Rowland-Gordon To Build Large Warehouse Here

Rowland-Gordon Oil Co. of Lockney will begin construction this week on a 30x90 steel building which will house a warehouse and display room for their petroleum and fertilizer products as well as offices for the farm services. The building is being largely prefabricated and will require only about two weeks to complete after construction begins, according to Virgil Rowland.

The big warehouse will be located on the company's property on Highway 70 in South Lockney, and will be only the start of an improvement program. Foundations have already been run for a 12,000 gallon anhydrous ammonia fertilizer storage tank which will be located just west of the new warehouse. The company's old warehouse will be moved back to the west property line as will the present gasoline storage tanks. Thus the buildings will form an L shape along the south and west bounds of the property.

In addition washing and greasing facilities will be provided for the service station. The construction of the warehouse will enable the company to carry large stocks of fertilizer, insecticides, weed killers, locally as well as better display their petroleum products and auto accessories, such as tires and batteries, Mr. Rowland said.

Foundation for the new building will probably be run the latter part of this week and the big storage tank is expected to arrive Thursday or Friday, he said.

Little Leaguers To Register Sat.

Boys of Lockney and surrounding communities who will be 9 years old by June 1 and not 13 by August 1 and who wish to participate in the Lockney Little League baseball this summer must register Friday or Saturday at Knox Grocery & Market here, according to announcement by Tom Moore, commissioner of the league Tuesday.

This will be the second summer for the Little League, which is sponsored locally by the Lockney Lions Club. Last year 96 boys participated.

Boys who wish to play must be accompanied by their parents, Mr. Moore said. They will not be allowed to register unless a parent is present. Deadline for the registration is Saturday at 6 p. m.

Mr. Moore suggested that parents talk the matter over with their boys and that they not register unless the boy could be present at most games. If a boy registers and then does not come to participate he just keeps some other boy out of the league, he pointed out.

The Lions Club will solicit donations to help pay for equipment and other expenses of the league this summer. Moore said. He suggested that parents of boys may make a donation to the fund when their boy registers if they so desire. He estimates that expenses for the summer would run more than \$400 although the Lions Club have the suits they purchased for the boys last year, and these will be used again this year.

Moore was this week lining up managers and assistants for the teams. He said that present plans call for the managers to be guests of the Lions Club Monday night and that draft of the various teams would be made following the Lions meeting if time allowed. He plans to have team managers draw for places and then take turns in drafting the boys for their team.

Minute Editorials

Remember not the sins of my youth, nor my transgressions; according to Thy mercy, remember Thou me for Thy goodness' sake. O Lord.—Psalm 25:7.

RIGHT INTERESTING to us was a United Press story in daily newspapers the past week which stated that Texas Tidelands have produced \$57 million since title to the offshore lands was restored to the State by Congress in 1953. The revenue, the story says, has helped swell the state's permanent school fund to \$323,796,187 as of March 31. The story further points out that production is due to become greater in the offshore area thus making the revenue to the state school fund from royalties an increasingly larger item. As we remember it, several persons made the claim, during the 1954 political campaigns and also during 1952 that the tidelands should not be an issue in the campaign, that they were worthless and that the state would never realize anything of value from

them. It seems to us that \$57 million in three years is a pretty good chunk of money for the schools of Texas and as badly as we need teachers and buildings, it was worth the fight.

COME MAY 5 and there will be a lot of to-do in Democratic precinct conventions with at least two, possibly three factions, trying to gain control. Control of the precinct conventions is important because with that goes control of the county convention and later the state convention. Governor Allan Shivers is staging a fight to get the conservative element out to the precinct conventions. Other groups are also working with the one getting most people to the precinct convention being the winner. The so-called loyalist group probably will be seeking to rally under the banner of Senator Lyndon Johnson who has agreed to head the Texas delegation in order to "unite the various factions into one united group."

However his uniting efforts don't seem to be bearing much fruit although he has drawn some support from Shivers supporters in former campaigns. The fight goes on and it will not end this year or next, regardless of the winner. Political fights seem to have a way of perpetuating themselves and we suppose that it is a good thing. When American people are not up in arms over an issue they are so indifferent to the whole thing that their very indifference invites political corruption. Let the fight go on.

