Sewer Extension Is Studied By City Council

The Lockney City Council is investigating the matter of extending sewer lines in an area west of the Lockney High School building. Mayor J. E. Cox said this week.

A. C. Bowden of the firm of Roberts, Merriman & Bowden, consulting engineers of Lubbock, is making a survey of the area and will furnish the Council with an estimate of cost. The extension will include as much as 10 to 12 blocks, Mayor Cox said.

It will be necessary to install a sewer lift in the area, the mayor said. The area directly west of the high school building does not at present have any sewer service and residents of that area must provide their own disposal units.

It will not be necessary to vote bonds, should the Council decide to extend the lines, Cox said. The City some years ago voted \$130,000 in bonds and sold only about half that amount. The remainder is still available to be sold when needed.

Local Teams In Last Week Play

The Lockney High basketball teams are entering their last week of play in the District 2-AA 1935 season. They will play the Olton teams here Friday evening of this week, will play Floydada here next Tuesday evening and the girls will play the Littlefield girls here on Thursday evening of next week to close out the official season.

The Quitaque teams come here for non-district games on Friday evening, Feb. 18.

Both Teams Lose Both boys and girls teams lost all their games the past week. The losses dropped the Longhornettes out of any chance for the District 2-AA crown, giving them three losses in all. The boys had already been eliminated, they having won only one game in district play this year.

On last Friday evening the local teams traveled to Tullia. In the girls game the Longhornettes lost one they were supposed to win by the fatful two points. The score was 49 to 51. Nell Cunyus made 24 points for the locals and Jan Mathis made 13.

In the boys game the Longhorns lost 63 to 40. Buck Ford made 11 points, Gene Handley made 10 and Marion Cross made 10.

On Tuesday evening the local teams went to Muleshoe where they also lost two. The Longhornettes were in the lead until late in the game but the Muleshoe girls forged ahead to win by two points, 56 to 54. Two points has been the margin of victory in every game the Longhornettes have lost this season. In this game Nell Cunyus made 34 points while Jan Mathis made 13. Montgomery made 34 points for Muleshoe.

In the boys game, the score was 63 to 42 in favor of Muleshoe. Marion Cross made 11 and Buck Ford made 10. Shaw of Muleshoe made 32.

Flu, Measles, Mumps, Chicken Pox All Here

The influenza, three-day measles, mumps and chicken pox are all rampant in this community, especially among the younger generation. School attendance is down and doctors have been busy taking care of the ill.

The 3-day or German measles are striking high school students particularly, the only comforting thing about them being that they don't last long in comparison with regular or red measles. Chicken pox is hitting the very young, first graders and such, as are the mumps.

Physicians here said that a person could have three different kind of measles but that he would be immune to that particular kind of measles after having them one time.

Santa Fe's New Streamliner Is Coming Soon

The Santa Fe railroad's new streamlined diesel-powered passenger train, which will provide the South Plains with passenger service between Lubbock and Amarillo starting February 20, will come to Lockney on Saturday, February 19, and be on display for public inspection from 10:00 to 10:30 a. m., company officials have announced.

The new modern train will be moved over the Santa Fe lines on the South Plains and shown to the people of the area all next week.

The train, when it starts the schedule from Lubbock to Amarillo, will afford residents of this area overnight pullman service to Chicago and return. Also the same service is available to the West Coast.

The placing of the new train on the Lubbock-Amarillo line came about because of the Santa Fe's plan to remove their passenger train from the run completely. Lubbock people objected to the stopping of the Amarillo run and urged a better train and better service on the line. Santa Fe officials agreed to put a new modern train on the line for a year's trial to see if passenger business would improve.

The train will be open for public inspection for 30 minutes in Lockney and Santa Fe officials are urging and inviting all the people to come by and see it. They especially are anxious for school children to inspect the train. Souvenirs will be distributed and entertainment provided at each stop.

It will go from here to Floydada where it will spend two hours and those aboard the train will eat lunch. It will then return to Plainview and on to Lubbock.

