Fire Destroys P. Bagby Home

The Printis Bagby family lost their home, all their clothing and furniture when fire struck on Thanksgiving Day but Mrs. Bagby said this week that they were thankful that no one was injured in the fire.

The reliable colored family who lived just southeast of the Patterson Gin were all at home at the time but the entire roof of the house was ablaze before it was noticed. Printis, an employee of Johnson & Johnson garage here, was in the yard fixing a clothes line when he looked up and saw the roof ablaze. It was too late then to save any furniture or clothing.

The fire started on the north side of the house and quickly spread, it was said. Origin of the fire was unknown.

This week more than \$500 in cash and numerous items of clothing and kitchen utensils had been given the colored family. They have a little girl six years old and a little boy two years old.

At the present they are making their home with her brother, Paul Carver and family on the Lloyd Readhimer farm in the L-ne Star community.

They carried insurance in the amount of \$500 on the house, Mrs. Bagby said.

Will Observe 50th Wedding Anniversary

Mr. and Mrs. R. T. Spence of Lockney will observe their Golden Wedding anniversary on Saturday of this week. Although Mrs. Spence has been seriously ill for several weeks friends of the family are invited to spend a few minutes with them on the week end. Mrs. Spence is resting and doing as well as could be expected, members of the family said.

R. T. Spence and Myrtle Ellison were married by a Baptist minister at Nolanville, Texas, in Bell County on December 4, 1904. In 1907 they moved to the plains and settled on 320 acres of grassland six miles north of Lockney. In 1926 Mr. Spence bought a section of land four miles southwest of Lockney and in 1934 put down an irrigation well. The family lived there until 1948 when the farm was sold and Mr. and Mrs. Spence and their son, Claude, moved to Lockney to make their home.

Mr. and Mrs. Spence have six sons, Theron, Claude and Raymond of Lockney, Jack of Amarillo, Russell of Kress and Rayburn of Dell City, Texas.

Mr. and Mrs. Spence are especially happy to have their oldest son, Theron, at home. They had not seen him since he went to war in 1942. He remained to work in New York City after the war but came home to be with them at this time.

Members of the family expressed their appreciation this week to the people of the Lockney area for their concern and many deeds of kindness shown in so many different ways since Mrs. Spence has been ill.

A CLEAN CITY IS A SAFE CITY

Alton May Named Night Watchman

The Lockney City Council, in a called meeting Monday night, named Alton May as city night watchman to succeed Warren Graham, Mayor J. E. Cox said Wednesday. However Mr. May has not accepted the position as yet and Graham will continue on the job for a few more days, the Mayor said.

Graham resigned his position with the city early in November effective December 1. The City had six applicants for the job, Cox said.

May is a former deputy sheriff here and more recently served the City of Floydada as city officer.

Postmaster Asks For Early Mailing

Postmaster Imogene Holt today announced a three-point program designed to insure delivery of all Christmas cards and gift packages by December 25.

"I've found," she explained, "it's not enough to slap up posters all over town saying, 'Shop Early, Mail Early.' That's the main idea of course, but I'd like to be more specific."

Specifically, then, the Postmaster first urged business firms to mail their regular correspondence before 4:00 p. m. through out the Christmas season. They can help even more, she added, by withholding all circular and catalogue mail until after the critical period, Dec. 15-25.

"This will leave elbow room at the Post Office to process the tremendous volume of holiday mail we'll be handling. I'm quite sure it will exceed the all-time record of 65,405 cancellations set here in 1953," the Postmaster warned.

Point 2, consequently, requires the public's cooperation. Begin by checking your Christmas card list this week. Each address should include the full name, street and number, city, zone and state.

After this, visit the Post Office to order the stamps you'll need. Lay in a supply of heavy wrapping paper and strong cord as well. Then there will still be a week left for leisurely Christmas shopping — one New Year's resolution you can keep.

Finally, the Post Office itself has moved into high gear. Temporary postal employees have been sworn in, delivery trucks overhauled and, all space cleared for parcels. So just do your part, and remember all gift packages should be mailed by Dec. 5, all Christmas cards by at least a week before Christmas.

Ask For Cotton Remnants For CROP

Harmon Handley, representing the Lockney Lions Club, is asking local farmers to give cotton, anything from a remnant to a bale to the Christian Rural Overseas Program for the relief of suffering in foreign lands.

Harmon said that any gin would handle the cotton for CROP and that the government would match every bale given 20 to 1 in shipping cotton overseas.

County Will Get 100,000 Acres Of Cotton In 1955

Floyd County has been allotted 100,148 acres of cotton for 1955, according to information from the ASC office Wednesday. This is a reduction of only around 17,000 acres from the final allotment of 1954 and an increase of some 15,000 acres over the original 1954 allotment.