CAN LYNDON JOHNSON be elected president of the United States? That is a question many Texas people are asking themselves. Although we would be very glad to support Mr. Johnson we don't think he could ever get the Democratic nomination. In fact we think that his chances of being elected, should he be nominated, would be much better than are his chances of being nominated. The powers that be in the Democratic party, those people to whom some seem to think they owe a great deal of co-operation and allegiance, will probably see that no man south of the Mason-Dixon line gets a look-in as far as the nomination goes. Such a move would lose the support of several minorities in the north and apparently that means more to them than all the Southern States combined.

COUNTY SUPERINTENDENT SYSTEM UNDER SURVEY

Recently the Texas Research League made an intensive study of school conditions across the State of Texas and emerged with a proposal to replace the outmoded county superintendent situation in many Texas counties.

The report particularly criticized the Texas school administrative structure at the county level as having outlived its

usefulness in its present form, pointing out that the duties of many county superintendents have dwindled to a point where the office can no longer be justified.

The League also offers an answer to the problem by recommending that the system be replaced, in the main, by streamlined intermediate structures to derive the greatest possible benefits from the state school funds. Chiefly, the supervision of common districts would fall into the hands of regional supervisors who would handle several counties, such as Deaf Smith. Exceptions would be made in counties

which still maintain a large number of common districts and actually justify the existence of the county offices.

All in all, it definitely appears that the Research League has performed an outstanding service for the people of Texas both in their survey and through recommendations. The present county superintendent system was started in 1905 and, with the coming of automobiles and school buses, is probably more obsolete than the "Little Red School House" which stood in almost every community across the state. Certainly if a county maintains two, one or no common school districts, it appears absurd to set aside large sums of money for officials and assistants to supervise something which no longer exists.

The real object of school taxes is for the education of our boys and girls. The more boys and girls we can reach with our tax dollars, the better job we have done. — Hereford Brand.

WHAT YOU NEED

Those who maintain that there's nothing wrong with us, a good rain wouldn't cure, can get a loud huzzza occasionally. But look around and see what would happen if we had a normally rainy year. First, the South Plains would produce two million bales of cotton on the limited acreage allotted us, second, there would be grain piled all over every town section in West Texas for the slight space of three or four months; third, there would be so many pigs farrowed in the fall that pork would be running out of our ears and cattle in the feed lots would be three stories deep. Take it from this 'tax paying farmer, what you need isn't a good rain; and take it from the Great White Father in Washington, what you need isn't farm relief. What you need is to get some oxen and Georgia stocks so you won't keep producing these so-called burdensome surpluses. — You Be The Judge in Crosbyton Review.

Gospel of Christ
MAIN STREET CHURCH OF CHRIST
THOS. McDONALD Preacher

MODERN TRADITIONS
There is just as much, or maybe more, false teaching concerning the way of the Lord now, as there was in the time of John the Baptist. If all the people had profited by John's teaching, they would have been ready to believe in Christ as the Son of God. And men now modify the commandments of Christ, just as the Jews modified the commandments of the law of Moses.
Men still make the law of God of no effect by their traditions. We frequently come in contact with people who think that pouring and sprinkling must be right because they have been practiced so long. "A drop is as good as an ocean" has been said so much, that it has found a place in quotation marks. A drop would be as good as an ocean, if we could bury a man in the drop.
A human tradition has made baptism non-essential to salvation. "What is there in water to wash away sins?" This is the question that people ask about the necessity of baptism. This is where men have hung the Bible crooked to make their doctrine look straight. The Bible says, "Arise, and be baptized, and wash away thy sins, calling on the name of the Lord." Why ask how baptism can wash away sins, when the Bible plainly says that it does?
Furthermore, the Bible plainly says that baptism is for the remission of sins (Acts 2:38). The Bible plainly says that baptism saves us (1 Peter 3:21). There is no room for argument about these things. What the Bible says on any subject is final. There is no authority in human traditions. What one man says is just as good as what any one else says. "Touch not; taste not; handle not: which all are to perish with the using; after the commandments and doctrines of men" (Col. 2:21).