SOIL FERTILITY PROGRAM INCLUDES OUTSTANDING MEN

CLINTON HARBERS, Fayette County Conservation Farmer, will speak at the Soil Fertility meeting here Feb. 24.

DR. WILLIAM O. TROGDON, agronomist of Houston will be one of the speakers at the Soil Fertility meeting here Feb. 24.

The Seventh Annual Soil Fertility meeting to be held at the Plains Theatre here on Thursday, February 24th, will hear at least four outstanding men in soil building practices, according to County Agent Bill Rodgers, who is in charge of planning the program. They are William O. Trogdon, agronomist, Olin Mathieson Chemical Company, Houston; Clinton Harbers, Fayette County Conservation Farmer; Mr. Tyrus Timm, extension economist and head of the Department Agricultural Economics and Sociology, Texas A. & M. College System; and Charles E. Fisher, superintendent of the Spur sub-station of the Texas Agricultural Experiment Station.

The meeting is scheduled to begin at 10 a. m. Talks that will be especially beneficial for this area will be heard by the more than 300 farmers and business men expected to attend the annual meeting, Mr. Rodgers said.

The Lockney Chamber of Commerce and Board of Development will be hosts at a free barbecue at noon. The program will include an afternoon session adjourning at 3 p. m. Both morning and evening sessions will include a question and answer period.

Dr. Trogdon's talk will deal with fertilizers and soil fertility. He is one of the best known agronomists in the southland. He is a native of Southwestern Oklahoma, has a B. S. degree from Oklahoma A. & M. and a Ph. D. degree in soil fertility and management from Ohio State University. He has held numerous positions with experiment stations and soil organizations and is the author of a number of publications on soil fertility, fertilizers and quality of water.

Mr. Harbers is just a dirt farmer from Fayette County. He was a 4-H member at the age of nine and an FFA member in LaGrange high school. After several years in the Army he returned to the farm where he was born as a renter—renting from his father. With the help of FFA he bought the farm the next year.

Mr. Harbers studied farming methods and took advantage of all help he could get. His yields zoomed upward. From 125 pounds of lint cotton an acre in 1945-1946 he increased yields to a bale and a half per acre in 1953 with similar increases in corn and grain sorghums. Organic matter and soil fertility play important roles in his farming system. Organic content of the Harber's soil has jumped from 8.10% to 3 3/4%. It is alive and capable of holding a great deal of moisture.

Legumes, largely vetch, have put the organic matter in the soil. They along with fertilizer, insect control, good cultural practices and a lot of advanced planning have been combined into an operation that is expertly managed by the Harbers.

In 1953 he was selected Texas' foremost comeback farmer, the next was awarded the \$5,000 Hoblitzelle Award for advancement in Texas Rural Life.

It's not all crops on the Harber farm. He has figured out a well-rounded system that includes livestock and poultry. Pastures are utilized the year-around for top quality cattle and his laying flock of 1,000 hens in 1953 averaged 269 eggs per bird.

Contracts and easements will be signed, a constitution and by-laws will be adopted and other business matters attended to. The Association is made up of farmers in Northern Floyd County who have banded together to secure natural gas for fuel for irrigation pump motors.

For Thou, Lord, art good, and ready to forgive, and abundant in loving kindness. — Psalms 86:5.

THIS IS BOY SCOUT WEEK.

To those who don't have a boy in Scout age and have never been associated with Scout Work, it probably means little. But to the boy in Scouting, to his parents and to those interested in Scouting it means a great deal. The Scouting movement has kept more boys out of the penitentiary than any other movement for boys on earth. Outside of church work it has also installed in the minds and hearts of hundreds of thousands of boys some of the higher ideals of this nation, taught them to be self-reliant and furnished them with an opportunity to work off surplus energy in a constructive way.

SCOUTING IN LOCKNEY deserves more support than it is getting. We don't mean financial support because Scouting was in the Floyd County United Chest and is taken care of financially.

What Scouting needs is more men who are interested enough in boys to give them some of their time. Most of us have been neglecting Scouting. It shouldn't be so but it is. Now would be a good time to take another start and try to do better with our boys.