Members of the Floyd County ASC committee have been working this week on individual allotments but it will probably be Monday before they can be mailed, County Committeeman Buck Sams said Wednesday. The individual allotments are based on the county factor of 2969 percent of the cropland after the 1954 planted wheat acreage is deducted. The county's total acreage is based on history with crops of 1948, 1950, 1951, 1952, 1953 being considered.

This county was first given a quota of some 94,000 bales but a slight increase announced Tuesday increased the total to the 100,000 mark.

Some counties, notably Lubbock and Lynn counties, have greater average allotments for 1955 than they had for 1954.

Farmers will go to the polls on December 14 to vote on the cotton acreage allotments.

Two-Way Radios Installed Sat.

The two-way radio system, purchased by the County for the Sheriff's department, have been received and were installed Saturday but the system is not in use yet because the county has not received its license to operate.

The main station of the system is located in the sheriff's office at Floydada and is strong enough to contact similar stations at Lubbock, Plainview and Tulla. Units were installed on the cars of Sheriff Earl Cooper, Deputy Walter Hollums and Deputy Ray Hartin in Lockney.

Cost of the entire set-up was \$2,818.50 with the federal government paying half the cost under its emergency communications program, Judge Ralph C. Johnston said.

The license has been applied for and as soon as it is issued the Floyd County two-way radio system will be put in action.

Fire Department Buys Resuscitator

The Lockney Volunteer Fire Department, aided by donations from several civic clubs and individuals, has purchased a resuscitator to be used in emergencies in this area. The machine is paid for completely, Fire Chief R. L. Knox Jr. said Wednesday.

The resuscitator will be kept in the Carter ambulance here where it will be available at any time to anyone in need of it, it was said.

The buying of the resuscitator has been a project of the local fire department for some time. It is a machine used to revive victims of drowning, electrocution, etc.

Basketball Teams Go To Crosbyton

The Lockney High basketball teams will travel to Crosbyton Friday night where they will play three games. Coach Troy Ingram said Wednesday. Both A and B boys teams and the girls team will play. The Coach is trying to match a home game for Tuesday night but hadn't been able to do so Wednesday.

The local teams dropped all three of their games to Slaton teams on Tuesday evening at Slaton. The B team lost 29 to 17, the girls lost 52 to 41 and the A team hit a really hot team to drop their game 72 to 22.

Guests for Thanksgiving in the Roy Porter home included his parents, Mr. and Mrs. E. A. Porter of Mountain Park, Oklahoma, Mrs. E. H. Sims, Mr. Sims and sons of Snyder, Okla.

Lockney Transier To 2-AA District Is Given Approval

The request of the Lockney School to participate in District 2-AA football and basketball in 1955-1956 has been given official approval by Rhea H. Williams, state athletic director, according to a letter received last week end by Supt. W. C. Irons.

Although the Lockney school enrollment is slightly below the Class AA level, the school officials asked for admission into District 2-AA and, along with Dimmitt and Olton, were unanimously voted in by the district committee. The approval from Austin this week makes the district official.

The district is now made up of Lockney, Olton, Dimmitt, Muleshoe, Tulla, and Littlefield.

Plan To Ask For Second Vote On Road Bond Issue

Petitions are being prepared in Floydada to ask the Commissioners Court to call another election on a bond issue to finance a 4-lane highway through the county. The Beacon was informed Wednesday. The first vote on this bond issue failed to carry by the necessary two-thirds majority in an election some two months ago.

The petitions will ask for a bond issue in the amount of approximately \$300,000, with the provisions for paying of right-of-way on a farm-to-market road in the east part of the county dropped from the issue. The previous election was on bonds in the amount of \$25,000 and provided for farm-to-market right-of-way funds for a road east of Cedar Hill. It lacked some 180 votes carrying.

The new election will not be held until some time in January, probably and possibly later than that, it was said. Highway 70 Association in Floydada is sponsoring the movement to vote again on the matter.

Highway Route Same

The location of the proposed new road through Lockney, a point of controversy in the first issue, will not be changed from the first planning on it. The Beacon was informed. The State Highway department's engineers planned a route about one block south of the present location of the highway where it intersects the Sandhill farm-to-market road. When the first bond issue proposal was turned down there was some talk of the new road being changed back to follow the route of the present road through Lockney. However Highway Department spokesman said the matter would be left to the Lockney City Council. In its meeting Monday night the Council approved the proposed new route and apparently that will be the plan when the bond issue is voted on again.

