

**CARD OF THANKS**

We wish to express our sincere appreciation to the people of Floyd County for your many gifts and other help extended us after our home was burned. Your thoughtfulness will always be remembered.

The Jim Stewart Family.

A CLEAN CITY IS A SAFE CITY.

Mr. and Mrs. W. G. Rogers and son of Floydada are spending Thanksgiving holidays in Bentonville, Arkansas with Mr. Rodgers' grandparents. Mr. Rodgers is county agricultural agent. Accompanying the Rodgers were Mr. Rodgers' parents, Mr. and Mrs. W. H. Rodgers of Lubbock.

**County Council Hears Reports, Plans Program**

The Floyd County Home Demonstration Council had its regular meeting Saturday afternoon in the Council Room of the Court House. Mrs. M. J. McNeill, Council Chairman, presided. Fourteen of the fifteen clubs were represented.

Officers, Committee Chairmen and club presidents gave their annual reports. Added together these reports showed a great deal of activity in the clubs during the year with many worthwhile accomplishments.

Almost all the clubs had their regularly scheduled programs and demonstrations. Nearly every club contributed to the CROP milk fund; some contributed as a club to the Red Cross drive, Polio drive, and to Girl's Town at Whiteface. Nearly every club gave a magazine subscription to the County Library and many individuals gave books. Almost all the clubs have sent boxes of gifts to the Abilene State Hospital. Dougherty has sent a gift a month to a patient there, Sand Hill and Starkey regularly remember a patient with clothing or other gifts. Lone Star sends gifts to a patient in the Tuberculosis Sanatorium. Every club remembers their sick members with cards, flowers or other gifts, and always help out in times of sorrow. Harmony sent boxes of candy to their boys in Service. Each club gave Miss Petty a gift of money for her Chicago trip.

Twelve clubs donated \$500 each to the \$500.00 District Two 4-H Scholarship fund, and the 25 cents paid by each member into the Education fund of the Texas Home Demonstration Association helps provide two \$500.44 Scholarship for two 4-H club girls in the state.

The clubs have recreation at each meeting. One recommendation of the Recreation Committee is to have two family or community parties during the year. This project gives a great deal of pleasure to many people. A Thanksgiving dinner is usually one of these enjoyable occasions. Lockney, Providence, Friendship and Sand Hill had their dinners last week, and others are planned. Sunnyside will have its traditional dinner for club members and their families at a noonday meeting.

Clubs have also contributed in a tangible way to better living in their communities. Lakeview bought a coffee urn and helped to improve their school lunch room. South Plains bought linoleum for their club room floor. A coffee urn, shrubs and trees, cook stove, sink and folding chairs were added to the Harmony Community Center by the Harmony Club at a cost of \$377.18. Sand Hill bought and put on the covering for the cabinet and tables in their lunch

BILL REID, heads southern student councils.

**Grandson Of Local Woman Is Head Of Student Council**

Bill Reid, 16-year-old junior at Capitol Hill High School, Oklahoma City, Oklahoma, headed the delegation from that school which attended the annual convention of the Southern Association of Student Councils meeting in Jackson, Mississippi, November 10 through the 13. Young Reid is president of the Southern Association, having been elected to that top school boy post in a vigorous campaign in January. The association is made up of schools from 14 Southern States.

Young Reid is a grandson of Mrs. J. N. Snodgrass and a nephew of Mrs. Harley Workman of Lockney. He is the son of Mr. and Mrs. Albert Reid of Oklahoma City.

National speakers and adult leaders who are experts in the field of student council work informed groups on their views and answered questions of the students.

The theme for the convention was "We Are America." Bill delivered the keynote address on November 12.

Young Reid is a member of the DeMolay, Key Club, National Honor Society. While in Junior High he was vice president of the student body and also received the American Legion Citizenship Award. Due to his full schedule this fall he was forced to give up his long-sought position as right guard on the Capitol Hill Redskins football team.

room, and added bamboo shades to the windows.

Mrs. Weldon Smith of Pleasant Valley, Chairman of the Consumer Education Committee, reported that clubs had ordered 2000 pounds of pecans in pooled orders. Prices have varied but the saving over retail prices amounts to at least \$846.00.

Final plans were made for the annual Council Christmas party. The party will be held at the home of Mrs. M. J. McNeill, Council Chairman, at 2:00 o'clock on Saturday afternoon, Dec. 18. The 1954 Council members will entertain the 1953 Council members. A program and gift exchange will provide entertainment.

The council voted to help sponsor a demonstration by Dr. Randall from Texas Technologi-

cal College at 7:30 p. m. December 6. Christmas decorations will be the theme of Dr. Randall's demonstration. All club members are invited.

Miss Petty, County Home Demonstration Agent expressed her gratitude for the gifts given her by the clubs and the council for her Chicago trip. She also expressed her appreciation to those who sent in reports of their year's work, and complimented the fine annual report of each club and committee.

It was decided to have a float in the Shetland Pony Parade on November 26.

Attending the council meeting were Misses W. B. Jordan and Mrs. M. J. McNeill, Center; W. O. Jones Jr., W. J. Ross and G. W. Smith, Dougherty; W. E. Grimes, Friendship; Carriek Snodgrass and D. S. Battey, Harmony; E. G. Norrell, Homebuilders; Buel Neff, Lakeview; W. D. Nance, Raymond Temple and C. L. King, Lone Star.

Also Weldon Smith and A. M. Dusey, Pleasant Valley; Ben Quebe and Wilfred Stoerner, Providence; James Jeffress and J. T. Spears, Sand Hill; L. T. Wood and Grigsby Milton, South Plains; J. W. Day Jr., Starkey; J. H. Davidson, Sterley; W. O. Tye, Sunnyside; Miss Petty and Mrs. S. B. Medley.

**Texas Students Invade "Men's World" at U. T.**

Austin. — The University of Texas has a new twist on the old story of women invading the "men's world."

Two girls have traveled thousands of miles from opposite parts of the earth to study engineering at the University; Miss Fany Dimitriadis of Athens, Greece, and Miss Wen-Lig Tang of Hong Kong.

Each interested in chemical engineering and enjoys music as a primary diversion. Miss Tang plays the piano and Miss Dimitriadis enjoys concerts.

Miss Dimitriadis was the top-ranking student in the Greek National Technical University during her last two years there and Miss Tang ranked in the top 5 per cent of her National Taiwan (Formosa) University class, although taking a tough technical subject.

Lots of men live to see the day they can rejoice because they didn't get what they wanted.

Some politicians express an opinion and then hope and pray it comes in on a slow freight.

First state to abolish capital punishment was Michigan, in 1847. The Benedictine Order was founded at Monte Cassino in the year A. D. 529.

**WE'RE THANKFUL**

Yes, we all have very much to be thankful for and we pause at this time to express our thanks, especially to our patrons and friends for their kindness to us.

We hope that it will continue to be our privilege to serve you for many more years.

**Gospel of Christ**

**MAIN STREET CHURCH OF CHRIST**

THOS. McDONALD Preacher

**IF YOU CAN GET IT OUTSIDE, WHY GO IN?**

Denominations say that you are saved and can remain saved outside of their denominations.

They admit you do not have to hear and believe their denominational doctrine in order to be saved.

They also agree that a person can go to heaven and never hear a preacher of their denomination preach.

They further say that you must hear the Gospel of Christ before you can be saved.