THERE ARE THREE phases of Scouting. The first is Cub Scouting, ages 8, 9 and 10. These number 1,160,000 in the nation. F. O. Schacht is the local Cubmaster and there are four dens. Den mothers are Mrs. Layon Johnson, Mrs. Joe Smith, Mrs. J. C. Kemp and Mrs. Arthur Barker Jr. The Cubs are sponsored by the Lockney Lions Club. The next phase is Boy Scouting, ages 11, 12, 13. There are 1,130,000 in the nation. O. E. Durham is local Scoutmaster. This troop is sponsored by the Lockney Rotary Club. The next phase is Explorer Scouts, ages 14 years and up which now number 410,000. Udell Cunningham is the explorer advisor here.

THE SCOUT OATH is a very important part of Scouting. When a boy lives up to that oath he has gone a long way toward becoming a good citizen. The Scout oath is as follows:

On my honor I will do my best: 1. To do my duty to God and my country, and to obey the Scout Law; 2. To help other people at all times; 3. To keep myself physically strong, mentally awake, and morally straight.

There are 12 Scout laws. They are: A Scout is trustworthy, loyal, helpful, friendly, courteous, kind, obedient, cheerful, thrifty, brave, clean and reverent.

JUMPING FROM ONE extreme to another, we are tempted to come out in favor of lynching law and mob violence when we read stories such as the recent one concerning the woman beating the 5-year-old boy until he died. The utter brutality of the deed is beyond comprehension of any normal person. Such deeds can only be done by persons whose character is so low that they border upon the level of a beast. The sad part, other than the suffering and death of the little boy, is that no law can be passed to prevent such cruelty. Laws can only punish those responsible for the deed after it is done.

One Answer To The Problem

With Our EXCHANGES

SHADES OF THE 1930's! LOOK AT IKE'S 1955 PROGRAM. It would be hard to make some people believe it, but, as the days, weeks and months go by, ideas advanced by the administration of this country are looking more and more like warmed-over philosophies born in the days of the New Deal.

If this is any surprise, we refer you to President Eisenhower's announced program for 1955. Ike seems to have learned a few lessons in politics within the past two years, and his new program has something in it for every major voting faction. It's sheer politics, but if it's what the people want, then we can't blame the legislature for going along.

More billions are planned for European aid, the government will back more resource development projects, industrial projects, and even help favored localities build schools if Ike gets his way.

On my honor, I will do my best: To do my duty to God and my country, and to obey the Scout Law; To help other people at all times; To keep myself physically strong, mentally awake, and morally straight. — A SCOUT'S OATH

tant than his ability as a salesman. The average man in the Pan-handle probably takes in from \$120,000 to \$150,000 during his working years, although some may acquire much more. What the average man does with his money means, in the long run, much more to him than the hours spent in acquiring it.

Some people who make \$50 a week build their own home, rear well trained families and find time to contribute to general improvement of their community and to the welfare of their country. Still others, who make \$100 a week, are unhappy, homeless and have broken families. The situation, too, can be just as easily reversed. In either case, however, we would say that the happy man is the one who spends his money wisely.

In areas where social barriers are stressed more diligently than Texas, it is not unusual at all to find members of an almost penniless family "accepted," while the rich man may never penetrate the barrier. Again, you have an example of the importance of the purchasing power of the individual in a complex maze of human society.

Most people today are so busy making money that they completely forget the importance of spending it well and wisely. Most of us direct our spending through immediate selfish desires and needs, seldom placing the yardstick of time and ultimate happiness on our purchases. Often our desires become so intense that we might even be likened to the drunkard who spends his entire check on whiskey, only to awaken the next morning filled with remorse because his family may go hungry during the next week.

It is a wise man indeed, who can spend his money — and his life — in such a fashion that he discovers contentment and happiness. Some people can buy these things on an income of \$1,000 a year, others buy the same thing for \$1 million dollars a year. Thousands of people could not buy the important commodities, regardless of their income, whether it be high or low.