Unemployment Pay Clinic To Be In Plainview May 2

Plainview is to be the site of an "unemployment compensation clinic" on May 2, co-sponsored by the Plainview and the West Texas Chambers of Commerce.
R. C. Jordan of Amarillo, chairman of the WTCC's State Affairs Committee, and three experts from the Texas Employment Commission will participate in the meeting.
Open to the public, the clinic will begin at 2:30 p. m. in the City Auditorium.
Until recently, employers of fewer than eight employees were not affected by provisions of the Unemployment Compensation Act. New legislation, however, brings under requirements of the act most employers of four or more persons.
It is estimated that more than 35,000 additional Texas businesses must now pay unemployment compensation taxes.
Purpose of the clinics, to be conducted throughout the region of the West Texas Chamber of Commerce include:
1. To guide employers to savings in unemployment taxes.
2. To provide a group of experts to answer technical questions about the unemployment compensation law and its administration. (Herman E. McKinney of Austin, chief of the tax department of the Texas Employment Commission, and two men from the Amarillo district office of TEC will be present at the meeting.)
3. To bring employers up to date on recent changes in the law.
4. To distribute, free of charge, a pamphlet recently published by the WTCC in cooperation with the TEC entitled "Texas Employers Guide to Savings in Unemployment Taxes."

Library News

The dead sea scrolls by Millar Burrows is now available in the library. That is what Walter Mills, History Book Club Review, says about the book: "Upon the scene at the beginning, Dr. Burrows has taken a leading part in the exhaustive study and discussion of these documents and the learned controversies that have raged around them ever since; here he carefully and clearly tells the whole story of the discovery of these scrolls, of the vicissitudes through which they passed in reaching the attention of the scholars, of the elaborate detective work which went into establishing their authenticity and date, and the conclusions for Biblical history which have so far been erected upon them."

FFA Boys To Try For State Degrees

Five boys from the Lockney F. F. A. Chapter are trying to get their Lone Star Farmer Degree, which is a State Farmer Degree. The candidates are Marvin Wells, Donice Casey, Lloyd Widener, Sammy Lynn, and Gene Handley.

In order to try for a degree at this district meet, each boy must present a typed and signed application. Each applicant must have all three of his record books typed, and additional adding machine tape must be everywhere that addition has been done.

If for some reason, the three books are not accepted at the district inspection, they may be corrected and sent to the Area Meet. Boys, whose books and applications pass district, area and state reviews, will be awarded their Lone Star Farmer Degrees in Dallas during July.

The American Farmers Degree is the highest, and the next is the Lone Star Farmer Degree. The American Farmers Degree is conferred at Kansas City, Missouri each year in October.

Gems Of Life

By Luther Williams

But the path of the just is as a shining light, that shineth more and more unto the perfect day. The way of the wicked is as darkness: they know not at what they stumble. Proverbs 4:18-19.

A person's influence should be as the light of a far-off star, a source of beauty, and illumination to people. Long-fellow's words about Charles Sumner are true of everyone who has lived a good life.

"We're a star quenched on high, For Ages would its light, Still travelling downward from the sky, Shine on our mortal sight."

"So when a great man dies, For years beyond our ken, The light he leaves behind him lies, Upon the paths of men."

Copelands Entertain Senior Play Cast With Party

In looks, too, Ford's out front—with styling that only the Thunderbird could inspire

Ford goes First!

In Performance

At NASCAR's Speed and Safety Event at Daytona, Ford won the Manufacturer's Trophy for best all-around performance. And Ford's 225-h.p. Thunderbird Special V-8, in one day, smashed 30 world speed records at Kingman, Arizona. No wonder Ford is the world's largest-selling eight.

In Safety

When the editors of "Motor Trend" unanimously voted Ford's safety program "the top car advance" of 1956, they had in mind Ford's Lifeguard Design . . . a whole family of safety features, including a deep-center steering wheel and double-grip door latches, to help protect you in case of accident.

In Economy

In this year's Mobilgas Economy Run, a Ford Customline V-8 with Fordomatic won over all cars in its class. The sturdier, heavier Ford carried more weight with greater gasoline economy per pound than any competitive car . . . "saves" as well as "eights"! Ford proved itself a regular gas miser.