Then since you do not have to hear a doctrine of these denominations, and since you have to hear the Gospel of Christ in order to learn the Will of God, then how could the doctrine of these denominations be the Gospel of Christ?

They will admit you can get the Holy Spirit outside of their denominations. They confess one can be sanctified without ever being in their particular denomination, and that God redeems men outside of their churches (faiths). They say your sins are forgiven before you enter any denomination.

They affirm one is saved only by the blood of Christ, before entering any denomination.

Then since you can get all these spiritual blessings outside of denominations, and go to heaven without entering one, then what would be the inducement for one to join any of them? What can you get inside one of them that you cannot get outside?

With reference to the New Testament, these questions carry a different answer: The doctrine of the New Testament is "the apostles' doctrine," Acts 2:42. One cannot be saved without hearing this doctrine which is the doctrine of the Churches of Christ, Romans 16:16-18.

One cannot go to heaven outside the New Testament church, for "—the Lord added to the church daily such as should be saved." Acts 2:47.

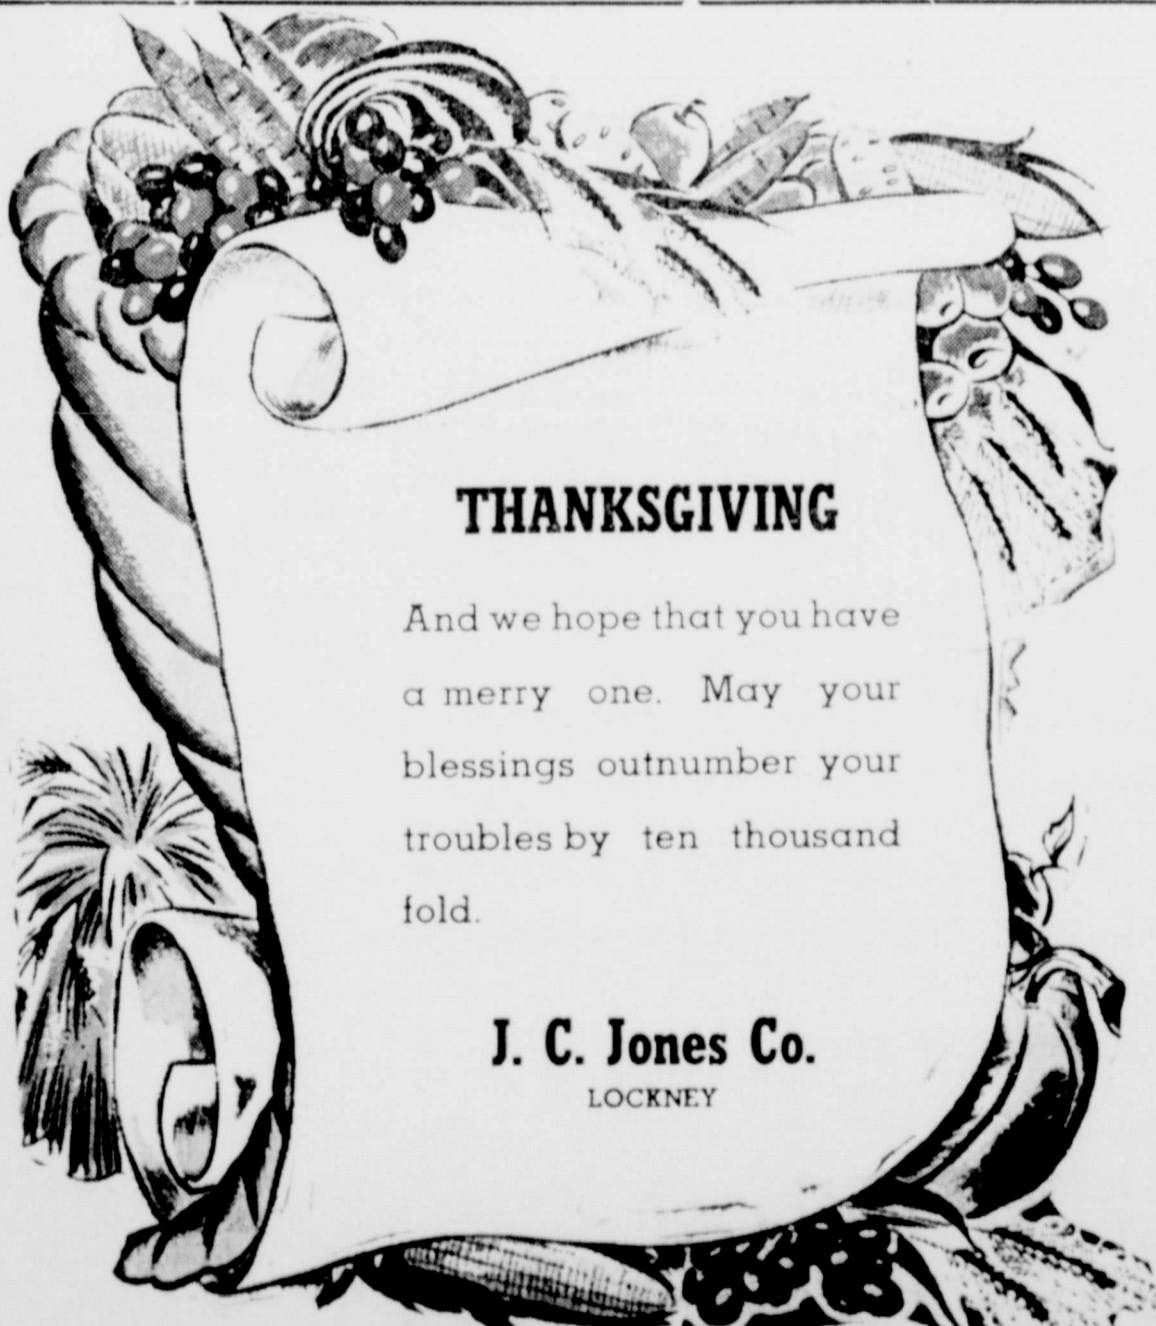

A person cannot receive the benefit of Jesus' blood apart from the Bible church, for Jesus "purchased the church with His own blood," Acts 20:28.

We are not affirming that "our denomination is the only one right" for the church of our Lord is not a denomination. Our plea is just plain New Testament Christians, is for the abolishment of denominational names, organizations, DIVISIONS and practices, and further plead for the unity of the sincere worshippers of God apart from human organizations, for there alone is unity found.

We wear no human name, have no human authority, and we strive to maintain the pattern set by the early church 1900 years ago under the divine guidance of God through the inspired Word ONLY.

All spiritual blessings are in Christ, Eph. 1:3, the church is His Body, Eph. 1:22, 23. The church is an essential body, but we do not say it saves, but that it will be saved, Eph. 5:23. Are you in the church that you read about in the Bible? Accept no substitute, for none is genuine without being authorized by the Word of God.

### South Plains

by Mrs. Murray Julian

Many families will celebrate Thanksgiving quietly at their homes, as we have no school on Thursday and Friday. Many will attend the Phillips Floydada softball game Friday afternoon. Carol Reeves will be home from Dallas on Wednesday to spend Thanksgiving holidays here with her parents, Mr. and Mrs. Jim Reeves.

Rev. Larry Faus went to Lubbock early Sunday morning to visit his grandparents. Mr. and Mrs. H. M. S. Lauffon from Houston, Texas, who arrived to spend holidays and all of this week with them before going on to California.