We agree, "Salesmanship of Ourselves" is important. In the long run, though it does not begin to compare in importance with the manner in which we invest and spend our dollars and ourselves as we go through life. People who build their earning ability around the Golden Rule seem to find the same rate applicable in their spending — purchaser is even more important.

Income Tax

The Three Types Of Returns

In an effort to fit the tax returns to the needs of the more than 50,000,000 persons who must file them, three types of returns have been provided: Form 1040A, Short-Form 1040, and Long-Form 1040.

The law expects you to pay your correct tax—no more, no less. It will pay you to think for a moment which is the best form in your case. To do this, you should consider the size of your income, the source of your income, and the amount of your non-business deductions such as medical expense, contributions, interest, taxes, and child care expenses. The tax table used in computing the tax on Form 1040A and on the Short-Form 1040 automatically allows you approximately 10 percent of your income to cover your non-business deductions.

Income Less Than \$5,000

1. The Form 1040A is the simplest return of the three. If you file this return, you do not need to figure your tax. Just fill in a few blanks, answer a few simple questions, sign it, and send it in to your local District Director of Internal Revenue, together with the original of your withholding statements (Form W-2) furnished you by your employer. The Internal Revenue Service will figure your tax for you and send you a bill or refund. You may use the Form 1040A if your total gross income was less than \$5,000 and consisted entirely of wages reported on withholding statements and not more than

not use Form 1040A, but must use Form 1040 if (1) you had income from other sources such as annuities, rents, royalties, a business or profession, farming, transactions in securities or other property, partnerships, estates and trusts, or (2) you are a married person filing a separate return in a community property state, or (3) you claim the status of head of household or surviving widow or widower, or (4) you wish to claim credit for dividends received or retirement income, or (5) you wish to deduct travel or reimbursed expenses from your wages.

2. Form 1040 may be used either as a short form or as a long form. The short form is simpler than the long form. It differs from Form 1040A in that (a) you must find your own tax, (b) you must include income from sources not eligible for reporting on Form 1040A, (c) you may deduct from your wages certain reimbursed expenses, travel, transportation, and outside salesman's business expenses, and (d) you may deduct from your tax the credits for dividends and retirement income. Therefore, if your income was less than \$5,000 and your non-business deductions were less than 10 percent of your income, find your tax from the tax table on the back of the instructions accompanying your Form 1040, enter the amount in Item 7, Page 1 of the return.

3. Long-Form 1040 — If your non-business deductions are more than 10 percent of your income, you will ordinarily save money by itemizing your deductions on Long-Form 1040. You will then figure your tax according to the computation on Page 3 of the return. If your non-business deductions are so close to 10 percent that you are in

Feb. 15 Deadline To Apply For Feed

College Station. — Applications for hay and feed grain assistance under the emergency drought programs will not be accepted after February 15. This word comes from the United States Department of Agriculture.

The announcement of a new application acceptance deadline is in keeping with the USDA's policy to bring the emergency feed programs to a close as soon as spring pastures and forage become available.

But should acute drought continue in an area, the State Drought Committee can request continued assistance.

One-hundred twenty-seven Texas counties currently are on the official drought-aid list. Applications approved before the February 15 cut-off date can cover needed hay and feed grain supplies up to the middle of April since the purchase orders may be issued for needed supplemental hay and feed grain for a period up to 60 days.

TREAT FOR THE FAMILY

Chicken livers en brochette are easy to make and are always impressive. Cut livers in half, dusting each piece with salt and pepper, and cut bacon slices into squares. Arrange on skewers, starting and ending with bacon, and allow four pieces of liver to five of bacon on each skewer for an average portion. Place skewers in lightly greased shallow baking dish and turn gas oven flame up to 425 degrees. Bake until bacon is crisp and livers are cooked.

What Church Should I Join?
There is a popular idea existing today in the trend of religious thought that at one time a sinner is converted, and at some time later he ought to join some church. Let us now consider the much-thought-of question: "What Church Should I Join?"