The way a Ford performs, the way it saves, the way it protects you, go hand-in-hand with the way it looks and lasts. Ford's look was inspired by America's most exciting car, the Thunderbird. Its rugged K-bar frame and carefully-built body give it the endurance and reliability traditional with Ford. These are the facts behind Ford's reputation as the car that's worth more when you buy it . . . worth more when you sell it, too! Come in and let us show you!

GROWERS REPORT INCREASED YIELD WITH "NA-CHURS" SEED TREATMENT AND LEAF FEEDING

The following excerpts from satisfied "Na-Churs" users are typical of the many letters received by the "Na-Churs" Plant Food Company from your own friends and neighbors. These folks have proven to themselves that "Na-Churs" Liquid Fertilizer can help increase yield, give better growth and advance harvest.

"I sprayed 5 gallons of "Na-Churs" on 3 acres of cotton in the middle of a 12 acre field. The increase in yield was at least 30%, compared to unsprayed part. I will use "Na-Churs" again next year." C. C. Swope, Wilson, Texas.

"In 1955 I treated 10 acres of irrigated cotton with 2 gallons per acre of "Na-Churs". This cotton made one bale per acre and was pulled two weeks before the untreated which made only 2-3 bale per acre. All of this cotton acreage had a heavy hail loss on June 26. In 1956 my plans call for seed treatment plus foliage spraying." Theo Campbell, Wilson, Texas.

EASY TO DO — SMALL COST PER ACRE

Treating seed with "Na-Churs" is easy. Simply sprinkle "Na-Churs" over the seed, mix until thoroughly moistened, and allow to dry. One gallon of "Na-Churs" will treat 8 bushels of seed and the cost is only a few cents per acre. Only a half bushel increase in yield will more than pay for "Na-Churs" seed treatment.

FOR MORE PROFIT — TRY LEAF FEEDING

Used as a companion with "Na-Churs" seed treatment, foliage feeding with "Na-Churs" can help your grain and cotton develop stronger roots. Application can be made with any type sprayer or by airplane. It's fast acting. Don't let this season go by without giving "Na-Churs" a try on your farm.

CALL US TODAY!

We have "Na-Churs" available for immediate delivery in 5, 30 and 55 gallon drums. Try "Na-Churs" for yourself. You be the judge.

Dear Editor:
I like your editorial that the Amarillo News carried in the Round Table column.

I hope that Price Daniel will be our next Governor. Our Tidelanders that Daniel saved, with some good work by Allan Shivers also, will make Texas school system the best in the U. S. A. Shivers is the logical man to lead the Texas delegation to Chicago.

Dear Edgar:
I am enclosing my check for \$2.50 for the Lockney Beacon.

I've been wanting to get over there and call your hand on some of your political views, but looks like I stay too far behind with my work to keep all of my friends straight.

They tell me there is an old, old story that editors, when they finish an editorial, then they say to their wife, "I just wonder if there is anyone that will believe any of this stuff?"