Attend Workshop On School Accreditation

Several representatives of the Lockney school system attended a meeting at Lamesa Wednesday in the form of a workshop on standards 7 and 9 of the new plan of accreditation for Texas public schools.

From Lockney those attending were Supt. W. C. Irons, Junior High School Principal L. D. Hawkins, Elementary Principal Alma Dutton, Mrs. Nora Ayres, Miss Johnnie Barnhart.

Mr. Kelley was born December 10, 1885 at Cedar Bayou, Texas. He moved to this county in 1925 settling near Lakeview. He was married to Miss Dollie Frances Jones on December 27, 1919.

In 1936 the family moved to this area, living near Aiken for several years and later moving in to Lockney to make their home. He was a farmer most of his life but he and Mrs. Kelley operated a cafe here in recent years.

Mr. Kelley was converted at an early age and joined a Baptist Church. He was a member of the First Baptist Church of Lockney at the time of his death.

Survivors include his wife, three sons, Curtis of Alpine, Virgil of Denver City and Ewell Dee of Lockney; two brothers, W. T. Kelley of Bryan and S. F. Kelley of New York City; two sisters, Mrs. Seth Keith of Bryan and Mrs. R. T. Price of Beeville, Texas. Three grandchildren also survive, as do several nephews and nieces.

Mrs. J. W. Teaver Is Buried Friday

Mrs. J. W. Teaver passed away at the family home here Wednesday of last week just about noon. Funeral services were held at the First Baptist Church on Friday at 10 a. m., conducted by Rev. R. E. Wiley, local pastor. Burial was in the Lockney cemetery under the direction of Carter Funeral Home.

Mrs. Teaver was 84 years of age. She had been ill only a few days suffering a stroke some 10 days previous to her death.

She was the widow of the late J. W. Teaver, who passed away in 1937. She was born January 5, 1870 in Arkansas and was married to J. W. Teaver in 1885. She and her family moved to Lockney from Hope, N. M., in 1910. Her maiden name was Bessie McClendon.

She was a member of the First Baptist Church here and her husband was an active deacon in that church until his death.

New FCIC Agent For County Named

The Federal Crop Insurance Corporation announces the appointment of J. B. Darden as its agent for Floyd County, replacing Edmond A. Williams who has resigned to accept another position. Mr. Darden is a business man of Floydada.

Mr. Darden has begun his duties as FCIC agent which includes selling crop insurance, accepting and processing acreages reports and premium payments and other servicing. His office will be located in the Darden's Welding Shop, 608 E. Houston, Floydada. The shop is on the north side of the Matador highway leading out of Floydada. Mr. Darden will take care of all crop insurance matters formerly handled by Mr. Williams.

Floyd County will gin more than 100,000 bales of cotton from the 1954 crop, according to a survey made Wednesday. Chamber of Commerce Secretary Bill McClaskey made the survey for the north part of the county, his figures showing that the 10 gins in this area have ginned 53,350 bales while nine gins in the south part of the county have ginned 44,600, for a county total of 97,950 bales.

Ginners say that they are around 90% through with the present harvest and if that estimate is true the county will gin close to 110,000 bales of cotton, an all-time record in spite of acreage allotments this year.

County acreage allotments this year were supposed to cut the county yield over previous years when farmers planted all the cotton they wanted to plant, but higher yields per acre accounted for the increase in ginnings.

The total ginnings as of Wednesday approximates the total ginnings from the 1953 crop in this county. On the same date last year around 70% of the crop had been gathered and the north end of the county had ginned 38,250 bales. On that date the four gins in Lockney had ginned 16,250 bales compared with their ginnings as of Wednesday of this week of some 23,000 bales.

In this area most farmers lack only stripping their fields to complete their cotton harvest. Gins are still fairly busy, however, and expect to remain so for several days yet.

R. L. Knox Is Named Fire Chief

R. L. Knox Jr. was elected chief of the Lockney Volunteer Fire Department in an election held Tuesday evening at the fire hall. He succeeds Lowell Ribbey who has served in that capacity for several years.

Other officers elected were Curtis Williams and Truett Ribbey, assistant chiefs; Lloyd Paul Beecher, secretary-treasurer; Lowell Ribbey, drill captain; Charles Hamill, sergeant-at-arms.

Recent donations in the Fire Department included \$150 from Lockney's G.I.s, \$100 from Whittierburg Gin and \$50 from South Plains Gin at Sterley. These were made in appreciation for runs made in these various gins during the fall ginning season. This money is used to buy additional equipment for the department.

The Fire Department is accepting donations of clothing, furniture or anything else usable by the family of Printis Bagby, whose home was destroyed by fire last week. Any usable items may be left at the fire station and it will be turned over to the Bagby family.

