A SYMBOL OF SAFETY

When the ship is in danger, we can depend on the life-boats to take us over the seas to safety. It is comforting to glance at the life-boat when the seas

Our Armed Services are a symbol of safety when our country is in trouble, when war threatens to raise its ugly head. In the past, when war has come, our servicemen have not hesitated to give their lives to protect and defend us.

There is a special Day each year when we remember and honor our servicemen who have died in the defense of our blessed country. Let us not forget, as individuals, to honor these dead and give thanks to God for those who protect us even now. Remember them as you attend church this week.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

TEXAS

The worst is over . . . probably. Statements like this have become the most common hedge in the cattle industry in the past few weeks as top executives of the beef business find reason to be cautiously optimistic in the face of rising per capita consumption and a decrease in the industry's number one problem, glut. Caused by a combination of price controls, natural cattle cycle (cattle population reaches a cyclical peak every 10-11 years) and high feed prices, glut (oversupply) seemed for a while to be unending. Consumers are solving the problem by buying more beef and accepting grassfed meat. Packers buying grass-fed cattle have to use 2 or 3 of the young pasture-fed cattle to produce as much meat as a single grain-fed animal. So the problem seems to be solving itself, but even the optimistic cattlemen (not the easiest thing to find) say it will take at least 18 months before the industry is back to normal.

To the graduating seniors of Dimmitt, Hart and Nazareth:

YOU HAVE posted notable achievements during your senior year-as individuals, classes, teams. We are proud of you, and proud

There are two major reasons for the achievements you have earned up to this point in your lives. First, you are outstanding young men and women. Second, you are part of a community that has made a tradition of excellence, of growth, of progress. We produce (and attract) winners here in all fields.

You may have noticed that Castro County retains more of its young people than nearly any other rural area in Texas. That's because the opportunities are here.

WE'D LIKE TO see you look homeward for your future, too. Our county needs your skills and abilities for its continued growth and progress. You are our next generation of

women who make up this class of graduates in our community. The reason is more than tradition . . . it is because in our memory we have never observed a finer group of young people who worked harder to reach this milestone. Your accomplishments now stand as the mark of excellence for others to follow.

Commencement means a start. You've completed a phase of your life, and now you're beginning another. Our hopes and best wishes go with you.