Mr. and Mrs. L. T. Wood and panel are planning to go to

Mrs. Wood's parents in Tucuman, N. M. where they will spend the holidays with Mr. and Mrs. S. C. Waller.

Mrs. Newman, State Economy Demonstrator, Miss Leila Petty and Bill Rodgers met with Mr. and Mrs. John Wilson, Johnny Sue and Gary on Friday morning at the Wilson home where plans were made for the coming year 1955 for Mr. and Mrs. Wilson and children to carry on a project that will include a year's work, keeping records, and carrying out new ideas. The Wilson family is the Economy Demonstrator family for the South Plains Home Demonstration Club for the year 1955.

Mr. and Mrs. Bill Beedy left Monday morning for Fort Leonard and Wood, Mo. where they will spend Thanksgiving and the

coming week with their son, Bradford and wife who are stationed there. Mrs. W. B. Wilson will stay with Eugene and keep him in school while they are gone.

Among those from our community who attended the lovely pre-nuptial shower held at the First Baptist Church last Wednesday afternoon in Floydada for the Misses Roberta and Edith Garrett were Mrs. John Smith, Mr. Mrs. George Weast and Mrs. Bill Beedy.

Mr. and Mrs. Frank McClure spent the week end and Monday in Snyder where they are visiting her parents, Mr. and Mrs. R. W. Newman.

Mr. and Mrs. Walter Wood spent last Monday in Amarillo where she did some shopping and he went to the cattle auction market, where he had shipped a load of cattle the day before.

Jack Reeves from Roswell, N. M. spent the week end here visiting his parents, Mr. and Mrs. Jim Reeves.

The WMU met at the South Plains Church Tuesday, Nov. 16 for a call meeting and Mrs. Dock Jones was reinstated as president. Mrs. Reeves led the members in a study of "Bible Fundamentals," with the 2nd chapter taking up the study of God. In the beginning, Now and Forever. The WMU was glad to have Mrs. Faus as a new member and it was voted to meet at 2:30 on Thursday, because Mrs. Faus goes to college on Wednesday at Wayland and she would be unable to attend. After dismissal in prayer by Mrs. Faus, plans were made to attend the all day meeting in Crosbyton Wednesday. Present at the meeting were Mrs. Mmes. Larry Faus, Dock Jones, Sim Reeves, Paul Snodgrass, Horace Marble, Walter Wood, Grigsby Milton, Murray Julian and Shelby Calahan.

Mr. and Mrs. Robt. Lee Smith went to Ruidoso, N. M. Monday to spend the week in the West cabin. Mr. and Mrs. George Weast will leave Wednesday and joining the Weasts and Smiths there will be another daughter, Mr. and Mrs. E. T. Evans and family from Amarillo. They will take their turkey and they plan a fine Thanksgiving holiday at the cabin, returning to their homes on Sunday evening.

Those who attended the all day WMU meeting which was held at Crosbyton last Tuesday from the South Plains WMU were Mrs. Grigsby Milton, Mrs. Frank McClure, Mrs. Dock Jones and Mrs. Paul Snodgrass.

Mrs. Arby Mulder and Katherine left Friday with a sister from Clarendon to attend a reunion of the Fitzgerald families in Littlefield where they met at the home of a sister, Mrs. Pete Land and family. They all returned home Sunday evening.

### Honors Won by Texas 4-H'ers

HONOR Awards were received by 4-H Club members for their impressive records in the 1954 National 4-H Dress Revue, Food Preparation, Garden, and Tractor programs. An educational trip to the 33rd 4-H Club Congress, Chicago, November 28-December 2, was received by each teen-ager. Highlights of their club careers follow:

Production costs on the Kolter farm near Wichita Falls, have been kept low because tractor repairs have been minimized by son Bill, 17, who was awarded an all-expense trip to the National 4-H Club Congress in Chicago as a guest of Standard Oil & Gas Co., Tulsa, Okla.

Texas winner in the 4-H Tractor program, Bill has devoted five years to the study of tractor operation and maintenance. In this program, which emphasizes care—not repair—Bill has had full responsibility for keeping the family tractor in good running order, checking the crankcase daily and changing oil every 120 working hours. He adjusts brakes and cleans spark plugs. As a result, he has had only one delay in five years. He has been a Junior Leader in his club, assisting W. M. Morton.

Lynda Sallis

Planning, selecting and preparing nourishing foods has been a challenge to Margaret Wendland, 15, of Robstown, during her six years in 4-H Club work. Due to her outstanding record, she has been named state winner in the 4-H Food Preparation program, and will attend the National 4-H Club Congress in Chicago as the guest of Kelvinator.

Margaret has cooked and served 2,656 meals, 1,094 dishes and 649 desserts during her 4-H Club career. She follows the Texas food standard. She has given 26 demonstrations in food preparation, 44 talks, appeared on radio six times and on TV once, and has written 18 news stories for the county paper. Mrs. Paul Wend-

land is her daughter's club leader.

Gardening, a favorite project with Carolyn Lindsey, 17, of Plainview, has brought her statewide recognition in the 4-H Garden awards program. Her award of a trip to the National 4-H Club Congress in Chicago was provided by Allis-Chalmers Mfg. Co.

For eight years Carolyn's garden has averaged one-half acre and profited the family to the extent of almost \$2,000. Growing 15 varieties of vegetables and canning or freezing them, she has had much help from the family. She has finished high school and plans to go to college. Carolyn's club leaders are Mrs. Elmo Elms and Mrs. A. J. Dierksen, whom she has assisted as Junior Leader for four years.

The 1954 4-H Dress Revue award for Texas went to Lynda Sallis, 16, of Howe, who received a trip to the National 4-H Club Congress in Chicago as the guest of Simplicity Pattern Co.

Lynda won the award with a dark brown velveteen princess-lined jumper and matching short-fitted jacket lined in taffeta. Each piece is independent of the other but together make an attractive ensemble. The garment has slim lines, molded waist, graceful waltz skirt and brief jacket. She chose as her accessories a bitter-sweet velvet hat, brown velveteen purse, brown suede pumps, beige gloves, and gold necklace. The cost of her costume was \$28.20. Her leader is Mrs. C. R. Mr. and Mrs. R. G. Dunlap, Becky and John left Sunday morning for Van Nuys, Calif. where they will visit his parents and other relatives of his and her sister. They will be home the following week.

Mr. and Mrs. Menaru Field

will leave Wednesday for Benning, Nebraska where they will spend the Thanksgiving holidays with their daughter, Mrs. Chas. McDonald and family. They plan to be home Sunday.

Sunday Mr. and Mrs. James Davis and girls of Silverton came to have Sunday dinner with Mr. and Mrs. George Weast. In the afternoon another guest, Mrs. D. H. Davis of Silverton came to

visit the Weasts.

Rev. and Mrs. Larry Faus and Vassie Beth and Bobbie with Mr. and Mrs. Slaughton from Houston acted as hosts on Sunday evening after church to a large group of friends and neighbors who came to wish welcome at the parsonage. Musical numbers were enjoyed during the evening. Coffee, cookies and punch were served to the large number who called. There were about fifty who enjoyed fellowship in the minister's home.

Mr. and Mrs. H. S. Calahan and girls visited relatives in Floydada Sunday afternoon.

Heliolatry is sun worship.