Library Branch To Get Larger Room

The Floyd County Library board and the City of Lockney are co-operating in providing the Lockney branch of the library with more room at the city hall, according to an agreement made this week between the two bodies.

A room 12 by 16 feet just back of the city hall office in the same building will be remodeled and provide a storage and reading room for the library and the book shelves and equipment will be moved into that room. An entrance from the office into the library room will be provided as will an outside entrance into the library from the north.

Cost of the remodeling is expected to run around \$650 with the city and the library board halving the cost. Brunner Lumber Company here has a contract on the job. Work is expected to begin this week.

Among the many college sets home for the holidays are Betty Vernon, Fort Worth; V. Ubeth Handley, Abilene; Vernon and family, Lubbock. Many others are named in class reunion report.

WHAT IS DOGMATISM?

"Positive or arrogant assertions, as of belief, without proof is the definition of dogmatism found in Funk and Wagnall's Dictionary. It is sometimes considered a mark of dogmatism when one does not accept the teaching of others. We think, however, that this is rather arbitrary construction to put on dogmatism.

Is it ever a mark of dogmatism when one merely questions the statements, reasoning, or proof of another? Is a person to be called a dogmatist because he does not go along with the general thinking and practice of his day—socially, politically, or religiously? If a man takes a position either in argument or practice and, irrespective of challenges made or questions asked, persists in the argument or practice without submitting proof, is he not a dogmatist? Even if he submits proof and that proof is examined fairly is he not still a dogmatist if he fails or refuses to show the fallacy in the examination offered?

Is he a dogmatist who asserts the lawfulness of mechanical instruments of music in worship and insists on using them without presenting the Scriptures that support his assertions? Or is he a dogmatist who calls for the proof?

Is he a dogmatist who asserts that it makes no difference what one believes just so he is sincere yet offers no proof for his assertion? Or is he a dogmatist who calls for the proof?

Is it dogmatism to assert that one church is as good as another? Or is it dogmatism to ask for the proof?

Is it dogmatic to contend that human institutions may do the work of the church? Or is it dogmatic to ask for the proof?

Is he a dogmatist who persists in a practice for which he can give no authority? Or is he a dogmatist who asks for authority?—Selected.

The other proposed locations are on California Street, one in the 100 block, the other in the 200 block. Me, afraid
of the dark?

My name is Mary . . . and I want you to know I'm not afraid to go to bed by myself.

I have a bright candle to light my way. I have Mommy and Daddy to care for me.

But do you really want to know why I'm not afraid?

In Sunday School, I learned about Jesus. I know he loves me and watches over me.

At night when I blow out the candle, and Mommy and Daddy are away, I am not alone. Jesus is with me. I remember how he said long ago to his disciples: "Let the little children come unto me . . . for to such belongs the Kingdom of Heaven."

I wonder if your children know about Jesus? Won't you take them to Sunday School next Sunday?

HOLY BIBLE

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a treasurehouse of spiritual values. Without a church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake; (2) For his children's sake; (3) For the sake of his community and nation; (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Topic for the program was "International Relations." Each member was dressed to represent a country in the United Nations and gave an interesting talk on their country. Most impressively dressed were Mrs. Dimple McJavock and Mrs. Dorothy Shipp who were dressed in native Japanese costume loaned them by Mrs. Raymond Spence who has spent five years in the country as a missionary and is home on a sabbatical in Lockney.

Hostesses were Misses Imogene Myers, Jo Ann Moody and Albertine Irons.

Anita Durham Has Slumber Party

Anita Durham entertained several girl friends with a slumber party at her home Friday night, Nov. 26.

Games were played and refreshments were served to Hope Kay Golden, Gayle Rucker, Nan Wofford, Charlyne Brown, and Andrea Lawson, Betty Graham and the hostess.

Mr. and Mrs. Ross Cooper and family spent the holidays in El Paso, New Mexico visiting his parents, Mr. and Mrs. J. E. Cooper.

Yvonne Ragle Weds Lindell H. Sinclair

Wedding vows were exchanged by Miss Frances Yvonne Ragle and Lindell Haskell Sinclair, November 26 in the First Baptist Church, Plainview. Lanny Henninger, ministerial student at Abilene Christian College, also football teammate of the groom, read the double ring ceremony at 6 p. m. by candlelight.

The bride is the daughter of Mr. and Mrs. George Raymond Ragle of Plainview and Mr. Sinclair is the son of Mrs. F. H. Sinclair of Sherman.