But is it necessary to be a member of any church in order to be saved? Paul declares that Christ is "the Saviour of the body," (Ephesians 5:23). But what is the body? It is the church, for Christ "is the head of the body, the church," (Colossians 1:18). Therefore, it follows that since Christ is the Saviour of the body, the church, one must be in the church in order to be saved. But among the more than 200 religious bodies in this country of ours, just which one shall I become a member of?

But why not join several churches? Where did man get the idea that he ought to be in just one church? If it is a good thing to join one church, why is it not better to join several? There are various clubs and fraternities in this city in which a man may hold membership at the same time. Is it right for A to join a certain church? Many would say "yes," is it right for B to belong to another church? "Certainly," most religionists would answer. But is it right for C to belong to both churches? Suppose that it is pleasing to God for A to preach a certain doctrine, for B to preach one that conflicts with A, for C to preach one that conflicts with both A and B; why would it not be right for A to preach all three doctrines? If three men preach three different doctrines, many would say that God is pleased, but if one man should preach them all, the world would say that the preacher was a hypocrite or else insane.

But it is not man's prerogative to be joining churches. The Bible knows nothing about it. From Genesis 1:1 to Revelation 22:21, the expression "join the church" cannot be found. Those who obey the gospel of Christ, the Lord adds them to His church. (Acts 2:47.)

The first Pentecost immediately following Christ's resurrection marks the beginning of the church of Jesus Christ. (Acts 2). What did people do to become members of it then? The gospel of Christ was preached, which brought conviction to the hearts of the hearers. (Acts 2:37). When they asked what to do to be saved, they were told to: "Repent, and be baptized every one of you in the name of Jesus Christ for the remission of sins, and ye shall receive the gift of the Holy Ghost." (Acts 2:38). Did they do this? Note verse 41: "Then they that gladly received His word were baptized: and the same day there were added unto them about three thousand souls." They were "added" to what? Verse 47 says: "... the Lord added to the church daily such as should be saved," or "those that were saved," as the Revised Version reads. Hence to be added to the church they believed in Jesus Christ, repented of their sins, and were baptized.

Then what church should I join? Absolutely none. You may be able to join some denomination or club; but no man has ever joined the church of Jesus Christ. There is only one way to enter Christ's church, and that is for the Lord to add one to it. There is only one condition under which He will add one to it, that is for one to obey the gospel of Jesus Christ as did those on Pentecost.

by Mrs. Murray Julian

The March of Dimes is over this week, and thanks to all the people of the community. The active was a success. Thanks go to you and to the ladies who worked hard and long in the drive. Mrs. Bill Beedy, Mrs. Fred Fortenberry, Mrs. Bryan Karr and Mrs. Lloyd Deavenport with Mrs. Murray Julian as chairman worked on the drive.

Mr. and Mrs. John Smitherman will leave Feb. 10 for Atlantic City, New Jersey with the REA directors of Floydada and com-

munities close there. They will have their meetings in Atlantic City and will spend one day in New York with other tours planned for them.

The South Plains president, Mrs. Dock Jones has announced they will be hosts this March 1, on Tuesday for an all day Week of Prayer for Home Missions. Answer: Westminster Abbey - London

The South Plains WMU met at the church Thursday, Feb. 3 for their regular meeting to study Royal Service, but due to the fog and drizzle, there were very few present. Mrs. Karr presided over the lesson study, and the subject, The Road (El Camino) in Cuba, was the topic for the day. Cuba is the island only an hours air ride from the tip of Florida out in the Caribbean Sea and is a fascinating subject.

Studying the palm trees, which are as familiar in Cuba as they were in Palestine, we find that Christians can be likened to the palm trees. Even though weights be laid on these trees, or efforts made to stunt their growth, the stronger and broader they become. During the business meeting it was decided to show the film at the Week of Prayer on March 1 for the all day meeting with five churches gathering here. Present at the meeting were Mmes. Bryan Karr, Grigsby Milton, Murray Julian, Sim Reeves and Frank McClure.

The Baptist parsonage was moved to the foundation here last Friday from Lubbock. The Production Credit Association held their 21st annual stockholders meeting in Plainview at the high school auditorium Saturday, Feb. 5. This And That From Here And There

I hope you enjoy this little column which doesn't amount to a hill of beans.