Don't get caught away from home after dark unless the tractor and trailer are properly marked and lighted for night driving. The Texas Farm and Ranch Safety Committee points out it costs less to be safe than paying for accident.

An abundance of high quality turkeys at lower prices is available for the holiday season. The attractive prices should encourage consumers to buy and store turkeys for later use.

The workman who is thrifty at home seldom wastes his employer's time or material.

### Now As Then

Today, as our forefathers did, we celebrate Thanksgiving with a deep appreciation for His generosity. But now, as then, we are faced with the necessity of carrying arms to protect ourselves from forces of darkness that threaten to smother the light of liberty. Yet, with faith in Him we are certain that liberty will conquer, as it did then.

**Cinemascope At Plains Theatre Starting Sunday**

The amazing new Cinemascope with full stereophonic sound will be used for the first time at the Plains Theatre here Sunday and Monday in the new picture, "The Black Widow," according to announcement by J. B. Seale, manager, this week. Cinemascope has been used at the Seale Drive-In for some time but this is the first picture to use it at the Plains Theatre.

The new picture, released the middle of this month, stars Van Heflin and Ginger Rogers. It has been rated as "good" by Parents Magazine.

The Plains will show another cinemascope picture, "A Woman's World" starring Clifton Webb, June Allison and Cornel Wilde.

**Library Notes**

By Ivy Pearl Renee

A happy Thanksgiving to all of you. I'm thankful for the opportunity and responsibility of being your librarian. I'm thankful for the cooperation of the citizens of the county in making a library not only a possibility but a reality. I'm thankful for the little children who attend story hour, and for the grown-ups who lead them. And I'm thankful for books — and books — and more books! How about you?

Mrs. Elouise S. Zimmerman and Mr. and Mrs. Siler Faulkner of Denton have sent to our library a selection of approximately 20 books in memory of Mr. Fred Zimmerman Sr. Mr. and Mrs. Will Snell, Mr. and Mrs. Jack Henry, Mr. and Mrs. Fred Bartley, Mrs. E. A. Hopkins, Mrs. W. E. Sims, Mr. and Mrs. J. H. Tribble, Mary Pearl Cowan and mother have given books in memory of Mrs. W. I. Cannaday.

"Love is Eternal" by Irving Stone will be found in the Lockney branch for a while. This popular best-seller which was reviewed last week by Mrs. Hollis Bond will be sent back to Floydada later. Since we have only one copy, we will have to "Take turns."

The library will be closed just one day for Thanksgiving. So we shall see you Friday.

**Turkey Shoot Is Big Success**

The turkey shoot, sponsored by the Lockney Ex-Students association, and held Tuesday afternoon on the Jake Griffith farm was a big success, according to a report from Barry Eaker, who was in charge of the affair.

Twenty-five big bronze turkeys, weighing from 21 to 25 pounds, were awarded to the lucky participants and the association cleared some \$250 on the event, Barry said. More than 200 were present for the shoot.

**Joan Harris Is Second In FFA District Contest**

Joan Harris, sweetheart of the Lockney FFA chapter, placed second in the Plainview FFA district contest held last Saturday at Abernathy. Miss Myrna Bailey of Roaring Springs was elected district sweetheart. It was the third year in succession the Lockney candidate had won second in the contest. Candidates from all the chapters in the district participated in the contest.

A junior FFA quiz team from the Lockney chapter entered that contest and won 5th place. The team was composed of Billy Bigham, David Howell and John Paul Schacht.

Wilbur Adams of the Lockney chapter and reporter for the district organization also attended the meeting as did Barbara Hays, who accompanied Joan. The group was accompanied by M. L. Brewer, local FFA advisor.

**Attend Funeral Of Brother In California**

Russell Crouch returned this week from Palm Dale, Calif., where he attended funeral services for his brother, Raymond Crouch, who died Tuesday morning of last week from injuries suffered while working on a construction job. Also attending the funeral were Roland Crouch of Houston, Lola and Hazel Crouch from Brownfield.

The deceased man was a former resident of the Providence community in Floyd County. He was born Jan. 15, 1905 at Belvedere, Ill., but moved with his parents to this county when he was four years of age. He lived through his boyhood in this area and attended school in this county.

Mr. Crouch was working on a house building project Monday when a ditch wall caved in throwing him into a ditch digging machine. His right leg was almost severed from his body and he suffered severe face, neck and internal injuries. He passed away Tuesday morning.

Funeral services were in charge of the Mumaw Funeral Home and burial was in the beautiful Memorial Park in Lancaster, Calif.

Mr. Crouch was united in marriage with Marion Blanche Knott on August 30, 1936. Most of his married life was spent in and near Los Angeles, Calif. In May, 1945 he and his family moved to Palmdale, Calif., where he lived until his death. He was a member of the International Hod Carriers Building and Common Laborers Union Local No. 300.

Mr. Crouch became a Christian in his early teens and joined the Church of the Nazarene, Plainview. He later moved his church membership to the Hollywood, California, First Church of the Nazarene where he was an ac-

tive member. He was a sincerely spiritual man, a good father, loyal husband and a man of integrity who will be remembered as a friend to all.

Survivors include his wife, Marion B. Crouch, one son, Lloyd Arvin, age 15, three brothers, Russell Crouch of Lockney, Roland G. Crouch of Houston and Ross E. Crouch, address unknown; two sisters, Hazel B. Crouch and Lola Crouch of Brownfield.

**Colored Man Hurt In Tractor Accident**

Halton Geiger, 19-year-old colored boy, was injured late Tuesday when a tractor turned over on him on the Joe Foster place in the Prairie Chapel community. He was employed by Mr. Foster.

He is being treated at the Lockney General Hospital here. He suffered a back injury, possible internal injuries, and a nerve injury to his left leg. He was resting well Tuesday afternoon.

The boy was driving an MFM tractor and started across an irrigation ditch when the tractor overturned.

**T. Z. Reed Is Very Ill**

T. Z. Reed, pioneer of this area and mayor of Lockney for 20 years, is very ill at his home here where he has been confined for the past several years. Mr. Reed suffered another stroke several days ago and his condition has become gradually worse the past two weeks, relatives said. He was feeling a little better Tuesday, however, relatives reported.

**EDITORIAL**

Have you sometimes wondered why some people aren't more popular than they are? I read an article the other day that I think everyone should read. Following are a few quotes from it.

"If anyone can think of a more desirable qualification than getting along with people, we would like to hear about it. We are convinced that in any circle — business, professional, or social, it is the supreme asset. During the years we have observed how an inability to get along with others handicaps both men and women. Every article, every book, written on how to win success emphasizes the necessity of being tactful and cooperative. The person who seems to have everything from life can still be a dismal failure if he antagonizes people, is unsympathetic and inconsiderate toward them. Think this over LHS students, especially the seniors, most of whom will soon be going into the world where they will meet many new people. Remember this not-to-deep secret of how to get along with others.

**CLEANING PIANO KEYS**

If your piano keys need a little attention, wipe them with a cloth dipped in oil of camphor. Leave on a few minutes before wiping off with a clean soft cloth.

**Longhorns Wind Up Season**

The Longhorns wound up their season Friday night when the Tulla Hornets beat them 13-0.

We'd like to take this chance to express publicly the way that we all feel individually about the Longhorn football team. Congratulations to a swell bunch of boys who played hard every game. We were behind you Longhorns and we wish you best of luck next year. We'll be backing you all the way.