The bride, given in marriage by her father, was attired in a white ballerina length dress which stood out overlapping tiers of nylon net and taffeta bodice of embroidered nylon tulle which gave a pencil-like effect with its pointed waistline dipping down into the skirt. There were folds of lace on the strapless chantilly bodice. A jacket of chantilly lace hung in a cape effect in the back, and the collar stood high. The bride wore mits of lace which gathered above the elbow and came to a point at her fingers. Her fingertip veil was attached to a Juliet cap, trimmed in seed pearls and rhinestones.

She carried a colonial bouquet of sweet pink delight roses and bouvardia showered with white lace and satin. She also carried out the old custom of something old, something new, something borrowed, something blue and a penny in her shoe.

Miss Paula Foutz, matron of honor, of Arlington, is an ACC student and was the bride's roommate while in college. She wore a light blue velveteen off-shoulder dress and a very full skirt which stood out. She wore a blue hat of velveteen to match her dress. She carried a bouquet of white carnations showered with white satin.

Art Workshop At Floydada Mon.

The Floyd County Library Board, the County Home Demonstration Club Council, The Federated Club Council and the Floydada Chamber of Commerce combine their efforts on Monday of next week to bring to Floydada a Christmas Art Workshop.

Set for seven-thirty p. m. in the district court room, the workshop will be under the direction of Arne W. Randall, head of the department of Applied Arts of Texas Technological College.

"It is a pleasure to make Mr. Randall and his art workshop available to Floyd County people," said Mrs. J. H. Barnard, president of the Floyd County Library Board. "He conducts a most interesting workshop which includes valuable information for the businessman as well as the home maker."

Emphasizing that art is for everyone, Randall uses the common items from the home, garden or field and turns them into art objects which may be used to decorate the home or business.

The workshop is open to anyone who would like to attend. Home Demonstration Club and Federated Club officials pointed out.

Businessmen and store personnel are urged to attend the workshop as Randall's demonstration and suggestions can also be applied to store window decorations and merchandising. Mrs. Barnard said.

As the hart panteth after the water brook, so panteth my soul after Thee, O God.—Psalm 42:1

THE USE OF RADAR to help control speed on Texas Highways brings to the forefront one angle that is commonly talked on the streets but nothing is heard of in official circles. That is the proposal to up the speed limit on open highways to 70 miles per hour. The thought expressed by most who favor the idea is that modern cars and modern highways are safer at 70 miles per hour now than the like situation was 15 years ago at 60 miles per hour. Especially it seems in the open spaces of West Texas is a 70 mile per hour speed limit reasonable. A 60 mile an hour speed limit no more fits all highways than one garment would fit all people. In some places it is too fast even in rural areas. In others a 70 mile per hour speed would be just about as safe.

BECAUSE THE SPEED LIMIT has been set at 60 miles per hour for many, many years is no indication that it shouldn't be restudied and perhaps some adjustments made. We suppose that it is just as easy to get into a rut on speed laws as it is on anything else.

THERE IS A LAW in the statute books of Texas that needs more enforcing to our way of thinking, and that is the law requiring a driver or automobile owner to be personally liable should he be involved in an accident in which he is to blame. The law says that if a driver is at fault he must surrender his drivers license and his auto license plates unless he can show that he is insured or has property or money sufficient to pay for the damages. But still many innocent people are involved in wrecks and suffer losses with the person to blame going

his own way without paying for damages or suffering any other form of punishment. Especially is this true with transient drivers, many of whom have no drivers license in the first place. Perhaps the law enforcing agencies are too busy to check all these. We don't know the reason, but we believe it needs more attention.

THE COTTON HANDS CAME EARLY and they will leave early this year. Present indications are that the cotton harvest will be pretty well over with by December 1. This is earlier than usual and is probably due to the very pretty weather this fall. We've never seen a fall that was so perfect for harvest operations. Local stores have had a good fall business and now they will have opportunity to get ready for a good Christmas business.

THE DEPARTMENT OF AGRICULTURE has announced a 15% cut in cotton acreage next year due to the continued surplus of cotton. They say that the yield this year was much higher than previously expected but what those Washington experts didn't take into consideration was these Floyd County boys who decided to make two bales to the acre. The per acre yield in Floyd County this year probably was as good or better than any previous crop in its history. Maybe they better allot this cotton control business on a bale basis instead of an acre basis.

SERIOUSLY SPEAKING, the average out probably will not be as severe as it first seems, one reason being that the Democrats now have control of Congress. They have been criticizing the Republicans quite severely for all the farmers' troubles and probably will be forced to pass some sort of relief on acreage allotments or suffer some political consequences.