I would like to give each week some words of wisdom which I hope may benefit you in some way. The first quotation is from Shakespeare's "Julius Caesar."

"There is a tide in the affairs of men."

Which, taken at the flood, leads on to fortune."

Mrs. Cope, isn't it nice to have a student in Algebra II class who can work the problems you get stuck on?

They say that Einstein didn't like school. Boy, what a lot of Einsteins LHS has.

Seniors, were you afraid sandwiches would be the main course at the Junior-Senior Banquet? Well, if things turn out okay maybe the juniors can afford to serve a coke with the sandwiches.

Mrs. Mangum, wouldn't you like for all your classes to be like that fifth period typing class.

Say, teachers, don't you think it would be nice to have a snoring contest? Each class to have competing against the other. I wonder which one would win?

Surely Mrs. Zeigler deserves a pat on the back for "work above and beyond the call of duty" with the characters of the play given at assembly last Friday.

Was that a play?

Two male newcomers to LHS were seen wandering down the hall last Friday. I wonder where they are from?

Typical woman to friend: "It's so annoying. She told me not to tell anyone, and everyone I tell has already heard it."

A man saw a house trailer pass through his town bearing this sign: "Room For Rent. Must be Willing to Travel."

A HISTORY MAKING ANNOUNCEMENT ON CANCER

A WIDE OPEN FARM BUREAU ENROLLMENT FOR BLUE-CROSS, BLUE SHIELD, CANCER is the brand new addition to that list of ten other dread diseases covered under the famous C I E, and available only through Texas Blue Cross, Blue Shield.

Blue Cross Hospitalization is the most Standard Group coverage on the American market. Today 84 Blue Cross plans serve over 46,000,000 American people, 862,233 in Texas alone. If you will ask the business Manager of any good hospital, what the best Hospital coverage you could buy would be, they will tell you, that the Group Hospital services are one of the most practical and dependable on the market. And that it would be an admittance fee to their hospital.

To Floyd County Farm Bureau members who are already using this service, there is this word of warning that the 10th of February is the deadline for adding the C I E coverage including Cancer to their policy, and get an effective coverage by April 1st, and there is no assurance that it can be secured at a later date.

To Farm Bureau members not using Blue Cross coverage, it is an opportunity to secure it without a six months waiting period, and we urge you to take advantage of this February 10th date. Farm Bureau is launching their membership campaign for this spring to begin February 14th, and they take this means to invite any farmer or rancher to join the organization and take advantage of this group coverage at this time. Not only hospitalization, but the many other services rendered by the organization, as well as the savings derived from the use of their legal reserve insurance: Life, Fire and Casualty, which pays a liberal dividend, such as a current 15% on Fire, 3 to 22% on Life, 50% on Auto and 40% on Farm Liability. 43-2tc.

LETTERS TO THE EDITOR

Feb. 8, 1955.

Dear Editor: A fundamental principle of successful living is that you cannot enjoy life unless you are useful, nor can you be really useful unless you are joyful in helping progress. And it is true also that unless you feel that you are doing some tremendously worth while, you cannot have a full complement of useful living.

I had an interesting experience recently of acting as chairman of the March of Dimes for Floyd County. When we picked community chairmen we told them what must be done this year—the goal — the quotas — the wonderful news about Salk polio vaccine tested in the national field trials last spring if proved effective against paralytic polio, the number that can be inoculated in the first year, at best, can make only a small dent on the incidence of the disease in 1955. Also the sad fact if it is not effective all the months of research and millions of dollars spent will have to be thrown away and we will have to start from scratch made this drive more important than all the rest. All community chairmen were eager to start. Without exception everyone of them paid tribute to the generosity of their communities and as the final total comes in you also see how really generous everyone was. To me it was a reassuring experience to find that men and women who carry heavy responsibilities in our present time have joy in their hearts to take time out from every day life and do something for their neighbor—he they black, brown or white.