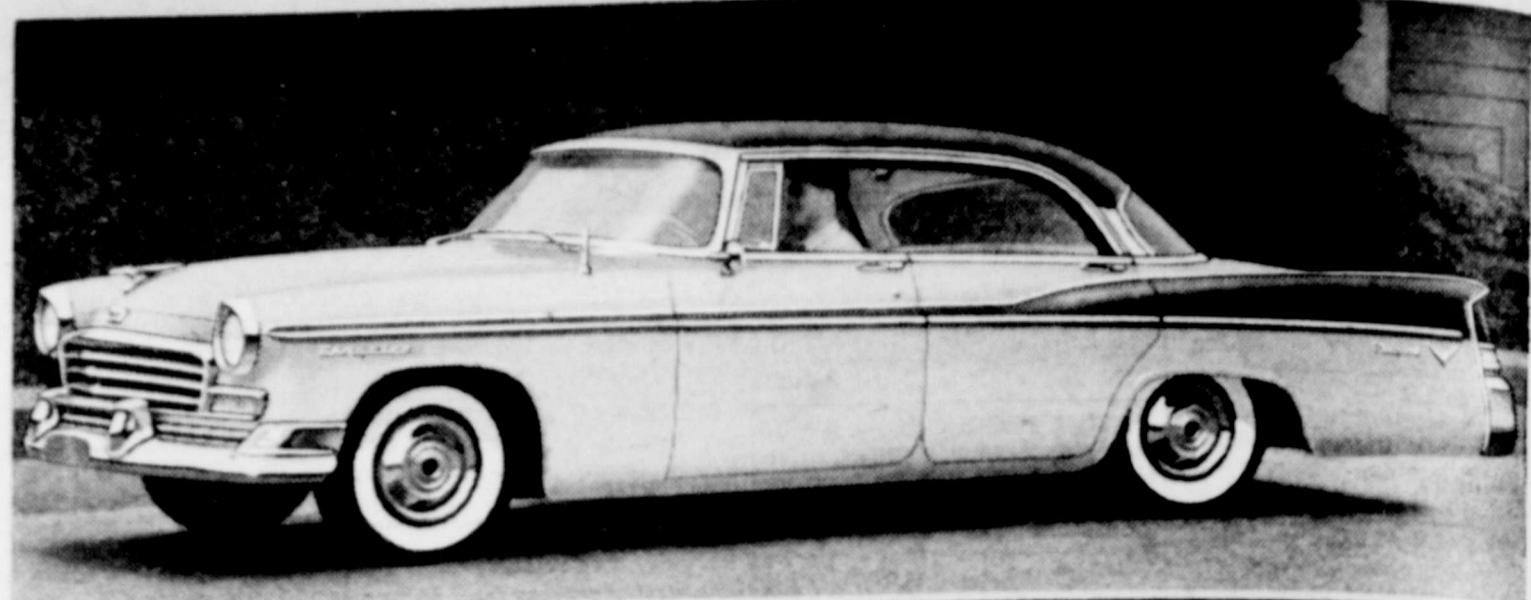

Yours truly,
H. P. Clemons.

In Appreciation

First, the senior class wishes to thank Mr. Johnson and Mrs. Carpenter, their very capable sponsors, for their hard work and patience in directing the play.

Next, we are grateful to the Parker Furniture Co., the Hutton Trading Post and all the parents who furnished the 1880 stage setting.

Then, we wish to thank Mesdames Joe Rogers and Charlie Smith not only for getting the furniture but also for arranging it on the stage.

The senior class is also grateful to the Personality Beauty Shop and the Modern Beauty Shop for their artistic job of making up the play cast.

Of course, we greatly appreciate the townsfolk's patronage in attending our presentation of "Desperate Ambrose."

Thomas Brand, a "fish", was the first student to guess the whozit! His guess was Weita Kent which was correct.