LOCKNEY PEOPLE TAKE NOTICE

ANOTHER FAKE ORPHANAGE. Over at Dumas last week, the sheriff threw three colored men in jail after their well paying racket of soliciting funds for a "colored orphanage" went stale. Charges of swindling were filed against the three, who had made Sunray and Dumas as part of their territory for several years. They said they were soliciting funds for the colored orphanage in Paris, Texas and had secured the necessary soliciting permits in Sunray. Finally a man in Sunray took the trouble to investigate. He

found that there was no such colored orphanage in Paris, and there never has been. When questioned, the three colored solicitors readily admitted this.

What is remarkable about the story is that the same three men made this part of the Panhandle year after year, taking a dollar or so from each businesshouse in town, then moving on with their loot.

No one became suspicious until finally their luck ran out at Sunray.

Ferryton stopped the same sort of soliciting deal several years ago when the Chamber of Commerce investigated a colored man who had been soliciting funds for an orphanage in Oklahoma for several years. A telephone call revealed that the man once worked there, but hadn't been heard of for six years. But he was doing quite

well on his own, running his own private "charity" racket.

Moral of the story is, Be a little bit suspicious when a stranger asks for money. When in doubt, check with the Chamber of Commerce. They have the time and facilities to do your investigating for you. — Harold Hudson in Ochiltree County Herald.

A GOOD IDEA, BUT WE'LL BELIEVE IT WHEN WE SEE IT.

The general election, which produced a number of rather surprising upsets in both Republican and Democratic camps across the country, resulted in no surprise in at least one phase.

That was the mud-slinging bare-knisted, bell-for-leather campaigning into which both parties gleefully plunged. And for shame! Do you not remember, Mr. Hall and Mr. Mitchell, the "code of fair campaign practices" so passionately sworn to by each of you on September 14?

There was to have been (said the code) no personal vilification, no character defamation, no scurrilous attacks, no malicious or unfounded accusations, no distorting or misrepresenting the facts about any candidate.

National Republican chairman Hall said, "It is an admirable pledge. It should be seriously and earnestly supported." Demo leader Stephen Mitchell added, "I am proud to conform to it."

Ha! Politics is still politics in America. — State Line Tribune, Farwell.

NEARLY OWN IT

A telephone employee wonders where Southwestern Bell fits in the picture here in the 100 block of North Armstrong where it has its dial exchange and business office.

He was referring to the news paper-radio station controversy as to what this block should be called, Herald Square or Radio City.

The fact is, both the Herald and KTUE feel that they are buying the telephone company in monthly installments. From the looks of our monthly statements for line charges, we should have the Tulla exchange paid for in a relatively short time.

All we lack is the deed to the property. — Town Topics in Tulla Herald.

Long Ago In Lockney

Items of interest from the files of The Lockney Beacon.

December 1, 1916

L. H. Cooper, an aged and highly respected citizen of Lockney died at the home of his daughter, Mrs. N. G. Waller Nov. 28 after an illness of about six weeks. Funeral services were held in Lockney Christian College chapel Wednesday afternoon.

Recently we have heard suggestions that both Lockney and Floydada join in efforts to accomplish such projects as the Ozark Trail for the county. It may not be too late to do even this. We need a good highway along the Santa Fe from Floydada to Plainview, from Motley county line to Floydada to join the highway to Plainview and a Fair Association formed of Lockney and Floydada business men and then buy a tract of land midway between for permanent play grounds, permanent buildings etc. Our two towns have lacked proper co-operation the past 10 years and have thus hindered the county's growth.

December 4, 1924

Some \$200 has been donated by Lockney business men to work the Flomot road so that cotton can be hauled up the cap to the gins here. Also at the Chamber of Commerce meeting Will Simpson of the Texas Farm Bureau who lives between Lockney and Petersburg attended and made a talk to the effect that he was clearing ground on his farm to build a switch yard and depot and preparing to open up a townsite there and wanted Lockney to help get the Memphis, Lubbock, Roswell railroad build through this way.

The recent sale of all the cattle from the celebrated W. A. Merrell and Al Barton ranches, marks the passing of two cattle outfits that for half a century have been institutions in this part of West Texas. But the sale is only another stride in the de-

velopment of this country from cattle range to an agricultural empire. This sale releases 20,000 acres for farming.

December 4, 1942

Everyone is urged to buy either war bonds or stamps on December 7, the anniversary of Japan's attack on Pearl Harbor.

Farmers To Vote On Controls Of Cotton Dec. 14

By John C. White
Commissioner of Agriculture

Cotton farmers will decide Dec. 14 whether they want to accept the acreage controls proposed for the 1955 crop.