**And Hats Off To Pep Squad, Cheerleaders**

The students of L. H. S. would like to say "Thanks" to the pep squad and cheer leaders for doing such a marvelous job this year. And a very special thanks to Mrs. Ingram who kept the pep squad going. They have helped to keep the good ole school spirit. The cheer leaders were Betty June Jackson, La Juan Henderson, Barbara Jo Hanks, Jan Mathis and Frankie Hardy. It has taken much hard work and a lot of yelling, but each girl enjoyed it. Again we say "Hats off to the pep squad and cheer leaders."

by Smiling Sam  
 Yes, this is the last football game of the 1954 Longhorn football season, and the last half-time performance of the Longhorn band. So let's see what the band has in store for us tonight!

The Longhorn Band marches on from the south end of the field playing "De Malay Comandery." They form a straight line and do a weaving formation down the field and back halting before the Tulla stands. Here they form a TH for Tulla Horn-

ets and play "Alma Mater." Before the Lockney stands they form "55 and play "Auld Lang Syne" for all the seniors. The band returns to marching formation and marches off the field. This is Smiling Sam bidding you and yours the best of luck and happiness until next year when the Lockney Longhorns and Lockney Longhorn Band will see you at the football games.

### Lockney Students Participate In Standard Tests

All students in the Lockney School, beginning with the second grade, were given a Stanford Achievement test this week. Superintendent W. C. Irons stated that the testing program was in keeping and a part of the evaluation program for accreditation of the Lockney school system. He also stated that a similar test would be given all students during the later part of the school year in meeting that portion of the accreditation program which calls for standard tests to be given. He pointed out that the test would become a part of the students permanent record but that the results would not determine whether the student passes or fails a course.

### Answers About New Crop Loan Program Given

College Station. — Will crop loans and purchase agreements still be available for 1955 production, even under the new adjustable price support plan? The answer is "Yes" says Claude K. McCan, chairman of the state ASC committee, who said this and other questions about price supports under new farm legislation are being asked by farmers.

One common question, says McCan, is: "Do all basic crop price supports drop to 82 and one-half percent of parity for 1955?"

In answer to that, he said U. S. Department of Agriculture spokesmen have emphasized that "There is no basis in fact to the charge that price supports would 'drop out from under' basic agricultural commodities" in 1955.

"Department spokesmen have said that 'necessary moderate adjustments will be made gradually, and in line with realities of the supply situation,' he explains. Under existing law, supports on basic commodities can be set at or anywhere between 82 and one-half and 90 percent of parity. Supports will depend on supplies of the commodities involved, but now the picture for 1955 looks like this:

Wheat. — Supports have been set at 82 and one-half percent of parity, or a national average of \$2.06 per bushel.

Rice. — Under the present supply situation, 1955 price supports would be indicated at around 83 percent of parity, or possibly a little less. However, if marketing quotas are in effect next year, lower production in 1955 could reduce total supplies so that final price support might be in the upper 80's.

Corn. — Supports are expected to be at or very close to 80 percent.

Peanuts. — Supports are expected to be at or very close to 80 percent.

Cotton. — Supports will remain at 80 percent of parity. Another recurring question, McCan says, has to do with price supports for 1955 small feed grains such as oats, barley and grain sorghums. He points out that Secretary of Agriculture Benson recently said no decision had yet been made in connection with small grains. Such a decision, he said, would be made only when final crop reports are in, and after further study of the current drought.

## Gloyna-Thomas Vows Repeated

St. Pauls Lutheran Church in Plainview was the scene of an impressive wedding ceremony uniting Miss Agnes Gloyna and Mr. Webb Thomas Friday, November 12 at 4:30 p. m. Rev. E. A. Wolf, pastor of the church, read the vows for the double ring rites.

The altar was decorated with arrangements of white gladioli and greenery.

Given in marriage by her uncle, Herman Gloyna of Kress, the bride was gowned in white silk and lace. The fitted bodice was designed of rose point lace over silk featuring a scoop neckline and long sleeves ending in points over the hand. The full ballerina length skirt was of nylon tulle over silk. She wore a white satin pill box hat with a shoulder length veil and carried a bouquet of white rose buds and stephanotis.

Miss Jo Denton of Austin was maid of honor and Mrs. Carl A. Gloyna, sister-in-law of the bride, served as matron or honor. Carrying out the bride's chosen colors of green and white the attendants were dressed identical in green crystalite designed with a fitted bodice, short sleeves, scoop neck and full ballerina length skirts. They wore wristlets of white carnations.

Carol Weathers of Petersburg, flower girl, wore a frock of white organdy with a green sash.

Bill Overton of Dallas served the groom as best man. Carl and Walter Gloyna, brothers of the bride, were ushers. Edwin Gloyna, also brother of the bride, was candlelighter.

Miss Adeline Schaffer of Plainview, organist, played the wedding music and accompanied Mrs. Henry Hooper who sang "Always" and "The Lord's Prayer."

### Reception

Following the ceremony a buffet dinner was held in the home of the bride's parents near Lockney. The lace covered table was centered with a three tiered cake topped with a miniature bride and groom flanked by white tapers in crystal holders. Mrs. Walter Gloyna presided at the table and Mrs. Lynroy Weathers secured names for the register.

For a wedding flight to Miami Florida and the West Indies the bride chose a navy dressmaker suit, white hat, navy bag and shoes. Her corsage was of white rose buds. The two weeks wedding trip was furnished as a courtesy of Braniff Airways with whom the bride has been employed as air hostess.

The bride, a daughter of Mr. and Mrs. C. A. Gloyna of Lockney, attended the University of Texas where she was a member of Beta Sigma Phi social sorority and the Gamma Delta Organization. She plans to continue as an employee of Braniff Airways of Dallas.

Mr. Thomas is the son of Mrs. Ruby S. Thomas of Horton, Missouri. He attended Kemper Military Academy, The University of Missouri, and Purdue University. He was a member of Phi Delta Theta. He is now affiliated with the Dal-Tex Aviation Company of Dallas where the couple will be at home.

## QUALITY YOU CAN MEASURE By Your Car's Performance

Quality that skilled scientists measure and control daily in the laboratory at the Shamrock McKee Refinery.

Typical of this quality, Shamrock's new 5W-20 and 10W-30 motor oils are among the most important petroleum improvements of this century.

To get proper engine protection from regular motor oil, you would have to use a light weight oil for starting and warm-up, then switch to a heavier weight motor oil after the engine has reached operating temperature.

Shamrock 5W-20 and 10W-30 give this protection in one motor oil. They flow freely in a cold engine, allowing quick starts and giving instant protection... yet do not lose their protective qualities at highest operating temperature.

If you want easier starting, less wear, longer battery life and greater fuel economy use Shamrock 5W-20 or 10W-30 in your car summer and winter.

And remember, you can depend on the quality of all petroleum products sold under the big, green and white Shamrock.

Your Shamrock dealer now offers new Master-matic credit service... makes credit card purchases fast, accurate and convenient.

## Minute Editorials

And though I bestow all my goods to feed the poor, and though I give my body to be burned, and have not charity, it profiteth me nothing. — 1 Cor. 13-3.