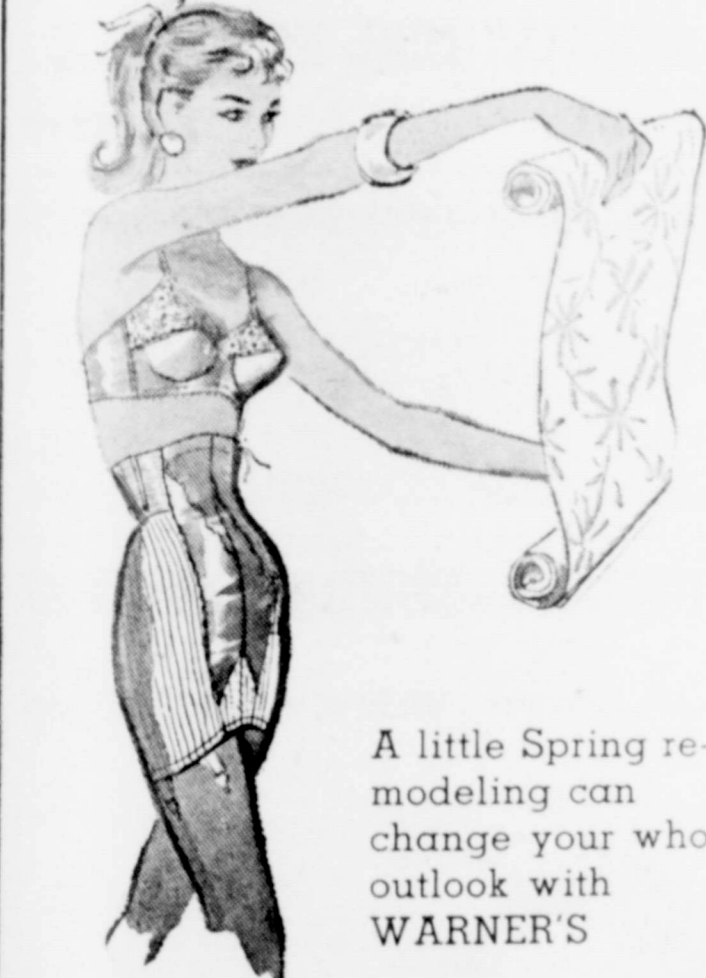

Thomas is fourteen years old and has blond hair and green eyes. He is very active and enjoys playing jokes on his friends. He has 1001 tricks up his sleeve.

Literary Assembly Program

L. H. S. offers many opportunities to develop and to broaden each pupil. Both musical and literary assembly programs are given in order to develop an appreciation of all kinds of music and of good literature. Oftentimes, people find it necessary to cultivate a taste for such things, and that is exactly what our school is attempting to do.

Just such a literary assembly program was presented on Wednesday, the 18th. Students who entered the literary events at the Olton Interscholastic District meet, read or recited their poems to the student body.

Janis Widener, a sophomore, won third place for her poem "The House with Nobody in It" by Joyce Kilmer. Other Poetry Reading entrants were Betty June Jackson, Betty Jean Foster and Odie Mae Rogers. Betty June Jackson gave a delightful interpretation of "Roofs" by Joyce Kilmer; Betty Jean Foster read the patriotic poem entitled "America for Me"; Odie Mae Rogers also read the appealing poem, "The House with Nobody in It."

There was then recognition of all other entrants and winners in the District Interscholastic League meet at Olton. Kay Golden and Gayle Ruczer were winners of second place in the spelling contest. Second and fourth place winners in shorthand were Nellie Joyce Ratliff and Ernestine Epradlin respectively. "Something Great" recited by Janice Hayes, took first place in the Junior Girls' Declamation. Eldora Boone recited "Why," by Robert Lubbott, very well. Indeed, Lloyd Williams' interpretation of "So Long," by Howard Vincent O'Brien, was given interestingly and effectively.

Thirteen of Mrs. Zeigler's creative poetry writing students had their poetry accepted by the National High School Poetry Association. Their poems will appear in "The Anthology of High School Poetry" published in May. These thirteen pupils were awarded certificates of recognition for their outstanding achievements.

The senior play cast then presented a few skits from their play, "Desperate Ambrose" which was presented Friday evening, the 20th.

As this concluded the assembly program, all pupils returned to fifth period classes.

SOIL CONSERVATION DISTRICT NEWS

The practice of inter-planting cowpeas and mung beans in grain sorghum is very popular with farmers in this area. It is expected by Soil Conservation Service personnel that a large acreage will be interplanted this year and farmers should secure their seed as soon as possible. Generally such peas as Chinese Reds, Iron Clays, Brahmas, Widipponvills and New Eras are used for this purpose, although the so called edible varieties could also be used. A planter attachment is required for cowpeas, but Mung beans can be mixed with grain sorghum seed and no attachment is needed.

This practice is popular because no cash crop is missed, it requires no extra work, the peas shade the ground better and in some cases less water will be needed, because of less evaporation, tillth of the soil is improved, yield of following crops is increased and yield of growing crops will be increased.

Seed should be inoculated before they are planted. The proper inoculant is a concentrated quantity of the particular bacteria required to enable the peas to fix nitrogen from the air into the soil. The peas will generally fix some nitrogen whether inoculated or not, but an inoculant costs very little for each 100 pounds of seed, the cost per acre is very nominal. Particularly is this when proper inoculation will likely cause fixation of up to several times more nitrogen. U. S. D. A. Farmers Bulletin No. 2003 says cowpeas will on the average fix 90 pounds of pure nitrogen per acre. This is equivalent to 270 pounds of ammonia nitrate.