Citizens like we have in Floyd County who so wilingly give of their time and effort in the fight against polio make it possible for your local chapter to finance the patient care that is so vitally needed.

Members of our community rose to their moral obligation and made this 1955 March of Dimes a success. Sincerely, Barry Barker, Chairman, March of Dimes.

More About Social Security For Farmers

(Editor's note: This is another in a series of articles prepared for farm families by the Lubbock, Texas District Office of the Social Security Administration.)

The self-employed farmer, rancher, or cotton ginner will begin to have in 1955 the same sort of protection for himself and his family against income loss by reason of old age or death that other self-employed persons gained in 1951.

The old-age and survivors insurance provisions of the Social Security Act have a purpose that might be summed up in this short phrase: "Replacement of a portion of a lost income where the loss is caused by old age or death." Later articles will deal with how large a replacement is possible, and to whom such payments are made.

Large corporations have intricate profit and loss statements and batteries of accountants busily engaged in compiling them. Most merchants maintain rather detailed records of inven-

ories, receipts, losses, etc. What sort of records must the farmer keep in order to know whether he must make a special social security report in 1956 on his 1955 earnings.

There are no set rules of particular bookkeeping systems prescribed by the law. However, the records, of whatever nature they may be, must be sufficiently complete to support a finding that there was or was not a net profit for the year. And, to keep his social security protection in force even through drought or other bad years, the farmer who has a gross income of more than \$1800 may claim credit for either his actual net income or a special figure of \$900 if he failed to net that much. The farmer whose gross income is below \$1800 may also take social security credit for either his actual net income or one-half of his gross income, but here that figure must be at least \$400 or no social security credit is possible. Farmer A grosses \$3700 but his true net profit is only \$500 — he can legally report \$500 or \$900. Farmer B grosses \$1700,

but nets only \$500 — he can report either \$900 or \$850. Farmer C grosses only \$799, and nets less than \$400, he can have no social security credits for that year.

Later articles will give more details, or if you prefer to write us a card or letter, we'll send you our free booklet, "Facts for Farm Families." Our mailing address is Social Security Administration, Room 202, Vet. Adm. Bldg., Lubbock, Texas.

Remember, the records of the self-employed farmer must be complete enough to show his gross income from his farming operations, his operating expenses, and finally, his net profit income from renting out a pasture, or a part of the farm itself, on a true rental agreement does not count toward Social Security credits for the farm owner. Only income traceable to actual operation of the farm or ranch can be used in building up a social security account.

It was decided to have a definite time to close our meetings in order that people would know how long the meetings will last to end on time we must start on time so being on time is a good way to know when you will be through with our meetings. Department chairmen reported the president stressed that every department must make a report every meeting that is why you are chairman of your department. Some men are remembered for their deeds . . . the battles they won and the prizes they gained. But not A. Lincoln!

Men still call him "honest Abe," and they take courage in his humility. Men honor his devotion to the principles for which he stood; they esteem his love for humanity; they marvel at his capacities for sympathy, understanding and forgiveness.

History has known few men whose memory could survive the hatreds of war and find sanctuary in the hearts of victor and vanquished alike. But Abe Lincoln belongs to all of America. Christian nobility is revered for itself, whether it wore blue or gray.

As the character of a man can bind up the wounds of a nation, so the Christian faith which moulded Abe Lincoln can build under God a world of peace and understanding. To that proposition our Churches are dedicated.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Turners Attend State Fair Meet

Loyce Turner, president of the Floyd County Fair Association, and Mrs. Turner attended the annual meeting of the Texas Fair & Exposition Association at Dallas last week end. It was the first meeting of the association at which Floyd County was represented. Fair managers and officials from over Texas and numerous associate members, carnival men, suppliers, etc. were present for the three day affair.

Lectures and talks dealing with fairs, how to finance buildings, the part of the Home Demonstration Agent and the County Farm Agent plays, and other matters dealing with the putting on of a fair was discussed. Those attending were given materials and statistics on main sources of income, etc.