REPEATING WHAT WE HAVE SAID in previous editorials, we again want to emphasize the many things that the people of his area have to be thankful for in this Thanksgiving day, 1954. This year more than most previous years, we have much to be thankful for from a material standpoint. Crops were bountiful with both cotton and grain making larger than usual yields and prices adequate to assure good incomes from the crops. Business houses have had good business his fall with many transient shoppers in the area spending their money to add to the home-olks patronage. We all know that we have thousands of blessings, above and beyond those enjoyed by people of other areas, other states, and other countries.

THE BIG DANGER, as we see

it, is that we will be too busy to be properly thankful. Most of us are prone to forget everything else and concentrate our minds and efforts solely on business when things are rushing. That is the natural thing to do. But perhaps we ought to pause at proper intervals and spend some time in meditation, thinking up on all our blessings and expressing our thanks for them. Who knows but that such blessings may not always be ours.

REP. GEORGE MAHON, speaking to the Post Rotary Club last week, made this plausible statement: "No miracles can come out of Washington. They come only out of Heaven." Mahon stated that Congress didn't like the idea of upping the debt limit but the only alternative was to cut defense spending and they wouldn't do that. He went on to say, "We have had some tax reductions under the present administration and, generally speaking, business is getting better. Of course, there are unemployment problems in some sections of the country, and there's the drought, but the overall picture is brighter." That's a pretty good boost for the Eisenhower administration coming from a Democrat; it seems to us. Mr. Mahon has been one of the many Democratic representatives who apparently has tried to put the welfare of the country ahead of political considerations and has supported the Eisenhower administration's program when he thought it was for the best interest of all concerned. Senator Lyndon Johnson and Senator Price Daniel, both from Texas, have also followed that line of reasoning in their representation of this state. We like it.

NEW CAR MODELS, most of which have made their appearance in the past three weeks, are creating such an incentive to buy that many factories are running behind schedule and stepped up production has created a big jump in the use of steel and coal, so the economists tell us. Actually the production of automobiles is somewhat of a pace maker for America's economy and the news of the big demand for new models is an indication that business conditions may be even better the coming year than they have been this year.

QUOTE: "Let us demonstrate in our lives our humble thanks to God for His beneficence in the year which is past, and let us ask His guidance in the year to come." — President Eisenhower in his Thanksgiving Day proclamation.

Estimated age of the earth is two billion years.

#### END OF PASSENGER SERVICE BY TRAIN

It appears that the last train passenger service to Plainview will soon end. The Santa Fe is preparing to apply to the Texas Railroad Commission for a permit to discontinue the line's Trains No. 93 and 94, last passenger trains serving between Lubbock and Amarillo.

Judging from past experience the Texas Railroad Commission will grant the carrier permission to do so.

The railroad is prepared to show that the line loses money. It no longer has the main contract for its railroad car.

The tendency has been to switch mail from rail to trucks with the assent of the common-carrier railroads and with an affinity close to kinship between the railroads and the truck lines.

The railroads fight like fury for the mail contracts on trains which they find profitable and which they wish to continue operating.

The express company is making its plans for service which will be as good or better. It will seek permit from the ICC to operate its own trucks. If the railroad wants them to operate their trucks they'll probably get

the permit. If not their tonnage will most likely be hauled by the trucks of the railroad's choice.

Having raised all the heck it could to retain a needed Burlington train service between the Plains and Fort Worth-Dallas without avail and viewing the Santa Fe's service between Lubbock and Amarillo of little necessity and convenience to few except the railroad's own employees, The Herald predicts that the Santa Fe will end its passenger train service to Plainview on permission that will be granted by the Texas Railroad Commission. — Plainview Herald.

#### Let's Fight It— AND GET STARTED NOW!

The Santa Fe wants to eat its cake—and have it too. It wants to continue to make

whacking profits off Lubbock and the South Plains by way of freight patronage—but it doesn't want to serve the convenience of the people.

In no other way can the railroad's policy be described, since it has ready to file with the Texas Railroad Commission an application for permission to eliminate its passenger service between Lubbock and Amarillo. If successful, this would leave Lubbock and the South Plains, Plainview, Kress and Tulla with no passenger rail link with Kansas City, Chicago — and points East.

Lubbock is one of the top cities on the Santa Fe's far-flung system from a standpoint of freight business, hence profits, too. The Santa Fe covers a larger segment of the country than any other railroad — and in all its empire not more than 10 points furnish it more business, or more profit, than Lubbock. But the Santa Fe doesn't appreciate that — at least to the extent of considering the passenger needs and convenience of the people of Lubbock, and the same situation obtains for all other cities involved, including those immediately adjacent to Lubbock, whose residents also will be left high and dry if the Santa Fe's application is approved.

Not long ago the Santa Fe lost a mail contract between Lubbock and Amarillo to a Star Route operator. This, says the railroad, makes its one run per day, each way, "doodlebug" passenger service unprofitable. Therefore, says the railroad, it will discontinue even this puny service. It will haul freight, and pocket the profits. But it doesn't care about the passenger needs of the people — without whom there wouldn't be any lush freight business. — Lubbock Avalanche.

The Lockney Longhorns, playing their final game this season, played the Tulia Hornets on a about equal terms and could have easily won the game with a break

or two, but came off loser 13-0 last Friday night at Tulia. About every break in the books went against the Longhorns during the first half. The Longhorns threatened to score time after time but fumbles or bad breaks in one form or another always stopped the drive.

The four seniors on the team: Jimmy Rankin, Marion Cross, Bucky Duvall and Noyle Crouch gave an excellent account of themselves as did Weldon Jones, Doyle McAda, J. V. Dippery, Bennie Ballard, Johnny Hanst, Dan Griffith, Gene Handley, Paul Ray Williams, and several other boys. Paul Williams, Jones and Duvall were the big noise on the

Tulia: The Hornets lost 1, made 5 and then pulled a quick kick. In racing back to get the ball, it struck Handley on the back and was recovered by a Tulia player giving the Hornets the ball on the Tulia 46. The Hornets made 1, 2 and then a first down on the Lockney 43. They made 4, were penalized 15, and a fumble was recovered by a Lockney player on the Tulia 31.

Lockney: Jones made 7, but a fumble on the next play was recovered by Tulia on the Tulia 19.

Tulia: The Hornets made 2 and 1 and completed a pass for a first down on the Tulia 45. They made 1, and then the ball carrier broke loose on a reverse to run all the way. However the score was nullified by a 15 yard penalty against Tulia. But on the next play, an identical reverse worked for 69 yards and the score. Rankin blocked the kick and the score was 13-0.

Lockney: Williams returned the kick to the 25. Lockney was penalized 5. A pass Handley to Jones was good for 14 and Jones drove for a first down on the 37. They made 8, had a pass incomplete, and Jones drove for a first down on the Tulia 49. Jones made 8 had a pass incomplete and Jones drove for a first down on the Tulia 39. They made 1, a fumble lost 1, a pass was incomplete and Duvall made 9 with Tulia taking the ball on their own 30.

Tulia: A pass was intercepted with Lockney taking the ball on

offense and turned in more yardage than the Longhorns have made all season in one game but somehow the scores were just out of reach.

The game closed out the season for both the Longhorns and Hornets.

Following is a summary of the game:

Tulia: Returned kick to 21. Made 4 yards and a jump pass was good for first down on 33. Made 4 and 3 and Longhorns penalized 5 for first down on 45. Made first down on Lockney 45. Made 1. Dippery broke through to drop ball carrier for 7 yard loss, a pass was good for 12 yards, a pass was incomplete and the Longhorns took the ball on their own 39.