In previous years, when farmers were asked to choose between lowered parity and unrestricted production or a high parity level and crop quotas, they have voted to accept the controls. They seem to feel that less cotton and a reasonable assurance of a fair price is the better deal. If they follow the same pattern this December, then next year's crop quota is scheduled for a drastic reduction.

The Secretary of Agriculture has ruled that the cotton acreage will be cut back 15 percent in 1955. This means only 18,113,298 acres can be planted as compared with the 21.4 million acres allowed this past season. The new quota is the very bottom figure allowed by farm law.

A minimum quota next year may work a great hardship in areas where cotton is the main cash crop. In some sections of Texas, cotton is the primary agricultural commodity. No other crop offers comparable income. As a result, the gross profits from cotton can drop 15 percent in those areas.

Some government planners will work hard to make the 15 percent reductions "stick" in cotton planting despite any opposition which may arise to the program. Economists claim that the 1954 crop was far larger than expected when the first production estimate was released in late summer. Any more cotton will be a drag on the market, they claim.

It is true that original 1954 estimates were very low. Subsequent increase in estimates proved this — and incidentally made it extremely difficult to plan any sort of orderly marketing system. Critics point out, and with some justification, that if estimates are to be made at all, they should be reasonably accurate if the industry is to benefit from them.

At this point, acreage controls appear to be the most logical choice in the December election. With the recent shift in power in Washington, then it is fairly certain that cotton acreages will be somewhat increased. Many areas of Texas will welcome such an increase.

Library Notes

By Ivy Pearl Reese

Monday, December 6. Circle the date on your calendar. And write in the time 7:30 p. m. Then you will be sure to remember to come to the courthouse to hear Dr. R. W. Randall speak, and demonstrate some practical ideas for decorating your home or business. When I say practical, that is exactly what I mean. He proves that one does not have to spend a lot of money to attain a pretty, artistic effect. He uses whatever material may be on hand, such as corrugated paper or copper wire. Do come! I personally guarantee that it will be well worth your time.

New books in the library this week include: Marguerite de Angeli's "Book of Nursery and Mother Goose Rhymes"; the Rainbow book of Bible stories; "Lift up your Heart" by Bishop Fulton J. Sheen; "Peace with God" by Billy Graham; "Songbirds in your Garden"; "The Buffalo Hunters"; "Arithmetic for the Practical Man," one of a series of mathematics for self-study; "The Epics of Everest"; "Government and Science"; "The White and the Gold," by Thomas Costain, a story of the French regime in Canada; A treasury of early American homes; An introduction to wild flowers; "Song of Ruth" by Frank Slaughter; "The Beckoning Hill"; two new Walter Farley books, "Island Stallion" and "The Black Stallion's Sulky Colt"; and "Three Stuffed Owls," a mystery for the younger readers.

Perhaps many of our library borrowers are not acquainted with our file of magazines. We have a back file of several mag-

azines, including Saturday Evening Post and Life, National Geographic, and less complete files of many others. Among the new magazines to which the library now subscribes are Nature Magazine and the United Nations Review. We also receive Charm, U. S. News, Saturday Review, the Rotarian, Popular Mechanics, Parent's Magazine, Harpers, etc. These are very helpful to club programs, school students, and people who just want to read them.

Story Hour was "scarce" and brief Saturday morning. Most of the children were too excited about the Santa parade to attend. Those who were here greatly enjoyed stories and games directed by Alma Holmes. They were dismissed early in order to see the parade, and they all rushed out so fast that they forgot all about their usual treat of suckers.

Mrs. Floyd Huff returned home Tuesday after spending ten days visiting her son, Mr. and Mrs. Olin Huff and family in Ft. Worth and daughter, Mrs. Douglas Dege, Mr. Dege and children in Houston. She was in Ft. Worth until Thanksgiving Day when she and her son and family went to Houston to spend the holiday with the Degees. Mrs. Huff remained in Houston until she returned home. While visiting in Houston she made a trip to Galveston.

State Farm Bureau Wants Program To Stop Surpluses

A national farm program designed to eliminate surpluses and discriminatory acreage controls will be recommended to the American Farm Bureau Federation, according to Chester Cartmel of Lockney, president of the Floyd County Farm Bureau.

The plan was approved at the Texas Farm Bureau's convention Nov. 10 in Galveston. Cartmel said it will be up for consideration by the AFBF at its national convention Dec. 12-16 in New York City.

Under the Texas plan, acreage control would be set up on the basis of a farm's total tillable acreage. The present law places control on the individual commodities. According to the plan, the percentage of acres to be retired from production would be determined by the over-all over-production of all agricultural commodities in this country.