Also inoculation will in most cases substantially increase growth and productivity of the plants. Cowpeas and Mung beans are a warm weather crop. The planting date will vary with local weather and moisture conditions, but usually should be planted between May 1 and July 15.

The rate planted will depend on whether the planting is on dry land or irrigated. Five to eight pounds interplanted and twelve to eighteen pounds alone in rows should be planted under irrigation. Three to six pounds on dry land interplanted and twelve to fifteen pounds alone in rows. Mung beans should be planted at the rate of five to eight pounds alone in rows and three to five pounds interplanted.

A good rule of thumb to follow when inter-planting is to use one pound of cowpeas or Mung beans for each pound of grain sorghum planted, if you plant eight pounds of sorghum per acre then plant eight pounds of cowpeas or Mung beans.

Marvin Brown Gets Mixed Up In "Feud" But Gets Out OK

Marvin Brown, a native of Lockney and graduate of Lockney High School, recently got himself all mixed up in a "feud" at Klamath Falls, Oregon, where he is in the hotel business, but he came out of the affair unscratched.

The whole thing started, it seems, when Brown's car and that of another Klamath Falls hotel operator, Tom Gee, bumped together in a street accident. For several days threats floated through the air and challenges were flung about. Then the two men decided to name a day and hour when they would meet and settle their differences. Here's how a Klamath Falls newspaper described the event: "Two trigger-happy hotel managers, who never killed anything but time, terminated a week old feud at high noon Thursday by 'shooting it out' before 2,000 thrill-hungry spectators on Main Street.

In a silence so intense you could have heard an atomic bomb drop, Tom Gee, manager of the Winema Hotel, and Marvin Brown, manager of the Willard Hotel, stalked each other for nearly a block with their lethal hardware protruding well in front of them.

As the expectant throng watched intently, the two innkeepers, who have been hurling verbal threats at each other since last Saturday, moved closer and closer toward the intersection of Seventh and Main streets.

With spurs jingling and 45-calibre revolvers waving uncertainly the two feudists suddenly opened fire. Four times they each pulled the trigger. All the crowd heard was eight sickly clicks.

One woman, who was evidently prepared for the worst, was reported to have fainted and slumped against a parked car. She was quickly revived by bystanders.

Then the intrepid gunmen saved the day by raising their weapons above their heads and again pulling the triggers. Two moth-eaten ducks dropped from the wild blue yonder at their feet.

The feud had ended. The phony gunfighters picked up their ducks, mounted a couple of horses conveniently parked nearby and rode through the crowd. Both announced in stentorian tones that duck at bargain prices would be on the

menus Thursday evening at their respective hotels.

As an aftermath of the pseudo gun battle, the Herald and News received complaints from persons who said they

thought the much publicized "feud" was the real McCoy. Brown and Gee, on the other hand, believe they did as well as some of Hollywood's top Western stars.

The sun makes golden patterns across the tiled floor, and there seems something ageless and of wondrous beauty in the vaulted arches of solid stone. Here there is sanctuary, freedom, at least temporarily, from the worries of the outer world.

In every great life, there have been times of reflection and meditation. There have been moments of solitude to renew a flagging spirit with the infinite power of God, to find an inner peace which comes from another world.

In every life, there are times when sanctuary is needed. There are moments when the quiet witness of the Holy House is more eloquent than all the words in the world.

Often a step into the shadowed quiet of a church brings a resurgence of faith and courage that sets life on a new and greater course. This is the miracle of sanctuary—a miracle that can happen TO YOU!