Lockney: Paul Ray Williams broke loose to the Tulia 39 for a first down. Jones made 2. Williams 7 1/2 and Jones a first down on the Tulia 28. Williams drove to a first down on the 16. Jones made 5. Williams 3, and Jones a first down on the 5. Williams made nothing. Jones made 4 and a half yard on third down. With fourth down and a half yard to go Williams slipped and fell in the clear on the 3 yard line where Tulia took possession of the ball.

Tulia: The Hornets made 0, lost 1, made 8 and a first down on the 12, made 4, and then first down on the 24. The Longhorns line rose up and smeared the

passer for 8 yard loss but then the Hornets completed one for a first down on the 43. They made 1, were penalized 5, made 11 and then a first down on the Lockney 39. Lockney was penalized 5, and the Hornets made a first down on the 28. They drove for a first down on the 16. Lockney was penalized 5, pass was incomplete, made 3 and then when the passer apparently was trapped he threw a pass complete for the score. The point was kicked and Tulia led 7-0.

Lockney: Williams returned the kick to the 20. The Longhorns made 9, made 1, a pass was incomplete and Tulia returned the kick to their own 46.

Tulia: Made 1, were penalized 5, made 10, made 3, a pass was incomplete and Lockney took the ball on the Lockney 44.

Lockney: Williams went a round right end, cut back and ran to the Tulia 19 before being downed. A pass was incomplete and then Handley passed to Williams for 7 yards. Another pass was incomplete and the Longhorns made nothing with Tulia taking the ball on the 12.

Tulia: Weldon Jones intercepted a pass and returned to the Tulia 9.

Lockney: Duvall made 7 and Williams carried over on the next play but officials ruled that time had run out before the ball was in play. Halftime.

Lockney: Jones returned the kick to the 33. A pass was incomplete, lost 2, made 3 and kicked to Tulia 46.

Tulia: Made 5 and 1, and then McAda and Jones teamed up to drop the ball carrier for an 8 yard loss. Handley took the kick eluded 4 tacklers and returned it to Tulia 45.

Lockney: Williams made 6 and then a first down on the Tulia 31. They made 2 and 6 and then a fumble gave Tulia the ball on the 13.

Tulia: The Hornets made 4. Lockney was penalized 5, and they drove for a first down on the 25. They made 2 and then broke loose for a first down on Lockney's 21. Tulia was penalized 5, they made 4 and 6, lost 1 and a pass was incomplete with the Longhorns taking the ball on the 17.

Lockney: The Longhorns made 4 and 1 and then Jones broke loose to run to the Tulia 12 before being downed. Williams made 5, and 2, a pass was incomplete and Jones made 2 giving the Hornets the ball on their own 3 yard line, lacking one yard being a first down.

## FARMER'S GIN

Lone Star

H. G. HODGES, Manager

JACK DEMPSEY, Owner

### Busy Machinery Means Lower Costs

College Station. — Labor is a high-cost item in farm production. Farm wage rates, according to C. H. Bates, extension farm management specialist, are about four times higher now than in the period before 1911.

This fact, points out the specialist, is responsible for much of the shifting to power machinery as a substitute for high-priced labor. Such machinery is now only about double its pre-war cost, but, adds Bates, there's a catch to the deal.

Just to get a cotton harvester, field forage-harvester or a pick-up baler doesn't mean it will be a money maker. These machines, like the hired man, must be kept busy if they are to return a profit. The less a machine is used the greater will be the per hour or acre cost.

Bates suggests that farmers study their machinery needs and invest only in those which can be kept busy. Acreage allotments should be considered. Depreciation of machinery too is a part of the cost of production. A

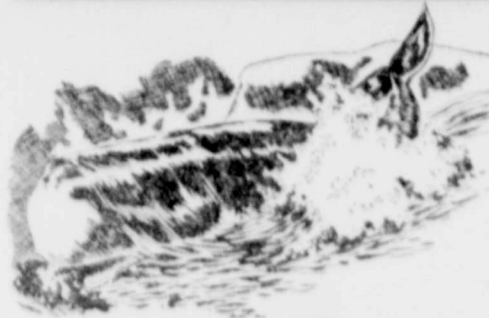

tractor used 1,000 hours a year will depreciate very little more than one used half as much, and the depreciation charge for the less used tractor will about double the busy one.

If operations aren't large enough to keep machinery reasonably busy, Bates suggests custom hiring might be the answer. He backs up this suggestion with information from a recent Texas Agricultural Experiment Station study made in the Blackland area. A study of 63 farms showed \$21.35 as the per bale cost of stripping cotton in 1952 with the farmer's own machine. This compares with the custom stripping rate of \$20.67 per bale in the same area. Doing custom work in the community will cut the overhead cost of machinery, says Bates.

Finally, he says, unemployed equipment increases equipment expenses and does not cut labor costs. Count the cost before you buy and consult your equipment dealer on the size machine for your operations.

### More Farm Exports Forecast For '55

College Station. — Farmers may find more customers in foreign countries in 1955. Farm exports are expected to increase next year, perhaps up to 10 percent, says John G. McHaney, extension agricultural economist.

Here is the basis for the economist's prediction:

Foreign cotton supplies are smaller than a year ago making larger shipments from the U. S. likely. Wheat and sorghum grain exports are expected to rise from relatively low levels of last year. Reduced foreign production is responsible.

A stronger demand abroad for fruits and fruit products coupled with larger U. S. Supplies also point to stepped-up exports. Oils, fats and oilseed shipments will continue large also.

The Agricultural Trade Development and Assistance Act of 1954 will stimulate further agricultural shipments. Under the act foreign nations may purchase surplus commodities from the U. S.

The demand for our products has strengthened even in recent months, reports McHaney. In the 1953-54 marketing year exports topped \$2,000,000,000, compared with \$2,800,000,000 for the previous year. This was roughly 30 percent under the peak established in 1951-52.

"Healthier foreign markets are not a cure for this country's

surplus problem, but will give strength to our total marketing position," McHaney concludes.

### Hair Dresser Gives Course Here Sunday

Orene Hocker of Lubbock, vice chairman of the hair fashion committee of the National Hair Dressers Association and second vice president of the Texas Association of a similar organization, spent Sunday here giving several beauty operators instructions in latest trends in hair dressing. Mrs. Frankie Dean said Monday. The course was taught in Mrs. Dean's place, the Modern Beauty Shop.

Miss Hocker's instructions were along the new Americana Trend, a new hair style featuring a high temple line, plateau top and a soft neckline. She also told of the new trend toward spraying the hair various colors. Taking the course were Mrs. Dean, Ethel Marshal of Aiken and Billie Johnson of Dimmitt.

# Thanksgiving

Almighty God, Lord of heaven and earth; We beseech thee to pour forth thy blessing upon this land, and to give us a fruitful season; that we, constantly receiving thy bounty, may evermore give thanks unto thee in thy holy Church; through Jesus Christ our Lord. Amen.

**Rotary Promotes World Peace And Goodwill—Governor**

Rotary Clubs in 89 countries and geographical regions throughout the world are united in an endeavor to promote international understanding, good will and peace. That was the message of Jerry Debenport of Odessa, Governor of District 183 of Rotary International, in addressing the Rotary Club of Lockney Friday, following a conference with local Rotary officers and committee chairmen on Thursday night.