The percentage of acres responsible for surpluses would be taken out of commercial production. According to President Cartmel this has been found to average from 5 to 15 per cent of the nation's total cultivated acreage. If the percentage amounted to 10 per cent, then each farmer would be required to divert 10 per cent of his tillable acreage from production, he explained.

A farmer would have to comply with this provision in order to be eligible for price supports. Good soil conservation practices would also be required for the idle acres. This would be encouraged by soil conservation payments.

Under the plan, a system of price supports would be instituted to encourage the shifting of production from crops in surplus supply to crops in short supply, Cartmel said.

The Texas Farm Bureau believes that its plan, if administered fairly, would enable farmers to earn full parity for their crops with a maximum of freedom in their operations. Since the government would be concerned with polluting only a small percentage of acres on each farm, the cost to the tax payers would be much less than for the present farm program.

Do you judge a person at first sight? This is one thing I believe all of us are guilty of.

But can we really judge a person at first sight? The answer to this question of course is no. We know nothing about that person, what his likes and dislikes are, who he associates with or anything else.

What are the first things we notice about a person? His eyes, his hair, the way he is dressed. These characteristics can not tell what kind of person he is. These are only outside features. Look for things such as attitude, character, and high ideals.

Do not judge a person at first sight. Know him first.

Four basic types of students: He who knows not and knows not he knows not. He who knows not and knows he knows not. He who knows and knows not he knows. He who knows and knows he knows.

START MARRIED LIFE RIGHT
With A

GOOD CREDIT RECORD

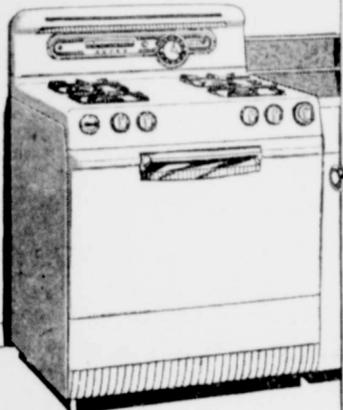

Young couples starting married life find it pays to establish their credit and to maintain a good credit record. By paying promptly and maintaining good credit records, they are establishing a sound foundation for financial security and social standing. Credit enables them to acquire attractive home furnishings and equipment as they go along, to enjoy more of the good things of life than they would if they had to wait until they saved the cash.

Those who grant credit, like to see people use it, but not abuse it. The sound use of credit stimulates business, creates employment, contributes to lower commodity prices, and brings more of the good things of life within the reach of more people.

Your Credit is a Sacred Trust—Guard It Closely.

Lamb County Boy Makes 204 Bushel Of Corn Per Acre

College Station. — Davey Turner, Lamb county 4-H boy, not only won top honors in the 1954 Texas Hybrid Corn Production program but set a new all-time yield record in doing it. His Texas Hybrid 30, under irrigation, made a whopping 204.3 bushels an acre. This compares with a state average of 16 bushels an acre.

Doyle irrigated his crop four times. He followed the recommendations from the A. & M. Soils Testing Laboratory by using 200 pounds of 16-20-0 fertilizer at planting time. A side-dressing of nitrogen was also recommended but by date Doyle planned to make the application, the corn was too tall. Three tons of composted cotton burs were plowed under 12 inches deep in January and he spaced the plants 13 inches apart in the row.

He will receive two \$50 awards — one for first place in his area and another for "Champion Corn Grower of the State" and a plaque for top yield under irrigation.

J. H. Moore Jr., of Bowie county produced 123.8 bushels an acre to top the field in the non-irrigated class. He too used Texas Hybrid 30. No fertilizer was used because soil tests showed none was needed. A crop of vetch and oats was turned under in March prior to planting. He used a 12 inch row spacing. He will receive a \$50 area award and a plaque as the state's top dryland corn grower.

ARE IMPROVING

Hugh Counts, who suffered a heart attack recently was able to return home Saturday from Medical & Surgical Hospital. He is getting along nicely, according to information received from Mrs. Counts late Wednesday.

CHECK KITCHEN

In older homes, modernization plans should first center on the kitchen. It is the most-used room in the house and actually the showcase of the home. Check for efficient appliances like gas range and refrigerator. Are walls, floor and countertops clay tiled for durability and ease of cleaning? Add bright colors — and they'll go a long way in giving the kitchen that clean, modern look.

MODELS GIVE HAIR ATTENTION

Those beauty-conscious models, who must always be ready to be photographed, actually take as much care with their hair brushes as they do with their hair. One successful blonde model washes her hair brush in hot soapsuds every day of her life, and wipes it off with a clean towel after every single brushing. She says it makes sense to brush the dust out of her hair, not in.