Mr. Turner said that he did not sign a contract for a carnival for the 1955 Floyd County Fair because Mr. Hill of the Hill Carnival was not present, but that the County Fair Association planned to contract the Hill carnival if possible.

Information gained at the association meeting will be of great benefit to the Floyd County Fair association in staging the 1955 fair, Mr. Turner said.

Lockney Parents, Teachers Hear District President

Members of Lockney Parent-Teacher Association were delighted to hear Mrs. Robert Cross, Anson, Texas, president of 14th District PTA speak Tuesday evening at 7:30 on the subject "We the People promote the General Welfare Through Thrift — A Basic Fundamental Through Economic Security." Mrs. Paul Toliver, of Plainview, vice-president of Floyd and Hale County Association was introduced by Mrs. Bob Miller, local president. Mrs. Toliver in turn introduced the guest speaker.

Mrs. Cross stressed the fact that the most important thing in planning and spending is to make sure the available money is buying the kind of life which will contribute most fully to family happiness and long time security. She emphasized that money cannot buy the kind of security that children receive from a close fellowship with his parents and that we are failing to exhibit thrift when attempting to supply some needs with money. A wholesome useful life found in work and play together can mean the answer to family money management, Mrs. Cross said.

The Sixth Grade children under the direction of Mrs. Ann Haile, sang "God Bless America" and "The Eyes of Texas." They were accompanied by Janice Hays, Eighth Grade student.

Mrs. Frank Hawkins, Chairman of Founders Day committee which had charge of a tea following the program, spoke briefly of the meaning of the occasion. Offering from the tea amounted to \$5.16. Assisting with the hospitalities were Mmes. Joe Foster, J. R. Bell, Wallace Allen, Fritz Schacht, Charlie Boedeker, Arthur Brown, Jack Taylor, Forrest Mickey and Clark Harris.

Mrs. Robert Cross announced the 14th District Conference will be held in Levelland March 30-31. The State President, Mrs. Leon Price will attend the meeting and another feature of the meeting will be a banquet honoring superintendents of schools. Each high school is requested to send two students as guests. All plans are centered on promoting the welfare of youth and a good representation is urged from the local unit, Mrs. Cross said.

Mrs. Dave Reeves of Anson who accompanied Mrs. Cross was also a special guest as was Mrs. Quentin Adams of Aiken who is president of Lamar School PTA in Plainview. Mrs. Reeves holds the office of Corresponding Secretary of 14th District PTA.

During the business meeting Mrs. W. J. Mangold read a letter of appreciation from Mrs. Annie Bird. Mrs. Miller announced that Mr. Irons had secured two books of "An Almanac of Liberty" by William Douglas as was requested by Doc Blanchard of Lubbock who donated the books for the school library. Mrs. Joe Foster, Mrs. Milton Ashton and

Mrs. Marvin Gilbert were elected as nominating committee for officers for the next school term.

Mrs. Miller introduced the officers and chairmen of the local unit who were seated on the stage. They were Mmes. W. J. Mangold, Nettie Hancock, J. C. Kemp, Mollie Harris, W. D. Reese, Fritz Schacht, Frank Hawkins, Hershel Carthel, Burgin Watkins, Edgar Hays, Joe Holt, R. C. Mitchell and Mr. Bob Miller.

Student Council Is Planned For Lockney High

In a special assembly held February 7, in the Lockney School Auditorium, Superintendent W. C. Irons explained to the student body of the high school and the eighth grade the value of a student council in the school system. He pointed out that many benefits could be derived from a well organized student council for both the students and the school and emphasized the need of such an organization for Lockney High School.

The student body received the explanation enthusiastically and voted overwhelmingly in favor of organizing a council for the school.

Superintendent Irons appointed Principal F. M. Smith as chairman of a committee to write the constitution and by-laws for the student council and Mr. McLee Brewer was appointed faculty sponsor for the student council. The superintendent asked the student body to elect two members from each grade, from the eighth through the high school, to serve as members of the committee to frame the constitution and by-laws. After the constitution has been written by this committee it will be submitted to the student body for its adoption and when the constitution is adopted the organization will be perfected shortly thereafter.