**THE CHURCH FOR ALL . . .
ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Letter Commend Local Students

Supt. H. H. Nicholas received a letter this week highly praising the fourth and fifth grade children who represented C. N. Townsend School in District Picture Memory contest at Olton recently. Following is the letter:

Box 98
Olton, Texas
April 23, 1956

Superintendent of Schools
Lockney, Texas
Dear Sir:
You have every right to be proud of the fourth and fifth grade children who represented your school in the District Picture Memory Contest. They not only conducted themselves in a most becoming manner but they had the best set of papers I have ever seen. And I have worked with picture memory students for a number of years now! The writing was quite good and the papers very neat. Your average score for the ten papers was very near perfect: 99 9-10! Ours was 99 5-10. We hated to lose, of course, but we were glad if we had to lose, to lose to a team as excellent as yours. The teacher you sent, Mrs. Alma Dutton, as a monitor was very competent and I want to thank you for sending her to help us. Please give my thanks to her also.

Very truly yours,
Mrs. Carl Macon
Director, District
Picture Memory.

VISIT IN OKLAHOMA

Mr. and Mrs. Glenn Morgan and children visited his father, J. B. Morgan at Waurika, Okla., during last weekend. They also visited his sister, Mrs. Lawrence Quisenberry and Mr. Quisenberry there. The Quisenberys have purchased a new brick home in Duncan, Oklahoma and plan to move in soon. Lawrence is employed as a bookkeeper with a transport company with headquarters at Comanche, Oklahoma. They moved from Lockney the first of the year. Lawrence has been ill recently with anemia and has had three blood transfusions. Henry Harden of Lockney will accompany the Morgans to Oklahoma and he will give blood for another transfusion Friday. Lawrence is up but his body fails to build blood as it should, relatives report.

GO TO CHURCH SUNDAY

Mrs. Belle Henry Passes At Floydada

Floydada. — Mrs. Mary Belle Henry, 89, a resident of Floyd county since 1890, and for 60 years one of the civil and church leaders of Floydada, died quietly Wednesday night at Pitts Hospital at 10 o'clock. She had been ill two weeks and was brought home by ambulance from Monday where she had been the guest of a daughter. She entered the hospital Monday night and failed to rally. Immediate cause of death was pneumonia and complications.

The funeral was said at First Methodist Church Friday morning at 10:30 o'clock. Rev. Tilden B. Armstrong, pastor of the church was assisted in officiating by Rev. Phil H. Gates, assistant pastor.

Burial was made in Floydada Cemetery. Six grandsons, Arthur and Barry Barker of Lockney, Charles and Kenneth Barker of Munday, R. C. and Billy Henry of Floydada, were pallbearers. Harmon Funeral Home had charge of the funeral and burial rites.

Mrs. Henry is survived by three daughters, Mrs. George V. Smith of Floydada, Mrs. Arthur Barker of Lockney, and Mrs. C. P. Baker of Munday; a son, Kenneth of Vernon, three brothers, J. C. Ross of Albuquerque, the Rev. H. L. Ross, a missionary in Zitacuaro, Mexico, and the Rev. W. A. Ross of Montreat, N. C.; a sister, Mrs. B. F. Jarvis of Plainview; 7 grandchildren and 10 great-grandchildren.

Mrs. Henry and her husband, the late Emmett C. Henry, had lived in Floyd County since 1890. They first made their home north of Floydada on what is now the Silverton highway where it crosses the Lockney-Floyd road. They lived there until Mr. Henry's election as sheriff of Floyd County in 1898. He was the second elective sheriff of the county. From the time the Henrys filed on an 80-acre tract adjoining Floydada townsite on the northwest in 1898 until the early thirties the Henry home was a center around which much of the young life of the community revolved. Many in the audience which filled the church Friday morning were persons who had been touched in their youth by the open-door hospitality characteristic of the Henry home for almost 40 years.

Mrs. Henry was born Mary Belle Rose at Greenville, Tennessee. When she was 15 the

family moved to Cane Hill, Arkansas, where she was married to E. C. Henry, September 16, 1887.

The couple moved to Texas in that year, living for three years in Wilbarger County, before coming to Floyd.

Mrs. Henry was active in church work in the community. She was a member of the First Methodist Church, one of the organizers of Andrews Ward Parent-Teachers Association. She was an honorary member of the Floydada Garden Club. Mr. Henry preceded his wife in death in 1929.

Mrs. C. C. Reed and children, Mr. and Mrs. H. Cunningham, Nelda and Carolyn visited relatives in Amarillo Sunday.
