving remained in operating condition and the driver rushed to Petersburg to get help to move Thorpe from beneath the tractor. Thorpe died of internal injuries and a possible skull fracture. The accident occurred about 12:30.

Thorpe is survived by five brothers, W. P., Clarence and V. B. Thorpe, all of Petersburg; G. T. Thorpe, Floydada and Carl V. Thorpe, Concord, Cal.; three sisters, Mrs. F. E. Merritt, Floydada; Miss Hattie Thorpe, Lorenzo, and Mrs. Roy Allen, Stratford.

time zones. These ceremonies will take place, in some instances, at Scout family birthday dinners, while some Cub Dens, Boy Scout Patrols and Explorer Crews will meet in homes of members. Others will meet with their parents Sunday evening in churches or synagogues.

At these Boy Scout Week celebrations many Units will review its program highlights and the successes of its first year in the Three Year Program, its camping and other outdoor activities and its planning for participation at the Third National Jamboree which is expected to attract 50,000 Scouts and Leaders for a week of camping together at Irvine Ranch in southern California next July 17 to 23.

Thorpe was born at Ballinger. He went to Petersburg in 1908 from Merkel. He was never married.

The first county agricultural agent to work exclusively in one county was appointed in November 1906. He was W. C. Stallings in Smith County.

Mr. and Mrs. C. L. Record and Donna Lynn, Mr. and Mrs. C. H. Rose visited Mr. Rose's sister and brothers, Mrs. S. E. Wicker, Mr. Bob, Ira, Harve Rose all of Blair, Okla. and John Rose of Roosevelt. Mr. and Mrs. Bob Rose returned home with them and visited until Sunday when C. H. and Delbur Rose accompanied them back to their home.

County Stock Show To Cover Two Days

All 4-H Club and FFA boys should keep in mind that the annual Floyd County Junior Livestock Show will be held March 11 and 12, states Robert H. Gibson, Floyd County Agent. This will be the first time the show has covered a two day period, and is necessary because of the great difficulty encountered in having the show and sale in one day.

The proposed schedule for the show will be for the fat lambs, and swine to be shown, and judged the first day and the beef calves and dairy cattle the morning of the second day. The sale will be held the afternoon of March 12.

Every boy planning to have an animal at the show should begin spending as much time getting their animal ready for the show. Every effort should be made to teach their animals how to show themselves and become as gentle as possible, Gibson said.