In addition to the activities of Rotary's 8300 clubs within their own communities to promote this objective, Mr. Debenport explained, Rotary International has spent more than \$1,500,000.00 in recent years through its program of student fellowships, which enables outstanding college graduates to study for one year in countries other than their own, as ambassadors of good will. Since 1947, when this program was established, 606 Rotary Fellowships have been awarded to students in 57 countries. Miss Flozelle Jones of Sweetwater, Texas has just returned from a year's study at the University of Manchester in England, coupled with extensive travels over the entire continent of Europe. She was a student of the academic year of 1953-54 from this 183rd district of Rotary International. Such scholarships will again be awarded this year from this district to a graduate student of requisite qualifications.

**Total Farm Income About Same As '53**

Austin. — Texas farmers received approximately as much cash income from products in the first nine months of 1954 as they did in the same period last year, the University of Texas Bureau of Business Research reports.

The difference in the 1953 and 1954 totals was less than a half of 1 per cent.

Cotton income was up 32 per cent, followed closely by cottonseed (27 per cent), sheep and lambs (14 per cent) and corn (12 per cent). However, grain sorghums income dropped 25 per cent, and other declines were registered by dairy products and eggs (each 20 per cent) and fruit and vegetables (18 per cent).

The outlook for principal cash crops is brighter, the Bureau reports. Pessimistic views are confined to crops of local importance in scattered areas.

September rail car shipments of Texas livestock were up 17 per cent over August and 117 per cent over September, 1953, indicating heavy marketing because of the prolonged drought. However, range and pasture prospects picked up sharply in October and cattle marketing was curtailed sharply during the first part of that month, causing advances in prices at several markets, the Bureau says.

**JELLY PARFAIT**

Jelly-making time is busting out all over, and if you belong to the school of thought that claims jelly is never so good as the day it's made, think up new ways to use it (other than on breakfast toast) before it goes on the winter jelly shelf. For instance, a spoonful of jelly in a parfait glass. Add tapioca pudding — made quickly from tapioca pudding mix — top with a dab of jelly and strip of mint.

Chill in your gas refrigerator, garnish with chopped nuts and serve to your summer luncheon party.

**HERE ARE SOME FACTS You Should Know About Our BOY SCOUT PROGRAM!**

**WHAT IS SCOUTING?**

Scouting is a character-building, citizenship training, and physical development program for ALL boys, regardless of creed, race or economic status. It is a program designed to replace today's citizens with better citizens tomorrow. It is a program planned to help America raise boys that are sound of body and clear of mind. Under the guidance of a strong nation-wide organization, there are 540 Local Councils that bring the Scouting program to every nook and cranny of America.

**WHAT IS THE SOUTH PLAINS COUNCIL?**

We all live in one of these 540 Councils. Our South Plains Council is comprised of 20 counties and part of one other. Nearly 200 Churches and other institutions operate the Scout program. Each of these has a representative on the Council. The Executive Board which guides the Council has Representatives from every section and nearly every walk of life.

Your South Plains Council, like others throughout the Nation, employs a small staff of highly trained executives who are devoting their lives to the Scouting program. Under the direction of these men, are more than 2100 adults who volunteer their services. Your son's Cubmaster, Scoutmaster, or advisor is one of these men. So are the members of the Park, Troop or Post Committee. Your Council operates a headquarters office where all records are kept. This office which is truly a "Service station to Scouting" is housed at 2109 Avenue X in Lubbock. Since healthy outdoor activities comprise the major part of Scouting, your South Plains Council owns and operates 2 camps for the benefit of your son and all boys active in Scouting. These are used throughout the year. Your Council carries on a continuous training program for leaders in Cubbing, Scouting and Exploring. New Packs, Troops, and Explorer Posts are being organized the year around. Advancement and recognition ceremonies are conducted, and special events carried on the year around.

This year we are expanding our camping facilities at Camp Haynes, acquiring canoes and row boats and securing a mountain compete in addition to our regular budget needs in this campaign.

**WHAT DOES THIS PROGRAM COST?**

As you have probably guessed, a Scouting program that encompasses all these things costs money. But it is surprising how little it costs per member. Your South Plains Council accomplishes all this for only about \$14 per year per member. Where does this money come from? Where does it go? Is it enough?

**WHERE DOES THE MONEY FOR SCOUTING COME FROM?**

Each year people in every city are given an opportunity to lend their financial support to the Scouting program. In Lubbock, Plainview, Lamesa, Seminole, Matador, Seagraves, Hockley County, and Floyd County, Scouting is one of the agencies in the Community Chest. In other towns, an annual "Scout Drive" for funds is conducted.

Through these combined sources of income, about 90% of the finances needed to carry on the Scouting program in the South Plains Council are raised.

The remainder comes from Scout-minded citizens who wish to give an extra amount of financial support to Scouting. This they can do by enrolling as "Associate Members" or as "Sustaining Members."

The 50-cent registration fee each Scout pays each year goes to the National Council, to support the national program.

Remember this about Scouting: There is no Federal Aid. None of your tax dollars support Scouting.

**WHERE DOES THE MONEY GO?**

It goes to organize new Units . . . to train new Leaders . . . to bring continuous coaching to all Leaders . . . to provide and maintain 2 Council camps (the individual boy's camp fee is so low it pays only for the food he eats). It goes to stage circuses, camporees, expositions . . . to provide Advancement opportunities . . . to maintain the Headquarters "Service Station," where all boys' records are kept . . . to give guidance to Home, Church, and School operating the Boy Scout Program.

**Soil Conservation District News**

**Our Gently Sloping Hardlands**

These soils are deep, fine textured, slowly permeable, have a slope between and and three feet per 100 feet, and may have either "1" (none to slight), "2" (moderate) or "3" (moderately severe) erosion. In addition to the conservation problems listed last week for our flat hardland soils, these soils also have a water erosion hazard.

A good plan to use in cropping these soils under dryland farming would be to grow high residue producing crops, such as sorghums, wheat and barley on all the land three years out of four, soil improving legume cover crops such as vetch, winter peas or clovers may be substituted any year for the high residue producing crops, and should be grown one year in

five; deep rooted legumes should be grown occasionally to break up plow sole and increase infiltration rate; terrace and farm all crops with the terraces; and leave crop residue on or near the surface.

A good plan to follow on irrigated soils of this type would be to handle the vegetative program in the same manner as given last week. These soils should be bench leveled for cropland. Much more efficient use can be made of irrigation and rain water after it is bench leveled, as well as control of erosion. Handled properly, these class III soils can be made to produce as much as our flat maintained. Also the runs in these level borders must be shorter than on the sloping land. The borders also should be watered from a pipe line rather than an open ditch.

We must resolve to keep our

sloping land from eroding and keep it in maximum production by using all of the conservation practices possible. Let us use this "blueprint" for better farming.

**HOT TOMATO JUICE**

When the weather turns cool, suggest heating canned tomato juice just to a boil. Add a teaspoon of butter to each serving and stir until the butter melts. Serve either in bouillon cups or small glasses. Don't forget a slice of lemon for flavor.

**FANCY BAKED APPLES**

Bake a few apples in your gas range while you're doing the dinner dishes. Next morning, place an apple in the middle of the cereal bowl, pour candy-coated puffed wheat around it, and your youngster will have a delightful, nutritious 'round-the-apple' breakfast.
